Rule 3.1 Legal Basis

- A. The term improper payment is used when a Temporary Assistance for Needy Families (TANF) or a refugee individual receives assistance but was not entitled to all or part of the payment or services rendered.
- B. Public Law 104-193, the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, (PRWORA), requires that States promptly take all reasonable and practical steps to correct and collect all improper payments made through Temporary Assistance for Needy Families and TANF related programs regardless of whether the improper payments were due to willful or non-willful withholding of information or agency error.
- C. There are no provisions for waiving adjustments due to the amount or age of the improper payment. However, MDHS will align all program types (SNAP, TANF, DECCD, etc.) to the Supplemental Nutrition Assistance Program (SNAP) statute of limitations; IPV and IHE, 6 years from the date of discovery and AE, 12 months from the date of discovery. In addition, the Law does not require the pursuit of recovery of total overpayments of less than \$125 on cases for a former recipient until such time that the client reapplies and becomes eligible again.

 - 6. Change in liquid resources, such as cash, stocks, bonds, or bank accounts that meet or exceed the household's limit

- C. TANF households must report when it becomes clear a child will be out of the home for more than thirty (30) days, and when the head of household moves out of state. Both changes must be reported within five (5) days.
- D. For TANF households, MDHS employees must act on any changes that become known to the agency. If it is discovered that a household failed to report a change as required or provided false information at any time which resulted in an over issuance of benefits, a claim must be processed.

Rule 3.3 Types of Overpayments Payments

- A. Agency Errors, (AE)
- B. Inadvertent Household Errors, (IHE)
- C. A Suspected Intentional Program Violations, (SIPV)
 - 1. SPIV claims less than \$1,000 are referred to the Division of Administrative Hearings for an Administrative TANF Disqualification Hearing.
 - 2. SIPV claims \$1,000 and over are referred to the Division of Investigations for court prosecution.

Rule 3.4 Establishing TANF Overpayments

MDHS is responsible for handling cases of improper payment and for recovering amounts improperly paid.

- A. Overpayments may be recovered from liquid assets, gross income, and the assistance grant. However, only gross income and the assistance grant will be used to establish the amount from which monthly recoupment from benefits can be made.
- B. Recoupment by reduction of benefits is only possible when the client to whom overpayment was made remains eligible for assistance in the amount of \$10 or more.
- C. MDHS will recoup by reduction of benefits, the greater of \$10 or 10% of TANF overpayments as a result of an Inadvertent Household (IHE) Error or Agency Error (AE). For TANF overpayments that were found guilty of an Intentional Program Violation (IPV), the recoupment amount will be 20%.
- D. Federal regulations allow States not to pursue claims when it is not cost effective to establish and collect on them. If the employee determines the claim amount **is less than \$125**, a claim will not be prepared. The threshold is applicable to all claim types involving an over issuance of benefits. If it is determined a claim is not required due to the threshold provision, the case should be documented that the amount of the claim is less than \$125.

Rule 3.5 Statute of Limitations for Overpayments

- A. TANF overpayments will be calculated back to the month that the over issuance occurred, not to exceed more than **six (6) years** prior to the date that the over issuance was discovered.
- B. Upon determination that a claim is required, the Benefit Recovery Unit must establish and complete Agency Error (AE) and Inadvertent Household Error (IHE) claims within six (6) months of discovery. Suspected Intentional Program Violation (SIPV) claims must be completed within 80 days of discovery.
- C. Generally, the statute of limitations does not apply to the State on civil actions, in order to allow court action to recover amounts of assistance improperly obtained can be brought without regard to the time the fraudulent act was committed.

Rule 3.6 Transfer of TANF Overpayments

- A. When the agency becomes aware that an individual responsible for repayment of an **unpaid claim balance** is participating in another TANF case, the Benefit Recovery Unit **MUST** be notified by the county office to transfer the claim to that active case.
- B. A claim will only be transferred when there is a balance and payments are not being made.

Rule 3.7 Recovery of TANF Overpayments

- A. It is the responsibility of the Benefit Recovery Unit to make demands for the repayment of overpayments attributed to benefit errors within the agency.
- B. The agency first must seek recovery from the primary party responsible for the overpayment. States are required to pursue collection of the overpayment from the TANF payee, provided that this individual was also a recipient (i.e., a member of the overpaid assistance unit). The agency must make all reasonable efforts to locate and collect the improper payment.
- C. For closed TANF cases and reapplications, once the reapplication has been approved, recovery of overpayment must start on any outstanding claim balance.
- D. When an overpayment occurs, the agency must take all reasonable steps necessary to promptly correct the benefit amount and recover the overpayment. Methods of overpayment recovery include:
 - 1. Recoupment from open TANF case/grant,
 - 2. Repayment agreement,
 - 3. Lump sum payment, or
 - 4. Court Order

- E. When the agency has multiple overpayments for the same household, IPV overpayments will be priority. When there are multiple claims of the AE receivable type, recoupment will be made on the oldest claim first.

Rule 3.8 Responsible Persons for TANF Overpayments

- A. Using guidelines dictated by federal regulations and State law, the Benefit Recovery Unit has chosen to recover from only assistance group members who were **adult members (18 years of age or older)** at the time the overpayment occurred. Individuals who were children in the assistance group at the time of overpayment will not be liable.
- B. The priority of recovery action against overpaid TANF recipients looks to the caretaker relative recipient first to recover the overpayment because that person is generally responsible for the overpayment. However, if the caretaker relative is unavailable due to death or disappearance, then the agency must seek recovery from other members of the debt, 18 years and older.

Rule 3.9 Disqualification of Intentional Program Violation Recipients

The Benefit Recovery Unit is responsible for entering all disqualifications into the agency's database system.

- A. A TANF overpayment will be handled as an IPV **only** if an Administrative Disqualification Hearing or court of appropriate jurisdiction has found a household member guilty of IPV.

- B. In the event the improper payment was due to the action of the parent, the recoupment amount will be added to the parent's copayment amount and is to be paid directly to the provider by the parent.

- C. The recoupment amount will be set up as (1/12) of the total amount of the improper payment. This amount will be withheld from CCPP payments for a total of twelve (12) months, until the full amount of overpayment has been paid in full.
- D. If the provider or parent no longer participates in the CCPP program, or if the Benefit Recovery Unit is unable to recoup payments, the Benefit Recovery Unit may enter into a repayment agreement with the provider or parent.
- E. Other recovery methods of DECCD overpayments include:
