Subject: Brent can you confirm that the pretsl 24 that we own is a combo

Brent can you confirm that the pretsl 24 that we own is a combo note (CUSIP 74043DAB1) and, if so, what it would be rated? I show that we own 9mm of it and that it is a combo note, but it may be that we have the description wrong and that it really should be income notes.

Thank you.
