1200 Audit, State Department of Education Resolution Process

This audit resolution policy is in effect for audits of subrecipients of federal funds from the Department. For the purpose of this policy, subrecipients are state or local governments, institutions of higher learning and other nonprofit organizations. Each subrecipient shall obtain an audit that meets the requirements of the appropriate OMB circular, forward a copy of the report to the Audit Resolution Officer, provided the Department of Audit does not transmit a copy of the audit to the Department. Upon receipt of the audit report, the Audit Resolution Officer will review the audit and comments in the audit to determine if there are any areas that require attention. For those comments that require attention, the Audit Resolution Officer will determine if the response by the sub recipient is adequate for acceptance as a Corrective Action Plan. Should there not be any areas that require attention and/or should the responses be adequate for Corrective Action Plans, the Audit Resolution Officer will notify the sub recipient, thereby closing the file on the audit at the desk review level.

Should there be areas that require attention or should the Audit Resolution Officer need further information on a comment and/or a Corrective Action Plan, the sub recipient will be requested to submit the necessary information within thirty working days. If the sub recipient does not respond within the thirty working days, a follow-up letter will be sent requesting the information to be submitted within fifteen working days. Should no response be forthcoming within the fifteen working days, the Audit Resolution Officer may request the State Superintendent to place in escrow all or a portion of federal funds payable to the sub recipient until an appropriate response has been received. The Corrective Action Plan must be implemented by the sub recipient within six months from the receipt of the audit report.

If the findings identify questioned costs that are subsequently disallowed during the audit resolution process, the Audit Resolution Officer shall require the sub recipient to repay the disallowed cost within sixty working days of receipt of the notice of disallowance. If the sub recipient does not agree to repay the disallowed costs in a lump sum payment by the date specified or begin and continue repayment under an installment plan approved by the Audit Resolution Officer, appropriate action will be taken to recover the disallowed costs.

The sub recipient has the right under this policy to request a hearing on the decision of the Audit Resolution Officer concerning the findings of the audit. A written request for a hearing must be submitted to the State Superintendent of Education within thirty calendar days of notification that the Audit Resolution Officer has sustained the audit finding. If the appeal request is found to be proper, a hearing official will be appointed and the time and location of the hearing established. The sub recipient will be notified in writing concerning the hearing, time and location, and the procedures of the hearing. Upon completion of the hearing, the hearing official will make a report to the State Superintendent of Education, who will then notify the sub recipient of the final decision.

At the end of the six months from the receipt of the audit report by the sub recipient, a follow-up visit may be made to certify that the Corrective Action Plan has been implemented. If the sub recipient has not implemented the Corrective Action Plan, the Audit Resolution Officer will recommend that appropriate action be taken.

1300 Awards

1301 Administrator

The Mississippi Administrator of the Year Program will recognize outstanding achievement and performance by Mississippi public school administrators. Each local school district has the opportunity to honor its administrators by nominating one for the state title. The procedure used to determine this administrator's nomination is entirely up to the district. Administrators eligible for nomination include elementary and secondary principals, assistant principals, and vocational-technical directors.

The Mississippi Administrator of the Year will be chosen from administrators who exhibit a superior ability to inspire instructors, who possess exemplary leadership capabilities and are active members of the local community. The Administrator of the Year Program is not an attempt to find the "best" administrator in the state. It is a means to honor an individual who is representative of the excellent professionals we have in education in Mississippi. Nominations should be made without regard to race, sex, age, national origin, handicap, or religion.

Official entry forms and instructions will be mailed to each district's central office. The local Administrator of the Year entry form, signed by the local superintendent, will be returned to the Department of Education for judging. Four finalists (one from each Congressional District) will be chosen by a committee appointed by the State Superintendent of Education and an Administrator of the Year will be chosen from the four finalists.

The Mississippi Administrator of the Year will receive a one-time award of \$5,000 and will be formally recognized by the State Board of Education.

Standard 1. A standard educator's certificate and documentation of a minimum of three years educational experience.

Standard 2. An overall GPA of 2.5 for all undergraduate work or a GPA of 2.75 for the last 60 hours of their undergraduate work.

Standard 3. A minimum score set by the commission on a direct measure of reading skill.

Standard 4. A satisfactory rating on a writing sample.

Standard 5. A satisfactory rating on a structured interview conducted by representatives of the college/university and colleagues in practice.

Standard 6. A favorable evaluation from the candidate's immediate supervisor.

Standard 7. A satisfactory rating on a structured resume.

B. Performance Standards

Standard 1. Adhere to established admission criteria.

Standard 2. Graduate a significantly high percentage of students from the program who attain the required score on the Mississippi Assessment Battery (MAB).

C. Phase-Out of 18 Hour Add-On Certificate in Administration

Candidates seeking certification in administration through the 18 hour add-on route must complete the requirements by September 1, 1997. If there are extenuating circumstances, students may request an extension through December 31, 1997, on an individual basis. After this date, the completion of an approved program in education leadership or school administration and a passing score on the MAB would be required for provisional certification.

D. Transition in Assessment Process

The assessment process for new administrators will be transitioned from the assessment center model to the new administrator instrument (MAB) being developed by Educational Testing Service. Until July 1, 1997, the assessment center will be the only process used for provisional administrator evaluation. After this date, the assessment center will be conducted only for those who need to be reassessed. All other candidates

will take the new assessment (MAB). A "safe to practice" score based on the pilot conducted by ETS should be set for candidates taking the test between July 1997 and July 1998. This score should be raised significantly in July 1998 based on an analysis of scores obtained during the first year of test administration. It is further recommended that the score on the new administrator assessment instrument should replace the required score on the NTE for certification in administration.

1800 Character Education

The policy of the State Board of Education shall be to encourage each school district and each school to ensure the inclusion of character education in the entire curriculum and to include character education in the staff development programs for teachers.

1900 Charter Schools

The State Superintendent of Education is directed to assign staff to develop a charter school petition package in compliance with the charter school statute and State Board of Education regulations. Staff is directed to add such items as are needed to ensure that the information being submitted by the school is educationally sound for use in deciding whether to grant the charter. The petition package shall be presented to the State Board of Education for approval as part of the charter school regulations and disseminated as appropriate. As modifications in this petition package are required, the same approval process shall be followed.

The State Superintendent of Education is further directed to assign staff to develop a process for reviewing and recommending which charters should be granted. That process shall include review of petitions by at least some individuals external to the Department of Education. If review of the first group of petitions does not result in all six charters being issued, the staff may select those petitions with the highest ratings in the appropriate geographical areas and, if the petitioners wish to revise and resubmit those petitions, offer revision assistance to the petitioners. After this, if all six charters have not been issued, the State Superintendent of Education is authorized, in his discretion, to accept new petitions. The first petitions requesting issuance of charters shall be submitted to the State Department of Education by October 15, 1997; recommendations for issuance of charters shall be provided to the State Board of Education (SBE) no later than its December 1997 meeting.

If a petition from a school for a charter is not approved by the local school board in the district where the school is located, State Department of Education staff shall review it and the reasons for disapproval submitted by the local school board. After that review, a recommendation shall be made to the SBE relative to any further action which should be taken. If no further action is taken by the SBE, that petition shall not be considered in the rating process.

At least six months prior to the end of the four year pilot period for the six charters, unless those charters have been voided or are otherwise no longer in operation, each charter school wishing to renew its charter shall update the petition as needed following the currently approved application process.

In implementing the charter school statute, the regulations outlined below shall be followed. The charter school shall, in addition to the specific requirements of the charter school statute (House Bill 1672, 1997 Legislative session):

1. have a policy and decision-making body;

2. if the school acts as its own fiscal agent, implement a financial accounting and auditing process which shall be the same as, or meet the same requirements as, those which must be followed by a local public school district;

Any public high school implementing innovative programs authorized by the State Board of Education is exempt from Part II of this policy.

III. All school districts may offer Pre-Advanced Placement (Pre-AP) courses in each of the four (4) core areas (mathematics, science, language arts, and social studies). Pre-AP course means a middle, junior high and/or high school level course that specifically prepares students to enroll and participate in an AP course. Beginning with the 2007-2008 school year, if Pre-AP courses are offered, the school district must submit a Pre-Advanced Placement Program Proposal to the Mississippi Department of Education's Office of Curriculum and Instruction. The proposal must indicate the Pre-AP courses that will be offered and the College Board training that the Pre-AP teachers will obtain in order to teach the Pre-AP courses. The proposal must also indicate the process for identifying students for Pre-AP courses. Each teacher planning to teach a Pre-AP course must have completed the College Board's Pre-AP Summer Institute, Vertical Teams Training, the Pre-AP Workshop, or other training specifically designed for Pre-AP teachers. The district is responsible for providing documentation (when requested) of participation in the Pre-AP training. The Pre-AP Program Proposal will be approved for a period of five years. Whenever a district makes changes to the Pre-AP Program, the district shall submit a new Pre-AP Program Proposal Form to the Mississippi Department of Education's Office of Curriculum and Instruction for approval prior to implementing

changes. Any public high school implementing innovative programs authorized by the State Board of Education is exempt from Part III of this policy.

IV. Subject to appropriation, funding shall be made available so that all sophomores in Mississippi's public schools may take an examination (Preliminary Scholastic Assessment Test (PSAT) or ACT PLAN Assessment) that measures the students' ability to succeed in an AP course. The examination results should be used to identify students who were not recognized during middle school as students who would benefit from taking AP courses.

V. Beginning with the 2007-2008 school year, each teacher planning to teach any AP course must have completed the College Board endorsed AP Summer Institute (APSI) for the course and must have obtained the AP certification through the Mississippi Department of Education's Office of Educator Licensure. Documentation showing completion of the College Board APSI is required. Teachers with the AP certification must comply with Licensure renewal guidelines. AP teachers must complete the AP Summer Institute (APSI) at least every five years, which can be used for licensure renewal if completed during the validity period. Teachers in districts implementing innovative programs authorized by the State Board of Education must have completed a district or program-specific training or other training specifically designed for teachers of innovative programs authorized by the State Board of Education.

Exception: Teachers who have served with Educational Testing Service as readers for the AP exam(s) may have the initial training waived and will automatically earn the AP certification if the appropriate documentation is provided. These teachers should complete the APSI at least every five years or serve as a reader for the AP exam(s) at least every five years.

2904 Early Learning Guidelines for Four Year Old Children

The Mississippi Department of Education will provide standards and guidelines for Mississippi schools serving three year old children and four year old children. The standards and guidelines may be updated every five to seven years based on revisions to national standards. As the documents are revised and approved by the State Board of Education, the modifications will be disseminated to the appropriate individuals in the educational community. An up-to-date copy of the standards and guidelines shall be kept on file at the Mississippi Department of Education.

2905 Credit Recovery Policy

The purpose of the credit recovery policy is to provide guidance to Local Education Agencies (LEAs) with Credit Recovery Programs.

I. Credit recovery is defined as a course-specific, skill-based learning opportunity for students who have previously been unsuccessful in mastering content/skills required to receive course credit or earn promotion.

II. Beginning with the 2008-2009 school year, any LEA who provides a Credit Recovery Program shall develop and implement a Credit Recovery Program that has been adopted by the school board and that includes rules, regulations, and processes. The rules, regulations, and processes shall be available to faculty, students, and parents/guardians. At a minimum, LEAs must address the following areas:

1) Admission to and removal from the Credit Recovery Program

- a. LEAs shall establish an application process that requires parental consent
- b. LEAs shall establish minimum criteria to determine eligibility for participation in the Credit Recovery Program.
- c. Students who have already received credit for a course are not eligible unless they have not passed the end of course test(s) required for graduation
- d. LEAs shall determine the number of Credit Recovery Courses that a student can take at one time.
- e. Students shall not remain in a Credit Recovery Course for more than one year.

2) Instruction:

- a. LEAs shall determine the instructional methodology used for the Credit Recovery Program (i.e., online program, Mississippi Virtual Public School (MVPS), direct instruction, computer assisted instruction, etc.).
- b. LEAs shall provide professional development for teachers and facilitators involved with the Credit Recovery Program.

3) Content and Curriculum: Credit Recovery Curriculum shall be based on the Mississippi Curriculum Frameworks competencies and objectives.

4) Grades: LEAs are responsible for establishing specific procedures for evaluation of student progress and determining grades

3000 Driver Education

The regulations governing the Driver Education Program are amended in accord with the attached document entitled *Driver Education and Training Program Regulations.*

DRIVER EDUCATION AND TRAINING PROGRAM REGULATIONS

I. Right to Establish Driver Education and Training Programs

Any school or school district maintaining a secondary school which includes any combination of grades nine (9) through twelve (12) desiring to establish and maintain automobile driver training under the provisions of this Act, shall submit an application to the State Board of Education for approval.

B. To justify procurement and maintenance of an automobile and an instructor, an attendance center should not have less than 10 students enrolled in the driver education program.

C. All schools or school districts must be accredited. Public schools must be accredited by the Commission on School Accreditation. Nonpublic schools must be accredited by the Commission on School Accreditation, the Mississippi Private School Association, or Southern Association of Colleges and Schools.

II. Pupils Eligible to Participate in the Driver Education Program

A. Each school or school district providing driver education and training shall prescribe regulations determining who can best profit by and who shall receive instruction under this program. It is provided, however, that any student receiving instruction under this Act shall be:

1. Fourteen years of age and above (preferably 14 years, six months). Age must be verified by proof of birth.
2. A regularly enrolled student in the ninth, tenth, eleventh, or twelfth grades.
3. A full-time student in the respective secondary school.
4. Must secure a learner's permit from the Mississippi Highway Safety Patrol or have a valid driver's license.

B. A learner's permit issued to a 14 year old student is valid only while participating in an approved driver education course.

C. The instructor shall return all applications for learner's permits to the students and destroy all permits issued to 14 year olds when the course is terminated.

III. Instructional Time Requirements and Credit

A. A driver education course receiving approval for reimbursement must consist of a minimum of 30 clock hours of classroom instruction and six hours behind-the-wheel training or its equivalent which may be achieved in the following ways:

1. Actual six hours behind-the-wheel instruction, or
2. Twelve hours instruction in a State approved simulator and three hours behind-the-wheel training, or
3. Any combination of multi-car driving range instruction and simulation instruction at the proper ratio and a minimum of two hours on-street driving.

B. Instruction in a State approved simulator when not counted as classroom time may be substituted for behind-the-wheel training at a 4 - 1 ratio not to exceed three hours substitution.

C. Twelve hours time in an approved simulator may count as classroom time when it is not substituted for part of the six hours actual behind-the-wheel training.

D. Multi-car driving range training may be counted at a ratio of 2 - 1 when substituted for on-street driving.

E. A minimum of two hours on-street driving is required regardless of combination of simulation, range and on-street training.

F. Training time received on a multi-car driving range that is substituted for on-street driving time must receive prior approval from the State Department of Education.

G. One-half unit credit can be given provided the course meets the minimum hours required and covers a full semester.

IV. Summer School Courses

A. Driver and traffic safety education may be offered in a regular summer school program for reimbursement provided:

1. All provisions applying to the regular school term are met, i.e., time requirements, pupil eligibility, teacher qualifications, etc.
2. An application is submitted and approval is secured from the supervisor of driver and safety education, State Department of Education.
3. Classes are scheduled to provide students with no more than two hours of classroom instruction and one hour of behind-the-wheel instruction

during any 24 hour period. Where simulation and/or off-street multiple car driving ranges are utilized, not more than one additional hour per student per day should be allowed.

B. Schedules may be required to show how these requirements will be achieved.

C. All reports and records required during regular session are also required for a summer school session.

V. Reimbursement

A. Reimbursement will be made to school or school district upon request for courses which meet the requirements stated in III and IV.

B. The maximum allowance for cost of driver education and training as set forth in Chapter 25, Section 37-25-13 of the Mississippi Code of 1973, as amended 1982, is as follows:

"The State Superintendent of Pupil Education shall allow to each school or school district an amount per pupil to be determined by the State Board of Education, but in no case to exceed the actual cost per pupil completing the course in the driver education and training programs in that school or school district during the preceding fiscal year in accordance with the regulations set forth by the State Board of Education to the school or school districts for instructing pupils in driver education and training. All such funds made available for the purposes of this act shall be appropriated by the Legislature in the same manner as general funds. In the event that the funds herein authorized by the Legislature for the support of driver education shall exceed the funds which actually become available, each participating school or school district shall have its funds reduced on a pro rata basis.

C. Schools or school districts using the State-owned driver trainer simulators will receive seventy-five per cent (75%) per pupil reimbursement allocated to districts teaching the conventional driver education course.

D. Per pupil reimbursement from the State may vary from year to year. The amount of per pupil reimbursement is determined by the State Board of Education based on receipts that have accumulated in the Driver Penalty Assessment Fund.

VI. Teacher Qualifications

A. Driver Education Teachers shall have a professional teacher's degree from an approved teacher training institution and meet minimum requirements as established by the appropriate accrediting association.

B. Evidence must be provided by each instructor of having satisfactorily completed the required courses (12 semester hours for New Teachers) in driver education at an approved teacher training institution.

C. Driver Education Teachers shall have a valid driver's license issued by the State of Mississippi.

D. Teachers who instruct in the simulation phase of the program must show evidence of proper training in use of the equipment. Ordinarily this training should be incorporated within a college credit course.

E. In addition to the above requirements, it is imperative that the school administration, when choosing a teacher for this program, be aware of the fact that much of the instruction is done on the public streets and highways under the eye of the most severe critic, as far as automobile operation is concerned, the motoring public. In view of the public relations involved, the prospective teacher should be one who accepts the responsibility of being a competent traffic citizen not only when teaching but also in his personal life as both a driver and a pedestrian.

VIII. Driver Trainer Simulators

A. Simulator practice driving must be a four to one ratio that is four hours of simulator experience equals one hour of practice driving instruction in an automobile with dual controls.

B. The following are the responsibilities of the State Department of Education concerning the State-owned mobile simulators.

1. Cooperate in the maximum utilization of available simulators by scheduling them in schools through local school superintendents.
2. Conduct in-service training workshops for teachers in the use of simulators.
3. See that the actual instruction of students in simulators is done by regularly employed driver education instructors in the school or school district where the instruction is being given.

C. The following should be considered when installing the State-owned mobile simulator at the school.

1. Sufficient space must be available. Each trailer is 60 feet long, 10 feet wide and 12½ feet high. Sufficient space should be available for maneuvering since sharp turns are impossible to make. Be certain there is enough lateral, vertical, and longitudinal clearance plus a margin of safety for entrance to the site.
2. The ground should be level and a hard surface is necessary due to the weight of the equipment.
3. Power requirements for proper operation of the driver education simulator equipment may influence the selection of the site. A 230 volts, alternating current, three wires, (115 volts to neutral) single phase is required. This source should be capable of providing 100 amperes per line or approximately 25 KVA. It is important that the voltage be 230 volts and not 208.
4. All of the arrangements concerning the power should be left in the hands of the school electrician or to a competent electrical contractor. A qualified person should perform the work since power of this nature is dangerous and expensive. Such a person will know the local and state laws which must be met for reasons of safety and insurability. It is important that the power into the unit should not be turned on without the State Department of Education Technician present.
5. Arrangements should be made to locate a fuse box near the power input connection of the trailer. From this external fuse (Circuit Breaker Box) 230 volts, 100 amperes, three number four wires can be run to the power disconnect plug on the front of the trailer. For permanent installation, the disconnect plug is removed and the wiring is made direct from the external fuse box to the internal circuit breaker panel.
6. When the trailer arrives and is located at its predetermined site, the Education Department Technicians will position the trailer and level the unit. Also, a complete check of the installation and the assurance of proper operation of the equipment will be made before turning the equipment over to the school.

VIII. Reports Required by the State Department of Education

http://www.healthyschoolsms.org/healthy_school_environment/driver_ed.htm

A. DE-1, Application for Approval and for State-Aid for teaching Driver Education, shall be completed as follows:

1. One copy to be sent to the State Department of Education at the beginning of the regular school session and at the beginning of the summer session.
2. One copy should be kept on file at the respective school.

B. DE-2, Application for Use of State-Owned Driver Trainer Simulator, shall be processed as follows:

1. Should be completed and returned immediately to the State Department of Education.
2. Must be on file with the State Department of Education before a unit may be assigned to a school district.

C. DE-3 and DE-3A, Requisition for Reimbursement for Teaching Driver Education and Summary of Students Completing Driver Education, shall be completed as follows:

1. One copy must be submitted to the State Department of Education at the conclusion of each semester, at the end of the summer session, or upon completion of the course.
2. A copy of this report should be retained at the respective school and school district superintendent's office.

D. DE-4, Driver Education Yearly Cost Report, shall be completed as follows:

1. One copy must be submitted to the State Department of Education at the end of the regular school session.
2. One copy should be kept on file at the respective school.

IX. Compliance Standards for Driver Education Training

A. No reimbursement will be made under this section for the instruction of pupils in driver education and training unless the respective school or school district has complied with the rules and regulations governing the establishment, conduct, and scope of driver education and training.

B. The State Board of Education, on recommendation of the State Superintendent of Education, reserves the right to revoke, modify, or amend these rules and regulations at such time as a majority of the members thereof deems necessary.

3102 Reporting Unexcused Absences

Pursuant to Mississippi Code 37-9-14(2)(u), School District Superintendents are “to comply in a timely manner with the compulsory education reporting requirements prescribed in Section 37-13-92(6). Based on Section 37-13-91(6), the school district superintendent or his/her designee, shall report, within two (2) school days or within five (5) calendar days, whichever is less, the absences to the school attendance officers. Therefore, pursuant to Section 37-13-85(o), provides that the MDE shall adopt any other policies that the office deems necessary for the enforcement of the Mississippi Compulsory School Attendance Law; however, the policies or guidelines shall not add or contradict with the requirements of Section 37-13-91.

The State Department of Education shall prescribe a uniform method for schools to utilize in reporting the unlawful absences to the school attendance officer. The superintendent, or his designee, also shall report any student suspensions or student expulsions to the school attendance officer when they occur and code them as “unexcused absences”. However, these absences will not be counted towards a student being identified as truant.

If a district superintendent fails to comply with the above statute, the following may occur:

1. The School Attendance Officer may present evidence to the Director of the Office of Compulsory School Attendance Enforcement that a school superintendent has failed to report unexcused absences in a timely manner. Such a report must be in writing and supported by written evidence.
2. If no action is warranted, the Director of the Office of Compulsory School Attendance Enforcement will notify the School Attendance Officer in writing of the determination.

3. If further action is warranted, the Director of the Office of Compulsory School Attendance Enforcement may recommend to the State Superintendent of Education or his/her designee, downgrading of the district's accreditation status.
4. When information on file in the Mississippi Department of Education indicates that a school district may be in violation of a state law, the superintendent of the district will be informed in writing by appropriate staff in the Department responsible for monitoring compliance with of the compulsory school attendance law.
5. School district officials will be given thirty (30) days from the date of receipt of notification to provide a written response verifying accuracy or inaccuracy of the notice of possible noncompliance with the compulsory school attendance law. If the written response includes appropriate evidence to correct or refute the alleged violation, the superintendent of the district will be notified by appropriate staff.
6. The appropriate staff member in the Office of Accreditation will notify the superintendent of the district in writing of the verified violation. Although the accreditation status of the district may not be subject to change until the next assignment of annual district status, the superintendent is required to provide a written response specifying how and when the violation will be corrected.

3103 Compulsory School Attendance (*Repealed 5/2010*)

3104 Truancy Rate Definition, Calculation and Rate

PURPOSE

Pursuant to MS Code §37-13-91, a parent, guardian or custodian of a compulsory-school-age child in this state shall cause the child to enroll in and attend a public school or legitimate nonpublic school for the period of time that the child is of compulsory-school-age. A "Compulsory-school-age child" means a child who has attained or will attain the age of six (6) years on or before September 1 of the calendar year and who has not attained the age of seventeen (17) years on or before September 1 of the calendar year; and shall include any child who has attained or will attain the age of five (5) years on or before September 1 and has enrolled in a full-day public school kindergarten program. Provided, however, that the parent or guardian of any child enrolled in a full-day public school kindergarten program shall be allowed to disenroll the child from the program on a one-time basis, and such child shall not be deemed a compulsory-school-age child until the child attains the age of six (6) years.

Pursuant to the Elementary and Secondary School Act, Subpart I, §4112, (c)(3)(A)(B)(i), beginning with the 2005-2006 school year, state education agencies were required to

report truancy rates on a school-by-school basis to the US Department of Education. In an effort to ensure compliance with federal guidelines, this policy sets forth the distinction between excused and unlawful absences and provides formulas for truancy, habitual truancy, suspension and expulsion rate calculations. This information will serve to establish a uniform reporting method.

DEFINITIONS

Cumulative Enrollment – sum of all entering students within a school year.

Excused Absence – any of seven designated valid excuses for temporary nonattendance of a compulsory-school-age child enrolled in a public school, pursuant to MS Code §37-13-91, (4) (a) through (4) (i).

Habitual Truant – a student who has accumulated twelve (12) or more unlawful absences, excluding suspension and expulsion days, in a school year, which shall result in the filing of a petition in a court of competent jurisdiction by the school attendance officer.

School Day – pursuant to Mississippi Code §37-13-91 (d), defined as not less than five (5) and not more than eight (8) hours of actual teaching in which both teachers and pupils are in regular attendance for scheduled schoolwork.

Truant – a student that has accumulated five (5) or more unlawful absences in a school year, excluding suspension and expulsion days.

Unlawful absence – (also known as an unexcused absence) an absence during a school day by a compulsory-school-age child, which the absence is not due to a valid excuse for temporary nonattendance, pursuant to MS Code §37-13-91 (4).

REQUIREMENTS

- (1) Truancy shall only apply to students of compulsory-school-age.
- (2) Each local school district shall determine whether an absence is excused or unlawful based on the Compulsory School Attendance Law §37-13-91 of the Mississippi Code 1972 Annotated.
- (3) For the purpose of calculating truancy rates, out of school suspensions shall not be considered unlawful absences. Out of school suspension days shall not be factored into truancy rate calculations.
- (4) Students that satisfy the school day attendance requirements shall not be considered absent and/or calculated in the truancy rate, including students enrolled in alternative education programs, GED Options programs, and students detained in juvenile detention centers.
- (5) The MDE shall calculate the truancy, habitual truancy, suspension, and expulsion rates once per year. The MDE shall report disaggregated data at both

the state and district levels. The following calculations shall be used in determining truancy, suspension and expulsion rates:

(a) The Truancy Rate shall be calculated using the following formula:

Numerator: Number of students with five or more unlawful absences (truant)

Denominator: Count of Student Membership – Cumulative Enrollment

Multiplied by 100 to create a percentage value

(b) The Habitual Truancy Rate shall be calculated using the following formula:

Numerator: Number of students with twelve or more unlawful absences (habitual truant)

Denominator: Count of Student Membership – Cumulative Enrollment

Multiplied by 100 to create a percentage value

(c) The Student Out-of-School Suspension Rate shall be calculated using the following formula:

Numerator: Total number of student out-of-school suspensions in a school year

Denominator: Count of Student Membership – Cumulative Enrollment

Multiplied by 100 to create a percentage value

(d) The Overall Out-of-School Suspension Rate shall be calculated using the following formula:

Numerator: Total number of out-of-school suspension days in a school year

Denominator: Count of Student Membership – Cumulative Enrollment

Multiplied by 100 to create a percentage value

(e) The Expulsion Rate shall be calculated using the following formula:

Numerator: Number of student expulsions in a school year

Denominator: Count of Student Membership – Cumulative Enrollment

Multiplied by 100 to create a percentage value {MS Code§ 37-13-91} (1972). Compulsory school attendance requirements generally; enforcement of law.

(1) This section shall be referred to as the "Mississippi Compulsory School Attendance Law."

(2) The following terms as used in this section are defined as follows:

(a) "Parent" means the father or mother to whom a child has been born, or the father or mother by whom a child has been legally adopted.

(b) "Guardian" means a guardian of the person of a child, other than a parent, who is legally appointed by a court of competent jurisdiction.

(c) "Custodian" means any person having the present care or custody of a child, other than a parent or guardian of the child.

(d) "School day" means not less than five (5) and not more than eight (8) hours of actual teaching in which both teachers and pupils are in regular attendance for scheduled schoolwork.

(e) "School" means any public school in this state or any nonpublic school in this state which is in session each school year for at least one hundred eighty (180) school days, except that the "nonpublic" school term shall be the number of days that each school shall require for promotion from grade to grade.

(f) "Compulsory-school-age child" means a child who has attained or will attain the age of six (6) years on or before September 1 of the calendar year and who has not attained the age of seventeen (17) years on or before September 1 of the calendar year; and shall include any child who has attained or will attain the age of five (5) years on or before September 1 and has enrolled in a full-day public school kindergarten program. Provided, however, that the parent or guardian of any child enrolled in a full-day public school kindergarten program shall be allowed to disenroll the child from the program on a one-time basis, and such child shall not be deemed a compulsory-school-age child until the child attains the age of six (6) years.

(g) "School attendance officer" means a person employed by the State Department of Education pursuant to Section 37-13-89.

(h) "Appropriate school official" means the superintendent of the school district, or his designee, or, in the case of a nonpublic school, the principal or the headmaster.

(i) "Nonpublic school" means an institution for the teaching of children, consisting of a physical plant, whether owned or leased, including a home, instructional staff members and students, and which is in session each school year. This definition shall include, but not be limited to, private, church, parochial and home instruction programs.

(3) A parent, guardian or custodian of a compulsory-school-age child in this state shall cause the child to enroll in and attend a public school or legitimate nonpublic school for the period of time that the child is of compulsory-school-age, except under the following circumstances:

(a) When a compulsory-school-age child is physically, mentally or emotionally incapable of attending school as determined by the appropriate school official based upon sufficient medical documentation.

(b) When a compulsory-school-age child is enrolled in and pursuing a course of special education, remedial education or education for handicapped or physically or mentally disadvantaged children.

(c) When a compulsory-school-age child is being educated in a legitimate home instruction program. The parent, guardian or custodian of a compulsory-school-age child described in this subsection, or the parent, guardian or custodian of a compulsory-school-age child attending any nonpublic school, or the appropriate school official for any or all children attending a nonpublic school shall complete a "certificate of enrollment" in order to facilitate the administration of this section.

The form of the certificate of enrollment shall be prepared by the Office of Compulsory School Attendance Enforcement of the State Department of Education and shall be designed to obtain the following information only:

(i) The name, address, telephone number and date of birth of the compulsory-school-age child;

(ii) The name, address and telephone number of the parent, guardian or custodian of the compulsory-school-age child;

(iii) A simple description of the type of education the compulsory-school-age child is receiving and, if the child is enrolled in a nonpublic school, the name and address of the school; and

(iv) The signature of the parent, guardian or custodian of the compulsory-school-age child or, for any or all compulsory-school-age child or children attending a nonpublic school, the signature of the appropriate school official and the date signed.

The certificate of enrollment shall be returned to the school attendance officer where the child resides on or before September 15 of each year. Any parent, guardian or custodian found by the school attendance officer to be in noncompliance with this section shall comply, after written notice of the noncompliance by the school attendance officer, with this subsection within ten (10) days after the notice or be in violation of this section. However, in the event the child has been enrolled in a public school within fifteen (15) calendar days after the first day of the school

year as required in subsection (6), the parent or custodian may, at a later date, enroll the child in a legitimate nonpublic school or legitimate home instruction program and send the certificate of enrollment to the school attendance officer and be in compliance with this subsection. For the purposes of this subsection, a legitimate nonpublic school or legitimate home instruction program shall be those not operated or instituted for the purpose of avoiding or circumventing the compulsory attendance law.

(4) An "unlawful absence" is an absence during a school day by a compulsory-school-age child, which absence is not due to a valid excuse for temporary nonattendance. Days missed from school due to disciplinary suspension shall not be considered an "excused" absence under this section. This subsection shall not apply to children enrolled in a nonpublic school.

Each of the following shall constitute a valid excuse for temporary nonattendance of a compulsory-school-age child enrolled in a public school, provided satisfactory evidence of the excuse is provided to the superintendent of the school district, or his designee:

(a) An absence is excused when the absence results from the compulsory-school-age child's attendance at an authorized school activity with the prior approval of the superintendent of the school district, or his designee. These activities may include field trips, athletic contests, student conventions, musical festivals and any similar activity.

(b) An absence is excused when the absence results from illness or injury which prevents the compulsory-school-age child from being physically able to attend school.

(c) An absence is excused when isolation of a compulsory-school-age child is ordered by the county health officer, by the State Board of Health or appropriate school official.

(d) An absence is excused when it results from the death or serious illness of a member of the immediate family of a compulsory-school-age child. The immediate family members of a compulsory-school-age child shall include children, spouse, grandparents, parents, brothers and sisters, including stepbrothers and stepsisters.

(e) An absence is excused when it results from a medical or dental appointment of a compulsory-school-age child where an approval of the superintendent of the school district, or his designee, is gained before the absence, except in the case of emergency.

(f) An absence is excused when it results from the attendance of a compulsory-school-age child at the proceedings of a court or an

administrative tribunal if the child is a party to the action or under subpoena as a witness.

(g) An absence may be excused if the religion, to which the compulsory-school-age child or the child's parents adheres, requires or suggests the observance of a religious event. The approval of the absence is within the discretion of the superintendent of the school district, or his designee, but approval should be granted unless the religion's observance is of such duration as to interfere with the education of the child.

(h) An absence may be excused when it is demonstrated to the satisfaction of the superintendent of the school district, or his designee, that the purpose of the absence is to take advantage of a valid educational opportunity such as travel, including vacations or other family travel. Approval of the absence must be gained from the superintendent of the school district, or his designee, before the absence, but the approval shall not be unreasonably withheld.

(i) An absence may be excused when it is demonstrated to the satisfaction of the superintendent of the school district, or his designee, that conditions are sufficient to warrant the compulsory-school-age child's nonattendance. However, no absences shall be excused by the school district superintendent, or his designee, when any student suspensions or expulsions circumvent the intent and spirit of the compulsory attendance law.

(5) Any parent, guardian or custodian of a compulsory-school-age child subject to this section who refuses or willfully fails to perform any of the duties imposed upon him or her under this section or who intentionally falsifies any information required to be contained in a certificate of enrollment, shall be guilty of contributing to the neglect of a child and, upon conviction, shall be punished in accordance with Section 97-5-39.

Upon prosecution of a parent, guardian or custodian of a compulsory-school-age child for violation of this section, the presentation of evidence by the prosecutor that shows that the child has not been enrolled in school within eighteen (18) calendar days after the first day of the school year of the public school which the child is eligible to attend, or that the child has accumulated twelve (12) unlawful absences during the school year at the public school in which the child has been enrolled, shall establish a prima facie case that the child's parent, guardian or custodian is responsible for the absences and has refused or willfully failed to perform the duties imposed upon him or her under this section. However, no proceedings under this section shall be brought against a parent, guardian or custodian of a compulsory-school-age child unless the school attendance officer has contacted promptly the home of the child and has provided written notice to the parent, guardian or custodian of the requirement for the child's enrollment or attendance.

(6) If a compulsory-school-age child has not been enrolled in a school within fifteen (15) calendar days after the first day of the school year of the school which the child is eligible to attend or the child has accumulated five (5) unlawful absences during the school year of the public school in which the child is enrolled, the school district superintendent shall report, within two (2) school days or within five (5) calendar days, whichever is less, the absences to the school attendance officer. The State Department of Education shall prescribe a uniform method for schools to utilize in reporting the unlawful absences to the school attendance officer. The superintendent, or his designee, also shall report any student suspensions or student expulsions to the school attendance officer when they occur.

(7) When a school attendance officer has made all attempts to secure enrollment and/or attendance of a compulsory-school-age child and is unable to effect the enrollment and/or attendance, the attendance officer shall file a petition with the youth court under Section 43-21-451 or shall file a petition in a court of competent jurisdiction as it pertains to parent or child. Sheriffs, deputy sheriffs and municipal law enforcement officers shall be fully authorized to investigate all cases of nonattendance and unlawful absences by compulsory-school-age children, and shall be authorized to file a petition with the youth court under Section 43-21-451 or file a petition or information in the court of competent jurisdiction as it pertains to parent or child for violation of this section. The youth court shall expedite a hearing to make an appropriate adjudication and a disposition to ensure compliance with the Compulsory School Attendance Law, and may order the child to enroll or re-enroll in school. The superintendent of the school district to which the child is ordered may assign, in his discretion, the child to the alternative school program of the school established pursuant to Section 37-13-92.

(8) The State Board of Education shall adopt rules and regulations for the purpose of reprimanding any school superintendents who fail to timely report unexcused absences under the provisions of this section.

(9) Notwithstanding any provision or implication herein to the contrary, it is not the intention of this section to impair the primary right and the obligation of the parent or parents, or person or persons in loco parentis to a child, to choose the proper education and training for such child, and nothing in this section shall ever be construed to grant, by implication or otherwise, to the State of Mississippi, any of its officers, agencies or subdivisions any right or authority to control, manage, supervise or make any suggestion as to the control, management or supervision of any private or parochial school or institution for the education or training of children, of any kind whatsoever that is not a public school according to the laws of this state; and this section shall never be construed so as to grant, by implication or otherwise, any right or authority to any state agency or other entity to control, manage, supervise, provide for or affect the operation, management,

program, curriculum, admissions policy or discipline of any such school or home instruction program.

3200 Drug Testing, State Department of Education Staff

In compliance with the Omnibus Transportation Employee Testing Act of 1991, the State Board of Education has developed the attached drug and alcohol policies and procedures. These policies and procedures shall be implemented and enforced.

The Mississippi Department of Education, hereafter referred to as the Department, recognizes that our employees are our greatest asset. Our employees are the key to our goal of providing the best possible education program for our students. To achieve our goal, and to maximize the skills and talents of our employees, it is important that every employee of the Department understand the dangers of drug and alcohol abuse and be aware of the new

state and federal requirements concerning substance abuse. This policy statement should clarify our position on employee drug and alcohol use. This policy and procedure should not be construed as contractual in any nature.

POLICY OBJECTIVES:

1. To create and maintain a safe, drug-free working environment for all employees.
2. To meet the requirements of the Drug Free Workplace Act of 1988 and the Drug Free Schools and Community Act of 1986, as they relate to the use of alcohol, inhalants, cannabis, controlled substances and similar substances.
3. To encourage any employee with a dependence on, or addiction to, alcohol or other drugs to seek help in overcoming the problem.
4. To reduce problems of absenteeism, tardiness, carelessness and/or other unsatisfactory matters related to job performance.
5. To reduce the likelihood of incidents of accidental personal injury and/or damage to customers, visitors or property.
6. To meet the requirements of 49 C.F.R. part 40 and the Omnibus Transportation Employee Testing Act of 1991.
 - To reduce the likelihood that department property will be used for illicit drug activities.
 - To protect the reputation of the Department and its employees.

Substance abuse is a serious threat to the Department and its employees. Though the percentage of substance abusing employees may be relatively small, practical experience and research indicate that appropriate precautions are necessary. It is the belief of the Department that the benefits derived from the policy objectives outweigh the potential inconvenience to employees. The Department earnestly solicits the understanding and cooperation of all employees in implementing this policy.

The Department requires that all employees report to work without any alcohol or illegal or mind altering substances in their systems. No employee shall report for work or remain on duty when using any controlled substance, except when the use is pursuant to the instructions of a physician who has advised the employee that the substance does not adversely affect the employee's ability to perform in a safe manner. No employee shall use alcohol while on duty. Further, outside conduct of a substance abuse-related nature which affects an employee's work, the Department's relationship with the government or reflects badly on the Department is prohibited.

Employees must inform their supervisor when they are legitimately taking medication which may affect their ability to work, in order to avoid creating safety problems and violating the Drug and Alcohol Policy.

The Department also prohibits employees using, possessing, manufacturing, distributing or making arrangements to distribute illegal drugs while at work or on department property.

ENFORCEMENT of OMNIBUS TRANSPORTATION ACT

The following policies are related only to those employees, applicants, and contractual workers subject to 49 C.F.R.~ Part 40 and the Omnibus Transportation Employee Testing Act of 1991. In order to enforce these rules, the Department reserves the right to require the above employees to submit, at any time an employee is on duty or at any time an employee may normally be called to be on duty, to drug tests to determine the presence of prohibited substances. The State Board of Education is required to develop, implement and enforce a drug and alcohol policy for their employees as a condition of compliance with the Omnibus Transportation Employee Act of 1991.

Pursuant to Board policy and regulations, applicant testing may be required. All current employees may be required to undergo testing where the Board has reasonable suspicion to believe an employee has violated its Alcohol and Drug Policy, and/or on a random basis without advance notice. No employee shall perform any job-related duties within four hours after using alcohol. Employees are also required to report all injury or damage related accidents involving Department property or personnel or during Department-related activities and may be required to submit to alcohol screening within two (2) hours and to drug screening within thirty-two (32) hours of a reportable accident. Employees who return to work following rehabilitation will be required to undergo return to duty/follow up testing in addition to the general Department testing requirements.

The Department also reserves the right to search desks, cabinets, tool boxes, vehicles, including personal vehicles brought on the Department's property, bags or any other property at the worksite or in vehicles when the Department has reasonable cause to believe an employee has violated its Alcohol and Drug Policy.

Violation of these rules, including testing positive, will subject the employee to discipline, including discharge. Refusal to cooperate with the Board in any test investigation will result in discipline, including discharge as appropriate under the applicable state and federal laws.

All information, interviews, reports, statements, memoranda and test results, written or otherwise, received by the employer through its drug and alcohol testing program are confidential communications and may not be disclosed except in accordance with the Policy Consent/Release Form and Federal Regulations 49 C.F.R. 40 et seq and 49 C.F.R. 382 et seq.

Any questions should be directed to the Personnel Officer, who has been assigned by the State Superintendent of Education and/or the State Board of Education as the Drug Program Coordinator.

**Mississippi Department of Education
Policy Consent/Release Form for Alcohol and Controlled Substance Use**

I have read the above statement of policy and agree to abide by the State Board of Education's drug and alcohol rules. I agree to submit to drug or alcohol tests at any time as a condition for my initial or continued employment. I authorize any laboratory or medical provider to release test results to the Mississippi Department of Education and its Medical Review Officer, Dr. Howard M. Strickler.

I expressly authorize the State Board of Education or its MRO to release any test-related information, including positive results, to the Unemployment Compensation Commission, or any other relevant government agency.

I understand that this agreement in no way limits my right to terminate my employment or be terminated in accordance with federal and state law.

**Mississippi Department of Education
Drug and Alcohol Program Procedures**

I. General Policy

Practical experience and research has proven that even small quantities of narcotics, abused prescription drugs or alcohol can impair judgment and reflexes. Even when not readily apparent, this impairment can have serious results, particularly for employees operating vehicles or potentially dangerous equipment. Drug-using employees are a threat to co-workers and themselves, and may make costly errors. For these reasons, the State Board of Education has adopted a policy that all employees must report to work completely free from the effects of alcohol and/or the presence of drugs, unless used as prescribed by a physician.

II. Drug Use/Distribution/Impairment/Possession

All employees are prohibited from using, possessing, distributing, manufacturing, or having controlled substances, abused prescription drugs or any other mind altering or intoxicating substances present in their system while at work or on duty.

III. Alcohol Use/Possession/Impairment

All employees are prohibited from possessing, drinking or being impaired or intoxicated by alcohol while at work or on duty. While employees are prohibited from having any alcohol present in their system while on duty, a Breath Alcohol Concentration (BAC) of .04 will be accepted as presumptive evidence of intoxication. Additionally, mandated employees (employee's subject to provisions of 49 C.F.R Part 40 and the Omnibus Transportation Employee Testing Act of 1991) with a BAC of .02-.039 will be placed out-of-service for a period of no less than 24 hours. Evidential breath testing devices (EBTs) on the National Traffic Highway Safety Administration Conforming Products List will normally be used to determine BAC.

IV. Off-Duty Conduct

Off-the-job use of drugs, alcohol or any other prohibited substances which results in impaired work performance, including, but not limited to, absenteeism, tardiness, poor work product, or harm to the Department's image or relationship with the government is prohibited. Employees should realize that these regulations prohibit all illicit drug use--on and off duty.

V. Prescription Drugs

The proper use of medication prescribed by a physician is not prohibited; however, the Department prohibits the misuse of prescribed (or over the counter) medications and requires all employees using drugs at the direction of a physician to notify the State Board of Education's Medical Review Officer (MRO), Dr. Howard M. Strickler, or their supervisor prior to beginning work where these drugs may affect their job performance, such as by causing drowsiness.

An employee or job applicant (with the exception of mandated employees) shall be allowed to provide notice to the Department of currently or recently used prescription or nonprescription drugs at the time of the taking of the specimen to be tested, and such information shall be placed in writing upon the employer's drug and alcohol testing custody and control form prior to initial testing.

VI. Substance Screening

A. Applicants

Substance screening may be required for all final applicants. Applicants are required to sign a consent/release form before submitting to screening. Applicants will be disqualified for hire if they test positive, refuse to submit to a test, or refuse to execute the required consent/release form.

B. All Current Employees

1. Reasonable Suspicion

All employees may be required to submit to screening whenever a supervisor observes circumstances which provide reasonable suspicion to believe an employee has used a controlled substance or has otherwise violated the substance abuse rules. The supervisor's determination that reasonable suspicion exists to require the employee to undergo an alcohol and drug test must be based on specific, contemporaneous, articulable observations concerning the appearance, behavior, speech or body odors of the employee.

The required observations for alcohol and/or controlled substance reasonable suspicion testing shall be made by a supervisor or designee who has been trained for at least 60 minutes on alcohol misuse and an additional 60 minutes on controlled substance misuse.

The supervisor or supervisors requesting testing shall prepare and sign written documents explaining the circumstances and evidence upon which they relied within 24 hours of the testing, or before the results of the tests are released, whichever is earlier. While one supervisor may request a reasonable suspicion test, when feasible, supervisors are encouraged to obtain a second supervisor as a witness.

2. Random Testing

The Department may conduct random unannounced screening of all employees. Tests of employees for illicit drugs will be conducted in a number equal to or greater than 50 percent of the affected work force--without advance notice--in any given 12 month period. Tests of employees for alcohol will be conducted in a number equal to or greater than 25 percent of the affected work force--without advance notice--in any given 12 month period. There will be no maximum number of samples that any one individual will be required to provide during the testing schedule. Subsequent testing will be conducted at levels equal to or greater than the initial testing level. Employers Drug Program Management, Inc. will provide computerized random sample lists to the Drug Program Coordinator. The list of employees in the random pool will be updated on a monthly basis. Employees will be required to report to the Department's designated collection site for testing immediately following notification. Annually, the tests will be spread reasonable over 12 months.

All employees may be tested during the initial implementation of the program.

3. Post Accident Testing

Employees are required to immediately notify the Drug Program Coordinator of any accident resulting in injury or damage to Department property. The Department of Transportation (DOT) requires post accident drug and alcohol testing following any accident which results in the: (1) loss of human life, or (2) receipt of a citation under State or local law for a moving traffic violation arising from the accident.

The Department may require an employee involved in any accident resulting in injury requiring more than simple first aid or resulting in damage to property, to undergo alcohol screening within 2 hours and drug screening within 32 hours of the occurrence of the accident. The Department will discipline any employee who fails to report an accident or submit to substance screening where required by law or this policy. The Drug Program Coordinator shall complete an Accident Report in compliance with Department policy and applicable laws and regulations.

4. Return to Duty/Follow up Testing

All employees referred for rehabilitation through administrative channels, or suspended for violation of this policy, may be subject to unannounced testing following return to duty for a period of 12 to 60 months. Such employees shall be tested at the frequency stipulated in the abeyance contract or as scheduled by the MRO. The employee will be tested a minimum of six (6) follow up tests during the first twelve months. Testing will be on a daily, weekly, monthly or longer basis at the discretion of the MRO and will be in addition to the other types of tests provided in this policy.

Employees testing at a level 0.04 BAC for alcohol or positive for drugs must be assessed by a Substance Abuse Professional (SAP), satisfy the recommendations of the assessment, test negative for drugs and below 0.02 BAC for alcohol and be released as drug free by the Medical Review Officer prior to returning to duty.

C. Testing Procedures

1. General Guidelines

The State Board of Education and its lab shall rely, when practical, on the guidance of the federal Department of Transportation, Procedures for Transportation Workplace Drug Testing Programs, 49 C.F.R. parts 40.1 through 40.39 and on the further guidance of the Omnibus Transportation Employee Testing Act provided in 49 C.F.R. Parts 382, 391, 392 and 395.

2. Substances Tested For All Employees

Employees may regularly be tested for: amphetamines, cannabinoids, cocaine, opiates, phencyclidine and alcohol. Testing for alcohol will also be conducted subject to the final provisions of the Omnibus Transportation Employee Testing Act of 1991. Employees

may be tested for other substances without advance notice as part of a separate test performed by the Department for safety purposes. Such tests will be coordinated with the Drug Program Coordinator.

3. Testing Procedure

The State Board of Education reserves the right to utilize blood, hair, breath, saliva or urinalysis testing procedures. Only urinalysis and breath tests will be utilized in the pre-employment and random testing. All initial positive urine specimens will be confirmed by gas chromatography/mass spectrometry (GC/MS).

D. Collection Sites

The Department will designate collection sites in areas where it maintains facilities or job sites where individuals may provide specimens.

E. Collection Procedures

The State Board of Education, Employers Drug Program Management, and the laboratory, have developed and will maintain a documented procedure for collecting, shipping and accessing urine specimens. The State Board of Education, EDPM and the laboratory will utilize a standard Urine Custody and Control Form for all employee drug testing. The State Board of Education, EDPM and the laboratory will utilize a standard Breath Alcohol Testing Form for all employee alcohol testing. A tamper-proof sealing system, identifying numbers, labels, and sealed shipping containers will also be used for drug sample transportation. Alcohol results will use approved tamper evident tape.

Collection sites will maintain instructions and training emphasizing the responsibility of the collection site personnel to protect the integrity of the specimen and maintain as proper a collection procedure as reasonable. A person who collects or takes a specimen for a drug test pursuant to this policy shall collect an amount sufficient for two (2) drug tests as defined by the Department of Transportation. Where the Department has an employee collect the specimen, the State Board of Education will provide instruction and training to that employee. All alcohol testing will be performed by a certified Breath Alcohol Technician (BAT). All employees will also be required to execute the Department Applicant/Employee Consent Form.

F. Occasions When the Collection Personnel Should Directly Observe the Specimen Being Provided

The Department has adopted the direct observation procedures as set out in Section 40.25 of the Department of Transportation regulations. An Employer or Medical representative at the collection site may directly observe an employee provide the specimen where there is reason to believe that an individual may alter or substitute the specimen. Section 40.25 (e)(2) sets out the only four circumstances where direct observation is appropriate:

(1) The employee has presented a urine specimen that falls outside the normal temperature range, and the employee declines to provide a measurement of oral body temperature by sterile thermometer, as provided in paragraph (f)(23) of this part, or the oral temperature does not equal or exceed that of the specimen.

(2) The last urine specimen provided by the employee (i.e., on a previous occasion) was determined by the laboratory to have a specific gravity of less than 1.003 and a creatinine concentration below .2 g/L.

(3) The collection site person observes conduct clearly and unequivocally indicating an attempt to substitute or adulterate the sample (e.g., substitute urine in plain view, blue dye in specimen presented, etc.).

(4) The employee has previously been determined to have used a controlled substance without medical authorization and the particular test is being conducted as a part of a rehabilitation program or on return to service after any required rehabilitation.

A second specimen should be obtained under direct observation wherever there is reason to believe that the individual may have altered or substituted the specimen.

Where necessary, a Department representative or medical personnel may obtain a specimen outside of a designated collection site (such as, at a public restroom at an accident investigation).

G. Evaluations and Return of Results to the Department

The laboratory will transmit (by fax, mail, or computer, but not orally over the telephone) the results of all tests to the Department's MRO, Dr. Howard M. Strickler. The MRO will be responsible for reviewing the quantified test results of employees and confirm that the individuals testing positive have used drugs in violation of Department policy. Prior to making a final decision, the MRO shall give the individuals an opportunity to provide a medical explanation for the positive test result either face to face or over the telephone. The MRO shall then promptly report to the Drug Program Coordinator which employees or applicants test positive.

H. Request for Retest

Where a split specimen has been collected an employee may request a retest of the split specimen within 72 hours of notification of the final test result. Where only one sample is submitted for testing the employee may request a retest of the original sample within 72 hours after notification of the final test result. Requests must be submitted to the Drug Program Coordinator.

The employee may be required to pay the associated costs of retest in advance.

I. Release of Test Results

All information, interviews, reports, statements, memoranda and test results written or otherwise, received by the employer through its drug and alcohol testing program are confidential communications and may not be disclosed except in accordance with the Policy Consent/Release Form and Federal Regulations 49 C.F.R. et seq and 49 C.F.R. 382 et seq.

With the exception of those entities listed in the Federal Regulations, test results shall not be released by the State Board of Education, beyond the MRO and Department's management without the individual's written authorization. However, all employees will be required to execute a consent/release form permitting the Board to release test results and related information to the Unemployment Compensation Commission, or other relevant government agencies.

The MRO shall retain the individual test results for five (5) years.

VII. Discipline

The State Board of Education will discipline, including discharge, employees for any violation of the policy, including refusing to submit to screening, to execute a release, or otherwise cooperate with an investigation or search by the Department. Disciplinary measures will be instituted in accordance with State Personnel Board regulations if applicable and state and federal laws.

All employees who test positive in a confirmative substance test will be subject to discipline up to and including discharge. Rehabilitation, at a pre-approved treatment provider, may be available to individuals who violate the policy. However, unless other provisions are available to the affected individual, assistance will be limited to the degree of treatment provided within the Department's Employee Benefits Plan. The Drug Program Coordinator should be contacted for guidance.

No employee may be returned to regular duties after any rehabilitation or testing positive unless released for duty for the Department's MRO. Any employee returned to duty after violating the policy or testing positive will be subject to aftercare and random testing.

VIII. Employee Assistance Program (EAP)

The Board's EAP shall include education and training for supervisors who are authorized to determine reasonable suspicion testing. These supervisors must receive a minimum of 60 minutes on alcohol abuse and an additional 60 minutes of training on controlled substance use and abuse.

The training shall cover the physical, behavioral, speech and performance indicators of probable use and misuse of alcohol and controlled substances. Documentation of training attendance must be maintained.

The Drug Program Coordinator should be contacted for further guidance.

IX. Investigation/Searches

Where a supervisor has reasonable cause to suspect that an employee has violated the substance abuse policy, he or she may inspect vehicles which an employee brings on the Board's property, lockers, work areas, desks, purses, briefcases, tool boxes or other belongings, and at locations where Department related activities are being conducted without prior notice in order to ensure a work environment free of prohibited substances. An employee may be asked to be present and remove a personal lock. Where the employee is not present or refuses to remove a personal lock, the Drug Program Coordinator will do so for him or her. The Board may release any illegal, or controlled drugs, or paraphernalia to appropriate law enforcement authorities.

All searches should be coordinated with the Drug Program Coordinator.

NOTE These procedures should not be construed as contractual in any nature. They represent the State Board of Education's current guidelines in dealing with a developing problem under evolving laws and facts, and may be changed in accordance with Department policy and state and federal law.

3300 Education Accountability (*Reserved*)

3400 Education Enhancement Funds

Authorization and Dissemination

Pursuant to Mississippi Code Section 37-61-33, As Amended, this policy provides rules and regulations for the administration of Education Enhancement Funds appropriated for classroom supplies, materials and equipment. The intent of the policy is to allow individual teachers to expend such funds, as they deem appropriate, to support the overall goals of the school. This policy will be distributed to each school principal for their information and for posting in a common area easily accessible to all teachers in the school building, or distribution to each teacher in the building individually.

Allocation of Funds

Classroom supply funds may not be expended for administrative purposes. These funds may only be used to supplement, not replace, other local and state funds available for the same purpose. Each local school district must allocate classroom supply funds equally among all classroom teachers in the school district. The term "teacher" shall mean any

employee of the school district who is required by law to obtain a teacher's license from the State Board of Education and is assigned to an instructional area of work, but shall not include a federally funded teacher. The term "teacher" includes all licensed regular teachers and licensed state or locally funded special education teachers, vocational teachers, gifted teachers, counselors and librarians. Part-time teachers may be allocated a proportional share of the amount allocated to other teachers based on time spent in an instructional area of work.

Spending Plan Development

Teachers must be given an opportunity to expend their allocation individually or to pool all or part of their allocation to support the overall goals of the school. The principal must apprise teachers of their allocation amount and any other funds available for supplies, educational materials, equipment, computers or computer software. A spending plan is required when two or more teachers choose to pool their allocation or if an individual teacher desires to carry-forward their allocation for a specific expenditure/purpose in any succeeding school year. This plan shall be submitted in writing to the school principal for approval. A spending plan may be modified upon request by the teacher(s) and approval by the school principal.

Any two (2) or more teachers may agree to pool all or part of their allocation to support the overall goals of a school within a school district. Teachers desiring to pool their funds must develop a spending plan that supports the overall goals of the school. A school may accomplish this by approving one or more plans. Teachers who agree to pool their allocation must indicate their agreement by signature.

Approval of the Spending Plan and Individual Teacher Expenditure Requests

There is no mandated format for a spending plan; however, school districts may consider using the attached format. The plan must be submitted, in writing, to the school principal for approval. Teachers, who do not pool their allocations nor wish to carry-forward their allocation for a specific expenditure/purpose in any succeeding school year, need only complete, sign and submit purchase requisitions or purchase requests to the school principal for approval. A principal may disapprove a spending plan or a teacher's individual expenditure request only if the principal can demonstrate that:

- the plan or expenditure request does not support the overall goals of the school;
- the plan or expenditure request includes an unallowable item or items; and/or
- the cost of supplies and materials exceeds the allocation and any carry forward funds available to participating teachers.

Carry Forward of Funds

School districts need not fully expend the funds allocated in the year in which they receive them, but they may carry forward such funds for expenditure in any succeeding school year. However, districts are encouraged to expend their funds in the year in which they receive them. If a district does not fully expend its allocation, they must carry forward the balance to the next school year, added to the next school year's allocation and allocated equally to all teachers.

Any individual teacher or group of teachers with an approved spending plan that has not been fully funded need not expend the funds allocated under this subparagraph in the year in which such funds are received. Such funds may be carried forward for expenditure in any subsequent school year in which the plan is fully funded. However, beginning July 1, 2006, any funds allocated under this subparagraph which are not reserved in an approved spending plan but remain unspent on March 31 of the fiscal year in which the funds were allotted must be utilized by the school, by the end of the current fiscal year, where the teacher is employed for instructional supply and equipment purposes. If a teacher(s) submits and the principal approves such spending plan, such carry forward funds may not be added to the following school year's allocation and divided equally among all teachers. The school district may use the optional Tracking Format described in the Documentation section below or a variation of that format to track the teacher's carry forward funds.

Documentation

School districts are required to maintain adequate documentation to demonstrate compliance with this policy. At a minimum, each school principal shall maintain a listing of all teachers, the amount allocated to each teacher, the carry forward amount for each teacher, a copy of each spending plan and a copy of all requisitions or purchase requests submitted by the teachers. As a teacher submits requisitions or requests for supplies, materials and/or equipment, the principal will reduce the individual teacher's allocation for the appropriate amount and maintain a current balance. Attached is an optional format for tracking expenditures. Although the format is optional, the information on each teacher's allocation, expenditures and balance must be maintained.

Definitions

Administrative Purposes - shall mean expenditures properly accounted for under expenditure function codes 2300, General Administration; 2400, Office of the Principal Services; and 2500, Business Services, as defined by the Office of the School Financial Services, in the Mississippi Department of Education in the Financial Accounting Manual for Mississippi Public School Districts.

4010 Recommended Non-Binding Mississippi School Nurse Salary Schedule

Pursuant to House Bill 1132 as passed in the 2007 Legislative Session, the Mary Kirkpatrick-Haskell – Mary Sprayberry Public School Nurse Act of 2007 states that, “the State Department of Education, through the Office of Healthy Schools, shall...develop recommended salary structure for school districts to use when hiring a school nurse.”

In the absence of a salary scale of any kind for school nurses, the Office of Healthy Schools has recommended that districts either use the teacher salary scale when hiring school nurses, or – if recruitment dictates - pay based on a trend for their particular area. Most districts have used the teacher salary scale. The recommended non-binding salary schedule is *the teacher salary* scale simply adjusted for nursing degrees. It applies only to Registered Nurses. Licensed Practical Nurses are considered non-exempt employees under the Fair Labor Standards Act and must be paid on an hourly basis.

4011 Nutrition Standards

The Mississippi Department of Education recognizes that:

1. A crucial relationship exists between nutrition and health and nutrition and learning. The health and nutrition needs of growing students are met with USDA school meals programs.
2. As a minimum, school districts must follow all current and future requirements and recommendations of the USDA National School Lunch Program Meal Patterns and Nutrient Standards.
3. The 2005 Dietary Guidelines for Americans, USDA's My Pyramid (www.mypyramid.gov) and the USDA Healthier U.S. School Challenge provides nutritional guidance for school meals.
4. Schools must offer equal access to all meals or items served or sold under the National School Lunch & Breakfast Programs.

5. Students need adequate time to eat and enjoy meals served in schools.
6. Moving recess before lunch, through a simple schedule change, may provide many benefits for students especially in grades K-12.
7. Family education will be the key to building a healthy future for all Mississippians. Families must embrace nutrition and wellness; it is crucial to the success of our efforts. Mississippi public schools offer the best resources, facilities and structure to promote family nutrition education.
8. Offering healthful foods and beverages in schools does not guarantee that students will choose them. Aggressive marketing techniques must inform students, teachers, administrative staff and most importantly, the public of the benefits of eating in the school cafeteria.
9. School districts are encouraged to participate in the Healthier U.S. School Challenge and become a USDA Team Nutrition School.

The Mississippi Department of Education intends that:

A. Healthy food and beverage choices:

1. Schools shall increase fresh fruits and vegetables offered to students. A minimum of one fresh fruit or vegetable choice should be offered to students each day.
2. School menus shall offer a minimum of three different fruits and five different vegetables weekly. Schools should try to serve dark green leafy vegetables or broccoli and/or orange vegetables (high in vitamin A) or fruits three times per week. A Vegetable Guidance List can be downloaded on the Office of Healthy Schools website at www.healthyschoolsms.org
3. Schools shall offer milk choices with a maximum milk fat of 1%, unless USDA Regulations require a lower milk fat content. Flavored nonfat or low-fat, or milk shall contain no more than 160 calories per 8-ounce serving.
4. Schools shall only offer 100% fruit and vegetable juice with no added sugar.

B. Healthy food preparation 1. Schools shall comply with the existing USDA NSLP/SBP meal pattern requirements. This includes meeting the minimum nutrient standards for calories, protein, calcium, iron, vitamin A, vitamin C and the maximum levels of 30% calories from fat and less than 10% calories from saturated fat. (USDA Food and Nutrition Services or www.fns.usda.gov)

| MINIMUM NUTRIENT AND CALORIE LEVELS FOR SCHOOL LUNCHES SCHOOL WEEK AVERAGES | | | | |
|--|---|-------------|------------|-------------|

1. The Dietary Guidelines recommend that after 2 years of age “...children should gradually adopt a diet that, by about 5 years of age, contains no more than 30 percent of calories from fat.”

2. Not to exceed 30 percent over a school week

3. Less than 10 percent over a school week

2. Schools shall develop and implement a food safety program by July 1, 2005. Every school shall develop a HACCP system plan as required by the Child Nutrition and WIC Reauthorization Act of 2004. (National School Lunch Act Section 9 (H)) Schools shall update their School Wellness Policy to include a food safety assurance program for all food offered to students through sale or service.

3. Schools shall secure a Food Service Operational Permit through the Mississippi State Department of Health for approval to operate under the National School Lunch/National School Breakfast Program.

4. Mississippi State Department of Health conducts two School Food Facility Inspections per site each school year. The State Agency is required by federal regulations to submit a written report to the United States Department of Agriculture (USDA) Food and Nutrition Service reporting on the number of School Food Facility Inspections conducted per site. (Child Nutrition and WIC Reauthorization Act 2004, Section 15. 9(H), Implementation Memo SP-24)

5. Schools shall implement healthy school food preparation techniques using training materials developed through sources such as USDA, National Food Service Management Institute or Mississippi Department of Education. Training documentation and assessment records shall be retained for review by Mississippi Department of Education.

6. Schools should limit fried foods whenever possible and practical. Schools shall develop a long range plan for reducing and/or eliminating fried products in their lunch and breakfast menus. The long range plan should include preparation methods using existing equipment and/or goals to replace fryers with combi-oven/steamers as budgets allow. The long range plan (3 years) must be submitted to the Office of Child Nutrition by July 2010 and maintained on file in the school district. The long range plan must include preparations using existing equipment, and/or replace existing fryers with combi-oven/steamers.

C. Marketing of healthy food choices to students and staff

1. Train School Foodservice Administrators, Kitchen Managers, and Cooks in Marketing, New Cooking Techniques, and Garnishing using available or newly developed training tools, such as Marketing Sense – Mississippi Department of Education, Office of Child Nutrition

2. Use the Whole School Approach in Marketing the Local Wellness Policy. Administration, faculty, staff, students, and parents need to be solicited to be a part of the implementation of the Local Wellness Policy. Educating the family and the community is crucial to the success of our efforts.

Suggestions include:

a. Establishing Community Partnerships. With these groups on-board with the program, they can provide physical and financial support.

a.) Junior League

b.) Service Organizations (Rotary, Kiwanis, etc.)

c.) Local Community Foundations

b. Marketing New Foods. Research shows that it takes a number of times for an item to be served before it can be accepted. To facilitate the introduction of a new item, we suggest:

1) Tasting Parties

2) Serving Line Sampling

3) Serving Line Promotion

D. Food preparation ingredients and products

1. School districts shall adopt the Dietary Guideline recommendation that trans-fatty acids will be kept “as low as possible”.

2. Wherever possible and practical, school lunch and breakfast programs shall include products that are labeled “0” grams trans fat.

3. Schools shall incorporate whole grain products into daily and weekly lunch and breakfast menus based on product availability and student acceptability. School Food Authorities are encouraged to increase the amount and variety of whole grain products and at a minimum must serve at least 1 serving of whole grain products. At a minimum, one grain/bread component must be whole grain at least three days per week at lunch. The same item may not be served each day.

E. Minimum and maximum time allotment for students and staff lunch and breakfast periods

1. Schools shall schedule at least a minimum of 24 minutes to ensure an adequate eating time for school lunch. The factors influencing the lunch period are wait time, consumption time, standard deviation/variability and social time.

2. Since school breakfast is not factored into the regular school day, schools should take into consideration the recommended time of 10 minutes for a child to eat school breakfast after they have received the meal.

F. The availability of food items during the lunch and breakfast periods of the Child Nutrition Breakfast and Lunch Programs.

1. School districts shall comply with the Mississippi Board of Education Policy on Competitive Food Sales as outlined in the Mississippi Board of Education Policies.

2. School districts shall update the wellness policy to address limiting the number of extra sale items that may be purchased with a reimbursable meal. This policy will exclude extra beverage purchases of milk, juice and/or water. Schools may want to consider the following options:

Example:

- a. Elementary School – 1 extra sale item other than beverage
- b. Middle School – 1 extra sale item other than beverage
- c. High School – 2 extra sale items other than beverage

3. Schools may sell extra items in individual packages not to exceed 200 calories.

Example: ice cream, baked chips (grain), 100% juice bars, 100% fruit juice, or granola bars, or cereal bars.

4. Schools may sell extra items in portions not to exceed the menu portion serving size.

Example: ½ cup of fruit, ½ cup of vegetable, 2oz. wheat roll or entrees with 2-3 oz. protein.

5. Schools will use marketing, pricing and nutrition education strategies to encourage healthy extra sale selections.

Example:

- a. Healthy selections such as fruit or vegetables priced lower than other selections
- b. Healthy selections positioned in a visibly prominent location
- c. Fun nutrition information marketing the healthy selections

G. Methods to increase participation in the Child Nutrition School Breakfast and Lunch Programs

1. Since school food service operates like a business with income and expenses, adequate marketing ensures a successful program operation. Child nutrition programs are usually highlighted once or twice a year during National School Lunch and Breakfast Weeks. For marketing to be effective, it should occur more frequently. When devising a plan, remember the following:

- a. Define your business.
- b. Define your customers.
- c. Evaluate your plan and budget.
- d. Define your objectives.

2. Family education will be the key to building a healthy future for all Mississippians. Mississippi public schools offer the best resources, facilities and structure to promote family nutrition education.

3. Schools are strongly encouraged to develop academic partnerships with appropriate governmental agencies to offer family nutrition education programs. Family education should be incorporated into each school's Wellness Policy.

4. Schools will promote healthful eating and healthy lifestyles to students, parents, teachers, administrators and the community at school events.

H. Methods to award incentives to schools who have achieved USDA recognition through USDA's Healthier US School Challenge Program.

House Bill 1078, of the 2010 Regular Session of the Mississippi Legislature, added a new section 37-11-8 to the Mississippi Code of 1972 requiring the Department of Education to provide financial incentives to schools recognized by the United States Department of Agriculture (USDA) through the Healthier US School Challenge Program. House Bill 1078 provided financial incentives up to \$200,000 per year allocated to schools receiving awards of: Bronze - \$2,000, Silver - \$4,000, Gold - \$6,000 and Gold with Distinction - \$8,000. The following procedures will be used to allocate the financial incentives provided under House Bill 1078.

- 1. House Bill 1078 restricts eligibility to Public Schools.
- 2. State funding is limited to \$200,000 per year.

3. Schools recognized by USDA as achieving a Healthier US School Challenge level prior to March 1st will receive their allocation by June 30th of the same year.

4. Schools recognized by USDA as achieving a Healthier US School Challenge level between March 1 and June 30 will receive their allocation in the next Budget Year.

5. Funding of the financial incentives, established by House Bill 1078, will consist of both federal and state funds. Federal funds awarded to schools receiving an award level will be counted first towards the total dollar allocations established by House Bill 1078. State funds will be used to make up the additional incentive amount to equal the set award, up to the annual allocation of \$200,000 per year.

6. Funding of award levels will follow the USDA Healthier US School Challenge Program and is based on award criteria effective January 1, 2009. Schools receiving their award level after January 1, 2009 will be eligible to receive the financial incentive.

7. Funding Table:

| Award Level | Federal Funds | State Funds | Total Award |
|------------------|---------------|-------------|-------------|
| Bronze | \$ 500 | \$1,500 | \$2,000 |
| Silver | \$1,000 | \$3,000 | \$4,000 |
| Gold | \$1,500 | \$4,500 | \$6,000 |
| Gold Distinction | \$2,000 | \$6,000 | \$8,000 |

8. USDA HealthierUS School Challenge award levels are currently recognized for a period of four years. If a school improves its award level during the four year period of another award level, the school will receive funding for the new award level. Example: If a school is recognized for a Bronze level and two years later applies and is recognized at the Silver level they would receive financial incentives for Silver Level.

In Summary:

School Nutrition Programs must play a central role in modeling good nutrition. These regulations offer schools a standard for improving the nutritional quality of school meals. These recommendations go above and beyond the established standards for the USDA National School Lunch Program. Healthy eating patterns and adequate nutrients are important for school-aged children to promote cognitive development, prevent health problems and reduce under-nutrition which has been linked to increase behavioral and emotional functioning.

4012 Physical Education/Comprehensive Health Education Rules and Regulations

The Mississippi Department of Education understands the relationship between student health and academic achievement. Research supports the relationship between quality physical education programs and the development of social skills, academic performance, increased attendance, and a reduction in discipline referrals. In accordance with Mississippi Code of 1972 Annotated Section 37-13-134 (Mississippi Healthy Students Act) and the Mississippi Public School Accountability Standards, the State Board of Education has adopted the following rules and regulations to support the implementation of quality activity based and health education programs.

DEFINITIONS

Physical Education is a sequentially planned, developmentally appropriate K-12 curriculum and instruction that promotes lifelong physical activity. It helps students develop the knowledge, motor skills, self-management skills, social skills, attitudes and confidence needed to adopt and maintain physical activity throughout their lives.

Quality physical education programs provide opportunities for:

- students to learn the skills necessary to perform a variety of physical activities
- students to know the implications and benefits of participating regularly in physical activity
- students to be physically active

Physical Activity is any movement of the body that expends energy, such as exercise, sports, dance, swimming, lifting weights or other body movements that result in an increased heart rate. Physical activity also includes daily activities like walking programs, recess, etc. Physical activity characterizes all types of human movement that leads to an expenditure of energy; associated with living, work, play, and exercise.

Activity Based Instruction allows students to practice movements learned in a variety of settings that lead to an expenditure of energy and/or support other subject areas.

This instruction could be integrated into the regular classroom setting (See Appendix: Approved Curriculum)

Comprehensive Health Education is a sequentially planned, developmentally appropriate curriculum and instruction based on the Mississippi Comprehensive Health Framework that promotes a healthy lifestyle. It guides students in developing the basic knowledge, decision making skills and ability to obtain valid health information.

IMPLEMENTATION

I. Grades K-8

A. Successful implementation of Physical Education and Comprehensive Health Education must include the following:

- 150 minutes per week of instruction through a combination of physical education, physical activity, and activity based instruction
- 45 minutes per week of health education
- Fitness testing in grade 5 (See Appendix)

B. Standard 33 of the Mississippi Public School Accountability Standards requires physical education to be a part of the basic curriculum in any configuration of grades K-8. The total number of minutes in physical education must not be below 50 minutes per week.

C. In grades 7-8 extracurricular activities, such as basketball, baseball, marching band, show choir, cheerleading, archery, softball, and football that are sanctioned by the Mississippi High School Activities Association and JROTC can be substituted for physical education if:

- attendance is kept; and
- instruction is based on at least one competency from the Mississippi Physical Education Framework; and

Gym space is available for physical education classes. Storage space must also be provided for equipment.

7. Fitness Testing

Students must participate in fitness testing using the FITNESSGRAM®, ACTIVITYGRAM®, President's Challenge to Physical Fitness, or other comparable program. This assessment must be conducted in grade 5 and the grade in which the student will earn the ½ Carnegie unit requirement for graduation. The time required to conduct the fitness assessment would count toward the minutes required for minimum implementation for physical education.

8. School Health Councils

All schools must have established a school health council and the physical education and comprehensive health staff must serve on this council. Duties of this council must include, but not be limited to, conducting a needs assessment and making recommendations based on a coordinated approach to school health. The Office of Healthy Schools recommends the School Health Index as a resource/tool for each council to use for conducting this assessment. For additional resources refer to the Local School Wellness Policy Guide for Development which can be downloaded from the Office of Healthy Schools website at www.healthyschoolsms.org.

4200 McKinney-Vento Homeless Education Dispute Resolution Procedure

The *McKinney-Vento Homeless Assistance Act* acknowledges that disputes may arise between the school district and homeless students and their parent(s)/guardian(s) when the student is placed in a school other than the one requested. Guidance for school selection is provided in the law. The law includes dispute resolution among the required duties of the LEA Liaison.

The following procedures are specified in the Act:

- ✓ Enrollment: Immediately enroll the homeless student in the school preferred by the parents until the dispute is settled.
- ✓ Written explanation: Provide a written explanation of the school placement decision to the parent/guardian or unaccompanied youth.
- ✓ Liaison: The designated LEA liaison is assigned to carry out the dispute resolution in an expeditious manner.
- ✓ It is the responsibility of the school district to inform the parent(s)/guardian(s) of homeless students of the Complaint Resolution Procedures.

The Mississippi Department of Education, Office of Federal Programs, has adopted a complaint resolution process. In a case where a dispute occurs regarding the education of a homeless child or youth, the following process may be used:

Local Level: Every effort must be made to resolve the complaint or dispute at the local level before it is brought to the Mississippi Department of Education (MDE).

- If a question concerning the education of the homeless child arises, the first person to contact in the school district is the homeless liaison. Each school district is required to have a designated homeless liaison, with someone in every school or in the central office for the school district able to identify said homeless liaison. If there is a complaint about services for the homeless student(s), the complainant is to be provided a copy of the local complaint procedure. If the district or public school does not have a complaint procedure in place, the following steps are suggested:

- ✓ The homeless liaison should discuss the complaint with the complainant and the complainant is to be provided copies of the policies that the *local* Board of Education has adopted concerning the education of homeless children and youth

- ✓ A determination is to be made as to whether the requested services for the homeless student are consistent with local school board policy
 - ✓ If the complaint is not resolved, the complainant will be advised to present it in writing to the homeless liaison
 - ✓ A written proposed resolution of the complaint or plan of action is to be provided to the complainant within five (5) days of the date of receipt of the written complaint.
- If the complaint is not resolved at this level within five (5) days, it may be taken to the superintendent of the district the student is attending or wishes to attend. In addition to presenting the written complaint, an appointment will be made for the complainant to meet with the superintendent to discuss the complaint. At the end of the discussion with the superintendent, a written resolution will be provided within five (5) days of the date of the discussion.
 - If the complaint is still not resolved, it may be possible to appeal to the local Board of Education.
- State Level:** If the complaint is not resolved in a satisfactory manner at the local level, the complaint may be directed to MDE. Complaints made under this process must be made in writing and signed by the complainant. The following steps are to be taken:
- Address the complaint to the Mississippi Department of Education, Office of Federal Programs, State Homeless Education Coordinator, 359 North West Street-Ste. 111, P.O. Box 771, Jackson, MS 39205.
 - Include in the complaint:
 - ✓ A description of the situation that prompted the complaint
 - ✓ The name(s) and age(s) of the child or children involved
 - ✓ The name(s) of the involved school district personnel and the school district or districts involved
 - ✓ A description of the attempts that were made to solve the issue at the local level including copies of any documentation used up to that point.
 - The State Homeless Coordinator will gather needed information from statements of the parties involved and will forward the information to the director of the Office of Federal Programs along with a recommendation for resolution or for further investigation.

- Within thirty (30) days after receiving a complaint, the Director of the Office of Federal Programs will recommend a resolution and will inform interested parties in writing of the decision.
- If a complainant or one of the parties involved in the complaint disagrees with the decision, that party may, within ten (10) working days, appeal to the Deputy Superintendent of the Office of Instructional Enhancement and Internal Operations. This appeal must be in writing and state why the party disagrees with the decision of the Director of the Office of Federal Programs.
- Within thirty (30) days after receiving an appeal, the Deputy Superintendent will render a final administrative decision and notify the complainant and the school district(s) involved in writing.

If the party disagrees with the decision of the Deputy Superintendent in a matter concerning homeless children or youth, the party may request a review of the decision by the United States Secretary of Education in accordance with 34 CFR Part 299.11.

While the dispute is being resolved, the child or children in question must be enrolled in school. If the dispute is concerning the school of “best interest,” the child must be enrolled in the school preferred by the parent/guardian or unaccompanied youth unless previous arrangements have been implemented.

4300 Intervention

MDE shall require an instructional model designed to meet the needs of every student. The model shall consist of three tiers of instruction.

- Tier1: Quality classroom instruction based on MS Curriculum Frameworks
- Tier2: Focused supplemental instruction
- Tier3: Intensive interventions specifically designed to meet the individual needs of students

Teachers should use progress monitoring information to (a) determine if students are making adequate progress, (b) identify students as soon as they begin to fall behind, and (c) modify instruction early enough to ensure each and every student gains essential skills. Monitoring of student progress is an ongoing process that may be measured through informal classroom assessment, benchmark assessment instruments and large-scale assessments.

If strategies at Tiers 1 & 2 are unsuccessful, students must be referred to the Teacher Support Team. The TST is the problem-solving unit responsible for interventions

developed at Tier 3. Each school must have a Teacher Support Team (TST) implemented in accordance with the process developed by the Mississippi Department of Education. The chairperson of the TST shall be the school principal as the school's instructional leader or the principal's designee. The designee may not be an individual whose primary responsibility is special education. Interventions will be:

- designed to address the deficit areas;
- research based;
- implemented as designed by the TST;
- supported by data regarding the effectiveness of interventions.

After a referral is made, the TST must develop and begin implementation of an intervention(s) within two weeks. No later than eight weeks after implementation of the intervention(s) the TST must conduct a documented review of the interventions to determine success of the intervention. No later than 16 weeks after implementation of the intervention(s), a second review must be conducted to determine whether the intervention is successful. If the intervention(s) is determined to be unsuccessful, then the student will be referred for a comprehensive assessment.

In addition to failure to make adequate progress following Tiers 1 & 2, students will be referred to the TST for interventions as specified in guidelines developed by MDE if any of the following events occur.

- A. Grades 1-3: A student has failed one (1) grade;
- B. Grades 4-12: A student has failed two (2) grades;
- C. A student failed either of the preceding two grades and has been suspended or expelled for more than twenty (20) days in the current school year;

OR

- D. A student scores at the Minimal level on any part of the Grade 3 or Grade 7 Mississippi Curriculum Test.

Referrals to the Teacher Support Team must be made within the first twenty (20) school days of a school year if the student meets any of the criteria A-D stated above.

4400 Kindergarten Guidelines

The Mississippi Department of Education, subject to approval of the State Board of Education, will develop and disseminate Kindergarten Guidelines to provide direction to school districts in meeting the requirements of Mississippi Code 37-21-1 and standard 23 of the Mississippi Public School Accountability Standards. The *Mississippi Kindergarten Guidelines* may be updated periodically based on changes to national standards. As the

guidelines are revised and approved by the State Board of Education, the modifications will be disseminated to the appropriate individuals in the education community. An up-to-date copy of these guidelines shall be kept on file at the Mississippi Department of Education.

4905 Effective At-Risk Programs

The definition of an effective at-risk program shall be any program designed to target the unique needs of the student in order to allow that student to perform on grade level and ultimately graduate from high school. These programs may be offered before, during or after school, but cannot be any regular course offering available to all students. An example of an allowable program is an after school program designed to accelerate a student's reading grade level. An example of a non-allowable program is a regularly offered English class made up entirely of students currently participating in the free and reduced lunch program.

School districts are required to make annual reports to the Department of Education on the district's programs serving at-risk School Districts shall budget and spend Mississippi Adequate Education Program (MAEP) At-Risk funds, earned as prescribed by Section 37-151-7(1)(d), on effective programs specifically targeted to serve at-risk students. These programs must be in addition to all other regular or required programs offered by the school district to all students. The accounting of the expenditure of these funds shall be as required by the Mississippi School District Financial Accounting Manual as prescribed by the Department of Education.

The definition of an at-risk student will be as determined by each individual school district. Examples of student groups a school district could use as a guideline in making a determination as to whether a student is considered at risk are:

A student who is currently participating in the USDA Free and Reduced Lunch Program (if the school or district is 100 percent free and reduced lunch an additional at-risk determination is required).

A student who is not meeting the requirements necessary for promotion to the next grade level or graduation from high school.

A student who is a potential dropout.

A student who is failing two or more courses of study.

The Department of Education shall review each district's At-Risk program request and based upon the district's ability to logically explain the purpose, stated goals and objectives, and the methodology for determining success of the program will make a determination as to whether the program is a valid use of MAEP At-Risk funds. In the event that the Department of Education determines that the program is not valid then the

Department will notify the district in writing of that determination. The Department of Education will provide assistance to these districts by providing information on programs determined to be valid.

Before a school district can spend MAEP At-Risk dollars on any program targeting at-risk students other than what was originally approved by the Department of Education, the school district must seek approval from the Department. The district's request must include documented research as to the effectiveness of the program.

Districts failing to comply with any requirements of this policy shall be in violation of the Mississippi Public School Accountability Standards and upon determination of a violation the district's accreditation level will be downgraded by the Accreditation Commission.

4906 Selection of Successful School District

From and after November 1, 2009 for the purpose of selecting successful school districts for use in the MAEP base student cost calculations, "successful school district" is the definition of "successful school district" as defined in the State Rating Accountability Rating System adopted by the Board in March 2009.

(Revised 7/2009)

4907 Determination of "inordinately large number of absentees"

To determine "inordinately large" as that term is used in 37-151-103(3) a school district must notify the State Superintendent of Education in writing by December 1 of the current school year of a decrease in attendance and the reason for the decrease in attendance. If the State Superintendent determines that the reason for the decrease in attendance is a result of epidemic, natural disaster, or any concerted activity discouraging school attendance then the following process will be used to determine if there is "an inordinately large number of absentees".

1. The State Department of Education shall divide the school district's months two and three average daily attendance (ADA) by the school district's months two and three average daily enrollment (ADM) for grades kindergarten through 12th grade (exclusive of self contained special education grades) for the current school year to determine the percentage of attendance to enrollment for the current school year.

2. The State Department of Education shall determine the school district's five-year average of the percentage of months two and three average daily attendance to the school district's months two and three average daily enrollment (ADM) for the same grades defined in step 1 above using the last five years of attendance and enrollment data as reported through the Mississippi Student Information System (MSIS). Current year's enrollment and attendance data are excluded from the five-year average calculation.

3. Subtract the result of Step 1 from the result of Step 2. If the resulting percentage is two percent (2%) or greater the district will be considered to have an inordinately large number of absentees.

(Adopted 10/2009)

All construction shall adhere to the current edition of the Standard Building Code, Americans with Disabilities act and all codes and regulations adopted by local jurisdiction.
3. Debt Structure - The debt structure of a school district must be considered when deciding whether to issue new debt and/or to retire or refinance an existing debt.

performance index below 3.5 to indicate how the use of funds will enable them to attain and maintain at least Level III accreditation and not reduce the quality of instruction. Districts with a current performance index of 3.5 and above, that choose Option 3-Long Term Pledge, must provide a detailed explanation that, as a result of this pledge, the quality of instruction in the district will not be reduced and the district has other revenue available to attain and maintain at least Level III accreditation.

The Mississippi Recovery School District shall provide leadership, management and oversight of all school districts that are subject to state conservatorship.

Conservatorship

Whenever the governor declares a state of emergency in a school district, the State Board of Education may assign an interim conservator to the local school district. For states of emergency declared under 37-17-6(11)(b), the State Board of Education may abolish the school district and assume control and administration of the schools formerly constituting

the district and appoint a conservator. The reasons for declaring of a state of emergency in a local school district include, but are not limited to, the following:

- An extreme emergency exists in a school district that jeopardizes the safety, security or educational interests of the children enrolled in the schools in that district and that the emergency situation is believed to be related to a serious violation or violations of accreditation standards or state or federal law;
- If a school district meets the State Board of Education's definition of a failing school district for two (2) consecutive full school years;
- Or in the event that more than fifty percent (50%) of the schools within the school district are designated as Schools At-Risk in any one year;
- A lack of financial resources;
- Withdrawal of the accreditation of a public school district; or
- Failure to meet minimum academic standards as evidenced by a continued pattern of poor student performance.

Corrective Action Plan

As stated in MS Code 37-17-6(20), the conservator appointed to the district shall within forty-five (45) days after being appointed present a detailed and structured corrective action plan to move the local school district out of conservatorship status to the local school board and local superintendent of education if they have not been removed, or if the board and superintendent have been removed, to the local governing authority of the municipality or county in which the district conservatorship is located. A copy of the conservator's corrective action plan shall also be filed with the State Board of Education.

The Mississippi Department of Education has established the following procedures in order to meet the 45 day corrective action plan requirement. The findings from an accreditation audit compiled by the Office of Accreditation will become the conservator's corrective action plan. This detailed plan outlines findings, corrective actions, and recommendations for implementation required to comply with the standards addressed in the *Mississippi Public School Accountability Standards*.

Education Employment Procedures Law

When a district has been placed in Conservatorship, the Education Employment Procedures Law shall not apply to any teacher, principal, superintendent or other professional in the local school district. The Education Employment Procedures Law shall not be applicable in any school district for a full period of time that the state of emergency as declared by the Governor continues to exist.

MEDIA POLICIES

The Department of Education has fostered a close working relationship with the news media in order to promote its programs, projects and operations. To assist in the effort, the Office of Communications has been designated as the coordinating office for all activities regarding news media. All news releases, newsletters, public service

announcements, publicity, promotional materials, advertising (with the exception of advertising for purchasing), graphics, photography, etc. will be originated, produced, disseminated and/or approved by the Office of Communications.

The Office of Communications should be informed of any activity of the Department that may be newsworthy. This includes, but is not limited to, new programs, changes in existing programs, conferences, training sessions, and workshops. This information should be provided to the Office of Communications at least two weeks in advance of the activity.

If any office invites an elected official to speak at a conference, workshop or training, the invitation should be approved by the Office of Legislative Services before the invitation is extended.

All employees have the right as citizens to make statements to the press or news media. However, on those occasions when the employee is officially representing the Department, he or she may not disclose to the press or news media any restricted or confidential information unauthorized by the Office of Communications.

Employees contacted by the media should respond, unless otherwise directed by the office director, within the realm and scope of the individual's responsibility and knowledge. The employee must have been delegated the authority to speak for his or her program by the office director prior to responding to the media. If the question does not pertain to an employee's area or is regarding a policy matter, the reporter should be referred to the Office of Communications. Employees should answer questions factually and promptly, so long as the questions deal with information, not policy. The employee or office should not speak for the Board or the State Superintendent.

Following any contact with the news media, employees should immediately forward the following information to the Office of Communications: the reporter's name, the news organization, the nature of the request, information supplied, and any follow-up that should occur.

PUBLIC RECORDS POLICY

The public records policy of the Department of Education has been adopted in accordance with the Mississippi Public Records Act of 1983, Section 25-61-1, et seq, Mississippi Code of 1972. Within the meaning of this act, the term ‘entity’ shall not be construed to include individuals employed by a public body or any appointed or elected public official.”

Public Records: Public records are defined as “all books, records, papers, accounts, letters, maps, photographs, films, cards, tapes, recordings or reproductions thereof, and any other documentary materials, regardless of physical form or characteristics, having been used, being in use, or prepared, possessed or retained for use in the conduct, transaction or performance of any business, transaction, work, duty or function of any public body, or required to be maintained by any public body.”

Exempt Records: Those records exempt from disclosure under the Public Records Act.

Non-Exempt Records: Those records which are not exempt from disclosure under the Public Records Act.

Fees: By statute, charges are made on a cost-recovery basis. Any person who desires copies of a public record as defined herein but does not officially represent a public body shall be charged the actual cost per page of mechanically reproduced copy. Copies of pages printed on both sides (front and back) shall be considered as two pages. This fee is for the cost of searching, reviewing, and duplicating the public record.

However, if the searching, reviewing, or duplicating of documents or the separating of non-exempt material from documents, etc., containing exempt material requires more than one-quarter hour of work, then the hourly rate can be charged in addition to a mechanical reproduction charge of twenty-five cents (\$.25) per page for any copies desired. The charge for the hours shall be based upon the hourly salary of the lowest paid employee of the Department qualified and available to do the job. In the event the public record is available in computer files and can be obtained through computer use, then the requesting party must pay the charge for the computer use, including programming time and actual computer time as well as any other costs incurred. 6200 Qualified Zone Academy Bonds

Background

Created by The Taxpayer Relief Act of 1997, QZABs are an interest free financial instruments that provide a different form of subsidy from traditional tax-exempt bonds. The difference is that the QZAB bondholder (these include banks, insurance companies and corporations actively involved in the business of lending money as well as any individual or private business) receives a federal income tax credit in an amount equal to a percentage of the face amount of the bond. The local school board will be responsible for the issuance of QZAB debt under existing statutory authority and the repayment of the QZAB principal upon maturity. The credit (interest) rate and maximum maturity (about 14 years under current market conditions) are determined by statutory formulas.

QZABs are to be issued in support of a Qualified Zone Academy. A Qualified Zone Academy is defined to include a public school (not a school district) or academic program within a school that enters into a partnership with one or more local businesses to enhance the academic curriculum, increase graduation and employment rates, and better prepare students for the rigors of college and the workforce under a plan approved by the local school board. Eligible schools must be located in an empowerment zone or an enterprise community or expect to have at least 35 percent or more of their students eligible for free or reduced lunch under the National School Lunch Act. Students in a Qualified Zone Academy must be subject to the same academic standards and assessments as other students educated by the local school system. A Comprehensive Education Plan must be developed by the partnership and must be approved by the board of education of the local school district.

The Department of Education has the responsibility of allocating portions (or all) of the amount of QZAB authority allocated to the State to one or more Qualified Zone Academies. Amounts allocated to the State for a year that are not allocated to Qualified Zone Academies during that year will be carried over and allocated in any subsequent year. The Davis-Bacon Act applies to projects funded with QZABs.

Allocation of QZAB to PUBLIC School Districts

The total amount of QZABs allocated to Mississippi will be available to public school districts that meet established criteria on first-come-first-served basis. The Department will make that determination based on the date and time the QZAB Application is received from the school district. The amount of QZABs available to public school districts will range from a minimum of \$250,000 to a maximum of \$2,500,000.

QZAB Application

The local school district must complete an application in its entirety and submit to MDE as required.

It is the responsibility of the board of education of the local school district to determine whether the purposes for which the QZAB is issued conform to applicable State and Federal Law.

Recipients receive forgiveness if they teach in a geographical shortage area or if they teach a critical subject 100% of the work day in a Mississippi public school approved by the State Board of Education. Designation as a Title I school does not necessarily mean that the school qualifies for teaching forgiveness. It is fully understood that it is the responsibility of the loan/scholarship recipient to seek and secure employment in an area designated as having a critical teacher shortage. Neither the Board nor the State Board of Education assumes the obligation to perform that function. Prospective teachers may contact the Mississippi Teacher Center for placement assistance at

2. Any recipient failing to complete his/her required teaching obligation or educational requirement defined in Sections IV, C and VI, A, shall immediately become liable to the Board for the sum of all loan/scholarship awards made to that person less the corresponding amount of any awards for which service has been rendered, plus interest accruing at the current Federal Stafford Loan rate at the time the person discontinues his/her contractual obligation, except in the case of a deferral debt for cause when there is no employment position immediately available upon a teacher's completion of licensure requirements or in the case of required military service. After the period of such deferral such person shall begin or resume required teaching duties or shall become liable to the Board. If a claim for payment under this subsection is placed in the hands of an attorney for collection, the obligator shall be liable for an additional amount equal to a reasonable attorney's fee.

C. The obligations made by the recipient of this loan/scholarship shall not be voidable by reason of the age of the student at the time of receiving the loan/scholarship.

C. If the recipient fails to repay his/her loan (principal and interest thereon) in 120 or less equal consecutive monthly installments, all principal and interest outstanding, together with costs of collection, shall become immediately due and payable and, demand shall be made by mailing the same to the obligor at the last address furnished by said obligor. Should payment of the sum due not be made in full within thirty (30) days, from the date demand was made, the Contracts and Notes executed by the obligor shall be placed with an attorney for collection, at which point the obligor shall become liable for reasonable attorneys' fees and court costs, in addition to the other sums due and owing.

D. The obligations made by the recipient of the loan/scholarship shall not be voidable by reason of the age of the student at the time of receiving the scholarship.

 4. Immediately upon completion of **REQUIRED** military service, the recipient must elect among the options for repayment or teaching service defined in Section V. and notifies the Board of such election.
 5. If a recipient continues military service for any reason beyond the **REQUIRED** time, then that person shall be declared ineligible for deferment and the remaining unpaid principal and interest shall become due and payable on demand to the Board in equal consecutive monthly installments as determined by the Board, with interest calculated at the current Federal Stafford Loan rate at the time of the occurrence of such event.
- B. If a recipient obligates himself/herself to **VOLUNTARY** military service prior to, during, or after the award under the Critical Needs Teacher Loan/Scholarship program, then that person shall be declared ineligible for deferment and the remaining unpaid principal and interest shall become due and payable on demand to the Board in equal consecutive monthly installments, as determined by the Board, with interest calculated at the current Federal Stafford Loan rate at the time of the occurrence of such event.

interest on the loan is canceled. A recipient is not considered totally and permanently disabled on the basis of a condition that existed before he/she applied for the loan/scholarship, unless the recipient's condition has substantially deteriorated since he/she submitted the loan/scholarship application, so as to render the recipient totally and permanently disabled.

2. After being notified by the recipient or the recipient's representative that the recipient claims to be totally and permanently disabled, the Board shall promptly request that the recipient or the recipient's representative obtain a certification from a physician, who is a doctor of medicine or osteopathy and legally authorized to practice, on a form provided or approved by the Board and other necessary documents as requested, that the recipient is totally and permanently disabled. The Board shall continue collection until it receives the certification or, receives a letter from a physician stating that the certification has been requested and, that additional time is needed to determine if the recipient is totally and permanently disabled. After receiving the physician's certification or letter and other necessary documents as requested and the student is found to be totally and permanently disabled, the Board may not attempt to collect from the recipient.

3. If the Board determines that a loan owed by a recipient, who claims to be totally and permanently disabled, is not eligible for cancellation for that reason, or if the Board has not received the physician's certification and other requested documents, as described in paragraph [B](2) of this section, within 60 days of the receipt of the documents as described in paragraph [B](2) of this section, the Board shall resume collection and shall be deemed to have exercised forbearance of payment of both principal and interest from the date the Board received the documents described in paragraph [B](2) of this section until such a determination of ineligibility is made by the Board.

The State Level Review Board's decision does not change the IEP (individual educational plan) placement decision, rather determines the Educable Child Program's financial involvement regarding the placement. The State Level Review Board will act within five (5) working days of receipt of the student application for assistance.

Financial

General

1. Funds provided under the Educable Child Program will be used for educational costs only.

Private facilities charging less than the proposed maximum proposed daily rate as of the date of approval of this policy will be reimbursed at current (2005-2006 school year) daily rates with allowances for future increases. Future increases will be limited to the percentage increase in the maximum daily rate as calculated by the MDE per the above formula.

If state and federal funding is not sufficient to fund all applicants, there will be a ratable reduction for all recipients receiving state funds under the Educable Child Program.

7202 Teacher Unit Approval (*Repealed 9/2011*)

7203 Teacher Unit Allocation

Teacher Unit Allocation Methodology to Support Programs for Students with Disabilities

The Teacher Unit Allocation Methodology gives consideration to two factors:

I. Educational Placement

II. Levels of Support

Each student will be assigned a weighted value based on these two factors. After calculation of the total number of weighted students, teacher units are determined by the following formula:

Pre-K: 18 weighted units = 1 teacher

K-2: 22 weighted units = 1 teacher

Gr. 3-12: 27 weighted units = 1 teacher

I. Educational Placement

The first factor in determining the teacher unit allocation is the educational placement of students with disabilities. These placements represent options along the least restrictive environment continuum.

Regular Education/Early Childhood Setting

Ages 3-5: Early childhood setting designed primarily for children without disabilities

Ages 6-20: General/regular education classes for more than 80% of the school day.
(Removed from general education for no more than 20% of the school day)

Resourced

Ages 3-5: Special education setting part time; remainder of time at home or in early childhood setting designed for non-disabled children

Ages 6-20: General/regular education placement between 40-80% of the school day
(Removed from regular education for 20-60% of the school day)

Self-Contained

Ages 3-5: Program designed primarily for students with disabilities

Ages 6-20: General education class less than 40% of the school day (removed from regular education for more than 60% of the day)

Levels of Support

The second factor of the proposed methodology is the intensity of specially designed instruction received by the student from an appropriately licensed special education teacher and related services received from an appropriately licensed related service provider (except for transportation services). It is proposed that the following levels of support be reflected in the teacher unit allocation methodology:

Minimal Support: The student receives specially designed instruction/supports for at least one period per week or less than 5 hours per week.

Targeted Support: The student receives specially designed instruction/supports for at least one period per day or 5 to 12.5 hours per week.

Sustained Support: The student receives specially designed instruction/supports for at least half of the school day or more than 12.5 to 24 hours per week.

Intensive Support: The student receives specially designed instruction/supports for the full school day or all but one period per day, or more than 24 to 30 hours per week or more.

Other Instructional Support

Adaptive Physical Educators are specifically trained to make adaptations, modifications, and accommodations in order to provide a safe, successful physical education experience for students with disabilities. The ratio for Adaptive Physical Educators is 48:1 with a minimum of 25. The maximum class size is 48 students.

Speech/Language Pathologists are responsible for organizing and implementing the assessment and services for communication and related disorders through various service delivery models. The ratio for Speech/Language Pathologists is 48:1 with a minimum of 25. The maximum class size is 48 students.

| <i>Educational Placement</i> | <i>Levels of Support</i> | | | |
|---|---------------------------------|------------------------|-------------------------|-------------------------|
| | <i>Minimal</i> | <i>Targeted</i> | <i>Sustained</i> | <i>Intensive</i> |
| | <5 hrs/wk | 5-12.5 hrs/wk | >12.5-24 hrs/wk | 24+ hrs/wk |
| Regular Education (removed less than 21% of the school day) | 1.5 | 2.0 | 2.5 | 3.0 |
| Resourced (removed 21-60% of the school day) | | 1.5 | 2.0 | |
| Self-Contained (removed more than 60% of the school day) | | | 2.0 | 3.0 |

- Transcribing phone calls or meetings.
- Other expenses that is not documented and defined.

Miscellaneous time spent on the case should be included in the hourly rate for conducting the pre-hearing conference and for conducting the hearing.

Additional Considerations Extra time required to educate oneself on an issue should not be passed on as extra cost to the district. Excessive time spent researching the issue will not be considered a necessary component of writing the opinion. If the hearing officer is not familiar with pertinent case law, he/she should request that counsel for both parties submit briefs following the hearing, since clients are already paying for the research to be conducted by their attorneys.

7206 Transportation Management of Students with Disabilities

In the event a school district cannot meet the transportation needs of students with disabilities on a regular school bus route, the State Department of Education will provide funding to the district for transportation of students with disabilities within the district or to the nearest adequate facility outside the district in order to provide appropriate educational services. Payment shall be based upon the following formula: (1/2 of school district's annual per pupil transportation allotment x number of students transported) + (round trip mileage transported x total number of actual days transported x 20 cents per mile).

Payment for transporting children enrolled as resident students at the Mississippi School for the Blind or Mississippi School for the Deaf shall be based on the same formula defined above. School districts may reimburse parents, guardians, etc., for the round trip to the Mississippi School for the Blind or Mississippi School for the Deaf and back home at the beginning of the school year and at the close of the school year. Transportation may also be provided on the same basis any time during the school year when the dormitories

at these institutions are closed. School districts providing transportation for eligible day students assigned to the Mississippi school for the Blind and Mississippi School for the Deaf shall be eligible for funding based on the formula defined above.

If a child enrolled in either the Mississippi School for the Blind or the Mississippi School for the Deaf resides in a school district where there is an appropriate program for that child or where there is an appropriate program within reasonable driving distance which the district will make available to the child, then the transportation cost will be the responsibility of the Mississippi School for the Blind or the Mississippi School for the Deaf (depending upon which school the child is enrolled).

In the event that a state-supported university or college provides a special education program for children from any school district that is unable to meet the educational needs of those children, then the university based program shall be eligible for funding based on the formula defined above. Any assessment of one-half the per-pupil allotment shall be based on the child's resident district.

The maximum distance a student with disabilities may be transported or the maximum length of time for a special education transportation route will depend upon the Individualized Educational Program (IEP) for the respective child.

For the purpose of payment, a student with disabilities is defined as any child properly tested and found eligible for a special education program receiving appropriate educational services as stipulated in the Individualized Educational Program (IEP).

Funding for the transportation of students with disabilities will be determined using prior year transportation data submitted on forms provided by the Mississippi Department of Education and based on the formula defined above.

No private contracts or use of vehicles other than school buses shall be submitted to the State Board of Education for approval.

Drivers transporting students other than members of the driver's immediate families must be trained and properly certified.

7207 State Application Preschool *(Repealed 9/2011)*

7208 University Based Programs

The University-Based Program is authorized in Sections 37-23-31 through 37-23-35 of the Mississippi Code. Any state supported university or college may apply for minimum program funds under these regulations.

1. Procedures

- a. When there is an organized program in a local school district for students with a particular exceptionality, then the university-based program will not enroll a student with that exceptionality from that district in the university-based program except in the following two situations:

- (1) the student is enrolled on a private tuition basis

OR

- (2) (a) if the local district initiates a placement because an IEP committee in that district has determined that the organized program in that district is not appropriate for that student,
(b) that university-based program is an appropriate placement for that student, and
(c) the IEP committee places that student in the university-based program.

Yearly placement decisions relative to whether a handicapped student is to be placed in a university-based program by a local district continue to be the responsibility of that local district.

- b. No later than April 15 each year, the State Department of Education (SDE) staff will notify the university-based program staff relative to which local school districts in the area served by the university-based program have organized programs for the exceptionalities currently being served in that university-based program. If a parent requests a university-based program to serve an exceptional child from a local school district that has an organized program, the university-based program staff will notify the parent that they are prohibited by state law from duplicating the program available in the local school district and will inform the local district of that child's need for educational service.
- c. When the university-based program staff is requested by a parent to serve an exceptional child from a local school district that does not have an organized program for that exceptionality, the child may be enrolled in that university-based program following SDE guidelines that apply to other state agencies. In that case, the university-based program is totally responsible for the education of that child including development of the IEP. It is suggested that local school district special education staff be kept abreast of the progress of this child and it is permissible for university-based program staff to invite district staff to IEP meetings.
- d. In the event there is a question as to whether the local district has an organized program for a particular exceptionality, the university-based program staff may contact the SDE staff responsible for the university-based program for a decision.
- e. An organized program is a program approved by the SDE serving a particular age range and exceptionality or exceptionalities. When

the local school district has such a program and a child in that age range and with that exceptionality is identified, an IEP committee in that district makes the decision as to whether that organized program is appropriate for that child. No other entity can make that decision.

2. Application Steps

- a. Identify a teacher for this class(es) certified in accord with State Department of Education regulations.
- b. Identify a classroom facility in which to locate the class. It should be approximately the same size as a regular classroom in a public school district.
- c. Submit a proposal to the Bureau of Special Services describing the program according to regulations.

Upon receipt of this proposal, Bureau of Special Services personnel will review it and either approve it or work with university/college personnel to get it in an approvable form. The Bureau Director will write a letter indicating approval of acceptable proposals and indicating that university/college personnel may proceed with implementation. In the event that teacher certification and number of eligible children is not available when the proposal is submitted, tentative approval will be given until such time as this information is received.

During the implementation of a program, following proposal approval, it will be necessary for the university/college to submit a Class Data Sheet. This submission will occur each year. Any time the program changes, the proposal must be amended.

The Outline for the proposal which is to be submitted to the Bureau of Special Services is as follows:

- (1) Title of the Program
- (2) General Information
 - (a) Number, age and exceptionality of students
 - (b) Length of School Day (must be full day program to receive full funding)
 - (c) Number of teachers requested, teacher's name (if available) and certification (if available)
 - (d) Location and description of the classroom(s)
- (3) A list of program objectives
- (4) An outline of program evaluation criteria
- (5) A copy of the university/college approved policies and procedures as required
- (6) An assurance that the university/college will comply with all applicable State Department of Education regulations relating to programs for handicapped

children (it is the responsibility of personnel who operate this program to be familiar with all regulations).

7209 504 Program (*Repealed 9/2011*)

7210 Special Grant Selection Criteria

If during the school year a special education class exceeds the maximum enrollment according to the regulations in the Referral to Placement Handbook, Part II, a request for an exemption will be submitted to the State Department of Education. The maximum class enrollment for each type of special education program is as follows:

| | | |
|----|---|----|
| 1. | Resource Program | 18 |
| | Self-Contained Program | 14 |
| | Home/Hospital Program | 8 |
| | Language/Speech Program | 60 |
| | Preschool (ages 3-5) Home-Based Program | 16 |
| | Preschool Community-Based Program | 16 |
| | Preschool Combination of Home-Based and Community-Based Program | 16 |
| | Preschool School-Based, Full-Day Program | 14 |
| | Preschool School-Based, Single Half-Day Program | 14 |
| | Preschool School-Based, Two Half-Day Programs | 24 |

1. The request will describe the situation and provide justification as to why the exemption should be approved to include at a minimum the following:

- * the number of special education teachers in that school who serve students with disabilities, the enrollment of each teacher; and why appropriate services cannot be provided by one of those teachers in that school,
- * a clear description of why an additional class cannot be added to take care of the overload,
- * whether there is a school reasonably close by to which the children over the maximum could be transferred, and
- * other emergency, hardship, or special situations which justify the exemption.

2. State Department of Education staff (Exemptions Committee) will review the request for exemption and make a recommendation to the State Board as to whether it should be granted.

3. The State Board will consider requests at its monthly meetings.

4. A school district may appeal the denial of an exemption by requesting to appear before the State Board at its next meeting.
5. The State Board's decision on an appeal is final.

(Adopted 8/1993)

7211 Exemptions, Maximum Enrollment

Designated state Educable Child Program funds from the Mississippi Department of Education (MDE) may be utilized to assist in providing a local or regional system of care in order to return a child with a serious emotionally disturbed disability to a community setting. Designated funds are the state moneys available to pay for the placement of a child who 1) has a disability and is diagnosed as seriously emotionally disturbed in accordance with regulations, and 2) has been placed in a private facility by a school district or the Department of Human Services (DHS), in accordance with regulations.

The designated state funds which would be used for a child's placement in a facility by a school district or DHS may be paid into a pool of funds from other state agencies. Such funds must be used for the implementation of a child's individualized plan of care. The individualized plan of care provided must be designed and provided in a manner which enables the child to successfully return to a community with the appropriate support for the child and family. The child's individualized plan of care must include the provision of a free appropriate public education in accordance with regulations. If there are sufficient funds to serve other children, due to cost savings as a result of serving more than one child at home and/or matching the pooled funds with federal dollars, the funds may be used to implement individualized plans of care for other children.

To ensure state funds from MDE are expended in a manner which will provide appropriate educational services, the information listed below must be submitted by the lead agency responsible for coordinating the system of care. The following information must be submitted to the Office of Special Education for approval prior to funds being paid:

1. A description of the local or regional system of care to be implemented including the responsibilities of each state agency and the school district(s) involved in the system,
2. The amount of funding to be provided by each state agency for the system of care and an assurance that the funds necessary to implement the system will be available,
3. The timeline for implementing the system of care,
4. The individualized plan of care for the child including the specific plan for support to ensure a free appropriate public education is provided, and

5. An assurance from the school district involved in the provision of the educational program for the child that an Individualized Education Program has been developed and services can and will be implemented in accordance with regulations.

If the school district responsible for providing a free appropriate education does not agree that an educational program can be provided for the child through a system of care, funds from the MDE for that particular child will not be utilized to support the system.

If, for any reason, during the implementation of the individualized plan of care, the district cannot meet the child's educational needs, the MDE, Office of Special Education must be notified by the district prior to an alternate out-of-district placement being made. The Office of Special Education will then determine the reason(s) for the child's plan not being effective and notify the lead agency responsible for coordinating the system of care that the educational needs of the child can no longer be met by the district. If the district originally placed the child in a facility outside of the district, it will be responsible for determining the appropriate placement for the child. Such placements must be made in accordance with regulations. The district will be responsible for paying \$6,000 or 10%, whichever is greater, of the total cost of such a placement as required by regulations. Federal funds will be utilized to pay the remaining cost of such a placement in accordance with regulations.

If DHS originally placed the child in a facility, it will be responsible for the placement of the child in an alternate setting based on the recommendation of the child's IEP committee. The MDE, Office of Special Education will coordinate such a necessary placement with DHS.

(Adopted: 8/1994)

7212 Extended School Year

I. GENERAL MISCONCEPTIONS

Careful study of the Crawford case, specifically including the Fifth Circuit's opinion, eliminates some misconceptions. An extended school year is:

1. not a mandated 12 month school program for all students with disabilities,
2. not required just because a students with disabilities could benefit from it,
3. not required in order that child care be available for students with disabilities during the summer,
4. not required as a means of maximizing the educational opportunities for each student with a disability,
5. not necessarily a continuation of the instructional program provided during the regular school year,
6. not required to be provided all day, every day, nor each day during the week or month,

7. not for more mildly students with disability (based on level of functioning), and
8. not necessarily a traditional teacher/classroom/child operation.

II. DEFINITIONS

1. Regular School Year - must be a minimum of 180 school days.
2. Extended School Year - any individualized instructional program which is extended beyond the regular school year for students with disabilities who are enrolled in a school district's special education program.
3. Mastery - the successful demonstration of an acquired skill, at the designated level of proficiency specified in the evaluation criteria defined for that skill, in the student's IEP.
4. Regression - the loss, as a result of a scheduled break in instruction, of one or more mastered skills included in the short-term objectives of the student's IEP.
5. Recoupment - following a scheduled break in instruction, the process of regaining a previously mastered skill through review and reteaching.
6. Recoupment Time - the length of time required to regain previously mastered skills.
7. Regression-Recoupment Syndrome - the name applied to the belief that, following a scheduled break in instruction, a student will have lost one or more mastered skills and that it will take varying lengths of time to relearn those skills.
8. No Educational Benefit - regression because of summer vacation to such an extent that:
(a) following review and reteaching, recoupment of one or more mastered skills does not occur during the first ten (10) weeks of instructions in the next school year or (b) the loss of one or more acquired critical skills addressed in the current IEP would be unusually substantial and severe.

NOTE: For a child who is not in regular attendance, during the first ten (10) weeks of instruction, sufficient time may be added to the recoupment period to make sure that the child has received ten (10) weeks of instruction.

III. POLICY

A review of the literature, as well as practical experience, indicates that both students with disabilities and students without disabilities regress during breaks in instruction. The amount of regression and the length of time required to recoup previously mastered skills varies widely among all students.

It is the policy of the State Department of Education that when necessary to insure a free appropriate public education (FAPE), each local school district shall offer an extended school year to those students with disabilities whose Regression-Recoupment Syndrome is so severe that it can be predicted that they will have gained no educational benefit from their previous year's educational program (as defined in the IEP) without an extended school year. The purpose of the extended program is to maintain each student's mastered skills so that the summer vacation periods will not render the previous year's educational program of no educational benefit.

IV. PROCEDURE FOR SELECTION

A. General

The need for an extended school year must be considered on at least an annual basis at an IEP meeting. The IEP Committee must review available data relative to the student's mastered skills and educational history. Based on this review, the IEP Committee must predict whether the regression that will occur because of the lengthy break in instruction (summer vacation) will be to such a marked degree that recoupment of a previously mastered skill(s) will not occur during the first ten (10) weeks of instruction in the following school year or the loss of one or more acquired critical skills addressed in the current IEP would be unusually substantial and severe. It is possible that the extended school year may only include the maintenance of skills previously mastered as a result of a related service if loss of that skill will result in no educational benefit. Generally speaking, students with disabilities who require an extended school year will have severe problems in one or more of the following areas:

- (1) physical, emotional, communication, and self-help and
- (2) will need intensive instruction, including related services, across several of these areas. Conversely, when one considers how more mildly students with disabilities function and what expectations are for them, it is likely that very few of them will require an extended program to derive educational benefit during the regular school year.

B. Suggested Data to be Reviewed at the IEP Meeting The following list contains some of the information which may be helpful when preparing to make the decision about an extended school year:

1. current and previous IEP,
2. checklists/curricula or other records showing when skills were mastered,
3. attendance information,
4. recommendations from professionals,
5. behavioral logs,
6. video/audio tape information,
7. other assessment data.

C. Using the Data for Decision Making After gathering available data, consider the following while making the decision as to whether an extended school year is to be provided for the child:

1. Compare the mastery of IEP objectives prior to previous summer breaks with performance after summer breaks. If little or no regression was measured, then there is no indication of the need for extended programming.
2. If regression was noted and instruction was provided to reteach skills which were lost,

note the time required for recoupment. If IEP objectives mastered the previous year were not recouped during the first time (10) weeks of instruction in the next school year or it is projected that the loss of one or more acquired critical skills addressed in the IEP would be unusually substantial and severe, the child is eligible to receive an extended school year.

3. Make sure that significant regression-recoupment in the past occurred because of extended breaks in instruction. Make sure that the regression was not caused by a lengthy absence or failure to review and reteach previously mastered skills. Significant regression-recoupment problems based on this information would not necessarily indicate the need for an extended school year.

4. Some skills which were mastered in the previous year's program may be of minimal importance to higher levels of functioning and may no longer be in need of emphasis. Predicted loss and lengthy recoupment of these skills would probably not indicate the need for an extended school year.

5. When determining the content of the extended school program, only mastered skills will be considered for inclusion in the extended year program.

6. If a prediction of significant regression-recoupment problems cannot be made because the previous year's data is unavailable, an extended school year may be recommended if other data indicate the probability of significant regression-recoupment problems. In such cases, there should be recognized research which supports the decision. You may also consider what regression occurred during scheduled holidays and other times when the student was out of school for a week or more. This option should only be used for students who exhibit severe problems.

7. Determine whether performance within specific developmental areas, as identified on the IEP, is in an accelerated critical phase of acquisition so that the summer interruption in educational programming would cause significant problems in the mastery of that skill and subsequent skills.

8. If the IEP Committee determines that there is documentation that there is one or more critical skills addressed in the current IEP objectives and that loss of these acquired critical skills would be unusually severe or substantial, then ESY may be justified without consideration of the time period for recoupment of such skills.

9. A skill is critical when the loss of that skill is projected to result in any of the following unplanned occurrences during the first ten (10) weeks of the next regular school year:

- * Placement in a more restrictive instructional environment,
- * Significant loss of self-sufficiency in self-help areas as evidenced by an increase in the number of staff required to provide special education or related services, and/or
- * Loss of access to on-the-job training or productive employment.

V. DOCUMENTING THE DECISION On at least an annual basis at an IEP meeting, the decision regarding ESY services must be documented and maintained in the student's file. This decision is not irreversible. At anytime that data maintained on the student indicates that the ESY decision was incorrect, IEP revision procedures must be followed to change the decision.

When it is determined that a student meets the criteria for an extended school year, the specific skill(s) to be maintained must be identified on the IEP. The IEP Committee must also address the amount of time per day, the number of days per week and the number of weeks that the instruction will be provided to maintain the skills. While students who require an extended school year generally need intensive instruction during the regular school year to show progress it is probable that mastered skills can be maintained across the summer with less instruction.

If a related service is required for educational benefit during the Extended School Year, skills to be maintained must be those listed within the IEP.

VI. POSSIBLE DELIVERY SYSTEMS

The IEP Committee must consider the unique needs of each student when deciding the type of educational programs required to maintain mastered skills. Some alternatives the district might consider are:

- (1) the traditional classroom,
- (2) an abbreviated school day or week,
- (3) individual therapy (physical, occupational, counseling...),
- (4) tutorial services,
- (5) in-home training,
- (6) continuation of private placement, or
- (7) contractual agreements with other agencies. Educational programs must be provided by appropriately certified/licensed personnel.

(Revised 8/2011)

7213 Medicaid Placements

Procedures for Financial Assistance When a Child With a Disability is Certified By Designated State Authority (Department of Health and Division of Medicaid) As Requiring Inpatient Care In An Intermediate Care Facility for the Mentally Retarded (ICF-MR) or in a Psychiatric Residential Treatment Facility with Medicaid Reimbursement:

1. A private facility must gain approval by the State Department of Education, Bureau of Special Services, to provide appropriate special education and related services under the Educable Child Program. The school within the private facility must obtain an approval status from the SDE, Bureau of Special Services, and be operated as an integral part of the facility which provides twenty-four (24) hours a day monitoring, treatment, and education. The private facility must also hold a current license from the department of health designating approval as an ICF-MR facility or psychiatric residential treatment facility.
2. The Division of Medicaid must certify a child with a disability as requiring inpatient care in an ICF-MR facility with Medicaid reimbursement or in a psychiatric residential treatment facility with Medicaid reimbursement.
3. An appropriate Individualized Educational Program (IEP) must be developed in accordance with regulations and must specify the name of the approved private facility in which the child is placed for services. No financial assistance will be provided until the child has a current eligibility ruling by an approved Mississippi Screening Team, a current IEP developed according to regulations, and is receiving the services outlined on the IEP by appropriately certified personnel as defined in regulations. Also, prior to financial assistance being provided, the approved private facility must hold a (Department of Health) current license by the designated state authority (Department of Health) as an ICF-MR facility or as a Psychiatric Residential Treatment Facility. Also, each child participating in this program must have a current determination by the designated state authority (Division of Medicaid) as requiring inpatient care in an ICF-MR facility with Medicaid reimbursement or Psychiatric Residential Treatment Facility with Medicaid reimbursement. A current copy of all items listed above must be on file in the office of the consultant for the Educable Child Program at all times for each child per school year for financial assistance to be received.
4. The private facility official or duly authorized designee will complete/obtain and submit the following:
 - (a) The School Approval Application Packet,
 - (b) A copy of the child's current certification by Division of Medicaid which specifies the requirement of inpatient care in an ICF-MR facility or Psychiatric Residential Treatment Facility,
 - (c) A current Mississippi eligibility ruling for a disability by a Screening Team and a current IEP developed in accordance with regulations,
 - (d) The Application Form for Financial Assistance, SDE-BSS-F11, and,

- (e) A copy of the child's current Pupil Personal Data Form, and a copy of the current Assessment Team Report.
- 5. Following a full review of the date listed in number 4 above, the facility official will be notified in writing by the Mississippi State Department of Education as to the approval/disapproval of the child for tuition and fees reimbursement in accordance with statutes and regulations.
- 6. Deadline dates for applying for financial assistance are as follows:
 - (a) FIRST QUARTER (Beginning of School through November): Due the first working day in November; This deadline will be extended to January 30, 1993, for the 1992-93 school year only due to development of regulations.
 - (b) SECOND QUARTER (December through February): Due the first working day in February
 - (c) THIRD QUARTER (March through the remainder of the School Year): Due the first working day in May

If required data is not received by the Mississippi State Department of Education by these due dates, funding will not be approved for that quarter.

- 7. If a child approved for financial assistance is removed from the facility, no longer determined certified as requiring inpatient care in an ICF-MR facility or psychiatric residential treatment facility with Medicaid reimbursement, no longer eligible as having a disability, no longer receiving special education or related services in accordance with a current IEP, OR the private facility is no longer licensed as an ICF-MR facility or psychiatric residential treatment facility with Medicaid reimbursement, the private facility director must notify the Mississippi State Department of Education, Bureau of Special Services in writing of these changes immediately.
- 8. Educable Child funds are appropriated and are to be utilized for tuition and fees necessary to provide special education and related services by appropriately certified personnel during the school year in accordance with regulations.

The school year is defined according to the calendar dates indicated by the facility director for the regular school session in the School Approval Application. No financial assistance shall exceed the obligation actually incurred by the applicant for tuition and fees. No duplication of requests for financial assistance or payments regarding tuition and fees shall be made by the facility.

9. State funds will be used to pay up to \$3,000 of the total cost of the required placement per child per school year if an approved private school operates as an integral part of the facility which provides twenty-four (24) hours a day monitoring, treatment, and education. If state moneys are not sufficient to fund all applicants, there will be ratable reduction for all recipients receiving state funds under the Educable Child Program.

(Adopted 1/1993)

7214 Pooling State Funds

Designated state Educable Child Program funds from the Mississippi Department of Education (MDE) may be utilized to assist in providing a local or regional system of care in order to return a child with a serious emotionally disturbed disability to a community setting. Designated funds are the state moneys available to pay for the placement of a child who 1) has a disability and is diagnosed as seriously emotionally disturbed in accordance with regulations, and 2) has been placed in a private facility by a school district or the Department of Human Services (DHS), in accordance with regulations.

The designated state funds which would be used for a child's placement in a facility by a school district or DHS may be paid into a pool of funds from other state agencies. Such funds must be used for the implementation of a child's individualized plan of care. The individualized plan of care provided must be designed and provided in a manner which enables the child to successfully return to a community with the appropriate support for the child and family. The child's individualized plan of care must include the provision of a free appropriate public education in accordance with regulations. If there are sufficient funds to serve other children, due to cost savings as a result of serving more than one child at home and/or matching the pooled funds with federal dollars, the funds may be used to implement individualized plans of care for other children.

To ensure state funds from MDE are expended in a manner which will provide appropriate educational services, the information listed below must be submitted by the lead agency responsible for coordinating the system of care. The following information must be submitted to the Office of Special Education for approval prior to funds being paid:

1. A description of the local or regional system of care to be implemented including the responsibilities of each state agency and the school district(s) involved in the system,
2. The amount of funding to be provided by each state agency for the system of care and an assurance that the funds necessary to implement the system will be available,
3. The timeline for implementing the system of care,

4. The individualized plan of care for the child including the specific plan for support to ensure a free appropriate public education is provided, and
5. An assurance from the school district involved in the provision of the educational program for the child that an Individualized Education Program has been developed and services can and will be implemented in accordance with regulations.

If the school district responsible for providing a free appropriate education does not agree that an educational program can be provided for the child through a system of care, funds from the MDE for that particular child will not be utilized to support the system.

If, for any reason, during the implementation of the individualized plan of care, the district cannot meet the child's educational needs, the MDE, Office of Special Education must be notified by the district prior to an alternate out-of-district placement being made.

The Office of Special Education will then determine the reason(s) for the child's plan not being effective and notify the lead agency responsible for coordinating the system of care that the educational needs of the child can no longer be met by the district. If the district originally placed the child in a facility outside of the district, it will be responsible for determining the appropriate placement for the child. Such placements must be made in accordance with regulations. The district will be responsible for paying \$6,000 or 10%, whichever is greater, of the total cost of such a placement as required by regulations. Federal funds will be utilized to pay the remaining cost of such a placement in accordance with regulations.

If DHS originally placed the child in a facility, it will be responsible for the placement of the child in an alternate setting based on the recommendation of the child's IEP committee. The MDE, Office of Special Education will coordinate such a necessary placement with DHS. The MDE will be responsible for the educational costs and DHS will be responsible for the room and board cost as specified in state law and regulations.

7400 Teachers

7401 Awards

The Mississippi Teacher of the Year Program recognizes outstanding achievement and performance by our public school teachers. Each local school district has the opportunity to honor its teachers and nominate one for the state title. The 1995 Mississippi Teacher of the Year must be a certified classroom teacher (K-12) in a state-accredited public school who plans to teach next year. The teacher should have superior ability to inspire students, should possess leadership capabilities, and should be an active member of the community.

Official entry forms and instructions will be mailed to each district's central office. The local Teacher of the Year entry form, signed by the local superintendent, is returned to the Mississippi Department of Education for judging during the summer. Five finalists (one from each Congressional District) are chosen and a selection committee visits the classroom of each near the beginning of the school year. The teacher selected as the Mississippi Teacher of the Year will be the state's nominee for National Teacher of the Year.

Entries are limited to one per school district. These are judged on a biography, professional development activities, community involvement, philosophy of teaching, insight on education issues and trends, personal teaching style, comments on the teaching profession, letters of recommendation, and how one would handle the duties of National Teacher of the Year.

The Mississippi Teacher of the Year Program is sponsored by the Mississippi Department of Education, Southern Educators Life Insurance Company of Atlanta, Georgia, and Bryan Foods, Inc. of West Point, Mississippi. The national program is sponsored by the Council of Chief State School Officers and Encyclopedia Britannica.

The Mississippi Teacher of the Year (TOY), alternate and finalists receive the following honors and awards:

- \$5,000 for the state TOY from the Mississippi Department of Education, if approved;

- \$500 for the alternate and \$250 for regional finalists from Southern Educators;
- \$500 for the state TOY and \$250 for the TOY's school from Bryan Food;
- a set of encyclopedias from the Britannica Company (TOY only);
- a dinner honoring all five teachers and their guests, hosted by Southern Educators;
- TOY and alternate receive formal recognition at a State Board of Education meeting;
- TOY and finalists included in the Milken Educator Award Pool.

7405 Moving Expense

In accordance with Mississippi Code Section 37-159-5, the Department of Education will reimburse the moving expenses for teachers who enter into a contract with a school district situated within a geographical area of the state that is designated by the Mississippi Board of Education as having a critical shortage of teachers. The moving expenses will only be reimbursed if the contract for employment necessitates the relocation. Employment which necessitates the relocation of a teacher is defined as being greater than or equal to a thirty mile radius. It is not required that the actual residence to which the teacher relocates be within the boundaries of the school district which has executed a contract for employment. However, the teacher must relocate within the boundaries of the State of Mississippi.

To be eligible for the reimbursement, the teacher must apply to the school district and the school district must obtain prior approval from the Department of Education for reimbursement before the relocation occurs. The school superintendent will request prior approval by completing and submitting the form Request of Prior Approval from the Department of Education for Reimbursement of Teacher Moving Expenses. The Department of Education will timely notify the school superintendent of its action on the request. Upon approval, the Department of Education will provide funds to the school district to reimburse the teacher an amount not to exceed \$1,000 for documented actual expenses incurred for relocation. The school superintendent will request reimbursement by completing and submitting the form Reimbursement for Moving Expenses. Upon receipt of the funds, the school superintendent will reimburse the teacher accordingly.

Eligible moving expenses consist of:

- Professional moving companies (documented by actual invoice which indicates a zero balance or paid in full.)
- Persons employed to assist with the move (documented by original receipts or canceled checks (front & back) or notarized statement signed by both the person employed to assist with the move and the individual moving.)
- Rented moving vehicles or equipment (documented by actual invoice which indicates a zero balance or paid in full.)
- Mileage in the amount authorized for state employees under Section 25-3-41, Mississippi Code of 1972 (Ann.), if the teacher uses his/her personal vehicle or vehicles for the move, limited to the shortest distance - one trip - one way only
- Hotel expense incurred during the move not to exceed \$75.00, limited to one night. (documented by actual invoice which indicates a zero balance or paid in full.)
- Meal expense incurred during the move not to exceed \$30.00 per day, limited to two days. (documented by actual meal receipts.)

No teacher may be reimbursed for moving expenses on more than one (1) occasion. Two or more teachers who have the same initial address and are moving to the same anticipated address are considered one household, and therefore only one teacher may claim moving expense reimbursement, not to exceed the \$1,000 maximum allowable reimbursement.

7608 Setting Subject-Level Standards for State Assessments

STEP 1. Descriptor Development

General student performance level descriptors are relatively broad and are used across grade levels and subject areas. These descriptors answer questions such as, "What does it mean for a student to be advanced, proficient, basic, or minimal on the test?" General descriptors have been written for the following (see below):

- Performance levels for State Assessments :
 - Advanced
 - Proficient
 - Basic
 - Minimal
- Pass/Fail Scores for the SATP: Algebra I, Biology I, English II , U.S. History from 1877

A committee of practitioners will assist the Department of Education in developing performance level descriptors that are grade, subject, and course specific.

STEP 2. Public Review of Descriptors

This process will ensure broad-based input from educators, parents, community leaders, and other stakeholders in the development of student-level standards. Public comment required by the Administrative Procedures Act will serve as the means for collecting broad-based input.

STEP 3. Standard Setting for State Assessments

This process will establish points on the score scale that differentiate the performance levels.

STEP 4. Technical Advisory Committee Review

The Technical Advisory Committee reviews the results of the standard setting process.

STEP 5. Mississippi Board of Education Approval of Student-Level Standards.

The Mississippi Board of Education approves the points on the score scale that differentiate the performance levels.

General Performance Level Descriptors:

| Performance Level | General Descriptor |
|-------------------|---|
| Advanced | Students at the advanced level consistently perform in a manner clearly beyond that required to be successful <u>in the grade or course in the content area</u> . <u>These students are able to perform at a high level of difficulty, complexity, or fluency as specified by the content standards.</u> |
| Proficient 1 | Students at the proficient level demonstrate solid academic performance and mastery of the knowledge and skills required for success <u>in the grade or course in the content area</u> . <u>These students are able to perform at the level of difficulty, complexity, or fluency as specified by the content standards.</u> Students who perform at this level are prepared to begin work on even more challenging material that is required in the next grade or course in the content area |
| Basic | Students at the basic level demonstrate partial mastery of the knowledge and skills <u>in the grade or course in the content area</u> and may experience difficulty in the next grade or course in the content area . <u>These students are able to perform some of the content standards at a low level of difficulty, complexity, or fluency specified by the content standards.</u> Remediation <u>is recommended</u> for these students. |
| Minimal | Students at the minimal level <u>inconsistently demonstrate</u> the knowledge or skills that define <u>basic level performance</u> . These students require additional instruction and remediation in the <u>knowledge and skills</u> that are necessary for success <u>in the grade or course in the content area</u> . |
| | ¹ <i>The goal is for all students in Mississippi to perform at the proficient level or above.</i> |

¹ *The goal is for all students in Mississippi to perform at the proficient level or above.*

7610 Subject Area Testing Program Appeals Process

Appeal for Rescoring

When a student, parent, or district personnel has reason to believe that, due to a scoring error, a student who did not pass a Subject Area Test should have passed the test, an appeal for rescoring may be made.

Process:

1. The student, parent or district personnel must submit a written statement with supporting information outlining why the applicant thinks he/she should have passed the test.
2. The initial appeal is submitted at the local level for determination of merit.
3. A local decision is made to forward the appeal to the state level for consideration or to deny the appeal.
4. If the appeal is denied at the local level, the appeal can be submitted directly to the state level for consideration.
5. Direct appeals and appeals forwarded from the local level are considered at the state level, and a decision is made to grant the appeal or to deny it.
6. Any request for rescoring must be submitted no later than one calendar year from the time of the receipt of score reports in the district.
7. If the rescoring determines that a scoring error occurred that results in the student passing the test, the testing company will bear the cost of the rescoring. If the rescoring does not determine that a scoring error occurred, the costs associated with rescoring will be borne by the school district in which the student took the test in question.

II. Appeal for an Alternative Assessment as a Substitute Evaluation

Appeals Process:

- The Appeal for an Alternative Assessment as a Substitute Evaluation may not begin until a student has scored within one scale score point of the passing cut score on the same subject area content test on any three separate occasions (i.e., initial test, first retest, second retest, or any other combination) and has participated in remediation designed to assist students in passing the appropriate subject area test.
- The student or parent may request an appeal to be initiated by a teacher, or a teacher may initiate an appeal. The teacher may deny a request from a student or parent if, in the teacher's professional opinion, there is no basis for the appeal. The student's teacher for the specific subject area course or a course in the same content at a higher level must be the teacher involved in the appeal process. To initiate an appeal the teacher must confirm the student has met the testing criteria outlined above and then submit a portfolio of student work that demonstrates the student's mastery of the course content accompanied by a letter of recommendation to the principal of the student's school.
- This portfolio will consist of documentation that supports student mastery at the expectation defined by the curriculum framework and will be submitted in

accordance with the requirements for the Alternative Assessment for Subject Area Tests, a process available only to students with an IEP. The composition of the evidence portfolio must address the course-specific framework competencies and objectives for the relevant subject area test.

- The teacher must sign the Ethics in Data Collection Form for the Appeal for an Alternative Assessment as a Substitute Evaluation to accompany the portfolio.
- The teacher's letter of recommendation, the portfolio, and the Ethics in Data Collection Form must be reviewed and agreed to as accurate by the school principal and district superintendent. If the portfolio is found not to substantiate the appeal, the appeal may be denied by the principal and/or district superintendent. If the principal and superintendent support the appeal, they must also sign the Ethics in Data Collection Form.
- If the appeal is approved by the superintendent, the district test coordinator will then review the appeal and verify that all requirements of the Appeal for an Alternative Assessment as a Substitute Evaluation have been met. The district test coordinator will submit the student portfolio including the teacher's letter of recommendation and the Ethics in Data Collection Form, which the district test coordinator must also sign, to the Office of Student Assessment by March 30 in the year that the student is anticipated to graduate or at any time following the student's meeting criterion (a).
- If the results of the review of the portfolio determine that the student has demonstrated mastery of the curriculum, a passing score will be substituted for a failing score on the standard statewide subject area test, and the Mississippi Department of Education will bear the cost associated with the review.
- If the results of the review of the portfolio do not determine that the student has demonstrated mastery of the curriculum, the student must continue participating in subsequent standard statewide assessment administrations. In this case, the costs associated with the review of the portfolio will be borne by the school district that submitted the appeal.
- If the Appeal for an Alternative Assessment as a Substitute Evaluation is denied and the student continues to participate in subsequent standard statewide assessment administrations, the teacher may again initiate an appeal, or a student or parent may request another appeal, following any subsequent retest opportunity that results in the student's again scoring within one scale score point of the passing cut score.

7907 Inspection of Buses (Emergency Removal)

In the event a school district is found to be operating school buses determined to be in such defective condition as to constitute an emergency safety hazard and posing a threat to the health and safety of the pupils being transported in that district, then appropriate representatives of the Office of Safe and Orderly Schools, Division of Transportation shall be authorized to immediately condemn and remove from service any such school bus(es). Such bus(es) shall be properly repaired by the district and re-inspected and approved by representatives of the Office of Safe and Orderly Schools, Division of Transportation prior to the bus(es) being re-instated to service. The types of defects that may result in the condemnation and removal from service of any school bus are listed below.

Serious defects in the following mechanical and safety components of a school bus may result in that bus being condemned and removed from service:

1. Brake system
2. Steering and suspension systems
3. Fuel and exhaust systems
4. Ignition and electrical systems
5. Lubrication and cooling systems
6. Engine and power train
7. Tires and wheels

7908 Transportation Management of Students with Disabilities

In the event a school district cannot meet the transportation needs of students with disabilities on a regular school bus route, the State Department of Education will provide funding to the district for transportation of students with disabilities within the district or to the nearest adequate facility outside the district in order to provide appropriate educational services. Payment shall be based upon the following formula: $(1/2 \text{ of school district's annual per pupil transportation allotment} \times \text{number of students transported}) + (\text{round trip mileage transported} \times \text{total number of actual days transported} \times 20 \text{ cents per mile})$.

Payment for transporting children enrolled as resident students at the Mississippi School for the Blind or Mississippi School for the Deaf shall be based on the same formula defined above. School districts may reimburse parents, guardians, etc., for the round trip to the Mississippi School for the Blind or Mississippi School for the Deaf and back home at the beginning of the school year and at the close of the school year. Transportation may also be provided on the same basis any time during the school year when the dormitories at these institutions are closed. School districts providing transportation for eligible day students assigned to the Mississippi school for the Blind and Mississippi School for the Deaf shall be eligible for funding based on the formula defined above.

If a child enrolled in either the Mississippi School for the Blind or the Mississippi School for the Deaf resides in a school district where there is an appropriate program for that child or where there is an appropriate program within reasonable driving distance which the district will make available to the child, then the transportation cost will be the responsibility of the Mississippi School for the Blind or the Mississippi School for the Deaf (depending upon which school the child is enrolled).

In the event that a state-supported university or college provides a special education program for children from any school district that is unable to meet the educational needs of those children, then the university based program shall be eligible for funding based on the formula defined above. Any assessment of one-half the per pupil allotment shall be based on the child's resident district.

The maximum distance a student with disabilities may be transported or the maximum length of time for a special education transportation route will depend upon the Individualized Educational Program (IEP) for the respective child.

For the purpose of payment, a student with disabilities is defined as any child properly tested and found eligible for a special education program receiving appropriate educational services as stipulated in the Individualized Educational Program (IEP).

Funding for the transportation of students with disabilities will be determined using prior year transportation data submitted on forms provided by the Mississippi Department of Education and based on the formula defined above.

No private contracts or use of vehicles other than school buses shall be submitted to the State Board of Education for approval.

Drivers transporting students other than members of the driver's immediate families must be trained and properly certified.
