You should consider the terms and risks of this offering before you invest. No government regulator is recommending these securities. No government regulator has verified that this document is accurate or determined that it is adequate. It is a crime for anyone to tell you differently under Mississippi Code Ann. § 75-71-506.

The issuer has included in this Form all of its representations about this offering. If anyone gives you more or different information, you should ignore it. You should carefully review and rely only on the information in this Form in making an investment decision.

RISK FACTORS

1. The following is a summary of all the risks that apply to the issuer and/or this offering. You should carefully consider these risks prior to investing in this offering.

Operating History:

The issuer has limited or no operating history. Because the issuer may have operated for only a short period of time, it has produced little or no profit. There is no assurance that it will ever produce a profit.

Limited Resources/Losses (select all that apply):

- The issuer has limited resources and will not be able to continue operating without the proceeds from this offering. It is possible that the proceeds from this offering and other resources may not be sufficient for the issuer to continue to finance operations. The issuer expects to continue to experience losses from operations and it cannot be predicted when or if the issuer will become profitable. If the issuer achieves profitability, it may not be sustainable.
- The issuer has incurred losses since inception and may incur future losses. The issuer has not yet generated a profit from operations. As of the date of the most recent financial statements, the issuer had an accumulated deficit of \$

Key Persons (select all that apply):

- The issuer's success depends substantially on the services of a small number of individuals. The issuer may be harmed if it loses the services of these people and it is not able to attract and retain qualified replacements.
- The issuer's officers, directors, managers, and/or key persons will continue to have substantial ownership and control over the issuer after the offering.
- The issuer does not maintain key person life insurance on those individuals on whom the issuer's success depends. The loss of any of these individuals could have a substantial negative impact on the issuer and your investment.

Inexperienced Management (select all that apply):

- None of the issuer's officers, directors, and/or managers has managed a company in this industry. The issuer's ability to operate successfully may depend on its ability to attract and retain qualified personnel, who may be in great demand.
- None of the issuer's officers, directors, and/or managers has experience in managing a development stage enterprise.

Past Failures (select if applicable):

- Prior to organizing the company, one or more of the issuer’s officers, directors, and/or managers operated a business in which investors lost part or all of their investment. The issuer’s ability to operate successfully may depend on its officers, directors, and/or managers to succeed where they have failed before.

Government Regulation:

- The issuer must comply with local, state and federal rules and regulations. If the issuer fails to comply with a rule or regulation it may be subject to fines, or other penalties, or its permit or license may be lost or suspended. The issuer may have to stop operating and you may lose your entire investment.

Dilution (select if applicable):

- The price of a share in this offering is significantly higher than the book value of the securities. By participating in this offering, you will incur immediate and substantial dilution of the book value of your investment.
- To the extent outstanding options or warrants to purchase securities are exercised, new investors will incur further dilution of the book value of their investment.
- There are no limits in place to restrict the issuer’s ability to issue securities in the future. If the issuer issues additional securities, by participating in this offering you may experience further dilution of the value of your investment.

No Existing Market:

- Because there is no market for the issuer’s securities, you may not be able to sell your securities or recover any part of your investment. You should not invest unless you can afford to hold your investment indefinitely.

Offering Price (select if applicable):

- The offering price of issuer’s securities has been arbitrarily set and accordingly should not be considered an indication of the actual value of the issuer.

“Best-efforts” Offering:

- The issuer is offering these securities on a “best-efforts” basis. The issuer has not contracted with an underwriter, placement agent, or other person to purchase or sell all, or a portion of its securities and there is no assurance that it can sell all or any of the securities.

Lack of Investor Control (select if applicable):

- The issuer’s officers, directors, managers, and/or key persons will continue to have substantial control over the issuer after the offering. As such, you may have little or no ability to influence the affairs of the issuer.

Other Risks:

Describe any other risks that apply to the issuer and/or the offering that have not yet been addressed above. Failure to disclose all material risks may subject the issuer, its officers, directors, managers, or promoters to liability for securities fraud.

23. Is the offering subject to any other investor restrictions? Yes No

If yes, describe the investor restrictions. Because investors of the securities will have an equity interest in an issuer, the issuer may want to place additional restrictions on who can invest for legal and administrative reasons. For example, an issuer may choose to limit an offering to its employees, independent contractors, or franchisees, or to investors who meet certain financial requirements.

Transfer Restrictions

The securities sold in this offering may not be transferred by the investor during a 1-year period beginning on the date of purchase, unless the securities are transferred:

- a) To the issuer of the securities;
- b) Pursuant to an effective registration statement under the Mississippi Securities Act; or
- c) To a member of the family of the investor or the equivalent, or in connection with the death or divorce or other similar circumstances.

The securities sold in this offering are also restricted by the requirements for the federal exemption from registration for intrastate offerings under § 3(a)(11) of the Securities Act of 1933 and Securities and Exchange Commission Rule 147, which limits all transfers to persons residing within the State of Mississippi for a period of nine (9) months from the date of last sale by the issuer of such securities.

Once the periods for these restrictions on resale have passed, investors who have purchased securities in this offering may sell or transfer their securities in an offering that has been registered or is exempt from registration under both federal and state law. An exemption or registration may not be available at such time. In addition, the issuer may place additional restrictions on resale of the securities sold in this offering. For these reasons, you should not purchase securities in this offering if you cannot afford to hold these securities indefinitely.

24. Are the securities subject to any other resale restrictions by the issuer? Yes No
