Rule 8.1.4 Requirements to Perform Dry Needling: As with all other physical agent modalities in occupational therapy, dry needling is to be utilized in the therapeutic process in order to ultimately achieve improved function and therefore not to be applied as a stand-alone treatment. Dry needling does not include the stimulation of auricular or distal points. Dry needling is not part of an occupational therapist's academic or clinical preparation for entry-level practice; therefore, this rule establishes the minimum standards required for an occupational therapist to be deemed competent to perform dry needling.

1. Dry needling shall be performed only by an occupational therapist who is competent by education and training to perform dry needling as specified in this regulation. Online/virtual/remote study and/or self-study for dry needling instruction shall not be considered appropriate training.

 - c. The applicant has not committed any act in the other state that would have constituted grounds for refusal, suspension, or revocation of a license to practice that occupation in Mississippi at the time the act was committed, and the applicant does not have a disqualifying criminal record as determined by the Department under Mississippi law; and

 - k. Documentation of current in-state employment or a notarized letter of the promise of employment of the applicant or his or her spouse; or

14. A license issued under this section is valid only in this state and does not make the person eligible to be part of an interstate compact.
15. The Department shall issue or deny the license to the applicant within one hundred twenty (120) days after receiving an application.

16. If the application requires longer than two (2) weeks to process, the Department shall issue a temporary practice permit within thirty (30) days after receiving the application if the applicant submits an affidavit, under penalties of perjury, affirming that he or she satisfies the provisions of Rule 10.4.6(3) or Rule 10.4.6(4) and pays all applicable fees as required by Rule 10.4.6(1)(f).
 - a. The applicant may practice under the temporary permit until a license is granted, or until a notice to deny the license is issued, in accordance with rules adopted by the Department. A temporary license will expire in three hundred sixty-five (365) days after its issuance if the applicant fails to satisfy the requirement for licensure in Rule 10.4.6(1) through Rule 10.4.6(3), as applicable.
17. The Department may waive the examination for licensure of any applicant who presents proof of current licensure in another state, including the District of Columbia, or territory of the United States which maintains professional standards considered by the Department to be equivalent to those set forth in this chapter.
