Subchapter 19 PATIENT CARE SERVICES

Rule 1.19.1 Patient Care Standard

1. Patient Certification –To be eligible for hospice care, an individual, or his/her representative, must sign an election statement with a licensed hospice; the individual must have a certification of terminal illness and must have a plan of care (POC) which is established before services are provided.
2. Admission criteria – The hospice shall have written policies to be followed in making decisions regarding acceptance of patients for care. Decisions are based upon medical, physical, and psychosocial information provided by the patient’s attending physician, the patient/family and the interdisciplinary group. The admission criteria shall include:
 - a. The ability of the agency to provide core services on a 24-hour basis and provide for or arrange for non-core services on a 24-hour basis to the extent necessary to meet the needs of individuals for care that is reasonable and necessary for the palliation and management of terminal illness and related conditions;
 - b. Certification of terminal illness signed by the attending physician and the medical director of the agency upon admission and recertification;
 - c. A documented assessment of the patient/family needs and desires for hospice services;
 - d. Informed consent signed by patient or representative who is authorized in accordance with state law to elect the hospice care, which will include the purpose and scope of hospice services.
3. Admission Procedure – Patients are to be admitted only upon the order of the patient’s attending physician.
4. An assessment visit shall be made by a registered nurse, who will assess the patient’s needs with emphasis on pain and symptom control. This assessment shall occur within 48 hours of referral for admission, unless otherwise ordered by physician or unless a request for delay is made by patient/family.

5. Documentation at admission will be retained in the clinical record and shall include:
 - a. Signed consent forms;
 - b. Documented evidence that a patient's rights statement has been given or explained to the patient and/or family;
 - c. Clinical data including physician's order for care;
 - d. Patient Release of Information;
 - e. Orientation of the patient/care giver, which includes:
 - i. Advanced directives;
 - ii. Agency services;
 - iii. Patient's rights; and
 - iv. agency contact procedures;
 - f. Certification of terminal illness signed by the medical director and attending physician.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.19.2 Plan of Care (POC) - Within 48 hours of the admission, a written plan of care must be developed for each patient/family by a minimum of two IDT members and approved by the full IDT and the Medical Director at the next meeting. The care provided to an individual must be in accordance with the POC.

1. The IDT member who assesses the patient's needs must meet or call at least one other IDT member before writing the IPOC. At least one of the persons involved in developing the IPOC must be a registered nurse or physician.
2. At a minimum the POC will include the following:
 - a. An assessment of the individual's needs and identification of services, including the management of discomfort and symptom relief;
 - b. In detail, the scope and frequency of services needed to meet the patient's and family's needs. The frequency of services established in the POC will be sufficient to effectively manage the terminal diagnosis of the patient, provide appropriate amounts of counseling to the family, and meet or exceed nationally accepted hospice standards of practice;

- c. Identification of problems with realistic and achievable goals and objectives;
 - d. Medical supplies and appliances including drugs and biologicals needed for the palliation and management of the terminal illness and related conditions;
 - e. Patient/family understanding, agreement and involvement with the POC; and
 - f. Recognition of the patient/family's physiological, social, religious and cultural variables and values.
- 3. The POC must be maintained on file as part of the individual's clinical record. Documentation of updates shall be maintained.
 - 4. The hospice will designate a registered nurse to coordinate the implementation of the POC for each patient.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.19.3 Review and Update of the Plan of Care

- 1. The plan of care is reviewed and updated at intervals specified in the POC, when the patient's condition changes and a minimum of every 14 days for home care and every 7 days for general inpatient care, collaboratively with the IDT and the attending physician.
- 2. Agency shall have policy and procedures for the following:
 - a. The attending physician's participation in the development, revision, and approval of the POC is documented. This is evidenced by change in patient orders and documented communication between Hospice Staff and the attending physician;
 - b. Physician orders must be signed and dated in a timely manner, but must be received before billing is submitted for each patient.
- 3. The agency shall have documentation that the patient's condition and POC is reviewed and the POC updated, even when the patient's condition does not change.

Rule 1.19.7 Radiology Services - The hospice must provide radiology services in accordance with the patient's plan of care.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.19.8 Discharge/Revocation/Transfer - The hospice must provide adequate and appropriate patient/family information at discharge, revocation or transfer.

1. Discharge – The patient shall be discharged only in the following circumstances:
 - a. The patient is determined to no longer be terminally ill with a life expectancy of six months or less;
 - b. Patient relocates from the hospice's geographically defined service area;
 - c. If the safety of the patient or of the hospice staff is compromised. The hospice shall make every effort to resolve these problems satisfactorily before discharge. All efforts by the hospice to resolve the problem must be documented in detail in the patient's clinical record; and
 - d. If the patient enters a non-contracted nursing home or hospital and all options have been exhausted (a contract is not attainable, the patient chooses not to transfer to a facility with which the hospice has a contract, or to a hospice with which the SNF has a contract), the hospice shall then discharge the patient.
 - e. The hospice must clearly document reasons for discharge.
2. Revocation – Occurs when the patient or representative makes a decision to discontinue receiving hospices services:
 - a. A recipient may revoke hospice care at any time;
 - b. If a patient or representative chooses to revoke from hospice care, the patient must sign a statement which states that he or she is aware of the revocation and stating why revocation is chosen. The effective date of discharge cannot be earlier than the signed revocation date.
3. Non compliance – When a patient is non-compliant, the hospice must counsel the patient/family on the option to revoke and any advantages or disadvantages of the decision that is made. A patient is considered non-compliant if:
 - a. The patient seeks or receives curative treatment for the illness;
 - b. The patient seeks treatment related to the terminal illness in a facility that does not have a contract with the hospice; or

- c. The patient seeks treatment related to the terminal illness that is not in the POC, or is not pre-approved by the hospice.
4. Transfer – The hospice must document the reason for such transfer and an appropriate discharge plan/summary is to be written. Appropriate continuity of care is to be arranged prior to such transfer.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.19.9 Patient Rights and Responsibilities - The hospice shall insure that the patient has the right to:

1. Be cared for by a team of professionals who provide health quality comprehensive hospice services as needed and appropriate for patient/family;
2. Have a clear understanding of the availability of hospice services and the hospice team 24 hours a day, seven days a week;
3. Receive appropriate and compassionate care, regardless of diagnosis, race, age, gender, creed, disability, sexual orientation, place of residence, or the ability to pay for the services rendered;
4. Be fully informed regarding patient's status in order to participate in the POC. The hospice professional team will assist patient/family in identifying which services and treatments will help attain these goals;
5. Be fully informed regarding the potential benefits and risks of all medical treatments or services suggested, and to accept or refuse those treatments and/or services as appropriate to patient/family personal wishes;
6. Refuse any treatment without severing his/her relationship with the hospice;

Subchapter 40 AREAS AND EQUIPMENT

Rule 1.40.1 **Location and Space Requirements** – Food service facilities shall be located in a specifically designated area and shall include the following rooms and/or spaces: kitchen, dishwashing, food storage, and dining room.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.40.2 **Kitchen**

1. **Size and Dimensions** – The minimum area of kitchen (food preparation only) for less than twenty-five (25) beds shall be two hundred (200) square feet. In facilities with twenty-five (25) to sixty (60) beds, a minimum area of ten (10) square feet per bed shall be provided. In facilities with sixty-on (61) to eighty (80) beds, a minimum of six (6) square feet per bed shall be provided for each bed over sixty (60). In facilities with eighty-one (81) to one hundred (100) beds, a minimum of five (5) square feet per bed shall be provided for each bed over eighty (80). In facilities with more than one hundred (100) beds, proportionate space as approved by the licensing agency shall be provided. The kitchen shall be of such size and dimensions in order to:
 - a. Permit orderly and sanitary handling and processing of food;
 - b. Avoid overcrowding and congestion of operations;
 - c. Provide at least three (3) feet between working areas and wider if space is used as a passageway;
 - d. Provide a ceiling height of at least eight (8) feet.
2. **Minimum equipment** in kitchen shall include:
 - a. Range and cooking equipment – Facility with more than twenty-four (24) beds shall have institutional type ranges, ovens, steam cookers, fryers, etc., in appropriate sizes and numbers to meet the food preparation needs of the facility. The cooking equipment shall be equipped with a hood vented to the outside as appropriate.
 - b. Refrigerator and freezers – Facilities with more than twenty-four (24) beds shall have sufficient commercial or institutional type refrigeration/freezer units to meet the storage needs of the facility.
 - c. Bulletin Board
 - d. Clock
 - e. Cook's table
 - f. Counter or table for tray set-up
 - g. Cans, garbage (heavy plastic or galvanized)
 - h. Lavatories, hand washing; conveniently located throughout the department
 - i. Pot, pans, silverware, dishes, and glassware in sufficient numbers with storage space for each.

- j. Pot and pan sink – A three compartment sink shall be provided for cleaning pots and pans. Each compartment shall be a minimum of twenty-four (24) inches by twenty-four (24) inches by sixteen (16) inches. A drain board of approximately thirty (30) inches shall be provided at each end of the sink, one to be used for stacking soiled utensils and the other for draining clean utensils.
- k. Food Preparation Sink – A double compartment food preparation sink shall be provided for washing vegetables and other foods. A drain board shall be provided at each end of the sink.
- l. Fire extinguisher, 20 BC rated (sodium bicarbonate or potassium bicarbonate)
- m. Ice machine – At least one ice machine shall be provided. If there is only one (1) ice machine in the facility, it shall be located adjacent to but not in the kitchen. If there is an ice machine located at nursing station, then the ice machine for dietary shall be located in the kitchen.
- n. Office – An office shall be provided near the kitchen for the use of the food service supervisor. At a minimum, the space provided shall be adequate for a desk, two chairs and a filing cabinet.
- o. Coffee, tea and milk dispenser – (Milk dispenser not required if milk is served in individual cartons.
- p. Tray assembly line equipment with tables, hot food tables, tray slide, etc.
- q. Ice Cream Storage
- r. Tray cart – (Hot food carts are desirable but not specifically required.)
- s. Mixer – Institutional type mixer of appropriate size for facility.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.40.3 **Dishwashing** – Commercial or institutional type dishwashing equipment shall be provided in facilities with more than twenty-four (24) beds. The dishwashing area shall be separated from the food preparation area by a partition wall. If sanitizing is to be accomplished by hot water, a minimum temperature of one hundred eighty degrees (180o) Fahrenheit shall be maintained during the rinsing cycle. An alternate method of sanitizing through use of chemicals (chlorine) may be provided if sanitizing standards are observed in accordance with requirements as set forth by the Mississippi State Department of Health. Adequate counter space for stacking soiled dishes shall be provided in the dishwashing area at the most convenient place of entry from the dining room, followed by a disposer with can storage under the counter. There shall be a pre-rinse sink, then the dishwasher and finally a counter or drain for clean dishes. The dishwashing areas shall have a wall or partition separating soiled and clean dish areas.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.40.4 Food Storage – A food-storage room with cross-ventilation shall be provided. Adequate shelving, bins and heavy plastic or galvanized cans shall be provided. The storeroom shall be of such construction as to prevent the invasion of rodents and insects, the seepage of dust and water leakage, or any other source of contamination. The food-storage room should be adjacent to the kitchen and convenient to the receiving area. There shall be sufficient food storage area to meet need of the facility.

Subchapter 41 SANITATION AND HOUSEKEEPING IN PATIENT CARE

Rule 1.41.1 Water Supply

1. If at all possible, all water shall be obtained from a public water supply. If not possible to obtain water from a public water supply source, the private water supply shall meet the approval of the local county health department and/or the Department of Health.
2. Water under pressure sufficient to operate fixtures at the highest point during maximum periods shall be provided. Water under pressure of at least fifteen (15) pounds per square inch shall be piped to all sink, toilets, lavatories, tubs, showers, and other fixtures requiring water.
3. It is recommended that the water supply into the building can be obtained from two (2) separate water lines if possible.
4. A dual hot water supply shall be provided. The temperature of hot water to lavatories and bathing facilities shall not exceed one hundred ten degrees (110 degrees) Fahrenheit, nor shall hot water be less than one hundred degrees (100 degrees) Fahrenheit.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.41.2 Disposal of Liquid and Human Wastes

1. There shall be installed within the building a properly designed waste disposal system connecting to all fixtures to which water under pressure is piped.
2. All liquid and human waste, including floor-wash water and liquid waste from refrigerators, shall be disposed of through trapped drains into a public sewer system where such system is available.

3. In localities where a public sanitary sewer is not available, liquid and human waste shall be disposed of through trapped drains into a sewerage disposal system approved by the local county health department and/or the Department of Health. The sewerage disposal system shall be of a size and capacity based on the number of patients and personnel housed and employed in the facility. Where the sewerage disposal system is installed prior to the opening of the facility, it shall be assumed, unless proven otherwise, that the system was designed for ten (10) or fewer persons.

Subchapter 42 HOUSEKEEPING AND PHYSICAL PLANT MAINTENANCE

Rule 1.42.1 **Housekeeping Facilities and Services**

1. The physical plant shall be kept in good repair, neat and attractive. The safety and comfort of the patient shall be the first consideration.

2. Janitor closets shall be provided with a mop-cleaning sink and be large enough in area to store cleaning supplies and equipment. A separate janitor closet area and equipment shall be provided for the food service area.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.42.2 **Bathtubs, Showers, and Lavatories** – Bathtubs, showers, and lavatories shall be kept clean and in proper working order. They shall not be used for laundering or for storage of soiled materials. Neither shall these facilities be used for cleaning mops, brooms, etc.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.42.3 **Patient Bedrooms** – Patient bedrooms shall be cleaned and dusted as often as necessary to maintain a clean, attractive appearance. All sweeping should be damp sweeping. All dusting should be damp dusting with a good germicide or detergent-germicide.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.42.4 **Storage**

1. Such items as beds, mattresses, mops, mop buckets, dust rags, etc. shall not be kept in hallways, corners, toilet or bathrooms, clothes closets, or patient bedrooms.
2. The use of attics for storage of combustible materials is prohibited.
3. If basements are used for storage, they shall meet acceptable standards for storage and for fire safety.

Subchapter 43 MEDICAL WASTE

Rule 1.43.1 **Regulated Medical Waste** - “Infectious Medical Wastes” includes solid or liquid wastes which may contain pathogens with sufficient virulence and quantity such that exposure to the waste by a susceptible host has been proven to result in an infectious disease. For purposes of this Regulation, the following wastes shall be considered to be infectious medical wastes:

1. Wastes resulting from the care of patients and animals who have Class I and/or II diseases that are transmitted by blood and body fluid as defined in the rules and regulations governing reportable diseases as defined by the Mississippi State Department of Health;

2. Cultures and stocks of infectious agents; including specimen cultures collected from medical and pathological laboratories, cultures and stocks of infectious agents from research and industrial laboratories, wastes from the production of biologicals, discarded live and attenuated vaccines, and culture dishes and devices used to transfer, inoculate, and mix cultures;
3. Blood and blood products such as serum, plasma, and other blood components;
4. Pathological wastes, such as tissues, organs, body parts, and body fluids that are removed during surgery and autopsy;
5. Contaminated carcasses, body parts, and bedding of animals that were exposed to pathogens in medical research;
6. All discarded sharps (e.g., hypodermic needles, syringes, Pasteur pipettes, broken glass, scalpel blades) which have come into contact with infectious agents;
7. Other wastes determined infectious by the generator or so classified by the Mississippi State Department of Health.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.43.2 **Medical Waste** – Means all waste generated in direct patient care or in diagnostic or research areas that is non-infectious but aesthetically repugnant if found in the environment

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.43.3 **Medical Waste Management Plan** – All generators of infectious medical waste and medical waste shall have a medical waste management plan that shall include, but is not limited to, the following:

1. **Storage and Containment of Infectious Medical Waste and Medical Waste**
 - a. Containment of infectious medical waste and medical waste shall be in a manner and location which affords protection from animals, rain and wind, does not provide a breeding place or a food source for insects and rodents, and minimizes exposure to the public.
 - b. Infectious medical waste shall be segregated from other waste at the point of origin in the producing facility.
 - c. Unless approved by the Mississippi State Department of Health or treated and rendered non-infectious, infectious medical waste (except for sharps in approved containers) shall not be stored at a waste producing facility for more than seven

days above a temperature of 60 C (38 degrees F). Containment of infectious medical waste at the producing facility is permitted at or below a temperature of 0 degrees C (32 degrees F) for a period of not more than 90 days without specific approval of the Department of Health.

- d. Containment of infectious medical waste shall be separate from other wastes. Enclosures or containers used for containment of infectious medical waste shall be so secured so as to discourage access by unauthorized persons and shall be marked with prominent warning signs on, or adjacent to, the exterior of entry doors, gates, or lids. Each container shall be prominently labeled with a sign using language to be determined by the Department and legible during daylight hours.
- e. Infectious medical waste, except for sharps capable of puncturing or cutting, shall be contained in double disposable plastic bags or single bags (1.5 mills thick) which are impervious to moisture and have strength sufficient to preclude ripping, tearing, or bursting under normal conditions of usage. The bags shall be securely tied so as to prevent leakage or expulsion of solid or liquid waste during storage, handling or transport.
- f. All sharps shall be contained for disposal in leak proof, rigid, puncture-resistant containers which are taped closed or tightly lidded to preclude loss of the contents.
- g. All bags used for containment and disposal of infectious medical waste shall be of distinctive color or display the Universal Symbol for infectious waste. Rigid containers of all sharps waste shall be labeled.
- h. Compactors or grinders shall not be used to process infectious medical waste unless the waste has been rendered non-infectious. Sharps containers shall not be subject to compaction by any compacting device except in the institution itself and shall not be placed for storage or transport in a portable or mobile trash compactor.
- i. Infectious medical waste and medical waste contained in disposable containers, as prescribed above, shall be placed for storage, handling or transport in disposable or reusable pails, cartons, drums or portable bins. The containment system shall be leak proof, have tight-fitting covers and be kept clean and in good repair.
- j. Reusable containers for infectious medical waste and medical waste shall be thoroughly washed and decontaminated each time they are emptied by a method specified by the Mississippi State Department of Health, unless the surfaces of the containers have been protected from contamination by disposable liners, bags, or other devices removed with the waste, as outlined in E.

- k. Approved methods of decontamination include, but are not limited to, agitation to remove visible soil combined with one or more of the following procedures:
 - i. Exposure to hot water at least 180 F for a minimum of 15 seconds.
 - ii. Exposure to a chemical sanitizer by rinsing with or immersion in one of the following for a minimum of 3 minutes:
 - a. Hypochlorite solution (500 ppm available chlorine).
 - b. Phenolic solution (500 ppm active agent).
 - c. Iodoform solution (100 ppm available iodine).
 - d. Quaternary ammonium solution (400 ppm active agent).
- l. Reusable pails, drums or bins used for containment of infectious waste shall not be used for containment of waste to be disposed of as non-infectious waste or for other purposes except after being decontaminated by procedures as described in part (J) of this section.
- m. Trash chutes shall not be used to transfer infectious medical waste.
- n. Once treated and rendered non-infectious, previously defined infectious medical waste will be classified as medical waste and may be landfilled in an approved landfill.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.43.4 Treatment Or Disposal Of Infectious Medical Waste Shall Be by One Of the Following Methods:

- 1. By incineration in an approved incinerator which provides combustion of the waste to carbonized or mineralized ash.
- 2. By sterilization by heating in a steam sterilizer, so as to render the waste non-infectious. Infectious medical waste so rendered non-infectious shall be disposable as medical waste. Operating procedures for steam sterilizers shall include, but not be limited to the following:
 - a. Adoption of standard written operating procedures for each steam sterilizer including time, temperature, pressure, type of waste, type of container(s), closure on container(s), pattern of loading, water content, and maximum load quantity;

- b. Check or recording and/or indicating thermometers during each complete cycle to ensure the attainment of a temperature of 121 C (250 degrees F) for one-half hour or longer, depending on quantity and density of the load, in order to achieve sterilization of the entire load. Thermometers shall be checked for calibration at least annually;
 - c. Use of heat sensitive tape or other device for each container that is processed to indicate the attainment of adequate sterilization conditions;
 - d. Use of the biological indicator *Bacillus stearothermophilus* placed at the center of a load processed under standard operating conditions at least monthly to confirm the attainment of adequate sterilization conditions;
 - e. Maintenance of records of procedures specified in (a), (b), (c) and (d) above for period of not less than a year;
 - f. By discharge to the approved sewerage system if the waste is liquid or semi-liquid, except as prohibited by the Mississippi State Department of Health.
- 3. Recognizable human anatomical remains shall be disposed of by incineration or internment, unless burial at an approved landfill is specifically authorized by the Mississippi State Department of Health.
 - 4. Chemical sterilization shall use only those chemical sterilants recognized by the U. S. Environmental Protection Agency, Office of Pesticides and Toxic Substances.
 - 5. Ethylene oxide, glutaraldehyde, and hydrogen peroxide are examples of sterilants that, used in accordance with manufacturer recommendation, will render infectious waste non-infectious. Testing with *Bacillus Subtilis* Spores or other equivalent organisms shall be conducted quarterly to ensure the sterilization effectiveness of gas or steam treatment.

Subchapter 44 LAUNDRY- INPATIENT FACILITY

Rule 1.44.1 **Direction and Supervision** Responsibility for laundry services shall be delegated to a competent employee.

SOURCE: Miss. Code Ann. §41-85-7

Subchapter 45 PHYSICAL FACILITY

Rule 1.45.1 **Location and Space Requirements** Each inpatient hospice shall have laundry facilities unless commercial laundries are used. The laundry shall be located in specifically designated areas and there shall be adequate room and space for sorting, processing and storage of soiled material. There should be a separate storage area for provided for soiled linens apart from the clean linens laundry. Laundry rooms or soiled linen storage areas shall not open directly into a patient bedroom or food service area. Soiled materials shall not be transported through the food service area. If commercial laundry is used, separate satisfactory storage areas shall be provided for clean and soiled linens.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.45.2 **Ventilation** – Provisions shall be made to prevent the recirculation of air through the heating and air condition systems.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.45.3 **Lint Traps** – Lint traps in driers shall be maintained free of lint and debris,

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.45.4 **Laundry Chutes** – When laundry chutes are provided they shall have a minimum diameter of two (2) feet; and they shall be installed with flushing ring, vent and drain.

1. An automatic sprinkler shall be provided at the top of the laundry chute and in any receiving room for a chute.
2. A self-closing door shall be provided at the bottom of the chute.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.45.5 **Laundry Equipment** –Laundry equipment shall be of the type to adequately perform the laundry needs of the facility. The equipment shall be installed to comply with all local and state codes.

Subchapter 46 PHYSICAL FACILITIES: DESIGN AND CONSTRUCTION ELEMENTS

Rule 1.46.1 **General.** Every institution subject to these Minimum Standards shall be housed in a safe building which contains all the facilities required to render the services contemplated in the application for license.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.46.2 **Codes.** The term “safe” as used in Section Rule 1.46.1 hereof shall be interpreted in the light of compliance with the requirements of the codes recognized by this agency on date of construction which are incorporated by reference as a part of these Minimum Standards; included are the Life Safety Code of the National Fire Protection Association, American National Standards Institute, Standards Number A-17.1, and A-17.3, Safety Code for Elevators and Escalators, the American Institute of Architects (AIA), Guidelines for Design and Construction of Hospital and Health Care Facilities, and references incorporated as body of all afore mentioned standards. Life Safety Code compliance relative to construction date:

1. Buildings constructed after October 17, 2007 shall comply with the edition of the Life Safety Code (NFPA 101) recognized by this agency on the date of construction.
2. Building constructed prior to October 17, 2007 shall comply with existing chapter of the Life Safety Code recognized by this agency.
3. For minimum standards governing Heating, Ventilation, and Air Conditioning (HVAC), area design, space allocation, parking requirements, and other considerations not specifically addressed by local authority or standards referenced herein, compliance with the AIA guidelines will be deemed acceptable.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.46.3 **Location** – All inpatient hospices established or constructed after the adoption of these regulations shall be located in an area free from undue noise, smoke, dust, or foul odors and shall not be located adjacent to disposal plants, cemeteries, etc.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.46.4 **Site** – The proposed site for an inpatient hospice must be approved by the Department of Health. Prior to construction/renovation, all proposed plans and sites must be submitted and approved by the Mississippi State Department of Health, Fire Safety and Construction Branch. Factors to be considered in approving a site may be convenience to medical and hospital services, approved

water supply and sewerage disposal, community services, services of a fire department, and availability to labor supply. Not more than 50% of a site shall be covered by a building(s) except by special approval of the Department of Health. One example whereby approval may be granted is where the structure is to be placed in a very desirable location where the grounds are limited and very expensive. Where such approval is granted, the structure will be required to have a living room, day room, sun room, and recreational areas adequate to compensate for lack of required outside area.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.46.5 **Local Restrictions** – The site and structure of all facilities shall comply with local building, fire and zoning ordinances. Evidence to this effect signed by local building, fire, and zoning officials shall be presented, where applicable.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.46.6 **Transportation** – Facilities shall be located on streets or roads which are passable at all times. They should be located convenient to public transportation facilities, when applicable.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.46.7 **Communication** – There shall be at least one electrically interconnected hardwire telephone in the facility and such additional telephones as are necessary to summon help in the event of a fire or other emergency. The telephone shall be listed under the official licensed name or title of the facility.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.46.8 **Occupancy** – No part of the facility may be rented, leased, or used for any commercial purpose not related to the operation of the facility.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.46.9 **Basement** -No patient or resident shall be housed on any floor that is below ground level at any point.

Subchapter 47 BUILDING REQUIREMENTS

Rule 1.47.1 One-Story Building Non-Combustible Construction

1. One-hour fire resistive rating generally. After adoption of these regulations, one-story buildings shall be of at least one-hour fire resistive rating throughout except as provided in subparagraph of this section (“hazardous areas and combustible storage”).
2. Hazardous areas and combustible storage. All areas used for storage of combustible materials shall be classified as hazardous areas and shall be separated from other areas by construction having a fire resistive rating of at least two (2) hours.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.47.2 Multi-Story Building

1. Fire resistive construction. After adoption of these regulations all institutions for the aged or infirm containing two (2) or more stories shall be of at least one-hour fire resistive construction throughout except as provided in 140.1 (2).
2. Elevator required. No patient shall be housed above the first floor unless the building is equipped with an elevator. The minimum cab size of the elevator shall be approximately five (5) feet four (4) inches by eight (8) feet no (0) inches and constructed of metal. The width of the shaft door shall be at least three (3) feet ten (10) inches. The load weight capacity shall be at least two thousand five hundred (2,500) pounds. The elevator shaft shall be enclosed in fire resistant construction of not less than two-hour fire resistive rating. Elevators shall not be counted as required exits. Elevators are subject to the requirements of the referenced standard listed in paragraph 139.2 of this chapter. Exceptions to subparagraphs 1 and 2 may be granted to existing facilities at the discretion of the licensing agency.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.47.3 Building Codes – All construction shall be in accordance with applicable local building codes and regulations and with these regulations.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.47.4 Structural Soundness and Repair; Fire Resistive Rating – The building shall be structurally sound, free from leaks and excessive moisture, in good repair, and painted at sufficient intervals to be reasonably attractive inside and out. One-story structures shall have a one-hour fire resistance rating except that walls and ceilings of high fire hazard areas shall be of two-hour fire resistance rating in accordance with NFPA #220. Multi-storied buildings shall be of fire resistive materials.

SOURCE: Miss. Code Ann. §41-85-7

- Rule 1.47.5 **Temperature** – Adequate heating and cooling shall be provided in all rooms used by patients so that a minimum temperature of seventy-five (75 degrees) to eighty (80 degrees) Fahrenheit may be maintained.

SOURCE: Miss. Code Ann. §41-85-7

- Rule 1.47.6 **Lighting** – Each patient’s room shall have artificial light adequate for reading and other uses as needed. All entrances, corridors, stairways, ramps, cellars, attics, storerooms, kitchens, laundries, and service units shall have sufficient artificial lighting to prevent accidents and promote efficiency of service. Night lights shall be provided in all corridors, stairways, toilets, and bathing rooms.

SOURCE: Miss. Code Ann. §41-85-7

- Rule 1.47.7 **Emergency power / Lighting** – To provide electricity during an interruption of the normal electric supply that could affect the medical care, treatment and safety of the occupants, an emergency source of electricity shall be provided and connected to certain circuits for lighting and power. The source of the emergency electric service shall be an emergency generator, with a stand-by supply of fuel for 24 hours.

SOURCE: Miss. Code Ann. §41-85-7

- Rule 1.47.8 **Screens** – All screen doors and non-stationary windows shall be equipped with tight fitting, full length, sixteen (16) mesh screens. Screen doors shall swing out and shall be equipped with self-closing devices.

SOURCE: Miss. Code Ann. §41-85-7

- Rule 1.47.9 **Floors** – All floors shall be smooth and free from defects such as cracks and be finished so that they can be easily cleaned. Floors in corridors, patient bedrooms, toilets, bathing rooms, kitchens, utility rooms, and other areas where frequent cleaning is necessary should be covered wall-to-wall with inlaid linoleum, resilient tile, hard tile, or the equivalent.

SOURCE: Miss. Code Ann. §41-85-7

- Rule 1.47.10 **Walls and Ceilings** –All walls and ceilings shall be of sound construction with an acceptable surface and shall be maintained in good repair. Generally the walls and ceilings should be painted a light color.

SOURCE: Miss. Code Ann. §41-85-7

- Rule 1.47.11 **Ceiling Height** – All ceilings shall have a height of at least eight (8) feet except that a height of seven (7) feet six (6) inches may be approved for corridors or

toilets and bathing rooms where the lighting fixtures are recessed. Exception may be made for existing facilities.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.47.12 **Handrails** – Handrails shall be installed on both sides of all corridors and hallways used by patients. The handrails should be installed from thirty-two (32) inches to thirty-six (36) inches above the floor. The handrails should have a return to the wall at each rail ending.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.47.13 **Ramps and Inclines** – Ramps and inclines, where installed for the use of patients, shall not exceed one (1) foot of rise in ten (10) feet of run, shall be furnished with a non-slip floor, and shall be provided with handrails on both sides.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.47.14 **Stairways** - Stairways shall have a minimum width of forty-four (44) inches with risers not to exceed seven and three-fourths ($7\frac{3}{4}$) inches and treads not less than nine (9) inches. Treads shall be of uniform width and risers of uniform height in any one flight of stairs. All stairways and stairway landings shall be equipped with handrails on both sides.

1. A landing with width not less than the width of the stairs shall be provided at the top and bottom of each flight of stairs.
2. Winding stairways or triangular treads are prohibited.
3. Stairways shall be enclosed with noncombustible materials of at least two-hour fire resistance rating.
4. Openings to stairways shall be equipped with doors with self-closing devices.
5. Doors to stairways shall open in the direction of exit travel and be equipped with a vision window of wired glass. The doors shall open on a landing of the same width as the stair width.
6. Stairways shall be individually enclosed and separated from any public hall.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.47.15 **Corridors and Passageways**

1. Corridors in patient areas shall be not less than eight (8) feet wide. Exception may be granted to existing structures where it is structurally or feasibly impossible to comply.
2. Exit Passageways other than corridors in patient areas shall be not less than four (4) feet wide between handrails.
3. Corridors and passageways shall be kept unobstructed.
4. Corridors and passageways which lead to the outside from any required stairway shall be enclosed as required for stairways.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.47.16 Doors General

1. All stairway doors; doors providing egress from corridors (other than to the exterior) and all doors to shafts, utility closets, boiler and incinerator rooms, in fire walls, and other spaces which are a possible source of fire shall be equal to Underwriters' Laboratories "Class B-1 ½ hour" self-closing doors.
2. All corridor doors except doors to janitor closets, toilets, and bathrooms shall be 20 minute rated fire doors or solid wooden doors of the flush type of nominal thickness of at least one and three-fourths (1 ¾ inches)
3. Bedroom, patient bath, and toilet doors shall not be equipped with hardware that will allow a patient to lock himself within the room.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.47.17 Exit Doors – Exit doors shall meet the following:

1. They shall be of a fire resistive rating equal to the stairway or passage.
2. Doors leading to stairways shall be not less than forty-four (44) inches wide.
3. Doors to the exterior shall be not less than forty-four (44) inches wide except where the capacity of a first floor exceeds sixty (60) persons or a floor above the first floor exceeds thirty (30) persons in which case wider doors may be required.
4. Exit doors shall swing in the direction of exit and shall not obstruct the travel along any required exit.
5. Revolving doors shall not be used as required exits.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.47.18 **Door Widths** – All exit doors shall be a minimum of forty-four (44) inches wide and open outward. Doors to patient bedrooms shall be a minimum of forty-four (44) inches wide. All other doors through which patients must pass (doors to living and day rooms, dining rooms, recreational areas, toilet and bathrooms, physical and occupational therapy rooms, etc.) shall be a minimum of thirty-six (36) inches wide. Doors to patient closets shall be not less than twenty (20) inches wide. Exception may be granted to existing facilities.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.47.19 **Door Swing**

1. Exit doors, other than from a living unit, shall swing in the direction of exit from the structure.
2. Patient bedroom doors. Patient bedroom doors opening from a corridor shall open to the inside of the room.
3. Toilet or bathroom doors. Doors to toilet and bathrooms accessible from the patient's bedroom shall open into the room. Doors to toilet or bathroom accessible from a corridor shall open into the toilet or bathroom.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.47.20 **Floor levels** – All differences in floor levels within the building shall be accomplished by stairs of not less than three (3) six-inch risers, ramps, or inclines; and they shall be equipped with handrails on both sides.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.47.21 **Space Under Stairs** – Space under stairs shall not be used for storage purposes. All walls and doors shall meet the same fire rating as the stairwell.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.47.22 **Interior Finish and Decorative Materials** – All combustible, decorative, and acoustical material shall be rendered and maintained flame resistant. It is recommended that curtains be of fiberglass or other flame resistant material.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.47.23 **Fire Extinguishers**- Fire extinguishers of number, type, and capacity appropriate to the need shall be provided for each floor and for special fire hazard areas such as kitchen, laundry, and mechanical room. All extinguishers shall be of a type approved by the licensing authority of the Department of Health. A vaporizing liquid extinguisher (such as carbon tetrachloride) will not be approved for use inside the building. Extinguishers shall be inspected and serviced periodically as

recommended by the manufacturer. The date of inspection shall be entered on a tag attached to the extinguisher and signed by a reliable inspector such as the local fire chief or representative of a fire extinguisher servicing company.

Rule 1.47.24 Fire Detection and Fire Protection System

1. If an automatic sprinkler-alarm system is installed, it shall meet the requirements as a recommended by the National Fire Protection Association according to NFPA, No. 13.
2. If an automatic fire detection system is installed, it shall meet the following requirements:
3. It shall be an Underwriters' Laboratories approved system.
4. A smoke detector unit shall be installed upon the ceiling or on the side walls near the ceiling throughout all parts of the premises including all rooms, halls, storage areas, basements, attics, and lofts and inside all closets, elevator shafts, enclosed stairways and dumbwaiter shafts, chutes, and other enclosures.
5. The system shall be electrically supervised so that the occurrence of a break or a ground fault of its installation wiring circuits, which present the required operation of system or failure of its main power supply source, will be indicated by a distinctive trouble signal.
6. The conductors of the signaling system power supply circuit shall be connected on the line side of the main service of a commercial light or power supply circuit. A circuit disconnecting means shall be so installed that it will be accessible only by authorized personnel.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.47.25 Smoke Barrier or Fire Retardant Walls- Each building shall be divided into areas not exceeding five thousand (5,000) square feet between exterior walls or smoke barrier walls. The barrier walls shall be constructed from floor to roof decking with no openings except in corridors or other areas specifically approved by the licensing agency. Self-closing "B" label fire doors with fusible linkage shall be installed in the barrier walls in corridors. All air spaces in the walls shall be filled with noncombustible material.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.47.26 Exit Signs – Exits shall be marked with plainly lettered illuminated signs bearing the word "Exit" or "Fire Escape" in letters at least four and one-half (4 ½) inches high. Exit signs shall be illuminated at all times and wired in front of the

electrical panel with fuse control in a locked box. Additional signs shall be placed in corridors and passageways wherever necessary to indicate the direction of exit.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.47.27 Fire Escapes and Ladders

1. The use of ladders (metal or otherwise) in lieu of escapes or fire stairways shall not be permitted on any facility licensed under these regulations.
2. The use of open fire escapes shall not be permitted on facilities opened or established after the effective date of these regulations.
3. Open fire escapes will be permitted on existing institutions provided such fire escapes meet the following requirements:
 - a. They must be of non-combustible material.
 - b. They must have railing or guard at least four (4) feet high on each unenclosed side.
 - c. Wall openings adjacent to fire escapes shall be protected with fire resistive doors and windows.
 - d. Doors leading to fire escapes shall open in the direction of exit.
 - e. Fire escapes on facilities licensed after adoption of these regulations should generally meet requirements for stairways.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.47.28 Required Fire Exits

1. At least two (2) exits, remote from each other, shall be provided for each occupied story of the building. Dead-end corridors are undesirable and in no even shall exceed thirty (30) feet.
2. Exits shall be of such number and so located that the distance of travel from the door of any occupied room to an exit from that floor shall not exceed one hundred (100) feet. In buildings completely protected by a standard automatic sprinkler system, the distance may be one hundred fifty (150) feet.
3. Each occupied room shall have at least one (1) door opening directly to the outside or to a corridor, stairway, or ramp leading directly to the outside.
4. Doors on fire exits shall open to the outside.

5. Building Exits Code, NFPA, No. 101, shall be the governing code for exit items which are not covered in the regulations.

Subchapter 48 EMERGENCY OPERATIONS PLAN (EOP)

Rule 1.48.1 The licensed entity shall develop and maintain a written preparedness plan utilizing the “All Hazards” approach to emergency and disaster planning. The plan must include procedures to be followed in the event of any act of terrorism or man-made or natural disaster as appropriate for the specific geographical location. The final draft of the Emergency Operations Plan (EOP), will be reviewed by the Office of Emergency Preparedness and Response, Mississippi State Department of Health, or their designates, for conformance with the “All Hazards Emergency Preparedness and Response Plan.” Particular attention shall be given to critical areas of concern which may arise during any “all hazards” emergency whether required to evacuate or to sustain in place. Additional plan criteria or a specified EOP format may be required as deemed necessary by the Office of Emergency Preparedness and Response. The six (6) critical areas of consideration are:

1. Communications – Facility status reports shall be submitted in a format and a frequency as required by the Office of EOP.
2. Resources and Assets
3. Safety and Security
4. Staffing
5. Utilities
6. Clinical Activities.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.48.2 Emergency Operations Plans (EOPs) must be exercised and reviewed annually or as directed by the Emergency Preparedness and Response. Written evidence of current approval or review of provider EOPs, by the Office of Emergency

Preparedness and Response, shall accompany all applications for facility license renewals.

Subchapter 50 NURSING UNIT

Rule 1.50.1 Nursing Unit – Medical, nursing, and personal services shall be provided in a specifically designated area which shall include bedrooms, special care room(s), nurses' station, utility room toilet and bathing facilities, linen and storage closets and wheelchair space.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.50.2 The maximum nursing unit shall be twenty-five (25) beds.

SOURCE: Miss. Code Ann. §41-85-7

Rule 1.50.3 Bedrooms Location

1. All patient bedrooms shall have an outside exposure and shall not be below grade. Window area shall not be less than one-eighth (1/8) of the floor area. The window sill shall not be over thirty-six (36) inches from the floor.
2. Patient bedrooms shall be located so as to minimize the entrance of unpleasant odors, excessive noise and other nuisances.
3. Patient bedrooms shall be directly accessible from the main corridor of the nursing unit providing that accessibility from any public space other than the

dining room will be acceptable. In no case shall a patient bedroom be used for access to another patient bedroom.

4. All patient bedrooms shall be so located that the patient can travel from his/her bedroom to a living room, day room, dining room, or toilet or bathing facility without having to go through another patient bedroom.
 - a. Floor Area – Minimum usable floor area per bed shall be as follows:
 - i. Private room 100 square feet
 - ii. Multi-bed room 80 square feet
 - b. Provision for Privacy – Cubicle curtains, screens or other suitable provisions for privacy shall be provided in multi-bed patient bedrooms.
 - c. Accommodations for Patients – The minimum accommodations for each patient shall include:
 - i. Bed – The patient shall be provided with either an adjustable bed or a regular single bed, according to needs of the patient, with a good grade mattress at least four (4) inches thick. Beds shall be single except in case of special approval of the licensing agency. Cots and roll-away beds are prohibited for patient use. Full and half bedrails shall be available to assist in safe care of patients.
 - ii. Pillows, linens, and necessary coverings.
 - iii. Chair.
 - iv. Bedside cabinet or table.
 - v. Storage space for clothing, toilet articles, and personal belongings including rod for clothes hanging.
 - vi. Means at bedside for signaling attendants.
 - vii. Bed pan and urinal for patients who need them.
 - viii. Over-bed tables as required.
 - d. Bed Maximum – Effective from the approval date of these regulations, each newly renovated or newly constructed hospice facility shall contain only private patient rooms. There shall be no multi-patient wards.

Rule 2.5.12 For each employee of the PPEC center (see definition of employee), the center shall submit fingerprints to MSDH for the purpose of processing a criminal history records check. The center shall develop policies and procedures consistent with this requirement.

SOURCE: Mississippi Code Annotated §41-125-11

Rule 2.5.13 **Criminal History Record Checks.** The covered entity shall require to be performed a disciplinary check with the professional licensing agency, if any, for each employee to determine if any disciplinary action has been taken against the employee by the agency, and a criminal history record check on:

1. Every new employee of a covered entity who provides direct patient care or services and who is employed after or on July 01, 2003.
2. Every employee of a covered entity employed prior to July 01, 2003, who has documented disciplinary action by his or her present employer.
3. Except as otherwise provided in this paragraph, no employee hired on or after July 01, 2003, shall be permitted to provide direct patient care until the results of the criminal history check have revealed no disqualifying record or the employee has been granted a waiver. Provided the covered entity has documented evidence of submission of fingerprints for the background check, any person may be employed and provide direct patient care on a temporary basis pending the results of the criminal history record check by any

employment offer, contract, or arrangement with the person shall be voidable, if he/she receives a disqualifying criminal record check.

4. If such criminal history record check discloses a criminal conviction; a guilty plea; and/or a plea of nolo contendere to a crime that is job-related which has not been reversed on appeal, or for which a pardon has not been granted, the applicant/employee may not be eligible to be employed at the licensed facility.
5. Documentation of verification of the employee's disciplinary status, if any, with the employee's professional licensing agency as applicable, and evidence of submission of the employee's fingerprints to the licensing agency must be on file and maintained by the facility prior to the new employees first date of employment. The covered entity shall maintain on file evidence of verification of the employee's disciplinary status from any applicable professional licensing agency and submission and/or completion of the criminal record check, the signed affidavit, if applicable, and/or a copy of the referenced notarized letter addressing the individual's suitability for such employment.
6. The covered entity may, in its discretion, allow any employee applicant aggrieved by the employment decision under this subsection to appear before the licensed entity's hiring officer, or his or her designee, to show mitigating circumstances that may exist and allow the employee or employee applicant to be employed at the **covered entity**. The covered entity, upon report and recommendation of the hiring officer, may grant waivers for those mitigating circumstances, which shall include, but not be limited to: (1) age at which the crime was committed; (2) circumstances surrounding the crime; (3) length of time since the conviction and criminal history since the conviction; (4) work history; (5) current employment and character references; and (6) other evidence demonstrating the ability of the individual does not pose a threat to the health or safety of the patients in the licensed facility.
7. The licensing agency may charge the covered entity submitting the fingerprints a fee not to exceed Fifty Dollars (\$50.00).
8. Should results of an employee applicant's criminal history record check reveal no disqualifying event, then the covered entity shall, within two (2) weeks of the notification of no disqualifying, event provide the employee applicant with a notarized letter signed by the chief executive officer of the covered entity, or his or her authorized designee, confirming the employee applicant's suitability for employment based on his or her criminal history record check. An employee applicant may use that letter for a period of two (2) years from the date of the letter to seek employment at any covered entity licensed by the Mississippi Department of Health without the necessity of an additional criminal record check. Any covered entity presented with the letter may rely on the letter with respect to an employee applicant's criminal background and is not required for

a period of two (2) years from the date of the letter to conduct or have conducted a criminal history record check as required in this subsection.

9. For individuals contracted through a third party who provide direct patient care as defined herein, the covered entity shall require proof of a criminal history record check.
10. The licensing agency, the covered entity, and their agents, officers, employees, attorneys and representatives, shall be presumed to be acting in good faith for any employment decision or action taken under this section. The presumption of good faith may be overcome by a preponderance of the evidence in any civil action. No licensing agency, covered entity, nor their agents, officers, employees, attorneys and representatives shall be held liable in any employment discrimination suit in which an allegation of discrimination is made regarding an employment decision authorized under this section.

Rule 3.5.12 Criminal History Record Checks. The covered entity shall be required to perform a disciplinary check with the professional licensing agency, if any, for each employee to determine if any disciplinary action has been taken against the employee by the agency, and a criminal history record check on:

1. Every new employee of a covered entity who provides direct patient care or Services;
2. Except as otherwise provided in this paragraph, no employee shall be permitted to provide direct patient care until the results of the criminal history check have revealed no disqualifying record or the employee has been granted a waiver. Provided the covered entity has documented evidence of submission of fingerprints for the background check, any person may be employed and provide direct patient care on a temporary basis pending the results of the criminal history record check by any employment offer, contract, or arrangement with the person shall be voidable, if he/she receives a disqualifying criminal record check.
3. If such criminal history record check discloses a felony conviction; a guilty plea; and/or a plea of nolo contendere to a felony for one (1) or more of the following crimes which has not been reversed on appeal, or for which a pardon has not been granted, the applicant/employee shall not be eligible to be employed at the licensed facility:
 - a. Possession or sale of drugs
 - b. Murder
 - c. Manslaughter
 - d. Armed robbery

- e. Rape
 - f. Sexual battery
 - g. Sex offense listed in Section 45-33-23, Mississippi Code of 1972:
 - h. Child abuse
 - i. Arson
 - j. Grand larceny
 - k. Burglary
 - l. Gratification of lust
 - m. Aggravated assault
 - n. Felonious abuse and/or battery of vulnerable adult
4. Documentation of verification of the employee's disciplinary status, if any, with the employee's professional licensing agency as applicable, and evidence of submission of the employee's fingerprints to the licensing agency must be on file and maintained by the facility prior to the new employees first date of employment. The covered entity shall maintain on file evidence of verification of the employee's disciplinary status from any applicable professional licensing agency and submission and/or completion of the criminal record check, the signed affidavit, if applicable, and/or a copy of the referenced notarized letter addressing the individual's suitability for such employment.
 5. The covered entity may, in its discretion, allow any employee applicant aggrieved by the employment decision under this subsection to appear before the licensed entity's hiring officer, or his or her designee, to show mitigating circumstances that may exist and allow the employee or employee applicant to be employed at the covered entity. The covered entity, upon report and recommendation of the hiring officer, may grant waivers for those mitigating circumstances, which shall include, but not be limited to: (1) age at which the crime was committed; (2) circumstances surrounding the crime; (3) length of time since the conviction and criminal history since the conviction; (4) work history; (5) current employment and character references; and (6) other evidence demonstrating that the individual does not pose a threat to the health or safety of the patients in the licensed facility.
 6. The licensing agency may charge the covered entity submitting the fingerprints a fee not to exceed Fifty Dollars (\$50.00).

7. Should results of an employee applicant's criminal history record check reveal no disqualifying event, then the covered entity shall, within two (2) weeks of the notification of no disqualifying event provide the employee applicant with a notarized letter signed by the chief executive officer of the covered entity, or his or her authorized designee, confirming the employee applicant's suitability for employment based on his or her criminal history record check. An employee applicant may use that letter for a period of two (2) years from the date of the letter to seek employment at any covered entity licensed by the Mississippi Department of Health without the necessity of an additional criminal record check. Any covered entity presented with the letter may rely on the letter with respect to an employee applicant's criminal background and is not required for a period of two (2) years from the date of the letter to conduct or have conducted a criminal history record check as required in this subsection.
8. For individuals contracted through a third party who provide direct patient care as defined herein, the covered entity shall require proof of a criminal history record check.
9. The licensing agency, the covered entity, and their agents, officers, employees, attorneys and representatives, shall be presumed to be acting in good faith for any employment decision or action taken under this section. The presumption of good faith may be overcome by a preponderance of the evidence in any civil action. No licensing agency, covered entity, nor their agents, officers, employees, attorneys and representatives shall be held liable in any employment discrimination suit in which an allegation of discrimination is made regarding an employment decision authorized under this section.

Subchapter 18 Quality Assurance

Rule 3.18.1 Quality Assurance Program. The Pediatric Skilled Nursing Facility shall have:

1. A quality assurance program and will conduct quarterly reviews of The Pediatric Skilled Nursing Facility's medical records for at least one-half (1/2) of the children served by The Pediatric Skilled Nursing Facility at the time of the quality assurance review.
2. The quality assurance review will be conducted by, at a minimum, two members of the quality assurance committee. The quality assurance responsibilities shall rotate among the quality assurance committee at least on an annual basis.

SOURCE: Mississippi Code Annotated §43-13-117

Rule 3.18.2 Quality Assurance Review. Each quarterly quality assurance review shall include:

1. A review of the protocols in each child's Protocol of Care to assure that it clearly reflects the assessed needs of the child, to include but not be limited to, the evaluation, goals/expectation, treatment modalities and care provided, by each professional discipline serving the child;
2. A review of the steps, process, and success in achieving the goals;
3. Identification of goals not being achieved as expected, reasons for lack of achievement and plans to promote goal achievement;
4. When a child's clinical status changes, either improvement or decline, that the protocol of care is revised to accommodate the child's change in status as evidence by revised professional assessments and re-formulation of goals;
5. Within ten days of the review, the quality assurance committee will meet, discuss and ratify the report. Within fifteen days of the review, the quality

assurance committee shall furnish copies of its report to the Pediatric Skilled Nursing Facility medical and nursing directors.

6. The Pediatric Skilled Nursing Facility shall develop a corrective action plan for each area in which the facility failed to meet the established expectations and goals and shall assure implementation of measures, as appropriate, for correction of any deficient area. Pediatric Skilled Nursing Facility management, to include the medical director and the director of nursing, shall sign the quality assurance report indicating awareness of the deficient findings and shall insure that measures are put into place to correct any deficient practice and/or to prevent the reoccurrence of any such practice.

Subchapter 22 Submission of Construction Plans and Specifications

Rule 3.22.1 **Submission of Plans and Specifications.** Construction shall not be started for any institution subject to these standards (whether new or remodeling/renovations or additions to an existing licensed hospital) until the plans and specifications for such construction or remodeling have been submitted to the Licensing Agency in

writing and its approval of the changes given in writing. Any contract modifications which affects or changes the function, design or purpose of the facility shall be submitted to and approved by the licensing agency prior to the beginning of work set forth in any contract modification.

1. **Exception:** Foundation changes made necessary by unanticipated conditions, or any conditions which present a hazard to life or property if not immediately corrected.

SOURCE: Mississippi Code Annotated §43-13-117

Rule 3.22.2 Plan Submissions. Plans and specifications for any substantial construction or remodeling should be prepared by competent architects and engineers licensed to practice in the state and who assume responsibility for supervising the construction. The following plans shall be submitted to the Licensing Agency for review:

1. Preliminary Plans - To include schematics of buildings, plot plans showing size and shape of entire site, existing structures, if any, streets and location and characteristics of all needed utilities, floor plans of every floor dimensioned and with proposed use of each room or area shown. If for additions or remodeling, provide plan or of existing building showing all proposed alterations, outline specifications to include a general description of the construction, type of finishes, and type of heating, ventilating, plumbing and electrical systems proposed.
2. Final Working Drawings and Specifications - Complete and in sufficient detail to be the basis for the award of construction contracts.

Rule 3.22.7 **Construction Close-Out Documents.** At the time of the final inspection, the following documentation shall be provided to the State Agency:

1. A Letter from the Architect of Record attesting that he/she supervised or directed the supervision of all phases of the construction and that all work was performed in compliance with approved plans;
2. A copy of the Certificate of Occupancy or statement of approval from the local building official permitting occupancy of the facility for its intended use. In the absence of a local building authority, approval of a local fire authority having jurisdiction shall be provided. If the facility is owned by the State of Mississippi and subject to the State Bureau of Buildings Grounds and Real Estate Management, approval of occupancy shall be coordinated between the state agencies involved;
3. The Pediatric Skilled Nursing Facility, providing in-house dietary services shall provide a current copy of the Certificate or other Installer authority issued by the manufacture of the engineered automatic range exhaust hood and duct fire suppression system installed. The installer must verify, in writing, that the staff have been trained in its use or that such training will be provided, and that operation and service manuals have been provided to the owner;
4. A copy of the fire alarm systems operational test prepared by the installer/vendor. This test must be documented and equivalent to the acceptance test required by NFPA 72, the National Fire Alarm Code, Chapter 7, "Initial Acceptance Testing". When the emergency forces notification requirement is provided by a private central station, a current copy of the provider's listing (i.e. UL, FM, etc.) must be attached;
5. A copy of the automatic fire sprinkler installer's Contractor's Materials and Test Certificate, for part A (above ground piping) and/or Part U (underground piping);

6. Provide verification that all backflow prevention devices, required by local authority, serving sprinkled buildings are equipped with valve supervision (tamper switches) electronically interconnected to the fire alarm system;
7. Evidence that an installation acceptance test was performed on the emergency generator by qualified technicians in accordance with NFPA 110, Standards for Emergency and Standby Power Systems, Section 5-13, "Installation Acceptance";
8. Evidence that the electrical grounding system and the power system performs within the limits described in NFPA 99, Health Care Facilities, Section 3-3-3, "Performance Criteria and Testing";
9. Certification of the fire alarm equipment and installation to be in accordance with applicable section of NFPA 70, The National Electric Code, and NFPA 72, The National Fire Alarm Code; and
10. Test certificates for all interior combustible wall and ceiling finishes based on the test method described in NFPA 255, Standard Method of Testing Surface Burning Characteristics of Building Materials.

Subchapter 8 DENIAL, SUSPENSION, OR REVOCATION OF LICENSE

Rule 4.8.1 Denial or Revocation of License. The licensing agency, after notice and opportunity for a hearing to the applicant or licensee, is authorized to deny, suspend, or revoke a license, or deny renewal of a license, in any case in which it finds that there has been a substantial failure to comply with the requirements established under the law and these regulations. Also, the following shall be grounds for denial or revocation of license:

1. Fraud on the part of the licensee in applying for a license, or renewal of

license.

2. Willful or repeated violations by the licensee of any of the provisions of Sections 43-11-1 et seq, of the Mississippi Code of 1972, as amended, and/or of the rules, regulations, and minimum standards established by the licensing agency.
3. Addiction to narcotic drug(s) by the licensee or other employees or personnel of the licensed facility.
4. Use of alcoholic beverages by the licensee or other personnel of the licensed facility to the extent which threatens the well-being or safety of the clients.
5. Conviction of the licensee of a felony.
6. Publicly misrepresenting the licensed facility and/or its services.
7. Permitting, aiding, or abetting the commission of any unlawful act.
8. Conduct or practices detrimental to the health or safety of clients and employees of said licensed facility. Detrimental practices include but are not limited to:
 - a. Cruelty or abuse of or to a client or indifference to the needs of the client which are essential to the general well-being and health.
 - b. Misappropriation of the money or property of a client.
 - c. Failure to provide food adequate for the needs of a client.
 - d. Inadequate staff to provide safe care and supervision of a client.
 - e. Failure to call a physician or nurse practitioner/physician assistant when required by a client's condition.
 - f. Failure to notify next of kin when a client's condition becomes critical.
 - g. Admission of a client whose condition demands care beyond the level of care provided by the licensed facility as determined by its classification.
9. A violation of 24-hour supervision requirement and/or the transfer of a client from the licensed facility to any unlicensed facility may result in the facility's license being made provisional for a period of 90 days. At the end of that 90-day period, if corrective actions have not been taken by the

licensed facility, that Provisional License may be revoked.

**Subchapter 9 FOR HEARING AND APPEAL FOLLOWING DENIAL
OR REVOCATION OF LICENSE; PENALTIES**

Rule 4.9.1 Administrative Decision. The licensing agency will provide an opportunity for a fair hearing to every applicant or licensee who is dissatisfied with administrative decisions made in the denial or revocation of license.

1. The licensing agency shall notify the applicant or licensee by registered mail or personal service the particular reasons for the proposed denial or revocation of license. Upon written request of applicant or licensee within ten (10) days of the date of notification, the licensing agency shall fix a date not less than thirty (30) days from the date of such service at which time the applicant or licensee shall be given an opportunity for a prompt and fair hearing.
2. On the basis of such hearing or upon default of the applicant or licensee, the licensing agency shall make a determination specifying its findings of fact and conclusions of law. A copy of such determination shall be sent by registered mail to the last known address of the applicant or licensee or served personally upon the applicant or licensee.
3. The decision revoking, suspending, or denying the application or license shall become final thirty (30) days after it is so mailed or served unless the applicant or licensee, within such thirty (30) day period, appeals the decision in Chancery Court pursuant to Section 43-11 -23 of the Mississippi Code of 1972. An additional period of time may be granted at the discretion of the licensing agency.

Subchapter 10 ORGANIZATION AND ADMINISTRATION

Rule 4.10.1 Governing Body.

1. A facility shall have an identifiable Governing Body with responsibility and authority for the policies and activities of the program/agency. The governing authority, the owner, or the person(s) designated by the governing authority shall be the supreme authority in an RBIR responsible for the management, control, and operation of the institution, including the appointment of qualified staff.
 - a. The Governing Body shall be designated in writing.
 - b. When the Governing Body of a facility is comprised of more than one person, the Governing Body shall hold formal meetings at least quarterly. There shall be written bylaws specifying frequency of meetings and quorum requirements. There shall be written minutes of all meetings.
 - c. When the Governing Body is composed of only one person, this person shall assume all responsibilities of the Governing Body.
2. Responsibilities of the Governing Body. The Governing Body of a facility shall:

- a. Ensure the facility's compliance and conformity with the facility's policies and procedures;
- b. Ensure the facility's continual compliance and conformity with all relevant federal, state, and local laws and regulations;
- c. Ensure that the facility is adequately funded and fiscally sound;
- d. Review and approve the facility's annual budget;
- e. Designate a person to act as Director and delegate sufficient authority to this person to manage the facility (a sole owner may be the director);
- f. Formulate and annually review, in consultation with the Director, written policies concerning the facility's philosophy, goals, current services, personnel practices, job descriptions and fiscal management; and
- g. Annually evaluate the Director's performance (if a sole owner is not acting as director).

Rule 4.10.3 Director. There shall be a full-time employee designated as Director of the licensed facility who shall be responsible for the management of the licensed facility, including day to day management, supervision, operation of the facility, and ensuring the individual service plan is implemented and carried out. The Director shall be at least twenty-one years of age and shall possess, at a minimum:

1. A Bachelor's degree in a health care field, plus six (6) years of experience in the fields of health, social services, management or administration; or
2. A Master's degree in a health care field, plus five (5) years of experience in the field of health, social services, management, or administration
3. The Director shall not be a client of the licensed facility. The Director shall have verification that he/she is not listed on the "Mississippi Nurses

Aide Abuse Registry." When the Director is not within the licensed facility, there shall be an individual onsite at the licensed facility who shall represent the Director, and be capable of assuming the responsibility of Director. Said person must be at least twenty-one years of age, possess a bachelor's degree, and shall have verification that he/she is not listed on the "Mississippi Nurses Aide Abuse Registry."

Rule 4.10.5 Personnel. There must be responsible trained staff on duty on a 24- hour basis to provide direct care services, respond to injuries and symptoms of illness, and to handle emergencies. All direct care employees shall be a minimum of 18 years of age, and shall have verification that they are not listed on the "Mississippi Nurses Aide Abuse Registry." The staff shall be knowledgeable of each client's service plan. Personnel shall be employed and on duty, awake, and fully dressed to provide personal care to the clients. The facility shall be staffed to properly safeguard the health, safety and welfare of the clients, as required in these regulations. There shall be adequate staff to meet the needs of the clients as outlined in the individual service plans, but at a minimum, there shall be no fewer than one (1) direct care staff per four (4) or fewer clients at all times and a designated person in charge on each shift.

1. Personnel shall receive training annually on topics and issues related to the population being served in the licensed facility. Training shall be documented by a narrative of the content and signatures of those attending.
2. Direct Care Staff may include care assistants, nurses, social workers, activities personnel, or other staff who provide direct care services to clients on a regular basis. If employed at more than one facility, the facility must maintain a copy of each entities schedule and ensure that their schedule does not

overlap.

3. The Nursing Director or physician must be available by telecommunications or able to be available on-site as needed 24 hours/day.
4. Nursing Director
 - a. Qualifications: Each facility must have a Nursing Director who currently maintains an unrestricted license as a Registered Nurse in Mississippi.
 - b. Nursing activities must comply with Mississippi Board of Nursing Nurse Practice Law.
 - c. Responsibilities: The responsibilities of a Nursing Director are to advance community integration through:
 - i. Overseeing the medication management program, including staff training to implement the program;
 - ii. Assisting the client in the restoration and maintenance of maximal health;
 - iii. Consulting the primary physician to advance the client with their medication management program;
 - iv. Advancing understanding of their unique medical and pharmacological needs; and
 - v. Assuring that nursing care is provided in accordance with the client's individual service plan;
 - d. The Nurse Director may be a contract employee.
5. LPN staff may administer medications in accordance with the Mississippi Board of Nursing requirements.

Rule 4.10.6 Criminal History Record Checks.

1. Definitions.
 - a. Affidavit. For the purpose of fingerprinting and criminal background history checks, the term "affidavit" means the use of Mississippi State Department of Health (MSDH) Form #210, or a copy thereof, which shall be placed in the individual's personal file.

- b. **Employee.** For the purpose of fingerprinting and criminal background history checks, employee shall mean any individual employed by a covered entity. The term "employee" also includes any individual who by contract with the covered entity provides direct client care in a client's room or intreatment rooms.
- c. The term employee does not include healthcare professional/technical students, as defined in Section 37-29-232, performing clinical training in a licensed entity under contracts between their schools and the licensed entity, and does not include students at high schools who observe the treatment and care of clients in a licensed entity as part of the requirements of an allied health course taught in the school if:
 - i. The student is under the supervision of a licensed healthcare provider; and
 - ii. The student has signed the affidavit that is on file at the student's school stating that he or she has not been convicted of or plead guilty or nolo contendere to a felony of possession or sale of drugs, murder, manslaughter, armed robbery, rape, sexual battery, any sex offenses listed in section 45-33-23 (g), child abuse, arson, grand larceny, burglary, gratification of lust, aggravated assault, or felonious abuse and/or battery of a vulnerable adult, or that any such conviction or plea was reversed on appeal or a pardon was granted for the conviction or plea.
 - iii. Further, applicants and employees of the University of Mississippi Medical Center for whom criminal history record checks and fingerprinting are obtained in accordance with Section 37-115-41 are exempt from application of the term employee under Section 41-75-13.
- d. **Covered Entity.** For the purpose of criminal history record checks, "covered entity" means a licensed entity or a healthcare professional staffing agency.
- e. **Licensed Entity.** For the purpose of criminal history record checks, the term "licensed entity" means an RBIR.
- f. **Health Care Professional Vocational Technical Student.** For purposes of criminal history record checks, the term means a student enrolled in a healthcare professional/vocational technical academic program.
- g. **Direct Client Care or Services.** For the purposes of fingerprinting and

criminal background history checks, the term "direct client care" means direct hands-on medical client care and services provided by an individual to a client, in a client's room or treatment room. Individuals providing direct client care may be directly employed by the facility or provides client care on a contractual basis.

- Documented Disciplinary Action.** For the purpose of fingerprinting and criminal background history checks, the term "documented disciplinary action" means any action taken against an employee for abuse or neglect of a client.
- Pursuant to Section 43-1 1-13, Mississippi Code of 1972, the covered entity shall require to be performed a disciplinary check with the professional licensing agency, if any, for each employee to determine if any disciplinary action has been taken against the employee by the agency, and a criminal history record check on:
 - Every new employee of a covered entity who provides direct client care or services; and
 - Every employee of a covered entity who has documented disciplinary action by his or her present employer.
- Except as otherwise provided in this paragraph, no employee shall be permitted to provide direct client care until the results of the criminal history record check have revealed no disqualifying record or the employee has been granted a waiver. Provided the covered entity has documented evidence of submission of fingerprints for the background check, any person may be employed and provide direct client care on a temporary basis pending the results of the criminal history record check but any employment offer, contract, or arrangement with the person shall be voidable, if he/she receives a disqualifying criminal record check and no waiver is granted.
- If such criminal history record check discloses a criminal conviction; a guilty plea; and/or a plea of nolo contendere to a crime that is job-related which has not been reversed on appeal, or for which a pardon has not been granted, the applicant/employee may not be eligible to be employed at the licensed facility. Documentation of verification of the employee's disciplinary status, if any, with the employee's professional licensing agency as applicable, and evidence of submission of the employee's fingerprints to the licensing agency must be on file and maintained by the facility prior to the new employees first date of employment. The covered entity shall maintain on file evidence of verification of the employee's disciplinary status from any applicable professional licensing agency and of submission and/or completion of the criminal record check, a copy of

the referenced notarized letter addressing the individual's suitability for such employment.

5. The licensing agency may charge the covered entity submitting the fingerprints a fee not to exceed Fifty Dollars (\$50.00).
6. Should results of an employee applicant's criminal history record check reveal no disqualifying event, then the covered entity shall, within two (2) weeks of the notification of no disqualifying event, provide the employee applicant with a notarized letter signed by the chief executive officer of the covered entity, or his or her authorized designee, confirming the employee applicant's suitability for employment based on his or her criminal history record check. An employee applicant may use that letter for a period of two (2) years from the date of the letter to seek employment at any covered entity licensed by the Mississippi State Department of Health without the necessity of an additional criminal record check. Any covered entity presented with the letter may rely on the letter with respect to an employee applicant's criminal background and is not required for a period of two (2) years from the date of the letter to conduct or have conducted a criminal history record check as required in this subsection.
7. For individuals contracted through a third party who provide direct client care as defined herein, the covered entity shall require proof of a criminal history record check.
8. Pursuant to Section 41-75-13, Mississippi Code of 1972, the licensing agency, the covered entity, and their agents, officers, employees, attorneys and representatives, shall be presumed to be acting in good faith for any employment decision or action taken under this section. The presumption of good faith may be overcome by a preponderance of the evidence in any civil action. No licensing agency, covered entity, nor their agents, officers, employees, attorneys and representatives shall be held liable in any employment discrimination suit in which an allegation of discrimination is made regarding an employment decision authorized under this section.

Rule 4.10.8 Employee Testing for Tuberculosis.

1. Each employee, upon employment of a licensed entity and prior to contact with any patient/client, shall be evaluated for tuberculosis by one of the following methods:
 - a. IGRA (blood test) and an evaluation of the individual for signs and symptoms of tuberculosis by medical personnel; or
 - b. A two-step Mantoux tuberculin skin test administered and read by a licensed medical/nursing person certified in the techniques of tuberculin testing **and** an evaluation of the individual for signs and symptoms of tuberculosis by a licensed Physician, Physician's Assistant, Nurse Practitioner or a Registered Nurse.
2. The IGRA/Mantoux testing and the evaluation of signs/symptoms may be administered/conducted on the date of hire or administered/read no more than 30 days prior to the individual's date of hire; however, the individual must not be allowed contact with a patient or work in areas of the RBIR where patients have access until receipt of the results of the IGRA/assessment or at least the first of the two-step Mantoux test has been administered/read and assessment for the signs and symptoms completed.
3. If the Mantoux test is administered, results must be documented in millimeters. Documentation of the IGRA/TB skin test results and assessment must be documented in accordance with accepted standards of medical/nursing practice and must be placed in the individual's personnel file no later than 7 days of the individual's date of employment. If an IGRA is performed, results and quantitative values must be documented.
4. Any employee noted to have a newly positive IGRA, a newly positive Mantoux skin test or signs/symptoms indicative of tuberculin disease (TB) that last longer than three weeks (regardless of the size of the skin test or results of the IGRA), shall have a chest x-ray interpreted by a board certified Radiologist and be evaluated for active tuberculosis by a licensed physician within 72 hours. The employee shall not be allowed to work in any area where clients have routine access until evaluated by a physician/nurse practitioner/physician assistant and approved to return. Exceptions to this requirement may be made if the employee is asymptomatic and:
 - a. The individual is currently receiving or can provide documentation of having received a course of tuberculosis prophylactic therapy approved by the Mississippi State Department of Health (MSDH) Tuberculosis Program for tuberculosis infection, or
 - b. The individual is currently receiving or can provide documentation of having received a course of multi-drug chemotherapy approved by the MSDH Tuberculosis Program; or

- c. The individual has a documented previous significant tuberculin skin reaction or IGRA reaction.
5. For individuals noted to have a previous positive to either Mantoux testing or the IGRA, annual re-evaluation for the signs and symptoms must be conducted and must be maintained as part of the employee's annual health screening. A follow-up annual chest x-ray is NOT required unless symptoms of active tuberculosis develop.
6. If using the Mantoux method, employees with a negative tuberculin skin test and a negative symptom assessment shall have the second step of the two-step Mantoux tuberculin skin test performed and documented in the employees' personal record within fourteen (14) days of employment.
7. The IGRA or the two-step protocol is to be used for each employee who has not been previously skin tested and/or for whom a negative test cannot be documented within the past 12 months. If the employer has documentation that the employee has had a negative TB skin test within the past 12 months, a single test performed thirty (30) days prior to employment or immediately upon hire will fulfill the two-step requirements. As above, the employee shall not have contact with clients or be allowed to work in areas of the RBIR to which clients have routine access prior to reading the skin test, completing a signs and symptoms assessment and documenting the results and findings.
8. Facilities shall comply with recommendations from the Centers for Disease Control and/or the Mississippi State Department of Health regarding baseline employee TB testing and routine serial employee TB testing and education. Staff exposed to an active infectious case of tuberculosis shall be treated as contacts and be managed appropriately. Individuals found to have a significant Mantoux tuberculin skin test reaction and a chest x-ray not suggestive of active tuberculosis, shall be evaluated by a physician or nurse practitioner/physician assistant for treatment of latent tuberculin infection.

Rule 4.10.9 Orientation. Facilities shall have an orientation program upon hire and ongoing annual training thereafter.

1. A facility shall have an orientation program upon hire that shall include, but is not limited to, training in the following topics for *all personnel*:
 - a. The policies and procedures of the facility;
 - b. Emergency and evacuation procedures;

- c. Client's rights;
 - d. Abuse/neglect and exploitation prevention and requirements concerning the reporting of abuse and neglect of clients;
 - e. Procedures for reporting of incidents and accidents;
 - f. Instruction in the specific responsibilities of the employee's job; and
 - g. Cultural competency.
2. Orientation for *direct care staff* shall include the following:
 - a. Training in Client Care Services (Activities of Daily Living and Instrumental Activities of Daily Living) provided by the facility;
 - b. Infection control to include Universal Precautions; and,
 - c. Any specialized training to meet clients' needs.
 3. A new employee shall not be given sole responsibility for the implementation of a client's program plan until this training is completed.
 4. All direct care staff shall receive and/or have documentation of certification in Basic Life Support and general first aid procedures within the first 30 days of employment.

SOURCE: Miss. Code Ann. §41-75-13

Rule 4.10.10 Annual Training.

1. A facility shall ensure that each direct care staff participates in in-service training each year. Routine supervision of direct care staff shall not be considered as meeting this requirement.
2. The facility shall document that direct care staff receive training on an annual basis in:
 - a. Facility's policies and procedures.
 - b. Emergency and evacuation procedures;
 - c. Client's rights;
 - d. Abuse and neglect prevention and requirements concerning the reporting

- of abuse and neglect and incidents and accidents;
 - e. Client care services (Activities of Daily Living and Instrumental Activities of Daily Living);
 - f. Infection control to include Universal Precautions;
 - g. Any specialized training to meet clients' needs, and
 - h. Cultural competency.
3. All direct care staff shall have documentation of current certification in Basic Life Support.

Subchapter 11

ADMISSIONS, DISCHARGES AND TRANSFERS

Rule 4.11.1 Admission Criteria.

1. The facility shall have a clear and specific written description of admission policies and procedures. This should include, but is not limited to, a) the application process and the criteria for the rejection of an application; b) types of clients suitable to the facility; c) services offered and allowed in the facility.
2. The following criteria must be applied and maintained for client placement in a licensed facility:
 - a. Only clients whose needs can be met by the licensed facility shall be admitted.
 - b. Clients are brain injury patients who require education and training for independent living with a focus on increasing independence; such care prepares clients for maximum independence, teaches necessary skills for community interaction, works with clients pre-vocational and vocational training and stresses cognitive, speech and behavioral therapies structured to the individual needs of patients who cannot live at home and who require on-going support and rehabilitation.
 - c. A person shall not be admitted or continue to reside in an licensed facility if the person:
 - i. Requires physical restraints;
 - ii. Poses a serious threat to himself or herself or others;
 - iii. Requires nasopharyngeal and/or tracheotomy suctioning;
 - iv. Requires intravenous fluids, medications, or feedings; or
 - d. Licensed facilities which are not accessible to individuals with disabilities through the A.N.S.I. Standards as they relate to facility accessibility may not accept wheelchair bound clients. Only those persons who, in an emergency, would be physically and mentally capable of traveling to safety may be accepted. For multilevel facilities, no clients that are unable to descend the stairs unassisted may be placed

above the ground floor level.

- e. The licensed facility must be able to identify at the time of admission and during continued stay those clients whose needs for services are consistent with these rules and regulations, and those clients who should be transferred to an appropriate level of care.
- f. Notwithstanding any determination by the licensing agency that the client no longer meets admission criteria, that client, the client's guardian, or the legally recognized responsible party for the client may consent in writing for the client to continue reside in the RBIR, if approved in writing by a licensed physician. Provided , however, that no RBIR shall allow more than two (2) clients, or ten percent (10%) of the number of clients in the facility, whichever is greater, to remain in the RBIR under the provisions herein. This consent shall be deemed to be appropriately informed consent as described by these regulations. After that written consent has been obtained, the client shall have the right to continue to reside in the RBIR for as long as the client meets the other conditions for residing in the RBIR. A copy of the written consent and the physician's approval shall be forwarded by the RBIR to the licensing agency within thirty (30) days of the issuance of the latter of the two (2) documents.
- g. No licensee, owner, or administrator of a RBIR; a member of their family; an employee of the RBIR; or a person who has financial interest in the home shall act as the legal guardian for a client of the RBIR. This requirement shall not apply if the client is related within the third degree as computed by civil law.

SOURCE: Miss. Code Ann. §41-75-13

Rule 4.11.2 At the time of admission the facility shall:

- 1. Obtain from the client or the client's family or representative, their plan for both routine and emergency medical care to include the name of physician(s) and provisions and authorization for emergency medical care;
- 2. Document that the client and/or representative was informed of the facility's emergency and evacuation procedures;
- 3. Obtain a copy of any existing executed Medical Power of Attorney or a Living Will. The facility shall maintain a copy of such documents; and
- 4. Shall execute, in writing, an admission agreement, including a financial agreement. This agreement shall be prepared and signed by the Director and the client or the client's responsible party, in two or more copies. One copy

shall be given to the client or his/her responsible party, and one copy placed on file in the licensed facility. As a minimum, this agreement shall contain specifically:

- a. Clear and specific occupancy criteria and procedures (admission, transfer, and discharge);
- b. Basic services to be made available;
- c. Basic charges agreed upon;
- d. Optional services which are available;
- e. Statement of non-covered services;
- f. Payor or funding source;
- g. Period to be covered in the charges;
- h. Services for which special charges are made;
- i. Agreement regarding refunds for any payments made in advance.
- j. Client's Code of Conduct for participation in the program and client's agreement to abide by the same;
- k. A Notice that the MS State Department of Health has the authority to examine clients' records as part of the evaluation of the facility;
- l. Division of responsibility between the facility, client, family, or others (e.g., arranging for or overseeing medical care, purchase of essential or desired supplies, emergencies, monitoring of health, handling or finances);
- m. Clients' rights;
- n. Explanation of the grievance procedure and appeals process;
- o. The development of a service plan specific to the individual client, including participation of the client and/or representative in the development of the plan;
- p. A statement that the Director shall make the client's responsible party aware, in a timely manner, of any changes in client's status, including those which require transfer and discharge; or Directors who have been designated as a client's responsible party shall ensure prompt and

efficient action to meet client's needs;

- q. State that the client or his responsible party shall be furnished a receipt signed by the licensee of the licensed facility or his lawful agent, for all sums of money paid to the licensed facility; and
 - r. Evidence of written notification provided to the client/responsible party when basic charges and/or licensed facility policies change.
5. No agreement or contract shall be entered into between the licensee and the client or his responsible agent which will relieve the licensee of the responsibility for the protection of the person and personal property of the individual admitted to the licensed facility for care.
6. Within seven days of admission, the facility shall complete an assessment to determine the needs and preferences of the client. The assessment shall include but is not limited to:
- a. Review of physical health, psycho-social status, and cognitive status and determination of services necessary to meet those needs;
 - b. A summary of the client's health needs, if any, including medication, treatment and special diet orders obtained from professionals with responsibility for the client's physical or emotional health;
 - c. A written description of the activities of daily living and instrumental activities of daily living for which the client requires assistance, if any, obtained from the client, the client's physician, family, or representative;
 - d. The client's interests, likes and dislikes;
 - e. Recreational and social activities which are suitable or desirable;
 - f. A plan for handling special emergency evacuation needs; and
 - g. Additional information or documents pertinent to the client's service planning, such as guardianship papers, Power of Attorney, Living Wills, Do-Not-Resuscitate orders, or other relevant medical documents.
7. Within 14 days after admission, the facility, with input from the client and/or his/her representative, shall develop and implement a service plan using information from the assessment. The service plan shall include:
- a. The client's needs;

- b. The scope, frequency, and duration of services and monitoring that will be provided to meet the client's needs;
 - c. Staff responsible for providing the services inclusive of third party providers;
 - d. Current medication list from the client's primary care physician; and
 - e. Identification of level of assistance client requires.
- 8. The facility shall have a reporting procedure in place for notifying appropriate individuals of observed or reported changes in a client's condition.
 - 9. The client's service plan shall be revised when a client's condition or preferences change. The revised service plan shall be signed by the client and the representative, if applicable, and the designated facility staff.
 - 10. The service plan shall be monitored on an ongoing basis to determine its continued appropriateness and to identify when a client's condition or preferences have changed. A documented review of the service plan shall be made at least every quarter.
 - 11. All plans and reviews shall be signed by the client, facility staff, and the representative, if applicable.

Rule 4.21.8 Laundry. The facility shall have provisions to provide laundry services that are adequate to handle the needs of the clients, including those with incontinence.

1. The laundry shall be located in a specifically designated area and shall have adequate space for sorting, processing and storage of soiled material. Laundry rooms or soiled linen storage areas shall not open directly into a client's bedroom or food service area. Soiled materials shall not be transported through the food service area. The laundry area shall be kept clean and orderly.
2. If a commercial laundry is used, separate storage areas shall be provided for clean and soiled linens.
3. Adequate and effective lint traps shall be provided for dryers.
4. When laundry chutes are provided, they shall have a minimum diameter of two (2) feet; and shall be installed with flushing ring, vent, and drain.
5. A functional automatic sprinkler shall be provided at the top of the laundry chute and in any receiving room for a chute.
6. A self-closing door shall be provided at the bottom of the chute.
7. Laundry equipment shall be of the type to adequately perform the laundry needs of the facility. The equipment shall be installed to comply with all local and state codes.
8. There shall be a separate and designated area for the storage of clean linen.

Subchapter 23 SUBMISSIONS OF ARCHITECTURAL PLANS AND SPECIFICATIONS

Rule 4.23.1 **Minor Alterations and Remodeling.** It is not necessary for an entity to submit plans to Health Facilities provided such are just minor alterations and remodeling which do not affect the structural integrity of the building, change functional operation, affect fire safety, or affect the license bed capacity. A detailed explanation of the proposed alteration or remodeling must be submitted to and approved by the licensing agency prior to such renovation.

SOURCE: Miss. Code Ann. §41-75-13

Rule 4.23.2 **First Stage Submission-Preliminary Plans.** First stage or preliminary plans shall include:

1. Plot plan showing size and shape of entire site; location of proposed building and any existing structure(s); adjacent streets, highways, sidewalks, railroads, etc., all properly designated; and size, characteristics, and location of all existing public utilities.
2. Floor plan showing over-all dimensions of building(s); location, size, and purpose of all rooms; location and size of all doors, windows, and other openings with swing of doors properly indicated; dimensions of all corridors and hallways; and location of stairs, elevators, dumbwaiters, vertical shafts, and chimneys.
3. Outline specifications giving kinds and types of materials.

Rule 4.25.7 Mechanical and Electric Systems. All mechanical, electrical, plumbing, heating, air-conditioning, and water systems shall meet the requirements of local codes and ordinances as well as the applicable regulation of the licensing agency. Where there are no local codes or ordinances, the most current versions of the following codes and recommendations shall govern:

1. National Electrical Code.
2. National Plumbing Code.
3. American Society of Heating, Refrigerating, and Air Conditioning Engineers, Inc.
4. Recommendations of the American Society of Mechanical Engineers.
5. Recommendations of American Gas Association.
6. National Fire Protection Association. The heating of licensed facilities shall be restricted to steam, hot water, or warm air systems employing central heating plants, or Underwriters Laboratories approved electric heating. The use of portable heaters of any kind is prohibited with the

following exceptions:

- a. Gas heaters must meet all of the following:
 - i. A circulating type with a recessed enclosed flame so designed that clothing or other inflammable material cannot be ignited.
 - ii. Equipped with a safety pilot light.
 - iii. Properly vented to the outside.
 - iv. Approved by American Gas Association or Underwriters Laboratories.
 - b. An approved type of electrical heater such as wall insert type.
7. Lighting (except for battery-operated emergency lighting) shall be restricted to electricity.

Subchapter 26 EMERGENCY OPERATIONS PLAN (EOP)

Rule 4.26.1 **General.** Each licensed entity shall develop and maintain a written preparedness plan utilizing the "All Hazards" approach to emergency and disaster planning. The plan must include procedures to be followed in the event of any act of terrorism or man-made or natural disaster as appropriate for the specific geographical location. The final draft of the Emergency Operations Plan (EOP) will be reviewed by the Office of Emergency Preparedness and Response, Mississippi State Department of Health, or their designates, for conformance with the "All Hazards Emergency Preparedness and Response Plan." Particular attention shall be given to critical areas of concern which may arise during any "all hazards" emergency, whether required to evacuate or to sustain in place. Additional plan criteria or a specified EOP format may be required as deemed necessary by the Office of Emergency Preparedness and Response. The six (6) critical areas of consideration are:

1. Communications - Facility status reports shall be submitted in a format and a frequency as required by the Office of Emergency Planning & Response.
2. Resources and Assets
3. Safety and Security
4. Staffing

5. Utilities

6. Clinical Activities

SOURCE: Miss. Code Ann. §41-75-13

Rule 4.26.2 **Plan Content.** Emergency Operations Plans (EOPs) must be exercised and reviewed annually or as directed by the Office of Emergency Preparedness and Response. Written evidence of current approval or review of provider EOPs, by the Office of Emergency Preparedness and Response, shall accompany all applications for facility license renewals.

1. Emergency plans should include, at a minimum:

- a. The facility shall have telephone service on a twenty-four hour basis.
- b. The facility shall either post telephone numbers of emergency services, including the fire department, police department, medical services, poison control and ambulance, or else show evidence of an alternate means of immediate access to these services.
- c. The facility shall have a detailed written plan and procedures including the evacuation of residences or sheltering in place as appropriate to meet all potential emergencies and disasters such as fire, severe weather, and missing clients. The facility shall implement this plan in the event that an emergency or disaster occurs. These emergency and evacuation procedures shall include:
 - i. An agreement with a host or receiving facility for transportation, medications, food, and necessary items to be evacuated with clients to safe or sheltered areas. Plans that family may evacuate the client when possible;
 - ii. Means for an ongoing safety program including continuous inspection of the facility for possible hazards, continuous monitoring of safety equipment and investigation of all accidents or emergencies;
 - iii. The resources to shelter in place, when appropriate;
 - iv. Transportation arrangements for hospitalization or any other services which are appropriate; and
 - v. Maintenance of a first aid kit for emergencies.
- d. The facility shall train all employees in emergency and evacuation

procedures in orientation when they begin to work in the facility and annually thereafter.

- e. The facility shall immediately notify the department and other appropriate agencies of any fire, disaster or other emergency that may present a danger to clients or require evacuation from the facility.

CHAPTER 5 MISSISSIPPI POISON CONTROL CENTER ACCREDITATION

STANDARDS Subchapter 1 AUTHORITY

Rule 5.1.1 Adoption of Regulation and Standards. By virtue of authority vested in it by the Mississippi Code Annotated Section 41-3-15(5)(a), or as otherwise amended, the Mississippi State Department of Health does hereby adopt and promulgate the following standards and regulations governing accreditation of Mississippi Poison Control Center(s).

Source: Miss. Code Ann. §41-3-15

Subchapter 2 DEFINITIONS

Rule 5.2.1 Poison Control Centers. The poison control center is a specialized unit providing information on poisoning, in principle to the whole community. The primary functions of a poison control center are 1) to enhance the health of the lay public by assessing exposures and providing timely information, including referral to health care facilities when indicated; 2) to enhance the care of poisoned patients by providing timely information on diagnosis and treatment to health care professionals and 3) to provide information on potential poisons and

chemical hazards to citizens and governmental agencies. In fulfilling its function, poison control centers provide the provision of toxicological information and advice, management of poisoning cases, information on the provision of laboratory analytical services, toxicovigilance activities, research, and education and training in the prevention and treatment of poisoning. As part of its role in toxicovigilance, the center advises on and is actively involved in the development, implementation, and evaluation of measures for the prevention of poisoning. In association with other responsible bodies, it also plays an important role in developing contingency plans for, and responding to, chemical disasters, in monitoring the adverse effects of drugs, and in handling problems of substance abuse. In fulfilling its role and functions, the Mississippi Poison Control Center needs to cooperate not only with similar organizations, but also with other institutions concerned with prevention of and response to poisons center is a specialized unit that advises on, and assists with, the prevention, diagnosis and management of poisoning. A poison center answers inquiries about exposure to chemical agents, including products, pharmaceuticals, natural toxins, pesticides and industrial chemicals. It provides an assessment of whether a particular exposure is hazardous, and information on the need for treatment and the kind of treatment that should be given. The goal of the poison control center for the State of Mississippi is to promote evidence-based, cost-effective management of poisoning and to ensure that unnecessary or ineffective treatment is minimized.

Rule 5.2.8 **Electronic Linkage.** Real-time technology that enables medical record system accessibility by another poison center when needed to provide coverage for a call region. Also applies to real-time technology to enable medical record accessibility for personnel or consultants utilizing remote access.

Source: Miss. Code Ann. §41-3-15

Rule 5.2.9 **Health Care Provider Education.** Professional education to healthcare providers in a poison center service area for the purpose of improving the quality, effectiveness, and efficiency of medical treatment provided to poisoned patients and enhancing awareness of poison control center services.

Source: Miss. Code Ann. §41-3-15

Rule 5.2.10 **Functional Linkage.** A cooperative working relationship with another poison center to ensure services are provided in a seamless manner to the designated population. Coordinated patient care guidelines, databases, and other reference material must be available to enable remote agents to provide a single standard of information and care across the designated region.

Rule 5.2.11 **Medical Director.** The Medical Director is a doctor of medicine or osteopathy currently licensed in the appropriate state(s). The Medical Director is board certified in medical toxicology through the American Board of Medical Specialties. A physician who is not board certified as listed above may submit evidence of equivalent expertise demonstrated by training and certification:

1. Board-eligible physicians trained in a fellowship in medical toxicology approved by the Accreditation Council for Graduate Medical Education (AGCME) must become board certified within two consecutive examination cycles.
2. Doctors of osteopathy who have completed an Accreditation Council Graduate Medical Education approved fellowship and who have passed the American Osteopathic Board of Emergency Medicine examination for Certification of Added Qualification in Medical Toxicology will be considered qualified.

Rule 5.2.17 **Quality Management**. A quality management and improvement program is an ongoing systematic, coordinated, and continuous approach to assessing and improving the delivery, quality, efficiency, and outcome of poison control center services. This is accomplished through ongoing quality improvement and quality assurance activities. The quality management program must include tools for chart review (ensuring accurate information and documentation), measuring customer and employee satisfaction, monitoring work flow and output, and improving the overall quality of services. This includes ongoing collection, monitoring, and analysis of data and the conduct of quality improvement

initiatives while taking action where indicated for the purpose of reducing errors and improve performance.

Rule 5.3.6 **Operational Requirements.** In order for a poison control center to be considered operational, the center must:

1. Have telecommunications and data resources to assure accessibility 24/7/365;
2. Utilize the national PCC hotline number of 1-800-222- 1222;
3. Have availability of medical and assistive staff to meet the needs of the call volume, educational and training productions and related services;
4. Routinely upload exposure data into the National Poison Control Database.

Rule 5.3.9 Notification of Changes. Mississippi State Department of Health shall be notified, in writing, of any of the following within 5 business days following the occurrence:

1. Address/Location
2. Phone Number (or change in national hotline number)
3. Hours of Operation/24 hour Contact Procedure
4. Medical Director
5. Poison Control Manager
6. Cessation of Business

Rule 5.3.12 Denial, Suspension or Revocation of Accreditation. Under the Agency's authority to promote and protect public health, the accrediting Agency will hold authority to deny, suspend or revoke the accreditation of an accredited poison

control center. Any of the following actions may be grounds for action by the Agency:

- in this
1. Noncompliance with provisions of the accreditation regulations as written chapter;
 2. Failure to assure qualified medical oversight and adequately qualified trained staff;
 3. Failure to maintain telecommunications on a 24 hour basis;
 4. Addiction to narcotics by any member of the medical or management staff of the center;
 5. Conviction of a felony by any member of the medical or management staff of the center;
 6. Publicly misrepresenting the poison control center or its services;
 7. Permitting, aiding or abetting the commission of an unlawful act;
 8. Misappropriating monies or properties of the center;
 9. Failure to promptly notify the appropriate authorities upon receipt of a call or information indicative of imminent danger to the calling party, their family or others.

Subchapter 4 CALL CENTER COMMUNICATIONS AND INFRASTRUCTURE

Rule 5.4.1 **Communications and Infrastructure.** The poison control center maintains the infrastructure and resources necessary to respond to calls from its designated service region 24 hours per day, 365 days a year. The center demonstrates its commitment to high standards of patient care and safety by providing sufficient human, physical, and financial resources to support its mission. All activities of

the poison control center are conducted at all times with sound ethical principles and in compliance with applicable federal and state laws.

Source: Miss. Code Ann. §41-3-15

Rule 5.4.2 Access. The poison control call center shall maintain a communications infrastructure to ensure timely and uninterrupted access to call center staff 24 hours a day, 7 days a week, and 365 days a year.

1. The poison control center shall maintain a communications infrastructure that ensures timely and unrestricted access to its trained staff without interruption.
2. The poison control center shall ensure a communications infrastructure sufficient to respond to demands for services within its designated region, the State of Mississippi.
3. The poison center shall monitor to ensure that all counties within its designated region, the State of Mississippi are served.
4. The poison control center shall use and promote the nationwide toll-free number, 1-800-222-1222.
5. The poison control center shall not impose a direct fee to individual members of the lay public (either by direct billing or pay-for-call services) for poison exposure emergency calls received from the public within its region.
6. The poison control center shall respond to inquiries in languages other than English as appropriate to the region, using language translation services, interpreters, and/or bilingual staff.
7. The poison control center shall provide access for hearing- impaired individuals.
8. The poison control center shall document and upload to the National Poison Data System (NPDS) all human exposure and information cases received by any communication method (e.g., email, text, chat).

Source: Miss. Code Ann. §41-3-15

Rule 5.4.3 Service Coverage. The poison control center shall have systems in place to monitor and assure that poison control education and services are available and provided to all parts of the State of Mississippi. The center shall use NPDS data to monitor county utilization annually and will utilize quality improvement measures to improve utilization in underserved areas.

Source: Miss. Code Ann. §41-3-15

Rule 5.4.4 **Policies and Procedures.** The poison control center must establish and comply with policies and procedures that ensure poisoning exposures and/or situations threatening human health are responded to and handled appropriately.

Source: Miss. Code Ann. §41-3-15

Rule 5.4.5 **Additional Information Services.** The poison control center may provide additional information services for public health, private industry, or other entities but must ensure adequate staffing is provided for poison-related calls.

Source: Miss. Code Ann. §41-3-15

Rule 5.4.6 **Reference Materials.** The poison control center shall establish patient care guidelines, databases, and other reference materials that ensure a single standard of information and care across the state.

Source: Miss. Code Ann. §41-3-15

Rule 5.4.7 **Triage of Calls.** The poison control center provides effective triage of emergent calls.

Source: Miss. Code Ann. §41-3-15

Rule 5.4.8 **Diversion of Calls.** If the poison control center routinely diverts calls, it must have the technology in place to allow real-time computer-networked access through a shared or replicated database to patient records with the capability to retrieve records for patient care and to have charting entries made in real time, following the standard practices for the poison center. This excludes brief periods such as coverage for staff meetings, telephony updates and disaster situations.

The poison control center may divert calls only to an accredited poison control center. Both centers must ensure that continuity of clinical care is achieved when diverting calls or sharing call responsibilities. Medical direction shall be maintained at all times during the process. A system must be put into place to replicate records into the home poison control database in a timely manner.

Source: Miss. Code Ann. §41-3-15

Rule 5.4.9 **Internal Emergency Operations Plan.** The poison control center shall have a written internal emergency operations plan designed to coordinate its communications, resources, staff responsibilities, and clinical and support

activities during an internal emergency, to ensure that services can be provided continuously to its designated service region.

1. The poison control center shall develop response and contingency plans for natural and technological disasters that may affect its facility, operations, and/or staff.
2. The poison control center shall develop a policy for business continuity in the event of a communications failure.

Source: Miss. Code Ann. §41-3-15

Rule 5.4.10 External Emergency Operations Plan. The poison control center must have a written external emergency operations plan for assisting local, state, and federal authorities respond to emergencies occurring within its designated service region.

1. The poison control center shall assist in local, regional, and/or national emergency preparedness planning activities.
2. The poison control center shall develop and maintain a plan for capacity to respond to mass poisoning exposures or public health events. The written plan must cover surge capacity to respond to mass poisoning exposure or public health events.
3. The poison control center shall develop response and contingency plans for natural and technological disasters that may affect its facility, operations, and/or staff.
4. The poison control center shall develop a policy for business continuity in the event of a communications failure.

Subchapter 5 Call Center Staffing

Rule 5.5.1 Qualified Staff. The poison control center's telephone consultation personnel possess the appropriate combination of educational credential(s), specialized training and/or certification, work experience, and demonstrated skills to qualify them for the tasks they are performing.

1. Telephone consultation staff members must be qualified, experienced, trained, and competent to deliver quality patient care.
2. Telephone consultation staff shall receive ongoing continuing education related to toxicology.

Rule 5.5.2 Staffing for PCC. The poison control center must ensure that telephone consultation staff members are adequately qualified. The center shall be staffed with medical toxicologist, clinical toxicologist, certified poison information specialist (CSPI), specialist in poison information (SPI), poison information providers (PIP), and other personnel, as needed, based on the volume of calls.

1. A Specialist in Poison Information (SPI) or a Certified Specialist in Poison Information (CSPI) may work part time or full time in the poison control center, but when scheduled to work on the poison center hotline, 100% of his or her time must be dedicated to poison control center activities.
2. A Certified Specialist in Poison Information (CSPI) may work as a sole individual providing service in handling human exposure calls if the medical director and the Poison Control Manager (if a clinical toxicologist) have evaluated the CSPI's performance and have deemed the CSPI appropriate to work alone with access to clinical supervision at all times.
3. A non-certified Specialist in Poison Information (SPI) may work as a sole individual providing service in handling human exposure calls if the SPI is in the process of meeting the Certified Specialist in Poison Information (CSPI) examination eligibility requirements, has handled a minimum of 2,000 human exposure cases, and the medical director and poison control manager have evaluated the SPI's performance and have deemed the SPI appropriate to work alone with access to clinical supervision at all times.
4. Specialist in Poison Information (SPI) who are not Clinical Toxicologists (see Rule 5.2.7) or Medical Toxicologists (see Rule 5.2.12) shall be certified by the American Association of Poison Control Centers within three consecutive certification examinations. Initial eligibility for certification is met when the candidate meets criteria for call volume and hours worked and poison control center leadership has verified the candidate's eligibility.
5. A Certified Specialist in Poison Information (CSPI) who fails the re-certification exam or does not retake it before the expiration date of the certification reverts to a Specialist in Poison Information (SPI) but remains eligible to retake the examination. This SPI must recertify within three consecutive administrations of the certification exam.

6. A Specialist in Poison Information (SPI) or Certified Specialist in Poison Information (CSPI) who has failed the examination three times may not work independently and must follow the scheduling and supervision requirements of a Poison Information Provider (PIP) (refer to items 8-10, as listed below) but remains eligible to retake the certification examination. Any change in employment status must follow host institution policy.
7. A Poison Information Provider may work part time or full time in the poison control center, but when scheduled to work on the poison center hotline, 100% of his or her time must be dedicated to poison control center activities.
8. Poison Information Providers may not be the sole individual scheduled to work on the poison center hotline.
9. At all times, Poison Information Providers must be under the oversight/direction of a certified Specialist in Poison Control, a qualified person providing medical direction, or a Clinical Toxicologist and/or Medical Toxicologist.
10. Qualified individuals – (an individual as defined in Rule 5.5.2(2)) The center must provide 1:2 (supervisor to PIP) oversight of PIPs who manage exposure calls.
11. Supervising individuals, as listed in Rule 5.5.2 (2) shall provide the following types of oversight to a Poison Information Provider: direct oversight, on-site oversight, or general oversight. Direct oversight means the individual is within technologically unassisted audible and visible reach of the Poison Information Provider. On-site oversight means the individual must be in the Poison Control Center and quickly available to the Poison Information Provider. General oversight means accepting responsibility for and overseeing the services of a Poison Information Provider by telephone, by videoconferencing, or in person as frequently as necessary considering the location, nature of practice, and experience of the Poison Information Provider.

Source: Miss. Code Ann. §41-3-15

Rule 5.5.3 Staff Experience/Expertise. The poison control center must ensure that telephone consultation staff have the appropriate experience and level of expertise to achieve and maintain a high standard of practice.

1. To maintain experience, expertise, and quality, call center personnel at a poison control center must handle, on average, at least 2,000 and not more than 5,500 human exposures per Certified Specialist in Poison

Control/Specialist in Poison Control/ Poison Information Provider full-time equivalent (FTE) per year.

2. The Mississippi Poison Control Center will strive to maintain 100% of Specialist in Poison Control's FTEs by certified specialist in poison control; however, in times of high turnover, the Mississippi Poison Control Center will make every effort to assure that at least 50% of the specialists functioning in the poison control center will be certified specialist in poison control. Should the number of certified specialist in poison control information drop below the 50% , the Mississippi Poison Control Unit will notify the accrediting agency and provide to the accrediting agency a detailed action plan for assuring adequate coverage of the center with qualified staff during this period and which shall address recruitment and training efforts. The minimum number of Certified Specialist in Poison Information (CSPI) for certification shall be no less than 40%.
3. Specialists in Poison Control (SPI) not currently certified by AAPCC must spend a minimum of 800 hours per year (15 hours/week average) and manage 1,000 human exposure cases per year working as a SPI.
4. Certified Specialists in Poison Information (CSPIs) must spend a minimum of 400 hours per year (8 hours/week average) and manage 500 human exposure cases per year or equivalent of an equal number of hours in providing professional education, clinical, or case management activities.

Source: Miss. Code Ann. §41-3-15

Rule 5.5.4 **Training and Orientation.** The poison control center must demonstrate that telephone consultation staff are trained appropriately and assessed on an ongoing basis to maintain competency.

1. The Medical Director is responsible for content oversight of staff toxicology education and training.
2. The poison control center must have an orientation/training program for new staff providing toxicologic information, including training manuals, written learning objectives, regular evaluation of progress, and competency evaluation.
3. The poison control center must have an ongoing education program in place to update and increase the knowledge base and competency of staff.
4. A regular evaluation process must be in place for telephone consultation

staff, involving review of both communication skills and case management.

- a. All telephone personnel must complete the Poison Control Center Collaborative Communications Training Module on an annual basis.

Source: Miss. Code Ann. §41-3-15

Rule 5.5.5 Resources. The poison control center must ensure that medical toxicologists, clinical toxicologists, and telephone consultation staff have access to resources needed to ensure learning and the delivery of competent care.

1. Comprehensive product information resources shall be immediately available to the clinical staff at all times.
2. Clinical staff members shall be timely informed of current toxicology matters and trends (e.g., current drug trends, recalls).

Source: Miss. Code Ann. §41-3-15

Rule 5.5.6 Teleworking. If the poison control center's leadership determines that teleworking is an appropriate alternative work arrangement to meet the needs of the populations it serves, the center must ensure that its services provided by teleworkers meet all requisite standards.

1. Employee eligibility for teleworking is determined at the sole discretion of the poison control center clinical/medical director leadership.
2. At least one Specialist in Poison Information (SPI) must be onsite for each shift during business and peak call volume hours, unless there is a disaster that requires closure of the facility.
3. The poison control center has a teleworking agreement or policy to establish eligibility guidelines, usage policies, work hours, employee availability, IT support processes, and data security, demonstrating a clear understanding of the expectations of teleworkers.
4. The poison control center has a well-defined emergency service continuity plan, including a policy for business continuity in the event of a telecommunication failure at the remote site (refer to Emergency Operations Plan).
5. Teleworkers must have immediate access to a clinical or medical toxicologist at all times commensurate with on-site staff designated to answer poison control center calls.

6. Teleworkers must have access to key information resources at all times commensurate with onsite staff designated to answer poison control center calls.
7. The poison control center ensures proper review of patient management by teleworkers. This includes immediate access to teleworker case and voice recordings for review by medical director and/or clinical supervisor.
8. The poison control center has a plan to provide and document staff development activities for teleworkers.

Source: Miss. Code Ann. §41-3-15

Rule 5.5.6 (9) The poison control center may utilize teleworking to support call delivery. In addition, the poison control center may enter into an agreement with another poison control center to provide call management services via teleworking during low volume times in which it is not financially feasible to maintain a full-time SPI at the home poison control center.

- a. The poison control center supplying the teleworking services must be accredited.
- b. Teleworking calls will be answered as “Thank you for calling the Mississippi Poison Control Center”.
- c. The home poison control center will supply medical direction and medical toxicologists from the home poison control center and will communicate with physicians requiring assistance during these hours.
- d. All teleworking SPIs must meet the minimum eligibility requirements of the home poison center.
- e. This will be a Functional linkage as defined under 5.2.10. Coordinated patient care guidelines, databases, and other reference material must be available to enable remote agents to provide a single standard of information and care across the Mississippi. This process is not call diversion.
- f. All call records will be routinely uploaded to the NPDS at a frequency equal to or shorter than that used by the home poison control center. These call records must be identified as Mississippi calls and the home center must be listed as the primary center. The teleworking poison control center will

provide full electronic copies of all cases to the home poison control center. A written procedure will be followed for full electronic call records of teleworking calls to be replicated in the home poison control center database within 10 hours of the call.

- g. The home poison control center will have immediate access to a shared/replicated database maintained by the teleworking poison control center.
- h. A written plan will be maintained and followed for the home poison control center to resume call management in the case of a disaster at the teleworking poison control center.

Subchapter 6

Rule 5.6.1 **Patient Management.** Poison control centers shall provide information to the public and to health care providers regarding human exposures, including assessment of the type and severity of poisoning, suggestions for on-site management when appropriate, reassurance to the caller, and referral to a health care facility when necessary.

Source: Miss. Code Ann. §41-3-15

Rule 5.6.2 **Systems for Care.** The poison control center shall have systems in place to provide safe and appropriate exposure management recommendations and to help the public and care providers avoid unnecessary utilization of health care resources. When referral to a health care facility is necessary, the facility will be notified of information regarding the case and the relevant toxicology of the poison involved.

Source: Miss. Code Ann. §41-3-15

Rule 5.6.3 **Informational Source.** The poison control center will provide health care providers with information on treatment, differential diagnosis, and interpretation of clinical signs and laboratory values and facilitate access to specialized toxicology services and follow-up.

Source: Miss. Code Ann. §41-3-15

Rule 5.6.4 **Availability of Medical Consultation.** Clinical or medical toxicologists shall be available at all times for consultation. The poison control center medical director or designee shall be available for medical back-up at all times. Consultations to healthcare facilities shall be conducted by the Medical Toxicologist or his/her designee.

Source: Miss. Code Ann. §41-3-15

- Rule 5.6.5 **Patient Management Guidelines.** The poison control center must utilize patient management guidelines for the assessment, triage, management, and follow-up of poisoning exposures. Those guidelines must clearly define parameters for patients managed on-site and health care facility (HCF) management and appropriate follow-up.
1. The poison control center provides clinical guidelines that include but are not limited to the evaluation and follow-up of potentially toxic exposures and appropriate criteria for patient disposition.
 2. The poison control center regularly uses a process for the establishment of guidelines, including time lines for review and update.
 3. The poison control center ensures that guidelines are available to all staff at all times.

Source: Miss. Code Ann. §41-3-15

- Rule 5.6.6 **Follow-up of Cases.** The poison control center shall provide timely and appropriate follow-up (internally defined). Follow-up calls from the poison control center are used to ascertain patient status, symptom resolution, compliance with or modification of recommended therapy, and, when appropriate, status after discharge.
1. At least 75% of human exposure cases managed at a Health Care Facility (HCF) (already in or en route to HCF) are followed to a known outcome (excluding not followed, judged as nontoxic; lost to follow-up/left AMA, refused referral/did not arrive at HCF).

Source: Miss. Code Ann. §41-3-15

- Rule 5.6.7 **External Resources.** The poison control center must identify and have access to pertinent external resources at all times to assist with unique poisonings encountered in the region.

Source: Miss. Code Ann. §41-3-15

- Rule 5.6.8 **Antidotes.** The poison control center must maintain a process to locate critical antidotes and assist with the transfer of the patient or the antidote when necessary.

Subchapter 7 Quality Assurance

Rule 5.7.1 **Quality Assurance Program.** The poison control center shall develop and utilize an on-going quality management and improvement program. This quality management and improvement program and activities shall be the framework within which the poison control center improves the quality of information and service delivery to callers.

1. The quality management program must include tools for chart review (ensuring accurate information and documentation), measuring customer and employee satisfaction, monitoring work flow and output, and improving the overall quality of services.
2. The poison control center shall demonstrate the use of a comprehensive, written, quality management program that describes the center's methods of conducting quality improvement and quality assurance.
3. The poison control center shall apply the results of quality management to update its policies and procedures, reduce errors, and improve performance.
4. The quality assurance and quality improvement program shall be managed by the medical or clinical toxicologist or designee and overseen by the Medical Director. These activities are conducted in accordance with the policies and procedures of the poison control center, reviewed by the Medical Director and action taken as appropriate. Documentation of the quality assurance processes, findings, outcome and all corrective actions taken shall be documented and maintained as evidence of the poison control center's quality assurance/improvement process.
5. The poison control center shall conduct at least one unique quality management initiative every 12 months, at a minimum, exclusive of regular audits.
6. The poison control center shall incorporate an internal or external benchmarking into its quality management program. Proposed Outcomes include:
 - a. Improve quality of patient care and information services;
 - b. Organizational efficiency and performance;
 - c. Therapeutic and coding error reduction;
 - d. Optimization of caller satisfaction;
 - e. Optimization of employee satisfaction; and
 - f. Fulfillment of the center's mission.

Rule 5.7.2 Case Review. The poison control center shall regularly review its medical records for, at a minimum, the quality of poison information provided and the quality of documentation, including accuracy and completeness.

1. The Medical Director shall be responsible for the accuracy of toxicologic recommendations made by clinical staff, including specialists in poison information, poison information providers, students, residents, and fellows. A program for the review of medical records shall be in place for improved management and documentation of cases.
2. A selection of high-risk or problem-prone cases and those managed in a health care facility shall be reviewed internally on an ongoing basis under the direction of a medical or clinical toxicologist.
3. A selection of cases managed on-site (non-health care facility) shall be reviewed internally on an ongoing basis by a medical or clinical toxicologist or individual designated by the medical or clinical toxicologist.

Source: Miss. Code Ann. §41-3-15

Rule 5.7.3 Policy/Procedural Reviews. The poison control center shall, on a regular basis, examine all of its guidelines, policies, and procedures to ensure that they drive optimal performance.

1. The poison control center shall regularly examine the compliance of its employees in adhering to its clinical guidelines, policies, and procedures.
2. The Medical Director shall review and approve all clinical guidelines at least every 24 months and ensure that the number and content of the center's policies are adequate to direct the provision of state-of-the-art toxicologic advice.

Source: Miss. Code Ann. §41-3-15

Rule 5.7.4 Customer Satisfaction. The poison control center shall measure the satisfaction of its customers (general public and health care providers) on an ongoing basis (minimum of once per year).

Source: Miss. Code Ann. §41-3-15

Rule 5.7.5 **Medical/Case Records.** The poison control center shall keep records of all cases for which it was consulted or provided information in a format that is acceptable as a medical record.

1. The medical/case record shall be used to facilitate communication among poison control center staff members to ensure a clear, consistent, and cohesive set of recommendations regarding diagnosis, treatment, and other clinical advice.
2. The medical record of the poison control center shall contain data elements and sufficient narrative to allow peer review and medical audit.
3. The poison control center shall follow applicable institutional, state, and federal laws and regulations regarding patient confidentiality. Its medical record system shall be indexed for easy retrieval, either hardcopy or electronic and maintained in a secure location.
4. The poison control center shall develop, in writing, and abide by a record retention policy.

Subchapter 8 Public Education

Rule 5.8.1 **Public Education Program.** The control center will provide or participate in poisoning prevention, awareness, and education throughout its designated region, the state of Mississippi. Public education will incorporate a combination of public health strategies, including but not limited to direct outreach, marketing, public relations, collaborative relationships with community groups and other agencies, and mass media, to increase awareness of poisoning, poison prevention, and poison center services, tailored to regional community needs and the population served. Effective public education is based on a solid understanding of the impact of poisonings, the groups at risk, and the use of appropriate educational strategies. Public education efforts provided through collaborative partnerships shall be vetted by the poison control center to meet the identified needs of the designated populations.

1. The poison control center shall utilize internal or external individual(s) or organization(s) that are qualified/ trained to plan, design, and implement coordinated public education activities throughout the designated region.
2. The poison control center will provide poison prevention and awareness education. Collaboration and partnerships may enhance the ability to provide effective public education and awareness programs.
3. The educator(s) with oversight of content and quality of public education activities at the poison control center must be a health professional or have

a degree in health education, public health, or an education-related discipline or relevant work-related experience.

4. The educator(s) must demonstrate ongoing efforts in continuing education related to his or her current job function and accreditation standards.
5. The poison control center will periodically assess community needs for public education. Target populations throughout Mississippi will be identified.
6. The poison center shall ensure planning and implementation of a comprehensive public education program to reach the target populations. The poison center adapts or develops public education strategies that are appropriate for the intended target populations.
7. The public education programs conducted by the poison control center shall include ongoing evaluations and apply the results to improve and advance public education programs.

Source: Miss. Code Ann. §41-3-15

Rule 5.8.2 Healthcare Provider Education Program. The poison control center provides education to health care providers (HCPs) in their designated region for the purpose of improving awareness of poison center services and the quality, effectiveness, and efficiency of medical treatment for the poisoned patient.

1. The poison control center must employ or utilize individual(s) that are qualified/trained to plan, design, and implement coordinated health care provider education activities at the poison control center and throughout the designated region. Content oversight will be provided by the Medical Director or a clinical or medical toxicologist as his designee.
2. New and important advances in poisoning management will be provided to health care providers throughout the designated service region.
3. The accredited poison control center may offer educational activities for students in health care disciplines and residents in training.
4. The curricula and program formats shall be developed around learning objectives consistent with the interests and level of expertise of the targeted professional audience. The poison center will apply evaluation results to improve the provider education program.

Source: Miss. Code Ann. §41-3-15

Rule 5.8.3 **Educational Information.** The poison control center shall provide public education information and materials (developed internally or externally) that are clinically accurate and designed for the specific target population.

1. All information and materials shall be easy to read, simple to understand by the targeted population, and developed applying health literacy principles.
2. Public education program materials developed by the poison control center or by an American Association for Poison Prevention Center must be reviewed for clinical accuracy by the Clinical and/ or Medical Toxicologist of the poison control center.

Subchapter 9 Data and Surveillance

Rule 5.9.1 **Data and Surveillance.** The poison control center shall collaborate with local, state, and federal public health entities for the surveillance of poisonings.

1. Surveillance data shall be used for:
 - a. The detection and monitoring of, and response to, public health and environmental emergencies involving toxic exposures, pandemics, as well as the contamination of the air, water, pharmaceutical or food supply;
 - b. Implementing and evaluating prevention and control measures;
 - c. Planning and managing resources and establishing priorities; and
 - d. Identifying emerging trends and/or public health threats.

Source: Miss. Code Ann. §41-3-15

Rule 5.9.2 **Record/Case Retention.** The poison control center shall generate and keep a permanent confidential record of each exposure case handled by the center in a form generally accepted as a medical record for a period of time consistent with institutional, state, and federal regulations on the retention of general medical records.

Source: Miss. Code Ann. §41-3-15

Rule 5.9.3 **Record Documentation.** The poison control center shall facilitate communication among staff to ensure clear, consistent, and cohesive documentation using the medical record.

Rule 5.9.6 **Submissions to National Poison Data System (NPDS).** The poison control center shall submit all of its human exposure data to the NPDS in the format and time-frame, as prescribed by the NPDS.

Source: Miss. Code Ann. §41-3-15

Rule 5.9.7 **NPDS Entries.** The poison control center shall have an ongoing process to ensure that consistent, complete, and accurate data are entered and submitted to the National Poison Data System.

1. The poison control center shall have a process in place to minimize data coding errors.

Source: Miss. Code Ann. §41-3-15

Rule 5.9.8 **Public Health Monitoring.** The poison control center will monitor for the emergence of poisoning hazards and take specific actions to eliminate them. Those actions include, but are not limited to, notification of the appropriate public health officials regarding hazards, public and professional education efforts, press releases, and poison prevention efforts.

1. The poison control center has a process for sharing information to meet the needs of local, state, and federal public health entities.
2. The poison control center has a process of communicating hazards to local, state, and federal authorities and other agencies in real time and maintains communication with those entities as needed.

Subchapter 10 Leadership and Management

Rule 5.10.1 Leadership and Management. The poison control center shall employ individuals who collectively provide expertise in clinical toxicology. The poison control center shall also employ or utilize leaders and managers to perform the functions necessary to support the expert staff, including experts in human resource management, budgetary and financial management, education, regulatory compliance, emergency preparedness and response, facilities management, and information technology.

Source: Miss. Code Ann. §41-3-15

Rule 5.10.2 Qualified Leadership. The poison control center shall be staffed by leadership personnel who are qualified to perform their designated duties.

Source: Miss. Code Ann. §41-3-15

Rule 5.10.3 Functions of Leadership. The poison center's leaders shall have the following duties and responsibilities:

1. Ensure that information provided to the public and health care professionals is of the highest possible quality;
2. Optimize the poison control center's stability through astute financial management;
3. Hire, train, mentor, and manage a team of experts in toxicology, using policies and procedures designed to facilitate optimal output (timely flow of quality information);
4. Oversee the quality of information collected and recorded for descriptive epidemiology purposes;
5. Ensure that the center has planned for continued provision of poison control center services during emergencies;

6. Establish and maintain partnerships with public health and other stakeholders; and
7. Ensure that meaningful surveillance links exist to transmit poison control center hazard observations to appropriate public health officials.

Source: Miss. Code Ann. §41-3-15

Rule 5.10.4 **Medical Leadership.** The individual or individuals providing medical direction shall individually or collectively devote a minimum of 20 hours per week to the center to conduct the required Medical Director duties. Additional medical direction may be desirable and may be necessary.

1. One or more individuals may function as administrative director(s) and shall be accountable for all operations of the poison control center.
2. These individuals are accountable for all operations of the poison control center shall ensure that all other staff members meet qualifications for their designated duties.
3. An individual may be qualified to perform more than one leadership function.
4. Poisoning information and treatment advice shall be provided by staff under the direction of adequately qualified clinical toxicologists, at least one of which must be a qualified medical toxicologist designated to serve as the Medical Director.

Source: Miss. Code Ann. §41-3-15

Rule 5.10.5 **Credentials and Qualifications.** The poison control center shall employ or use toxicologists who are appropriately qualified and approved by the Medical Director to perform clinical supervision. Qualified toxicologists may be either Clinical Toxicologists or Medical Toxicologists.

Source: Miss. Code Ann. §41-3-15

Rule 5.10.6 **Credentials of Clinical Toxicologist.** The poison control center may employ or use Clinical Toxicologists, defined as follows:

1. Clinical Toxicologists may be diplomats of the American Board of Applied Toxicology (DABAT).

2. Health care providers without ABAT certification will be considered qualified to provide clinical supervision for the purpose of determining compliance with current criteria if:
 - a. The healthcare provider has met the following criteria:
 - i. A minimum of a baccalaureate degree in nursing, pharmaceutical services, or a doctorate in medicine; and
 - ii. A minimum of a baccalaureate degree in toxicology related field, such as toxicology, chemistry, biochemistry, or environmental science; and
 - iii. A certification by a national toxicology board such as the American Board of Applied Toxicology, the American Association of Poison Control Centers, or the American Board of Toxicology; and
 - iv. Post graduate education/certificate in clinical toxicology.

Source: Miss. Code Ann. §41-3-15

Rule 5.10.7 **Qualifications of Medical Toxicologist.** The poison control center shall employ or use one or more medical toxicologists who meet the following:

1. Medical toxicologists associated with the poison control center shall be physicians (MD, DO) who are board-eligible or board-certified in medical toxicology through the American Board of Medical Specialties or the American Board of Osteopathic Medicine;
2. Have a current and unrestricted license from the Mississippi State Board of Medical Licensure; and
3. Participate in consultations with the poison control center staff and perform consultations with other health care providers.

Source: Miss. Code Ann. §41-3-15

Rule 5.10.8 **Medical Director Qualifications.** One or more medical toxicologists may share the duties of the Medical Director, provided that all meet the qualifications.

1. If more than one individual performs the duties of a Medical Director, one individual shall serve as the designated Medical Director for the center.

2. The Medical Director shall be a doctor of medicine or osteopathy with a current and unrestricted license from the Mississippi State Board of Medical Licensure.
3. The Medical Director shall be board certified in medical toxicology through the American Board of Medical Specialties subspecialty examination in Medical Toxicology (after 1994). A physician who is not board certified as listed above may submit evidence of equivalent expertise demonstrated by training and certification:
 - a. Board-eligible physicians trained in a fellowship in medical toxicology approved by the Accreditation Council for Graduate Medical Education (ACGME) must become board certified within two consecutive examination cycles.
 - b. Doctors of Osteopathy who have completed an ACGME-approved fellowship and who have passed the American Osteopathic Board of Emergency Medicine examination for Certification of Added Qualification in Medical Toxicology will be considered qualified.
4. The Medical Director and all other individuals designated as providers of medical direction must have active staff appointments at an inpatient treatment facility and must be involved in the bedside clinical management of poisoned patients.

Source: Miss. Code Ann. §41-3-15

Rule 5.10.9 **Readily Available Evidence of Qualifications.** The poison control center shall maintain and have readily accessible for review an individual file for each employee which shall contain, but not be limited to the following:

1. Signed acknowledgement of the duties and responsibilities of their job description, to include a copy of said job description;
2. A biographical sketch for each physician and/or toxicologists (clinical and medical);
3. Documentation of the Medical Director's approval of all toxicologists operating within the poison control center;
4. Verification of current medical, nursing and/or other professional licensure, as applicable;

5. Documented evidence that the Medical Director and all other individuals designated as providers of medical direction have active medical staff privileges at an inpatient treatment facility (e.g., letters of appointment).
6. Verification of clinical and/or medical toxicology board certification (or alternative proof of qualification).

Source: Miss. Code Ann. §41-3-15

Rule 5.10.10 Required Expertise. In an effort to assure quality poison control services, the poison control center shall assure clinical and medical toxicology expertise for all Medical and Clinical Toxicologist working as part of or in conjunction with the center.

1. A poison control center shall provide full-time toxicological supervision. This must include at least one full-time equivalent on-site toxicologic supervision provided by a qualified Clinical or Medical Toxicologist (or a combination) and appropriate qualified back-up.
2. The Medical Director may designate other toxicologists (e.g., clinical toxicologist, fellows in training) to provide immediate consultation, (either within the center or by taking call) to the clinical staff as long as a qualified medical toxicologist is immediately available 24/7.
3. The Medical Director shall be responsible for information and recommendations related to patient care.

Source: Miss. Code Ann. §41-3-15

Rule 5.10.11 Appropriate Medical Direction. The poison control center shall have appropriate medical direction. The following shall represent the minimum time commitment for medical direction. Additional medical direction is highly desirable and may be necessary.

1. The Medical Director must spend a minimum of 20 hours per week dedicated to the poison control center. At least 15 hours must be on-site. Five (5) hours a week may be off-site if directed to activities of the poison control center.
2. If the call volume for human exposures for the state of Mississippi exceeds 24,999/year, the following schedule will be used to determine the required Medical Director hours per week.

Human exposures per year	Off-site* hours/week	On-site hours/week	PCC total
-----------------------------	-------------------------	-----------------------	-----------

			hours/week
0–24,999	5	15	20
25,000–37,499	10	15	25
37,500–49,999	10	20	30
50,000–74,999	10	30	40
75,000–99,999	10	40	50

3. For poison control centers in transition with medical direction or other special circumstances (e.g., loss of Medical Director or other circumstances deemed appropriate by the certifying Agency, up to 50% of Medical Director on-site time may be accomplished through direct continuous video conferencing with poison control center clinical staff. Availability by phone or beeper alone is not sufficient.
4. Time applied to medical direction must be 100% engaged in poison control center activities.

Source: Miss. Code Ann. §41-3-15

Rule 5.10.12 Support Systems. The poison control center shall have access to or supports additional functions, including human resources, budgetary and financial management, employee education, training and staff development, information technology, external relations, and other administrative functions. These roles may be fulfilled by the certified poison control center director or other designated individual(s).

1. The person(s) responsible for human resources shall ensure that all managerial and staff actions considered to be human resource functions are carried out according to the poison center's policies and in accordance with applicable local, state, and federal laws.
2. The person(s) responsible for the budgetary and financial management shall develop, balance, and reconcile budgets; identify, manage, and generate revenue streams; ensures the appropriate accounting procedures are used, manages grants and contracts; procures equipment, supplies, software, hardware, and licenses; and oversees business and financial development.
3. The person(s) responsible for compliance with accreditation of this poison control center shall assure the development of internal processes for monitoring said poison control center's compliance with the requirements as addressed in the Regulations Governing Accreditation of Poison Control Centers in Mississippi and ensures adherence to federal, state, and local laws; regulations, and institutional policies.

4. The person(s) responsible for employee education, training, and staff development shall train and maintain documentation of said training for new employees, provide updated new information in a clear and consistent manner, and encourage and participate in the professional development of the center's employees.
5. The person(s) responsible for information technology shall provide information technology support, including maintaining the center's hardware and software, information transmission to the National Poison Data System, maintenance of confidentiality, and emergency backup.
6. The person(s) responsible for the operations and infrastructure of the poison control center shall be available, or have an assigned designee who has decision making authority available, at all times to ensure the continuous provision of accredited poison control center services.

Source: Miss. Code Ann. §41-3-15

Rule 5.10.13 **Documentation of Compliance.** The poison control center shall document ongoing compliance with the requirement for assuring medical direction and services. Documentation to reflect compliance shall be submitted as outlined in the Mississippi Poison Control Center Accreditation Standards, Appendix A and Appendix B.

Mississippi Poison Control Center Accreditation Standards
Appendix A
Documentation of Compliance

Source: Miss. Code Ann. §41-3-15

1. Call center communications and infrastructure
 - a. Describe the poison control center's designated service region.

- b. Provide written documentation of state designation of the poison control center by the state public health authority and clearly delineate the region served.
- c. Submit Table1, Appendix B of the call volume and population by county.
- c.1. Provide documentation that adequately explains the reasons for an unusually low county utilization rate (counties with more than 2 standard deviation rates below the state mean for the most recent available year). Submit a documented improvement plan that describes timelines, goals, and objectives for improving utilization of PCC services in underserved counties or equivalent regions.
- d. Provide a map of the designated service region.
- e. Describe current methods by which the center can be accessed by the public and health care professionals including, but not limited to, telephone, videoconferencing, and web access.
- e.1. Describe access for hearing-impaired individuals.
- e.2. Describe the poison control center's capabilities to respond to inquiries in languages other than English.
- e.3. Describe how the poison control center interfaces with 911 and other emergency operators.
- f. Submit call center metrics for 3 recent consecutive months for any/all local and national phone lines used to respond to poison control calls.
- f.1. Total number of inbound calls.
- f.2. Rate (%) of calls abandoned. This is defined as the number of abandoned calls divided by total incoming calls. Exclude calls with abandoned times of less than or equal to 12 seconds.
- f.3. Average abandonment time. This is defined as the average time calls were waiting in queue before abandonment.
- f.4. Average time to answer a call. This is defined as the average time a call was waiting in queue before being answered by an agent.
- f.5. Submit a detailed explanation for metrics that exceed defined acceptable service levels by the approved benchmark. If necessary, submit a documented improvement plan that describes timelines, goals, and objectives to maintain metrics within acceptable range.
- g. Describe how the poison control center uses and promotes the nationwide toll-free number, 1-800-222-1222.

- h. Provide the following documentation for all communications modalities:
 - h.1. all applicable triage and communication policies and procedures that were developed specifically for each communication modality;
 - h.2. a detailed description of the process for training and monitoring the quality and effectiveness of communication modalities.
 - i. Describe the telephone system (e.g. call flow, interactive voice response [IVR], call routing, priority queue, remote locations).
 - j. List and describe all types of communications methods, such as telephone, chat, and text, and information services (e.g., on topics such as flu or rabies offered by the center, including the annual volume of calls for each service and the presence or absence of separate staffing for each service).
 - k. Provide policies and procedures that ensure poisoning calls threatening human health are responded to and handled appropriately.
 - l. If call diversion is used, describe the process for call diversion and ensuring access to case information.
 - m. If call diversion is used, provide evidence of coordinated patient care guidelines, databases and other reference material that ensures a single standard of care.
 - n. If call diversion is used, describe how continuity of clinical care is achieved when routinely diverting calls to another poison control center.
 - o. Provide response plan for natural and technological disasters to ensure business continuity in the event of a communications failure.
 - p. Provide a plan for surge capacity to respond to mass poisoning exposures or public health events.
2. Call center staffing
- a. Submit a listing (Table 2, Appendix B) of SPIs/CSPIs, their background and their work effort.
 - a.1. Provide a copy of the job description for a SPI/CSPI.
 - a.2. Submit the total number of candidates who have taken the CSPI examination over the past 7 years and note the pass/fail status.

- a.3. Submit an explanation for any instance where a SPI has worked alone and has not met criteria as mentioned above. For any instance where a SPI has worked alone and has not met the criteria, a time-limited waiver may be granted upon the provision of an explanation, a time line for correction, and explanation of the methodology used by the medical director and managing director in assessing and verifying the competency of the specialist working alone. Submit the explanation/verification required for waiver.
- b. Submit (Table 3, Appendix B), a listing of PIPs, their background and their work effort. (Do not include rotating residents, students or fellows.)
 - b.b.1. Provide a copy of the job description for a PIP.
 - b.2. Provide internal policy statements or other documents which guarantee that, while answering exposure calls, PIPs are always under the oversight of a CSPI, medical director or clinical toxicologist.
 - b.3. Submit Table 4, Appendix B, summarizing all poison information staff. Provide a copy of the SPI staffing schedule for the most recent 3 months.
- c.
 - c.1. Identify each entry as per job function.
 - c.2. Designate every shift that is completely or partially covered by one staff member alone and teleworking staff.
 - c.3. For non-certified SPIs working alone, submit documentation verifying that the individual is in process of meeting CSPI examination eligibility requirement and has handled 2,000 human exposure cases.
- d. Document total call volume and human exposure calls per SPI FTE (calls documented in database).
 - d.1. Provide an explanation for any discrepancy between call volume that drops below 2,000 human exposures or exceeds 5,500 human exposure for CSPI/SPI/PIP.
- e. Describe supervisor or case management activities for certified SPIs not working 400 hours per year and managing 500 human exposure cases per year.
- f. Describe the poison control center's programs for initial orientation training, continuing education, and team efforts to increase the knowledge base and skill of the clinical staff.
- g. Provide a list of activities and sample of training materials for SPIs/PIPs.
- h. Describe evidence of staff competency assessment.

- i. Describe the toxicology references, including website links and list of online resources that are most often utilized by the staff.
 - j. Describe the method of access for staff, including remote agents, if applicable.
 - k. Describe the method of keeping staff aware of current trends and toxicology matters.
 - l. Provide a copy of currently teleworking policy and procedures.
 - m. Describe the technology of teleworkers for communication with the main site and record continuity.
 - n. Provide staffing patterns for teleworkers (clearly mark teleworking staff on 3 month schedule), include provisions for the training of students or residents rotating through the poison control center if all SPIs are off-site.
 - o. Describe the specific procedure to be implemented if technical difficulties impede the flow of work at the remote site.
 - p. Describe how the teleworker is able to access the information resources deemed necessary for case management.
 - q. Demonstrate that clinical supervision and quality management of remote staff are equivalent to those for on-site staff (this includes communication with the clinical and/or medical toxicologist, chart review, voice recording, evaluation of staff performance, and staff productivity).
 - r. Describe the special circumstances justifying individual SPIs teleworking over 50% and describe how they participate in staff development activities.
3. Patient management
- a. Provide a list, signed and dated by the Medical Director, of all clinical guidelines.
 - b. Describe the process for establishing and reviewing patient management guidelines including guidelines as to when to consult clinical and/or medical toxicologist and guidelines for life threatening exposures.
 - c. Provide explanation if less than 75% of human exposure cases with symptoms managed at a HCF are followed to a known outcome.
 - d. Describe the procedure that is followed if external resources/experts are required.
 - e. Describe the process for locating critical antidotes and assisting with their acquisition throughout the designated service region.
4. Quality assurance

- a. Submit and describe the quality management and improvement program. Describe the quality management initiatives since the center's last successful accreditation.
- b. Describe the procedure for internal chart audits performed.
- c. Submit a list of all clinical guidelines, including review dates and describe the process of review.
- d. Submit the center's satisfaction survey tool and recent caller satisfaction survey results.
- e. Describe how the center uses customer complaints to drive its quality initiatives.
- f. Describe the center's record retention policy.

5. Public education

- a. Describe how public education is accomplished. Include goals and objectives, programs and activities for target populations.
- b. Describe how the public education is accomplished including a biographical sketch of the individual(s) involved and a job description and any continuing education.
- c. Describe efforts for identifying target populations.
- c.1. Provide a description of the region and populations, including the geographic and age distributions.
- c.2. Describe data-gathering methods used to assess gaps (deficiencies/discrepancies) in the designated service region. This needs assessment may include primary data sources, such as surveys, focus group findings, or key informant interviews, or secondary data sources, such as NPDS data, community health assessments, or census data.
- c.3. Summarize your priority populations and why they were selected.
- d. Submit a list of public education materials and provide a summary of mass media activities.
- e. Provide a list of collaborations with other agencies or poison control centers.
- f. Submit a list of Collaborative Partnerships.
- g. Describe how education programs are impacting your service area. Examples may include:
 - g.1. Describe and provide examples of indicators used to measure increased awareness (e.g., change in call volume, survey results, increased website traffic, measured behavior changes).

- g.2. Describe and provide examples of an evaluation tool(s) or method(s) used to assess the impact and effectiveness of your education program(s).
 - g.3. Describe and provide examples of process evaluations used to identify potential or actual improvements or modifications in project/program/product improvement.
6. Healthcare provider education
- a. The individual providing the healthcare provider education must be approved by the Medical Director.
 - b. Provide a biographical sketch of the healthcare provider education staff.
 - c. Describe the healthcare provider education program methods and activities.
 - d. Describe the evaluation process and how the results are used to improve programs.
7. Data and surveillance
- a. Describe communication mechanisms used to ensure up-to-date and consistent documentation.
 - b. Describe the computerized data collection/medical record program and verify it is the most current version.
 - c. Described the manner in which patient case records are stored and retrieved.
 - d. Summarize the disaster recovery/back-up procedure for poison center records.
 - e. If the center withholds industry-derived human exposure data, indicate the number of industry-derived human exposures that were withheld during the most recent year.
 - f. Submit an annual report or the following NPDS reports:
 - f.1. Call type distribution
 - f.2 Distribution of reasons
 - f.3. Distribution of outcomes
 - f.4. Management site by referral patterns
 - g. Submit NPDS Fatality Status Report(s).
 - h. Describe efforts to ensure that consistent, complete, and accurate data are entered and submitted to the NPDS.
 - i. Describe how your center shares information to meet the needs of local, state, and federal public health entities.
 - j. Describe how the center routinely monitors the emergence of poisoning hazards and takes specific action to address them. Cite examples.
 - k. Describe collaboration with local, state, and federal public health entities.

8. Leadership and management
 - a. Submit a current PCC organization chart.
 - b. Provide a description of the leadership and administrative structure of the center.
 - c. Provide job description of all toxicologists (clinical and medical) providing toxicology services.
 - d. Provide biographical sketch of all toxicologists (clinical and medical).
 - e. Provide Medical Director's approval of all toxicologists operating within the PCC.
 - f. Provide verification of current medical licensure.
 - g. Provide evidence that the Medical Director and all other individuals designated as providers of medical direction have active medical staff privileges at an inpatient facility.
 - h. Provide verification of clinical and/or medical toxicology board certification for the medical director and any of his/her designee(s).
 - i. Provide evidence that medical toxicologist(s) or other health care provider(s) are (a) involved in the treatment of poisoned patients and (b) regularly consult with specialists in poison information.
 - j. Describe how the roles and activities are divided between medical toxicologists and clinical toxicologists.
 - k. Provide copies of the toxicologist(s) on-call schedule for the most recent 3 months, indicating all persons taking call and designating their qualifications.
 - l. Provide a copy of the time the medical toxicologist(s) and clinical toxicologist(s) provide clinical supervision at the PCC.
 - m. Provide a copy of the poison control center's policy regarding conditions under which clinical staff should contact the toxicologist on call to seek assistance with a case or to provide notification of a particular situation or patient, and submit a log of time spent for medical direction (on-site and off-site).
 - n. Submit log(s) of time spent meeting required hours for medical direction (on-site and off-site).
 - o. Describe the purpose of a transition plan and/or special circumstances justifying video conferencing or other remote electronic means and demonstrate how the Medical Director interacts and participates in clinic staff activities.
 - p. Describe the role of individual(s) performing the duties and fulfilling those responsibilities of human resources, budgetary and financial management, accreditation and compliance, employee education, training and staff development, information technology, external relations and other administrative functions.

Subchapter 4 Registration

Rule 6.4.1 **Registration.** Pursuant to Mississippi Code Annotated §41-3-15, each provider entity/organization offering telehealth services in the State of Mississippi shall register with the Mississippi State Department of Health, Office of Licensure, hereafter referred to as the Department. An applicant shall not provide telehealth services in the State of Mississippi without first registering with the Department.

1. Each provider entity/organization conducting telehealth services in Mississippi shall submit an application for registration including information about the type of telehealth services offered as well as the providers that will be performing services. Proprietary information may be asked but will not be required for approval.

Source: Mississippi Code Annotated §41-3-15

Rule 6.4.2 **Documents.** In addition to the registration application as referenced above, the registering entity shall submit at the time of registration:

1. A copy of the Mississippi Secretary of State Business Services Form as evidence of the entity's registration with the Mississippi Secretary of State to conduct business in the State of Mississippi.
2. Proof of Professional and General Liability Insurance.

Source: Mississippi Code Annotated §41-3-15

Rule 6.4.3 **Registration Term.** Each registration issued shall be valid for a period of twenty-four (24) months and shall be issued for the registration period of July 1 of the registration year and shall expire on June 30 two calendar years later. Should an entity be approved for registration after the July 1 date for registration, the registration date shall reflect the approval date of registration for that entity and will be valid until June 30 of the registration year.

Source: Mississippi Code Annotated §41-3-15

Rule 6.4.4 **Registration Not Transferable.** A Registration Certificate for a telehealth provider is for the stated entity as listed on the registration application and is not transferable. Should a change of location (address only) occur without change of ownership, the entity shall notify the Department, in writing, within 10 calendar

days of the change of address. Should a Change of Ownership occur (a sale or transfer of 51% or more of stock), the new ownership of the company/organization shall notify the Department and submit a new application.

Source: Mississippi Code Annotated §41-3-15

Rule 6.4.5 **Registration Renewal.** For renewal, each registered entity shall submit:

1. A completed and signed renewal registration application to be received by the Department at least 30 days prior to the date of expiration; and
2. Proof of General and Professional Liability Insurance.

Rule 6.4.6 **Fees.** The following fees are established for registration for businesses performing telemedicine services in this state; (1) initial registration fee, \$50; (2) fee to report changes in the information on the initial registration, \$50.

CHAPTER 40 MINIMUM STANDARDS OF OPERATION FOR PSYCHIATRIC HOSPITALS

Subchapter 1 LEGISLATIVE AUTHORITY

Rule 40.1.1 Mississippi State Department of Health Law of 1979, Mississippi Code Annotated, 43-11-1 through 43-11-27 (Supplemented 1986) The Mississippi Health Care Commission adopted additional regulations for Psychiatric Hospitals on November 17, 1983. The regulations became effective December 22, 1983. The Mississippi State Department of Health took over the licensing duties of the Mississippi Health Care Commission on July 1, 1986.

1. Psychiatric Hospitals are free-standing facilities established to offer facilities, beds and services over a continuous period exceeding 24 hours to individuals requiring diagnosis and intensive and continued clinical therapy for mental illness. Distinct parts of General Acute Hospitals may be designated as Psychiatric. This unit is organized, staffed and equipped to render psychiatric services.

2. These standards are to be applied in conjunction with the Minimum Standards of Operation for Mississippi Hospitals where applicable.
3. These standards are written so that they closely parallel the Standards for Accreditation of Psychiatric Facilities established by the Joint Commission on Accreditation of Hospitals. By basing these standards on the Joint Commission's standards, we have developed standards which have the input of a national panel of knowledgeable experts and skilled people on psychiatric treatment.

Subchapter 21 PATIENT RIGHTS

Rule 40.21.1 The facility shall support and protect the fundamental human, civil, constitutional and statutory rights of each patient.

SOURCE: Miss. Code Ann. §41-9-17

Rule 40.21.2 The facility shall have written policies and procedures that describe the rights of patients and the means by which these rights are protected and exercised. These rights shall include the following:

1. Each patient shall have impartial access to treatment, regardless of race, religion, sex, ethnicity, age or disabilities.
2. Each patient's personal dignity shall be recognized and respected in the provision of all care and treatment.
3. Each patient shall receive individualized treatment, which shall include at least the following:
 - a. The provision of adequate and human services regardless of source(s) of financial support;
 - b. The provision of services within the least restrictive environment possible;
 - c. The provision of an individual treatment plan;
 - d. The periodic review of the patient's treatment plan;
 - e. The active participation of patients over twelve (12) years of age and their responsible parent, relative, or guardian in planning for treatment; and
 - f. The provision of an adequate number of competent, qualified and experienced professional clinical staff to supervise and implement the treatment plan.
4. Each patient's personal privacy shall be assured and protected within the constraints of the individual treatment plan.
 - a. The patient's family and significant others, regardless of their age, shall be allowed to visit the patient, unless such visits are clinically contraindicated.
 - b. Suitable areas shall be provided for patients to visit in private, unless such privacy is contraindicated by the patient's treatment plan.
 - c. Patients shall be allowed to send and receive mail without hindrance.
 - d. Patients shall be allowed to conduct private telephone conversations with family and friends, unless clinically contraindicated.

- e. If therapeutic indications necessitate restrictions on visitors, telephone calls, or other communications, those restrictions shall be evaluated for therapeutic effectiveness by the clinically responsible staff at least every seven days.
 - f. If limitations on visitors, telephone calls or other communications are indicated for practical reasons (for example, expense of travel or phone calls) such limitations shall be determined with the participation of the patient and the patient's family. All such restrictions shall be fully explained to the patient and the patient's family.
5. Each patient has the right to request the opinion of a consultant at his or her expense or to request an in-house review of the individual treatment plan, as provided in specific procedures of the facility.

Subchapter 22 SPECIAL TREATMENT PROCEDURES

Rule 40.22.1 Treatment procedures that require special justification shall include, but not necessarily be limited to the following:

1. The use of restraint;
2. The use of seclusion;
3. The use of electroconvulsive therapy and other forms of convulsive therapy;
4. The performance of psychosurgery of other surgical procedures for the intervention in, or alteration of, a mental, emotional or behavioral disorder;
5. The use of behavior modification procedures that use painful stimuli;
6. The use of unusual medications and investigational and experimental drugs;
7. The prescribing and administering of drugs for maintenance use that have abuse potential (usually considered to be Schedule II drugs), and drugs that are known to involve substantial risk or to be associated with undesirable side effects; and
8. The use of research projects that involve inconvenience or risk to the patient.

SOURCE: Miss. Code Ann. §41-9-17

Rule 40.22.2 The rationale for using special treatment procedures shall be clearly stated in the patient's record.

1. When appropriate, there shall be evidence in the patient's record that proposed special treatment procedures have been reviewed before implementation by the head of the professional staff and/or his or her designee.
2. The plan for using special treatment procedures shall be consistent with the patient's rights and the facility's policies governing the use of such procedures.
3. The clinical indications for the use of special treatment procedures shall be documented in the patient's record.
4. The clinical indications for the use of special treatment procedures shall outweigh the known contraindications.

SOURCE: Miss. Code Ann. §41-9-17

Rule 40.22.3 The facility shall have written policies and procedures that govern the use of restraint or seclusion.

1. The use of restraint or seclusion shall require clinical justification and shall be employed only to prevent a patient from injuring himself or others, or to prevent serious disruption of the therapeutic environment. Restraint or seclusion shall not be employed as punishment or for the convenience of staff.
2. The rationale for the use of restraint or seclusion shall address the inadequacy of less restrictive intervention techniques.
3. To ascertain that the procedure is justified, a physician shall conduct a clinical assessment of the patient before writing an order for the use of restraint or seclusion.
4. A written order from a physician shall be required for the use of restraint.
5. A written order from a physician shall be required for the use of seclusion for longer than one (1) hour.
6. Written orders for the use of restraint or seclusion shall be time-limited.
7. The written approval of the head of the professional staff and/or his or her designee shall be required when restraint or seclusion is utilized for longer than 24 hours.
8. PRN orders shall not be used to authorize the use of restraint or seclusion.
9. All uses of restraint or seclusion shall be reported daily to the head of the professional staff and/or his or her designee.

10. The head of the professional staff and/or his or her designee shall review daily all uses of restraint or seclusion and investigate unusual or possibly unwarranted patterns of utilization.
11. Staff, who implement written orders for restraint and seclusion, shall have documented training in the proper use of the procedure for which the order was written.
12. Restraint or seclusion shall not be used in a manner that causes undue physical discomfort, harm or pain to the patient.
13. Appropriate attention shall be paid every 15 minutes to a patient in restraint or seclusion, especially in regard to regular meals, bathing and use of the toilet.
14. There shall be documentation in the patient's record that such attention was given to the patient.
15. Under the following conditions, restraint or seclusion may be employed in an emergency without a written order from a physician:
 - a. the written order for restraint or seclusion is given by a member of the professional staff who is qualified by experience and training in the proper use of the procedure for which the order is written;
 - b. the professional staff member writing the order has observed and assessed the patient before writing the order; and
 - c. the written order of the physician who is responsible for the patient's medical care is obtained within not more than eight (8) hours after initial employment of the restraint or seclusion.

CHAPTER 41 MINIMUM STANDARDS OF OPERATION FOR MISSISSIPPI HOSPITALS

Subchapter 1 AUTHORITY AND LICENSE

Rule 41.1.1. **Adoption of Regulations and Minimum Standards.** By virtue of authority vested in it by the Mississippi Code Annotated Sections 41-9-1 through 41-9-35, or as otherwise amended, the Mississippi Department of Health does hereby adopt and promulgate the following regulations and standards for hospitals.

SOURCE: Miss. Code Ann. §41-9-17

Subchapter 2 DEFINITIONS

Rule 41.2.1. **Hospital.** “Hospital means a place devoted primarily to the maintenance and operation of facilities for the diagnosis, treatment and care of individuals suffering from physical or mental infirmity, illness, disease, injury or deformity, or a place devoted primarily to providing obstetrical or other medical, surgical or nursing care of individuals, whether or not any such place be organized or operated for profit and whether any such place be publicly or privately owned. The term “hospital” does not include convalescent or boarding homes, children’s homes, homes for the aged or other like establishments where room and board only are provided, nor does it include offices or clinics where patients are not regularly kept as bed patients.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.2.2. **Person.** “Person” means any individual, firm, partnership, corporation, company, association or joint stock association, and the legal successor thereof.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.2.3 **Governmental Unit.** “Governmental Unit” means the state, or any county, municipality or other political subdivision or any department, division, board or other agency of any of the foregoing, excluding all federal establishments.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.2.4. **Licensing Agency.** “Licensing agency” means the Mississippi Department of Health.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.2.5 **License.** No person or governmental unit shall establish, conduct, or maintain a hospital in this state without a license.

Provisional License. Within its discretion, the Mississippi State Department of Health may issue a provisional license when a temporary condition of non-compliance with these regulations exists in one or more particulars. A provisional license shall be issued only if the Department of Health is satisfied that preparations are being made to qualify for a regular license and that the health and safety of patients will not be endangered. The license issued under this condition shall be valid until the issuance of a regular license but shall not exceed five months following date of issuance whichever may be sooner.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.2.6. **Application for License.** An application for a license shall be made to the licensing agency upon forms provided by the licensing agency, and shall contain such information as the licensing agency reasonably requires.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.2.7. **Licensure Fees.** Each initial and renewal licensure application, unless suspended or revoked, shall be accompanied by a fee as set by the Board, made payable to the Mississippi State Department of Health, either by business check, money order, or by electronic means. Renewal of licenses shall occur on an annual basis. Fees are non-refundable.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.2.8. **User Fee.** A “user fee” in an amount set by the Board, shall be assessed by the licensing agency for the purpose of the required reviewing and inspections of the proposal of any hospital in which there are additions, renovations, modernizations, expansion, alterations, conversions, modifications or replacement of the entire facility involved in the proposal. This fee includes the reviewing of architectural plans in all required steps. Fees are to be made payable to the Mississippi State Department of Health and paid by either a business check, money order, or electronic means.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.2.9. **Renewal of License.** A license, unless suspended or revoked, shall be renewable annually, upon filing by the licensee, and approval by the licensing agency of an

annual report upon such uniform dates and containing such information as the licensing agency requires and upon paying the annual fee for such license.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.2.10. **Issuance of License.** Each license shall be issued only for the premises and persons or governmental units names in the application and shall not be transferable or assignable except with the written approval of the licensing agency.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.2.11. **Posting of License.** Licenses shall be posted in a conspicuous place on the licensed premises.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.2.12. **Trauma Registry.** Collection of data on patients who receive hospital care for certain types of injuries. Such data are primarily designed to ensure quality of trauma care and outcomes in individual institutions and trauma systems, but have the secondary purpose of providing useful data for the surveillance of injury, morbidity and mortality.

Subchapter 7 THE MEDICAL STAFF

Rule 41.7.1. The hospital shall have an organized medical staff that has the overall responsibility for the quality of all medical care provided to patients, and for the ethical conduct and professional practices of its members as well as for accounting therefore to the governing body. Each member of the medical staff shall be qualified for staff membership and for the exercise of the clinical privileges granted to him.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.7.2. The medical staff shall be limited to individuals who are licensed to practice medicine, osteopathy, or dentistry in the State of Mississippi, and such other practitioners as determined by the governing body. Such members must be appropriately licensed or certified and shall be professionally and ethically qualified for the positions to which they are appointed.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.7.3. Clinical privileges granted to dentists shall be based on their training, experience, demonstrated competence and judgment.

1. The scope and extent of surgical procedures that each dentist may perform must be specifically defined and recommended in the same manner as surgical privileges for physicians.
2. Surgical procedures performed by dentists shall be under the overall supervision of the Chief of Surgery. In hospitals where a Chief of Surgery is not designated, they shall be under the overall supervision of a competent surgeon approved by the Chief of Staff or president of the medical staff.
3. All dental patients must receive the same basis medical appraisal by a physician as patients admitted for other services except patients admitted by a qualified oral surgeon. An oral surgeon who admits a patient without medical problems may complete an admission history and a physical examination and assess the medical risks of the procedure to the patient if qualified to do so. Criteria to be used in identifying such a qualified oral surgeon shall include, but shall not necessarily be limited to, the following: successful completion of a postgraduate program in oral surgery accredited by a nationally recognized accrediting body approved by the United States Office of Education; and, as determined by the medical staff, evidence that the oral surgeon who admitted the patient is currently competent to conduct a complete history and physical examination to determine the patient's ability to undergo the oral surgical procedure the oral surgeon proposes to perform.
4. Patients with medical problems admitted to the hospital by qualified oral surgeons and patients admitted for dental care by individuals who are not qualified oral surgeons shall receive the same basic medical appraisal as patients admitted for other services. This includes having a physician who either is a member of the medical staff or is approved by the medical staff perform an admission history, a physical examination, and an evaluation of the overall medical risk and record the findings in the medical record. The responsible dentist shall take into account the recommendations of this consultation in the overall assessment of the specific procedure proposed and the effect of the procedure on the patient. When significant medical abnormality is present, the final decision must be a joint responsibility of the dentist and the medical consultant. The dentist shall be responsible for that part of the history and physical examination related to dentistry. A physician member of the medical staff shall be responsible for the care of any medical problem that may be present on admission or that may arise during hospitalization of dental patients.
5. A physician member of the medical staff must be responsible for the care of any medical problem that may be present or that may arise during the hospitalization of dental patients.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.7.17. The medical staff bylaws and rules and regulations, as a minimum, shall:

1. Contain the name of the organization.
2. Delineate the organizational structure of the medical staff.
3. Specify the qualifications and procedures for admission to and retention of staff membership, including the delineation, assignment, reduction, and withdrawal of clinical privileges.
4. Specify the method of reviewing the qualifications of staff members.
5. Provide an appeal mechanism relative to medical staff recommendations for denial, curtailment, suspension, or revocation of clinical privileges in any hospital having an open staff. This mechanism shall provide for review of decisions including the right to be heard at each step of the process when requested by the practitioner.

6. Delineate clinical privileges of non-physician practitioners, as well as responsibilities of the physician members of the medical staff in relation to non-physician practitioners. A non-physician practitioner is a health professional licensed or otherwise authorized by the state to provide a range of independent or interdependent health services. Such providers include but are not limited to chiropractors, licensed professional counselors, licensed social workers, nurse practitioners/physician assistants (including nurse anesthetists), psychologists, podiatrists, and optometrists.
7. Require a pledge that each practitioner will conduct his practice in accordance with high ethical traditions and will refrain from:
 - a. Rebating a portion of a fee, or receiving other inducements in exchange for a patient referral.
 - b. Deceiving a patient as to the identity of an operating surgeon or any other medical practitioner providing services.
 - c. Delegating the responsibility of hospitalized patients to another medical practitioner who is not qualified to undertake this responsibility.
8. Provide for methods of selection of officers and clinical department or service chairmen.
9. Outline the responsibilities of the medical staff officers and clinical department or service chairmen.
10. Specify composition and functions of standing committees or standing committee functions as required by the complexity of the hospital.
11. Establish requirements regarding the frequency of and attendance at general and departmental meetings of the medical staff.
12. Require that the evaluation of the significance of medical histories, the authentication of medical histories, and the performance and recording of physical examinations and prescribing of treatment be carried out by those with appropriate licenses and clinical privileges within their sphere of authorization.
13. Establish requirements regarding the completion of medical records.
14. Provide for a mechanism by which the medical staff consults with and reports to the governing body.
15. Adopt rules and regulations that contain specific statements covering procedures that foster optimal achievable patient care, including the care provided in the emergency service area.

16. Provide that each practitioner shall on application for clinical privileges sign an agreement to abide by the current medical staff bylaws and rules and regulations and the hospital bylaws.
17. Provide for records of attendance and minutes that adequately reflect the transactions, conclusions, and recommendations of the medical staff.
18. Require and include procedures for evaluation of medical care.

1. Assessment.
2. Admission.
3. Medical records (including complete prenatal history and physical).

4. Consent forms.
5. Management of labor including assessment of fetal well-being.
6. Term patients.
7. Preterm patients.
8. Premature rupture of membranes.
9. Preeclampsia/eclampsia.
10. Third trimester hemorrhage.
11. Pregnancy Induced Hypertension (PIH).
12. Patients receiving oxytoxics or tocolytics.
13. Patients with stillbirths and miscarriages.
14. Pain control during Labor and Delivery.
15. Management of Delivery.
16. Emergency cesarean delivery (capability within 30 minutes).
17. Assessment of fetal maturity prior to repeat cesarean delivery or induction of labor.
18. Vaginal birth after cesarean delivery.
19. Assessment and care of neonate in the delivery room.
20. Infection control in the Obstetric and newborn areas.
21. A delivery room record shall be kept that will indicate:
 - a. The name of the patient.
 - b. Date of delivery.
 - c. Sex of Infant.
 - d. Apgar.
 - e. Weight.
 - f. Name of physician.
 - g. Name of persons assisting.

- h. What complications, if any, occurred.
 - i. Type of anesthesia used.
 - j. Name of person administering anesthesia.
22. Maternal transfer.
23. Immediate postpartum/recovery care.
24. Housekeeping.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.31.13. **New Born Care.** There shall be policies and procedures for providing care of the neonate including:

- 1. Immediate stabilization period.
- 2. Neonate identification and security.
- 3. Assessment of neonatal risks.
- 4. Cord blood, Combs and serology testing.
- 5. Eye care.
- 6. Subsequent care.
- 7. Administration of Vitamin K.
- 8. Neonatal screening.
- 9. Circumcision.
- 10. Parent education.
- 11. Visitation.
- 12. Admission of neonates born outside of facility.
- 13. Housekeeping.
- 14. Care of or stabilization and transfer of high-risk neonates.
- 15. Postpartum. There shall be policies and procedures for postpartum care of mother.
- 16. Assessment.

17. Subsequent care (bed rest, ambulation, diet, care of the vulva, care of the bowel and bladder functions, bathing, care of the breasts, temperature elevation).
18. Postpartum sterilization.
19. Immunization. RHIG and Rubella.
20. Discharge planning.

Subchapter 36 SPECIAL CARE UNIT

Rule 41.36.1. Special care units, if provided, shall be properly organized, directed and integrated with other departments or services of the hospital.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.36.2. The hospital organizational plan shall provide for the identification of each special care unit and delineate appropriate relationships with other clinical areas of the hospital. Each such unit shall be under the direction of a qualified physician who has a special interest in, and preferable additional experience in providing, this type of care. This physician shall also be one who is readily available - The director of the special care unit should be responsible for the implementation of established policy, which should include at least:

1. Rules for proper utilization of the services.
2. Provision for participation in appropriate training programs for the safe and effective use of diagnostic and therapeutic equipment for cardiopulmonary resuscitation and for other aspects of intensive care.
3. Plans for supervision of the collection and analysis of clinical data needed for the retrospective evaluation of the care provided in the unit.

Rule 41.36.3. The activities within a multipurpose special care unit should be guided by a multi disciplinary committee, with one member serving as director of the unit.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.36.4. Special care unit personnel shall be prepared for their responsibilities through appropriate training and educational programs.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.36.5. All nursing personnel assigned to a special care unit must have completed an educational course specifically oriented to their level of participation in the care of seriously ill patients.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.36.6. A continuing education program developed specifically for the personnel in the unit must be provided in order to enable them to maintain and improve their skills, as well as to learn new techniques.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.36.7. Registered nurses and health care personnel may serve as assistant or backup personnel under the direct supervision of a qualified special care unit nurse. All nurses with patient care responsibility in the unit must have the ability to recognize clinical signs and symptoms that require notification of a physician.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.36.8. Whatever the design or purpose of the unit, enough space shall be provided around each bed to make it easily accessible for routine and emergency care of the patients and also to accommodate bulky equipment that may be needed.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.36.9. Oxygen and suction and properly grounded electrical outlets shall be readily available to every patient. Each bed shall be readily adjustable to various therapeutic positions, easily moved for transport, shall have a locking mechanism for a secure stationary position and, where feasible a removable headboard.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.36.10. Direct visual observation of all patients should be possible from a central vantage point, yet patients should have a reasonable amount of privacy. They should be sheltered as much as possible from the activity and noise of the unit by partitions, drapes and acoustic ceilings, but caution should be exercised in the use of carpeting and under carpet padding both as to fire resistance and potential production of toxic fumes in case of fire.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.36.11. There shall be an alarm system for special care unit personnel to summon additional personnel in an emergency. The alarm should be connected to any area where unit personnel might be, such as physician's sleeping rooms, consultation rooms, nurse's lounges, and nurses' stations.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.36.12. The kind and quality of equipment in the special care unit shall depend upon the needs of the patients treated. Diagnostic monitoring and resuscitative equipment, such as respiratory assist apparatus, defibrillators, pacemakers, phlebotomy and tracheostomy sets, endotracheal tubes, laryngoscopes and other such devices should be easily available within the unit, and in good working order. There shall be a written preventive maintenance program that includes techniques for cleaning and for contamination control, as well as for the periodic testing of all equipment.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.36.13. When any electronic devices are used on patients, especially patients who have intravenous catheters or wires leading to the heart, special safety precautions related to proper grounding, current leakage and device-safety must be observed. Electrically operated beds are a potential electrical hazard where the patient is physically connected to any other electrical device.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.36.14. Expert advice concerning the safe use of, and preventive maintenance for, all biomedical devices and electrical installations shall be readily available at all times. Documentation of safety testing should be provided on a regular basis to the unit director.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.36.15. There shall be specific written policies and procedures for each special care unit, which supplement the basic hospital policies and procedures.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.36.16. Because of the intensity of care given within the unit, and of the critical nature of the illnesses of patients cared for in it, written policies and procedures additional to basic hospital policies should be developed to guide personnel in the management of the unique situations within the unit. These policies and procedures should be developed and approved by the medical staff, in cooperation with the nursing staff and with other hospital departments and services and the hospital administration as necessary. They should be periodically reviewed and revised as indicated.

Subchapter 43 EMERGENCY OPERATIONS PLAN (EOP)

Rule 41.43.1 The licensed entity shall develop and maintain a written preparedness plan utilizing the Emergency Operations Plan Template developed by the Mississippi State Department of Health, Office of Emergency Planning and Response. The licensed entity shall utilize "All Hazards" and "Whole Community" approach to emergency and disaster planning. The plan must include procedures to be followed in the event of any pandemic, act of terrorism, or man-made or natural disaster as appropriate for the specific geographical location. The final draft of the Emergency Operations Plan (EOP), will be reviewed by the Office of Emergency Planning and Response, Mississippi State Department of Health, or their

designates, for conformance with the “All Hazards Emergency Preparedness and Response Plan.” Particular attention shall be given to critical areas of concern which may arise during any “all hazards” emergency whether required to evacuate or to sustain in place. Additional plan criteria or a specified EOP format may be required as deemed necessary by the Office of Emergency Planning and Response. The eight (8) critical areas of consideration are:

1. Communications - Facility status reports shall be submitted in a format and afrequency as required by the Office of Emergency Planning and Response;
2. Resources and Assets;
3. Safety and Security;
4. Smoke Detectors/Extinguishers (refer to NFPA 10);
5. Staffing;
6. Utilities;
7. Clinical Activities; and
8. Continuity of Operations Planning (COOP) to include surge and alternate care sites.

Emergency Operations Plans (EOPs) must be exercised and reviewed annually or as directed by the Office of Emergency Planning and Response. Written evidence of current verification or review of provider EOPs, by the Office of Emergency Planning and Response, shall accompany all applications for facility license renewals.

Rule 41.45.8. **Regulated Medical Waste.** "Infectious medical wastes" includes solid or liquid wastes which may contain pathogens with sufficient virulence and quantity such that exposure to the waste by a susceptible host has been proven to result in an infectious disease. For purposes of this Regulation, the following wastes shall be considered to be infectious medical wastes:

1. Wastes resulting from the care of patients and animals who have Class I and (or) II diseases that are transmitted by blood and body fluid as defined in the rules and

regulations governing reportable diseases as defined by the Mississippi Department of Health;

2. Cultures and stocks of infectious agents; including specimen cultures collected from medical and pathological laboratories, cultures and stocks of infectious agents from research and industrial laboratories, wastes from the production of biologicals, discarded live and attenuated vaccines, and culture dishes and devices used to transfer, inoculate, and mix cultures;
3. Blood and blood products such as serum, plasma, and other blood components;
4. Pathological wastes, such as tissues, organs, body parts, and body fluids that are removed during surgery and autopsy;
5. Contaminated carcasses, body parts, and bedding of animals that were exposed to pathogens in medical research;
6. All discarded sharps (e.g., hypodermic needles, syringes, Pasteur pipettes, broken glass, scalpel blades) which have come into contact with infectious agents;
7. Other wastes determined infectious by the generator or so classified by the Department of Health.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.45.9. **"Medical Waste"** means all waste generated in direct patient care or in diagnostic or research areas that is non-infectious but aesthetically repugnant if found in the environment.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.45.10. **Medical Waste Management Plan.** All generators of infectious medical waste and medical waste shall have a medical waste management plan that shall include, but is not limited to, the following:

1. **Storage and Containment of Infectious Medical Waste and Medical Waste**
 - a. Containment of infectious medical waste and medical waste shall be in a manner and location which affords protection from animals, rain and wind, does not provide breeding place or a food source for insects and rodents, and minimizes exposure to the public.
 - b. Infectious medical waste shall be segregated from other waste at the point of origin in the producing facility.
 - c. Unless approved by the Mississippi Department of Health or treated and rendered non-infectious, infectious medical waste (except for sharps in approved containers) shall not be stored at a waste producing facility for more

than seven days above a temperature of 6 C (38F). Containment of infectious medical waste at the producing facility is permitted at or below a temperature of 0 C (32F) for a period of not more than 90 days without specific approval of the Department of Health.

- d. Containment of infectious medical waste shall be separated from other wastes. Enclosures or container used for containment of infectious medical waste shall be so secured so as to discourage access by unauthorized persons and shall be marked with prominent warning signs on, or adjacent to, the exterior or entry doors, gates, or lids. Each container shall be prominently labeled with a sign using language to be determined by the Department and legible during daylight hours.
 - e. Infectious medical waste, except for sharps capable of puncturing or cutting, shall be contained in double disposable plastic bags or single bags, (1.5 mills thick) which are impervious to moisture and have a strength sufficient to preclude ripping, tearing, or bursting under normal conditions of usage. The bags shall be securely tied so as to prevent leakage or expulsion of solid or liquid wastes during storage, handling, or transport.
 - f. All sharps shall be contained for disposal in leak proof, rigid, puncture-resistant containers which are taped closed or tightly lidded to preclude loss of the contents.
 - g. All bags used for containment and disposal of infectious medical waste shall be of distinctive color or display the Universal Symbol for infectious waste. Rigid containers of all sharps waste shall be labeled.
 - h. Compactors or grinders shall not be used to process infectious medical waste unless the waste has been rendered non-infectious. Sharps containers shall not be subject to compaction by any compacting device in the institution itself and shall not be placed for storage or transport in a portable or mobile trash compactor.
 - i. Infectious medical waste and medical waste contained in disposable containers as prescribed above, shall be placed for storage, handling, or transport in disposable or reusable pails, cartons, drums, or portable bins. The containment system shall be leak proof, have tight-fitting covers and be kept clean and in good repair.
 - j. Reusable containers for infectious medical waste and medical waste shall be thoroughly washed and decontaminated each time they are emptied by a method specified by the Mississippi Department of Health, unless the surfaces of the containers have been protected from contamination by disposable liners, bags, or other devices removed with the waste, as outlined in i, e.
2. Approved methods of decontamination include, but are not limited to, agitation to remove visible soil combined with one or more of the following procedures:

- a. Exposure to hot water at least 180 F for a minimum of 15 seconds.
 - b. Exposure to a chemical sanitizer by rinsing with or immersion in one or the following for a minimum of 3 minutes:
 - i. Hypochlorite solution (500 ppm available chlorine).
 - ii. Phenolic solution (500 ppm active agent).
 - iii. Iodoform solution (100 ppm available iodine).
 - iv. Quaternary ammonium solution (400 ppm active agent).
3. Reusable pails, drums, or bins used for containment of infectious waste shall not be used for containment of waste to be disposed of as non-infectious waste or for other purposes except after being decontaminated by procedures as described in part (J) of this section.
- a. Trash chutes shall not be used to transfer infectious medical waste.
 - b. Once treated and rendered non-infectious, previously defined infectious medical waste will be classified as medical waste and may be land filled in an approved landfill.
4. **Treatment or disposal of infectious medical waste shall be by one of the following methods:**
- a. By incineration in an approved incinerator which provides combustion of the waste to carbonized or mineralized ash.
 - b. By sterilization by heating in a steam sterilizer, so as to render the waste non-infectious shall be disposable as medical waste. Operating procedures for steam sterilizers shall include, but not be limited to, the following:
 - i. Adoption of standard written operating procedures for each steam sterilizer including time, temperature, pressure, type of waste, type of container(s), closure on container(s), pattern of loading, water content, and maximum load quantity.
 - ii. Check or recording and/or indicating thermometers during each complete cycle to ensure the attainment of a temperature of 121 C (250F) for one-half hour or longer, depending on quantity and density of the load, in order to achieve sterilization of the entire load. Thermometers shall be checked for calibration at least annually.
 - iii. Use of heat sensitive tape or other device for each container that is processed to indicate the attainment of adequate sterilization conditions.

- iv. Use of the biological indicator *Bacillus stearothermophilus* placed at the center of a load processed under standard operating conditions at least monthly to confirm the attainment of adequate sterilization conditions.
 - v. Maintenance of records of procedures specified in (1), (2), (3), and (4) above for period of not less than a year.
 - c. By discharge of the approved sewerage system if the waste is liquid or semi-liquid, except as prohibited by the Department of Health.
 - d. Recognizable human anatomical remains shall be disposed of by incineration or internment, unless burial at an approved landfill is specifically authorized by the Mississippi Department of Health.
 - e. Chemical sterilization shall use only those chemical sterilants recognized by the U.S. Environmental Protection Agency, Office of Pesticides and Toxic Substances. Ethylene oxide, glutaraldehyde, and hydrogen peroxide are examples of sterilants that, used in accordance with manufacturer recommendation, will render infectious waste non-infectious. Testing with *Bacillus Subtills* or other equivalent organisms shall be conducted quarterly to ensure the sterilization effectiveness of gas or steam treatment.
5. **Treatment and disposal of medical waste which is not infectious shall be by one of the following methods:**
- a. By incineration in an approved incinerator which provides combustion of the waste to carbonized or mineralized ash.
 - b. By sanitary landfill, in an approved landfill which shall mean a disposal facility or part of a facility where medical waste is placed in or on land, and which is not a treatment facility.
6. All the requirements of these standards shall apply, without regard to the quantity of medical waste generated per month, to any generator of medical waste.

Subchapter 72 PERSONNEL

Rule 41.72.1. Personnel adequate to supervise and conduct the services shall be provided, and the interpretation of radiological examinations shall be made by physicians competent in the field.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.72.2. The hospital shall have a qualified radiologist, either full-time or part-time, on a consulting basis, both to give direction to the department and to interpret films that require specialized knowledge for accurate reading. If the hospital is small and a radiologist cannot come to the hospital regularly, selected x-ray films shall be sent to a radiologist for interpretation.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.72.3. If the activities of the radiology department extend to radio-therapy, the physician in charge shall be appropriately qualified.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.72.4. The amount of qualified radiologist's and technologist's time shall be sufficient to meet the hospital's requirement. A technologist shall be on duty or on call at all times.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.72.5. The use of all x-ray apparatus shall be limited to personnel designated as qualified by the radiologist or by an appropriately constituted committee of the medical staff. The same limitation shall apply to personnel applying and removing radium element, its disintegration products, and radioactive isotopes. The use of fluoroscopes shall be limited to physicians or technologist under the direction of a physician.

Subchapter 75 UTILIZATION REVIEW PLAN

Rule 41.75.1. The hospital must have in effect a utilization review (UR) plan that provides for review of services furnished by the institution and by members of the medical staff to patients.

1. The UR plan must provide for review for patients with respect to the medical necessity of-
 - a. Admissions to the institution;
 - b. The duration of stays; and
 - c. Professional services furnished including drugs and biologicals.
2. Review of admissions may be performed before, at, or after hospital admission.
3. Reviews may be conducted on a sample basis.

SOURCE: Miss. Code Ann. §41-9-17

Subchapter 76 UTILIZATION REVIEW COMMITTEE

Rule 41.76.1. A UR committee consisting of two or more practitioners must carry out the UR function. At least two of the members of the committee must be doctors of medicine or osteopathy. The other members may be any of the other types of practitioners.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.76.2. The committee must review professional services provided to determine medical necessity and to promote the most efficient use of available health facilities and services.

Subchapter 77 QUALITY ASSESSMENT AND PERFORMANCE IMPROVEMENT (QAPI) PROGRAM

Rule 41.77.1. The hospital must develop, implement, and maintain an effective, ongoing, hospital-wide, data-driven quality assessment and performance improvement program.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.77.2. The hospital's governing body must ensure that the program reflects the complexity of the hospital's organization and services; involves all hospital departments and services (including those services furnished under contract or arrangement); and focuses on indicators related to improved health outcomes and the prevention and reduction of medical errors.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.77.3. The hospital must maintain and demonstrate evidence of its QAPI program for review by the Department.

SOURCE: Miss. Code Ann. §41-9-17

Subchapter 78 QAPI PROGRAM SCOPE

Rule 41.78.1. The program must include, but not be limited to, an ongoing program that shows measurable improvement in indicators for which there is evidence that it will improve health outcomes and will identify and reduce medical errors.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.78.2. The hospital must measure, analyze, and track quality indicators, including adverse patient events, and other aspects of performance that assess processes of care, hospital service and operations.

SOURCE: Miss. Code Ann. §41-9-17

Subchapter 79 QAPI PROGRAM DATA

Rule 41.79.1. The hospital must use the data collected to:

1. Monitor the effectiveness and safety of services and quality of care; and
2. to identify opportunities for improvement and changes that will lead to improvement.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.79.2. The frequency and detail of data collection must be specified by the hospital's governing body.

SOURCE: Miss. Code Ann. §41-9-17

Subchapter 80 QAPI PROGRAM ACTIVITIES

Rule 41.80.1. The hospital must set priorities for its performance improvement activities that:

1. Focus on high-risk, high-volume, or problem-prone areas;
2. Consider the incidence, prevalence, and severity of problems in those areas;
3. Affect health outcomes and quality of care; and
4. Affect patient safety.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.80.2. Performance improvement activities must track medical errors and adverse patient events, analyze their causes, and implement preventive actions and mechanisms that include feedback and learning throughout the hospital.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.80.3. The hospital must take actions aimed at performance improvement and, after implementing those actions, the hospital must measure its success, and track performance to ensure that improvements are sustained.

Subchapter 82 TRAUMA REGISTRY

Rule 41.82.1. All licensed hospitals which have organized emergency services or departments must participate in the statewide trauma registry for the purpose of supporting

peer review and performance improvement activities at the local, regional and state levels. Since this data relates to specific trauma patients and is used to evaluate and improve the quality of health care services, this data is confidential and will be governed by Miss. Code Ann. §41-59-77 (as amended). Compliance with the above will be evidenced by:

1. Documentation of utilization of the Trauma Registry data in the trauma performance improvement process and
2. Timely submission of Trauma Registry Data to the Bureau of EMS at least monthly.

SOURCE: Miss. Code Ann. §41-9-17

Rule 41.82.2. Data Submission Requirements: Patients to be included in the trauma registry are defined in “Mississippi Trauma Care System: Rules and Regulations (as amended).”

Subchapter 83 FREESTANDING EMERGENCY DEPARTMENTS

Rule 41.83.1 Adoption of Regulations and Minimum Standards. By virtue of authority vested in it by the Mississippi Code Annotated Sections 41-75-1 through 41-75-13, or as otherwise amended, the Mississippi Department of Health does hereby adopt and promulgate the following regulations and standards for Freestanding Emergency Departments (FED).

SOURCE: Miss. Code Ann. §41-75-13

Rule 41.83.2 Compliance with Rules, Regulations and Standards. The FED shall:

1. Comply with all applicable Medicare provider-based regulations. The FED shall comply with all regulations that apply to clinical services and staffing for emergency departments, as set forth in the MSDH Minimum Standards of Operation for Mississippi Hospitals. .
2. Provide data to their Trauma Region and the department’s Trauma Registry through participation in the Mississippi Trauma Care System (MTS).

SOURCE: Miss. Code Ann. §41-75-13

Rule 41.83.3 Definitions. The definitions specific to the FED are:

1. **Freestanding Emergency Room.** “Freestanding Emergency Room” is a facility open twenty-four hours a day for the treatment of urgent and

emergent medical conditions which is not located on a hospital campus. In order to be eligible for licensure under this chapter, the freestanding emergency room shall be located at least fifteen (15) miles from the nearest hospital-based emergency room in any rural community where the federal Centers for Medicaid & Medicare Services (CMS) had previously designated a rural hospital as a critical access hospital and that designation has been revoked.

2. **Licensing Agency.** “Licensing agency” means the Mississippi State Department of Health.

SOURCE: Miss. Code Ann. §41-75-13

Rule 41.83.4 **License.** No person or governmental unit shall establish, conduct, or maintain a Freestanding Emergency Department in this state without a license.

SOURCE: Miss. Code Ann. §41-75-13

Rule 41.83.5 **Application for License.** An application for a license shall be made to the licensing agency upon forms provided by the licensing agency, and shall contain such information as the licensing agency reasonably requires.

SOURCE: Miss. Code Ann. §41-75-13

Rule 41.83.6 **Licensure and User Fees.** Such fees shall be paid to the licensing agency by electronic payment, business check, certified check or money order. A license shall not be issued to any FED until such fee is received by the licensing agency.

SOURCE: Miss. Code Ann. §41-75-13

Rule 41.83.7 **User Fee.** A “user fee” shall be assessed by the licensing agency for the purpose of the required reviewing and inspections of the proposal of any FED in which there are additions, renovations, modernizations, expansion, alterations, conversions, modifications or replacement of the entire facility involved in the proposal. This fee includes the reviewing of architectural plans in all required steps.

SOURCE: Miss. Code Ann. §41-75-13

Rule 41.83.8 **Renewal of License.** A license, unless suspended or revoked, shall be renewable annually by submitting an application, paying an annual fee and submitting such reports as required by the licensing agency, including annual information reports.

SOURCE: Miss. Code Ann. §41-75-13

Rule 41.83.9 **Issuance of License.** Each license shall be issued only for the premises and persons or governmental units names in the application and shall not be

transferable or assignable except with the written approval of the licensing agency.

SOURCE: Miss. Code Ann. §41-75-13

Rule 41.83.10 **Denial or Revocation of a License.** The licensing agency, after notice and opportunity for hearing to the applicant or licensee, is authorized to deny, suspend or revoke a license in any case in which it finds that there has been a substantial failure to comply with the requirements established in these regulations and standards.

SOURCE: Miss. Code Ann. §41-75-13

Rule 41.83.11 **Ownership.** There shall be full disclosure of FED ownership and control. Annually, in its application for renewal of an FED License, the facility shall report the name and address of the owner and the name and address of the individual(s) responsible for operation of the FED.

SOURCE: Miss. Code Ann. §41-75-13

Rule 41.83.12 **Change of Ownership.** When change of ownership of a FED is contemplated, the FED shall notify the licensing agency, in writing, at least 30 days prior to the proposed date of change of ownership, giving the name and address of the proposed new owner and all other documents as required by the licensing agency.

SOURCE: Miss. Code Ann. §41-75-13

Rule 41.83.13 **Governing Authority.** The FED shall have an organized governing body, or designated person(s):

1. That has overall responsibility for the conduct of the FED in a manner consistent with the objective of making available high quality patient care.
2. That shall be the authority in the FED, responsible for the management of the FED and appointment of the medical staff.
3. That shall adopt bylaws in accordance with legal requirements and with its community responsibility, identifying the purposes of the FED and the means of fulfilling them,
4. That shall take all reasonable steps to comply with all applicable federal, state and local laws and regulations.

SOURCE: Miss. Code Ann. §41-75-13

Rule 41.83.14 **Staffing and Treatment.** The FED must possess the staff and resources necessary to evaluate all individuals presenting to the emergency department. The FED must follow all requirements of EMTALA in regard to assuring the

medical evaluation, stabilization and transfer of a patient found to have an emergency condition. Because of the unscheduled and episodic nature of health emergencies and acute illness, the FED must be staffed with experienced American Board of Medical Specialties (ABMS) or American Osteopathic Association (AOA) board certified or board eligible physicians, nursing and ancillary personnel who must be available 24 hours a day. The FED will also provide treatment for individuals whose health needs are not of an emergent nature, but for whom the FED may be the only accessible or timely entry point into the broader health care system.

1. Each FED shall have patient transfer agreements with an EMS service and with an acute care or trauma hospital with the capability of handling such emergencies and to assure provisions for patient admissions, continued emergency and diagnostic services beyond the capability of the FED, and the safe emergency transport of the patient, when needed.
2. As stated by the American College of Emergency Physicians (ACEP):
 - a. Emergency medical care must be available to all members of the public.
 - b. Access to appropriate emergency medical and nursing care must be unrestricted.
 - c. A smooth continuum should exist among pre-hospital providers, emergency department (ED) providers, and providers of definitive follow-up care.
 - d. Evaluation, management, and treatment of patient must be appropriate and expedient.
 - e. Resources should exist in the ED to accommodate each patient from the time of arrival through evaluation, medical decision making, treatment and disposition.
 - f. FEDs should have policies and plans to provide effective administration, staffing, facility design, equipment, medication and ancillary services.
 - g. The emergency physician, emergency nurse, and additional medical team members must establish effective working relationships with other health care providers and entities with whom they must interact. These include emergency medical services (EMS) providers, ancillary hospital personnel, other physicians, and other health care and social services resources.

Rule 41.83.15 **Required Policies.** The FED Emergency Department Policy Sections shall include:

1. Resources and Planning

a. Necessary Elements

- i. Administration
- ii. Staffing
- iii. Facility
- iv. Equipment and Supplies
- v. Pharmacologic/Therapeutic Drugs and Agents
- vi. Safety
- vii. Ancillary Services
- viii. Transfer policies and procedures for critical patients
- ix. Electronic Medical Record
- x. Relationships and Responsibilities

2. Core Measures

a. Measure Groups

- i. Median Time from FED Arrival to ED Departure for Discharged Patients
- ii. Median Time from FED Arrival to Decision to Transfer
- iii. Median Time from Decision to Transfer to arrival at receiving facility
- iv. Total lengths of stay and door-to-doctor times
- b. Quality/Safety Metrics
 - i. FED will be responsible for reporting all categories required
 - ii. Case analysis of EMS patient outliers.

Rule 41.83.17 **Entire FED Department shall include:**

1. Central station monitoring capability
2. Physiological monitors
3. Blood flow detectors
4. Defibrillator with monitor and battery
5. Thermometers
6. Pulse oximetry
7. Nurse-call system for patient use
8. Portable suction regulator
9. Infusion pumps to include blood pumps
10. IV poles
11. Bag-valve-mask respiratory and adult and pediatric size mask
12. Portable oxygen tanks
13. Blood/fluid warmer and tubing
14. Nasogastric suction supplies
15. Nebulizer
16. Gastric lavage supplies, including large-lumen tubes and bite blocks
17. Urinary catheters, including straight catheters, Foley catheters, Coude catheters, filiforms and followers, and appropriate collection equipment
18. Intraosseous needles
19. Lumbar puncture sets (adult and pediatric)

20. Blanket warmer
21. Tonometer
22. Slit lamp
23. Wheel chairs
24. Medication dispensing system with locking capabilities
25. Separately wrapped instruments (specifics will vary by department)
26. Availability of light microscopy for emergency procedures
27. Weight scales (adult and infant)
28. Tape measure
29. Ear irrigation and cerumen removal equipment
30. Vascular Doppler
31. Anoscope
32. Adult and Pediatric "code" cart
33. Suture or minor surgical procedure sets (generic)
34. Portable sonogram equipment
35. EKG machine
36. Point of care testing
37. X-ray view box and hot light
38. Film boxes for holding x-rays
39. Chart Rack
40. Computer system
41. Internet capabilities
42. Patient tracking system
43. Radio or other device for communication with ambulances
44. Patient discharge instruction system

45. Patient registration system/ Information services
46. Intradepartmental staff communication system- pagers, mobile phones
47. ED charting system for physician, nursing, and attending physician documentation equipment
48. Reference materials including toxicology resource information
49. Personal protective equipment- gloves, eye goggles, face mask, gowns, head
50. and foot covers
51. Linen (pillows, towels, wash cloths, gowns, blankets)
52. Patient belongings or clothing bag
53. Security needs -including restraints and wand-type or free standing metal
54. detectors as indicated
55. Equipment for adequate housekeeping

Rule 41.83.18 FED General Examination Rooms shall include:

1. Examination tables or stretchers appropriate to the area.
2. For any area in which seriously ill patients are managed, a stretcher with capability for changes in position, attached IV poles, and a holder for portable oxygen tank should be used.
3. Pelvic tables for GYN examinations.
4. Step stool
5. Chair/stool for emergency staff
6. Seating for family members or visitors
7. Adequate lighting, including procedure lights as indicated
8. Cabinets
9. Adequate sinks for hand-washing, including dispensers for germicidal soap and paper towels.

10. Wall mounted oxygen supplies and equipment, including nasal cannulas, face masks, and venturi masks.
11. Wall mounted suction capability, including both tracheal cannulas and larger cannulas.
12. Wall-mounted or portable otoscope/ophthalmoscope
13. Sphygmomanometer/stethoscope
14. Oral and nasal airways
15. Biohazard-disposal receptacles, including for sharps
16. Garbage receptacles for non-contaminated materials

 - c. Crutches
 - d. Extremity-splinting devices including traction splinting and fixation pins/wires and corresponding instruments and supplies
 - e. Halo traction or Gardner-Wells/Trippe-Wells traction Radiograph view and hot light
 - f. Suture instrument and supplies
 - g. Traction equipment, including hanging weights and finger traps
2. Eye/ENT
 - a. Eye chart
 - b. Ophthalmic tonometry device (applanation, Schiötz, or other)

- c. Other ophthalmic supplies as indicated, including eye spud, rust ring remover, cobalt blue light
 - d. Slit lamp
 - e. Ear irrigation and cerumen removal equipment
 - f. Epistaxis instrument and supplies, including balloon posterior packs Frazier suction tips
 - g. Headlight
 - h. Laryngoscopic mirror
 - i. Plastic suture instruments and supplies
3. OB-GYN
- a. Fetal Doppler and ultrasound equipment
 - b. Obstetrics/Gynecology examination light
 - c. Vaginal specula in pediatric through adult sizes
 - d. Sexual assault evidence-collection kits (as appropriate)
 - e. Suture material

Rule 41.83.21 **Radiologic, Imaging, and Other Diagnostic Services.** The specific services available and the timeliness of availability of these services for emergency patients in FED should be determined by the medical director of the FED in collaboration with the directors of the diagnostic services and other appropriate individuals.

1. The following should be readily available 24 hours a day for emergency patients:
 - a. Standard radiologic studies of bony and soft-tissue structures including, but not limited to:
 - i. Cross-table lateral views of spine with full series to follow
 - ii. Portable chest radiographs for acutely ill patients and for verification of

placement of endotracheal tube, central line, or chest tube
 - iii. Soft-tissue views of the neck
 - iv. Soft-tissue views of subcutaneous tissues to rule out the presence of foreign body

- v. Standard chest radiographs, abdominal series, etc
 - b. Pulmonary services
 - i. Arterial blood gas determination
 - ii. Peak flow determination
 - iii. Pulse oximetry
 - c. Fetal monitoring (nonstress test)/uterine monitoring
 - d. Cardiovascular services
 - i. Doppler studies
 - ii. 12-Lead ECGs and rhythm strips
 - e. Emergency ultrasound services for the diagnosis of obstetric/gynecologic, cardiac and hemodynamic problems and other urgent conditions.
2. The following services shall be available on an urgent basis. Such may be provided by on duty staff or on call staff available to respond within a reasonable period of time:
- a. Nuclear medicine
 - i. Ventilation-perfusion lungs scans
 - ii. Other scintigraphy for trauma and other conditions
 - b. Radiographic
 - i. Arteriography/venography
 - ii. Computed tomography
 - iii. Dye-contrast studies (intravenous pyelography, gastrointestinal contrast, etc)
 - c. Vascular/flow studies including impedance plethysmography

Required Pharmacological/Therapeutic drugs for FED. These classes of drugs and agents are required. The medical director of the FED, representatives of the medical staff, and the director of the pharmacy shall develop a formulary of specific agents for use in the FED.

1. Analgesics
 - A. narcotic and non-narcotic
2. Anesthetics
 - A. topical, infiltrative, general
3. Anticonvulsants
4. Antidiabetic agents
5. Antidotes
6. Antihistamines
7. Anti-infective agents
 - A. systemic/topical
8. Anti-inflammatory
 - A. steroidal/non-steroidal
9. Anti-platelets
 - A. Aspirin
 - B. Plavix
 - C. Heparin
 - D. Bicarbonates
 - E. Blood Modifiers
10. Anticoagulants to include thrombolytics
11. Anticoagulants
12. Hemostatic agents
 - A. systemic
 - B. topical
 - C. plasma expanders/ extenders

13. Burn Preparations

14. Cardiovascular agents

- A. Ace inhibitors
- B. Adrenergic blockers
- C. Adrenergic stimulants
- D. Alpha/Beta blockers
- E. Antiarrhythmic agents
- F. Calcium channel blockers
- G. Digoxin antagonist
- H. Diuretics
- I. Vasodilators
- J. Vasopressors

Rule 41.83.22 **Transfer of Unstable Patients from FED to Acute Care Hospital.** Once the patient is determined to require a higher level of care than can be provided at the FED, the physician shall immediately contact the designated EMS for transport. If the EMS is based on site the transport team will be notified immediately. The physician will stabilize the emergency medical condition and determine the transfer destination based on the specialized capabilities of facilities that are offered at local hospitals. The FED facility will implement all procedures and protocols for acutely ill patients before departure from the FED. Such conditions would include, but not be limited to, STEMI, acute ischemic stroke and cardiac arrests. All electronic medical records and any diagnostic test results will be transported with the patient to the receiving facility. Should a patient meeting trauma system activation requirements arrive at the FED, the FED will transfer the patient in accordance with the federal EMTALA regulations and the State Trauma Plan.

Subchapter 2 DEFINITIONS

Rule 42.2.1 A list of selected terms often used in connection with these rules, regulations, and standards follows:

1. **Administrator.** The term "administrator" shall mean a person who is delegated the responsibility for the implementation and proper application of policies and

programs established by the governing authority of the facility and is delegated responsibility for the establishment of safe and effective administrative management, control and operation of the services provided. This definition applies to a person designated as Chief Executive Officer or other similar title.

2. **Ambulatory Surgery.** Shall mean surgical procedures that are more complex than office procedures performed under local anesthesia, but less complex than major procedures requiring prolonged postoperative monitoring and hospital care to ensure safe recovery and desirable results. General anesthesia is used in most cases. The patient must arrive at the facility and expect to be discharged on the same day. Ambulatory surgery shall only be performed by physicians or dentists licensed to practice in the State of Mississippi.
3. **Ambulatory Surgical Facility.** Shall mean a publicly or privately owned institution which is primarily organized, constructed, renovated or otherwise established for the purpose of providing elective surgical treatment of outpatients whose recovery, under normal and routine circumstances, will not require inpatient care. Such facility as herein defined does not include the offices of private physicians or dentists whether practicing individually or in groups, but does include organizations or facilities primarily engaged in such outpatient surgery whether using the name "ambulatory surgical facility" or a similar or different name. Such organization or facility, if in any manner considered to be operated or owned by a hospital or a hospital holding, leasing or management company, either for profit or not for profit, is required to comply with all Mississippi State Department of Health ambulatory surgical licensure standards governing a hospital affiliated facility as adopted under Section 41-91-1 et seq, Mississippi Code of 1972; provided that such organization or facility does not intend to seek federal certification as an ambulatory surgical facility as provided for at 42 CFR, Parts 405 and 416. Further, if such organization or facility is to be operated or owned by a hospital or a hospital holding, leasing or management company and intends to seek federal certification as an ambulatory facility, then such facility is considered to be freestanding and must comply with all Mississippi State Department of Health ambulatory surgical licensure standards governing a freestanding facility. If such organization or facility is to be owned or operated by an entity or person other than a hospital or hospital holding, leasing or management company, then such organization or facility must comply with all Mississippi State Department of Health ambulatory surgical facility standards governing a freestanding facility.
4. **Hospital Affiliated Ambulatory Surgical Facility.** Shall mean a separate and distinct organized unit of a hospital or a building owned, leased, rented or utilized by a hospital and located in the same county in which the hospital is located for the primary purpose of performing ambulatory surgery procedures. Such facility is not required to be separately licensed under the statute and may operate under the hospital's license in compliance with all applicable requirements of Section 41-9-1 et seq.

5. **Freestanding Ambulatory Surgical Facility.** Shall mean a separate and distinct facility or a separate and distinct organized unit of a hospital owned, leased, rented or utilized by a hospital or other persons for the primary purpose of performing ambulatory surgery procedures. Such facility must be separately licensed as herein defined and must comply with all licensing standards promulgated by the Mississippi State Department of Health under this statute regarding freestanding ambulatory surgical facility. Further, such facility must be a separate, identifiable entity and must be physically, administratively and financially independent and distinct from other operations of any other health facility, and shall maintain a separate organized medical and administrative staff. Furthermore, once licensed as a freestanding ambulatory surgical facility, such facility shall not become a component of any other health facility without securing a certificate of need to do such.
6. **Anesthesiologist.** A physician whose specialized training and experience qualify him/her to administer anesthetic agents and to monitor the patient under the influence of these agents.
7. **Anesthetist.** A physician or dentist qualified and trained to administer anesthetic agents or a certified registered nurse qualified to administer anesthetic agents.

CHAPTER 43: MINIMUM STANDARDS OF OPERATION FOR BIRTHING CENTERS

Subchapter 1 INTRODUCTION

- Rule 43.1.1 On April 12, 1985, the Mississippi Legislature passed an Act to provide for the licensing of birthing centers by the department or its successor; to provide for license fees; to provide for hearings prior to the denial, suspension or revocation of a license; to provide for appeals from the decision at any such hearing; to provide penalties for violations of this act, and for related purposes.

SOURCE: Miss. Code Ann. §41-77-11

- Rule 43.1.2 The purpose of this act is to protect and promote the public welfare by providing for the development, establishment and enforcement of certain standards in the maintenance and operation of "birthing centers" which will ensure safe, sanitary and nationally recognized best practice standards adequate care of individuals in such institutions.

SOURCE: Miss. Code Ann. §41-77-3 and §41-77-11

- Rule 43.1.3 A "birthing center" is a home-like facility where low risk births are planned to occur following a normal, uncomplicated pregnancy. A "birthing center" has sufficient space to accommodate participating family members and support people of the woman's choice. A "birthing center" provides midwifery practice to childbearing women during pregnancy, birth, and puerperium and to the infant during the immediate newborn period by certified nurse-midwives or by an obstetrician or family physician or osteopathic physician. A "birthing center" has specified access to acute care obstetric and newborn services.

Subchapter 2 GENERAL: LEGAL AUTHORITY

Rule 43.2.1 **Adoption of Regulations.** Under and by virtue of the authority vested in it by Chapter 503 of the Laws of Mississippi, 1985, Regular Legislative Session, the department, as licensing agency, does hereby adopt and promulgate the following rules, regulations, and standards governing birthing centers licensed to operate in the State of Mississippi. The American Association of Birth Centers (AABC) Standards for Birth Centers are hereby incorporated by reference. In order to be licensed by the Mississippi State Department of Health, each birth center shall be in compliance with the AABC Standards for Birth Centers.

SOURCE: Miss. Code Ann. §41-77-11

Rule 43.2.2 **Procedures Governing Amendments.** The rules, regulations, and minimum standards for birthing center facilities may be amended by the licensing agency from time to time as necessary to promote the health, safety, and welfare of persons receiving services in such institutions.

SOURCE: Miss. Code Ann. §41-77-11

Rule 43.2.3 **Inspections Required.** The department shall inspect each birthing center for which a license has been issued or by persons, delegated authority by said Department on an annual basis at such intervals as the Department may direct. The department and/or its authorized representatives shall have the right to inspect construction work in progress. New birthing center facilities shall not be licensed without having first been inspected for compliance with these rules, regulations, and minimum standards.

Rule 43.3.2 Criminal History Record Checks.

Definitions: A list of selected terms often used in connection with these rules, regulations and standards follows.

1. **Employee.** For the purpose of fingerprinting and criminal background history checks, employee shall mean any individual employed by a covered entity. The term "employee" also includes any individual who by contract with the covered entity provides direct client care in a client's room or in treatment rooms.
2. The term employee does not include healthcare professional/technical students, as defined in Section 37-29-232, performing clinical training in a licensed entity under contracts between their schools and the licensed entity, and does not include students at high schools who observe the treatment and care of clients in a licensed entity as part of the requirements of an allied health course taught in the school if:
 - A. The student is under the supervision of a licensed healthcare provider; and
 - B. The student has signed the affidavit that is on file at the student's school stating that he or she has not been convicted of or plead guilty or nolo contendere to a felony of possession or sale of drugs, murder, manslaughter, armed robbery, rape, sexual battery, any sex offenses listed in section 45-33-23 (g), child abuse, arson, grand larceny, burglary, gratification of lust, aggravated assault, or felonious abuse and/or battery of a vulnerable adult, or that any such conviction or plea was reversed on appeal or a pardon was granted for the conviction or plea; and
 - C. Further, applicants and employees of the University of Mississippi Medical Center for whom criminal history record checks and fingerprinting are obtained in accordance with Section 37-115-41 are exempt from application of the term employee under Section 41-75-13.
3. **Covered Entity.** For the purpose of criminal history record checks, "covered entity" means a licensed entity or a healthcare professional staffing agency.

4. **Licensed Entity.** For the purpose of criminal history record checks, the term "licensed entity" means a Birthing Center.
5. **Health Care Professional Vocational Technical Student.** For purposes of criminal history record checks, the term means a student enrolled in a healthcare professional/vocational technical academic program.
6. **Direct Client Care or Services.** For the purposes of fingerprinting and criminal background history checks, the term "direct client care" means direct hands-on medical client care and services provided by an individual to a client, in a client's room or treatment room. Individuals providing direct client care may be directly employed by the facility or provides client care on a contractual basis.
7. **Documented Disciplinary Action.** For the purpose of fingerprinting and criminal background history checks, the term "documented disciplinary action" means any action taken against an employee for abuse or neglect of a client.
8. Pursuant to Section 43-11-13, Mississippi Code of 1972, the covered entity shall require to be performed a disciplinary check with the professional licensing agency, if any, for each employee to determine if any disciplinary action has been taken against the employee by the agency, and a criminal history record check on:
 - A. Every new employee of a covered entity who provides direct client care or services; and
 - B. Any individual seeking new employment with a covered entity whose initial criminal history record check is over two years.
9. Except as otherwise provided in this paragraph, no employee shall be permitted to provide direct client care until the results of the criminal history record check have revealed no disqualifying record or the employee has been granted a waiver. Provided the covered entity has documented evidence of submission of fingerprints for the background check, any person may be employed and provide direct client care on a temporary basis pending the results of the criminal history record check but any employment offer, contract, or arrangement with the person shall be voidable, if he/she receives a disqualifying criminal record check and no waiver is granted.
10. If such criminal history record check discloses a conviction; a guilty plea; and/or a plea of nolo contendere to a felony for one (1) or more of the following crimes that is job-related which has not been reversed on

appeal, or for which a pardon has not been granted, the applicant/employee may not be eligible to be employed at the licensed facility:

- A. Possession or sale of drugs;
- B. Murder;
- C. Manslaughter;
- D. Armed robbery;
- E. Rape; or
- F. Sexual battery.

11. Sex offense listed in Section 45-33-23 (g), Mississippi Code of 1972:

- A. Child abuse;
- B. Arson;
- C. Grand larceny;
- D. Burglary;
- E. Gratification of lust;
- F. Aggravated assault;
- G. Felonious abuse and/or battery of vulnerable adult;
- H. Any felony; or
- I. Identity theft.

12. Documentation of verification of the employee's disciplinary status, if any, with the employee's professional licensing agency as applicable, and evidence of submission of the employee's fingerprints to the licensing agency must be on file and maintained by the facility prior to the new employees first date of employment. The covered entity shall maintain on file evidence of verification of the employee's disciplinary status from any applicable professional licensing agency and of submission and/or completion of the criminal record check, a copy of the referenced notarized letter addressing the individual's suitability for such employment.

13. Pursuant to Section §43-11-13, Mississippi Code of 1972, the licensing agency shall require every employee of a covered entity employed prior to July 01, 2003, to sign an affidavit stating that he or she does not have a criminal history as outlined in paragraph (3) above.
14. From and after December 31, 2003, no employee of a covered entity hired before July 01, 2003, shall be permitted to provide direct patient care unless the employee has signed an affidavit as required by this section. The covered entity shall place the affidavit in the employee's personnel file as proof of compliance with this section.
15. If a person signs the affidavit required by this section, and it is later determined that the person actually had been convicted of or pleaded guilty or nolo contendere to any of the offenses listed herein, and the conviction or pleas has not been reversed on appeal or a pardon has not been granted for the conviction or plea, the person is guilty of perjury as set out in Section §43-11-13, Mississippi Code of 1972. The covered entity shall immediately institute termination proceedings against the employee pursuant to the facility's policies and procedures.
16. The covered entity may, in its discretion, allow any employee unable to sign the affidavit required by paragraph (7) of this subsection or any employee applicant aggrieved by the employment decision under this subsection to appear before the covered entity's hiring officer, or his or her designee, to show mitigating circumstances that may exist and allow the employee or employee applicant to be employed at the covered entity. The covered entity, upon report and recommendation of the hiring officer, may grant waivers for those mitigating circumstances, which shall include, but not be limited to: (1) age at which the crime was committed; (2) circumstances surrounding the crime; (3) length of time since the conviction and criminal history since the conviction; (4) work history; (5) current employment and character references; and (6) other evidence demonstrating the ability of the individual does not pose a threat to the health or safety of the patients in the licensed facility.
17. The licensing agency may charge the covered entity submitting the fingerprints a fee not to exceed Fifty Dollars (\$50.00).
18. Should results of an employee applicant's criminal history record check reveal no disqualifying event, then the covered entity shall, within two (2) weeks of the notification of no disqualifying event, provide the employee applicant with a notarized letter signed by the chief executive officer of the covered, or his or her authorized designee, confirming the employee applicant's suitability for employment based on his or her criminal history record check. An employee applicant may use that letter for a period of two (2) years from the date of the

letter to seek employment at any covered entity licensed by the Mississippi State Department of Health without the necessity of an additional criminal record check. Any covered entity presented with the letter may rely on the letter with respect to an employee applicant's criminal background and is not required for a period of two (2) years from the date of the letter to conduct or have conducted a criminal history record check as required in this subsection.

19. For individuals contracted through a third party who provide direct client care as defined herein, the covered entity shall require proof of a criminal history record check.
20. Pursuant to Section 41-75-13, Mississippi Code of 1972, the licensing agency, the covered entity, and their agents, officers, employees, attorneys, and representatives shall be presumed to be acting in good faith for any employment decision or action taken under this section. The presumption of good faith may be overcome by a preponderance of the evidence in any civil action. No licensing agency, covered entity, nor their agents, officers, employees, attorneys, or representatives shall be held liable in any employment discrimination suit in which an allegation of discrimination is made regarding an employment decision authorized under this section.

1. **Affidavit.** For the purpose of fingerprinting and criminal background history checks, the term "affidavit" means the use of Mississippi State Department of Health (MSDH) Form #210, or a copy thereof, which shall be placed in the individual's personal file.

2. **Employee.** For the purpose of fingerprinting and criminal background history checks, employee shall mean any individual employed by a covered entity. The term "employee" also includes any individual who by contract with the covered entity provides direct client care in a client's room or in treatment rooms.

The term employee does not include healthcare professional/technical students, as defined in Section 37-29-232, performing clinical training in a licensed entity under contracts between their schools and the licensed entity, and does not include students at high schools who observe the treatment and care of clients in a licensed entity as part of the requirements of an allied health course taught in the school if:

- a. The student is under the supervision of a licensed healthcare provider; and
 - b. The student has signed the affidavit that is on file at the student's school stating that he or she has not been convicted of or plead guilty or nolo contendere to a felony of possession or sale of drugs, murder, manslaughter, armed robbery, rape, sexual battery, any sex offenses listed in section 45-33-23 (g), child abuse, arson, grand larceny, burglary, gratification of lust, aggravated assault, or felonious abuse and/or battery of a vulnerable adult, or that any such conviction or plea was reversed on appeal or a pardon was granted for the conviction or plea.
 - c. Further, applicants and employees of the University of Mississippi Medical Center for whom criminal history record checks and fingerprinting are obtained in accordance with Section 37-115-41 are exempt from application of the term employee under Section 41-75-13.
3. **Covered Entity.** For the purpose of criminal history record checks, "covered entity" means a licensed entity or a healthcare professional staffing agency.
4. **Licensed Entity.** For the purpose of criminal history record checks, the term "licensed entity" means a Birthing Center.
5. **Health Care Professional Vocational Technical Student.** For purposes of criminal history record checks, the term means a student enrolled in a healthcare professional/vocational technical academic program.
6. **Direct Client Care or Services.** For the purposes of fingerprinting and criminal background history checks, the term "direct client care" means direct hands-on medical client care and services provided by an individual to a client, in a client's room or treatment room. Individuals providing direct client care may be directly employed by the facility or provides client care

on a contractual basis.

7. **Documented Disciplinary Action.** For the purpose of fingerprinting and criminal background history checks, the term "documented disciplinary action" means any action taken against an employee for abuse or neglect of a client.

Pursuant to Section 43-11-13, Mississippi Code of 1972, the covered entity shall require to be performed a disciplinary check with the professional licensing agency, if any, for each employee to determine if any disciplinary action has been taken against the employee by the agency, and a criminal history record check on:

- a. Every new employee of a covered entity who provides direct client care or services; and
- b. Every employee of a covered entity who has documented disciplinary action by his or her present employer.

Except as otherwise provided in this paragraph, no employee shall be permitted to provide direct client care until the results of the criminal history record check have revealed no disqualifying record or the employee has been granted a waiver. Provided the covered entity has documented evidence of submission of fingerprints for the background check, any person may be employed and provide direct client care on a temporary basis pending the results of the criminal history record check but any employment offer, contract, or arrangement with the person shall be voidable, if he/she receives a disqualifying criminal record check and no waiver is granted.

- a. If such criminal history record check discloses a conviction; a guilty plea; and/or a plea of nolo contendere to a crime that is job-related which has not been reversed on appeal, or for which a pardon has not been granted, the applicant/employee may not be eligible to be employed at the licensed facility. Documentation of verification of the employee's disciplinary status, if any, with the employee's professional licensing agency as applicable, and evidence of submission of the employee's fingerprints to the licensing agency must be on file and maintained by the facility prior to the new employees first date of employment.
- b. The covered entity shall maintain on file evidence of verification of the employee's disciplinary status from any applicable professional licensing agency and of submission and/or completion of the criminal record check, a copy of the referenced notarized letter addressing the individual's suitability for such employment.

The licensing agency may charge the covered entity submitting the fingerprints a fee not to exceed Fifty Dollars (\$50.00).

Should results of an employee applicant's criminal history record check reveal no disqualifying event, then the covered entity shall, within two (2) weeks of the notification of no disqualifying event, provide the employee applicant with a notarized letter signed by the chief executive officer of the covered, or his or her authorized designee, confirming the employee applicant's suitability for employment based on his or her criminal history record check. An employee applicant may use that letter for a period of two (2) years from the date of the letter to seek employment at any covered entity licensed by the Mississippi State Department of Health without the necessity of an additional criminal record check. Any covered entity presented with the letter may rely on the letter with respect to an employee applicant's criminal background and is not required for a period of two (2) years from the date of the letter to conduct or have conducted a criminal history record check as required in this subsection.

For individuals contracted through a third party who provide direct client care as defined herein, the covered entity shall require proof of a criminal history record check.

Pursuant to Section 41-75-13, Mississippi Code of 1972, the licensing agency, the covered entity, and their agents, officers, employees, attorneys and representatives shall be presumed to be acting in good faith for any employment decision or action taken under this section. The presumption of good faith may be overcome by a preponderance of the evidence in any civil action. No licensing agency, covered entity, nor their agents, officers, employees, attorneys or representatives shall be held liable in any employment discrimination suit in which an allegation of discrimination is made regarding an employment decision authorized under this section.

Subchapter 9 PLANS AND SPECIFICATIONS

Rule 43.9.1 Inspections. The department shall inspect each birthing center for which a license has been issued or by persons, delegated authority by said department on an annual basis at such intervals as the department may direct. The department and/or its authorized representatives shall have the right to inspect construction work in progress. New birthing center facilities shall not be licensed without having first been inspected for compliance with these rules, regulations, and minimum standards.

1. Construction shall not be started for any institution subject to these standards (whether new or remodeling or additions to an existing licensed birthing center) until the plans and specifications for such construction or remodeling have been submitted to the Licensing Agency in writing and its approval of the changes given in writing.
 - A. Exception: Foundation changes made necessary by unanticipated conditions, or any conditions which present a hazard to life or property if not immediately corrected.
 - B. New Construction, Additions, and Major Alterations. When construction is contemplated for new buildings, conversions, or additions to existing building coming within the scope of rules, plans, and specifications shall be submitted for review by the Department.
 - C. Minor Alterations and Remodeling. Minor alterations and remodeling which do not affect the structural integrity of the building, change functional operation, affect fire safety, and add services to those for which the birthing center is licensed need not

be submitted for review.

- D. Local Requirements. The birthing center shall comply with all local zoning, building, and fire ordinances. A birthing center may not be operated in a private residence.

Rule 43.9.2 Life Safety Codes. Physical Plant and Operational Standards.

The following minimum physical plant and operational standards shall be met:

1. **Construction.** For any existing construction, as of the date of this standard, shall meet, at a minimum, NFPA 101 Life Safety Code, current edition and the FGI (Facility Guidelines Institute) Guidelines for Design and Construction of Health Care Facilities. In the event of the construction of a new birthing center or substantial modification of an existing facility, any subsequent edition of NFPA, Life Safety Code may be used, provided the licensing agency approve the use of such edition and that all construction and/or modifications meet the requirements of the approved edition.
 - A. The construction of the building should be a free-standing building.
 - B. Automatic Sprinklers Required. Facilities shall be protected throughout by a supervised automatic sprinkler system installed in accordance with the current edition of NFPA 13, Installation of Sprinkler Systems.
 - C. Fire Code Items:
 - i. Fire extinguishers in accordance with current edition NFPA 10, Standard for Portable Fire Extinguishers.
 - ii. Fire alarms and smoke detectors in accordance with current edition of NFPA 72, National Fire Alarm Code.
2. The center shall provide sufficient space and equipment for patient and visitor waiting area, examination and treatment rooms, birth rooms, special care capability, and for staff and administrative areas. Birth rooms shall each have at least 200 square feet of area, must include bathroom, toilet, or entry way, and be designed and located to prevent traffic through them to any other part of the center (Facility Guidelines Institute).

3. The licensing agency may deny the center a license if it does not comply with Federal, State, and local laws, codes, ordinances, and regulations which apply to its location, construction, maintenance, and operation.
4. It shall be the responsibility of the governing body to assure that the center is in a safe condition at all times, and that a fire inspection record is maintained on equipment, systems, and areas that may present a hazard to occupants.
5. In addition to requirements specified herein, and those required by local ordinances or regulations, the construction of a birth center shall meet the requirements of the current version National Fire Protection Association (NFPA) 101 shall be accompanied by written evidence that these requirements have been met.
6. Entrances for patients shall be connected to the public right-of-way by a hard-surfaced, unobstructed walkway in good repair. Access for handicapped individuals shall be provided at a minimum of one entrance. A hard-surfaced, unobstructed road or driveway for use by ambulances or other emergency vehicles shall run from at least one entrance of the building to the public right-of-way. The doorway of such entrance shall be immediately adjacent to the road or driveway. If such doorway is not on the same level as the road, a ramp shall provide a continuous, unobstructed plane to the entrance.
7. Services provided in multi-story buildings shall be accessible by an elevator of adequate size to accommodate a standard wheeled litter patient and two attendants. Multi-story buildings will be considered to have met this requirement when patients are located only on ground level floors with outside exits. A stairway or ramp of adequate dimensions shall be available for transfer of patients in case of power failure.
8. The birth center shall be constructed, equipped, and maintained to assure the safety of patients and personnel. The following requirements shall apply within the center:
 - A. Birth rooms shall be designed and located to prevent traffic through them to any other part of the center.
 - B. The walls and floors of birth rooms, examination rooms and staff dressing, and scrub areas shall be of material that will permit frequent washing and cleaning.
 - C. Staff dressing rooms and scrub facilities shall be

convenient to the birth rooms, and shall include a knee, elbow, wrist or foot operated sink soap dispenser and brushes.

- D. Toilet and handwashing facilities shall be accessible to patients from the birth rooms. Bathrooms shall be equipped with handrails for toilets and showers. Convenient handwashing facilities shall be provided for both staff and patient and shall be provided with soap dispenser and individual or disposable towels. The use of common towels is prohibited.
 - E. The center shall be arranged and organized in such a manner as to ensure the comfort, safety, hygiene, privacy, and dignity of patients treated therein.
 - F. A clean up room for equipment shall be provided.
 - G. The center shall have an audible nurse call system with control switches in all birth rooms and bathrooms which can be activated during an emergency.
 - H. The center shall have special care capability which includes but is not necessarily limited to the following, for both adults and infants: resuscitation equipment, intravenous solutions, drugs, oxygen, suction, infant stethoscope, and transfer isolette. Such emergency equipment shall be provided on each floor on which patients are served.
 - I. Each birth room shall have an infant resuscitation tray with a laryngoscope, positive pressure bag and mask and endotracheal tubes.
- 9. The center shall provide space and facilities for administrative activities, including offices, medical records and other files and storage of supplies.
 - 10. A waiting room and patient admissions area(s) shall be provided. There shall also be space for storage of personal belongings of staff, patients, and visitors.
 - 11. The center shall have adequate and conveniently located toilets and handwashing facilities for its staff, employees, patients, and visitors.

Housekeeping, Laundry, Maintenance and Sterile Supplies:

1. The center shall ensure that housekeeping and maintenance is adequate to maintain the center and equipment in a clean condition and state of good repair. An equipment clean-up area with adequate plumbing, including a sink with counter, shall be provided within the center.
2. Laundry service shall be provided either in house or by contractual arrangement. Separate space and facilities shall be provided for receiving, sorting, and storing soiled laundry and for the sorting, storing, and issuing of clean laundry, if reusable items are utilized. Linens used for draping must be sterilized. All reusable linens, including those used as sterilizing wrappers, must be laundered before reuse. Linens shall be handled, stored, processed, and transported in such a manner as to prevent the spread of infection. Soiled and clean linen must be handled and stored separately.
3. There shall be adequate space and facilities for receiving packaging and proper sterilization and storage of supplies and equipment consistent with the services to be provided.
4. Special precaution shall be taken to ensure that sterile instruments and supplies are kept separate from nonsterile instruments and supplies. Equipment for sterilization of instruments and supplies shall be conveniently located and of adequate capacity for the workload. Records shall be maintained to assure quality control, including, date, time, and temperature of each batch of sterilized supplies and equipment. Sterilization performance shall be checked, and records shall be kept. Sterile items shall be dated and utilized, based on established procedures.

Electrical Power:

1. All electrical work and equipment shall be designed and installed in accordance with State and local laws and ordinances.
2. All areas of the center shall have sufficient artificial lighting for designated purposes.
3. All centers shall have an alternative lighting source for emergency use in the event of a power failure.
4. Centers shall equip the building with an emergency generating system;

Level 1, Type 10 or equivalent in accordance with current NFPA 110 Standard for Emergency and Standby Power Systems; with adequate generating power to maintain full power to the building in the case of power failure.

Subchapter 11 INFECTION CONTROL

Rule 43.11.1 The following infection control standards shall be met:

1. The birthing center must maintain and document an effective infection control program that protects patients, families, visitors, and birthing center personnel by preventing and controlling infections and communicable diseases.
2. The birthing center inpatient facility must have an active surveillance program that includes specific measures for prevention, early detection, control, education, and investigation of infections and communicable diseases in the birthing center. There must be a mechanism to evaluate the effectiveness of the program(s) and take corrective action when necessary. The program must include implementation of nationally recognized systems of infection control guidelines to avoid sources and transmission of infections and communicable diseases
3. The birthing center must follow accepted standards of practice to prevent the transmission of infections and communicable diseases, including the use of standard precautions.

CHAPTER 44 MINIMUM STANDARDS OF OPERATION FOR ABORTION FACILITIES

Subchapter 1 INTRODUCTION

Rule 44.1.1 **Adoption of Regulations.** Under and by virtue of authority vested in it by Mississippi Code Annotated ', the Mississippi Department of Health, as licensing agency, does hereby adopt and promulgate the following rules, regulations and standards governing abortion facilities licensed to operate in the State of Mississippi.

SOURCE: Miss. Code Ann. §41-75-13

Rule 44.1.2 **Procedures Governing Amendments.** The rules, regulations, and minimum standards for abortion facilities may be amended by the licensing agency from time to time as necessary to promote the health, safety, and welfare of persons receiving services in such institutions.

SOURCE: Miss. Code Ann. §41-75-13

Rule 44.1.3 **Inspections Required.** Each abortion facility for which a license has been issued shall be inspected by the Mississippi Department of Health or by persons delegated with authority by said Mississippi Department of Health at such intervals as the Department may direct. The Mississippi Department of Health and/or its authorized representatives shall have the right to inspect construction work in progress. New abortion facilities shall not be licensed without having first been inspected for compliance with these rules, regulations, and minimum standards.

SOURCE: Miss. Code Ann. §41-75-13

Rule 44.1.4 **Provisions.** The provisions of this act shall not be constructed to repeal or modify any provision of Mississippi law not expressly altered by this act, and furthermore does not establish a state policy that condones abortion.

SOURCE: Miss. Code Ann. §41-75-13

Rule 44.1.5 **DEFINITIONS** A list of selected terms often used in connection with these rules, regulations, and standards follows:

1. **Abortion.** For the purpose of these regulations, "Abortion" means the use or prescription of any instrument, medicine, drug or any other substances or device to terminate the pregnancy of a woman known to be pregnant with any intention other than to increase the probability of a live birth to preserve the life or health of the child after live birth or to remove a dead fetus.
2. **Administrator.** The term "administrator" shall mean a person who is delegated the responsibility for the implementation and proper application of policies and programs established by the governing authority of the facility and is delegated responsibility for the establishment of safe and effective administrative management, control, and operation of the services provided. This definition applies to a person designated as Chief Executive Officer or other similar title.

3. **Abortion Facility.** The term "abortion facility" means a facility operating substantially for the purpose of performing abortions for outpatients and is a separate identifiable legal entity from any other health care facility. Abortions shall only be performed by physicians licensed to practice in the State of Mississippi. The term "abortion facility" term includes physicians' offices which are used substantially for the purpose of performing abortions. An abortion facility operates substantially for the purpose of performing abortions if any of the following conditions are met:
 - a. The abortion facility is a provider for performing ten (10) or more abortions procedures per calendar month during any month of a calendar year, or one hundred (100) or more in a calendar year.
 - b. The abortion facility, if operating less than twenty (20) days per calendar month, is a provider for performing ten (10) or more abortion procedures, or performing a number of abortion procedures which would be equivalent to ten (10) procedures per month, if the facility were operating twenty (20) or more days per calendar month, in any month of a calendar year.
 - c. The facility applies to the licensing agency for licensure as a Level I or Level II abortion facility.
4. **Anesthetist.** A physician qualified and trained to administer anesthetic agents or a certified registered nurse qualified to administer anesthetic agents.
5. **Change of Ownership.** The term "change of ownership" includes, but is not limited to, intervivos gifts, purchases, transfers, leases, can an/or stock transactions or other comparable arrangements whenever the person or entity acquires an interest of fifty percent (50%) or more of the facility or services. Changes of ownership from partnerships, single proprietorships, or corporations to another form of ownership are specifically included, provided, however, "change of ownership" shall not include any inherited interest acquired as a result of a testamentary instrument or under the laws of descent and distribution of the State of Mississippi.
6. **Abortion Facility Charge Nurse.** The "charge nurse" means a Registered Nurse, who is currently licensed by the Mississippi Board of Nursing, with supervisory and administrative ability who is responsible to the Governing Authority of the facility.
7. **Dismemberment Abortion.** The term dismemberment abortion means, with the purpose of causing the death of an unborn child, purposely to dismember a living unborn child and extract him or her one piece at a time from the uterus through use of clamps, grasping forceps, tongs, scissors or similar instruments that, through the convergence of two rigid levers, slice, crush and/or grasp a portion of the unborn child's body to cut or rip it off. The term dismemberment abortion does not include an abortion that uses suction to dismember the body of the unborn child by sucking fetal parts into a collection chamber, although it does include an abortion in which a dismemberment abortion is used to cause the death of an unborn child but suction is subsequently used to extract fetal parts after the death of the unborn child.

8. **Governing Authority.** The term "governing authority" shall mean owner(s) associations, public bodies, board of trustees, or any other comparable designation of an individual or group of individuals who have the purpose of owning, acquiring, constructing, equipping, operating and/or maintaining abortion facilities and exercising control over the affairs, and in which the ultimate responsibility and authority of the facility is vested.
9. **Level I.** In accordance with Section 41-75-1, Mississippi Code of 1972, effective August 15, 2005, a Level I abortion facility shall be required to meet minimum standards for Level II abortion facilities and Minimum Standards of Operation For Ambulatory Surgical Facilities as established by the licensing agency.
10. **Level II.** In accordance with Section 41-75-1, Mississippi Code of 1972, effective August 15, 2005, a Level II abortion facility shall be required to meet the minimum standards for Level II abortion facilities as established by the licensing agency.
11. **Licensed Practical Nurse.** "Licensed practical nurse" (LPN) means any person licensed as such by the Mississippi State Board of Nursing.
12. **License.** The term "license" shall mean the document issued by the Mississippi Department of Health and signed by the Executive Director of the Mississippi Department of Health.
13. **Licensure** shall constitute authority to receive patients and perform the services included within the scope of these rules, regulations, and minimum standards.
14. **Licensee.** The term "licensee" shall mean the individual to whom the license is issued and upon whom rests the responsibility for the operation of the abortion facility in compliance with these rules, regulations and minimum standards.
15. **Licensing Agency.** The term "licensing agency" shall mean the Mississippi Department of Health.
16. **Medical Treatment.** Means, but is not limited to, hospitalization, laboratory tests, surgery, or prescription of drugs.
17. **Nursing Personnel.** The term "nursing personnel" shall mean registered nurses, graduate nurses, licensed practical nurses, nurses' aides, orderlies, attendants and others rendering patient care.
18. **Operating.** "Operating" an abortion facility means that the facility is open for any period of time during a day and has on site at the facility or on call, a physician licensed to practice in the State of Mississippi available to provide abortions.
19. **Patient.** The term "patient" shall mean a person admitted to the abortion facility by and upon the recommendation of a physician and who is to receive medical care recommended by the physician.

20. **Performance By Physician Required.** No termination of pregnancy shall be performed at any time except by a physician.
21. **Person.** The term "person" means any individual, firm, partnership, corporation, company, association, or joint stock association, or any licensee herein or the legal successor thereof.
22. **Pharmacy.** The term "pharmacy" shall mean a place licensed by the Mississippi Board of Pharmacy where prescriptions, drugs, medicines and chemicals are offered for sale, compounded or dispensed, and shall include all places whose titles may imply the sale, offering for sale, compounding or dispensing of prescriptions, drugs, medicines or chemicals.
23. **Pharmacist.** The term "pharmacist" shall mean a person currently licensed by the Mississippi Board of Pharmacy to practice pharmacy in Mississippi under the provisions contained in current state statutes.
24. **Physician.** The term physician shall mean a person fully licensed by the Mississippi State Board of Medical Licensure to practice medicine and surgery in Mississippi under provisions contained in current state statutes, including but not limited to, Miss. Code Ann. §41-75-1:
- a. He or she must have completed a residency in family medicine, with strong rotation through OB/GYN, in a residency program approved by the accreditation counsel for graduate medical education.

Subchapter 6 CONSENTS REQUIRED

Rule 44.6.1 **Consents Required.** No abortion shall be performed or induced except with the voluntary and informed consent of the woman upon whom the abortion is to be performed or induced. Except in the case of a medical emergency, consent to an abortion is voluntary and informed if and only if:

1. The woman is told the following by the physician who is to perform or induce the abortion or by the referring physician, orally and in person at least twenty-four (24) hours before the abortion:
 - a. The name of the physician who will perform or induce the abortion;
 - b. The particular medical risks associated with the particular abortion procedure to be employed including, when medically accurate the risks of infection, hemorrhage and breast cancer and the danger to subsequent pregnancies and infertility;
 - c. The probable gestational age of the unborn fetus at the time the abortion is to be performed or induced; and
 - d. The medical risks associated with carrying her fetus to term.

2. The woman is informed, by the physician or his agent orally and in person, at least twenty-four (24) hours before the abortion:
 - a. That medical assistance benefits may be available for prenatal care, childbirth and neonatal care;
 - b. That the father is liable to assist in the support of her child, even in instances which the father has offered to pay for the abortion;
 - c. That there are available services provided by public and private agencies which provide pregnancy prevention counseling and medical referrals for obtaining pregnancy prevention medications or devices; and
 - d. That she has the right to review the Informed Consent Information & Resources booklet. The physician or his agent shall orally inform the woman that these materials have been provided by the State of Mississippi and that they describe the unborn fetus and list agencies that offer alternatives to abortion. If the woman chooses to view the booklet, copies of them shall be furnished to her. The physician or his agent may disassociate himself or themselves from those materials, and may comment or refrain from comment on them as he chooses. The physician or his agency shall provide the woman with the "Informed Consent Information & Resource Booklet."
3. The woman certifies in writing before the abortion that the information described in paragraphs (a) and (b) above has been furnished to her, and that she has been informed of her opportunity to review the Informed Consent Information and Resource booklet. Before the abortion is performed or induced, the physician who is to perform or induce the abortion receives a copy of the written certification prescribed by this section.

Rule 44.16.4 Medical Waste Management Plan All generators of infectious medical waste and medical waste shall have a medical waste management plan that shall include, but is not limited to the following:

1. Storage and Containment of Infectious Medical Waste and Medical Waste
 - a. Containment of infectious medical waste and medical waste shall be in a manner and location which affords protection from animals, rain and wind, does not provide a breeding place or a food source for insects and rodents, and minimizes exposure to the public.
 - b. Infectious medical waste shall be segregated from other waste at the point of origin in the producing facility.
 - c. Unless approved by the Mississippi Department of Health or treated and rendered non-infectious, infectious medical waste (except for sharps in approved containers) shall not be stored at a waste producing facility for more than seven (7) days above a temperature of 6° C (38° F). Containment of infectious medical waste at the producing facility is permitted at or below a temperature of 0° C (32° F) for a period of not more than ninety (90) days without specific approval of the Department of Health.

- d. Containment of infectious medical waste shall be separate from other wastes. Enclosures or containers used for containment of infectious medical waste shall be so secured so as to discourage access by unauthorized persons and shall be marked with prominent warning signs on, or adjacent to, the exterior of entry doors, gates, or lids. Each container shall be prominently labeled with a sign using language to be determined by the Department and legible during daylight hours.
 - e. Infectious medical waste, except for sharps capable of puncturing or cutting, shall be contained in double disposable plastic bags or single bags (1.5 mills thick) which are impervious to moisture and have strength sufficient to preclude ripping, tearing, or bursting under normal conditions of usage. The bags shall be securely tied so as to prevent leakage or expulsion of solid or liquid waste during storage, handling, or transport.
 - f. All sharps shall be contained for disposal in leak proof, rigid, puncture-resistant containers which are taped closed or tightly lidded to preclude loss of the contents.
 - g. All bags used for containment and disposal of infectious medical waste shall be of a distinctive color or display the Universal Symbol for infectious waste. Rigid containers of all sharps waste shall be labeled.
 - h. Compactors or grinders shall not be used to process infectious medical waste unless the waste has been rendered non-infectious. Sharps containers shall not be subject to compaction by any compacting device except in the institution itself and shall not be placed for storage or transport in a portable or mobile trash compactor.
 - i. Infectious medical waste and medical waste contained in disposable containers as prescribed above shall be placed for storage, handling, or transport in disposable or reusable pails, cartons, drums, or portable bins. The containment system shall be leak proof, have tight-fitting covers and be kept clean and in good repair.
 - j. Reusable containers for infectious medical waste and medical waste shall be thoroughly washed and decontaminated each time they are emptied by a method specified by the Mississippi Department of Health, unless the surfaces of the containers have been protected from contamination by disposable liners, bags, or other devices removed with the waste, as outlined in I.E.
2. Approved methods of decontamination include, but are not limited to, agitation to remove visible soil combined with one or more of the following procedures:
- a. Exposure to hot water at least 180° F for a minimum of 15 seconds.
 - b. Exposure to a chemical sanitizer by rinsing with or immersion in one of the following for a minimum of 3 minutes:

- i. Hypochlorite solution (500-ppm available chlorine).
 - ii. Phenolic solution (500-ppm active agent).
 - iii. Iodoform solution (100-ppm available iodine).
 - iv. Quaternary ammonium solution (400-ppm active agent).
- 3. Reusable pails, drums, or bins used for containment of infectious waste shall not be used for containment of waste to be disposed of as non-infectious waste or for other purposes except after being decontaminated by procedures as described in part (j) of this section.
 - a. Trash chutes shall not be used to transfer infectious medical waste.
 - b. Once treated and rendered non-infectious, previously defined infectious medical waste shall be classified as medical waste and may be landfilled in an approved landfill.
- 4. Treatment or disposal of infectious medical waste shall be by one of the following methods:
 - a. By incineration in an approved incinerator which provides combustion of the waste to carbonized or mineralized ash.
 - b. By sterilization by heating in a steam sterilizer, so as to render the waste noninfectious. Infectious medical waste so rendered non-infectious shall be disposable as medical waste. Operating procedures for steam sterilizers shall include, but not be limited to the following:
 - i. Adoption of standard written operating procedures for each steam sterilizer including time, temperature, pressure, type of waste, type of container(s), closure on container(s), pattern of loading, water content, and maximum load quantity.
 - ii. Check or recording and/or indicating thermometers during each complete cycle to ensure the attainment of a temperature of 121° C (250° F) for one half hour or longer, depending on quantity and density of the load, in order to achieve sterilization of the entire load. Thermometers shall be checked for calibration at least annually.
 - iii. Use of heat sensitive tape or other device for each container that is processed to indicate the attainment of adequate sterilization conditions.
 - iv. Use of the biological indicator *Bacillus stearothermophilus* placed at the center of a load processed under standard operating conditions at least monthly to confirm the attainment of adequate sterilization conditions.

- v. Maintenance of records of procedures specified in (1), (2), (3) and (4) above for period of not less than a year.
 - c. By discharge to the approved sewerage system if the waste is liquid or semi-liquid, except as prohibited by the Department of Health.
 - d. Recognizable human anatomical remains shall be deposited of by incineration or internment, unless burial at an approved landfilled is specifically authorized by the Mississippi Department of Health.
 - e. Chemical sterilization shall use only those chemical sterilants recognized by the U.S. Environmental Protection Agency, Office of Pesticides and Toxic Substances. Ethylene oxide, glutaraldehyde, and hydrogen peroxide are examples of sterilants that, used in accordance with manufacturer recommendation, will render infectious waste non-infectious. Testing with *Bacillus subtilis* spores or other equivalent organisms shall be conducted quarterly to ensure the sterilization effectiveness of gas or steam treatment.
5. Treatment and disposal of medical waste which is not infectious shall be by one of the following methods:
- a. By incineration in an approved incinerator which provides combustion of the waste to carbonized or mineralized ash.
 - b. By sanitary landfill, in an approved landfill which shall mean a disposal facility or part of a facility where medical waste is placed in or on land and which is not a treatment facility.
 - c. All the requirements of these standards shall apply, without regard to the quantity of medical waste generated per month, to any generator of medical waste.

Subchapter 27 LABORATORY SERVICES

Rule 44.27.1 **Laboratory Services.** The facility may either provide a clinical laboratory or make contractual arrangements with an approved outside laboratory to perform services commensurate with the needs of the facility.

SOURCE: Miss. Code Ann. §41-75-13

Rule 44.27.2 **Qualifications of Outside Laboratory.** An approved outside laboratory may be defined as a freestanding independent laboratory or a hospital-based laboratory which in either case has been appropriately certified or meets equivalent standards as a provider under the prevailing regulations of 42 CFR Part 493, Clinical Laboratory Improvement Amendment, 1988.

SOURCE: Miss. Code Ann. §41-75-13

Rule 44.27.3 **Agreements.** Such contractual arrangements shall be deemed as meeting the requirements of this section so long as those arrangements contain written policies, procedures and individual chart documentation to disclose that the policies of the facility are met and the needs of the patients are being provided. Written original reports shall be a part of the patient's chart.

SOURCE: Miss. Code Ann. §41-75-13

Rule 44.27.4 **In-House Laboratories.**

1. In-house laboratories shall be well organized and properly supervised by qualified personnel.
2. The laboratory will be of sufficient size and adequately equipped to perform the necessary services of the facility.
3. Provisions shall be made for preventive maintenance and an acceptable quality control program covering all types of analyses performed by the laboratory. Documentation will be maintained.
4. Written policies and procedures shall be developed and approved for all services provided by the laboratory.
5. When tissue removed in surgery is examined by a pathologist, either macroscopically or microscopically, as determined by the treating physician and the pathologist, the pathology report shall be made a part of the patient's record.
6. Arrangements shall be made for immediate pathological examinations, when appropriate.
7. The laboratory must provide pathologists' services, as necessary.

Subchapter 28 LEVEL II ABORTION FACILITY ENVIRONMENT : PATIENT AREAS

Rule 44.28.1 Treatment Facilities.

1. **Examination Room(s).** Rooms for examination shall have a minimum floor area of 80 square feet, excluding vestibules, toilets, and closets. Room arrangement should permit at least 2 feet 8 inches clearance at each side and at the foot of the examination table. A hand-washing fixture shall be provided.
2. **Procedure Room.** Procedure rooms shall have a minimum floor area of 120 square feet, excluding vestibule, toilet, and closets. The minimum room dimension shall be 10 feet. A scrub sink with knee, elbow, wrist, or foot control, soap dispenser, and single service towel dispenser will be available. All finishes shall be capable of repeated cleaning.
3. **Recovery Room.** One or more recovery rooms containing sufficient beds for recovering patient shall be provided. Reclining type vinyl upholstered chairs may be substituted in lieu of beds. Direct visual observation of the patients shall be possible from a central vantage point, yet patients shall have a reasonable amount of privacy.
4. **Clean Workroom.** A clean workroom shall be provided sufficient in size to process and store clean and sterile supply material and equipment, and must contain a work counter and sink. A system for sterilizing equipment shall be provided. Sterilizing procedures may be done on or off site, or disposables may be used to satisfy functional needs.
5. **Soiled Workroom.** A separate soiled workroom is not required; however, facilities shall be provided for closed clean storage which prevents contamination by soiled materials and for storage and handling of soiled linens and other soiled materials.
6. **Toilets.** At least one toilet and lavatory with soap dispenser and towel dispenser shall be provided in the recovery room area. Recovering patients shall have easy access to toilet facilities. Toilet facilities shall be provided at no less than one water closet and lavatory per ten recovery beds.
7. **Housekeeping Room.** At least one housekeeping room or closet shall be provided. It shall contain a service sink and storage for housekeeping supplies and equipment.
8. **The examination room, procedure room, and recovery room** may be combined, provided that the combined room meets the requirements of Paragraphs 1, 2 and 3.

**Subchapter 4 CLASSIFICATION OF INSTITUTIONS FOR THE AGED OR INFIRM
AS NURSING FACILITY: NURSING FACILITY**

Rule 45.4.1 **Nursing Facility.** To be classified as a facility, the institution shall comply with the following staffing requirements:

1. Minimum requirements for nursing staff shall be based on the ratio of two and eight-tenths (2.80) hours of direct nursing care per resident per twenty-four (24) hours. Staffing requirements are based upon resident census. Based upon the physical layout of the nursing facility, the licensing agency may increase the nursing care per resident ratio.
2. Each facility shall have the following licensed personnel as a minimum:
 - a. Seven (7) day coverage on the day shift by a registered nurse.
 - b. A registered nurse designated as the Director of Nursing Services, who shall be employed on a full time (five [5] days per week) basis on the day shift and be responsible for all nursing services in the facility.
 - c. Facilities of one-hundred eighty (180) beds or more shall have an assistant director of nursing services, who shall be a registered nurse.
 - d. A registered nurse or licensed practical nurse shall serve as a charge nurse and be responsible for supervision of the total nursing activities in the facility during the 7:00 a.m. to 3:00 p.m. and 3:00 p.m. to 11:00 p.m. shift. The nurse assigned to the unit for the 11:00 p.m. to 7:00 a.m. shift may serve as both the charge nurse and medication/treatment nurse. A medication/treatment nurse for each nurses' station shall be required on all shifts. This shall be a registered nurse or licensed practical nurse.
 - e. In facilities with sixty (60) beds or less, the director of nursing services may serve as charge nurse.
 - f. In facilities with more than sixty (60) beds, the charge nurse may not be the director of nursing services or the medication/treatment nurse.

- g. For facilities providing care to ventilator dependent patients/residents, the facility shall provide, on a twenty-four hour basis, an adequate number of registered nurses and respiratory therapist(s) who are trained and competent to take care of a ventilator dependent patient. Such training and the competency evaluation must be conducted by a respiratory therapist or a pulmonologist and records of said training maintained by the facility.
3. Non-Licensed Staff. The non-licensed staff shall be added to the total licensed staff, to complete the required staffing requirements.
4. There shall be at least two (2) employees in the facility at all times in the event of an emergency.

Subchapter 9 PROVISION FOR HEARING AND APPEAL FOLLOWING DENIAL OR REVOCATION OF LICENSE; PENALTIES

Rule 45.9.1 Administrative Decision. The licensing agency will provide an opportunity for a fair hearing to every applicant or licensee who is dissatisfied with administrative decisions made in the denial or revocation of a license, or who qualifies pursuant to Subchapter 8 to appeal from an adverse determination in an informal dispute resolution proceeding.

1. The licensing agency shall notify the applicant or licensee by certified mail or personal service the particular reasons for the proposed denial or revocation of license, or of the findings in the informal dispute resolution proceeding. Upon written request of applicant or licensee within ten (10) days of the date of notification the licensing agency shall fix a date not less than thirty (30) days from the date of such service at which time the applicant or licensee shall be given an opportunity for a prompt and fair hearing.
2. On the basis of such hearing or upon default of the applicant or licensee, the licensing agency shall make a determination specifying its findings of fact and conclusions of law. A copy of such determination shall be sent by registered mail to the last known address of the applicant or licensee or served personally upon the applicant or licensee.
3. The decision revoking, suspending, denying the application or license, or upholding the findings of the informal dispute resolution proceeding shall become final thirty (30) days after it is so mailed or served upon the applicant or licensee; however in matters involving the revocation, suspension, or denial of an application or license, or an enforcement action, the applicant or licensee may within such thirty (30) day period, appeal the decision to the Chancery Court pursuant to §43-11-23 of the Mississippi Code of 1972, as amended. An additional period of time may be granted at the discretion of the licensing agency.

Rule 45.16.3

1. **Employee.** For the purpose of fingerprinting and criminal background history checks, employee shall mean any individual employed by a covered entity. The term employee”, also includes any individual who by contract with the covered entity provides direct patient care in a patient’s, resident’s, or client’s room or in treatment rooms. The term “employee” does not include healthcare professional/technical students, as defined in Section 37-29-232, performing clinical training in a licensed entity under contracts between their schools and the licensed entity, and does not include students at high schools who observe the treatment and care of patients in a licensed entity as part of the requirements of an allied health course taught in the school if:
 - A. The student is under the supervision of a licensed healthcare provider;
 - B. The student has signed the affidavit that is on file at the student’s school stating that he or she has not been convicted of or plead guilty or nolo contendere to a felony of possession or sale of drugs, murder, manslaughter, armed robbery, rape, sexual battery, any sex offenses listed in section 45-33-23 (g), child abuse, arson, grand larceny, burglary, gratification of lust, aggravated assault, or felonious abuse and/or battery of a vulnerable adult, or that any such conviction or plea was reversed on appeal or a pardon was granted for the conviction or plea; and

- C. Further, applicants and employees of the University of Mississippi Medical Center for whom criminal history record checks and fingerprinting are obtained in accordance with Section 37-115-41 are exempt from application of the term employee under Section 43-11-13.
2. **Covered Entity.** For the purpose of criminal history record checks, “covered entity” means a licensed entity or a healthcare professional staffing agency.
 3. **Licensed Entity.** For the purpose of criminal history record checks, the term “licensed entity” means a hospital, nursing home, personal care home, home health agency or hospice.
 4. **Health Care Professional/Vocational Technical Academic Program.** For the purpose of criminal history record checks, “health care professional/vocational technical academic program” means an academic program in medicine, nursing, dentistry, occupational therapy, physical therapy, social services, speech therapy, or other allied-health professional whose purpose is to prepare professionals to render patient care services.
 5. **Health Care Professional/Vocational Technical Student.** For purposes of criminal history record checks, the term means a student enrolled in a healthcare professional/vocational technical academic program.
 6. **Direct Patient Care or Services.** For purposes of fingerprinting and criminal background history checks, the term “direct patient care” means direct hands-on medical patient care and services provided by an individual in a patient’s, resident’s or client’s room, treatment room or recovery room. Individuals providing direct patient care may be directly employed by the facility or provides patient care on a contractual basis.
 7. **Documented Disciplinary Action.** For the purpose of fingerprinting and criminal background history checks, the term “documented disciplinary action” means any action taken against an employee for abuse or neglect of a patient.
 8. Pursuant to Section 43-11-13, Mississippi Code of 1972, the covered entity shall require to be performed a disciplinary check with the professional

licensing agency, if any, for each employee to determine if any disciplinary action has been taken against the employee by the agency, and a criminal history record check on:

- A. Every new employee of a covered entity who provides direct patient care or services; and
 - B. Any individual seeking new employment with a covered entity whose initial criminal history record check is over two years.
9. Except as otherwise provided in this paragraph, no employee hired on or after July 01, 2003, shall be permitted to provide direct patient care until the results of the criminal history record check revealed no disqualifying record or the employee has been granted a waiver. Provided the covered entity has documented evidence of submission of fingerprints for the background check, any person may be employed and provide direct patient care on a temporary basis pending the results of the criminal history record check but any employment offer, contract, or arrangement with the person shall be voidable, if he/she receives a disqualifying criminal record check and no waiver is granted.
10. If such criminal history record check discloses a felony conviction; a guilty plea; and/or a plea of nolo contendere to a felony for one (1) or more of the following crimes which has not been reversed on appeal, or for which a pardon has not been granted, the applicant/employee shall not be eligible to be employed at the licensed facility:
- A. possession or sale of drugs
 - B. murder
 - C. manslaughter
 - D. armed robbery
 - E. rape

F. sexual battery

G. sex offense listed in Section 45-33-23(g), Mississippi Code of 1972

H. child abuse

I. arson

J. grand larceny

K. burglary

L. gratification of lust

M. aggravated assault

N. felonious abuse and/or battery of vulnerable adult

11. Documentation of verification of the employee's disciplinary status, if any, with the employee's professional licensing agency as applicable, and evidence of submission of the employee's fingerprints to the licensing agency must be on file and maintained by the facility prior to the new employees first date of employment. The covered entity shall maintain on file evidence of verification of the employee's disciplinary status from any applicable professional licensing agency and of submission and/or completion of the criminal record check, the signed affidavit, if applicable, and/or a copy of the referenced notarized letter addressing the individual's suitability for such employment.

12. Pursuant to Section 43-11-13, Mississippi Code of 1972, the licensing agency shall require every employee of a covered entity employed prior to July 01, 2003, to sign an affidavit stating that he or she does not have a criminal history as outlined in paragraph (3) above.

13. From and after December 31, 2003, no employee of a covered entity hired before July 01, 2003, shall be permitted to provide direct patient care unless the employee has signed an affidavit as required by this section. The covered entity shall place the affidavit in the employee's personnel

file as proof of compliance with this section.

14. If a person signs the affidavit required by this section, and it is later determined that the person actually had been convicted of or pleaded guilty or *nolo contendere* to any of the offenses listed herein, and the conviction or pleas has not been reversed on appeal or a pardon has not been granted for the conviction or plea, the person is guilty of perjury as set out in Section 43-11-13, Mississippi Code of 1972. The covered entity shall immediately institute termination proceedings against the employee pursuant to the facility's policies and procedures.
15. The covered entity may, in its discretion, allow any employee unable to sign the affidavit required by paragraph (7) of this subsection or any employee applicant aggrieved by the employment decision under this subsection to appear before the covered entity's hiring officer, or his or her designee, to show mitigating circumstances that may exist and allow the employee or employee applicant to be employed at the covered entity. The covered entity, upon report and recommendation of the hiring officer, may grant waivers for those mitigating circumstances, which shall include, but not be limited to: (1) age at which the crime was committed; (2) circumstances surrounding the crime; (3) length of time since the conviction and criminal history since the conviction; (4) work history; (5) current employment and character references; and (6) other evidence demonstrating the ability of the individual does not pose a threat to the health or safety of the patients in the licensed facility.
16. The licensing agency may charge the covered entity submitting the fingerprints a fee not to exceed Fifty Dollars (\$50.00).
17. Should results of an employee applicant's criminal history record check reveal no disqualifying event, then the covered entity shall, within two (2) weeks of the notification of no disqualifying event, provide the employee applicant with a notarized letter signed by the chief executive officer of the covered entity, or his or her authorized designee, confirming the employee applicant's suitability for employment based on his or her criminal history record check. An employee applicant may use that letter for a period of two (2) years from the date of the letter to seek employment at any covered entity licensed by the Mississippi State Department of Health without the necessity of an additional criminal record check. Any covered entity presented with the letter may rely on the letter with respect to an employee applicant's criminal background and is not required for a period of two (2)

years from the date of the letter to conduct or have conducted a criminal history check as required in this subsection.

18. For individuals contacted through a third party who provide direct patient care as defined herein, the covered entity shall require proof of a criminal history record check.
19. Pursuant to Section 43-11-13, Mississippi Code of 1972, the licensing agency, the covered entity, and their agents, officer, employees, attorneys, and representatives, shall be presumed to be acting in good faith for any employment decision or action taken under this section. The presumption of good faith may be overcome by a preponderance of the evidence in any civil action. No licensing agency, covered entity, nor their agents, officers, employees, attorneys, and representatives shall be held liable in any employment discrimination suit in which an allegation of discrimination is made regarding an employment decision authorized under this section.

Rule 45.16.5 **Testing for Tuberculosis**

1. Each employee, upon employment of a licensed entity and prior to contact with any patient/client, shall be evaluated for tuberculosis by one of the following methods:
 - a. IGRA (blood test) and an evaluation of the individual for signs and symptoms of tuberculosis by medical personnel; or
 - b. A two-step Mantoux tuberculin skin test administered and read by a licensed medical/nursing person certified in the techniques of tuberculin testing **and** an evaluation of the individual for signs and symptoms of tuberculosis by a licensed Physician, Physician's Assistant, Nurse Practitioner or a Registered Nurse.
2. The IGRA/Mantoux testing and the evaluation of signs/symptoms may be

administered/conducted on the date of hire or administered/read no more than 30 days prior to the individual's date of hire; however, the individual must not be allowed contact with a patient or work in areas of the RBIR where patients have access until receipt of the results of the IGRA/assessment or at least the first of the two-step Mantoux test has been administered/read and assessment for the signs and symptoms completed.

3. If the Mantoux test is administered, results must be documented in millimeters. Documentation of the IGRA/TB skin test results and assessment must be documented in accordance with accepted standards of medical/nursing practice and must be placed in the individual's personnel file no later than 7 days of the individual's date of employment. If an IGRA is performed, results and quantitative values must be documented.
4. Any employee noted to have a newly positive IGRA, a newly positive Mantoux skin test or signs/symptoms indicative of tuberculin disease (TB) that last longer than three weeks (regardless of the size of the skin test or results of the IGRA), shall have a chest x-ray interpreted by a board certified Radiologist and be evaluated for active tuberculosis by a licensed physician within 72 hours. The employee shall not be allowed to work in any area where clients have routine access until evaluated by a physician/nurse practitioner/physician assistant and approved to return. Exceptions to this requirement may be made if the employee is asymptomatic and:
 - a. The individual is currently receiving or can provide documentation of having received a course of tuberculosis prophylactic therapy approved by the Mississippi State Department of Health (MSDH) Tuberculosis Program for tuberculosis infection, or
 - b. The individual is currently receiving or can provide documentation of having received a course of multi-drug chemotherapy approved by the MSDH Tuberculosis Program; or
 - c. The individual has a documented previous significant tuberculin skin reaction or IGRA reaction.
5. For individuals noted to have a previous positive to either Mantoux testing or the IGRA, annual re-evaluation for the signs and symptoms must be conducted and must be maintained as part of the employee's annual health screening. A follow-up annual chest x-ray is NOT required unless symptoms of active tuberculosis develop.
6. If using the Mantoux method, employees with a negative tuberculin skin test and a negative symptom assessment shall have the second step of the two- step Mantoux tuberculin skin test performed and documented in the

employees' personal record within fourteen (14) days of employment.

7. The IGRA or the two-step protocol is to be used for each employee who has not been previously skin tested and/or for whom a negative test cannot be documented within the past 12 months. If the employer has documentation that the employee has had a negative TB skin test within the past 12 months, a single test performed thirty (30) days prior to employment or immediately upon hire will fulfill the two-step requirements. As above, the employee shall not have contact with clients or be allowed to work in areas of the RBIR to which clients have routine access prior to reading the skin test, completing a signs and symptoms assessment and documenting the results and findings.
8. Facilities shall comply with recommendations from the Centers for Disease Control and/or the Mississippi State Department of Health regarding baseline employee TB testing and routine serial employee TB testing and education. Staff exposed to an active infectious case of tuberculosis shall be treated as contacts and be managed appropriately. Individuals found to have a significant Mantoux tuberculin skin test reaction and a chest x-ray not suggestive of active tuberculosis, shall be evaluated by a physician or nurse practitioner/physician assistant for treatment of latent tuberculin infection.

Subchapter 17 RESIDENTS RIGHTS

Rule 45.17.1 General. The facility shall maintain written policies and procedures regarding the rights and responsibilities of residents. These written policies and procedures shall be established in consultation with residents or responsible parties. Written

policies and procedures regarding residents' rights shall be made available to residents or their guardian, next of kin, sponsoring agency or agencies, or lawful representative and to the public. There shall be documented evidence that the staff of the facility is trained and involved in the implementation of these policies and procedures. In-service on residents' rights and responsibilities shall be conducted annually. These rights and responsibilities shall be posted throughout the facility for the benefit of all staff and residents.

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.17.2 Residents' Rights. The residents' rights policies and procedures ensure that each resident admitted to the facility:

1. is fully informed, as evidenced by the resident's written acknowledgment, prior to or at the time of admission and during stay, of these rights and is given a statement of the facility's rules and regulations and an explanation of the resident's responsibility to obey all reasonable regulations of the facility and to respect the personal rights and private property of other residents;
2. is fully informed, and is given a written statement prior to or at time of admission and during stay, of services available in the facility, and of related charges including any charges for services covered by the facility's basic per diem rate;
3. is assured of adequate and appropriate medical care, is fully informed by a physician or nurse practitioner/physician assistant of his medical conditions unless medically contraindicated (as documented by a physician or nurse practitioner/physician assistant in his medical record), is afforded the opportunity to participate in the planning of his medical treatment, to not be limited in his/her choice of a pharmacy or pharmacist provider in accordance with state law, as referenced in House Bill 1439, which states that the facility shall not limit a resident's choice of pharmacy or pharmacy provider if that provider meets the same standards of dispensing guidelines required of long term care facilities, to refuse to participate in experimental research, and to refuse medication and treatment after fully informed of and understanding the consequences of such action;
4. is transferred or discharged only for medical reasons, or for his welfare or that of other residents, or for nonpayment for his stay (except as prohibited by sources of third-party payment), and is given a two weeks advance notice in writing to ensure orderly transfer or discharge. A copy of this notice is maintained in his medical record;
5. is encouraged and assisted, throughout his period of stay, to exercise his rights as a resident and as a citizen, and to this end may voice grievances, has a right of action for damages or other relief for deprivations or infringements of his right to adequate and proper treatment and care established by an applicable statute, rule, regulation or contract, and to recommend changes in policies and services to

facility staff and/or to outside representatives of his choice, free from restraint, interference, coercion, discrimination, or reprisal;

6. may manage his personal financial affairs, or is given at least a quarterly accounting of financial transactions made on his behalf should the facility accept his written delegation of this responsibility to the facility for any period of time in conformance with State law;
7. is free from mental and physical abuse;
8. is free from restraint except by order of a physician or nurse practitioner/physician assistant, or unless it is determined that the resident is a threat to himself or to others. Physical and chemical restraints shall be used for medical conditions that warrant the use of a restraint. Restraint is not to be used for discipline or staff convenience. The facility must have policies and procedures addressing the use and monitoring of restraint. A physician order for restraint must be countersigned within 24 hours of the emergency application of the restraint;
9. is assured security in storing personal possessions and confidential treatment of his personal and medical records, and may approve or refuse their release to any individual outside the facility, except, in the case of his transfer to another health care institution, or as required by law of third-party payment contract;
10. is treated with consideration, respect, and full recognition of his dignity and individuality, including privacy in treatment and in care for his personal needs;
11. is not required to perform services for the facility that are not included for therapeutic purposes in his plan of care;
12. may associate and communicate privately with persons of his choice, may join with other residents or individuals within or outside of the facility to work for improvements in resident care, and send and receive his personal mail unopened, unless medically contraindicated (as documented by his physician or nurse practitioner/physician assistant in his medical record);
13. may meet with, and participate in activities of, social, religious and community groups at his discretion, unless medically contraindicated (as documented by his physician or nurse practitioner/physician assistant in his medical record);
14. may retain and use his personal clothing and possessions as space permits, unless to do so would infringe upon rights of other residents, unless medically contraindicated (as documented by his physician or nurse practitioner/physician assistant in his medical record);
15. if married, is assured privacy for visits by his/her spouse; if both are inpatients in the facility, they are permitted to share a room, unless medically contraindicated (as documented by the attending physician or nurse practitioner/physician assistant in the medical record); and

16. is assured of exercising his civil and religious liberties including the right to independent personal decisions and knowledge of available choice. The facility shall encourage and assist in the fullest exercise of these rights.

Rule 45.20.2 Tuberculosis (TB). Admission Requirements to Rule Out Active Tuberculosis (TB)

1. The following are to be performed and documented within 30 days prior to the resident's admission to the "Licensed facility":
 - a. TB signs and symptoms assessment by a licensed Physician, Physician's Assistant or a Licensed Nurse Practitioner, and
 - b. A chest x-ray taken and a written interpretation.
2. Admission to the facility shall be based on the results of the required tests as follows:
 - a. **Residents with an abnormal chest x-ray and/or signs and symptoms assessment** shall have the first step of a two-step Mantoux tuberculin skin test (TST) placed and read by certified personnel OR an IGRA (blood test) drawn and results documented within 30 days prior to the patient's admission to the "Licensed facility". Evaluation for active TB shall be at the recommendation of the MSDH and shall be prior to admission. If TB is ruled out and the first step of the TST is negative, the second step of the two-step TST shall be completed and documented within 10-21 days of admission. TST administration and reading **shall** be done by certified personnel. If an IGRA (blood test) is done, TST (first and/or second step) is not done.
 - b. **Residents with a normal chest x-ray and no signs or symptoms of TB** shall have a baseline IGRA test (blood test) OR a TST performed with the initial step of a the two-step Mantoux TST placed on or within 30 days prior to the

day of admission. IF TST is done, the second step shall be completed within 10-21 days of the first step. TST administration and reading shall be done by certified personnel. If an IGRA (blood test) is done, a TST is not done (first or second step).

- c. **Residents with a significant TST OR positive IGRA** (blood test) upon baseline testing or who have documented **prior significant TST** shall be monitored regularly for signs and symptoms of active TB (cough, sputum production, chest pain, fever, weight loss, or night sweats, especially if the symptoms have lasted longer than three weeks) and if these symptoms develop, shall have an evaluation for TB per the recommendations of the MSDH within 72 hours.
- d. **Residents with a non significant TST** or negative IGRA (blood test) upon baseline testing shall have an annual tuberculosis testing within thirty (30) days of the anniversary of their last test. Note: Once IGRA testing is used, IGRA testing should continue to be used rather than TST testing.
- e. **Residents with a new significant TST or newly positive IGRA** (blood test) on annual testing shall be evaluated for active TB by a nurse practitioner or physician or physician's assistant.
- f. **Active or suspected Active TB Admission.** If a resident has or is suspected to have active TB, prior written approval for admission to the facility is required from the MSDH TB State Medical Consultant.
- g. **Exceptions to TST/ IGRA requirement may be made if:**
 - i. Resident has prior documentation of a significant TST/ positive IGRA.
 - ii. Resident has received or is receiving a MSDH approved treatment regimen for latent TB infection or for active TB disease.
 - iii. Resident is excluded by a physician, nurse practitioner/physician assistant due to medical contraindications.

In facilities with twenty five (25) beds to sixty (60) beds, a minimum of ten (10) square feet per bed shall be provided. In facilities with sixty-one (61) to eighty (80) beds, a minimum of six (6) square feet per bed shall be provided for each bed over sixty (60) in the home. In facilities with eighty-one (81) to one hundred (100) beds, a minimum of five (5) square feet per bed shall be provided for each bed over eighty (80). In facilities with more than one hundred (100) beds proportionate space approved by the licensing agency shall be provided. Also, the kitchen shall be of such size and dimensions in order to:

- a. Permit orderly and sanitary handling and processing of food.
- b. Avoid overcrowding and congestion of operations.
- c. Provide at least three (3) feet between working areas and wider if space is used as a passageway.
- d. Provide a ceiling height of at least eight (8) feet.

2. **Equipment.** Minimum equipment in kitchen shall include:

- a. Range and cooking equipment. Facilities with more than twenty-four (24) beds shall have institutional type ranges, ovens, steam cookers, fryers, etc., in appropriate sizes and number to meet the food preparation needs of the facility. The cooking equipment shall be equipped with a hood vented to the outside as appropriate.
- b. Refrigerator and Freezers. Facilities with more than twenty-four (24) beds shall have sufficient commercial or institutional type refrigeration/freezer units to meet the storage needs of the facility.

- c. Bulletin Board.
- d. Clock.
- e. Cook's table.
- f. Counter or table for tray set-up.
- g. Cans garbage (heavy plastic or galvanized).
- h. Lavatories, hand washing; conveniently located throughout the department.
- i. Pots, pans, silverware, dishes, and glassware in sufficient numbers with storage space for each.
- j. Pot and Pan Sink. A three compartment sink shall be provided for cleaning pots and pans. Each compartment shall be a minimum of twenty-four (24) inches by twenty (24) inches by sixteen (16) inches. A drain board of approximately thirty (30) inches shall be provided at each end of the sink, one to be used for stacking soiled utensils and the other for draining clean utensils.
- k. Food Preparation Sink. A double compartment food preparation sink shall provide for washing vegetables and other foods. A drain board shall be provided at each end of the sink.
- l. Ice Machine. At least one ice machine shall be provided. If there is only one (1) ice machine in the facility it shall be located adjacent to but not in the kitchen. If there is an ice machine located at nursing station, then ice machine for dietary shall be located in the kitchen.
- m. Office. An office shall be provided near the kitchen for the use of the food service supervisor. As a minimum, the space provided shall be adequate for a desk, two chairs and a filing cabinet.
- n. Coffee Tea and Milk Dispenser. (Milk dispenser not required if milk is served in individual cartons).
- o. Tray assembly line equipment with tables, hot food tables, tray slide, etc.
- p. Ice Cream Storage.
- q. Mixer. Institutional type mixer of appropriate size for facility.
- r. Food Processor.

Rule 45.32.3 Dishwashing. Commercial or institutional type dishwashing equipment shall be provided in homes with more than twenty-four (24) beds. The dishwashing area

shall be separated from the food preparation area. If sanitizing is to be accomplished by hot water, a minimum temperature of one hundred eighty (180) degrees Fahrenheit shall be maintained during the rinsing cycle. An alternate method of sanitizing through use of chemicals may be provided if sanitizing standards of the Mississippi State Department of Health Food Code Regulations are observed. Adequate counter-space for stacking soiled dishes shall be provided in the dishwashing area at the most convenient place of entry from the dining room, followed by a disposer with can storage under the counter. There shall be a pre-rinse sink, then the dishwasher and finally a counter or drain for clean dishes.

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.32.4 Food Storage. A food-storage room with cross ventilation shall be provided. Adequate shelving, bins, and heavy plastic or galvanized cans shall be provided. The storeroom shall be of such construction as to prevent the invasion of rodents and insects, the seepage of dust and water leakage, or any other source of contamination. The food-storage room should be adjacent to the kitchen and convenient to the receiving area. The minimum area for a food-storage room shall equal two and one-half (2 1/2) square feet per bed and the width of the aisle shall be a minimum of three (3) feet.

Subchapter 33 SANITATION AND MEDICAL WASTE: SANITATION

Rule 45.33.1 Water Supply.

1. If at all possible, all water shall be obtained from a public water supply. If not possible to obtain water from a public water supply source, the private water supply shall meet the approval of the local county health department and/or the Mississippi State Department of Health.
2. Water under pressure sufficient to operate fixtures at the highest point during maximum demand periods shall be provided. Water under pressure of at least fifteen (15) pounds per square inch shall be piped to all sinks, toilets, lavatories, tubs, showers, and other fixtures requiring water.
3. It is recommended that the water supply into the facility can be obtained from two (2) separate water lines if possible.
4. A dual hot water supply shall be provided. The temperature of hot water to lavatories and bathing facilities shall not exceed one hundred fifteen (115) degrees Fahrenheit, nor shall hot water be less than one hundred (100) degrees Fahrenheit.
5. Each facility shall have a written agreement for an alternate source of potable water in the event of a disruption of the normal water supply.

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.33.2 Disposal of Liquid and Human Wastes.

1. There shall be installed within the facility a properly designed waste disposal system connecting to all fixtures to which water under pressure is piped.
2. All liquid and human waste, including floor-wash water and liquid waste from refrigerators, shall be disposed of through trapped drains into a public sewer system where such system is available.
3. In localities where a public sanitary sewer is not available, liquid and human waste shall be disposed of through trapped drains into sewerage disposal system approved by the local county health department and/or the Mississippi State Department of Health. The sewerage disposal system shall be of a size and capacity based on the number of residents and personnel housed and employed in the facility. Where the sewerage disposal system is installed prior to the opening of the facility, it shall be assumed, unless proven otherwise, that the system was designed for ten (10) or fewer persons.

Subchapter 38 PHYSICAL PLANT: GENERAL

Rule 45.38.1 Building Classification.

1. To qualify for a license, the facility shall be planned to serve the type of patients to be admitted and shall comply with the following:
 - a. All facilities constructed after the effective date of these regulations shall comply with the building requirements set forth in the regulations.
 - b. After the effective date of these regulations, all additions to facilities shall comply with the building requirements for a license. Approval shall not be granted for an addition to an existing building which will increase the bed capacity unless the existing structure is basically sound and is to be brought into a condition of acceptable conformity with the current regulations.
 - c. Authority to Waiver. The licensing agency may waive certain requirements in the regulations at its discretion for facilities licensed as a facility in a state-owned and state-operated mental institution provided the health and safety of residents will not be endangered.
2. Renovations within the exterior walls of a facility shall in no case be of such nature as to lower the character of the structure below the applicable building requirements for the type of license held by the facility.

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.38.2 **Location.** All facilities established or constructed after the adoption of these regulations shall be located so that they are free from undue noise, smoke, dust, or foul odors and shall not be located adjacent to disposal plants, cemeteries, main line railroads, funeral home, airport, etc.

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.38.3 **Site.** The proposed site for a facility must be approved by the licensing agency. Factors to be considered in approving a site in addition to the above may be convenience to medical and hospital services, approved water supply and sewerage disposal, public transportation, community services, services of an organized fire department, an availability to labor supply. Not more than one-third (1/3) of a site shall be covered by a building(s) except by special approval of the licensing agency. One example whereby approval may be granted is where the structure is to be placed in a very desirable location where the grounds are

limited and very expensive. Where such approval is granted, the structure will be required to have a living room, day room, sun room, and recreational areas adequate to compensate for lack of required outside area.

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.38.4 **Local Restrictions.** The site and structure of all facilities shall comply with local building, fire and zoning ordinances. Evidence to this effect signed by local building, fire, and zoning officials shall be presented.

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.38.5 **Transportation.** Facilities shall be located on streets or roads which have all weather surface. They should be located convenient to public transportation facilities.

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.38.6 **Communication.** There shall be not less than one telephone in the home and such additional telephones as are necessary to summon help in event of fire or other emergency. The telephone shall be listed under the official licensed name or title of the home.

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.38.7 **Occupancy.** No part of the facility may be rented, leased, or used for any commercial purpose not related to the operation of the home.

Subchapter 39 SUBMISSION OF PLANS AND SPECIFICATIONS

Rule 45.39.1 **New Construction, Additions, and Renovations.** When construction is contemplated either for new buildings, conversions, additions, or alterations to existing buildings, one set of plans and specifications shall be submitted to the licensing agency for review and approval. The submission shall be made in not less than two stages preliminary and final. Floor plans shall be drawn to scale of

one-eighth (1/8) inch to equal one (1) foot or one-fourth (1/4) inch to equal one (1) foot.

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.39.2 Minor Alterations and Remodeling. Minor alterations and remodeling which do not affect the structural integrity of the building, change functional operation, affect fire safety, or add beds or facilities or those for which the facility is licensed do not need to have plans submitted for review provided that a detailed explanation of the proposed alteration or remodeling is submitted to and approved by the licensing agency.

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.39.3 First Stage Submission-Preliminary Plans.: First stage or preliminary plans shall include:

1. Plot plant showing size and shape of entire site; location of proposed building and any existing structure(s); adjacent streets, highways, sidewalks, railroads, etc., all properly designated; and size, characteristics, and location of all existing public utilities.
2. Floor plan showing over-all dimensions of building(s); location, size, and purpose of all rooms; location and size of all doors, windows, and other openings with swing of doors properly indicated; dimensions of all corridors and hallways; and location of stairs, elevators, dumbwaiters, vertical shafts, and chimneys.
 - a. Outline specifications giving kinds and types of materials.
 - b. A scaled drawing of one-fourth (1/4) inch to one (1) foot shall be submitted for the following areas: Kitchen, dishwashing area, nurses' station and utility room(s).

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.39.4 Final Stage Submission-Working Drawings and Specifications.: Final stage or working drawings and specifications shall include:

1. Architectural drawings
2. Structural drawings
3. Mechanical drawings to include plumbing, heat, and air-conditioning
4. Electrical drawings
5. Detailed specifications

6. Approval of working drawings and specifications shall be obtained from the licensing agency in writing prior to the beginning of actual construction.

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.39.5 **Preparation of Plans and Specifications.** The preparation of drawings and specifications shall be executed by or under the immediate supervision of an architect who shall supervise construction and furnish a signed statement that construction was performed according to plans and specifications approved by the licensing agency.

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.39.6 **Contract Modifications.** Any contract modification which affects or changes the function, design, or purpose of a facility shall be submitted to and approved by the licensing agency prior to the beginning of work set forth in any contract modification.

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.39.7 **Notification of Start of Construction.** The licensing agency shall be informed in writing at the time construction is begun.

Rule 45.42.5 **Informal Dispute Resolution.** Procedures set forth in Rule 45.24.1 provide facilities with one opportunity to dispute findings of licensure violations.

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.42.6 **Temporary Manager.** If a facility is designated as a substandard facility, the licensing agency may select a temporary manager in order to oversee correction of deficient practices cited as violations by the agency and assure the health and safety of the facility's residents while corrections are being made. A temporary manager may also be appointed to oversee the orderly closure of a facility. No temporary manager shall be appointed pursuant to these regulations unless the licensing agency finds Widespread Level-3 Severity deficiency or deficiencies pursuant to Rule 45.9.11 and Rule 45.9.12 or Isolated, Pattern, or Widespread Level-4 deficiency or deficiencies pursuant to Rule 45.9.10, Rule 45.9.11 and Rule 45.9.12. Temporary management shall not be imposed unless other less intrusive remedies will not result in compliance, or have failed to cause the facility to achieve compliance.

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.42.7 **State Monitor.** In lieu of a temporary manager, the licensing agency may appoint a state monitor to oversee the correction of cited deficiencies in a facility as a safeguard against further harm to residents, or when the potential for harm exists as a result of cited licensure violations at any level of severity or scope.

SOURCE: Miss. Code Ann. §43-11-13

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.42.9 **Substantial Compliance.** A level of compliance which does not entail the imposition of an enforcement remedy.

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.42.10 **Pattern.** Pattern is the scope of licensure violations when more than a limited number of residents are affected, and/or more than a limited number of staff are involved, and/or the situation has occurred in several locations, and/or the same resident(s) have been affected by repeated occurrences of the same deficient practice. The effect of the deficient practice is not found to be pervasive through the facility.

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.42.11 **Widespread.** Widespread is the scope of licensure violations when the problems causing the violations are pervasive in the facility and/or represent systemic failure that affected or has the potential to affect a large portion or all of the facility's residents.

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.42.12 **Severity.**

1. **Level 1** - Potential for causing no more than a minor negative impact on the resident(s).
2. **Level 2** - Noncompliance that results in minimal physical, mental, and/or psycho-social discomfort to the resident and/or has the potential (not yet realized) to compromise the resident's ability to maintain and/or reach his/her highest practicable physical, mental and/or psycho-social well-being as defined by an accurate and comprehensive resident assessment, plan of care, and provision of services.
3. **Level 3** - Noncompliance that results in a negative outcome that has compromised the resident's ability to maintain his/her highest practicable physical, mental and psycho-social well-being as defined by an accurate and comprehensive resident assessment, plan of care, and provision of services.
4. **Level 4** - Immediate jeopardy, a situation in which immediate corrective action is necessary because the facility's noncompliance with one or more requirements of participation has caused, or is likely to cause, serious injury, harm, impairment, or death to a resident receiving care in a facility.

Subchapter 45 TEMPORARY MANAGER

Rule 45.45.1. **Temporary Manager.** A temporary manager may be selected as a remedy when a facility has been determined as having immediate jeopardy or widespread actual harm that does not constitute immediate jeopardy in order to oversee the correction of deficient practices cited by the licensing agency and assure the health and safety of the facility's residents while the corrections are being made. A temporary manager may also be imposed to oversee orderly closure of a facility. Temporary management shall not be imposed unless other less intrusive remedies will not result in compliance, or have failed to cause the facility to achieve compliance.

Subchapter 49 PATTERN

Rule 45.49.1 Pattern is the scope of deficiencies when more than a limited number of residents are affected, and/or more than a limited number of staff are involved, and/or the situation has occurred in several locations, and/or the same resident(s) have been affected by repeated occurrences of the same deficient practice. The effect of the deficient practice is not found to be pervasive through the facility.

SOURCE: Miss. Code Ann. §43-11-13

Subchapter 50 WIDESPREAD

Rule 45.50.1 Widespread is the scope of deficiencies when the problems causing the deficiencies are pervasive in the facility and/or represent systemic failure that affected or has the potential to affect a large portion or all of the facility's residents.

SOURCE: Miss. Code Ann. §43-11-13

Subchapter 51 SEVERITY

1. **Level 1** - Potential for causing no more than a minor negative impact on the resident(s).
2. **Level 2** - Noncompliance that results in minimal physical, mental, and/or psycho-social discomfort to the resident and/or has the potential (not yet realized) to compromise the resident's ability to maintain and/or reach his/her highest practicable physical, mental and/or psycho-social well-being as defined by an accurate and comprehensive resident assessment, plan of care, and provision of services.
3. **Level 3** - Noncompliance that results in a negative outcome that has compromised the resident's ability to maintain his/her highest practicable physical, mental and psycho-social well-being as defined by an accurate and comprehensive resident assessment, plan of care, and provision of services.
4. **Level 4** - Immediate jeopardy, a situation in which immediate corrective action is necessary because the facility's noncompliance with one or more requirements of participation has caused, or is likely to cause, serious injury, harm, impairment, or death to a resident receiving care in a facility.

Subchapter 52 BAN ON ADMISSIONS PROCEDURE

Rule 45.52.1 **Ban on Admissions.** If a facility is found to be providing substandard quality of care or immediate jeopardy exists at a facility, as applicable, written notice of the determination shall be provided by the licensing agency to the facility, along with

the notification that a ban on all admissions is to be imposed five calendar (5) days after the receipt of the notice by the facility unless a hearing is requested within that five (5) calendar day period. If a hearing is requested by the facility, the informal dispute resolution procedures established under Rule 45.24.1 shall be applied.

1. If the licensing agency's determination of noncompliance with Substandard Quality of Care or Immediate Jeopardy on the day of the licensure visit/ survey is confirmed, a ban on all admissions shall be imposed until the facility achieves compliance and such compliance is verified by the licensing agency. The licensing agency will verify the facility's corrective actions as soon as possible after the licensing agency receives an allegation of compliance from the facility but no later than fifteen (15) days after the receipt of said notice. If the hearing determines that the facility was not providing Substandard Quality of Care or that Immediate Jeopardy did not exist, as applicable, on the day of the licensure/survey visit, no ban on all admissions will be imposed.

Subchapter 53 STATE MONITORING

Rule 45.53.1 State Monitoring. Monitors are identified by the licensing agency as appropriate professionals to monitor cited deficiencies. A monitor shall meet the guidelines regarding conflicts of interests as follows:

1. The monitor does not currently work, or, within the past two (2) years, has worked as an employee, as employment agency staff at the facility, or as an officer, consultant, or agent for the facility to be monitored.
2. The monitor has no financial interest or any ownership interest in the facility.
3. The monitor has no immediate family member who has a relationship with the facility to be monitored.
4. The monitor has no immediate family member who is a resident in the facility. If a facility has not achieved substantial compliance within five (5) months of the annual licensure visit/standard survey date, the remedy of state monitoring will be imposed as determined by the licensing agency.

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.53.2 Compensation and Per Diem Costs. All compensation and per diem costs of the State Monitor shall be paid by the facility. The licensing agency shall bill the facility for the costs of the State Monitor after termination of the monitoring services. The costs of the State Monitor for any weekly forty (40) hour period (forty [40] hours per week) shall not exceed the maximum allowable owner/administrator salary of a like sized facility as described in the Mississippi State Medicaid Plan. Within fifteen (15) days of receipt of the bill, the facility

shall pay the bill or request an informal dispute resolution procedure to contest the costs for which it was billed.

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.53.3 **Recommendation.** If the facility has not achieved substantial compliance within six (6) months from the annual survey date, the licensing agency shall revoke the license of the facility and if applicable shall recommend to the State Medicaid Agency termination of participation in the Medicare/Medicaid programs.

Subchapter 54 DIRECTED IN-SERVICE TRAINING

Rule 45.54.1 **Directed In-Service Training.** If the remedy of Directed In-Service Training is imposed by the licensing agency for a facility to achieve substantial compliance, guidelines for accepting Plans of Correction to the Statement of Deficiencies shall be as follows:

1. Corporate facilities and consultant firms may only use staff to conduct the directed in-service training when the staff person has not had a direct or indirect involvement in the deficient practice and does not conduct in-services on a routine basis.
2. Corporate facilities and consultant firms may use staff/consultants from other nursing homes of the corporation if that person has not been directly involved in routine in-services of the facility in question. Also, the staff/consultant is and has no history of involvement with a Substandard or Poor Performing Facility.
3. If hospital-owned facilities use hospital staff to conduct the in-service, the staff must not have been involved in the routine in-services and/or care of the residents.
4. All other facilities may use staff or consultants from other facilities if the other facility's staff/consultant is not/has not been involved in a facility that is a Substandard Facility or Poor Performer.
5. Nursing homes with individual private consultants may not use the contracted consultant when directed In-Service is imposed.

Subchapter 55 DIRECTED PLAN OF CORRECTION

Rule 45.55.1 **Directed Plan of Correction.** Directed Plan of Correction as defined under Rule 45.14.1 may be imposed as follows:

1. The facility will be provided one (1) opportunity to submit an acceptable Plan of Correction. If the licensing agency does not receive an acceptable plan of

correction, the licensing agency may impose one or more of the following remedies:

- a. Directed Plan of Correction;
- b. Revocation of State License; and/or
- c. Recommend termination of participation in the Medicaid/Medicare programs if applicable.

Subchapter 56 TEMPORARY MANAGEMENT

Rule 45.56.1 Recommendation for Appointment of Temporary Management. If the licensing agency recommends the appointment of a temporary manager, the recommendation shall specify the grounds upon which such recommendation is based, including an assessment of the capability of the facility's current management to achieve and maintain compliance with all Licensure and/or Certification requirements.

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.56.2 Notice of Imposition of Temporary Management. A temporary manager may be imposed fifteen (15) days after the facility receives notice of the recommendation from the licensing agency and two (2) days after a facility which is licensed and certified receives notice where a determination that immediate jeopardy exists has been made.

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.56.3 Conditions of Temporary Management. The facility's management must agree to relinquish control to the temporary manager and to pay his/her salary before the temporary manager can be installed in the facility.

1. The facility cannot retain final authority to approve changes of personnel or expenditures of facility funds and be considered to have relinquished control to the temporary manager.
2. The temporary manager must be given access to all facility bank accounts.
3. In certified facilities, where immediate jeopardy exists, if a facility refuses to relinquish control to the temporary manager, the facility will be terminated from participation in medicare/medicaid within twenty-three (23) calendar days of the last day of the survey visit if the immediate jeopardy is not removed.
4. The temporary manager's salary must be at least equivalent to the prevailing annual salary of nursing home administrators in the facility's geographic area, plus the

additional costs that would have reasonably been incurred by the provider if the temporary manager had been in an employment relationship (e.g., the cost of a benefits package, prorated for the amount of time that the temporary manager spends in the facility). The licensing agency is responsible for determining what a facility's geographic area is.

5. All compensation and per diem costs of the temporary manager shall be paid by the facility. The licensing agency shall bill the facility for the costs of the temporary manager after termination of temporary management. The costs of the temporary manager for any thirty (30) day period shall not exceed the maximum allowable owner/administrator salary of a like size facility as described in the Mississippi State Medicaid State Plan. Within fifteen (15) days of receipt of the bill, the facility shall pay the bill or request an informal dispute resolution procedure to contest the costs for which it was billed.

Rule 45.56.5 Eligibility of Temporary Manager. The following individuals are not eligible to serve as temporary managers:

1. Any individual who has been found guilty of misconduct by any licensing board or professional society in any State; or
 - a. Any individual who has, or whose immediate family members have, any financial interest in or pre-existing fiduciary duty to the facility to be managed. Indirect ownership interest, such as through a mutual fund, does not constitute financial interest for the purpose of this restriction; or
 - b. Any individual who currently serves or, within the past two (2) years, has served as a member of the staff of the facility or has a pre-existing fiduciary duty to the facility; or
 - c. Any individual who does not possess sufficient training, expertise, and experience in the operation of a nursing facility as would be necessary to achieve the objectives of temporary management; or
 - d. Any individual who at the time of the imposition of temporary management could stand to gain an unfair competitive advantage by being appointed as temporary manager of the facility.

Rule 45.56.8 **Authority and Powers Of the Temporary Manager.**

1. A temporary manager has the authority to direct and oversee the correction of the deficiencies/licensure violations; to oversee and direct the management, hiring, reassignment and/or discharge of any consultant or employee, including the administrator of the facility; to direct the expenditure of or obligate facility funds in a reasonable and prudent manner; to oversee the continuation of the business and the care of the residents; to oversee and direct those acts necessary to accomplish the goals of the licensure and/or certification requirements; to alter facility procedures; and to direct and oversee regular accountings and the provision of periodic reports to the licensing agency.
2. A temporary manager shall provide reports to the licensing agency by the fifteenth (15th) day of each month showing the facility's compliance status.
3. A temporary manager shall observe the confidentiality of the operating policies, procedures, employment practices, financial information, and all similar business information of the facility, except that the temporary manager shall make reports to the licensing agency as provided for in this section.
4. The temporary manager shall be liable for gross, willful or wanton negligence, intentional acts or omissions, unexplained shortfalls in the facility's funds, and breaches of fiduciary duty. The temporary manager shall be bonded in an amount equal to the facility's total revenues for the month preceding the appointment of the temporary manager.

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.56.9 **Authority of Temporary Manager.** The temporary manager shall not have the authority to do the following:

1. To cause or direct the facility or its owner to incur debt or to enter into any contract with a duration beyond the term of the temporary management of the facility;

2. To cause or direct the facility to encumber its assets or receivables, or the premises on which it is located, with any lien or other encumbrances;
3. To cause or direct the sale of the facility, its assets, or the premises on which it is located;
4. To cause or direct the facility to cancel or reduce its liability or casualty insurance coverage;
5. To cause or direct the facility to default upon any valid obligations previously undertaken by the owners or operators of the facility, including but not limited to, leases, mortgages, and security interests; and
6. To incur capital expenditures in excess of two-thousand dollars (\$2,000.00) without the permission of the owner of the facility and the licensing agency.

Rule 45.56.10 Duration of Temporary Manager. Temporary management shall continue until a license is revoked and or the facility is terminated from participation in the Medicare or Medicaid programs, or the facility achieves substantial compliance and is capable of remaining in substantial compliance. The licensing agency may replace any temporary manager whose performance, in the discretion of the licensing agency, is deemed unsatisfactory. No formal procedure is required for such removal or replacement but written notice of any action shall be given to the facility, including the name of any replacement manager.

1. A facility subject to temporary management may petition the licensing agency for replacement of a temporary whose performance it considers unsatisfactory. The licensing agency shall respond to a petition for replacement within three (3) business days after receipt of said petition.
2. Otherwise, the licensing agency shall not terminate temporary management until it has determined that the facility has the management capability to ensure continued compliance with all licensure and/or certification requirements or until the facilities license is revoked or the facility's participation in the medicare/medicaid program is terminated.

Subchapter 57 INFORMAL DISPUTE RESOLUTION

Rule 45.57.1 Informal Dispute Resolution.

1. The purpose of the informal dispute resolution (IDR) process is to comply with 42 CFR 488.331 by giving licensed facilities an additional opportunity to refute cited deficiencies/licensure violations after any survey, or after notification of billing issues in situations involving state monitors or temporary managers. The IDR is

not intended to be an evidentiary hearing since licensed facilities are afforded such at the federal level. Licensed facilities may not use the IDR to delay the formal imposition of remedies or to challenge any other aspect of the survey process, including:

- a. The scope and severity assessments of deficiencies with the exception of scope and severity assessments that constitute substandard quality of care or immediate jeopardy;
 - b. Remedies imposed by the licensing agency;
 - c. Alleged failure of the survey team to comply with a requirement of the survey process;
 - d. Alleged inconsistency of the survey team in citing deficiencies among facilities; and
 - e. Alleged inadequacy or inaccuracy of the informal dispute resolution process.
2. All requests for an IDR must follow the procedures set forth herein.
 3. All official statements of deficiencies/licensure violations requiring a response from the licensed facility, and billing statements for state monitors or temporary managers, shall be mailed by the licensing agency via certified mail, return receipt requested. Each official statement of deficiencies/licensure violations shall be accompanied by a copy of these Informal Dispute Resolution Procedure Regulations.
 4. The licensed facility shall notify the Division Director that it requests an IDR. The request shall be in writing and must be received in the office of the licensing agency no later than ten (10) calendar days after the licensed facility's receipt of the official statement of deficiencies/licensure violations or billing statement. The request shall specify which deficiencies/licensure violations or charges are disputed. The request shall also specify whether the licensed facility requests that the IDR be (1) in person; (2) via a telephone conference or by other electronic means (i.e., via video teleconference, if such service is available to all parties); or (3) by means of a written response to the official statements of deficiencies/licensure violations. The request must also designate a licensed facility representative for purposes of further communications regarding the IDR.
 5. Every IDR shall be conducted by the licensing agency. If the IDR will be conducted in person, it shall be conducted at offices designated by the licensing agency.
 6. The licensing agency shall notify the licensed facility representative by telephone or facsimile of the date, time, location, and format of the IDR. The IDR shall be held within ten (10) working days after the receipt by the licensing agency of the request. The IDR shall be conducted by a three (3) person panel, known as the

IDR Panel, consisting of a provider representative of the long term care community, a member of the medical community (physician or nurse practitioner/physician assistant), and a member of the Licensure staff who is SMQT qualified and who does not survey nor have supervisory capacity over the district of the related survey. In the event of a position vacancy, an alternate member may serve on the IDR panel as directed by the State Health Officer.

7. At the IDR, the licensed facility representative shall present any additional documentation or statements in support of its contention that a cited deficiency/licensure violation or billing charge may be incorrect. Additional employees of the licensed facility may participate in the IDR, including consultants utilized by the licensed facility as may be required by the regulations (i.e., dietary consultant, social work consultant, and others). Because the IDR is intended to be informal (1) IDR participants should be able to speak freely concerning deficiencies/licensure violations; (2) cross-examination of the IDR participants is not allowed, and (3) legal counsel for the licensed facility is not allowed to participate in the IDR.
8. The Bureau Director shall designate staff members from the survey/licensure visit team which performed the survey/licensure visit in question to attend the IDR and present any additional documentation or statements in support of the cited deficiency/licensure violation. In the case of billing disputes, the staff members who prepared the bill will present the any additional documentation or statements in support of the charges. Any other staff members as required and designated by the Bureau Director may attend the IDR.
9. At the conclusion of the IDR, a written report shall be prepared and forwarded to the Bureau Director, indicating the final determination regarding the validity of any disputed deficiencies/licensure violations. The decision of the IDR Panel regarding the disputed deficiencies/licensure violations shall be mailed, via certified mail, to the licensed facility representative within ten (10) calendar days of the conclusion of the IDR. Facilities which are licensed but not certified may appeal the decision of the IDR Panel regarding the disputed licensure violations if the violations are at a scope and severity level of G or above and enforcement remedies have been imposed by the licensing agency. The decision of the ICR Panel regarding the disputed deficiencies/licensure violations may be appealed pursuant to the administrative procedures outlined in Rule 45.10.1 of these regulations.
10. If the IDR Panel determines that a deficiency/licensure violation should not have been cited, the following steps shall be taken:
 - a. The official statement of deficiencies/licensure violations shall be marked “deleted,” signed, and dated by the branch manager for the district where the facility is located.

- b. A revised copy of the official survey/licensure violation form shall be issued to the licensed facility which shows the adjusted scope and severity assessment to reflect the outcome of the IDR.
 - c. Any enforcement action imposed solely on an incorrect deficiency/licensure violation citation shall be rescinded.
11. If the IDR Panel determines that any charges for state monitoring or temporary management are inaccurate or disallowed, a revised copy of the bill will be issued to the licensed facility.

SOURCE: Miss. Code Ann. §43-11-13

Rule 45.57.2 Effect of Informal Dispute Resolution Procedures on Corrective Plans and Enforcement Actions. A request for an IDR does not stay the obligation of the licensed facility to submit an acceptable Plan of Correction to the licensing agency within ten (10) calendar days of the licensed facility's receipt of the official statement of deficiencies. The licensing agency's failure to complete the IDR timely will not delay the effective date of any enforcement action against a licensed facility. A licensed facility may not seek a delay of any enforcement action against it on the grounds that an IDR has not been completed before the effective date of the enforcement. A licensed facility may not use this procedure to challenge any other aspect of the survey/licensure process, including but not limited to:

1. Classification of deficiencies (i.e., scope and severity of harm assessments);
2. Remedy imposed or recommended by the licensing agency;
3. Failure of the survey/licensure team to comply with the survey/licensure process;
4. Inconsistency of the survey/licensure team in citing deficiencies/licensure violations among facilities; or
5. Inadequacy or inaccuracy of the informal dispute resolution process.

Rule 45.57.3 Post Informal Dispute Resolution Survey Procedures. If a follow up survey/licensure visit is conducted regarding deficiencies/licensure violations which have been the subject of an informal dispute resolution procedure, and the follow-up survey/licensure visit indicates that the facility has not corrected the deficiencies/licensure violation which was the subject of the informal dispute resolution procedure, the facility shall not be entitled to another informal dispute resolution procedure hearing. However, if a follow-up survey is conducted and deficiencies are discovered which were not cited on the original official statement of deficiencies/licensure violations the facility is entitled to utilize the informal dispute resolution procedure with regard to any previously uncited deficiencies.

Subchapter 58 INFECTION CONTROL

Rule 45.58.1 The following infection control standards shall be met:

1. The facility must maintain and document an effective infection control program that protects patients, families, visitors, and facility personnel by preventing and controlling infections and communicable diseases.
2. The facility must have an active surveillance program that includes specific measures for prevention, early detection, control, education, and investigation of infections and communicable diseases in the facility. There must be a mechanism to evaluate the effectiveness of the program(s) and take corrective action when necessary. The program must include implementation of nationally recognized systems of infection control guidelines to avoid sources and transmission of infections and communicable diseases
3. The facility must follow accepted standards of practice to prevent the transmission of infections and communicable diseases, including the use of standard precautions.

CHAPTER 46 MINIMUM STANDARDS OF OPERATION FOR HOME HEALTH AGENCIES

Subchapter 1 GENERAL

Rule 46.1.1 **HOME HEALTH AGENCIES.** The following minimum standards of operation for home health agencies have been promulgated pursuant to Mississippi Code Annotated §41-71-1 through §41-71-19 (Supplement 1986), and are to be followed by persons operating a home health agency. They are minimum requirements that home health agencies will adopt new and improved methods and practices as they develop without waiting for improvements in the Standards. Regulatory in nature by necessity, they are designed to be educational in character and are intended to be reasonable and practicable. Laws and Standards are limited in what they can do in meeting the manifold health needs of individuals. Each home health agency bears a strong moral responsibility for providing the best possible care for the patients it serves.

SOURCE: Miss. Code Ann. §41-71-13

Subchapter 2 LEGAL AUTHORITY

Rule 46.2.1 **Adoption of Minimum Standards of Operation.** By virtue of authority vested in it by the Legislature of the State of Mississippi as per House bill #427 enacted

by the Regular 1981 Session of the Legislature of the State of Mississippi, as amended in 1986, the Mississippi Department of Health does hereby adopt and promulgate the following Minimum Standards of Operation for Home Health Agencies.

SOURCE: Miss. Code Ann. §41-71-13

Rule 46.2.2 Effective date of Minimum Standards of Operation for Home Health Agencies. The Mississippi Department of Health does hereby adopt these Minimum Standards of Operation for Home Health Services. These Minimum Standards of Operation are effective as of September 21, 1981. Any home health agency which is in operation on July 1, 1981, shall be given a reasonable time under the particular circumstances, not to exceed one (1) year from July 1, 1981, within which to comply with the provisions of the Mississippi Department of Health Act of 1979, as amended, and these Minimum Standards of Operation for Mississippi Home Health Agencies.

SOURCE: Miss. Code Ann. §41-71-13

Subchapter 3 DEFINITIONS. As used in these minimum standards, the words and terms hereinafter set forth, shall be defined as follows:

Rule 46.3.1 Administrator shall mean an individual who is delegated the responsibility for the interpretation, implementation, and proper application of policies and programs established by the governing authority and is delegated responsibility for the establishment of safe and effective administrative management, control, and operation of the services provided. This individual shall be one of the following:

1. An individual with a baccalaureate degree and at least one year of administrative experience in home health care or in a related health provider program, occurring within the last three (3) years;
2. An incumbent administrator as of July 1, 1981;
3. An individual with a minimum of three (3) years of administrative experience in a health related field, one year of which shall be full-time in a home health setting, occurring within the last three (3) years.

SOURCE: Miss. Code Ann. §41-71-13

Rule 46.3.2 Audiologist shall mean an individual who meets the educational and experience requirements for a Certificate of Clinical Competence granted by the American Speech and Hearing Association and is currently licensed as an audiologist in the State of Mississippi.

SOURCE: Miss. Code Ann. §41-71-13

Rule 46.3.3 **Branch Office** shall mean a location or site from which a home health agency provides services within a portion of the total geographic area served by the parent agency. The branch office is part of the home health agency and is located sufficiently close to share administration, supervision and services in a manner that renders it unnecessary to obtain a separate license as a home health agency. A branch office shall be staffed with at least one (1) registered nurse on a full-time basis.

SOURCE: Miss. Code Ann. §41-71-13

Rule 46.3.4 **Care Team** shall mean a group of individuals responsible for the development of each patient's care plan. The care team shall consist of, but not be limited to, the physician, podiatrist, nurse practitioners, physician assistants, clinical nurse specialists, and pertinent members of the agency staff, the patient and member of his/her family.

SOURCE: Miss. Code Ann. §41-71-13

Rule 46.19.2 **Medical Waste Management Plan.** All generators of infectious medical waste and medical waste shall have a medical waste management plan that shall include, but is not limited to, the following:

1. Storage and Containment of Infectious Medical Waste and Medical Waste
 - a. Containment of infectious medical waste and medical waste shall be in a manner and location which affords protection from animals, rain and wind, does not provide breeding place or a food source for insects and rodents, and minimizes exposure to the public.
 - b. Infectious medical waste shall be segregated from other waste at the point of origin in the producing facility.
 - c. Unless approved by the Mississippi Department of Health or treated and rendered non-infectious, infectious medical waste (except for sharps in approved containers) shall not be stored at a waste producing facility for more than seven (7) days above a temperature of 6 C (38F). Containment of infectious medical waste at the producing facility is permitted at or below a temperature of 0 C (32F) for a period of not more than ninety (90) days without specific approval of the Department of Health.
 - d. Containment of infectious medical waste shall be separated from other wastes. Enclosures or containers used for containment of infectious medical waste shall be so secured so as to discourage access by unauthorized persons and shall be marked with prominent warning signs on, or adjacent to, the exterior of entry doors, gates, or lids. Each container shall be prominently labeled with a sign using language to be determined by the Department and legible during daylight hours.
 - e. Infectious medical waste, except for sharps capable of puncturing or cutting, shall be contained in double disposable plastic bags or single bags (1.5 mills thick) which are impervious to moisture and have a strength sufficient to preclude ripping, tearing, or bursting under normal conditions of usage. The bags shall be securely tied so as to prevent leakage or expulsion of solid or liquid wastes during storage, handling, or transport.

- f. All sharps shall be contained for disposal in leakproof, rigid, puncture-resistant containers which are taped closed or tightly lidded to preclude loss of the contents.
 - g. All bags used for containment and disposal of infectious medical waste shall be a distinctive color or display the Universal Symbol for infections waste. Rigid containers of all sharps waste shall be labeled.
 - h. Compactors or grinders shall not be used to process infectious medical waste unless the waste has been rendered non-infectious. Sharps containers shall not be subject to compaction by any compacting device except in the institution itself and shall not be placed for storage or transport in a portable or mobile trash compactor.
 - i. Infectious medical waste and medical waste contained in disposable containers as prescribed above, shall be placed for storage, handling, or transport in disposable or reusable pails, cartons, drums, or portable bins. The containment system shall be leak-proof, have tight-fitting covers and be kept clean and in good repair.
 - j. Reusable containers for infectious medical waste and medical waste shall be thoroughly washed and decontaminated each time they are emptied by a method specified by the Mississippi Department of Health, unless the surfaces of the containers have been protected from contamination by disposable liners, bags, or other devices removed with the waste, as outlined in I. E.
2. Approved methods of decontamination include, but are not limited to, agitation to remove visible soil combined with one or more of the following procedures:
 - a. Exposure to hot water at least 180 F for a minimum of 15 seconds.
 - b. Exposure to a chemical sanitizer by rinsing with a immersion in one of the following for a minimum of three (3) minutes:
 - i. Hypochlorite solution (500 ppm available chlorine).
 - ii. Phenolic solution (500 ppm active agent).
 - iii. Iodoform solution (100 ppm available iodine).
 - iv. Quaternary ammonium solution (400 ppm active agent).
3. Reusable pails, drums, or bins used for containment of infections waste shall not be used for containment of waste to be disposed of as non-infectious waste or for other purposes except after being decontaminated by procedures as described in part (J) of this section.
 - a. Trash chutes shall not be used to transfer infectious medical waste.

- b. Once treated and rendered non-infectious, previously defined infectious medical waste will be classified as medical waste and may be landfilled in an approved landfill.
4. Treatment or disposal of infectious medical waste shall be by one of the following methods:
- a. By incineration in an approved incinerator which provides combustion of the waste carbonized or mineralized ash.
 - b. By sterilization by heating in a steam sterilizer, so as to render the waste non-infectious. Infectious medical waste so rendered non-infectious shall be disposable as medical waste. Operating procedures for steam sterilizers shall include, but not be limited to, the following:
 - i. Adoption of standard written operating procedures for each steam sterilizer including time, temperature, pressure, type of waste, type of container(s), closure on container(s), pattern of loading, water content, and maximum load quantity.
 - ii. Check or recording and/or indicating thermometers during each complete cycle to ensure the attainment of a temperature of 121 C (250 F) for one-half hour or longer, depending on quantity and density of the load, in order to achieve sterilization of the entire load. Thermometers shall be checked for calibration at least annually.
 - iii. Use of heat sensitive tape or other device for each container that is processed to indicate the attainment of adequate sterilization conditions.
 - iv. Use of the biological indicator *Bacillus stearothermophilus* placed at the center of a load processed under standard operating conditions at least monthly to confirm the attainment of adequate sterilization conditions.
 - v. Maintenance of records of procedures specified in (1), (2), (3), and (4) above for period of not less than a year.
 - c. By discharge of the approved sewerage system if the waste is liquid or semi-liquid, except as prohibited by the State Department of Health.
 - d. Recognizable human anatomical remains shall be disposed of by incineration or internment, unless burial at an approved landfill is specifically authorized by the Mississippi Department of Health.
 - e. Chemical sterilization shall use only those chemical sterilants recognized by the U. S. Environmental Protection Agency, Office of Pesticides and Toxic Substances. Ethylene oxide, glutaraldehyde, and hydrogen peroxide are examples of sterilants that, used in accordance with manufacturer recommendation, will render infectious waste non-infectious. Testing with

spores or other equivalent organisms shall be conducted quarterly to ensure the sterilization effectiveness of gas or steam treatment.

5. Treatment and disposal of medical waste which is not infectious shall be by one of the following methods:
 - a. By incineration in an approved incinerator which provides combustion of the waste to carbonized or mineralized ash.
 - b. By sanitary landfill, in an approved landfill which shall mean a disposal facility or part of a facility where medical waste is placed in or on land, and which is not a treatment facility.
 - c. All the requirements of these standards shall apply, without regard to the quantity of medical waste generated per month, to any generator of medical waste.

Subchapter 30 STANDARDS OF ETHICAL PRACTICE

Rule 46.30.1 **General.** Each home health agency shall maintain the highest level of ethical standards in its business practices. The governing body of each home health agency shall adopt written standards of ethical practice, which shall be strictly adhered to by all employees and owners of the agency. These standards shall be posted in each agency office in order to facilitate review by any interested individual. At a minimum, every home health agency shall include the following items in the agency's standards of ethical practice:

1. Neither the owner nor any home health agency employee shall knowingly mislead a patient, family member or caretaker concerning services, charges, or use of equipment.
2. Neither the owner nor any home health agency employee shall misuse or misappropriate any property-real or personal-belonging to any patient, family member or caretaker.
3. Neither the owner nor any home health agency employee shall knowingly and actively recruit a patient under the care of another home health agency.
4. No employee or patient of a home health agency shall be coerced into participating in agency fund raising activities.
5. The home health agency shall accept patient referrals in a professional manner with no remuneration provided to the referring party.
6. Patient clinical records, administrative records, and financial records shall not be falsified by any individual for any reason.

Subchapter 31 PATIENTS' RIGHTS

Rule 46.31.1 **General.** The agency shall maintain written policies and procedures regarding the rights and responsibilities of patients. These written policies and procedures shall be established in consultation with the Professional Advisory Committee. Written policies regarding patients' rights shall be made available to patients and/or their guardian, next of kin, sponsoring agency or agencies, or lawful representative and to the public. There shall be documented evidence that the staff of the agency is trained and involved in the implementation of these policies and procedures. In-service on patient's rights and responsibilities shall be conducted annually. The patients' rights policies and procedures ensure that each patient admitted to the agency:

1. Is fully informed, as evidenced by the patient's written acknowledgment, prior to or at the time of admission, of these rights and of all rules and regulations governing patient conduct and responsibilities;

2. Is fully informed prior to or at the time of admission and during the course of treatment of services available through the agency, and of related charges including any charges for services not covered under titles XVIII or XIX of the Social Security Act, or any other third party.
3. Is afforded the opportunity to participate in the planning of his medical treatment and to refuse to participate in experimental research;
4. Is transferred or discharged only for medical reasons, or for his welfare, or for non-payment (except as prohibited by Titles XVIII or XIX of the Social Security Act), or on the event of an unsafe environment, or should the patient refuse treatment, and is given advance notice to ensure orderly transfer to discharge, and such actions are documented in his clinical record;
5. May voice grievances and recommend changes in policies and services to agency staff and/or to outside representatives of his choice, free from restraint, interference, coercion, discrimination, or reprisal;
6. Is assured confidential treatment of his personal and clinical records, and may approve or refuse their release to any individual outside the agency, except, in case of his transfer to another health care institution or agency or as required by law or third-party payment contract;
7. Is treated with consideration, respect, and full recognition of his dignity and individuality, including privacy in treatment and in care of his personal needs;
8. No person shall be refused service because of age, race, religious preference, sex, marital status or national origin.

Subchapter 32 PLANNING FOR PATIENT TREATMENT: PLAN OF TREATMENT

Rule 46.32.1 Development of Plan of Treatment. Each home health agency shall establish policies and procedures for assuring that services and items to be provided are specified under a plan of treatment established and regularly reviewed by the physician or podiatrist who is responsible for the care of the patient. Other agency personnel shall have input into the development of the plan of treatment as deemed appropriate by the physician or podiatrist. The original plan of treatment shall be signed by the physician or podiatrist who is responsible for the care of the patient and incorporated in the record maintained by the agency for the patient. The total plan is reviewed by the attending physician or podiatrist, in consultation with agency professional personnel at such intervals as the severity of the patient's illness requires but in any instance, at least once every two (2) months. The registered nurse, and other health professional shall bring to the attention of the physician or podiatrist changes in the patient's condition which indicate the need for altering the treatment plan or for terminating services. No medication,

treatment or services shall be given except on signed order of a person lawfully authorized to give such an order.

SOURCE: Miss. Code Ann. §41-71-13

Rule 46.32.2 Plan of Treatment Content. The plan of treatment shall include:

1. Diagnoses relevant to the provision of home health services;
2. Functional limitations and rehabilitation potential;
3. Prognosis;
4. Services authorized by the physician or podiatrist, including frequency and duration;
5. Medications ordered by the physician or podiatrist to include dosage, route of administration and frequency;
6. Treatment, if applicable, including modality, frequency and duration; drug and food allergies;
7. Activities permitted;
8. Diet;
9. Specific procedures deemed essential for the health and safety of the patient;
10. The attending physician or podiatrist's signature;
11. Long term goals and discharge plans;
12. Mental status; and
13. Equipment required.

SOURCE: Miss. Code Ann. §41-71-13

Rule 46.32.3 Periodic Review of the Plan of Treatment. The professional person responsible for any specific treatment shall notify the attending physician or podiatrist, other professional persons, and responsible agency staff of significant changes in the patient's condition. The plan shall be reviewed by the agency care team at least every sixty (60) days and a written summary report sent to the attending physician or podiatrist containing home health services provided, the patient status, recommendations for revision of the plan of treatment, and the need for continuation or termination of services. The attending physician or podiatrist shall be consulted to approve additions or modifications to the original plan. When a patient is transferred to a hospital and readmitted to the agency, the plan of treatment shall be reviewed by the physician or podiatrist. If the diagnosis of

the patient has not changed (as documented in the agency's discharge/transfer summary, the hospital's discharge summary and reassessment of the patient), a statement to continue previous orders will suffice. At the end of the sixty (60) day period, new orders shall be written.

Subchapter 9 DENIAL, SUSPENSION, OR REVOCATION OF LICENSE

Rule 47.9.1 **Denial or Revocation of License: Hearings and Review.** The licensing agency, after notice and opportunity for a hearing to the applicant or licensee, is authorized to deny, suspend, or revoke a license, or deny renewal of a license, in any case in which it finds that there has been a substantial failure to comply with the requirements established under the law and these regulations. Also, the following shall be grounds for denial or revocation of license:

1. Fraud on the part of the licensee in applying for a license, or renewal of license.
2. Willful or repeated violations by the licensee of any of the provisions of Sections 43-11-1 et seq, of the Mississippi Code of 1972, as amended, and/or of the rules, regulations, and minimum standards established by the licensing agency.
3. Addiction to narcotic drug(s) by the licensee or other employees or personnel of the licensed facility.
4. Use of alcoholic beverages by the licensee or other personnel of the licensed facility to the extent which threatens the well-being or safety of the residents.
5. Conviction of the licensee of a felony.
6. Publicly misrepresenting the licensed facility and/or its services.
7. Permitting, aiding, or abetting the commission of any unlawful act.
8. Conduct or practices detrimental to the health or safety of residents and employees of said licensed facility. Detrimental practices include but are not limited to:
 - a. Cruelty to a resident or indifference to the needs which are essential to the general well-being and health.
 - b. Misappropriation of the money or property of a resident.
 - c. Failure to provide food adequate for the needs of a resident.
 - d. Inadequate staff to provide safe care and supervision of a resident.
 - e. Failure to call a physician or nurse practitioner/physician assistant when required by a resident's condition.

- f. Failure to notify next of kin when a resident's condition becomes critical.
 - g. Admission of a resident whose condition demands care beyond the level of care provided by the licensed facility as determined by its classification.
9. A violation of 24-hour supervision requirement and/or the transfer of a resident from the licensed facility to any unlicensed facility may result in the facility's license being made provisional for a period of 90 days. At the end of that 90-day period, if corrective actions have not been taken by the licensed facility, that Provisional License may be revoked.

Subchapter 10 PROVISION FOR HEARING AND APPEAL FOLLOWING DENIAL OR REVOCATION OF LICENSE; PENALTIES

SOURCE: Miss. Code Ann. §43-11-13

Rule 47.10.1 Administrative Decision. The licensing agency will provide an opportunity for a fair hearing to every applicant or licensee who is dissatisfied with administrative decisions made in the denial or revocation of license.

1. The licensing agency shall notify the applicant or licensee by registered mail or personal service the particular reasons for the proposed denial or revocation of license. Upon written request of applicant or licensee within ten (10) days of the date of notification, the licensing agency shall fix a date not less than thirty (30) days from the date of such service at which time the applicant or licensee shall be given an opportunity for a prompt and fair hearing.
2. On the basis of such hearing or upon default of the applicant or licensee, the licensing agency shall make a determination specifying its findings of fact and conclusions of law. A copy of such determination shall be sent by registered mail to the last known address of the applicant or licensee or served personally upon the applicant or licensee.
3. The decision revoking, suspending, or denying the application or license shall become final thirty (30) days after it is so mailed or served unless the applicant or licensee, within such thirty (30) day period, appeals the decision in Chancery Court pursuant to Section 43-11-23 of the Mississippi Code of 1972. An additional period of time may be granted at the discretion of the licensing agency.

Rule 47.11.2 **Operator Mentoring.** Operators shall be scheduled to spend two (2) concurrent days with the licensing agency for the purpose of training and mentoring. Placement of an operator with the licensing agency may include, but not be limited to, assignments within the licensing agency's central offices or placement with a survey team. Any costs associated with placements for the purposes of this section shall be borne by the licensed facility at which the operator is employed.

The operator shall keep confidential and not disclose to any other persons any identifying information about any person or entity that he/she learned while observing operations as required by this section, except as otherwise mandated by law.

1. This section shall apply to operators who: have been employed by a licensed facility for less than six (6) months, during which time the placement must be completed.
2. This section shall not apply to operators who:
 - a. have previously participated in a placement as required by this section; or
 - b. who were previously employed by the licensing agency in a surveyor capacity.
 - c. Failure to successfully complete the placement required under this section shall disqualify the operator from serving in such capacity of a licensed facility until a placement is completed.
 - d. This section shall go into effect January 1, 2002 and thereafter.

Rule 47.11.5 **Criminal History Record Checks.**

1. Pursuant to Section 43-11-13, Mississippi Code of 1972, the covered entity shall require to be preformed a disciplinary check with the professional licensing agency, if any, for each employee to determine if any disciplinary action has been taken against the employee by the agency, and a criminal history record check on:
 - a. Every new employee of a covered entity who provides direct patient care or services and who is employed on or after July 01, 2003, and
 - b. Every employee of a covered entity employed prior to July 01, 2003, who has documented disciplinary action by his or her present employer.
2. Except as otherwise provided in this paragraph, no employee hired on or after July 01, 2003, shall be permitted to provide direct patient care until the results of the criminal history record check have revealed no disqualifying record or the employee has been granted a waiver. Provided the covered entity has documented evidence of submission of fingerprints for the background check, any person may be employed and provide direct patient care on a temporary basis pending the results of the criminal history record check but any employment

offer, contract, or arrangement with the person shall be voidable, if he/she receives a disqualifying criminal record check and no waiver is granted.

3. If such criminal history record check discloses a felony conviction; a guilty plea; and/or a plea of nolo contendere to a felony for one (1) or more of the following crimes which has not been reversed on appeal, or for which a pardon has not been granted, the applicant/employee shall not be eligible to be employed at the licensed facility:
 - a. possession or sale of drugs
 - b. murder
 - c. manslaughter
 - d. armed robbery
 - e. rape
 - f. sexual battery
 - g. sex offense listed in Section 45-33-23 (g), Mississippi Code of 1972
 - h. child abuse
 - i. arson
 - j. grand larceny
 - k. burglary
 - l. gratification of lust
 - m. aggravated assault
 - n. felonious abuse and/or battery of vulnerable adult
 - o. Documentation of verification of the employee's disciplinary status, if any, with the employee's professional licensing agency as applicable, and evidence of submission of the employee's fingerprints to the licensing agency must be on file and maintained by the facility prior to the new employees first date of employment. The covered entity shall maintain on file evidence of verification of the employee's disciplinary status from any applicable professional licensing agency and of submission and/or completion of the criminal record check, the signed affidavit, if applicable, and/or a copy of the referenced notarized letter addressing the individual's suitability for such employment.
4. Pursuant to Section §43-11-13, Mississippi Code of 1972, the licensing agency shall require every employee of a covered entity employed prior to July 01, 2003,

to sign an affidavit stating that he or she does not have a criminal history as outlined in paragraph (3) above.

5. From and after December 31, 2003, no employee of a covered entity hired before July 01, 2003, shall be permitted to provide direct patient care unless the employee has signed an affidavit as required by this section. The covered entity shall place the affidavit in the employee's personnel file as proof of compliance with this section.
6. If a person signs the affidavit required by this section, and it is later determined that the person actually had been convicted of or pleaded guilty or nolo contendere to any of the offenses listed herein, and the conviction or pleas has not been reversed on appeal or a pardon has not been granted for the conviction or plea, the person is guilty of perjury as set out in Section §43-11-13, Mississippi Code of 1972. The covered entity shall immediately institute termination proceedings against the employee pursuant to the facility's policies and procedures.
7. The covered entity may, in its discretion, allow any employee unable to sign the affidavit required by paragraph (7) of this subsection or any employee applicant aggrieved by the employment decision under this subsection to appear before the covered entity's hiring officer, or his or her designee, to show mitigating circumstances that may exist and allow the employee or employee applicant to be employed at the covered entity. The covered entity, upon report and recommendation of the hiring officer, may grant waivers for those mitigating circumstances, which shall include, but not be limited to: (1) age at which the crime was committed; (2) circumstances surrounding the crime; (3) length of time since the conviction and criminal history since the conviction; (4) work history; (5) current employment and character references; and (6) other evidence demonstrating the ability of the individual does not pose a threat to the health or safety of the patients in the licensed facility.
8. The licensing agency may charge the covered entity submitting the fingerprints a fee not to exceed Fifty Dollars (\$50.00).
9. Should results of an employee applicant's criminal history record check reveal no disqualifying event, then the covered entity shall, within two (2) weeks of the notification of no disqualifying event, provide the employee applicant with a notarized letter signed by the chief executive officer of the covered, or his or her authorized designee, confirming the employee applicant's suitability for employment based on his or her criminal history record check. An employee applicant may use that letter for a period of two (2) years from the date of the letter to seek employment at any covered entity licensed by the Mississippi State Department of Health without the necessity of an additional criminal record check. Any covered entity presented with the letter may rely on the letter with respect to an employee applicant's criminal background and is not required for a period of two (2) years from the date of the letter to conduct or have conducted a criminal history record check as required in this subsection.

10. For individuals contracted through a third party who provide direct patient care as defined herein, the covered entity shall require proof of a criminal history record check.
11. Pursuant to Section §43-11-13, Mississippi Code of 1972, the licensing agency, the covered entity, and their agents, officers, employees, attorneys and representatives, shall be presumed to be acting in good faith for any employment decision or action taken under this section. The presumption of good faith may be overcome by a preponderance of the evidence in any civil action. No licensing agency, covered entity, nor their agents, officers, employees, attorneys and representatives shall be held liable in any employment discrimination suit in which an allegation of discrimination is made regarding an employment decision authorized under this section.

Rule 47.11.7 **Employee Testing for Tuberculosis**

1. Each employee, upon employment of a licensed entity and prior to contact with any patient/client, shall be evaluated for tuberculosis by one of the following methods:
 - a. IGRA (blood test) and an evaluation of the individual for signs and symptoms of tuberculosis by medical personnel; or
 - b. A two-step Mantoux tuberculin skin test administered and read by a licensed medical/nursing person certified in the techniques of tuberculin testing **and** an evaluation of the individual for signs and symptoms of tuberculosis by a licensed Physician, Physician's Assistant, Nurse Practitioner or a Registered Nurse.
2. The IGRA/Mantoux testing and the evaluation of signs/symptoms may be administered/conducted on the date of hire or administered/read no more than 30 days prior to the individual's date of hire; however, the individual must not be allowed contact with a patient or work in areas of the RBIR where patients have access until receipt of the results of the IGRA/assessment or at least the first of the two-step Mantoux test has been administered/read and assessment for the signs and symptoms completed.
3. If the Mantoux test is administered, results must be documented in millimeters.

Documentation of the IGRA/TB skin test results and assessment must be documented in accordance with accepted standards of medical/nursing practice and must be placed in the individual's personnel file no later than 7 days of the individual's date of employment. If an IGRA is performed, results and quantitative values must be documented.

4. Any employee noted to have a newly positive IGRA, a newly positive Mantoux skin test or signs/symptoms indicative of tuberculin disease (TB) that last longer than three weeks (regardless of the size of the skin test or results of the IGRA), shall have a chest x-ray interpreted by a board certified Radiologist and be evaluated for active tuberculosis by a licensed physician within 72 hours. The employee shall not be allowed to work in any area where clients have routine access until evaluated by a physician/nurse practitioner/physician assistant and approved to return. Exceptions to this requirement may be made if the employee is asymptomatic and:
 - a. The individual is currently receiving or can provide documentation of having received a course of tuberculosis prophylactic therapy approved by the Mississippi State Department of Health (MSDH) Tuberculosis Program for tuberculosis infection, or
 - b. The individual is currently receiving or can provide documentation of having received a course of multi-drug chemotherapy approved by the MSDH Tuberculosis Program; or
 - c. The individual has a documented previous significant tuberculin skin reaction or IGRA reaction.
5. For individuals noted to have a previous positive to either Mantoux testing or the IGRA, annual re-evaluation for the signs and symptoms must be conducted and must be maintained as part of the employee's annual health screening. A follow-up annual chest x-ray is NOT required unless symptoms of active tuberculosis develop.
6. If using the Mantoux method, employees with a negative tuberculin skin test and a negative symptom assessment shall have the second step of the two-step Mantoux tuberculin skin test performed and documented in the employees' personal record within fourteen (14) days of employment.
7. The IGRA or the two-step protocol is to be used for each employee who has not been previously skin tested and/or for whom a negative test cannot be documented within the past 12 months. If the employer has documentation that the employee has had a negative TB skin test within the past 12 months, a single test performed thirty (30) days prior to employment or immediately upon hire will fulfill the two-step requirements. As above, the employee shall not have contact with clients or be allowed to work in areas of the RBIR to which

clients have routine access prior to reading the skin test, completing a signs and symptoms assessment and documenting the results and findings.

8. Facilities shall comply with recommendations from the Centers for Disease Control and/or the Mississippi State Department of Health regarding baseline employee TB testing and routine serial employee TB testing and education. Staff exposed to an active infectious case of tuberculosis shall be treated as contacts and be managed appropriately. Individuals found to have a significant Mantoux tuberculin skin test reaction and a chest x-ray not suggestive of active tuberculosis, shall be evaluated by a physician or nurse practitioner/physician assistant for treatment of latent tuberculin infection.

Rule 47.11.8 Admission Agreement. Prior to, or at the time of admission, the operator and the resident or the resident's responsible party shall execute in writing a financial agreement. This agreement shall be prepared and signed in two or more copies, one copy given to the resident or his/her responsible party, and one copy placed on file in the licensed facility.

1. As a minimum, this agreement shall contain specifically:
 - a. Basic charges agreed upon (room, board, laundry, and personal care).
 - b. Period to be covered in the charges.
 - c. Services for which special charges are made.
 - d. Agreement regarding refunds for any payments made in advance.
 - e. A statement that the operator shall make the resident's responsible party aware, in a timely manner, of any changes in resident's status, including those which require transfer and discharge; or operators who have been designated as a resident's responsible party shall ensure prompt and efficient action to meet resident's needs.
2. No agreement or contract shall be entered into between the licensee and the resident or his responsible agent which will relieve the licensee of the responsibility for the protection of the person and personal property of the individual admitted to the licensed facility for care.
3. Any funds given or provided for the purpose of supplying services to any patient in any licensed facility, and any funds otherwise received and held from, for or on behalf of any such resident, shall be deposited by the director or other proper officer of the licensed facility to the credit of that patient in an account which shall be known as the Resident's Personal Deposit Fund. No more than one (1) month charge for the care, support, maintenance, and medical attention of the

patient shall be applied from such account at any one (1) time. After the death, discharge, or transfer of any resident for whose benefit any such fund has been provided, any unexpended balance remaining in his personal deposit fund shall be applied for the payment of care, cost of support, maintenance, and medical attention which is accrued. In the event any unexpended balance remains in that resident's personal deposit fund after complete reimbursement has been made for payment of care, support, maintenance, and medical attention, and the director or other proper officer of the licensed facility has been or shall be unable to locate the person or persons entitled to such unexpended balance, the director or other proper officer may, after the lapse of one (1) year from the date of such death, discharge, or transfer, deposit the unexpended balance to the credit of the licensed facility's operating fund.

4. The resident or his responsible party shall be furnished a receipt signed by the licensee of the licensed facility or his lawful agent, for all sums of money paid to the licensed facility.
5. Written notification shall be given to the resident/responsible party when basic charges and/or licensed facility policies change.

Rule 47.11.9 Records and Reports. The operator shall maintain a record of the residents for whom he or she serves as the conservator or a representative payee. This record shall include evidence of the means by which the conservatorship or representative payee relationship was established and evidence of separate accounts in a bank for each resident whose conservator or representative payee is the operator of the licensed facility.

1. Inspection reports from the licensing agency, any branch or division thereof by the operator in the licensed facility, and submitted to the licensing agency as required, or when requested.
2. Resident records shall contain the following:
 - a. Admission agreement(s) and financial statements.
 - b. Residents' rights and licensed facility's rules, signed, dated, and witnessed.
 - c. Medical evaluation and referral from physician or nurse practitioner/physician assistant.
 - d. Current medication record, including any reactions to such medication.
 - e. Social services and activity contacts.
 - f. General information form.

- g. Representative payee statement, if applicable.
 - h. Physician orders or nurse practitioner/physician assistant orders (including, but not limited to, therapies, diets, medications, etc.) and medication administration records.
- 3. The records as described in this section shall be made available to the resident, the resident's family, or other responsible party for the resident upon reasonable request.
 - 4. The facility shall report and comply with the annual MDH TB Program surveillance procedures.

Rule 47.11.11 Residents' Rights. These rights and licensed facility rules must be in writing and be made available to all residents, employees, sponsors, and posted for public viewing. Each resident shall:

- 1. Have the right to attend religious and other activities of his/her choice.
- 2. Have the right to manage his/her personal financial affairs, or is given at least a quarterly accounting of financial transactions made on his/her behalf should the facility accept the written delegation from the resident or from his/her responsible party of this responsibility to the facility for any period of time in conformance with State law.
- 3. Not be required to perform services for the licensed facility.
- 4. Have the right to communicate with persons of his/her choice, and may receive mail unopened or in compliance with the policies of the home.
- 5. Be treated with consideration, kindness, respect, and full recognition of his/her dignity and individually.
- 6. May retain and use personal clothing and possessions as space permits.
- 7. May voice grievances and recommend changes in licensed facility policies and services.

8. Shall not be confined to the licensed facility against his/her will, and shall be allowed to move about in the community at liberty. Physical and/or chemical restraints are prohibited.
9. Not be limited in his/her choice of a pharmacy or pharmacist provider in accordance with State law.

Subchapter 12 MEDICAL AND PERSONAL CARE SERVICES

Rule 47.12.1 Admission and Discharge Criteria. The following criteria must be applied and maintained for resident placement in a licensed facility:

1. Only residents whose needs can be met by the licensed facility shall be admitted. An appropriate resident is primarily an aged ambulatory person who requires domiciliary care and who may require non-medical services, medical services such as medication assistance, emergency response services, and home health services as prescribed by a physician's order and as allowed by law.
2. A person shall not be admitted or continue to reside in an licensed facility if the person:
 - a. Requires physical restraints;
 - b. Poses a serious threat to himself or herself or others;
 - c. Requires nasopharyngeal and/or tracheotomy suctioning;
 - d. Requires gastric feedings;
 - e. Requires intravenous fluids, medications, or feedings;
 - f. Requires a indwelling urinary catheter;
 - g. Requires sterile wound care; or
 - h. Requires treatment of decubitus ulcer or exfoliative dermatitis.
3. Licensed facilities which are not accessible to individuals with disabilities through the A.N.S.I. Standards as they relate to facility accessibility may not accept wheelchair bound residents. Only those persons who, in an emergency, would be physically and mentally capable of traveling to safety may be accepted. For multilevel facilities, no residents may be placed above the ground floor level that are unable to descend the stairs unassisted.
4. The licensed facility must be able to identify at the time of admission and during continued stay those residents whose needs for services are consistent with these

rules and regulations, and those residents who should be transferred to an appropriate level of care.

5. Notwithstanding any determination by the licensing agency that skilled nursing services would be appropriate for a resident of a personal care home, that resident, the resident's guardian, or the legally recognized responsible party for the resident may consent in writing for the resident to continue to reside in the personal care home, if approved in writing by a licensed physician. Provided, however, that no personal care home shall allow more than two (2) residents, or ten percent (10%) of number of residents in the facility, whichever is greater, to remain in the personal care home under the provisions herein. This consent shall be deemed to be appropriately informed consent as described by these regulations. After that written consent has been obtained, the resident shall have the right to continue to reside in the personal care home for as long as the resident meets the other conditions for residing in the personal care home. A copy of the written consent and the physician's approval shall be forwarded by the personal care home to the licensing agency within thirty (30) days of the issuance of the latter of the two (2) documents.
6. The licensed facility which accepts and admits residents requiring mental health services shall help arrange transportation to mental health appointments and cooperate with the community mental health center or other provider of mental health care, as necessary, to ensure access to and the coordination of care, within limits of the confidentiality and privacy rights of the individual receiving services.

Rule 47.12.3 **Tuberculosis (TB):** Admission Requirements to Rule out Active Tuberculosis (TB)

1. The following are to be performed and documented within 30 days prior to the resident's admission to the licensed facility:
 - a. TB signs and symptoms assessment by a licensed Physician, Physician's Assistant or a Licensed Nurse Practitioner, and
 - b. A chest x-ray taken and have a written interpretation.

2. Admission to the facility shall be based on the results of the required tests as follows:
 - a. **Residents with an abnormal chest x-ray and/or signs and symptoms assessment** shall have the first step of a two-step Mantoux tuberculin skin test (TST) placed and read by certified personnel OR an IGRA (blood test) drawn and results documented within 30 days prior to the patient's admission to the licensed facility. Evaluation for active TB shall be at the recommendation of the MSDH and shall be prior to admission. If TB is ruled out and the first step of the TST is negative, the second step of the two-step TST shall be completed and documented within 10-21 days of admission. TST administration and reading **shall** be done by certified personnel. If an IGRA (blood test) is done, TST (first and/or second step) is not done.
 - b. **Residents with a normal chest x-ray and no signs or symptoms of TB** shall have a baseline IGRA test (blood test) OR a TST performed with the initial step of a the two-step Mantoux TST placed on or within 30 days prior to the day of admission. IF TST is done, the second step shall be completed within 10-21 days of the first step. TST administration and reading shall be done by certified personnel. If an IGRA (blood test) is done, a TST is not done (first or second step).
 - c. **Residents with a significant TST OR positive IGRA** (blood test) upon baseline testing or who have documented **prior significant TST** shall be monitored regularly for signs and symptoms of active TB (cough, sputum production, chest pain, fever, weight loss, or night sweats, especially if the symptoms have lasted longer than three weeks) and if these symptoms develop, shall have an evaluation for TB per the recommendations of the MSDH within 72 hours.
 - d. **Residents with a non significant TST** or negative IGRA (blood test) upon baseline testing shall have an annual tuberculosis testing within thirty (30) days of the anniversary of their last test. Note: Once IGRA testing is used, IGRA testing should continue to be used rather than TST testing.
 - e. **Residents with a new significant TST or newly positive IGRA** (blood test) on annual testing shall be evaluated for active TB by a nurse practitioner or physician or physician's assistant.
 - g. **Active or suspected Active TB Admission.** If a resident has or is suspected to have active TB, prior written approval for admission to the facility is required from the MSDH TB State Medical Consultant.
 - h. **Exceptions to TST/ IGRA requirement may be made if:**
 - i. Resident has prior documentation of a significant TST/positive IGRA.

- ii. Resident has received or is receiving a MSDH approved treatment regimen for latent TB infection or for active TB disease.
- iii. Resident is excluded by a licensed physician or nurse practitioner/physician assistant due to medical contraindications.

SOURCE: Miss. Code Ann. §43-11-13

Rule 48.2.3. Criminal History Record Checks.

1. **Affidavit.** For the purpose of fingerprinting and criminal background history checks, the term “affidavit” means the use of Mississippi State Department of Health (MSDH) Form #210, or a copy thereof, which shall be placed in the individual’s personal file.
2. **Employee.** For the purpose of fingerprinting and criminal background history checks, employee shall mean any individual employed by a licensed entity. The term “employee”, also includes any individual who by contract with the facility provides patient care in a patient’s, resident’s, or client’s room or in treatment rooms.
 - a. The term employee does not include healthcare professional/technical students, as defined in Section 37-29-232 of the Miss. Code of 1972, performing clinical training in a licensed entity under contracts between their schools and the licensed entity, and does not include students at high schools who observe the treatment and care of patients in a licensed entity as part of the requirements of an allied health course taught in the school if:
 - i. The student is under the supervision of a licensed healthcare provider; and
 - ii. The student has signed the affidavit that is on file at the student’s school stating that he or she has been convicted of or plead guilty or nolo contendere to a felony of possession or sale of drugs, murder, manslaughter, armed robbery, rape, sexual battery, any sexual offenses listed in section 45-33-23 (g) of the Miss. Code of 1972, child abuse, arson, grand larceny, burglary, gratification of lust, aggravated assault, or felonious abuse and/or battery of a vulnerable adult, or that any such conviction or plea was reversed on appeal or a pardon was granted for the conviction or plea.
 - iii. Further, applicants and employees of the University of Mississippi Medical Center for whom criminal history record checks and fingerprinting are obtained in accordance with Section 37-115-41 of the Miss. Code of 1972 are exempt from application of the term employee under Section 43-11-13 of the Miss. Code of 1972.
3. **Covered Entity.** For the purpose of criminal history record checks, “covered entity” means a licensed entity or a healthcare professional staffing agency.
4. **Licensed Entity.** For the purpose of criminal history record checks, the term “licensed entity” means a hospital, nursing home, personal care home, home health agency or hospice.

5. **Health Care Professional/Vocational Technical Academic Program.** For the purpose of criminal history record checks, “health care professional/vocational technical academic program” means an academic program in medicine, nursing, dentistry, occupational therapy, physical therapy, social services, speech therapy, or other allied-health professional whose purpose is to prepare professionals to render patient care services.
6. **Health Care Professional/Vocational Technical Student.** For purposes of criminal history record checks, the term means a student enrolled in a healthcare professional/vocational technical academic program.
7. **Direct Patient Care or Services.** For the purposes of fingerprinting and criminal background history checks, the term “direct patient care” means direct hands-on medical patient care and services provided by an individual in a patient, resident or client’s room, treatment room or recovery room. Individuals providing direct patient care may be directly employed by the facility or employed on a contractual basis.
8. **Documented Disciplinary Action.** For the purpose of fingerprinting and criminal background history checks, the term “documented disciplinary action” means any action taken against an employee for abuse or neglect of a patient.

Subchapter 10 PROVISION FOR HEARING AND APPEAL FOLLOWING DENIAL OR REVOCATION OF LICENSE; PENALTIES

Rule 48.10.1. Administrative Decision. The licensing agency will provide an opportunity for a fair hearing to every applicant or licensee who is dissatisfied with administrative decisions made in the denial or revocation of license.

1. The licensing agency shall notify the applicant or licensee by registered mail or personal service the particular reasons for the proposed denial or revocation of license. Upon written request of applicant or licensee within ten (10) days of the date of notification, the licensing agency shall fix a date within thirty (30) days

from the date of such service at which time the applicant or licensee shall be given an opportunity for a prompt and fair hearing.

2. On the basis of such hearing or upon default of the applicant or licensee, the licensing agency shall make a determination specifying its findings of fact and conclusions of law. A copy of such determination shall be sent by registered mail to the last known address of the applicant or licensee or served personally upon the applicant or licensee.
3. The decision revoking, suspending, or denying the application or license shall become final thirty (30) days after it is so mailed or served unless the applicant or licensee, within such thirty (30) day period, appeals the decision in Chancery Court pursuant to Section 43-11-23 of the Mississippi Code of 1972. An additional period of time may be granted at the discretion of the licensing agency.

Subchapter 11 ADMINISTRATION

Rule 48.11.1. **Operator.** There shall be a full-time employee designated as operator of the licensed facility who shall be responsible for the management of the licensed facility. The operator shall be at least twenty-one years of age and shall be a high school graduate, or have passed the GED, and shall not be a resident of the licensed facility. The operator shall have verification that he is not listed on the

"Mississippi Nurses Aide Abuse Registry." When the operator is not within the licensed facility, there shall be an individual onsite at the licensed facility who shall represent the operator, and be capable of assuming the responsibility of operator. Said person must be at least twenty-one years of age and shall be a high school graduate, or have passed the GED, and shall have verification that he is not listed on the "Mississippi Nurses Aide Abuse Registry."

Rule 48.11.2. **Operator Mentoring.** Operators shall be scheduled to spend two (2) concurrent days with the licensing agency for the purpose of training and mentoring. Placement of an operator with the licensing agency may include, but not be limited to, assignments within the licensing agency's central offices or placement with a survey team. Any costs associated with placements for the purposes of this section shall be borne by the licensed facility at which the operator is employed. The operator shall keep confidential and not disclose to any other persons any identifying information about any person or entity that he/she learned while observing operations as required by this section, except as otherwise mandated by law.

1. This section shall apply to operators who:
2. have been employed by a licensed facility for less than six (6) months, during which time the placement must be completed.
3. This section shall not apply to operators who:
4. have previously participated in a placement as required by this section or
5. who were previously employed by the licensing agency in a surveyor capacity.
6. Failure to successfully complete the placement required under this section shall disqualify the operator from serving in such capacity of a licensed facility until a placement is completed.
7. This section shall go into effect January 1, 2002, and thereafter.

Rule 48.11.3. **Surveyor Mentoring.** Surveyors shall be scheduled to spend two (2) concurrent days with a licensed facility for the purpose of training and mentoring. Selection of a licensed facility for placement of the surveyor shall be done at the discretion of the licensing agency, except no licensed facility shall be required to accept more than two (2) placements in any calendar year. Upon completion of said training, the surveyor shall not participate in a survey of the same licensed facility for a period not to exceed one year from the date of training placement. Any costs associated with the placement of a surveyor for the purposes of this section shall be borne by the licensing agency. The surveyor shall keep confidential and

not disclose to any other persons any identifying information about any person or entity that the surveyor learned while observing operations as required by this section, except as otherwise mandated by law. This section shall apply to surveyors who have been employed by the licensing agency in a surveyor capacity for less than six (6) months, during which time the placement must be completed.

1. This section shall not apply to surveyors who were previously employed by a licensed facility.
2. Failure to successfully complete the placement required under this section shall disqualify the surveyor from serving in such capacity for the licensing agency until a placement is completed.

Rule 48.11.4. **Other Personnel.** All direct care employees shall be a minimum of 18 years of age, and shall have verification that they are not listed on the "Mississippi Nurses Aide Abuse Registry." Personnel shall receive training on a quarterly basis on topics and issues related to the population being served in the licensed facility. Training shall be documented by a narrative of the content and signatures of those attending. Personnel shall be employed and on duty, awake, and fully dressed to provide personal care to the residents. The following staffing ratio shall apply:

1. one (1) resident attendant per fifteen (15) or fewer residents for the hours of 7:00 a.m. until 7:00 p.m.
2. one (1) resident attendant per twenty-five (25) or fewer residents for the hours of 7:00 p.m. until 7:00 a.m.

Rule 48.11.5. **Criminal History Record Checks.**

1. Pursuant to Section §43-11-13, Mississippi Code of 1972, the covered entity shall require to be performed a disciplinary check with the professional licensing agency, if any, for each employee to determine if any disciplinary action has been taken against the employee by the agency, and a criminal history check on:
 - a. Every new employee of a covered entity who provides direct patient care or services and who is employed after or on July 01, 2003, and
 - b. Every employee of a covered entity employed prior to July 01, 2003, who has documented disciplinary action by his or her present employer.
2. Except as otherwise provided in this paragraph, no employee hired on or after July 1, 2003, shall be permitted to provide direct patient care until the results of the criminal history record check revealed no disqualifying record or the

employee has been granted a waiver. Provide the covered entity has documented evidence of submission of fingerprints for the background check, any person may be employed and provide direct patient care on a temporary basis pending the results of the criminal history record check but any employment offer, contract, or arrangement with the person shall be voidable if he/she receives a disqualifying criminal record check and no waiver is granted.

3. If such criminal history record check discloses a felony conviction; a guilty plea; and/or a plea of nolo contendere to a felony for one (1) or more of the following crimes which has not been reversed on appeal, or for which a pardon has not been granted, the applicant/employee shall not be eligible to be employed at the license facility:
 - a. possession or sale of drugs
 - b. murder
 - c. manslaughter
 - d. armed robbery
 - e. rape
 - f. sexual battery
 - g. sex offense listed in Section 45-33-23, Mississippi Code of 1972
 - h. child abuse
 - i. arson
 - j. grand larceny
 - k. burglary
 - l. gratification of lust
 - m. aggravated assault
 - n. felonious abuse and/or battery of vulnerable adult
4. Documentation of verification of the employee's disciplinary status, if any, with the employee's professional licensing agency as applicable, and evidence of submission of the employee's fingerprints to the licensing agency must be on file and maintained by the facility prior to the new employees first date of employment. The covered entity shall maintain on file evidence of verification of the employee's disciplinary status from any applicable professional licensing agency and of submission and/or completion of the criminal record check, the

signed affidavit, if applicable, and/or a copy of the referenced notarized letter addressing the individual's suitability for such employment.

5. Pursuant to Section §43-11-13, Mississippi Code of 1972, the licensing agency shall require every employee of a covered entity employed prior to July 01, 2003, to sign an affidavit stating that he or she does not have a criminal history as outlined in paragraph (c) above.
6. From and after December 31, 2003, no employee of a covered entity hired before July 01, 2003, shall be permitted to provide direct patient care unless the employee has signed an affidavit as required by this section. The covered entity shall place the affidavit in the employee's personnel file as proof of compliance with this section.
7. If a person signs the affidavit required by this section, and it is later determined that the person actually had been convicted of or pleaded guilty or nolo contendere to any of the offenses listed herein, and the conviction or pleas has not been reversed on appeal or a pardon has not been granted for the conviction or plea, the person is guilty of perjury as set out in Section 43-11-13, Mississippi Code of 1972. The covered entity shall immediately institute termination proceedings against the employee pursuant to the facility's policies and procedures.
8. The covered entity may, in its discretion, allow any employee unable to sign the affidavit required by paragraph (g) of this subsection or any employee applicant aggrieved by the employment decision under this subsection to appear before the covered entity's hiring officer, or his or her designee, to show mitigating circumstances that may exist and allow the employee or employee applicant to be employed at the covered entity. The covered entity, upon report and recommendation of the hiring officer, may grant waivers for those mitigating circumstances, which shall include, but not be limited to: (1) age at which the crime was committed; (2) circumstances surrounding the crime; (3) length of time since the conviction and criminal history since the conviction; (4) work history; (5) current employment and character references; and (6) other evidence demonstrating the ability of the individual does not pose a threat to the health or safety of the patients in the licensed facility.
9. The licensing agency may charge the licensed entity submitting the fingerprints a fee not to exceed Fifty Dollars (\$50.00).
10. Should results of an employee applicant's criminal history record check reveal no disqualifying event, then the covered entity shall, within two (2) weeks of the notification of no disqualifying event, provide the employee applicant with a notarized letter signed by the chief executive officer of the covered entity, or his or her authorized designee, confirming the employee applicant's suitability for employment based on his or her criminal history record check. An employee applicant may use that letter for a period of two (2) years from the date of the

letter to seek employment at any covered entity licensed by the Mississippi State Department of Health without the necessity of an additional criminal record check. Any covered entity presented with the letter may rely on the letter with respect to an employee applicant's criminal background and is not required for a period of two (2) years from the date of the letter to conduct or have conducted a criminal history record check as required in this subsection.

11. For individuals contracted through a third party who provide direct patient care as defined herein, the covered entity shall require proof of a criminal history record check.
12. Pursuant to Section 43-11-13, Mississippi Code of 1972, the licensing agency, the covered entity, and their agents, officers, employees, attorneys and representatives, shall be presumed to be acting in good faith for any employment decision or action taken under this section. The presumption of good faith may be overcome by a preponderance of the evidence in any civil action. No licensing agency, covered entity, nor their agents, officers, employees, attorneys and representatives shall be held liable in any employment discrimination suit in which an allegation of discrimination is made regarding an employment decision authorized under this section.

Rule 48.11.7. **Employee Testing for Tuberculosis**

1. Each employee, upon employment of a licensed entity and prior to contact with any patient/client, shall be evaluated for tuberculosis by one of the following methods:
 - a. IGRA (blood test) and an evaluation of the individual for signs and symptoms of tuberculosis by medical personnel; or
 - b. A two-step Mantoux tuberculin skin test administered and read by a licensed medical/nursing person certified in the techniques of tuberculin testing **and** an evaluation of the individual for signs and symptoms of tuberculosis by a licensed Physician, Physician's Assistant, Nurse Practitioner or a Registered Nurse.
2. The IGRA/Mantoux testing and the evaluation of signs/symptoms may be administered/conducted on the date of hire or administered/read no more

than 30 days prior to the individual's date of hire; however, the individual must not be allowed contact with a patient or work in areas of the RBIR where patients have access until receipt of the results of the IGRA/assessment or at least the first of the two-step Mantoux test has been administered/read and assessment for the signs and symptoms completed.

3. If the Mantoux test is administered, results must be documented in millimeters. Documentation of the IGRA/TB skin test results and assessment must be documented in accordance with accepted standards of medical/nursing practice and must be placed in the individual's personnel file no later than 7 days of the individual's date of employment. If an IGRA is performed, results and quantitative values must be documented.
4. Any employee noted to have a newly positive IGRA, a newly positive Mantoux skin test or signs/symptoms indicative of tuberculin disease (TB) that last longer than three weeks (regardless of the size of the skin test or results of the IGRA), shall have a chest x-ray interpreted by a board certified Radiologist and be evaluated for active tuberculosis by a licensed physician within 72 hours. The employee shall not be allowed to work in any area where clients have routine access until evaluated by a physician/nurse practitioner/physician assistant and approved to return. Exceptions to this requirement may be made if the employee is asymptomatic and:
 - a. The individual is currently receiving or can provide documentation of having received a course of tuberculosis prophylactic therapy approved by the Mississippi State Department of Health (MSDH) Tuberculosis Program for tuberculosis infection, or
 - b. The individual is currently receiving or can provide documentation of having received a course of multi-drug chemotherapy approved by the MSDH Tuberculosis Program; or
 - c. The individual has a documented previous significant tuberculin skin reaction or IGRA reaction.
5. For individuals noted to have a previous positive to either Mantoux testing or the IGRA, annual re-evaluation for the signs and symptoms must be conducted and must be maintained as part of the employee's annual health screening. A follow-up annual chest x-ray is NOT required unless symptoms of active tuberculosis develop.
6. If using the Mantoux method, employees with a negative tuberculin skin test and a negative symptom assessment shall have the second step of the two- step Mantoux tuberculin skin test performed and documented in the employees' personal record within fourteen (14) days of employment.

7. The IGRA or the two-step protocol is to be used for each employee who has not been previously skin tested and/or for whom a negative test cannot be documented within the past 12 months. If the employer has documentation that the employee has had a negative TB skin test within the past 12 months, a single test performed thirty (30) days prior to employment or immediately upon hire will fulfill the two-step requirements. As above, the employee shall not have contact with clients or be allowed to work in areas of the RBIR to which clients have routine access prior to reading the skin test, completing a signs and symptoms assessment and documenting the results and findings.
8. Facilities shall comply with recommendations from the Centers for Disease Control and/or the Mississippi State Department of Health regarding baseline employee TB testing and routine serial employee TB testing and education. Staff exposed to an active infectious case of tuberculosis shall be treated as contacts and be managed appropriately. Individuals found to have a significant Mantoux tuberculin skin test reaction and a chest x-ray not suggestive of active tuberculosis, shall be evaluated by a physician or nurse practitioner/physician assistant for treatment of latent tuberculin infection.

Rule 48.11.8. **Admission Agreement.** Prior to, or at the time of admission, the operator and the resident or the resident's responsible party shall execute in writing a financial agreement. This agreement shall be prepared and signed in two or more copies, one copy given to the resident or his/her responsible party, and one copy placed on file in the licensed facility.

1. As a minimum, this agreement shall contain specifically:
 - a. Basic charges agreed upon (room, board, laundry, and personal care).
 - b. Period to be covered in the charges.
 - c. Services for which special charges are made.
 - d. Agreement regarding refunds for any payments made in advance.
 - e. A statement that the operator shall make the resident's responsible party aware, in a timely manner, of any changes in resident's status, including those which require transfer and discharge; or operators who have been designated as a resident's responsible party shall ensure prompt and efficient action to meet resident's needs.
2. No agreement or contract shall be entered into between the licensee and the resident or his responsible agent which will relieve the licensee of the

responsibility for the protection of the person and personal property of the individual admitted to the licensed facility for care.

3. Any funds given or provided for the purpose of supplying services to any patient in any licensed facility, and any funds otherwise received and held from, for or on behalf of any such resident, shall be deposited by the director or other proper officer of the licensed facility to the credit of that patient in an account which shall be known as the Resident's Personal Deposit Fund. No more than one (1) month charge for the care, support, maintenance, and medical attention of the patient shall be applied from such account at any one (1) time. After the death, discharge, or transfer of any resident for whose benefit any such fund has been provided, any unexpended balance remaining in his personal deposit fund shall be applied for the payment of care, cost of support, maintenance, and medical attention which is accrued. In the event any unexpended balance remains in that resident's personal deposit fund after complete reimbursement has been made for payment of care, support, maintenance, and medical attention, and the director or other proper officer of the licensed facility has been or shall be unable to locate the person or persons entitled to such unexpended balance, the director or other proper officer may, after the lapse of one (1) year from the date of such death, discharge, or transfer, deposit the unexpended balance to the credit of the licensed facility's operating fund.
4. The resident or his responsible party shall be furnished a receipt signed by the licensee of the licensed facility or his lawful agent, for all sums of money paid to the licensed facility.
5. Written notification shall be given to the resident/responsible party when basic charges and/or licensed facility policies change.

Rule 48.11.9. Records and Reports.

1. The operator shall maintain a record of the residents for whom he or she serves as the conservator or a representative payee. This record shall include evidence of the means by which the conservatorship or representative payee relationship was established and evidence of separate accounts in a bank for each resident whose conservator or representative payee is the operator of the licensed facility.
2. Inspection reports from the licensing agency, any branch or division thereof by the operator in the licensed facility, and submitted to the licensing agency as required, or when requested.
3. Resident records shall contain the following:
 - a. Admission agreement(s) and financial statements.
 - b. Residents' rights and licensed facility's rules, signed, dated, and witnessed.

- c. Medical evaluation and referral from physician or nurse practitioner/physician assistant.
 - d. Current medication record, including any reactions to such medication.
 - e. Social services and activity contacts.
 - f. General information form.
 - g. Representative payee statement, if applicable.
 - h. Physician orders or nurse practitioner/physician assistant orders (including, but not limited to, therapies, diets, medications, etc.) and medication administration records.
- 4. The records as described in this section shall be made available to the resident, the resident's family, or other responsible party for the resident upon reasonable request.
 - 5. Reporting of Tuberculosis Testing. The facility **shall** report and comply with the annual MDH TB Program surveillance procedures.

Rule 48.11.11. **Residents' Rights.** These rights and licensed facility rules must be in writing and be made available to all residents, employees, sponsors, and posted for public viewing. Each resident shall:

- 1. Have the right to attend religious and other activities of his/her choice.
- 2. Have the right to manage his/her personal financial affairs, or is given at least a quarterly accounting of financial transactions made on his/her behalf should the facility accept the written delegation from the resident or from his/her responsible party of this responsibility to the facility for any period of time in conformance with State law.
- 3. Not be required to perform services for the licensed facility.
- 4. Have the right to communicate with persons of his/her choice, and may receive mail unopened or in compliance with the policies of the home.
- 5. Be treated with consideration, kindness, respect, and full recognition of his/her dignity and individually.

6. May retain and use personal clothing and possessions as space permits.
7. May voice grievances and recommend changes in licensed facility policies and services.
8. Shall not be confined to the licensed facility against his/her will, and shall be allowed to move about in the community at liberty. Physical and/or chemical restraints are prohibited.
9. Not be limited in his/her choice of a pharmacy or pharmacist provider in accordance with State law.

Subchapter 12 MEDICAL AND PERSONAL CARE SERVICES

Rule 48.12.1. **Admission and Discharge.** The following criteria must be applied and maintained for resident placement in a licensed facility.

1. A person shall not be admitted or continue to reside in a licensed facility if the person:
 - a. Is not ambulatory;
 - b. Requires physical restraints;
 - c. Poses a serious threat to himself or herself or others;
 - d. Requires nasopharyngeal and/or tracheotomy suctioning;
 - e. Requires gastric feedings;
 - f. Requires intravenous fluids, medications, or feedings;
 - g. Requires a indwelling urinary catheter;
 - h. Requires sterile wound care; or
 - i. Requires treatment of decubitus ulcer or exfoliative dermatitis.
2. Licensed facilities which are not accessible to individuals with disabilities through the A.N.S.I. Standards as they relate to facility accessibility may not accept wheelchair bound residents. Only those persons who, in an emergency, would be physically and mentally capable of traveling to safety may be accepted. For multilevel facilities, no residents may be placed above the ground floor level that are unable to descend the stairs unassisted.
3. The licensed facility must be able to identify at the time of admission and during continued stay those residents whose needs for services are consistent with these

rules and regulations, and those residents who should be transferred to an appropriate level of care.

4. Notwithstanding any determination by the licensing agency that skilled nursing services would be appropriate for a resident of a personal care home, that resident, the resident's guardian, or the legally recognized responsible party for the resident may consent in writing for the resident to continue to reside in the personal care home, if approved in writing by a licensed physician. Provided, however, that no personal care home shall allow more than two (2) residents, or ten percent (10%) of number of residents in the facility, whichever is greater, to remain in the personal care home under the provisions herein. This consent shall be deemed to be appropriately informed consent as described by these regulations. After that written consent has been obtained, the resident shall have the right to continue to reside in the personal care home for as long as the resident meets the other conditions for residing in the personal care home. A copy of the written consent and the physician's approval shall be forwarded by the personal care home to the licensing agency within thirty (30) days of the issuance of the latter of the two (2) documents.
5. The licensed facility which accepts and admits residents requiring mental health services shall help arrange transportation to mental health appointments and cooperate with the community mental health center or other provider of mental health care, as necessary, to ensure access to and the coordination of care, within limits of the confidentiality and privacy rights of the individual receiving services.

Rule 48.12.2. **Medical Evaluation.** Each person applying for admission to a licensed facility shall be given a thorough examination by a licensed physician or certified nurse practitioner/physician assistant within thirty (30) days prior to admission. The examination shall indicate the appropriateness of admission, according to the above criteria, to a licensed facility with an annual update by a physician and/or nurse practitioner/physician assistant.

SOURCE: Miss. Code Ann. §43-11-13

Rule 48.12.3. **Admission Requirements to Rule Out Active Tuberculosis (TB)**

1. The following are to be performed and documented within 30 days prior to the resident's admission to the licensed facility:
 - a. A TB signs and symptoms assessment by a licensed physician, physician assistant or nurse practitioner; and
 - b. A chest x-ray taken and have a written interpretation.
2. Admission to the facility shall be based on the results of the required tests as follows:

- a. **Residents with an abnormal chest x-ray and/or signs and symptoms assessment** shall have the first step of a two-step Mantoux tuberculin skin test (TST) placed and read by certified personnel OR an IGRA (blood test) drawn and results documented within 30 days prior to the patient's admission to the "Licensed facility". Evaluation for active TB shall be at the recommendation of the MSDH and shall be prior to admission. If TB is ruled out and the first step of the TST is negative, the second step of the two-step TST shall be completed and documented within 10-21 days of admission. TST administration and reading shall be done by certified personnel. If an IGRA (blood test) is done, TST (first and/or second step) is not done.
- b. **Residents with a normal chest x-ray and no signs or symptoms of TB** shall have a baseline IGRA test (blood test) OR a TST performed with the initial step of the two-step Mantoux TST placed on or within 30 days prior to the day of admission. IF TST is done, the second step shall be completed within 10-21 days of the first step. TST administration and reading shall be done by certified personnel. If an IGRA (blood test) is done, a TST is not done (first or second step).
- c. **Residents with a significant TST OR positive IGRA (blood test)** upon baseline testing or who have documented prior significant TST shall be monitored regularly for signs and symptoms of active TB (cough, sputum production, chest pain, fever, weight loss, or night sweats, especially if the symptoms have lasted longer than three weeks) and if these symptoms develop, shall have an evaluation for TB per the recommendations of the MSDH within 72 hours.
- d. **Residents with a non significant TST** or negative IGRA (blood test) upon baseline testing shall have an annual tuberculosis testing within thirty (30) days of the anniversary of their last test. Note: Once IGRA testing is used, IGRA testing should continue to be used rather than TST testing.
- e. **Residents with a new significant TST or newly positive IGRA** (blood test) on annual testing shall be evaluated for active TB by a nurse practitioner or physician or physician's assistant.
- f. **Active or suspected Active TB Admission.** If a resident has or is suspected to have active TB, prior written approval for admission to the facility is required from the MSDH TB State Medical Consultant.
- g. **Exceptions to TST/ IGRA requirement may be made if:**
 - i. Resident has prior documentation of a significant TST/positive IGRA.
 - ii. Resident has received or is receiving a MSDH approved treatment regimen for latent TB infection or for active TB disease.
 - iii. Resident is excluded by a licensed physician or nurse

practitioner/physician assistant due to medical contraindications.

Subchapter 13 FOOD SERVICE

Rule 48.13.1. **Meals.** The licensed facility shall provide residents with well-planned, attractive, and satisfying meals at least three (3) times daily, seven (7) days a week, which will meet their nutritional, social, emotional and therapeutic needs. The daily food allowance shall meet the current recommended dietary allowances.

1. Meals shall be planned one (1) week in advance. A record of meals served shall be maintained for a one (1) month period. Current menus must be posted and dated.
2. A record of all food purchases shall be maintained in the licensed facility for a one (1) month period.
3. All food served in licensed facilities shall comply with the following:

- a. No game or home canned foods shall be served; and
 - b. Other than fresh or frozen vegetables and fruit, all foods must be from commercial sources.
4. All meals for residents who require therapeutic diets shall be planned by a Licensed Dietitian. If a therapeutic diet is prescribed by the physician for the resident, the licensed dietitian shall visit the licensed facility at a minimum of once every thirty (30) days, and shall file a consulting report with the licensed facility.

Subchapter 9 PROVISION FOR HEARING AND APPEAL FOLLOWING DENIAL OR REVOCATION OF LICENSE; PENALTIES

Rule 49.9.1 Administrative Decision. The licensing agency will provide an opportunity for a fair hearing to every applicant or licensee who is dissatisfied with administrative decisions made in the denial or revocation of a license or for adverse actions or who qualifies pursuant to Subchapter 8 to appeal

1. The licensing agency shall notify the applicant or licensee by certified mail or personal service the particular reasons for the proposed denial or revocation of license. Upon written request of applicant or licensee within ten (10) days of

the date of notification the licensing agency shall fix a date not less than thirty (30) days from the date of such service at which time the applicant or licensee shall be given an opportunity for a prompt and fair hearing.

2. The licensing agency shall notify the licensee of a ban on all admissions imposed as a result of immediate jeopardy survey findings. The ban on admissions will be imposed five (5) calendar days after the receipt of the notice by the licensee of the ICF-IID and/or the ICF-IID residential community home. A hearing must be requested within five (5) calendar days of receipt of the notice. In addition, the licensing agency shall provide notice to the licensee related to compensation and per diem costs for a temporary manager and/or state monitoring as applicable. Within 15 days of receipt of the notice, the ICF-IID or the ICF-IID Residential Community Home shall pay the bill or request an administrative hearing to contest the costs for which it was billed. The licensing agency shall fix a date not less than ten (10) days from the date of such service at which time the licensee of the ICF-IID or the ICF-IID residential community home shall be given an opportunity for a prompt and fair hearing.
3. On the basis of such hearing or upon default of the applicant or licensee, the licensing agency shall make a determination specifying its findings of fact and conclusions of law. A copy of such determination shall be sent by registered mail to the last known address of the applicant or licensee or served personally upon the applicant or licensee.
4. The decision revoking, suspending, denying the application of license shall become final thirty (30) days after it is so mailed or served upon the applicant or licensee; however in matters involving the revocation, suspension, or denial of an application or license, or adverse actions imposed by the licensing agency as a result of immediate jeopardy survey findings resulting in a ban on all admissions, and compensation and per diem costs related to a temporary manager and/or state monitoring as applicable, the applicant or licensee may within such thirty (30) day period, appeal the decision to the Chancery Court pursuant to §43-11-23 of the Mississippi Code of 1972, as amended. An additional period of time may be granted at the discretion of the licensing agency.

Subchapter 14 EMERGENCY OPERATIONS PLAN (EOP)

Rule 49.14.1 The licensed entity shall develop and maintain a written preparedness plan utilizing the “All Hazards” approach to emergency and disaster planning. The plan must include procedures to be followed in the event of any act of terrorism or man-made or natural disaster as appropriate for the specific geographical location. The final draft of the Emergency Operations Plan (EOP), will be reviewed by the Office of Emergency Preparedness and Response, Mississippi State Department of Health, or their designates, for conformance with the “All Hazards Emergency Preparedness and Response Plan.” Particular attention shall be given to critical areas of concern which may arise during any “all hazards” emergency whether required to evacuate or to sustain in place. Additional plan criteria or a specified EOP format may be required as deemed necessary by the Office of Emergency Preparedness and Response. The six (6) critical areas of consideration are:

1. Communications - Facility status reports shall be submitted in a format and a frequency as required by the Office of EOP.
2. Resources and Assets
3. Safety and Security
4. Staffing

5. Utilities
6. Clinical Activities.
7. Emergency Operations Plans (EOPs) must be exercised and reviewed annually or as directed by the Office of Emergency Preparedness and Response. Written evidence of current approval or review of provider EOPs, by the Office of Emergency Preparedness and Response, shall accompany all applications for ICF-IID license renewals.

Rule 49.16.3 Criminal History Record Checks. Pursuant to Section 43-11-13, Mississippi Code of 1972, the covered entity shall require to be performed a disciplinary check with the professional licensing agency, if any, for each employee to determine if any disciplinary action has been taken against the employee by the agency, and a criminal history record check on:

1. Every new employee of a covered entity who provides direct patient care or services and who is employed on or after July 01, 2003, and
2. Every employee of a covered entity employed prior to July 01, 2003, who has documented disciplinary action by his or her present employer.
3. Except as otherwise provided in this paragraph, no employee hired on or after July 01, 2003, shall be permitted to provide direct patient care until the results of the criminal history record check revealed no disqualifying record or the employee has been granted a waiver. Provided the covered entity has documented evidence of submission of fingerprints for the background check, any person may be employed and provide direct patient care on a temporary basis pending the results of the criminal history record check but any employment offer, contract, or arrangement with the person shall be voidable, if he/she receives a disqualifying criminal record check and no waiver is granted.
4. If such criminal history record check discloses a felony conviction; a guilty plea; and/or a plea of nolo contendere to a felony for one (1) or more of the following crimes which has not been reversed on appeal, or for which a pardon has not been granted, the applicant/employee shall not be eligible to be employed at the licensed ICF-IID:
 - a. possession or sale of drugs
 - b. murder

- c. manslaughter
 - d. armed robbery
 - e. rape
 - f. sexual battery
 - g. sex offense listed in Section 45-33-23(g), Mississippi Code of 1972
 - h. child abuse
 - i. arson
 - j. grand larceny
 - k. burglary
 - l. gratification of lust
 - m. aggravated assault
 - n. felonious abuse and/or battery of vulnerable adult
5. Documentation of verification of the employee's disciplinary status, if any, with the employee's professional licensing agency as applicable, and evidence of submission of the employee's fingerprints to the licensing agency must be on file and maintained by the ICF-IID prior to the new employees first date of employment. The covered entity shall maintain on file evidence of verification of the employee's disciplinary status from any applicable professional licensing agency and of submission and/or completion of the criminal record check, the signed affidavit, if applicable, and/or a copy of the referenced notarized letter addressing the individual's suitability for such employment.
 6. Pursuant to Section 43-11-13, Mississippi Code of 1972, the licensing agency shall require every employee of a covered entity employed prior to July 01, 2003, to sign an affidavit stating that he or she does not have a criminal history as outlined in paragraph (3) above.
 7. From and after December 31, 2003, no employee of a covered entity hired before July 01, 2003, shall be permitted to provide direct patient care unless the employee has signed an affidavit as required by this section. The covered entity shall place the affidavit in the employee's personnel file as proof of compliance with this section.
 8. If a person signs the affidavit required by this section, and it is later determined that the person actually had been convicted of or pleaded guilty or *nolo contendere* to any of the offenses listed herein, and the conviction or pleas has

not been reversed on appeal or a pardon has not been granted for the conviction or plea, the person is guilty of perjury as set out in Section 43-11-13, Mississippi Code of 1972. The covered entity shall immediately institute termination proceedings against the employee pursuant to the ICF-IID's policies and procedures.

9. The covered entity may, in its discretion, allow any employee unable to sign the affidavit required by paragraph (7) of this subsection or any employee applicant aggrieved by the employment decision under this subsection to appear before the covered entity's hiring officer, or his or her designee, to show mitigating circumstances that may exist and allow the employee or employee applicant to be employed at the covered entity. The covered entity, upon report and recommendation of the hiring officer, may grant waivers for those mitigating circumstances, which shall include, but not be limited to: (1) age at which the crime was committed; (2) circumstances surrounding the crime; (3) length of time since the conviction and criminal history since the conviction; (4) work history; (5) current employment and character references; and (6) other evidence demonstrating the ability of the individual does not pose a threat to the health or safety of the patients in the licensed ICF-IID.
10. The licensing agency may charge the covered entity submitting the fingerprints a fee not to exceed Fifty Dollars (\$50.00).
11. Should results of an employee applicant's criminal history record check reveal no disqualifying event, then the covered entity shall, within two (2) weeks of the notification of no disqualifying event, provide the employee applicant with a notarized letter signed by the chief executive officer of the covered entity, or his or her authorized designee, confirming the employee applicant's suitability for employment based on his or her criminal history record check. An employee applicant may use that letter for a period of two (2) years from the date of the letter to seek employment at any covered entity licensed by the Mississippi State Department of Health without the necessity of an additional criminal record check. Any covered entity presented with the letter may rely on the letter with respect to an employee applicant's criminal background and is not required for a period of two (2) years from the date of the letter to conduct or have conducted a criminal history check as required in this subsection.
12. For individuals contacted through a third party who provide direct patient care as defined herein, the covered entity shall require proof of a criminal history record check.
13. Pursuant to Section 43-11-13, Mississippi Code of 1972, the licensing agency, the covered entity, and their agents, officer, employees, attorneys, and representatives, shall be presumed to be acting in good faith for any employment decision or action taken under this section. The presumption of good faith may be overcome by a preponderance of the evidence in any civil action. No licensing agency, covered entity, nor their agents, officers,

employees, attorneys and representatives shall be held liable in any employment discrimination suit in which an allegation of discrimination is made regarding an employment decision authorized under this section.

Rule 49.16.5 Employee Health Screening. All staff of an ICF-IID and/or ICF-IID Residential Community Home shall receive a health screening by a licensed physician, registered nurse, or nurse practitioner/physician assistant prior to employment and annually thereafter. The extent of the screening shall be determined by committee consisting of at least a licensed physician, nurse practitioner/physician assistant or a registered nurse, and the ICF-IID administrator.

1. There shall be written evidence on file at the ICF-IID indicating that such a committee met to develop a policy for the ICF-IID employee health screening program. This policy shall include:
 - a. What constitutes an adequate health screening.
 - b. The health professional designated to conduct the screening.
2. The written policy shall be evaluated periodically by said committee.

Rule 49.16.6 Employee Testing for Tuberculosis

1. Each employee, upon employment of a licensed entity and prior to contact with any patient/client, shall be evaluated for tuberculosis by one of the following methods:
 - a. IGRA (blood test) and an evaluation of the individual for signs and symptoms of tuberculosis by medical personnel; or
 - b. A two-step Mantoux tuberculin skin test administered and read by a licensed medical/nursing person certified in the techniques of tuberculin testing **and** an evaluation of the individual for signs and symptoms of tuberculosis by a licensed Physician, Physician's Assistant, Nurse Practitioner or a Registered Nurse.

2. The IGRA/Mantoux testing and the evaluation of signs/symptoms may be administered/conducted on the date of hire or administered/read no more than 30 days prior to the individual's date of hire; however, the individual must not be allowed contact with a patient or work in areas of the RBIR where patients have access until receipt of the results of the IGRA/assessment or at least the first of the two-step Mantoux test has been administered/read and assessment for the signs and symptoms completed.
3. If the Mantoux test is administered, results must be documented in millimeters. Documentation of the IGRA/TB skin test results and assessment must be documented in accordance with accepted standards of medical/nursing practice and must be placed in the individual's personnel file no later than 7 days of the individual's date of employment. If an IGRA is performed, results and quantitative values must be documented.
4. Any employee noted to have a newly positive IGRA, a newly positive Mantoux skin test or signs/symptoms indicative of tuberculin disease (TB) that last longer than three weeks (regardless of the size of the skin test or results of the IGRA), shall have a chest x-ray interpreted by a board certified Radiologist and be evaluated for active tuberculosis by a licensed physician within 72 hours. The employee shall not be allowed to work in any area where clients have routine access until evaluated by a physician/nurse practitioner/physician assistant and approved to return. Exceptions to this requirement may be made if the employee is asymptomatic and:
 - a. The individual is currently receiving or can provide documentation of having received a course of tuberculosis prophylactic therapy approved by the Mississippi State Department of Health (MSDH) Tuberculosis Program for tuberculosis infection, or
 - b. The individual is currently receiving or can provide documentation of having received a course of multi-drug chemotherapy approved by the MSDH Tuberculosis Program; or
 - c. The individual has a documented previous significant tuberculin skin reaction or IGRA reaction.
5. For individuals noted to have a previous positive to either Mantoux testing or the IGRA, annual re-evaluation for the signs and symptoms must be conducted and must be maintained as part of the employee's annual health screening. A follow-up annual chest x-ray is NOT required unless symptoms of active tuberculosis develop.
6. If using the Mantoux method, employees with a negative tuberculin skin test and

a negative symptom assessment shall have the second step of the two- step Mantoux tuberculin skin test performed and documented in the employees' personal record within fourteen (14) days of employment.

7. The IGRA or the two-step protocol is to be used for each employee who has not been previously skin tested and/or for whom a negative test cannot be documented within the past 12 months. If the employer has documentation that the employee has had a negative TB skin test within the past 12 months, a single test performed thirty (30) days prior to employment or immediately upon hire will fulfill the two-step requirements. As above, the employee shall not have contact with clients or be allowed to work in areas of the RBIR to which clients have routine access prior to reading the skin test, completing a signs and symptoms assessment and documenting the results and findings.
8. Facilities shall comply with recommendations from the Centers for Disease Control and/or the Mississippi State Department of Health regarding baseline employee TB testing and routine serial employee TB testing and education. Staff exposed to an active infectious case of tuberculosis shall be treated as contacts and be managed appropriately. Individuals found to have a significant Mantoux tuberculin skin test reaction and a chest x-ray not suggestive of active tuberculosis, shall be evaluated by a physician or nurse practitioner/physician assistant for treatment of latent tuberculin infection

Subchapter 17 CLIENTS' RIGHTS

Rule 49.17.1 **General.** The ICF-IID shall maintain written policies and procedures regarding the rights and responsibilities of clients. These written policies and procedures shall be established in consultation with clients or responsible parties. Written policies and procedures regarding clients' rights shall be made available to clients or their guardian, next of kin, sponsoring agency or agencies, or lawful representative and to the public. There shall be documented evidence that the staff of the ICF-IID is trained and involved in the implementation of these policies and procedures. In-service on clients' rights and responsibilities shall be conducted annually. These rights and responsibilities shall be posted throughout the ICF-IID for the benefit of all staff and clients.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.17.2 **Clients' Rights.** The clients' rights policies and procedures ensure that each client admitted to the ICF-IID:

1. is fully informed, as evidenced by the client's written acknowledgment, prior to or at the time of admission and during stay, of these rights and is given a statement of the ICF-IID's rules and regulations and an explanation of the client's responsibility to obey all reasonable regulations of the ICF-IID and to respect the personal rights and private property of other clients;
2. is fully informed, and is given a written statement prior to or at time of admission and during stay, of services available in the ICF-IID, and of related charges including any charges for services covered by the ICF-IID basic per diem rate;
3. is assured of adequate and appropriate medical care, is fully informed by a physician or nurse practitioner/physician assistant of his medical conditions unless medically contraindicated (as documented by a physician or nurse practitioner/physician assistant in his medical record), is afforded the opportunity to participate in the planning of his medical treatment, to not be limited in his/her choice of a pharmacy or pharmacist provider in accordance with state law, as referenced in House Bill 1439, which states that the ICF-IID shall not limit a client's choice of pharmacy or pharmacy provider if that provider meets the same standards of dispensing guidelines required of long term care facilities, to refuse to participate in experimental research, and to refuse medication and treatment after fully informed of and understanding the consequences of such action;
4. is transferred or discharged only for medical reasons, or for his welfare or that of other clients, or for nonpayment for his stay (except as prohibited by sources of third-party payment), and is given a two weeks advance notice in writing to ensure orderly transfer or discharge. A copy of this notice is maintained in his medical record;

5. is encouraged and assisted, throughout his period of stay, to exercise his rights as a client and as a citizen, and to this end may voice grievances, has a right of action for damages or other relief for deprivations or infringements of his right to adequate and proper treatment and care established by an applicable statute, rule, regulation or contract, and to recommend changes in policies and services to ICF-IID staff and/or to outside representatives of his choice, free from restraint, interference, coercion, discrimination, or reprisal;
6. may manage his personal financial affairs, or is given at least a quarterly accounting of financial transactions made on his behalf should the ICF-IID accept his written delegation of this responsibility to the ICF-IID for any period of time in conformance with State law;
7. is free from mental, physical, and/or verbal abuse; and exploitation and/or misappropriation of client property
8. is free from restraint except by order of a physician or nurse practitioner/physician assistant, or unless it is determined that the client is a threat to himself or to others. Physical and chemical restraints shall be used for medical conditions that warrant the use of a restraint. Restraint is not to be used for discipline or staff convenience. The ICF-IID must have policies and procedures addressing the use and monitoring of restraint. A physician order for restraint must be countersigned within 24 hours of the emergency application of the restraint;
9. is assured security in storing personal possessions and confidential treatment of his personal and medical records, and may approve or refuse their release to any individual outside the ICF-IID, except, in the case of his transfer to another health care institution, or as required by law of third-party payment contract;
10. is treated with consideration, respect, and full recognition of his dignity and individuality, including privacy in treatment and in care for his personal needs;
11. is not required to perform services for the ICF-IID that are not included for therapeutic purposes in their individual program plan;
12. may associate and communicate privately with persons of his choice, may join with other clients or individuals within or outside of the ICF-IID to work for improvements in client care, and send and receive his personal mail unopened, unless medically contraindicated (as documented by his physician or nurse practitioner/physician assistant in his medical record);
13. may meet with, and participate in activities of, social, religious and community groups at his discretion, unless medically contraindicated (as documented by his physician or nurse practitioner/physician assistant in his medical record);
14. may retain and use his personal clothing and possessions as space permits, unless to do so would infringe upon rights of other clients, unless medically

contraindicated (as documented by his physician or nurse practitioner/physician assistant in his medical record);

15. if married, is assured privacy for visits by his/her spouse; if both are inpatients in the ICF-IID, they are permitted to share a room, unless medically contraindicated (as documented by the attending physician or nurse practitioner/physician assistant in the medical record); and
16. is assured of exercising his civil and religious liberties including the right to independent personal decisions and knowledge of available choice. The ICF-IID shall encourage and assist in the fullest exercise of these rights and shall communicate rights in a manner that is understandable to the client.

Rule 49.20.2 **Tuberculosis (TB).** Admission Requirements to Rule Out Active Tuberculosis (TB)

1. The following are to be performed and documented within 30 days prior to the client's admission to the "Licensed ICF-IID":
 - a. TB signs and symptoms assessment by a licensed Physician, Physician's Assistant or a Licensed Nurse Practitioner, and
 - b. A chest x-ray taken and a written interpretation.
2. Admission to the ICF-IID shall be based on the results of the required tests as follows:
 - a. **Clients with an abnormal chest x-ray and/or signs and symptoms assessment** shall have the first step of a two-step Mantoux tuberculin skin test (TST) placed and read by certified personnel OR an IGRA (blood test) drawn and results documented within 30 days prior to the patient's admission to the "Licensed ICF-IID". Evaluation for active TB shall be at

the recommendation of the MSDH and shall be prior to admission. If TB is ruled out and the first step of the TST is negative, the second step of the two-step TST shall be completed and documented within 10-21 days of admission. TST administration and reading **shall** be done by certified personnel. If an IGRA (blood test) is done, TST (first and/or second step) is not done.

- b. **Clients with a normal chest x-ray and no signs or symptoms of TB** shall have a baseline IGRA test (blood test) OR a TST performed with the initial step of a the two-step Mantoux TST placed on or within 30 days prior to the day of admission. IF TST is done, the second step shall be completed within 10-21 days of the first step. TST administration and reading shall be done by certified personnel. If an IGRA (blood test) is done, a TST is not done (first or second step).
- c. **Clients with a significant TST OR positive IGRA** (blood test) upon baseline testing or who have documented **prior significant TST** shall be monitored regularly for signs and symptoms of active TB (cough, sputum production, chest pain, fever, weight loss, or night sweats, especially if the symptoms have lasted longer than three weeks) and if these symptoms develop, shall have an evaluation for TB per the recommendations of the MSDH within 72 hours.
- d. **Clients with a non significant TST** or negative IGRA (blood test) upon baseline testing shall have an annual tuberculosis testing within thirty (30) days of the anniversary of their last test. Note: Once IGRA testing is used, IGRA testing should continue to be used rather than TST testing.
- e. **Clients with a new significant TST or newly positive IGRA** (blood test) on annual testing shall be evaluated for active TB by a nurse practitioner or physician or physician's assistant.
- f. **Active or suspected Active TB Admission.** If a client has or is suspected to have active TB, prior written approval for admission to the ICF-IID is required from the MSDH TB State Medical Consultant.
- g. **Exceptions to TST/ IGRA requirement may be made if:**
 - i. Client has prior documentation of a significant TST/ positive IGRA.
 - ii. Client has received or is receiving a MSDH approved treatment regimen for latent TB infection or for active TB disease.

Rule 49.31.6 **Employee Toilet Facilities.** Toilet facilities with lockers shall be provided for employees in an ICF-IID. Toilet rooms shall not open directly into any room in which food is prepared, stored, displayed or served, nor into any room in which utensils are washed or stored. Toilet rooms shall have a lavatory and shall be well lighted and ventilated.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.31.7 **Hand washing Facilities.** Hand washing facilities with hot and cold water, soap dispenser and a supply of soap, and disposable towels shall be provided in all kitchens. The use of a common towel is prohibited. Hands shall not be washed in sinks where food is prepared or where utensils are cleaned.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.31.8 **Refrigeration Facilities.** Adequate refrigeration facilities, automatic in operation, for the storage of perishable foods shall be provided. Refrigeration temperatures for storing perishable foods such as meats, dairy products, fruits, and vegetables shall be maintained at forty-one (41) degrees Fahrenheit. Freezers shall be maintained at zero (0) degrees Fahrenheit or below. All refrigerators shall be provided with a thermometer. An ICF-IID with more than twenty-four (24) beds shall have commercial or institutional type refrigeration.

Subchapter 32 AREAS AND EQUIPMENT IN AN ICF-IID

Rule 49.32.1 **Location and Space Requirements.** Food service facilities shall be located in a specifically designated area and shall include the following rooms and/or spaces: kitchen, dishwashing, food storage, and dining room.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.32.2 Kitchen.

1. **Size and Dimensions.** The minimum area of kitchen (food preparation only) for less than twenty-five (25) beds shall be a minimum area of two hundred (200) square feet. In ICFs-IID with twenty five (25) beds to sixty (60) beds, a minimum of ten (10) square feet per bed shall be provided. In facilities with sixty-one (61) to eighty (80) beds, a minimum of six (6) square feet per bed shall be provided for each bed over sixty (60) in the home. In facilities with eighty-one (81) to one hundred (100) beds, a minimum of five (5) square feet per bed shall be provided for each bed over eighty (80). In facilities with more than one hundred (100) beds proportionate space approved by the licensing agency shall be provided. Also, the kitchen shall be of such size and dimensions in order to:
 - a. Permit orderly and sanitary handling and processing of food.
 - b. Avoid overcrowding and congestion of operations.

- c. Provide at least three (3) feet between working areas and wider if space is used as a passageway.
 - d. Provide a ceiling height of at least eight (8) feet.
2. **Equipment.** Minimum equipment in the kitchen in an ICF-IID shall include:
- a. Range and cooking equipment. Facilities with more than twenty-four (24) beds shall have institutional type ranges, ovens, steam cookers, fryers, etc., in appropriate sizes and number to meet the food preparation needs of the ICF-IID. The cooking equipment shall be equipped with a hood vented to the outside as appropriate.
 - b. Refrigerator and Freezers. Facilities with more than twenty-four (24) beds shall have sufficient commercial or institutional type refrigeration/freezer units to meet the storage needs of the ICF-IID.
 - c. Bulletin Board.
 - d. Clock.
 - e. Cook's table.
 - f. Counter or table for tray set-up.
 - g. Cans garbage (heavy plastic or galvanized).
 - h. Lavatories, hand washing; conveniently located throughout the department.
 - i. Pots, pans, silverware, dishes, and glassware in sufficient numbers with storage space for each.
 - j. Pot and Pan Sink. A three compartment sink shall be provided for cleaning pots and pans. Each compartment shall be a minimum of twenty-four (24) inches by twenty-four (24) inches by sixteen (16) inches. A drain board of approximately thirty (30) inches shall be provided at each end of the sink, one to be used for stacking soiled utensils and the other for draining clean utensils.
 - k. Food Preparation Sink. A double compartment food preparation sink shall provide for washing vegetables and other foods. A drain board shall be provided at each end of the sink.
 - l. Ice Machine. At least one ice machine shall be provided. If there is only one (1) ice machine in the ICF-IID it shall be located adjacent to but not in the kitchen. If there is an ice machine located at nursing station, then ice machine for dietary shall be located in the kitchen. An ice machine is not

required in an ICF-IID Group Home or ICF-IID Residential Community Home.

- m. Office. An office shall be provided near the kitchen for the use of the food service supervisor. As a minimum, the space provided shall be adequate for a desk, two chairs and a filing cabinet.
- n. Coffee Tea and Milk Dispenser. (Milk dispenser not required if milk is served in individual cartons).
- o. Tray assembly line equipment with tables, hot food tables, tray slide, etc.
- p. Mixer. Institutional type mixer of appropriate size.
- q. Food Processor.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.32.3 **Dishwashing.** Commercial or institutional type dishwashing equipment shall be provided in ICFs-IID with more than twenty-four (24) beds. The dishwashing area shall be separated from the food preparation area. If sanitizing is to be accomplished by hot water, a minimum temperature of one hundred eighty (180) degrees Fahrenheit shall be maintained during the rinsing cycle. An alternate method of sanitizing through use of chemicals may be provided if sanitizing standards of the Mississippi State Department of Health Food Code Regulations are observed. Adequate counter-space for stacking soiled dishes shall be provided in the dishwashing area at the most convenient place of entry from the dining room, followed by a disposer with can storage under the counter. There shall be a pre-rinse sink, then the dishwasher and finally a counter or drain for clean dishes.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.32.4 **Food Storage.** A food-storage room with cross ventilation shall be provided in an ICF-IID. Adequate shelving, bins, and heavy plastic or galvanized cans shall be provided. The storeroom shall be of such construction as to prevent the invasion of rodents and insects, the seepage of dust and water leakage, or any other source of contamination. The food-storage room should be adjacent to the kitchen and convenient to the receiving area. The minimum area for a food-storage room shall equal two and one-half (2 1/2) square feet per bed and the width of the aisle shall be a minimum of three (3) feet. Food storage shall be maintained at 12 inches above the floor.

Subchapter 33 SANITATION AND SEWERAGE: SANITATION IN THE ICF-IID AND/OR THE ICF-IID RESIDENTIAL COMMUNITY HOME

Rule 49.33.1 **Water Supply.**

1. If at all possible, all water shall be obtained from a community public water supply (CWS). If not possible to obtain water from a community public water supply (CWS) source, the private water supply shall meet the approval of the local county health department and/or the Mississippi State Department of Health.
2. Water under pressure sufficient to operate fixtures at the highest point during maximum demand periods shall be provided. Water under pressure of at least twenty (20) pounds per square inch shall be piped to all sinks, toilets, lavatories, tubs, showers, and other fixtures requiring water.
3. It is recommended that the water supply into the ICF-IID can be obtained from two (2) separate water lines if possible.
4. A dual hot water supply shall be provided. The temperature of hot water to lavatories and bathing facilities shall not exceed one hundred fifteen (115) degrees Fahrenheit, nor shall hot water be less than one hundred (100) degrees Fahrenheit.
5. Each ICF-IID shall have a written agreement for an alternate source of potable water in the event of a disruption of the normal water supply.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.33.2 Disposal of Liquid and Human Wastes.

1. There shall be installed within the ICF-IID a properly designed waste disposal system connecting to all fixtures to which water under pressure is piped.
2. All liquid and human waste, including floor-wash water and liquid waste from refrigerators, shall be disposed of through trapped drains into a public sewer system where such system is available.
3. In localities where a public sanitary sewer is not available, liquid and human waste shall be disposed of through trapped drains into sewerage disposal system approved by the local county health department and/or the Mississippi State Department of Health. The sewerage disposal system shall be of a size and capacity based on the number of clients and personnel housed and employed in the ICF-IID. Where the sewerage disposal system is installed prior to the opening of the ICF-IID, it shall be assumed, unless proven otherwise, that the system was designed for ten (10) or fewer persons.

Rule 49.33.3 Premises. The premises shall be kept neat, clean, and free of an accumulation of rubbish, weeds, ponded water, or other conditions which would have a tendency to create a health hazard.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.33.4 **Control of insects, rodents, etc.** The ICF-IID shall be kept free of ants, flies, roaches, rodents, and other insects and vermin. Proper methods for their eradication and control shall be utilized.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.33.5 **Toilet Room Cleanliness.** Floors, walls, ceilings, and fixtures of all toilet rooms shall be kept clean and free of objectionable odors. These rooms shall be kept free of an accumulation of rubbish, cleaning supplies, toilet articles, etc.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.33.6 **Garbage Disposal.**

1. Garbage must be kept in water-tight suitable containers with tight fitting covers. Garbage containers must be emptied at frequent intervals and cleaned before using again.
2. Proper disposition of infectious materials shall be observed.

Subchapter 34 REGULATED MEDICAL WASTE IN AN ICF-IID AND/OR A ICF-IID RESIDENTIAL COMMUNITY HOME

Rule 49.34.1 **Standards and Requirements.** All the requirements of the standards set forth in this section shall apply, without regard to the quantity of medical waste generated per month, to any generator of medical waste.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.34.2 **Medical Waste.**

1. Medical waste must be kept in water-tight suitable containers with tight fitting covers. Medical waste containers must be emptied at frequent intervals and cleaned before using again.
2. Proper disposition of medical waste materials shall be observed.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.34.3 **Medical Waste Management Plan.** All generators of infectious medical waste and medical waste shall have a medical waste management plan that shall include, but is not limited to, the following:

1. Storage and Containment of Infectious Medical Waste and Medical Waste:

- a. Containment of infectious medical waste and medical waste shall be in a manner and location which affords protection from animals, rain and wind, does not provide a breeding place or a food source for insects and rodents, and minimizes exposure to the public.
- b. Infectious medical waste shall be segregated from other waste at the point of origin in the producing ICF-IID.
- c. Unless approved by the licensing agency or treated and rendered non-infectious, infectious medical waste (except for sharps in approved containers) shall not be stored at a waste producing ICF-IID for more than seven days above a temperature of six (6) degrees Celsius (equivalent to thirty-eight [38] degrees Fahrenheit). Containment of infectious medical waste at the producing ICF-IID is permitted at or below a temperature of zero (0) degrees Celsius (equivalent to thirty-two [32] degrees Fahrenheit) for a period of not more than ninety (90) days without specific approval of the licensing agency.
- d. Containment of infectious medical waste shall be separate from other wastes. Enclosures or containers used for containment of infectious medical waste shall be so secured so as to discourage access by unauthorized persons and shall be marked with prominent warning signs on, or adjacent to, the exterior of entry doors, gates, or lids. Each container shall be prominently labeled with a sign using language to be determined by the licensing agency and legible during daylight hours.
- e. Infectious medical waste, except for sharps capable of puncturing or cutting, shall be contained in double disposable plastic bags or single bags (1.5 mills thick) which are impervious to moisture and have strength sufficient to preclude ripping, tearing, or bursting under normal conditions of usage. The bags shall be securely tied so as to prevent leakage or expulsion of solid or liquid waste during storage, handling, or transport.
- f. All bags used for containment and disposal of infectious medical waste shall be of a distinctive color or display the Universal Symbol for infectious waste. Rigid containers of all sharps waste shall be labeled.
- g. Compactors or grinders shall not be used to process infectious medical waste unless the waste has been rendered noninfectious. Sharps containers shall not be subject to compaction by any compacting device except in the institution itself and shall not be placed for storage or transport in a portable or mobile trash compactor.
- h. Infectious medical waste and medical waste contained in disposable containers as prescribed above, shall be placed for storage, handling, or transport in disposable or reusable pails, cartons, drums, or portable bins.

The containment system shall be leak-proof, have tight fitting covers and be kept clean and in good repair:

- i. Reusable containers for infectious medical waste and medical waste shall be thoroughly washed and decontaminated each time they are emptied by a method specified by the licensing agency, unless the surfaces of the containers have been protected from contamination by disposable liners, bags, or other devices removed with the waste, as outlined in I.E. Approved methods of decontamination include, but are not limited to, agitation to remove visible soil combined with one or more of the following procedures:
 - i. Exposure to hot water at least one-hundred eighty (180) degrees Fahrenheit for a minimum of fifteen (15) seconds.
 - ii. Exposure to a chemical sanitizer by rinsing with or immersion in one of the following for a minimum of three (3) minutes:
 - 1. Hypochlorite solution (500 ppm available chlorine).
 - 2. Phenolic solution (500 ppm active agent).
 - 3. Iodoform solution (100 ppm available iodine).
 - 4. Quaternary ammonium solution (400 ppm active agent).
 - iii. Reusable pails, drums, or bins used for containment of infectious waste shall not be used for containment of waste to be disposed of as noninfectious waste or for other purposes except after being decontaminated by procedures as described in 133.03 (i) of this section.
 - j. Trash chutes shall not be used to transfer infectious medical waste.
 - k. Once treated and rendered non-infectious, previously defined infectious medical waste will be classified as medical waste and may be land-filled in an approved landfill.
2. Treatment or disposal of infectious medical waste shall be by one of the following methods:
- a. By incineration in an approved incinerator which provides combustion of the waste to carbonized or mineralized ash.
 - b. By sterilization by heating in a steam sterilizer, so as to render it noninfectious. Infectious medical waste so rendered non-infectious shall be disposable as medical waste. Operating procedures for steam sterilizers shall include, but not be limited to, the following:

- i. Adoption of standard written operating procedures for each steam sterilizer including time, temperature, pressure, type of waste, type of container(s), closure on container(s), pattern of loading, water content, and maximum load quantity.
- ii. Check or recording and/or indicating thermometers during each complete cycle to ensure the attainment of a temperature of one-hundred twenty-one (121) degrees Celsius (equivalent to two-hundred fifty [250] degrees Fahrenheit) for one-half (1/2) hour or longer, depending on quantity and density of the load, in order to achieve sterilization of the entire load. Thermometers shall be checked for calibration at least annually.
- iii. Use of heat sensitive tape or other device for each container that is processed to indicate the attainment of adequate sterilization conditions.
- iv. Use of the biological indicator *Bacillus stearothermophilus* placed at the center of a load processed under standard operating conditions at least monthly to confirm the attainment of adequate sterilization conditions.
- v. Maintenance of records of procedures specified in (i), (ii), (iii) and (iv) above for period of not less than a year.
- c. By discharge to the approved sewerage system if the waste is liquid or semi-liquid, except as prohibited by the Mississippi State Department of Health or other regulatory agency.
- d. Recognizable human anatomical remains shall be disposed of by incineration or internment, unless burial at an approved landfill is specifically authorized by the Mississippi State Department of Health.
- e. Chemical sterilization shall use only those chemical sterilants recognized by the U. S. Environmental Protection Agency, Office of Pesticides and Toxic Substances. Ethylene oxide, glutaraldehyde, and hydrogen peroxide are examples of sterilants that, used in accordance with manufacturer recommendation, will render infectious waste non-infectious. Testing with *Bacillus subtilis* spores or other equivalent organisms shall be conducted quarterly to ensure the sterilization effectiveness of gas or steam treatment.
- f. Treatment and disposal of medical waste which is not infectious shall be by one of the following methods:
 - i. By incineration in an approved incinerator which provides combustion of the waste to carbonized or mineralized ash.
 - ii. By sanitary landfill, in an approved landfill which shall mean a disposal ICF-IID or part of an ICF-IID where medical waste is placed in or on land, and which is not a treatment ICF-IID.

**Subchapter 35 HOUSEKEEPING AND PHYSICAL PLANT IN AN ICF-IID
AND/OR AN ICF-IID RESIDENTIAL COMMUNITY HOME**

Rule 49.35.1 Housekeeping Facilities and Services.

1. The physical plant shall be kept in good repair, neat, and attractive. The safety and comfort of the client shall be the first consideration.
2. Janitor closets shall be provided with a mop-cleaning sink and be large enough in area to store house cleaning supplies and equipment. A separate janitor closet area and equipment should be provided for the food service area.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.35.2 Bathtubs, Showers, and Lavatories. Bathtubs, showers, and lavatories shall be kept clean and in proper working order. They shall not be used for laundering or for storage of soiled materials. Neither shall these facilities be used for cleaning mops, brooms, etc.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.35.3 Client Bedrooms. Client bedrooms shall be cleaned and dusted as often as necessary to maintain a clean, attractive appearance. All sweeping should be damp sweeping; all dusting should be damp dusting with a good detergent or germicide.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.35.4 Storage.

1. Such items as beds, mattresses, mops, mop buckets, dust rags, etc. shall not be kept in hallways, corners, toilet or bathrooms, clothes closets, or client bedrooms.
2. The use of attics for storage of combustible materials is prohibited.
3. If basements are used for storage, they shall meet acceptable standards for storage and for fire safety.

Subchapter 36 LAUNDRY: GENERAL

Rule 49.36.1 Commercial Laundry. Facilities may use commercial laundries or they may provide a laundry within the institution.

SOURCE: Miss. Code Ann. §43-11-13

Subchapter 37 PHYSICAL FACILITIES

Rule 49.37.1 **Location and Space Requirements.** Each ICF-IID shall have laundry facilities unless commercial laundries are used. The laundry shall be located in a specifically designated area, and there shall be adequate room and space for sorting, processing, and storage of soiled material. Laundry rooms or soiled linen storage areas shall not open directly into a client bedroom or food service area. Soiled materials shall not be transported through the food service area. If commercial laundry is used, separate satisfactory storage areas shall be provided for clean and soiled linens. There shall be provided a clean linen storage area separate from the laundry area.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.37.2 **Ventilation.** Provisions shall be made for proper mechanical ventilation of the laundry. Provisions shall be made to prevent the recirculation of air through the heating and air condition systems.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.37.3 **Lint Traps.** Adequate and effective lint traps shall be provided for driers.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.37.4 **Laundry Chutes.** When laundry chutes are provided they shall have a minimum diameter of two (2) feet; and they shall be installed with flushing ring, vent, and drain.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.37.5 **Laundry Equipment.** Laundry equipment shall be of the type to adequately perform the laundry needs of the institution. The equipment shall be installed to comply with all local and state codes.

Subchapter 38 PHYSICAL PLANT: GENERAL

Rule 49.38.1 **Building Classification.**

1. To qualify for a license, the ICF-IID shall be planned to serve the type of patients to be admitted and shall comply with the following:
 - a. All facilities constructed after the effective date of these regulations shall comply with the building requirements set forth in the regulations.
 - b. After the effective date of these regulations, all additions to facilities shall comply with the building requirements for a license. Approval shall not be granted for an addition to an existing building which will increase the bed

capacity unless the existing structure is basically sound and is to be brought into a condition of acceptable conformity with the current regulations.

- c. **Authority to Waiver.** The licensing agency may waive certain requirements in these regulations at its discretion for facilities requesting licensure as an ICF-IID and/or an ICF-IID Residential Community Home provided the health and safety of clients will not be endangered.
2. Renovations within the exterior walls of an ICF-IID shall in no case be of such nature as to lower the character of the structure below the applicable building requirements for the type of license held by the ICF-IID.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.38.2 **Location.** All facilities established or constructed after the adoption of these regulations shall be located so that they are free from undue noise, smoke, dust, or foul odors and shall not be located adjacent to disposal plants, cemeteries, main line railroads, funeral home, airport, etc.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.38.3 **Site.** The proposed site for an ICF-IID must be approved by the licensing agency. Factors to be considered in approving a site in addition to the above may be convenience to medical and hospital services, approved water supply and sewerage disposal, public transportation, community services, services of an organized fire department, an availability to labor supply. Not more than one-third (1/3) of a site shall be covered by a building(s) except by special approval of the licensing agency. One example whereby approval may be granted is where the structure is to be placed in a very desirable location where the grounds are limited and very expensive. Where such approval is granted, the structure will be required to have a living room, day room, sun room, and recreational areas adequate to compensate for lack of required outside area.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.38.4 **Local Restrictions.** The site and structure of all facilities shall comply with local building, fire and zoning ordinances. Evidence to this effect signed by local building, fire, and zoning officials shall be presented.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.38.5 **Transportation.** Facilities shall be located on streets or roads which have all weather surfaces. They should be located convenient to public transportation facilities (if available).

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.38.6 **Communication.** There shall be not less than one telephone in the home and such additional telephones as are necessary to summon help in event of fire or other emergency. The telephone shall be listed under the official licensed name or title of the home.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.38.7 **Occupancy.** No part of the ICF-IID may be rented, leased, or used for any commercial purpose not related to the operation of the home.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.38.8 **Basement.**

1. The basement shall be considered as a story if one-half (1/2) or more of its clear height is above the average elevation of the ground adjoining the building on all sides.
2. No client shall be housed on any floor that is below ground level.

SOURCE: Miss. Code Ann. §43-11-13

Subchapter 39 SUBMISSION OF PLANS AND SPECIFICATIONS FOR ICF-IIDS OR ICF-IID RESIDENTIAL COMMUNITY HOMES

Rule 49.39.1 **New Construction, Additions, and Renovations.** When construction is contemplated either for new buildings, conversions, additions, or alterations to existing buildings, one set of plans and specifications shall be submitted to the licensing agency for review and approval. The submission shall be made in not less than two stages preliminary and final. Floor plans shall be drawn to scale of one-eighth (1/8) inch to equal one (1) foot or one-fourth (1/4) inch to equal one (1) foot.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.39.2 **Minor Alterations and Remodeling.** Minor alterations and remodeling which do not affect the structural integrity of the building, change functional operation, affect fire safety, or add beds or facilities or those for which the ICF-IID is licensed do not need to have plans submitted for review provided that a detailed explanation of the proposed alteration or remodeling is submitted to and approved by the licensing agency.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.39.3 **First Stage Submission-Preliminary Plans.:** First stage or preliminary plans shall include:

1. Plot plan showing size and shape of entire site; location of proposed building and any existing structure(s); adjacent streets, highways, sidewalks, railroads, etc., all properly designated; and size, characteristics, and location of all existing public utilities.
2. Floor plan showing over-all dimensions of building(s); location, size, and purpose of all rooms; location and size of all doors, windows, and other openings with swing of doors properly indicated; dimensions of all corridors and hallways; and location of stairs, elevators, dumbwaiters, vertical shafts, and chimneys.
 - a. Outline specifications giving kinds and types of materials.
 - b. A scaled drawing of one-fourth (1/4) inch to one (1) foot shall be submitted for the following areas: Kitchen, dishwashing area, nurses' station and utility room(s).

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.39.4 Final Stage Submission-Working Drawings and Specifications.: Final stage or working drawings and specifications shall include:

1. Architectural drawings
2. Structural drawings
3. Mechanical drawings to include plumbing, heat, and air-conditioning
4. Electrical drawings
5. Detailed specifications
6. Approval of working drawings and specifications shall be obtained from the licensing agency in writing prior to the beginning of actual construction.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.39.5 Preparation of Plans and Specifications. The preparation of drawings and specifications shall be executed by or under the immediate supervision of an architect who shall supervise construction and furnish a signed statement that construction was performed according to plans and specifications approved by the licensing agency.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.39.6 Contract Modifications. Any contract modification which affects or changes the function, design, or purpose of an ICF-IID shall be submitted to and approved by

the licensing agency prior to the beginning of work set forth in any contract modification.

Subchapter 40 GENERAL BUILDING REQUIREMENTS

Rule 49.40.1 **Scope.** The provision of this section shall apply to all facilities except for those sections or paragraphs where a specific exception is granted for existing facilities.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.40.2 **Structural Soundness and Repair; Fire Resistive Rating.** The building shall be structurally sound, free from leaks and excessive moisture, in good repair, and painted at sufficient intervals to be reasonably attractive inside and out.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.40.3 **Temperature.** Adequate heating and cooling shall be provided in all rooms used by clients so that a minimum temperature of seventy-five (75) to eighty (80) degrees Fahrenheit may be maintained.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.40.4 **Lighting.** Each client's room shall have artificial light adequate for reading and other uses as needed. There should be a minimum of ten (10) foot-candles of lighting for general use in client's room and a minimum of thirty (30) foot-candles of lighting for reading purposes. All entrances, corridors, stairways, ramps, cellars, attics, storerooms, kitchens, laundries, and service units shall have sufficient artificial lighting to prevent accidents and promote efficiency of service. Night lights shall be provided in all corridors, stairways, toilets, and bathing rooms.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.40.5 **Screens.** All screen doors and non-stationary windows shall be equipped with tight fitting full length, sixteen (16) mesh screens. Screen doors shall swing out and shall be equipped with self-closing devices.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.40.6 **Floors.** All floors shall be smooth and free from defects such as cracks and be finished so that they can be easily cleaned.

Subchapter 42 STATE MONITORING

Rule 49.42.1 **State Monitoring.** A State Monitor may oversee the correction of cited deficiencies in an ICF-IID or an ICF-IID residential community home as a safeguard against further harm to clients when a finding of noncompliance has resulted in harm to a client or when there is a situation that is likely to cause serious injury, harm, impairment or death to a resident

SOURCE: Miss. Code Ann. §43-11-13

Subchapter 43 DIRECTED PLAN OF CORRECTION

Rule 49.43.1 A Directed Plan of Correction is a plan which the licensing agency, or the temporary manager, develops to require an ICF-IID or an ICF-IID residential community home to take action within specified time frames.

SOURCE: Miss. Code Ann. §43-11-13

Subchapter 44 BAN ON ADMISSIONS PROCEDURE

Rule 49.44.1 **Ban on Admissions.** If an immediate jeopardy is found to exist in an ICF-IID and/or in an ICF-IID residential community home as applicable, written notice of the determination shall be provided by the licensing agency to the ICF-IID or the

ICF-IID Residential Community Home along with the notification that a ban on all admissions is to be imposed five calendar (5) days after the receipt of the notice by the ICF-IID and/or the ICF-IID residential community home unless a hearing is requested within five (5) calendar days following receipt of the notice from the licensing agency. If a hearing is requested by the ICF-IID, the administrative procedures established under Rule 49.9.1 shall be applied.

1. If the agency's determination of noncompliance or Immediate Jeopardy on the day of the licensure visit/ survey is confirmed, a ban on all admissions shall be imposed until the ICF-IID or the ICF-IID residential community home achieves compliance and such compliance is verified by the licensing agency. The licensing agency will verify compliance of the ICF-IID and/or the ICF-residential community home's corrective actions as soon as possible, but not later than 15 working days after the licensing agency receives an acceptable allegation of compliance and/or an acceptable plan of correction from the ICF-IID or the ICF-IID residential community home. If the hearing determines that an Immediate Jeopardy situation did not exist, as applicable, on the day of the licensure/survey visit, no ban on all admissions will be imposed.

Subchapter 47 TEMPORARY MANAGEMENT

Rule 49.47.1 **Recommendation for Appointment of Temporary Management.** If the licensing agency recommends the appointment of a temporary manager, the recommendation shall specify the grounds upon which such recommendation is based, including an assessment of the capability of the ICF-IID and/or ICF-IID residential community home's current management to achieve and maintain compliance with all Licensure requirements.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.47.2 **Notice of Imposition of Temporary Management.** A temporary manager may be imposed fifteen (15) days after the ICF-IID and/or the ICF-IID residential community home receives notice when a determination of an immediate jeopardy finding.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.47.3 **Conditions of Temporary Management.** The management of an ICF-IID or an ICF-IID residential community home must agree to relinquish control to the temporary manager and to pay his/her salary before the temporary manager can be installed in the ICF-IID and/or the ICF-IID residential community home.

1. The ICF-IID cannot retain final authority to approve changes of personnel or expenditures of ICF-IID funds and be considered to have relinquished control to the temporary manager.
2. The temporary manager must be given access to all ICF-IID bank accounts.
3. The temporary manager's salary/per diem fee shall not exceed the maximum allowable owner/administrator salary of a like sized ICF-IID as described in the Mississippi State Medicaid Plan
4. All compensation and per diem costs of the temporary manager shall be paid by the ICF-IID and/or the ICF-IID residential community home. The licensing agency shall bill the ICF-IID for the costs of the temporary manager after termination of temporary management. Within fifteen (15) days of receipt of the bill, the ICF-IID shall pay the bill or request an administrative hearing to contest the costs for which it was billed.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.47.4 **Selection of Temporary Manager.** The licensing agency shall compile and maintain a list of individuals eligible to serve as temporary managers. The temporary manager must possess a Mississippi nursing home administrator's license. A contractual agreement will be executed between the temporary manager and the licensing agency.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.47.5 **Eligibility of Temporary Manager.** The following individuals are not eligible to serve as temporary managers:

1. Any individual who has been found guilty of misconduct by any licensing board or professional society in any State; or
 - a. Any individual who has, or whose immediate family members have, any financial interest in or pre-existing fiduciary duty to the ICF-IID and/or the ICF-IID residential community home to be managed. Indirect ownership

interest, such as through a mutual fund, does not constitute financial interest for the purpose of this restriction; or

- b. Any individual who currently serves or, within the past two (2) years, has served as a member of the staff of the ICF-IID and/or the ICF-IID residential community home or has a pre-existing fiduciary duty to the ICF-IID and/or the ICF-IID residential community home;
- c. Any individual who does not possess sufficient training, expertise, and experience in the operation of an ICF-IID and/or an ICF-IID residential community home as would be necessary to achieve the objectives of temporary management; or
- d. Any individual who at the time of the imposition of temporary management could stand to gain an unfair competitive advantage by being appointed as temporary manager of the ICF-IID and/or the ICF-IID residential community home.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.47.6 Condition of Appointment. As a condition of appointment, the temporary manager must agree not to purchase, lease, or manage the ICF-IID and/or the ICF-IID residential community home for a period of two (2) years following the end of the temporary management period.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.47.7 No Limitation. Nothing contained in these sections shall limit the right of any ICF-IID and/or ICF-IID residential community home owner to sell, lease, mortgage, or close any ICF-IID and/or ICF-IID residential community home in accordance with all applicable laws.

Rule 49.47.8 Authority and Powers of the Temporary Manager.

- 1. A temporary manager has the authority to direct and oversee the correction of the deficiencies/licensure violations; to oversee and direct the management, hiring, reassignment and/or discharge of any consultant or employee, including the administrator of the ICF-IID and/or the ICF-IID residential community home; to direct the expenditure of or obligate ICF-IID funds in a reasonable and prudent manner; to oversee the continuation of the business and the care of the clients; to oversee and direct those acts necessary to accomplish the goals of the licensure and/or certification requirements; to alter ICF-IID procedures; and to direct and oversee regular accountings and the provision of periodic reports to the licensing agency.

2. A temporary manager shall provide reports to the licensing agency by the fifteenth (15th) day of each month showing the compliance status of the ICF-IID and/or the ICF-IID residential community home;
3. A temporary manager shall observe the confidentiality of the operating policies, procedures, employment practices, financial information, and all similar business information of the ICF-IID and/or the ICF-IID residential community home except that the temporary manager shall make reports to the licensing agency as provided for in this section.
4. The temporary manager shall be liable for gross, willful or wanton negligence, intentional acts or omissions, unexplained shortfalls in the ICF-IID and/or the ICF-IID residential community home's funds, and breaches of fiduciary duty. The temporary manager shall be bonded in an amount equal to the ICF-IID and/or the ICF-IID residential community home's total revenues for the month preceding the appointment of the temporary manager.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.47.9 Authority of Temporary Manager. The temporary manager shall not have the authority to do the following:

1. To cause or direct the ICF-IID and/or the ICF-IID residential community Home or its owner to incur debt or to enter into any contract with a duration beyond the term of the temporary management of the ICF-IID and/or the ICF-IID residential community home;
2. To cause or direct the ICF-IID and/or the ICF-IID residential community home encumber its assets or receivables, or the premises on which it is located, with any lien or other encumbrances;
3. To cause or direct the sale of the ICF-IID or the ICF-IID residential community home, its assets, or the premises on which it is located;
4. To cause or direct the ICF-IID and/or the ICF-IID residential community home to cancel or reduce its liability or casualty insurance coverage;
5. To cause or direct the ICF-IID and/or the ICF-IID residential community home to default upon any valid obligations previously undertaken by the owners or operators of the ICF-IID and/or the ICF-IID residential community home including but not limited to, leases, mortgages, and security interests; and
6. To incur capital expenditures in excess of two-thousand dollars (\$2,000.00) without the permission of the owner of the ICF-IID and/or the ICF-IID residential community home and the licensing agency.

SOURCE: Miss. Code Ann. §43-11-13

Rule 49.47.10 **Duration of Temporary Manager.** Temporary management shall continue until a license is revoked or the ICF-IID and/or the ICF-IID residential community home achieves substantial compliance and is capable of remaining in substantial compliance. The licensing agency may replace any temporary manager whose performance, in the discretion of the licensing agency, is deemed unsatisfactory. No formal procedure is required for such removal or replacement but written notice of any action shall be given to the ICF-IID and/or the ICF-IID residential community home including the name of any replacement manager.

1. An ICF-IID and/or the ICF-IID residential community home subject to temporary management may petition the licensing agency for replacement of a temporary whose performance it considers unsatisfactory. The licensing agency shall respond to a petition for replacement within three (3) business days after receipt of said petition.
2. Otherwise, the licensing agency shall not terminate temporary management until it has determined that the ICF-IID and/or the ICF-IID residential community home has the management capability to ensure continued compliance with all licensure requirements or until the facility's license is revoked.

CHAPTER 50 MINIMUM STANDARDS OF OPERATION FOR ALZHEIMER'S DISEASE/DEMENTIA CARE UNIT: GENERAL ALZHEIMER'S DISEASE/DEMENTIA CARE UNIT

Subchapter 1 DEFINITIONS

Rule 50.1.1 **Alzheimer's Disease.** The term "Alzheimer's Disease" means a chronic progressive disease of unknown cause that attacks brain cells or tissues.

SOURCE: Miss. Code Ann. §43-11-13

Rule 50.1.2 **Alzheimer's Disease/Dementia Care Unit (A/D Unit).** A licensed nursing home or licensed personal care home (hereinafter referred to as "licensed facility" unless specified otherwise) may establish a separate A/D Unit for residents suffering from a form of dementia or Alzheimer's Disease. The rules and regulations as set forth in these regulations are in addition to the licensure requirements for the licensed facility, and do not exempt a licensed facility from compliance therewith.

SOURCE: Miss. Code Ann. §43-11-13

Rule 50.1.3 **Alzheimer's Disease/Dementia Care Unit Designation.** Any licensed facility that establishes an A/D Unit, and meets the requirements as set forth in this chapter, shall have said designation printed upon the certificate of licensure issued

to said facility by the licensing agency. In order for an A/D Unit to receive designation, the facility must have also received licensure from the licensing agency as a nursing home or as a personal care home.

SOURCE: Miss. Code Ann. §43-11-13

Rule 50.1.4 **Ambulation.** The terms “ambulation” or “ambulatory” shall mean the resident’s ability to bear weight, pivot, and safely walk independently or with the use of a cane, walker, or other mechanical supportive device (i.e., including, but not limited to, a wheelchair). A resident who requires a wheelchair must be capable of transferring to and propelling the wheelchair independently or with prompting. No more than ten percent (10%) of the resident census of the A/D Unit shall require assistance during any staffing shift as described and required herein.

SOURCE: Miss. Code Ann. §43-11-13

Rule 50.1.5 **Dementia.** The term "dementia" means a clinical syndrome characterized by a decline of long duration in mental function in an alert individual. Symptoms of dementia include memory loss and the loss or diminution of other cognitive abilities, such as learning ability, judgment, comprehension, attention, and orientation to time and place and to oneself. Dementia can be caused by such diseases as: Alzheimer's Disease, Pick's Disease, Parkinson's and Huntington's Disease, Creutzfeldt-Jakob Disease, multi-infarct dementia, etc.

SOURCE: Miss. Code Ann. §43-11-13

Rule 50.1.6 **Licensed Facility.** The term “licensed facility” shall mean any nursing home or personal care home licensed by the Mississippi Department of Health. For additional licensure information, refer to “Regulations Governing Licensure of Nursing Home Facilities” and “Regulations Governing Licensure of Personal Care Home Facilities”.

Subchapter 2 STAFFING

Rule 50.2.1 **Staffing.** In addition to the staffing requirements as set forth for licensed facilities, the following staffing requirements shall apply to A/D Units:

1. Minimum requirements for nursing staff shall be based on the ratio of three (3.0) hours of nursing care per resident per twenty-four (24) hours. Licensed nursing staff and nursing aides can be included in the ratio. Staffing requirements are based upon resident census.
2. A Registered Nurse or Licensed Practical Nurse shall be present on all shifts.

3. If the designated A/D Unit is not freestanding, licensed nursing staff may be shared with the rest of the facility for the purpose of meeting the minimum staffing requirements.
4. Only staff trained as specified in Rule 50.2.2 and Rule 50.2.3 below shall be assigned to the A/D Unit.
5. A minimum of two (2) staff members shall be on the A/D Unit at all times.

SOURCE: Miss. Code Ann. §43-11-13

Rule 50.2.2 Staff Orientation. The goals of training and education for A/D Units are to enhance staff understanding and sensitivity toward the A/D Unit residents, to allow staff to master care techniques, to ensure better performance of duties and responsibilities, and to prevent staff burnout. The trainer(s) shall be qualified individuals with experience and knowledge in the care of individuals with Alzheimer's Disease and other forms of dementia. The licensed facility shall provide an orientation program to all new employees assigned to the A/D Unit. The orientation program shall be outlined in an orientation manual and shall include, but not be limited to:

1. The licensed facility's philosophy related to the care of residents with Alzheimer's Disease and other forms of dementia in the A/D Unit;
2. A description of Alzheimer's Disease and other forms of dementia;
3. The licensed facility's policies and procedures regarding the general approach to care provided in the A/D Unit, including therapies provided; treatment modalities; admission, discharge, and transfer criteria; basic services provided within the A/D Unit; policies regarding restraints, wandering and egress control, and medication management; nutrition management techniques; staff training; and family activities; and
4. Common behavior problems and recommended behavior management.

SOURCE: Miss. Code Ann. §43-11-13

Rule 50.2.3 In-Service Training. Ongoing in-service training shall be provided to all staff who may be in direct contact with residents of the A/D Unit. Staff training shall be provided at least quarterly. The licensed facility will keep records of all staff training provided and the qualifications of the trainer(s). The licensed facility shall provide hands on training on at least three (3) of the following topics each quarter:

1. The nature of Alzheimer's Disease, including the definition, the need for careful diagnosis, and knowledge of the stages of Alzheimer's Disease;

2. Common behavioral problems and recommended behavior management techniques;
3. Communication skills that facilitate better resident-staff relations;
4. Positive therapeutic interventions and activities, such- as exercise, sensory stimulation, activities of daily living skills, etc.;
5. The role of the family in caring for residents with Alzheimer's Disease, as well as the support needed by the family of these residents;
6. Environmental modifications to avoid problems and create a therapeutic environment;
7. Development of comprehensive and individual care plans and how to update and implement them consistently across shifts, establishing a baseline and concrete treatment goals and outcomes; and
8. New developments in diagnosis and therapy.

CHAPTER 51: MINIMUM STANDARDS OF OPERATION FOR PSYCHIATRIC RESIDENTIAL TREATMENT FACILITIES

Subchapter 1 General: Legal Authority

Rule 51.1.1 **Adoption of Rules, Regulations, and Minimum Standards.** By virtue of authority vested in it by Mississippi Code Annotated, 43-11-1 through 43-11-27 (Supplemented 1986), The Mississippi Department of Health does hereby adopt and promulgate Rules, Regulations, and Minimum Standards for Institutions for the Aged and Infirm which includes Skilled Nursing Facilities, Intermediate Care Facilities, Personal Care Homes.

SOURCE: Miss. Code Ann. §43-11-13

Rule 51.1.2 The 1990 Legislature amended the code to include Psychiatric Residential Treatment Facilities as an institution for the Aged or Infirm.

SOURCE: Miss. Code Ann. §43-11-13

Rule 51.1.3 **"Psychiatric Resident Treatment Facility"** means any non-hospital establishment with permanent facilities which provides a twenty-four (24) hour program of care by qualified therapists including, but not limited to, duly licensed mental health professionals, psychiatrists, psychologists and licensed certified social workers, for emotionally disturbed children and adolescents referred to such facility by a court, local school district or by the Department of Human Services, who are not in an acute phase of illness requiring the services of a psychiatric hospital, and are in need of such restorative treatment services. For purposes of this paragraph, the term "emotionally disturbed" means a condition exhibiting one or more of the following characteristics over along period of time and to a marked degree, which adversely affects educational performance:

1. An inability to learn which cannot be explained by intellectual, sensory or health factors;
2. An inability to build or maintain satisfactory relationships with peers and teachers;
3. Inappropriate types of behavior or feelings under normal circumstances;
4. A general pervasive mood of unhappiness or depression; or
5. A tendency to develop physical symptoms or fears associated with personal or school problems.

Subchapter 18 ADMISSION AND DISCHARGE CRITERIA

Rule 51.18.1 Only a psychiatrist on the staff of the facility shall determine whether admission of a child/adolescent to the psychiatric residential facility is appropriate. The decision shall be based upon either a direct examination conducted personally by the psychiatrist or upon the psychiatrist's review of the findings of an appropriately trained and trusted clinician. When the admitting psychiatrist is not a child psychiatrist, consultation with a child psychiatrist regarding the advisability of admission shall be required.

SOURCE: Miss. Code Ann. §43-11-13

Rule 51.18.2 Each child/adolescent psychiatric residential treatment facility shall maintain written admission and discharge criteria which are consistent with its goals and objectives and state rules and regulations and which are subject to approval of the Mississippi Department of Health.

SOURCE: Miss. Code Ann. §43-11-13

Rule 51.18.3 The admission criteria must, at a minimum, provide that the child/adolescent meet each of the following criteria:

1. Identification of a serious and persistent psychopathology as evidenced by:
 - a. Severe thought disorder, or
 - b. Severe mood disorder, or
 - c. Severe anxiety/panic disorder, or
 - d. Moderate thought disorder in conjunction with an impulse control disorder or a deficit in activities of daily living skills, or

- e. Severe conduct disorder in conjunction with an impulse control disorder or a deficit in activities of daily living skills, or
 - f. Severe personality disorder in conjunction with an impulse control disorder or a deficit in activities of daily living skills, or
 - g. Complex, concurrent disorders (such as a physiologic disorder or other psychiatric disorder, including but not limited to an eating disorder or a substance abuse disorder), or
 - h. Any combination of the above;
2. Intelligence Quotient equal to or greater than 60 unless medical documentation supports that suppressed score is due to the patient's "emotional disorder".
 3. Attainment of at least the sixth birthday but no more than the twenty-first birthday; and
 4. Presentation of no likelihood of serious harm to self or others, and
 5. Failure of treatment at a lower level of care or available less restrictive treatment resources must have been considered and determined to be not available or not appropriate to the patient's needs.

SOURCE: Miss. Code Ann. §43-11-13

Rule 51.18.4 The admitting psychiatrist shall document the reasons why a lower level of care is not medically appropriate, which may include:

1. Complex case because of one or more complicating concurrent disorders requiring a higher level of care to provide medically necessary evaluation or active treatment, or
2. Lack of access, or
3. Inadequate support (family and/or school and/or community) to use a lower level of care, or
4. Patient lives alone, or lives with family members who are significantly impaired by psychiatric or substance abuse disorders, or
5. Persistent hampering of evaluation or treatment by family, making evaluation or treatment in an outpatient setting ineffective, or
6. Patient behavior which persists despite appropriate treatment in an outpatient setting and which either seriously disrupts family life or which arouses antagonism towards the patient, making treatment in an outpatient setting ineffective.

SOURCE: Miss. Code Ann. §43-11-13

Rule 51.18.5 Any additional admission criteria must relate to observable characteristics of the child/adolescent. Such criteria may include age and gender.

SOURCE: Miss. Code Ann. §43-11-13

Rule 51.18.6 The discharge criteria must relate to the continued need of the individual child/adolescent for services in a residential treatment facility. Age in and of itself shall not be an appropriate basis for discharge from a residential treatment facility except that no resident may remain in a residential treatment facility after attaining the age of twenty-two.

Rule 51.30.1 Treatment procedures that require special justification shall include, but not necessarily be limited to, the following:

1. The use of restraint;
2. The use of seclusion;
3. The use of electroconvulsive therapy and other forms of convulsive therapy;
4. The performance of psychosurgery or other surgical procedures for the intervention in, or alteration of, a mental, emotional, or behavioral disorder;

5. The use of behavior modification procedures that use painful stimuli;
6. The use of unusual medications and investigational and experimental drugs;
7. The prescribing and administering of drugs for maintenance use that have abuse potential (usually considered to be Schedule II drugs), and drugs that are known to involve substantial risk or to be associated with undesirable side effects; and
8. The use of research projects that involve inconvenience or risk to the patient.

SOURCE: Miss. Code Ann. §43-11-13

Rule 51.30.2 The rationale for using special treatment procedures shall be clearly stated in the patient's record.

1. When appropriate, there shall be evidence in the patient's record that proposed special treatment procedures have been reviewed before implementation by the head of the professional staff and or his or her designee.
2. The plan for using special treatment procedures shall be consistent with the patient's rights and the facility's policies governing the use of such procedures.
3. The clinical indications for the use of special treatment procedures shall be documented in the patient's record.
4. The clinical indications for the use of special treatment procedures shall outweigh the known contraindications.

SOURCE: Miss. Code Ann. §43-11-13

Rule 51.30.3 The facility shall have written policies and procedures that govern the use of restraint or seclusion.

1. The use of restraint or seclusion shall require clinical justification and shall be employed only to prevent a patient from injuring himself or others, or to prevent serious disruption of the therapeutic environment. Restraint or seclusion shall not be employed as punishment or for the convenience of staff.
2. The rationale for the use of restraint or seclusion shall address the inadequacy of less restrictive intervention techniques.
3. To ascertain that the procedure is justified, a physician shall conduct a clinical assessment of the patient before writing an order for the use of restraint or seclusion.
4. A written order from a physician shall be required for the use of restraint.
5. A written order from a physician shall be required for the use of seclusion for longer than one hour.

6. Written orders for the use of restraint or seclusion shall be time-limited.
7. The written approval of the head of the professional staff and/or his or her designee shall be required when restraint or seclusion is utilized for longer than 24 hours.
8. PRN orders shall not be used to authorize the use of restraint or seclusion.
9. All uses of restraint or seclusion shall be reported daily to the head of the professional staff and/or his or her designee.
10. The head of the professional staff and/or his or her designee shall review daily all uses of restraint or seclusion and investigate unusual or possibly unwarranted patterns of utilization.
11. Staff, who implement written orders for restraint and seclusion shall have documented training in the proper use of the procedure for which the order was written.
12. Restraint or seclusion shall not be used in a manner that causes undue physical discomfort, harm, or pain to the patient.
13. Appropriate attention shall be paid every 15 minutes to a patient in restraint or seclusion, especially in regard to regular meals, bathing, and use of the toilet.
14. There shall be documentation in the patient's record that such attention was given to the patient.
15. Under the following conditions, restraint or seclusion may be employed in an emergency without a written order from a physician:
 16. The written order for restraint or seclusion is given by a member of the professional staff who is qualified by experience and training in the proper use of the procedure for which the order is written;
 17. The professional staff member writing the order has observed and assessed the patient before writing the order; and
 18. The written order of the physician who is responsible for the patient's medical care is obtained within not more than 24 hours after initial employment of the restraint or seclusion.

Rule 51.30.4 The facility shall have written policies and procedures that govern the use of time-out and the documentation of such procedures in the case record.

1. The use of time-out shall require clinical justification and shall not be employed for the convenience of staff.

2. Time-out procedures shall meet the following requirements:
3. A child/adolescent placed in time-out shall be under visual observation at intervals of fifteen minutes or less while in time-out;
4. A locked door shall not be a component of time-out;
5. Time-out shall be limited to a maximum of thirty minutes at one time for a child age ten years or under and shall be limited to a maximum of sixty minutes at one time for an adolescent age eleven years or older; and
6. No child/adolescent shall be in time-out for more than four hours in any 24 hour period.

Subchapter 31 PATIENT RECORDS

Rule 51.31.1 A patient record shall be maintained, in accordance with accepted professional principles, for each patient admitted for care in the facility.

SOURCE: Miss. Code Ann. §43-11-13

Rule 51.31.2 Such records shall be kept confidential and only authorized personnel shall have access to the record. Staff members and other persons having access to patient records shall be required to abide by the written policies regarding confidentiality of patient records and disclosure of information in the record, as well as all applicable federal, state, and local laws, rules and regulations.

SOURCE: Miss. Code Ann. §43-11-13

Rule 51.31.3 The facility shall have written policies and protect the confidentiality of patient records and govern the disclosure of information in the records. The policies and

procedures shall specify the conditions under which information on applicants or patients may be disclosed and the procedures for releasing such information.

SOURCE: Miss. Code Ann. §43-11-13

Rule 51.31.4 A patient of his or her authorized representative may consent to the release of information provided that written consent is given on a form containing the following information:

1. Name of patient;
2. Name of program;
3. The name of the person, agency or organization to which the information is to be disclosed;
4. The specific information to be disclosed;
5. The purpose for the disclosure;
6. The date the consent was signed and the signature of the individual witnessing the consent;
7. The signature of the patient, parent, guardian or authorized representative; and
8. A notice that the consent is valid only for a specified period of time.

SOURCE: Miss. Code Ann. §43-11-13

Rule 51.31.5 The written consent of a patient, or his or her authorized representative, to the disclosure of information shall be considered valid only if the following conditions have been met:

1. The patient or the representative shall be informed, in a manner calculated to assure his or her understanding, of the specific type of information that has been requested and, if known, the benefits and disadvantages of releasing the information;
2. The patient or the representative shall give consent voluntarily;
3. The patient or the representative shall be informed that the provision of services is not contingent upon his or her decision concerning the release of information; and
4. The patient's consent shall be acquired in accordance with all applicable federal, state, and local laws, rules and regulations.

SOURCE: Miss. Code Ann. §43-11-13

Rule 51.31.6 Every consent for release of information, the actual date the information was released, the specific information released, and the signature of the staff member who released the information shall be made a part of the patient record.

SOURCE: Miss. Code Ann. §43-11-13

Rule 51.31.7 In a life-threatening situation or when an individual's condition or situation precludes the possibility of obtaining written consent, the facility may release pertinent medical information to the medical personnel responsible for the individual's care without the individual's consent and without the authorization of the chief executive officer or a designee, if obtaining such authorization would cause an excessive delay in delivering treatment to the individual.

1. When information has been released under emergency conditions, the staff member responsible for the release of information shall enter all pertinent details of the transaction into the individual's record including at least the following items:
2. The date the information was released;
3. The person to whom the information was released;
4. The reason the information was released;
5. The reason written consent could not be obtained; and
6. The specific information released.
7. The patient or applicant shall be informed that the information was released as soon as possible after the release of information.

Rule 51.55.1 There shall be a systematic record of diets, correlated when appropriate, with the medical records. The dietitian shall have available an up-to-date manual of regimens for all therapeutic diets, approved jointly by the dietitian and medical staff, which is available to dietary supervisory personnel. Diets served to patients shall be in compliance with these established diet principles:

1. The diet manual shall be reviewed annually and revised as necessary by a qualified dietitian, and shall be dated to identify the time of the review;
2. Revisions to the diet manual shall be approved by the facility's physician;
3. The diet manual should be used to standardize the ordering of diets;
4. The policies and procedures shall provide for dietetic counseling;
5. The nutritional deficiencies of any diet in the manual shall be indicated;
6. The policies and procedures shall require the recording of dietetic orders in the patient's record;
7. The policies and procedures shall require the recording of all observations and information pertinent to dietetic treatment in the patient's record by the food service supervisor or dietitian;
8. The policies and procedures shall require the use of standards for nutritional care in evaluating the nutritional adequacy of the patient's diet and in ordering diet supplements. The current Recommended Dietary Allowances of the Food and Nutrition Board of the National Research Council of the National Academy of Sciences is suggested as a guide in developing these standards;
9. The policies and procedures shall describe the methods for assuring that each patient on a special diet received the prescribed diet regimen;
10. The policies and procedures shall provide for altering diets or diet schedules as well as for discontinuing diets;

11. Dietetic service personnel shall conduct periodic food acceptance studies among the patients and should encourage them to participate in menu planning;
12. The results of food acceptance studies should be reflected in revised menus; and
13. All menus shall be approved by a qualified dietitian.

Subchapter 78 MEDICAL WASTE

Rule 51.78.1 **"Infectious medical wastes"** include solid or liquid wastes which may contain pathogens with sufficient virulence and quantity such that exposure to the waste by a susceptible host has been proven to result in an infectious disease. For purposes of this Regulation, the following wastes shall be considered to be infectious medical wastes:

1. Wastes resulting from the care of patients and animals who have Class I and (or) II diseases that are transmitted by blood and body fluid as defined in the rules and regulations governing reportable diseases, as defined by the Mississippi Department of Health;
2. Cultures and stocks of infectious agents; including specimen cultures collected from medical and pathological laboratories, cultures and stocks of infectious agents from research and industrial laboratories, wastes from the production of biological, discarded live and attenuated vaccines, and culture dishes and devices used to transfer, inoculate, and mix cultures;
3. Blood and blood products such as serum, plasma, and other blood components;
4. Pathological wastes, such as tissues, organs, body parts, and body fluids that are removed during surgery and autopsy;

5. Contaminated carcasses, body parts, and bedding of animals that were exposed to pathogens in medical research;
6. All discarded sharps (e.g., hypodermic needles, syringes, Pasteur pipettes, broken glass, scalpel blades) which have come into contact with infectious agents;
7. Other wastes determined infectious by the generator or so classified by the Mississippi Department of Health.

SOURCE: Miss. Code Ann. §43-11-13

Rule 51.78.2 "Medical Waste" means all waste generated in direct patient care or in diagnostic or research areas that is non-infectious but aesthetically repugnant if found in the environment."

SOURCE: Miss. Code Ann. §43-11-13

Rule 51.78.3 All generators of infectious medical waste and medical waste shall have a medical waste management plan that shall include, but is not limited to, the following:

1. Storage and Containment of Infectious Medical Waste and Medical Waste:

- a. Containment of infectious medical waste and medical waste shall be in a manner and location which affords protection from animals, rain and wind, does not provide a breeding place or a food source for insects and rodents, and minimizes exposure to the public.
- b. Infectious medical waste shall be segregated from other waste at the point of origin in the producing facility.
- c. Unless approved by the Mississippi Department of Health or treated and rendered non-infectious, infectious medical waste (except for sharps in approved containers) shall not be stored at a waste producing facility for more than seven days above a temperature of 6 C (38F). Containment of infectious medical waste at the producing facility is permitted at or below a temperature of 0 C (32F) for a period of not more than 90 days without specific approval of the Mississippi Department of Health.
- d. Containment of infectious medical waste shall be separate from other wastes. Enclosures or containers used for containment of infectious medical waste shall be so secured so as to discourage access by unauthorized persons and shall be marked with prominent warning signs on, or adjacent to, the exterior of entry doors, gates, or lids. Each container shall be prominently labeled with a sign using language to be determined by the Department and legible during daylight hours.
- e. Infectious medical waste, except for sharps capable of puncturing or cutting, shall be contained in double disposable plastic bags or single bags (1.5 mills

thick) which are impervious to moisture and have a strength sufficient to preclude ripping, tearing, or bursting under normal conditions of usage. The bags shall be securely tied so as to prevent leakage or expulsion of solid or liquid waste during storage, handling, or transport.

- f. All bags used for containment and disposal of infectious medical waste shall be of a distinctive color or display the Universal Symbol for infectious waste. Rigid containers of all sharps waste shall be labeled.
 - g. Compactors or grinders shall not be used to process infectious medical waste unless the waste has been rendered non-infectious. Sharps containers shall not be subject to compaction by any compacting device except in the institution itself and shall not be placed for storage or transport in a portable or mobile trash compactor.
 - h. Infectious medical waste and medical waste contained in disposable containers as prescribed above, shall be placed for storage, handling, or transport in disposable or reusable pails, cartons, drums, or portable bins. The containment system shall be leak-proof, have tight-fitting covers and be kept clean and in good repair.
 - i. Reusable containers for infectious medical waste and medical waste shall be thoroughly washed and decontaminated each time they are emptied by a method specified by the Mississippi Department of Health, unless the surfaces of the containers have been protected from contamination by disposable liners, bags, or other devices removed with the waste, as outlined in I.E.
 - j. Approved methods of decontamination include, but are not limited to, agitation to remove visible soil combined with one or more of the following procedures:
 - i. Exposure to hot water at least 180 F for a minimum of 15 seconds.
 - ii. Exposure to a chemical sanitizer by rinsing with or immersion in one of the following for a minimum of 3 minutes:
 - a. Hypochlorite solution (500 ppm available chlorine);
 - b. Phenolic solution (500 ppm active agent);
 - c. Iodoform solution (100 ppm available iodine); and
 - d. Quaternary ammonium solution (400 ppm active agent).
2. Reusable pails, drums, or bins used for containment of infectious waste shall not be used for containment of waste to be disposed of as non infectious waste or for other purposes except after being decontaminated by procedures as described in part (10) of this section.

- a. Trash chutes shall not be used to transfer infectious medical waste.
 - b. Once treated and rendered non-infectious, previously defined infectious medical waste will be classified as medical waste and may be land-filled in an approved landfill.
3. Treatment or disposal of infectious medical waste shall be by one of the following methods:
- a. By incineration in an approved incinerator which provides combustion of the waste to carbonized or mineralized ash.
 - b. By sterilization by heating in a steam sterilizer, so as to render the non-infectious.
4. Infectious medical waste so rendered non-infectious shall be disposable as medical waste. Operating procedures for steam sterilizers shall include, but not be limited to, the following:
- a. Adoption of standard written operating procedures for each steam sterilizer including time, temperature, pressure, type of waste, type of container(s), closure on container(s), pattern of loading, water content, and maximum load quantity.
 - b. Check or recording and/or indicating thermometers during each complete cycle to ensure the attainment of a temperature of 121 C (250 F) for one-half hour or longer, depending on quantity and density of the load, in order to achieve sterilization of the entire load. Thermometers shall be checked for calibration at least annually.
 - c. Use of heat sensitive tape or other device for each container that is processed to indicate the attainment of adequate sterilization conditions.
 - d. Use of the biological indicator *Bacillus stearothermophilus* placed at the center of a load processed under standard operating conditions at least monthly to confirm the attainment of adequate sterilization conditions.
 - e. Maintenance of records of procedures specified in (a), (b), (c) and (d) above for period of not less than a year.
 - f. By discharge to the approved sewerage system if the waste is liquid or semi-liquid, except as prohibited by the Mississippi Department of Health.
 - g. Recognizable human anatomical remains shall be disposed of by incineration or internment, unless burial at an approved landfill is specifically authorized by the Mississippi Department of Health.

- h. Chemical sterilization shall use only those chemical sterilants recognized by the US Environmental Protection Agency, Office of Pesticides and Toxic Substances. Ethylene oxide, glutaraldehyde, and hydrogen peroxide are examples of sterilants that, used in accordance with manufacturer recommendation, will render infectious waste non-infectious. Testing with *Bacillus subtilis* spores or other equivalent organisms shall be conducted quarterly to ensure the sterilization effectiveness of gas or steam treatment.
- 5. Treatment and disposal of medical waste which is not infectious shall be by one of the following methods:
 - a. By incineration in an approved incinerator which provides combustion of the waste to carbonized or mineralized ash.
 - b. By sanitary landfill, in an approved landfill which shall mean a disposal facility or part of a facility where medical waste is placed in or on land, and which is not a treatment facility.

Rule 52.4.9 Professional Staff Bylaws. The professional staff shall develop and adopt bylaws, rules and regulations to establish a framework of self-government and a means of accountability to the governing body. The bylaws, rules and regulations shall be subject to the approval of the governing body.

1. The professional staff shall regulate itself by its bylaws, rules and regulations.
2. The professional staff bylaws, rules and regulations shall reflect current staff practices, shall be enforced, and shall be periodically reviewed and revised as necessary.
3. The professional staff bylaws, rules and regulations shall include a requirement for an ethical pledge from each practitioner.
4. The professional staff bylaws, rules and regulations shall describe the specific role of each discipline represented on the professional staff or exercising clinical privileges in the care of patients.
5. The professional staff bylaws, rules and regulations shall include the following patient record requirements.
6. Symbols and abbreviations shall be used only when they have been approved by the professional staff and when there is an explanatory legend;
7. The categories of personnel who are qualified to accept and transcribe verbal orders, regardless of the mode of transmission of the orders, shall be specifically identified;
8. The period of time following admission to the facility within which a history and physical examination must be entered in the patient record shall be specified;
9. The time period in which patient records must be completed following discharge shall be specified and shall not exceed fourteen (14) days; and
10. The entries in patient records that must be dated and authenticated by the responsible practitioner shall be specified.

11. The professional staff bylaws, rules and regulations shall specify mechanisms for review, evaluation, and monitoring of professional staff practices.
12. The professional staff bylaws, rules and regulations shall specify mechanisms for the denial of staff appointments and reappointments, as well as for denial, curtailment, suspension, or revocation of clinical privileges.
13. When appropriate, this procedure shall provide for a practitioner to be heard, upon request, at some stage of the process.

Subchapter 8 PATIENT RIGHTS

Rule 52.8.1 There shall be written policies and procedures designed to enhance the dignity of all patients and to protect their rights as human beings. These written policies and procedures shall include but not be limited to the following standards:

1. There shall be procedures to inform all patients of their legal and human rights and the rules and regulations of the facility applicable to his or her conduct. There shall be documentation of implementation of these procedures.
2. Physical restraints and seclusion shall be used only in extreme cases to protect the patient from injuring himself or others, and when all other alternatives are exhausted. They shall not be used as punishment of staff convenience.
 - a. There shall be documentation verifying that patients under physical restraint or in seclusion are observed by a staff member at least every thirty (30) minutes.
 - b. Authorization for the use of physical restraints and/or seclusion shall be written as justified in the patient's record by the attending physician. This authorization shall be renewed at least every twenty-four (24) hours.
3. The patient has the right, to the extent permitted by law, to refuse specific medications or treatment procedures. The responsibility of the facility, when the patient refuses treatment, is to seek appropriate legal alternatives or orders of involuntary treatment or, in accordance with professional standards, to terminate the relationship with the patient upon reasonable notice.
4. The risks associated with the use of any drugs and/or procedures shall be fully explained to the patient in terms that he/she can understand. The decision as to whether or not the patient is able to exercise sound judgment rests with the physician and must be documented in the patient's clinical record.

5. The patient shall give his consent in writing prior to the use of potentially hazardous drugs and procedures. In the event that the patient is unable to exercise sound judgment, the written consent of family members having the legal right to consent must be obtained prior to the use of potentially hazardous drugs and procedures. Potentially hazardous drugs and procedures shall be administered in accordance with accepted clinical practice and shall be directed and supervised by a physician.
6. There shall be written policies and procedures for reviewing and responding to patient's communications, e.g. opinions, recommendations, and grievances, in a way that will preserve and foster conflict resolution and problem solving. The written policies shall also delineate the means by which patients are familiarized with these procedures. Each patient's personal privacy shall be assured and protected within the constraints of the individual treatment plan.
7. There shall be procedures designed to protect the patient's rights and privacy with respect to facility visitors, e.g. educational or other individual or group visitations through the program. The patients shall be informed in advance of such visitations, which shall be conducted so as to minimally interrupt the patient's usual activities and therapeutic program.
8. The facility shall provide the patient with means of communication with persons outside the program in at least the following ways, unless contraindicated by physician. Patients shall be allowed to conduct private telephone conversations with family and friends. Patients shall be allowed to send and receive unopened mail.
9. The facility shall inform the patient, the patient's family, or legal guardian as appropriate, of the cost (itemized when possible) of services rendered.
10. The facility shall assure confidential treatment of personal and Medical Records, and may approve or refuse their release to any individual outside the family, except, in case of transfer to another health care institution, or as required by law or third-party payment contract.
11. Each patient's personal dignity shall be recognized and respected in the provision of all care and treatment.

Subchapter 9 MEDICAL RECORDS

Rule 52.9.1 Organization. A Medical Record shall be maintained in accordance with accepted professional principles for each patient admitted for care in the facility.

SOURCE: Miss. Code Ann. §41-9-17

Rule 52.9.2 Such records shall be kept confidential and only authorized personnel shall have access to the record. Staff members and other persons having access to patient records shall be required to abide by the written policies regarding confidentiality of patient records and disclosure of information in the records as well as all applicable federal, state, and local laws, rules, and regulations. Policies on confidentiality of records shall also conform to the alcohol and drug abuse confidentiality regulations as published in Part IV of the July 1, 1975 Federal Register.

SOURCE: Miss. Code Ann. §41-9-17

Rule 52.9.3 The facility shall have written policies and procedures that protect the confidentiality of patient records and govern the disclosure of information in the records. The policies and procedures shall specify the conditions under which information on applicants or patients may be disclosed and the procedures for releasing such information.

SOURCE: Miss. Code Ann. §41-9-17

Rule 52.9.4 A patient or his or her authorized representative may consent to the release of information provided that written consent is given on a form containing the following information:

1. name of patient
2. name of program
3. the name of the person, agency or organization to which the information is to be disclosed
4. the specific information to be disclosed
5. the purpose for the disclosure
6. the date the consent was signed and the signature of the individual witnessing the consent
7. the signature of the patient, guardian or authorized representative, and
8. a notice that the consent is valid only for a specified period of time.

SOURCE: Miss. Code Ann. §41-9-17

Rule 52.9.5 The written consent of a patient, or his or her authorized representative, to the disclosure of information shall be considered valid only if the following conditions have been met:

1. the patient or the representative shall be informed, in a manner calculated to assure his or her understanding, of the specific type of information that has been requested and, if known, the benefits and disadvantages of releasing the information;
2. the patient or the representative shall give consent voluntarily;
3. the patient or the representative shall be informed that the provision of services is not contingent upon his or her decision concerning the release of information; and
4. the patient's consent shall be acquired in accordance with all applicable federal, state, and local laws, rules and regulations.

SOURCE: Miss. Code Ann. §41-9-17

Rule 52.9.6 Every consent for release of information, the actual date the information was released, the specific information released, and the signature of the staff member who released the information shall be made a part of the patient record.

SOURCE: Miss. Code Ann. §41-9-17

Rule 52.9.7 In a life-threatening situation or when an individual's condition or situation precludes the possibility of obtaining written consent, the facility may release pertinent medical information to the medical personnel responsible for the individual's care without the individual's consent and without the authorization of the chief executive officer or a designee, if obtaining such authorization would cause an excessive delay in delivering treatment to the individual.

SOURCE: Miss. Code Ann. §41-9-17

Rule 52.9.8 When information has been release under emergency conditions, the staff member responsible for the release of information shall enter all pertinent details of the transaction into the individual's record, including at least the following items:

1. the date the information was released;
2. the person to whom the information was released;
3. the reason the information was released;
4. the reason written consent could not be obtained; and
5. the specific information released.

SOURCE: Miss. Code Ann. §41-9-17

Rule 52.9.9 The patient or applicant shall be informed that the information was released as soon as possible after the release of information.

Rule 52.9.10 **Medical Records** shall not be removed from the facility except upon subpoena and court order.

SOURCE: Miss. Code Ann. §41-9-17

Rule 52.9.11 **Preservation and Storage.** Records shall be preserved, either in the original or by microfilm, for a period of time not less than that determined by the statute of limitations in the State of Mississippi.

SOURCE: Miss. Code Ann. §41-9-17

Rule 52.9.12 **Written Policies and Procedures** shall govern the compilation, storage, dissemination, and accessibility of patient records. The policies and procedures shall be designed to assure that the facility fulfills its responsibility to safeguard and protect the patient record against loss, unauthorized alteration, or disclosure of information; to assure that each patient record contains all required information; to assure uniformity in the format and forms in use in patient records; to require entries in patient records to be dated and signed.

SOURCE: Miss. Code Ann. §41-9-17

Rule 52.9.13 The facility shall provide adequate facilities for the storage, processing, and handling of patient records, including suitably locked and secured rooms and files. When a facility stores patient data on magnetic tape, computer files, or other types of automated information systems, adequate security measures shall prevent inadvertent or unauthorized access to such data. A written policy shall govern the disposal of patient records. Methods of disposal shall be designed to assure the confidentiality of information in the records.

SOURCE: Miss. Code Ann. §41-9-17

Rule 52.9.14 **Personnel.** The patient records department shall maintain, control, and supervise the patient records, and shall be responsible for maintaining the quality.

SOURCE: Miss. Code Ann. §41-9-17

Rule 52.9.15 A qualified medical record individual who is employed on at least a part-time basis, consistent with the needs of the facility and the professional staff, shall be responsible for the patient records department. This individual shall be a registered record administrator or an accredited record technician who has successfully completed examination requirements of the American Medical Record Association, or an individual with the documented equivalent in training and/or experience.

SOURCE: Miss. Code Ann. §41-9-17

Rule 52.9.16 When it can be demonstrated that the size, location, or needs of the facility do not justify employment of a qualified individual, the facility must secure the consultative assistance of a qualified record administrator at least twice a year to assure that the patient record department is adequate to meet the needs of the facility.

SOURCE: Miss. Code Ann. §41-9-17

Rule 52.9.17 **Centralization of Reports.** All clinical information pertaining to a patient's stay shall be centralized in the patient's record. The original or all reports originating in the facility shall be filed in the medical record. Appropriate patient records shall be kept on the unit where the patient is being treated and shall be directly accessible to the clinicians caring for the patient.

SOURCE: Miss. Code Ann. §41-9-17

Rule 52.9.18 **Contents of Records.** The medical record shall contain sufficient information to justify the diagnosis and warrant the treatment and end results. The patient record shall describe the patient's health status at the time of admission, the services provided and the patient's progress in the facility, and the patient's health status at the time of discharge. The patient record shall provide information for the review and evaluation of the treatment provided to the patient. When appropriate, data in the patient record shall be used in training, research, evaluation, and quality assurance programs. When indicated, the patient record shall contain documentation that the rights of the patient and of the patient's family are protected. The patient record shall contain documentation of the patient's and, as appropriate, family members' involvement in the patient's treatment program. When appropriate, a separate record may need to be maintained on each family member involved in the patient's treatment program. The patient record shall contain identifying data that is recorded on standardized forms. This identifying data shall include the following:

1. full name;
2. home address;
3. home telephone number;
4. date of birth;
5. sex;
6. race or ethnic origin;
7. next of kin;
8. education;

9. marital status;
10. type and place of employment;
11. date of initial contact or admission to the facility;
12. legal status, including relevant legal documents;
13. other identifying data as indicated;
14. date the information was gathered; and
15. signature of the staff member gathering the information.

SOURCE: Miss. Code Ann. §41-9-17

Rule 52.9.19 The patient record shall contain information on any unusual occurrences, such as the following:

1. treatment complications;
2. accidents or injuries to the patient;
3. morbidity;
4. death of a patient; and
5. procedures that place the patient at risk or that cause unusual pain.

Subchapter 19 DIETARY

Rule 52.19.1 **Organization.** The facility shall have an organized dietary department directed by a qualified food service supervisor, with services of a registered dietitian on at least a consultant basis. However, a facility which has a contract with an outside food management company may be found to meet this requirement if the company has a therapeutic dietitian who serves, as required by scope and complexity of the services, on a full-time, part-time, or consultant basis to the facility.

1. The qualified dietitian shall be registered or eligible for registration by the Commission on Dietetic Registration.
2. When a qualified dietitian is employed on a part-time or consultative basis, the dietitian shall devote enough time to accomplish the following tasks:
 - a. Assure continuity of services;
 - b. Direct the nutritional aspects of patient care;
 - c. Assure that dietetic instructions are carried out;
 - d. On occasion, supervise the serving of meals; and
 - e. Assist in the evaluation of the dietetic services.
3. Regular written reports shall be submitted to the chief executive officer on the extent of services provided by the dietitian.
4. There shall be written policies and procedures for food storage, preparation, and service developed by a registered dietitian.
5. The dietetic service shall have an adequate number of appropriately qualified individuals to meet the dietetic needs of the facility's patients.
6. Written job descriptions of all dietary employees shall be available.
7. There shall be procedures to control dietary employees with infectious and open lesions. Routine health examinations shall meet local and state codes for food service personnel.
8. There shall be an on-going planned in-service training program for dietary employees which includes the proper handling of food and personal grooming, safety, sanitation, behavioral and therapeutic needs of patients.

SOURCE: Miss. Code Ann. §41-9-17

Rule 52.19.2 Facilities. Adequate space, equipment, ventilation and supplies as well as any necessary written procedure and precautions, shall be provided for the safe and sanitary operation of the dietetic service and the safe and sanitary handling and distribution of food.

1. The food service area should be appropriately located.
2. The dietitian's office should be easily accessible to all who require consultation services.
3. Sufficient space shall be provided for support personnel to perform their duties.

4. The layout of the department and the type, amount, size, and placement of equipment shall make possible the efficient preparation and distribution of food.
5. Lavatories with wrist action blades, soap dispenser and disposable towel dispenser shall be located throughout the dietary department.
6. Dry or staple food items shall be stored in a ventilation room which is not subject to sewage or waste water back flow, or contamination by condensation, leakage, rodents or vermin.
7. All perishable foods shall be refrigerated at the appropriate temperature and in an orderly and sanitary manner. Each refrigerator shall contain a thermometer in good working order.
8. Foods being displayed or transported shall be protected from contamination.
9. Dishwashing procedures and techniques shall be developed and carried out in compliance with the state and local health codes.
10. All garbage and kitchen refuse which is not disposed of mechanically shall be kept in leak-proof non-absorbent containers with close fitting covers and be disposed of routinely in a manner that will not permit transmission of disease, a nuisance, or a breeding place for flies. All garbage containers are to be thoroughly cleaned inside and outside each time emptied.
11. All dietary areas, equipment, walls, floors, etc., shall be kept maintained in good working condition and sanitary at all times.

SOURCE: Miss. Code Ann. §41-9-17

Rule 52.19.3 Diets. There shall be systematic record of diets, correlated when appropriate, with the medical records. The dietitian shall have available an up-to-date manual of regimens for all therapeutic diets, approved jointly by the dietitian and medical staff, which is available to dietary supervisory personnel. Diets served to patients shall be in compliance with these established diet principles.

1. The diet manual shall be reviewed annually and revised as necessary by a qualified dietitian, and shall be dated to identify the time of the review.
2. Revisions to the diet manual shall be approved by the facility's physician.
3. The diet manual should be used to standardize the ordering of diets.
4. The policies and procedures shall provide for dietetic counseling.
5. The nutritional deficiencies of any diet in the manual shall be indicated.

6. The policies and procedures shall require the recording of dietetic orders in the patient's record.
7. The policies and procedures shall require the recording of all observations and information pertinent of dietetic treatment in the patient's record by the food service supervisor or dietitian.
8. The policies and procedures shall require the use of standards for nutritional care in evaluating the nutritional adequacy of the patient's diet and in ordering diet supplements. The current Recommended Dietary Allowances of the Food and Nutrition Board of the National Research Council of the National Academy of Sciences is suggested as a guide in developing these standards.
9. The policies and procedures shall describe the methods for assuring that each patient on a special diet receives the prescribed diet regimen.
10. The policies and procedures shall provide for altering diets or diet schedules as well as for discontinuing diets.
11. Dietetic service personnel shall conduct periodic food acceptance studies among the patients and should encourage them to participate in menu planning.
12. The results of food acceptance studies should be reflected in revised menus.
13. All menus shall be approved by a qualified dietitian.

Subchapter 21 REFERRALS

Rule 52.21.1 The facility shall have written policies and procedures that facilitate the referral of patients and the provision of consultation between the facility's program components and between the facility and other service providers in the community.

SOURCE: Miss. Code Ann. §41-9-17

Rule 52.21.2 The written policies and procedures shall describe the methods by which continuity of care is assured for the patient. These methods shall include, but not be limited to, providing the facility, program component, or other service provider to which the patient is referred with the following:

1. background information on the referral;
2. information on the patient's treatment, for example, current treatment, diagnostic assessments, and special requirements;
3. treatment objectives desired;
4. suggestions for continued coordination between the referring and the receiving resource;
5. special clinical management requirements; and
6. information on how the patient can be returned to the referring facility or program component.

SOURCE: Miss. Code Ann. §41-9-17

Rule 52.21.3 The referring facility shall ask the receiving facility, program component, or other service provider to which the patient is referred, to submit a follow-up report within a designated time period.

Subchapter 23 LIBRARY SERVICES

Rule 52.23.1 Library services shall be made available to meet the professional and technical needs of the facility's staff.

1. Facilities that do not maintain a professional library shall have an arrangement with a nearby facility or institution to use its professional library.
2. Current reference material, books, and basic health care journals shall be available in each facility.
3. The library service shall establish regular and convenient hours of service so that staff may have prompt access to current materials.
4. When a facility operates its own library, the professional library service shall provide pertinent, current and useful medical, psychiatric, psychological, alcohol, drug, educational, and related materials. A facility providing extensive library services should utilize the services of a professional librarian.

Subchapter 24 EMERGENCY SERVICES

Rule 52.24.1 The facility shall have written procedures for taking care of emergencies. Emergency services shall be provided by the facility or through clearly defined arrangements with another facility.

SOURCE: Miss. Code Ann. §41-9-17

Rule 52.24.2 When emergency services are provided by an outside facility, a written plan shall delineate the type of emergency services available and the arrangements for referring or transferring patients to another facility. The written plan shall be available to all professional staff and shall clearly specify the following:

1. The staff of the facility who are available and authorized to provide necessary emergency evaluations;

2. The staff of the facility who are authorized to arrange for patients to be referred or transferred to another facility when necessary;
3. The arrangements the facility has made for exchanging records with the outside facility when it is necessary for the care of the patient;
4. The location of the outside facility and the names of the appropriate personnel to contact;
5. The method of communication between the two facilities;
6. The arrangements the facility has made to assure that when a patient requiring emergency care is transferred to a non-psychiatric or substance abuse service or facility, he or she will receive further evaluation and/or treatment of his or her psychiatric or substance abuse program, as needed;
7. The arrangements the facility has made for transporting patients, when necessary, from the facility to the facility providing emergency services;
8. The policy for referring patients needing continued care after emergency services back to the referring facility; and
9. Policies concerning notification of the patient's family of emergencies and of arrangements that have been made for referring or transferring that patient to another facility.

Subchapter 26 REGULATED MEDICAL WASTE

Rule 52.26.1 "Infectious medical wastes" includes solid or liquid wastes which may contain pathogens with sufficient virulence and quantity such that exposure to the waste by a susceptible host has been proven to result in an infectious disease. For purposes of this Regulation, the following wastes shall be considered to be infectious medical wastes:

1. Wastes resulting from the care of patients and animals who have Class I and (or) II diseases that are transmitted by blood and body fluid as defined in the rules and regulations governing reportable diseases. (See attached) as defined by the Mississippi Department of Health;
2. Cultures and stocks of infectious agents; including specimen cultures collected from medical and pathological laboratories, cultures and stocks of infectious agents from research and industrial laboratories, wastes from the production of biologicals, discarded live and attenuated vaccines, and culture dishes and devices used to transfer, inoculate, and mix cultures;
3. Blood and blood products such as serum, plasma, and other blood components;
4. Pathological wastes, such as tissues, organs, body parts, and body fluids that are removed during surgery and autopsy;
5. Contaminated carcasses, body parts, and bedding of animals that were exposed to pathogens in medical research;
6. All discarded sharps (e.g., hypodermic needles, syringes, Pasteur pipettes, broken glass, scalpel blades) which have come into contact with infectious agents;

7. Other wastes determined infectious by the generator or so classified by the MS Department of Health.
8. 'Medical Waste' means all waste generated in direct patient care or in diagnostic or research areas that is non-infectious but aesthetically repugnant if found in the environment."

SOURCE: Miss. Code Ann. §41-9-17

Rule 52.26.2 **Medical Waste Management Plan.** All generators of infectious medical waste and medical waste shall have a medical waste management plan that shall include, but is not limited to, the following:

1. **Storage and Containment of Infectious Medical Waste and Medical Waste**
 - a. Containment of infectious medical waste and medical waste shall be in a manner and location which affords protection from animals, rain and wind, does not provide a breeding place or a food source for insects and rodents, and minimizes exposure to the public.
 - b. Infectious medical waste shall be segregated from other waste at the point of origin in the producing facility.
 - c. Unless approved by the Mississippi Department of Health or treated and rendered non-infectious. Infectious medical waste (except for sharps in approved containers) shall not be stored at a waste producing facility for more than seven days above a temperature of 6 C (38F). Containment of infectious medical waste at the producing facility is permitted at or below a temperature of 0 C (32F) for a period of not more than 90 days without specific approval of the Department of Health.
 - d. Containment of infectious medical waste shall be separate from other wastes. Enclosures or containers used for containment of infectious medical waste shall be so secured so as to discourage access by unauthorized persons and shall be marked with prominent warning signs on, or adjacent to, the exterior of entry doors, gates, or lids. Each container shall be prominently labeled with a sign using language to be determined by the Department and legible during daylight hours.
 - e. Infectious medical waste, except for sharps capable of puncturing or cutting, shall be contained in double disposable plastic bags or single bags (1.5 mills thick) which are impervious to moisture and have a strength sufficient to preclude ripping, tearing, or bursting under normal conditions of usage. The bags shall be securely tied so as to prevent leakage or expulsion of solid or liquid waste during storage, handling, or transport.

- f. All sharps shall be contained for disposal in leak-proof, rigid, puncture resistant containers which are taped closed or tightly lidded to preclude loss of the contents.
- g. All bags used for containment and disposal of infectious medical waste shall be of a distinctive color or display the Universal Symbol for infectious waste. Rigid containers of all sharps waste shall be labeled.
- h. Compactors or grinders shall not be used to process infectious medical waste unless the waste has been rendered non-infectious. Sharps containers shall not be subject to compaction by any compacting device except in the institution itself and shall not be placed for storage or transport in a portable or mobile trash compactor.
- i. Infectious medical waste and medical waste contained in disposable containers as prescribed above, shall be placed for storage, handling, or transport in disposable or reusable pails, cartons, drums, or portable bins. The containment system shall be leak-proof, have tight-fitting covers and be kept clean and in good repair.
- j. Reusable containers for infectious medical waste and medical waste shall be thoroughly washed and decontaminated each time they are emptied by a method specified by the Mississippi Department of Health, unless the surfaces of the containers have been protected from contamination by disposable liners, bags, or other devices removed with the waste, as outlined in I.E.
- k. Approved methods of decontamination include, but are not limited to, agitation to remove visible soil combined with one or more of the following procedures:
 - i. Exposure to hot water at least 180 F for a minimum of 15 seconds.
 - ii. Exposure to a chemical sanitizer by rinsing with or immersion in one of the following for a minimum of 3 minutes:
 - a. Hypochlorite solution (500 ppm available chlorine).
 - b. Phenolic solution (500 ppm active agent).
 - c. Iodoform solution (100 ppm available iodine).
 - d. Quaternary ammonium solution (400 ppm active agent).
- b. Reusable pails, drums, or bins used for containment of infectious waste shall not be used for containment of waste to be disposed of as noninfectious waste or for other purposes except after being decontaminated by procedures as described in part (10) of this section.
 - i. Trash chutes shall not be used to transfer infectious medical waste.

- ii. Once treated and rendered non-infectious, previously defined infectious medical waste will be classified as medical waste and may be land-filled in an approved landfill.

2. Treatment or disposal of infectious medical waste shall be by one of the following methods:

- a. By incineration in an approved incinerator which provides combustion of the waste to carbonized or mineralized ash.
- b. By sterilization by heating in a steam sterilizer, so as to render the waste non-infectious. Infectious medical waste so rendered non-infectious shall be disposable as medical waste. Operating procedures for steam sterilizers shall include, but not be limited to, the following:
 - i. Adoption of standard written operating procedures for each steam sterilizer including time, temperature, pressure, type of waste, type of container(s), closure on container(s), pattern of loading, water content, and maximum load quantity.
 - ii. Check or recording and/or indicating thermometers during each complete cycle to ensure the attainment of a temperature of 121 C (250 F) for one-half hour or longer, depending on quantity and density of the load, in order to achieve sterilization of the entire load. Thermometers shall be checked for calibration at least annually.
 - iii. Use of heat sensitive tape or other device for each container that is processed to indicate the attainment of adequate sterilization conditions.
 - iv. Use of the biological indicator *Bacillus stearothermophilus* placed at the center of a load processed under standard operating conditions at least monthly to confirm the attainment of adequate sterilization conditions.
 - v. Maintenance of records of procedures specified in (a), (b), (c) and (d) above for period of not less than a year.
- c. By discharge to the approved sewerage system if the waste is liquid or semi-liquid, except as prohibited by the MS Department of Health.
- d. Recognizable human anatomical remains shall be disposed of by incineration or internment, unless burial at an approved landfill is specifically authorized by the Mississippi Department of Health.
- e. Chemical sterilization shall use only those chemical sterilants recognized by the U.S. Environmental Protection Agency, Office of Pesticides and Toxic Substances. Ethylene oxide, glutaraldehyde, and hydrogen peroxide are examples of sterilants that, used in accordance with manufacturer recommendation, will render infectious waste noninfectious. Testing with

Bacillus subtilis spores or other equivalent organisms shall be conducted quarterly to ensure the sterilization effectiveness of gas or steam treatment.

3. Treatment and disposal of medical waste which is not infectious shall be by one of the following methods:

- a. By incineration in an approved incinerator which provides combustion of the waste to carbonized or mineralized ash.
 - b. By sanitary landfill, in an approved landfill which shall mean a disposal facility or part of a facility where medical waste is placed in or on land, and which is not a treatment facility.
4. All the requirements of these standards shall apply, without regard to the quantity of medical waste generated per month, to any generator of medical waste.

CHAPTER 53 DRUG AND ALCOHOL TESTING REGULATIONS

Subchapter 1 AUTHORITY AND PURPOSE.

Rule 53.1.1 The following rules and regulations for drug and alcohol testing of employees and job applicants by public and private employers are duly adopted and promulgated by the Mississippi State Department of Health pursuant to the authority expressly conferred by the laws of the State of Mississippi at Sections 71-7-1, et. al., of the Mississippi Code of 1972, Ann., hereinafter referred to as “the Act.”

SOURCE: Miss. Code Ann. § 71-7-21

Rule 53.1.2 The purpose of these rules and regulations is to promulgate standards and guidelines concerning:

1. Standards for drug and alcohol testing, laboratory certification, suspension and revocation of certification;
2. Body specimens that are appropriate for drug and alcohol testing;
3. Retention and storage procedures to ensure reliable results on confirmation tests and retests;
4. Initial drug and alcohol tests and confirmation tests; and
5. Standard language to be included in employer’s drug and alcohol testing notices concerning:
 - a. A statement advising the employee of the existence of state statutes on employer drug and alcohol testing;
 - b. A general statement concerning confidentiality; and
 - c. Procedures for how employees can confidentially report the use of prescription or nonprescription medications prior to being tested.

Subchapter 9 STANDARD LANGUAGE.

Rule 53.9.1 Any employer in the State of Mississippi who utilizes an employee and/or job applicant drug and alcohol testing program, pursuant to the Act, shall in its written policy statement and notice to employees include as a part of such written policy statement and notice the following wording:

1. You are hereby advised that **(Insert name of employer here)** has implemented a drug and alcohol policy and conducts a testing program, pursuant to Sections 71-7-1, et.al., of the Mississippi Code of 1972, Ann. (hereinafter referred to as “the Act”), and you are hereby advised of the existence of said Act.
2. All information, interviews, reports, statements, memoranda and test results, written or otherwise, received by **(Insert name of employer here)** through its drug and alcohol testing program are confidential communications and may not be used or received in evidence, obtained in discovery, or disclosed in any public or private proceedings, except in accordance with the Act and these regulations. Any information obtained by **(Insert name of employer here)** pursuant to the Act and these regulations shall be the property of the employer. **(Insert name of**

employer here) shall not release to any person other than the employee or job applicant, or employer medical, supervisory or other personnel, as designated by **(Insert name of employer here)** on a need to know basis, information related to drug and alcohol test results unless: (a) The employee or job applicant has expressly, in writing, granted permission for **(Insert name of employer here)** to release such information; it is necessary to introduce a positive confirmed test result into an arbitration proceeding pursuant to a collective bargaining agreement, an administrative hearing under applicable state or local law, or a judicial proceeding, provided that information is relevant to the hearing or proceeding, or the information must be disclosed to a federal or state agency or other unit of the state or United States government as required under law, regulation or order, or in accordance with compliance requirements of a state or federal government contract, or disclosed to a drug abuse rehabilitation program for the purpose of evaluation or treatment of an employee; or there is a risk to public health or safety that can be minimized or prevented by the release of such information; provided, however, that unless such risk is immediate, a court order permitting the release shall be obtained prior to the release of the information. The confidentiality provisions provided for by the Act shall not apply to other parts of an employee's or job applicant's personnel or medical files. If an employee refuses to sign a written consent form for release of information to persons as permitted in the Act, **(Insert name of employer here)** shall not be barred from discharging or disciplining the employee.

3. An employee or job applicant to be tested shall be given (1) a medication disclosure form to permit the employee or job applicant to disclose any non-prescription or prescription medications that have been taken within forty-five (45) days prior to being tested, and (2) a statement that the form shall be submitted directly to the employer's designated Medical Review Officer, ensuring that no person or entity has access to the information disclosed on the form other than the Medical Review Officer.

Rule 54.3.14 **Hearing Officer.** Shall mean an individual appointed by the Director to preside over the Administrative Hearing with power to administer oaths, take testimony, rule on questions of evidence and make agency determinations of fact. The Hearing Officer may be employee of the Department or the Licensing Agency provided this individual is not directly involved in the investigation.

SOURCE: Miss. Code Ann. §43-11-13

Rule 54.3.15 **Investigator.** Shall mean an employee of the licensing agency who is a surveyor assigned to collect information regarding all alleged charges of resident abuse, resident neglect or misappropriation of resident property by an aide towards a resident.

SOURCE: Miss. Code Ann. §43-11-13

Rule 54.3.16 **Licensing Agency.** Shall mean the Division of Licensure and Certification of the Mississippi Department of Health, which is the Mississippi Survey Agency.

SOURCE: Miss. Code Ann. §43-11-13

Rule 54.3.17 **Long-Term Care Resident.** Shall mean any resident of a skilled nursing facility (SNF) and/or nursing facility (NF). For the purposes of these regulations, “resident” shall mean resident of a long-term care facility.

SOURCE: Miss. Code Ann. §43-11-13

Rule 54.3.18 **Misappropriation of Resident Property.** Is defined as the patterned or deliberate misplacement, exploitation, or wrongful, temporary or permanent use of a resident’s belongings or money without the resident’s consent.

SOURCE: Miss. Code Ann. §43-11-13

Rule 54.3.19 **Neglect.** Shall mean the failure to supply the long term care resident with the care, food, clothing, goods, shelter, health care, supervision, or other services which are necessary to maintain his/her mental and physical health. Neglect occurs on an individual basis when a resident does not receive care in one or more areas (e.g., absence of frequent monitoring for a resident known to be incontinent, resulting in being left to lie in urine or feces).

SOURCE: Miss. Code Ann. §43-11-13

Rule 54.3.20 **Surveyor.** Shall mean an individual who has successfully completed the Health Care Financing Administration approved training and passed the Surveyor Minimum Qualifications Test (SMQT).

Subchapter 4 PROCEDURE

Rule 54.4.1 Whenever information is received, or when the licensing agency has cause to believe that an aide has abused, neglected, or misappropriated the property of a long-term care resident, the licensing agency shall investigate the same. Documentation of said investigation shall be made including, but not limited to, the nature of the allegation and the evidence that led the licensing agency to conclude that the allegation was valid or not.

SOURCE: Miss. Code Ann. §43-11-13

Rule 54.4.2 Once an allegation that resident neglect, resident abuse, or misappropriation of resident property is found valid, based on oral or written evidence and investigation, the State completes the following notification procedures: The State notifies the following in writing within ten (10) working days of the investigation:

1. Aide(s) implicated in the investigation;
2. The current administrator of the facility in which the incident occurred; and
3. Nurse Aide Registry.

SOURCE: Miss. Code Ann. §43-11-13

Rule 54.4.3 Upon receipt of a copy of the notice of right to hearing by the Nurse Aide Registry, a disciplinary flag will be entered in the Nurse Aide Registry to indicate that an investigation has been conducted, allegations have been found valid by the licensing agency, and the aide has been notified of his/her right to a hearing. No specific details are entered on the Nurse Aide Registry at this time.

SOURCE: Miss. Code Ann. §43-11-13

Rule 54.4.4 Notice of Right to Hearing is sent to the aide at his/her last known address registered with the nursing home or the licensing agency. Attached to the notice shall be a written finding by the Licensing Agency stating the reasons for its determination. The notice is sent via regular United States Postal Services mail and Certified Mail, Return Receipt Requested.

SOURCE: Miss. Code Ann. §43-11-13

Rule 54.4.5 The notice will include the following information:

1. A statement informing the aide of the nature of the allegation and his/her conduct constituting the violation and confirmation of the findings by the licensing agency's investigator;
2. Date and approximate time of the occurrence;

3. A statement that the aide has a right to a hearing and must request a hearing in writing within thirty (30) days from the date of the notice;
4. A statement that the “Request for Hearing Form” accompanying the notice may be used to request a hearing;
5. A statement that if the aide fails to request a hearing in writing or the time to request a hearing has expired, it will be interpreted as a waiver of his/her right to a hearing and the Licensing Agency’s findings will be reported to the Nurse Aide Registry;
6. A statement of the Licensing Agency’s intent to place substantiated findings by an Administrative Hearing Officer on the Nurse Aide Registry;
7. A statement advising the aide of the consequences of waiving the right to a hearing and/or the consequences of a finding by the hearing officer that the resident abuse or resident neglect or misappropriation of resident property did occur (e.g., findings must be included and remain in the registry permanently, unless the finding was made in error, the individual was found not guilty in a court of law, or the State is notified of the individual’s death);
8. A statement that any prospective employer, or others, checking the aide’s status on the Nurse Aide Registry will be advised of any pending hearing and/or final decision;
9. A statement that whether or not a hearing is requested, the aide has the right to submit a written statement disputing the allegations if he/she chooses to do so; and
10. Right of the accused aide to be represented by an attorney at the individual’s own expense.

SOURCE: Miss. Code Ann. §43-11-13

Rule 54.4.6 If a hearing is requested, the same shall be held within sixty (60) days of the request. A “Notice of Administrative Hearing” shall be sent stating the date, time, and place of the hearing.

SOURCE: Miss. Code Ann. §43-11-13

Rule 54.4.7 The notice will be sent to the following individuals:

1. Aide(s) implicated in the investigation;
2. The current administrator of the facility in which the incident occurred; and
3. Attorney for the aide (if applicable).

SOURCE: Miss. Code Ann. §43-11-13

Rule 54.4.8 The notice will include the following information:

1. A statement that the aide may appear with or without counsel, shall have the right to cross-examine all witnesses, present evidence/testimony, either written or oral, on his or her own behalf, and to refute any testimony or evidence presented;
2. A statement that formal rules of evidence and procedure will not apply, but a record of said hearing shall be made. The licensing agency shall present its case, and the aide will then present his/her case; and
3. A statement that if the aide requests a hearing but fails to appear for the scheduled hearing, this will be interpreted by the Licensing Agency as a waiver of the aide's right to a hearing and findings against the aide will be placed on the Nurse Aide Registry.

SOURCE: Miss. Code Ann. §43-11-13

Rule 54.4.9 The notice will be sent via United States Postal Service regular and Certified Mail, Return Receipt Requested. A copy of the "Regulations Regarding Placement of Findings of Resident Abuse, Resident Neglect, and/or Misappropriation of Resident Property Against a Nurse Aide Registry" will be included with the notice.

Subchapter 5 CONDUCT OF HEARING

Rule 54.5.1 A Hearing Officer will be appointed by the Director.

SOURCE: Miss. Code Ann. §43-11-13

Rule 54.5.2 The State must hold a hearing and complete the hearing record within 120 days from the date of receipt of the hearing request.

SOURCE: Miss. Code Ann. §43-11-13

Rule 54.5.3 The State must hold the hearing in a manner consistent with State practice, at a time and place established by the licensing agency.

SOURCE: Miss. Code Ann. §43-11-13

Rule 54.5.4 Formal rules of evidence and procedure will not apply, but a record of said hearing shall be made. The licensing agency shall present its case, and the aide will then present his/her case. In order for the licensing agency's decision to be upheld, the facts constituting the violation must be proved by substantial evidence.

SOURCE: Miss. Code Ann. §43-11-13

Rule 54.5.5 At the close of the hearing, the Administrative Hearing Officer shall, within sixty (60) days, prepare written findings and conclusions, and an order. This order will be the final agency decision.

SOURCE: Miss. Code Ann. §43-11-13

Rule 54.5.6 If the Administrative Hearing Officer finds that the aide neglected or abused a resident or misappropriated a resident's property, the substantiated findings must be reported in writing within ten (10) days to:

1. Aide;
2. Attorney for aide (if applicable);
3. Current administrator of the facility in which the incident occurred;
4. The administrator of the facility that currently employs the individual, if it is not the same facility in which the incident occurred;
5. The Division of Medicaid; and
6. The Nurse Aide Registry.

SOURCE: Miss. Code Ann. §43-11-13

Rule 54.5.7 The notification sent to the aide will be mailed via United States Postal Service regular and Certified Mail, Return Receipt Requested. A copy of the Administrative Hearing Officer's decision will be attached to the notice. The notification will include the following:

1. A statement that the Administrative Hearing Officer found that the aide did abuse a resident, neglect a resident, and/or misappropriated a resident's property;
2. A statement that the aide is not eligible to work in a long-term care facility in Mississippi;
3. A statement that if an aide is aggrieved of the final decision, the aide may appeal on the record to the appropriate chancery court; and
4. A statement that the aide will bear the cost of transcription of the earlier proceedings, and preparation of the record, should an appeal be taken.

Subchapter 6 REPORTING FINDINGS TO THE NURSE AIDE REGISTRY

Rule 54.6.1 The licensing agency must notify the Nurse Aide Registry of the findings.

SOURCE: Miss. Code Ann. §43-11-13

Rule 54.6.2 The Administrative Hearing Officer's findings of resident abuse, resident neglect or misappropriation of resident property must be included in the Nurse Aide Registry within ten (10) working days of the Administrative Hearing Officer's decision.

SOURCE: Miss. Code Ann. §43-11-13

Rule 54.6.3 The following information must be included and remain in the registry permanently, unless the findings was made in error, the individual was found not guilty in a court of law, or the State is notified of the individual's death:

1. Documentation of the investigation, including the nature of the allegation and the evidence that led to the conclusion that the allegation was valid;
2. The date of the hearing, if such request was made, and its outcome;
3. The date of the court decision (i.e., review of Hearing Officer's decision by a court or criminal conviction by a court), and its outcome; and
4. A statement by the individual disputing the allegation if the individual chose to make one.

SOURCE: Miss. Code Ann. §43-11-13

Rule 54.6.4 If an aide is found guilty by a court of law or pleads nolo contendere for abusing or neglecting a resident or misappropriating a resident's property, it is not necessary to offer an administrative hearing concerning the same incident before making a notation in the registry. The trial and court order satisfy the Social Security Act's requirements for a hearing. In this case, the findings of the court will be placed on the Nurse Aide Registry.

SOURCE: Miss. Code Ann. §43-11-13

Rule 54.6.5 If the Administrative Hearing Officer finds that the aide did not neglect or abuse a resident or misappropriate a resident's property, the disciplinary flag will be removed and the aide's name restored to full capacity on the Nurse Aide Registry.

Subchapter 7 CONFIDENTIALITY OF RECORDS

Rule 54.7.1 Information relating to complaints/allegations that are found to be invalid shall not be disclosed.

SOURCE: Miss. Code Ann. §43-11-13

Rule 54.7.2 Prior to a hearing or the opportunity for hearing, information relating to complaints/allegations that are found to be valid will be disclosed as set forth in paragraph 103.02 above. Along with the fact that adverse findings against a nurse aide have been placed on the Nurse Aide Registry, other information shall be released pursuant to Title 42 of the Code of Federal Regulations, Section 483.156 (d), Disclosure of Information. The records and documentation concerning the investigation and findings will be permanently maintained by the licensing agency. These records shall include, where applicable, documentation of the investigation, including the nature of the allegation and evidence that led the licensing agency to conclude that the allegation was valid; any statements made by the aide in writing, disputing the allegation; and the date and outcome of the hearing.

CHAPTER 82 MINIMUM STANDARDS FOR UTILIZATION REVIEW AGENTS

Subchapter 1 AUTHORITY AND PURPOSE

Rule 82.1.1 The following Rules and Regulations for Utilization Review in Mississippi are duly adopted and promulgated by the Mississippi State Board of Health pursuant to the authority expressly conferred by Section 41-83-1 et seq., Mississippi Code of 1972 Annotated.

SOURCE: Miss. Code Ann. §41.83.1

Rule 82.1.2 The purpose of these rules and regulations is to promote the delivery of quality health care in a cost effective manner; foster greater coordination between payors and providers conducting utilization review activities; protect patients, business and providers by ensuring that private review agents are qualified to perform utilization activities and to make informed decisions on the appropriateness of medical care; and to ensure that private review agents maintain the confidentiality of medical records.

SOURCE: Miss. Code Ann. §41.83.1

Subchapter 2 SCOPE

Rule 82.2.1 In the State of Mississippi, every health insurance plan or every insurer proposing to issue or deliver a health insurance policy or contract or administer a health benefit program which provides for the coverage of hospital and medical benefits and the utilization review of those benefits; every health insurer proposing to issue or deliver in this state a group or blanket health insurance policy or administer a health benefit program which provides for the coverage of hospital and medical benefits and the utilization review of such benefits shall:

1. Have a certificate in accordance with these regulations;
2. Contract with a private review agent that has a certificate in accordance with these regulations.

SOURCE: Miss. Code Ann. §41.83.1

Rule 82.2.2 Notwithstanding any provisions of these regulations, for claims where medical necessity of the provision of a covered benefit is disputed, an insurer that does not meet the requirements of this section shall pay any person or hospital entitled to reimbursement under the policy or contract.

SOURCE: Miss. Code Ann. §41.83.1

Subchapter 3 DEFINITIONS

1. **Appeal:** A formal request to reconsider a determination not to certify an admission, extension of stay, or other medical service.
2. **Attending Physician:** The physician with primary responsibility for the care provided to a patient in a hospital or other health care facility.
3. **Certificate:** A certificate of registration granted by the Mississippi Department of Health to a private review agent, and is not transferable.
4. **Certification:** A determination by a utilization review organization that an admission, extension of stay, or other medical service has been reviewed and based on the information provided, qualifies as medically necessary and appropriate under the medical review requirements of the applicable health benefit plan.
5. **Certification Number:** The number assigned to each certified private review agent. This number is not transferable.
6. **Certified Private Review Agent:** A private review agent who meets all the criteria for certification as set forth in these rules and regulations, has paid all current fees, and has been assigned a certification number.
7. **Concurrent Review:** Utilization review conducted during a patient's hospital stay or course of treatment.
8. **Consulting Physician:** A Medical Doctor, Doctor of Osteopathy, Dentist, Psychologist, Podiatrist or Chiropractor who possess the degree of skill ordinarily possessed and used by members of his or her profession in good standing, and actively engaged in the same type of practice and relevant specialty. The medical and osteopathy specialist shall be certified by the Boards within the American Board of Medical Specialists or the American Board of Osteopathy.

9. **Department:** The Mississippi Department of Health.
10. **Director:** The Director of the Division of Health Facilities Licensure and Certification of the Mississippi Department of Health.
11. **Enrollee:** The individual who has elected to contract for, or participate in, a health benefit plan for their self and/or their dependents.
12. **Expedited Appeal:** A request for additional review of a utilization review organization's determination not to certify an admission, extension of stay, or other medical service. An expedited appeal request may be called a reconsideration request by some utilization review organizations.
13. **Hospital:** An institution which is primarily engaged in providing to inpatients, by or under the supervision of physicians, diagnostic services and therapeutic services for medical diagnosis, treatment and care of injured, disabled or sick persons, or rehabilitation services for the rehabilitation of injured, disabled or sick persons, and also, means a place devoted primarily to the maintenance and operation of facilities for the diagnosis, treatment and illness, disease, injury or deformity, or a place devoted primarily to providing obstetrical or other medical, surgical or nursing care of individuals, whether or not any such place be organized or operated for profit and whether any such place be publicly or privately owned. The term "Hospital" does not include convalescent or boarding homes, children's homes, homes for the aged or other like establishments where room and board only are provided, nor does it include offices or clinics where patients are not regularly kept as bed patients.
14. **Patient:** The intended recipient of the proposed health care, his/her representative, and/or the enrollee.
15. **Physician Advisor:** A physician representing the claim administrator/utilization review organization who provides advice on whether to certify an admission, extension of stay, or other medical service as being medically necessary and appropriate.
16. **Private Review Agent:** A non-hospital affiliated person or entity performing utilization review on behalf of:
 - a. An employer or employees in the State of Mississippi; or
 - b. A third party that provides or administers hospital and medical benefits to citizens of this state, including: a health maintenance organization issued a certificate of authority under and by virtue of the laws of the State of Mississippi, or a health insurer, nonprofit health service plan, health insurance service organization, or preferred provider organization or other entity offering health insurance policies, contracts or benefits in this state.

17. **Provider Utilization Review Representative:** The person(s) in a physician's office or hospital designated by the physician or hospital to provide the necessary information to complete the review process.
18. **Review Criteria:** The written policies, decision rules, medical protocols, or guides used by the utilization review organization to determine certification [e.g., Appropriateness Evaluation Protocol (AEP) and Intensity of Service, Severity of Illness, Discharge, and Appropriateness Screens (ISD-A)].
19. **Utilization Review:** A system for reviewing the appropriate and efficient allocation of hospital resources and medical services given or proposed to be given to a patient or group of patients. More specifically, utilization review refers to pre-service determination of the medical necessity or appropriateness of services to be rendered in a hospital setting either on an inpatient or outpatient basis, when such determination results in approval or denial of payment for the services. It includes both prospective and concurrent review and may include retrospective review under certain circumstances.
20. **Utilization Review Plan:** A description of the utilization review procedures of a private review agent.

Subchapter 6 DENIAL OR REVOCATION OF CERTIFICATION AND PENALTY

Rule 82.6.1 The Director shall deny a certificate to an applicant if the Department finds that the applicant does not:

1. Have available the services of a sufficient number of registered nurses, that are supervised by appropriate physicians to efficiently carry out its utilization review activities;
2. Meet any applicable provisions of these rules and regulations relating to the qualifications of private review agents or the performance of utilization review the Department adopts relating to the qualifications of private review agents or the performance of utilization review;
3. Have policies and procedures which protect the confidentiality of medical records in accordance with applicable state and federal laws; or
4. Make itself accessible to patients and providers five (5) working days a week during normal business hours in this state.

SOURCE: Miss. Code Ann. §41.83.1

Rule 82.6.2 The Director may revoke the certification of a private review agent if the Department finds that the agent:

1. Does not comply with performance assurances;
2. Violates any provision of these rules and regulations;
3. Fails to substantially meet the standards and qualifications adopted by the Director; or

4. Fails to comply with the regulations adopted by the Department.

SOURCE: Miss. Code Ann. §41.83.1

Rule 82.6.3 Before denying or revoking a certificate, the Director shall provide the applicant or certificate holder:

1. Written notice of the reasons for the denial or revocation;
2. Thirty (30) days in which to supply additional information demonstrating compliance with the requirements; and
3. The opportunity to request a hearing in accordance with the Mississippi Administrative Procedures Law, Section 25-43-17, Mississippi Code of 1972.

Subchapter 7 UTILIZATION REVIEW STANDARDS

Rule 82.7.1. Responsibility for Obtaining Certification

1. In the absence of any contractual agreement to the contrary, the enrollee is responsible for notifying the private review agent in a timely manner and obtaining certification for health care services. A private review agent shall allow any licensed hospital, physician, or responsible patient

representative, including a family member, to assist in fulfilling that responsibility.

2. To assure confidentiality, a private review agent must, when contacting a physician's office or hospital, provide its certification number, the caller's name, and professional qualification to the designated utilization review representative in the physician's office or hospital.

SOURCE: Miss. Code Ann. §41.83.1

Rule 82.7.2 Information Upon Which Utilization Review is Conducted

1. When conducting routine prospective and concurrent utilization review, the private review agent shall collect only the information necessary to certify the admission, procedure or treatment and length of stay.
2. A private review agent should not routinely expect hospitals and physicians to supply numerically codified diagnoses or procedures. The private review agent may ask for such coding, since if it is known, its inclusion in the data collected increases the effectiveness of the communication.
3. The private review agent shall not routinely request copies of medical records on all patients reviewed. During prospective and concurrent review, copies of medical records should only be required when a difficulty develops in certifying the medical necessity or appropriateness of the admission or extension of stay. In those cases, only the necessary or pertinent sections of the record should be required.
4. Private review agents may request copies of medical records retrospectively for a number of purposes, including auditing the services provided, quality assurance, evaluation of compliance with the terms of the health benefit plan or UR provisions. With the exception of the reviewing of records associated with an appeal or with an investigation of data discrepancies and unless otherwise provided for by contract or law, health care providers should be reimbursed the reasonable direct costs of duplicating requested records for retrospective review.

SOURCE: Miss. Code Ann. §41.83.1

Rule 82.7.3 Except as otherwise provided in these standards, a private review agent should limit its initial data requirements to the following elements:

1. Patient Information
 - a. Name
 - b. Address

- c. Date of Birth
 - d. Sex
 - e. Social Security Number or Patient ID Number
 - f. Name of Carrier or Plan
 - g. Plan ID Number
2. Enrollee Information
- a. Name
 - b. Address
 - c. Social Security Number or Employee ID Number
 - d. Relation to Patient
 - e. Employer
 - f. Health Benefit Plan
 - g. Group Number/Plan ID Number
 - h. Other Coverage Available (Workers Comp., Medicare, etc.)
3. Attending Physician/Practitioner Information
- a. Name
 - b. Address
 - c. Phone Number
 - d. Degree
 - e. Specialty/Certification Status
 - f. Tax ID or Other ID Number
4. Diagnosis/Treatment Information
- a. Primary Diagnosis
 - b. Secondary Diagnosis
 - c. Proposed Procedure(s) or Treatment(s)

- d. Surgical Assistant Requirement
- e. Anesthesia Requirement
- f. Proposed Admission or Service Date(s)
- g. Proposed Procedure Date
- h. Proposed Length of Stay
- 5. Clinical Information. Sufficient information for support of appropriateness and level of service proposed
- 6. Facility Information
 - a. Type (such as in-patient, out-patient, rehab, etc.)
 - b. Status (DRG exempt status, as needed)
 - c. Name
 - d. Address
 - e. Phone Number
 - f. Tax ID or Other ID Number
- 7. Concurrent (Continued Stay) Review Information
 - a. Clinical Contact Person
 - b. Additional Days/Services Proposed
 - c. Reasons for Extension
 - d. Diagnosis (same/changed)
 - e. Clinical Information (Sufficient to support, as above)
- 8. Admissions to Facilities Other Than Acute Medical/Surgical Hospitals
 - a. History of Present Illness
 - b. Patient Treatment Plan and Goals
 - c. Prognosis
 - d. Staff Qualifications
 - e. 24 Hour Availability of Staff

Rule 82.7.4. Special Situations

1. Additional information may be required for other specific review functions such as discharge planning or catastrophic case management. Second opinion information may also be required, when applicable, sufficient to support benefit plan requirements.
2. Information in addition to that described in this section may be requested by the private review agent or voluntarily submitted by the provider, when there is significant lack of agreement between the private review agent and health care provider regarding the appropriateness of certification during the review or appeal process. "Significant lack of agreement" means that the private review agent has:
 - a. Tentatively determined, through its professional staff, that a service cannot be certified;
 - b. Referred the case to a physician for review; and
 - c. Talked to or attempted to talk to the attending physician for further information.
3. A private review agent should share all clinical and demographic information on individual patients among its various divisions (e.g., certification, discharge planning, case management) to avoid duplicate requests for information from enrollee or providers.

Rule 82.7.5 Procedures For Review Determination

1. Each private review agent shall have written procedures to assure that reviews are conducted in a timely manner.
2. Each private review agent shall make certification determinations within two working days of receipt of the necessary information on a proposed admission or service requiring a review determination. Collection of the necessary information may necessitate a discussion with the attending physician or, based on the requirements of the health benefit plan, may involve a completed second opinion review.
3. A private review agent may review ongoing inpatient stays, but shall not routinely conduct daily review on all such stays. The frequency of the review for extension of the initial determination should vary based on the

severity or complexity of the patient's condition or on necessary treatment and discharge planning activity. Routine concurrent review generally should not be necessary earlier than 24 hours prior to the lapse of the certified length of stay.

4. Each private review agent shall have in place written procedures for providing notification of its determination regarding certification, recertification, or extensions of previously authorized length of stay in accordance with the following:
5. When an initial determination is made to certify, notification shall be provided promptly either by telephone or in writing, to the attending physician. The notification shall be transmitted in writing to the hospital and attending physician, as well as to the enrollee or patient, within two working days.
6. A determination to certify resulting from concurrent review shall be transmitted to the attending physician by telephone or in writing within one working day of receipt of all information necessary to complete the review process or prior to the end of the current certified period.
7. If a private review agent transmits written confirmation of certification for continued hospitalization, that notification shall include the number of extended days, the new total number of days approved, and the date of admission.
8. When a determination is made not to certify a hospital or surgery facility admission or extension of a hospital stay or other service requiring review determination, the attending physician shall be notified by telephone within one working day and a written notification should be sent within one working day to the hospital, attending physician and the enrollee or patient. The written notification shall include the principal reason(s) for the determination and the way to initiate an appeal of the determination if the enrollee, patient, or their representative so chooses. Reasons for a determination not to certify shall include, among other things, the lack of adequate information to certify after a reasonable attempt has been made to contact the attending physician.

Rule 82.7.6 Notwithstanding language to the contrary elsewhere contained herein, if a licensed physician certifies in writing to an insurer within seventy-two (72) hours of an admission that the insured person admitted was in need of emergency admission to hospital care, such shall constitute a prima facie case of the medical necessity of the admission. An emergency admission results from sudden onset of a medical condition manifested by acute symptoms of sufficient severity that absence of immediate inpatient hospitalization could reasonably result in:

1. Permanently placing the patient's health in jeopardy;
2. Serious impairment to bodily functions; or
3. Serious and permanent dysfunction of any bodily organ or part, or other serious medical consequences.

SOURCE: Miss. Code Ann. §41.83.1

Rule 82.7.7 To overcome this, the entity requesting the utilization review and/or the private review agent must show by clear and convincing evidence that the admitted person was not in need of immediate hospital care.

Subchapter 8 APPEALS OF DETERMINATIONS NOT TO CERTIFY

Rule 82.8.1 Each private review agent shall have in place procedures for appeals of determinations not to certify an admission, procedure, service or extension of stay. The right to appeal shall be available to the patient or enrollee, and to the attending physician on behalf of the patient. The procedures for appeals shall include, at a minimum, the following statement:

1. Any person aggrieved by a final decision of the department or a private review agent in a contested case under this act shall have the right of judicial appeal to the chancery court of the county of the residence of the aggrieved person.
2. Notwithstanding any provision of this act, the insured shall have the express right to pursue any legal remedies he may have in a court of competent jurisdiction.

Subchapter 9 EXPEDITED APPEAL

Rule 82.9.1 When an initial determination not to certify a health care service is made prior to or during an ongoing service requiring review, and the attending physician believes that the determination warrants immediate appeal, the attending physician shall

have an opportunity to appeal that determination over the telephone on an expedited basis, within one working day. Each private review agent shall provide for reasonable access to its consulting physician(s) for such appeals. Both providers of care and private review agents should attempt to share the maximum information by phone, FAX, or otherwise to resolve the expedited appeal (sometimes called a reconsideration request) satisfactorily.

Subchapter 12 CONFIDENTIALITY

Rule 82.12 Each private review agent shall have written procedures for assuring that patient-specific information obtained during the process of utilization review will be:

1. Kept confidential in accordance with applicable federal and state laws;
2. Used solely for the purposes of utilization review, quality assurance, discharge planning and catastrophic case management; and
3. Shared with only those agencies (such as the claims administrator) who have authority to receive such information.

Subchapter 17 AMENDMENTS

Rule 82.17.1 House Bill 1330 of the Mississippi Legislature 2000 Regular Session amended Section 41-83-31, Mississippi Code of 1972, as follows:

1. 41-83-31. Any program of utilization review with regard to hospital, medical or other health care services provided in this state shall comply with the following:
 - a. No determination adverse to a patient or to any affected health care provider shall be made on any question relating to the necessity or justification for any form of hospital, medical or other health care services without prior evaluation and concurrence in the adverse determination by a physician licensed to practice in Mississippi. The physician who made the adverse determination shall discuss the reasons for any adverse determination with the affected health care provider, if the provider so requests. The physician shall comply with this request within fourteen (14) calendar days of being notified of a request. Adverse determination by a physician shall not be grounds for any disciplinary action against the physician by the State Board of Medical Licensure.
 - b. Any determination regarding hospital, medical or other health care services rendered or to be rendered to a patient which may result in a denial of third-party reimbursement or a denial of pre-certification for that service shall include the evaluation, findings and concurrence of a physician trained in the relevant specialty or subspecialty, if requested by the patient(s) physician, to make a final determination that care rendered or to be rendered was, is, or may be medically inappropriate.
 - c. The requirement in this section that the physician who makes the evaluation and concurrence in the adverse determination must be licensed to practice in Mississippi shall not apply to the Comprehensive Health Insurance Risk Pool Association or its policyholders and shall not apply to any utilization review company which reviews fewer than ten persons residing in the State of Mississippi.

Rule 83.2.3 **Criminal History Record Checks.**

1. **Employee.** For the purpose of fingerprinting and criminal background history checks, employee shall mean any individual employed by a licensed entity. The term “employee”, also includes any individual who by contract with the facility provides patient care in a patient’s, resident’s, or client’s room or in treatment rooms. The term employee does not include healthcare professional/technical students, as defined in Section 37-29-232, performing clinical training in a licensed entity under contracts between their schools and the licensed entity, and does not include students at high schools who observe the treatment and care of patients in a licensed entity as part of the requirements of an allied health course taught in the school if:
 - a. The student is under the supervision of a licensed healthcare provider; and
 - b. The student has signed the affidavit that is on file at the student’s school stating that he or she has not been convicted of or plead guilty or nolo contendere to a felony of possession or sale of drugs, murder, manslaughter, armed robbery, rape, sexual battery, any sexual offenses listed in section 45-33-23 (g), child abuse, arson, grand larceny, burglary, gratification of lust, aggravated assault, or felonious abuse and/or battery of a vulnerable adult, or that any such conviction or plea was reversed on appeal or a pardon was granted for the conviction or plea.
 - c. Further, applicants and employees of the University of Mississippi Medical Center for whom criminal history record checks and fingerprinting are obtained in accordance with Section 37-115-41 are exempt from application of the term employee under Section 43-11-13.
2. **Covered Entity.** For the purpose of criminal history record checks, “covered entity” means a licensed entity, or a healthcare professional staffing agency.
3. **Licensed Entity.** For the purpose of criminal history record checks, the term “licensed entity” means an adult foster care facility, hospital, nursing home, personal care home, home health agency or hospice.
4. **Health Care Professional/Vocational Technical Academic Program.** For the purpose of criminal history record checks, “health care professional/vocational technical academic program” means an academic program in medicine, nursing, dentistry, occupational therapy, physical therapy, social services, speech therapy, or other allied-health professional whose purpose is to prepare professionals to render patient care services.

5. **Health Care Professional/Vocational Technical Student.** For purposes of criminal history record checks, the term means a student enrolled in a healthcare professional/vocational technical academic program.
6. **Direct Patient Care or Services.** For the purposes of fingerprinting and criminal background history checks, the term “direct patient care” means direct hands-on medical patient care and services provided by an individual in a patient, resident or client’s room, treatment room or recovery room. Individuals providing direct patient care may be directly employed by the facility or employed on a contractual basis.
7. **Documented Disciplinary Action.** For the purpose of fingerprinting and criminal background history checks, the term “documented disciplinary action” means any action taken against an employee for abuse or neglect of a patient.

SUBCHAPTER 9. DENIAL, SUSPENSION, OR REVOCATION OF LICENSE

Rule 83.9.1 **Denial or Revocation of License: Hearings and Review.** The licensing agency, after notice and opportunity for a hearing to the applicant or licensee, is authorized to deny, suspend, or revoke a license, or deny renewal of a license, in any case in which it finds that there has been a substantial failure to comply with the requirements established under the law and these regulations. Also, the following shall be grounds for denial or revocation of license:

1. Fraud on the part of the licensee in applying for a license, or renewal of license.
2. Willful or repeated violations by the licensee of any of the provisions of Sections 43-11-1 et seq, of the Mississippi Code of 1972, as amended, and/or of the rules, regulations, and minimum standards established by the licensing agency.

3. Addiction to narcotic drug(s) by the licensee or other employees or personnel of the licensed facility.
4. Use of alcoholic beverages by the licensee or other personnel of the licensed facility to the extent which threatens the well-being or safety of the residents.
5. Conviction of the licensee of a felony.
6. Publicly misrepresenting the licensed facility and/or its services.
7. Permitting, aiding, or abetting the commission of any unlawful act.
8. Conduct or practices detrimental to the health or safety of residents and employees of said licensed facility. Detrimental practices include but are not limited to:
 - a. Cruelty to a resident or indifference to the needs which are essential to the general well-being and health.
 - b. Misappropriation of the money or property of a resident.
 - c. Failure to provide food adequate for the needs of a resident.
 - d. Inadequate staff to provide safe care and supervision of a resident.
 - e. Failure to call a physician or nurse practitioner/physician assistant when required by a resident's condition.
 - f. Failure to notify next of kin when a resident's condition becomes critical.
 - g. Admission of a resident whose condition demands care beyond the level of care provided by the licensed facility as determined by its classification, including but not limited to the failure to ensure that a care plan was developed within twenty-four (24) hours of admission if not developed prior to admission for a resident admitted to the licensed facility, and that care plans are continually revised as necessary for the resident to attain their highest practicable physical, mental, and psychosocial well-being.
 - h. For failure to implement the plan of care for a resident admitted to the licensed facility.
9. A violation of 24-hour supervision requirement and/or the transfer of a resident(s) from the licensed facility to any unlicensed facility may result in the facility's license being made provisional for a period of 90 days. At the end of that 90-day period, if corrective actions have not been taken by the licensed facility, that Provisional License may be revoked.

SUBCHAPTER 10. PROVISION FOR HEARING AND APPEAL FOLLOWING DENIAL OR REVOCATION OF LICENSE; PENALTIES

Rule 83.10.1 **Administrative Decision.** The licensing agency will provide an opportunity for a fair hearing to every applicant or licensee who is dissatisfied with administrative decisions made in the denial or revocation of license.

1. The licensing agency shall notify the applicant or licensee by registered mail or personal service the particular reasons for the proposed denial or revocation of license. Upon written request of applicant or licensee within ten (10) days of the date of notification, the licensing agency shall fix a date within thirty (30) days from the date of such service at which time the applicant or licensee shall be given an opportunity for a prompt and fair hearing.
2. On the basis of such hearing or upon default of the applicant or licensee, the licensing agency shall make a determination specifying its findings of fact and conclusions of law. A copy of such determination shall be sent by registered mail to the last known address of the applicant or licensee or served personally upon the applicant or licensee.
3. The decision revoking, suspending, or denying the application or license shall become final thirty (30) days after it is so mailed or served unless the applicant or licensee, within such thirty (30) day period, appeals the decision in Chancery Court pursuant to Section 43-11-23 of the Mississippi Code of 1972. An additional period of time may be granted at the discretion of the licensing agency.

Rule 83.10.3 **Ban on Admissions.** If a condition of immediate jeopardy exists at a licensed facility, written notice of the determination of the condition shall be provided by the licensing agency to the licensed facility, along with the notification that a ban on all admissions is to be imposed five (5) calendar days after the receipt of the notice by the licensed facility. If the licensing agency's determination of a condition of immediate jeopardy on the day of the licensure visit/survey is confirmed, a ban on all admissions shall be imposed until the licensed facility achieves compliance and such compliance is verified by the licensing agency. The licensing agency will verify the licensed facility's corrective actions as soon as possible after the licensing agency receives a plan of correction from the licensed facility.

SUBCHAPTER 11. ADMINISTRATION

Rule 83.11.1 **Operator.** There shall be a full-time employee designated as operator of the licensed facility who shall be responsible for the management of the licensed facility. The operator shall be at least twenty-one years of age and shall be a high school graduate, or have passed the GED, and shall not be a resident of the licensed facility. The operator shall have verification that he is not listed on the "Mississippi Nurses Aide Abuse Registry." When the operator is not within the licensed facility, there shall be an individual onsite at the licensed facility who shall represent the operator, and be capable of assuming the responsibility of operator. Said person must be at least twenty-one (21) years or age and shall be a high school graduate, or have passed the GED, and shall have verification that he is not listed on the "Mississippi Nurses Aide Abuse Registry."

Rule 83.11.2 **Other Personnel.** All direct care employees shall be a minimum of 18 years of age, and shall have verification that they are not listed on the "Mississippi Nurses Aide Abuse Registry." Personnel shall receive training on a quarterly basis on topics and issues related to the population being served in the licensed facility. Training shall be documented by a narrative of the content and signatures of those attending. Personnel shall be employed and on duty, awake, and fully dressed to provide personal care to the residents. The following staffing ratio shall apply:

1. one (1) resident attendant per fifteen (15) or fewer residents for the hours of 7:00 a.m. until 7:00 p.m.
2. one (1) resident attendant per twenty-five (25) or fewer residents for the hours of 7:00 p.m. until 7:00 a.m.

Rule 83.11.3 Criminal History Record Checks.

1. The covered entity shall require to be performed a disciplinary check with the professional licensing agency, if any, for each employee to determine if any disciplinary action has been taken against the employee by the agency, and a criminal history check on:
 - a. Every new employee of a covered entity who provides direct patient care or services and who is employed after or on July 01, 2003, and
 - b. Every employee of a covered entity employed prior to July 01, 2003, who has documented disciplinary action by his or her present employer.
2. Except as otherwise provided in this paragraph, no employee hired on or after July 1, 2003, shall be permitted to provide direct patient care until the results of the criminal history record check revealed no disqualifying record or the employee has been granted a waiver. Provide the covered entity has documented evidence of submission of fingerprints for the background check, any person may be employed and provide direct patient care on a temporary basis pending the results of the criminal history record check but any employment offer, contract, or arrangement with the person shall be voidable if he/she receives a disqualifying criminal record check and no waiver is granted.
3. If such criminal history record check discloses a felony conviction; a guilty plea; and/or a plea of nolo contendere to a felony for one (1) or more of the following crimes which has not been reversed on appeal, or for which a pardon has not been granted, the applicant/employee shall not be eligible to be employed at the license facility:
 - a. possession or sale of drugs
 - b. murder
 - c. manslaughter
 - d. armed robbery
 - e. rape
 - f. sexual battery
 - g. sex offense listed in Section 45-33-23, Mississippi Code of 1972
 - h. child abuse
 - i. arson

- j. grand larceny
 - k. burglary
 - l. gratification of lust
 - m. aggravated assault
 - n. felonious abuse and/or battery of vulnerable adult
4. Documentation of verification of the employee's disciplinary status, if any, with the employee's professional licensing agency as applicable, and evidence of submission of the employee's fingerprints to the licensing agency must be on file and maintained by the facility prior to the new employees first date of employment. The covered entity shall maintain on file evidence of verification of the employee's disciplinary status from any applicable professional licensing agency and of submission and/or completion of the criminal record check, the signed affidavit, if applicable, and/or a copy of the referenced notarized letter addressing the individual's suitability for such employment.
 5. The licensing agency may charge the licensed entity submitting the fingerprints a fee not to exceed Fifty Dollars (\$50.00).
 6. Should results of an employee applicant's criminal history record check reveal no disqualifying event, then the covered entity shall, within two (2) weeks of the notification of no disqualifying event, provide the employee applicant with a notarized letter signed by the chief executive officer of the covered entity, or his or her authorized designee, confirming the employee applicant's suitability for employment based on his or her criminal history record check. An employee applicant may use that letter for a period of two (2) years from the date of the letter to seek employment at any covered entity licensed by the Mississippi State Department of Health without the necessity of an additional criminal record check. Any covered entity presented with the letter may rely on the letter with respect to an employee applicant's criminal background and is not required for a period of two (2) years from the date of the letter to conduct or have conducted a criminal history record check as required in this subsection.
 7. For individuals contracted through a third party who provide direct patient care as defined herein, the covered entity shall require proof of a criminal history record check.
 8. The licensing agency, the covered entity, and their agents, officers, employees, attorneys and representatives, shall be presumed to be acting in good faith for any employment decision or action taken under this section. The presumption of good faith may be overcome by a preponderance of the evidence in any civil action. No licensing agency, covered entity, nor their

agents, officers, employees, attorneys and representatives shall be held liable in any employment discrimination suit in which an allegation of discrimination is made regarding an employment decision authorized under this section.

Rule 83.11.5 **Employee Testing for Tuberculosis**

1. Each employee, upon employment of a licensed entity and prior to contact with any patient/client, shall be evaluated for tuberculosis by one of the following methods:
 - d. IGRA (blood test) and an evaluation of the individual for signs and symptoms of tuberculosis by medical personnel; or
 - e. A two-step Mantoux tuberculin skin test administered and read by a licensed medical/nursing person certified in the techniques of tuberculin testing **and** an evaluation of the individual for signs and symptoms of tuberculosis by a licensed Physician, Physician's Assistant, Nurse Practitioner or a Registered Nurse.
2. The IGRA/Mantoux testing and the evaluation of signs/symptoms may be administered/conducted on the date of hire or administered/read no more than 30 days prior to the individual's date of hire; however, the individual must not be allowed contact with a patient or work in areas of the RBIR where patients have access until receipt of the results of the IGRA/assessment or at least the first of the two-step Mantoux test has been administered/read and assessment for the signs and symptoms completed.
3. If the Mantoux test is administered, results must be documented in millimeters. Documentation of the IGRA/TB skin test results and assessment must be documented in accordance with accepted standards of medical/nursing practice and must be placed in the individual's personnel file no later than 7 days of the individual's date of employment. If an IGRA is performed, results and quantitative values must be documented.

4. Any employee noted to have a newly positive IGRA, a newly positive Mantoux skin test or signs/symptoms indicative of tuberculin disease (TB) that last longer than three weeks (regardless of the size of the skin test or results of the IGRA), shall have a chest x-ray interpreted by a board certified Radiologist and be evaluated for active tuberculosis by a licensed physician within 72 hours. The employee shall not be allowed to work in any area where clients have routine access until evaluated by a physician/nurse practitioner/physician assistant and approved to return. Exceptions to this requirement may be made if the employee is asymptomatic and:
 - a. The individual is currently receiving or can provide documentation of having received a course of tuberculosis prophylactic therapy approved by the Mississippi State Department of Health (MSDH) Tuberculosis Program for tuberculosis infection, or
 - b. The individual is currently receiving or can provide documentation of having received a course of multi-drug chemotherapy approved by the MSDH Tuberculosis Program; or
 - c. The individual has a documented previous significant tuberculin skin reaction or IGRA reaction.
5. For individuals noted to have a previous positive to either Mantoux testing or the IGRA, annual re-evaluation for the signs and symptoms must be conducted and must be maintained as part of the employee's annual health screening. A follow-up annual chest x-ray is NOT required unless symptoms of active tuberculosis develop.
6. If using the Mantoux method, employees with a negative tuberculin skin test and a negative symptom assessment shall have the second step of the two- step Mantoux tuberculin skin test performed and documented in the employees' personal record within fourteen (14) days of employment.
7. The IGRA or the two-step protocol is to be used for each employee who has not been previously skin tested and/or for whom a negative test cannot be documented within the past 12 months. If the employer has documentation that the employee has had a negative TB skin test within the past 12 months, a single test performed thirty (30) days prior to employment or immediately upon hire will fulfill the two-step requirements. As above, the employee shall not have contact with clients or be allowed to work in areas of the RBIR to which clients have routine access prior to reading the skin test, completing a signs and symptoms assessment and documenting the results and findings.

8. Facilities shall comply with recommendations from the Centers for Disease Control and/or the Mississippi State Department of Health regarding baseline employee TB testing and routine serial employee TB testing and education. Staff exposed to an active infectious case of tuberculosis shall be treated as contacts and be managed appropriately. Individuals found to have a significant Mantoux tuberculin skin test reaction and a chest x-ray not suggestive of active tuberculosis, shall be evaluated by a physician or nurse practitioner/physician assistant for treatment of latent tuberculin infection.

Rule 83.11.6 **Admission Agreement.** Prior to, or at the time of admission, the operator and the resident or the resident's responsible party shall execute in writing a financial agreement. This agreement shall be prepared and signed in two or more copies, one copy given to the resident or his/her responsible party, and one copy placed on file in the licensed facility.

1. As a minimum, this agreement shall contain specifically:
 - a. Basic charges agreed upon (room, board, laundry, and personal care).
 - b. Period to be covered in the charges.
 - c. Services for which special charges are made.
 - d. Agreement regarding refunds for any payments made in advance.
 - e. A statement that the operator shall make the resident's responsible party aware, in a timely manner, of any changes in resident's status, including those which require transfer and discharge; or operators who have been designated as a resident's responsible party shall ensure prompt and efficient action to meet resident's needs.
2. No agreement or contract shall be entered into between the licensee and the resident or his responsible agent which will relieve the licensee of the responsibility for the protection of the person and personal property of the individual admitted to the licensed facility for care.
3. Any funds given or provided for the purpose of supplying services to any patient in any licensed facility, and any funds otherwise received and held from, for or on behalf of any such resident, shall be deposited by the director or other proper officer of the licensed facility to the credit of that patient in an account which shall be known as the Resident's Personal Deposit Fund. No more than one (1) month charge for the care, support, maintenance, and medical attention of the patient shall be applied from such account at any one

(1) time. After the death, discharge, or transfer of any resident for whose benefit any such fund has been provided, any unexpended balance remaining in his personal deposit fund shall be applied for the payment of care, cost of support, maintenance, and medical attention which is accrued. In the event any unexpended balance remains in that resident's personal deposit fund after complete reimbursement has been made for payment of care, support, maintenance, and medical attention, and the director or other proper officer of the licensed facility has been or shall be unable to locate the person or persons entitled to such unexpended balance. The director or other property officer shall treat the unexpended balance in compliance with the Uniform Disposition of Unclaimed Property Act.

4. The resident or his responsible party shall be furnished a receipt signed by the licensee of the licensed facility or his lawful agent, for all sums of money paid to the licensed facility.
5. Written notification shall be given to the resident/responsible party when basic charges and/or licensed facility policies change.

Rule 83.11.7 Records and Reports

1. The operator shall maintain a record of the residents for whom he or she serves as the conservator or a representative payee. This record shall include evidence of the means by which the conservatorship or representative payee relationship was established and evidence of separate accounts in a bank for each resident whose conservator or representative payee is the operator of the licensed facility.
2. Inspection reports from the licensing agency, any branch or division thereof by the operator in the licensed facility, and submitted to the licensing agency as required, or when requested.
3. Resident records shall contain the following:
 - a. Admission agreement(s) and financial statements.
 - b. Residents' rights and licensed facility's rules, signed, dated, and witnessed.
 - c. Medical evaluation and referral from physician or nurse practitioner/physician assistant.
 - d. Current medication record, including any reactions to such medication.
 - e. Social services and activity contacts.

- f. General information form.
 - g. Representative payee statement, if applicable.
 - h. Physician orders or nurse practitioner/physician assistant orders (including, but not limited to, therapies, diets, medications, etc.) and medication administration records.
 - i. The resident's current Plan of Care. In addition, the facility shall maintain documented evidence of the Plans of Care previously in effect in the resident's record and shall be available for review by the licensing agency throughout the resident's stay in the licensed facility until thirty (30) days from the date the resident is discharged from the facility.
 - j. The resident's grievances and complaints during his/her stay in the licensed facility shall be maintained which shall include copies of all the resident's grievances or complaints filed in chronological order. The facility's report to the grievance shall be maintained in the record and shall include the nature of the complaint, the date of the complaint and a statement indicating how the issue was resolved.
- 4. The records as described in this section shall be made available to the resident, the resident's family, or other responsible party for the resident upon reasonable request.
 - 5. Reporting of Tuberculosis Testing. The facility shall report and comply with the annual MSDH TB Program surveillance procedures.

Rule 83.11.10 **Residents' Rights.** These rights and licensed facility rules must be in writing and be made available to all residents, employees, sponsors, and posted for public viewing. Each resident shall:

1. Have the right to attend religious and other activities of his/her choice.
2. Have the right to manage his/her personal financial affairs, or is given at least a quarterly accounting of financial transactions made on his/her behalf should the facility accept the written delegation from the resident or from his/her responsible party of this responsibility to the facility for any period of time in conformance with State law.
3. Not be required to perform services for the licensed facility.
4. Have the right to communicate with persons of his/her choice, and may receive mail unopened or in compliance with the policies of the home.
5. Be treated with consideration, kindness, respect, and full recognition of his/her dignity and individuality.
6. May retain and use personal clothing and possessions as space permits.
7. Have the right to voice grievances and complaints to the licensee regarding the care he/she is receiving in the licensed facility and recommend changes in licensed facility policies and services.
8. Shall not be confined to the licensed facility against his/her will, and shall be allowed to move about in the community at liberty. Physical and/or chemical restraints are prohibited.
9. Not be limited in his/her choice of a pharmacy or pharmacist provider in accordance with State Law.
10. Has the right to participate in their care planning and review his/her care plan, or the resident's responsible party has the right to review the resident's care plan when acting on behalf of the resident. Additionally, the resident has the right to refuse treatment in accordance with their Plan of Care. However, whenever there appears to be a conflict between a resident's right and the resident's health or safety, the licensed facility should accommodate both the exercise of the resident's rights and the resident's health, including exploration of care alternatives through a thorough care planning process in which the resident may participate.

SUBCHAPTER 12. MEDICAL AND PERSONAL CARE SERVICES

Rule 83.12.1 **Admission and Discharge.** The following criteria must be applied and maintained for resident placement in a licensed facility.

1. A person shall not be admitted or continue to reside in a licensed facility if the person:
 - a. Is not ambulatory;
 - b. Requires physical restraints;
 - c. Poses a serious threat to himself or herself or others;
 - d. Requires nasopharyngeal and/or tracheotomy suctioning;
 - e. Requires gastric feedings;
 - f. Requires intravenous fluids, medications, or feedings;
 - g. Requires a indwelling urinary catheter;
 - h. Requires sterile wound care; or
 - i. Requires treatment of decubitus ulcer or exfoliative dermatitis.
 - j. Upon admission or within 24 hours of admission, the adult foster care facility shall develop and document an individualized plan of care for each resident admitted to the facility.
2. Licensed facilities which are not accessible to individuals with disabilities through the A.N.S.I. Standards as they relate to facility accessibility may not accept wheelchair bound residents. Only those persons who, in an emergency, would be physically and mentally capable of traveling to safety may be accepted. For multilevel facilities, no residents may be placed above the ground floor level that are unable to descend the stairs unassisted.
3. The licensed facility must be able to identify at the time of admission and during continued stay those residents whose needs for services are consistent with these rules and regulations, and those residents who should be transferred to an appropriate level of care.
4. The licensed facility which accepts and admits residents requiring mental health services shall help arrange transportation to mental health appointments and cooperate with the community mental health center or other provider of mental health care, as necessary, to ensure access to and the coordination of care, within limits of the confidentiality and privacy rights of the individual receiving services.

Rule 83.12.3 **Admission Requirements to Rule Out Active Tuberculosis (TB)**

1. The following are to be performed and documented within 30 days prior to the resident's admission to the "Licensed facility":
 - a. TB signs and symptoms assessment by a licensed Physician, Physician Assistant or a Licensed Nurse Practitioner, and
 - b. A chest x-ray taken and a written interpretation.
2. Admission to the facility shall be based on the results of the required tests as follows:
 - a. **Residents with an abnormal chest x-ray and/or signs and symptoms assessment** shall have the first step of a two-step Mantoux tuberculin skin test (TST) placed and read by certified personnel OR an IGRA (blood test) drawn and results documented within 30 days prior to the patient's admission to the "Licensed facility". Evaluation for active TB shall be at the recommendation of the MSDH and shall be prior to admission. If TB is ruled out and the first step of the TST is negative, the second step of the two-step TST shall be completed and documented within 10-21 days of admission. TST administration and reading **shall** be done by certified personnel. If an IGRA (blood test) is done, TST (first and/or second step) is not done.
 - b. **Residents with a normal chest x-ray and no signs or symptoms of TB** shall have a baseline IGRA test (blood test) OR a TST performed with the initial step of the two-step Mantoux TST placed on or within 30 days prior to the day of admission. IF TST is done, the second step shall be completed within 10-21 days of the first step. TST administration and reading shall be done by certified personnel. If an IGRA (blood test) is done, a TST is not done (first or second step).
 - c. **Residents with a significant TST OR positive IGRA (blood test)** upon baseline testing or who have documented **prior significant TST** shall be monitored regularly for signs and symptoms of active TB (cough, sputum production, chest pain, fever, weight loss, or night sweats, especially if the symptoms have lasted longer than three weeks) and if these symptoms develop, shall have an evaluation for TB per the recommendations of the MSDH within 72 hours.

- d. **Residents with a non significant TST** or negative IGRA (blood test) upon baseline testing shall have an annual tuberculosis testing within thirty (30) days of the anniversary of their last test. Note: Once IGRA testing is used, IGRA testing should continue to be used rather than TST testing.
- e. **Residents with a new significant TST or newly positive IGRA** (blood test) on annual testing shall be evaluated for active TB by a nurse practitioner or physician or physician assistant.
- h. **Active or suspected Active TB Admission.** If a resident has or is suspected to have active TB, prior written approval for admission to the facility is required from the MSDH TB State Medical Consultant.
- i. **Exceptions to TST/ IGRA requirement may be made if:**
 - iii. Resident has prior documentation of a significant TST/ positive IGRA.
 - iv. Resident has received or is receiving a MSDH approved treatment regimen for latent TB infection or for active TB disease.
 - v. Resident is excluded by a licensed physician or nurse practitioner/physician assistant due to medical contraindications.

Rule 83.17.2 Bedrooms.

1. Location.

- a. All resident bedrooms shall have an outside exposure and shall not be below grade. Window areas shall not be less than one-eighth (1/8) of the floor area. The window sill shall not be over thirty-six (36) inches from the floor. Windows shall be operable.
- b. Resident bedrooms shall be located so as to minimize the entrance of unpleasant odors, excessive noise, and other nuisances.
- c. Resident bedrooms shall be directly accessible from the main corridor. In no case shall a resident bedroom be used for access to another resident bedroom nor shall a resident bedroom be used for access to a required outside exit.
- d. All resident bedrooms shall be so located that the resident can travel from his/her bedroom to a living room, day room, dining room, or toilet or bathing facility without having to go through another resident bedroom.
- e. Resident bedrooms shall house no more than four (4) persons each.

2. Furnishings.

- a. Single beds shall be provided with good grade mattresses at least four (4) inches thick. Cots and roll-away beds shall not be used.
- b. Each bed shall be equipped with a pillow and clean linens to include sheets, pillow cases, spreads and blankets. An adequate supply of such linens shall be provided at all times to allow for a change of linen at least once a week.
- c. Chest of drawers or similar adequate storage space shall be provided for the clothing, toilet articles, and personal belongings of each resident.

- d. Adequate closet space shall be provided for each resident.
- e. An adequate number of comfortable, sturdy chairs shall be provided.
- f. At least one (1) mirror, a minimum of 18" x 24", shall be provided in each bedroom.
- g. The opportunity for personal expression shall be permitted.
- h. A resident shall be permitted to use personal furnishings in lieu of those provided by the licensed facility, when practical.

3. **Floor Area.** Minimum usable floor area per bed shall be 80 square feet

Source: Miss. Code Ann. §43-11-13

Rule 83.17.3 **Living Room.** Living rooms, daybooks, and/or recreation rooms shall be provided for resident and visitors. Each licensed facility shall provide at least two (2) areas for this purpose: one (1) for small groups such as a private visit with relatives and friends; and one (1) for larger group activities. The living room must be equipped with attractive, functional, and comfortable furniture in sufficient number to accommodate all residents. A minimum of 18 square feet per bed shall be provided.

Source: Miss. Code Ann. §43-11-13

Rule 83.17.4 **Dining Area.** A dining area shall be provided which shall be adequate to seat all residents at the same meal seating. The dining area may also be used for social, recreational, and/or religious services when not in use as a dining facility. A minimum of 15 Square feet per bed shall be provided.

Rule 83.17.6 **Laundry.** Laundry facilities shall be provided unless commercial laundries are used.

1. The laundry shall be located in a specifically designated area, and there shall be adequate room and space for sorting, processing and storage of soiled material. Laundry rooms or soiled linen storage areas shall not open directly into a resident's bedroom or food service area. Soiled materials shall not be transported through the food service area. The laundry area shall be kept clean and orderly.
2. If commercial laundry is used, separate satisfactory storage areas shall be provided for clean and soiled linens.
3. Provisions shall be made for proper mechanical ventilation of the laundry.
4. Provisions shall also made to prevent the recirculation of air through the heating and air-conditioning systems.
5. Adequate and effective lint traps shall be provided for dryers.
6. When laundry chutes are provided, they shall have a minimum diameter of two (2) feet; and they shall be installed with flushing ring, vent, and drain.
 - a. An automatic sprinkler shall be provided at the top of the laundry chute and in any receiving room for a chute.
 - b. A self-closing door shall be provided at the bottom of the chute.
7. Laundry equipment shall be of the type to adequately perform the laundry needs of the facility. The equipment shall be installed to comply with all local and state codes.
8. There shall be a separate and designated area for the storage of clean linen.

SUBCHAPTER 18. GENERAL PHYSICAL PLANT

Rule 83.18.1 **Licensed Facility Classification.** To qualify for a license, the facility shall be planned to serve the type of residents to be admitted and shall meet the requirements as set forth in these regulations.

Source: Miss. Code Ann. §43-11-13

Rule 83.18.2 **Location.** All facilities and licensed facilities shall be located so that they are free from undue noise, smoke, dust, or foul odors and shall not be located adjacent to disposal plants, railroad tracks, etc.

Source: Miss. Code Ann. §43-11-13

Rule 83.18.3 **Site.** The proposed site for facility must be approved by the licensing agency. Factors to be considered in approving a site shall be convenient to medical and hospital services, approved water supply and sewage disposal, public transportation, community services, services of an organized fire department, and availability to labor supply. Not more than one-third (1/3) of a site shall be covered by a building(s) except by special approval of the licensing agency. One example whereby approval may be granted is where the structure is to be placed in a very desirable location where the grounds are limited and very expensive. Where such approval is granted, the structure will be required to have a living room, day room, sun room, and recreational areas adequate to compensate for lack of required outside area.

SUBCHAPTER 21. BUILDING REQUIREMENTS

Rule 83.21.1 **Building Protection.** Facilities licensed after August 13, 2005 shall be constructed to have;

1. Building Protection.

- a. Automatic Sprinklers Required. Facilities licensed after the effective date of these regulations shall be protected throughout by a supervised

automatic sprinkler system installed in accordance with the current edition of NFPA 13, Installation of Sprinkler Systems.

- b. In facilities licensed for sixteen (16) or fewer residents and where the characteristics of occupancy are comparable with one (1) and two (2) family residential fire potentials, an NFPA 13D-styled sprinkler system may be installed.

2. **Building Construction.**

- a. **Single story.** No requirements.
- b. **Multi-story (less than four floors).** One hour fire resistance rating as prescribed by the current edition of the National Fire Protection Association (NFPA) Standard 220, types of Building Construction. (Example: Type II (111), or Type V (111).
- c. **Mobile structures.** No mobile structures are acceptable for housing residents.

SUBCHAPTER 22. EMERGENCY OPERATIONS PLAN (EOP)

Rule 83.22.1 The licensed entity shall develop and maintain a written preparedness plan utilizing the “All Hazards” approach to emergency and disaster planning. The plan must include procedures to be followed in the event of any act of terrorism or man-made or natural disaster as appropriate for the specific geographical location. The final draft of the Emergency Operations Plan (EOP), will be reviewed by the Office of Emergency Preparedness and Response, Mississippi State Department of Health, or their designates, for conformance with the “All Hazards Emergency Preparedness and Response Plan.” Particular attention shall be given to critical areas of concern which may arise during any “all hazards” emergency whether required to evacuate or to sustain in place. Additional plan criteria or a specified EOP format may be required as deemed necessary by the Office of Emergency Preparedness and Response. The six (6) critical areas of consideration are:

- 1. Communications: Facility status reports shall be submitted in a format and a frequency as required by the Office of EOP.
- 2. Resources and Assets

3. Safety and Security
4. Staffing
5. Utilities
6. Clinical Activities.
