Alternative Procedure

- The Election Commissioners may instruct the Resolution Board to prepare a duplicate ballot to replace the damaged or defective ballot.
- This duplicate ballot can be processed through the tabulating equipment.

DELBERT HOSEMANN
Secretary of State

Preparing a Duplicate Ballot

To prepare a duplicate ballot:

- Make a copy of the original damaged or defective ballot.
- Mark the first original as "Original #1" and the copy as "Duplicate #1."

DELBERT HOSEMANN
Secretary of State

Preparing a Duplicate Ballot (cont.)

- Prepare subsequent originals and duplicates the same with sequential numbering.
- The Resolution Board must then insert the duplicate ballot into the voting machine to be counted.

DELBERT HOSEMANN
Secretary of State

Problems with Duplicate Ballots

- *Confusing and risky*
- *Room for error*
- *Double counting ballots*

Blank Ballots

- Blank ballots are ballots that a voting machine rejects because it does not detect a vote on the ballot.
- The Resolution Board must examine a blank ballot to verify whether it is blank or marked with a "non-detectable" marking device.
- If marked with a "non-detectable" marking device, the Resolution Board may mark over the voter's mark with a detectable marking device then insert it into the voting machine for counting.

DELBERT HOSEMANN
Secretary of State

Blank Ballots

- Marking over a non-detectable marking will inevitably lead to fraud or accusations of fraud.
- Secretary of State's Office recommends that you prepare a duplicate ballot, instead of marking over voter's mark.
- Secretary of State's Office also recommends you put this practice in writing and record it in your minutes.

Overvotes

- Overvotes are ballots containing more votes for a particular race or measure than the voter is entitled to cast.
- All ballots rejected by the voting machines and containing over-votes shall be inspected by the Resolution Board.

DELBERT HOSEMANN
Secretary of State

Overvotes (cont.)

- If the voter's intent cannot be determined by the Resolution Board, the officials in charge of the election may use the voting machine to count the votes in the races which are unaffected by the over-vote.
- All other ballots which are over-voted shall be counted manually by the Resolution Board and voter intent shall be determined by following the provisions set forth in statute.

Evaluation Standards

1. An over-vote for any office or measure results in an invalid vote for that entire office or measure and the voter is deemed to have voted for none. An under-vote for a particular office or measure will be valid but no vote will be counted more than once.
2. If a voter casts more than one vote for the same candidate, the first vote is valid and the other votes for that candidate are invalid.

DELBERT HOSEMANN
Secretary of State

Evaluation Standards

3. A write-in vote for a candidate will not be considered to be defective if the name is misspelled or identified by an abbreviation so long as the intent of the voter can be ascertained.
4. When a voter writes in the name of a candidate for President of the United States whose name is printed on the ballot, the failure by the voter to write in the name of a Vice President choice does not invalidate the vote for the slate of electors.

DELBERT HOSEMANN
Secretary of State

Evaluation Standards

5. For any ballot measure in which the words "for" or "against" are used, the Resolution Board shall count a vote where a voter marks the ballot by writing the words "for" or "against" so long as it is not written next to the space that is contrary to the preference.
6. For any ballot measure in which the words "yes" or "no" are used, the Resolution Board shall count a vote where a voter marks the ballot by writing the words "yes" or "no" so long as it is not written next to the space that is contrary to the preference.

DELBERT HOSEMANN
Secretary of State

OMR Ballot
Acceptable Marks

- In reviewing a ballot that a voter fails to fill in the circle, a Resolution Board shall count the vote if:
 1. The voter marks the circle with an (X) or checkmark and the lines intersect within or on the line of the circle by the ballot measure or candidate.
 2. The voter blackens the circle and the blackened portion extends beyond the boundaries of the circle.
 3. The voter marks the ballot with an (X) or checkmark and the lines that form the mark intersect adjacent to the ballot measure or the name of the candidate.

DELBERT ROSEMANN
Secretary of State

OMR Ballot
Acceptable Marks (cont.)

4. The voter underlines the ballot measure or the name of a candidate.
5. The voter draws a line from the circle to a ballot measure or the name of a candidate.
6. The voter draws a circle around the ballot measure or the name of the candidate.
7. The voter draws a circle around the circle adjacent to the ballot measure or the name of the candidate.

Voting Equipment

- OMR and automatic tabulating equipment shall be programmed, calibrated, adjusted and set up to reject ballot cards that appear to be damaged or defective.
- Any switch, lever or feature on OMR or automatic tabulating equipment that enables or permits the equipment to override the rejection of damaged or defective ballot cards so that such cards will not be reviewed by the resolution board, shall not be utilized.
