Prior authorization or pre-certification serves as a utilization review measure and quality assurance mechanism for the Mississippi Medicaid program. Federal regulations permit DOM to require authorization for any service where it is anticipated or known that the services could either be abused by providers or beneficiaries or could easily result in excessive, uncontrollable Medicaid costs. Certification as referred to in this policy is synonymous with prior authorization.

Pre-certification of certain outpatient therapy services is required by the Division of Medicaid. Providers must prior authorize/pre-certify the therapy services through the Utilization Management and Quality Improvement Organization (UM/QIO) for the Division of Medicaid. Failure to obtain prior authorization will result in denial of payment to the providers billing for services.

The UM/QIO will determine medical necessity, the types of therapy services, and the number of units reasonably necessary to treat the beneficiary's condition. Providers should be aware that the frequency of visits provided by the therapist must match the Plan of Care signed by the physician. All procedures and criteria set forth by the UM/QIO are applicable and are approved by the Division of Medicaid.

Pre-certification for outpatient therapy services is only required for certain CPT codes when the services fall into one of the following categories:

- Therapy services provided to beneficiaries (adult and/or children) in individual therapist offices or in therapy clinics.
- Therapy services provided to beneficiaries (adult and/or children) in the outpatient department of hospitals.
- Therapy services provided to beneficiaries (adult and/or children) in physician offices/clinics.
- Therapy services provided to beneficiaries in nursing facilities.
- Therapy services covered under regular State Plan benefits and provided to beneficiaries also enrolled in a Home and Community-Based Services (HCBS) waiver program.
- Therapy services provided to beneficiaries covered under both Medicare and Medicaid if Medicare benefits have been exhausted.
- Therapy services provided to beneficiaries under age twenty-one through the following providers: Rural Health Clinics (RHC), Federally Qualified Health Centers (FQHC), and State Department of Health.
- Therapy services billed by school providers.

A complete list of CPT codes that require pre-certification may be obtained from the UM/QIO.

Exclusions to Prior Authorization/Pre-certification

Pre-certification is **not required**, regardless of the CPT codes used, when the services fall into one of the following categories:

- Therapy services provided to beneficiaries in an ICF/MR

- Therapy services provided to beneficiaries in a Private Nursing Facility for the Severely Disabled (PNFSD)

- Therapy services provided to beneficiaries enrolled in a hospice program

- Therapy services provided to beneficiaries covered under both Medicare and Medicaid if Medicare benefits have not been exhausted

Prior Authorization Request

Processes related to certification and recertification of therapy services must be handled in accordance with the procedures set forth in the UM/QIO therapy manual.

Certification/recertification acknowledges the medical necessity and appropriateness of services. It does not guarantee payment for services or the amount of payment for Medicaid services. Eligibility for and payment of Medicaid services are subject to all terms and conditions and limitations of the Medicaid program.

Therapy providers must use standardized forms provided by the UM/QIO. Required forms include the following:

- Pre-certification Review Request

- Certification of Medical Necessity for Initial Referral/Orders

- Outpatient Therapy Evaluation/Re-Evaluation (specific to the therapy requested)

- Outpatient Therapy Plan of Care (specific to the therapy requested)

The initial evaluation and the first therapy session should **not** be done on the same day to allow time to develop a plan of care and obtain pre-certification from the UM/QIO. However, the UM/QIO is authorized to accept retrospective requests for the following exceptions:

Urgent Services

In rare instances where urgent services are provided, the provider must follow the UM/QIO guidelines for submitting urgent certification requests. Urgent outpatient physical, occupational, or speech therapy services is defined as the delivery of therapy services resulting from the sudden onset of a medical condition or injury requiring immediate care and manifesting itself by acute symptoms of sufficient severity such that the absence of therapy could result in immediate hospitalization, moderate impairment to bodily function, serious dysfunction of a bodily organ or part, or other serious medical consequences. If retrospective review reveals that the services do not meet medical necessity criteria, charges will not be reimbursed and cannot be billed to the beneficiary.

Same Day/Non-Urgent Services

In rare instances where same day/non-urgent services are provided, the provider must follow the UM/QIO guidelines for submitting urgent certification requests. Same day/ non-urgent outpatient physical, occupational, or speech therapy services is defined as the delivery of therapy services that do not meet the definition of urgent, but completion of services on the same day as the evaluation significantly impacts the beneficiary's treatment (example: therapeutic activities, such as the use of crutches, on the same day as diagnosis/treatment of leg fracture). If retrospective review reveals that the services do not meet medical necessity criteria, charges will not be reimbursed and cannot be billed to the beneficiary.

Review Outcomes

The UM/QIO will issue a Notice of Review Outcome to the provider at the completion of the review process. If the criteria are met for therapy, a Treatment Authorization Number (TAN) will be assigned for billing purposes. If the criteria are not met or the review outcome results in a denial, written notification will be sent to the beneficiary/representative, therapy provider, and prescribing provider.

Reconsideration Process

The beneficiary, therapy provider, or prescribing provider may appeal a utilization review denial of services to the UM/QIO through the reconsideration process outlined in the UM/QIO manual.

Administrative Appeal

Disagreement with the UM/QIO reconsideration determination may be appealed by the beneficiary/legal representative. The beneficiary/legal representative must submit a written request for administrative appeal within thirty (30) calendar days of the UM/QIO reconsideration review determination notice. The process for requesting an administrative appeal is included in the denial notice that is sent to the beneficiary/representative.

Prior authorization or pre-certification serves as a utilization review measure and quality assurance mechanism for the Mississippi Medicaid program.
