C. Data and Methodology

- 1. Please briefly describe the data and methodology you used in making the estimates required by this form.

The DOR determined the number of businesses subject to the proposed amendment by totaling the number of sales tax payers filing using a NAICS code relevant to the food and beverage business and located in areas that have enacted local and private laws taxing food. Because the proposed amendment to the rule is simply intended to provide a definition of prepared food, and does not impose any requirements, responsibilities or duties on anyone outside of those imposed contained in the Sales Tax Code, the Department determined that the rule does not impose added costs on the Department or other agencies, or on businesses subject to the rule or other small businesses.

D. Public Notice

- 1. Where, when, and how may someone present their views on the proposed rule and request an oral proceeding on the proposed rule if one is not already scheduled?
