(4) (a) The administering insurer shall be paid, as provided in the contract of the association, for its direct and indirect expenses incurred in the performance of its services.

(b) As used in this subsection, the term "direct and indirect expenses" includes that portion of the audited administrative costs, printing expenses, claims administration expenses, management expenses, building overhead expenses and other actual operating and administrative expenses of the administering insurer which are approved by the board as allocable to the administration of the plan and included in the bid specifications.

(2) Each insurer shall be assessed an amount not to exceed Three Dollars ($3.00) per covered person insured or reinsured by each insurer per month. There shall not be such assessment on any insurer on policies or contracts insuring federal or state employees.

(3) The board shall make reasonable efforts designed to ensure that each covered person is counted only once with respect to any assessment. For that purpose, the board shall require each insurer that obtains excess or stoploss insurance to include in its count of covered persons all individuals whose coverage is insured (including by way of excess or stoploss coverage) in whole or part. The board shall allow a reinsurer to exclude from its number of covered persons those who have been counted by the primary insurer or by the primary reinsurer or primary excess or stoploss insurer for the purpose of determining its assessment under this subsection.

(4) Each insurer's assessment may be verified by the board based on annual statements and other reports deemed to be necessary by the board. The board may use any reasonable method of estimating the number of covered persons of an insurer if the specific number is unknown.

(5) If assessments and other receipts by the association, board or administering insurer exceed the actual losses and administrative expenses of the plan, the excess shall be held at interest and used by the board to offset future losses or to reduce plan premiums.

As used in this subsection, the term "future losses" includes reserves for claims incurred but not reported.

(6) The commissioner may suspend or revoke, after notice and hearing, the certificate of authority to transact insurance in this state of any member insurer which fails to pay an assessment or otherwise file any report or furnish information required to be filed with the board pursuant to the board's direction that the board determines is necessary in order for the board to perform its duties under this section. As an alternative,

the commissioner may levy a forfeiture on any member insurer which fails to pay an assessment when due. Such forfeiture shall not exceed five percent (5%) of the unpaid assessment per month, but no forfeiture shall be less than One Hundred Dollars ($100.00) per month.

SECTION 16. Section 83-9-219, Mississippi Code of 1972, is brought forward as follows:

83-9-219. The coverage provided by the plan shall be directly insured by the association, and the policies shall be issued through the administering insurer. Subject to the approval of the commissioner, the association may close enrollment in, and/or cease to offer the coverage provided by, the plan at any time upon a determination by the board that the availability of such coverage is no longer necessary.

83-9-221. (1) Coverage offered. (a) The plan shall offer the coverage specified in this section for each eligible person subject to the association's discretion to close enrollment and/or cease offering coverage as authorized in Section 83-9-219.

(b) If an eligible person is also eligible for Medicare coverage, the plan shall not pay or reimburse any person for expenses paid by Medicare.

(c) Any person whose health insurance coverage is involuntarily terminated for any reason other than nonpayment of premium may apply for coverage under the plan. If such coverage is applied for within sixty-three (63) days after the involuntary termination and if premiums are paid for the entire period of coverage, the effective date of the coverage shall be the date of termination of the previous coverage.

(2) Major medical expense coverage. The coverage issued by the plan, its schedule of benefits, exclusions and other limitations shall be established by the board and may be amended from time to time subject to the approval of the commissioner.

(3) In establishing the plan coverage, the board shall take into consideration the levels of health insurance coverage provided in the state and medical economic factors as may be deemed appropriate; and promulgate benefit levels, deductibles, coinsurance factors, exclusions and limitations determined to be generally reflective of and commensurate with health insurance coverage provided through a representative number of large employers in the state.

(4) Rates for coverages issued by the association may not be unreasonable in relation to the benefits provided, the risk experience and the reasonable expenses of providing the coverage.

(a) Separate schedules of premium rates based on age may apply for individual risks.

(b) Rates are subject to approval by the State Department of Insurance.

(c) Standard risk rates for coverages issued by the association shall be established by the association, subject to approval by the department, using reasonable actuarial techniques, and shall reflect anticipated experiences and expenses of such coverages for standard risks.

(d) The rating plan established by the association shall initially provide for rates equal to one hundred fifty percent (150%) of the average standard risk rates. Any changes in the initial rates shall be based on experience of the plan and shall reflect reasonably anticipated losses and expenses.

(e) No rate shall exceed one hundred seventy-five percent (175%) of the standard risk rate.

(5) Preexisting conditions. An association policy may contain provisions under which coverage is excluded during a period of twelve (12) months following the effective date of coverage with respect to a given covered individual for any preexisting condition, as long as:

(a) The condition manifested itself within a period of six (6) months before the effective date of coverage;

(b) Medical advice or treatment was recommended or received within a period of six (6) months before the effective date of coverage.

(6) Other sources primary. (a) The association shall be payer of last resort of benefits whenever any other benefit or source of third-party payment is available. The coverage provided by the association shall be considered excess coverage, and benefits otherwise payable under association coverage shall be reduced by all amounts paid or payable through any other health insurance coverage and by all hospital and medical expense benefits paid or payable under any workers' compensation coverage, automobile medical payment or liability insurance whether provided on the basis of fault or nonfault, and by any hospital or medical benefits paid or payable by any insurer or insurance arrangement or any hospital or medical benefits paid or payable under or provided pursuant to any state or federal law or program.

(b) No amounts paid or payable by Medicare or any other governmental program or any other insurance, or self-insurance maintained in lieu of otherwise statutorily required insurance, may be made or recognized as claims under such policy or be recognized as or towards satisfaction of applicable deductibles or out-of-pocket maximums or to reduce the limits of benefits available.

(c) The association shall have a cause of action against a participant for the recovery of the amount of any benefits paid to the participant which should not have been claimed or recognized as claims because of the provisions of this subsection or because otherwise not covered. Benefits due from the association may be reduced or refused as a setoff against any amount recoverable under this paragraph.

SECTION 18. Section 83-9-222, Mississippi Code of 1972, is brought forward as follows:

83-9-222. Neither the participation in the association as member insurers, the establishment of rates, forms or procedures nor any other joint or collective action required by Sections 83-9-201 through 83-9-222 shall be the basis of any legal action, criminal or civil liability or penalty against the association or any member insurer.

SECTION 19. Section 41-83-31, Mississippi Code of 1972, is brought forward as follows:

41-83-31. Any program of utilization review with regard to hospital, medical or other health care services provided in this state shall comply with the following:

(a) No determination adverse to a patient or to any affected health care provider shall be made on any question relating to the necessity or justification for any form of hospital, medical or other health care services without prior evaluation and concurrence in the adverse determination by a physician licensed to practice in Mississippi. The physician who made the adverse determination shall discuss the reasons for any adverse determination with the affected health care provider, if the provider so requests. The physician shall comply with this request within fourteen (14)

calendar days of being notified of a request. Adverse determination by a physician shall not be grounds for any disciplinary action against the physician by the State Board of Medical Licensure.

(b) Any determination regarding hospital, medical or other health care services rendered or to be rendered to a patient which may result in a denial of third-party reimbursement or a denial of precertification for that service shall include the evaluation, findings and concurrence of a physician trained in the relevant specialty or subspecialty, if requested by the patient's physician, to make a final determination that care rendered or to be rendered was, is, or may be medically inappropriate.

(c) The requirement in this section that the physician who makes the evaluation and concurrence in the adverse determination must be licensed to practice in Mississippi shall not apply to the Comprehensive Health Insurance Risk Pool Association or its policyholders and shall not apply to any utilization review company which reviews fewer than ten (10) persons residing in the State of Mississippi.

SECTION 20. A taxpayer who provides health care services that are in network under an exchange for which coverage is provided under the exchange and for which the taxpayer receives payment under the exchange, shall be allowed a deduction from income as provided in this section. The amount of the deduction shall be equal to twenty (20%) of the amount of the taxpayer's income derived from payment under an exchange for health care services provided by the taxpayer. For the purposes of this section, the term "exchange" means a state exchange as defined in Section 1 of this act.

SECTION 21. Subject to the provisions of this section, a taxpayer who pays all or any portion of the cost for an insurance policy under an exchange for an employee of the taxpayer shall be allowed a deduction from income for an amount equal to the cost paid by the taxpayer for the insurance policy. However, a taxpayer will not be eligible for the deduction if the taxpayer removes an employee from an insurance plan provided by the taxpayer and the employee becomes insured through an insurance policy provided under an exchange. For the purposes of this section, the term "exchange" means a state exchange as defined in Section 1 of this act.

Expense incurred in connection with earning and distributing nontaxable income is not an allowable deduction. Limitations on entertainment expenses shall conform to the provisions of the Internal Revenue Code of 1986. There shall also be allowed a deduction for expenses as provided in Section 41-137-51.

(b) Interest. All interest paid or accrued during the taxable year on business indebtedness, except interest upon the indebtedness for the purchase of tax-free bonds, or any stocks, the dividends from which are nontaxable under the provisions of this article; provided, however, in the case of securities dealers, interest payments or accruals on loans, the proceeds of which are used to purchase tax-exempt securities, shall be deductible if income from otherwise tax-free securities is reported as income. Investment interest expense shall be limited to investment income. Interest expense incurred for the purchase of treasury stock, to pay dividends, or incurred as a result of an undercapitalized affiliated corporation may not be deducted unless an ordinary and necessary business purpose can be established to the satisfaction of the commissioner. For the purposes of this paragraph, the phrase "interest upon the indebtedness for the purchase of tax-free bonds" applies only to the indebtedness incurred for the purpose of directly purchasing tax-free bonds and does not apply to any other indebtedness incurred in the regular course of the taxpayer's business. Any corporation, association, organization or other entity taxable under Section 27-7-23(c) shall allocate interest expense as provided in Section 27-7-23(c)(3)(I).

(f) Depreciation. (i) A reasonable allowance for exhaustion, wear and tear of property used in the trade or business, or rental property, and depreciation upon buildings based upon their reasonable value as of March 16, 1912, if acquired prior thereto, and upon cost if acquired subsequent to that date. Such expenditures so treated shall be allowed as an immediate deduction. Such expenditures shall remain allowable as a full and immediate expense deduction in the year in which the expenses are incurred notwithstanding any changes to the federal Internal Revenue Code related to the depreciation of such specified research or experimental expenditures. A taxpayer may alternatively treat the depreciation of such specified research or experimental expenditures in accordance with the schedule provided in 26 USCS Section 174. A taxpayer may make an election whether to take a full and immediate deduction for such expenditures and/or to depreciate the expenditures

in accordance with 26 USCS Section 174. Such an election may be made for any tax year if made not later than the time prescribed by law for filing the return for such tax year, including extensions thereof. The method so elected by the taxpayer is irrevocable unless the commissioner specifically allows a change in the method.

For the purpose of computing income tax for tax years beginning after December 31, 2022, expenditures for business assets that are qualified property or qualified improvement property shall be eligible for one hundred percent (100%) bonus depreciation and may be deducted as an expense incurred by the taxpayer during the tax year during which the property is placed in service, notwithstanding any changes to federal law related to cost recovery beginning on January 1, 2023, or on any other date. A taxpayer may alternatively treat the depreciation of such business assets in accordance with the schedule provided in 26 USCS Section 168. A taxpayer may make an election whether to take a bonus depreciation deduction for such expenditures and/or to depreciate the expenditures in accordance with 26 USCS Section 168. Such an election may be made for any tax year if made not later than the time prescribed by law for filing the return for such tax year, including extensions thereof. The method so elected by the taxpayer is irrevocable unless the commissioner specifically allows a change in the method.

3. In any taxable year in which any 26 USCS Section 179 property is placed in service, a taxpayer may elect to treat the cost of such property as an expense which is not chargeable to a capital account, and any cost so treated shall be allowed as a deduction for that year. Mississippi's treatment of the deduction shall conform to the provisions of 26 USCS Section 179 in effect for that year.

4. For the purposes of this subparagraph (ii), unless the context requires otherwise, the following terms shall have the meanings ascribed herein:

6. The total of any method or combination of methods of depreciation used under this subparagraph (ii) cannot exceed one hundred percent (100%) of the cost of the subject property.

(g) Depletion. 97-3-21. (1) Except as otherwise provided for a juvenile offender in subsection (2) of this section, every person who * * * is:

(a) Convicted of first-degree murder shall be sentenced by the court to imprisonment for life in the custody of the Department of Corrections.

(* * *b) * * * Convicted of second-degree murder shall be imprisoned for life in the custody of the Department of Corrections if the punishment is so fixed by the jury in its verdict after a separate sentencing proceeding. If the jury fails to agree on fixing the penalty at imprisonment for life, the court shall fix the penalty at not less than twenty (20) nor more than forty (40) years in the custody of the Department of Corrections.

(* * *c) * * * Convicted of capital murder shall be sentenced (* * *i) to death; (* * *ii) to imprisonment for life in the State Penitentiary without parole; or (* * *iii) to imprisonment for life in the State Penitentiary with eligibility for parole as provided in Section 47-7-3(1)(* * *c)(iii).

(2) (a) For the purposes of this section, "juvenile offender" means a person who had not reached the age of eighteen (18) years at the time of the commission of the offense.

(b) A juvenile offender who is convicted of capital murder may be sentenced to life imprisonment or life imprisonment without eligibility for parole in the custody of the Mississippi Department of Corrections if the punishment is so fixed by the jury.

(c) If the jury fails to affix the sentence for capital murder as set out under subsection (b) of this section for a juvenile offender, then the court shall impose a sentence of not less than twenty-five (25) years but no more than fifty (50) years in the custody of the Mississippi Department of Corrections.

(d) (i) For a juvenile offender who is convicted of first-degree murder, the court shall impose a sentence of not less than twenty (20) nor more than forty (40) years in the custody of the Mississippi Department of Corrections.

(ii) For a juvenile offender who is convicted of second-degree murder, the court shall impose a sentence of not less than fifteen (15) nor more than thirty (30) years in the custody of the Mississippi Department of Corrections.

(e) The provisions of this subsection (2) apply retroactively irrespective of the dates of the commission of the offense, an arrest was made, or a judgment of conviction was entered.

SECTION 2. Section 99-19-101, Mississippi Code of 1972, is amended as follows:

99-19-101. (1) Upon conviction or adjudication of guilt of a defendant of capital murder * * *, the court shall conduct a separate sentencing proceeding to determine whether the defendant should be sentenced to death, life imprisonment without eligibility for parole, or life imprisonment; a sentence of death cannot be imposed if the defendant

was not at least eighteen (18) years of age at the time of the commission of the offense. The proceeding shall be conducted by the trial judge before the trial jury as soon as practicable. If, through impossibility or inability, the trial jury is unable to reconvene for a hearing on the issue of penalty, having determined the guilt of the accused, the trial judge may summon a jury to determine the issue of the imposition of the penalty. If the trial jury has been waived, or if the defendant pleaded guilty, the sentencing proceeding shall be conducted before a jury impaneled for that purpose or may be conducted before the trial judge sitting without a jury if both the State of Mississippi and the defendant agree thereto in writing. In the proceeding, evidence may be presented as to any matter that the court deems relevant to sentence, and shall include matters relating to any of the aggravating or mitigating circumstances. However, this subsection shall not be construed to authorize the introduction of any evidence secured in violation of the Constitution of the United States or of the State of Mississippi. The state and the defendant and the defendant's counsel shall be permitted to present arguments for or against the sentence of death.

(2) After hearing all the evidence, the jury shall deliberate on the following matters:

(a) Whether sufficient factors exist as enumerated in subsection (7) of this section;

(b) Whether sufficient aggravating circumstances exist as enumerated in subsection (5) of this section;

(c) Whether sufficient mitigating circumstances exist as enumerated in subsection (6) of this section, which outweigh the aggravating circumstances found to exist; and

(d) Based on these considerations, whether the defendant should be sentenced to life imprisonment, life imprisonment without eligibility for parole, or death.

(3) For the jury to impose a sentence of death, it must unanimously find in writing the following:

(a) That sufficient factors exist as enumerated in subsection (7) of this section;

(b) That sufficient aggravating circumstances exist as enumerated in subsection (5) of this section; * * *

(c) That there are insufficient mitigating circumstances, as enumerated in subsection (6), to outweigh the aggravating circumstances * * *; and

(d) That the defendant was eighteen (18) years of age or older at the time of the commission of the offense.

In each case in which the jury imposes the death sentence, the determination of the jury shall be supported by specific written findings of fact based upon the circumstances in subsections (5) and (6) of this section and upon the records of the trial and the sentencing proceedings. If, after the trial of the penalty phase, the jury does not make the findings requiring the death sentence or life imprisonment without eligibility for parole, or is unable to reach a decision, the court shall impose a sentence of life imprisonment.

(4) The judgment of conviction and sentence of death shall be subject to automatic review by the Supreme Court of Mississippi within sixty (60) days after certification by the sentencing court of the entire record, unless the time is extended for an additional period by the Supreme Court for good cause shown. The review by the Supreme Court shall have priority over all other cases and shall be heard in accordance with rules promulgated by the Supreme Court.

(5) Aggravating circumstances shall be limited to the following:

(a) The capital offense was committed by a person under sentence of imprisonment.

(b) The defendant was previously convicted of another capital offense or of a felony involving the use or threat of violence to the person.

(c) The defendant knowingly created a great risk of death to many persons.

(d) The capital offense was committed while the defendant was engaged, or was an accomplice, in the commission of, or an attempt to commit, or flight after committing or attempting to commit, any robbery, rape, arson, burglary, kidnapping, aircraft piracy, sexual battery, unnatural intercourse with any child under the age of twelve (12), or nonconsensual unnatural intercourse with mankind, or felonious abuse or battery of a child in violation of subsection (2) of Section 97-5-39, or the unlawful use or detonation of a bomb or explosive device.

(e) The capital offense was committed for the purpose of avoiding or preventing a lawful arrest or effecting an escape from custody.

(f) The capital offense was committed for pecuniary gain.

(g) The capital offense was committed to disrupt or hinder the lawful exercise of any governmental function or the enforcement of laws.

(h) The capital offense was committed to influence the policy of a governmental entity by intimidation or coercion, or to affect the conduct of a governmental entity by mass destruction or assassination.

(i) The capital offense was especially heinous, atrocious or cruel.

(j) The capital offense was committed to intimidate or coerce a civilian population.

(6) Mitigating circumstances shall be the following:

(a) The defendant has no significant history of prior criminal activity.

(b) The offense was committed while the defendant was under the influence of extreme mental or emotional disturbance.

(c) The victim was a participant in the defendant's conduct or consented to the act.

(d) The defendant was an accomplice in the capital offense committed by another person and his participation was relatively minor.

(e) The defendant acted under extreme duress or under the substantial domination of another person.

(f) The capacity of the defendant to appreciate the criminality of his conduct or to conform his conduct to the requirements of law was substantially impaired.

(g) The age of the defendant at the time of the crime.

(7) In order to return and impose a sentence of death the jury must make a written finding of one or more of the following:

(a) The defendant actually killed;

(b) The defendant attempted to kill;

(c) The defendant intended that a killing take place;

(d) The defendant contemplated that lethal force would be employed.

(8) For the purposes of this section, to "intimidate" or "coerce" do not include peaceful picketing, boycotts or other nonviolent action.

The complaint shall specify the provisions of such statute, regulation or order alleged to be violated and the facts alleged to constitute a violation thereof and shall require that the alleged violator appear before the commission at a time and place specified in the notice and answer the charges complained of. The time of appearance before the commission shall not be less than twenty (20) days from the date of the service of the complaint, unless the commission finds that the public convenience or necessity requires that such hearing be held at an earlier date.

(2) The commission shall afford an opportunity for a fair hearing to the alleged violator or violators at the time and place specified in the complaint. On the basis of the evidence produced at the hearing, the commission shall make findings of fact and conclusions of law and enter its order, which in its opinion will be in the best interests of the consuming public. Failure to appear at any such hearing, without prior authorization to do so from the commission, may result in the commission finding the alleged violator guilty of the charges complained of by default, and at such time an order may be entered, including the assessment of a penalty. The commission shall give written notice of such order to the alleged violator and to such other persons as shall have appeared at the hearing or made written request for notice of the order. The commission may assess such penalties as provided in subsection (3) of this section.

(3) Any person found by the commission, pursuant to a hearing or by default as provided in this section, violating any statute administered by the commission, or any regulation or order of the commission in pursuance thereof, shall be subject to a civil penalty of not more than Five Thousand Dollars ($5,000.00) for each violation, to be assessed and collected by the commission. Each day that a violation continues shall constitute a separate violation. In lieu of, or in addition to, the monetary penalty, the commission, for any violation by a certificate holder, may impose a penalty in accordance with Section 77-3-21, * * * if it finds that the violator is not rendering reasonably adequate service. Appeals from the imposition of the civil penalty may be taken to the Circuit Court of the First Judicial District of Hinds County in the same manner as appeals from orders of the commission constituting judicial findings.

(4) All penalties collected by the commission under this section shall be deposited in the Public Service Commission Regulation Fund.

(5) No portion of any penalty or costs associated with an administrative or court proceeding which results in the assessment of a penalty against a public utility for violation of any statute administered by the commission, or any regulation or order of the commission shall be considered by the commission in fixing any rates or charges of such public utility.

(6) This section shall be in addition to any other law which provides for the imposition of penalties for the violation of any statute administered by the commission or any regulation or order of the commission.

(3) The provisions of this section shall not apply to any trust fund account that is maintained by any above-named agency.

All reasonable and necessary expenses of the administration of the duties imposed on the public utilities staff and on the commission by Title 77, Mississippi Code of 1972, excluding the reasonable and necessary expenses of the administration and enforcement by the commission of the laws of this state pursuant to Chapters 7 and 9, Title 77, Mississippi Code of 1972, shall be provided as follows: There is * * * levied a tax upon (a) all utilities, the rates of which are subject to regulation by the provisions of this chapter, and upon (b) all utilities not subject to such rate regulation which furnish to the ultimate consumer utility services of the type described by subparagraph (i) of paragraph (d) of Section 77-3-3 and otherwise subject to regulation by the provisions of this chapter, such levy to be effective on the first day of each year and to be calculated as follows: The rate of the tax shall be one hundred sixty-four thousandths of one percent (164/1000 of 1%) per year, of the gross revenues from the intrastate operations of the utilities taxed under this section. The rate of the tax for electric power associations and rural electrification authorities shall be ninety thousandths of one percent (90/1000 of 1%) per year of the gross revenues from the intrastate operations of electric power associations and rural electrification authorities taxed under this section. * * * The sum of all taxes levied by this section shall not exceed the total legislative appropriation of monies * * * from the Public Utilities Staff Regulation Fund and the Public Service Commission Regulation Fund for the ensuing fiscal year. The commission and the executive director

of the Public Utilities Staff shall certify to the Department of Revenue the amount of legislative appropriations of monies for the regulation of utilities. The Department of Revenue shall adjust the tax rates on a pro rata basis to generate the necessary revenues established by such legislative appropriations. Each utility which is subject to the tax levied by this section shall file a statement of its gross revenue by April 1 of each year showing the gross revenue for the preceding year's operation. These statements of gross revenue shall be filed with the Department of Revenue on forms prescribed and furnished by the Department of Revenue. The Department of Revenue shall file a copy of these statements of gross revenue with the Public Utilities Staff and the commission. The Department of Revenue shall calculate the amount of tax to be paid by each of the utilities and shall submit a statement thereof to the respective utilities, and the amount shown due in the statements to the utilities shall be paid by them within thirty (30) days thereafter to the Department of Revenue. The Department of Revenue shall furnish the Public Utilities Staff and the commission with an itemized list showing gross and net revenues, assessments, tax collections and other related information for the respective utilities. The Department of Revenue shall * * * pay these funds into the * * * State Treasury on the same day collected to the credit of the Public Utilities Staff Regulation Fund and to the Public Service Commission Regulation Fund in the proportion that the legislative appropriation of monies from each fund for the regulation of utilities for the ensuing fiscal year bears to the total legislative appropriation of monies from both funds for the regulation of utilities for the ensuing fiscal year.

All administrative provisions of the Mississippi Sales Tax Law, including those which fix damages, penalties and interest for nonpayment of taxes and for noncompliance with the provisions of such chapter, and all other duties and requirements imposed upon taxpayers, shall apply to all persons liable for taxes under the provisions of this chapter, and the Commissioner of Revenue shall exercise all the power and authority and perform all the duties with respect to taxpayers under this chapter as are provided in the Mississippi Sales Tax Law except where there is a conflict, then the provisions of this chapter shall control. Each utility subject to the provisions of this section shall be allowed to recover, through the use of a rate adjustment clause or rider, the total amount of taxes paid by the utility pursuant to this section for the reasonable and necessary expenses of the commission and the Public Utilities Staff.

Senator Simmons D. T. (12th) called up the following House Amendment to **S. B. No. 2699** and moved that the Senate decline to concur in the Amendment, and invite conference, and the motion prevailed.

AMENDMENT NO. 1:

Amend by striking all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. Section 31-7-13, Mississippi Code of 1972, is amended as follows:

31-7-13. All agencies and governing authorities shall purchase their commodities and printing; contract for garbage collection or disposal; contract for solid waste collection or disposal; contract for sewage collection or disposal; contract for public construction; and contract for rentals as herein provided.

(a) Bidding procedure for purchases not over * * * $10,000.00. Purchases which do not involve an expenditure of more than * * * Ten Thousand Dollars ($10,000.00), exclusive of freight or shipping charges, may be made without advertising or otherwise requesting competitive bids. However, nothing contained in this paragraph (a) shall be construed to prohibit any agency or governing authority from establishing procedures which require competitive bids on purchases of * * * Ten Thousand Dollars ($10,000.00) or less.

(b) Bidding procedure for purchases over * * * $10,000.00 but not over $75,000.00. Purchases which involve an expenditure of more than * * * Ten Thousand Dollars ($10,000.00) but not more than Seventy-five Thousand Dollars ($75,000.00), exclusive of freight and shipping charges, may be made from the lowest and best bidder without publishing or posting advertisement for bids, provided at least two (2) competitive written bids have been obtained. Any state agency or community or junior college purchasing commodities or procuring construction pursuant to this paragraph (b) may authorize its purchasing agent, or his designee, to accept the lowest competitive written bid under Seventy-five Thousand Dollars ($75,000.00). Any governing authority purchasing commodities pursuant to this paragraph (b) may authorize its purchasing agent, or his designee, with regard to governing authorities other than counties, or its purchase clerk, or his designee, with regard to counties, to accept the lowest and best competitive written bid. Such authorization shall be made in writing by the governing authority and shall be maintained on file in the primary office of the agency and recorded in the official minutes of the governing authority, as appropriate. The purchasing agent or the purchase clerk, or his designee, as the case may be, and not the governing authority, shall be liable for any penalties and/or damages as may be imposed by law for any act or omission of the purchasing agent or purchase clerk, or his designee, constituting a violation of law in accepting any bid without approval by the governing authority. The term "competitive written bid" shall mean a bid submitted on a bid form furnished by the buying agency or governing authority and signed by authorized personnel representing the vendor, or a bid submitted on a vendor's letterhead or identifiable bid form and signed by authorized personnel representing the vendor. "Competitive" shall mean that the bids are developed based upon comparable identification of the needs and are developed independently and without knowledge of other bids or prospective bids. Any bid item for construction in excess of * * * Ten Thousand Dollars ($10,000.00) shall be broken down by components to provide detail of component description and pricing. These details shall be submitted with the written bids and become part of the bid evaluation criteria. Bids may be submitted by facsimile, electronic mail or other generally accepted method of information distribution. Bids submitted by electronic transmission shall not require the signature of the vendor's representative unless required by agencies or governing authorities.

(c) Bidding procedure for purchases over $75,000.00.

(i) Publication requirement.

1. Purchases which involve an expenditure of more than Seventy-five Thousand Dollars ($75,000.00), exclusive of freight and shipping charges, may be made from the lowest and best bidder after advertising for competitive bids once

each week for two (2) consecutive weeks in a regular newspaper published in the county or municipality in which such agency or governing authority is located. However, all American Recovery and Reinvestment Act projects in excess of Twenty-five Thousand Dollars ($25,000.00) shall be bid. All references to American Recovery and Reinvestment Act projects in this section shall not apply to programs identified in Division B of the American Recovery and Reinvestment Act.

2. Reverse auctions shall be the primary method for receiving bids during the bidding process. If * * * an agency or governing authority determines that a reverse auction is not in the best interest of the * * * agency or governing authority, then with respect to the agency, that determination must be approved by the Public Procurement Review Board, and with respect to the governing authority, that determination must be approved by the governing body of the governing authority. * * * An agency shall submit a detailed explanation of why a reverse auction would not be in the best interest of the * * * agency and present an alternative process to be approved by the Public Procurement Review Board. A governing authority shall make findings in its minutes of why a reverse auction would not be in the best interest of the governing authority. If as to an agency, the Public Procurement Review Board authorizes the purchasing entity to solicit bids with a method other than reverse auction, or if as to a governing authority, the governing board thereof authorizes the purchasing entity to solicit bids with a method other than reverse auction, then the purchasing entity may designate the other methods by which the bids will be received, including, but not limited to, bids sealed in an envelope, bids received electronically in a secure system, or bids received by any other method that promotes open competition and has been approved by the Office of Purchasing and Travel. However, reverse auction shall not be used for any public contract for design, construction, improvement, repair or remodeling of any public facilities, including the purchase of materials, supplies, equipment or goods for same and including buildings, roads and bridges. As to an agency, the Public Procurement Review Board must approve any contract entered into by alternative process. The provisions of this item 2 shall not apply to the individual state institutions of higher learning. The provisions of this item 2 requiring reverse auction as the primary method of receiving bids shall not apply to term contract purchases as provided in paragraph (n) of this section; however, a purchasing entity may, in its discretion, utilize reverse auction for such purchases. The provisions of this item 2 shall not apply to individual public schools, including public charter schools and public school districts, only when purchasing copyrighted educational supplemental materials and software as a service product. For such purchases, a local school board may authorize a purchasing entity in its jurisdiction to use a Request for Qualifications which promotes open competition and meets the requirements of the Office of Purchasing and Travel.

3. The date as published for the bid opening shall not be less than seven (7) working days after the last published notice; however, if the purchase involves a construction project in which the estimated cost is in excess of Seventy-five Thousand Dollars ($75,000.00), such bids shall not be opened in less than fifteen (15) working days after the last notice is published and the notice for the purchase of such construction shall be published once each week for two (2) consecutive weeks. However, all American Recovery and Reinvestment Act projects in excess of Twenty-five Thousand Dollars ($25,000.00) shall be bid. For any projects in excess of Twenty-five Thousand Dollars ($25,000.00) under the American Recovery and Reinvestment Act, publication shall be made one (1) time and the bid opening for construction projects shall not be less than ten (10) working days after the date of the published notice. The notice of intention to let contracts or purchase equipment shall state the time and place at which bids shall be received, list the contracts to be made or types of equipment or supplies to be purchased, and, if all plans and/or specifications are not published, refer to the plans and/or specifications on file. If there is no newspaper published in the county or municipality, then such notice shall be given by posting same at the courthouse, or for municipalities at the city hall, and at two (2) other public places in the county or municipality, and also by publication once each week for two (2) consecutive weeks in some newspaper having a general circulation in the county or municipality in the

above-provided manner. On the same date that the notice is submitted to the newspaper for publication, the agency or governing authority involved shall mail written notice to, or provide electronic notification to the main office of the Mississippi Procurement Technical Assistance Program under the Mississippi Development Authority that contains the same information as that in the published notice. Submissions received by the Mississippi Procurement Technical Assistance Program for projects funded by the American Recovery and Reinvestment Act shall be displayed on a separate and unique Internet web page accessible to the public and maintained by the Mississippi Development Authority for the Mississippi Procurement Technical Assistance Program. Those American Recovery and Reinvestment Act related submissions shall be publicly posted within twenty-four (24) hours of receipt by the Mississippi Development Authority and the bid opening shall not occur until the submission has been posted for ten (10) consecutive days. The Department of Finance and Administration shall maintain information regarding contracts and other expenditures from the American Recovery and Reinvestment Act, on a unique Internet web page accessible to the public. The Department of Finance and Administration shall promulgate rules regarding format, content and deadlines, unless otherwise specified by law, of the posting of award notices, contract execution and subsequent amendments, links to the contract documents, expenditures against the awarded contracts and general expenditures of funds from the American Recovery and Reinvestment Act. Within one (1) working day of the contract award, the agency or governing authority shall post to the designated web page maintained by the Department of Finance and Administration, notice of the award, including the award recipient, the contract amount, and a brief summary of the contract in accordance with rules promulgated by the department. Within one (1) working day of the contract execution, the agency or governing authority shall post to the designated web page maintained by the Department of Finance and Administration a summary of the executed contract and make a copy of the appropriately redacted contract documents available for linking to the designated web page in accordance with the rules promulgated by the department. The information provided by the agency or governing authority shall be posted to the web page for the duration of the American Recovery and Reinvestment Act funding or until the project is completed, whichever is longer.

(ii) Bidding process amendment procedure. If all plans and/or specifications are published in the notification, then the plans and/or specifications may not be amended. If all plans and/or specifications are not published in the notification, then amendments to the plans/specifications, bid opening date, bid opening time and place may be made, provided that the agency or governing authority maintains a list of all prospective bidders who are known to have received a copy of the bid documents and all such prospective bidders are sent copies of all amendments. This notification of amendments may be made via mail, facsimile, electronic mail or other generally accepted method of information distribution. No addendum to bid specifications may be issued within two (2) working days of the time established for the receipt of bids unless such addendum also amends the bid opening to a date not less than five (5) working days after the date of the addendum.

(iii) Filing requirement. In all cases involving governing authorities, before the notice shall be published or posted, the plans or specifications for the construction or equipment being sought shall be filed with the clerk of the board of the governing authority. In addition to these requirements, a bid file shall be established which shall indicate those vendors to whom such solicitations and specifications were issued, and such file shall also contain such information as is pertinent to the bid.

(iv) Specification restrictions.

1. Specifications pertinent to such bidding shall be written so as not to exclude comparable equipment of domestic manufacture. However, if valid justification is presented, the Department of Finance and Administration or the board of a governing authority may approve a request for specific equipment necessary to perform a specific job. Further, such justification, when placed on the minutes of the board of a

governing authority, may serve as authority for that governing authority to write specifications to require a specific item of equipment needed to perform a specific job. In addition to these requirements, from and after July 1, 1990, vendors of relocatable classrooms and the specifications for the purchase of such relocatable classrooms published by local school boards shall meet all pertinent regulations of the State Board of Education, including prior approval of such bid by the State Department of Education.

2. Specifications for construction projects may include an allowance for commodities, equipment, furniture, construction materials or systems in which prospective bidders are instructed to include in their bids specified amounts for such items so long as the allowance items are acquired by the vendor in a commercially reasonable manner and approved by the agency/governing authority. Such acquisitions shall not be made to circumvent the public purchasing laws.

(v) Electronic bids. Agencies and governing authorities shall provide a secure electronic interactive system for the submittal of bids requiring competitive bidding that shall be an additional bidding option for those bidders who choose to submit their bids electronically. The Department of Finance and Administration shall provide, by regulation, the standards that agencies must follow when receiving electronic bids. Any special condition or requirement for the electronic bid submission shall be specified in the advertisement for bids required by this section. Any county having a population of less than twenty thousand (20,000) shall be exempt from the provisions of this subparagraph (v). Any municipality having a population of less than ten thousand (10,000) shall be exempt from the provisions of this subparagraph (v). (d) Lowest and best bid decision procedure.

(i) Decision procedure. Purchases may be made from the lowest and best bidder. In determining the lowest and best bid, freight and shipping charges shall be included. Life-cycle costing, total cost bids, warranties, guaranteed buy-back provisions and other relevant provisions may be included in the best bid calculation. All best bid procedures for state agencies must be in compliance with regulations established by the Department of Finance and Administration. If any governing authority accepts a bid other than the lowest bid actually submitted, it shall place on its minutes detailed calculations and narrative summary showing that the accepted bid was determined to be the lowest and best bid, including the dollar amount of the accepted bid and the dollar amount of the lowest bid. No agency or governing authority shall accept a bid based on items not included in the specifications.

(ii) Decision procedure for Certified Purchasing Offices. In addition to the decision procedure set forth in subparagraph (i) of this paragraph (d), Certified Purchasing Offices may also use the following procedure: Purchases may be made from the bidder offering the best value. In determining the best value bid, freight and shipping charges shall be included. Life-cycle costing, total cost bids, warranties, guaranteed buy-back provisions, documented previous experience, training costs and other relevant provisions, including, but not limited to, a bidder having a local office and inventory located within the jurisdiction of the governing authority, may be included in the best value calculation. This provision shall authorize Certified Purchasing Offices to utilize a Request

For Proposals (RFP) process when purchasing commodities. All best value procedures for state agencies must be in compliance with regulations established by the Department of Finance and Administration. No agency or governing authority shall accept a bid based on items or criteria not included in the specifications.

(iii) Decision procedure for Mississippi Landmarks. In addition to the decision procedure set forth in subparagraph (i) of this paragraph (d), where purchase involves renovation, restoration, or both, of the State Capitol Building or any other historical building designated for at least five (5) years as a Mississippi Landmark by the Board of Trustees of the Department of Archives and History under the authority of Sections 39-7-7 and 39-7-11, the agency or governing authority may use the following procedure: Purchases may be made from the lowest and best prequalified bidder. Prequalification of bidders shall be determined not less than fifteen (15) working days before the first published notice of bid opening. Prequalification criteria shall be limited to bidder's knowledge and experience in historical restoration, preservation and renovation. In determining the lowest and best bid, freight and shipping charges shall be included. Life-cycle costing, total cost bids, warranties, guaranteed buy-back provisions and other relevant provisions may be included in the best bid calculation. All best bid and prequalification procedures for state agencies must be in compliance with regulations established by the Department of Finance and Administration. If any governing authority accepts a bid other than the lowest bid actually submitted, it shall place on its minutes detailed calculations and narrative summary showing that the accepted bid was determined to be the lowest and best bid, including the dollar amount of the accepted bid and the dollar amount of the lowest bid. No agency or governing authority shall accept a bid based on items not included in the specifications.

(iv) Construction project negotiations authority. If the lowest and best bid is not more than ten percent (10%) above the amount of funds allocated for a public construction or renovation project, then the agency or governing authority shall be permitted to negotiate with the lowest bidder in order to enter into a contract for an amount not to exceed the funds allocated.

(e) Lease-purchase authorization. For the purposes of this section, the term "equipment" shall mean equipment, furniture and, if applicable, associated software and other applicable direct costs associated with the acquisition. Any lease-purchase of equipment which an agency is not required to lease-purchase under the master lease-purchase program pursuant to Section 31-7-10 and any lease-purchase of equipment which a governing authority elects to lease-purchase may be acquired by a lease-purchase agreement under this paragraph (e). Lease-purchase financing may also be obtained from the vendor or from a third-party source after having solicited and obtained at least two (2) written competitive bids, as defined in paragraph (b) of this section, for such financing without advertising for such bids. Solicitation for the bids for financing may occur before or after acceptance of bids for the purchase of such equipment or, where no such bids for purchase are required, at any time before the purchase thereof. No such lease-purchase agreement shall be for an annual rate of interest which is greater than the overall maximum interest rate to maturity on general obligation indebtedness permitted under Section 75-17-101, and the term of such lease-purchase agreement shall not exceed the useful life of equipment covered thereby as determined according to the upper limit of the asset depreciation range (ADR) guidelines for the Class Life Asset Depreciation Range System established by the Internal Revenue Service pursuant to the United States Internal Revenue Code and regulations thereunder as in effect on December 31, 1980, or comparable depreciation guidelines with respect to any equipment not covered by ADR guidelines. Any lease-purchase agreement entered into pursuant to this paragraph (e) may contain any of the terms and conditions which a master lease-purchase agreement may contain under the provisions of Section 31-7-10(5), and shall contain an annual allocation dependency clause substantially similar to that set forth in Section 31-7-10(8). Each agency or governing authority entering into a lease-purchase transaction pursuant to this paragraph (e) shall maintain with respect to each such lease-purchase transaction the same information as required to be maintained by the

Department of Finance and Administration pursuant to Section 31-7-10(13). However, nothing contained in this section shall be construed to permit agencies to acquire items of equipment with a total acquisition cost in the aggregate of less than Ten Thousand Dollars ($10,000.00) by a single lease-purchase transaction. All equipment, and the purchase thereof by any lessor, acquired by lease-purchase under this paragraph and all lease-purchase payments with respect thereto shall be exempt from all Mississippi sales, use and ad valorem taxes. Interest paid on any lease-purchase agreement under this section shall be exempt from State of Mississippi income taxation.

(f) Alternate bid authorization. When necessary to ensure ready availability of commodities for public works and the timely completion of public projects, no more than two (2) alternate bids may be accepted by a governing authority for commodities. No purchases may be made through use of such alternate bids procedure unless the lowest and best bidder cannot deliver the commodities contained in his bid. In that event, purchases of such commodities may be made from one (1) of the bidders whose bid was accepted as an alternate.

(g) Construction contract change authorization. In the event a determination is made by an agency or governing authority after a construction contract is let that changes or modifications to the original contract are necessary or would better serve the purpose of the agency or the governing authority, such agency or governing authority may, in its discretion, order such changes pertaining to the construction that are necessary under the circumstances without the necessity of further public bids; provided that such change shall be made in a commercially reasonable manner and shall not be made to circumvent the public purchasing statutes. In addition to any other authorized person, the architect or engineer hired by an agency or governing authority with respect to any public construction contract shall have the authority, when granted by an agency or governing authority, to authorize changes or modifications to the original contract without the necessity of prior approval of the agency or governing authority when any such change or modification is less than one percent (1%) of the total contract amount. The agency or governing authority may limit the number, manner or frequency of such emergency changes or modifications.

(h) Petroleum purchase alternative. In addition to other methods of purchasing authorized in this chapter, when any agency or governing authority shall have a need for gas, diesel fuel, oils and/or other petroleum products in excess of the amount set forth in paragraph (a) of this section, such agency or governing authority may purchase the commodity after having solicited and obtained at least two (2) competitive written bids, as defined in paragraph (b) of this section. If two (2) competitive written bids are not obtained, the entity shall comply with the procedures set forth in paragraph (c) of this section. In the event any agency or governing authority shall have advertised for bids for the purchase of gas, diesel fuel, oils and other petroleum products and coal and no acceptable bids can be obtained, such agency or governing authority is authorized and directed to enter into any negotiations necessary to secure the lowest and best contract available for the purchase of such commodities.

(i) Road construction petroleum products price adjustment clause authorization. Any agency or governing authority authorized to enter into contracts for the construction, maintenance, surfacing or repair of highways, roads or streets, may include in its bid proposal and contract documents a price adjustment clause with relation to the cost to the contractor, including taxes, based upon an industry-wide cost index, of petroleum products including asphalt used in the performance or execution of the contract or in the production or manufacture of materials for use in such performance. Such industry-wide index shall be established and published monthly by the Mississippi Department of Transportation with a copy thereof to be mailed, upon request, to the clerks of the governing authority of each municipality and the clerks of each board of supervisors throughout the state. The price adjustment clause shall be based on the cost of such petroleum products only and shall not include any additional profit or overhead as part of

the adjustment. The bid proposals or document contract shall contain the basis and methods of adjusting unit prices for the change in the cost of such petroleum products.

(j) State agency emergency purchase procedure. If the governing board or the executive head, or his designees, of any agency of the state shall determine that an emergency exists in regard to the purchase of any commodities or repair contracts, so that the delay incident to giving opportunity for competitive bidding would be detrimental to the interests of the state, then the head of such agency, or his designees, shall file with the Department of Finance and Administration (i) a statement explaining the conditions and circumstances of the emergency, which shall include a detailed description of the events leading up to the situation and the negative impact to the entity if the purchase is made following the statutory requirements set forth in paragraph (a), (b) or (c) of this section, and (ii) a certified copy of the appropriate minutes of the board of such agency requesting the emergency purchase, if applicable. Upon receipt of the statement and applicable board certification, the State Fiscal Officer, or his designees, may, in writing, authorize the purchase or repair without having to comply with competitive bidding requirements.

If the governing board or the executive head, or his designees, of any agency determines that an emergency exists in regard to the purchase of any commodities or repair contracts, so that the delay incident to giving opportunity for competitive bidding would threaten the health or safety of any person, or the preservation or protection of property, then the provisions in this section for competitive bidding shall not apply, and any officer or agent of the agency having general or specific authority for making the purchase or repair contract shall approve the bill presented for payment, and he shall certify in writing from whom the purchase was made, or with whom the repair contract was made.

Total purchases made under this paragraph (j) shall only be for the purpose of meeting needs created by the emergency situation. Following the emergency purchase, documentation of the purchase, including a description of the commodity purchased, the purchase price thereof and the nature of the emergency shall be filed with the Department of Finance and Administration. Any contract awarded pursuant to this paragraph (j) shall not exceed a term of one (1) year.

Purchases under the grant program established under Section 37-68-7 in response to COVID-19 and the directive that school districts create a distance learning plan and fulfill technology needs expeditiously shall be deemed an emergency purchase for purposes of this paragraph (j).

(k) Governing authority emergency purchase procedure. If the governing authority, or the governing authority acting through its designee, shall determine that an emergency exists in regard to the purchase of any commodities or repair contracts, so that the delay incident to giving opportunity for competitive bidding would be detrimental to the interest of the governing authority, then the provisions herein for competitive bidding shall not apply and any officer or agent of such governing authority having general or special authority therefor in making such purchase or repair shall approve the bill presented therefor, and he shall certify in writing thereon from whom such purchase was made, or with whom such a repair contract was made. At the board meeting next following the emergency purchase or repair contract, documentation of the purchase or repair contract, including a description of the commodity purchased, the price thereof and the nature of the emergency shall be presented to the board and shall be placed on the minutes of the board of such governing authority. Purchases under the grant program established under Section 37-68-7 in response to COVID-19 and the directive that school districts create a distance learning plan and fulfill technology needs expeditiously shall be deemed an emergency purchase for purposes of this paragraph (k).

(ii) In addition to the authority granted in subparagraph (i) of this paragraph (l), the commissioners or board of trustees is authorized to enter into contracts for the lease of equipment or services, or both, which it considers necessary for the proper care of patients if, in its opinion, it is not financially feasible to purchase the necessary equipment or services. Any such contract for the lease of equipment or services executed by the commissioners or board shall not exceed a maximum of five (5) years' duration and shall include a cancellation clause based on unavailability of funds. If such cancellation clause is exercised, there shall be no further liability on the part of the lessee. Any such contract for the lease of equipment or services executed on behalf of the commissioners or board that complies with the provisions of this subparagraph (ii) shall be excepted from the bid requirements set forth in this section.

Nothing in this section shall permit such purchases through public auction except as provided for in subparagraph (v) of this paragraph (m). It is the intent of this section to allow governmental entities to dispose of and/or purchase commodities from other

governmental entities at a price that is agreed to by both parties. This shall allow for purchases and/or sales at prices which may be determined to be below the market value if the selling entity determines that the sale at below market value is in the best interest of the taxpayers of the state. If a licensee or applicant wishes to appeal the licensing agency's decision, the licensee or applicant shall file its administrative appeal within twenty (20) days of receipt of the initial notice.

If such a hearing is requested, the licensing agency shall set a day for a hearing and shall notify the licensee that on the day fixed for hearing he or she may appear so that an administrative hearing may take place. Senator Polk called up the following House Amendment to **S. B. No. 2762** and moved that the Senate do concur in the Amendment:

AMENDMENT NO. 1:

Amend by striking all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. (1) For the purposes of this section, the following words and phrases shall have the meanings ascribed in this section unless the context clearly indicates otherwise:

(a) "Retainage" means that money, or other security as agreed to by the parties to a construction contract, earned by the contractor, subcontractor or lower tier sub-subcontractor or supplier, as the case may be, for work properly performed or materials suitably stored if payment for stored materials is provided for in the contract, which has been retained by the owner conditioned on final completion and acceptance of all work in connection with a project or projects by the contractor, subcontractor or lower tier sub-subcontractor or supplier.

(b) "Final completion" shall mean the stage of the project at which all work has been completed in accordance with the contract requirements, including, but not limited to, the completion of punch list items, the submission of contractual close-out documents, equipment manuals, warranty documents or other like required deliverables.

(2) (a) A construction contract on any project in this state which provides for progress payments in installments based upon an estimated percentage of completion with a percentage of the contract proceeds to be retained by the owner pending final completion of the contract may provide for the owner's withholding of retainage from payments to its contractor for work performed by that contractor on a construction project. However, there may not be retained more than five percent (5%) of the estimated amount of work properly done and the value of materials stored on the site or suitably stored and insured off-site. If an owner withholds an amount greater than that allowed by this paragraph (a), the owner shall be liable to the contractor for interest accruing on the excess amount withheld at the rate of one percent (1%) per month.

(b) A construction contract on any project in this state which provides for progress payments in installments based upon an estimated percentage of completion with a percentage of the contract proceeds to be retained by the contractor pending final completion of the contract may provide for the contractor's withholding of retainage from payments to its subcontractors for work performed by the subcontractors on a construction project. However, there may not be retained more than five percent (5%) of the estimated amount of work properly done and the value of materials stored on the site or suitably stored and insured off-site. If a contractor withholds an amount greater than that allowed by this paragraph (b), the contractor shall be liable to the subcontractor for interest accruing on the excess amount withheld at the rate of one percent (1%) per month.

(c) A construction contract on any project in this state which provides for progress payments in installments based upon an estimated percentage of completion

with a percentage of the contract proceeds to be retained by the subcontractor pending final completion of the contract may provide for the subcontractor's withholding of retainage from payments to its sub-subcontractors or material suppliers for work performed by such sub-subcontractors or material suppliers on a construction project. However, there may not be retained more than five percent (5%) of the estimated amount of work properly done and the value of materials stored on the site or suitably stored and insured off-site. If a subcontractor withholds an amount greater than that allowed by this paragraph (c), the subcontractor shall be liable to the sub-subcontractor or material supplier for interest accruing on the excess amount withheld at the rate of one percent (1%) per month.

(d) The five percent (5%) retainage described in paragraphs (a), (b) and (c) of this subsection shall apply to all items of work required to achieve final completion. Any amounts held above the five percent (5%) for items of work required to achieve final completion shall be subject to interest accruing on the excess amount at the rate of one percent (1%) per month.

(3) The owner shall release and pay retainage to the contractor for work completed on any construction contract no later than sixty (60) days after the final completion of the contractor's work provided all necessary certificates of occupancy have been issued. The contractor shall release and pay retainage to its subcontractors and subcontractors shall release and pay retainage to their sub-subcontractors for work completed pursuant to the requirements of Section 87-7-5, Mississippi Code of 1972.

(4) Nothing in this section limits or alters the paying party's right to withhold or not approve payment on grounds set forth in the party's contract, subcontract or sub-subcontract for work not properly performed or payment not earned; rather, this section is intended only to establish a maximum amount of retainage and provide for the payment of interest for improperly held retainage. Also, the paying party may condition payment on the receipt of payment from the party with whom the paying party contracted and a full release of any lien of the contractor, subcontractor or sub-subcontractor, as the case may be, for the amount of work being paid. For purposes of this subsection (4), "the paying party" shall mean the party in direct contractual privity with the party asserting that payment is due to it and, accordingly, shall not include any financial institution or other lender that is the source of the funds at issue.

(5) A party may not waive by contract or otherwise the right to receive interest, as provided for in this section.

(6) A contractor, subcontractor or sub-subcontractor may file a civil action solely against the party contractually obligated for the payment of the amount claimed to recover the amount due plus the interest accrued in accordance with this section. If the court finds in the civil action that the party contractually obligated for the payment of the amount claimed has not made payment in compliance with this section, the court shall award the interest specified in this section in addition to the amount due. In any such civil action, the party in whose favor a judgement is rendered shall be entitled to recover payment of reasonable attorneys' fees, court costs and reasonable expenses from the other party. For purposes of this subsection (6), "the party contractually obligated for the payment" shall mean the party in direct contractual privity with the party asserting that payment is due to it and, accordingly, shall not include any financial institution or other lender that is the source of the funds at issue.

(7) This section does not apply to the following:

(a) Residential homebuilding.

(b) Improvements to real property intended for residential purposes which consist of sixteen (16) or fewer residential units.

(c) Contracts, subcontracts or sub-subcontracts in the amount of Ten Thousand Dollars ($10,000.00) or less.

(d) Contracts awarded by the State of Mississippi, or any agency, unit or department of the State of Mississippi, or by any political subdivision thereof.

(8) This section does not amend or modify existing laws relating to mechanics and materialmen liens provided in Article 21, Title 85, Chapter 7, Mississippi Code of 1972.

(9) The rights and obligations created in this section cannot be modified or waived by any oral or written contract or agreement.

(10) The provisions of this section shall become effective for and apply to all contracts, as described in this section, entered into on or after July 1, 2024.

SECTION 2. Section 31-5-15, Mississippi Code of 1972, is amended as follows:

31-5-15. Under any public contract heretofore or hereafter made or awarded by the State of Mississippi, or any agency or department of the State of Mississippi, or by any political subdivision thereof, the contractor may, with the written consent of his or its surety, from time to time, withdraw the whole or any portion of the amount retained from payments due the contractor pursuant to the terms of the contract by depositing with the State Treasurer of the State of Mississippi, or the treasurer or secretary of the political subdivision of the State of Mississippi holding funds belonging to the contractor, the following security, or any combination thereof in an amount equal to or in excess of the amount so withdrawn, said securities to be accepted at the time of deposit at market value but not in excess of par value, to wit:

(* * *a) U.S. Treasury Bonds, U.S. Treasury Notes, U.S. Treasury Certificates of Indebtedness, or U.S. Treasury Bills, or

(* * *b) Bonds or notes of the State of Mississippi, or

(* * *c) Bonds of any political subdivision of the State of Mississippi, or

(* * *d) Certificates of deposit issued by commercial banks located in the State of Mississippi, provided that such certificate is negotiable or is accompanied by a power of attorney executed by the owner of the certificate in favor of the Treasurer of the State of Mississippi or of the treasurer or the secretary of the political subdivision involved, or

(* * *e) Certificates of deposit issued by savings and loan associations located in the State of Mississippi, the accounts of which are insured by the Federal * * * Deposit Insurance Corporation, or whose accounts are insured by a company approved by the State Board of Savings and Loan Associations, provided that such certificate is made payable with accrued interest on demand and is accompanied by a power of attorney executed by the owner of the certificate in favor of the Treasurer of the State of Mississippi or the treasurer or secretary of the political subdivision involved, and provided that any such certificate from any of the savings and loan associations referred to in this subparagraph shall not be for an amount in excess of the maximum dollar amount of coverage of the Federal Savings and Loan Insurance Corporation.

The agency or department of the state shall notify the State Treasurer of the amount of deposit required and shall also notify the State Treasurer when to release the deposit. The political subdivision of the state shall notify its treasurer or secretary of the amount of deposit required and shall also notify him when to release the deposit.

The State Treasurer, or the secretary or treasurer of the political subdivision holding said security, shall, from time to time, collect all interest or income on the security so

deposited and shall, by and with the written consent of contractor's surety, pay the same when and as collected to the contractor or contractors who deposited said obligations. If the deposit be in the form of coupon bonds, the coupons as they respectively become due shall be delivered to the contractor.

If in the event of an overpayment to a contractor the contracting authority is unable to obtain reimbursement for such overpayments from the contractor, the chief administrative officer of the contracting authority shall notify the contractor, its surety and the State Treasurer or other holder of the security, of the nature of the overpayment and of the failure to obtain reimbursement. Upon such notification, the security holder shall retain the income on the deposited security until an amount equal to the overpayment is accumulated and paid to the contracting authority.

In the event the contractor shall default in the performance of the contract or any portion thereof, the securities deposited by him in lieu of retainage and all interest and coupons and income accruing on said securities after said default may be sold by the state or any agency or department thereof, or any political subdivision, and the proceeds of said sale used as if such proceeds represented the retainage provided for under the contract. For the purposes of this section, the term "retainage" means money, or other security as agreed to by the parties to a construction contract, earned by the contractor, subcontractor or lower-tier sub-subcontractor or supplier, as the case may be, for work properly performed or materials suitably stored if payment for stored materials is provided for in the contract, which has been retained by the owner conditioned on final completion, to include, but not be limited to, deliverable and nondeliverable requirements such as completion of contractual closeout, provision of equipment manuals, provision of warranty documents, completion of punch list and acceptance of all work in connection with a project by the contractor, subcontractor or lower-tier sub-subcontractor or supplier.

SECTION 3. Section 31-5-33, Mississippi Code of 1972, is amended as follows:

31-5-33. (1) In any contract for the construction, repair, alteration or demolition of any building, structure or facility awarded by the State of Mississippi, or any agency, unit or department of the State of Mississippi, or by any political subdivision thereof, which contract provides for progress payments in installments based upon an estimated percentage of completion with a percentage of the contract proceeds to be retained by the state agency, unit or department, or by the political subdivision or contractor pending completion of the contract, such retainage shall be five percent (5%), and the amount retained by the prime contractor from each payment due the subcontractor shall not exceed the percentage withheld by the state, or any agency, unit or department of the state, or by any political subdivision thereof, from the prime contractor. For the purposes of this section and Section 31-5-15, the term "retainage" means that money, or other security as agreed to by the parties to a construction contract, earned by the contractor, subcontractor or lower tier sub-subcontractor or supplier, as the case may be, for work properly performed or materials suitably stored if payment for stored materials is provided for in the contract, which has been retained by the owner conditioned on final completion and acceptance of all work in connection with a project or projects by the contractor, subcontractor or lower tier sub-subcontractor or supplier.

On any contract as described herein, of which the total amount is Two Hundred Fifty Thousand Dollars ($250,000.00) or greater, or on any contract with a subcontractor, regardless of amount, five percent (5%) shall be retained until the work is at least fifty percent (50%) complete, on schedule and satisfactory in the architect's and/or engineer's opinion, at which time fifty percent (50%) of the retainage held to date shall be returned to the prime contractor for distribution to the appropriate subcontractors and suppliers. Provided, however, that future retainage shall be withheld at the rate of two and one-half percent (2-1/2%).

(2) The provisions of this section shall not apply to contracts let by the Mississippi Transportation Commission for the construction, improvement or maintenance of roads and bridges.

SECTION 4. This act shall take effect and be in force from and after July 1, 2024.

Further, amend by striking the title in its entirety and inserting in lieu thereof the following:

AN ACT TO ESTABLISH A MAXIMUM AMOUNT OF RETAINAGE AND ESTABLISH THE TIMING FOR RELEASE OF RETAINAGE WITH RESPECT TO THE PERFORMANCE OF CERTAIN CONTRACTS AND TO PROVIDE FOR THE PAYMENT OF INTEREST FOR IMPROPERLY HELD RETAINAGE; TO DEFINE CERTAIN TERMS FOR THE PURPOSES OF THIS ACT; TO PROVIDE TYPES OF CONTRACTS TO WHICH THE PROVISIONS OF THIS ACT DO NOT APPLY; TO AMEND SECTIONS 31-5-15 AND 31-5-33, MISSISSIPPI CODE OF 1972, TO DEFINE THE TERM "RETAINAGE" FOR PURPOSES OF CERTAIN PUBLIC WORKS CONTRACTS; AND FOR RELATED PURPOSES.

(a) A law enforcement officer requests a police-initiated tow and requests that a towing and recovery service from the tow list provide towing; or

(b) The towing and recovery service has received permission to tow the commercial motor vehicle from the owner of the private property.

A towing service shall not tow a commercial motor vehicle from private property without the owner or operator of the private property giving the tower service written permission.

(c) In order for the towing and recovery service to conduct a nonconsensual tow, the private property owner must have posted signage visible and facing the driver at each entryway into the property stating that vehicles parked on the property without authorization or inappropriately or illegally parked are subject to being towed. The sign must also contain the international towing symbol no smaller than four (4) inches by four (4) inches and be permanently mounted in a position that is no lower than five (5) feet and no higher than eight (8) feet.

(3) The towing and recovery service shall not assess a drop fee to release the commercial motor vehicle after the vehicle is hooked up to the tow truck but before the vehicle is removed from the private property.

SECTION 8. A towing and recovery service shall not use vehicle immobilization devices except under the direction of law enforcement.

SECTION 9. This act shall take effect and be in force from and after July 1, 2024, and shall stand repealed on July 1, 2029.

Senator Parker called up the following entitled bill:

H. B. No. 298: Capitol Complex Improvement District; authorize demolition of certain property, authorize grants for development of certain property.

COMMITTEE AMENDMENT NO. 1 was replaced by SUBSTITUTE FOR COMMITTEE AMENDMENT NO. 1.

Senator Parker offered the following SUBSTITUTE FOR COMMITTEE AMENDMENT NO. 1.

Amend by striking all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. This chapter shall be known and may be cited as the "Mississippi Capitol Region Utility Act."

SECTION 2. (1) The Mississippi Legislature finds the following:

(a) For the benefit of the citizens centrally located in the State of Mississippi, including citizens residing or working in the capital city of the State of Mississippi, it is essential to have access to safe, clean and reliable water and wastewater systems at affordable, regulated rates which are just, reasonable and provide an adequate amount of capital to keep such systems in good repair;

(b) The availability of safe, clean and reliable water and wastewater systems has vast impacts on health, schools and academic outcomes, crime and safety, state and local government operations, businesses and economic development, the availability of a workforce, tourism and many other critical areas;

(c) The availability of safe, clean and reliable water and wastewater systems requires significant financial resources and human capital to engage in the planning, acquisition, construction, maintenance, coordination and operation required to deliver transparent and efficient services which meet and exceed federal and state regulations and requirements;

(d) On November 29, 2022, the Department of Justice filed a complaint alleging that the City of Jackson has failed to provide drinking water that is reliably compliant with the Safe Drinking Water Act to citizens within the boundaries of the water system. The Department of Justice simultaneously filed a proposal which would appoint a receiver, or an interim third-party manager, to stabilize the City of Jackson's public drinking water system and build confidence in the water system's ability to supply safe, clean and reliable water to citizens within the boundaries of the water system. The U.S. District Court for the Southern District of Mississippi appointed a receiver to oversee and operate the water system on November 29, 2022;

(e) On or about July 31, 2023, the U.S. District Court for the Southern District of Mississippi brought the City of Jackson's sewer and wastewater systems into the receivership;

(f) The order appointing a receiver does not have a termination date and ends only when final judgment is entered by the court. Before the court enters final judgment, the system must be stable, the financial plan sustainable, and the transition plan approved in order to transition the system to post-receivership operations;

(g) The creation and organization of a structure for future governance requires legislation for it to continue in perpetuity beyond the eventual end of the receiver's work and related federal court orders; and

(h) The creation and organization of a structure for future governance prior to the date of the conclusion of the receiver's work will allow for an orderly transition to ensure minimal disruption in water and wastewater service.

(2) Therefore, it is the intent of the Mississippi Legislature to:

(a) Provide the Mississippi Capitol Region Utility Authority the option to purchase the existing water and wastewater assets from the City of Jackson at fair market value as determined by the court, provided all existing system debts have been retired or paid. Upon completion of the purchase of assets, the water and wastewater assets shall be transferred to the utility authority's ownership, management and control to ensure all citizens have access to safe, clean and reliable water and wastewater systems at affordable, just and reasonable regulated rates, and to provide an adequate amount of capital to keep such systems in good repair;

(b) Authorize the Local Governments and Rural Water Systems Improvement Board created in Section 41-3-16 to loan to the authority funds required to purchase water assets as provided in this subsection (2) at an interest rate of zero percent (0%) with a forty-year term applying the maximum principal forgiveness available;

(c) Authorize the Mississippi Commission on Environmental Quality to loan to the authority funds requested to purchase wastewater assets as authorized in this subsection (2) at an interest rate of zero percent (0%) with a forty-year term applying the maximum principal forgiveness available, provided all requirements to be eligible for the loan are met by the authority and the transaction meets the requirements of federal law; and

(d) Partner with the Department of Health, the Department of Environmental Quality, the City of Jackson and other municipalities or governmental entities within the

boundaries of the authority, and any other federal state or local entity in taking any action necessary under this chapter to ensure all citizens have access to safe, clean and reliable water and wastewater systems, with the understanding that federal and state agencies are solely responsible for regulating, but not operating, the utility authority.

Such authority is created solely to accomplish the purposes of the state under this chapter, and the exercise by the authority of the powers conferred by this chapter shall be deemed and held to be the performance of an essential public function promoting the health, welfare and prosperity of the general public. It is the intent of the Legislature that the authority shall be accountable to ratepayers within the systems through the audits, reports and disclosures required by this chapter.

(2) The existence of the corporate nonprofit authority, which shall be domiciled in the State of Mississippi, shall begin upon the appointment of a majority of its board as provided in Section 5 of this act.

All appointed members must be residents of the State of Mississippi, must be ratepayers within the system boundaries, and must have significant, demonstrated experience in business management, fiscal affairs, public health or public utilities. No current or former federal, state or local elected officials may be appointed.

(2) Term lengths shall begin upon the date of termination of the receiver by the U.S. District Court for the Southern District of Mississippi or an earlier date as ordered by the court. Service by members between September 1, 2024, and the date of termination of the receiver shall not be counted in the term limits established herein.

Any member who changes residency outside of the service area, ends employment in the service area or allows his or her account to go into arrears shall be immediately discharged from the board. Vacancies shall be filled by appointment by the appropriate appointing authority, subject to the advice and consent of the Senate, for the length of the unexpired term only. Any member of the authority shall be eligible for reappointment for a maximum of two (2) full terms. Each member of the authority shall, before entering upon his duty, take an oath of office to administer the duties of his office faithfully and impartially, and a record of such oath shall be filed in the Office of the Secretary of State. The authority shall annually elect from its membership a chairman and vice chairman who shall be eligible for reelection for up to four (4) consecutive terms. The authority shall also elect or appoint, and prescribe the duties of, such other officers, who need not be members, as the authority deems necessary or advisable, and the authority shall fix the compensation of such officers. The authority may delegate to one or more of its members, officers, employees or agents such powers and duties as it may deem proper, not inconsistent with this article or other provisions of law.

(5) The members of the board shall serve without salary but shall be entitled to receive per diem pay as provided in Section 25-3-69, plus travel and necessary expenses,

(9) The board may by majority vote excuse the absence of any board member. If any board member is absent for two (2) board meetings in a twelve-month period without such absences being excused by the board, his or her membership on the board shall be terminated as a function of law, without any action by the board, and the removed board member shall be ineligible for reappointment to the board. The original appointing authority shall retain the right to appoint a new board member to replace the removed board member.

(10) No current or former employee of the authority shall be a board member.

(11) Until the utility authority assumes ownership, management and control of the water and wastewater systems, the board shall cooperate and coordinate with the receiver in order to provide the best opportunity for minimal disruption in service and maximum ease of transition after the receiver has concluded his work in overseeing and operating the water system.

SECTION 6. (1) The utility authority shall consult with the court in appointing a president by January 1, 2025, who shall serve at the will and pleasure of the board. If the authority does not have ownership, management and control of the water and wastewater systems by the date of the appointment of a president, the State of Mississippi shall pay the salary of the president on a bimonthly basis, subject to appropriations. The president shall serve as deputy to the receiver until the court enters final judgement, at which time the president shall manage the daily affairs of the authority and shall have such powers and duties as specified by this chapter, by the board, and any rules or regulations adopted by the board. The president shall not be a member of the board and shall serve at the will and pleasure of the board.

(2) Until the authority assumes ownership, management and control of the water and wastewater systems, the president shall cooperate and coordinate with the receiver in order to provide the best opportunity for minimal disruption in service and maximum ease of transition after the receiver has concluded his work in overseeing and operating the water system.

(3) The president shall employ such personnel as he or she deems necessary. All personnel shall serve at the will and pleasure of the president.

(4) The board shall set the salary of the president at such level as necessary to recruit and retain a qualified professional with the expertise necessary in a public utility. The board may authorize whatsoever incentive compensation program for the president

and authority staff as it deems necessary and proper. The authority shall be exempt from the provisions of Section 25-3-39.

SECTION 7. (1) The utility authority shall have the power, duty and responsibility to exercise general supervision over the design, construction, operation and maintenance of water and wastewater systems.

(2) The authority shall adopt rules and regulations regarding the design, construction or installation, operation and maintenance of water and wastewater systems.

(3) The authority shall adopt rules and regulations regarding the use of decentralized treatment systems, individual on-site wastewater treatment systems and centralized wastewater treatment systems.

Such rules and regulations shall include: the implementation of a standard application form for the installation, operation and maintenance of such systems; application review; approval or denial procedures for any proposed system; inspection, monitoring and reporting guidelines; and enforcement procedures.

(5) (a) Before a building or development which requires the installation of a water or wastewater system is constructed, the system must be submitted to the authority for certification that the system complies with the authority's requirements.

(b) Before approving or renewing a permit for a water or wastewater system within the authority, the state agency must require certification that the system complies with the authority's requirements.

(6) Any system of any municipality, public agency or other persons which contracts with the authority shall be subject to the terms of that contract and the terms of this chapter.

(7) Notwithstanding the provisions of Section 51-39-1 et seq., the authority shall have the full power to adopt rules and regulations and to construct, maintain, lease and operate facilities for the control of storm water quality and quantity. (8) The authority may control and operate the local retail water or wastewater services and may provide or be responsible for direct servicing of those services to residences, businesses and individuals; however, the authority shall not provide the same service in an area provided by a public utility or person holding a certificate of public convenience and necessity issued by the Mississippi Public Service Commission for the provision of such services in the certificated area.

(9) The authority shall enter into contracts for major procurements after bidding. The authority may adopt administrative rules and regulations pursuant to the provisions of this chapter providing for special procedures whereby the authority may make any class of procurement.

(10) In its bidding processes, the authority may do its own bidding and procurement or may utilize the services of the Department of Finance and Administration, the Department of Information Technology Services or other state agencies as appropriate and necessary.

(11) In the City of Ridgeland, which is served by only the wastewater system as of July 1, 2024, the authority shall have oversight or control of only wastewater service provided to ratepayers. To maintain consistency with the agreement in place with the City

of Jackson prior to the existence of the authority, the City of Ridgeland shall have control over its rate structure, with the City of Ridgeland compensating the authority for its prorated share of wastewater conveyance, treatment, capital improvements and debt service.

SECTION 8. (1) The utility authority, in addition to any other powers granted under any other provision of law, is authorized:

(a) To acquire, construct, improve, enlarge, extend, repair, operate and maintain one or more of its systems used for the collection, transportation, treatment and disposal of water and wastewater;

(b) To make contracts with any person in furtherance thereof, and to make contracts with any person, under the terms of which the authority will collect, transport, treat or dispose of water and wastewater for such person;

(d) To enter into operating agreements with any person, for such terms and upon such conditions as may be deemed desirable, for the operation of any water and wastewater systems, and to lease to or from any person, for such term and upon such conditions as may be deemed desirable, any water and wastewater collection, transportation, treatment or other facilities or systems. Any such contract may contain provisions requiring any public agency or other person to regulate the quality and strength of materials to be handled by the respective system or systems and also may provide that the authority shall have the right to use any streets, alleys and public ways and places within the jurisdiction of a public agency or other person during the term of the contract;

(e) To enter into contracts with any person or public agency, including, but not limited to, contracts authorized by this chapter, in furtherance of any of the purposes authorized under this chapter upon such consideration as the board and such person may agree. Any such contract may extend over any period of time, notwithstanding any provision or rule of law to the contrary, may be upon such terms and for such consideration, nominal or otherwise, as the parties thereto shall agree, and may provide that it shall continue in effect until bonds specified therein, refunding bonds issued in lieu of such bonds, and all other obligations specified therein are paid or terminated. Any such contract shall be binding upon the parties thereto according to its terms;

(f) To sue and be sued, in its own name, and to enjoy all of the protections, immunities and benefits provided by the Mississippi Tort Claims Act, Section 11-46-1 et seq., as it may be amended or supplemented from time to time;

(j) To require the necessary relocation or rerouting of roads and highways, railroad, telephone and telegraph lines, and properties, electric power lines, gas pipelines and related facilities, or to require the anchoring or other protection of any of these, provided fair compensation is first paid to the owners or an agreement with such owners

regarding the payment of the cost of such relocation, and to acquire easements or rights-of-way for such relocation or rerouting and to convey the same to the owners of the property being relocated or rerouted in connection with the purposes of this chapter. This provision shall be in accordance with Mississippi Constitution Article 17A and Section 11-27-30;

(k) To acquire, construct, improve or modify, to operate or cause to be operated and maintained, either as owner of all or of any part in common with others, any water or wastewater system within the authority's service area. The authority may receive, accept and use all funds, public or private, and pay all costs of the development, implementation and maintenance as may be determined as necessary for any project;

(l) To acquire, in its own name, by purchase on any terms and conditions and in any manner as it may deem proper, property for public use, or by gift, grant, lease, or otherwise, real property or easements therein, franchises and personal property necessary or convenient for its corporate purposes. This provision shall be in accordance with Mississippi Constitution Article 17A and Section 11-27-30;

(m) To acquire insurance for the authority's systems, facilities, buildings, treatment plants and all property, real or personal, to insure against all risks as any insurance may, from time to time, be available;

The authority may administer trusts. The authority may sell, lease, transfer, convey, appropriate and pledge any and all of its property and assets;

(r) To establish and maintain rates, fees and any other charges for services and the use of systems and facilities within the control of the authority, and from time to time, to adjust such rates, fees and any other charges to the end that the revenues therefrom will be sufficient at all times to pay the expenses of operating and maintaining the facilities and treatment systems and all of the persons' obligations under any contract or bonds resolution with respect thereto or any obligation of any person under any agreement, contract, indenture or bonds resolution with respect thereto. Such rates, fees, assessments and other charges shall be subject to the jurisdiction of the Mississippi Public Service Commission. Such rates, fees, assessments and other charges shall be equal as levied on citizens throughout the authority's boundaries. For purposes of Section

77-3-33, the rates charged by the authority shall be just and reasonable if they are adequate to provide safe and reliable water and wastewater service to its customers, including providing an adequate amount of capital for the authority to perform such repairs, upgrades and improvements as it deems necessary on an ongoing basis. The Mississippi Public Service Commission shall defer to the authority's determination of what rates are just and reasonable absent a showing of manifest error;

(s) To adopt rules and regulations necessary to accomplish the purposes of the authority and to assure the payment of each participating person or public agency of its proportionate share of the costs for use of any of the systems and facilities of the authority and for the authority's proportionate share of the costs of the board;

(t) To enter on public or private lands, waters or premises for the purpose of making surveys, borings or soundings, or conducting tests, examinations or inspections for the purposes of the authority, subject to responsibility for any damage done to property entered;

(u) To accept industrial wastewater from within the boundaries of the authority for treatment and to require the pretreatment of same when, in the opinion of the authority, such pretreatment is necessary;

(v) To control and operate local retail water and wastewater services, and to provide or be responsible for direct servicing of those services to residences, businesses and individuals; however, the authority shall not provide the same services in an area provided by a public utility or person holding a certificate of public convenience and necessity issued by the Mississippi Public Service Commission for the provision of such services in the certificated area;

(w) To assume control and administer, within the authority's jurisdiction, any water or wastewater system or systems by agreement or contract with any person if the person providing such services requests to be relieved of that responsibility;

(x) To acquire property designated by plan to sufficiently accommodate the location of water or wastewater systems and such requirements related directly thereto pursuant to the provisions of Title 11, Chapter 27, Mississippi Code of 1972. The authority may acquire property necessary for any system and the exercise of the powers, rights and duties conferred upon the authority by this chapter. No person owning the drilling rights or the right to share in production shall be prevented from exploring, developing or producing oil or gas with necessary rights-of-way for ingress and egress, pipelines and other means of transporting such interests on any lands or interest of the authority held or used for the purposes of this chapter, but any such activities shall be subject to reasonable regulations by the board that will adequately protect the systems or projects of the authority. This provision shall be in accordance with Mississippi Constitution Article 17A and Section 11-27-30;

(y) To use any legally available funds to acquire, rebuild, operate and maintain any existing water or wastewater systems owned or operated by any person;

(z) To refuse to receive water or wastewater from any public agency or person, except with regard to municipalities or other areas within the service territory of the systems as of July 1, 2024;

(aa) So long as any indebtedness on the systems of the authority remains outstanding, to require of a member public agency, or other person, that all water and wastewater within the boundaries of the authority be disposed of through the appropriate treatment system to the extent that the same may be available, but no public agency shall be precluded from constructing, operating and maintaining its own such system after the current indebtedness owing on the system as of July 1, 2024, is paid in full;

(bb) To adopt a seal and a symbol, and hold patents, copyrights, trademarks and service marks, and to enforce its rights with respect thereto;

(cc) To operate under the name JXN Water upon receiving permission of the court should the authority desire to maintain the receiver's organizational name; and

(dd) To write off revenues deemed uncollectible that were billed to customers prior to December 1, 2022, and further write off revenues deemed uncollectible after the third year of collection efforts as a regular accounting practice of the authority. Nothing herein permits the provision of services without charging applicable rates in effect at the time services are provided and requiring payment for such services.

(3) The authority shall:

(a) Submit annual reports to the Governor, Lieutenant Governor, Speaker of the House of Representatives, State Auditor, Joint Legislative Committee on Performance Evaluation and Expenditure Review and the governing authorities of any municipality whose citizens are within the authority's boundaries regarding the water quality and financial conditions of such system or systems, as well as a schedule of currently planned repairs, upgrades or improvements planned by the authority;

(b) Immediately submit to the Governor, Lieutenant Governor, Speaker of the House of Representatives and the governing authorities of any municipality whose citizens are within the authority's boundaries any information received from the Mississippi State Department of Health or Department of Environmental Quality or other state or federal regulatory agencies regarding the condition of a transferred eligible municipal system. The authority, in addition to abiding by any other federal or state reporting requirements, must also report such information to the public on its website and to individuals residing within the service area as required by federal or state law;

SECTION 9. (1) The president, as chief executive officer of the utility authority, if so appointed by the board, shall direct and supervise all administrative and technical activities in accordance with the provisions of this chapter, within the administrative rules and regulations adopted by the board, and in accordance with industry practice. The president shall:

(a) Supervise and administer or contract for the supervision and administration of the water and wastewater systems owned, managed or controlled by the authority;

(c) Make available for inspection by the board or any member of the board or the Governor, Lieutenant Governor, Speaker of the House or the governing authorities of any municipality whose citizens are served by the authority, upon request, all books, records, files and other information and documents of his or her office and advise the board and recommend such administrative rules and regulations and other matters he or she deems necessary and advisable to improve the operation and administration of the authority;

(d) Attend meetings of the board or appoint a designee to attend on his or her behalf;

(e) Not later than thirty (30) days before the beginning of the authority's fiscal year, submit the proposed annual budget of the authority to the board for review and approval. In addition, the proposed annual budget of the authority shall include a personnel table reporting information for each full-time and part-time permanent position, as follows:

(i) The position title and the salary for each position in the existing operating budget for the current fiscal year, indicating whether each position is filled or vacant as of the reporting date; and

(ii) The position title and the salary recommended for each position for the next fiscal year; and

(2) The president may:

(a) Require bond from other employees as he or she deems necessary; and

(b) Upon specific or general approval of the board, enter into personal service contracts pursuant to administrative rules and regulations adopted by the board and compensate such consultants and technical assistants as may be required to carry out the provisions of this chapter.

(3) Agencies, departments or units of state government, including, but not limited to, the Mississippi Department of Health and the Mississippi Department of Environmental Quality, shall cooperate with the authority to regulate the authority and assure the effective operation of the authority's systems, with the understanding that such agencies act as a regulator and not operator of such systems. All state officers are hereby empowered and required to render such services to the authority within their respective functions as may be requested by the authority.

SECTION 10. Employees of the utility authority shall serve at the will and pleasure of the president, who shall determine their compensation and benefits in consultation with the board.

SECTION 11. Neither the directors of the utility authority, the board, its employees, nor any person or persons acting on their behalf, while acting within the scope of their authority, shall be subject to personal liability resulting from carrying out any of the powers granted herein in accordance with his or her good-faith belief that he or she is acting in the best interests of the authority.

SECTION 12. (1) The utility authority shall enter into its contracts for major procurements after a competitive and open procurement process. The authority may

adopt administrative rules and regulations pursuant to the provisions of this chapter providing for special procedures whereby the authority may make any class of procurement. The authority shall endeavor to ensure the transparency and competitiveness of procurements of all sizes.

(2) In its bidding processes, the authority may do its own bidding and procurement or may utilize the services of other state agencies as appropriate and necessary. The president may declare an emergency for purchasing purposes which shall be governed by the administrative rules and regulations adopted by the board.

SECTION 13. All monies received by the utility authority shall be deposited into an operating account. Such account shall be established in a custodian financial institution domiciled in the State of Mississippi, insured by the Federal Deposit Insurance Corporation and collateralized as prescribed by Section 27-105-5.

SECTION 14. All division heads, officers and employees of the utility authority shall be considered public servants as defined in Section 25-4-103. All division heads and officers of the authority are subject to Section 25-4-25 and shall be required to file a Statement of Economic Interest with the Mississippi Ethics Commission.

SECTION 15. (1) Any public agency, pursuant to a duly adopted resolution of the governing body of such public agency, may enter into contracts with the utility authority under the terms of which the authority will manage, operate and contract for usage of its systems and facilities, or other services, for such public agency.

(2) Any public agency may enter into contracts with the authority for the authority to purchase or sell, by installments over such terms as may be deemed desirable, or otherwise, to any person or any systems. Any public agency may sell, donate, convey or otherwise dispose of water and wastewater facilities or systems, or any equipment, personal property or other things deemed necessary for the construction, operation and maintenance thereof to the authority without the necessity of appraisal, advertising or bidding. This section creates an alternative method of disposal of public property.

(3) Any public agency is authorized to enter into operating agreements with the authority, for such terms and upon such conditions as may be deemed desirable, for the operation of any of its systems by the authority or by any person contracting with the authority to operate such systems.

(4) Any public agency may lease to or from the authority, for such term and upon such conditions as may be deemed desirable, any of its systems.

(5) Any municipality or county may donate office space, equipment, supplies and materials to the authority.

(6) Any such contract may contain provisions requiring any public agency to regulate the quality and strength of the material to be handled by the wastewater systems and may also provide that the authority shall have the right to use any streets, alleys and public ways and places within the jurisdiction of a public agency during the term of the contract. Such contracts may obligate the public agency to make payments to the authority or to a trustee in amounts which shall be sufficient to enable the authority to defray the expenses of administering, operating and maintaining its respective systems, to pay interest and principal (whether at maturity upon redemption or otherwise) on bonds of the authority issued under this chapter, and to fund reserves for debt service, for operation and maintenance and for renewals and replacements, to fulfill the requirements of any rate covenant with respect to debt service coverage contained in any resolution, trust indenture or other security agreement relating to the bonds of the authority issued under this chapter or to fulfill any other requirement relating to bonds issued pursuant to this chapter.

(7) Any public agency shall have the power to enter into contracts with the authority as deemed, in the discretion of the governing body of the public agency, would be in the best interest of the public agency. Such contracts may include a pledge of the full faith and credit of the public agency and/or the avails of any special assessments made by the public agency against property receiving benefits, as now or hereafter provided by law. Any such contract may:

(a) Provide for the sale or lease to, or use by, the authority, of the systems or any part thereof, of the public agency;

(b) Provide that the authority shall operate its systems or any part thereof of the public agency;

(c) Provide that the public agency shall have the right to continued use and/or priority use of the systems or any part thereof during the useful life thereof upon payment of reasonable charges therefor;

(d) Contain provisions to assure equitable treatment of public agencies contracting with the authority under this chapter; and

(e) Contain such other provisions and requirements as the parties thereto may determine to be appropriate or necessary.

Such contracts may extend over any period of time, notwithstanding any provisions of law to the contrary, and may extend beyond the life of the respective systems or any part thereof or the term of the bonds sold with respect to such facilities or improvements thereto.

(8) The obligations of a public agency arising under the terms of any contract referred to in this chapter, whether or not payable solely from a pledge of revenues, shall not be included within the indebtedness limitations of the public agency for purposes of any constitutional or statutory limitation or provision. To the extent provided in such contract and to the extent such obligations of the public agency are payable wholly or in part from the revenues and other monies derived by the public agency from the operation of its systems or of its combined systems, or any part thereof, such obligations shall be treated as expenses of operating such systems.

(9) Contracts referred to in this section may also provide for payments in the form of contributions to defray the cost of any purpose set forth in the contracts and as advances for the respective systems or any part thereof subject to repayment by the authority. A public agency may make such contributions or advances from its general fund or surplus fund or from special assessments or from any monies legally available therefor.

(10) Subject to the terms of a contract or contracts referred to in this chapter, the authority is hereby authorized to do and perform any and all acts or things necessary, convenient or desirable to carry out the purposes of such contracts, including the fixing, charging, collecting, maintaining and revising of rates, fees and other charges for the services rendered to any user of any of the systems operated or maintained by the authority, whether or not such systems are owned by the authority.

(11) No provision of this chapter shall be construed to prohibit any public agency, otherwise permitted by law to issue bonds, from issuing bonds in the manner provided by law for the construction, renovation, repair or development of any systems or any part thereof.

SECTION 16. Whenever a public agency shall have executed a contract under this chapter and the payments thereunder are to be made either wholly or partly from the revenues of the public agency's systems, or any part thereof, or a combination of such systems, the duty is hereby imposed on the public agency to establish and maintain and

from time to time to adjust the rate or fees charged by the public agency for the services of such systems, so that the revenues therefrom, together with any taxes and special assessments levied in support thereof, will be sufficient at all times to pay:

(a) The expense of operating and maintaining such systems, including, but not limited to, all of the public agency's obligations to the utility authority and the cost required to staff such systems, its successors or assigns under such contract; and

(b) All of the public agency's obligations under and in connection with bonds theretofore issued, or which may be issued thereafter and secured by the revenues of such systems. Any such contract may require the use of consulting engineers and financial experts to advise the public agency whether and when such rates and fees are to be adjusted.

SECTION 17. (1) Notwithstanding the provisions of Sections 77-3-21 and 77-3-23, the certificate of public convenience and necessity held by any municipality, public agency, district, public utility or other entity authorized by law to provide water and wastewater services may be cancelled and its powers, duties and responsibilities transferred to the utility authority in the manner provided by this section.

(2) Any entity described in subsection (1) of this section desiring to have its certificate of public convenience and necessity cancelled and its powers, duties and responsibilities transferred to the authority shall make a determination to that effect on its official minutes if a public entity, or by affidavit if not a public entity, and transmit such determination to the authority.

(3) Upon receipt of the document evidencing such determination from an entity to transfer its powers, duties and responsibilities to the authority, the authority shall, by resolution, declare whether it is willing and able to accept such transfer from the entity.

(4) Upon completion of the requirements of subsections (2) and (3) of this section and agreement by both parties to the transfer, the holder of the certificate of public convenience and necessity and the authority shall jointly petition the Public Service Commission to cancel the certificate of public convenience and necessity. The petition must be accompanied by copies of the official minutes, affidavit or resolution, as the case may be, reflecting the actions of the petitioners. After review of the petition and any other evidence as the Public Service Commission deems necessary, the commission may issue an order canceling the certificate and transferring to the authority the powers, duties and responsibilities granted by the certificate, including all assets and debts of the transferor petitioner related to such certificated services, real or personal, or both, if it finds that:

(a) Subsections (2) and (3) of this section have been complied with; and

(b) Such action is in the public interest.

(5) The authority and providers of water and wastewater services that are not holders of a certificate of a public convenience and necessity from the Public Service Commission may enter into agreements for the provision of such services, including, but not limited to, the transfer to the authority of such provider's powers, duties, responsibilities, assets and debts.

(6) Nothing herein shall require an entity whose powers and duties were transferred to the authority to remain under the authority.

SECTION 18. (1) Any system of a municipality, public agency or other entity that becomes subject to the jurisdiction of the utility authority and this chapter shall not impair, invalidate or abrogate any liens, bonds or other certificates of indebtedness related to water or wastewater facilities and systems incurred prior to becoming subject to the jurisdiction of the authority.

(2) The authority may do and perform any and all acts necessary, convenient or desirable to ensure the payment, redemption or satisfaction of such liens, bonds or other certificates of indebtedness.

SECTION 19. (1) Sections 18 through 27 of this act apply to all bonds to be issued on or after July 1, 2024, and such provisions shall not affect, limit or alter the rights and powers of the utility authority under this chapter or any law of Mississippi to conduct the activities referred to herein in any way pertinent to the interests of the bondholders, including, without limitation, the authority's right to charge and collect rates, fees and charges and to fulfill the terms of any covenants made with the registered owners of any existing bonds, or in any other way impair the rights and remedies of the registered owners of any existing bonds, unless provision for full payment of such bonds, by escrow or otherwise, has been made pursuant to the terms of the bonds or the resolution, trust indenture or security interest securing the bonds.

(2) The authority shall have the power and is hereby authorized, from time to time, to borrow money and to issue revenue bonds and interim notes in such principal amounts as the authority may determine to be necessary to provide sufficient funds for achieving one or more of the purposes of this chapter, including, without limiting the generality of the foregoing, to defray all the costs of the project, the cost of the acquisition, construction, improvement, repair or extension of a system, or any part thereof, whether or not such facilities are owned by the authority, the payment of interest on bonds of the authority issued pursuant to this chapter, establishment of reserves to secure such bonds and payment of the interest thereon, expenses incident to the issuance of such bonds and to the implementation of the authority's system, and all other expenditures of the authority incident to or necessary or convenient to carry out the purposes of this chapter.

(3) Before issuing bonds, other than interim notes or refunding bonds as provided in Section 20 of this act, the board of directors of the authority shall adopt a resolution declaring its intention to issue such bonds and stating the maximum principal amount of bonds proposed to be issued, a general generic description of the proposed improvements and the proposed location thereof and the date, time and place at which the board of directors proposes to take further action with respect to the issuance of such bonds. The resolution shall be published once a week for at least three (3) consecutive weeks in at least one (1) newspaper having a general circulation within the geographical limits of the service area under this chapter.

(4) Bonds of the authority issued pursuant to this chapter shall be payable from and secured by a pledge of all or any part of the revenues derived from the operation of the systems or any part or parts thereof and any other monies legally available and designated therefor, as may be determined by the authority, subject only to any agreement with the purchasers of the bonds. Such bonds may be further secured by a trust indenture between the authority and a corporate trustee, which may be any trust company or bank having powers of a trust company without or within the state.

(5) Bonds of the authority issued pursuant to this chapter shall be authorized by a resolution or resolutions adopted by a majority affirmative vote of the total membership of the board. Such bonds may be issued in series, and each series of such bonds shall bear such date or dates, mature at such time or times, bear interest at such rate or rates (not exceeding the maximum rate set out in Section 75-17-103, Mississippi Code of 1972), be in such denomination or denominations, be in such form, carry such conversion privileges, have such rank or priority, be executed in such manner and by such officers, be payable from such sources in such medium of payment at such place or places within or without the state, provided that one such place shall be within the state, and be subject to such terms of redemption prior to maturity, all as may be provided by resolution or resolutions of the board. The term of such bonds issued pursuant to this chapter shall not exceed forty (40) years.

(6) Bonds of the authority issued pursuant to this chapter may be sold at such price or prices, at public or private sale, in such manner and at such times as may be determined by the authority to be in the public interest, and the authority may pay all expenses, premiums, fees and commissions which it may deem necessary and advantageous in connection with the issuance and sale thereof.

(7) Any pledge of earnings, revenues or other monies made by the authority shall be valid and binding from the time the pledge is made. The earnings, revenues or other monies so pledged and thereafter received by the authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the authority irrespective of whether such parties have notice thereof. Neither the resolution nor any other instrument by which a pledge is created need be recorded.

(8) Neither the members of the board nor any person executing the bonds shall be personally liable on the bonds or be subject to any personal liability or accountability by reason of the issuance thereof.

(9) Proceeds from the sale of bonds of the authority may be invested, pending their use, in such securities as may be specified in the resolution authorizing the issuance of the bonds or the trust indenture securing them, and the earnings on such investments applied as provided in such resolution or trust indenture.

(10) Whenever any bonds shall have been signed by the officer designated by the resolution of the board to sign the bonds who was in office at the time of such signing but who may have ceased to be such officer prior to the sale and delivery of such bonds, or who may not have been in office on the date such bonds may bear, the manual or facsimile signatures of such officer upon such bonds shall nevertheless be valid and sufficient for all purposes and have the same effect as if the person so officially executing such bonds had remained in office until the delivery of the same to the purchaser or had been in office on the date such bonds may bear.

(11) The authority has the discretion to advance or borrow funds needed to satisfy any short-term cash flow demands or deficiencies or to cover start-up costs until such time as sufficient bonds, assets and revenues have been secured to satisfy the needs of the authority. The State of Mississippi shall provide surety for any advance or borrowing of funds required under this chapter through June 30, 2029.

SECTION 20. (1) The utility authority may, by resolution adopted by its board, issue refunding bonds for the purpose of paying any of its bonds at or prior to maturity or upon acceleration or redemption. Refunding bonds may be issued at such time prior to the maturity or redemption of the refunded bonds as the board deems to be in the public interest, without an election on the question of the issuance thereof. The refunding bonds may be issued in sufficient amounts to pay or provide the principal of the bonds being refunded, together with any redemption premium thereon, any interest accrued or to accrue to the date of payment of such bonds, the expenses of issue of the refunding bonds, the expenses of redeeming the bonds being refunded, and such reserves for debt service or other capital or current expenses from the proceeds of such refunding bonds as may be required by the resolution, trust indenture or other security instruments. The issue of refunding bonds, the maturities and other details thereof, the security therefor, the rights of the holders and the rights, duties and obligations of the authority in respect of the same shall be governed by the provisions of this chapter relating to the issue of bonds other than refunding bonds insofar as the same may be applicable. Any such refunding may be effected, whether the obligations to be refunded shall have then matured or shall thereafter mature, either by the exchange of the refunding bonds for the obligations to be refunded thereby with the consent of the holders of the obligations so to be refunded, or by sale of the refunding bonds and the application of the proceeds thereof to the payment of the obligations proposed to be refunded thereby, and regardless of

whether the obligations proposed to be refunded shall be payable on the same date or different dates or shall be due serially or otherwise.

(2) Borrowing by the authority may be made by the delivery of interim notes to any person or public agency or financial institution by a majority vote of the board of directors.

SECTION 21. All bonds, other than refunding bonds, interim notes and certificates of indebtedness, which may be issued pursuant to this chapter shall be validated as now provided by law in Sections 31-13-1 through 31-13-11, Mississippi Code of 1972; however, notice of such validation proceedings shall be addressed to the citizens of the respective public agencies which have contracted with the authority pursuant to this chapter, and whose contracts and the payments to be made by the public agencies thereunder constitute security for the bonds of the authority proposed to be issued, and such notice shall be published at least once in a newspaper or newspapers having a general circulation within the geographical boundaries of each of the contracting public agencies to whose citizens the notice is addressed. Such validation proceedings shall be instituted in any chancery courts within the boundaries of the authority. The validity of the bonds so validated and of the contracts and payments to be made by the public agencies thereunder constituting security for the bonds shall be forever conclusive against the authority and the public agencies, which are parties to said contracts, and the validity of said bonds and said contracts and the payments to be made thereunder shall never be called in question in any court in this state.

SECTION 22. Bonds issued under the provisions of this chapter shall not be deemed to constitute, within the meaning of any constitutional or statutory limitation, an indebtedness of the utility authority or the state. Such bonds shall be payable solely from the revenues or assets of the authority pledged therefor. Each bond issued under this chapter shall contain on the face thereof a statement to the effect that neither the authority nor the state shall be obligated to pay the same or the interest thereon except from the revenues or assets pledged therefor.

SECTION 23. The utility authority shall have power in connection with the issuance of its bonds pursuant to this chapter to:

(a) Covenant as to the use of any or all of its property, real or personal;

(b) Redeem the bonds, to covenant for their redemption and to provide the terms and conditions thereof;

(c) Covenant to charge rates, fees and charges sufficient to meet operating and maintenance expenses, renewals and replacements, principal and debt service on bonds, creation and maintenance of any reserves required by a bonds resolution, trust indenture or other security instrument and to provide for any margins or coverages over and above debt service on the bonds deemed desirable for the marketability of the bonds;

(d) Covenant and prescribe as to events of default and terms and conditions upon which any or all of its bonds shall become or may be declared due before maturity, as to the terms and conditions upon which such declaration and its consequences may be waived and as to the consequences of default and the remedies of the registered owners of the bonds;

(e) Covenant as to the mortgage or pledge of or the grant of a security interest in any real or personal property and all or any part of the revenues from any designated system or any part thereof or any revenue-producing contract or contracts made by the authority with any person or entity to secure the payment of bonds, subject to such agreements with the registered owners of bonds as may then exist;

(f) Covenant as to the custody, collection, securing, investment and payment of any revenues, assets, monies, funds or property with respect to which the authority may have any rights or interest;

(g) Covenant as to the purposes to which the proceeds from the sale of any bonds then or thereafter to be issued may be applied, and the pledge of such proceeds to secure the payment of the bonds;

(h) Covenant as to the limitations on the issuance of any additional bonds, the terms upon which additional bonds may be issued and secured, and the refunding of outstanding bonds;

(i) Covenant as to the rank or priority of any bonds with respect to any lien or security;

(j) Covenant as to the procedure by which the terms of any contract with or for the benefit of the registered owners of bonds may be amended or abrogated, the amount of bonds the registered owners of which must consent thereto, and the manner in which such consent may be given;

(k) Covenant as to the custody of any of its properties or investments, the safekeeping thereof, the insurance to be carried thereon, and the use and disposition of insurance proceeds;

(l) Covenant as to the vesting in a trustee or trustees, within or outside the state, of such properties, rights, powers and duties in trust as the authority may determine;

(m) Covenant as to the appointing and providing for the duties and obligations of a paying agent or paying agents or other fiduciaries within or outside the state;

(n) Make all other covenants and do any and all such acts and things as may be necessary, convenient or desirable in order to secure its bonds, or in the absolute discretion of the authority tend to make the bonds more marketable, notwithstanding that such covenants, acts or things may not be enumerated herein, it being the intention hereof to give the authority power to do all things in the issuance of bonds and in the provisions for security thereof which are not inconsistent with the Constitution of the state; and

(o) Execute all instruments necessary or convenient in the exercise of the powers herein granted or in the performance of covenants or duties, which may contain such covenants and provisions, as any purchaser of the bonds of the authority may reasonably require.

SECTION 24. The utility authority may, in any authorizing resolution of the board, trust indenture or other security instrument relating to its bonds issued pursuant to this chapter, provide for the appointment of a trustee who shall have such powers as are provided therein to represent the registered owners of any issue of bonds in the enforcement or protection of their rights under any such resolution, trust indenture or security instrument. The authority may also provide in such resolution, trust indenture or other security instrument that the trustee, or in the event that the trustee so appointed shall fail or decline to so protect and enforce such registered owners' rights then such percentage of registered owners as shall be set forth in, and subject to the provisions of, such resolution, trust indenture or other security interest, may petition the court of proper jurisdiction for the appointment of a receiver of the authority's systems, the revenues of which are pledged to the payment of the principal of and interest on the bonds of such registered owners. Such receiver may exercise any power as may be granted in any such resolution, trust indenture or security instrument to enter upon and take possession of, acquire, construct, reconstruct or operate and maintain such system, fix charges for services of the system and enforce collection thereof, and receive all revenues derived

from such system or facilities and perform the public duties and carry out the contracts and obligations of the authority in the same manner as the authority itself might do, all under the direction of such court.

SECTION 25. (1) The exercise of the powers granted by this chapter will be in all respects for the benefit of the people of the state, for their well-being and prosperity and for the improvement of their social and economic conditions, and the utility authority shall not be required to pay any tax or assessment on any property owned by the authority under the provisions of this chapter or upon the income therefrom, nor shall the authority be required to pay any recording fee or transfer tax of any kind on account of instruments recorded by it or on its behalf.

(2) Any bonds issued by the authority under this chapter, their transfer and the income therefrom shall at all times be free from taxation by the state or any local unit or political subdivision or other instrumentality of the state, excepting inheritance and gift taxes.

SECTION 26. All bonds issued under the provisions of this chapter shall be legal investments for trustees, other fiduciaries, savings banks, trust companies and insurance companies organized under the laws of the State of Mississippi, and such bonds shall be legal securities which may be deposited with and shall be received by all public officers and bodies of the state and all municipalities and other political subdivisions thereof for the purpose of securing the deposit of public funds.

SECTION 27. The state hereby covenants with the registered owners of any bonds of the utility authority that so long as the bonds are outstanding and unpaid, the state will not limit or alter the rights and powers of the authority under this chapter to conduct the activities referred to herein in any way pertinent to the interests of the bondholders, including, without limitation, the authority's right to charge and collect rates, fees, assessments and charges and to fulfill the terms of any covenants made with the registered owners of the bonds, or in any other way impair the rights and remedies of the registered owners of the bonds, unless provision for full payment of such bonds, by escrow or otherwise, has been made pursuant to the terms of the bonds or the resolution, trust indenture or security interest securing the bonds.

SECTION 28. For the purposes of satisfying any temporary cash flow demands and deficiencies, and to maintain a working balance for the utility authority, the state, county, municipalities or public agencies within the geographic boundaries of the authority, or other persons, subject to their lawful authority to do so, are authorized to advance, at any time, such funds which in their discretion are necessary, or borrow such funds by issuance of notes, for initial capital contribution, and to cover start-up costs until such times as sufficient bonds, assets and revenues have been secured to satisfy the needs of the authority for its management, operation and formation. To this end, the state, county, municipality, public agency or person, subject to its lawful authority to do so, shall advance such funds, or borrow such funds by issuance of notes, under such terms and conditions as may be provided by resolution of the governing body, or other persons as defined in this chapter, subject to their lawful authority to do so, except that each such resolution shall state:

(a) The need for the proceeds advanced or borrowed;

(b) The amount to be advanced or the amount to be borrowed;

(c) The maximum principal amount of any note issued the interest rate or maximum interest rate to be incurred, and the maturity date of said note;

(d) In addition, the governing body, or other persons as defined in this chapter, subject to their lawful authority to do so, may arrange for lines of credit with any bank, firm or person for the purpose of providing an additional source of repayment for

notes issued pursuant to this section. Amounts drawn on a line of credit may be evidenced by negotiable or nonnegotiable notes or other evidences of indebtedness and contain such terms and conditions as the governing body, or other persons as defined in this chapter, subject to their lawful authority to do so, may authorize in the resolution approving the same;

(e) The governing body of the county, municipalities or other persons as defined in this chapter, subject to their lawful authority to do so, may authorize the repayment of such advances, notes, lines of credit and other debt incurred under this section, along with all costs associated with the same, including, but not limited to, rating agency fees, printing costs, legal fees, bank or trust company fees, line of credit fees and other charges to be reimbursed by the authority under such terms and conditions as are reasonable and are to be provided for by resolution of the governing body, or terms agreed upon with other persons as defined in this chapter, subject to their lawful authority to do so; and

(f) In addition, the governing body of the county, municipality or public agency may lease or donate office space and equipment to the authority under such terms and conditions as are reasonable and are to be provided for by resolution of the governing body, or terms agreed upon by the authority.

SECTION 29. This act, being necessary for the welfare of the state and its inhabitants, shall be liberally construed to effect the purposes thereof. If any section, provision, paragraph, sentence, phrase or word of this act shall be held invalid by any court of competent jurisdiction, the remainder of this act shall not be affected thereby.

SECTION 30. Sections 1 and 3 through 28 of this act shall be codified as a separate chapter in Title 51, Mississippi Code of 1972.

SECTION 31. This act shall take effect and be in force from and after July 1, 2024.

Such an authorization is deemed revoked if (a) the corporation is unable to deliver two (2) consecutive notices or other communications to the member in the manner authorized; and (b) the inability becomes known to the secretary or other person responsible for giving the notice or other communication; but the failure to treat the inability as a revocation does not invalidate any meeting or other action.

The itemized description of the work to be done shown in this assignment form has not been agreed to by the insurer. The insurer has the right to pay only for the cost to repair or replace damaged property caused by a covered peril."

(6) A copy of the executed assignment shall be provided to the insurer of the residential real estate no later than five (5) business days after the execution date of the assignment.

Senator Boyd called up the following entitled bill:

H. B. No. 1163: Community and junior colleges; authorize to contract or enter into interlocal agreements with local governing authorities for first responders services.

Senator Boyd offered the following COMMITTEE AMENDMENT NO. 1.

Amend by striking all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. Section 21-25-23, Mississippi Code of 1972, is amended as follows:

21-25-23. The governing authorities of any municipality are hereby authorized, when petitioned so to do by the Board of Trustees of State Institutions of Higher Learning or the board of trustees of a community or junior college district, to create, by ordinance, a fire district encompassing the area adjoining such municipality on which a part or all of a State Institution of Higher Learning or a community college is located, after the creation of which such governing authorities and the Board of Trustees of State Institutions of Higher Learning or the board of trustees of the affected community or junior college district shall have full power to contract for laying of water mains and any other pipes or connections to the water mains to be used in said fire district, and for the establishment and maintenance of fire service therein. However, no such governing authority shall have the power either to promulgate or enforce any charge, rule or regulation upon said district without first having received the ratification and consent of the Board of Trustees of State Institutions of Higher Learning or the board of trustees of the affected community or junior college district as reflected by the minutes of said trustees.

SECTION 2. Section 37-29-231, Mississippi Code of 1972, is amended as follows:

37-29-231. (1) The provisions of Sections 37-103-1 through 37-103-29 relating to the legal residence of and tuition to be charged any student applying for admission to state educational institutions shall be applicable to the boards of trustees of each junior college district in the state and to the administrative authorities of each such junior college governed by said board.

(2) The board of trustees of each community or junior college is authorized, in its discretion and as deemed necessary, to enter into contract with a municipality as authorized under Section 21-25-23, or into an interlocal agreement with the county governing authority of the county wherein the community or junior college is located if situated outside of the incorporated limits of any city or municipality therein, to provide fire protection and first responder services to the main campus of the community or junior college for which the contract or interlocal agreement was entered. In addition to fire protection services, first responder services shall also include law enforcement services and emergency medical transportation services.

SECTION 3. Section 37-29-141, Mississippi Code of 1972, is amended as follows:

37-29-141. (1) The board of trustees of any junior college district is expressly authorized and empowered to make a thorough study and evaluation of the costs of operation of the junior college district, and said board shall recommend a fair and acceptable tax rate for district general support and maintenance from each of the member counties.

The board of trustees of any junior college district as constituted as of July 1, 1964, shall have the authority to recommend the tax levy necessary for a newly contributing county to have representation on the board of trustees of said junior college.

From and after October 1, 1989, no county shall levy less than (a) one (1) mill for the support, and (b) one (1) mill for the enlargement, improvement and repair of the junior college within the district of which the county is a member. From and after October 1, 1990, the board of trustees of any junior college district may, by a sixty percent (60%) affirmative vote of the members of such board, recommend an additional one (1) mill which may be used for the support or for the enlargement, improvement and repair of the junior college within the district of which the county is a member. If a county is levying more than the minimum levy required herein for one category but less than the minimum levy required for the other, then the excess millage under the one may be applied towards making up the deficiency which exists in the other. If a county contributes to two (2) junior college districts, the combined levy for both districts shall not be less than the minimums required herein.

Any county having any school district located therein with a current operating deficit of Two Hundred Thousand Dollars ($200,000.00) or more on July 1, 1989, shall not be required to levy the minimum millage required under this subsection (1) until such time as the said operating deficit is eliminated, or for a period of three (3) fiscal years, whichever is less. Provided, however, that no such county shall levy a smaller tax millage for capital improvements and general support of a junior college district than was levied for the previous year.

No county shall levy a smaller tax millage for capital improvements and general support of a junior college district than was levied for the previous year, unless requested to make such reduction by the board of trustees of the district. When a county has a general reassessment of property to increase the county ad valorem tax assessments, such county may reduce the millage for general support and capital improvements, provided that its aggregate budget for junior college purposes is not lower than was paid the previous year.

In lieu of taxation, the board of trustees may fix the amount of enrollee tuition in an amount commensurate with the per capita cost of operating the district, which may also include any fees assessed by the board upon each student enrolled under the authority of Section 37-29-231 for the purpose of offsetting the cost of first responder services provided to the main campus of the community college by the local governing authority in accordance with the provisions of the contract entered into under the authority of Section 21-25-23 or the interlocal agreement entered into under the authority of Section 37-29-231.

(2) Taxes for the support, enlargement, improvement and repairs of junior colleges shall be levied annually against all of the property of each county and of each municipal separate school district, including added territory, which has established or may hereafter establish, or which has joined or may hereafter join, in the establishment or support of a junior college. In no case shall such levy exceed three (3) mills for support and three (3) mills for enlargement, improvement and repairs for each junior college within the district of which the county or municipal separate school district may be a component.

(3) The levy for support for any year in any given county or separate school district is that presently prevailing therein unless a change is recommended to the tax levying authorities by the board of trustees or by a vote of the people ascertained in an election called for that purpose by the tax levying authorities subsequent to the petition therefor signed by twenty percent (20%) of the qualified electors.

(4) Notwithstanding any provision of this section to the contrary, the minimum millage required under subsection (1) shall not be levied by the board of supervisors of any county within a junior college district until the board of trustees of the district adopts annually, an order, by a sixty percent (60%) affirmative vote of the members of the board, that such minimum millage shall be levied by each county within the district.

SECTION 4. This act shall take effect and be in force from and after July 1, 2024, and shall stand repealed on June 30, 2024.

Further, amend by striking the title in its entirety and inserting in lieu thereof the following:

AN ACT TO AMEND SECTION 21-25-23, MISSISSIPPI CODE OF 1972, TO AUTHORIZE THE BOARDS OF TRUSTEES OF COMMUNITY AND JUNIOR COLLEGE TO ENTER INTO CONTRACT WITH A MUNICIPALITY FOR THE PROVISION OF FIRE PROTECTION SERVICES; TO AMEND SECTION 37-29-231, MISSISSIPPI CODE OF 1972, TO AUTHORIZE THE BOARDS OF TRUSTEES OF COMMUNITY AND JUNIOR COLLEGE, IN ITS DISCRETION, TO ENTER INTO AN INTERLOCAL AGREEMENT WITH THE COUNTY GOVERNING AUTHORITY WHERE THE COMMUNITY OR

JUNIOR COLLEGE IS LOCATED, TO PROVIDE FIRE PROTECTION AND FIRST RESPONDER SERVICES TO THE MAIN CAMPUS OF THE COMMUNITY OR JUNIOR COLLEGE; TO PROVIDE THE BOARD OF TRUSTEES OF THE COMMUNITY OR JUNIOR COLLEGE THE DISCRETION TO OFFSET THE COST OF THE SERVICES BY ASSESSING A STUDENT FEE EACH SEMESTER; TO AMEND SECTION 37-29-141, MISSISSIPPI CODE OF 1972, IN CONFORMITY THERETO; AND FOR RELATED PURPOSES.

SECTION 1. As used in Sections 1 through 9 of this act, the following words and phrases have the meanings ascribed in this section unless the context clearly requires otherwise:

(a) "Brand family" means all styles of cigarettes sold under the same trademark and differentiated from one another by means of additional modifiers or descriptors, including, but not limited to, "menthol," "lights," "kings" and "100s," and includes any brand name (alone or in conjunction with any other word), trademark, logo, symbol, motto, selling message, recognizable pattern of colors or any other indicia of product identification identical or similar to, or identifiable with, a previously known brand of cigarettes.

(b) "Cigarette" means a product that contains nicotine, is intended to be burned or heated under ordinary conditions of use, and consists of or contains any of the following:

(i) Any roll of tobacco wrapped in paper or in any substance not containing tobacco;

(ii) Tobacco, in any form, that is functional in the product, which, because of its appearance, the type of tobacco used in the filler, or its packaging and labeling, is likely to be offered to, or purchased by, consumers as a cigarette; or

(iii) Any roll of tobacco wrapped in any substance containing tobacco which, because of its appearance, the type of tobacco used in the filler, or its packaging and labeling, is likely to be offered to, or purchased by, consumers as a cigarette.

The term "cigarette" includes roll-your-own tobacco, meaning tobacco which, because of its appearance, type, packaging or labeling, is suitable for use and likely to be offered to, or purchased by, consumers as tobacco for making cigarettes. For purposes of this definition of the term "cigarette," nine one-hundredths (0.09) ounces of roll-your-own tobacco constitute one (1) individual cigarette.

(c) "Cigarette manufacturer" or "manufacturer" means an entity that does any of the following:

(i) Manufactures cigarettes anywhere that the manufacturer intends to be sold in the United States, including cigarettes intended to be sold in the United States through an importer;

(ii) Is the first purchaser anywhere, for resale in the United States, of cigarettes manufactured anywhere that the manufacturer does not intend to be sold in the United States; or

(f) "Directory" means the state cigarette directory created and maintained by the Commissioner of Revenue under Section 3 of this act.

(g) "Distributor" means a person, other than a retailer, who manufactures or produces cigarettes, or who ships, transports or imports cigarettes into this state, or who

in any manner acquires or possesses cigarettes and makes a first sale of the cigarettes in the state.

(h) "Importer" means a person, firm, corporation, association or other business entity who imports cigarettes from any state or foreign country for distribution, sale, use or consumption in the state.

(i) "Retailer" means a person, other than a wholesaler, whose business is that of selling merchandise at retail and who sells, or offers for sale, cigarettes to a consumer in this state.

(j) "Wholesaler" means a person, firm, corporation, association or other business entity who sells cigarettes to retailers in this state for the purpose of resale.

SECTION 2. (1) Before September 1 of each year, beginning in 2024, each cigarette manufacturer whose cigarettes are sold in this state, whether directly or through an importer, wholesaler, distributor, retailer or similar intermediary, shall execute and deliver a certification to the Commissioner of Revenue, on a form and in a manner prescribed by the commissioner, certifying that the manufacturer is in compliance with Sections 1 through 9 of this act. Each certification must include the following information:

(a) A list of the manufacturer's brand families that are sold in Mississippi, which must be updated by executing and delivering to the commissioner a supplemental certification no later than thirty (30) days before any addition to or modification of the list is to take effect;

(b) Verification that the manufacturer possesses all orders required by the United States Food and Drug Administration, which must be current, for the manufacture and sale of the cigarettes included in the manufacturer's brand families;

(c) Verification that the manufacturer is registered to do business in this state or has a resident agent for service of process, as required under Section 6 of this act; and

(d) All other information and materials specifically requested by the commissioner in the course of enforcing this section.

(2) A cigarette manufacturer that is not listed in the directory maintained by the commissioner pursuant to Section 3 of this act must submit an initial certification subject to the same requirements and review process required under this section for annual certifications.

(3) If the certification required under subsection (1) of this section is rejected due to incompleteness or incorrectness, the cigarette manufacturer may not submit supplemental documentation to try to cure the rejection but must execute and deliver an entirely new certification to the commissioner.

(4) Each annual certification form must be accompanied by a fee in such amount as may be prescribed by the Commissioner of Revenue.

(5) A manufacturer required to submit a certification form under this section must notify the commissioner of any material change to the certification form within thirty (30) days of the change. A material change includes, but is not limited to, any order or action by the Food and Drug Administration or any court which affects the ability of the manufacturer's cigarettes to be distributed for commercial distribution or sale in the United States.

(6) A manufacturer that falsely represents any information required by a certification form is guilty of a misdemeanor for each false representation.

SECTION 3. (1) Beginning on October 1, 2024, the commissioner shall maintain and make publicly available on the department's website a state cigarette directory listing all cigarette manufacturers that have provided current and accurate certification forms conforming to the requirements of Section 2 of this act and all brand families that are listed in each manufacturer's certification. The commissioner shall update the directory at least monthly to ensure accuracy. The commissioner shall establish a process to provide retailers, distributors, wholesalers and importers notice of the initial publication of the directory and subsequently, of changes made to the directory in the prior month.

(2) Neither a manufacturer nor its brand family may be included or retained in the directory if the commissioner determines that:

(a) The manufacturer failed to provide a complete and accurate certification as required by subsection (1) of this section;

(b) The manufacturer submitted a certification that does not comply with the requirements of Section 2 of this act;

(c) The manufacturer failed to include with its certification the payment required by subsection (4) of Section 2;

(d) The manufacturer sold cigarettes in Mississippi required to be certified under Sections 1 through 9 of this act during a period when either the manufacturer or the cigarettes were not certified and listed on the directory; or

(e) The information provided by the manufacturer in its certification is determined by the commissioner to contain false information or material misrepresentations or omissions.

(3) The commissioner shall provide a manufacturer notice and an opportunity to cure deficiencies before removing a manufacturer or its brand family of cigarettes from the directory.

(4) The commissioner may not remove a manufacturer or its brand family from the directory before the manufacturer has received notice of the intended removal from the commissioner setting forth the reasons for the action. Notice is sufficient and deemed to be immediately received by a manufacturer if the notice is sent either electronically or by facsimile to an electronic mail address or facsimile number, as the case may be, provided by the manufacturer in its most recent certification filed under Section 2 of this act.

(5) Upon receipt of the notice required under subsection (4) of this section, the manufacturer, no later than fifteen (15) business days from the date of service of the notice, must cure the deficiencies or otherwise establish that the manufacturer or its brand family should be included in the directory.

(6) The commissioner shall update the directory as necessary in order to correct mistakes and to add or remove a manufacturer or brand family to keep the directory in conformity with the requirements of Sections 1 through 9 of this act.

SECTION 4. (1) Except as provided in subsections (2) and (3) of this section, beginning October 1, 2024, or on the date that the commissioner first makes the directory available for public inspection on the department's website, whichever is later, cigarettes not included in the directory may not be sold for retail sale in Mississippi, either directly or through an importer, distributor, wholesaler, retailer or similar intermediary.

(2) (a) Each retailer has sixty (60) days from the date that the commissioner first makes the directory available for inspection on the department's website to either sell

cigarettes in the retailer's inventory which are not included in the directory or remove those cigarettes from inventory.

(b) Upon the expiration of the initial sixty (60) days after the first date the directory is available on the department's website, a retailer has thirty (30) days following the date of removal of a manufacturer or its brand family from the directory to either sell the cigarettes in the retailer's inventory on the date of removal from the directory or remove those cigarettes from inventory.

(3) (a) Each importer, distributor or wholesaler has sixty (60) days from the date that the commissioner first makes the directory available for inspection on the department's website to remove those cigarettes intended for sale in the state from its inventory.

(b) Upon the expiration of the initial sixty (60) days after the first date the directory is available on the department's website, an importer, distributor or wholesaler has thirty (30) days following the date of removal of a manufacturer or its brand family from the directory to remove those cigarettes intended for sale in the state from its inventory.

(4) Cigarettes that must be sold or removed from inventory under subsections (2) and (3) of this section because those cigarettes are not included in, or are removed from, the directory may not be purchased or sold for retail sale in Mississippi, either directly or through an importer, distributor, wholesaler, retailer or similar intermediary, and are subject to seizure, forfeiture and destruction. The cost of the seizure, forfeiture and destruction must be borne by the person from whom the cigarettes are confiscated. The commissioner may store and dispose of the seized cigarettes as appropriate in accordance with applicable federal, state and local laws pertaining to storage and disposal of such products.

(5) Cigarettes in the possession of a consumer who has made a bona fide purchase of the cigarettes subject to being seized under this section may not be seized.

SECTION 5. (1) In addition to the seizure and destruction of cigarettes being made available for sale in violation of Section 4 of this act, the following penalties apply:

(a) A retailer, distributor, wholesaler or importer who sells or offers for sale cigarettes in Mississippi which are not included in the directory is subject to a civil penalty in an amount not more than Five Hundred Dollars ($500.00) per day for each style of cigarette in a brand family which is offered for sale in violation of Sections 1 through 9 of this act until the offending product is removed from the market or properly listed on the directory.

(b) For a second violation, whether involving the same or a different style of cigarettes in a brand family, by the same retailer, distributor, wholesaler or importer occurring within a period of twelve (12) months, the civil penalty must be an amount not less than Seven Hundred Fifty Dollars ($750.00) nor more than One Thousand Dollars ($1,000.00) per day for each style of cigarette in a brand family which is offered for sale in violation of Sections 1 through 9 of this act until the offending product is removed from the market or properly listed on the directory.

(c) For a third violation, whether involving the same or a different style of cigarettes in a brand family, by the same retailer, distributor, wholesaler or importer occurring within a period of twelve (12) months after the initial violation, the civil penalty must be an amount not less than One Thousand Dollars ($1,000.00) nor more than One Thousand Five Hundred Dollars ($1,500.00) per day for each style of cigarette in a brand family which is offered for sale in violation of Sections 1 through 9 of this act until the offending product is removed from the market or properly listed on the directory.

(2) A manufacturer whose cigarettes are not listed in the directory and who causes the products that are not listed to be sold for retail sale in Mississippi, whether directly or through an importer, distributor, wholesaler, retailer or similar intermediary, is subject to a civil penalty of Ten Thousand Dollars ($10,000.00) per day for each style of cigarette in a brand family which is offered for sale in violation of Sections 1 through 9 of this act until the offending product is removed from the market or properly listed on the directory.

(3) In an action to enforce Sections 1 through 9 of this act, the state is entitled to recover costs, including the costs of investigation, expert witness fees and reasonable attorney fees.

SECTION 6. (1) As a condition precedent to having its name or its cigarettes listed and retained in the directory maintained by the commissioner pursuant to Section 3 of this act, a manufacturer not registered to do business in the state must appoint and continually engage, without interruption, a registered agent in Mississippi for service of process on whom all process and any action or proceeding arising out of the enforcement of Sections 1 through 9 of this act may be served. The manufacturer shall provide to the commissioner the name, address and telephone number of its agent for service of process and any other information relating to its agent which may be requested by the commissioner.

(2) As a condition precedent to having its name or its cigarettes listed and retained in the directory maintained by the commissioner pursuant to Section 3 of this act, a manufacturer located outside of the United States shall cause each of its importers of any of its cigarettes to be sold in Mississippi to appoint and continually engage, without interruption, the services of an agent in the state in accordance with this section. All obligations of a manufacturer imposed by this section with respect to appointment of its agent also apply to importers with respect to appointment of their agents.

(3) A manufacturer shall provide written notice to the commissioner no later than thirty (30) calendar days before the termination of the authority of an agent appointed pursuant to subsection (1) or (2) of this section. No less than five (5) calendar days before the termination of an existing agent appointment, a manufacturer shall provide to the commissioner the name, address and telephone number of its newly appointed agent for service of process and any other information relating to the new appointment which may be requested by the commissioner. If an agent terminates an agency appointment, the manufacturer must notify the commissioner of the termination within five (5) calendar days and include proof to the satisfaction of the commissioner of the appointment of a new agent.

SECTION 7. Each retailer, distributor and wholesaler that sells or distributes cigarettes in this state is subject to no less than two (2) unannounced compliance checks annually by the department for purposes of enforcing Sections 1 through 9 of this act. Unannounced follow-up compliance checks of all noncompliant retailers, distributors and wholesalers must be conducted no later than thirty (30) days after a violation of Sections 1 through 9 of this act. The department shall publish the results of all compliance checks at least annually and make the results available to the public on request.

The seizure, forfeiture and sale of contraband goods under this section and Section 27-69-55 is supplemental and in addition to the seizure, forfeiture and sale of contraband tobacco provided for in Section 27-69-56. Where a basis exists under both this section and Section 27-69-55 and under Section 27-69-56 for the seizure, forfeiture and sale of the same contraband goods, such actions can proceed simultaneously. Where such simultaneous seizure, forfeiture and sale is undertaken and there is a conflict between the procedures contained in this section and Section 27-69-55 and those contained in Section 27-69-56, the procedures contained in Section 27-69-56 shall control and be followed.

SECTION 11. Section 27-69-55, Mississippi Code of 1972, is brought forward as follows:

27-69-55. In all cases of seizures of any tobacco, or other property hereafter made as being subject to forfeiture under the provisions of this chapter, which in the opinion of the officer or person making the seizure, is of the appraised value of Twenty-five Dollars ($25.00) or more, the said officer or person shall proceed as follows:

First: He shall cause a list containing a particular description of the tobacco or other property seized to be prepared in duplicate, and an appraisement thereof to be made by three (3) sworn appraisers to be selected by him, who shall be respectable and disinterested citizens of this state, residing within the county wherein the seizure was made. Said list and appraisement shall be properly attested by said officer, or person, and the said appraisers, for which service each of said appraisers shall be allowed the sum of One Dollar ($1.00) per day for not exceeding two (2) days, to be paid as other costs.

Second: If the said tobacco, or other property seized, is believed by the officer making the seizure to be of less value than Twenty-five Dollars ($25.00), no appraisement shall be made.

Third: The officer or person making the seizure shall proceed to give notice thereof for five (5) days, in writing, at three (3) places in the county where the seizure is made. One (1) of the notices shall be posted at the county courthouse; another at the place where the goods were seized; and the other at some public place. The notice shall describe the property seized, and state the time and place and cause of seizure, and give the name and place of residence, if known, of the person from whom the property was seized, and shall require any person claiming it to appear and make such claims in writing, within five (5) days from the date of the first posting of such notice. Such officer or person making the seizure shall also deliver to the person from whom the property was seized, and also to the owner, if known, a copy of said notice.

Fourth: Any person claiming the said property so seized as contraband within the time specified in the notice, may file with the commissioner a claim, in writing, stating his interest in the property seized, and may execute a bond to the State of Mississippi in a penal sum equal to double the value of said property so seized, but in no case shall said bond be less than the sum of One Hundred Dollars ($100.00), with securities to be approved by the clerk of the circuit court in the county in which the property is seized, conditioned that in the case of condemnation of the property so seized, the obligor shall pay to the State of Mississippi the full value of the property so seized, and all costs and expenses of the proceedings to obtain such condemnation, including a reasonable attorney's fee. And upon the delivery of such bond to the commissioner, he shall transmit the same with the duplicate list or description of the property seized to the county attorney of the county, or the district attorney of the district in which such seizure was made, and the said county attorney, or district attorney, as the case may be, shall prosecute the case to secure the forfeiture of said property in the court having jurisdiction. Upon the filing of the bond aforesaid, the said property shall be delivered to the claimant pending the outcome of the case, provided he shall at once affix the required stamps on cigarettes or pay the tax due on other tobacco products.

Fifth: If no claim is interposed, and no bond given within the time above specified, such property shall be forfeited without further proceedings, and the same shall be sold as herein provided, and the proceeds of the sale, when received by the commissioner, shall be paid into the State Treasury as are other funds collected, provided, that in seizures of property of less value than Twenty-five Dollars ($25.00), the same may be advertised with other quantities at Jackson by the commissioner and disposed of as hereinabove provided.

Sixth: In proceedings to secure a confiscation of the property hereinbefore mentioned, where the value of the goods seized at one time does not exceed the amount provided in Section 9-11-9, the justice court judge of the county where the property is seized shall have jurisdiction to try the cause. Where the value of the property seized at one time is in excess of the amount provided in Section 9-11-9, then the circuit court of the county where the property is seized shall have jurisdiction to try the cause; provided, that in counties having a county court, the county court shall have jurisdiction concurrent with the circuit court, and with the justice court where the value of the property seized does not exceed One Thousand Dollars ($1,000.00).

The proceedings against property seized according to the provisions of this chapter shall be considered a proceeding in rem unless otherwise herein provided.

Within ten (10) days after filing the bond provided for in paragraph fourth hereof, the claimant shall file a petition in the court having jurisdiction of said cause, which shall stand for a declaration, and the commissioner, or other party authorized to prosecute the confiscation of said property, shall plead to it as if it were an ordinary action at law, and the same rules of pleading and proceeding applicable to actions in the circuit court shall be observed in this action, and all issues made by the pleadings shall be tried and disposed of as other actions in the circuit court, and the judgment of the circuit court shall be framed to meet the circumstances of the case and the cost shall be adjudged as in other actions; provided, however, neither the state, nor the commissioner, nor any other

person representing the state, shall be liable for the cost in the event the court shall not confiscate the property in controversy.

The seizure, forfeiture and sale of contraband goods under this section and Section 27-69-53 is supplemental and in addition to the seizure, forfeiture and sale of contraband tobacco provided for in Section 27-69-56. Where a basis exists under both this section and Section 27-69-53 and under Section 27-69-56 for the seizure, forfeiture and sale of the same contraband goods, such actions can proceed simultaneously. Where such simultaneous seizure, forfeiture and sale is undertaken and there is a conflict between the procedures contained in this section and Section 27-69-53 and those contained in Section 27-69-56, the procedures contained in Section 27-69-56 shall control and be followed.

SECTION 12. Section 27-69-59, Mississippi Code of 1972, is brought forward as follows:

27-69-59. Such writ shall be returnable instanter, or on a day to be stated, and a copy shall be served on the owner or person in possession, if such person be present or readily found.

If upon hearing, or the return of such search warrant, it shall appear that any tobacco unlawfully possessed were seized, the same shall be declared forfeited to this state, and shall be sold as provided in Section 27-69-55 of this chapter.

(1) There is a presumption that a registered qualifying patient is engaged in the medical use of medical cannabis under this chapter if the person is in possession of a registry identification card and an amount of medical cannabis that does not exceed the allowable amount of medical cannabis. There is a presumption that a registered designated caregiver is assisting in the medical use of medical cannabis under this chapter if the person is in possession of a registry identification card and an amount of medical cannabis that does not exceed the allowable amount of medical cannabis. These presumptions may be rebutted by evidence that conduct related to medical cannabis was not for the purpose of treating or alleviating a registered qualifying patient's debilitating medical condition or symptoms associated with the registered qualifying patient's debilitating medical condition under this chapter.

This chapter shall not prevent the seizure or forfeiture of medical cannabis exceeding the allowable amounts of medical cannabis, nor shall it prevent seizure or forfeiture if the basis for the action is unrelated to the medical cannabis that is possessed, processed, transferred or used pursuant to this chapter. This section shall not be construed to prevent the seizure of intoxicating hemp products by the proper agency under this act.

(4) Possession of, or application for, a registry identification card shall not:

(a) Constitute probable cause or reasonable suspicion;

The authority may establish by regulation and charge reasonable fees on a nondiscriminatory basis for the furnishing to bidders of copies of bid specifications and other documents issued by the authority.

(e) The authority shall adopt rules and regulations governing the sharing with, or the sale or lease of information technology services to any nonstate agency or person. Such regulations shall provide that any such sharing, sale or lease shall be restricted in that same shall be accomplished only where such services are not readily available otherwise within the state, and then only at a charge to the user not less than the prevailing rate of charge for similar services by private enterprise within this state.

Such rules and regulations shall prescribe the manner, time and procedure for making protests and may provide that a protest not timely filed shall be summarily denied. The authority may require the protesting party, at the time of filing the protest, to post a bond, payable to the state, in an amount that the authority determines sufficient to cover any expense or loss incurred by the state, the authority or any state agency as a result of the protest if the protest subsequently is determined by a court of competent jurisdiction to have been filed without any substantial basis or reasonable expectation to believe that the protest was meritorious; however, in no event may the amount of the bond required exceed a reasonable estimate of the total project cost. The authority, in its discretion, also may prohibit any prospective bidder, offerer or contractor who is a party to any litigation involving any such contract with the state, the

authority or any agency of the state to participate in any other such bid, offer or contract, or to be awarded any such contract, during the pendency of the litigation.

(o) The authority shall make a report in writing to the Legislature each year in the month of January. Such report shall contain a full and detailed account of the work of the authority for the preceding year as specified in Section 25-53-29(3).

(s) All fees collected by the Mississippi Department of Information Technology Services shall be deposited into the Mississippi Department of Information Technology Services Revolving Fund unless otherwise specified by the Legislature.

(t) The authority shall work closely with the council to bring about effective coordination of policies, standards and procedures relating to procurement of remote sensing and geographic information systems (GIS) resources. In addition, the authority is responsible for development, operation and maintenance of a delivery system infrastructure for geographic information systems data. (x) The authority shall provide a periodic update regarding reform-based information technology initiatives to the Chairmen of the House and Senate Accountability, Efficiency and Transparency Committees.

From and after July 1, 2018, the expenses of this agency shall be defrayed by appropriation from the State General Fund. These funds shall only be utilized to pay the actual costs incurred by the Mississippi Department of Information Technology Services for providing these shared services to state agencies. Furthermore, state agencies shall work in full cooperation with the Board of the Mississippi Department of Information Technology Services to identify computer equipment or services to minimize

(c) When appointing members to the Public Procurement Review Board, the Governor and Lieutenant Governor shall take into consideration persons who possess at least five (5) years of management experience in general business, health care or finance for an organization, corporation or other public or private entity. Any person, or any employee or owner of a company, who receives any grants, procurements or contracts that are subject to approval under this section shall not be appointed to the Public Procurement Review Board. Any person, or any employee or owner of a company, who is a principal of the source providing a personal or professional service shall not be appointed to the Public Procurement Review Board if the principal owns or controls a greater than five percent (5%) interest or has an ownership value of One Million Dollars ($1,000,000.00) in the source's business, whichever is smaller. No business shall be transacted, including adoption of rules of procedure, without the presence of a quorum of the board. Three (3) members shall be a quorum. No action shall be valid unless approved by a majority of the members present and voting, entered upon the minutes of the board and signed by the chair. Necessary clerical and administrative support for the board shall be provided by the Department of Finance and Administration. Minutes shall be kept of the proceedings of each meeting, copies of which shall be filed on a monthly basis with the chairs of the Accountability, Efficiency and Transparency Committees of the Senate and House of Representatives and the chairs of the Appropriations Committees of the Senate and House of Representatives.

(2) The Public Procurement Review Board shall have the following powers and responsibilities:

(a) Approve all purchasing regulations governing the purchase or lease by any agency, as defined in Section 31-7-1, of commodities and equipment, except computer equipment acquired pursuant to Sections 25-53-1 through 25-53-29;

(b) Adopt regulations governing the approval of contracts let for the construction and maintenance of state buildings and other state facilities as well as related contracts for architectural and engineering services.

(d) Adopt, in its discretion, regulations to set aside at least five percent (5%) of anticipated annual expenditures for the purchase of commodities from minority businesses; however, all such set-aside purchases shall comply with all purchasing regulations promulgated by the department and shall be subject to all bid requirements. Set-aside purchases for which competitive bids are required shall be made from the lowest and best minority business bidder; however, if no minority bid is available or if the minority bid is more than two percent (2%) higher than the lowest bid, then bids shall be accepted and awarded to the lowest and best bidder. However, the provisions in this paragraph shall not be construed to prohibit the rejection of a bid when only one (1) bid is received. Such rejection shall be placed in the minutes. For the purposes of this paragraph, the term "minority business" means a business which is owned by a person who is a citizen or lawful permanent resident of the United States and who is:

Any such rules and regulations shall provide for maintaining continuous internal audit covering the activities of such agency affecting its revenue and expenditures as required under Section 7-7-3(6)(d). Any rules and regulation changes related to personal and professional services contracts that the Public Procurement Review Board may propose shall be submitted to the Chairs of the Accountability, Efficiency and Transparency Committees of the Senate and House of Representatives and the Chairs of the Appropriation Committees of the Senate and House of Representatives at least fifteen (15) days before the board votes on the proposed changes, and those rules and regulation changes, if adopted, shall be promulgated in accordance with the Mississippi Administrative Procedures Act.

(ii) From and after July 1, 2024, the Public Procurement Review Board shall promulgate rules and regulations that require the Department of Finance and Administration to conduct personal and professional services solicitations as provided in subparagraph (i) of this paragraph for those services in excess of Seventy-five Thousand Dollars ($75,000.00) for the Department of Marine Resources, the Department of Wildlife, Fisheries and Parks, the Mississippi Emergency Management Agency and the Mississippi Development Authority, with assistance to be provided from these entities. Any powers that have been conferred upon agencies in order to comply with the provisions of this section for personal and professional services solicitations shall be conferred upon the Department of Finance and Administration to conduct personal and professional services solicitations for the Department of Marine Resources, the Department of Wildlife, Fisheries and Parks, the Mississippi Emergency Management Agency and the Mississippi Development Authority for those services in excess of Seventy-five Thousand Dollars ($75,000.00). The Department of Finance and Administration shall make any submissions that are required to be made by other agencies to the Public Procurement Review Board for the Department of Marine Resources, the Department of Wildlife, Fisheries and Parks, the Mississippi Emergency Management Agency and the Mississippi Development Authority.

The provisions of this subparagraph (ii) shall stand repealed on June 30, 2027;

(g) Approve all personal and professional services contracts involving the expenditures of funds in excess of Seventy-five Thousand Dollars ($75,000.00), except as provided in paragraph (f) of this subsection (2) and in subsection (8);

(h) Develop mandatory standards with respect to contractual services personnel that require invitations for public bid, requests for proposals, record keeping and financial responsibility of contractors. The Public Procurement Review Board shall, unless exempted under this paragraph (h) or under paragraph (i) or (o) of this subsection

(2), require the agency involved to submit the procurement to a competitive procurement process, and may reserve the right to reject any or all resulting procurements;

(i) Prescribe certain circumstances by which agency heads may enter into contracts for personal and professional services without receiving prior approval from the Public Procurement Review Board. The Public Procurement Review Board may establish a preapproved list of providers of various personal and professional services for set prices with which state agencies may contract without bidding or prior approval from the board;

(i) Agency requirements may be fulfilled by procuring services performed incident to the state's own programs. The agency head shall determine in writing whether the price represents a fair market value for the services. When the procurements are made from other governmental entities, the private sector need not be solicited; however, these contracts shall still be submitted for approval to the Public Procurement Review Board.

(ii) Contracts between two (2) state agencies, both under Public Procurement Review Board purview, shall not require Public Procurement Review Board approval. However, the contracts shall still be entered into the enterprise resource planning system;

(j) Provide standards for the issuance of requests for proposals, the evaluation of proposals received, consideration of costs and quality of services proposed, contract negotiations, the administrative monitoring of contract performance by the agency and successful steps in terminating a contract;

(l) Authorize personal and professional service contracts to be effective for more than one (1) year provided a funding condition is included in any such multiple year contract, except the State Board of Education, which shall have the authority to enter into contractual agreements for student assessment for a period up to ten (10) years. The State Board of Education shall procure these services in accordance with the Public Procurement Review Board procurement regulations;

(m) Request the State Auditor to conduct a performance audit on any personal or professional service contract;

(n) Prepare an annual report to the Legislature concerning the issuance of personal and professional services contracts during the previous year, collecting any necessary information from state agencies in making such report;

(o) Develop and implement the following standards and procedures for the approval of any sole source contract for personal and professional services regardless of the value of the procurement:

(i) For the purposes of this paragraph (o), the term "sole source" means only one (1) source is available that can provide the required personal or professional service.

(ii) An agency that has been issued a binding, valid court order mandating that a particular source or provider must be used for the required service must include a copy of the applicable court order in all future sole source contract reviews for the particular personal or professional service referenced in the court order.

(iii) Any agency alleging to have a sole source for any personal or professional service, other than those exempted under paragraph (f) of this subsection (2) and subsection (8), shall publish on the procurement portal website established by

Sections 25-53-151 and 27-104-165, for at least fourteen (14) days, the terms of the proposed contract for those services. In addition, the publication shall include, but is not limited to, the following information:

1. The personal or professional service offered in the contract;

2. An explanation of why the personal or professional service is the only one that can meet the needs of the agency;

3. An explanation of why the source is the only person or entity that can provide the required personal or professional service;

4. An explanation of why the amount to be expended for the personal or professional service is reasonable; and

5. The efforts that the agency went through to obtain the best possible price for the personal or professional service.

(iv) If any person or entity objects and proposes that the personal or professional service published under subparagraph (iii) of this paragraph (o) is not a sole source service and can be provided by another person or entity, then the objecting person or entity shall notify the Public Procurement Review Board and the agency that published the proposed sole source contract with a detailed explanation of why the personal or professional service is not a sole source service.

(v) 1. If the agency determines after review that the personal or professional service in the proposed sole source contract can be provided by another person or entity, then the agency must withdraw the sole source contract publication from the procurement portal website and submit the procurement of the personal or professional service to an advertised competitive bid or selection process.

2. If the agency determines after review that there is only one (1) source for the required personal or professional service, then the agency may appeal to the Public Procurement Review Board. The agency has the burden of proving that the personal or professional service is only provided by one (1) source.

3. If the Public Procurement Review Board has any reasonable doubt as to whether the personal or professional service can only be provided by one (1) source, then the agency must submit the procurement of the personal or professional service to an advertised competitive bid or selection process. No action taken by the Public Procurement Review Board in this appeal process shall be valid unless approved by a majority of the members of the Public Procurement Review Board present and voting.

(vi) The Public Procurement Review Board shall prepare and submit a quarterly report to the House of Representatives and Senate Accountability, Efficiency and Transparency Committees that details the sole source contracts presented to the Public Procurement Review Board and the reasons that the Public Procurement Review Board approved or rejected each contract. These quarterly reports shall also include the documentation and memoranda required in subsection (4) of this section. An agency that submitted a sole source contract shall be prepared to explain the sole source contract to each committee by December 15 of each year upon request by the committee;

(p) Assess any fines and administrative penalties provided for in Sections 31-7-401 through 31-7-423.

(3) All submissions shall be made sufficiently in advance of each monthly meeting of the Public Procurement Review Board as prescribed by the Public Procurement Review Board. If the Public Procurement Review Board rejects any contract submitted for review

or approval, the Public Procurement Review Board shall clearly set out the reasons for its action, including, but not limited to, the policy that the agency has violated in its submitted contract and any corrective actions that the agency may take to amend the contract to comply with the rules and regulations of the Public Procurement Review Board.

(4) All sole source contracts for personal and professional services awarded by state agencies, other than those exempted under Section 27-104-7(2)(f) and (8), whether approved by an agency head or the Public Procurement Review Board, shall contain in the procurement file a written determination for the approval, using a request form furnished by the Public Procurement Review Board. The written determination shall document the basis for the determination, including any market analysis conducted in order to ensure that the service required was practicably available from only one (1) source. A memorandum shall accompany the request form and address the following four (4) points:

(a) Explanation of why this service is the only service that can meet the needs of the purchasing agency;

(b) Explanation of why this vendor is the only practicably available source from which to obtain this service;

(c) Explanation of why the price is considered reasonable; and

(d) Description of the efforts that were made to conduct a noncompetitive negotiation to get the best possible price for the taxpayers.

(5) In conjunction with the State Personnel Board, the Public Procurement Review Board shall develop and promulgate rules and regulations to define the allowable legal relationship between contract employees and the contracting departments, agencies and institutions of state government under the jurisdiction of the State Personnel Board, in compliance with the applicable rules and regulations of the federal Internal Revenue Service (IRS) for federal employment tax purposes. Under these regulations, the usual common law rules are applicable to determine and require that such worker is an independent contractor and not an employee, requiring evidence of lawful behavioral control, lawful financial control and lawful relationship of the parties. Any state department, agency or institution shall only be authorized to contract for personnel services in compliance with those regulations.

(6) No member of the Public Procurement Review Board shall use his or her official authority or influence to coerce, by threat of discharge from employment, or otherwise, the purchase of commodities, the contracting for personal or professional services, or the contracting for public construction under this chapter.

(7) Notwithstanding any other laws or rules to the contrary, the provisions of subsection (2) of this section shall not be applicable to the Mississippi State Port Authority at Gulfport.

(8) Nothing in this section shall impair or limit the authority of the Board of Trustees of the Public Employees' Retirement System to enter into any personal or professional services contracts directly related to their constitutional obligation to manage the trust funds, including, but not limited to, actuarial, custodial banks, cash management, investment consultant and investment management contracts. Nothing in this section shall impair or limit the authority of the State Treasurer to enter into any personal or professional services contracts involving the management of trust funds, including, but not limited to, actuarial, custodial banks, cash management, investment consultant and investment management contracts.

(9) Through December 31, 2024, the provisions of this section related to rental agreements or leasing of real property for the purpose of conducting agency business shall not apply to the Office of Workforce Development created in Section 37-153-7.

SECTION 30. Section 31-7-13, Mississippi Code of 1972, is amended as follows:

31-7-13. All agencies and governing authorities shall purchase their commodities and printing; contract for garbage collection or disposal; contract for solid waste collection or disposal; contract for sewage collection or disposal; contract for public construction; and contract for rentals as herein provided.

(a) Bidding procedure for purchases not over $5,000.00. Purchases which do not involve an expenditure of more than Five Thousand Dollars ($5,000.00), exclusive of freight or shipping charges, may be made without advertising or otherwise requesting competitive bids. However, nothing contained in this paragraph (a) shall be construed to prohibit any agency or governing authority from establishing procedures which require competitive bids on purchases of Five Thousand Dollars ($5,000.00) or less.

(b) Bidding procedure for purchases over $5,000.00 but not over $75,000.00. Purchases which involve an expenditure of more than Five Thousand Dollars ($5,000.00) but not more than Seventy-five Thousand Dollars ($75,000.00), exclusive of freight and shipping charges, may be made from the lowest and best bidder without publishing or posting advertisement for bids, provided at least two (2) competitive written bids have been obtained. Any state agency or community or junior college purchasing commodities or procuring construction pursuant to this paragraph (b) may authorize its purchasing agent, or his designee, to accept the lowest competitive written bid under Seventy-five Thousand Dollars ($75,000.00). Any governing authority purchasing commodities pursuant to this paragraph (b) may authorize its purchasing agent, or his designee, with regard to governing authorities other than counties, or its purchase clerk, or his designee, with regard to counties, to accept the lowest and best competitive written bid. Such authorization shall be made in writing by the governing authority and shall be maintained on file in the primary office of the agency and recorded in the official minutes of the governing authority, as appropriate. The purchasing agent or the purchase clerk, or his designee, as the case may be, and not the governing authority, shall be liable for any penalties and/or damages as may be imposed by law for any act or omission of the purchasing agent or purchase clerk, or his designee, constituting a violation of law in accepting any bid without approval by the governing authority. The term "competitive written bid" shall mean a bid submitted on a bid form furnished by the buying agency or governing authority and signed by authorized personnel representing the vendor, or a bid submitted on a vendor's letterhead or identifiable bid form and signed by authorized personnel representing the vendor. "Competitive" shall mean that the bids are developed based upon comparable identification of the needs and are developed independently and without knowledge of other bids or prospective bids. Any bid item for construction in excess of Five Thousand Dollars ($5,000.00) shall be broken down by components to provide detail of component description and pricing. These details shall be submitted with the written bids and become part of the bid evaluation criteria. Bids may be submitted by facsimile, electronic mail or other generally accepted method of information distribution. Bids submitted by electronic transmission shall not require the signature of the vendor's representative unless required by agencies or governing authorities.

(c) Bidding procedure for purchases over $75,000.00.

(i) Publication requirement.

1. Purchases which involve an expenditure of more than Seventy-five Thousand Dollars ($75,000.00), exclusive of freight and shipping charges, may be made from the lowest and best bidder after advertising for competitive bids once each week for two (2) consecutive weeks in a regular newspaper published in the county or municipality in which such agency or governing authority is located. However, all

American Recovery and Reinvestment Act projects in excess of Twenty-five Thousand Dollars ($25,000.00) shall be bid. All references to American Recovery and Reinvestment Act projects in this section shall not apply to programs identified in Division B of the American Recovery and Reinvestment Act.

2. Reverse auctions shall be the primary method for receiving bids during the bidding process. If a purchasing entity determines that a reverse auction is not in the best interest of the state, then that determination must be approved by the Public Procurement Review Board. The purchasing entity shall submit a detailed explanation of why a reverse auction would not be in the best interest of the state and present an alternative process to be approved by the Public Procurement Review Board. If the Public Procurement Review Board authorizes the purchasing entity to solicit bids with a method other than reverse auction, then the purchasing entity may designate the other methods by which the bids will be received, including, but not limited to, bids sealed in an envelope, bids received electronically in a secure system, or bids received by any other method that promotes open competition and has been approved by the Office of Purchasing and Travel. However, reverse auction shall not be used for any public contract for design, construction, improvement, repair or remodeling of any public facilities, including the purchase of materials, supplies, equipment or goods for same and including buildings, roads and bridges. The Public Procurement Review Board must approve any contract entered into by alternative process. The provisions of this item 2 shall not apply to the individual state institutions of higher learning. The provisions of this item 2 requiring reverse auction as the primary method of receiving bids shall not apply to term contract purchases as provided in paragraph (n) of this section; however, a purchasing entity may, in its discretion, utilize reverse auction for such purchases. The provisions of this item 2 shall not apply to individual public schools, including public charter schools and public school districts, only when purchasing copyrighted educational supplemental materials and software as a service product. For such purchases, a local school board may authorize a purchasing entity in its jurisdiction to use a Request for Qualifications which promotes open competition and meets the requirements of the Office of Purchasing and Travel.

3. The date as published for the bid opening shall not be less than seven (7) working days after the last published notice; however, if the purchase involves a construction project in which the estimated cost is in excess of Seventy-five Thousand Dollars ($75,000.00), such bids shall not be opened in less than fifteen (15) working days after the last notice is published and the notice for the purchase of such construction shall be published once each week for two (2) consecutive weeks. However, all American Recovery and Reinvestment Act projects in excess of Twenty-five Thousand Dollars ($25,000.00) shall be bid. For any projects in excess of Twenty-five Thousand Dollars ($25,000.00) under the American Recovery and Reinvestment Act, publication shall be made one (1) time and the bid opening for construction projects shall not be less than ten (10) working days after the date of the published notice. The notice of intention to let contracts or purchase equipment shall state the time and place at which bids shall be received, list the contracts to be made or types of equipment or supplies to be purchased, and, if all plans and/or specifications are not published, refer to the plans and/or specifications on file. If there is no newspaper published in the county or municipality, then such notice shall be given by posting same at the courthouse, or for municipalities at the city hall, and at two (2) other public places in the county or municipality, and also by publication once each week for two (2) consecutive weeks in some newspaper having a general circulation in the county or municipality in the above-provided manner. On the same date that the notice is submitted to the newspaper for publication, the agency or governing authority involved shall mail written notice to, or provide electronic notification to the main office of the Mississippi Procurement Technical Assistance Program under the Mississippi Development Authority that contains the same information as that in the published notice. Submissions received by the Mississippi Procurement Technical Assistance Program for projects funded by the American Recovery and Reinvestment Act shall be displayed on a separate and unique Internet web page accessible to the public and maintained by the Mississippi Development Authority

for the Mississippi Procurement Technical Assistance Program. Those American Recovery and Reinvestment Act related submissions shall be publicly posted within twenty-four (24) hours of receipt by the Mississippi Development Authority and the bid opening shall not occur until the submission has been posted for ten (10) consecutive days. The Department of Finance and Administration shall maintain information regarding contracts and other expenditures from the American Recovery and Reinvestment Act, on a unique Internet web page accessible to the public. The Department of Finance and Administration shall promulgate rules regarding format, content and deadlines, unless otherwise specified by law, of the posting of award notices, contract execution and subsequent amendments, links to the contract documents, expenditures against the awarded contracts and general expenditures of funds from the American Recovery and Reinvestment Act. Within one (1) working day of the contract award, the agency or governing authority shall post to the designated web page maintained by the Department of Finance and Administration, notice of the award, including the award recipient, the contract amount, and a brief summary of the contract in accordance with rules promulgated by the department. Within one (1) working day of the contract execution, the agency or governing authority shall post to the designated web page maintained by the Department of Finance and Administration a summary of the executed contract and make a copy of the appropriately redacted contract documents available for linking to the designated web page in accordance with the rules promulgated by the department. The information provided by the agency or governing authority shall be posted to the web page for the duration of the American Recovery and Reinvestment Act funding or until the project is completed, whichever is longer.

(ii) Bidding process amendment procedure. If all plans and/or specifications are published in the notification, then the plans and/or specifications may not be amended. If all plans and/or specifications are not published in the notification, then amendments to the plans/specifications, bid opening date, bid opening time and place may be made, provided that the agency or governing authority maintains a list of all prospective bidders who are known to have received a copy of the bid documents and all such prospective bidders are sent copies of all amendments. This notification of amendments may be made via mail, facsimile, electronic mail or other generally accepted method of information distribution. No addendum to bid specifications may be issued within two (2) working days of the time established for the receipt of bids unless such addendum also amends the bid opening to a date not less than five (5) working days after the date of the addendum.

(iii) Filing requirement. In all cases involving governing authorities, before the notice shall be published or posted, the plans or specifications for the construction or equipment being sought shall be filed with the clerk of the board of the governing authority. In addition to these requirements, a bid file shall be established which shall indicate those vendors to whom such solicitations and specifications were issued, and such file shall also contain such information as is pertinent to the bid.

(iv) Specification restrictions.

1. Specifications pertinent to such bidding shall be written so as not to exclude comparable equipment of domestic manufacture. However, if valid justification is presented, the Department of Finance and Administration or the board of a governing authority may approve a request for specific equipment necessary to perform a specific job. Further, such justification, when placed on the minutes of the board of a governing authority, may serve as authority for that governing authority to write specifications to require a specific item of equipment needed to perform a specific job. In addition to these requirements, from and after July 1, 1990, vendors of relocatable classrooms and the specifications for the purchase of such relocatable classrooms published by local school boards shall meet all pertinent regulations of the State Board of Education, including prior approval of such bid by the State Department of Education.

2. Specifications for construction projects may include an allowance for commodities, equipment, furniture, construction materials or systems in which prospective bidders are instructed to include in their bids specified amounts for such items so long as the allowance items are acquired by the vendor in a commercially reasonable manner and approved by the agency/governing authority. Such acquisitions shall not be made to circumvent the public purchasing laws.

(v) Electronic bids. Agencies and governing authorities shall provide a secure electronic interactive system for the submittal of bids requiring competitive bidding that shall be an additional bidding option for those bidders who choose to submit their bids electronically. The Department of Finance and Administration shall provide, by regulation, the standards that agencies must follow when receiving electronic bids. Agencies and governing authorities shall make the appropriate provisions necessary to accept electronic bids from those bidders who choose to submit their bids electronically for all purchases requiring competitive bidding under this section. Any special condition or requirement for the electronic bid submission shall be specified in the advertisement for bids required by this section. Agencies or governing authorities that are currently without available high speed Internet access shall be exempt from the requirement of this subparagraph (v) until such time that high speed Internet access becomes available. Any county having a population of less than twenty thousand (20,000) shall be exempt from the provisions of this subparagraph (v). Any municipality having a population of less than ten thousand (10,000) shall be exempt from the provisions of this subparagraph (v). The provisions of this subparagraph (v) shall not require any bidder to submit bids electronically. When construction bids are submitted electronically, the requirement for including a certificate of responsibility, or a statement that the bid enclosed does not exceed Fifty Thousand Dollars ($50,000.00), on the exterior of the bid envelope as indicated in Section 31-3-21(1) and (2) shall be deemed in compliance with by including same as an attachment with the electronic bid submittal.

(d) Lowest and best bid decision procedure.

(i) Decision procedure. Purchases may be made from the lowest and best bidder. In determining the lowest and best bid, freight and shipping charges shall be included. Life-cycle costing, total cost bids, warranties, guaranteed buy-back provisions and other relevant provisions may be included in the best bid calculation. All best bid procedures for state agencies must be in compliance with regulations established by the Department of Finance and Administration. If any governing authority accepts a bid other than the lowest bid actually submitted, it shall place on its minutes detailed calculations and narrative summary showing that the accepted bid was determined to be the lowest and best bid, including the dollar amount of the accepted bid and the dollar amount of the lowest bid. No agency or governing authority shall accept a bid based on items not included in the specifications.

(ii) Decision procedure for Certified Purchasing Offices. In addition to the decision procedure set forth in subparagraph (i) of this paragraph (d), Certified Purchasing Offices may also use the following procedure: Purchases may be made from the bidder offering the best value. In determining the best value bid, freight and shipping charges shall be included. Life-cycle costing, total cost bids, warranties, guaranteed buy-back provisions, documented previous experience, training costs and other relevant provisions, including, but not limited to, a bidder having a local office and inventory located within the jurisdiction of the governing authority, may be included in the best value calculation. This provision shall authorize Certified Purchasing Offices to utilize a Request For Proposals (RFP) process when purchasing commodities. All best value procedures for state agencies must be in compliance with regulations established by the Department of Finance and Administration. No agency or governing authority shall accept a bid based on items or criteria not included in the specifications.

(iii) Decision procedure for Mississippi Landmarks. In addition to the decision procedure set forth in subparagraph (i) of this paragraph (d), where purchase

involves renovation, restoration, or both, of the State Capitol Building or any other historical building designated for at least five (5) years as a Mississippi Landmark by the Board of Trustees of the Department of Archives and History under the authority of Sections 39-7-7 and 39-7-11, the agency or governing authority may use the following procedure: Purchases may be made from the lowest and best prequalified bidder. Prequalification of bidders shall be determined not less than fifteen (15) working days before the first published notice of bid opening. Prequalification criteria shall be limited to bidder's knowledge and experience in historical restoration, preservation and renovation. In determining the lowest and best bid, freight and shipping charges shall be included. Life-cycle costing, total cost bids, warranties, guaranteed buy-back provisions and other relevant provisions may be included in the best bid calculation. All best bid and prequalification procedures for state agencies must be in compliance with regulations established by the Department of Finance and Administration. If any governing authority accepts a bid other than the lowest bid actually submitted, it shall place on its minutes detailed calculations and narrative summary showing that the accepted bid was determined to be the lowest and best bid, including the dollar amount of the accepted bid and the dollar amount of the lowest bid. No agency or governing authority shall accept a bid based on items not included in the specifications.

(iv) Construction project negotiations authority. If the lowest and best bid is not more than ten percent (10%) above the amount of funds allocated for a public construction or renovation project, then the agency or governing authority shall be permitted to negotiate with the lowest bidder in order to enter into a contract for an amount not to exceed the funds allocated.

(e) Lease-purchase authorization. For the purposes of this section, the term "equipment" shall mean equipment, furniture and, if applicable, associated software and other applicable direct costs associated with the acquisition. Any lease-purchase of equipment which an agency is not required to lease-purchase under the master lease-purchase program pursuant to Section 31-7-10 and any lease-purchase of equipment which a governing authority elects to lease-purchase may be acquired by a lease-purchase agreement under this paragraph (e). Lease-purchase financing may also be obtained from the vendor or from a third-party source after having solicited and obtained at least two (2) written competitive bids, as defined in paragraph (b) of this section, for such financing without advertising for such bids. Solicitation for the bids for financing may occur before or after acceptance of bids for the purchase of such equipment or, where no such bids for purchase are required, at any time before the purchase thereof. No such lease-purchase agreement shall be for an annual rate of interest which is greater than the overall maximum interest rate to maturity on general obligation indebtedness permitted under Section 75-17-101, and the term of such lease-purchase agreement shall not exceed the useful life of equipment covered thereby as determined according to the upper limit of the asset depreciation range (ADR) guidelines for the Class Life Asset Depreciation Range System established by the Internal Revenue Service pursuant to the United States Internal Revenue Code and regulations thereunder as in effect on December 31, 1980, or comparable depreciation guidelines with respect to any equipment not covered by ADR guidelines. Any lease-purchase agreement entered into pursuant to this paragraph (e) may contain any of the terms and conditions which a master lease-purchase agreement may contain under the provisions of Section 31-7-10(5), and shall contain an annual allocation dependency clause substantially similar to that set forth in Section 31-7-10(8). Each agency or governing authority entering into a lease-purchase transaction pursuant to this paragraph (e) shall maintain with respect to each such lease-purchase transaction the same information as required to be maintained by the Department of Finance and Administration pursuant to Section 31-7-10(13). However, nothing contained in this section shall be construed to permit agencies to acquire items of equipment with a total acquisition cost in the aggregate of less than Ten Thousand Dollars ($10,000.00) by a single lease-purchase transaction. All equipment, and the purchase thereof by any lessor, acquired by lease-purchase under this paragraph and all lease-purchase payments with respect thereto shall be exempt from all Mississippi sales,

use and ad valorem taxes. Interest paid on any lease-purchase agreement under this section shall be exempt from State of Mississippi income taxation.

(f) Alternate bid authorization. When necessary to ensure ready availability of commodities for public works and the timely completion of public projects, no more than two (2) alternate bids may be accepted by a governing authority for commodities. No purchases may be made through use of such alternate bids procedure unless the lowest and best bidder cannot deliver the commodities contained in his bid. In that event, purchases of such commodities may be made from one (1) of the bidders whose bid was accepted as an alternate.

(g) Construction contract change authorization. In the event a determination is made by an agency or governing authority after a construction contract is let that changes or modifications to the original contract are necessary or would better serve the purpose of the agency or the governing authority, such agency or governing authority may, in its discretion, order such changes pertaining to the construction that are necessary under the circumstances without the necessity of further public bids; provided that such change shall be made in a commercially reasonable manner and shall not be made to circumvent the public purchasing statutes. In addition to any other authorized person, the architect or engineer hired by an agency or governing authority with respect to any public construction contract shall have the authority, when granted by an agency or governing authority, to authorize changes or modifications to the original contract without the necessity of prior approval of the agency or governing authority when any such change or modification is less than one percent (1%) of the total contract amount. The agency or governing authority may limit the number, manner or frequency of such emergency changes or modifications.

(h) Petroleum purchase alternative. In addition to other methods of purchasing authorized in this chapter, when any agency or governing authority shall have a need for gas, diesel fuel, oils and/or other petroleum products in excess of the amount set forth in paragraph (a) of this section, such agency or governing authority may purchase the commodity after having solicited and obtained at least two (2) competitive written bids, as defined in paragraph (b) of this section. If two (2) competitive written bids are not obtained, the entity shall comply with the procedures set forth in paragraph (c) of this section. In the event any agency or governing authority shall have advertised for bids for the purchase of gas, diesel fuel, oils and other petroleum products and coal and no acceptable bids can be obtained, such agency or governing authority is authorized and directed to enter into any negotiations necessary to secure the lowest and best contract available for the purchase of such commodities.

(i) Road construction petroleum products price adjustment clause authorization. Any agency or governing authority authorized to enter into contracts for the construction, maintenance, surfacing or repair of highways, roads or streets, may include in its bid proposal and contract documents a price adjustment clause with relation to the cost to the contractor, including taxes, based upon an industry-wide cost index, of petroleum products including asphalt used in the performance or execution of the contract or in the production or manufacture of materials for use in such performance. Such industry-wide index shall be established and published monthly by the Mississippi Department of Transportation with a copy thereof to be mailed, upon request, to the clerks of the governing authority of each municipality and the clerks of each board of supervisors throughout the state. The price adjustment clause shall be based on the cost of such petroleum products only and shall not include any additional profit or overhead as part of the adjustment. The bid proposals or document contract shall contain the basis and methods of adjusting unit prices for the change in the cost of such petroleum products.

(j) State agency emergency purchase procedure. If the governing board or the executive head, or his designees, of any agency of the state shall determine that an emergency exists in regard to the purchase of any commodities or repair contracts, so that the delay incident to giving opportunity for competitive bidding would be detrimental

to the interests of the state, then the head of such agency, or his designees, shall file with the Department of Finance and Administration (i) a statement explaining the conditions and circumstances of the emergency, which shall include a detailed description of the events leading up to the situation and the negative impact to the entity if the purchase is made following the statutory requirements set forth in paragraph (a), (b) or (c) of this section, and (ii) a certified copy of the appropriate minutes of the board of such agency requesting the emergency purchase, if applicable. Upon receipt of the statement and applicable board certification, the State Fiscal Officer, or his designees, may, in writing, authorize the purchase or repair without having to comply with competitive bidding requirements.

If the governing board or the executive head, or his designees, of any agency determines that an emergency exists in regard to the purchase of any commodities or repair contracts, so that the delay incident to giving opportunity for competitive bidding would threaten the health or safety of any person, or the preservation or protection of property, then the provisions in this section for competitive bidding shall not apply, and any officer or agent of the agency having general or specific authority for making the purchase or repair contract shall approve the bill presented for payment, and he shall certify in writing from whom the purchase was made, or with whom the repair contract was made.

Total purchases made under this paragraph (j) shall only be for the purpose of meeting needs created by the emergency situation. Following the emergency purchase, documentation of the purchase, including a description of the commodity purchased, the purchase price thereof and the nature of the emergency shall be filed with the Department of Finance and Administration. Any contract awarded pursuant to this paragraph (j) shall not exceed a term of one (1) year.

Purchases under the grant program established under Section 37-68-7 in response to COVID-19 and the directive that school districts create a distance learning plan and fulfill technology needs expeditiously shall be deemed an emergency purchase for purposes of this paragraph (j).

(k) Governing authority emergency purchase procedure. If the governing authority, or the governing authority acting through its designee, shall determine that an emergency exists in regard to the purchase of any commodities or repair contracts, so that the delay incident to giving opportunity for competitive bidding would be detrimental to the interest of the governing authority, then the provisions herein for competitive bidding shall not apply and any officer or agent of such governing authority having general or special authority therefor in making such purchase or repair shall approve the bill presented therefor, and he shall certify in writing thereon from whom such purchase was made, or with whom such a repair contract was made. At the board meeting next following the emergency purchase or repair contract, documentation of the purchase or repair contract, including a description of the commodity purchased, the price thereof and the nature of the emergency shall be presented to the board and shall be placed on the minutes of the board of such governing authority. Purchases under the grant program established under Section 37-68-7 in response to COVID-19 and the directive that school districts create a distance learning plan and fulfill technology needs expeditiously shall be deemed an emergency purchase for purposes of this paragraph (k).

(i) The commissioners or board of trustees of any public hospital may contract with such lowest and best bidder for the purchase or lease-purchase of any commodity under a contract of purchase or lease-purchase agreement whose obligatory payment terms do not exceed five (5) years.

(ii) In addition to the authority granted in subparagraph (i) of this paragraph (l), the commissioners or board of trustees is authorized to enter into contracts

for the lease of equipment or services, or both, which it considers necessary for the proper care of patients if, in its opinion, it is not financially feasible to purchase the necessary equipment or services. Any such contract for the lease of equipment or services executed by the commissioners or board shall not exceed a maximum of five (5) years' duration and shall include a cancellation clause based on unavailability of funds. If such cancellation clause is exercised, there shall be no further liability on the part of the lessee. Any such contract for the lease of equipment or services executed on behalf of the commissioners or board that complies with the provisions of this subparagraph (ii) shall be excepted from the bid requirements set forth in this section.

Nothing in this section shall permit such purchases through public auction except as provided for in subparagraph (v) of this paragraph (m). It is the intent of this section to allow governmental entities to dispose of and/or purchase commodities from other governmental entities at a price that is agreed to by both parties. This shall allow for purchases and/or sales at prices which may be determined to be below the market value if the selling entity determines that the sale at below market value is in the best interest of the taxpayers of the state. Governing authorities shall place the terms of the agreement and any justification on the minutes, and state agencies shall obtain approval from the Department of Finance and Administration, prior to releasing or taking possession of the commodities.

C. If a majority of the legislatures of the member states rejects a rule, by enactment of a statute or resolution in the same manner used to adopt the compact within four (4) years of the date of adoption of the rule, then such rule shall have no further force and effect in any member state.

D. Rules or amendments to the rules shall be adopted or ratified at a regular or special meeting of the Commission in accordance with commission rules and bylaws.

ARTICLE IX

FACILITATING INFORMATION EXCHANGE

A. The Commission shall provide for facilitating the exchange of information to administer and implement the provisions of this compact in accordance with the rules of the Commission, consistent with generally accepted data protection principles and federal and state law.

B. Nothing in this compact shall be deemed or construed to alter, limit or inhibit the power of a member state to control and maintain ownership of its licensee information or alter, limit or inhibit the laws or regulations governing licensee information in the member state.

A. Oversight

1. The executive and judicial branches of state government in each member state shall enforce this compact and take all actions necessary and appropriate to effectuate the compact's purposes and intent, provided that as applied in the State of Mississippi, the compact shall only be binding if consistent with Mississippi law. The provisions of this compact

shall have standing as statutory law, provided that as applied in the State of Mississippi, the compact shall only be binding if consistent with Mississippi law.

2. Venue is proper and judicial proceedings by or against the Commission shall be brought solely and exclusively in a court of competent jurisdiction where the principal office of the Commission is located. The Commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings. Nothing herein shall affect or limit the selection or propriety of venue in any action against a licensee for professional malpractice, misconduct or any such similar matter.

3. All courts and all administrative agencies shall take judicial notice of the compact, the rules of the Commission, and any information provided to a member state pursuant thereto in any judicial or quasi-judicial proceeding in a

member state pertaining to the subject matter of this compact, or which may affect the powers, responsibilities or actions of the Commission.

4. The Commission shall be entitled to receive service of process in any proceeding regarding the enforcement or interpretation of the compact and shall have standing to intervene in such a proceeding for all purposes. Failure to provide the

Commission service of process shall render a judgment or order void as to the Commission, this compact or promulgated rules.

B. Default, Technical Assistance and Termination

1. If the Commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the Commission shall:

a. Provide written notice to the defaulting state and other member states of the nature of the default, the proposed means of curing the default or any other action to be taken by the Commission; and

b. Provide remedial training and specific technical assistance regarding the default.

2. If a state in default fails to cure the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the Commissioners of the

member states, and all rights, privileges and benefits conferred on that state by this compact may be terminated on the effective date of termination.

3. Termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the Commission to the governor, the majority and

minority leaders of the defaulting state's legislature, the state licensing authority and each of the member states.

4. A state that has been terminated is responsible for all assessments, obligations and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

5. The Commission shall not bear any costs related to a state that is found to be in default or that has been terminated from the compact, unless agreed upon in writing between the Commission and the defaulting state.

6. The defaulting state may appeal the action of the Commission by petitioning the United States District Court for the District of Columbia or the federal district where the Commission has its principal offices.

C. Dispute Resolution

1. Upon request by a member state, the Commission shall attempt to resolve disputes related to the compact that arise among member states and between member and nonmember states.

2. The Commission shall promulgate a rule providing for nonbinding alternative dispute resolution for disputes as appropriate.

D. Enforcement

1. The Commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

2. By majority vote, the Commission may initiate legal action in a court of competent jurisdiction to enforce

compliance with the provisions of the compact and its promulgated rules and bylaws. The relief sought may include injunctive relief.

ARTICLE XI

EFFECTUATION, WITHDRAWAL, AND AMENDMENT

A. The compact shall come into effect on the date on which the compact statute is enacted into law in the tenth member state.

1. On or after the effective date of the compact, the Commission shall convene and review the enactment of each of the charter member states to determine if the statute enacted by each such charter member state is materially different from

the model compact statute.

2. A charter member state whose enactment is found to be materially different from the model compact statute shall be entitled to the default process set forth in Article X.

3. Member states enacting the compact subsequent to the charter member states shall be subject to the process set forth in Article VII.C.20 to determine if their enactments are materially different from the model compact statute and whether

they qualify for participation in the compact.

B. If any member state is later found to be in default, or is terminated or withdraws from the compact, the Commission shall remain in existence and the compact shall remain in effect even if the number of member states should be less than ten (10).

C. Any state that joins the compact after the Commission's initial adoption of the rules and bylaws shall be subject to the rules and bylaws as they exist on the date on which the compact becomes law in that state, provided that as applied in the State of Mississippi, the compact shall only be binding if consistent with Mississippi law. Any rule that has been

previously adopted by the Commission shall have the full force and effect of law on the day the compact becomes law in that state, provided that as applied in the State of Mississippi, the compact shall only be binding if consistent with Mississippi law, as the rules and bylaws may be amended as provided in this compact.

D. Any member state may withdraw from this compact by enacting a statute repealing the same. A member state's withdrawal shall not take effect until six (6) months after enactment of the repealing statute.

E. This compact may be amended by the member states. No amendment to this compact shall become effective and binding upon any other member state until it is enacted into the laws of all member states.

ARTICLE XII

CONSTRUCTION AND SEVERABILITY

The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any

member state or a state seeking membership in the compact, contrary to Mississippi law, or of the United States or the applicability thereof to any other government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any member state, or as applicable in the State of Mississippi, with Mississippi law, the compact shall remain in full force and effect as to the remaining member states and in full force and effect as to the member state affected as to all severable matters.

ARTICLE XIII

CONSISTENT EFFECT AND CONFLICT WITH OTHER STATE LAWS

A. Nothing herein shall prevent or inhibit the enforcement of Mississippi law that is not inconsistent with the compact.

B. Any laws, statutes, regulations or other legal requirements in a member state in conflict with the compact are superseded to the extent of the conflict, provided that as applied in the State of Mississippi, the compact shall only be binding if consistent with Mississippi law.

C. All permissible agreements between the Commission and the member states are binding in accordance with their terms, provided that as applied in the State of Mississippi, the agreements shall only be binding if consistent with Mississippi law.

SECTION 2. This act shall take effect and be in force from and after July 1, 2024, and shall stand repealed on June 30, 2024.

SECTION 1. Section 37-181-5, Mississippi Code of 1972, is amended as follows:

37-181-5. (1) An eligible student shall qualify to participate in the ESA program if the parent or guardian signs an agreement promising:

(b) To document their participating student's disability at intervals and in a manner required under subsection (8) of this section;

(2) Parents or guardians shall use the funds deposited in a participating student's ESA for any of the following qualifying expenses, which shall be incurred within the awarded ESA school year, to educate the student using any of the below methods or combination of methods that meet the requirement in subsection (1)(a) of this section:

Once a student is no longer participating in the ESA program, computer hardware and software and other technological devices purchased with ESA funds shall be donated to a public school or public library. Qualifying expenses for computer hardware and software include only those expenses incurred within the awarded ESA school year.

(3) To qualify to participate in the program, the parent or guardian of an eligible student shall also certify to the department that they have been accepted into an eligible school qualified to provide services for the participating student's disability or special education needs, or provide services addressing a participating student's IEP, as required under this act.

(* * *6) Payment for educational services through an ESA shall not preclude parents or guardians from paying for educational services using non-ESA funds.

(* * *7) For purposes of continuity of educational attainment, students who enroll in the ESA program shall remain eligible to receive quarterly ESA payments until the participating student returns to a public school, completes high school, completes the school year in which the student reaches the age of twenty-one (21), or does not have

Subject to appropriation from the General Fund, each student's ESA shall be funded at Six Thousand Five Hundred Dollars ($6,500.00) for school year 2015-2016. For each subsequent year, this amount shall increase or decrease by the same proportion as the base student cost under Section 37-151-7(1)(b) is increased or decreased.

(2) Subject to appropriation, eligible students shall be approved for participation in the ESA program as follows:

(a) * * * Students shall be approved on a first-come, first-served basis, with applications being reviewed on a rolling basis;

(b) After participation reaches fifty percent (50%) of the annual enrollment limits in subsection (1) of this section, the department shall set annual application deadlines for the remaining number of available ESAs and begin to maintain a waiting list of eligible students. The waitlist shall only include eligible students who have certified to the department that they have been accepted into an eligible school qualified to provide services for the participating student's disability or special education needs, or provide services addressing a participating student's IEP. The waitlist will be maintained in the chronological order in which applications are received. The department shall award ESA program applications in chronological order according to the waitlist; and

Scholarship Account. The department shall ensure that the application is readily available to interested families through various sources, including the department's website and the copy of procedural safeguards annually given to parents or guardians. To be considered, an application must include certification that the student has been accepted into an eligible school qualified to provide services for the student's disability or special education needs, or provide services addressing a participating student's IEP.

This information shall also be made available on the department's website.

(3) The department shall annually notify all students with an IEP of the existence of the ESA program and shall ensure that lower-income families are made aware of their potential eligibility.

(4) The department may deduct an amount up to a limit of six percent (6%) from appropriations used to fund Education Scholarship Accounts to cover the costs of overseeing the funds and administering the ESA program.

(5) (a) The department shall make a determination of eligibility, and shall approve the application, within twenty-one (21) business days of receiving an application for participation in the ESA program, subject to the provisions of Section 37-181-3(b).

(b) The department shall provide for a procedure that children with a ruling of hearing impairment or children suspected of a hearing loss shall receive a comprehensive educational assessment which may include the areas of cognitive development, language/speech, audiological and academic achievement from the state-funded Mississippi Assistance Center for Hearing Loss. Children with a ruling of visual impairment or children suspected of a visual impairment shall receive a comprehensive low vision evaluation from the state-funded Low Vision Clinic.

(6) The home school district shall provide the parent or guardian of a participating student with a complete copy of the student's school records, while complying with the Family Educational Rights and Privacy Act of 1974 (20 USCS Section 1232(g)). SECTION 4. Section 37-181-13, Mississippi Code of 1972, is amended as follows:

37-181-13. (1) The Joint Legislative Committee on Performance Evaluation and Expenditure Review (PEER) shall prepare a biannual report, beginning in 2018 and every two (2) years thereafter, assessing efficacy of Education Scholarship Accounts, to include the sufficiency of funding, and recommending any suggested changes in state law or policy necessary to improve the ESA program.

(2) The report shall assess:

(b) The level of participating students' satisfaction with the ESA program;

(c) The level of parental or guardian satisfaction with the ESA program;

(d) Participating students' performance, both pre-assessment and post-assessment, on the eligible school's current assessment used to demonstrate academic progress, a nationally standardized norm-referenced achievement test, or a current state board-approved screener, as required in Section 37-181-15(f);

(e) Participating students' performance on Advanced Placement examinations or similar courses and any examinations related to college or university admission; provided that eligible schools must report participating students' performance on Advance Placement examinations and any examinations related to college or university admission;

(f) The four-year high school graduation rates and college acceptance rates of participating students; provided that eligible schools must report participating students' high school graduation rates and, if known, college acceptance rates;

(g) The percentage of funds used for each qualifying expense identified in Section 37-181-5(2); and

(h) The fiscal impact to the state and home school districts of the ESA program, which must consider both the impact on revenue and the impact on expenses. Furthermore, the fiscal savings associated with students departing public schools must be explicitly quantified, even if the public school losing the student(s) does not reduce its spending accordingly.

(3) The report shall:

(a) Apply appropriate analytical and behavioral science methodologies to ensure public confidence in the study; and

(b) Protect the identity of participating students and schools by, among other things, keeping anonymous all disaggregated data.

* * *

(d) Hold a valid occupancy permit if required by their municipality;

(e) Have no public record of fraud or malfeasance;

(f) Require participating students to take a pre-assessment at the beginning of the school year and a post-assessment at the end of the school year. The eligible

(g) Notify a parent or guardian applying for the ESA program that the parent or guardian waives the right of the participating student to an individual entitlement to a free and appropriate public education (FAPE) from their home school district, including special education and related services, for as long as the student is participating in the ESA program;

(h) Conduct criminal background checks on employees and:

(i) Exclude from employment any person not permitted by state law to work in a nonpublic school; and

(i) An eligible school shall certify to the department upon enrollment of a participating student that the eligible school shall provide services for the participating student's disability or special education needs, or shall provide services addressing a participating student's IEP. Such certification must be received by the department before the ESA is reimbursed to an eligible student.

SECTION 6. Section 37-181-17, Mississippi Code of 1972, is amended as follows:

37-181-17. (1) An eligible nonpublic school is autonomous and not an agent of the state or federal government and therefore:

(b) The creation of the Education Scholarship Account program does not expand the regulatory authority of the state, its officers, or any school district to impose any additional regulation of nonpublic schools, postsecondary institutions or educational service providers beyond those necessary to enforce the requirements of the ESA program; and

(c) Eligible schools, postsecondary institutions and educational service providers shall be given the maximum freedom to provide for the educational needs of their students without governmental control. No eligible school, postsecondary institution or educational service provider shall be required to alter its creed, practices, admission policies or curriculum in order to accept participating students.

H. B. No. 1607: Mississippi Women's Bill of Rights; create.

Senator Wiggins offered the following COMMITTEE AMENDMENT NO. 1.

Amend by striking all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. This act shall be known and may be cited as the "Mississippi Women's Bill of Rights."

SECTION 2. The Legislature finds:

(a) Men and women are legally equal but possess unique and immutable biological difference that manifest before birth and increase as they age and experience puberty.

(b) The State of Mississippi has an important interest in preventing unjust sex discrimination and in maintaining safety, privacy and fairness for all Mississippians.

(c) Biological differences between the sexes are enduring and, in some circumstances, may warrant the creation of separate social, educational, athletic or other spaces in order to ensure safety or allow members of each sex to succeed and thrive.

(d) Inconsistencies in court rulings and policy initiatives regarding sex discrimination and common sex-based words have endangered women's rights and resources and have put the existence of sex-based legal distinctions in jeopardy.

SECTION 3. (1) In order to prevent unjust discrimination, maintain safety, protect privacy, and ensure fairness, the following terms have the definitions ascribed in this section:

(a) "Woman" means an adult human of the female sex.

(b) "Man" means an adult human of the male sex.

(c) "Girl" means a human female who is a legal minor as defined in Section 1-3-27 unless otherwise provided by a specific statute.

(d) "Boy" means a human male who is a legal minor as defined in Section 1-3-27 unless otherwise provided by a specific statute.

(e) "Mother" means a female parent of a child or children.

(f) "Father" means a male parent of a child or children.

(g) "Female," when this term is used in reference to a natural person, means an individual who has, had, will have through the course of normal development, or would have, but for a developmental anomaly, genetic anomaly, or accident, the reproductive system that at some point produces ova.

(h) "Male," when this term is used in reference to a natural person, means an individual who has, had, will have through the course of normal development, or would have, but for a developmental anomaly, genetic anomaly, or accident, the reproductive system that at some point produces sperm.

(i) "Sex" means a person's biological sex, either male or female, as observed or clinically verified at birth. "Sex" is objective and fixed: there are only two (2) sexes, and every individual is either male or female. "Sex" does not include gender identity or other terms intended to convey a person's subjective sense of self. "Gender identity" and other such subjective terms may not be used as synonyms or substitutes for "sex."

(2) Whenever the term "girl" or "boy" is used in a statute in reference to the participation of a high-school-aged individual in a school or extracurricular program, the terms may not be understood to exclude the participation of a student who is a "woman" or "man," respectively.

(3) Persons with "DSD conditions," sometimes referred to as "differences in sex development," "disorders of sex development" or "intersex conditions," are not members of a third sex. Persons with a congenital and medically verifiable DSD diagnosis must be accommodated consistent with state and federal law.

(4) "Equal" does not necessarily mean "same" or "identical" with respect to the treatment of persons of different sexes because there are objective, immutable and enduring physical differences between males and females.

SECTION 4. If any provision of this act or the application of such provision to any person or circumstance is held to be unconstitutional, the remainder of this act and the

application of the provisions of such to any person or circumstance is not affected and remains in full force and effect.

SECTION 5. Sections 1 through 4 of this act shall be codified as a new article in Title 1, Chapter 3, Mississippi Code of 1972.

SECTION 6. This act shall take effect and be in force from and after July 1, 2024, and shall stand repealed on June 30, 2024.

Decisions shall be made in consultation with investigating law enforcement officials and/or the State Medical Examiner. The cost of all studies not performed by the Mississippi Forensics Laboratory shall be borne by the county. The correctional system under the jurisdiction of the Department of Corrections shall include only those facilities fully staffed by the Department of Corrections and operated by it on a full-time basis.

(e) The county jail must be an approved county jail for housing state inmates under federal court order.

(2) This section does not apply to inmates housed in county jails due to lack of space at state correctional facilities. The department may reimburse the county for the expense of housing an inmate under this section.

(3) The Attorney General of the State of Mississippi shall defend the employees of the Department of Corrections and officials and employees of political subdivisions against any action brought by any person who was committed to a county jail under the provisions of this section.

(4) The state, the Department of Corrections, and its employees or agents, shall not be liable to any person or entity for an inmate held in a county jail under this section.

SECTION 30. Section 47-5-905, Mississippi Code of 1972, is brought forward as follows:

47-5-905. (1) All persons placed under the custody of the Department of Corrections shall be processed at a reception and diagnostic center of the Department of Corrections and then be assigned to an appropriate correctional facility for a complete and thorough classification, not to exceed ninety (90) days, unless the department determines that a person can be properly processed and classified at the county jail in accordance with the department's classification plan.

(2) The Department of Corrections shall develop a plan for the processing and classification of inmates in county jails and shall implement the plan by January 1, 1993.

47-5-907. The sheriff of any county in this state shall have the right to petition the Commissioner of the Department of Corrections to remove a state inmate from the county jail in such county to the State Penitentiary. The commissioner shall remove such inmate

from such county jail if the sheriff of such county sets forth just cause in his petition indicating why an inmate should be removed from such county jail to the State Penitentiary.

Just cause is established if such sheriff can sufficiently prove that such inmate has a dangerous behavior or sufficiently prove that there is no available or suitable medical facility where such inmate can be provided suitable medical services. The commissioner shall respond in writing to the petition no later than thirty (30) days after the receipt of such petition. If the petition to remove such inmate is denied by the commissioner, such sheriff and his agents shall have from the date of denial absolute immunity from liability for any injury resulting from subsequent behavior or from medical consequences regarding such inmate, provided that such injury resulted from conditions which were set forth in such petition.

SECTION 32. Section 47-5-909, Mississippi Code of 1972, is brought forward as follows:

47-5-909. (1) It is the policy of the Legislature that all inmates be removed from county jails as early as practicable. Sections 47-5-901 through 47-5-907 are temporary measures to help alleviate the immediate operating capacity limitations at correctional facilities and are not permanent measures to be included in the long-term operating capacity of the correctional system.

(2) Notwithstanding any other provision of law, to expedite the removal of inmates from county jails as early as practicable, absent a contract negotiated between the Department of Corrections and the county jail, the Department of Corrections shall pay county jails for housing state offenders out of any available funds as follows:

(a) Twenty-five Dollars ($25.00) per day per offender for days one (1) through thirty (30);

(b) Thirty-two Dollars and Seventy-one Cents ($32.71) per day per offender for days thirty-one (31) or greater when:

(ii) An offender remains in the county jail after being revoked from parole or probation or is sentenced to a technical violation center.

(3) The Department of Corrections is additionally responsible for all medical costs related to offenders housed at county jails under subsection (2) of this section.

SECTION 33. Section 47-5-1251, Mississippi Code of 1972, is amended as follows:

47-5-1251. (1) There is created the "Prison Industry Enhancement Program," through which the Department of Corrections may contract with the nonprofit corporation organized and formed under the "Mississippi Prison Industries Act of 1990" to employ offenders within the custody of the department or prison industries.

(2) Except as provided in Section 47-5-579, which is the provision authorizing a work initiative, the offenders must be under the supervision of the department at all times while working. The offenders shall be paid, by the entity or entities, wages at a rate which is not less than that paid for similar work in the locality in which the work is performed. The wages may be subject to deductions which shall not, in the aggregate, exceed eighty percent (80%) of gross wages. The deductions shall be limited to the following:

(a) To pay federal, state and local taxes;

(b) To pay reasonable charges for room and board as determined by regulations issued by the Commissioner of Corrections;

(c) To support the offender's family pursuant to state statute, court order or agreement by the offender; and

(3) Notwithstanding any other provision of the law to the contrary, the offenders shall not be qualified to receive any payments for unemployment compensation while incarcerated. However, the offenders shall not solely by their status as offenders be deprived of the right to participate in benefits made available by the federal or state government to other individuals on the basis of their employment, such as workers' compensation.

(4) Offenders who participate in the employment must do so voluntarily and must agree in advance to the specific deductions made from gross wages pursuant to this section and to all other financial arrangements or benefits resulting from participation in the employment.

(5) The Department of Corrections shall develop rules and regulations to meet the criteria established by the Bureau of Justice Assistance under the Prison Industry Enhancement Certification Program.

(6) This section shall stand repealed on July 1, * * * 2026.

47-7-3.1. (1) In consultation with the Parole Board, the department shall develop a case plan for all parole-eligible inmates to guide an inmate's rehabilitation while in the department's custody and to reduce the likelihood of recidivism after release.

(2) The case plan shall include, but not be limited to:

(a) Programming and treatment requirements based on the results of a risk and needs assessment;

(b) Any programming or treatment requirements contained in the sentencing order; and

(3) With respect to parole-eligible inmates admitted to the department's custody on or after July 1, 2021, the department shall complete the case plan within ninety (90) days of admission. With respect to parole-eligible inmates admitted to the department's custody before July 1, 2021, the department shall, to the extent possible, ensure that the case plan is achievable prior to the inmate's parole eligibility date or next parole hearing date, or date of release, whichever is sooner.

(6) The caseworker shall meet with the inmate every eight (8) weeks from the date the offender received the case plan to review the inmate's case plan progress.

(7) Every four (4) months the department shall electronically submit a progress report on each parole-eligible inmate's case plan to the Parole Board. The board may meet to review an inmate's case plan and may provide written input to the caseworker on the inmate's progress toward completion of the case plan.

(8) The Parole Board shall provide semiannually to the Oversight Task Force the number of parole hearings held, the number of prisoners released to parole without a hearing and the number of parolees released after a hearing.

(9) If the Department of Corrections fails to adequately provide opportunity and access for the completion of such case plans, the Department of Corrections shall, to the extent possible, contract with regional jail facilities that offer educational development and job-training programs to facilitate the fulfillment of the case plans of parole-eligible inmates.

SECTION 38. Section 47-7-3.2, Mississippi Code of 1972, is brought forward as follows:

47-7-3.2. (1) Notwithstanding Section 47-5-138, 47-5-139, 47-5-138.1 or 47-5-142, no person convicted of a criminal offense on or after July 1, 2014, shall be released by the department until he or she has served no less than the percentage of the sentence or sentences imposed by the court as set forth below:

(a) Twenty-five percent (25%) or ten (10) years, whichever is less, for a nonviolent crime;

(b) Fifty percent (50%) or twenty (20) years, whichever is less, for a crime of violence pursuant to Section 97-3-2, except for robbery with a deadly weapon as defined in Section 97-3-79, drive-by shooting as defined in Section 97-3-109, or carjacking as defined in Section 97-3-117;

(c) Sixty percent (60%) or twenty-five (25) years, whichever is less, for robbery with a deadly weapon as defined in Section 97-3-79, drive-by shooting as defined in Section 97-3-109, or carjacking as defined in Section 97-3-117.

(2) This section shall not apply to:

(a) Offenders sentenced to life imprisonment;

(b) Offenders convicted as habitual offenders pursuant to Sections 99-19-81 through 99-19-87;

(c) Offenders serving a sentence for a sex offense; or

(d) Offenders serving a sentence for trafficking pursuant to Section 41-29-139(f).

SECTION 39. Section 47-7-15, Mississippi Code of 1972, is brought forward as follows:

47-7-15. The board shall adopt an official seal of which the courts shall take judicial notice. Decisions of the board shall be made by majority vote, except as provided in Section 47-7-5(9).

The board shall keep a record of its acts and shall notify each institution of its decisions relating to the persons who are or have been confined therein. At the close of each fiscal year the board shall submit to the Governor and to the Legislature a report with statistical and other data of its work.

SECTION 40. Section 47-7-17, Mississippi Code of 1972, is brought forward as follows:

47-7-17. (1) Within one (1) year after his admission and at such intervals thereafter as it may determine, the board shall secure and consider all pertinent information regarding each offender, except any under sentence of death or otherwise ineligible for parole, including the circumstances of his offense, his previous social history, his previous criminal record, including any records of law enforcement agencies or of a youth court regarding that offender's juvenile criminal history, his conduct, employment and attitude while in the custody of the department, the case plan created to prepare the offender for parole, and the reports of such physical and mental examinations as have been made. The board shall furnish at least three (3) months' written notice to each such offender of the date on which he is eligible for parole.

(2) Except as provided in Section 47-7-18, the board shall require a parole-eligible offender to have a hearing as required in this chapter before the board and to be interviewed. The hearing shall be held no later than thirty (30) days prior to the month of eligibility. No application for parole of a person convicted of a capital offense shall be considered by the board unless and until notice of the filing of such application shall have been published at least once a week for two (2) weeks in a newspaper published in or having general circulation in the county in which the crime was committed. The board shall, within thirty (30) days prior to the scheduled hearing, also give notice of the filing of the application for parole to the victim of the offense for which the prisoner is incarcerated and being considered for parole or, in case the offense be homicide, a designee of the immediate family of the victim, provided the victim or designated family member has furnished in writing a current address to the board for such purpose. The victim or designated family member shall be provided an opportunity to be heard by the board before the board makes a decision regarding release on parole. The board shall consider whether any restitution ordered has been paid in full. Parole release shall, at the hearing, be ordered only for the best interest of society, not as an award of clemency; it shall not be considered to be a reduction of sentence or pardon. An offender shall be placed on

parole only when arrangements have been made for his proper employment or for his maintenance and care, and when the board believes that he is able and willing to fulfill the obligations of a law-abiding citizen. When the board determines that the offender will need transitional housing upon release in order to improve the likelihood of the offender becoming a law-abiding citizen, the board may parole the offender with the condition that the inmate spends no more than six (6) months in a transitional reentry center. At least fifteen (15) days prior to the release of an offender on parole, the director of records of the department shall give the written notice which is required pursuant to Section 47-5-177. Every offender while on parole shall remain in the legal custody of the department from which he was released and shall be amenable to the orders of the board. Upon determination by the board that an offender is eligible for release by parole, notice shall also be given within at least fifteen (15) days before release, by the board to the victim of the offense or the victim's family member, as indicated above, regarding the date when the offender's release shall occur, provided a current address of the victim or the victim's family member has been furnished in writing to the board for such purpose.

(3) Failure to provide notice to the victim or the victim's family member of the filing of the application for parole or of any decision made by the board regarding parole shall not

constitute grounds for vacating an otherwise lawful parole determination nor shall it create any right or liability, civilly or criminally, against the board or any member thereof.

(4) A letter of protest against granting an offender parole shall not be treated as the conclusive and only reason for not granting parole.

(5) The board may adopt such other rules not inconsistent with law as it may deem proper or necessary with respect to the eligibility of offenders for parole, the conduct of parole hearings, or conditions to be imposed upon parolees, including a condition that the parolee submit, as provided in Section 47-5-601 to any type of breath, saliva or urine chemical analysis test, the purpose of which is to detect the possible presence of alcohol or a substance prohibited or controlled by any law of the State of Mississippi or the United States. The board shall have the authority to adopt rules related to the placement of certain offenders on unsupervised parole and for the operation of transitional reentry centers. However, in no case shall an offender be placed on unsupervised parole before he has served a minimum of fifty percent (50%) of the period of supervised parole.

SECTION 41. Section 47-7-18, Mississippi Code of 1972, is brought forward as follows:

47-7-18 (1) No inmate convicted of a sex offense as defined by Section 45-33-23(h), a crime of violence as defined by Section 97-3-2, or both, nor an inmate who is eligible for geriatric parole shall be released on parole without a hearing before the Parole Board as required by Section 47-7-17. All other inmates eligible for parole pursuant to Section 47-7-3 shall be released from incarceration to parole supervision on the inmate's parole eligibility date, without a hearing before the board, if:

(a) The inmate has met the requirements of the parole case plan established pursuant to Section 47-7-3.1;

(b) A victim of the offense has not requested the board conduct a hearing;

(c) The inmate has not received a serious or major violation report within the past six (6) months;

(d) The inmate has agreed to the conditions of supervision; and

(e) The inmate has a discharge plan approved by the board.

(2) At least thirty (30) days prior to an inmate's parole eligibility date, the department shall notify the board in writing of the inmate's compliance or noncompliance with the case plan. If an inmate fails to meet a requirement of the case plan, prior to the parole eligibility date, he or she shall have a hearing before the board to determine if completion of the case plan can occur while in the community.

(3) Any inmate for whom there is insufficient information for the department to determine compliance with the case plan shall have a hearing with the board.

(4) A hearing shall be held with the board if requested by the victim following notification of the inmate's parole release date pursuant to Section 47-7-17.

(5) A hearing shall be held by the board if a law enforcement official from the community to which the inmate will return contacts the board or the department and requests a hearing to consider information relevant to public safety risks posed by the inmate if paroled at the initial parole eligibility date. The law enforcement official shall submit an explanation documenting these concerns for the board to consider.

(6) If a parole hearing is held, the board may determine the inmate has sufficiently complied with the case plan or that the incomplete case plan is not the fault of the inmate and that granting parole is not incompatible with public safety, the board may then parole the inmate with appropriate conditions. If the board determines that the inmate has sufficiently complied with the case plan but the discharge plan indicates that the inmate does not have appropriate housing immediately upon release, the board may parole the inmate to a transitional reentry center with the condition that the inmate spends no more than six (6) months in the center. If the board determines that the inmate has not substantively complied with the requirement(s) of the case plan it may deny parole. If the board denies parole, the board may schedule a subsequent parole hearing and, if a new date is scheduled, the board shall identify the corrective action the inmate will need to take in order to be granted parole. Any inmate not released at the time of the inmate's initial parole date shall have a parole hearing at least every year.

SECTION 42. This act shall take effect and be in force from and after July 1, 2024, and shall be repealed from and after June 30, 2024.

SECTION 3. Section 47-7-5, Mississippi Code of 1972, is amended as follows:

(3) The board shall have exclusive responsibility for the granting of parole as provided by Sections 47-7-3 and 47-7-17 and shall have exclusive authority for revocation of the same. The board shall have exclusive responsibility for investigating clemency recommendations upon request of the Governor.

(4) The board, its members and staff, shall be immune from civil liability for any official acts taken in good faith and in exercise of the board's legitimate governmental authority.

(5) The budget of the board shall be funded through a separate line item within the general appropriation bill for the support and maintenance of the department. Employees of the department which are employed by or assigned to the board shall work under the guidance and supervision of the board. There shall be an executive secretary to the board who shall be responsible for all administrative and general accounting duties related to the board. The executive secretary shall keep and preserve all records and papers pertaining to the board.

The supervision shall be provided exclusively by the staff of the Division of Community Corrections of the department.

(7) (a) The Parole Board is authorized to select and place offenders in an electronic monitoring program under the conditions and criteria imposed by the Parole Board. The conditions, restrictions and requirements of Section 47-7-17 and Sections

47-5-1001 through 47-5-1015 shall apply to the Parole Board and any offender placed in an electronic monitoring program by the Parole Board.

(b) Any offender placed in an electronic monitoring program under this subsection shall pay the program fee provided in Section 47-5-1013. The program fees shall be deposited in the special fund created in Section 47-5-1007.

(c) The department shall have absolute immunity from liability for any injury resulting from a determination by the Parole Board that an offender be placed in an electronic monitoring program.

(8) (a) The Parole Board shall maintain a central registry of paroled inmates. The Parole Board shall place the following information on the registry: name, address, photograph, crime for which paroled, the date of the end of parole or flat-time date and other information deemed necessary. The Parole Board shall immediately remove information on a parolee at the end of his parole or flat-time date.

(b) When a person is placed on parole, the Parole Board shall inform the parolee of the duty to report to the parole officer any change in address ten (10) days before changing address.

(c) The Parole Board shall utilize an Internet website or other electronic means to release or publish the information.

(d) Records maintained on the registry shall be open to law enforcement agencies and the public and shall be available no later than July 1, 2003.

(9) An affirmative vote of at least four (4) members of the Parole Board shall be required to grant parole to an inmate convicted of capital murder or a sex crime.

(10) This section shall stand repealed on July 1, * * * 2026.

SECTION 4. Section 47-7-3.1, Mississippi Code of 1972, is brought forward as follows:

47-7-3.1. (1) In consultation with the Parole Board, the department shall develop a case plan for all parole-eligible inmates to guide an inmate's rehabilitation while in the department's custody and to reduce the likelihood of recidivism after release.

(2) The case plan shall include, but not be limited to:

(a) Programming and treatment requirements based on the results of a risk and needs assessment;

(b) Any programming or treatment requirements contained in the sentencing order; and

(c) General behavior requirements in accordance with the rules and policies of the department.

(3) With respect to parole-eligible inmates admitted to the department's custody on or after July 1, 2021, the department shall complete the case plan within ninety (90) days of admission. With respect to parole-eligible inmates admitted to the department's custody before July 1, 2021, the department shall complete the case plan by January 1, 2022.

(4) The department shall provide the inmate with a written copy of the case plan and the inmate's caseworker shall explain the conditions set forth in the case plan.

(a) Within ninety (90) days of admission, the caseworker shall notify the inmate of their parole eligibility date as calculated in accordance with Section 47-7-3(3);

(b) At the time a parole-eligible inmate receives the case plan, the department shall send the case plan to the Parole Board for approval.

(5) With respect to parole-eligible inmates admitted to the department's custody after July 1, 2021, the department shall ensure that the case plan is achievable prior to the inmate's parole eligibility date. With respect to parole-eligible inmates admitted to the department's custody before July 1, 2021, the department shall, to the extent possible, ensure that the case plan is achievable prior to the inmate's parole eligibility date or next parole hearing date, or date of release, whichever is sooner.

(6) The caseworker shall meet with the inmate every eight (8) weeks from the date the offender received the case plan to review the inmate's case plan progress.

(7) Every four (4) months the department shall electronically submit a progress report on each parole-eligible inmate's case plan to the Parole Board. The board may meet to review an inmate's case plan and may provide written input to the caseworker on the inmate's progress toward completion of the case plan.

(8) The Parole Board shall provide semiannually to the Oversight Task Force the number of parole hearings held, the number of prisoners released to parole without a hearing and the number of parolees released after a hearing.

(9) If the Department of Corrections fails to adequately provide opportunity and access for the completion of such case plans, the Department of Corrections shall, to the extent possible, contract with regional jail facilities that offer educational development and job-training programs to facilitate the fulfillment of the case plans of parole-eligible inmates.

SECTION 5. Section 47-7-3.2, Mississippi Code of 1972, is brought forward as follows:

47-7-3.2. (1) Notwithstanding Section 47-5-138, 47-5-139, 47-5-138.1 or 47-5-142, no person convicted of a criminal offense on or after July 1, 2014, shall be released by the department until he or she has served no less than the percentage of the sentence or sentences imposed by the court as set forth below:

(a) Twenty-five percent (25%) or ten (10) years, whichever is less, for a nonviolent crime;

(b) Fifty percent (50%) or twenty (20) years, whichever is less, for a crime of violence pursuant to Section 97-3-2, except for robbery with a deadly weapon as defined in Section 97-3-79, drive-by shooting as defined in Section 97-3-109, or carjacking as defined in Section 97-3-117;

(c) Sixty percent (60%) or twenty-five (25) years, whichever is less, for robbery with a deadly weapon as defined in Section 97-3-79, drive-by shooting as defined in Section 97-3-109, or carjacking as defined in Section 97-3-117.

(2) This section shall not apply to:

(a) Offenders sentenced to life imprisonment;

(b) Offenders convicted as habitual offenders pursuant to Sections 99-19-81 through 99-19-87;

(c) Offenders serving a sentence for a sex offense; or

(d) Offenders serving a sentence for trafficking pursuant to Section 41-29-139(f).

SECTION 6. Section 47-7-15, Mississippi Code of 1972, is brought forward as follows:

47-7-15. The board shall adopt an official seal of which the courts shall take judicial notice. Decisions of the board shall be made by majority vote, except as provided in Section 47-7-5(9).

The board shall keep a record of its acts and shall notify each institution of its decisions relating to the persons who are or have been confined therein. At the close of each fiscal year the board shall submit to the Governor and to the Legislature a report with statistical and other data of its work.

SECTION 7. Section 47-7-17, Mississippi Code of 1972, is brought forward as follows:

47-7-17. (1) Within one (1) year after his admission and at such intervals thereafter as it may determine, the board shall secure and consider all pertinent information regarding each offender, except any under sentence of death or otherwise ineligible for parole, including the circumstances of his offense, his previous social history, his previous criminal record, including any records of law enforcement agencies or of a youth court regarding that offender's juvenile criminal history, his conduct, employment and attitude while in the custody of the department, the case plan created to prepare the offender for parole, and the reports of such physical and mental examinations as have been made. The board shall furnish at least three (3) months' written notice to each such offender of the date on which he is eligible for parole.

(2) Except as provided in Section 47-7-18, the board shall require a parole-eligible offender to have a hearing as required in this chapter before the board and to be interviewed. The hearing shall be held no later than thirty (30) days prior to the month of eligibility. No application for parole of a person convicted of a capital offense shall be considered by the board unless and until notice of the filing of such application shall have been published at least once a week for two (2) weeks in a newspaper published in or having general circulation in the county in which the crime was committed. The board shall, within thirty (30) days prior to the scheduled hearing, also give notice of the filing of the application for parole to the victim of the offense for which the prisoner is incarcerated and being considered for parole or, in case the offense be homicide, a designee of the immediate family of the victim, provided the victim or designated family member has furnished in writing a current address to the board for such purpose. The victim or designated family member shall be provided an opportunity to be heard by the board before the board makes a decision regarding release on parole. The board shall consider whether any restitution ordered has been paid in full. Parole release shall, at the hearing, be ordered only for the best interest of society, not as an award of clemency; it shall not be considered to be a reduction of sentence or pardon. An offender shall be placed on parole only when arrangements have been made for his proper employment or for his maintenance and care, and when the board believes that he is able and willing to fulfill the obligations of a law-abiding citizen. When the board determines that the offender will need transitional housing upon release in order to improve the likelihood of the offender becoming a law-abiding citizen, the board may parole the offender with the condition that the inmate spends no more than six (6) months in a transitional reentry center. At least fifteen (15) days prior to the release of an offender on parole, the director of records of the department shall give the written notice which is required pursuant to Section 47-5-177. Every offender while on parole shall remain in the legal custody of the department from which he was released and shall be amenable to the orders of the board. Upon determination by the board that an offender is eligible for release by parole, notice shall also be given within at least fifteen (15) days before release, by the board to the victim of

the offense or the victim's family member, as indicated above, regarding the date when the offender's release shall occur, provided a current address of the victim or the victim's family member has been furnished in writing to the board for such purpose.

(3) Failure to provide notice to the victim or the victim's family member of the filing of the application for parole or of any decision made by the board regarding parole shall not

constitute grounds for vacating an otherwise lawful parole determination nor shall it create any right or liability, civilly or criminally, against the board or any member thereof.

(4) A letter of protest against granting an offender parole shall not be treated as the conclusive and only reason for not granting parole.

(5) The board may adopt such other rules not inconsistent with law as it may deem proper or necessary with respect to the eligibility of offenders for parole, the conduct of parole hearings, or conditions to be imposed upon parolees, including a condition that the parolee submit, as provided in Section 47-5-601 to any type of breath, saliva or urine chemical analysis test, the purpose of which is to detect the possible presence of alcohol or a substance prohibited or controlled by any law of the State of Mississippi or the United States. The board shall have the authority to adopt rules related to the placement of certain offenders on unsupervised parole and for the operation of transitional reentry centers. However, in no case shall an offender be placed on unsupervised parole before he has served a minimum of fifty percent (50%) of the period of supervised parole.

SECTION 8. Section 47-7-18, Mississippi Code of 1972, is brought forward as follows:

47-7-18 (1) No inmate convicted of a sex offense as defined by Section 45-33-23(h), a crime of violence as defined by Section 97-3-2, or both, nor an inmate who is eligible for geriatric parole shall be released on parole without a hearing before the Parole Board as required by Section 47-7-17. All other inmates eligible for parole pursuant to Section 47-7-3 shall be released from incarceration to parole supervision on the inmate's parole eligibility date, without a hearing before the board, if:

(a) The inmate has met the requirements of the parole case plan established pursuant to Section 47-7-3.1;

(b) A victim of the offense has not requested the board conduct a hearing;

(c) The inmate has not received a serious or major violation report within the past six (6) months;

(d) The inmate has agreed to the conditions of supervision; and

(e) The inmate has a discharge plan approved by the board.

(2) At least thirty (30) days prior to an inmate's parole eligibility date, the department shall notify the board in writing of the inmate's compliance or noncompliance with the case plan. If an inmate fails to meet a requirement of the case plan, prior to the parole eligibility date, he or she shall have a hearing before the board to determine if completion of the case plan can occur while in the community.

(3) Any inmate for whom there is insufficient information for the department to determine compliance with the case plan shall have a hearing with the board.

(4) A hearing shall be held with the board if requested by the victim following notification of the inmate's parole release date pursuant to Section 47-7-17.

(5) A hearing shall be held by the board if a law enforcement official from the community to which the inmate will return contacts the board or the department and requests a hearing to consider information relevant to public safety risks posed by the inmate if paroled at the initial parole eligibility date. The law enforcement official shall submit an explanation documenting these concerns for the board to consider.

(6) If a parole hearing is held, the board may determine the inmate has sufficiently complied with the case plan or that the incomplete case plan is not the fault of the inmate and that granting parole is not incompatible with public safety, the board may then parole the inmate with appropriate conditions. If the board determines that the inmate has sufficiently complied with the case plan but the discharge plan indicates that the inmate does not have appropriate housing immediately upon release, the board may parole the inmate to a transitional reentry center with the condition that the inmate spends no more than six (6) months in the center. If the board determines that the inmate has not substantively complied with the requirement(s) of the case plan it may deny parole. If the board denies parole, the board may schedule a subsequent parole hearing and, if a new date is scheduled, the board shall identify the corrective action the inmate will need to take in order to be granted parole. Any inmate not released at the time of the inmate's initial parole date shall have a parole hearing at least every year.

SECTION 9. This act shall take effect and be in force from and after July 1, 2024, and shall stand repealed on June 30, 2024.

Further, amend by striking the title in its entirety and inserting in lieu thereof the following:

AMENDMENT NO. 1:

Amend by striking all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. Section 47-5-911, Mississippi Code of 1972, which names a date of repeal for Sections 47-5-901 through 47-5-911, concerning state offenders serving sentences in county jails, is hereby repealed.

SECTION 2. Section 47-5-901, Mississippi Code of 1972, is brought forward as follows:

47-5-901. (1) (a) Any person committed, sentenced or otherwise placed under the custody of the Department of Corrections, on order of the sentencing court and subject to the other conditions of this subsection, may serve all or any part of his sentence in the county jail of the county wherein such person was convicted if the Commissioner of Corrections determines that physical space is not available for confinement of such

person in the state correctional institutions. Such determination shall be promptly made by the Department of Corrections upon receipt of notice of the conviction of such person. The commissioner shall certify in writing that space is not available to the sheriff or other officer having custody of the person. Any person serving his sentence in a county jail shall be classified in accordance with Section 47-5-905.

(b) Any person committed, sentenced or otherwise placed under the custody of the Department of Corrections, on order of the sentencing court and subject to the other conditions of this subsection, may serve all or any part of his or her sentence in the county jail of the county wherein such person was convicted if the sheriff or president of the board of supervisors, requests such inmate or inmates. Upon such request, the department may allow such inmate or inmates to serve all or any part of such inmate's or inmates' sentence(s), as the case may be, in the county of conviction of the inmate or inmates or the county of request of a sheriff or board of supervisors outside the county of conviction. Such determination shall be promptly made by the Department of Corrections upon receipt of notice of the conviction of such person. Whenever a request is denied for an inmate or inmates, then the commissioner shall certify in writing to the sentencing court, sheriff, or president of the board of supervisors of a county, as the case may be, that such inmate or inmates does not qualify to serve the sentence or sentences in the county jail. Any person serving his sentence in a county jail shall be classified in accordance with Section 47-5-905.

(2) If state prisoners are housed in county jails due to a lack of capacity at state correctional institutions, the Department of Corrections shall determine the cost for food and medical attention for such prisoners. The cost of feeding and housing offenders confined in such county jails shall be based on actual costs or contract price per prisoner. In order to maximize the potential use of county jail space, the Department of Corrections is encouraged to negotiate a reasonable per day cost per prisoner, which in no event may exceed Twenty-five Dollars ($25.00) per day per offender, except as authorized in Section 47-5-909(2).

(3) (a) Upon vouchers submitted by the board of supervisors of any county housing persons due to lack of space at state institutions, the Department of Corrections shall pay to such county, out of any available funds, the actual cost of food, or contract price per prisoner, not to exceed Twenty-five Dollars ($25.00) per day per offender, except as authorized in Section 47-5-909(2), as determined under subsection (2) of this section for each day an offender is so confined beginning the day that the Department of Corrections receives a certified copy of the sentencing order or five (5) days after the sentencing order is sent, in writing, by such county to the department, whichever is earlier, and will terminate on the date on which the offender is released or otherwise removed from the custody of the county jail. The department, or its contracted medical provider, will pay to a provider of a medical service for any and all incarcerated persons from a correctional or detention facility an amount based upon negotiated fees as agreed to by the medical care service providers and the department and/or its contracted medical provider. In the absence of negotiated discounted fee schedule, medical care service providers will be paid by the department, or its contracted medical service provider, an amount no greater than the reimbursement rate applicable based on the Mississippi Medicaid reimbursement rate. The board of supervisors of any county shall not be liable for any cost associated with medical attention for prisoners who are pretrial detainees or for prisoners who have been convicted that exceeds the Mississippi Medicaid reimbursement rate or the reimbursement provided by the Department of Corrections, whichever is greater. This limitation applies to all medical care services, durable and nondurable goods, prescription drugs and medications. Such payment shall be placed in the county general fund and shall be expended only for food and medical attention for such persons.

(b) Upon vouchers submitted by the board of supervisors of any county housing offenders in county jails pending a probation or parole revocation hearing, the department shall pay the reimbursement costs provided in paragraph (a).

(c) If the probation or parole of an offender is revoked, the additional cost of housing the offender pending the revocation hearing shall be assessed as part of the offender's court cost and shall be remitted to the department.

(4) A person, on order of the sentencing court, may serve not more than twenty-four (24) months of his sentence in a county jail if the person is classified in accordance with Section 47-5-905 and the county jail is an approved county jail for housing state inmates under federal court order. The sheriff of the county shall have the right to petition the Commissioner of Corrections to remove the inmate from the county jail. The county shall be reimbursed in accordance with subsection (2) of this section.

(5) The Attorney General of the State of Mississippi shall defend the employees of the Department of Corrections and officials and employees of political subdivisions against any action brought by any person who was committed to a county jail under the provisions of this section.

(6) This section does not create in the Department of Corrections, or its employees or agents, any new liability, express or implied, nor shall it create in the Department of Corrections any administrative authority or responsibility for the construction, funding, administration or operation of county or other local jails or other places of confinement which are not staffed and operated on a full-time basis by the Department of Corrections. The correctional system under the jurisdiction of the Department of Corrections shall include only those facilities fully staffed by the Department of Corrections and operated by it on a full-time basis.

(7) An offender returned to a county for post-conviction proceedings shall be subject to the provisions of Section 99-19-42 and the county shall not receive the per-day allotment for such offender after the time prescribed for returning the offender to the Department of Corrections as provided in Section 99-19-42.

SECTION 3. Section 47-5-903, Mississippi Code of 1972, is brought forward as follows:

47-5-903. (1) A person committed, sentenced or otherwise placed under the custody of the Department of Corrections, on order of the sentencing court, may serve his or her sentence in any county jail if all of the following conditions are complied with:

(a) The person must be classified in accordance with Section 47-5-905;

(b) The person must not be classified as in need of close supervision;

(c) The sheriff of the county where the person will serve his or her sentence must request in writing that the person be allowed to serve his or her sentence in that county jail;

(d) After the person is classified and returned to the county, the county shall assume the full and complete responsibility for the care and expenses of housing such person; and

(e) The county jail must be an approved county jail for housing state inmates under federal court order.

(2) This section does not apply to inmates housed in county jails due to lack of space at state correctional facilities. The department may reimburse the county for the expense of housing an inmate under this section.

(3) The Attorney General of the State of Mississippi shall defend the employees of the Department of Corrections and officials and employees of political subdivisions

against any action brought by any person who was committed to a county jail under the provisions of this section.

(4) The state, the Department of Corrections, and its employees or agents, shall not be liable to any person or entity for an inmate held in a county jail under this section.

SECTION 4. Section 47-5-905, Mississippi Code of 1972, is brought forward as follows:

47-5-905. (1) All persons placed under the custody of the Department of Corrections shall be processed at a reception and diagnostic center of the Department of Corrections and then be assigned to an appropriate correctional facility for a complete and thorough classification, not to exceed ninety (90) days, unless the department determines that a person can be properly processed and classified at the county jail in accordance with the department's classification plan.

(2) The Department of Corrections shall develop a plan for the processing and classification of inmates in county jails and shall implement the plan by January 1, 1993.

SECTION 5. Section 47-5-907, Mississippi Code of 1972, is brought forward as follows:

47-5-907. The sheriff of any county in this state shall have the right to petition the Commissioner of the Department of Corrections to remove a state inmate from the county jail in such county to the State Penitentiary. The commissioner shall remove such inmate from such county jail if the sheriff of such county sets forth just cause in his petition indicating why an inmate should be removed from such county jail to the State Penitentiary.

Just cause is established if such sheriff can sufficiently prove that such inmate has a dangerous behavior or sufficiently prove that there is no available or suitable medical facility where such inmate can be provided suitable medical services. The commissioner shall respond in writing to the petition no later than thirty (30) days after the receipt of such petition. If the petition to remove such inmate is denied by the commissioner, such sheriff and his agents shall have from the date of denial absolute immunity from liability for any injury resulting from subsequent behavior or from medical consequences regarding such inmate, provided that such injury resulted from conditions which were set forth in such petition.

SECTION 6. Section 47-5-909, Mississippi Code of 1972, is brought forward as follows:

47-5-909. (1) It is the policy of the Legislature that all inmates be removed from county jails as early as practicable. Sections 47-5-901 through 47-5-907 are temporary measures to help alleviate the immediate operating capacity limitations at correctional facilities and are not permanent measures to be included in the long-term operating capacity of the correctional system.

(2) Notwithstanding any other provision of law, to expedite the removal of inmates from county jails as early as practicable, absent a contract negotiated between the Department of Corrections and the county jail, the Department of Corrections shall pay county jails for housing state offenders out of any available funds as follows:

(a) Twenty-five Dollars ($25.00) per day per offender for days one (1) through thirty (30);

(ii) An offender remains in the county jail after being revoked from parole or probation or is sentenced to a technical violation center.

(3) The Department of Corrections is additionally responsible for all medical costs related to offenders housed at county jails under subsection (2) of this section.

(i) Agency requirements may be fulfilled by procuring services performed incident to the state's own programs. The agency head shall determine in writing whether the price represents a fair market value for the services. When the procurements are made from other governmental entities, the private sector need not be solicited; however, these contracts shall still be submitted for approval to the Public Procurement Review Board.

(ii) Contracts between two (2) state agencies, both under Public Procurement Review Board purview, shall not require Public Procurement Review Board approval. However, the contracts shall still be entered into the enterprise resource planning system;

(j) Provide standards for the issuance of requests for proposals, the evaluation of proposals received, consideration of costs and quality of services proposed, contract negotiations, the administrative monitoring of contract performance by the agency and successful steps in terminating a contract;

(k) Present recommendations for governmental privatization and to evaluate privatization proposals submitted by any state agency;

(l) Authorize personal and professional service contracts to be effective for more than one (1) year provided a funding condition is included in any such multiple year contract, except the State Board of Education, which shall have the authority to enter into contractual agreements for student assessment for a period up to ten (10) years. The State Board of Education shall procure these services in accordance with the Public Procurement Review Board procurement regulations;

(m) Request the State Auditor to conduct a performance audit on any personal or professional service contract;

(n) Prepare an annual report to the Legislature concerning the issuance of personal and professional services contracts during the previous year, collecting any necessary information from state agencies in making such report;

(o) Develop and implement the following standards and procedures for the approval of any sole source contract for personal and professional services regardless of the value of the procurement:

(i) For the purposes of this paragraph (o), the term "sole source" means only one (1) source is available that can provide the required personal or professional service.

(ii) An agency that has been issued a binding, valid court order mandating that a particular source or provider must be used for the required service must include a copy of the applicable court order in all future sole source contract reviews for the particular personal or professional service referenced in the court order.

(iii) Any agency alleging to have a sole source for any personal or professional service, other than those exempted under paragraph (f) of this subsection (2) and subsection (8), shall publish on the procurement portal website established by Sections 25-53-151 and 27-104-165, for at least fourteen (14) days, the terms of the proposed contract for those services. 2. An explanation of why the personal or professional service is the only one that can meet the needs of the agency;

3. An explanation of why the source is the only person or entity that can provide the required personal or professional service;

4. An explanation of why the amount to be expended for the personal or professional service is reasonable; and

5. The efforts that the agency went through to obtain the best possible price for the personal or professional service.

(iv) If any person or entity objects and proposes that the personal or professional service published under subparagraph (iii) of this paragraph (o) is not a sole source service and can be provided by another person or entity, then the objecting person or entity shall notify the Public Procurement Review Board and the agency that published the proposed sole source contract with a detailed explanation of why the personal or professional service is not a sole source service.

(v) 1. If the agency determines after review that the personal or professional service in the proposed sole source contract can be provided by another person or entity, then the agency must withdraw the sole source contract publication from the procurement portal website and submit the procurement of the personal or professional service to an advertised competitive bid or selection process.

2. If the agency determines after review that there is only one (1) source for the required personal or professional service, then the agency may appeal to the Public Procurement Review Board. The agency has the burden of proving that the personal or professional service is only provided by one (1) source.

3. If the Public Procurement Review Board has any reasonable doubt as to whether the personal or professional service can only be provided by one (1) source, then the agency must submit the procurement of the personal or professional service to an advertised competitive bid or selection process. No action taken by the Public Procurement Review Board in this appeal process shall be valid unless approved by a majority of the members of the Public Procurement Review Board present and voting.

(vi) The Public Procurement Review Board shall prepare and submit a quarterly report to the House of Representatives and Senate Accountability, Efficiency and Transparency Committees that details the sole source contracts presented to the Public Procurement Review Board and the reasons that the Public Procurement Review Board approved or rejected each contract. An agency that submitted a sole source contract shall be prepared to explain the sole source contract to each committee by December 15 of each year upon request by the committee;

(4) All sole source contracts for personal and professional services awarded by state agencies, other than those exempted under Section 27-104-7(2)(f) and (8), whether approved by an agency head or the Public Procurement Review Board, shall contain in the procurement file a written determination for the approval, using a request form

furnished by the Public Procurement Review Board. The written determination shall document the basis for the determination, including any market analysis conducted in order to ensure that the service required was practicably available from only one (1) source. A memorandum shall accompany the request form and address the following four (4) points:

(a) Explanation of why this service is the only service that can meet the needs of the purchasing agency;

(b) Explanation of why this vendor is the only practicably available source from which to obtain this service;

(c) Explanation of why the price is considered reasonable; and

(d) Description of the efforts that were made to conduct a noncompetitive negotiation to get the best possible price for the taxpayers.

(5) In conjunction with the State Personnel Board, the Public Procurement Review Board shall develop and promulgate rules and regulations to define the allowable legal relationship between contract employees and the contracting departments, agencies and institutions of state government under the jurisdiction of the State Personnel Board, in compliance with the applicable rules and regulations of the federal Internal Revenue Service (IRS) for federal employment tax purposes. Any state department, agency or institution shall only be authorized to contract for personnel services in compliance with those regulations.

(6) No member of the Public Procurement Review Board shall use his or her official authority or influence to coerce, by threat of discharge from employment, or otherwise, the purchase of commodities, the contracting for personal or professional services, or the contracting for public construction under this chapter.

(7) Notwithstanding any other laws or rules to the contrary, the provisions of subsection (2) of this section shall not be applicable to the Mississippi State Port Authority at Gulfport.

(8) Nothing in this section shall impair or limit the authority of the Board of Trustees of the Public Employees' Retirement System to enter into any personal or professional services contracts directly related to their constitutional obligation to manage the trust funds, including, but not limited to, actuarial, custodial banks, cash management, investment consultant and investment management contracts. Nothing in this section shall impair or limit the authority of the State Treasurer to enter into any personal or professional services contracts involving the management of trust funds, including, but not limited to, actuarial, custodial banks, cash management, investment consultant and investment management contracts.
