LAWS

MISS. CODE ANN. § 37-17-7. Accreditation of Nonpublic Schools.

Any nonpublic school may, through its governing body, request that the State Board of Education approve such institution. Approval shall be based upon a process promulgated by the State Board of Education; provided, however, that in no event shall the State Board of Education adopt more stringent standards for approval of nonpublic schools than the accreditation standards applied to public schools.

MISS. CODE ANN. §37-17-9. Accreditation by Other Agencies

This chapter shall not be construed to establish the only accrediting agency in the State of Mississippi, and nothing contained herein shall be construed to prevent any nonpublic school association or associations or group or groups from establishing its or their accrediting agency, unrelated to any such accrediting agency for public schools as established by this chapter. Nothing in the chapter shall prevent such nonpublic school accrediting agency or agencies from functioning in such a capacity.

INTRODUCTION

Any nonpublic school may voluntarily request accreditation. Accreditation of a nonpublic school will be determined by the extent to which the school complies with each of the applicable requirements described in this document.

Some differences exist between public school boards and government agencies that have responsibilities for disbursing public funds and the governing body or policy-making authority of privately funded schools, which may delegate more fiscal freedom to the chief school administrator. Although the accreditation standards for nonpublic school are in many cases identical to the process standards for public schools, nonpublic schools do not participate in the accountability system and school performance model for public schools. Alos, some exemptions and interpretations are allowed for special purpose schools serving special populations, church-related schools, and tribal schools. For the purpose of this nonpublic school accreditation process, the following definitions are used.

<u>School:</u> A school is defined as an institution that exists for the purpose of teaching school-age children, consists of one (1) physical plant located on one (1) school site, includes instructional staff members and students, and is in session each school year.

- Home schools and home-schooling programs, including those that are affiliated with an accrediting
 agency, are specifically excluded from this definition and are not eligible to participate in the State
 Board of Education (SBE) accreditation process.
- Also excluded from this definition are day care centers, preschool programs (except for special
 preschool programs specifically designed to serve children with disabilities according to the
 Individuals with Disabilities Act (IDEA) and Preschool Grant regulations), and post-secondary
 programs including adult education or vocational training programs specifically designed to serve an
 adult-age student population.

<u>Nonpublic School</u>: The term nonpublic school includes the following: (a) private schools, (b) parochial and other church-related schools, (c) special purpose schools either privately owned and operated or governed by a public agency other than the Mississippi Department of Education, and (d) tribal schools funded by the Bureau of Indian Education. Nonpublic schools may be operated either as a for profit organization or as a nonprofit, tax-exempt corporation.

Special Purpose School: A special purpose school is defined as one that is organized to serve a specific population(s) of students or to provide a special program of instruction for students.

A special purpose school that serves students with disabilities in accordance with IDEA and applicable state statutes and regulations must meet all relevant state and federal requirements for special education programs.

<u>Church-Related School:</u> A church-related school is defined as one that is governed and operated by a denominational, parochial, or a combination of such entities, as designated at the school level.

| <u>Local Governing Body:</u> A local governing body is defined as a policy-making entity, governing entity, advisory | | | | | | |

| council, or a combination of such entitie | council, or a combination of such entities, as designated at the school level. | | | | | |

NONPUBLIC SCHOOL ACCREDITATION POLICIES OF THE STATE BOARD OF EDUCATION

Accreditation of nonpublic schools will be determined by the extent to which the school complies with each of the applicable requirements contained in this document. Information concerning each school's compliance with accreditation requirements and standards will be reported to the State Board of Education on an annual basis.

1.0 PARTICIPATION

Any nonpublic school serving school age students may, through its local governing body, request to be accredited by the State Board of Education. Accreditation shall be based on a process promulgated by the State Board of Education.

1.1 Definition of a Nonpublic School

The term nonpublic school includes private schools, parochial and other church-related schools, special purpose schools either privately owned and operated or governed by a public agency other than the Mississippi Department of Education, and Indian schools funded by the Bureau of Indian Affairs. Nonpublic schools may be operated either as a for profit organization or as a nonprofit, tax-exempt corporation.

1.2 Exclusions

Home schools and home-schooling programs, including those that are affiliated with an approved accrediting agency, are specifically excluded and are not eligible to participate in the State Board of Education accreditation process. Also excluded are daycare centers serving children below the age of 6, preschool programs (except those serving children ages 3-5 with disabilities), and adult education programs specifically designed to serve an adult-age population.

1.3 Initial Accreditation

Initial accreditation requires any newly applying school to be fully operational and to substantiate compliance with all accreditation requirements of the State Board of Education. Sufficient data necessary to substantiate compliance with all accreditation standards must be available at the time of the initial accreditation audit. Each nonpublic school voluntarily seeking initial accreditation must have conducted a program of educational services for a period of at least one (1) calendar year prior to the date of proposed State Board of Education accreditation. This one-year requirement is not applicable to educational programs under the jurisdiction of state agencies currently operating accredited school programs.

2.0 ACCREDITATION POLICY

The State Board of Education establishes and implements a process for accountability for nonpublic schools. Nonpublic schools are held accountable for Accreditation Policies and Process Standards and receive an annual accreditation status.

2.1 Assignment of Accreditation Statuses

Accreditation of a nonpublic school will be determined by the extent to which the school complies with each of the applicable requirements contained in this document. Information concerning the school's

compliance with accreditation requirements and standards will be reported to the State Board of Education on an annual basis.

The local governing body and school administration are responsible for ensuring that all data reported to the Mississippi Department of Education are true and accurate as verified by supporting documentation on file in the school. Reporting false information is a violation of the accreditation requirements set forth by the State Board of Education and may result in the downgrading of the school's accreditation status.

After the State Board of Education takes action on accreditation records presented, the school's local governing body and school administration are notified of the status assigned. The decision of the State Board of Education is final unless appealed by the local governing body of the school to the State Board of Education in accordance with the appeal procedures in Policy 6.0 of this document.

Annual accreditation statuses are assigned in December each school year and are determined by information verified during the previous school year. An assigned accreditation status remains in effect during that school year unless (a) the correction of deficiencies in meeting accreditation standards upgrades a status or (b) a verified report of noncompliance with accreditation requirements and/or standards is of such a nature that special State Board of Education action to downgrade a status is warranted.

2.2 Process Standards

Process (input) standards address accepted educational principles and practices that are believed to promote educational quality. Any verified violation of a process standard is noted on the record of a school at the time of discovery within any school year but does not affect the current accreditation status of the school. If a noted violation of a process standard has not been corrected by the following school year when accreditation statuses are assigned, the violation is reported to the State Board of Education for appropriate action. The State Board of Education reserves the right to suspend school compliance of any accreditation process standard that is not directly mandated by state or federal law.

2.0 Annual Accreditation Statuses

Accreditation statuses assigned by the State Board of Education are (a) **TEMPORARY**, (b) **ACCREDITED**, (c) **ADVISED**, (d) **PROBATION**, and (e) **WITHDRAWN**.

<u>TEMPORARY</u>. A <u>TEMPORARY</u> status may be assigned to a satellite school or a school newly established by the local governing body of an accredited nonpublic school/system currently on record with the State Board of Education.

A special purpose school that serves students with disabilities may be assigned a **TEMPORARY** status when (a) the special purpose school is in compliance with IDEA and relevant state regulations and (b) is accredited by Cognia or by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO).

A **TEMPORARY** status will expire twelve (12) months from the date that the **TEMPORARY** status was assigned and is not renewable. During the twelve-month period, the school may apply to the State Board of Education for an accreditation status.

<u>ACCREDITED</u>. A nonpublic school will be assigned an **ACCREDITED** status when the school is in compliance with each of the applicable accreditation requirements and standards as described in this document.

<u>ADVISED</u>. A nonpublic school will be assigned an **ADVISED** status the first year that the school fails to comply with all of the requirements as described in this document.

PROBATION. A nonpublic school will be assigned a **PROBATION** status if the school was assigned an ADVISED status the previous school year and the nonpublic school has not taken corrective actions or has not resolved the process standard deficiencies that resulted in the ADVISED status. The nonpublic school will be required to develop a Corrective Action Plan (CAP) to address the deficiencies. (See Accreditation Policy 2.4.2.)

<u>WITHDRAWN</u>. A nonpublic school will be assigned a **WITHDRAWN** status when the school has been previously assigned a status of **PROBATION** and the school fails to meet the goals and timelines for resolving identified deficiencies as stated in its approved Corrective Action Plan (CAP).

2.4 Notification of Deficiencies after Assignment of Status

The chief school administrator is informed in writing when information on file in the Mississippi Department of Education indicates that the school may be in violation of accreditation requirements. School officials are given thirty (30) days from the date of receipt of notification to provide a written response verifying accuracy or inaccuracy of the notice of possible noncompliance with the standard.

2.4.1 Correction of Deficiencies

During the thirty-day period, school officials may schedule a conference with appropriate Mississippi Department of Education staff members in order to discuss the deficiencies cited. If the school's written response includes appropriate evidence needed to resolve the deficiencies, these corrections will be made on the records of the school. If insufficient evidence is submitted or if the school verifies that the cited deficiencies do exist, the school's records will be presented to the State Board of Education for appropriate action. A school found in violation of federal and state regulations regarding special education will be provided specific timeframes for correction of deficiencies. If timelines are not met, the school's records will be presented to the State Board of Education for appropriate action.

2.4.2 Corrective Action Plan (CAP)

When a school receives official notification that it has a status of PROBATION, the school is required to file a Corrective Action Plan (CAP) within sixty (60) days. The plan must stipulate what will be done to resolve the deficiency and the timeline required. The plan must be approved by the local governing body as documented by official minutes or resolutions. As an indication of mutual agreement, the plan must bear the signatures of the chairperson, president, or presiding officer of the local governing body and the chief administrator of the school. The Corrective Action Plan (CAP) must be submitted to:

Office of Accreditation
Mississippi Department of Education
Post Office Box 771 Jackson,
Mississippi 39205-0771

The State Board of Education will designate Mississippi Department of Education staff to review the plan. After the plan is approved by the MDE, written notice is given to school officials. When corrective action has been implemented to resolve a citation, the school must submit documentary evidence confirming such. Assigned MDE staff may conduct follow-up visits as necessary to verify corrective action and compliance.

The school must provide a written account outlining the progress made toward eliminating each deficiency remaining on record prior to the next annual meeting of the State Board of Education to assign accreditation statuses. Based on the report, the State Board of Education will take appropriate action concerning the school's accreditation status. The final authority for judging the success of the Corrective Action Plan (CAP) is vested in the State Board of Education.

2.5 Resolving Accreditation Controversies

All controversies involving the accreditation statuses of schools are initially heard by a duly authorized representative of the State Board of Education in accordance with Miss. Code Ann. § 37-17-5 and Policy 6.0.

2.6 Removal of Accreditation Status

Before acting to remove a school's accreditation status, the school will be notified in writing of the option to voluntarily withdraw from the accreditation process without prejudice. (See Nonpublic School Accreditation Policy 2.7.) If school officials choose the option not to withdraw, the appeal procedures in Section 6.0 of this document will be followed.

The State Board of Education will take action to remove a nonpublic school's accreditation status only when:

- the school fails to submit a Corrective Action Plan (CAP) as required,
- the school fails to meet the goals and timelines for resolving identified deficiencies as stated in its Corrective Action Plan (CAP),
- accumulated violations are of such a serious nature that special State Board of Education action is warranted, or
- an intentional act of reporting false information is confirmed.

When the State Board of Education takes action to remove the accreditation status of a nonpublic school, the accredited status will be noted as **WITHDRAWN**.

When the accreditation status of a nonpublic school is removed for any of the reasons described in this section, the school may not be reconsidered for accreditation until one (1) full school year has passed. Prior to being reconsidered as an accredited nonpublic school, the school will be evaluated by a committee designated by the State Board of Education. If the committee confirms that the school is in compliance with all accreditation requirements and standards, then the reinstatement status of the school will be **PROBATION** for one (1) school year.

2.7 Voluntarily Withdrawing from the Accreditation Process

A nonpublic school may voluntarily withdraw from the accreditation process at any time without prejudice by submitting a written request signed by the local governing body and the chief school administrator. When a nonpublic school voluntarily withdraws from the accreditation process, all

school records are moved to the inactive files and remain on file with the Mississippi Department of Education as a previously State Board of Education accredited nonpublic school.

2.8 Reinstatement Process

A previously State Board of Education accredited nonpublic school whose school records are noted as **Inactive** may request to be reinstated using the same procedures and criteria for initial accreditation. (**See Nonpublic School Accreditation Policy 4.2.2**.)

3.0 ANNUAL REPORTING PROCEDURES

Each nonpublic school voluntarily seeking accreditation from the State Board of Education Accreditation is required to submit certain information annually.

The four (4) required annual reports are:

- (1) Annual Application Form,
- (2) Annual Compliance Report,
- (3) Annual Personnel Data Report, and
- (4) Summer School/Extended Year Report.

All data reported to the State Board of Education must be true and accurate. All required data must be submitted within established timelines. Failure to submit required data within established timelines may affect the accreditation status of the school. The chief administrator of the nonpublic school is responsible for ensuring the accuracy and integrity of all data reported to the State Board of Education.

3.1 Annual Application Process

A nonpublic school voluntarily seeking Accreditation from the State Board of Education must request annual accreditation by direct application. The official request for State Board of Education accreditation must be signed by the chief school administrator and the local governing body. Completed applications **must** be received no later than **October 1** of each school year. Any changes or revisions of data on the application form should be reported immediately to the Office of District Accreditation. The application form includes the areas listed below.

3.1.1 Identifying Information

- Name, mailing address, and telephone number(s) of the school
- Name of the chief school administrator and
- Name, address, and phone number of the official designee of the local governing body.

3.1.2 Enrollment Data and Staffing

- Number of students currently enrolled by grade, race, and gender; and
- Number of instructional staff members by grade level and total.
- 3.1.3 Annual Calendar of School
- 3.1.4 Participation in Federal/State Funded Programs
- 3.1.5 Graduation Data
- 3.1.6 Preliminary List of School Staff

3.2 Annual Compliance Report

Each nonpublic school voluntarily seeking accreditation must complete the Annual Compliance Report. The Annual Compliance Report includes a questionnaire, a report of noncompliance with accreditation standards, and a statement of assurances signed by the chief school administrator. The compliance report must be completed and submitted by **October 1** with the application form.

3.3 Annual Personnel Data Report

Each accredited nonpublic school is required to complete and submit the personnel data report for each school employee. The personnel data report must be submitted each school year within the timelines established by the Office of Management Information Systems. Specific reporting requirements are outlined in the current edition of the *Mississippi Personnel/Accreditation Data Report Reference Manual*.

3.4 Summer School/Extended Year Report

Each accredited nonpublic school providing a Summer School and/or Extended Year Program must report those programs to the Mississippi Department of Education. This report is not required for special purpose schools providing twelve-month continuous educational programs.

4.0 ACCREDITATION MONITORING PROCEDURES

Staff in the Office of District Accreditation will continuously monitor nonpublic schools to evaluate and validate compliance with accreditation requirements. Evaluation and monitoring include analysis of data reported, annual compliance reports, and field audits. Documentation that confirms data reported must be on file and available for review if requested. Failure to provide requested documentation necessary to validate data reported may result in the assignment of a **PROBATION** status. Reporting false information is a violation of the requirements set forth by the State Board of Education and may result in the withdrawal of a school's accreditation status. All nonpublic schools voluntarily seeking accreditation are required to provide access to reports, correspondence, records, and any other documents necessary to validate compliance with accreditation requirements and standards. The State Board of Education will review all available accreditation information to determine the school's compliance with accreditation requirements and then assign the appropriate accreditation status to the school according to Accreditation Policy 2.1.

4.1 Annual Analysis and Validation of Data

The State Board of Education will designate Department of Education staff to review annual reports and direct audit teams, as needed, to validate the information. Upon review of the compliance report and application requesting accreditation, the staff will compare the information with any other data on file within the Mississippi Department of Education, notify the school of any inconsistency in reporting or any apparent deficiency in meeting accreditation requirements, and work with the school to clarify or eliminate said inconsistency or deficiency.

Information submitted by each school will be validated by auditors through in-house procedures and on-site audits. Based upon information received and reviewed, the staff will submit to the State Board of Education in writing the recommended accreditation status for each nonpublic school. The State Board of Education will review the staff recommendations and act on accreditation records, advising each chief school administrator and chairperson of the governing board in writing of the accreditation status assigned the school.

4.2 On-site Evaluations

The State Board of Education will designate staff in the Mississippi Department of Education to conduct field audits of nonpublic schools to determine compliance with accreditation requirements and standards. The results of all on-site audits will be compiled in a report and noted in each school's current accreditation records. If deficiencies are found in meeting accreditation standards or state and federal laws, the chief school administrator is notified in writing and given thirty (30) days from the receipt of notification to provide a written response. The report of findings is filed in the current accreditation records in the Office of District Accreditation.

4.2.1 Scheduled Site Visits

On-site accreditation audits of nonpublic schools will be scheduled on a five-year cycle and will be conducted by a team of trained evaluators under the supervision of a Mississippi Department of Education auditor or other designated staff. Staff from the Office of Special Education will determine compliance with state and federal special education regulations at no cost to the nonpublic school.

4.2.2 Initial Accreditation

The initial accreditation audit of a nonpublic school not previously on record with the Mississippi Department of Education must be conducted by a designated committee before an accreditation status is assigned. The purpose of the initial on-site visit is two-fold: (a) to confirm the information reported on the accreditation request application and (b) to verify compliance with all accreditation requirements and standards specified in this document.

A newly applying nonpublic school not previously on record with the State Board of Education must be fully operational at the time of the site visit. Each nonpublic school voluntarily seeking initial accreditation must have conducted a program of educational services for a period of at least one (1) calendar year prior to the date of proposed State Board of Education accreditation. (See exemption for state agency schools in Nonpublic School Accreditation Policy 1.3.) Sufficient data necessary to substantiate compliance with all accreditation requirements and standards must be available.

4.2.3 Summer School/Extended Year Audits

A percentage of schools providing summer school and extended year programs may be audited annually to verify information contained in the annual Summer School/Extended Year Report.

4.2.4 Investigative Audit

An investigative evaluation is conducted in response to a formal complaint. All formal complaints made against a school must be submitted to the Office of District Accreditation in writing and bear the signature of the individual(s) filing the complaint. When a written complaint is received that contains allegations of noncompliance with accreditation requirements, MDE staff will contact the school officials and provide assistance to resolve the compliant. If the compliant is not resolved, the school administrator will be notified in writing of the nature of the complaint and informed that the school is subject to an unannounced audit to investigate the allegations. Upon completion of the investigative audit, a written report is sent to the complainant, chief school administrator, and designee of the local governing body.

4.2.5 Other State/Federal Program Audits/Evaluations

When audits or evaluations of other state or federal programs reveal verified noncompliance with state or federal program regulations, the incidents of noncompliance are filed with the Office of District Accreditation and placed on the district's Accreditation Record.

5.0 COMPLAINTS

All formal complaints made against a nonpublic school must be submitted in writing to the Office of Accreditation and must bear the signature of the individual(s) registering the complaint. The written complaint must include sufficient details concerning the school's alleged violation of accreditation requirements and standards. If the complaint addresses an area over which the State Board of Education has no authority, the individual filing the complaint will be informed in writing. Procedures for conducting an investigative audit are addressed in Accreditation Policy 4.2.4.

6.0 HEARING PROCEDURES

All controversies involving the accreditation of nonpublic schools are initially heard by a duly authorized representative of the State Board of Education before whom a complete record is made.

6.1 Request for Hearing

The local governing body of a nonpublic school may request a hearing by filing a written notice for such with the Office of District Accreditation within ten (10) calendar days of receipt of the decision of the State Board of Education.

6.2 Authorized Representative of the State Board of Education

Upon receipt of the written request for hearing from the local governing body, the chairman of the State Board of Education assigns, in writing, a duly authorized representative previously appointed by the State Board of Education to hear the controversy.

6.3 Hearing Procedures

- 6.3.1 The State Board of Education's representative sets the time, place, and date for a hearing and notifies all parties of the time, place, and date of the hearing by registered or certified mail, return receipt requested. All parties may be represented by counsel at the expense of the party. The hearing is conducted in such a manner as to afford all parties a fair and reasonable opportunity to present witnesses and other evidence pertinent to the issues and to cross-examine witnesses presented by the opposing party. The State Board of Education's representative may permit any portion of the evidence to be submitted in the form of depositions or affidavits; and in case affidavits are received, an opportunity to present counter-affidavits is provided.
- **6.3.2** It is the responsibility of each party at the hearing to secure the attendance of such witness or witnesses as the party deems necessary or appropriate, and any expense connected with the attendance of such witnesses is borne by the party responsible for the attendance of the witness.
- 6.3.3 In conducting the hearing, the State Board of Education's representative is not bound by common law or by statutory rules of evidence or by technical or formal rules of procedure, provided, however, hearsay evidence, if admitted, is not the sole basis for the determination of facts by the State Board of Education's representative.
- 6.3.4 After presentation by the executive secretary of the State Board of Education regarding recommended action and policy in support thereof, the party filing the written notice of hearing has the burden of going forward with the evidence, and at the conclusion of the hearing, the State Board of Education's representative grants any party the opportunity to present a statement in such party's own behalf, either

- in person or by such party's attorney.
- 6.3.5 All hearings held before the State Board of Education's representative are recorded and transcribed by a court reporter whose fees and costs of transcription are paid by the school involved within forty-five (45) days after having been notified of such costs and fees by the State Board of Education. Within thirty (30) calendar days of receipt of the transcribed record of the hearing, the State Board of Education's representative files a written recommendation to the State Board of Education as to the resolution of the controversies. Upon consideration of the transcribed record and recommendation of its representative, the State Board of Education makes its decision and notifies all parties in writing by certified or registered mail, return receipt requested. The decision of the State Board of Education is final.

NONPUBLIC SCHOOL PROCESS STANDARDS

ADMINISTRATION AND PERSONNEL

1. The school is governed through official policies approved by the local governing body under which the school operates.

Note: Some differences exist between public boards and state agencies that have responsibilities for disbursing public funds and the privately funded local governing body, which may delegate more fiscal freedom to the chief administrator of the school. Advisory councils or boards of parochial and church-related schools must meet requirements of the church as established by the churches' religious leaders. For Catholic schools, the Bishop may veto any council action or, in extreme cases, may dissolve the council. The Choctaw Tribal Schools are governed by policies of the Tribal Council in accordance with the Constitution and Bylaws of the Mississippi Band of Choctaw Indians.

- 1.1 The local governing body maintains records of all official actions in minutes dated and signed or approved by the local governing body.
 - Note: The local governing body may be able to fulfill its leadership and policy roles with less than monthly meetings.
- 1.2 The official policies of the local governing body are in writing, on file in the school's administrative office, and ensure that rules and regulations are established under which the school is administered.
- **1.3** School policy establishes written procedures for placement of students in the program and procedures for students to exit the program.
- **1.4** School policy addresses the development of guidelines for school-wide student disciplinary practices.

¹Carnegie units earned for Supplemental English courses cannot be included as any of the four (4) English Carnegie units required for graduation; however, Carnegie units earned for these courses may be included in the general elective graduation requirements. Supplemental English may be taken only if a credit bearing English course is taken in the same school year. English I may not be taken after a student completes English II.

²Carnegie units earned for Supplemental Mathematics courses cannot be included as any of the four (4) Math Carnegie units required for graduation; however, Carnegie units earned for these courses may be included in the general elective graduation requirements. Supplemental Mathematics may be taken only if a credit-bearing Math course is taken in the same school year. CCR Mathematics Grade 8, Ready for High School Mathematics, and Foundations of Algebra cannot be taken after a student has received a Carnegie unit in the CCR Algebra I course. At least two (2) of the four (4) required mathematics Carnegie units must be earned in courses higher than the CCR Algebra I course. The Ready for High School Mathematics course shall only be available for 8th grade or 9th grade students. Foundations of Algebra shall only be available for 9th grade students. MYP Geometry, MYP Algebra II, IB- DP Mathematics I, IB-DP Mathematics II, IB-DP Mathematical Studies I, and IB-DP Mathematical Studies II are allowable mathematics courses higher than Algebra I for IB students. Cambridge IGCSE Mathematics I may be accepted in lieu of Algebra I. One (1) of the four (4) required Carnegie units for mathematics may be in AP Computer Science Principles. If used for a mathematics unit, AP Computer Science Principles cannot then also be used for a science or computer science unit. For approved Career and Technical course substitutions see Appendix A-12.

³One (1) of the three (3) required Carnegie units for science may be in AP Computer Science Principles. If used for a mathematics unit, AP Computer Science Principles cannot then also be used for a mathematics or computer science unit. For approved Career and Technical course substitutions see Appendix A-12. Coordinated Science I or Cambridge IGCSE Biology may be accepted in lieu of Biology. The following courses may be accepted for a science credit above Biology: any AP, Cambridge, or IB-DP science course, any approved dual credit natural or physical science course, any MDE-approved Special Topics in Science course, Botany, Chemistry, Earth and Space Science, Environmental Science, Genetics, Human Anatomy and Physiology, Marine and Aquatic Science I and II, Physical Science, Physics, Zoology I and II, PLTW Principles of Engineering; PLTW Engineering Design and Development; PLTW Human Body Systems; PLTW Medical Interventions.

⁴Based on the 2022 Mississippi College- and Career-Readiness Standards for Social Studies, AP World History, DC World Civilization I, AP European History, or DC Western Civilization I may be accepted in lieu of the required World History from the Age of Enlightenment to Present course. AP United States History or DC

United States History II may be accepted in lieu of the required U.S. History from Post- reconstruction to Present course. A student taking an AP or DC course in lieu of a course with a required end-of-course state test shall take the requisite MAAP test. AP Government and Politics: United States and DC American National may be accepted in lieu of the required United States Government course. IB- DP History of the Americas I may be accepted in lieu of the required U.S. History course for students enrolled in the IB program. IB-DP History of the Americas II may be accepted in lieu of the required Mississippi Studies, Economics, and/or U.S. Government courses for students enrolled in the IB program. MYP U.S. Government may be accepted in lieu of the required Government course for students enrolled in the IB program. Cambridge IGCSE American History or Cambridge International AS level history may be accepted in lieu of the required U.S. History from Post- reconstruction to Present course.

⁵A.P. Macroeconomics, A.P. Microeconomics, DC Macroeconomics, or DC Microeconomics can be taken in lieu of the required Economics course. For approved Career and Technical course substitutions see Appendix A-12.

⁶The Carnegie credit earned for a State/Local Government course in any other state by an out-of-state transfer student can stand in lieu of Mississippi Studies or Mississippi State and Local Government. If a transfer enters without a State/Local Government course, then any other one-half (½) unit social studies course (e.g., Civics, Law Related Education, Participation in American Democracy, Law and Policy, Contemporary Issues, etc.) may be accepted excluding U.S. Government and Economics. IB-DP History of the Americas II is accepted in lieu of the required Mississippi Studies, Economics, and/or U.S. Government courses for students enrolled in the IB program.

⁷The graduation requirement for one-half (½) unit in physical education may include participation in interscholastic athletic activities, choral performance courses for show choir (i.e. Choral, Music-Choral-Ensembles), instrumental performance courses (i.e. Band, Music Instrumental Ensembles, Strings), dance performance courses or JROTC that meet the instructional requirements specified in the Fitness through Physical Education Framework and that are sanctioned by the Mississippi High School Activities Association. Only one (1) elective unit in physical education including participation in interscholastic athletic activities, choral performance courses for show choir (i.e. Choral, Music-Choral-Ensembles), instrumental performance courses (i.e. Band, Music Instrumental Ensembles, Strings), dance performance courses or JROTC that meet the instructional requirements specified in the Fitness through Physical Education Framework and that are sanctioned by the Mississippi High School Activities Association may be applied each year to the minimum 24 required Carnegie units. If a local district has graduation requirements above the state requirements, The district may award additional units as outlined in the local school board policy.

⁸Successful completion of JROTC I and JROTC II shall be accepted as requirement met for Contemporary Health to meet the graduation requirement for one-half (½) Carnegie unit in Health. Dual credit Personal and Community Health may be accepted in lieu of the graduation requirement for one-half (½) Carnegie unit in Health. For approved Career and Technical course substitutions see Appendix A-12.

⁹For approved Career and Technical course substitutions see Appendix A-12.

¹⁰The Arts refers to Dance, Media Arts, Music, Theatre, and Visual Arts. Any course(s) in one of these areas can fulfill the required Carnegie unit in the Arts. The following dual credit classes: Music Appreciation, Theatre Appreciation or Art Appreciation may be accepted in lieu of the art requirement for students. For approved Career and Technical course substitutions, see Appendix A-12.

¹¹The purpose of the College and Career Readiness Course is to provide planning and instruction for postsecondary transition. The following courses are approved substitutions for the CCR course:

- 1. One (1) credit-bearing Carnegie unit of Career and Technical Work-based Learning
- 2. Dual Credit SmartStart
- 3. JROTC III
- 4. Advanced Placement Seminar or equivalent International Baccalaureate or Cambridge International Courses
- 5. Freshman, sophomore, junior, and senior MS College and Career Readiness Seminar courses for Early College High Schools

*An out-of-state student who transfers after the completion of the first semester of their senior year may substitute for any other one (1) unit social studies course or a combination of one-half (½) Personal Finance and one-half (½) social studies course.

The CCR course may be taught in one (1) of the following sequences:

- a. One (1) Carnegie unit senior year only
- b. One (1) Carnegie unit Junior year only
- c. One-half (1/2) Carnegie unit in either freshman, sophomore, or junior year with the remaining one-half (1/2) Carnegie unit taught in either junior or senior year
- d. One-fourth (1/4) Carnegie unit per year beginning with the freshman year

¹²Additional requirements above the Traditional Diploma Option, the 28 Carnegie units and the assessment requirements include:

GRADUATION REQUIREMENTS – STANDARD 12 ALTERNATE DIPLOMA OPTION

NOTE: This option shall be offered by districts for incoming ninth graders with significant cognitive disabilities in 2018-2019 and thereafter.

Only students identified by their Individualized Education Program Committee as having a significant cognitive disability, as defined by the Testing Students with Disabilities Regulations and State Board Policy Chapter 78, Rule 78.1, may be eligible to earn the Alternate Diploma. Each student graduating from a secondary school in an accredited school district with the Alternate Diploma will have earned the required units as specified in the following table. The contents of each required and elective course must include the core objectives identified in the State Board approved Alternate Academic Achievement Standards. Course titles and identification numbers must appear in the current edition of the Approved Courses for Secondary Schools of Mississippi. (See 7 Miss. Admin. Code Pt. 3, Ch. 28, R. 28.2, R. 28.3.) Students with significant cognitive disabilities enrolled in grades 7 – 12 may be awarded a credit provided the course content is a credit bearing course in the current edition of the *Approved Courses for the Secondary Schools of Mississippi*.

Any student with a significant cognitive disability who completes the minimum graduation requirements as specified below and has achieved a level of Passing or Proficient on each of the required high school alternate assessments, is eligible to receive an Alternate Diploma. The local school district may establish additional local requirements approved by the local school board as authorized under Miss. Code Ann. § 37-16-7.

The Alternate Diploma meets the requirements for graduation rate in the same manner as a Traditional Diploma. Students with this diploma must contact the postsecondary institution to determine Ability to Benefit (ATB) and eligibility for enrollment.

¹Carnegie units earned for Supplemental English courses cannot be included as any of the four (4) English Carnegie units required for graduation; however, Carnegie units earned for these courses may be included in the general elective graduation requirements. Supplemental English may be taken only if a credit bearing English course is taken in the same school year.

²Carnegie units earned for Supplemental Mathematics courses cannot be included as any of the four (4) Math Carnegie units required for graduation; however, Carnegie units earned for these courses may be included in the general elective graduation requirements. Supplemental Mathematics may be taken only if a credit-bearing Math course is taken in the same school year.

³Successful completion in JROTC I and JROTC II may be accepted in lieu of Contemporary Health to meet graduation requirement for one-half (½) Carnegie unit in Health. For approved Career and Technical course substitutions see Appendix A-12.

⁴The graduation requirement for one-half (½) unit in physical education may include participation in interscholastic athletic activities, choral performance courses for show choir (i.e. Choral, Music-Choral-Ensembles), instrumental performance courses (i.e. Band, Music Instrumental Ensembles, Strings), dance courses or JROTC that meet the instructional requirements specified in the Fitness through Physical Education Framework and that are sanctioned by the Mississippi High School Activities Association. Only one (1) elective unit in physical education including participation in interscholastic athletic activities, choral performance courses for show choir (i.e. Choral, Music-Choral-Ensembles), instrumental performance courses (i.e. Band, Music Instrumental Ensembles, Strings), dance courses or JROTC that meet the instructional requirements specified in the Fitness through Physical Education Framework and that are sanctioned by the Mississippi High School Activities Association may be applied each year to the minimum 24 required Carnegie units. If a local district has graduation requirements above the state requirements, the district may award additional units as outlined in the local school board policy.

⁵Evidence of proficiency in technology is embedded in the course strands for both Career Readiness and Life Skills Development so that students with significant cognitive disabilities may be taught these skills within the natural environment, assuring greater application and generalization of the skills.

⁶The Arts refers to Dance, Media Arts, Music, Theatre, and Visual Arts. The following dual credit classes: Music Appreciation, Theatre Appreciation, or Art Appreciation may be accepted in lieu of the art requirement for students. For approved Career and Technical course substitutions see Appendix A-12.

GRADUATION REQUIREMENTS – STANDARD 12 CERTIFICATE OF COMPLETION

NOTE: This option shall be offered by districts for incoming ninth graders 2018-2019 and thereafter.

A Certificate of Completion is not a high school diploma or an Alternate Diploma, but rather an acknowledgement of the student's participation in and completion of his/her Individualized Education Program (IEP). Students eligible to receive a Certificate of Completion must fall into one (1) the following categories:

- 1. Students without a Significant Cognitive Disability at the end of 8th grade who:
 - Are 16 years old or older; AND
 - At least three (3) or more grade levels below their peers in reading and math; AND
 - Have a signed statement from the parent acknowledging the Certificate of Completion is not
 a traditional high school diploma and will not meet the requirements for entry into careers
 or post-secondary opportunities requiring a diploma.
- 2. Students without a Significant Cognitive Disability who have not yet turned sixteen (16) by the end of the eighth grade should transition to the ninth grade on a diploma path.
- 3. Students with a Significant Cognitive Disability at the end of 8th grade who:
 - Have extremely limited or no receptive and expressive communication skills AND
 - Have a signed statement from the parent acknowledging the Certificate of Completion is not
 a traditional high school diploma and will not meet the requirements for entry into careers
 or post-secondary opportunities requiring a diploma.
- 4. Students with or without a Significant Cognitive Disability at the end of their third year of high school (6 semesters) who:
 - Have not earned at minimum of 3 English units, 3 math units, 2 science units, 2 social studies units, and 5 electives; AND
 - Have a signed statement from the parent acknowledging the Certificate of Completion is not
 a traditional high school diploma and will not meet the requirements for entry into careers
 or post-secondary opportunities requiring a diploma; AND
 - Have evidence of 3 or more years of intensive intervention implemented in middle and/or high school to earn Carnegie units. Evidence may include but is not limited to:
 - Progress monitoring data from reading intervention programs or math intervention programs
 - Documentation of accommodations and modifications provided in the general education courses and assessments
 - Course schedules outlining dedicated time for intervention.

The student's IEP committee determines the course of study for the Certificate of Completion. Areas of instruction should be developed based on the unique needs of the individual student. Course work shall be appropriate for the student and may include:

- Intensive remediation in deficit area skills
- Career preparation courses
- Life skills courses

Students earning the Certificate of Completion must have completed at least four years of high school and/or be at least 19 years of age at the time of graduation.

Students pursuing a Certificate of Completion are required to participate in the Mississippi statewide assessment program deemed appropriate by their Individualized Education Plan (IEP) Committee.

Students working toward the Certificate of Completion who meet the criteria for Significant Cognitive Disability are required to participate in the high school end-of-course alternate assessment during the school year the student is enrolled in the corresponding alternate course(s) (Alternate Biology, Alternate English II, Alternate Algebra).

Students working toward the Certificate of Completion who do not meet the criteria for a Significant Cognitive Disability are required to participate in the regular high school end-of-course subject area test(s) during the school year the student is enrolled in the corresponding course(s).

It is ultimately the responsibility and decision of the IEP Committee to determine the appropriate exit option for a student with disabilities based on the appropriate data.
