H. B. No. 1253: Post-conviction collateral relief; require certain petitioners to obtain Supreme Court permission before filing in trial court.

Senator Sparks offered the following COMMITTEE AMENDMENT NO. 1.

Amend by striking all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. Section 99-39-5, Mississippi Code of 1972, is amended as follows:

99-39-5. (1) Any person sentenced by a court of record of the State of Mississippi, including a person currently incarcerated, civilly committed, on parole or probation or subject to sex offender registration for the period of the registration or for the first five (5) years of the registration, whichever is the shorter period, may file a motion to vacate, set aside or correct the judgment or sentence, a motion to request forensic DNA testing of biological evidence, or a motion for an out-of-time appeal if the person claims:

(a) That the conviction or the sentence was imposed in violation of the Constitution of the United States or the Constitution or laws of Mississippi;

(b) That the trial court was without jurisdiction to impose sentence;

(c) That the statute under which the conviction and/or sentence was obtained is unconstitutional;

(d) That the sentence exceeds the maximum authorized by law;

(e) That there exists evidence of material facts, not previously presented and heard, that requires vacation of the conviction or sentence in the interest of justice;

(f) That there exists biological evidence secured in relation to the investigation or prosecution attendant to the petitioner's conviction not tested, or, if previously tested, that can be subjected to additional DNA testing, that would provide a reasonable likelihood of more probative results, and that testing would demonstrate by reasonable probability that the petitioner would not have been convicted or would have

received a lesser sentence if favorable results had been obtained through such forensic DNA testing at the time of the original prosecution * * *;

(g) That his plea was made involuntarily;

(h) That his sentence has expired; his probation, parole or conditional release unlawfully revoked; or he is otherwise unlawfully held in custody;

(i) That he is entitled to an out-of-time appeal; or

(j) That the conviction or sentence is otherwise subject to collateral attack upon any grounds of alleged error heretofore available under any common law, statutory or other writ, motion, petition, proceeding or remedy.

(2) A motion for relief under this article shall be made within three (3) years after the time in which the petitioner's direct appeal is ruled upon by the Supreme Court of Mississippi or, in case no appeal is taken, within three (3) years after the time for taking an appeal from the judgment of conviction or sentence has expired, or in case of a guilty plea, within three (3) years after entry of the judgment of conviction. Excepted from this three-year statute of limitations are those cases in which the petitioner can demonstrate either:

(a) (i) That there has been an intervening decision of the Supreme Court of either the State of Mississippi or the United States which would have actually adversely affected the outcome of his conviction or sentence or that he has evidence, not reasonably discoverable at the time of trial, which is of such nature that it would be practically conclusive that had such been introduced at trial it would have caused a different result in the conviction or sentence. The exceptions in this subparagraph shall toll the applicable statute of limitations period for either one (1) year from the date the mandate was issued in the intervening decision or one (1) year from the date on which the facts supporting the claim presented could have been discovered through the exercise of due diligence; or

(ii) That, even if the petitioner pled guilty or nolo contendere, or confessed or admitted to a crime, there exists biological evidence not tested, or, if previously tested, that can be subjected to additional DNA testing that would provide a reasonable likelihood of more probative results, and that testing would demonstrate by reasonable probability that the petitioner would not have been convicted or would have received a lesser sentence if favorable results had been obtained through such forensic DNA testing at the time of the original prosecution.

(b) Likewise excepted are those cases in which the petitioner claims that his sentence has expired or his probation, parole or conditional release has been unlawfully revoked. Likewise excepted are filings for post-conviction relief in capital cases which shall be made within one (1) year after conviction.

(3) This motion is not a substitute for, nor does it affect, any remedy incident to the proceeding in the trial court, or direct review of the conviction or sentence.

(4) Proceedings under this article shall be subject to the provisions of Section 99-19-42.

(5) The ineffectiveness or incompetence of counsel during state collateral post-conviction proceedings shall not be a ground for relief in a proceeding arising under this article.

(* * *6) For the purposes of this article:

(a) "Biological evidence" means the contents of a sexual assault examination kit and any item that contains blood, semen, hair, saliva, skin tissue, fingernail

scrapings, bone, bodily fluids or other identifiable biological material that was collected as part of the criminal investigation or may reasonably be used to incriminate or exculpate any person for the offense. This definition applies whether that material is catalogued separately, such as on a slide, swab or in a test tube, or is present on other evidence, including, but not limited to, clothing, ligatures, bedding or other household material, drinking cups, cigarettes or other items * * *.

(b) "DNA" means deoxyribonucleic acid.

SECTION 2. Section 99-39-27, Mississippi Code of 1972, is amended as follows:

99-39-27. (1) The application for leave to proceed in the trial court filed with the Supreme Court under Section 99-39-7 shall name the State of Mississippi as the respondent.

(2) The application shall contain the original and two (2) executed copies of the motion proposed to be filed in the trial court together with such other supporting pleadings and documentation as the Supreme Court by rule may require.

(3) The prisoner shall serve an executed copy of the application upon the Attorney General simultaneously with the filing of the application with the court.

(4) The original motion, together with all files, records, transcripts and correspondence relating to the judgment under attack, shall promptly be examined by the court.

(5) Unless it appears from the face of the application, motion, exhibits and the prior record that the claims presented by those documents are not procedurally barred under Section 99-39-21 and that they further present a substantial showing of the denial of a state or federal right, the court shall by appropriate order deny the application. The court may, in its discretion, require the Attorney General upon sufficient notice to respond to the application.

(6) The court, upon satisfaction of the standards set forth in this article, is empowered to grant the application.

(7) In granting the application the court, in its discretion, may:

(a) Where sufficient facts exist from the face of the application, motion, exhibits, the prior record and the state's response, together with any exhibits submitted with those documents, or upon stipulation of the parties, grant or deny any or all relief requested in the attached motion.

(b) Allow the filing of the motion in the trial court for further proceedings under Sections 99-39-13 through 99-39-23.

(8) No application or relief shall be granted without the Attorney General being given at least five (5) days to respond.

(9) The dismissal or denial of an application under this section is a final judgment and shall be a bar to a second or successive application under this article. Excepted from this prohibition is an application filed under Section 99-19-57(2), raising the issue of the offender's supervening mental illness before the execution of a sentence of death. A dismissal or denial of an application relating to mental illness under Section 99-19-57(2) shall be res judicata on the issue and shall likewise bar any second or successive applications on the issue. Likewise excepted from this prohibition are those cases in which the prisoner can demonstrate either that there has been an intervening decision of the Supreme Court of either the State of Mississippi or the United States that would have actually adversely affected the outcome of his conviction or sentence or that he has

evidence, not reasonably discoverable at the time of trial, that is of such nature that it would be practically conclusive that, if it had been introduced at trial, it would have caused a different result in the conviction or sentence. Likewise exempted are those cases in which the prisoner claims that his sentence has expired or his probation, parole or conditional release has been unlawfully revoked. The intervening decision exception in this subsection shall toll the applicable statute of limitations period for one (1) year from the date the mandate was issued in the intervening decision. The newly discovered evidence exception under this subsection shall toll the applicable statute of limitations period for one (1) year from the date on which the facts supporting the claim presented could have been discovered through the exercise of due diligence.

(10) Proceedings under this section shall be subject to the provisions of Section 99-19-42.

(11) Post-conviction proceedings in which the defendant is under sentence of death shall be governed by rules established by the Supreme Court as well as the provisions of this section.

(12) The ineffectiveness or incompetence of counsel during State collateral post-conviction proceedings shall not be an exception for relief under this section.

SECTION 3. Section 99-39-23, Mississippi Code of 1972, is amended as follows:

99-39-23. (1) If an evidentiary hearing is required, the judge may appoint counsel for a petitioner who qualifies for the appointment of counsel under Section 99-15-15.

(2) The hearing shall be conducted as promptly as practicable, having regard for the need of counsel for both parties for adequate time for investigation and preparation.

(3) The parties shall be entitled to subpoena witnesses and compel their attendance, including, but not being limited to, subpoenas duces tecum.

(4) The court may receive proof by affidavits, depositions, oral testimony or other evidence and may order the petitioner brought before it for the hearing.

(5) If the court finds in favor of the petitioner, it shall enter an appropriate order with respect to the conviction or sentence under attack, and any supplementary orders as to rearraignment, retrial, custody, bail, discharge, correction of sentence or other matters that may be necessary and proper. The court shall make specific findings of fact, and state expressly its conclusions of law, relating to each issue presented.

(6) The order as provided in subsection (5) of this section or any order dismissing the petitioner's motion or otherwise denying relief under this article is a final judgment and shall be conclusive until reversed. It shall be a bar to a second or successive motion under this article. Excepted from this prohibition is a motion filed under Section 99-19-57(2), raising the issue of the convict's supervening mental illness before the execution of a sentence of death. A dismissal or denial of a motion relating to mental illness under Section 99-19-57(2) shall be res judicata on the issue and shall likewise bar any second or successive motions on the issue. Likewise excepted from this prohibition are those cases in which the petitioner, within the time period under Section 99-39-5(2)(a)(i), can demonstrate either that there has been an intervening decision of the Supreme Court of either the State of Mississippi or the United States which would have actually adversely affected the outcome of his conviction or sentence or that he has evidence, not reasonably discoverable at the time of trial, which is of such nature that it would be practically conclusive that, if it had been introduced at trial, it would have caused a different result in the conviction or sentence. Likewise excepted are those cases in which the petitioner, within the time period under Section 99-39-5(2)(a)(i), claims that his sentence has expired or his probation, parole or conditional release has been unlawfully revoked. Likewise excepted are those cases in which the petitioner has filed a prior

petition and has requested DNA testing under this article, provided the petitioner asserts new or different grounds for relief related to DNA testing not previously presented or the availability of more advanced DNA technology.

(7) No relief shall be granted under this article unless the petitioner proves by a preponderance of the evidence that he is entitled to the relief.

(8) Proceedings under this section shall be subject to the provisions of Section 99-19-42.

(9) In cases resulting in a sentence of death and upon a determination of indigence, appointment of post-conviction counsel shall be made by the Office of Capital Post-Conviction Counsel upon order entered by the Supreme Court promptly upon announcement of the decision on direct appeal affirming the sentence of death. The order shall direct the trial court to immediately determine indigence and whether the inmate will accept counsel.

(10) The ineffectiveness or incompetence of counsel during State collateral post-conviction proceedings shall not be an exception for relief under this section.

SECTION 4. This act shall take effect and be in force from and after July 1, 2024.

Further, amend by striking the title in its entirety and inserting in lieu thereof the following:

AN ACT TO AMEND SECTION 99-39-5, MISSISSIPPI CODE OF 1972, TO IMPLEMENT A ONE-YEAR TIME LIMITATION ON THE INTERVENING DECISION AND NEWLY DISCOVERED EVIDENCE EXCEPTIONS; TO PROVIDE THAT THE INEFFECTIVENESS OR INCOMPETENCE OF COUNSEL DURING STATE COLLATERAL POST-CONVICTION PROCEEDINGS SHALL NOT BE A GROUND FOR RELIEF OR AN EXCEPTION FOR RELIEF IN A PROCEEDING ARISING UNDER THE MISSISSIPPI UNIFORM POST-CONVICTION COLLATERAL RELIEF ACT; TO AMEND SECTIONS 99-39-27 AND 99-39-23, MISSISSIPPI CODE OF 1972, TO CONFORM; AND FOR RELATED PURPOSES.

Amend by striking all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. Section 41-61-59, Mississippi Code of 1972, is amended as follows:

41-61-59. (1) A person's death that affects the public interest as specified in subsection (2) of this section shall be promptly reported to the medical examiner by the physician in attendance, any hospital employee, any law enforcement officer having knowledge of the death, the embalmer or other funeral home employee, any emergency medical technician, any relative or any other person present. The appropriate medical examiner shall notify the municipal or state law enforcement agency or sheriff and take charge of the body. When the medical examiner has received notification under Section 41-39-15(6) that the deceased is medically suitable to be an organ and/or tissue donor, the medical examiner's authority over the body shall be subject to the provisions of Section 41-39-15(6). The appropriate medical examiner shall notify the Mississippi Bureau of Narcotics within twenty-four (24) hours of receipt of the body in cases of death as described in subsection (2)(m) or (n) of this section.

(h) Death of a person where the body is not claimed by a relative or a friend.

(i) Death of a person where the identity of the deceased is unknown.

(j) Death of a child under the age of two (2) years where death results from an unknown cause or where the circumstances surrounding the death indicate that sudden infant death syndrome may be the cause of death.

(l) Where a person is presented to a hospital emergency room unconscious and/or unresponsive, with cardiopulmonary resuscitative measures being performed, and dies within twenty-four (24) hours of admission without regaining consciousness or responsiveness, unless a physician was in attendance within thirty-six (36) hours preceding presentation to the hospital, or in cases in which the decedent had a prediagnosed terminal or bedfast condition, unless a physician was in attendance within thirty (30) days preceding presentation to the hospital.

If a death affecting the public interest takes place in a county other than the one where injuries or other substantial causal factors leading to the death have occurred, jurisdiction for investigation of the death may be transferred, by mutual agreement of the respective medical examiners of the counties involved, to the county where the injuries or other substantial causal factors occurred, and the costs of autopsy or other studies necessary to the further investigation of the death shall be borne by the county assuming jurisdiction.

(4) (a) In criminal trials where the testimony of a current or former State Medical Examiner, Deputy State Medical Examiner, or member of the Mississippi Forensics Laboratory is needed, the use of audiovisual communications equipment to present such testimony remotely is allowed when the state has provided written notice to the defendant at least ninety (90) days prior to trial of its intent to present such remote testimony, and the defendant provides no written objection within fourteen (14) days of receiving such notice. Should the defendant object, the remote testimony shall only be permitted upon a finding by the court that the rights of the defendant to confront the witness against the defendant is not violated, that compelling circumstances exist to allow such remote testimony, and that the remote testimony can be provided with appropriate safeguards so as to assure the reliability of the testimony of the witness during the trial.

(b) All persons qualified to administer an oath in the State of Mississippi may swear a witness remotely by audiovisual communication technology, provided they can positively identify the witness and they are able to both see and hear the witness via audiovisual communications equipment.

(5) The chief county medical examiner or chief county medical examiner investigator may receive from the county in which he serves a salary of One Thousand Two Hundred Fifty Dollars ($1,250.00) per month, in addition to the fees specified in Sections 41-61-69 and 41-61-75, provided that no county shall pay the chief county medical examiner or chief county medical examiner investigator less than Three Hundred Dollars ($300.00) per month as a salary, in addition to other compensation provided by law. For this salary the chief shall assure twenty-four-hour daily and readily available death investigators for the county, and shall maintain copies of all medical examiner death investigations for the county for at least the previous five (5) years. He shall coordinate his office and duties and cooperate with the State Medical Examiner, and the State Medical Examiner shall cooperate with him.

SECTION 2. Section 41-61-63, Mississippi Code of 1972, is amended as follows:

41-61-63. (1) The State Medical Examiner shall:

(a) Provide assistance, consultation and training to county medical examiners, county medical examiner investigators and law enforcement officials.

(b) Keep complete records of all relevant information concerning deaths or crimes requiring investigation by the medical examiners.

(c) Promulgate rules and regulations regarding the manner and techniques to be employed while conducting autopsies; the nature, character and extent of investigations to be made into deaths affecting the public interest to allow a medical examiner to render a full and complete analysis and report; the format and matters to be contained in all reports rendered by the medical examiners; and all other things necessary to carry out the purposes of Sections 41-61-51 through 41-61-79. The State Medical Examiner shall make such amendments to these rules and regulations as may be necessary. All medical examiners, coroners and law enforcement officers shall be subject to such rules.

(d) Cooperate with the crime detection and medical examiner laboratories authorized by Section 45-1-17, the University of Mississippi Medical Center, the Attorney General, law enforcement agencies, the courts and the State of Mississippi.

The medical examiner shall be authorized to inspect and copy the medical reports of the decedent whose death is under investigation. However, the records copied shall be maintained as confidential so as to protect the doctor/patient privilege. The medical examiners shall be authorized to request the issuance of subpoenas, through the proper court, for the attendance of persons and for the production of documents as may be required by their investigation.

(b) Complete the medical examiner's portion of the certificate of death within seventy-two (72) hours of assuming jurisdiction over a death, and forward the certificate to the funeral director or to the family. The medical examiner's portion of the certificate of death shall include the decedent's name, the date and time of death, the cause of death and the certifier's signature. If determination of the cause and/or manner of death are pending an autopsy or toxicological or other studies, these sections on the certificate may be marked "pending," with amendment and completion to follow the completion of the postmortem studies. The State Medical Examiner shall be authorized to amend a death certificate; however, the State Medical Examiner is not authorized to change or amend

any death certificate after he has resigned or been removed from his office as the State Medical Examiner. Where an attending physician refuses to sign a certificate of death, or in case of any death, the State Medical Examiner or properly qualified designee may sign the death certificate.

(c) Cooperate with other agencies as provided for the State Medical Examiner in subsection (1)(d) of this section.

(d) In all investigations of deaths affecting the public interest where an autopsy will not be performed, obtain or attempt to obtain postmortem blood, urine and/or vitreous fluids. Medical examiners may also obtain rectal temperature measurements, known hair samples, radiographs, gunshot residue/wiping studies, fingerprints, palm prints and other noninvasive studies as the case warrants and/or as directed by the State Medical Examiner. Decisions shall be made in consultation with investigating law enforcement officials and/or the State Medical Examiner. The cost of all studies not performed by the Mississippi Forensics Laboratory shall be borne by the county. County medical examiner investigators shall be authorized to obtain these postmortem specimens themselves following successful completion of the death investigation training school.

(e) In all investigations of deaths occurring in the manner specified in subsection (2)(j) of Section 41-61-59, a death investigation shall be performed by the medical examiners in accordance with the child death investigation protocol established by the State Medical Examiner. The results of the death investigation shall be reported to the State Medical Examiner on forms prescribed for that purpose by the State Medical Examiner and to appropriate authorities, including police and child protective services, within three (3) days of the conclusion of the death investigation.

(f) Electronically report all deaths, and all associated toxicology reports, that occur in the examiner's county to the State Medical Examiner in a manner prescribed by the State Medical Examiner.

(3) The medical examiner shall not use his position or authority to favor any particular funeral home or funeral homes.

SECTION 3. This act shall take effect and be in force from and after July 1, 2024.

Further, amend by striking the title in its entirety and inserting in lieu thereof the following:

Amend by striking all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. Section 11-21-3, Mississippi Code of 1972, is amended as follows:

11-21-3. (1) Partition of land held by joint tenants, tenants in common, or coparceners, having an estate in possession or a right of possession and not in reversion or remainder, whether the joint interest be in the freehold or in a term of years not less than five (5), may be made by judgment of the chancery court of that county in which the lands or some part thereof, are situated; or, if the lands be held by devise or descent, the division may be ordered by the chancery court of the county in which the will was probated or letters of administration granted, although none of the lands be in that county.

However, any person owning an indefeasible fee simple title to an undivided interest in land may procure a partition of said land and have the interest of such person set apart in fee simple free from the claims of life or other tenants, remaindermen or reversioners, provided the life or other tenants, and other known living persons having an interest in the lands, are made defendants if they do not join in the proceeding as plaintiffs.

(2) The court may, in its discretion, order any joint tenant, tenant in common, or coparcener, or any other person who is on the land to leave the land and remove only his or her own personal property from the land. If any person fails to leave the land as ordered, the court may order the sheriff of the county in which the land is located to remove the person and the person's possessions.

SECTION 2. The following shall be codified as Section 11-21-77.1, Mississippi Code of 1972:

11-21-77.1. Any court, in its discretion, may order any tenant in common or any other person who has possession or control over the property to return the property or separate himself or herself from the property. If any person fails to return the property so

ordered or separate himself or herself as ordered by the court, the sheriff of the county in which the property is located may be ordered to take the property or remove the person.

SECTION 3. Section 11-21-77, Mississippi Code of 1972, is amended as follows:

11-21-77. If the petitioner makes an affidavit at the commencement of his suit, or afterwards, of his right as a tenant in common, and that there is danger of the removal of the property, so as to defeat or endanger his right, the county court or the justice of the peace, as the case may be, shall issue a writ for the seizure of the property; and if the person having it in possession will not give a bond with sufficient sureties, approved by the officer executing the writ, conditioned to have the property forthcoming to abide the final order which shall be made in the case, payable to the petitioner, in a sum sufficient to cover his interest in the property, it shall be delivered to petitioner on his giving a bond, payable to the person from whom it was taken, with sufficient sureties, approved as above provided, in a penalty equal to the value of the interest of such person, conditioned to have the property before the county court or the justice of the peace, as the case may be, to abide the final order in the case; but if neither party give the required bond, the property shall remain in the hands of the officer, unless it be perishable or expensive to keep, in which case it shall be sold, as such property seized under attachment is sold, and the proceeds of the sale shall be disposed of according to the rights of the parties.

SECTION 4. Section 91-31-15, Mississippi Code of 1972, is amended as follows:

91-31-15. (1) Partition alternatives. (a) If all the interests of all cotenants that requested partition by sale are not purchased by other cotenants pursuant to Section 91-31-13, or if after conclusion of the buyout under Section 91-31-13, a cotenant remains that has requested partition in kind, the court shall order partition in kind unless the court, after consideration of the factors listed in Section 91-31-17, finds that partition in kind will result in manifest prejudice to the cotenants as a group. In considering whether to order partition in kind, the court shall approve a request by two (2) or more parties to have their individual interests aggregated.

(b) If the court does not order partition in kind under subsection (a), the court shall order partition by sale pursuant to Section 91-31-19 or, if no cotenant requested partition by sale, the court shall dismiss the action.

(c) If the court orders partition in kind pursuant to subsection (a), the court may require that one or more cotenants pay one or more other cotenants amounts so that the payments, taken together with the value of the in-kind distributions to the cotenants, will make the partition in kind just and proportionate in value to the fractional interests held.

(d) If the court orders partition in kind, the court shall allocate to the cotenants that are unknown, unlocatable, or the subject of a default judgment, if their interests were not bought out pursuant to Section 91-31-13, a part of the property representing the combined interests of these cotenants as determined by the court and this part of the property shall remain undivided.

(2) The court may, in its discretion, order any joint tenant, tenant in common, or coparcener, or any other person who is on the land to leave the land and remove all of his or her own personal property from the land. If any person fails to leave the land as ordered, the court may order the sheriff of the county in which the land is located to remove the person and the person's possessions.

SECTION 5. Section 91-31-5, Mississippi Code of 1972, is amended as follows:

91-31-5. Applicability; relation to other law. (a) This chapter applies to partition actions filed on or after July 1, 2020.

(b) In an action to partition real property under Title 11, Chapter 21, Mississippi Code of 1972, the court shall determine whether the property is heir property. If the court determines that the property is heir property, the property must be partitioned under this chapter unless * * * the party filing the motion requests to proceed under Sections 11-21-1 et seq.

(c) This chapter supplements Title 11, Chapter 21, Mississippi Code of 1972, and, if an action is governed by this chapter, replaces provisions that are inconsistent with this chapter.

SECTION 6. This act shall take effect and be in force from and after July 1, 2024.

Further, amend by striking the title in its entirety and inserting in lieu thereof the following:

AN ACT TO AMEND SECTION 11-21-3, MISSISSIPPI CODE OF 1972, TO AUTHORIZE A COURT, IN ITS DISCRETION, TO ORDER A JOINT TENANT, TENANT IN COMMON, COPARCENER OR ANY OTHER PERSON ON LAND IN DISPUTE FOR PARTITION TO LEAVE THE LAND OR BE REMOVED; TO CREATE NEW SECTION 11-21-77.1, MISSISSIPPI CODE OF 1972, TO AUTHORIZE ANY COURT, IN ITS DISCRETION, TO ORDER ANY TENANT IN COMMON OR ANY OTHER PERSON WHO HAS POSSESSION OR CONTROL OVER PROPERTY THAT IS IN DISPUTE FOR PARTITION TO RETURN THE PROPERTY OR SEPARATE HIMSELF OR HERSELF FROM THE PROPERTY; TO AMEND SECTION 11-21-77, MISSISSIPPI CODE OF 1972, TO CONFORM TO THE PRECEDING SECTION; TO AMEND SECTION 91-31-5, MISSISSIPPI CODE OF 1972, TO PROVIDE DISCRETION TO THE PERSON FILING THE PARTITION ACTION TO DECIDE IF THE UNIFORM HEIR PROPERTY PROVISIONS WILL BE APPLIED; TO AMEND SECTION 91-31-15, MISSISSIPPI CODE OF 1972, TO AUTHORIZE A COURT, IN ITS DISCRETION, TO ORDER A JOINT TENANT, TENANT IN COMMON, COPARCENER OR ANY OTHER PERSON ON LAND IN DISPUTE FOR PARTITION TO LEAVE THE LAND OR BE REMOVED; AND FOR RELATED PURPOSES.

(2) This section shall not apply to:

(a) Offenders sentenced to life imprisonment;

(b) Offenders convicted as habitual offenders pursuant to Sections 99-19-81 through 99-19-87;

(c) Offenders serving a sentence for a sex offense; or

(d) Offenders serving a sentence for trafficking pursuant to Section 41-29-139(f).

SECTION 6. Section 47-7-15, Mississippi Code of 1972, is brought forward as follows:

47-7-15. The board shall adopt an official seal of which the courts shall take judicial notice. Decisions of the board shall be made by majority vote, except as provided in Section 47-7-5(9).

The board shall keep a record of its acts and shall notify each institution of its decisions relating to the persons who are or have been confined therein. At the close of

each fiscal year the board shall submit to the Governor and to the Legislature a report with statistical and other data of its work.

SECTION 7. Section 47-7-17, Mississippi Code of 1972, is brought forward as follows:

47-7-17. (1) Within one (1) year after his admission and at such intervals thereafter as it may determine, the board shall secure and consider all pertinent information regarding each offender, except any under sentence of death or otherwise ineligible for parole, including the circumstances of his offense, his previous social history, his previous criminal record, including any records of law enforcement agencies or of a youth court regarding that offender's juvenile criminal history, his conduct, employment and attitude while in the custody of the department, the case plan created to prepare the offender for parole, and the reports of such physical and mental examinations as have been made. The board shall furnish at least three (3) months' written notice to each such offender of the date on which he is eligible for parole.

(2) Except as provided in Section 47-7-18, the board shall require a parole-eligible offender to have a hearing as required in this chapter before the board and to be interviewed. The hearing shall be held no later than thirty (30) days prior to the month of eligibility. No application for parole of a person convicted of a capital offense shall be considered by the board unless and until notice of the filing of such application shall have been published at least once a week for two (2) weeks in a newspaper published in or having general circulation in the county in which the crime was committed. The board shall, within thirty (30) days prior to the scheduled hearing, also give notice of the filing of the application for parole to the victim of the offense for which the prisoner is incarcerated and being considered for parole or, in case the offense be homicide, a designee of the immediate family of the victim, provided the victim or designated family member has furnished in writing a current address to the board for such purpose. The victim or designated family member shall be provided an opportunity to be heard by the board before the board makes a decision regarding release on parole. The board shall consider whether any restitution ordered has been paid in full. Parole release shall, at the hearing, be ordered only for the best interest of society, not as an award of clemency; it shall not be considered to be a reduction of sentence or pardon. An offender shall be placed on parole only when arrangements have been made for his proper employment or for his maintenance and care, and when the board believes that he is able and willing to fulfill the obligations of a law-abiding citizen. When the board determines that the offender will need transitional housing upon release in order to improve the likelihood of the offender becoming a law-abiding citizen, the board may parole the offender with the condition that the inmate spends no more than six (6) months in a transitional reentry center. At least fifteen (15) days prior to the release of an offender on parole, the director of records of the department shall give the written notice which is required pursuant to Section 47-5-177. Every offender while on parole shall remain in the legal custody of the department from which he was released and shall be amenable to the orders of the board. Upon determination by the board that an offender is eligible for release by parole, notice shall also be given within at least fifteen (15) days before release, by the board to the victim of the offense or the victim's family member, as indicated above, regarding the date when the offender's release shall occur, provided a current address of the victim or the victim's family member has been furnished in writing to the board for such purpose.

(3) Failure to provide notice to the victim or the victim's family member of the filing of the application for parole or of any decision made by the board regarding parole shall not

constitute grounds for vacating an otherwise lawful parole determination nor shall it create any right or liability, civilly or criminally, against the board or any member thereof.

(4) A letter of protest against granting an offender parole shall not be treated as the conclusive and only reason for not granting parole.

(5) The board may adopt such other rules not inconsistent with law as it may deem proper or necessary with respect to the eligibility of offenders for parole, the conduct of parole hearings, or conditions to be imposed upon parolees, including a condition that the parolee submit, as provided in Section 47-5-601 to any type of breath, saliva or urine chemical analysis test, the purpose of which is to detect the possible presence of alcohol or a substance prohibited or controlled by any law of the State of Mississippi or the United States. The board shall have the authority to adopt rules related to the placement of certain offenders on unsupervised parole and for the operation of transitional reentry centers. However, in no case shall an offender be placed on unsupervised parole before he has served a minimum of fifty percent (50%) of the period of supervised parole.

SECTION 8. Section 47-7-18, Mississippi Code of 1972, is brought forward as follows:

47-7-18 (1) No inmate convicted of a sex offense as defined by Section 45-33-23(h), a crime of violence as defined by Section 97-3-2, or both, nor an inmate who is eligible for geriatric parole shall be released on parole without a hearing before the Parole Board as required by Section 47-7-17. All other inmates eligible for parole pursuant to Section 47-7-3 shall be released from incarceration to parole supervision on the inmate's parole eligibility date, without a hearing before the board, if:

(a) The inmate has met the requirements of the parole case plan established pursuant to Section 47-7-3.1;

(b) A victim of the offense has not requested the board conduct a hearing;

(c) The inmate has not received a serious or major violation report within the past six (6) months;

(d) The inmate has agreed to the conditions of supervision; and

(e) The inmate has a discharge plan approved by the board.

(2) At least thirty (30) days prior to an inmate's parole eligibility date, the department shall notify the board in writing of the inmate's compliance or noncompliance with the case plan. If an inmate fails to meet a requirement of the case plan, prior to the parole eligibility date, he or she shall have a hearing before the board to determine if completion of the case plan can occur while in the community.

(3) Any inmate for whom there is insufficient information for the department to determine compliance with the case plan shall have a hearing with the board.

(4) A hearing shall be held with the board if requested by the victim following notification of the inmate's parole release date pursuant to Section 47-7-17.

(5) A hearing shall be held by the board if a law enforcement official from the community to which the inmate will return contacts the board or the department and requests a hearing to consider information relevant to public safety risks posed by the inmate if paroled at the initial parole eligibility date. The law enforcement official shall submit an explanation documenting these concerns for the board to consider.

(6) If a parole hearing is held, the board may determine the inmate has sufficiently complied with the case plan or that the incomplete case plan is not the fault of the inmate and that granting parole is not incompatible with public safety, the board may then parole the inmate with appropriate conditions. If the board determines that the inmate has sufficiently complied with the case plan but the discharge plan indicates that the inmate does not have appropriate housing immediately upon release, the board may parole the inmate to a transitional reentry center with the condition that the inmate spends no more

than six (6) months in the center. If the board determines that the inmate has not substantively complied with the requirement(s) of the case plan it may deny parole. If the board denies parole, the board may schedule a subsequent parole hearing and, if a new date is scheduled, the board shall identify the corrective action the inmate will need to take in order to be granted parole. Any inmate not released at the time of the inmate's initial parole date shall have a parole hearing at least every year.

SECTION 9. This act shall take effect and be in force from and after July 1, 2024.

Further, amend by striking the title in its entirety and inserting in lieu thereof the following:

Senator Barnett called up the following entitled bill:

H. B. No. 757: State offenders; extend repealer on authority to house in county jails when space is unavailable.

Senator Barnett offered the following COMMITTEE AMENDMENT NO. 1.

Amend by striking all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. Section 47-5-901, Mississippi Code of 1972, is reenacted as follows:

47-5-901. (1) (a) Any person committed, sentenced or otherwise placed under the custody of the Department of Corrections, on order of the sentencing court and subject to the other conditions of this subsection, may serve all or any part of his sentence in the county jail of the county wherein such person was convicted if the Commissioner of Corrections determines that physical space is not available for confinement of such person in the state correctional institutions. Such determination shall be promptly made by the Department of Corrections upon receipt of notice of the conviction of such person. The commissioner shall certify in writing that space is not available to the sheriff or other officer having custody of the person. Any person serving his sentence in a county jail shall be classified in accordance with Section 47-5-905.

(b) Any person committed, sentenced or otherwise placed under the custody of the Department of Corrections, on order of the sentencing court and subject to the other conditions of this subsection, may serve all or any part of his or her sentence in the county jail of the county wherein such person was convicted if the sheriff or president of the board of supervisors, requests such inmate or inmates. Upon such request, the department may allow such inmate or inmates to serve all or any part of such inmate's or inmates' sentence(s), as the case may be, in the county of conviction of the inmate or inmates or the county of request of a sheriff or board of supervisors outside the county of conviction. Such determination shall be promptly made by the Department of Corrections upon receipt of notice of the conviction of such person. Whenever a request is denied for an inmate or inmates, then the commissioner shall certify in writing to the sentencing court, sheriff, or president of the board of supervisors of a county, as the case may be, that such inmate or inmates does not qualify to serve the sentence or sentences in the county jail. Any person serving his sentence in a county jail shall be classified in accordance with Section 47-5-905.

(2) If state prisoners are housed in county jails due to a lack of capacity at state correctional institutions, the Department of Corrections shall determine the cost for food and medical attention for such prisoners. The cost of feeding and housing offenders confined in such county jails shall be based on actual costs or contract price per prisoner. In order to maximize the potential use of county jail space, the Department of Corrections is encouraged to negotiate a reasonable per day cost per prisoner, which in no event may exceed Twenty-five Dollars ($25.00) per day per offender, except as authorized in Section 47-5-909(2).

(3) (a) Upon vouchers submitted by the board of supervisors of any county housing persons due to lack of space at state institutions, the Department of Corrections shall pay to such county, out of any available funds, the actual cost of food, or contract price per prisoner, not to exceed Twenty-five Dollars ($25.00) per day per offender, except as authorized in Section 47-5-909(2), as determined under subsection (2) of this section for each day an offender is so confined beginning the day that the Department of Corrections receives a certified copy of the sentencing order or five (5) days after the sentencing order is sent, in writing, by such county to the department, whichever is earlier, and will terminate on the date on which the offender is released or otherwise removed from the custody of the county jail. The department, or its contracted medical provider, will pay to a provider of a medical service for any and all incarcerated persons from a correctional or detention facility an amount based upon negotiated fees as agreed to by the medical care service providers and the department and/or its contracted medical provider. In the absence of negotiated discounted fee schedule, medical care service providers will be paid by the department, or its contracted medical service provider, an amount no greater than the reimbursement rate applicable based on the Mississippi Medicaid reimbursement rate. The board of supervisors of any county shall not be liable for any cost associated with medical attention for prisoners who are pretrial detainees or for prisoners who have been convicted that exceeds the Mississippi Medicaid

reimbursement rate or the reimbursement provided by the Department of Corrections, whichever is greater. This limitation applies to all medical care services, durable and nondurable goods, prescription drugs and medications. Such payment shall be placed in the county general fund and shall be expended only for food and medical attention for such persons.

(b) Upon vouchers submitted by the board of supervisors of any county housing offenders in county jails pending a probation or parole revocation hearing, the department shall pay the reimbursement costs provided in paragraph (a).

(c) If the probation or parole of an offender is revoked, the additional cost of housing the offender pending the revocation hearing shall be assessed as part of the offender's court cost and shall be remitted to the department.

(4) A person, on order of the sentencing court, may serve not more than twenty-four (24) months of his sentence in a county jail if the person is classified in accordance with Section 47-5-905 and the county jail is an approved county jail for housing state inmates under federal court order. The sheriff of the county shall have the right to petition the Commissioner of Corrections to remove the inmate from the county jail. The county shall be reimbursed in accordance with subsection (2) of this section.

(5) The Attorney General of the State of Mississippi shall defend the employees of the Department of Corrections and officials and employees of political subdivisions against any action brought by any person who was committed to a county jail under the provisions of this section.

(6) This section does not create in the Department of Corrections, or its employees or agents, any new liability, express or implied, nor shall it create in the Department of Corrections any administrative authority or responsibility for the construction, funding, administration or operation of county or other local jails or other places of confinement which are not staffed and operated on a full-time basis by the Department of Corrections. The correctional system under the jurisdiction of the Department of Corrections shall include only those facilities fully staffed by the Department of Corrections and operated by it on a full-time basis.

(7) An offender returned to a county for post-conviction proceedings shall be subject to the provisions of Section 99-19-42 and the county shall not receive the per-day allotment for such offender after the time prescribed for returning the offender to the Department of Corrections as provided in Section 99-19-42.

SECTION 2. Section 47-5-903, Mississippi Code of 1972, is reenacted as follows:

47-5-903. (1) A person committed, sentenced or otherwise placed under the custody of the Department of Corrections, on order of the sentencing court, may serve his or her sentence in any county jail if all of the following conditions are complied with:

(a) The person must be classified in accordance with Section 47-5-905;

(b) The person must not be classified as in need of close supervision;

(c) The sheriff of the county where the person will serve his or her sentence must request in writing that the person be allowed to serve his or her sentence in that county jail;

(d) After the person is classified and returned to the county, the county shall assume the full and complete responsibility for the care and expenses of housing such person; and

(e) The county jail must be an approved county jail for housing state inmates under federal court order.

(2) This section does not apply to inmates housed in county jails due to lack of space at state correctional facilities. The department may reimburse the county for the expense of housing an inmate under this section.

(3) The Attorney General of the State of Mississippi shall defend the employees of the Department of Corrections and officials and employees of political subdivisions against any action brought by any person who was committed to a county jail under the provisions of this section.

(4) The state, the Department of Corrections, and its employees or agents, shall not be liable to any person or entity for an inmate held in a county jail under this section.

SECTION 3. Section 47-5-905, Mississippi Code of 1972, is reenacted as follows:

47-5-905. (1) All persons placed under the custody of the Department of Corrections shall be processed at a reception and diagnostic center of the Department of Corrections and then be assigned to an appropriate correctional facility for a complete and thorough classification, not to exceed ninety (90) days, unless the department determines that a person can be properly processed and classified at the county jail in accordance with the department's classification plan.

(2) The Department of Corrections shall develop a plan for the processing and classification of inmates in county jails and shall implement the plan by January 1, 1993.

SECTION 4. Section 47-5-907, Mississippi Code of 1972, is reenacted as follows:

47-5-907. The sheriff of any county in this state shall have the right to petition the Commissioner of the Department of Corrections to remove a state inmate from the county jail in such county to the State Penitentiary. The commissioner shall remove such inmate from such county jail if the sheriff of such county sets forth just cause in his petition indicating why an inmate should be removed from such county jail to the State Penitentiary.

Just cause is established if such sheriff can sufficiently prove that such inmate has a dangerous behavior or sufficiently prove that there is no available or suitable medical facility where such inmate can be provided suitable medical services. The commissioner shall respond in writing to the petition no later than thirty (30) days after the receipt of such petition. If the petition to remove such inmate is denied by the commissioner, such sheriff and his agents shall have from the date of denial absolute immunity from liability for any injury resulting from subsequent behavior or from medical consequences regarding such inmate, provided that such injury resulted from conditions which were set forth in such petition.

SECTION 5. Section 47-5-909, Mississippi Code of 1972, is reenacted as follows:

47-5-909. (1) It is the policy of the Legislature that all inmates be removed from county jails as early as practicable. Sections 47-5-901 through 47-5-907 are temporary measures to help alleviate the immediate operating capacity limitations at correctional facilities and are not permanent measures to be included in the long-term operating capacity of the correctional system.

(2) Notwithstanding any other provision of law, to expedite the removal of inmates from county jails as early as practicable, absent a contract negotiated between the Department of Corrections and the county jail, the Department of Corrections shall pay county jails for housing state offenders out of any available funds as follows:

(a) Twenty-five Dollars ($25.00) per day per offender for days one (1) through thirty (30);

(b) Thirty-two Dollars and Seventy-one Cents ($32.71) per day per offender for days thirty-one (31) or greater when:

(i) An offender remains in the county jail after the Department of Corrections receives a certified copy of the sentencing order or five (5) days after the sentencing order is sent, in writing, by such county to the Department of Corrections, whichever is earlier; or

(ii) An offender remains in the county jail after being revoked from parole or probation or is sentenced to a technical violation center.

(3) The Department of Corrections is additionally responsible for all medical costs related to offenders housed at county jails under subsection (2) of this section.

SECTION 6. Section 47-5-911, Mississippi Code of 1972, is amended as follows:

47-5-911. Sections 47-5-901 through 47-5-911 shall stand repealed on July 1, * * * 2028.

SECTION 28. Section 47-5-901, Mississippi Code of 1972, is brought forward as follows:

47-5-901. (1) (a) Any person committed, sentenced or otherwise placed under the custody of the Department of Corrections, on order of the sentencing court and subject to the other conditions of this subsection, may serve all or any part of his sentence in the county jail of the county wherein such person was convicted if the Commissioner of Corrections determines that physical space is not available for confinement of such person in the state correctional institutions. Such determination shall be promptly made by the Department of Corrections upon receipt of notice of the conviction of such person.

The commissioner shall certify in writing that space is not available to the sheriff or other officer having custody of the person. Any person serving his sentence in a county jail shall be classified in accordance with Section 47-5-905.

(b) Any person committed, sentenced or otherwise placed under the custody of the Department of Corrections, on order of the sentencing court and subject to the other conditions of this subsection, may serve all or any part of his or her sentence in the county jail of the county wherein such person was convicted if the sheriff or president of the board of supervisors, requests such inmate or inmates. Upon such request, the department may allow such inmate or inmates to serve all or any part of such inmate's or inmates' sentence(s), as the case may be, in the county of conviction of the inmate or inmates or the county of request of a sheriff or board of supervisors outside the county of conviction. Such determination shall be promptly made by the Department of Corrections upon receipt of notice of the conviction of such person. Whenever a request is denied for an inmate or inmates, then the commissioner shall certify in writing to the sentencing court, sheriff, or president of the board of supervisors of a county, as the case may be, that such inmate or inmates does not qualify to serve the sentence or sentences in the county jail. Any person serving his sentence in a county jail shall be classified in accordance with Section 47-5-905.

(2) If state prisoners are housed in county jails due to a lack of capacity at state correctional institutions, the Department of Corrections shall determine the cost for food and medical attention for such prisoners. The cost of feeding and housing offenders confined in such county jails shall be based on actual costs or contract price per prisoner. In order to maximize the potential use of county jail space, the Department of Corrections is encouraged to negotiate a reasonable per day cost per prisoner, which in no event may exceed Twenty-five Dollars ($25.00) per day per offender, except as authorized in Section 47-5-909(2).

(3) (a) Upon vouchers submitted by the board of supervisors of any county housing persons due to lack of space at state institutions, the Department of Corrections shall pay to such county, out of any available funds, the actual cost of food, or contract price per prisoner, not to exceed Twenty-five Dollars ($25.00) per day per offender, except as authorized in Section 47-5-909(2), as determined under subsection (2) of this section for each day an offender is so confined beginning the day that the Department of Corrections receives a certified copy of the sentencing order or five (5) days after the sentencing order is sent, in writing, by such county to the department, whichever is earlier, and will terminate on the date on which the offender is released or otherwise removed from the custody of the county jail. The department, or its contracted medical provider, will pay to a provider of a medical service for any and all incarcerated persons from a correctional or detention facility an amount based upon negotiated fees as agreed to by the medical care service providers and the department and/or its contracted medical provider. In the absence of negotiated discounted fee schedule, medical care service providers will be paid by the department, or its contracted medical service provider, an amount no greater than the reimbursement rate applicable based on the Mississippi Medicaid reimbursement rate. The board of supervisors of any county shall not be liable for any cost associated with medical attention for prisoners who are pretrial detainees or for prisoners who have been convicted that exceeds the Mississippi Medicaid reimbursement rate or the reimbursement provided by the Department of Corrections, whichever is greater. This limitation applies to all medical care services, durable and nondurable goods, prescription drugs and medications. Such payment shall be placed in the county general fund and shall be expended only for food and medical attention for such persons.

(b) Upon vouchers submitted by the board of supervisors of any county housing offenders in county jails pending a probation or parole revocation hearing, the department shall pay the reimbursement costs provided in paragraph (a).

(c) If the probation or parole of an offender is revoked, the additional cost of housing the offender pending the revocation hearing shall be assessed as part of the offender's court cost and shall be remitted to the department.

(4) A person, on order of the sentencing court, may serve not more than twenty-four (24) months of his sentence in a county jail if the person is classified in accordance with Section 47-5-905 and the county jail is an approved county jail for housing state inmates under federal court order. The sheriff of the county shall have the right to petition the Commissioner of Corrections to remove the inmate from the county jail. The county shall be reimbursed in accordance with subsection (2) of this section.

(5) The Attorney General of the State of Mississippi shall defend the employees of the Department of Corrections and officials and employees of political subdivisions against any action brought by any person who was committed to a county jail under the provisions of this section.

(6) This section does not create in the Department of Corrections, or its employees or agents, any new liability, express or implied, nor shall it create in the Department of Corrections any administrative authority or responsibility for the construction, funding, administration or operation of county or other local jails or other places of confinement which are not staffed and operated on a full-time basis by the Department of Corrections. The correctional system under the jurisdiction of the Department of Corrections shall include only those facilities fully staffed by the Department of Corrections and operated by it on a full-time basis.

(7) An offender returned to a county for post-conviction proceedings shall be subject to the provisions of Section 99-19-42 and the county shall not receive the per-day allotment for such offender after the time prescribed for returning the offender to the Department of Corrections as provided in Section 99-19-42.

SECTION 29. Section 47-5-903, Mississippi Code of 1972, is brought forward as follows:

47-5-903. (1) A person committed, sentenced or otherwise placed under the custody of the Department of Corrections, on order of the sentencing court, may serve his or her sentence in any county jail if all of the following conditions are complied with:

(b) The person must not be classified as in need of close supervision;

(c) The sheriff of the county where the person will serve his or her sentence must request in writing that the person be allowed to serve his or her sentence in that county jail;

(e) The county jail must be an approved county jail for housing state inmates under federal court order.

(2) This section does not apply to inmates housed in county jails due to lack of space at state correctional facilities. The department may reimburse the county for the expense of housing an inmate under this section.

(3) The Attorney General of the State of Mississippi shall defend the employees of the Department of Corrections and officials and employees of political subdivisions

against any action brought by any person who was committed to a county jail under the provisions of this section.

(4) The state, the Department of Corrections, and its employees or agents, shall not be liable to any person or entity for an inmate held in a county jail under this section.

SECTION 30. Section 47-5-905, Mississippi Code of 1972, is brought forward as follows:

47-5-905. (1) All persons placed under the custody of the Department of Corrections shall be processed at a reception and diagnostic center of the Department of Corrections and then be assigned to an appropriate correctional facility for a complete and thorough classification, not to exceed ninety (90) days, unless the department determines that a person can be properly processed and classified at the county jail in accordance with the department's classification plan.

(2) The Department of Corrections shall develop a plan for the processing and classification of inmates in county jails and shall implement the plan by January 1, 1993.

47-5-907. The sheriff of any county in this state shall have the right to petition the Commissioner of the Department of Corrections to remove a state inmate from the county jail in such county to the State Penitentiary. The commissioner shall remove such inmate from such county jail if the sheriff of such county sets forth just cause in his petition indicating why an inmate should be removed from such county jail to the State Penitentiary.

Just cause is established if such sheriff can sufficiently prove that such inmate has a dangerous behavior or sufficiently prove that there is no available or suitable medical facility where such inmate can be provided suitable medical services. The commissioner shall respond in writing to the petition no later than thirty (30) days after the receipt of such petition. If the petition to remove such inmate is denied by the commissioner, such sheriff and his agents shall have from the date of denial absolute immunity from liability for any injury resulting from subsequent behavior or from medical consequences regarding such inmate, provided that such injury resulted from conditions which were set forth in such petition.

SECTION 32. Section 47-5-909, Mississippi Code of 1972, is brought forward as follows:

47-5-909. (1) It is the policy of the Legislature that all inmates be removed from county jails as early as practicable. Sections 47-5-901 through 47-5-907 are temporary measures to help alleviate the immediate operating capacity limitations at correctional facilities and are not permanent measures to be included in the long-term operating capacity of the correctional system.

(2) Notwithstanding any other provision of law, to expedite the removal of inmates from county jails as early as practicable, absent a contract negotiated between the Department of Corrections and the county jail, the Department of Corrections shall pay county jails for housing state offenders out of any available funds as follows:

(a) Twenty-five Dollars ($25.00) per day per offender for days one (1) through thirty (30);

(2) Except as provided in Section 47-5-579, which is the provision authorizing a work initiative, the offenders must be under the supervision of the department at all times while working. The offenders shall be paid, by the entity or entities, wages at a rate which is not less than that paid for similar work in the locality in which the work is performed. The wages may be subject to deductions which shall not, in the aggregate, exceed eighty percent (80%) of gross wages. The deductions shall be limited to the following:

(a) To pay federal, state and local taxes;

(b) To pay reasonable charges for room and board as determined by regulations issued by the Commissioner of Corrections;

(c) To support the offender's family pursuant to state statute, court order or agreement by the offender; and

(4) Offenders who participate in the employment must do so voluntarily and must agree in advance to the specific deductions made from gross wages pursuant to this section and to all other financial arrangements or benefits resulting from participation in the employment.

(6) The caseworker shall meet with the inmate every eight (8) weeks from the date the offender received the case plan to review the inmate's case plan progress.

(7) Every four (4) months the department shall electronically submit a progress report on each parole-eligible inmate's case plan to the Parole Board. The board may meet to review an inmate's case plan and may provide written input to the caseworker on the inmate's progress toward completion of the case plan.

(8) The Parole Board shall provide semiannually to the Oversight Task Force the number of parole hearings held, the number of prisoners released to parole without a hearing and the number of parolees released after a hearing.

(9) If the Department of Corrections fails to adequately provide opportunity and access for the completion of such case plans, the Department of Corrections shall, to the extent possible, contract with regional jail facilities that offer educational development and job-training programs to facilitate the fulfillment of the case plans of parole-eligible inmates.

SECTION 38. Section 47-7-3.2, Mississippi Code of 1972, is brought forward as follows:

47-7-3.2. (1) Notwithstanding Section 47-5-138, 47-5-139, 47-5-138.1 or 47-5-142, no person convicted of a criminal offense on or after July 1, 2014, shall be released by the department until he or she has served no less than the percentage of the sentence or sentences imposed by the court as set forth below:

(a) Twenty-five percent (25%) or ten (10) years, whichever is less, for a nonviolent crime;

(b) Fifty percent (50%) or twenty (20) years, whichever is less, for a crime of violence pursuant to Section 97-3-2, except for robbery with a deadly weapon as defined in Section 97-3-79, drive-by shooting as defined in Section 97-3-109, or carjacking as defined in Section 97-3-117;

(c) Sixty percent (60%) or twenty-five (25) years, whichever is less, for robbery with a deadly weapon as defined in Section 97-3-79, drive-by shooting as defined in Section 97-3-109, or carjacking as defined in Section 97-3-117.

(2) This section shall not apply to:

(a) Offenders sentenced to life imprisonment;

(b) Offenders convicted as habitual offenders pursuant to Sections 99-19-81 through 99-19-87;

(c) Offenders serving a sentence for a sex offense; or

(d) Offenders serving a sentence for trafficking pursuant to Section 41-29-139(f).

SECTION 39. Section 47-7-15, Mississippi Code of 1972, is brought forward as follows:

47-7-15. The board shall adopt an official seal of which the courts shall take judicial notice. Decisions of the board shall be made by majority vote, except as provided in Section 47-7-5(9).

The board shall keep a record of its acts and shall notify each institution of its decisions relating to the persons who are or have been confined therein. At the close of each fiscal year the board shall submit to the Governor and to the Legislature a report with statistical and other data of its work.

SECTION 40. Section 47-7-17, Mississippi Code of 1972, is brought forward as follows:

47-7-17. (1) Within one (1) year after his admission and at such intervals thereafter as it may determine, the board shall secure and consider all pertinent information

regarding each offender, except any under sentence of death or otherwise ineligible for parole, including the circumstances of his offense, his previous social history, his previous criminal record, including any records of law enforcement agencies or of a youth court regarding that offender's juvenile criminal history, his conduct, employment and attitude while in the custody of the department, the case plan created to prepare the offender for parole, and the reports of such physical and mental examinations as have been made. The board shall furnish at least three (3) months' written notice to each such offender of the date on which he is eligible for parole.

(2) Except as provided in Section 47-7-18, the board shall require a parole-eligible offender to have a hearing as required in this chapter before the board and to be interviewed. The hearing shall be held no later than thirty (30) days prior to the month of eligibility. No application for parole of a person convicted of a capital offense shall be considered by the board unless and until notice of the filing of such application shall have been published at least once a week for two (2) weeks in a newspaper published in or having general circulation in the county in which the crime was committed. The board shall, within thirty (30) days prior to the scheduled hearing, also give notice of the filing of the application for parole to the victim of the offense for which the prisoner is incarcerated and being considered for parole or, in case the offense be homicide, a designee of the immediate family of the victim, provided the victim or designated family member has furnished in writing a current address to the board for such purpose. The victim or designated family member shall be provided an opportunity to be heard by the board before the board makes a decision regarding release on parole. The board shall consider whether any restitution ordered has been paid in full. Parole release shall, at the hearing, be ordered only for the best interest of society, not as an award of clemency; it shall not be considered to be a reduction of sentence or pardon. An offender shall be placed on parole only when arrangements have been made for his proper employment or for his maintenance and care, and when the board believes that he is able and willing to fulfill the obligations of a law-abiding citizen. When the board determines that the offender will need transitional housing upon release in order to improve the likelihood of the offender becoming a law-abiding citizen, the board may parole the offender with the condition that the inmate spends no more than six (6) months in a transitional reentry center. At least fifteen (15) days prior to the release of an offender on parole, the director of records of the department shall give the written notice which is required pursuant to Section 47-5-177. Every offender while on parole shall remain in the legal custody of the department from which he was released and shall be amenable to the orders of the board. Upon determination by the board that an offender is eligible for release by parole, notice shall also be given within at least fifteen (15) days before release, by the board to the victim of the offense or the victim's family member, as indicated above, regarding the date when the offender's release shall occur, provided a current address of the victim or the victim's family member has been furnished in writing to the board for such purpose.

(3) Failure to provide notice to the victim or the victim's family member of the filing of the application for parole or of any decision made by the board regarding parole shall not

constitute grounds for vacating an otherwise lawful parole determination nor shall it create any right or liability, civilly or criminally, against the board or any member thereof.

(4) A letter of protest against granting an offender parole shall not be treated as the conclusive and only reason for not granting parole.

(5) The board may adopt such other rules not inconsistent with law as it may deem proper or necessary with respect to the eligibility of offenders for parole, the conduct of parole hearings, or conditions to be imposed upon parolees, including a condition that the parolee submit, as provided in Section 47-5-601 to any type of breath, saliva or urine chemical analysis test, the purpose of which is to detect the possible presence of alcohol or a substance prohibited or controlled by any law of the State of Mississippi or the United States. The board shall have the authority to adopt rules related to the placement of

certain offenders on unsupervised parole and for the operation of transitional reentry centers. However, in no case shall an offender be placed on unsupervised parole before he has served a minimum of fifty percent (50%) of the period of supervised parole.

SECTION 41. Section 47-7-18, Mississippi Code of 1972, is brought forward as follows:

47-7-18 (1) No inmate convicted of a sex offense as defined by Section 45-33-23(h), a crime of violence as defined by Section 97-3-2, or both, nor an inmate who is eligible for geriatric parole shall be released on parole without a hearing before the Parole Board as required by Section 47-7-17. All other inmates eligible for parole pursuant to Section 47-7-3 shall be released from incarceration to parole supervision on the inmate's parole eligibility date, without a hearing before the board, if:

(a) The inmate has met the requirements of the parole case plan established pursuant to Section 47-7-3.1;

(b) A victim of the offense has not requested the board conduct a hearing;

(c) The inmate has not received a serious or major violation report within the past six (6) months;

(d) The inmate has agreed to the conditions of supervision; and

(e) The inmate has a discharge plan approved by the board.

(2) At least thirty (30) days prior to an inmate's parole eligibility date, the department shall notify the board in writing of the inmate's compliance or noncompliance with the case plan. If an inmate fails to meet a requirement of the case plan, prior to the parole eligibility date, he or she shall have a hearing before the board to determine if completion of the case plan can occur while in the community.

(3) Any inmate for whom there is insufficient information for the department to determine compliance with the case plan shall have a hearing with the board.

(4) A hearing shall be held with the board if requested by the victim following notification of the inmate's parole release date pursuant to Section 47-7-17.

(5) A hearing shall be held by the board if a law enforcement official from the community to which the inmate will return contacts the board or the department and requests a hearing to consider information relevant to public safety risks posed by the inmate if paroled at the initial parole eligibility date. The law enforcement official shall submit an explanation documenting these concerns for the board to consider.

(6) If a parole hearing is held, the board may determine the inmate has sufficiently complied with the case plan or that the incomplete case plan is not the fault of the inmate and that granting parole is not incompatible with public safety, the board may then parole the inmate with appropriate conditions. If the board determines that the inmate has sufficiently complied with the case plan but the discharge plan indicates that the inmate does not have appropriate housing immediately upon release, the board may parole the inmate to a transitional reentry center with the condition that the inmate spends no more than six (6) months in the center. If the board determines that the inmate has not substantively complied with the requirement(s) of the case plan it may deny parole. If the board denies parole, the board may schedule a subsequent parole hearing and, if a new date is scheduled, the board shall identify the corrective action the inmate will need to take in order to be granted parole. Any inmate not released at the time of the inmate's initial parole date shall have a parole hearing at least every year.

SECTION 42. (1) There is created a Correctional Facility Study Committee for the purpose of studying the following issues and making a report to the Legislature:

(a) The highest and best use and the efficiency of the State Penitentiary at Parchman in Sunflower and Quitman Counties and whether it would be in the best interest of the State of Mississippi to transfer its inmates, employees and programs to other state and regional facilities of the Mississippi Department of Corrections;

(b) Whether it would be in the best interest of the State of Mississippi to authorize the Mississippi Department of Corrections to hold the land at Parchman in trust and to lease the grounds and buildings for agricultural, industrial, commercial, residential recreational or other uses for a ground rental under certain conditions;

(c) Whether it would be in the best interest of the State of Mississippi to authorize the Mississippi Department of Corrections to designate an existing building at Parchman for the delivery of mental health services to inmates with mental illness incarcerated in any state or regional correctional facility to be known as the "Northwest Mississippi Facility for the Treatment and Care of Inmates With Mental Illness," and to prescribe standards for the operation of said mental health treatment facility; and

(d) Whether the buildings or other facilities at Parchman shall be renamed "Northwest Mississippi Correctional Facility."

(2) The committee shall be comprised of the following eight (8) members:

(a) The Chair of the House Corrections Committee;

(b) The chair of the Senate Corrections Committee;

(c) One (1) member of the Mississippi Senate, to be appointed by the Lieutenant Governor;

(d) One (1) member of the Mississippi House, to be appointed by the Speaker of the House of Representatives;

(e) One (1) member to be appointed by the Governor;

(f) The Commissioner of the Mississippi Department of Corrections, or a designee, as an ex officio nonvoting member;

(g) The Chairman of the Mississippi Parole Board, or a designee, as an ex officio nonvoting member; and

(h) The Commissioner of the Mississippi Department of Public Safety, or a designee, as an ex officio nonvoting member.

(3) Appointments to the study committee shall be made within thirty (30) days of the effective date of this act. At the first meeting, the committee shall elect from among its members a chairman, a vice chairman and any other officers determined to be necessary, and shall adopt rules for transacting business and keeping records. The study committee shall develop and report its findings to the Legislature on or before December 1, 2024.

(4) A majority of the members of the study committee shall constitute a quorum. In the adoption of rules, resolutions and reports, and in the election of a chairman, vice chairman and any other officers determined to be necessary, an affirmative vote of a majority of the members present shall be required.

(5) The study committee may request the Joint Legislative Committee on Performance Evaluation and Expenditure Review (PEER) to provide the staff and other support necessary for the study committee to perform its duties.

(6) To effectuate the purposes of this act, any department, division, board, bureau, committee, institution or agency of the state, or any political subdivision thereof, including criminal justice experts, shall, at the request of the chairman of the study committee, provide the facilities, assistance, information and data needed to enable the study committee to carry out its duties.

(7) The study committee shall be dissolved on or before January 1, 2025.

SECTION 43. This act shall take effect and be in force from and after July 1, 2024.

Further, amend by striking the title in its entirety and inserting in lieu thereof the following:

Amend by striking all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. Section 19-5-9, Mississippi Code of 1972, is amended as follows:

19-5-9. (1) The construction codes published by a nationally recognized code group which sets minimum standards and has the proper provisions to maintain up-to-date amendments are adopted as minimum standard guides for building, plumbing, electrical, gas, sanitary, and other related codes in Mississippi. Any county within the State of Mississippi, in the discretion of the board of supervisors, may adopt building codes, plumbing codes, electrical codes, sanitary codes, or other related codes dealing with general public health, safety or welfare, or a combination of the same, within but not exceeding the provisions of the construction codes published by nationally recognized code groups, by order or resolution in the manner prescribed in this section, but those codes so adopted shall apply only to the unincorporated areas of the county. However, those codes shall not apply to the erection, maintenance, repair or extension of farm buildings or farm structures, except as may be required under the terms of the "Flood Disaster Protection Act of 1973," and shall apply to a master planned community as defined in Section 19-5-10 only to the extent allowed in Section 19-5-10. The provisions of this section shall not be construed to authorize the adoption of any code which applies to the installation, repair or maintenance of electric wires, pipelines, apparatus, equipment or devices by or for a utility rendering public utility services, required by it to be utilized in the rendition of its duly authorized service to the public. Before any such code shall be adopted, it shall be either printed or typewritten and shall be presented in pamphlet form to the board of supervisors at a regular meeting. The order or resolution adopting the code shall not set out the code in full, but shall merely identify the same. The vote or passage of the order or resolution shall be the same as on any other order or resolution. After its adoption, the code or codes shall be certified to by the president and clerk of the board of supervisors and shall be filed as a permanent record in the office of the clerk who shall not be required to transcribe and record the same in the minute book as other orders and resolutions.

(2) If the board of supervisors of any county adopts or has adopted construction codes which do not have proper provisions to maintain up-to-date amendments, specifications in such codes for cements used in portland cement concrete shall be superseded by nationally recognized specifications referenced in any code adopted by the Mississippi Building Code Council.

(a) A declaratory judgment under Rule 57 of Mississippi Rules of Civil Procedure;

Amend by striking all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. Section 17-23-1, Mississippi Code of 1972, is amended as follows:

17-23-1. (1) There is established the Rural Fire Truck Acquisition Assistance Program to be administered by the Department of Insurance for the purpose of assisting counties and municipalities in the acquisition of fire trucks.

(2) There is created in the State Treasury a special fund to be designated as the "Rural Fire Truck Fund." The Legislature may appropriate that amount necessary to fulfill the obligations created under this section by the Department of Insurance, from the State General Fund to such special fund, which sum shall be added to the remainder of the money transferred on July 1, 1995, and during the 1996 Regular Session to the Rural Fire Truck Fund. Unexpended amounts remaining in the fund at the end of a fiscal year shall not lapse into the State General Fund, and any interest earned on amounts in the fund shall be deposited to the credit of the fund. After the expiration of the initial terms, all appointed members' terms shall be for a period of four (4) years from the expiration date of the previous term, and until such time as the member's successor is duly appointed and qualified.

(c) When appointing members to the Public Procurement Review Board, the Governor and Lieutenant Governor shall take into consideration persons who possess at least five (5) years of management experience in general business, health care or finance for an organization, corporation or other public or private entity. Any person, or any employee or owner of a company, who receives any grants, procurements or contracts that are subject to approval under this section shall not be appointed to the Public Procurement Review Board. Any person, or any employee or owner of a company, who is a principal of the source providing a personal or professional service shall not be appointed to the Public Procurement Review Board if the principal owns or controls a greater than five percent (5%) interest or has an ownership value of One Million Dollars ($1,000,000.00) in the source's business, whichever is smaller. (e) The members of the Public Procurement Review Board shall elect a chair from among the membership, and he or she shall preside over the meetings of the board. The board shall annually elect a vice chair, who shall serve in the absence of the chair. No business shall be transacted, including the adoption of rules of procedure, without the presence of a quorum of the board. Three (3) members shall be a quorum. No action shall be valid unless approved by a majority of the members present and voting, entered upon the minutes of the board and signed by the chair. Necessary clerical and administrative support for the board shall be provided by the Department of Finance and Administration. Minutes shall be kept of the proceedings of each meeting, copies of which shall be filed on a monthly basis with the chairs of the Accountability, Efficiency and

Transparency Committees of the Senate and House of Representatives and the chairs of the Appropriations Committees of the Senate and House of Representatives.

(2) The Public Procurement Review Board shall have the following powers and responsibilities:

(a) Approve all purchasing regulations governing the purchase or lease by any agency, as defined in Section 31-7-1, of commodities and equipment, except computer equipment acquired pursuant to Sections 25-53-1 through 25-53-29;

(b) Adopt regulations governing the approval of contracts let for the construction and maintenance of state buildings and other state facilities as well as related contracts for architectural and engineering services.

The provisions of this paragraph (b) shall not apply to such contracts involving buildings and other facilities of state institutions of higher learning which are self-administered as provided under this paragraph (b) or Section 37-101-15(m);

(c) Adopt regulations governing any lease or rental agreement by any state agency or department, including any state agency financed entirely by federal funds, for space outside the buildings under the jurisdiction of the Department of Finance and Administration. (d) Adopt, in its discretion, regulations to set aside at least five percent (5%) of anticipated annual expenditures for the purchase of commodities from minority businesses; however, all such set-aside purchases shall comply with all purchasing regulations promulgated by the department and shall be subject to all bid requirements. Set-aside purchases for which competitive bids are required shall be made from the lowest and best minority business bidder; however, if no minority bid is available or if the minority bid is more than two percent (2%) higher than the lowest bid, then bids shall be accepted and awarded to the lowest and best bidder. However, the provisions in this paragraph shall not be construed to prohibit the rejection of a bid when only one (1) bid is received. Such rejection shall be placed in the minutes. For the purposes of this paragraph, the term "minority business" means a business which is owned by a person who is a citizen or lawful permanent resident of the United States and who is:

(i) Black: having origins in any of the black racial groups of Africa;

(ii) Hispanic: of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish or Portuguese culture or origin regardless of race;

Any such rules and regulations shall provide for maintaining continuous internal audit covering the activities of such agency affecting its revenue and expenditures as required under Section 7-7-3(6)(d). Any rules and regulation changes related to personal and professional services contracts that the Public Procurement Review Board may propose shall be submitted to the Chairs of the Accountability, Efficiency and Transparency Committees of the Senate and House of Representatives and the Chairs of the Appropriation Committees of the Senate and House of Representatives at least fifteen (15) days before the board votes on the proposed changes, and those rules and regulation changes, if adopted, shall be promulgated in accordance with the Mississippi Administrative Procedures Act.

(ii) From and after July 1, 2024, the Public Procurement Review Board shall promulgate rules and regulations that require the Department of Finance and Administration to conduct personal and professional services solicitations as provided in subparagraph (i) of this paragraph for those services in excess of Seventy-five Thousand Dollars ($75,000.00) for the Department of Marine Resources, the Department of Wildlife, Fisheries and Parks, the Mississippi Emergency Management Agency and the Mississippi Development Authority, with assistance to be provided from these entities. Any powers that have been conferred upon agencies in order to comply with the provisions of this section for personal and professional services solicitations shall be conferred upon the Department of Finance and Administration to conduct personal and professional services solicitations for the Department of Marine Resources, the Department of Wildlife, Fisheries and Parks, the Mississippi Emergency Management Agency and the Mississippi Development Authority for those services in excess of Seventy-five Thousand Dollars ($75,000.00). The Department of Finance and Administration shall make any submissions that are required to be made by other agencies to the Public Procurement Review Board for the Department of Marine Resources, the Department of Wildlife, Fisheries and Parks, the Mississippi Emergency Management Agency and the Mississippi Development Authority.

The provisions of this subparagraph (ii) shall stand repealed on June 30, 2027;

(g) Approve all personal and professional services contracts involving the expenditures of funds in excess of Seventy-five Thousand Dollars ($75,000.00), except as provided in paragraph (f) of this subsection (2) and in subsection (8);

(h) Develop mandatory standards with respect to contractual services personnel that require invitations for public bid, requests for proposals, record keeping and financial responsibility of contractors. The Public Procurement Review Board shall, unless exempted under this paragraph (h) or under paragraph (i) or (o) of this subsection (2), require the agency involved to submit the procurement to a competitive procurement process, and may reserve the right to reject any or all resulting procurements;

(i) Prescribe certain circumstances by which agency heads may enter into contracts for personal and professional services without receiving prior approval from the Public Procurement Review Board. The Public Procurement Review Board may establish a preapproved list of providers of various personal and professional services for set prices with which state agencies may contract without bidding or prior approval from the board;

(i) Agency requirements may be fulfilled by procuring services performed incident to the state's own programs. The agency head shall determine in writing whether the price represents a fair market value for the services. When the procurements are made from other governmental entities, the private sector need not be solicited; however, these contracts shall still be submitted for approval to the Public Procurement Review Board.

(ii) Contracts between two (2) state agencies, both under Public Procurement Review Board purview, shall not require Public Procurement Review Board approval. However, the contracts shall still be entered into the enterprise resource planning system;

(j) Provide standards for the issuance of requests for proposals, the evaluation of proposals received, consideration of costs and quality of services proposed, contract negotiations, the administrative monitoring of contract performance by the agency and successful steps in terminating a contract;

(k) Present recommendations for governmental privatization and to evaluate privatization proposals submitted by any state agency;

(l) Authorize personal and professional service contracts to be effective for more than one (1) year provided a funding condition is included in any such multiple year contract, except the State Board of Education, which shall have the authority to enter into contractual agreements for student assessment for a period up to ten (10) years. The State Board of Education shall procure these services in accordance with the Public Procurement Review Board procurement regulations;

(m) Request the State Auditor to conduct a performance audit on any personal or professional service contract;

(n) Prepare an annual report to the Legislature concerning the issuance of personal and professional services contracts during the previous year, collecting any necessary information from state agencies in making such report;

(o) Develop and implement the following standards and procedures for the approval of any sole source contract for personal and professional services regardless of the value of the procurement:

(i) For the purposes of this paragraph (o), the term "sole source" means only one (1) source is available that can provide the required personal or professional service.

(ii) An agency that has been issued a binding, valid court order mandating that a particular source or provider must be used for the required service must include a copy of the applicable court order in all future sole source contract reviews for the particular personal or professional service referenced in the court order.

(iii) Any agency alleging to have a sole source for any personal or professional service, other than those exempted under paragraph (f) of this subsection (2) and subsection (8), shall publish on the procurement portal website established by Sections 25-53-151 and 27-104-165, for at least fourteen (14) days, the terms of the proposed contract for those services. In addition, the publication shall include, but is not limited to, the following information:

1. The personal or professional service offered in the contract;

2. An explanation of why the personal or professional service is the only one that can meet the needs of the agency;

3. An explanation of why the source is the only person or entity that can provide the required personal or professional service;

4. An explanation of why the amount to be expended for the personal or professional service is reasonable; and

5. The efforts that the agency went through to obtain the best possible price for the personal or professional service.

(iv) If any person or entity objects and proposes that the personal or professional service published under subparagraph (iii) of this paragraph (o) is not a sole source service and can be provided by another person or entity, then the objecting person or entity shall notify the Public Procurement Review Board and the agency that published the proposed sole source contract with a detailed explanation of why the personal or professional service is not a sole source service.

(v) 1. If the agency determines after review that the personal or professional service in the proposed sole source contract can be provided by another person or entity, then the agency must withdraw the sole source contract publication from the procurement portal website and submit the procurement of the personal or professional service to an advertised competitive bid or selection process.

2. If the agency determines after review that there is only one (1) source for the required personal or professional service, then the agency may appeal to the Public Procurement Review Board. The agency has the burden of proving that the personal or professional service is only provided by one (1) source.

3. If the Public Procurement Review Board has any reasonable doubt as to whether the personal or professional service can only be provided by one (1) source, then the agency must submit the procurement of the personal or professional service to an advertised competitive bid or selection process. No action taken by the Public Procurement Review Board in this appeal process shall be valid unless approved by a majority of the members of the Public Procurement Review Board present and voting.

(vi) The Public Procurement Review Board shall prepare and submit a quarterly report to the House of Representatives and Senate Accountability, Efficiency and Transparency Committees that details the sole source contracts presented to the Public Procurement Review Board and the reasons that the Public Procurement Review Board approved or rejected each contract. These quarterly reports shall also include the documentation and memoranda required in subsection (4) of this section. An agency that submitted a sole source contract shall be prepared to explain the sole source contract to each committee by December 15 of each year upon request by the committee;

(p) Assess any fines and administrative penalties provided for in Sections 31-7-401 through 31-7-423.

(3) All submissions shall be made sufficiently in advance of each monthly meeting of the Public Procurement Review Board as prescribed by the Public Procurement Review Board. If the Public Procurement Review Board rejects any contract submitted for review or approval, the Public Procurement Review Board shall clearly set out the reasons for its action, including, but not limited to, the policy that the agency has violated in its submitted contract and any corrective actions that the agency may take to amend the contract to comply with the rules and regulations of the Public Procurement Review Board.

(4) All sole source contracts for personal and professional services awarded by state agencies, other than those exempted under Section 27-104-7(2)(f) and (8), whether approved by an agency head or the Public Procurement Review Board, shall contain in the procurement file a written determination for the approval, using a request form

furnished by the Public Procurement Review Board. The written determination shall document the basis for the determination, including any market analysis conducted in order to ensure that the service required was practicably available from only one (1) source. A memorandum shall accompany the request form and address the following four (4) points:

(a) Explanation of why this service is the only service that can meet the needs of the purchasing agency;

(b) Explanation of why this vendor is the only practicably available source from which to obtain this service;

(c) Explanation of why the price is considered reasonable; and

(d) Description of the efforts that were made to conduct a noncompetitive negotiation to get the best possible price for the taxpayers.

(5) In conjunction with the State Personnel Board, the Public Procurement Review Board shall develop and promulgate rules and regulations to define the allowable legal relationship between contract employees and the contracting departments, agencies and institutions of state government under the jurisdiction of the State Personnel Board, in compliance with the applicable rules and regulations of the federal Internal Revenue Service (IRS) for federal employment tax purposes. Under these regulations, the usual common law rules are applicable to determine and require that such worker is an independent contractor and not an employee, requiring evidence of lawful behavioral control, lawful financial control and lawful relationship of the parties. Any state department, agency or institution shall only be authorized to contract for personnel services in compliance with those regulations.

(6) No member of the Public Procurement Review Board shall use his or her official authority or influence to coerce, by threat of discharge from employment, or otherwise, the purchase of commodities, the contracting for personal or professional services, or the contracting for public construction under this chapter.

(7) Notwithstanding any other laws or rules to the contrary, the provisions of subsection (2) of this section shall not be applicable to the Mississippi State Port Authority at Gulfport.

(8) Nothing in this section shall impair or limit the authority of the Board of Trustees of the Public Employees' Retirement System to enter into any personal or professional services contracts directly related to their constitutional obligation to manage the trust funds, including, but not limited to, actuarial, custodial banks, cash management, investment consultant and investment management contracts. Nothing in this section shall impair or limit the authority of the State Treasurer to enter into any personal or professional services contracts involving the management of trust funds, including, but not limited to, actuarial, custodial banks, cash management, investment consultant and investment management contracts.

(9) Through December 31, 2024, the provisions of this section related to rental agreements or leasing of real property for the purpose of conducting agency business shall not apply to the Office of Workforce Development created in Section 37-153-7.

SECTION 18. Section 27-65-75, Mississippi Code of 1972, is amended as follows:

27-65-75. On or before the fifteenth day of each month, the revenue collected under the provisions of this chapter during the preceding month shall be paid and distributed as follows:

(1) (a) On or before August 15, 1992, and each succeeding month thereafter through July 15, 1993, eighteen percent (18%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3) and 27-65-21, on business activities within a municipal corporation shall be allocated for distribution to the municipality and paid to the municipal corporation. Except as otherwise provided in this paragraph (a), on or before August 15, 1993, and each succeeding month thereafter, eighteen and one-half percent (18-1/2%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3), 27-65-21 and 27-65-24, on business activities within a municipal corporation shall be allocated for distribution to the municipality and paid to the municipal corporation. However, in the event the State Auditor issues a certificate of noncompliance pursuant to Section 21-35-31, the Department of Revenue shall withhold ten percent (10%) of the allocations and payments to the municipality that would otherwise be payable to the municipality under this paragraph (a) until such time that the department receives written notice of the cancellation of a certificate of noncompliance from the State Auditor.

A municipal corporation, for the purpose of distributing the tax under this subsection, shall mean and include all incorporated cities, towns and villages.

Monies allocated for distribution and credited to a municipal corporation under this paragraph may be pledged as security for a loan if the distribution received by the municipal corporation is otherwise authorized or required by law to be pledged as security for such a loan.

In any county having a county seat that is not an incorporated municipality, the distribution provided under this subsection shall be made as though the county seat was an incorporated municipality; however, the distribution to the municipality shall be paid to the county treasury in which the municipality is located, and those funds shall be used for road, bridge and street construction or maintenance in the county.

(b) On or before August 15, 2006, and each succeeding month thereafter, eighteen and one-half percent (18-1/2%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3) and 27-65-21, on business activities on the campus of a state institution of higher learning or community or junior college whose campus is not located within the corporate limits of a municipality, shall be allocated for distribution to the state institution of higher learning or community or junior college and paid to the state institution of higher learning or community or junior college.

(c) On or before August 15, 2018, and each succeeding month thereafter until August 14, 2019, two percent (2%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3), 27-65-21 and 27-65-24, on business activities within the corporate limits of the City of Jackson, Mississippi, shall be deposited into the Capitol Complex Improvement District Project Fund created in Section 29-5-215. On or before August 15, 2019, and each succeeding month thereafter until August 14, 2020, four percent (4%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3), 27-65-21 and 27-65-24, on business activities within the corporate limits of the City of Jackson, Mississippi, shall be deposited into the Capitol Complex Improvement District Project Fund created in Section 29-5-215. On or before August 15, 2020, and each succeeding month thereafter through July 15, 2023, six percent (6%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3), 27-65-21 and 27-65-24, on business activities within the corporate limits of the City of Jackson, Mississippi, shall be deposited into the Capitol Complex Improvement District Project Fund created in Section 29-5-215. On or before August 15,

2023, and each succeeding month thereafter, nine percent (9%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3), 27-65-21 and 27-65-24, on business activities within the corporate limits of the City of Jackson, Mississippi, shall be deposited into the Capitol Complex Improvement District Project Fund created in Section 29-5-215.

(d) (i) On or before the fifteenth day of the month that the diversion authorized by this section begins, and each succeeding month thereafter, eighteen and one-half percent (18-1/2%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3) and 27-65-21, on business activities within a redevelopment project area developed under a redevelopment plan adopted under the Tax Increment Financing Act (Section 21-45-1 et seq.) shall be allocated for distribution to the county in which the project area is located if:

1. The county:

a. Borders on the Mississippi Sound and the State of Alabama * * *; or

b. Is Harrison County, Mississippi, and the project area is within a radius of two (2) miles from the intersection of Interstate 10 and Menge Avenue;

2. The county has issued bonds under Section 21-45-9 to finance all or a portion of a redevelopment project in the redevelopment project area;

3. Any debt service for the indebtedness incurred is outstanding; and

4. A development with a value of Ten Million Dollars ($10,000,000.00) or more is, or will be, located in the redevelopment area.

(ii) Before any sales tax revenue may be allocated for distribution to a county under this paragraph, the county shall certify to the Department of Revenue that the requirements of this paragraph have been met, the amount of bonded indebtedness that has been incurred by the county for the redevelopment project and the expected date the indebtedness incurred by the county will be satisfied.

(iii) The diversion of sales tax revenue authorized by this paragraph shall begin the month following the month in which the Department of Revenue determines that the requirements of this paragraph have been met. The diversion shall end the month the indebtedness incurred by the county is satisfied. All revenue received by the county under this paragraph shall be deposited in the fund required to be created in the tax increment financing plan under Section 21-45-11 and be utilized solely to satisfy the indebtedness incurred by the county.

(2) On or before September 15, 1987, and each succeeding month thereafter, from the revenue collected under this chapter during the preceding month, One Million One Hundred Twenty-five Thousand Dollars ($1,125,000.00) shall be allocated for distribution to municipal corporations as defined under subsection (1) of this section in the proportion that the number of gallons of gasoline and diesel fuel sold by distributors to consumers and retailers in each such municipality during the preceding fiscal year bears to the total gallons of gasoline and diesel fuel sold by distributors to consumers and retailers in municipalities statewide during the preceding fiscal year. The Department of Revenue shall require all distributors of gasoline and diesel fuel to report to the department monthly the total number of gallons of gasoline and diesel fuel sold by them to consumers and retailers in each municipality during the preceding month. The Department of Revenue shall have the authority to promulgate such rules and regulations as is necessary to

determine the number of gallons of gasoline and diesel fuel sold by distributors to consumers and retailers in each municipality. In determining the percentage allocation of funds under this subsection for the fiscal year beginning July 1, 1987, and ending June 30, 1988, the Department of Revenue may consider gallons of gasoline and diesel fuel sold for a period of less than one (1) fiscal year. For the purposes of this subsection, the term "fiscal year" means the fiscal year beginning July 1 of a year.

(3) On or before September 15, 1987, and on or before the fifteenth day of each succeeding month, until the date specified in Section 65-39-35, the proceeds derived from contractors' taxes levied under Section 27-65-21 on contracts for the construction or reconstruction of highways designated under the highway program created under Section 65-3-97 shall, except as otherwise provided in Section 31-17-127, be deposited into the State Treasury to the credit of the State Highway Fund to be used to fund that highway program. The Mississippi Department of Transportation shall provide to the Department of Revenue such information as is necessary to determine the amount of proceeds to be distributed under this subsection.

(4) On or before August 15, 1994, and on or before the fifteenth day of each succeeding month through July 15, 1999, from the proceeds of gasoline, diesel fuel or kerosene taxes as provided in Section 27-5-101(a)(ii)1, Four Million Dollars ($4,000,000.00) shall be deposited in the State Treasury to the credit of a special fund designated as the "State Aid Road Fund," created by Section 65-9-17. On or before August 15, 1999, and on or before the fifteenth day of each succeeding month, from the total amount of the proceeds of gasoline, diesel fuel or kerosene taxes apportioned by Section 27-5-101(a)(ii)1, Four Million Dollars ($4,000,000.00) or an amount equal to twenty-three and one-fourth percent (23-1/4%) of those funds, whichever is the greater amount, shall be deposited in the State Treasury to the credit of the "State Aid Road Fund," created by Section 65-9-17. Those funds shall be pledged to pay the principal of and interest on state aid road bonds heretofore issued under Sections 19-9-51 through 19-9-77, in lieu of and in substitution for the funds previously allocated to counties under this section. Those funds may not be pledged for the payment of any state aid road bonds issued after April 1, 1981; however, this prohibition against the pledging of any such funds for the payment of bonds shall not apply to any bonds for which intent to issue those bonds has been published for the first time, as provided by law before March 29, 1981. From the amount of taxes paid into the special fund under this subsection and subsection (9) of this section, there shall be first deducted and paid the amount necessary to pay the expenses of the Office of State Aid Road Construction, as authorized by the Legislature for all other general and special fund agencies. The remainder of the fund shall be allocated monthly to the several counties in accordance with the following formula:

(a) One-third (1/3) shall be allocated to all counties in equal shares;

(b) One-third (1/3) shall be allocated to counties based on the proportion that the total number of rural road miles in a county bears to the total number of rural road miles in all counties of the state; and

(c) One-third (1/3) shall be allocated to counties based on the proportion that the rural population of the county bears to the total rural population in all counties of the state, according to the latest federal decennial census.

For the purposes of this subsection, the term "gasoline, diesel fuel or kerosene taxes" means such taxes as defined in paragraph (f) of Section 27-5-101.

The amount of funds allocated to any county under this subsection for any fiscal year after fiscal year 1994 shall not be less than the amount allocated to the county for fiscal year 1994.

Any reference in the general laws of this state or the Mississippi Code of 1972 to Section 27-5-105 shall mean and be construed to refer and apply to subsection (4) of Section 27-65-75.

(5) One Million Six Hundred Sixty-six Thousand Six Hundred Sixty-six Dollars ($1,666,666.00) each month shall be paid into the special fund known as the "Educational Facilities Revolving Loan Fund" created and existing under the provisions of Section 37-47-24. Those payments into that fund are to be made on the last day of each succeeding month hereafter. This subsection (5) shall stand repealed on July 1, 2026.

(6) An amount each month beginning August 15, 1983, through November 15, 1986, as specified in Section 6, Chapter 542, Laws of 1983, shall be paid into the special fund known as the Correctional Facilities Construction Fund created in Section 6, Chapter 542, Laws of 1983.

(7) On or before August 15, 1992, and each succeeding month thereafter through July 15, 2000, two and two hundred sixty-six one-thousandths percent (2.266%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Section 27-65-17(2), shall be deposited by the department into the School Ad Valorem Tax Reduction Fund created under Section 37-61-35. On or before August 15, 2000, and each succeeding month thereafter, two and two hundred sixty-six one-thousandths percent (2.266%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Section 27-65-17(2), shall be deposited into the School Ad Valorem Tax Reduction Fund created under Section 37-61-35 until such time that the total amount deposited into the fund during a fiscal year equals Forty-two Million Dollars ($42,000,000.00). (26) (a) It shall be the duty of the municipal officials of any municipality that expands its limits, or of any community that incorporates as a municipality, to notify the commissioner of that action thirty (30) days before the effective date. (b) (i) Except as otherwise provided in subparagraph (ii) of this paragraph, if any funds have been erroneously disbursed to any municipality or any overpayment of tax is recovered by the taxpayer, the commissioner may make correction and adjust the error or overpayment with the municipality by withholding the necessary funds from any later payment to be made to the municipality.

Senator Parker offered the following SUBSTITUTE FOR COMMITTEE AMENDMENT NO. 1.

Amend by striking all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. Section 25-11-5, Mississippi Code of 1972, is amended as follows:

25-11-5. For the purposes of this article:

(a) The term "wages" means all remuneration for employment as defined herein, including the cash value of all remuneration paid in any medium other than cash, except that such term shall not include that part of such remuneration which, even if it were for "employment" within the meaning of the Federal Insurance Contributions Act, would not constitute "wages" within the meaning of that act. The amount by which an eligible employee's salary is reduced pursuant to a salary reduction agreement authorized under Section 25-17-5 shall be excluded from the term "wages," provided such exclusion does not conflict with federal law, including federal regulations and federal administrative interpretations thereunder, pertaining to the Federal Insurance Contributions Act or to Internal Revenue Code Section 125 cafeteria plans. If any salary reduction amounts excluded from "wages" under the prior sentence are determined to be "wages" by the Social Security Administration or the Internal Revenue Service and payroll tax deficiencies are assessed, the deficiencies shall be borne by the eligible employee and the adopting state agency or local governmental entity and not by the Public Employees' Retirement System of Mississippi as state administrator.

(b) The term "employment" means any service performed by an employee in the employ of the state, any political subdivision thereof, or any instrumentality of either for such employer, except (i) service which in the absence of an agreement entered into under this article would constitute "employment" as defined in the Social Security Act; or (ii) service which under applicable federal law may not be included in an agreement between the state and the Secretary of Health, Education and Welfare entered into under this article; or (iii) service in positions covered by a retirement system established by the

state or by a political subdivision or an instrumentality of either on the date the agreement referred to in Section 25-11-7 or any modification of such agreement is made applicable to the coverage group (as defined in Section 218(b)(5) of the Social Security Act) to which the employee performing such services belongs. Service which under the Social Security Act may be included in an agreement only upon certification by the Governor in accordance with Section 218(d)(3) of that act shall be included in the term "employment" if and when the Governor issues, with respect to such service, a certificate to the Secretary of Health, Education and Welfare pursuant to Section 25-11-11(5) of this article.

Services, the compensation for which is on a fee basis, may, to the extent permitted by applicable federal law, be excluded in any plan or agreement approved under or authorized by this article.

(c) The term "employee," in addition to its usual meaning, includes an officer of a state, a political subdivision thereof, or an instrumentality of either, and all school employees.

(d) The term "board" means the Board of Trustees of the Public Employees' Retirement System of Mississippi as provided by Section 25-11-15 of this article.

(e) The term "Secretary of Health, Education and Welfare" includes any individual to whom the Secretary of Health, Education and Welfare has delegated any functions under the Social Security Act with respect to coverage under such act of employees of states and their political subdivisions and, with respect to any action taken prior to April 11, 1953, includes the federal security administrator or any individual to whom he had delegated any such function.

(f) The term "political subdivision" includes any county, municipality, or other political subdivision within the State of Mississippi to which has been delegated certain functions of local government, and employees thereof who are eligible to become a coverage group under the terms of the Social Security Act.

(g) The term "instrumentality," when referring to an instrumentality of the state or political subdivision, includes only a juristic entity which is legally separate and distinct from the state or such subdivision and whose employees are not by virtue of their relation to such entity employees of the state or such subdivision. A health care collaborative or other organization formed pursuant to Sections 37-115-50 through 37-115-50.3 shall be considered an instrumentality of the state.

(h) The term "applicable federal law" refers to such provisions of federal law (including federal regulations and requirements issued pursuant thereto), as provide for extending the benefits of Title II of the Social Security Act to employees of states, political subdivisions, and their instrumentalities.

(i) The term "Social Security Act" means the Act of Congress approved August 14, 1935, Chapter 531, 49 Stat 620, officially cited as "The Social Security Act," as such act has been and may from time to time be amended.

(j) The term "Federal Insurance Contribution Act" means subchapter A of Chapter 9 of the Federal Internal Revenue Code of 1939 and subchapters A and B of Chapter 21 of the Federal Internal Revenue Code of 1954, as such Codes have been and may from time to time be amended; and the term "employee tax" means the tax imposed by Section 1400 of such Code of 1939 and Section 3101 of such Code of 1954.

SECTION 2. Section 25-11-103, Mississippi Code of 1972, is amended as follows:

25-11-103. (1) The following words and phrases as used in Articles 1 and 3, unless a different meaning is plainly required by the context, have the following meanings:

(a) "Accumulated contributions" means the sum of all the amounts deducted from the compensation of a member and credited to his or her individual account in the annuity savings account, together with regular interest as provided in Section 25-11-123.

(b) "Actuarial cost" means the amount of funds presently required to provide future benefits as determined by the board based on applicable tables and formulas provided by the actuary.

(c) "Actuarial equivalent" means a benefit of equal value to the accumulated contributions, annuity or benefit, as the case may be, when computed upon the basis of such mortality tables as adopted by the board of trustees, and regular interest.

(d) "Actuarial tables" mean such tables of mortality and rates of interest as adopted by the board in accordance with the recommendation of the actuary.

(e) "Agency" means any governmental body employing persons in the state service.

(f) "Average compensation" means the average of the four (4) highest years of earned compensation reported for an employee in a fiscal or calendar year period, or combination thereof that do not overlap, or the last forty-eight (48) consecutive months of earned compensation reported for an employee. The four (4) years need not be successive or joined years of service. In computing the average compensation for retirement, disability or survivor benefits, any amount lawfully paid in a lump sum for personal leave or major medical leave shall be included in the calculation to the extent that the amount does not exceed an amount that is equal to thirty (30) days of earned compensation and to the extent that it does not cause the employee's earned compensation to exceed the maximum reportable amount specified in paragraph (k) of this subsection; however, this thirty-day limitation shall not prevent the inclusion in the calculation of leave earned under federal regulations before July 1, 1976, and frozen as of that date as referred to in Section 25-3-99. In computing the average compensation, no amounts shall be used that are in excess of the amount on which contributions were required and paid, and no nontaxable amounts paid by the employer for health or life insurance premiums for the employee shall be used. If any member who is or has been granted any increase in annual salary or compensation of more than eight percent (8%) retires within twenty-four (24) months from the date that the increase becomes effective, then the board shall exclude that part of the increase in salary or compensation that exceeds eight percent (8%) in calculating that member's average compensation for retirement purposes. The board may enforce this provision by rule or regulation. However, increases in compensation in excess of eight percent (8%) per year granted within twenty-four (24) months of the date of retirement may be included in the calculation of average compensation if satisfactory proof is presented to the board showing that the increase in compensation was the result of an actual change in the position held or services rendered, or that the compensation increase was authorized by the State Personnel Board or was increased as a result of statutory enactment, and the employer furnishes an affidavit stating that the increase granted within the last twenty-four (24) months was not contingent on a promise or agreement of the employee to retire. Nothing in Section 25-3-31 shall affect the calculation of the average compensation of any member for the purposes of this article. The average compensation of any member who retires before July 1, 1992, shall not exceed the annual salary of the Governor.

(g) "Beneficiary" means any person entitled to receive a retirement allowance, an annuity or other benefit as provided by Articles 1 and 3. The term "beneficiary" may also include an organization, estate, trust or entity; however, a beneficiary designated or entitled to receive monthly payments under an optional settlement based on life contingency or under a statutory monthly benefit may only be a natural person. In the event of the death before retirement of any member who became a member of the system before July 1, 2007, and whose spouse and/or children are not entitled to a retirement allowance on the basis that the member has less than four (4)

years of membership service credit, or who became a member of the system on or after July 1, 2007, and whose spouse and/or children are not entitled to a retirement allowance on the basis that the member has less than eight (8) years of membership service credit, and/or has not been married for a minimum of one (1) year or the spouse has waived his or her entitlement to a retirement allowance under Section 25-11-114, the lawful spouse of a member at the time of the death of the member shall be the beneficiary of the member unless the member has designated another beneficiary after the date of marriage in writing, and filed that writing in the office of the executive director of the board of trustees. No designation or change of beneficiary shall be made in any other manner.

(h) "Board" means the board of trustees provided in Section 25-11-15 to administer the retirement system created under this article.

(i) "Creditable service" means "prior service," "retroactive service" and all lawfully credited unused leave not exceeding the accrual rates and limitations provided in Section 25-3-91 et seq., as of the date of withdrawal from service plus "membership service" and other service for which credit is allowable as provided in Section 25-11-109. Except to limit creditable service reported to the system for the purpose of computing an employee's retirement allowance or annuity or benefits provided in this article, nothing in this paragraph shall limit or otherwise restrict the power of the governing authority of a municipality or other political subdivision of the state to adopt such vacation and sick leave policies as it deems necessary.

(j) "Child" means either a natural child of the member, a child that has been made a child of the member by applicable court action before the death of the member, or a child under the permanent care of the member at the time of the latter's death, which permanent care status shall be determined by evidence satisfactory to the board. For purposes of this paragraph, a natural child of the member is a child of the member that is conceived before the death of the member.

(k) "Earned compensation" means the full amount earned during a fiscal year by an employee not to exceed the employee compensation limit set pursuant to Section 401(a)(17) of the Internal Revenue Code for the calendar year in which the fiscal year begins and proportionately for less than one (1) year of service. Except as otherwise provided in this paragraph, the value of maintenance furnished to an employee shall not be included in earned compensation. Earned compensation shall not include any amounts paid by the employer for health or life insurance premiums for an employee. Earned compensation shall be limited to the regular periodic compensation paid, exclusive of litigation fees, bond fees, performance-based incentive payments, and other similar extraordinary nonrecurring payments. In addition, any member in a covered position, as defined by Public Employees' Retirement System laws and regulations, who is also employed by another covered agency or political subdivision shall have the earnings of that additional employment reported to the Public Employees' Retirement System regardless of whether the additional employment is sufficient in itself to be a covered position. In addition, computation of earned compensation shall be governed by the following:

(i) In the case of constables, the net earnings from their office after deduction of expenses shall apply, except that in no case shall earned compensation be less than the total direct payments made by the state or governmental subdivisions to the official.

(ii) In the case of chancery or circuit clerks, the net earnings from their office after deduction of expenses shall apply as expressed in Section 25-11-123(f)(4).

(iii) In the case of members of the State Legislature, all remuneration or amounts paid, except mileage allowance, shall apply.

(iv) The amount by which an eligible employee's salary is reduced under a salary reduction agreement authorized under Section 25-17-5 shall be included as earned compensation under this paragraph, provided this inclusion does not conflict with federal law, including federal regulations and federal administrative interpretations under the federal law, pertaining to the Federal Insurance Contributions Act or to Internal Revenue Code Section 125 cafeteria plans.

(v) Compensation in addition to an employee's base salary that is paid to the employee under the vacation and sick leave policies of a municipality or other political subdivision of the state that employs him or her that exceeds the maximums authorized by Section 25-3-91 et seq. shall be excluded from the calculation of earned compensation under this article.

(vi) The maximum salary applicable for retirement purposes before July 1, 1992, shall be the salary of the Governor.

(vii) Nothing in Section 25-3-31 shall affect the determination of the earned compensation of any member for the purposes of this article.

(viii) The value of maintenance furnished to an employee before July 1, 2013, for which the proper amount of employer and employee contributions have been paid, shall be included in earned compensation. SECTION 3. Section 25-11-127, Mississippi Code of 1972, is amended as follows:

25-11-127. (1) (a) No person who is being paid a retirement allowance or a pension after retirement under this article shall be employed or paid for any service by the State of Mississippi, including services as an employee, contract worker, contractual employee or independent contractor, until the retired person has been retired for not less than ninety (90) consecutive days from his or her effective date of retirement. After the

person has been retired for not less than ninety (90) consecutive days from his or her effective date of retirement or such later date as established by the board, he or she may be reemployed while being paid a retirement allowance under the terms and conditions provided in this section or in Section 25-11-126.

(b) No retiree of this retirement system who is reemployed or is reelected to office after retirement shall continue to draw retirement benefits while so reemployed, except as provided in this section or in Section 25-11-126.

(c) No person employed or elected under the exceptions provided for in this section shall become a member under Article 3 of the retirement system.

(2) Except as otherwise provided in Section 25-11-126, any person who has been retired under the provisions of Article 3 and who is later reemployed in service covered by this article shall cease to receive benefits under this article and shall again become a contributing member of the retirement system. When the person retires again, if the reemployment exceeds six (6) months, the person shall have his or her benefit recomputed, including service after again becoming a member, provided that the total retirement allowance paid to the retired member in his or her previous retirement shall be deducted from the member's retirement reserve and taken into consideration in recalculating the retirement allowance under a new option selected.

(3) The board shall have the right to prescribe rules and regulations for carrying out the provisions of this section.

(4) The provisions of this section shall not be construed to prohibit any retiree, regardless of age, from being employed and drawing a retirement allowance either:

(a) For a period of time not to exceed one-half (1/2) of the normal working days for the position in any fiscal year during which the retiree will receive no more than one-half (1/2) of the salary in effect for the position at the time of employment, or

(b) For a period of time in any fiscal year sufficient in length to permit a retiree to earn not in excess of twenty-five percent (25%) of retiree's average compensation.

To determine the normal working days for a position under paragraph (a) of this subsection, the employer shall determine the required number of working days for the position on a full-time basis and the equivalent number of hours representing the full-time position. The retiree then may work up to one-half (1/2) of the required number of working days or up to one-half (1/2) of the equivalent number of hours and receive up to one-half (1/2) of the salary for the position. In the case of employment with multiple employers, the limitation shall equal one-half (1/2) of the number of days or hours for a single full-time position.

Notice shall be given in writing to the executive director, setting forth the facts upon which the employment is being made, and the notice shall be given within five (5) days from the date of employment and also from the date of termination of the employment.

(5) Except as otherwise provided in subsection (6) of this section, the employer of any person who is receiving a retirement allowance and who is employed in service covered by subsection (4) of this section as an employee or a contractual employee shall pay to the board the full amount of the employer's contribution on the amount of compensation received by the retiree for his or her employment in accordance with regulations prescribed by the board. The retiree shall not receive any additional creditable service in the retirement system as a result of the payment of the employer's contribution. This subsection does not apply to persons who are receiving a retirement allowance and who contract with an employer to provide services as a true independent contractor, as defined by the board through regulation.

(6) (a) A member may retire and continue in municipal or county elective office provided that the member has reached the age and/or service requirement that will not result in a prohibited in-service distribution as defined by the Internal Revenue Service, or a retiree may be elected to a municipal or county office, provided that the person:

(i) Files annually, in writing, in the office of the employer and the office of the executive director of the system before the person takes office or as soon as possible after retirement, a waiver of all salary or compensation and elects to receive in lieu of that salary or compensation a retirement allowance as provided in this section, in which event no salary or compensation shall thereafter be due or payable for those services; however, any such officer or employee may receive, in addition to the retirement allowance, office expense allowance, mileage or travel expense authorized by any statute of the State of Mississippi; or

(ii) Elects to receive compensation for that elective office in an amount not to exceed twenty-five percent (25%) of the retiree's average compensation. In order to receive compensation as allowed in this subparagraph, the retiree shall file annually, in writing, in the office of the employer and the office of the executive director of the system, an election to receive, in addition to a retirement allowance, compensation as allowed in this subparagraph.

(b) The municipality or county in which the retired person holds elective office shall pay to the board the amount of the employer's contributions on the full amount of the regular compensation for the elective office that the retired person holds.

(c) As used in this subsection, the term "compensation" does not include office expense allowance, mileage or travel expense authorized by a statute of the State of Mississippi.

(7) Notwithstanding the foregoing and any other provision of law to the contrary, this section shall not apply to any person who has been retired under this article for ninety (90) consecutive days or more from his or her effective date of retirement from the system if employed by or paid for any service by a health care collaborative or other organization formed pursuant to Sections 37-115-50 through 37-115-50.3, unless the health care collaborative or other organization elects to participate in the system, as provided for by Section 25-11-105(f).

(8) Any retired teacher who returns to work in accordance with this section shall not be eligible to return to work under the provisions of Section 25-11-126.

SECTION 4. The following shall be codified as Section

25-11-126, Mississippi Code of 1972:

25-11-126. (1) Any person who has at least thirty (30) years of creditable service, who was employed as a public school teacher at the time of his or her retirement, has been retired at least ninety (90) days and is receiving a retirement allowance, and holds a standard teaching license in Mississippi, may be employed as a teacher in a public school district after retirement, and choose to continue receiving the retirement allowance under this article during his or her employment as a teacher after retirement in addition to receiving the salary authorized under this section, along with the local contribution of the school district in which the retiree is employed, at the discretion of the school district. Any teacher who has retired with at least twenty-five (25) years of creditable service as of July 1, 2024, may also participate in this program if the teacher otherwise qualifies under this act.

(2) A retired teacher may only be hired to teach in a school district designated by the Department of Education as having critical shortages and/or critical subject-area

shortages, and shall hold the related standard teaching license and/or endorsements to teach in the subject area. The base compensation authorized for returning retired teachers under Section 37-19-7 shall not be graduated annually in the same manner as teachers who are employed by a school district under traditional employment guidelines, but shall remain static for the entirety of his or her eligible teaching period as a retired teacher.

(3) (a) A retired teacher may be employed as a teacher, continue receiving his or her retirement allowance and be a contributing member of the system without accruing additional retirement benefits for a total of five (5) years, which may be performed consecutively or intermittently. This method is designed specifically to provide funding for the system to actuarially offset any pension liability created by this act. Each school district hiring retired teachers under the authority of this section, shall make a direct payment to the system, which shall serve as pension liability participation assessment. The pension liability participation assessment and the retired teacher's salary for returning to work shall be determined as follows:

(i) A school district shall rely on the salary schedule in Section 37-19-7 in considering the salary for a retired teacher; provided, however, that the school district may allocate up to one hundred twenty-five percent (125%) of the amount provided under the salary schedule comparable to the teacher's years of service and license type as salary and assessment under the program;

(ii) After determining the retired teacher's compensation, the school district may pay no more than fifty percent (50%) of the retired teacher's compensation as salary to the retired teacher; and

(iii) The remaining fifty percent (50%) of the retired teacher's compensation as salary shall be paid by the school district to PERS as a pension liability participation assessment.

(b) If a retired teacher, reemployed under the authority of this section, works in a school district for any portion of a scholastic year less than a full contractual term of traditional teachers, the time worked by the retired teacher shall constitute one (1) of the five (5) years of post retirement teaching eligibility. A retired teacher, under the authority of this section, shall be entitled to work in any applicable school district and shall not be obligated to remain in any one (1) school district for the entirety of his or her post retirement teaching eligibility, but shall be cumulative in nature so as not to exceed five (5) years. The salary authorized under Section 37-19-7 for retired teachers shall be prorated for any period worked by the retired teacher that is less than one (1) full academic year.

(c) The State Department of Education shall transfer to the system the Mississippi Adequate Education Program funds of local school districts that on or after July 1, 2024, hire retired members as teachers under this section and other funds that otherwise would have been payable to the districts if the districts had not taken advantage of this section. The crediting of assets and financing shall follow the provisions of Section 25-11-123.

(d) Local educational agencies shall transfer to the system Mississippi Adequate Education Program funds of local school districts that on or after July 1, 2024, hire retired members as teachers under this section and other funds that otherwise would have been payable to the districts if the districts had not taken advantage of this section. The crediting of assets and financing must follow the provisions of Section 25-11-123.

(4) Under the authority of this section, school districts may employ retired teachers based on criteria established by the department of education for critical teacher shortage areas and critical subject-matter areas. A school district that is not within a critical teacher shortage area may employ teachers for critical subject-matter areas.

(5) A person may be hired under this section subject to the following conditions:

(a) The retired member holds any teacher's professional license or certificate as may be required in Section 37-3-2, and holds the related standard teaching license and/or endorsements to teach in the applicable subject area;

(b) The superintendent of the employing school district certifies in writing to the State Department of Education that the retired member has the requisite experience, training and expertise for the position to be filled;

(c) The superintendent of the school district certifies or the principal of the school certifies that there was no preexisting arrangement for the person to be hired;

(d) The person had a satisfactory performance review for the most recent period before retirement; and

(e) The person is hired to teach in a critical subject-matter area or in a critical teacher shortage area.

(6) The State Superintendent of Public Education shall report the persons who are employed under this section to the executive director.

(7) The Department of Education shall promulgate regulations that prescribe a salary schedule that reflects the provisions of this act. Each school district shall create a policy, approved by the local school board, related to the hiring of retired teachers and including, but not limited to, the hiring of full and part-time retired teacher employees under this section and Section 25-11-127.

(8) Any retired teacher who returns to work in accordance with this section shall not be eligible to return to work under the provisions of Section 25-11-127.

SECTION 5. Section 37-19-7, Mississippi Code of 1972, is amended as follows:

37-19-7. (1) The allowance in the Mississippi Adequate Education Program for teachers' salaries in each public school district shall be determined and paid in accordance with the scale for teachers' salaries as provided in this subsection. 2024-2025 AND SUBSEQUENT SCHOOL YEARS MINIMUM SALARY SCHEDULE

The school district, with assistance from the Department of Education, shall consider the teacher's years of service and license type and determine the corresponding salary for the retired teacher. After determining the retired teacher's corresponding salary, the school district may allocate up to one hundred and twenty-five percent (125%) of the amount provided under the salary schedule for such teacher, as applicable, as salary and assessment under the program.

After determining the retired teacher's salary, the school district may pay no more than fifty percent (50%) of the retired teacher's compensation as salary to the retired teacher. The remaining fifty percent (50%) of the retired teacher's compensation as salary shall be paid by the school district to PERS as a pension liability participation assessment.

It is the intent of the Legislature that any state funds made available for salaries of licensed personnel in excess of the funds paid for such salaries for the 1986-1987 school year shall be paid to licensed personnel pursuant to a personnel appraisal and compensation system implemented by the State Board of Education. The State Board of Education shall have the authority to adopt and amend rules and regulations as are necessary to establish, administer and maintain the system.

All teachers employed on a full-time basis shall be paid a minimum salary in accordance with the above scale. However, no school district shall receive any funds under this section for any school year during which the local supplement paid to any individual teacher shall have been reduced to a sum less than that paid to that individual teacher for performing the same duties from local supplement during the immediately preceding school year. The amount actually spent for the purposes of group health and/or life insurance shall be considered as a part of the aggregate amount of local supplement but shall not be considered a part of the amount of individual local supplement.

The level of professional training of each teacher to be used in establishing the salary allotment for the teachers for each year shall be determined by the type of valid teacher's license issued to those teachers on or before October 1 of the current school year. However, school districts are authorized, in their discretion, to negotiate the salary levels applicable to licensed employees who are receiving retirement benefits from the retirement system of another state, and the annual experience increment provided above in Section 37-19-7 shall not be applicable to any such retired certificated employee.

(2) (a) The following employees shall receive an annual salary supplement in the amount of Six Thousand Dollars ($6,000.00), plus fringe benefits, in addition to any other compensation to which the employee may be entitled:

(i) Any licensed teacher or retired teacher employed by a school district under the authority of Section 25-11-126 who has met the requirements and acquired a Master Teacher certificate from the National Board for Professional Teaching Standards and who is employed by a local school board or the State Board of Education as a teacher and not as an administrator. Such teacher shall submit documentation to the State Department of Education that the certificate was received prior to October 15 in order to be eligible for the full salary supplement in the current school year, or the teacher shall submit such documentation to the State Department of Education prior to February 15 in order to be eligible for a prorated salary supplement beginning with the second term of the school year.

(ii) A licensed nurse who has met the requirements and acquired a certificate from the National Board for Certification of School Nurses, Inc., and who is employed by a local school board or the State Board of Education as a school nurse and not as an administrator. The licensed school nurse shall submit documentation to the State Department of Education that the certificate was received before October 15 in order

to be eligible for the full salary supplement in the current school year, or the licensed school nurse shall submit the documentation to the State Department of Education before February 15 in order to be eligible for a prorated salary supplement beginning with the second term of the school year.

(iii) Any licensed school counselor who has met the requirements and acquired a National Certified School Counselor (NCSC) endorsement from the National Board of Certified Counselors and who is employed by a local school board or the State Board of Education as a counselor and not as an administrator. Such licensed school counselor shall submit documentation to the State Department of Education that the endorsement was received prior to October 15 in order to be eligible for the full salary supplement in the current school year, or the licensed school counselor shall submit such documentation to the State Department of Education prior to February 15 in order to be eligible for a prorated salary supplement beginning with the second term of the school year. However, any school counselor who started the National Board for Professional Teaching Standards process for school counselors between June 1, 2003, and June 30, 2004, and completes the requirements and acquires the Master Teacher certificate shall be entitled to the master teacher supplement, and those counselors who complete the process shall be entitled to a one-time reimbursement for the actual cost of the process as outlined in paragraph (b) of this subsection.

(iv) Any licensed speech-language pathologist and audiologist who has met the requirements and acquired a Certificate of Clinical Competence from the American Speech-Language-Hearing Association and any certified academic language therapist (CALT) who has met the certification requirements of the Academic Language Therapy Association and who is employed by a local school board. The licensed speech-language pathologist and audiologist and certified academic language therapist shall submit documentation to the State Department of Education that the certificate or endorsement was received before October 15 in order to be eligible for the full salary supplement in the current school year, or the licensed speech-language pathologist and audiologist and certified academic language therapist shall submit the documentation to the State Department of Education before February 15 in order to be eligible for a prorated salary supplement beginning with the second term of the school year.

(v) Any licensed athletic trainer who has met the requirements and acquired Board Certification for the Athletic Trainer from the Board of Certification, Inc., and who is employed by a local school board or the State Board of Education as an athletic trainer and not as an administrator. The licensed athletic trainer shall submit documentation to the State Department of Education that the certificate was received before October 15 in order to be eligible for the full salary supplement in the current school year, or the licensed athletic trainer shall submit the documentation to the State Department of Education before February 15 in order to be eligible for a prorated salary supplement beginning with the second term of the school year.

(b) An employee shall be reimbursed for the actual cost of completing each component of acquiring the certificate or endorsement, excluding any costs incurred for postgraduate courses, not to exceed Five Hundred Dollars ($500.00) for each component, not to exceed four (4) components, for a teacher, school counselor or speech-language pathologist and audiologist, regardless of whether or not the process resulted in the award of the certificate or endorsement. A local school district or any private individual or entity may pay the cost of completing the process of acquiring the certificate or endorsement for any employee of the school district described under paragraph (a), and the State Department of Education shall reimburse the school district for such cost, regardless of whether or not the process resulted in the award of the certificate or endorsement. If a private individual or entity has paid the cost of completing the process of acquiring the certificate or endorsement for an employee, the local school district may agree to directly reimburse the individual or entity for such cost on behalf of the employee.

(c) All salary supplements, fringe benefits and process reimbursement authorized under this subsection shall be paid directly by the State Department of Education to the local school district and shall be in addition to its adequate education program allotments and not a part thereof in accordance with regulations promulgated by the State Board of Education. Local school districts shall not reduce the local supplement paid to any employee receiving such salary supplement, and the employee shall receive any local supplement to which employees with similar training and experience otherwise are entitled. However, an educational employee shall receive the salary supplement in the amount of Six Thousand Dollars ($6,000.00) for only one (1) of the qualifying certifications authorized under paragraph (a) of this subsection. No school district shall provide more than one (1) annual salary supplement under the provisions of this subsection to any one (1) individual employee holding multiple qualifying national certifications.

(d) If an employee for whom such cost has been paid, in full or in part, by a local school district or private individual or entity fails to complete the certification or endorsement process, the employee shall be liable to the school district or individual or entity for all amounts paid by the school district or individual or entity on behalf of that employee toward his or her certificate or endorsement.

(3) The following employees shall receive an annual salary supplement in the amount of Four Thousand Dollars ($4,000.00), plus fringe benefits, in addition to any other compensation to which the employee may be entitled:

Effective July 1, 2016, if funds are available for that purpose, any licensed teacher or retired teacher employed by a local school district under the authority of Section 25-11-126 who has met the requirements and acquired a Master Teacher Certificate from the National Board for Professional Teaching Standards and who is employed in a public school district located in one (1) of the following counties: Claiborne, Adams, Jefferson, Wilkinson, Amite, Bolivar, Coahoma, Leflore, Quitman, Sharkey, Issaquena, Sunflower, Washington, Holmes, Yazoo and Tallahatchie. The salary supplement awarded under the provisions of this subsection (3) shall be in addition to the salary supplement awarded under the provisions of subsection (2) of this section.

Teachers who meet the qualifications for a salary supplement under this subsection (3) who are assigned for less than one (1) full year or less than full time for the school year shall receive the salary supplement in a prorated manner, with the portion of the teacher's assignment to the critical geographic area to be determined as of June 15th of the school year.

(4) (a) This section shall be known and may be cited as the "Mississippi Performance-Based Pay (MPBP)" plan. In addition to the minimum base pay described in this section, only after full funding of MAEP and if funds are available for that purpose, the State of Mississippi may provide monies from state funds to school districts for the purposes of rewarding licensed teachers, administrators and nonlicensed personnel at individual schools showing improvement in student test scores. The MPBP plan shall be developed by the State Department of Education based on the following criteria:

(i) It is the express intent of this legislation that the MPBP plan shall utilize only existing standards of accreditation and assessment as established by the State Board of Education.

(ii) To ensure that all of Mississippi's teachers, administrators and nonlicensed personnel at all schools have equal access to the monies set aside in this section, the MPBP program shall be designed to calculate each school's performance as determined by the school's increase in scores from the prior school year. The MPBP program shall be based on a standardized scores rating where all levels of schools can be judged in a statistically fair and reasonable way upon implementation. At the end of

each year, after all student achievement scores have been standardized, the State Department of Education shall implement the MPBP plan.

(iii) To ensure all teachers cooperate in the spirit of teamwork, individual schools shall submit a plan to the local school district to be approved before the beginning of each school year beginning July 1, 2008. The plan shall include, but not be limited to, how all teachers, regardless of subject area, and administrators will be responsible for improving student achievement for their individual school.

(b) The State Board of Education shall develop the processes and procedures for designating schools eligible to participate in the MPBP. State assessment results, growth in student achievement at individual schools and other measures deemed appropriate in designating successful student achievement shall be used in establishing MPBP criteria.

(5) (a) If funds are available for that purpose, each school in Mississippi shall have mentor teachers, as defined by Sections 37-9-201 through 37-9-213, who shall receive additional base compensation provided for by the State Legislature in the amount of One Thousand Dollars ($1,000.00) per each beginning teacher that is being mentored. The additional state compensation shall be limited to those mentor teachers that provide mentoring services to beginning teachers. For the purposes of such funding, a beginning teacher shall be defined as any teacher in any school in Mississippi that has less than one (1) year of classroom experience teaching in a public school. For the purposes of such funding, no full-time academic teacher shall mentor more than two (2) beginning teachers.

(b) To be eligible for this state funding, the individual school must have a classroom management program approved by the local school board.

(6) Effective with the 2014-2015 school year, the school districts participating in the Pilot Performance-Based Compensation System pursuant to Section 37-19-9 may award additional teacher and administrator pay based thereon.

SECTION 6. Section 25-11-123, Mississippi Code of 1972, is amended as follows:

25-11-123. All of the assets of the system shall be credited according to the purpose for which they are held to one (1) of four (4) reserves; namely, the annuity savings account, the annuity reserve, the employer's accumulation account, and the expense account.

(a) Annuity savings account. In the annuity savings account shall be accumulated the contributions made by members to provide for their annuities, including interest thereon which shall be posted monthly. Credits to and charges against the annuity savings account shall be made as follows:

(1) Beginning July 1, 2010, except as otherwise provided in Section 25-11-126, the employer shall cause to be deducted from the salary of each member on each and every payroll of the employer for each and every payroll period nine percent (9%) of earned compensation as defined in Section 25-11-103. Future contributions shall be fixed biennially by the board on the basis of the liabilities of the retirement system for the various allowances and benefits as shown by actuarial valuation; however, any member earning at a rate less than Sixteen Dollars and Sixty-seven Cents ($16.67) per month, or Two Hundred Dollars ($200.00) per year, shall contribute not less than One Dollar ($1.00) per month, or Twelve Dollars ($12.00) per year.

(2) The deductions provided in paragraph (1) of this subsection shall be made notwithstanding that the minimum compensation provided by law for any member is reduced by the deduction. Every member shall be deemed to consent and agree to the deductions made and provided for in paragraph (1) of this subsection and shall receipt for his full salary or compensation, and payment of salary or compensation less the deduction

shall be a full and complete discharge and acquittance of all claims and demands whatsoever for the services rendered by the person during the period covered by the payment, except as to the benefits provided under Articles 1 and 3. The board shall provide by rules for the methods of collection of contributions from members and the employer. The board shall have full authority to require the production of evidence necessary to verify the correctness of amounts contributed.

(b) Annuity reserve. The annuity reserve shall be the account representing the actuarial value of all annuities in force, and to it shall be charged all annuities and all benefits in lieu of annuities, payable as provided in this article. If a beneficiary retired on account of disability is restored to active service with a compensation not less than his average final compensation at the time of his last retirement, the remainder of his contributions shall be transferred from the annuity reserve to the annuity savings account and credited to his individual account therein, and the balance of his annuity reserve shall be transferred to the employer's accumulation account.

(c) Employer's accumulation account. The employer's accumulation account shall represent the accumulation of all reserves for the payment of all retirement allowances and other benefits payable from contributions made by the employer, and against this account shall be charged all retirement allowances and other benefits on account of members. Credits to and charges against the employer's accumulation account shall be made as follows:

(1) On account of each member there shall be paid monthly into the employer's accumulation account by the employers for the preceding fiscal year an amount equal to a certain percentage of the total earned compensation, as defined in Section 25-11-103, of each member. * * * From and after the effective date of this act, the increase in the employer's contribution rate scheduled to take effect on July 1, 2024, is rescinded and shall not take effect.

(2) For the public good, any recommendation by the board to adjust the employer contributions shall be accompanied by at least two (2) assessments from actuaries who are independent from each other and the retirement plan. The actuaries shall analyze the economic impact of any such recommendation to the system and state, including, but not limited to, information showing the fiscal impact to every agency and arm of the state, including, but not limited to, state agencies, cities, counties and school districts. The actuarial assessments, with any such recommendation to adjust the employer contributions, shall be submitted to the Lieutenant Governor, Speaker of the House, Chairman of the Senate Appropriations Committee and Chairman of the House Appropriations Committee.

(3) The board shall have the authority to make recommendations regarding additional funding sources for the retirement plan, including employer contribution increases, based on the assets and liabilities of the retirement plan, and the analyses required by paragraph (2) of this subsection (c). The Legislature shall have the sole authority to implement any such recommendations.

(4) This section shall not be construed to provide authority to reduce or eliminate any earned benefits to be provided by the state to persons drawing a retirement allowance or to members of the system as of the effective date of this act.

(* * *5) On the basis of regular interest and of such mortality and other tables as are adopted by the board of trustees, the actuary engaged by the board to make each valuation required by this article during the period over which the accrued liability contribution is payable, immediately after making that valuation, shall determine the uniform and constant percentage of the earnable compensation of each member which, if contributed by the employer on the basis of compensation of the member throughout his entire period of membership service, would be sufficient to provide for the payment of any retirement allowance payable on his account for that service. The percentage rate so

determined shall be known as the "normal contribution rate." After the accrued liability contribution has ceased to be payable, the normal contribution rate shall be the percentage rate of the salary of all members obtained by deducting from the total liabilities on account of membership service the amount in the employer's accumulation account, and dividing the remainder by one percent (1%) of the present value of the prospective future salaries of all members as computed on the basis of the mortality and service tables adopted by the board of trustees and regular interest. The normal rate of contributions shall be determined by the actuary after each valuation.

(* * *6) The total amount payable in each year to the employer's accumulation account shall not be less than the sum of the percentage rate known as the "normal contribution rate" and the "accrued liability contribution rate" of the total compensation earnable by all members during the preceding year, provided that the payment by the employer shall be sufficient, when combined with the amounts in the account, to provide the allowances and other benefits chargeable to this account during the year then current.

(* * *7) The accrued liability contribution shall be discontinued as soon as the accumulated balance in the employer's accumulation account shall equal the present value, computed on the basis of the normal contribution rate then in force, or the prospective normal contributions to be received on account of all persons who are at that time members.

(* * *8) All allowances and benefits in lieu thereof, with the exception of those payable on account of members who receive no prior service credit, payable from contributions of the employer, shall be paid from the employer's accumulation account.

(* * *9) Upon the retirement of a member, an amount equal to his retirement allowance shall be transferred from the employer's accumulation account to the annuity reserve.

(* * *10) The employer's accumulation account shall be credited with any assets authorized by law to be credited to the account.

(d) Expense account. The expense account shall be the account to which the expenses of the administration of the system shall be charged, exclusive of amounts payable as retirement allowances and as other benefits provided herein. The Legislature shall make annual appropriations in amounts sufficient to administer the system, which shall be credited to this account. There shall be transferred to the State Treasury from this account, not less than once per month, an amount sufficient for payment of the estimated expenses of the system for the succeeding thirty (30) days. Any interest earned on the expense account shall accrue to the benefit of the system. However, notwithstanding the provisions of Sections 25-11-15(10) and 25-11-105(f)(v)5, all expenses of the administration of the system shall be paid from the interest earnings, provided the interest earnings are in excess of the actuarial interest assumption as determined by the board, and provided the present cost of the administrative expense fee of two percent (2%) of the contributions reported by the political subdivisions and instrumentalities shall be reduced to one percent (1%) from and after July 1, 1983, through June 30, 1984, and shall be eliminated thereafter.

(e) Collection of contributions. The employer shall cause to be deducted on each and every payroll of a member for each and every payroll period, beginning subsequent to January 31, 1953, the contributions payable by the member as provided in Articles 1 and 3.

The employer shall make deductions from salaries of employees as provided in Articles 1 and 3 and shall transmit monthly, or at such time as the board of trustees designates, the amount specified to be deducted to the Executive Director of the Public

Employees' Retirement System. The executive director, after making a record of all those receipts, shall deposit such amounts as provided by law.

(f) (1) Upon the basis of each actuarial valuation provided herein, the board of trustees shall biennially determine the normal contribution rate and the accrued liability contribution rate as provided in this section. The sum of these two (2) rates shall be known as the "employer's contribution rate." The percentage rate of those contributions shall be fixed biennially by the board on the basis of the liabilities of the retirement system for the various allowances and benefits as shown by actuarial valuation.

(2) The amount payable by the employer on account of normal and accrued liability contributions shall be determined by applying the employer's contribution rate to the amount of compensation earned by employees who are members of the system. Monthly, or at such time as the board of trustees designates, each department or agency shall compute the amount of the employer's contribution payable, with respect to the salaries of its employees who are members of the system, and shall cause that amount to be paid to the board of trustees from the personal service allotment of the amount appropriated for the operation of the department or agency, or from funds otherwise available to the agency, for the payment of salaries to its employees.

(3) Except as otherwise provided in Section 25-11-106:

(i) Constables shall pay employer and employee contributions on their net fee income as well as the employee contributions on all direct treasury or county payroll income.

(ii) The county shall be responsible for the employer contribution on all direct treasury or county payroll income of constables.

(4) Except as otherwise provided in Section 25-11-106.1, chancery and circuit clerks shall be responsible for both the employer and employee share of contributions on the proportionate share of net income attributable to fees, as well as the employee share of net income attributable to direct treasury or county payroll income, and the employing county shall be responsible for the employer contributions on the net income attributable to direct treasury or county payroll income.

(5) Once each year, under procedures established by the system, each employer shall submit to the Public Employees' Retirement System a copy of their report to Social Security of all employees' earnings.

(6) The board shall provide by rules for the methods of collection of contributions of employers and members. The amounts determined due by an agency to the various funds as specified in Articles 1 and 3 are made obligations of the agency to the board and shall be paid as provided herein. Failure to deduct those contributions shall not relieve the employee and employer from liability thereof. Delinquent employee contributions and any accrued interest shall be the obligation of the employee and delinquent employer contributions and any accrued interest shall be the obligation of the employer. The employer may, in its discretion, elect to pay any or all of the interest on delinquent employee contributions. From and after July 1, 1996, under rules and regulations established by the board, all employers are authorized and shall transfer all funds due to the Public Employees' Retirement System electronically and shall transmit any wage or other reports by computerized reporting systems.

SECTION 7. Section 25-11-105, Mississippi Code of 1972, is brought forward as follows:

25-11-105. I. THOSE WHO ARE ELIGIBLE FOR MEMBERSHIP

The membership of this retirement system shall be composed as follows:

(a) (i) All persons who become employees in the state service after January 31, 1953, and whose wages are subject to payroll taxes and are lawfully reported on IRS Form W-2, except those specifically excluded, or as to whom election is provided in Articles 1 and 3, shall become members of the retirement system as a condition of their employment.

(ii) From and after July 1, 2002, any individual who is employed by a governmental entity to perform professional services shall become a member of the system if the individual is paid regular periodic compensation for those services that is subject to payroll taxes, is provided all other employee benefits and meets the membership criteria established by the regulations adopted by the board of trustees that apply to all other members of the system; however, any active member employed in such a position on July 1, 2002, will continue to be an active member for as long as they are employed in any such position.

(b) All persons who become employees in the state service after January 31, 1953, except those specifically excluded or as to whom election is provided in Articles 1 and 3, unless they file with the board before the lapse of sixty (60) days of employment or sixty (60) days after the effective date of the cited articles, whichever is later, on a form prescribed by the board, a notice of election not to be covered by the membership of the retirement system and a duly executed waiver of all present and prospective benefits that would otherwise inure to them on account of their participation in the system, shall become members of the retirement system; however, no credit for prior service will be granted to members who became members of the system before July 1, 2007, until they have contributed to Article 3 of the retirement system for a minimum period of at least four (4) years, or to members who became members of the system on or after July 1, 2007, until they have contributed to Article 3 of the retirement system for a minimum period of at least eight (8) years. Those members shall receive credit for services performed before January 1, 1953, in employment now covered by Article 3, but no credit shall be granted for retroactive services between January 1, 1953, and the date of their entry into the retirement system, unless the employee pays into the retirement system both the employer's and the employee's contributions on wages paid him during the period from January 31, 1953, to the date of his becoming a contributing member, together with interest at the rate determined by the board of trustees. Members reentering after withdrawal from service shall qualify for prior service under the provisions of Section 25-11-117. From and after July 1, 1998, upon eligibility as noted above, the member may receive credit for such retroactive service provided:

(i) The member shall furnish proof satisfactory to the board of trustees of certification of that service from the covered employer where the services were performed; and

(ii) The member shall pay to the retirement system on the date he or she is eligible for that credit or at any time thereafter before the date of retirement the actuarial cost for each year of that creditable service. The provisions of this subparagraph (ii) shall be subject to the limitations of Section 415 of the Internal Revenue Code and regulations promulgated under Section 415.

Nothing contained in this paragraph (b) shall be construed to limit the authority of the board to allow the correction of reporting errors or omissions based on the payment of the employee and employer contributions plus applicable interest.

(c) All persons who become employees in the state service after January 31, 1953, and who are eligible for membership in any other retirement system shall become members of this retirement system as a condition of their employment, unless they elect at the time of their employment to become a member of that other system.

(d) All persons who are employees in the state service on January 31, 1953, and who are members of any nonfunded retirement system operated by the State of Mississippi, or any of its departments or agencies, shall become members of this system with prior service credit unless, before February 1, 1953, they file a written notice with the board of trustees that they do not elect to become members.

(e) All persons who are employees in the state service on January 31, 1953, and who under existing laws are members of any fund operated for the retirement of employees by the State of Mississippi, or any of its departments or agencies, shall not be entitled to membership in this retirement system unless, before February 1, 1953, any such person indicates by a notice filed with the board, on a form prescribed by the board, his individual election and choice to participate in this system, but no such person shall receive prior service credit unless he becomes a member on or before February 1, 1953.

(f) Each political subdivision of the state and each instrumentality of the state or a political subdivision, or both, is authorized to submit, for approval by the board of trustees, a plan for extending the benefits of this article to employees of any such political subdivision or instrumentality. Each such plan or any amendment to the plan for extending benefits thereof shall be approved by the board of trustees if it finds that the plan, or the plan as amended, is in conformity with such requirements as are provided in Articles 1 and 3; however, upon approval of the plan or any such plan previously approved by the board of trustees, the approved plan shall not be subject to cancellation or termination by the political subdivision or instrumentality. No such plan shall be approved unless:

(i) It provides that all services that constitute employment as defined in Section 25-11-5 and are performed in the employ of the political subdivision or instrumentality, by any employees thereof, shall be covered by the plan, with the exception of municipal employees who are already covered by existing retirement plans; however, those employees in this class may elect to come under the provisions of this article;

(ii) It specifies the source or sources from which the funds necessary to make the payments required by paragraph (d) of Section 25-11-123 and of paragraph (f)(v)2 and 3 of this section are expected to be derived and contains reasonable assurance that those sources will be adequate for that purpose;

(iii) It provides for such methods of administration of the plan by the political subdivision or instrumentality as are found by the board of trustees to be necessary for the proper and efficient administration thereof;

(iv) It provides that the political subdivision or instrumentality will make such reports, in such form and containing such information, as the board of trustees may from time to time require;

(v) It authorizes the board of trustees to terminate the plan in its entirety in the discretion of the board if it finds that there has been a failure to comply substantially with any provision contained in the plan, the termination to take effect at the expiration of such notice and on such conditions as may be provided by regulations of the board and as may be consistent with applicable federal law.

1. The board of trustees shall not finally refuse to approve a plan submitted under paragraph (f), and shall not terminate an approved plan without reasonable notice and opportunity for hearing to each political subdivision or instrumentality affected by the board's decision. The board's decision in any such case shall be final, conclusive and binding unless an appeal is taken by the political subdivision or instrumentality aggrieved by the decision to the Circuit Court of the First Judicial District of Hinds County, Mississippi, in accordance with the provisions of law with respect to civil causes by certiorari.

2. Each political subdivision or instrumentality as to which a plan has been approved under this section shall pay into the contribution fund, with respect to wages (as defined in Section 25-11-5), at such time or times as the board of trustees may by regulation prescribe, contributions in the amounts and at the rates specified in the applicable agreement entered into by the board.

3. Every political subdivision or instrumentality required to make payments under paragraph (f)(v)2 of this section is authorized, in consideration of the employees' retention in or entry upon employment after enactment of Articles 1 and 3, to impose upon its employees, as to services that are covered by an approved plan, a contribution with respect to wages (as defined in Section 25-11-5) not exceeding the amount provided in Section 25-11-123(d) if those services constituted employment within the meaning of Articles 1 and 3, and to deduct the amount of the contribution from the wages as and when paid. Contributions so collected shall be paid into the contribution fund as partial discharge of the liability of the political subdivisions or instrumentalities under paragraph (f)(v)2 of this section. Failure to deduct the contribution shall not relieve the employee or employer of liability for the contribution.

4. Any state agency, school, political subdivision, instrumentality or any employer that is required to submit contribution payments or wage reports under any section of this chapter shall be assessed interest on delinquent payments or wage reports as determined by the board of trustees in accordance with rules and regulations adopted by the board and delinquent payments, assessed interest and any other amount certified by the board as owed by an employer, may be recovered by action in a court of competent jurisdiction against the reporting agency liable therefor or may, upon due certification of delinquency and at the request of the board of trustees, be deducted from any other monies payable to the reporting agency by any department or agency of the state.

5. Each political subdivision of the state and each instrumentality of the state or a political subdivision or subdivisions that submit a plan for approval of the board, as provided in this section, shall reimburse the board for coverage into the expense account, its pro rata share of the total expense of administering Articles 1 and 3 as provided by regulations of the board.

(g) The board may, in its discretion, deny the right of membership in this system to any class of employees whose compensation is only partly paid by the state or who are occupying positions on a part-time or intermittent basis. The board may, in its discretion, make optional with employees in any such classes their individual entrance into this system.

(h) An employee whose membership in this system is contingent on his own election, and who elects not to become a member, may thereafter apply for and be admitted to membership; but no such employee shall receive prior service credit unless he becomes a member before July 1, 1953, except as provided in paragraph (b).

(i) If any member of this system changes his employment to any agency of the state having an actuarially funded retirement system, the board of trustees may authorize the transfer of the member's creditable service and of the present value of the member's employer's accumulation account and of the present value of the member's accumulated membership contributions to that other system, provided that the employee agrees to the transfer of his accumulated membership contributions and provided that the other system is authorized to receive and agrees to make the transfer.

If any member of any other actuarially funded system maintained by an agency of the state changes his employment to an agency covered by this system, the board of trustees may authorize the receipt of the transfer of the member's creditable service and of the present value of the member's employer's accumulation account and of the present value of the member's accumulated membership contributions from the other system,

provided that the employee agrees to the transfer of his accumulated membership contributions to this system and provided that the other system is authorized and agrees to make the transfer.

(j) Wherever state employment is referred to in this section, it includes joint employment by state and federal agencies of all kinds.

(k) Employees of a political subdivision or instrumentality who were employed by the political subdivision or instrumentality before an agreement between the entity and the Public Employees' Retirement System to extend the benefits of this article to its employees, and which agreement provides for the establishment of retroactive service credit, and who became members of the retirement system before July 1, 2007, and have remained contributors to the retirement system for four (4) years, or who became members of the retirement system on or after July 1, 2007, and have remained contributors to the retirement system for eight (8) years, may receive credit for that retroactive service with the political subdivision or instrumentality, provided that the employee and/or employer, as provided under the terms of the modification of the joinder agreement in allowing that coverage, pay into the retirement system the employer's and employee's contributions on wages paid the member during the previous employment, together with interest or actuarial cost as determined by the board covering the period from the date the service was rendered until the payment for the credit for the service was made. Those wages shall be verified by the Social Security Administration or employer payroll records. Effective July 1, 1998, upon eligibility as noted above, a member may receive credit for that retroactive service with the political subdivision or instrumentality provided:

(i) The member shall furnish proof satisfactory to the board of trustees of certification of those services from the political subdivision or instrumentality where the services were rendered or verification by the Social Security Administration; and

(ii) The member shall pay to the retirement system on the date he or she is eligible for that credit or at any time thereafter before the date of retirement the actuarial cost for each year of that creditable service. The provisions of this subparagraph (ii) shall be subject to the limitations of Section 415 of the Internal Revenue Code and regulations promulgated under Section 415.

Nothing contained in this paragraph (k) shall be construed to limit the authority of the board to allow the correction of reporting errors or omissions based on the payment of employee and employer contributions plus applicable interest. Payment for that time shall be made beginning with the most recent service. Upon the payment of all or part of the required contributions, plus interest or the actuarial cost as provided above, the member shall receive credit for the period of creditable service for which full payment has been made to the retirement system.

(l) Through June 30, 1998, any state service eligible for retroactive service credit, no part of which has ever been reported, and requiring the payment of employee and employer contributions plus interest, or, from and after July 1, 1998, any state service eligible for retroactive service credit, no part of which has ever been reported to the retirement system, and requiring the payment of the actuarial cost for that creditable service, may, at the member's option, be purchased in quarterly increments as provided above at the time that its purchase is otherwise allowed.

(m) All rights to purchase retroactive service credit or repay a refund as provided in Section 25-11-101 et seq. shall terminate upon retirement.

II. THOSE WHO ARE NOT ELIGIBLE FOR MEMBERSHIP

The following classes of employees and officers shall not become members of this retirement system, any other provisions of Articles 1 and 3 to the contrary notwithstanding:

(a) Patient or inmate help in state charitable, penal or correctional institutions;

(b) Students of any state educational institution employed by any agency of the state for temporary, part-time or intermittent work;

(c) Participants of Comprehensive Employment and Training Act of 1973 (CETA) being Public Law 93-203, who enroll on or after July l, 1979;

(d) From and after July 1, 2002, individuals who are employed by a governmental entity to perform professional service on less than a full-time basis who do not meet the criteria established in I(a)(ii) of this section.

III. TERMINATION OF MEMBERSHIP

SECTION 1. This following shall be codified as Section 37-151-201, Mississippi Code of 1972:

37-151-201. This chapter shall be known and may be cited as the "Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) Act of 2024."

SECTION 2. The following shall be codified as Section 37-151-203, Mississippi Code of 1972:

37-151-203. The following words and phrases have the meanings ascribed in this section unless the context clearly indicates otherwise:

(a) "Average daily membership" or "ADM" means the figure that results when the total aggregate student enrollment of a school district or charter school during the period counted is divided by the number of days during the period counted upon which both teachers and students are in regular attendance for scheduled classroom instruction for not less than sixty percent (60%) of the normal school day. However, if a local school board or the governing board of a charter school adopts a class schedule that operates throughout the year for any or all schools in the district or the charter school, average daily membership must be computed by the State Department of Education so that the resulting average daily membership will not be higher or lower than if the local school board or the governing board had not adopted a year-round schedule.

(b) "Base amount" or "student base amount" means the student base funding level that is established in the funding formula as the estimated cost of educating a student with no additional measured needs or special factors.

(c) "Career and technical education course" or "CTE course" means a credit-bearing course that has been approved and classified by the department as a career and technical education, or CTE, course.

(d) "Charter school" means a public school that is established and operating under the terms of a charter contract pursuant to Chapter 28, Title 37, Mississippi Code of 1972.

(e) "Department" means the State Department of Education.

(f) "English Language Learner" or "ELL" means a student identified in accordance with federal law as entitled to English as a second language or bilingual services on the basis of the student's English language proficiency.

(g) "Final weighted enrollment" means the final product of applying weights to the average daily membership of a school district or charter school after accounting for the sparsity of a school district or charter school, as determined in Section 37-151-209.

(h) "Gifted student" means a student identified as eligible to participate in a gifted education program for the instruction of intellectually or academically gifted children, as defined and provided for in Sections 37-23-171 through 37-23-181.

(i) "Local contribution" means the amount of local tax money that school districts or charter schools must contribute to the cost of the funding formula for their district or charter school in a given fiscal year, as determined under Section 37-151-217.

(j) "Local minimum tax effort" means the amount in taxes that the local levying authority for each school district must raise on behalf of the school districts and charter schools in its geographic boundaries, as determined under Section 37-151-217.

(k) "Low income student" means a student who has been identified by the department, through direct certification, as a homeless, foster, runaway or migrant student, or a student who is participating in, or belonging to a household that is participating in, a means-tested program, including, but not limited to, direct family certification of income-based eligibility for free lunch under the National School Lunch Program, Head Start, Medicaid, the Supplemental Nutrition Assistance Program (SNAP), Temporary Assistance for Needy Families (TANF), or Food Distribution Program on Indian Reservations (FDPIR).

(l) "Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE)," "funding formula," or "formula" means the formula used to determine annual operating funding for public schools on a per student basis, as prescribed in this chapter.

(m) "Preliminary weighted enrollment" means the initial product of applying weights to the average daily membership of a school district or charter school, as determined in Section 37-151-209.

(n) "School board" means a governmental board exercising management and control over a school district and the schools of that district pursuant to the Mississippi Constitution of 1890 and state statutes.

(o) "School district" or "district" means a governmental entity that establishes and supervises one or more public schools within its geographical limits pursuant to state statutes.

(p) "Sparsely populated district or charter school" means a school district or charter school with a density of less than eight (8) students per square mile, as determined

by dividing the average daily membership of a district or charter school by the square mileage within its geographic boundaries. For the purpose of determining the sparsity of a charter school, the square mileage of a charter school is equivalent to the square mileage within the geographic boundaries of the school district in which the charter school is located.

(q) "Special education program" means a program that provides services for exceptional children, as defined and authorized by Chapter 23, Title 37, Mississippi Code of 1972.

(r) "State share" means the amount the state contributes to the funding formula for the annual operating funding of each school district or charter school.

(s) "Superintendent" means the administrative head of a school district.

(t) "Uniform funding formula funds," "formula funding" or "formula funds" means all funds, both state and local, constituting the requirements for meeting the cost of the formula as established pursuant to this chapter.

(u) "Weight" or "weighting" means a multiplier used to adjust the preliminary weighted enrollment and final weighted enrollment to support the additional costs of educating students in defined student populations or in a defined geographic context.

SECTION 3. The following shall be codified as Section 37-151-205, Mississippi Code of 1972:

37-151-205. (1) Beginning with the 2025 fiscal year, the annual computation of the total amount of operational funding, both state and local, for the cost of educating students enrolled in the public schools in the State of Mississippi is determined in accordance with Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) established under this chapter.

(2) The annual amount of funding for the operation of each school district and charter school under INSPIRE is determined by multiplying the student base amount, as determined under Section 37-151-207, by the final weighted enrollment of the school district or charter school, as determined under Section 37-151-209.

SECTION 4. The following shall be codified as Section 37-151-207, Mississippi Code of 1972:

37-151-207. Beginning with the 2025 fiscal year, the student base amount shall not be less than Six Thousand Six Hundred Fifty Dollars ($6,650.00) per student. Upon the expiration of all hold harmless provisions granted to certain school districts under Section 37-151-223, the base student cost shall be adjusted annually at a rate of twenty percent (20%) multiplied by the consumer price index (CPI) beginning in fiscal year 2028. The calculation shall be performed annually by the Legislative Budget Office, and the resulting amount shall replace the previous year's base student cost.

SECTION 5. The following shall be codified as Section 37-151-209, Mississippi Code of 1972:

37-151-209. (1) The preliminary weighted enrollment of each school district and charter school under Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) is determined by applying the weights prescribed in this section, none of which is mutually exclusive of another, to each applicable student counted in the school district or charter school's average daily membership, as determined by Section 37-151-111.

(2) A weight of thirty percent (30%) is applied to each student identified as low income, as defined in Section 37-151-203: the total number of students identified in this subsection is multiplied by thirty one-hundredths (30/100).

(3) A weight of twenty percent (20%) is applied to each student identified as an English Language Learner, as defined in Section 37-151-203: the total number of students identified in this subsection is multiplied by twenty one-hundredths (20/100).

(4) The following weights are applied to students who are identified as entitled to and receiving services in a special education program:

(a) Tier I: A weight of sixty percent (60%) is applied to each student diagnosed with a specific learning disability, speech and language impairment, or developmental delay: the total number of students identified in this paragraph is multiplied by sixty one-hundredths (60/100).

(b) Tier II: A weight of one hundred twenty-five percent (125%) is applied to each student diagnosed with autism, hearing impairment, emotional disability, orthopedic impairment, intellectual disability, or other health impairment: the total number of students identified in this paragraph is multiplied by one hundred twenty-five one-hundredths (125/100).

(c) Tier III: A weight of one hundred seventy percent (170%) is applied to each student diagnosed with visual impairment, deaf-blindness, multiple disabilities, or traumatic brain injury: the total number of students identified in this paragraph is multiplied by one hundred seventy one-hundredths (170/100).

For the purpose of student counts, a student entitled to and receiving special education services may not be included under more than one (1) tier prescribed in paragraphs (a), (b) and (c) of this subsection. A student having multiple diagnoses must be counted under the highest tier applicable to that student.

(5) A weight of five percent (5%) is applied to five percent (5%) of a school district or charter school's average daily membership for the purpose of providing gifted education, regardless of the number of students in a school district or charter school that have been identified as gifted students: the total number of students in average daily membership in a school district or charter school, as determined by Section 37-151-111, is multiplied by five one-hundredths (5/100), which is again multiplied by five one-hundredths (5/100).

(6) A weight of ten percent (10%) is applied to each student enrolled in a career and technical education course, as defined in Section 37-151-203. A student enrolled in multiple career and technical education courses is counted once. The total number of students identified in this subsection is multiplied by ten one-hundredths (10/100).

(7) In each school district or charter school where the number of students identified as low income, as defined in Section 37-151-203, exceeds thirty-five percent (35%) of the school district or charter school's average daily membership, a weight of ten percent (10%) is applied only to the number of low income students in excess of the number of low income students which constitute thirty-five percent (35%) of average daily membership. The number of students eligible for this weight is calculated by subtracting the number of students equivalent to thirty-five percent (35%) of the average daily membership of that school district or charter school from the total number of students in that school district or charter school identified as low income: if the total number of students identified in subsection (2) exceeds thirty-five percent (35%) of the school district or charter school's total average daily membership, as determined in Section 37-151-111, the difference between the total number of students identified in subsection (2) and thirty-five percent (35%) of the school district or charter school's total average daily membership is multiplied by ten one-hundredths (10/100).

(8) The final weighted enrollment of each school district and charter school under INSPIRE is determined as follows:

(a) The final weighted enrollment for each school district or charter school that is not classified as a sparsely populated district or charter school, as defined in Section 37-151-203, is equivalent to the preliminary weighted enrollment of that school district or charter school, as determined in subsections (1) through (7) of this section: the State Department of Education shall add to the school district or charter school's average daily membership, as determined under Section 37-151-111, each of the additional figures calculated in accordance with subsections (2) through (7), and this total is the final weighted enrollment.

(b) The final weighted enrollment for each sparsely populated district or charter school, as defined in Section 37-151-203, is determined by multiplying the sparsity weight by the preliminary weighted enrollment, as determined in subsections (1) through (7) of this section, and then adding that figure to the preliminary weighted enrollment. To calculate the final weighted enrollment, the State Department of Education shall add to the school district or charter school's average daily membership, as determined under Section 37-151-111, each of the additional figures calculated in accordance with subsections (2) through (7) to determine the preliminary weighted enrollment, multiply this figure by the sparsity weight as determined below, and add this resulting number to the preliminary weighted enrollment to find the final weighted enrollment. To calculate the sparsity weight, the State Department of Education shall find the difference between the number of students per square mile in that district or charter school and a sparsity threshold of eight (8) students per square mile, and then shall divide the resulting figure by one hundred (100) to create a percentage: for example, if the number of students per square mile in a district is three (3), the difference is five (5) (eight (8) minus three (3)), and the sparsity weight is five percent (5%), or five one-hundredths (5/100).

SECTION 6. The following shall be codified as Section 37-151-211, Mississippi Code of 1972:

37-151-211. (1) A school district or charter school's average daily membership for the purposes of calculating the cost of Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) must be based on the number of students projected to be in enrollment in Mississippi public schools during the fiscal year for which an appropriation is made. The average daily membership of a school district or charter school for use in the funding formula must be computed and currently maintained by the State Board of Education in accordance with the following:

(a) Determination of school district average daily membership for use in the funding formula. Effective with fiscal year 2025, the State Department of Education shall determine the percentage change from the prior year of each school district's average of months two (2) and three (3) average daily membership (ADM) for the three (3) immediately preceding school years of the year for which funds are being appropriated. For any school district that experiences growth in the average of months two (2) and three (3) ADM each year of the three (3) years, the average percentage growth over the three-year period must be multiplied times the school district's average of months two (2) and three (3) ADM for the year immediately preceding the year for which formula funds are being appropriated. The resulting amount must be added to the school district's average of months two (2) and three (3) ADM for the year immediately preceding the year for which formula funds are being appropriated to arrive at the ADM to be used in determining a school district's funding formula allocation. Otherwise, months two (2) and three (3) ADM for the year immediately preceding the year for which formula funds are being appropriated will be used in determining a school district's funding formula allocation.

(b) Determination of charter school average daily membership for use in the funding formula. Effective with fiscal year 2025, the department shall base a charter school's average daily membership (ADM) on the enrollment projections for the relevant year set forth over the term of the charter contract.

(c) The average daily membership of a school district used for funding formula calculations, as determined in paragraph (a) of this subsection, must be reconciled with the school district's average daily membership using months two (2) and three (3) for the year for which INSPIRE funds are being appropriated, and any necessary adjustments must be made to payments during the school district's following year of operation. Any necessary adjustment for a school district must be based on the state share of the per pupil amount in effect for the year for which actual average daily membership did not meet expectations and not any new amount appropriated for the year in which the adjustment will be made. Reconciliation of average daily membership for charter schools must be based on requirements set forth in Section 37-28-55.

(2) The ADM of a school district or charter school must include any student enrolled in a dual enrollment-dual credit program as defined and provided for in Section 37-15-38. The State Department of Education shall make payments for dual enrollment-dual credit programs to the home school district or charter school in which the student is enrolled, in accordance with regulations promulgated by the State Board of Education. All state funding under the formula must cease upon completion of high school graduation requirements.

(3) The State Board of Education shall promulgate such rules and regulations as may be necessary for the counting and reporting of student enrollment by school districts and charter schools to the department in a manner that enables the provisions of this chapter to be carried out. The rules and regulations must require school districts and charter schools to submit data that includes, at a minimum, numbers for the specific student populations that are subject to weighting under the INSPIRE as well as the aggregate amount of students in enrollment when each calculation is made. For the first year of operation of a charter school, the State Board of Education shall use imputed student demographic data based on the traditional district in which the charter school is located to estimate student populations that are subject to weighting under INSPIRE.

SECTION 7. The following shall be codified as Section 37-151-213, Mississippi Code of 1972:

37-151-213. (1) As soon as practical following the effective date of this act, but no later than January 1, 2026, and each year thereafter, the department shall review the disability tiers established under this chapter to ensure that the various diagnoses and weightings are matched and classified appropriately. The department shall verify that the distribution of weights meets the Maintenance of Effort (MOE) requirements of the Individuals with Disabilities Education Act (IDEA) and that the total funding by the state dedicated to special education is sufficient to meet annual MOE requirements. The department also shall determine if the diagnoses are categorized appropriately based on the average costs of educating students in the state who are in special education programs. Before September 1 of each year, the department shall submit an annual report to the Education and Appropriations Committees of the House of Representatives and Senate recommending any revisions that are necessary in order for the state to comply with federal requirements under IDEA or which may be desirable to improve the delivery and funding of special education services throughout the state. The department may include any recommendations for transitioning to service-based, or Individual Education Plan (IEP)-based, tiers for funding special education services rather than diagnosis-based tiers.

(2) Before January 1, 2027, and each year thereafter, the department shall submit a detailed report to the Education and Appropriations Committees of the House of Representatives and Senate on the status of English Language Learners in the public

schools. The report must include data demonstrating the progress that is being made through programs and services aimed at improving English language mastery in non-English-proficient students and an assessment of the sufficiency of the supplemental allocation for those programs and services, along with any recommendations for adjustments to the weight prescribed under this chapter for English Language Learners. In order to create this report, the department may require each school district and charter school to submit an annual report to the department relating to the education of English Language Learners that includes the following:

(a) The number of English Language Learners who are being provided additional supports aimed at bringing non-English-proficient students to English language mastery;

(b) A detailed description of the programs and services being provided to English Language Learners;

(c) Detailed information relating to the expenditures of each English Language Learner program and service in the school district or charter school and the source of funding (federal, state, or local) for those programs and services; and

(d) Such other information relating to the education of English Language Learners which may be required by the department in order to meet legislative requirements.

(3) Before January 1, 2027, and every four (4) years thereafter, the State Board of Education shall submit to the Legislature a report that reviews the formula and the student base amount and includes recommendations for revisions based upon considerations which may include the effects of inflation, studies of the actual costs of education in the State of Mississippi, research in education and education finance, and public comment. Any study of actual costs of education pursuant to this subsection may include, but need not be limited to, the following:

(a) The relation of funding levels to student outcomes;

(b) Maintenance of effort in specified areas of focus to promote continuity of effective practices;

(c) Improved techniques for determining specific levels of funding needed to provide adequate special education services;

(d) Improved measures of change in the cost of education; and

(e) A review of the costs associated with serving low income students and how low income students are identified.

(4) (a) The State Superintendent of Public Education is responsible for the development of the report required under subsection (3) and shall convene a working group to solicit input and recommendations regarding revisions to the formula or student base amount and to examine whether school districts qualifying for the hold harmless provisions under subsections (1) and (2) of Section 37-151-223, as well as evaluating how districts designated with "F" accountability ratings, as determined by the State Board of Education, would benefit from school district consolidation or other legislative action to increase the financial sustainability, operational efficiency, and/or educational quality in those affected school districts.

(b) The working group shall be comprised of the following thirteen (13) members:

(i) The State Superintendent of Public Education;

(ii) Three (3) individuals appointed by the State Superintendent of Public Education;

(iii) One (1) superintendent from each Congressional district who oversees a school district with a student enrollment exceeding the fiftieth percentile of statewide district enrollment, to be appointed by the State Superintendent of Public Education;

(iv) One (1) superintendent from each Congressional district who oversees a school district with a student enrollment at or below the fiftieth percentile of the statewide district enrollment, to be appointed by the State Superintendent of Public Education; and

(v) One (1) representative who is the principal or chief administrative officer of a state charter school, to be appointed by the Charter School Authorizer Board.

If any of the selected superintendents are unavailable, or otherwise chooses to do so, they may designate his or her district's chief financial officer to serve as designee on their behalf.

(c) All appointments to the working group must be made no later than thirty (30) days after the effective date of this act. After the members are appointed, the working group shall conduct its organizational meeting on or before September 1, 2024, upon the call of the State Superintendent of Public Education, who shall serve as chairperson of the group. A majority of the members of the working group shall constitute a quorum.

(d) Members of the working group shall serve without compensation but may be reimbursed, subject to the availability of funding, for mileage and actual and necessary expenses incurred in attending meetings of the working group pursuant to Section 25-3-41.

(e) The Department of Finance and Administration, State Department of Education and the Legislative Budget Office shall provide administrative support to the working group.

(f) Before December 1, 2026, the working group shall prepare and submit a report of its findings and recommendations to the Governor, Lieutenant Governor and Speaker of the House of Representatives for consideration during the 2027 Regular Session of the Legislature.

SECTION 8. The following shall be codified as Section 37-151-215, Mississippi Code of 1972:

37-151-215. Allocations to school districts or charter schools made by the State Department of Education on the basis of the count of students in student categories established for the purpose of applying various weights under this chapter are intended only to generate total appropriation amounts on a per student basis. Except as otherwise required by applicable state or federal law or by applicable rules, regulations, policies, or order of the State Board of Education and the State Department of Education, a school district or charter school may exercise full autonomy in the spending of all funds allocated under the formula to the district or charter school so long as funds are expended in the manner determined by the school board or governing board to best meet the needs of the student population of the school district or charter school.

SECTION 9. The following shall be codified as Section 37-151-217, Mississippi Code of 1972:

37-151-217. (1) (a) Before February 1 of each year, the tax assessor of each county shall file reports with the State Department of Education which provide information essential to the department in determining the local contribution that each school district or charter school is required to provide toward the cost of Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE). A separate report must be filed for each school district or part of a school district situated in the county and must include the following information:

(i) The total assessed valuation of nonexempt property for school purposes in each school district;

(ii) Assessed value of exempt property owned by homeowners aged sixty-five (65) or older or disabled, as defined in Section 27-33-67(2);

(iii) The school district's tax loss from exemptions provided to applicants under the age of sixty-five (65) and not disabled, as defined in Section 27-33-67(1); and

(iv) The school district's homestead reimbursement revenues.

(b) The State Department of Education shall prepare and make available to the tax assessor of each county a form for the reports required under subsection (1)(a).

(2) (a) The department shall use the information submitted pursuant to subsection (1) to calculate and certify to each school district the millage required to raise its minimum local tax effort, which must be the value of not less than twenty-eight (28) mills for the then current fiscal year or a millage rate equivalent to twenty-seven percent (27%) of the total INSPIRE funds for the school district, any charter schools, and any Mississippi Achievement School District Schools located in its boundaries, whichever is a lesser amount as certified to the school district by the department, upon all of the taxable property of the school district, including the following sources:

(i) One hundred percent (100%) of Grand Gulf income, as prescribed in Section 27-35-309; and

(ii) One hundred percent (100%) of any fees in lieu of taxes, as prescribed in Section 27-31-104, in accordance with Section 37-57-1.

(b) The department shall determine the local contribution of each school district or charter school based on the minimum local tax effort, as determined under paragraph (a), and shall certify this required local contribution to each school district or charter school, as follows:

(i) For school districts in which there are no charter schools, the minimum local tax effort is the required local contribution for the school district.

(ii) For school districts in which there is located one or more charter schools, the local contribution of the school district is the product of multiplying the local pro rata amount by the average daily membership of the school district. The department will calculate the local pro rata amount by dividing the school district's minimum local tax effort by the sum of the average daily membership of the school district, as determined by Section 37-151-211, and the projected enrollment of charter school students, as specified in Section 37-151-211, who reside or are estimated to reside in the district, but excluding from this projected enrollment any resident students who are projected to transfer from the district to a charter school after the calculation of the district's average daily membership, so as not to double-count those students.

(iii) For each charter school, the local contribution is the sum of the local pro rata amount for each charter school student, as determined by Section 37-151-211, based on each student's district of residence. The department will calculate a local pro rata amount for each school district in which a student projected to attend the charter school resides or is estimated to reside using the methodology in subparagraph (ii) of this paragraph (b).

(iv) In the case of an agricultural high school, the local contribution is based on an equitable amount per pupil, as determined by the State Board of Education. The State Board of Education shall set the millage requirement to generate such an amount and will certify this amount and millage requirement to agricultural high schools in the same manner as for all other school districts under this subsection.

(v) In the case of a district in which a school or schools are absorbed by the Mississippi Achievement School District but not the entire district, the local contribution of the school district is the product of multiplying the local pro rata amount by the average daily membership of the school district. The department will calculate the local pro rata amount by dividing the school district's minimum local tax effort by the sum of the average daily membership of the school district, the average daily membership of the school or schools so absorbed by the Mississippi Achievement School District, and the projected enrollment of any charter school students, as specified in Section 37-151-211, who reside or are estimated to reside in the district, but excluding from this projected enrollment any resident students who are projected to transfer from the district to a charter school after the calculation of the district's average daily membership so as not to double-count those students.

(vi) In the case of a school or schools or an entire district absorbed by the Mississippi Achievement School District, the local contribution of the school or schools or the former district is the product of multiplying the local pro rata amount, as determined by subparagraph (v) of this paragraph, by the average daily membership of the absorbed school or schools or former district.

(3) Except as otherwise provided in Section 37-151-223(1) or 37-151-219(2), the required state share in support of Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) for each school district and charter school is determined by subtracting the required local contribution, which total amount may not exceed twenty-seven percent (27%) of the total projected funding formula cost, from the total projected INSPIRE cost, as determined under this chapter, for the school district or charter school.

(4) If the school board of any school district or charter school governing board determines that it is not economically feasible or practicable to operate any school within the district or charter school for the full one hundred eighty (180) days required for the school term of a scholastic year under Section 37-13-63, due to an enemy attack, man-made, technological, or natural disaster in which the Governor has declared a disaster emergency under the laws of this state or the President of the United States has declared an emergency or major disaster to exist in this state, the school board or charter school governing board may notify the State Department of Education of the disaster and submit a plan for altering the school term. If the State Board of Education finds the disaster to be the cause of the school not operating for the contemplated school term and that the school is located in a school district covered by the Governor's or President's disaster declaration, the board may permit the schools located in that district to be operated for less than one hundred eighty (180) days and, in such case, the State Department of Education may not reduce the state share in support of the funding formula for that district or charter school because of the failure to operate those schools for one hundred eighty (180) days.

SECTION 10. The following shall be codified as Section 37-151-219, Mississippi Code of 1972:

37-151-219. (1) To qualify for state funds under this chapter, a school district may not exceed a student-teacher ratio determined in accordance with appropriate accreditation standards developed by the Mississippi Commission on School Accreditation. However, a local district may apply to the State Board of Education for approval of a waiver to this section by submitting and justifying an alternative educational program to serve the needs of enrollment. The State Board of Education must approve or disapprove of the waiver no later than forty-five (45) days after the receipt of the application.

(2) If a school district violates a required student-teacher ratio, the state share in support of the funding formula for the next succeeding fiscal year to that school district must be reduced by the percentage variance that the actual student-teacher ratios in the school district is to the required student-teacher ratios established under accreditation standards.

(3) Notwithstanding the provisions of this section, the State Board of Education may waive the student-teacher requirements upon a finding that a good faith effort is being made by a school district to comply with the ratio provision but, due to a lack of classroom space which is beyond the district's control, it is physically impossible for the district to comply, and the cost of temporary classroom space cannot be justified.

(4) If a school district meets the highest levels of performance classification, as determined by the State Board of Education in the state's accountability standards, the State Board of Education, in its discretion, may exempt the school district from the maximum student-teacher ratio required under this section.

(5) This section is not applicable to charter schools.

SECTION 11. The following shall be codified as Section 37-151-221, Mississippi Code of 1972:

37-151-221. (1) The State Department of Education shall conduct a comprehensive review of all rules, regulations, orders and policies of the department and State Board of Education to identify all process standards used in the assignment of a district's accreditation status established by rule, regulation, order or policy which create a fiscal impact on school districts to determine if such standards are critical to student success. The department shall examine those rules, regulations, orders and policies to assess whether compliance with the administrative requirements causes a fiscal impact that has the effect of earmarking state funds before those funds are allocated to a school district and forcing inefficient spending while restricting innovation by the district. The study must identify those areas in which school districts are required to follow a prescribed or assumed investment of resources rather than be held to an expected outcome. The department also shall examine any rules, regulations, orders, policies or laws that prohibit or restrict the use of state funds or the use of local funds for certain expenditures to ascertain whether those provisions are necessary or desirable under Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE). Based on the results of the review, the State Board of Education or the department shall consider making any necessary or desirable revision to any rule, regulation, order or policy deemed inconsistent with the intent of the funding formula and shall submit to the Legislature, on or before January 1, 2026, a report of any recommended legislation for statutory revisions deemed necessary or desirable by the department or board in furthering the intent of the funding formula.

(2) It is the intent of the Legislature that the performance standards and classifications of the state accountability standards reflect the goals and intentions of Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE).

SECTION 12. The following shall be codified as Section 37-151-223, Mississippi Code of 1972:

37-151-223. (1) Notwithstanding the provisions of Section 37-151-217(3) or 37-151-219(2), the state share in support of the funding formula for a school district or charter school for fiscal year 2025 may not be less than an amount equal to the sum of all state funds received by that school district or charter school for fiscal year 2024, as follows:

(a) Funds distributed under the Mississippi Adequate Education Program;

(b) Funds distributed by the State Department of Education for the purpose of paying teachers' salaries according to the teacher salary schedule prescribed in Section 37-19-7 and assistant teachers, as prescribed in Section 37-21-7 for the 2023-2024 school year; and

(c) Funds distributed by and based on average daily enrollment or the total number of students enrolled for each day in each public school district or charter school, divided by the total number of school days, and allowable to be spent on any expenditures necessary to operate a public school district or charter school, excluding salary increases for superintendents, assistant superintendents or principals.

(2) Notwithstanding any other provision of this chapter, the state share in support of the funding formula for a school district or charter school for fiscal year 2026 and fiscal year 2027 may not be less than an amount equal to ninety-seven percent (97%) of the state funds received by that school district or charter school under Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) in the immediately preceding fiscal year; however, the limitations prescribed in this subsection do not apply to the extent that any portion of such a decrease in the required state share for a school district is attributable solely to a projected change in the school district's or charter school's average daily membership in the year for which funds are being allocated.

(3) This section shall stand repealed on July 1, 2027.

SECTION 13. Section 37-57-1, Mississippi Code of 1972, is amended as follows:

37-57-1. (1) (a) The boards of supervisors of the counties shall levy and collect all taxes for and on behalf of all school districts which were within the county school system or designated as special municipal separate school districts prior to July 1, 1986. Such taxes shall be collected by the county tax collector at the same time and in the same manner as county taxes are collected by him, and the same penalties for delinquency shall be applicable.

The governing authorities of the municipalities shall levy and collect all taxes for and on behalf of all school districts which were designated as municipal separate school districts prior to July 1, 1986. Such taxes shall be collected by the municipal tax collector at the same time and in the same manner as municipal taxes are collected by him, and the same penalties for delinquency shall be applicable.

Except as otherwise provided in Section 19-9-171, the county or municipal tax collector, as the case may be, shall pay such tax collections, except for taxes collected for the payment of the principal of and interest on school bonds or notes and except for taxes collected to defray collection costs, into the school depository and report to the school board of the appropriate school district at the same time and in the same manner as the tax collector makes his payments and reports of other taxes collected by him.

* * * However, the State Board of Education shall determine the appropriate levying authority for any school district created or reorganized after July 1, 1987.

(b) For the purposes of this chapter and any other laws pertaining to taxes levied or bonds or notes issued for and on behalf of school districts, the term "levying authority" means the board of supervisors of the county or the governing authorities of the municipality, whichever levies taxes for and on behalf of the particular school district as provided in paragraphs (a) and (b) of this subsection.

(2) The levying authority for the school district shall, at the same time and in the same manner as other taxes are levied by the levying authority, levy a tax of not less than twenty-eight (28) mills for the then current fiscal year * * * or a millage rate equivalent to twenty-seven percent (27%) of the * * * total Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE), whichever is a lesser amount, as certified to the school district by the State Department of Education, upon all of the taxable property of the school district * * *. However, in no case shall the minimum local ad valorem tax effort for any school district be equal to an amount that would require a millage rate exceeding fifty-five (55) mills in that school district. * * * However, * * * if a levying authority is levying in excess of fifty-five (55) mills on July 1, 1997, the levying authority may levy an additional amount not exceeding three (3) mills in the aggregate for the period beginning July 1, 1997, and ending June 30, 2003, subject to the limitation on increased receipts from ad valorem taxes prescribed in Sections 37-57-105 and 37-57-107. Nothing in this subsection shall be construed to require any school district that is levying more than fifty-five (55) mills pursuant to Sections 37-57-1 and 37-57-105 to decrease its millage rate to fifty-five (55) mills or less. In making such levy, the levying authority shall levy an additional amount sufficient to cover anticipated delinquencies and costs of collection so that the net amount of money to be produced by such levy shall be equal to the amount which the school district is required to contribute as its * * * minimum local ad valorem tax effort. The tax so levied shall be collected by the tax collector at the same time and in the same manner as other ad valorem taxes are collected by him. The amount of taxes so collected as a result of such levy shall be paid into the district maintenance fund of the school district by the tax collector at the same time and in the same manner as reports and payments of other ad valorem taxes are made by * * * the tax collector, except that the amount collected to defray costs of collection may be paid into the county general fund. The levying authority shall have the power and authority to direct and cause warrants to be issued against such fund for the purpose of refunding any amount of taxes erroneously or illegally paid into such fund where such refund has been approved in the manner provided by law.

SECTION 14. Section 37-57-104, Mississippi Code of 1972, is amended as follows:

37-57-104. (1) Each school board shall submit to the levying authority for the school district a certified copy of an order adopted by the school board requesting an ad valorem tax effort in dollars for the support of the school district. The copy of the order shall be submitted by the school board when the copies of the school district's budget are filed with the levying authority pursuant to Section 37-61-9. Upon receipt of the school board's order requesting the ad valorem tax effort in dollars, the levying authority shall determine the millage rate necessary to generate funds equal to the dollar amount requested by the school board. For the purpose of calculating this millage rate, any additional amount that is levied pursuant to Section 37-57-105(1) to cover anticipated delinquencies and costs of collection or any amount that may be levied for the payment of the principal and interest on school bonds or notes shall be excluded from the limitation of fifty-five (55) mills provided for in subsection (2) of this section.

(2) (a) Except as otherwise provided under paragraph (b) or (c) of this subsection, if the millage rate necessary to generate funds equal to the dollar amount requested by the school board is greater than fifty-five (55) mills, and if this millage rate is higher than the millage then being levied pursuant to the school board's order requesting the ad valorem tax effort for the currently existing fiscal year, then the levying authority shall call a referendum on the question of exceeding, during the next fiscal year, the then existing millage rate being levied for school district purposes. The referendum shall be scheduled

for not more than six (6) weeks after the date on which the levying authority receives the school board's order requesting the ad valorem tax effort.

When a referendum has been called, notice of the referendum shall be published at least five (5) days per week, unless the only newspaper published in the school district is published less than five (5) days per week, for at least three (3) consecutive weeks, in at least one (1) newspaper published in the school district. The notice shall be no less than one-fourth (1/4) page in size, and the type used shall be no smaller than eighteen (18) point and surrounded by a one-fourth-inch solid black border. The notice may not be placed in that portion of the newspaper where legal notices and classified advertisements appear. The first publication of the notice shall be made not less than twenty-one (21) days before the date fixed for the referendum, and the last publication shall be made not more than seven (7) days before that date. If no newspaper is published in the school district, then the notice shall be published in a newspaper having a general circulation in the school district. The referendum shall be held, as far as is practicable, in the same manner as other referendums and elections are held in the county or municipality. At the referendum, all registered, qualified electors of the school district may vote. The ballots used at the referendum shall have printed thereon a brief statement of the amount and purpose of the increased tax levy and the words "FOR INCREASING THE MILLAGE LEVIED FOR SCHOOL DISTRICT PURPOSES FROM (MILLAGE RATE CURRENTLY LEVIED) MILLS TO (MILLAGE RATE REQUIRED UNDER SCHOOL BOARD'S ORDER) MILLS," and "AGAINST INCREASING THE MILLAGE LEVIED FOR SCHOOL DISTRICT PURPOSES FROM (MILLAGE RATE CURRENTLY LEVIED) MILLS TO (MILLAGE RATE REQUIRED UNDER SCHOOL BOARD'S ORDER) MILLS." The voter shall vote by

(3) If the millage rate necessary to generate funds equal to the dollar amount requested by the school board is equal to fifty-five (55) mills or less, but the dollar amount requested by the school board exceeds the next preceding fiscal year's ad valorem tax effort in dollars by more than four percent (4%), but not more than seven percent (7%) (as provided for under subsection (4) of this section), then the school board shall publish notice thereof at least five (5) days per week, unless the only newspaper published in the school district is published less than five (5) days per week, for at least three (3) consecutive weeks in a newspaper published in the school district. The notice shall be no less than one-fourth (1/4) page in size, and the type used shall be no smaller than eighteen (18) point and surrounded by a one-fourth-inch solid black border. The notice may not be placed in that portion of the newspaper where legal notices and classified advertisements appear. The first publication shall be made not less than fifteen (15) days before the final adoption of the budget by the school board. If no newspaper is published in the school district, then the notice shall be published in a newspaper having a general circulation in the school district. If at any time before the adoption of the budget a petition signed by not less than twenty percent (20%) or fifteen hundred (1500), whichever is less, of the registered, qualified electors of the school district is filed with the school board requesting that a referendum be called on the question of exceeding the next preceding fiscal year's ad valorem tax effort in dollars by more than four percent (4%), then the school board shall adopt, not later than the next regular meeting, a resolution calling a referendum to be held within the school district upon the question. The referendum shall be called and held, and notice thereof shall be given, in the same manner provided for in subsection (2) of this section. The ballot shall contain the language "FOR THE SCHOOL TAX INCREASE OVER FOUR PERCENT (4%)" and "AGAINST THE SCHOOL TAX INCREASE OVER FOUR PERCENT (4%)." If a majority of the registered, qualified electors of the school district who vote in the referendum vote in favor of the question, then the increase requested by the school board shall be approved. For the purposes of this subsection, the revenue sources excluded from the increase limitation under Section 37-57-107 also shall be excluded from the limitation described in this subsection in the same manner as they are excluded under Section 37-57-107. Provided, however, that any increases requested by the school board as a result of the required local contribution to * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE), as certified to the local school district by the State Board of Education under Section * * * 37-151-217, shall not be subject to the four percent (4%) and/or seven percent (7%) tax increase limitations provided in this section.

(4) If the millage rate necessary to generate funds equal to the dollar amount requested by the school board is equal to fifty-five (55) mills or less, but the dollar amount requested by the school board exceeds the seven percent (7%) increase limitation provided for in Section 37-57-107, the school board may exceed the seven percent (7%) increase limitation only after the school board has determined the need for additional revenues and three-fifths (3/5) of the registered, qualified electors voting in a referendum called by the levying authority have voted in favor of the increase. The notice and manner of holding the referendum shall be as prescribed in subsection (2) of this section for a referendum on the question of increasing the millage rate in school districts levying more than fifty-five (55) mills for school district purposes.

(5) The aggregate receipts from ad valorem taxes levied for school district purposes pursuant to Sections 37-57-1 and 37-57-105, excluding collection fees, additional revenue from the ad valorem tax on any newly constructed properties or any existing properties added to the tax rolls or any properties previously exempt which were not assessed in the next preceding year, and amounts received by school districts from the School Ad Valorem Tax Reduction Fund pursuant to Section 37-61-35, shall be subject to the increase limitation under this section and Section 37-57-107.

(6) The school board shall pay to the levying authority all costs that are incurred by the levying authority in the calling and holding of any election under this section.

(7) The provisions of this section shall not be construed to affect in any manner the authority of school boards to levy millage for the following purposes:

(a) The issuance of bonds, notes and certificates of indebtedness, as authorized in Sections 37-59-1 through 37-59-45 and Sections 37-59-101 through 37-59-115;

(b) The lease of property for school purposes, as authorized under the Emergency School Leasing Authority Act of 1986 (Sections 37-7-351 through 37-7-359);

(c) The lease or lease-purchase of school buildings, as authorized under Section 37-7-301;

(d) The issuance of promissory notes in the event of a shortfall of ad valorem taxes and/or revenue from local sources, as authorized under Section 27-39-333; and

(e) The construction of school buildings outside the school district, as authorized under Section 37-7-401.

Any millage levied for the purposes specified in this subsection shall be excluded from the millage limitations established under this section.

SECTION 15. Section 37-57-105, Mississippi Code of 1972, is amended as follows:

37-57-105. (1) * * * In addition to the taxes levied under Section 37-57-1, the levying authority for the school district, as defined in Section 37-57-1, upon receipt of a certified copy of an order adopted by the school board of the school district requesting an ad valorem tax effort in dollars for the support of the school district and any charter schools located in the district, shall, at the same time and in the same manner as other ad valorem taxes are levied, levy an annual ad valorem tax in the amount fixed in such order upon all of the taxable property of such school district, which shall not be less than the millage rate certified by the State Board of Education as the uniform minimum school district ad valorem tax levy required for the support of * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) in such school district under Sections 37-57-1 and 37-151-217. * * * However, * * * any school district levying less than the uniform minimum school district ad valorem tax levy on July 1, 1997, shall only be required to increase its local district maintenance levy in four (4) mill annual increments in order to attain such millage requirements. In making such levy, the levying authority shall levy an additional amount sufficient to cover anticipated delinquencies and costs of collection so that the net amount of money to be produced by such levy shall be equal to the amount which is requested by * * * the school board. The proceeds of such tax levy, excluding levies for the payment of the principal of and interest on school bonds or notes and excluding levies for costs of collection, shall be placed in the school depository to the credit of the school district and shall be expended in the manner provided by law for the purpose of supplementing teachers' salaries, extending school terms, purchasing furniture, supplies and materials, and for all other lawful operating and incidental expenses of such school district * * *.

The monies authorized to be received by school districts from the School Ad Valorem Tax Reduction Fund pursuant to Section 37-61-35 shall be included as ad valorem tax receipts. The levying authority for the school district, as defined in Section 37-57-1, shall reduce the ad valorem tax levy for such school district in an amount equal to the amount distributed to such school district from the School Ad Valorem Tax Reduction Fund each calendar year pursuant to * * * Section 37-61-35. Such reduction shall not be less than the millage rate necessary to generate a reduction in ad valorem tax receipts equal to the funds distributed to such school district from the School Ad Valorem Tax Reduction Fund pursuant to Section 37-61-35. * * * The millage levy certified by the State

Board of Education as the * * * minimum * * * tax levy * * * shall be subject to the provisions of this paragraph.

In any county where there is located a nuclear generating power plant on which a tax is assessed under Section 27-35-309(3), such required levy and revenue produced thereby may be reduced by the levying authority in an amount in proportion to a reduction in the base revenue of any such county from the previous year. Such reduction shall be allowed only if the reduction in base revenue equals or exceeds five percent (5%). "Base revenue" shall mean the revenue received by the county from the ad valorem tax levy plus the revenue received by the county from the tax assessed under Section 27-35-309(3) and authorized to be used for any purposes for which a county is authorized by law to levy an ad valorem tax. For purposes of determining if the reduction equals or exceeds five percent (5%), a levy of millage equal to the prior year's millage shall be hypothetically applied to the current year's ad valorem tax base to determine the amount of revenue to be generated from the ad valorem tax levy. For the purposes of this section and Section 37-57-107, the portion of the base revenue used for the support of any school district shall be deemed to be the aggregate receipts from ad valorem taxes for the support of any school district. This paragraph shall apply to taxes levied for the 1987 fiscal year and for each fiscal year thereafter. If the Mississippi Supreme Court or another court finally adjudicates that the tax levied under Section 27-35-309(3) is unconstitutional, then this paragraph shall stand repealed.

(b) The State Department of Education shall calculate a local pro rata amount for the aggregate receipts of the tax levied in this section by dividing the aggregate receipts by the sum of the school district's average daily membership, as determined under Section 37-151-211, and the average daily membership of any charter school students who reside in the district.

(2) When the tax is levied upon the territory of any school district located in two (2) or more counties, the order of the school board requesting the levying of such tax shall be certified to the levying authority of each of the counties involved, and each of the levying authorities shall levy the tax in the manner specified herein. The taxes so levied shall be collected by the tax collector of the levying authority involved and remitted by the tax collector to the school depository of the home county to the credit of the school district involved as provided above, except that taxes for collection fees may be retained by the levying authority for deposit into its general fund.

(3) The aggregate receipts from ad valorem taxes levied for school district purposes, excluding collection fees, pursuant to this section and Section 37-57-1 shall be subject to the increased limitation under Section 37-57-107; however, if the ad valorem tax effort in dollars requested by the school district for the fiscal year exceeds the next preceding fiscal year's ad valorem tax effort in dollars by more than four percent (4%) but not more than seven percent (7%), then the school board shall publish notice thereof once each week for at least three (3) consecutive weeks in a newspaper having general circulation in the school district involved, with the first publication thereof to be made not less than fifteen (15) days prior to the final adoption of the budget by the school board. If at any time prior to * * * the adoption a petition signed by not less than twenty percent (20%) or fifteen hundred (1500), whichever is less, of the qualified electors of the school district involved shall be filed with the school board requesting that an election be called on the question of exceeding the next preceding fiscal year's ad valorem tax effort in dollars by more than four percent (4%) but not more than seven percent (7%), then the school board shall, not later than the next regular meeting, adopt a resolution calling an election to be held within such school district upon such question. The election shall be called and held, and notice thereof shall be given, in the same manner for elections upon the questions of the issuance of the bonds of school districts, and the results thereof shall be certified to the school board. The ballot shall contain the language "For the School Tax Increase Over Four Percent (4%)" and "Against the School Tax Increase Over Four Percent (4%)." If a majority of the qualified electors of the school district who voted in such election shall vote in favor of the question, then the stated increase requested by the

school board shall be approved. For the purposes of this paragraph, the revenue sources excluded from the increased limitation under Section 37-57-107 shall also be excluded from the limitation described herein in the same manner as they are excluded under Section 37-57-107.

SECTION 16. Section 37-57-107, Mississippi Code of 1972, is amended as follows:

37-57-107. (1) Beginning with the tax levy for the 1997 fiscal year and for each fiscal year thereafter, the aggregate receipts from taxes levied for school district purposes pursuant to Sections 37-57-105 and 37-57-1 shall not exceed the aggregate receipts from those sources during any one (1) of the immediately preceding three (3) fiscal years, as determined by the school board, plus an increase not to exceed seven percent (7%). For the purpose of this limitation, the term "aggregate receipts" when used in connection with the amount of funds generated in a preceding fiscal year shall not include excess receipts required by law to be deposited into a special account. However, the term "aggregate receipts" includes any receipts required by law to be paid to a charter school. The additional revenue from the ad valorem tax on any newly constructed properties or any existing properties added to the tax rolls or any properties previously exempt which were not assessed in the next preceding year may be excluded from the seven percent (7%) increase limitation set forth herein. Taxes levied for payment of principal of and interest on general obligation school bonds issued heretofore or hereafter shall be excluded from the seven percent (7%) increase limitation set forth herein. Any additional millage levied to fund any new program mandated by the Legislature shall be excluded from the limitation for the first year of the levy and included within such limitation in any year thereafter. For the purposes of this section, the term "new program" shall include, but shall not be limited to, (a) the Early Childhood Education Program * * *, as provided by Section 37-21-7, and any additional millage levied and the revenue generated therefrom, which is excluded from the limitation for the first year of the levy, to support the mandated Early Childhood Education Program shall be specified on the minutes of the school board and of the governing body making such tax levy; (b) any additional millage levied and the revenue generated therefrom, which shall be excluded from the limitation for the first year of the levy, for the purpose of generating additional local contribution funds required for * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE); and (c) any additional millage levied and the revenue generated therefrom which shall be excluded from the limitation for the first year of the levy, for the purpose of support and maintenance of any agricultural high school which has been transferred to the control, operation and maintenance of the school board by the board of trustees of the community college district under provisions of Section 37-29-272.

(2) The seven percent (7%) increase limitation prescribed in this section may be increased an additional amount only when the school board has determined the need for additional revenues and has held an election on the question of raising the limitation prescribed in this section. The limitation may be increased only if three-fifths (3/5) of those voting in the election shall vote for the proposed increase. The resolution, notice and manner of holding the election shall be as prescribed by law for the holding of elections for the issuance of bonds by the respective school boards. Revenues collected for the fiscal year in excess of the seven percent (7%) increase limitation pursuant to an election shall be included in the tax base for the purpose of determining aggregate receipts for which the seven percent (7%) increase limitation applies for subsequent fiscal years.

(3) Except as otherwise provided for excess revenues generated pursuant to an election, if revenues collected as the result of the taxes levied for the fiscal year pursuant to this section and Section 37-57-1 exceed the increase limitation, then it shall be the mandatory duty of the school board of the school district to deposit such excess receipts over and above the increase limitation into a special account and credit it to the fund for which the levy was made. It will be the further duty of such board to hold * * * the funds and invest the same as authorized by law. Such excess funds shall be calculated in the budgets for the school districts for the purpose for which such levies were made, for the

succeeding fiscal year. Taxes imposed for the succeeding year shall be reduced by the amount of excess funds available. Under no circumstances shall such excess funds be expended during the fiscal year in which such excess funds are collected.

(4) For the purposes of determining ad valorem tax receipts for a preceding fiscal year under this section, the term "fiscal year" means the fiscal year beginning October 1 and ending September 30.

(5) Beginning with the 2013-2014 school year, each school district in which a charter school is located shall pay to the charter school an amount for each student enrolled in the charter school equal to the ad valorem taxes levied per pupil for the support of the school district in which the charter school is located. Payments made pursuant to this subsection by a school district to a charter school must be made before the expiration of three (3) business days after the funds are distributed to the school district.

SECTION 17. Section 37-61-33, Mississippi Code of 1972, is amended as follows:

37-61-33. (1) There is created within the State Treasury a special fund to be designated the "Education Enhancement Fund" into which shall be deposited all the revenues collected pursuant to Sections 27-65-75(5), (7) and (8) and 27-67-31(a) and (b).

(2) Of the amount deposited into the Education Enhancement Fund, Sixteen Million Dollars ($16,000,000.00) shall be appropriated each fiscal year to the State Department of Education to be distributed to all school districts. Such money shall be distributed to all school districts in the proportion that the average daily * * * membership of each school district bears to the average daily * * * membership of all school districts within the state for the following purposes:

(a) Purchasing, erecting, repairing, equipping, remodeling and enlarging school buildings and related facilities, including gymnasiums, auditoriums, lunchrooms, vocational training buildings, libraries, teachers' homes, school barns, transportation vehicles (which shall include new and used transportation vehicles) and garages for transportation vehicles, and purchasing land therefor;

(b) Establishing and equipping school athletic fields and necessary facilities connected therewith, and purchasing land therefor;

(c) Providing necessary water, light, heating, air-conditioning and sewerage facilities for school buildings, and purchasing land therefor;

(d) As a pledge to pay all or a portion of the debt service on debt issued by the school district under Sections 37-59-1 through 37-59-45, 37-59-101 through 37-59-115, 37-7-351 through 37-7-359, 37-41-89 through 37-41-99, 37-7-301, 37-7-302 and 37-41-81, or debt issued by boards of supervisors for agricultural high schools pursuant to Section 37-27-65, if such pledge is accomplished pursuant to a written contract or resolution approved and spread upon the minutes of an official meeting of the district's school board or board of supervisors. The annual grant to such district in any subsequent year during the term of the resolution or contract shall not be reduced below an amount equal to the district's grant amount for the year in which the contract or resolution was adopted. The intent of this provision is to allow school districts to irrevocably pledge a certain, constant stream of revenue as security for long-term obligations issued under the code sections enumerated in this paragraph or as otherwise allowed by law. It is the intent of the Legislature that the provisions of this paragraph shall

be cumulative and supplemental to any existing funding programs or other authority conferred upon school districts or school boards. Debt of a district secured by a pledge of sales tax revenue pursuant to this paragraph shall not be subject to any debt limitation contained in the foregoing enumerated code sections * * *; and

(e) Any other purpose for which INSPIRE funds are not sufficient.

(3) The remainder of the money deposited into the Education Enhancement Fund shall be appropriated as follows:

(a) To the State Department of Education as follows:

(i) Sixteen and sixty-one one-hundredths percent (16.61%) to the cost of the adequate education program determined under Section 37-151-7; of the funds generated by the percentage set forth in this section for the support of the adequate education program, one and one hundred seventy-eight one-thousandths percent (1.178%) of the funds shall be appropriated to be used by the State Department of Education for the purchase of textbooks to be loaned under Sections 37-43-1 through 37-43-59 to approved nonpublic schools, as described in Section 37-43-1. The funds to be distributed to each nonpublic school shall be in the proportion that the average daily attendance of each nonpublic school bears to the total average daily attendance of all nonpublic schools;

(ii) Seven and ninety-seven one-hundredths percent (7.97%) to assist the funding of transportation operations and maintenance pursuant to Section 37-19-23; and

(iii) Nine and sixty-one one-hundredths percent (9.61%) for classroom supplies, instructional materials and equipment, including computers and computer software, to be distributed to all eligible teachers within the state through the use of procurement cards or a digital solution capable of tracking, paying and reporting purchases. Classroom supply funds shall not be expended for administrative purposes. On a date to be determined by the State Department of Education, but not later than July 1 of each year, local school districts shall determine and submit to the State Department of Education the number of teachers eligible to receive an allocation for the current year. For purposes of this subparagraph, "teacher" means any employee of the school board of a school district, or the Mississippi School for the Arts, the Mississippi School for Math and Science, the Mississippi School for the Blind, the Mississippi School for the Deaf or public charter school, who is required by law to obtain a teacher's license from the State Department of Education and who is assigned to an instructional area of work as defined by the department, and shall include any full- or part-time gifted or special education teacher. It is the intent of the Legislature that all classroom teachers shall utilize these funds in a manner that addresses individual classroom needs and supports the overall goals of the school regarding supplies, instructional materials, equipment, computers or computer software under the provisions of this subparagraph, including the type, quantity and quality of such supplies, materials and equipment. Classroom supply funds allocated under this subparagraph shall supplement, not replace, other local and state funds available for the same purposes. The State Board of Education shall develop and promulgate rules and regulations for the administration of this subparagraph consistent with the above criteria, with particular emphasis on allowing the individual teachers to expend funds as they deem appropriate. The local school board shall require each school to issue credentials for a digital solution selected by or procurement cards provided by the Department of Finance and Administration under the provisions of Section 31-7-9(1)(c) for the use of teachers and necessary support personnel in making instructional supply fund expenditures under this section, consistent with the regulations of the Mississippi Department of Finance and Administration pursuant to Section 31-7-9. Such credentials or procurement cards shall be provided by the State Department of Education to local school districts on a date determined by the State Department of Education, but not later than August 1 of each year. Local school districts shall issue such credentials or

procurement cards to classroom teachers at the beginning of the school year, but no later than August 1 of each year, and shall be issued in equal amounts per teacher determined by the total number of qualifying personnel and the current state appropriation for classroom supplies with the Education Enhancement Fund. After initial cards are issued under the timeline prescribed by this section, the State Department of Education may issue cards to districts for any classroom teacher hired after July 1 under a timeline prescribed by the State Department of Education. Such credentials or cards will expire on a predetermined date at the end of each school year, but not before April 1 of each year. All unexpended amounts will be carried forward, combined with the following year's allocation of Education Enhancement Fund instructional supplies funds and reallocated for the following year;

(b) Twenty-two and nine one-hundredths percent (22.09%) to the Board of Trustees of State Institutions of Higher Learning for the purpose of supporting institutions of higher learning; and

(c) Fourteen and forty-one one-hundredths percent (14.41%) to the Mississippi Community College Board for the purpose of providing support to community and junior colleges.

(4) The amount remaining in the Education Enhancement Fund after funds are distributed as provided in subsections (2) and (3) of this section shall be appropriated for other educational needs.

(5) None of the funds appropriated pursuant to subsection (3)(a) of this section shall be used to reduce the state's General Fund appropriation for the categories listed in an amount below the following amounts:

(a) For subsection (3)(a)(ii) of this section, Thirty-six Million Seven Hundred Thousand Dollars ($36,700,000.00);

(b) For the aggregate of minimum program allotments in the 1997 fiscal year, formerly provided for in Chapter 19, Title 37, Mississippi Code of 1972, as amended, excluding those funds for transportation as provided for in paragraph (a) of this subsection.

(6) Any funds appropriated from the Education Enhancement Fund that are unexpended at the end of a fiscal year shall lapse into the Education Enhancement Fund, except as otherwise provided in subsection (3)(a)(iii) of this section.

SECTION 18. Section 27-65-75, Mississippi Code of 1972, is amended as follows:

27-65-75. On or before the fifteenth day of each month, the revenue collected under the provisions of this chapter during the preceding month shall be paid and distributed as follows:

(1) (a) On or before August 15, 1992, and each succeeding month thereafter through July 15, 1993, eighteen percent (18%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3) and 27-65-21, on business activities within a municipal corporation shall be allocated for distribution to the municipality and paid to the municipal corporation. Except as otherwise provided in this paragraph (a), on or before August 15, 1993, and each succeeding month thereafter, eighteen and one-half percent (18-1/2%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3), 27-65-21 and 27-65-24, on business activities within a municipal corporation shall be allocated for distribution to the municipality and paid to the municipal corporation. However, in the event the State Auditor issues a certificate of noncompliance pursuant to Section 21-35-31, the Department of

Revenue shall withhold ten percent (10%) of the allocations and payments to the municipality that would otherwise be payable to the municipality under this paragraph (a) until such time that the department receives written notice of the cancellation of a certificate of noncompliance from the State Auditor.

A municipal corporation, for the purpose of distributing the tax under this subsection, shall mean and include all incorporated cities, towns and villages.

Monies allocated for distribution and credited to a municipal corporation under this paragraph may be pledged as security for a loan if the distribution received by the municipal corporation is otherwise authorized or required by law to be pledged as security for such a loan.

In any county having a county seat that is not an incorporated municipality, the distribution provided under this subsection shall be made as though the county seat was an incorporated municipality; however, the distribution to the municipality shall be paid to the county treasury in which the municipality is located, and those funds shall be used for road, bridge and street construction or maintenance in the county.

(b) On or before August 15, 2006, and each succeeding month thereafter, eighteen and one-half percent (18-1/2%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3) and 27-65-21, on business activities on the campus of a state institution of higher learning or community or junior college whose campus is not located within the corporate limits of a municipality, shall be allocated for distribution to the state institution of higher learning or community or junior college and paid to the state institution of higher learning or community or junior college.

(c) On or before August 15, 2018, and each succeeding month thereafter until August 14, 2019, two percent (2%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3), 27-65-21 and 27-65-24, on business activities within the corporate limits of the City of Jackson, Mississippi, shall be deposited into the Capitol Complex Improvement District Project Fund created in Section 29-5-215. On or before August 15, 2019, and each succeeding month thereafter until August 14, 2020, four percent (4%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3), 27-65-21 and 27-65-24, on business activities within the corporate limits of the City of Jackson, Mississippi, shall be deposited into the Capitol Complex Improvement District Project Fund created in Section 29-5-215. On or before August 15, 2020, and each succeeding month thereafter through July 15, 2023, six percent (6%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3), 27-65-21 and 27-65-24, on business activities within the corporate limits of the City of Jackson, Mississippi, shall be deposited into the Capitol Complex Improvement District Project Fund created in Section 29-5-215. On or before August 15, 2023, and each succeeding month thereafter, nine percent (9%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3), 27-65-21 and 27-65-24, on business activities within the corporate limits of the City of Jackson, Mississippi, shall be deposited into the Capitol Complex Improvement District Project Fund created in Section 29-5-215.

(d) (i) On or before the fifteenth day of the month that the diversion authorized by this section begins, and each succeeding month thereafter, eighteen and one-half percent (18-1/2%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3) and 27-65-21, on business activities within a redevelopment project area developed under a redevelopment plan adopted under the

Tax Increment Financing Act (Section 21-45-1 et seq.) shall be allocated for distribution to the county in which the project area is located if:

1. The county:

a. Borders on the Mississippi Sound and the State of Alabama, or

b. Is Harrison County, Mississippi, and the project area is within a radius of two (2) miles from the intersection of Interstate 10 and Menge Avenue;

2. The county has issued bonds under Section 21-45-9 to finance all or a portion of a redevelopment project in the redevelopment project area;

3. Any debt service for the indebtedness incurred is outstanding; and

4. A development with a value of Ten Million Dollars ($10,000,000.00) or more is, or will be, located in the redevelopment area.

(ii) Before any sales tax revenue may be allocated for distribution to a county under this paragraph, the county shall certify to the Department of Revenue that the requirements of this paragraph have been met, the amount of bonded indebtedness that has been incurred by the county for the redevelopment project and the expected date the indebtedness incurred by the county will be satisfied.

(iii) The diversion of sales tax revenue authorized by this paragraph shall begin the month following the month in which the Department of Revenue determines that the requirements of this paragraph have been met. The diversion shall end the month the indebtedness incurred by the county is satisfied. All revenue received by the county under this paragraph shall be deposited in the fund required to be created in the tax increment financing plan under Section 21-45-11 and be utilized solely to satisfy the indebtedness incurred by the county.

(2) On or before September 15, 1987, and each succeeding month thereafter, from the revenue collected under this chapter during the preceding month, One Million One Hundred Twenty-five Thousand Dollars ($1,125,000.00) shall be allocated for distribution to municipal corporations as defined under subsection (1) of this section in the proportion that the number of gallons of gasoline and diesel fuel sold by distributors to consumers and retailers in each such municipality during the preceding fiscal year bears to the total gallons of gasoline and diesel fuel sold by distributors to consumers and retailers in municipalities statewide during the preceding fiscal year. The Department of Revenue shall require all distributors of gasoline and diesel fuel to report to the department monthly the total number of gallons of gasoline and diesel fuel sold by them to consumers and retailers in each municipality during the preceding month. The Department of Revenue shall have the authority to promulgate such rules and regulations as is necessary to determine the number of gallons of gasoline and diesel fuel sold by distributors to consumers and retailers in each municipality. In determining the percentage allocation of funds under this subsection for the fiscal year beginning July 1, 1987, and ending June 30, 1988, the Department of Revenue may consider gallons of gasoline and diesel fuel sold for a period of less than one (1) fiscal year. For the purposes of this subsection, the term "fiscal year" means the fiscal year beginning July 1 of a year.

(3) On or before September 15, 1987, and on or before the fifteenth day of each succeeding month, until the date specified in Section 65-39-35, the proceeds derived from contractors' taxes levied under Section 27-65-21 on contracts for the construction or reconstruction of highways designated under the highway program created under Section 65-3-97 shall, except as otherwise provided in Section 31-17-127, be deposited into the State Treasury to the credit of the State Highway Fund to be used to fund that highway

program. The Mississippi Department of Transportation shall provide to the Department of Revenue such information as is necessary to determine the amount of proceeds to be distributed under this subsection.

(4) On or before August 15, 1994, and on or before the fifteenth day of each succeeding month through July 15, 1999, from the proceeds of gasoline, diesel fuel or kerosene taxes as provided in Section 27-5-101(a)(ii)1, Four Million Dollars ($4,000,000.00) shall be deposited in the State Treasury to the credit of a special fund designated as the "State Aid Road Fund," created by Section 65-9-17. On or before August 15, 1999, and on or before the fifteenth day of each succeeding month, from the total amount of the proceeds of gasoline, diesel fuel or kerosene taxes apportioned by Section 27-5-101(a)(ii)1, Four Million Dollars ($4,000,000.00) or an amount equal to twenty-three and one-fourth percent (23-1/4%) of those funds, whichever is the greater amount, shall be deposited in the State Treasury to the credit of the "State Aid Road Fund," created by Section 65-9-17. Those funds shall be pledged to pay the principal of and interest on state aid road bonds heretofore issued under Sections 19-9-51 through 19-9-77, in lieu of and in substitution for the funds previously allocated to counties under this section. Those funds may not be pledged for the payment of any state aid road bonds issued after April 1, 1981; however, this prohibition against the pledging of any such funds for the payment of bonds shall not apply to any bonds for which intent to issue those bonds has been published for the first time, as provided by law before March 29, 1981. From the amount of taxes paid into the special fund under this subsection and subsection (9) of this section, there shall be first deducted and paid the amount necessary to pay the expenses of the Office of State Aid Road Construction, as authorized by the Legislature for all other general and special fund agencies. The remainder of the fund shall be allocated monthly to the several counties in accordance with the following formula:

(a) One-third (1/3) shall be allocated to all counties in equal shares;

(b) One-third (1/3) shall be allocated to counties based on the proportion that the total number of rural road miles in a county bears to the total number of rural road miles in all counties of the state; and

(c) One-third (1/3) shall be allocated to counties based on the proportion that the rural population of the county bears to the total rural population in all counties of the state, according to the latest federal decennial census.

For the purposes of this subsection, the term "gasoline, diesel fuel or kerosene taxes" means such taxes as defined in paragraph (f) of Section 27-5-101.

The amount of funds allocated to any county under this subsection for any fiscal year after fiscal year 1994 shall not be less than the amount allocated to the county for fiscal year 1994.

Any reference in the general laws of this state or the Mississippi Code of 1972 to Section 27-5-105 shall mean and be construed to refer and apply to subsection (4) of Section 27-65-75.

(c) To study and analyze existing managerial policies, methods, procedures, duties and services of the various state departments and institutions upon written request of the Governor, the Legislature or any committee or other body empowered by the Legislature to make such request to determine whether and where operations can be eliminated, combined, simplified and improved;

(d) To postaudit each year and, when deemed necessary, preaudit and investigate the financial affairs of the departments, institutions, boards, commissions, or other agencies of state government, as part of the publication of a comprehensive annual financial report for the State of Mississippi, or as deemed necessary by the State Auditor. (e) To postaudit and, when deemed necessary, preaudit and investigate separately the financial affairs of (i) the offices, boards and commissions of county governments and any departments and institutions thereof and therein; (ii) public school districts, departments of education and junior college districts; and (iii) any other local offices or agencies which share revenues derived from taxes or fees imposed by the State Legislature or receive grants from revenues collected by governmental divisions of the state; the cost of such audits, investigations or other services to be paid as follows: Such part shall be paid by the state from appropriations made by the Legislature for the operation of the State Department of Audit as may exceed the sum of Thirty-five Dollars ($35.00) per man-hour for the services of each staff person engaged in performing the audit or other service plus the actual cost of any independent specialist firm contracted by the State Auditor to assist in the performance of the audit, which sum shall be paid by the county, district, department, institution or other agency audited out of its general fund or any other available funds from which such payment is not prohibited by law. Costs paid for independent specialists or firms contracted by the State Auditor shall be paid by the audited entity through the State Auditor to the specialist or firm conducting the postaudit.

Each school district in the state shall have its financial records audited annually, at the end of each fiscal year, either by the State Auditor or by a certified public accountant approved by the State Auditor. Beginning with the audits of fiscal year 2010 activity, no certified public accountant shall be selected to perform the annual audit of a school district who has audited that district for three (3) or more consecutive years previously. Such demand shall be premised on competent evidence, which shall include at least one (1) of the following: (i) sworn statements, (ii) written documentation, (iii) physical evidence, or (iv) reports and findings of government or other law enforcement agencies. Each such demand shall be paid into the proper treasury of the state, county or other public body through the office of the department in the amount demanded within thirty (30) days from the date thereof, together with interest thereon in the sum of one percent (1%) per month from the date such amount or amounts were improperly withheld, misappropriated and/or otherwise illegally expended. The * * * Division of Investigation of the State Department of Audit may investigate, for the purpose of prosecution, any suspected criminal violation of the provisions of this chapter. For the purpose of administration and enforcement of this chapter, the enforcement employees of the * * * Division of Investigation of the State Department of Audit have the powers of a law enforcement officer of this state, and shall be empowered to make arrests and to serve and execute search warrants and other valid legal process anywhere within the State of Mississippi. Such audits shall be made in accordance with generally accepted standards of auditing, with the use of an audit program prepared by the State Auditor, and final reports of such audits shall conform to the format prescribed by the State Auditor. All files, working papers, notes, correspondence and all other data compiled during the course of the audit shall be available, without cost, to the State Auditor for examination and abstracting during the normal business hours of any business day. The expense of such certified reports shall

be borne by the respective hospital, or any available school district funds * * *, subject to examination or audit. The State Auditor shall not be bound by such certified reports and may, in his or their discretion, conduct such examination or audit from the books, ledgers, accounts or other records involved as may be appropriate and authorized by law;

(k) The State Auditor shall have the authority to contract with qualified public accounting firms to perform selected audits required in paragraphs (d), (e), (f) and (j) of this section, if funds are made available for such contracts by the Legislature, or if funds are available from the governmental entity covered by paragraphs (d), (e), (f) and (j). Such audits shall be made in accordance with generally accepted standards of auditing. All files, working papers, notes, correspondence and all other data compiled during the course of the audit shall be available, without cost, to the State Auditor for examination and abstracting during the normal business hours of any business day;

The State Auditor is authorized to charge a fee from the participants of these courses and programs, which fee shall be deposited into the Department of Audit Special Fund. State and local governmental entities are authorized to pay such fee and any travel expenses out of their general funds or any other available funds from which such payment is not prohibited by law;

(m) Upon written request by the Governor or any member of the State Legislature, the State Auditor may audit any state funds and/or state and federal funds received by any nonprofit corporation incorporated under the laws of this state;

(n) To conduct performance audits of personal or professional service contracts by state agencies on a random sampling basis, or upon request of the State Personal Service Contract Review Board under Section 25-9-120(3);

(o) At the discretion of the State Auditor, the Auditor may conduct risk assessments, as well as performance and compliance audits based on Generally Accepted Government Auditing Standards (GAGAS) of any state-funded economic development program authorized under Title 57, Mississippi Code of 1972. After risk assessments or program audits, the State Auditor may conduct audits of those projects deemed high-risk, specifically as they identify any potential wrongdoing or noncompliance based on objectives of the economic development program. The Auditor is granted authority to gather, audit and review data and information from the Mississippi Development Authority or any of its agents, the Department of Revenue, and when necessary under this paragraph, the recipient business or businesses or any other private, public or nonprofit entity with information relevant to the audit project. The commission shall enroll such assessment as a civil judgment with the circuit clerk in the delinquent filer's county of residence. The commission may enforce the judgment for the benefit of the State General Fund for the support of * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) in the same manner as is prescribed for other civil judgments.

The board of supervisors in such counties may pledge only up to fifty percent (50%) of such severance taxes as their respective county may receive to retire the bonds and interest pursuant to the authority of this section. The required local contribution of said counties to the cost of * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) shall not be reduced nor shall the obligation of the state under * * * the funding formula to said counties be increased because * * * of this section.

SECTION 27. Section 27-33-3, Mississippi Code of 1972, is amended as follows:

27-33-3. In order to recognize and give effect to the principle of tax-free homes as a public policy in Mississippi, to encourage home building and ownership, and to give additional security to family groups, it is hereby declared that homes legally assessed on the land roll, owned and actually occupied as a home by bona fide residents of this state, who are heads of families, shall be exempt from the ad valorem taxes herein enumerated, on not in excess of Seven Thousand Five Hundred Dollars ($7,500.00) of the assessed value including an area of land not in excess of that specified hereinafter in this article. The exemption from taxes shall be limited to the following:

(v) In the event any law referred to in this section is amended so as to authorize an increase in the tax levy for any purposes, such increase in the levy shall be applied to and taxes collected from the property owners on the entire assessed value of exempted homes; and the tax loss resulting from such increase shall not be reimbursed under the provisions of the Homestead Exemption Law, unless such law clearly specifies that the exempted assessed value of homes is exempt from such increase;

(vi) Ad valorem taxes levied under Sections 65-15-7 and 65-15-21 shall be used solely for purposes levied.

(b) Those homeowners who qualify for the exemptions provided for in subsection (a) of this section and who have reached the age of sixty-five (65) years on or before January 1 of the year for which the exemption is claimed; and service-connected, totally disabled American veterans who were honorably discharged from military service, upon presentation of proper proof of eligibility shall be exempt from any and all ad valorem

taxes, including the forest acreage tax authorized by Section 49-19-115, on homesteads not in excess of Seven Thousand Five Hundred Dollars ($7,500.00) of assessed value thereof; provided, however, that property owned jointly by husband and wife and property owned in fee simple by either spouse shall be eligible for this exemption in full if either spouse fulfills the age or disability requirement. On all other jointly owned property the amount of the allowable exemption shall be determined on the basis of each individual joint owner's qualifications and pro rata share of the property.

(c) Those homeowners who qualify for the exemptions provided for in subsection (a) of this section and who would be classified as disabled under the Federal Social Security Act (42 USCS Section 416(i)), upon presentation of proper proof of eligibility shall be exempt from any and all ad valorem taxes, including the forest acreage tax authorized by Section 49-19-115, on homesteads not in excess of Seven Thousand Five Hundred Dollars ($7,500.00) of assessed value thereof; provided, however, that property owned jointly by husband and wife and property owned in fee simple by either spouse shall be eligible for this exemption in full if either spouse fulfills the disability requirement. On all other jointly owned property, the amount of the allowable exemption shall be determined on the basis of each individual joint owner's qualifications and pro rata share of the property.

SECTION 28. Section 27-39-317, Mississippi Code of 1972, is amended as follows:

27-39-317. The board of supervisors of each county shall, at its regular meeting in September of each year, levy the county ad valorem taxes for the fiscal year, and shall, by order, fix the tax rate, or levy, for the county, for the road districts, if any, and for the school districts, if any, and for any other taxing districts; and the rates, or levies, for the county and for any district shall be expressed in mills or a decimal fraction of a mill. Said tax rates, or levies, shall determine the ad valorem taxes to be collected upon each dollar of valuation, upon the assessment rolls of the county, including the assessment of motor vehicles as provided by the Motor Vehicle Ad Valorem Tax Law of 1958, Section 27-51-1 et seq., for county taxes; and upon each dollar of valuation for the respective districts, as shown upon the assessment rolls of the county, including the assessment of motor vehicles as provided by the Motor Vehicle Ad Valorem Tax Law of 1958, Section 27-51-1 et seq.; except as to such values as shall be exempt, in whole or in part, from certain tax rates or levies. If the rate or levy for the county is an increase from the previous fiscal year, then the proposed rate or levy shall be advertised in accordance with Section 27-39-203. If the board of supervisors of any county shall not levy the county taxes and the district taxes at its regular September meeting, the board shall levy the same on or before September 15 at an adjourned or special meeting, or thereafter, provided, however, that if such levy be not made on or before the fifteenth day of September then the tax collector or Department of Revenue may issue road and bridge privilege tax license plates for motor vehicles as defined in the Motor Vehicle Ad Valorem Tax Law of 1958, Section 27-51-1 et seq., without collecting or requiring proof of payment of county ad valorem taxes, and may continue to so issue such plates until such levy is duly certified to him, and for twenty-four (24) hours thereafter.

Notwithstanding the requirements of this section, in the event the Department of Revenue orders the county to make an adjustment to the tax roll pursuant to Section 27-35-113, the county shall have a period of thirty (30) days from the date of the commission's final determination to adjust the millage in order to collect the same dollar amount of taxes as originally levied by the board.

In making the levy of taxes, the board of supervisors shall specify, in its order, the levy for each purpose, as follows:

(a) For general county purposes (current expense and maintenance taxes), as authorized by Section 27-39-303.

(b) For roads and bridges, as authorized by Section 27-39-305.

(c) For schools, including the * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) levy and the levy for each school district including special municipal separate school districts, but not including other municipal separate school districts, and for an agricultural high school, county high school or community or junior college (current expense and maintenance taxes), as authorized by Chapter 57, Title 37, Mississippi Code of 1972, and any other applicable statute. The levy for schools shall apply to the assessed value of property in the respective school districts, including special municipal separate school districts, but not including other municipal separate school districts, and a distinct and separate levy shall be made for each school district, and the purpose for each levy shall be stated.

(d) For road bonds and the interest thereon, separately for countywide bonds and for the bonds of each road district.

(e) For school bonds and the interest thereon, separately for countywide bonds and for the bonds of each school district.

(f) For countywide bonds, and the interest thereon, other than for road bonds and school bonds.

(g) For loans, notes or any other obligation, and the interest thereon, if permitted by the law.

(h) For any other purpose for which a levy is lawfully made.

The order shall state all of the purposes for which the general county levy is made, using the administrative items suggested by the State Department of Audit * * * under the county budget law in its uniform system of accounts for counties, but the rate or levy for any item or purpose need not be shown; and if a countywide levy is made for any general or special purpose under the provisions of any law other than Section 27-39-303, each such levy shall be separately stated.

During the month of February of each year, if the order or resolution of the board of trustees of any school district of said county or partly in said county, is filed with it requesting the levying of ad valorem taxes for the support and maintenance of such school district for the following fiscal year, then the board of supervisors of every such county in the state shall notify, in writing, within thirty (30) days, the county superintendent of education of such county, the levy or levies it intends to make for the support and maintenance of such school districts of such county at its regular meeting in September following, and the county superintendent of education and the trustees of all such school districts shall be authorized to use such expressed intention of the board of supervisors in computing the support and maintenance budget or budgets of such school district or districts for the ensuing fiscal school year.

SECTION 29. Section 29-3-47, Mississippi Code of 1972, is amended as follows:

29-3-47. For its services the State Forestry Commission shall be entitled to receive its actual expenses incurred in the discharge of the duties herein imposed. In order to provide funds with which to pay for the general supervision and sale of forest products, fifteen percent (15%) of all receipts from the sales of forest products shall be placed by the board in a Forestry Escrow Fund and reserved to pay for work performed by the State Forestry Commission. Such payments shall be equal to the actual expenses incurred by the commission as substantiated by itemized bills presented to the board.

Money in the Forestry Escrow Fund may be used to pay for any forestry work authorized during the period of the agreement and shall not be subject to lapse by reason of county budget limitations.

In each school district having need of tree planting and timber stand improvement, the board of education is authorized to place additional amounts in the Forestry Escrow Fund to reimburse the State Forestry Commission for actual expenses incurred in performing this work, or to pay for any work done under private contract under the supervision of said commission. Such additional amounts may be made available from forest products sales receipts, funds borrowed from the sixteenth section principal fund as is provided for in Section 29-3-113, or any other funds available to the board of education excluding * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds. Expenditures from the Forestry Escrow Fund for tree planting, timber stand improvement, and other forestry work will be limited to payment for work recommended by the Forestry Commission and agreed to by the board of education.

When it becomes evident that the amount of money in the Forestry Escrow Fund is in excess of the amount necessary to accomplish the work needed to achieve the goals set by the board of education and the Forestry Commission, the State Forestry Commission shall advise said board to release any part of such funds as will not be needed, which may then be spent for any purpose authorized by law.

SECTION 30. Section 29-3-49, Mississippi Code of 1972, is amended as follows:

29-3-49. It shall be the duty of the State Forestry Commission, in the manner provided in Section 29-3-45, to enter into agreements for timber improvement purposes with the board of education upon the request of the board. The contract shall provide for the carrying out of a long-term program of timber improvement, including any or all of the following: The deadening of undesirable hardwoods, the planting of trees, the cutting and maintaining of fire lanes, and the establishment of marked boundaries on all lands classified as forest lands in the agreements, which provide for the reimbursement of all current costs incurred by the State Forestry Commission and the carrying out of the duties required by such agreements. In the alternative, the commission, in its discretion, may have the option to contract with a private contractor, subject to the approval of the board, to perform this work under the supervision of the commission. Payment of the reimbursements as hereinabove set forth to the Forestry Commission, or of compensation due under any such contract with private contractors shall be made upon presentation of itemized bills by the commission or the private contractors, as the case may be, and may be made out of any sixteenth section funds to the credit of, or accruing to, any school district in which such work shall be done, or out of any other funds available to such district, excluding * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds.

SECTION 31. Section 29-3-113, Mississippi Code of 1972, is amended as follows:

29-3-113. The principal fund shall be a permanent township fund which shall consist of funds heretofore or hereafter derived from certain uses or for certain resources of school trust lands which shall be invested and, except as otherwise provided in this section, only the interest and income derived from such funds shall be expendable by the school district.

The principal fund shall consist of:

(a) Funds received for easements and rights-of-way pursuant to Section 29-3-91;

(b) Funds received for sales of lieu land pursuant to Sections 29-3-15 through 29-3-25;

(c) Funds received from any permanent damage to the school trust land;

(d) Funds received from the sale of nonrenewable resources, including, but not limited to, the sale of sand, gravel, dirt, clays and royalties received from the sale of mineral ores, coal, oil and gas;

(e) Funds received from the sale of buildings pursuant to Section 29-3-77;

(f) Funds received from the sale of timber; and

(g) Funds received pursuant to Section 29-3-23(2).

It shall be the duty of the Board of Education to keep the principal fund invested in any direct obligation issued by or guaranteed in full as to principal and interest by the United States of America or in certificates of deposit issued by a qualified depository of the State of Mississippi as approved by the State Treasurer. The certificates of deposit may bear interest at any rate per annum which may be mutually agreed upon but in no case shall said rate be less than that paid on passbook savings.

The Board of Education is authorized to invest the funds in interest bearing deposits or other obligations of the types described in Section 27-105-33 or in any other type investment in which any other political subdivision of the State of Mississippi may invest, except that one hundred percent (100%) of the funds are authorized to be invested. For the purposes of investment, the principal fund of each township may be combined into one or more district accounts; however, the docket book of the county superintendent shall at all times reflect the proper source of such funds. Provided that funds received from the sale of timber shall be placed in a separate principal fund account, and may be expended for any of the purposes authorized by law.

The Board of Education shall have authority to borrow such funds at a rate of interest not less than four percent (4%) per annum and for a term not exceeding twenty (20) years, for the erection, equipment or repair of said district schools, to provide local funds for any building project approved by the State Board of Education or to provide additional funds for forest stand improvement as set forth in Section 29-3-47. In addition, the board may borrow the funds under the same interest restrictions for a term not exceeding ten (10) years to provide funds for the purchase of school buses. The Board of Education of any school district in any county that has an aggregate amount of assets in its principal fund in excess of Five Million Dollars ($5,000,000.00) may deduct an amount not to exceed Five Hundred Thousand Dollars ($500,000.00) for the purpose of covering the cost of asbestos removal from school district buildings. Such asbestos removal shall be construed to constitute the repair of school district facilities as prescribed in Section 29-3-115.

No school land trust funds may be expended after the annual payment date until the payment is made on such loan. Once a district is current on its loan payments, the district may spend expendable trust funds earned or accumulated in previous years for any purpose for which expendable trust funds may be spent. The annual payment can be made from any funds available to the school district except * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds.

It shall be unlawful for the Board of Education to borrow any sixteenth section school funds in any other manner than that prescribed herein, and if any such funds shall be borrowed or invested in any other manner, any officer concerned in making such loan and investment or suffering the same to be made in violation of the provisions of this section shall be liable personally and on his official bond for the safety of the funds so loaned.

SECTION 32. Section 29-3-137, Mississippi Code of 1972, is amended as follows:

29-3-137. (1) Beginning with the 1985-1986 fiscal year the Legislature of the State of Mississippi shall appropriate to the State Department of Education a sum of One Million Dollars ($1,000,000.00) to be disbursed to the Chickasaw counties, and an additional One Million Dollars ($1,000,000.00) each succeeding fiscal year thereafter until a maximum appropriation of Five Million Dollars ($5,000,000.00) is made for the fiscal year 1989-1990. Beginning with the appropriation for the 1990-1991 fiscal year, the amount appropriated under the provisions of this section shall not exceed the total average annual expendable revenue * * * received by the Choctaw counties from school lands, or Five Million Dollars ($5,000,000.00), whichever is the lesser.

(2) The State Department of Education is hereby authorized, empowered and directed to allocate for distribution such funds appropriated each year under subsection (1) of this section in proportion to the * * * amount of funding allotted under * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) to such school districts affected by the sale of Chickasaw cession school lands. School districts not wholly situated in Chickasaw cession affected territory shall receive a prorated amount of such allocation based on the percentage of such lands located within the district. Provided further, that the State Department of Education shall, in addition, deduct from each affected school district's allocation the amount such district shall receive from interest payments from the Chickasaw School Fund under Section 212, Mississippi Constitution of 1890 for each fiscal year. * * * The department shall document the foregoing computation in its annual budget request for the appropriation to the Chickasaw School Fund, and shall revise its budget request under such formula as the average annual revenues from sixteenth section school lands fluctuate.

(3) [Repealed]

SECTION 33. Section 31-7-9, Mississippi Code of 1972, is amended as follows:

31-7-9. (1) (a) The Office of Purchasing, Travel and Fleet Management shall adopt purchasing regulations governing the purchase by any agency of any commodity or commodities and establishing standards and specifications for a commodity or commodities and the maximum fair prices of a commodity or commodities, subject to the approval of the Public Procurement Review Board. It shall have the power to amend, add to or eliminate purchasing regulations. The adoption of, amendment, addition to or elimination of purchasing regulations shall be based upon a determination by the Office of Purchasing, Travel and Fleet Management with the approval of the Public Procurement Review Board, that such action is reasonable and practicable and advantageous to promote efficiency and economy in the purchase of commodities by the agencies of the state. Upon the adoption of any purchasing regulation, or an amendment, addition or elimination therein, copies of same shall be furnished to the State Auditor and to all agencies affected thereby. Thereafter, and except as otherwise may be provided in subsection (2) of this section, no agency of the state shall purchase any commodities covered by existing purchasing regulations unless such commodities be in conformity with the standards and specifications set forth in the purchasing regulations and unless the price thereof does not exceed the maximum fair price established by such purchasing regulations. The Office of Purchasing, Travel and Fleet Management shall furnish to any county or municipality or other local public agency of the state requesting same, copies of purchasing regulations adopted by the Office of Purchasing, Travel and Fleet

Management and any amendments, changes or eliminations of same that may be made from time to time.

(b) The Office of Purchasing, Travel and Fleet Management may adopt purchasing regulations governing the use of credit cards, procurement cards and purchasing club membership cards to be used by state agencies, governing authorities of counties and municipalities, school districts and the Chickasawhay Natural Gas District. Use of the cards shall be in strict compliance with the regulations promulgated by the office. Any amounts due on the cards shall incur interest charges as set forth in Section 31-7-305 and shall not be considered debt.

(c) Pursuant to the provision of Section 37-61-33(* * *2), the Office of Purchasing, Travel and Fleet Management of the Department of Finance and Administration is authorized to issue procurement cards or credentials for a digital solution to all public school district classroom teachers, charter school teachers, full- or part-time gifted or special education teachers and other necessary direct support personnel at the beginning of the school year, but no later than August 1 of each year, for the purchase of instructional supplies using Educational Enhancement Funds. The cards will be issued in equal amounts per teacher determined by the total number of qualifying personnel and the then current state appropriation for classroom instructional supplies under the Education Enhancement Fund. All purchases shall be in accordance with state law and teachers are responsible for verification of capital asset requirements when pooling monies to purchase equipment. The cards will expire on a predetermined date at the end of each school year, but not before April 1 of each year. All unexpended amounts will be carried forward, to be combined with the following year's instructional supply fund allocation, and reallocated for the following year. The Department of Finance and Administration is authorized to loan any start-up funds at the beginning of the school year to fund this procurement system for instructional supplies with loan repayment being made from sales tax receipts earmarked for the Education Enhancement Fund.

(d) In a sale of goods or services, the seller shall not impose a surcharge on a buyer who uses a state-issued credit card, procurement card, travel card, or fuel card. The Department of Finance and Administration shall have exclusive jurisdiction to enforce and adopt rules relating to this paragraph. Any rules adopted under this paragraph shall be consistent with federal laws and regulations governing credit card transactions described by this paragraph. This paragraph does not create a cause of action against an individual for a violation of this paragraph.

(2) The Office of Purchasing, Travel and Fleet Management shall adopt, subject to the approval of the Public Procurement Review Board, purchasing regulations governing the purchase of unmarked vehicles to be used by the Bureau of Narcotics and Department of Public Safety in official investigations pursuant to Section 25-1-87. Such regulations shall ensure that purchases of such vehicles shall be at a fair price and shall take into consideration the peculiar needs of the Bureau of Narcotics and Department of Public Safety in undercover operations.

(3) The Office of Purchasing, Travel and Fleet Management shall adopt, subject to the approval of the Public Procurement Review Board, regulations governing the certification process for certified purchasing offices, including the Mississippi Purchasing Certification Program, which shall be required of all purchasing agents at state agencies. Such regulations shall require entities desiring to be classified as certified purchasing offices to submit applications and applicable documents on an annual basis, and in the case of a state agency purchasing office, to have one hundred percent (100%) participation and completion by purchasing agents in the Mississippi Purchasing Certification Program, at which time the Office of Purchasing, Travel and Fleet Management may provide the governing entity with a certification valid for one (1) year from the date of issuance. The Office of Purchasing, Travel and Fleet Management shall set a fee in an amount that recovers its costs to administer the Mississippi Purchasing Certification Program, which shall be assessed to the participating state agencies.

(4) The Office of Purchasing, Travel and Fleet Management shall adopt purchasing regulations authorizing rural water associations to purchase at the state contract price afforded to agencies and governing authorities under this chapter.

SECTION 34. Section 31-7-10, Mississippi Code of 1972, is amended as follows:

31-7-10. (1) For the purposes of this section, the term "equipment" shall mean equipment, furniture, and if applicable, associated software and other applicable direct costs associated with the acquisition. In addition to its other powers and duties, the Department of Finance and Administration shall have the authority to develop a master lease-purchase program and, pursuant to that program, shall have the authority to execute on behalf of the state master lease-purchase agreements for equipment to be used by an agency, as provided in this section. Each agency electing to acquire equipment by a lease-purchase agreement shall participate in the Department of Finance and Administration's master lease-purchase program, unless the Department of Finance and Administration makes a determination that such equipment cannot be obtained under the program or unless the equipment can be obtained elsewhere at an overall cost lower than that for which the equipment can be obtained under the program. Such lease-purchase agreements may include the refinancing or consolidation, or both, of any state agency lease-purchase agreements entered into after June 30, 1990.

(2) All funds designated by agencies for procurement of equipment and financing thereof under the master lease-purchase program shall be paid into a special fund created in the State Treasury known as the "Master Lease-Purchase Program Fund," which shall be used by the Department of Finance and Administration for payment to the lessors for equipment acquired under master lease-purchase agreements.

(3) Upon final approval of an appropriation bill, each agency shall submit to the Public Procurement Review Board a schedule of proposed equipment acquisitions for the master lease-purchase program. Upon approval of an equipment schedule by the Public Procurement Review Board with the advice of the Department of Information Technology Services, the Office of Purchasing, Travel and Fleet Management, and the Division of Energy and Transportation of the Mississippi Development Authority as it pertains to energy efficient climate control systems, the Public Procurement Review Board shall forward a copy of the equipment schedule to the Department of Finance and Administration.

(4) The level of lease-purchase debt recommended by the Department of Finance and Administration shall be subject to approval by the State Bond Commission. After such approval, the Department of Finance and Administration shall be authorized to advertise and solicit written competitive proposals for a lessor, who will purchase the equipment pursuant to bid awards made by the using agency under a given category and then transfer the equipment to the Department of Finance and Administration as lessee, pursuant to a master lease-purchase agreement.

The Department of Finance and Administration shall select the successful proposer for the financing of equipment under the master lease-purchase program with the approval of the State Bond Commission.

(5) Each master lease-purchase agreement, and any subsequent amendments, shall include such terms and conditions as the State Bond Commission shall determine to be appropriate and in the public interest, and may include any covenants deemed necessary or desirable to protect the interests of the lessor, including, but not limited to, provisions setting forth the interest rate (or method for computing interest rates) for financing pursuant to such agreement, covenants concerning application of payments and funds held in the Master Lease-Purchase Program Fund, covenants to maintain casualty insurance with respect to equipment subject to the master lease-purchase agreement (and all state agencies are specifically authorized to purchase any insurance required by

a master lease-purchase agreement) and covenants precluding or limiting the right of the lessee or user to acquire equipment within a specified time (not to exceed five (5) years) after cancellation on the basis of a failure to appropriate funds for payment of amounts due under a lease-purchase agreement covering comparable equipment. The State Bond Commission shall transmit copies of each such master lease-purchase agreement and each such amendment to the Joint Legislative Budget Committee. To the extent provided in any master lease-purchase agreement, title to equipment leased pursuant thereto shall be deemed to be vested in the state or the user of the equipment (as specified in such master lease-purchase agreement), subject to default under or termination of such master lease-purchase agreement.

A master lease-purchase agreement may provide for payment by the lessor to the lessee of the purchase price of the equipment to be acquired pursuant thereto prior to the date on which payment is due to the vendor for such equipment and that the lease payments by the lessee shall commence as though the equipment had been provided on the date of payment. If the lessee, or lessee's escrow agent, has sufficient funds for payment of equipment purchases prior to payment due date to vendor of equipment, such funds shall be held or utilized on an as-needed basis for payment of equipment purchases either by the State Treasurer (in which event the master lease-purchase agreement may include provisions concerning the holding of such funds, the creation of a security interest for the benefit of the lessor in such funds until disbursed and other appropriate provisions approved by the Bond Commission) or by a corporate trustee selected by the Department of Finance and Administration (in which event the Department of Finance and Administration shall have the authority to enter into an agreement with such a corporate trustee containing terms and conditions approved by the Bond Commission). Earnings on any amount paid by the lessor prior to the acquisition of the equipment may be used to make lease payments under the master lease-purchase agreement or applied to pay costs and expenses incurred in connection with such lease-purchase agreement. In such event, the equipment-use agreements with the user agency may provide for lease payments to commence upon the date of payment by the lessor and may also provide for a credit against such payments to the extent that investment receipts from investment of the purchase price are to be used to make lease-purchase payments.

(6) The annual rate of interest paid under any lease-purchase agreement authorized under this section shall not exceed the maximum interest rate to maturity on general obligation indebtedness permitted under Section 75-17-101.

(7) The Department of Finance and Administration shall furnish the equipment to the various agencies, also known as the user, pursuant to an equipment-use agreement developed by the Department of Finance and Administration. Such agreements shall require that all monthly payments due from such agency be paid, transferred or allocated into the Master Lease-Purchase Program Fund pursuant to a schedule established by the Department of Finance and Administration. In the event such sums are not paid by the defined payment period, the Executive Director of the Department of Finance and Administration shall issue a requisition for a warrant to draw such amount as may be due from any funds appropriated for the use of the agency which has failed to make the payment as agreed.

(8) All master lease-purchase agreements executed under the authority of this section shall contain the following annual allocation dependency clause or an annual allocation dependency clause which is substantially equivalent thereto: "The continuation of each equipment schedule to this agreement is contingent in whole or in part upon the appropriation of funds by the Legislature to make the lease-purchase payments required under such equipment schedule. If the Legislature fails to appropriate sufficient funds to provide for the continuation of the lease-purchase payments under any such equipment schedule, then the obligations of the lessee and of the agency to make such lease-purchase payments and the corresponding provisions of any such equipment schedule to this agreement shall terminate on the last day of the fiscal year for which appropriations were made."

(9) The maximum lease term for any equipment acquired under the master lease-purchase program shall not exceed the useful life of such equipment as determined according to the upper limit of the asset depreciation range (ADR) guidelines for the Class Life Asset Depreciation Range System established by the Internal Revenue Service pursuant to the United States Internal Revenue Code and Regulations thereunder as in effect on December 31, 1980, or comparable depreciation guidelines with respect to any equipment not covered by ADR guidelines. The Department of Finance and Administration shall be deemed to have met the requirements of this subsection if the term of a master lease-purchase agreement does not exceed the weighted average useful life of all equipment covered by such agreement and the schedules thereto as determined by the Department of Finance and Administration. For purposes of this subsection, the "term of a master lease-purchase agreement" shall be the weighted average maturity of all principal payments to be made under such master lease-purchase agreement and all schedules thereto.

(10) Interest paid on any master lease-purchase agreement under this section shall be exempt from State of Mississippi income taxation. All equipment, and the purchase thereof by any lessor, acquired under the master lease-purchase program and all lease-purchase payments with respect thereto shall be exempt from all Mississippi sales, use and ad valorem taxes.

(11) The Governor, in his annual executive budget to the Legislature, shall recommend appropriations sufficient to provide funds to pay all amounts due and payable during the applicable fiscal year under master lease-purchase agreements entered into pursuant to this section.

(12) Any master lease-purchase agreement reciting in substance that such agreement has been entered into pursuant to this section shall be conclusively deemed to have been entered into in accordance with all of the provisions and conditions set forth in this section. Any defect or irregularity arising with respect to procedures applicable to the acquisition of any equipment shall not invalidate or otherwise limit the obligation of the Department of Finance and Administration, or the state or any agency of the state, under any master lease-purchase agreement or any equipment-use agreement.

(13) There shall be maintained by the Department of Finance and Administration, with respect to each master lease-purchase agreement, an itemized statement of the cash price, interest rates, interest costs, commissions, debt service schedules and all other costs and expenses paid by the state incident to the lease-purchase of equipment under such agreement.

(14) Lease-purchase agreements entered into by the Board of Trustees of State Institutions of Higher Learning pursuant to the authority of Section 37-101-413 or by any other agency which has specific statutory authority other than pursuant to Section 31-7-13(e) to acquire equipment by lease-purchase shall not be made pursuant to the master lease-purchase program under this section, unless the Board of Trustees of State Institutions of Higher Learning or such other agency elects to participate as to part or all of its lease-purchase acquisitions in the master lease-purchase program pursuant to this section.

(15) The Department of Finance and Administration may develop a master lease-purchase program for school districts and, pursuant to that program, may execute on behalf of the school districts master lease-purchase agreements for equipment to be used by the school districts. The form and structure of this program shall be substantially the same as set forth in this section for the master lease-purchase program for state agencies. If sums due from a school district under the master lease-purchase program are not paid by the expiration of the defined payment period, the Executive Director of the Department of Finance and Administration may withhold such amount that is due from the

school district's * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) allotments.

(16) The Department of Finance and Administration may develop a master lease-purchase program for community and junior college districts and, pursuant to that program, may execute on behalf of the community and junior college districts master lease-purchase agreements for equipment to be used by the community and junior college districts. The form and structure of this program must be substantially the same as set forth in this section for the master lease-purchase program for state agencies. If sums due from a community or junior college district under the master lease-purchase program are not paid by the expiration of the defined payment period, the Executive Director of the Department of Finance and Administration may withhold an amount equal to the amount due under the program from any funds allocated for that community or junior college district in the state appropriations for the use and support of the community and junior colleges.

(17) From and after July 1, 2016, the expenses of this agency shall be defrayed by appropriation from the State General Fund and all user charges and fees authorized under this section shall be deposited into the State General Fund as authorized by law.

(18) From and after July 1, 2016, no state agency shall charge another state agency a fee, assessment, rent or other charge for services or resources received by authority of this section.

Said payments by the board of trustees shall be deemed a "new program" under the provisions of Section 37-57-107, * * * and any additional millage levied for such purpose and the revenue generated therefrom shall be excluded from the tax increase limitation prescribed in Sections 37-57-105 and 37-57-107. The board of supervisors of any county in which there is located such consolidated school district may, in its discretion, contribute out of county general funds to the cost and expense of such litigation and/or the cost of implementing such redistricting plan.

(f) To visit schools in the district, in their discretion, in a body for the purpose of determining what can be done for the improvement of the school in a general way;

The local school board shall be authorized and empowered to promulgate rules and regulations that specify the types of claims and set limits of the dollar amount for payment of claims by the superintendent of schools to be ratified by the board at the next regularly scheduled meeting after payment has been made;

(p) To select all school district personnel in the manner provided by law, and to provide for such employee fringe benefit programs, including accident reimbursement plans, as may be deemed necessary and appropriate by the board;

(q) To provide athletic programs and other school activities and to regulate the establishment and operation of such programs and activities;

"Activity funds" shall mean all funds received by school officials in all school districts paid or collected to participate in any school activity, such activity being part of the school program and partially financed with public funds or supplemented by public funds. The term "activity funds" shall not include any funds raised and/or expended by any organization unless commingled in a bank account with existing activity funds, regardless of whether the funds were raised by school employees or received by school employees during school hours or using school facilities, and regardless of whether a school employee exercises influence over the expenditure or disposition of such funds. Organizations shall not be required to make any payment to any school for the use of any school facility if, in the discretion of the local school governing board, the organization's function shall be deemed to be beneficial to the official or extracurricular programs of the school. For the purposes of this provision, the term "organization" shall not include any organization subject to the control of the local school governing board. Activity funds may only be expended for any necessary expenses or travel costs, including advances, incurred by students and their chaperons in attending any in-state or out-of-state school-related programs, conventions or seminars and/or any commodities, equipment, travel expenses, purchased services or school supplies which the local school governing board, in its discretion, shall deem beneficial to the official or extracurricular programs of the district, including items which may subsequently become the personal property of individuals, including yearbooks, athletic apparel, book covers and trophies. Activity funds may be used to pay travel expenses of school district personnel. The local school governing board shall be authorized and empowered to promulgate rules and regulations specifically designating for what purposes school activity funds may be expended. The local school governing board shall provide (i) that such school activity funds shall be maintained and expended by the principal of the school generating the funds in individual bank accounts, or (ii) that such school activity funds shall be maintained and expended by the superintendent of schools in a central depository approved by the board. (u) To maintain accounts and issue pay certificates on school food service bank accounts;

(v) (i) To lease a school building from an individual, partnership, nonprofit corporation or a private for-profit corporation for the use of such school district, and to expend funds therefor as may be available from any * * * sources other than INSPIRE funds. The school board of the school district desiring to lease a school building shall declare by resolution that a need exists for a school building and that the school district cannot provide the necessary funds to pay the cost or its proportionate share of the cost of a school building required to meet the present needs. The resolution so adopted by the school board shall be published once each week for three (3) consecutive weeks in a newspaper having a general circulation in the school district involved, with the first publication thereof to be made not less than thirty (30) days prior to the date upon which the school board is to act on the question of leasing a school building. If no petition requesting an election is filed prior to such meeting as hereinafter provided, then the school board may, by resolution spread upon its minutes, proceed to lease a school building. If at any time prior to said meeting a petition signed by not less than twenty percent (20%) or fifteen hundred (1500), whichever is less, of the qualified electors of the school district involved shall be filed with the school board requesting that an election be called on the question, then the school board shall, not later than the next regular meeting, adopt a resolution calling an election to be held within such school district upon the question of authorizing the school board to lease a school building. Such election shall be called and held, and notice thereof shall be given, in the same manner for elections upon the questions of the issuance of the bonds of school districts, and the results thereof shall be certified to the school board. If at least three-fifths (3/5) of the qualified electors of the school district who voted in such election shall vote in favor of the leasing of a school building, then the school board shall proceed to lease a school building. The term of the lease contract shall not exceed twenty (20) years, and the total cost of such lease shall be either the amount of the lowest and best bid accepted by the school board after advertisement for bids or an amount not to exceed the current fair market value of the lease as determined by the averaging of at least two (2) appraisals by certified general appraisers licensed by the State of Mississippi. The term "school building" as used in this paragraph (v)(i) shall be construed to mean any building or buildings used for classroom purposes in connection with the operation of schools and shall include the site therefor, necessary support facilities, and the equipment thereof and appurtenances thereto such as heating facilities, water supply, sewage disposal, landscaping, walks, drives and playgrounds. The term "lease" as used in this paragraph (v)(i) may include a lease-purchase contract;

(ii) If two (2) or more school districts propose to enter into a lease contract jointly, then joint meetings of the school boards having control may be held but no action taken shall be binding on any such school district unless the question of leasing a school building is approved in each participating school district under the procedure hereinabove set forth in paragraph (v)(i). All of the provisions of paragraph (v)(i) regarding the term and amount of the lease contract shall apply to the school boards of school districts acting jointly. Any lease contract executed by two (2) or more school districts as joint lessees shall set out the amount of the aggregate lease rental to be paid by each, which may be agreed upon, but there shall be no right of occupancy by any lessee unless the aggregate rental is paid as stipulated in the lease contract. All rights of joint lessees under the lease contract shall be in proportion to the amount of lease rental paid by each;

(w) To employ all noninstructional and noncertificated employees and fix the duties and compensation of such personnel deemed necessary pursuant to the recommendation of the superintendent of schools;

(aa) To acquire in its own name by purchase all real property which shall be necessary and desirable in connection with the construction, renovation or improvement of any public school building or structure. Whenever the purchase price for such real property is greater than Fifty Thousand Dollars ($50,000.00), the school board shall not purchase the property for an amount exceeding the fair market value of such property as determined by the average of at least two (2) independent appraisals by certified general appraisers licensed by the State of Mississippi. If the board shall be unable to agree with the owner of any such real property in connection with any such project, the board shall have the power and authority to acquire any such real property by condemnation proceedings pursuant to Section 11-27-1 et seq., Mississippi Code of 1972, and for such purpose, the right of eminent domain is hereby conferred upon and vested in said board. Provided further, that the local school board is authorized to grant an easement for ingress and egress over sixteenth section land or lieu land in exchange for a similar easement upon adjoining land where the exchange of easements affords substantial benefit to the sixteenth section land; provided, however, the exchange must be based upon values as determined by a competent appraiser, with any differential in value to be adjusted by cash payment. Any easement rights granted over sixteenth section land under such authority shall terminate when the easement ceases to be used for its stated purpose. No sixteenth section or lieu land which is subject to an existing lease shall be burdened by any such easement except by consent of the lessee or unless the school district shall acquire the unexpired leasehold interest affected by the easement;

(bb) To charge reasonable fees related to the educational programs of the district, in the manner prescribed in Section 37-7-335;

(cc) Subject to rules and regulations of the State Board of Education, to purchase relocatable classrooms for the use of such school district, in the manner prescribed in Section 37-1-13;

(ee) To provide for in-service training for employees of the district;

(ff) As part of their duties to prescribe the use of textbooks, to provide that parents and legal guardians shall be responsible for the textbooks and for the compensation to the school district for any books which are not returned to the proper schools upon the withdrawal of their dependent child. If a textbook is lost or not returned by any student who drops out of the public school district, the parent or legal guardian shall also compensate the school district for the fair market value of the textbooks;

(gg) To conduct fund-raising activities on behalf of the school district that the local school board, in its discretion, deems appropriate or beneficial to the official or extracurricular programs of the district; provided that:

(i) Any proceeds of the fund-raising activities shall be treated as "activity funds" and shall be accounted for as are other activity funds under this section; and

(ii) Fund-raising activities conducted or authorized by the board for the sale of school pictures, the rental of caps and gowns or the sale of graduation invitations for which the school board receives a commission, rebate or fee shall contain a disclosure statement advising that a portion of the proceeds of the sales or rentals shall be contributed to the student activity fund;

(hh) To allow individual lessons for music, art and other curriculum-related activities for academic credit or nonacademic credit during school hours and using school equipment and facilities, subject to uniform rules and regulations adopted by the school board;

(ii) To charge reasonable fees for participating in an extracurricular activity for academic or nonacademic credit for necessary and required equipment such as safety equipment, band instruments and uniforms;

37-9-17. (1) On or before April 1 of each year, the principal of each school shall recommend to the superintendent of the local school district the licensed employees or noninstructional employees to be employed for the school involved except those licensed employees or noninstructional employees who have been previously employed and who have a contract valid for the ensuing scholastic year. If such recommendations meet with the approval of the superintendent, the superintendent shall recommend the employment of such licensed employees or noninstructional employees to the local school board, and, unless good reason to the contrary exists, the board shall elect the employees so recommended. If, for any reason, the local school board shall decline to elect any employee so recommended, additional recommendations for the places to be filled shall be made by the principal to the superintendent and then by the superintendent to the local school board as provided above. The school board of any local school district shall be authorized to designate a personnel supervisor or another principal employed by the school district to recommend to the superintendent licensed employees or noninstructional employees; however, this authorization shall be restricted to no more than two (2) positions for each employment period for each school in the local school district. Any noninstructional employee employed upon the recommendation of a personnel supervisor or another principal employed by the local school district must have been employed by the local school district at the time the superintendent was elected or appointed to office; a noninstructional employee employed under this authorization may not be paid compensation in excess of the statewide average compensation for such noninstructional position with comparable experience, as established by the State Department of Education. The school board of any local school district shall be authorized to designate a personnel supervisor or another principal employed by the school district to accept the recommendations of principals or their designees for licensed employees or noninstructional employees and to transmit approved recommendations to the local school board; however, this authorization shall be restricted to no more than two (2) positions for each employment period for each school in the local school district.

When the licensed employees have been elected as provided in the preceding paragraph, the superintendent of the district shall enter into a contract with such persons in the manner provided in this chapter.

If, at the commencement of the scholastic year, any licensed employee shall present to the superintendent a license of a higher grade than that specified in such individual's contract, such individual may, if funds are available from * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds of the district, or from district funds, be paid from such funds the amount to which such higher

grade license would have entitled the individual, had the license been held at the time the contract was executed.

(2) Superintendents/directors of schools under the purview of the State Board of Education, the superintendent of the local school district and any private firm under contract with the local public school district to provide substitute teachers to teach during the absence of a regularly employed schoolteacher shall require, through the appropriate governmental authority, that current criminal records background checks and current child abuse registry checks are obtained, and that such criminal record information and registry checks are on file for any new hires applying for employment as a licensed or nonlicensed employee at a school and not previously employed in such school under the purview of the State Board of Education or at such local school district prior to July 1, 2000. In order to determine the applicant's suitability for employment, the applicant shall be fingerprinted. If no disqualifying record is identified at the state level, the fingerprints shall be forwarded by the Department of Public Safety to the Federal Bureau of Investigation for a national criminal history record check. The fee for such fingerprinting and criminal history record check shall be paid by the applicant, not to exceed Fifty Dollars ($50.00); however, the State Board of Education, the school board of the local school district or a private firm under contract with a local school district to provide substitute teachers to teach during the temporary absence of the regularly employed schoolteacher, in its discretion, may elect to pay the fee for the fingerprinting and criminal history record check on behalf of any applicant. Under no circumstances shall a member of the State Board of Education, superintendent/director of schools under the purview of the State Board of Education, local school district superintendent, local school board member or any individual other than the subject of the criminal history record checks disseminate information received through any such checks except insofar as required to fulfill the purposes of this section. Any nonpublic school which is accredited or approved by the State Board of Education may avail itself of the procedures provided for herein and shall be responsible for the same fee charged in the case of local public schools of this state. The determination whether the applicant has a disqualifying crime, as set forth in subsection (3) of this section, shall be made by the appropriate governmental authority, and the appropriate governmental authority shall notify the private firm whether a disqualifying crime exists.

(3) If such fingerprinting or criminal record checks disclose a felony conviction, guilty plea or plea of nolo contendere to a felony of possession or sale of drugs, murder, manslaughter, armed robbery, rape, sexual battery, sex offense listed in Section 45-33-23(h), child abuse, arson, grand larceny, burglary, gratification of lust or aggravated assault which has not been reversed on appeal or for which a pardon has not been granted, the new hire shall not be eligible to be employed at such school. Any employment contract for a new hire executed by the superintendent of the local school district or any employment of a new hire by a superintendent/director of a new school under the purview of the State Board of Education or by a private firm shall be voidable if the new hire receives a disqualifying criminal record check. However, the State Board of Education or the school board may, in its discretion, allow any applicant aggrieved by the employment decision under this section to appear before the respective board, or before a hearing officer designated for such purpose, to show mitigating circumstances which may exist and allow the new hire to be employed at the school. The State Board of Education or local school board may grant waivers for such mitigating circumstances, which shall include, but not be limited to: (a) age at which the crime was committed; (b) circumstances surrounding the crime; (c) length of time since the conviction and criminal history since the conviction; (d) work history; (e) current employment and character references; (f) other evidence demonstrating the ability of the person to perform the employment responsibilities competently and that the person does not pose a threat to the health or safety of the children at the school.

(4) No local school district, local school district employee, member of the State Board of Education or employee of a school under the purview of the State Board of Education shall be held liable in any employment discrimination suit in which an allegation

of discrimination is made regarding an employment decision authorized under this Section 37-9-17.

(5) The provisions of this section shall be fully applicable to licensed employees of the Mississippi School of the Arts (MSA), established in Section * * * 37-140-3.

SECTION 48. Section 37-9-18, Mississippi Code of 1972, is amended as follows:

37-9-18. (1) (a) The State Board of Education shall promulgate rules and regulations concerning the type of financial reports required to be submitted by the superintendent of schools to the local school board, and the frequency with which the reports shall be submitted. The rules and regulations promulgated by the board shall include:

(i) A requirement that the reports be listed as an agenda item for discussion at a regularly scheduled meeting of the board;

(ii) A requirement that the minutes of the board meeting reflect that the reports were discussed;

(iii) A requirement that each board member present be provided a copy of all required reports; and

(iv) A requirement that a copy of all required reports be included in the official minutes of the board meeting at which the reports were discussed.

(b) The State Board of Education is authorized to require school districts to submit any of the required reports to the State Department of Education on a basis determined by the department.

(c) Failure to comply with any of the rules and regulations established by the State Board of Education with regard to reporting requirements shall constitute a violation of the Mississippi Public School Accountability Standards.

(2) The State Auditor shall audit the financial records of school districts in accordance with Section 7-7-211(e). The State Auditor shall give reasonable notice to school districts regarding the times during which the State Auditor will perform such audits. In any fiscal year in which the State Auditor is not scheduled to perform an audit, the school board shall cause all the financial records of the superintendent of schools to be audited in accordance with Section 7-7-211(e). If the school board so elects by resolution adopted each year, the audit shall be performed by the State Auditor. Contracts for the audit of public school districts shall be let by the school board in the manner prescribed by the State Auditor. The audit shall be conducted in accordance with generally accepted auditing standards and generally accepted accounting principles, and the report presented thereon shall be in accordance with generally accepted accounting principles. If the Auditor's opinion on the general purpose financial statements is a disclaimer, as that term is defined by generally accepted auditing standards, or if the State Auditor determines the existence of serious financial conditions in the district, the State Auditor shall immediately notify the State Board of Education. Upon receiving the notice, the State Superintendent of Public Education shall direct the school district to immediately cease all expenditures until a financial advisor is appointed by the state superintendent. However, if the disclaimer is a result of conditions caused by Hurricane Katrina 2005 and applies to fiscal years 2005 and/or 2006, then the Superintendent of Education may appoint a financial advisor, and may direct the school district to immediately cease all expenditures until a financial advisor is appointed. The financial advisor shall be an agent of the State Board of Education and shall be a certified public accountant or a qualified business officer. Unless the financial advisor is an employee of the State of Mississippi, they shall be deemed an independent contractor. The financial advisor shall, with the approval of the State Board of Education:

(a) Approve or disapprove all expenditures and all financial obligations of the district;

(b) Ensure compliance with any statutes and State Board of Education rules or regulations concerning expenditures by school districts;

(c) Review salaries and the number of all district personnel and make recommendations to the local school board of any needed adjustments. Should such recommendations necessitate the reduction in local salary supplement, such recommended reductions shall be only to the extent which will result in the salaries being comparable to districts similarly situated, as determined by the State Board of Education. The local school board, in considering either a reduction in personnel or a reduction in local supplements, shall not be required to comply with the time limitations prescribed in Sections 37-9-15 and 37-9-105 and, further, shall not be required to comply with Sections 37-19-11 and 37-19-7(1) in regard to reducing local supplements and the number of personnel;

(d) Work with the school district's business office to correct all inappropriate accounting procedures and/or uses of school district funds and to prepare the school district's budget for the next fiscal year;

(e) Report frequently to the State Board of Education on the corrective actions being taken and the progress being made in the school district. The financial advisor shall serve until such time as corrective action and progress is being made in such school district as determined by the State Board of Education with the concurrence of the State Auditor, or until such time as an interim conservator is assigned to such district by the State Board of Education under Section 37-17-6. The school district shall be responsible for all expenses associated with the use of the financial advisor. If the audit report reflects a failure by the school district to meet accreditation standards, the State Board of Education shall proceed under Section 37-17-6; and

(f) If a financial advisor is appointed to a school district in accordance with this subsection and it is determined by the financial advisor and/or any other official of the school district that an audit by a certified public accountant for that district was deficient in any manner, the financial advisor and/or any other official of the school district shall, within thirty (30) days, refer the matter to the State Board of Public Accountancy for follow-up and possible disciplinary action. Any disciplinary action by the State Board of Public Accountancy with regard to the certified public accountant shall, within thirty (30) days after notifying such certified public accountant, be reported to the Office of State Auditor.

(3) (a) When conducting an audit of a public school district, the State Auditor shall test to insure that the school district is complying with the requirements of Section 37-61-33(3)(a)(iii) relating to classroom supply funds. The audit must include a report of all classroom supply funds carried over from previous years. Based upon the audit report, the State Auditor shall compile a report on the compliance or noncompliance by all school districts with the requirements of Section 37-61-33(3)(a)(iii), which report must be submitted to the Chairmen of the Education and Appropriations Committees of the House of Representatives and Senate.

(b) When conducting an audit of a public school district, the State Auditor shall test to insure correct and appropriate coding at the function level. The audit must include a report showing correct and appropriate functional level expenditure codes in expenditures by the school district. Compliance standards for this audit provision shall be established by the Office of the State Auditor. Based upon the audit report, the State Auditor shall compile a report on the compliance or noncompliance by all public school districts with correct and appropriate coding at the function level, which report must be

submitted to the Chairmen of the Education and Appropriations Committees of the House of Representatives and Senate.

(4) In the event the State Auditor does not perform the audit examination, then the audit report of the school district shall be reviewed by the State Auditor for compliance with applicable state laws before final payment is made on the audit by the school board. All financial records, books, vouchers, cancelled checks and other financial records required by law to be kept and maintained in the case of municipalities shall be faithfully kept and maintained in the office of the superintendent of schools under the same provisions and penalties provided by law in the case of municipal officials.

SECTION 49. Section 37-9-23, Mississippi Code of 1972, is amended as follows:

37-9-23. The superintendent shall enter into a contract with each assistant superintendent, principal, licensed employee and person anticipating graduation from an approved teacher education program or the issuance of a proper license before October 15 or February 15, as the case may be, who is elected and approved for employment by the school board. Such contracts shall be in such form as shall be prescribed by the State Board of Education and shall be executed in duplicate with one (1) copy to be retained by the appropriate superintendent and one (1) copy to be retained by the principal, licensed employee or person recommended for a licensed position contracted with. The contract shall show the name of the district, the length of the school term, the position held (whether an assistant superintendent, principal or licensed employee), the scholastic years which it covers, the total amount of the annual salary and how same is payable. The amount of salary to be shown in such contract shall be the amount which shall have been fixed and determined by the school board, but, as to the licensed employees paid, in whole or in part, with * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds, such salary shall not be less than that required under the provisions of Chapter 19 of this title. Beginning with the 2010-2011 school year, the contract shall include a provision allowing the school district to reduce the state minimum salary by a pro rata daily amount in order to comply with the school district employee furlough provisions of Section 37-7-308, and shall include a provision which conditions the payment of such salary upon the availability of * * * uniform funding formula funds * * *. The contract entered into with any person recommended for a licensed position who is anticipating either graduation from an approved teacher education program before September 1 or December 31, as the case may be, or the issuance of a proper license before October 15 or February 15, as the case may be, shall be a conditional contract and shall include a provision stating that the contract will be null and void if, as specified in the contract, the contingency upon which the contract is conditioned has not occurred. If any superintendent, other than those elected, principal, licensed employee or person recommended for a licensed position who has been elected and approved shall not execute and return the contract within ten (10) days after same has been tendered to him for execution, then, at the option of the school board, the election of the licensed employee and the contract tendered to him shall be void and of no effect.

SECTION 50. Section 37-9-25, Mississippi Code of 1972, is amended as follows:

37-9-25. The school board shall have the power and authority, in its discretion, to employ the superintendent, unless such superintendent is elected at the November 2015 general election, for not exceeding four (4) scholastic years and the principals or licensed employees for not exceeding three (3) scholastic years. In such case, contracts shall be entered into with such superintendents, principals and licensed employees for the number of years for which they have been employed. However, in the event that a vacancy in the office of the superintendent of schools elected at the November 2015 general election shall occur before January 1, 2019, the local school board shall then appoint the superintendent of the school district and enter into contract with the appointee for a period not to exceed three (3) scholastic years. All such contracts with licensed employees shall for the years after the first year thereof be subject to the contingency that the licensed employee may be released if, during the life of the contract, the average daily * * *

membership should decrease from that existing during the previous year and thus necessitate a reduction in the number of licensed employees during any year after the first year of the contract. However, in all such cases the licensed employee must be released before July 1 or at least thirty (30) days prior to the beginning of the school term, whichever date should occur earlier. The salary to be paid for the years after the first year of such contract shall be subject to revision, either upward or downward, in the event of an increase or decrease in the funds available for the payment thereof, but, unless such salary is revised prior to the beginning of a school year, it shall remain for such school year at the amount fixed in such contract. However, where school district funds * * * are available during the school year in excess of the amount anticipated at the beginning of the school year, the salary to be paid for such year may be increased to the extent that such additional funds are available, and nothing herein shall be construed to prohibit same.

SECTION 51. Section 37-9-33, Mississippi Code of 1972, is amended as follows:

37-9-33. (1) In employing and contracting with appointed superintendents, principals and * * * licensed employees, the school board shall in all cases determine whether the amount of salary to be paid such superintendent, principals and * * * licensed employees is in compliance with the provisions of * * * this chapter and Section 37-19-7. No contract shall be entered into where the salary of a superintendent, principal or * * * licensed employee is to be paid, in whole or in part, from * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds except where the statutory requirements * * * as to the amount of such salary are fully met. Nothing herein shall be construed, however, to prohibit any school district from increasing the salaries of appointed superintendents, principals and * * * licensed employees above the amounts fixed by Section 37-19-7 * * *. Provided further, that school districts are authorized, in their discretion, to negotiate the salary levels applicable to * * * licensed employees employed after July 1, 2009, who are receiving retirement benefits from the retirement system of another state * * *. Nothing herein shall be construed to prohibit any school district from complying with the school district employee furlough provisions of Section 37-7-308.

(2) Each school district shall provide an annual report to the State Department of Education on the number of * * * licensed and * * * nonlicensed employees receiving a salary from the school district who are also receiving retirement benefits from the Public Employees' Retirement System. This report shall include the name of the employee(s), the hours per week for which the employee is under contract and the services for which the employee is under contract. Said required annual report shall be in a form and deadline promulgated by the State Board of Education.

SECTION 52. Section 37-9-35, Mississippi Code of 1972, is amended as follows:

37-9-35. * * * A reduction in the average daily * * * membership during a current year from that existing in the preceding year shall not authorize the discharge or release of a teacher or teachers during such current year. * * *

SECTION 53. Section 37-9-37, Mississippi Code of 1972, is amended as follows:

37-9-37. The amount of the salary to be paid any superintendent, principal or licensed employee shall be fixed by the school board, provided that the requirements of * * * this title are met as to superintendents, principals and licensed employees paid, in whole or in part, from * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds. In employing such superintendents, principals and licensed employees and in fixing their salaries, the school boards shall take into consideration the character, professional training, experience, executive ability and teaching capacity of the licensed employee, superintendent or principal. It is the intent of the Legislature that whenever the salary of the school district superintendent is set by a school board, the board shall take into consideration the amount of money that the district

spends per pupil, and shall attempt to insure that the administrative cost of the district and the amount of the salary of the superintendent are not excessive in comparison to the per pupil expenditure of the district.

SECTION 54. Section 37-9-77, Mississippi Code of 1972, is amended as follows:

37-9-77. (1) There is established the Mississippi School Administrator Sabbatical Program which shall be available to licensed teachers employed in Mississippi school districts for not less than three (3) years, for the purpose of allowing such teachers to become local school district administrators under the conditions set forth in this section. The State Board of Education, in coordination with the Board of Trustees of State Institutions of Higher Learning, shall develop guidelines for the program. Application shall be made to the State Department of Education for the Mississippi School Administrator Sabbatical Program by qualified teachers meeting the criteria for a department-approved administration program and who have been recommended by the local school board. Administration programs that are eligible for the administrator sabbatical program shall be limited to those that have been approved by the department by the January 1 preceding the date of admission to the program. Admission into the program shall authorize the applicant to take university course work and training leading to an administrator's license.

(2) The salaries of the teachers approved for participation in the administrator sabbatical program shall be paid by the employing school district from * * * funds other than Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds. However, the State Department of Education shall reimburse the employing school districts for the cost of the salaries and paid fringe benefits of teachers participating in the administrator sabbatical program for one (1) contract year. Reimbursement shall be made in accordance with the then current * * * salary schedule under Section 37-19-7, except that the maximum amount of the reimbursement from state funds shall not exceed the * * * salary prescribed for a teacher holding a Class A license and having five (5) years' experience. The local school district shall be responsible for that portion of a participating teacher's salary attributable to the local supplement and for any portion of the teacher's salary that exceeds the maximum amount allowed for reimbursement from state funds as provided in this subsection, and the school board may not reduce the local supplement payable to that teacher. Any reimbursements made by the State Department of Education to local school districts under this section shall be subject to available appropriations and may be made only to school districts determined by the State Board of Education as being in need of administrators.

(3) Such teachers participating in the program on a full-time basis shall continue to receive teaching experience and shall receive the salary prescribed in Section 37-19-7 * * *. Such participants shall be fully eligible to continue participation in the Public Employees' Retirement System and the Public School Employees Health Insurance Plan during the time they are in the program on a full-time basis.

(4) As a condition for participation in the School Administrator Sabbatical Program, such teachers shall agree to employment as administrators in the sponsoring school district for not less than five (5) years following completion of administrator licensure requirements. Any person failing to comply with this employment commitment in any required school year, unless the commitment is deferred as provided in subsection (5) of this section, shall immediately be in breach of contract and become liable to the State Department of Education for that amount of his salary and paid fringe benefits paid by the state while the teacher was on sabbatical, less twenty percent (20%) of the amount of his salary and paid fringe benefits paid by the state for each year that the person was employed as an administrator following completion of the administrator licensure requirements. In addition, the person shall become liable to the local school district for any portion of his salary and paid fringe benefits paid by the local school district while the teacher was on sabbatical that is attributable to the local salary supplement or is attributable to the amount that exceeds the maximum amount allowed for reimbursement from state funds as provided in subsection (2) of this section, less twenty percent (20%)

of the amount of his salary and paid fringe benefits paid by the school district for each year that the person was employed as an administrator following completion of the administrator licensure requirements. Interest on the amount due shall accrue at the current Stafford Loan rate at the time the breach occurs. If the claim for repayment of such salary and fringe benefits is placed in the hands of an attorney for collection after default, then the obligor shall be liable for an additional amount equal to a reasonable attorney's fee.

(5) If there is not an administrator position immediately available in the sponsoring school district after a person has completed the administrator licensure requirements, or if the administrator position in the sponsoring school district in which the person is employed is no longer needed before the completion of the five-year employment commitment, the local school board shall defer any part of the employment commitment that has not been met until such time as an administrator position becomes available in the sponsoring school district. If such a deferral is made, the sponsoring school district shall employ the person as a teacher in the school district during the period of deferral, unless the person desires to be released from employment by the sponsoring school district and the district agrees to release the person from employment. If the sponsoring school district releases a person from employment, that person may be employed as an administrator in another school district in the state that is in need of administrators as determined by the State Board of Education, and that employment for the other school district shall be applied to any remaining portion of the five-year employment commitment required under this section. Nothing in this subsection shall prevent a school district from not renewing the person's contract before the end of the five-year employment commitment in accordance with the School Employment Procedures Law (Section 37-9-101 et seq.). However, if the person is not employed as an administrator by another school district after being released by the sponsoring school district, or after his contract was not renewed by the sponsoring school district, he shall be liable for repayment of the amount of his salary and fringe benefits as provided in subsection (4) of this section.

(6) All funds received by the State Department of Education from the repayment of salary and fringe benefits paid by the state from program participants shall be deposited in the Mississippi Critical Teacher Shortage Fund.

SECTION 55. Section 37-11-11, Mississippi Code of 1972, is amended as follows:

37-11-11. (1) For the purposes of this section, the term "hospital" shall include community-based programs and facilities licensed or approved by the Department of Mental Health for treatment of chemical substance use and abuse.

(2) When five (5) or more children of educable mind between the ages of six (6) and twenty-one (21) years who are capable of pursuing courses of instruction at secondary school level or below shall be confined in a hospital for an extended period of time, such children shall be eligible for and shall be provided with a program of education, instruction and training within such hospital in the manner hereinafter set forth, provided that the need for hospitalization for an extended period of time shall be certified by the chief of staff of such hospital and that the ability of such children to do school work shall be certified by qualified psychologists and/or educators approved by the State Board of Education.

(3) When five (5) or more children as set forth herein shall be confined in the same hospital, then the board of trustees of the school district in which such hospital is located shall be authorized and empowered, in its discretion, to provide a program of education, instruction and training to such children within such hospital. For such purpose the board shall be authorized and empowered to employ and contract with teachers, provide textbooks and other instructional materials, correspondence courses and instructional equipment and appliances, and otherwise provide for the furnishing of such program and to administer and supervise the same. Such program shall be furnished in a manner as prescribed by rules and regulations adopted by the State Board of Education. The state

board shall have full power to adopt such rules, regulations, policies and standards as it may deem necessary to carry out the purpose of this section, including the establishment of qualifications of any teachers employed under the provisions hereof. It is expressly provided, however, that no program shall be furnished under this section except in a hospital licensed for operation by the State of Mississippi and only in cases where such hospital shall consent thereto, shall provide any classroom space, furniture and facilities which may be deemed necessary, and otherwise shall cooperate in carrying out the provisions of this section. Before such program of education, instruction and training shall be provided, the governing authorities of said hospital shall enter into a contract with the board of trustees of the school district which stipulates that said hospital agrees to furnish the necessary classroom space, furniture and facilities and provide for their upkeep, fuel and such other things as may be necessary for the successful operation of the program of education, instruction and training.

(4) In cases when children who are residents of school districts other than the school district providing such education program may participate in the program prescribed in this section. The boards of trustees of the districts of which such children are residents shall pay to the board of trustees of the school district furnishing such school program the pro rata part of the expenses of furnishing such school program within such hospital, which payments may be made from any funds available for the operation and maintenance of the schools of the district in which such child is a resident. The amount so paid shall be based upon, but shall not exceed, the current per pupil cost of education in the school district of the child's residence, and the amount to be so paid by the school district of the child's residence shall be fixed by the State Board of Education. If the amount to be paid which has been so fixed shall not be paid upon due demand made by the school district providing a program therefor, then the State Board of Education shall deduct any such amounts from the next allocation of * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds attributable to any such district and shall remit the same to the board of trustees of such school district which is furnishing such school program. If the amounts so paid by such school districts of the child's residence shall not be sufficient to pay the expenses of furnishing such program, then the remainder of such expenses over and above that so paid by such school districts shall be paid by the State Board of Education to the school district providing such school program out of any funds available to the State Board of Education, including * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds. However, such payments shall not exceed Three Hundred Dollars ($300.00) per child in average daily * * * membership in such program. Provided, however, the State Board of Education shall in its discretion be authorized and empowered to exceed the said Three Hundred Dollars ($300.00) per pupil limitation where such limitation would make it impractical to operate such a program.

SECTION 56. Section 37-13-63, Mississippi Code of 1972, is amended as follows:

37-13-63. (1) Except as otherwise provided, all public schools in the state shall be kept in session for at least one hundred eighty (180) days in each scholastic year.

(2) If the school board of any school district shall determine that it is not economically feasible or practicable to operate any school within the district for the full one hundred eighty (180) days required for a scholastic year as contemplated due to an enemy attack, a man-made, technological or natural disaster or extreme weather emergency in which the Governor has declared a disaster or state of emergency under the laws of this state or the President of the United States has declared an emergency or major disaster to exist in this state, the school board may notify the State Department of Education of the disaster or weather emergency and submit a plan for altering the school term. If the State Board of Education finds the disaster or extreme weather emergency to be the cause of the school not operating for the contemplated school term and that such school was in a school district covered by the Governor's or President's disaster or state of emergency declaration, it may permit that school board to operate the schools in its district for less than one hundred eighty (180) days; however, in no instance of a declared

disaster or state of emergency under the provisions of this subsection shall a school board receive payment from the State Department of Education for per pupil expenditure for pupils in average daily * * * membership in excess of ten (10) days.

SECTION 57. Section 37-13-64, Mississippi Code of 1972, is amended as follows:

37-13-64. (1) Beginning with the 2010-2011 school term, any school district required to close the operation of its schools by decision of the superintendent, under the authority provided by the local school board, due to extreme weather conditions, in the best interests of the health and safety of the students, administration and staff of the school district, shall be exempt from the requirement that schools be kept in session a minimum of one hundred eighty (180) days. Any school district that closes its schools for reasons authorized under this section shall receive payment from the State Department of Education for per pupil expenditure for pupils in average daily * * * membership not to exceed ten (10) days.

(2) In the event weather conditions are cause for the closure of operations of schools in any local school district in any instance in which a state of emergency has not been declared pursuant to Section * * * 37-151-217(4), the State Board of Education may consider, on a case-by-case basis, requests submitted by local school districts to alter the school calendar consistent with the provision of that section.

SECTION 58. Section 37-13-69, Mississippi Code of 1972, is amended as follows:

37-13-69. All public schools of this state may observe such legal holidays as may be designated by the local school board, and no sessions of school shall be held on holidays so designated and observed. However, all schools shall operate for the full minimum term required by law exclusive of the holidays authorized by this section. The holidays thus observed shall not be deducted from the reports of the superintendents, principals and teachers, and such superintendents, principals and teachers shall be allowed pay for full time as though they had taught on those holidays. However, such holidays shall not be counted or included in any way in determining the average daily * * * membership of the school.

SECTION 59. Section 37-15-38, Mississippi Code of 1972, is amended as follows:

37-15-38. (1) The following phrases have the meanings ascribed in this section unless the context clearly requires otherwise:

(a) A dual enrolled student is a student who is enrolled in a community or junior college or state institution of higher learning while enrolled in high school.

(b) A dual credit student is a student who is enrolled in a community or junior college or state institution of higher learning while enrolled in high school and who is receiving high school and college credit for postsecondary coursework.

(2) A local school board, the Board of Trustees of State Institutions of Higher Learning and the Mississippi Community College Board shall establish a dual enrollment system under which students in the school district who meet the prescribed criteria of this section may be enrolled in a postsecondary institution in Mississippi while they are still in school.

(3) Dual credit eligibility. Before credits earned by a qualified high school student from a community or junior college or state institution of higher learning may be transferred to the student's home school district, the student must be properly enrolled in a dual enrollment program.

(4) Admission criteria for dual enrollment in community and junior college or university programs. The Mississippi Community College Board and the Board of

Trustees of State Institutions of Higher Learning may recommend to the State Board of Education admission criteria for dual enrollment programs under which high school students may enroll at a community or junior college or university while they are still attending high school and enrolled in high school courses. Students may be admitted to enroll in community or junior college courses under the dual enrollment programs if they meet that individual institution's stated dual enrollment admission requirements.

(5) Tuition and cost responsibility. Tuition and costs for university-level courses and community and junior college courses offered under a dual enrollment program may be paid for by the postsecondary institution, the local school district, the parents or legal guardians of the student, or by grants, foundations or other private or public sources. Payment for tuition and any other costs must be made directly to the credit-granting institution.

(6) Transportation responsibility. Any transportation required by a student to participate in the dual enrollment program is the responsibility of the parent, custodian or legal guardian of the student. Transportation costs may be paid from any available public or private sources, including the local school district.

(7) School district average daily * * * membership credit. When dually enrolled, the student may be counted, for * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) purposes, in the average daily * * * membership of the public school district in which the student attends high school.

(8) High school student transcript transfer requirements. Grades and college credits earned by a student admitted to a dual credit program must be recorded on the high school student record and on the college transcript at the university or community or junior college where the student attends classes. The transcript of the university or community or junior college coursework may be released to another institution or applied toward college graduation requirements.

(9) Determining factor of prerequisites for dual enrollment courses. Each university and community or junior college participating in a dual enrollment program shall determine course prerequisites. Course prerequisites shall be the same for dual enrolled students as for regularly enrolled students at that university or community or junior college.

(10) Process for determining articulation of curriculum between high school, university, and community and junior college courses. All dual credit courses must meet the standards established at the postsecondary level. Postsecondary level developmental courses may not be considered as meeting the requirements of the dual credit program. Dual credit memorandum of understandings must be established between each postsecondary institution and the school district implementing a dual credit program.

(11) [Deleted]

(12) Eligible courses for dual credit programs. Courses eligible for dual credit include, but are not necessarily limited to, foreign languages, advanced math courses, advanced science courses, performing arts, advanced business and technology, and career and technical courses. Distance Learning Collaborative Program courses approved under Section 37-67-1 shall be fully eligible for dual credit. All courses being considered for dual credit must receive unconditional approval from the superintendent of the local school district and the chief instructional officer at the participating community or junior college or university in order for college credit to be awarded. A university or community or junior college shall make the final decision on what courses are eligible for semester hour credits.

(13) High school Carnegie unit equivalency. One (1) three-hour university or community or junior college course is equal to one (1) high school Carnegie unit.

(14) Course alignment. The universities, community and junior colleges and the State Department of Education shall periodically review their respective policies and assess the place of dual credit courses within the context of their traditional offerings.

(15) Maximum dual credits allowed. It is the intent of the dual enrollment program to make it possible for every eligible student who desires to earn a semester's worth of college credit in high school to do so. A qualified dually enrolled high school student must be allowed to earn an unlimited number of college or university credits for dual credit.

(16) Dual credit program allowances. A student may be granted credit delivered through the following means:

(a) Examination preparation taught at a high school by a qualified teacher. A student may receive credit at the secondary level after completion of an approved course and passing the standard examination, such as an Advanced Placement or International Baccalaureate course through which a high school student is allowed CLEP credit by making a three (3) or higher on the end-of-course examination.

(b) College or university courses taught at a high school or designated postsecondary site by a qualified teacher who is an employee of the school district and approved as an instructor by the collaborating college or university.

(c) College or university courses taught at a college, university or high school by an instructor employed by the college or university and approved by the collaborating school district.

(d) Online courses of any public university, community or junior college in Mississippi.

(17) Qualifications of dual credit instructors. A dual credit academic instructor must meet the requirements set forth by the regional accrediting association (Southern Association of College and Schools). University and community and junior college personnel have the sole authority in the selection of dual credit instructors.

A dual credit career and technical education instructor must meet the requirements set forth by the Mississippi Community College Board in the qualifications manual for postsecondary career and technical personnel.

(18) Guidance on local agreements. The Chief Academic Officer of the State Board of Trustees of State Institutions of Higher Learning and the Chief Instructional Officers of the Mississippi Community College Board and the State Department of Education, working collaboratively, shall develop a template to be used by the individual community and junior colleges and institutions of higher learning for consistent implementation of the dual enrollment program throughout the State of Mississippi.

(19) Mississippi Works Dual Enrollment-Dual Credit Option. A local school board and the local community colleges board shall establish a Mississippi Works Dual Enrollment-Dual Credit Option Program under which potential or recent student dropouts may dually enroll in their home school and a local community college in a dual credit program consisting of high school completion coursework and a community college credential, certificate or degree program. Students completing the dual enrollment-credit option may obtain their high school diploma while obtaining a community college credential, certificate or degree. The Mississippi Department of Employment Security shall assist students who have successfully completed the Mississippi Works Dual Enrollment-Dual Credit Option in securing a job upon the application of the student or the participating school or community college. The Mississippi Works Dual Enrollment-Dual Credit Option Program will be implemented statewide in the 2012-2013 school year and thereafter. The State Board of Education, local school board and the local community

college board shall establish criteria for the Dual Enrollment-Dual Credit Program. Students enrolled in the program will not be eligible to participate in interscholastic sports or other extracurricular activities at the home school district. Tuition and costs for community college courses offered under the Dual Enrollment-Dual Credit Program shall not be charged to the student, parents or legal guardians. When dually enrolled, the student shall be counted, for * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) purposes, in the average daily * * * membership of the public school district in which the student attends high school * * *. Any transportation required by the student to participate in the Dual Enrollment-Dual Credit Program is the responsibility of the parent or legal guardian of the student, and transportation costs may be paid from any available public or private sources, including the local school district. Grades and college credits earned by a student admitted to this Dual Enrollment-Dual Credit Program shall be recorded on the high school student record and on the college transcript at the community college and high school where the student attends classes. The transcript of the community college coursework may be released to another institution or applied toward college graduation requirements. Any course that is required for subject area testing as a requirement for graduation from a public school in Mississippi is eligible for dual credit, and courses eligible for dual credit shall also include career, technical and degree program courses. All courses eligible for dual credit shall be approved by the superintendent of the local school district and the chief instructional officer at the participating community college in order for college credit to be awarded. A community college shall make the final decision on what courses are eligible for semester hour credits and the local school superintendent, subject to approval by the Mississippi Department of Education, shall make the final decision on the transfer of college courses credited to the student's high school transcript.

SECTION 60. Section 37-16-3, Mississippi Code of 1972, is amended as follows:

37-16-3. (1) The State Department of Education is directed to implement a program of statewide assessment testing which shall provide for the improvement of the operation and management of the public schools. The statewide program shall be timed, as far as possible, so as not to conflict with ongoing district assessment programs. As part of the program, the department shall:

(a) Establish, with the approval of the State Board of Education, minimum performance standards related to the goals for education contained in the state's plan including, but not limited to, basic skills in reading, writing and mathematics. The minimum performance standards shall be approved by April 1 in each year they are established.

(b) Conduct a uniform statewide testing program in grades deemed appropriate in the public schools, including charter schools, which shall include the administration of a career-readiness assessment, such as, but not limited to, the ACT WorkKeys Assessment, deemed appropriate by the Mississippi Department of Education working in coordination with the Office of Workforce Development, to any students electing to take the assessment. Each individual school district shall determine whether the assessment is administered in the tenth, eleventh or twelfth grade. The program may test skill areas, basic skills and high school course content.

(c) Monitor the results of the assessment program and, at any time the composite student performance of a school or basic program is found to be below the established minimum standards, notify the district superintendent or the governing board of the charter school, as the case may be, the school principal and the school advisory committee or other existing parent group of the situation within thirty (30) days of its determination. The department shall further provide technical assistance to a school district in the identification of the causes of this deficiency and shall recommend courses of action for its correction.

(d) Provide technical assistance to the school districts, when requested, in the development of student performance standards in addition to the established minimum statewide standards.

(e) Issue security procedure regulations providing for the security and integrity of the tests that are administered under the basic skills assessment program.

(f) In case of an allegation of a testing irregularity that prompts a need for an investigation by the Department of Education, the department may, in its discretion, take complete control of the statewide test administration in a school district or any part thereof, including, but not limited to, obtaining control of the test booklets and answer documents. In the case of any verified testing irregularity that jeopardized the security and integrity of the test(s), validity or the accuracy of the test results, the cost of the investigation and any other actual and necessary costs related to the investigation paid by the Department of Education shall be reimbursed by the local school district from funds other than federal funds, * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds, or any other state funds within six (6) months from the date of notice by the department to the school district to make reimbursement to the department.

(2) Uniform basic skills tests shall be completed by each student in the appropriate grade. These tests shall be administered in such a manner as to preserve the integrity and validity of the assessment. In the event of excused or unexcused student absences, make-up tests shall be given. The school superintendent of every school district in the state and the principal of each charter school shall annually certify to the State Department of Education that each student enrolled in the appropriate grade has completed the required basic skills assessment test for his or her grade in a valid test administration.

(3) Within five (5) days of completing the administration of a statewide test, the principal of the school where the test was administered shall certify under oath to the State Department of Education that the statewide test was administered in strict accordance with the Requirements of the Mississippi Statewide Assessment System as adopted by the State Board of Education. The principal's sworn certification shall be set forth on a form developed and approved by the Department of Education. If, following the administration of a statewide test, the principal has reason to believe that the test was not administered in strict accordance with the Requirements of the Mississippi Statewide Assessment System as adopted by the State Board of Education, the principal shall submit a sworn certification to the Department of Education setting forth all information known or believed by the principal about all potential violations of the Requirements of the Mississippi Statewide Assessment System as adopted by the State Board of Education. The submission of false information or false certification to the Department of Education by any licensed educator may result in licensure disciplinary action pursuant to Section 37-3-2 and criminal prosecution pursuant to Section 37-16-4.

SECTION 61. Section 37-17-6, Mississippi Code of 1972, is amended as follows:

37-17-6. (1) The State Board of Education, acting through the Commission on School Accreditation, shall establish and implement a permanent performance-based accreditation system, and all noncharter public elementary and secondary schools shall be accredited under this system.

(2) * * * The State Board of Education, acting through the Commission on School Accreditation, shall require school districts to provide school classroom space that is air-conditioned as a minimum requirement for accreditation.

(3) (a) * * * The State Board of Education, acting through the Commission on School Accreditation, shall require that school districts employ certified school librarians according to the following formula:

Number of Students Per School Library	Number of Certified School Librarians
0 - 499 Students	1/2 Full-time Equivalent Certified Librarian
500 or More Students	1 Full-time Certified Librarian

(b) The State Board of Education, however, may increase the number of positions beyond the above requirements.

(c) The assignment of certified school librarians to the particular schools shall be at the discretion of the local school district. No individual shall be employed as a certified school librarian without appropriate training and certification as a school librarian by the State Department of Education.

(d) School librarians in the district shall spend at least fifty percent (50%) of direct work time in a school library and shall devote no more than one-fourth (1/4) of the workday to administrative activities that are library related.

(e) Nothing in this subsection shall prohibit any school district from employing more certified school librarians than are provided for in this section.

(f) Any additional millage levied to fund school librarians required for accreditation under this subsection shall be included in the tax increase limitation set forth in Sections 37-57-105 and 37-57-107 and shall not be deemed a new program for purposes of the limitation.

(4) On or before December 31, 2002, the State Board of Education shall implement the performance-based accreditation system for school districts and for individual noncharter public schools which shall include the following:

(a) High expectations for students and high standards for all schools, with a focus on the basic curriculum;

(b) Strong accountability for results with appropriate local flexibility for local implementation;

(c) A process to implement accountability at both the school district level and the school level;

(d) Individual schools shall be held accountable for student growth and performance;

(e) Set annual performance standards for each of the schools of the state and measure the performance of each school against itself through the standard that has been set for it;

(f) A determination of which schools exceed their standards and a plan for providing recognition and rewards to those schools;

(g) A determination of which schools are failing to meet their standards and a determination of the appropriate role of the State Board of Education and the State Department of Education in providing assistance and initiating possible intervention. A failing district is a district that fails to meet both the absolute student achievement

standards and the rate of annual growth expectation standards as set by the State Board of Education for two (2) consecutive years. The State Board of Education shall establish the level of benchmarks by which absolute student achievement and growth expectations shall be assessed. In setting the benchmarks for school districts, the State Board of Education may also take into account such factors as graduation rates, dropout rates, completion rates, the extent to which the school or district employs qualified teachers in every classroom, and any other factors deemed appropriate by the State Board of Education. The State Board of Education, acting through the State Department of Education, shall apply a simple "A," "B," "C," "D" and "F" designation to the current school and school district statewide accountability performance classification labels beginning with the State Accountability Results for the 2011-2012 school year and following, and in the school, district and state report cards required under state and federal law. Under the new designations, a school or school district that has earned a "Star" rating shall be designated an "A" school or school district; a school or school district that has earned a "High-Performing" rating shall be designated a "B" school or school district; a school or school district that has earned a "Successful" rating shall be designated a "C" school or school district; a school or school district that has earned an "Academic Watch" rating shall be designated a "D" school or school district; a school or school district that has earned a "Low-Performing," "At-Risk of Failing" or "Failing" rating shall be designated an "F" school or school district. Effective with the implementation of any new curriculum and assessment standards, the State Board of Education, acting through the State Department of Education, is further authorized and directed to change the school and school district accreditation rating system to a simple "A," "B," "C," "D," and "F" designation based on a combination of student achievement scores and student growth as measured by the statewide testing programs developed by the State Board of Education pursuant to Chapter 16, Title 37, Mississippi Code of 1972. In any statute or regulation containing the former accreditation designations, the new designations shall be applicable;

(h) Development of a comprehensive student assessment system to implement these requirements; and

(i) The State Board of Education may, based on a written request that contains specific reasons for requesting a waiver from the school districts affected by Hurricane Katrina of 2005, hold harmless school districts from assignment of district and school level accountability ratings for the 2005-2006 school year. The State Board of Education upon finding an extreme hardship in the school district may grant the request. It is the intent of the Legislature that all school districts maintain the highest possible academic standards and instructional programs in all schools as required by law and the State Board of Education.

(5) (a) Effective with the 2013-2014 school year, the State Department of Education, acting through the Mississippi Commission on School Accreditation, shall revise and implement a single "A" through "F" school and school district accountability system complying with applicable federal and state requirements in order to reach the following educational goals:

(i) To mobilize resources and supplies to ensure that all students exit third grade reading on grade level by 2015;

(ii) To reduce the student dropout rate to thirteen percent (13%) by 2015; and

(iii) To have sixty percent (60%) of students scoring proficient and advanced on the assessments of the Common Core State Standards by 2016 with incremental increases of three percent (3%) each year thereafter.

(b) The State Department of Education shall combine the state school and school district accountability system with the federal system in order to have a single system.

(c) The State Department of Education shall establish five (5) performance categories ("A," "B," "C," "D" and "F") for the accountability system based on the following criteria:

(i) Student Achievement: the percent of students proficient and advanced on the current state assessments;

(ii) Individual student growth: the percent of students making one (1) year's progress in one (1) year's time on the state assessment, with an emphasis on the progress of the lowest twenty-five percent (25%) of students in the school or district;

(iii) Four-year graduation rate: the percent of students graduating with a standard high school diploma in four (4) years, as defined by federal regulations;

(iv) Categories shall identify schools as Reward ("A" schools), Focus ("D" schools) and Priority ("F" schools). If at least five percent (5%) of schools in the state are not graded as "F" schools, the lowest five percent (5%) of school grade point designees will be identified as Priority schools. If at least ten percent (10%) of schools in the state are not graded as "D" schools, the lowest ten percent (10%) of school grade point designees will be identified as Focus schools;

(v) The State Department of Education shall discontinue the use of Star School, High-Performing, Successful, Academic Watch, Low-Performing, At-Risk of Failing and Failing school accountability designations;

(vi) The system shall include the federally compliant four-year graduation rate in school and school district accountability system calculations. Graduation rate will apply to high school and school district accountability ratings as a compensatory component. The system shall discontinue the use of the High School Completer Index (HSCI);

(vii) The school and school district accountability system shall incorporate a standards-based growth model, in order to support improvement of individual student learning;

(viii) The State Department of Education shall discontinue the use of the Quality Distribution Index (QDI);

(ix) The State Department of Education shall determine feeder patterns of schools that do not earn a school grade because the grades and subjects taught at the school do not have statewide standardized assessments needed to calculate a school grade. Upon determination of the feeder pattern, the department shall notify schools and school districts prior to the release of the school grades beginning in 2013. Feeder schools will be assigned the accountability designation of the school to which they provide students;

(x) Standards for student, school and school district performance will be increased when student proficiency is at a seventy-five percent (75%) and/or when sixty-five percent (65%) of the schools and/or school districts are earning a grade of "B" or higher, in order to raise the standard on performance after targets are met;

(xi) The system shall include student performance on the administration of a career-readiness assessment, such as, but not limited to, the ACT WorkKeys Assessment, deemed appropriate by the * * * State Department of Education working in coordination with the Office of Workforce Development.

(6) Nothing in this section shall be deemed to require a nonpublic school that receives no local, state or federal funds for support to become accredited by the State Board of Education.

(7) The State Board of Education shall create an accreditation audit unit under the Commission on School Accreditation to determine whether schools are complying with accreditation standards.

(8) The State Board of Education shall be specifically authorized and empowered to withhold * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) allocations * * * to any public school district for failure to timely report student, school personnel and fiscal data necessary to meet state and/or federal requirements.

(9) [Deleted]

(10) The State Board of Education shall establish, for those school districts failing to meet accreditation standards, a program of development to be complied with in order to receive state funds, except as otherwise provided in subsection (15) of this section when the Governor has declared a state of emergency in a school district or as otherwise provided in Section 206, Mississippi Constitution of 1890. The state board, in establishing these standards, shall provide for notice to schools and sufficient time and aid to enable schools to attempt to meet these standards, unless procedures under subsection (15) of this section have been invoked.

(11) * * * The State Board of Education shall be charged with the implementation of the program of development in each applicable school district as follows:

(a) Develop an impairment report for each district failing to meet accreditation standards in conjunction with school district officials;

(b) Notify any applicable school district failing to meet accreditation standards that it is on probation until corrective actions are taken or until the deficiencies have been removed. The local school district shall develop a corrective action plan to improve its deficiencies. For district academic deficiencies, the corrective action plan for each such school district shall be based upon a complete analysis of the following: student test data, student grades, student attendance reports, student dropout data, existence and other relevant data. The corrective action plan shall describe the specific measures to be taken by the particular school district and school to improve: (i) instruction; (ii) curriculum; (iii) professional development; (iv) personnel and classroom organization; (v) student incentives for performance; (vi) process deficiencies; and (vii) reporting to the local school board, parents and the community. The corrective action plan shall describe the specific individuals responsible for implementing each component of the recommendation and how each will be evaluated. All corrective action plans shall be provided to the State Board of Education as may be required. The decision of the State Board of Education establishing the probationary period of time shall be final;

(c) Offer, during the probationary period, technical assistance to the school district in making corrective actions. * * * Subject to the availability of funds, the State Department of Education shall provide technical and/or financial assistance to all such school districts in order to implement each measure identified in that district's corrective action plan through professional development and on-site assistance. Each such school district shall apply for and utilize all available federal funding in order to support its corrective action plan in addition to state funds made available under this paragraph;

(d) Assign department personnel or contract, in its discretion, with the institutions of higher learning or other appropriate private entities with experience in the academic, finance and other operational functions of schools to assist school districts;

(e) Provide for publication of public notice at least one time during the probationary period, in a newspaper published within the jurisdiction of the school district failing to meet accreditation standards, or if no newspaper is published therein, then in a newspaper having a general circulation therein. The publication shall include the following: declaration of school system's status as being on probation; all details relating to the impairment report; and other information as the State Board of Education deems appropriate. Public notices issued under this section shall be subject to Section 13-3-31 and not contrary to other laws regarding newspaper publication.

(12) (a) If the recommendations for corrective action are not taken by the local school district or if the deficiencies are not removed by the end of the probationary period, the Commission on School Accreditation shall conduct a hearing to allow the affected school district to present evidence or other reasons why its accreditation should not be withdrawn. Additionally, if the local school district violates accreditation standards that have been determined by the policies and procedures of the State Board of Education to be a basis for withdrawal of school district's accreditation without a probationary period, the Commission on School Accreditation shall conduct a hearing to allow the affected school district to present evidence or other reasons why its accreditation should not be withdrawn. After its consideration of the results of the hearing, the Commission on School Accreditation shall be authorized, with the approval of the State Board of Education, to withdraw the accreditation of a public school district, and issue a request to the Governor that a state of emergency be declared in that district.

(b) If the State Board of Education and the Commission on School Accreditation determine that an extreme emergency situation exists in a school district that jeopardizes the safety, security or educational interests of the children enrolled in the schools in that district and that emergency situation is believed to be related to a serious violation or violations of accreditation standards or state or federal law, or when a school district meets the State Board of Education's definition of a failing school district for two (2) consecutive full school years, or if more than fifty percent (50%) of the schools within the school district are designated as Schools At-Risk in any one (1) year, the State Board of Education may request the Governor to declare a state of emergency in that school district. For purposes of this paragraph, the declarations of a state of emergency shall not be limited to those instances when a school district's impairments are related to a lack of financial resources, but also shall include serious failure to meet minimum academic standards, as evidenced by a continued pattern of poor student performance.

(c) Whenever the Governor declares a state of emergency in a school district in response to a request made under paragraph (a) or (b) of this subsection, the State Board of Education may take one or more of the following actions:

(i) Declare a state of emergency, under which some or all of state funds can be escrowed except as otherwise provided in Section 206, Constitution of 1890, until the board determines corrective actions are being taken or the deficiencies have been removed, or that the needs of students warrant the release of funds. The funds may be released from escrow for any program which the board determines to have been restored to standard even though the state of emergency may not as yet be terminated for the district as a whole;

(ii) Override any decision of the local school board or superintendent of education, or both, concerning the management and operation of the school district, or initiate and make decisions concerning the management and operation of the school district;

(iii) Assign an interim superintendent, or in its discretion, contract with a private entity with experience in the academic, finance and other operational functions of schools and school districts, who will have those powers and duties prescribed in subsection (15) of this section;

(iv) Grant transfers to students who attend this school district so that they may attend other accredited schools or districts in a manner that is not in violation of state or federal law;

(v) For states of emergency declared under paragraph (a) only, if the accreditation deficiencies are related to the fact that the school district is too small, with too few resources, to meet the required standards and if another school district is willing to accept those students, abolish that district and assign that territory to another school district or districts. If the school district has proposed a voluntary consolidation with another school district or districts, then if the State Board of Education finds that it is in the best interest of the pupils of the district for the consolidation to proceed, the voluntary consolidation shall have priority over any such assignment of territory by the State Board of Education;

(vi) For states of emergency declared under paragraph (b) only, reduce local supplements paid to school district employees, including, but not limited to, instructional personnel, assistant teachers and extracurricular activities personnel, if the district's impairment is related to a lack of financial resources, but only to an extent that will result in the salaries being comparable to districts similarly situated, as determined by the State Board of Education;

(vii) For states of emergency declared under paragraph (b) only, the State Board of Education may take any action as prescribed in Section 37-17-13.

(d) At the time that satisfactory corrective action has been taken in a school district in which a state of emergency has been declared, the State Board of Education may request the Governor to declare that the state of emergency no longer exists in the district.

(e) The parent or legal guardian of a school-age child who is enrolled in a school district whose accreditation has been withdrawn by the Commission on School Accreditation and without approval of that school district may file a petition in writing to a school district accredited by the Commission on School Accreditation for a legal transfer. The school district accredited by the Commission on School Accreditation may grant the transfer according to the procedures of Section 37-15-31(1)(b). In the event the accreditation of the student's home district is restored after a transfer has been approved, the student may continue to attend the transferee school district. The * * * per student allocation under Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) for the student's home school district shall be transferred monthly to the school district accredited by the Commission on School Accreditation that has granted the transfer of the school-age child.

(f) Upon the declaration of a state of emergency for any school district in which the Governor has previously declared a state of emergency, the State Board of Education may either:

(i) Place the school district into district transformation, in which the school district shall remain until it has fulfilled all conditions related to district transformation. If the district was assigned an accreditation rating of "D" or "F" when placed into district transformation, the district shall be eligible to return to local control when the school district has attained a "C" rating or higher for five (5) consecutive years, unless the State Board of Education determines that the district is eligible to return to local control in less than the five-year period;

(ii) Abolish the school district and administratively consolidate the school district with one or more existing school districts;

(iii) Reduce the size of the district and administratively consolidate parts of the district, as determined by the State Board of Education. However, no school

district which is not in district transformation shall be required to accept additional territory over the objection of the district; or

(iv) Require the school district to develop and implement a district improvement plan with prescriptive guidance and support from the State Department of Education, with the goal of helping the district improve student achievement. Failure of the school board, superintendent and school district staff to implement the plan with fidelity and participate in the activities provided as support by the department shall result in the school district retaining its eligibility for district transformation.

(g) There is established a Mississippi Recovery School District within the State Department of Education under the supervision of a deputy superintendent appointed by the State Superintendent of Public Education, who is subject to the approval by the State Board of Education. The Mississippi Recovery School District shall provide leadership and oversight of all school districts that are subject to district transformation status, as defined in Chapters 17 and 18, Title 37, Mississippi Code of 1972, and shall have all the authority granted under these two (2) chapters. The * * * State Department of Education, with the approval of the State Board of Education, shall develop policies for the operation and management of the Mississippi Recovery School District. The deputy state superintendent is responsible for the Mississippi Recovery School District and shall be authorized to oversee the administration of the Mississippi Recovery School District, oversee the interim superintendent assigned by the State Board of Education to a local school district, hear appeals that would normally be filed by students, parents or employees and heard by a local school board, which hearings on appeal shall be conducted in a prompt and timely manner in the school district from which the appeal originated in order to ensure the ability of appellants, other parties and witnesses to appeal without undue burden of travel costs or loss of time from work, and perform other related duties as assigned by the State Superintendent of Public Education. The deputy state superintendent is responsible for the Mississippi Recovery School District and shall determine, based on rigorous professional qualifications set by the State Board of Education, the appropriate individuals to be engaged to be interim superintendents and financial advisors, if applicable, of all school districts subject to district transformation status. After State Board of Education approval, these individuals shall be deemed independent contractors.

(13) Upon the declaration of a state of emergency in a school district under subsection (12) of this section, the Commission on School Accreditation shall be responsible for public notice at least once a week for at least three (3) consecutive weeks in a newspaper published within the jurisdiction of the school district failing to meet accreditation standards, or if no newspaper is published therein, then in a newspaper having a general circulation therein. The size of the notice shall be no smaller than one-fourth (1/4) of a standard newspaper page and shall be printed in bold print. If an interim superintendent has been appointed for the school district, the notice shall begin as follows: "By authority of Section 37-17-6, Mississippi Code of 1972, as amended, adopted by the Mississippi Legislature during the 1991 Regular Session, this school district (name of school district) is hereby placed under the jurisdiction of the State Department of Education acting through its appointed interim superintendent (name of interim superintendent)."

The notice also shall include, in the discretion of the State Board of Education, any or all details relating to the school district's emergency status, including the declaration of a state of emergency in the school district and a description of the district's impairment deficiencies, conditions of any district transformation status and corrective actions recommended and being taken. Public notices issued under this section shall be subject to Section 13-3-31 and not contrary to other laws regarding newspaper publication.

Upon termination of the state of emergency in a school district, the Commission on School Accreditation shall cause notice to be published in the school district in the same

manner provided in this section, to include any or all details relating to the corrective action taken in the school district that resulted in the termination of the state of emergency.

(14) The State Board of Education or the Commission on School Accreditation shall have the authority to require school districts to produce the necessary reports, correspondence, financial statements, and any other documents and information necessary to fulfill the requirements of this section.

Nothing in this section shall be construed to grant any individual, corporation, board or interim superintendent the authority to levy taxes except in accordance with presently existing statutory provisions.

(15) (a) Whenever the Governor declares a state of emergency in a school district in response to a request made under subsection (12) of this section, the State Board of Education, in its discretion, may assign an interim superintendent to the school district, or in its discretion, may contract with an appropriate private entity with experience in the academic, finance and other operational functions of schools and school districts, who will be responsible for the administration, management and operation of the school district, including, but not limited to, the following activities:

(i) Approving or disapproving all financial obligations of the district, including, but not limited to, the employment, termination, nonrenewal and reassignment of all licensed and nonlicensed personnel, contractual agreements and purchase orders, and approving or disapproving all claim dockets and the issuance of checks; in approving or disapproving employment contracts of superintendents, assistant superintendents or principals, the interim superintendent shall not be required to comply with the time limitations prescribed in Sections 37-9-15 and 37-9-105;

(ii) Supervising the day-to-day activities of the district's staff, including reassigning the duties and responsibilities of personnel in a manner which, in the determination of the interim superintendent, will best suit the needs of the district;

(iii) Reviewing the district's total financial obligations and operations and making recommendations to the district for cost savings, including, but not limited to, reassigning the duties and responsibilities of staff;

(iv) Attending all meetings of the district's school board and administrative staff;

(v) Approving or disapproving all athletic, band and other extracurricular activities and any matters related to those activities;

(vi) Maintaining a detailed account of recommendations made to the district and actions taken in response to those recommendations;

(vii) Reporting periodically to the State Board of Education on the progress or lack of progress being made in the district to improve the district's impairments during the state of emergency; and

(viii) Appointing a parent advisory committee, comprised of parents of students in the school district that may make recommendations to the interim superintendent concerning the administration, management and operation of the school district.

The cost of the salary of the interim superintendent and any other actual and necessary costs related to district transformation status paid by the State Department of Education shall be reimbursed by the local school district from funds other than * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds. The department shall submit an itemized statement to the superintendent of the

local school district for reimbursement purposes, and any unpaid balance may be withheld from the district's * * * funding formula funds.

At the time that the Governor, in accordance with the request of the State Board of Education, declares that the state of emergency no longer exists in a school district, the powers and responsibilities of the interim superintendent assigned to the district shall cease.

(b) In order to provide loans to school districts under a state of emergency or in district transformation status that have impairments related to a lack of financial resources, the School District Emergency Assistance Fund is created as a special fund in the State Treasury into which monies may be transferred or appropriated by the Legislature from any available public education funds. Funds in the School District Emergency Assistance Fund up to a maximum balance of Three Million Dollars ($3,000,000.00) annually shall not lapse but shall be available for expenditure in subsequent years subject to approval of the State Board of Education. Any amount in the fund in excess of Three Million Dollars ($3,000,000.00) at the end of the fiscal year shall lapse into the State General Fund or the Education Enhancement Fund, depending on the source of the fund.

The State Board of Education may loan monies from the School District Emergency Assistance Fund to a school district that is under a state of emergency or in district transformation status, in those amounts, as determined by the board, that are necessary to correct the district's impairments related to a lack of financial resources. The loans shall be evidenced by an agreement between the school district and the State Board of Education and shall be repayable in principal, without necessity of interest, to the School District Emergency Assistance Fund by the school district from any allowable funds that are available. The total amount loaned to the district shall be due and payable within five (5) years after the impairments related to a lack of financial resources are corrected. If a school district fails to make payments on the loan in accordance with the terms of the agreement between the district and the State Board of Education, the State Department of Education, in accordance with rules and regulations established by the State Board of Education, may withhold that district's * * * INSPIRE funds in an amount and manner that will effectuate repayment consistent with the terms of the agreement; the funds withheld by the department shall be deposited into the School District Emergency Assistance Fund.

The State Board of Education shall develop a protocol that will outline the performance standards and requisite timeline deemed necessary for extreme emergency measures. If the State Board of Education determines that an extreme emergency exists, simultaneous with the powers exercised in this subsection, it shall take immediate action against all parties responsible for the affected school districts having been determined to be in an extreme emergency. The action shall include, but not be limited to, initiating civil actions to recover funds and criminal actions to account for criminal activity. Any funds recovered by the State Auditor or the State Board of Education from the surety bonds of school officials or from any civil action brought under this subsection shall be applied toward the repayment of any loan made to a school district hereunder.

(16) If a majority of the membership of the school board of any school district resigns from office, the State Board of Education shall be authorized to assign an interim superintendent, who shall be responsible for the administration, management and operation of the school district until the time as new board members are selected or the Governor declares a state of emergency in that school district under subsection (12), whichever occurs first. In that case, the State Board of Education, acting through the interim superintendent, shall have all powers which were held by the previously existing school board, and may take any action as prescribed in Section 37-17-13 and/or one or more of the actions authorized in this section.

(17) (a) If the Governor declares a state of emergency in a school district, the State Board of Education may take all such action pertaining to that school district as is

authorized under subsection (12) or (15) of this section, including the appointment of an interim superintendent. The State Board of Education shall also have the authority to issue a written request with documentation to the Governor asking that the office of the superintendent of the school district be subject to recall. If the Governor declares that the office of the superintendent of the school district is subject to recall, the local school board or the county election commission, as the case may be, shall take the following action:

(i) If the office of superintendent is an elected office, in those years in which there is no general election, the name shall be submitted by the State Board of Education to the county election commission, and the county election commission shall submit the question at a special election to the voters eligible to vote for the office of superintendent within the county, and the special election shall be held within sixty (60) days from notification by the State Board of Education. The ballot shall read substantially as follows:

"Shall County Superintendent of Education _____ (here the name of the superintendent shall be inserted) of the _____ (here the title of the school district shall be inserted) be retained in office? Yes _____ No _____"

If a majority of those voting on the question votes against retaining the superintendent in office, a vacancy shall exist which shall be filled in the manner provided by law; otherwise, the superintendent shall remain in office for the term of that office, and at the expiration of the term shall be eligible for qualification and election to another term or terms.

(ii) If the office of superintendent is an appointive office, the name of the superintendent shall be submitted by the president of the local school board at the next regular meeting of the school board for retention in office or dismissal from office. If a majority of the school board voting on the question vote against retaining the superintendent in office, a vacancy shall exist which shall be filled as provided by law, otherwise the superintendent shall remain in office for the duration of his employment contract.

(b) The State Board of Education may issue a written request with documentation to the Governor asking that the membership of the school board of the school district shall be subject to recall. Whenever the Governor declares that the membership of the school board is subject to recall, the county election commission or the local governing authorities, as the case may be, shall take the following action:

(i) If the members of the local school board are elected to office, in those years in which the specific member's office is not up for election, the name of the school board member shall be submitted by the State Board of Education to the county election commission, and the county election commission at a special election shall submit the question to the voters eligible to vote for the particular member's office within the county or school district, as the case may be, and the special election shall be held within sixty (60) days from notification by the State Board of Education. The ballot shall read substantially as follows:

"Members of the _____ (here the title of the school district shall be inserted) School Board who are not up for election this year are subject to recall because of the school district's failure to meet critical accountability standards as defined in the letter of notification to the Governor from the State Board of Education. Shall the member of the school board representing this area, _____ (here the name of the school board member holding the office shall be inserted), be retained in office? Yes _____ No _____"

If a majority of those voting on the question vote against retaining the member of the school board in office, a vacancy in that board member's office shall exist, which shall be filled in the manner provided by law; otherwise, the school board member shall remain

in office for the term of that office, and at the expiration of the term of office, the member shall be eligible for qualification and election to another term or terms of office. However, if a majority of the school board members are recalled in the special election, the Governor shall authorize the board of supervisors of the county in which the school district is situated to appoint members to fill the offices of the members recalled. The board of supervisors shall make those appointments in the manner provided by law for filling vacancies on the school board, and the appointed members shall serve until the office is filled at the next regular special election or general election.

(ii) If the local school board is an appointed school board, the name of all school board members shall be submitted as a collective board by the president of the municipal or county governing authority, as the case may be, at the next regular meeting of the governing authority for retention in office or dismissal from office. If a majority of the governing authority voting on the question vote against retaining the board in office, a vacancy shall exist in each school board member's office, which shall be filled as provided by law; otherwise, the members of the appointed school board shall remain in office for the duration of their term of appointment, and those members may be reappointed.

(iii) If the local school board is comprised of both elected and appointed members, the elected members shall be subject to recall in the manner provided in subparagraph (i) of this paragraph (b), and the appointed members shall be subject to recall in the manner provided in subparagraph (ii).

(18) * * * The State Board of Education, acting through the Commission on School Accreditation, shall require each school district to comply with standards established by the State Department of Audit for the verification of fixed assets and the auditing of fixed assets records as a minimum requirement for accreditation.

(19) * * * The State Superintendent of Public Education and the State Board of Education * * * shall develop a comprehensive accountability plan to ensure that local school boards, superintendents, principals and teachers are held accountable for student achievement. * * *

(20) Before January 1, 2008, the State Board of Education shall evaluate and submit a recommendation to the Education Committees of the House of Representatives and the Senate on inclusion of graduation rate and dropout rate in the school level accountability system.

(21) If a local school district is determined as failing and placed into district transformation status for reasons authorized by the provisions of this section, the interim superintendent appointed to the district shall, within forty-five (45) days after being appointed, present a detailed and structured corrective action plan to move the local school district out of district transformation status to the deputy superintendent. A copy of the interim superintendent's corrective action plan shall also be filed with the State Board of Education.

SECTION 62. Section 37-17-17, Mississippi Code of 1972, is amended as follows:

37-17-17. (1) There is created the Mississippi Achievement School District for the purpose of transforming persistently failing public schools and districts throughout the state into quality educational institutions. The Mississippi Achievement School District shall be a statewide school district, separate and distinct from all other school districts but not confined to any specified geographic boundaries, and may be comprised of any public schools or school districts in the state which, during two (2) consecutive school years, are designated an "F" school or district by the State Board of Education under the accountability rating system or which have been persistently failing and chronically underperforming.

(2) The Mississippi Achievement School District shall be governed by the State Board of Education.

(3) The State Board of Education shall obtain suitable office space to serve as the administrative office of the school district.

(4) The State Board of Education shall select an individual to serve as superintendent of the Mississippi Achievement School District. The superintendent must be deemed by the board to be highly qualified with a demonstrable track record for producing results in a context relevant to that of Mississippi Achievement School District schools. The superintendent of the Mississippi Achievement School District shall exercise powers and duties that would afford significant autonomy but are bound by the governance of the State Board of Education.

(5) (a) Each public school or district in the state which, during each of two (2) consecutive school years or during two (2) of three (3) consecutive school years, receives an "F" designation by the State Board of Education under the accountability rating system or has been persistently failing as defined by the State Board of Education may be absorbed into and become a part of the Mississippi Achievement School District. All eligible public schools and districts shall be prioritized by the Mississippi Achievement School District according to criteria set by the Mississippi Achievement School District and publicized prior to the annual release of accountability rating data. The Mississippi Achievement School District shall takeover only the number of schools and districts for which it has the capacity to serve. The transfer of the school's/district's governance from the local school district to the Mississippi Achievement School District shall take effect upon the approval of the State Board of Education unless, in the sole determination of the Mississippi Achievement School District, the transition may be more smoothly accomplished through a gradual transfer of control. If the Mississippi Achievement School District elects not to assume complete control of a school or district immediately after that school receives an "F" designation during each of two (2) consecutive school years or during two (2) of the three (3) consecutive school years, the State Board of Education shall prescribe the process and timetable by which the school or district shall be absorbed; however, in no event may the transfer of the school or district to the Mississippi Achievement School District be completed later than the beginning of the school year next succeeding the year during which the school or district receives the "F" designation. School districts that are eligible to be absorbed by the Achievement School District, but are not absorbed due to the capacity of the Achievement School District, shall develop and implement a district improvement plan with prescriptive guidance and support from the Mississippi Department of Education, with the goal of helping the district improve student achievement. Failure of the school board, superintendent and school district staff to implement the plan with fidelity and participate in the activities provided as support by the department shall result in the school district retaining its eligibility for the Mississippi Achievement School District.

(b) The State Board of Education shall adopt rules and regulations governing the operation of the Mississippi Achievement School District.

(c) Designations assigned to schools or districts under the accountability rating system by the State Board of Education before the 2015-2016 school year may not be considered in determining whether a particular school or district is subject to being absorbed by the Mississippi Achievement School District. During the 2017-2018 school year, any school or district receiving an "F" designation after also being designated an "F" school or district in the 2015-2016 and 2016-2017 school years may be absorbed immediately by the Mississippi Achievement School District, upon approval of the State Board of Education.

(d) The school district from which an "F" school or district is being absorbed must cooperate fully with the Mississippi Achievement School District and the State Board of Education in order to provide as smooth a transition as possible in the school's/district's

governance and operations for the students enrolled in the school or district. Upon completion of the transfer of a school or district to the Mississippi Achievement School District, the school or district shall be governed by the rules, regulations, policies and procedures established by the State Board of Education specifically for the Mississippi Achievement School District, and the school or district shall no longer be under the purview of the school board of the local school district. In the event of the transfer of governance and operations of a school district, the State Board of Education shall abolish the district as prescribed in Section 37-17-13.

(e) Upon the transfer of the school or school district to the Mississippi Achievement School District, the individual appointed by the State Board of Education to serve as superintendent for the Mississippi Achievement School District shall be responsible for the administration, management and operation of the school or school district, including the following activities: (i) approving or denying all financial obligations of the school or school district; (ii) approving or denying the employment, termination, nonrenewal and reassignment of all licensed and nonlicensed personnel; (iii) approving or denying contractual agreements and purchase orders; (iv) approving or denying all claim dockets and the issuance of checks; (v) supervising the day-to-day activities of the school or school district's staff in a manner which in the determination of the Mississippi Achievement School District will best suit the needs of the school or school district; (vi) approving or denying all athletic, band and other extracurricular activities and any matters related to those activities; (vii) honoring any reasonable financial commitment of the district being absorbed; and (viii) reporting periodically to the State Board of Education on the progress or lack of progress being made in the school or school district to improve the school or school district's impairments.

(f) Upon attaining and maintaining a school or district accountability rating of "C" or better under the State Department of Education's accountability rating system for five (5) consecutive years, the State Board of Education may decide to revert the absorbed school or district back to local governance, provided the school or school(s) in question are not conversion charter schools. "Local governance" may include a traditional school board model of governance or other new form of governance such as mayoral control, or other type of governance. The State Board of Education shall determine the best form of local governance and school board composition after soliciting the input of local citizens and shall outline a process for establishing the type of governance selected. The manner and timeline for reverting a school or district back to local control shall be at the discretion of the State School Board, but in no case shall it exceed five (5) years.

(6) The Superintendent of the Mississippi Achievement School District shall hire those persons to be employed as principals, teachers and noninstructional personnel in schools or districts absorbed into the Mississippi Achievement School District. Only highly qualified individuals having a demonstrable record of success may be selected by the superintendent for such positions in the Mississippi Achievement School District. The superintendent may choose to continue the employment of any person employed in an "F" rated school when the school or district is absorbed into the Mississippi Achievement School District; alternatively, the superintendent may elect not to offer continued employment to a person formerly employed at a school or district that is absorbed into the Mississippi Achievement School District. Any persons employed by the Mississippi Achievement School District shall not be subject to Sections 37-9-101 through 37-9-113.

(7) (a) The Mississippi Achievement School District may use a school building and all facilities and property that is a part of a school and recognized as part of the facilities or assets of the school before it is absorbed into the Mississippi Achievement School District. In addition, the Mississippi Achievement School District shall have access to those additional facilities that typically were available to that school or district, its students, faculty and staff before its absorption by the Mississippi Achievement School District. Use of facilities by a school or district in the Mississippi Achievement School District must be unrestricted and free of charge. However, the Mississippi Achievement School District shall be responsible for providing routine maintenance and repairs necessary to maintain

the facilities in as good a condition as when the right of use was acquired by the Mississippi Achievement School District. The Mississippi Achievement School District shall be responsible for paying all utilities at the facilities used for the absorbed school. Any fixtures, improvements and tangible assets added to a school building or facility by the Mississippi Achievement School District must remain at the school or district building or facility if the school or district is returned to local governance.

(b) The State Board of Education shall include in the rules and regulations adopted pursuant to subsection (5) of this section specific provisions addressing the rights and responsibilities of the Mississippi Achievement School District relating to the real and personal property of a school or district that is absorbed into the Mississippi Achievement School District.

(8) (a) The Mississippi Achievement School District shall certify annually to the State Board of Education in which a Mississippi Achievement School District school or district is located the number of students residing in the school district which are enrolled in that school or district.

(b) Whenever an increase in funding is requested by the school board for the support of schools within a particular school district absorbed into the Mississippi Achievement School District, the State Board of Education and the superintendent for the Mississippi Achievement School District shall hold a public meeting in the local municipality having jurisdiction of the absorbed school district to allow input of local residents on the matter, and subsequent to the conclusion of such meeting, the board of the Mississippi Achievement School District shall submit its request for ad valorem increase in dollars to the local governing authority having jurisdiction over the absorbed school district for approval of the request for increase in ad valorem tax effort. In a district in which a school or schools but not the entire district is absorbed into the Mississippi Achievement School District, the local school district shall pay directly to the Mississippi Achievement School District an amount for each student enrolled in that school equal to the ad valorem tax receipts and in-lieu payments received per pupil for the support of the local school district in which the student resides. The pro rata ad valorem receipts and in-lieu receipts to be transferred to the Mississippi Achievement School District shall include all levies for the support of the local school district under Sections 37-57-1 (local contribution to * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE)) and 37-57-105 (school district operational levy) and may not include any taxes levied for the retirement of the local school district's bonded indebtedness or short-term notes or any taxes levied for the support of vocational-technical education programs, unless the school or schools absorbed include a high school at which vocational-technical education programs are offered. In no event may the payment exceed the pro rata amount of the local ad valorem payment to * * * INSPIRE under Section 37-57-1 for the school district in which the student resides. Payments made under this section by a school district to the Mississippi Achievement School District must be made before the expiration of three (3) business days after the funds are distributed to the local school district by the tax collector.

(c) If an entire school district is absorbed into the Mississippi Achievement School District, the tax collector shall pay the amounts as described in paragraph (b) of this subsection, with the exception that all funds should transfer, including taxes levied for the retirement of the local school district's bonded indebtedness or short-term notes and any taxes levied for the support of vocational-technical education programs. The Mississippi Achievement School District shall pay funds raised to retire the district's debts to the appropriate creditors on behalf of the former district.

(9) (a) The State Department of Education shall make payments to the Mississippi Achievement School District for each student in average daily membership at a Mississippi Achievement School District school equal to the state share of the * * * INSPIRE payments for each student in average daily * * * membership at the local school district or former local school district in which that school is located. In calculating the

local contribution for purposes of determining the state share of the * * * funding formula payments, the department shall deduct the pro rata local contribution of the school district or former school district in which the student resides * * *.

(b) Payments made pursuant to this subsection by the State Department of Education must be made at the same time and in the same manner as * * * INSPIRE payments are made to all other school districts under Sections 37-151-101 and 37-151-103. Amounts payable to the Mississippi Achievement School District must be determined by the State Department of Education in the same manner that such amounts are calculated for all other school districts under the * * * funding formula.

(10) The Mississippi Achievement School District shall be considered a local educational agency for the same purposes and to the same extent that all other school districts in the state are deemed local educational agencies under applicable federal laws.

(11) The Mississippi Achievement School District may receive donations or grants from any public or private source, including any federal funding that may be available to the school district or individual schools within the Mississippi Achievement School District.

(12) The Legislature may appropriate sufficient funding to the State Department of Education for the 2017 fiscal year for the specific purpose of funding the start-up, operational and any other required costs of the Mississippi Achievement School District during the 2017-2018 school year.

SECTION 63. Section 37-19-7, Mississippi Code of 1972, is amended as follows:

However, no school district shall receive any funds under this section for any school year during which the local supplement paid to any individual teacher shall have been reduced to a sum less than that paid to that individual teacher for performing the same duties from local supplement during the immediately preceding school year. The amount actually spent for the purposes of group health and/or life insurance shall be considered as a part of the aggregate amount of local supplement but shall not be considered a part of the amount of individual local supplement.

The level of professional training of each teacher to be used in establishing the salary * * * for the * * * teacher for each year shall be determined by the type of valid teacher's license issued to * * * that teacher on or before October 1 of the current school year. However, school districts are authorized, in their discretion, to negotiate the salary levels applicable to licensed employees who are receiving retirement benefits from the retirement system of another state * * *.

The licensed athletic trainer shall submit documentation to the State Department of Education that the certificate was received before October 15 in order to be eligible for the full salary supplement in the current school year, or the licensed athletic trainer shall submit the documentation to the State Department of Education before February 15 in order to be eligible for a prorated salary supplement beginning with the second term of the school year.

(b) An employee shall be reimbursed for the actual cost of completing each component of acquiring the certificate or endorsement, excluding any costs incurred for postgraduate courses, not to exceed Five Hundred Dollars ($500.00) for each component, not to exceed four (4) components, for a teacher, school counselor or speech-language pathologist and audiologist, regardless of whether or not the process resulted in the award of the certificate or endorsement. A local school district or any private individual or entity may pay the cost of completing the process of acquiring the certificate or endorsement for any employee of the school district described under paragraph (a), and the State Department of Education shall reimburse the school district for such cost, regardless of whether or not the process resulted in the award of the certificate or endorsement. If a private individual or entity has paid the cost of completing the process of acquiring the certificate or endorsement for an employee, the local school district may agree to directly reimburse the individual or entity for such cost on behalf of the employee.

Local school districts shall not reduce the local supplement paid to any employee receiving such salary supplement, and the employee shall receive any local supplement to which employees with similar training and experience otherwise are entitled. However, an educational employee shall receive the salary supplement in the amount of Six Thousand Dollars ($6,000.00) for only one (1) of the qualifying certifications authorized under paragraph (a) of this subsection. No school district shall provide more than one (1) annual salary supplement under the provisions of this subsection to any one (1) individual employee holding multiple qualifying national certifications.

(d) If an employee for whom such cost has been paid, in full or in part, by a local school district or private individual or entity fails to complete the certification or endorsement process, the employee shall be liable to the school district or individual or entity for all amounts paid by the school district or individual or entity on behalf of that employee toward his or her certificate or endorsement.

(3) The following employees shall receive an annual salary supplement in the amount of Four Thousand Dollars ($4,000.00), plus fringe benefits, in addition to any other compensation to which the employee may be entitled:

The salary supplement awarded under the provisions of this subsection (3) shall be in addition to the salary supplement awarded under the provisions of subsection (2) of this section.

Teachers who meet the qualifications for a salary supplement under this subsection (3) who are assigned for less than one (1) full year or less than full time for the school year shall receive the salary supplement in a prorated manner, with the portion of the teacher's assignment to the critical geographic area to be determined as of June 15th of the school year.

(4) (a) This subsection shall be known and may be cited as the "Mississippi Performance-Based Pay (MPBP)" plan. In addition to the minimum base pay described in this section, only * * * if funds are available for that purpose, the State of Mississippi may provide monies from state funds to school districts for the purposes of rewarding licensed teachers, administrators and nonlicensed personnel at individual schools showing improvement in student test scores. The MPBP plan shall be developed by the State Department of Education based on the following criteria:

(i) It is the express intent of this legislation that the MPBP plan shall utilize only existing standards of accreditation and assessment as established by the State Board of Education.

(ii) To ensure that all of Mississippi's teachers, administrators and nonlicensed personnel at all schools have equal access to the monies set aside in this section, the MPBP program shall be designed to calculate each school's performance as determined by the school's increase in scores from the prior school year. The MPBP program shall be based on a standardized scores rating where all levels of schools can be judged in a statistically fair and reasonable way upon implementation. At the end of each year, after all student achievement scores have been standardized, the State Department of Education shall implement the MPBP plan.

(iii) To ensure all teachers cooperate in the spirit of teamwork, individual schools shall submit a plan to the local school district to be approved before the beginning of each school year * * *. The plan shall include, but not be limited to, how all teachers, regardless of subject area, and administrators will be responsible for improving student achievement for their individual school.

(b) The State Board of Education shall develop the processes and procedures for designating schools eligible to participate in the MPBP. State assessment results, growth in student achievement at individual schools and other measures deemed appropriate in designating successful student achievement shall be used in establishing MPBP criteria.

(5) (a) If funds are available for that purpose, each school in Mississippi shall have mentor teachers, as defined by Sections 37-9-201 through 37-9-213, who shall receive additional base compensation provided for by the State Legislature in the amount of One Thousand Dollars ($1,000.00) per each beginning teacher that is being mentored. The additional state compensation shall be limited to those mentor teachers that provide mentoring services to beginning teachers. For the purposes of such funding, a beginning teacher shall be defined as any teacher in any school in Mississippi that has less than one (1) year of classroom experience teaching in a public school. For the purposes of such funding, no full-time academic teacher shall mentor more than two (2) beginning teachers.

(b) To be eligible for this state funding, the individual school must have a classroom management program approved by the local school board.

(6) Effective with the 2014-2015 school year, the school districts participating in the Pilot Performance-Based Compensation System pursuant to Section 37-19-9 may award additional teacher and administrator pay based thereon.

SECTION 64. Section 37-21-6, Mississippi Code of 1972, is amended as follows:

37-21-6. The Mississippi Early Childhood Education Program shall be the kindergarten program implemented by local school districts * * *.

SECTION 65. Section 37-21-7, Mississippi Code of 1972, is amended as follows:

37-21-7. (1) This section shall be referred to as the "Mississippi Elementary Schools Assistant Teacher Program," the purpose of which shall be to provide an early childhood education program that assists in the instruction of basic skills. The State Board of Education is authorized, empowered and directed to implement a statewide system of assistant teachers in kindergarten classes and in the first, second and third grades. The assistant teacher shall assist pupils in actual instruction under the strict supervision of a licensed teacher.

(2) (a) Except as otherwise authorized under subsection (7), each school district shall employ the total number of assistant teachers funded under subsection (6) of this section. The superintendent of each district shall assign the assistant teachers to the kindergarten, first-, second- and third-grade classes in the district in a manner that will promote the maximum efficiency, as determined by the superintendent, in the instruction of skills such as verbal and linguistic skills, logical and mathematical skills, and social skills.

(b) If a licensed teacher to whom an assistant teacher has been assigned is required to be absent from the classroom, the assistant teacher may assume responsibility for the classroom in lieu of a substitute teacher. However, no assistant teacher shall assume sole responsibility of the classroom for more than three (3) consecutive school days. Further, in no event shall any assistant teacher be assigned to serve as a substitute teacher for any teacher other than the licensed teacher to whom that assistant teacher has been assigned.

(3) Assistant teachers shall have, at a minimum, a high school diploma or a High School Equivalency Diploma equivalent, and shall show demonstratable proficiency in reading and writing skills. The State Department of Education shall develop a testing procedure for assistant teacher applicants to be used in all school districts in the state.

(4) (a) In order to receive funding, each school district shall:

(i) Submit a plan on the implementation of a reading improvement program to the State Department of Education; and

(ii) Develop a plan of educational accountability and assessment of performance, including pretests and posttests, for reading in Grades 1 through 6.

(b) Additionally, each school district shall:

(i) Provide annually a mandatory preservice orientation session, using an existing in-school service day, for administrators and teachers on the effective use of assistant teachers as part of a team in the classroom setting and on the role of assistant teachers, with emphasis on program goals;

(ii) Hold periodic workshops for administrators and teachers on the effective use and supervision of assistant teachers;

(iii) Provide training annually on specific instructional skills for assistant teachers;

(iv) Annually evaluate their program in accordance with their educational accountability and assessment of performance plan; and

(v) Designate the necessary personnel to supervise and report on their program.

(5) The State Department of Education shall:

(a) Develop and assist in the implementation of a statewide uniform training module, subject to the availability of funds specifically appropriated therefor by the Legislature, which shall be used in all school districts for training administrators, teachers and assistant teachers. The module shall provide for the consolidated training of each assistant teacher and teacher to whom the assistant teacher is assigned, working together as a team, and shall require further periodic training for administrators, teachers and assistant teachers regarding the role of assistant teachers;

(b) Annually evaluate the program on the district and state level. Subject to the availability of funds specifically appropriated therefor by the Legislature, the department shall develop: (i) uniform evaluation reports, to be performed by the principal or assistant principal, to collect data for the annual overall program evaluation conducted by the department; or (ii) a program evaluation model that, at a minimum, addresses process evaluation; and

(c) Promulgate rules, regulations and such other standards deemed necessary to effectuate the purposes of this section. Noncompliance with the provisions of this section and any rules, regulations or standards adopted by the department may result in a violation of compulsory accreditation standards as established by the State Board of Education and the Commission on School Accreditation.

(6) * * * Each school district shall be allotted sufficient funding under Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) for the purpose of employing assistant teachers. No assistant teacher shall be paid less than the amount he or she received in the prior school year. No school district shall receive any funds under this section for any school year during which the aggregate amount of the local contribution to the salaries of assistant teachers by the district shall have been reduced below such amount for the previous year.

For assistant teachers, the minimum annual salary shall be as follows:

2022-2023 and Subsequent Years Minimum Salary..... $17,000.00

In addition, for each one percent (1%) that the Sine Die General Fund Revenue Estimate Growth exceeds five percent (5%) in fiscal year 2006, as certified by the Legislative Budget Office to the State Board of Education and subject to the specific appropriation therefor by the Legislature, the State Board of Education shall revise the salary scale in the appropriate year to provide an additional one percent (1%) across-the-board increase in the base salaries for assistant teachers. The State Board of Education shall revise the salaries prescribed above for assistant teachers to conform to any adjustments made in prior fiscal years due to revenue growth over and above five percent (5%). The assistant teachers shall not be restricted to working only in the grades for which the funds were allotted, but may be assigned to other classes as provided in subsection (2)(a) of this section.

(7) (a) As an alternative to employing assistant teachers, any school district may use the * * * funding provided under subsection (6) of this section for the purpose of employing licensed teachers for kindergarten, first-, second- and third-grade classes; however, no school district shall be authorized to use the * * * funding for assistant teachers for the purpose of employing licensed teachers unless the district has established that the employment of licensed teachers using such funds will reduce the teacher:student ratio in the kindergarten, first-, second- and third-grade classes. All state funds for assistant teachers shall be applied to reducing teacher:student ratio in Grades K-3.

It is the intent of the Legislature that no school district shall dismiss any assistant teacher for the purpose of using the assistant teacher * * * funding to employ licensed teachers. School districts may rely only upon normal attrition to reduce the number of assistant teachers employed in that district.

(b) Districts meeting the highest levels of accreditation standards, as defined by the State Board of Education, shall be exempted from the provisions of subsection (4) of this section.

SECTION 66. Section 37-22-5, Mississippi Code of 1972, is amended as follows:

37-22-5. There is * * * created an Emergency Fund Loss Assistance Program to provide temporary grants to eligible school districts. The purpose of the program shall be to provide relief to school districts suffering losses of financial assistance under federal programs, such as the IMPACT Program, designed to serve the educational needs of children of government employees and Choctaw Indian children. Any school district which has sustained losses in direct payments from the federal government for the purpose of educating the children of federal government employees and Choctaw Indian children living on United States government owned reservation land shall be entitled to an Emergency Fund Loss Assistance Grant, in the amount of the reduction of the grant funds received from the federal government from prior years. This grant shall be limited to losses resulting from reductions in the level of federal funding allocated to school districts from prior years and not from reductions resulting from a loss of students served by the school districts. Losses incurred prior to July 1, 1987, shall not be considered for purposes of determining the amount of the grant. There is hereby established an Emergency Fund Loss Assistance Fund in the State Treasury which shall be used to distribute the emergency grants to school districts. Expenditures from this fund shall not exceed One Million Dollars ($1,000,000.00) in any fiscal year. If the total of all grant entitlements from local school districts exceeds such sum, then the grants to the school districts shall be prorated accordingly. * * *

SECTION 67. Section 37-23-1, Mississippi Code of 1972, is amended as follows:

37-23-1. The purpose of Sections 37-23-1 through 37-23-159 is to mandate free appropriate public educational services and equipment for exceptional children in the age range three (3) through twenty (20) for whom the regular school programs are not adequate and to provide, on a permissive basis, a free appropriate public education, as a part of the state's early intervention system in accordance with regulations developed in collaboration with the agency designated as "lead agency" under Part C of the Individuals with Disabilities Education Act. The portion of the regulations developed in collaboration with the lead agency which are necessary to implement the programs under the authority of the State Board of Education shall be presented to the State Board of Education for adoption. This specifically includes, but shall not be limited to, provision for day schools for the deaf and blind of an age under six (6) years, where early training is in accordance with the most advanced and best approved scientific methods of instruction, always taking into consideration the best interests of the child and his improvement at a time during which he is most susceptible of improvement. Educational programs to exceptional children under the age of three (3) years shall be eligible for * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds.

All references in the laws of this state to the "Individuals with Disabilities Education Act" or to the "IDEA" shall be construed to include any subsequent amendments to that act.

The educational programs and services provided for exceptional children in Sections 37-23-1 through 37-23-15, 37-23-31 through 37-23-35, 37-23-61 through 37-23-75 and 37-23-77 shall be designed to provide individualized appropriate special education and related services that enable a child to reach his or her appropriate and uniquely designed goals for success. The State Board of Education shall establish an accountability system for special education programs and students with disabilities. The system shall establish accountability standards for services provided to improve the educational skills designed to prepare children for life after their years in school. These standards shall be a part of the accreditation system and shall be implemented before July 1, 1996.

The State Department of Education shall establish goals for the performance of children with disabilities that will promote the purpose of IDEA and are consistent, to the maximum extent appropriate, with other goals and standards for children established by the State Department of Education. Performance indicators used to assess progress toward achieving those goals that, at a minimum, address the performance of children with disabilities on assessments, drop-out rates, and graduation rates shall be developed. Every two (2) years, the progress toward meeting the established performance goals shall be reported to the public.

SECTION 68. Section 37-23-15, Mississippi Code of 1972, is amended as follows:

37-23-15. (1) The State Department of Education, in accordance with Sections 37-23-1 through 37-23-75, and any additional authority granted in this chapter, shall:

(a) Adopt pilot programs under which certain students enrolled or enrolling in public schools in this state shall be tested for dyslexia and related disorders as may be necessary. The pilot programs shall provide that upon the request of a parent, student, school nurse, classroom teacher or other school personnel who has reason to believe that a student has a need to be tested for dyslexia, such student shall be reviewed for appropriate services. However, a student shall not be tested for dyslexia whose parent or guardian objects thereto on grounds that such testing conflicts with his conscientiously held religious beliefs.

(b) In accordance with the pilot programs adopted by the State Department of Education, such school boards shall provide remediation in an appropriate multi-sensory, systematic language-based regular education program or programs, as determined by the school district, such as the Texas Scottish Rite Hospital Dyslexia Training Program, pertinent to the child's physical and educational disorders or the sensory area in need of remediation for those students who do not qualify for special education services.

(c) The State Department of Education, by not later than January 1, 1997, shall make recommendations to the school boards designated for the pilot programs for the delivery of services to students who are identified as dyslexic.

(d) For the purposes of this section:

(i) "Dyslexia" means a language processing disorder which may be manifested by difficulty processing expressive or receptive, oral or written language despite adequate intelligence, educational exposure and cultural opportunity. Specific manifestations may occur in one or more areas, including difficulty with the alphabet, reading comprehension, writing and spelling.

(ii) "Related disorders" shall include disorders similar to or related to dyslexia such as developmental auditory imperception, dysphasia, specific developmental dyslexia, dyspraxia, developmental dysgraphia and developmental spelling disability.

(e) Local school districts designated for the pilot programs may utilize any source of funds other than * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds to provide any services under this section.

(f) Nothing in this section shall be construed to require any school district to implement this section unless the local school board, by resolution spread on its minutes, voluntarily agrees to comply with this section and any regulations promulgated under this section. Any local school board may withdraw from participation in the program authorized under this section by providing written notice of its determination to withdraw to the State Department of Education no later than June 1 of the preceding fiscal year.

(2) State funding for the pilot programs for testing students for dyslexia shall be subject to the availability of funds specifically appropriated therefor by the Legislature.

* * *

SECTION 69. Section 37-23-69, Mississippi Code of 1972, is amended as follows:

37-23-69. The State Department of Education may determine and pay the amount of the financial assistance to be made available to each applicant, and see that all applicants and the programs for them meet the requirements of the program for exceptional children. No financial assistance shall exceed the obligation actually incurred by the applicant for educational costs, which shall include special education and related services as defined by the Mississippi Department of Education Policies and Procedures Regarding Children with Disabilities under the federal Individuals with Disabilities Education Act (IDEA). Within the amount of available state funds * * * for that purpose, each such applicant may receive assistance according to the following allowances:

(a) If the applicant chooses to attend a private school, a parochial school or a speech, hearing and/or language clinic having an appropriate program for the applicant, and if the school or clinic meets federal and state regulations, then the educational costs reimbursement will be one hundred percent (100%) of the first Six Hundred Dollars ($600.00) in educational costs charged by the school or clinic; or, if the applicant is under six (6) years of age, and no program appropriate for the child exists in the public schools of his domicile, then the reimbursement shall be one hundred percent (100%) of the first Six Hundred Dollars ($600.00) in educational costs charged by the school or clinic, and fifty percent (50%) of the next Eight Hundred Dollars ($800.00) in educational costs charged by the school or clinic;

(b) A public school district shall be reimbursed for the educational costs of an applicant up to an annual maximum based on a * * * cost factor * * * determined by the State Board of Education if the following conditions are met: (i) an applicant in the age range six (6) through twenty (20) requests the public school district where he resides to provide an education for him and the nature of the applicant's educational problem is such that, according to best educational practices, it cannot be met in the public school district where the child resides; (ii) the public school district decides to provide the applicant a free appropriate education by placing him in a private school, a parochial school or a speech, hearing and/or language clinic having an appropriate program for the applicant; (iii) the program meets federal and state regulations; and (iv) the applicant is approved for financial assistance by a State Level Review Board established by the State Board of Education. The Review Board will act on financial assistance requests within five (5) working days of receipt. Nothing in this paragraph shall prevent two (2) or more public school districts from forming a cooperative to meet the needs of low incidence exceptional children, nor shall the public school be relieved of its responsibility to provide an education for all children. If state monies are not sufficient to fund all applicants, there will be a

ratable reduction for all recipients receiving state funds under this section. School districts may pay additional educational costs from available federal, state and local funds.

If an exceptional child, as defined in Section 37-23-3, is placed in a therapeutic or other group home licensed or approved by the state that has no educational program associated with it, the local school district in which the home is located shall offer an appropriate educational program to that child.

At any time that the Individualized Education Program (IEP) Committee in the district where the home is located determines that an exceptional child, as defined in Section 37-23-3, residing in that home can no longer be provided a free appropriate public education in that school district, and the State Department of Education agrees with that decision, then the State Department of Education shall recommend to the Department of Human Services placement of the child by the Department of Human Services, which shall take appropriate action. The placement of the exceptional child in the facility shall be at no cost to the local school district. Funds available under Sections 37-23-61 through 37-23-77, as well as any available federal funds, may be used to provide the educational costs of the placement. If the exceptional child is under the guardianship of the Department of Human Services or another state agency, the State Department of Education shall pay only for the educational costs of that placement, and the other agency shall be responsible for the room, board and any other costs. The special education and related services provided to the child shall be in compliance with State Department of Education and any related federal regulations. The State Board of Education may promulgate regulations that are necessary to implement this section; and

(c) If an appropriate local or regional system of care, including a free appropriate public education, is available for exceptional children who are currently being served in out-of-district or Department of Human Services placements under * * * paragraph (b) of this section or Section 37-23-77, then the state funds from the State Department of Education that would have been used for those placements may be paid into a pool of funds with funds from other state agencies to be used for the implementation of the individualized plans of care for those children. If there are sufficient funds to serve additional exceptional children because of cost savings as a result of serving these students at home and/or matching the pooled funds with federal dollars, the funds may be used to implement individualized plans of care for those additional exceptional children. Each local or regional provider of services included in the individualized plans of care shall comply with all appropriate state and federal regulations. The State Board of Education may promulgate regulations that are necessary to implement this section.

The State Department of Education may also provide for the payment of that financial assistance in installments and for proration of that financial assistance in the case of children attending a school or clinic for less than a full school session and, if available funds are insufficient, may allocate the available funds among the qualified applicants and local school districts by reducing the maximum assistance provided for in this section.

Any monies provided an applicant under Sections 37-23-61 through 37-23-75 shall be applied by the receiving educational institution as a reduction in the amount of the educational costs paid by the applicant, and the total educational costs paid by the applicant shall not exceed the total educational costs paid by any other child in similar circumstances enrolled in the same program in that institution. However, this limitation shall not prohibit the waiving of all or part of the educational costs for a limited number of children based upon demonstrated financial need, and the State Department of Education may adopt and enforce reasonable rules and regulations to carry out the intent of these provisions.

SECTION 70. Section 37-23-109, Mississippi Code of 1972, is amended as follows:

37-23-109. Any child development center created under the provisions of Sections 37-23-91 through 37-23-111 shall be entitled to receive all contributions and benefits allowed to the other school districts from the federal and state governments including, but not limited to, contributions on the basis of the average daily * * * membership per child, school textbooks and school lunch program.

SECTION 71. Section 37-23-179, Mississippi Code of 1972, is amended as follows:

37-23-179. (1) The board shall specifically promulgate rules, regulations and guidelines which establish model programs of gifted education and also establish minimum criteria for gifted education programs. In providing programs of gifted education, the local district may use the model programs prepared by the board or may itself develop programs of gifted education which, prior to being implemented, shall be approved by the board, provided, that no such plan or program shall be approved or continued unless it meets the minimum criteria established by the board.

(2) There is hereby created within the department an office for gifted education which shall be staffed by such professional, support and clerical personnel as may be necessary to implement the provisions of Sections 37-23-171 through 37-23-181.

(3) All local school districts may have programs of gifted education for intellectually, creatively and/or artistically gifted students in Grades 2 through 12 and for academically gifted students in Grades 9 through 12 approved by the board. Beginning with the 1993-1994 school year, all local school districts shall have programs of gifted education for intellectually gifted students in Grade 2, subject to the approval of the State Board of Education and the availability of funds appropriated therefor by line-item. Beginning with the 1994-1995 school year, all local school districts shall have programs of gifted education for intellectually gifted students in Grades 2 and 3, subject to the approval of the State Board of Education. Beginning with the 1995-1996 school year, all local school districts shall have programs of gifted education for intellectually gifted students in Grades 2, 3 and 4 subject to the approval of the State Board of Education. Beginning with the 1996-1997 school year, all local school districts shall have programs of gifted education for intellectually gifted students in Grades 2, 3, 4 and 5, subject to the approval of the State Board of Education. Beginning with the 1997-1998 school year, all local school districts shall have programs of gifted education for intellectually gifted students in Grades 2, 3, 4, 5 and 6, subject to the approval of the State Board of Education. * * * Each local school district shall include as a part of its five-year plan a description of any proposed gifted education programs of the district. * * *

SECTION 72. Section 37-27-55, Mississippi Code of 1972, is amended as follows:

37-27-55. When any pupils shall attend any agricultural high school or community or junior college under the provisions of Section 37-27-51, such pupils shall be reported and accounted for the allocation of * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds and building funds just as though such pupils were attending the regular schools of the district in which they reside. For this purpose reports shall be made to the board of trustees of the school district involved by the agricultural high school or community or junior college of the number of children in average daily * * * membership, and the average daily * * * membership of such pupils shall thereupon be included in reports made to the county or school district * * *. The allocation of * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds and state public school building funds shall be made for such children just as though such children were attending the regular schools of the district. SECTION 76. Section 37-28-55, Mississippi Code of 1972, is amended as follows:

37-28-55. (1) (a) The State Department of Education shall make payments to charter schools for each student in average daily * * * membership at the charter school, as determined under Section 37-151-211, equal to the state share of * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) payments for each student * * *, as determined under Section 37-151-217.

(b) Payments made pursuant to this subsection by the State Department of Education must be made at the same time and in the same manner as * * * INSPIRE payments are made to school districts under Sections 37-151-101 and 37-151-103. Amounts payable to a charter school must be determined by the State Department of Education pursuant to this section and the funding formula. * * * Enrollment projections made under Section 37-151-211 to determine the average daily membership of a charter school for calculating the state share payment must be reconciled with * * * a charter school's average daily * * * membership using months two (2) and three (3) * * * for the * * * year for which * * * INSPIRE funds are being appropriated, and any necessary adjustments must be made to payments during the school's following year of operation. Any necessary adjustment must be based on the state share of the per pupil amount in effect for the year for which average daily membership did not meet enrollment projections and not any new amount appropriated for the year in which the adjustment will be made. If a charter school is closed by the authorizer before the following year, it must pay to the state any amounts due before completion of the closure.

by the State Department of Education in accordance with Section 37-57-105 (school district operational levy), multiplied by the number of resident students enrolled in the charter school, based on the charter school's months two (2) and three (3) average daily membership of resident students for the current school year. However, the amount to the charter school may not include any taxes levied for the retirement of the local school district's bonded indebtedness or short-term notes or any taxes levied for the support of vocational-technical education programs. * * *

(b) The amount must be paid by the school district to the charter school before January 16 of the current fiscal year. If the local school district does not pay the required amount to the charter school before January 16, the State Department of Education shall reduce the local school district's January transfer of * * * INSPIRE funds by the amount owed to the charter school and shall redirect that amount to the charter school. Any such payments made under this * * * paragraph by the State Department of Education to a charter school must be made at the same time and in the same manner as * * * funding formula payments are made to school districts under Sections 37-151-101 and 37-151-103.

However, the amount to the charter school may not include * * * any taxes levied for the retirement of the local school district's bonded indebtedness or short-term notes or any taxes levied for the support of vocational-technical education programs.

(b) * * * The State Department of Education shall reduce the school district's January transfer of * * * INSPIRE funds by the amount owed to the charter school and shall redirect that amount to the charter school. Any such payments made under this subsection (3) by the State Department of Education to a charter school must be made at the same time and in the same manner as * * * funding formula payments are made to school districts under Sections 37-151-101 and 37-151-103.

(4) (a) The State Department of Education shall direct the proportionate share of monies generated under federal * * * programs, including, but not limited to, special education, vocational, * * * English Language Learner, and other programs, to charter schools serving students eligible for such * * * funding. The department shall ensure that charter schools with rapidly expanding enrollments are treated equitably in the calculation and disbursement of all federal * * * program dollars. Each charter school that serves students who may be eligible to receive services provided through such programs shall comply with all reporting requirements to receive the aid.

(b) A charter school shall pay to a local school district any federal or state aid attributable to a student with a disability attending the charter school in proportion to the level of services for that student which the local school district provides directly or indirectly.

(c) Subject to the approval of the authorizer, a charter school and a local school district may negotiate and enter into a contract for the provision of and payment for special education services, including, but not necessarily limited to, a reasonable reserve not to exceed five percent (5%) of the local school district's total budget for providing special education services. The reserve may be used by the local school district only to offset excess costs of providing services to students with disabilities enrolled in the charter school.

(b) A charter school may enter into a contract with a school district or private provider to provide transportation to the school's students.

37-29-1. (1) The creation, establishment, maintenance and operation of community colleges is authorized. Community colleges may admit students if they have earned one (1) unit less than the number of units required for high school graduation established by State Board of Education policy or have earned a High School Equivalency Diploma in courses correlated to those of senior colleges or professional schools. Subject to the provisions of Section 75-76-34, they shall offer, without limitation, education and training preparatory for occupations such as agriculture, industry of all kinds, business, homemaking and for other occupations on the semiprofessional and vocational-technical level. They may offer courses and services to students regardless of their previous educational attainment or further academic plans.

(2) The boards of trustees of the community college districts are authorized to establish an early admission program under which applicants having a minimum ACT composite score of twenty-six (26) or the equivalent SAT score may be admitted as full-time college students if the principal or guidance counselor of the student recommends in writing that it is in the best educational interest of the student. Such recommendation shall also state that the student's age will not keep him from being a successful full-time college student. Students admitted in the early admission program shall not be counted for * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) purposes in the average daily * * * membership of the school district in which they reside, and transportation required by a student to participate in the early admission program shall be the responsibility of the parents or legal guardians of the student. Grades and college credits earned by students admitted to the early admission program shall be recorded on the college transcript at the community college where the student attends classes, and may be released to another institution or used for college graduation requirements only after the student has successfully completed one (1) full semester of course work.

(3) The community colleges shall provide, through courses or other acceptable educational measures, the general education necessary to individuals and groups which will tend to make them capable of living satisfactory lives consistent with the ideals of a democratic society.

SECTION 78. Section 37-29-272, Mississippi Code of 1972, is amended as follows:

Upon the acceptance by the county board of education and before an order

authorizing such transfer shall be entered, the board of trustees of the community college district and the county board of education in which such school is located shall by joint resolution agree in writing on the terms of such transfer, the extent of the rights of use and occupancy of the school and grounds, and the control, management, preservation and responsibility of transportation of students to such premises, to be spread upon the minutes of each governing authority. Upon such transfer, the county board of education may abolish the agricultural high school as a distinct school, and merge its activities, programs and students into the regular high school curricula of the school district. When a community college has transferred operation of an agricultural high school as provided herein, the pupils attending such school shall be reported, accounted for allocation of * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds and entitled to school transportation as though such pupils were attending the schools of the school district in which they reside, as provided in Sections 37-27-53 and 37-27-55 * * *. When any agricultural high school is transferred by the board of trustees of a community college to the county board of education as provided in this section, all laws relating to agricultural high school tax levies for the support or retirement of bonded indebtedness for agricultural high schools shall continue in full force and effect for the transferring community college district until current obligations on all bonded indebtednesses related to agriculture high schools have been satisfied and retired.

The state appropriation shall not be used for payments to high schools which are now receiving other state funds, except in lieu of not more than one-half (1/2) the amount that may be due such high schools from federal funds. Only such portion of the state appropriation shall be used as may be absolutely necessary to carry out the provisions of Sections 37-31-1 through 37-31-15, and to meet the federal requirements. Except as provided in subsection (2) of this section, the state appropriation shall not be used for payments to high schools for conducting vocational programs for more than ten (10) months in any school year, and only funds other than * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds may be expended for such purpose.

(2) Subject to annual approval by the State Board of Education, extended contracts for vocational agriculture education services and other related vocational education services which contribute to economic development may be conducted by local school districts, and state appropriations may be used for payments to school districts providing such services. The board of trustees of each school district shall determine whether any proposed services contribute to the economic development of the area. Local districts may apply to the Division of Vocational and Technical Education of the State Department of Education for any state funds available for these extended contracts. The State Board of Education shall establish the application process and the selection criteria for this program. The number of state funded extended contracts approved by the State Board of Education will be determined by the availability of funds specified for this purpose. The State Board of Education's decision shall be final. Payments under this subsection shall only be available to those high schools whose teachers of vocational programs are responsible for the following programs of instruction during those months between the academic years: (a) supervision and instruction of students in agricultural or other vocational experience programs; (b) group and individual instruction of farmers and agribusinessmen; (c) supervision of student members of youth groups who are involved in leadership training or other activity required by state or federal law; or (d) any program of vocational agriculture or other vocational-related services established by the Division of Vocational and Technical Education of the State Department of Education that contribute to the economic development of the geographic area.

However, no funds whose use was originally limited to the construction of capital improvements shall be utilized for the purpose of defraying the administrative or operating costs of any regional education center. Any one or more of the parties to an agreement may be designated as the fiscal agent or contracting party in carrying out any of the purposes of the agreement, and any and all funds authorized to be spent by any of the parties may be paid over to the fiscal agent or contracting party for disbursement by the fiscal agent or contracting party. Disbursements shall be made and contracted for under the laws and regulations applicable to the fiscal or disbursing agent, except to the extent they may be extended or modified by the provisions of Sections 37-31-71 through 37-31-79. All of the parties to the agreement may issue bonds, negotiable notes or other evidences of indebtedness for the purpose of providing funds for the acquisition of land and for the construction of buildings and permanent improvements under the terms of the agreement under any existing laws authorizing the issuance or sale of bonds, negotiable notes or other evidences of indebtedness to provide funds for any capital improvement.

The tax shall be in addition to all other taxes authorized by law to be levied. In addition to the funds realized from any such levy, the board of trustees of any school district is authorized to use any surplus funds that it may have or that may be made available to it from local sources to supplement this program.

(3) (a) Any student participating in an approved High School Equivalency Diploma Option program administered by a local school district or a local school district with an approved contractual agreement with a community or junior college or other local entity shall not be considered a dropout. Students in such a program administered by a local school district shall be considered as enrolled within the school district of origin for the purpose of enrollment for * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) only. Such students shall not be considered as enrolled in the regular school program for academic or programmatic purposes.

(b) Students participating in an approved High School Equivalency Diploma Option program shall have an individual career plan developed at the time of placement to insure that the student's academic and job skill needs will be met. When two (2) or more school districts contract to operate a High School Equivalency Diploma Option program, the school board of a district designated to be the lead district shall serve as the governing board of the High School Equivalency Diploma Option program. Transportation for students placed in the High School Equivalency Diploma Option program shall be the responsibility of the school district of origin. The expense of establishing, maintaining and operating such High School Equivalency Diploma Option programs may be paid from funds made available to the school district through contributions, * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds or from local district maintenance funds.

(e) The State Department of Education will develop procedures and criteria for placement of a student in the High School Equivalency Diploma Option programs. 37-37-3. In addition to all auditors and other employees now or hereafter provided by law, the State Auditor may appoint and employ examiners in the Department of Audit. The examiners shall make such audits as may be necessary to determine the correctness and accuracy of all reports made to the State Department of Education by any school district or school official concerning the number of educable students in any school district, the number of students enrolled in any school district, the number of students in average daily * * * membership in any school district, and the number of students being transported or entitled to transportation to any of the public schools of this state.

If any change is made in the operation or boundaries of any such school district, equitable reallocations shall be made by the * * * department of all balances to the credit of such school district, and all debits charged against the districts affected by the change in the boundaries or system of operation. The obligation of the state to make remittance of the sums appropriated or otherwise provided to make the annual grants provided by this section shall be subordinate to the pledge made to secure the state school bonds authorized under this chapter and the sinking fund created for their retirement. The grants shall be computed annually as soon as practicable after the end of the school year, and shall be based on the average daily * * * membership for such school year in all of the public schools operated by each school district as determined by the State Department of Education.

SECTION 87. Section 37-47-24, Mississippi Code of 1972, is amended as follows:

(c) The rates of interest on loans and terms of repayment. Approved loans under this program must be interest free and payable over a term of no more than ten (10) years commencing on the date the loan is received;

(d) A process by which the department determines if an entity receiving a loan is required to pledge monies for the repayment of the loan and sources of revenue that are acceptable whenever the department requires a pledge, which, for a school district receiving a loan, may not include * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds;

(7) School districts may use funds from the Educational Facilities Revolving Loan Fund Program to pay the principal and interest of school district indebtedness represented by bonds or notes issued after July 1, 2017, but before July 1, 2022, for capital improvements. School districts shall be limited to a maximum loan amount of Five-hundred Thousand Dollars ($500,000.00) per year from the Educational Facilities Revolving Loan Fund Program for this purpose.

(8) The State Department of Education shall promulgate such rules and regulations as may be necessary for participation in the Educational Facilities Revolving Loan Program by a public educational entity.

SECTION 88. Section 37-47-25, Mississippi Code of 1972, is amended as follows:

37-47-25. Whenever the State Department of Education shall determine that any school district is in need of capital improvements to an extent in excess of that which may be financed by the credit then due such school district by the department, the department shall be empowered to advance or lend * * * the school district such sums as in the opinion of the department are necessary to be expended for capital improvements by * * * that school district. Such loans or advances shall be evidenced by appropriate agreements, and shall be repayable in principal by the school district from the annual grants to which

the school district shall become entitled and from such other funds as may be available. Such loans or advances shall not constitute a debt of the school district within the meaning of any provision or limitation of the Constitution or statutes of the State of Mississippi. The department shall not advance or lend to any school district any sum in excess of seventy-five percent (75%) of the estimated sum which will accrue to the * * * school district on account of grants to be made to the * * * school district within the twenty (20) years next following the date of the loan or advance. In determining the maximum allowable advance or loan, the department shall assume that the average daily * * * membership in the schools of the school district for the past preceding scholastic year, as confirmed by the audit of average daily * * * membership made by the State Department of Audit, will continue for the period during which the loan is to be repaid.

SECTION 89. Section 37-47-33, Mississippi Code of 1972, is amended as follows:

37-47-33. For the purpose of: (a) providing funds to enable the State Board of Education to make loans or advances to school districts as provided by Section 37-47-25 * * *; (b) providing funds for the payment and redemption of certificates of credit issued to school districts under Section 37-47-23, when such funds are not otherwise available * * *; or (c) providing funds in an amount not exceeding Twenty Million Dollars ($20,000,000.00) for the payment of allocations of Mississippi Adequate Education Program funds to school districts for capital expenditures approved under Section 37-151-7(4) by the State Board of Education which have not been pledged for debt by the school district, when such funds are not otherwise available * * *, the State Bond Commission is authorized and empowered to issue state school bonds under the conditions prescribed in this chapter. The aggregate principal amount of such bonds outstanding at any one (1) time, after deducting the amount of the sinking fund provided for the retirement of bonds issued for such purposes, shall never exceed the sum of One Hundred Million Dollars ($100,000,000.00). Within such limits, however, state school bonds may be issued from time to time under the conditions prescribed in this chapter. None of such bonds so issued shall have a maturity date later than July 1, 2021.

SECTION 90. Section 37-61-3, Mississippi Code of 1972, is amended as follows:

37-61-3. The * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) allotments * * * to the public school districts and the funds derived from the supplemental school district tax levies authorized by law shall be used exclusively for the support, maintenance and operation of the schools in the manner provided by law for the fiscal years for which such funds were appropriated, collected or otherwise made available, and no part of said funds or allotments shall be used in paying any expenses incurred during any preceding fiscal year. However, this shall not be construed to prohibit the payment of expenses incurred during the fiscal year after the close of such fiscal year from amounts remaining on hand at the end of such fiscal year, provided that such expenses were properly payable from such amounts. Moreover, this shall not be construed to prohibit the payment of the salaries of superintendents, principals and teachers and other school employees whose salaries are payable in twelve (12) monthly installments after the close of the fiscal year from amounts on hand for such purpose at the end of the fiscal year.

SECTION 91. Section 37-61-5, Mississippi Code of 1972, is amended as follows:

37-61-5. If in any year there should remain a balance in the * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds of any school district on June 30 which amount is not to be used or is not needed in the payment of expenses for the preceding fiscal year properly payable out of such * * * funding formula funds, then such balance on hand to the credit of such * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds of the school district shall be carried forward as a part of such * * * funding formula funds for the next succeeding fiscal year. The proper pro rata part of the amount so carried forward, to be determined by the percentage which the state * * * funding formula funds * * * during the

year bore to the entire amount * * * of the school district's funding formula funds, shall be charged against and deducted from the amount which the school district is allotted from state * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds for the succeeding fiscal year, in a manner prescribed by the State Auditor. The remainder of the amount so carried forward may be deducted from the amount which the school district is required to produce as its local minimum ad valorem tax effort for the support of the * * * funding formula for the succeeding fiscal year * * *.

SECTION 92. Section 37-61-7, Mississippi Code of 1972, is amended as follows:

37-61-7. If at the end of any fiscal year there should remain a balance in the school district fund of any school district which is not needed and is not to be used for paying the expenses properly payable out of such district fund for the preceding fiscal year, such balance shall be carried forward as a part of the school district fund for the next fiscal year and used and expended in the manner otherwise provided by law. Nothing in this section shall be construed as applying to balances * * * of Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds of a school district, and balances remaining in such funds shall be governed by Section 37-61-5.

SECTION 93. Section 37-61-19, Mississippi Code of 1972, is amended as follows:

37-61-19. It shall be the duty of the superintendents of schools and the school boards of all school districts to limit the expenditure of school funds during the fiscal year to the resources available. It shall be unlawful for any school district to budget expenditures from a fund in excess of the resources available within that fund. Furthermore, it shall be unlawful for any contract to be entered into or any obligation incurred or expenditure made in excess of the resources available for such fiscal year. Any member of the school board, superintendent of schools, or other school official, who shall knowingly enter into any contract, incur any obligation, or make any expenditure in excess of the amount available for the fiscal year shall be personally liable for the amount of such excess. However, no school board member, superintendent or other school official shall be personally liable: (a) in the event of any reduction in * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) payments by action of the Governor acting through the Department of Finance and Administration * * *; or (b) for claims, damages, awards or judgments, on account of any wrongful or tortious act or omission or breach of implied term or condition of any warranty or contract * * *. However, * * * the foregoing immunity provisions shall not be a defense in cases of fraud, criminal action or an intentional breach of fiduciary obligations imposed by statute.

SECTION 94. Section 37-61-29, Mississippi Code of 1972, is amended as follows:

37-61-29. The State Department of Audit is hereby authorized and empowered to post-audit and investigate the financial affairs and all transactions involving the school funds of the * * * school district including the * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds and supplementary district school funds, and to make separate and special audits thereof, as now provided by Sections 7-7-201 through 7-7-215 * * *.

SECTION 95. Section 37-61-35, Mississippi Code of 1972, is amended as follows:

37-61-35. There is hereby created a special fund in the State Treasury to be designated School Ad Valorem Tax Reduction Fund into which proceeds collected pursuant to Sections 27-65-75(7) and 27-67-31(a) shall be deposited. Beginning with the 1994 state fiscal year, the entire amount of monies in such special fund shall be appropriated annually to the State Department of Education which shall distribute the appropriated amount to the various school districts in the proportion that the average daily * * * membership of each school district bears to the average daily * * * membership of all school districts within the state. On or before * * * June 1 of each * * * year, the State

Department of Education shall notify each school district of the amount to which such district is entitled pursuant to this section.

SECTION 96. Section 37-61-37, Mississippi Code of 1972, is amended as follows:

37-61-37. There is established in the State Treasury a fund known as the "Mississippi Public Education Support Fund" (hereinafter referred to as "fund"). The fund shall consist of monies * * * as the Legislature may authorize or direct to be deposited into the fund. Monies in the fund, upon appropriation by the Legislature, may be expended by the * * * State Department of Education for classroom supplies, instructional materials and equipment, including computers and computer software, to be distributed to all school districts in the proportion that the average daily * * * membership of each school district bears to the average daily * * * membership of all school districts within the state. Unexpended amounts remaining in the fund at the end of the fiscal year shall not lapse into the State General Fund, and any interest earned or investment earnings on amounts in the fund shall be deposited to the credit of the fund.

SECTION 97. Section 37-68-7, Mississippi Code of 1972, is amended as follows:

37-68-7. (1) There is established the Equity in Distance Learning Grant Program which shall be administered by the department for the purpose of reimbursing schools for eligible expenses incurred in funding their distance learning plans, and in facilitating safe classroom and remote instruction.

(2) Subject to appropriations by the Legislature, allocations to schools shall be made based on average daily membership, as defined in Section * * * 37-151-203. For any school not funded under * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE), the department shall calculate the average-daily-membership equivalent or fund the school based on enrollment.

(3) Subject to the provisions of this chapter, and other applicable federal law and regulations, schools shall have the authority to use the funds provided in this grant program in a way which best facilitates their distance learning plan, and safe classroom or remote instruction.

(4) Schools are highly encouraged to commit a portion of their federal ESSER funds, above the amount required by Section 37-68-11(b), as supplemental matching funds to offset the total cost of purchasing sufficient electronic devices, technological supports and systems of service for its distance learning plan.

SECTION 98. Section 37-131-7, Mississippi Code of 1972, is amended as follows:

37-131-7. When any pupils shall attend any demonstration or practice school under the provisions of Section 37-131-3, such children shall be reported and accounted for the allocation of * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds and state public school building funds just as though such children were attending the regular schools of the district in which they reside. For this purpose, reports shall be made to the school district involved by the demonstration or practice school of the number of pupils in average daily * * * membership, and the average daily * * * membership of such children shall thereupon be included in reports made to the State Board of Education * * * by the * * * school district * * *.

Allocation of * * * the funding formula funds shall be made by the State Board of Education for such children just as though such children were attending the regular schools of the district. All * * * funding formula funds * * * which accrue to any district as a result of such children who are in attendance at a demonstration or practice school shall be paid by the board of trustees of the municipal separate school district or by the county board of education to the demonstration or practice school, and shall be used to defray

the cost and expense of maintaining, operating and conducting such demonstration or practice school.

All state public school building funds which accrue as a result of such children in attendance at a demonstration or practice school shall be credited directly to such demonstration or practice school, and all of the provisions of Chapter 47 of this title shall be fully applicable thereto.

SECTION 99. Section 37-131-9, Mississippi Code of 1972, is amended as follows:

37-131-9. In addition to the amounts paid to the demonstration or practice school from * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds, as provided in Section 37-131-7, the board of trustees of the school district involved may contract with the * * * demonstration or practice school for the payment of additional amounts thereto to defray expenses over and above those defrayed by * * * the funding formula funds, which additional amounts shall be paid from any funds available to the school district other than * * * funding formula funds, whether produced by a supplemental district tax levy or otherwise.

If the total funds paid to the demonstration or practice school by the school district are inadequate to defray the cost and expense of maintaining and operating such demonstration or practice school then the president or executive head of the institution may, subject to the approval of the Board of Trustees of State Institutions of Higher Learning, require the payment of additional fees or tuition in an amount to be fixed by the president or executive head of the institution, subject to the approval of the Board of Trustees of State Institutions of Higher Learning, which amount shall be paid by and collected from the student or his parents.

Boards of trustees of school districts involved may designate an area within the jurisdiction of the board as an attendance center as provided by law, and may require students in such area to attend demonstration or practice schools, subject to a satisfactory contract between the school board and the president or executive head of the institution operating the demonstration or practice school. In such event, all fees and tuition must be borne by the school district and in no case shall the child or the parents of the child assigned to such demonstration or practice school be required to pay any fees or tuition.

The president or executive head of the institution, subject to the approval of the Board of Trustees of State Institutions of Higher Learning, may also fix the amount of fees and tuition to be paid by students desiring to attend such demonstration or practice school in cases where there is no contract with the board of trustees of the school district in which the students reside therefor.

All funds received by an institution, under the provisions of this section, shall be deposited in a special fund and shall be used and expended solely for the purpose of defraying and paying the cost and expense of operating, maintaining and conducting such teachers demonstration and practice school. Such funds may be supplemented by and used in connection with any other funds available to the institutions for such purpose whether made available by legislative appropriation or otherwise.

SECTION 100. Section 37-131-11, Mississippi Code of 1972, is amended as follows:

37-131-11. All demonstration or practice schools established under the provisions of Section 37-131-1 shall, as far as may be practicable, be subject to and governed by the same laws as other public schools of the State of Mississippi, and shall make all reports required by law to be made by public schools to the State Board of Education * * * at the same time and in the same manner as such reports are made by other public schools. However, for the purpose of the allocation of * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds, the reports of

children in average daily * * * membership shall be made to the school district involved by * * * the demonstration or practice school, and a copy thereof shall be filed with the State Board of Education. The school district shall use * * * the reports so filed with it in making its reports to the State Board of Education for the purpose of the allocation of * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds, but the average daily * * * membership of the pupils attending such demonstration or practice school shall be segregated and separated in such reports from the average daily * * * membership in the regular schools of the district.

SECTION 101. Section 37-151-9, Mississippi Code of 1972, is amended as follows:

37-151-9. (1) The State Board of Education and State Superintendent of Education shall establish within the State Department of Education a special unit at the division level called the Office of Educational Accountability. The Director of the Office of Educational Accountability shall hold a position comparable to a deputy superintendent and shall be appointed by the State Board of Education with the advice and consent of the Senate. He shall serve at the will and pleasure of the State Board of Education and may employ necessary professional, administrative and clerical staff. The Director of the Office of Educational Accountability shall provide all reports to the Legislature, Governor, Mississippi Commission on School Accreditation and State Board of Education and respond to any inquiries for information.

(2) The Office of Educational Accountability is responsible for monitoring and reviewing programs developed under the Education Reform Act, the Mississippi Adequate Education Program Act of 1994, the Education Enhancement Fund, the "Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) Act of 2024," and subsequent education initiatives, and shall provide information, recommendations and an annual assessment to the Legislature, Governor, Mississippi Commission on School Accreditation and the State Board of Education. * * * The annual assessment of education reform programs shall be performed by the Office of Educational Accountability by December 1 of each year. * * *

(3) In addition, the Office of Educational Accountability shall have the following specific duties and responsibilities:

(a) Developing and maintaining a system of communication with school district personnel;

(b) Provide opportunities for public comment on the current functions of the State Department of Education's programs, needed public education services and innovative suggestions; and

(c) Assess both positive and negative impact on school districts of new education programs, including but not limited to The Mississippi Report Card and alternative school programs.

SECTION 102. Section 37-151-85, Mississippi Code of 1972, is amended as follows:

37-151-85. (1) * * * Using those funds appropriated by the Legislature for transportation purposes, the amount to be allotted by the State Board of Education for transportation shall be determined as follows:

The State Department of Education shall calculate the cost of transportation in school districts by ascertaining the average cost per pupil in average daily * * * membership of transported pupils in school districts classified in different density groups, as determined by the State Department of Education. Based on these calculations, the State Department of Education shall develop a scale for determining the allowable cost

per pupil in different density groups, which scale shall provide greatest allowance per pupil transported in school districts with lowest densities and smallest allowance per pupil in school districts with highest densities. The total allowance * * * under this section for transported children for any school district for the current year shall be the average daily * * * membership of the transported children for * * * months two (2) and three (3) of the prior year, multiplied by the allowance per transported pupil as provided herein. However, the State Department of Education is * * * authorized and empowered to make proper adjustments in allotments, under rules and regulations of the State Board of Education, in cases where major changes in the number of children in average daily * * * membership transported occur from one (1) year to another as a result of changes or alterations in the boundaries of school districts, a change in or relocation of attendance centers, or for other reasons which would result in major decrease or increase in the number of children in average daily * * * membership transported during the current school year as compared with the preceding year. Moreover, the State Board of Education is hereby authorized and empowered to make such payments to all districts and/or university-based programs as deemed necessary in connection with transporting exceptional children as defined in Section 37-23-3. The State Board of Education shall establish and implement all necessary rules and regulations to allot transportation payments to university-based programs. In developing density classifications under the provisions hereof, the State Department of Education may give consideration to the length of the route, the sparsity of the population, the lack of adequate roads, highways and bridges, and the presence of large streams or other geographic obstacles. In addition to funds allotted under the above provisions, funds shall be allotted to each school district that transports students from their assigned school or attendance center to classes in an approved vocational-technical center at a rate per mile not to exceed the average statewide cost per mile of school bus transportation during the preceding year exclusive of bus replacement. All such transportation must have prior approval by the State Department of Education.

(2) The average daily membership of transported children shall be reported by the school district in which such children attend school. If children living in a school district are transported at the expense of such school district to another school district, the average daily * * * membership of such transported children shall be deducted by the State Department of Education from the aggregate average daily attendance of transported children in the school district in which they attend school and shall be added to the aggregate average daily * * * membership of transported children of the school district from which they come for the purpose of calculating transportation allotments. However, such deduction shall not be made for the purpose of calculating * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funding.

(3) The State Department of Education shall include in the allowance for transportation for each school district an amount for the replacement of school buses or the purchase of new buses, which amount shall be calculated upon the estimated useful life of all school buses being used for the transportation of children in such school district, whether such buses be publicly or privately owned.

(4) The school boards of all districts operating school bus transportation are authorized and directed to establish a salary schedule for school bus drivers. No school district shall be entitled to receive the funds herein allotted for transportation unless it pays each of its nonstudent adult school bus drivers paid from such transportation allotments a minimum of One Hundred Ninety Dollars ($190.00) per month. In addition, local school boards may compensate school bus drivers, to include temporary or substitute bus drivers, for actual expenses incurred when acquiring an initial commercial license or any renewal of a commercial license in order to drive a school bus. In addition, local school boards may compensate school bus drivers, to include temporary or substitute bus drivers, for expenses, not to exceed One Hundred Dollars ($100.00), when acquiring an initial medical exam or any renewal of a medical exam, in order to qualify for a commercial driver's license.

(5) The State Board of Education shall be authorized and empowered to use such part of the funds appropriated for transportation * * * as may be necessary to finance driver training courses as provided for in Section 37-41-1 * * *.

(6) The State Board of Education, acting through the Department of Education, may compensate school bus drivers, to include temporary or substitute bus drivers, who are providing driving services to the various state operated schools, such as the Mississippi School for the Deaf, the Mississippi School for the Blind, the Mississippi School of the Arts, the Mississippi School for Math and Science and any other similar state operated schools, for actual expenses incurred when acquiring an initial commercial license or any renewal of a commercial license in order to drive a school bus, to include the expense, not to exceed One Hundred Dollars ($100.00), of acquiring an initial medical exam or any renewal of a medical exam in order to qualify for a commercial driver's license.

SECTION 103. Section 37-151-87, Mississippi Code of 1972, is amended as follows:

37-151-87. No school district shall pay any teacher less than the state minimum salary. * * * However, * * * school districts are authorized to reduce the state minimum salary by a pro rata daily amount in order to comply with the school district employee furlough provisions of Section 37-7-308. From and after July 1, 2012, no school district shall receive any funds under the provisions of this chapter for any school year during which the aggregate amount of local supplement * * * is reduced below such amount for the previous year. However, (a) where there has been a reduction in * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) allocations for such district in such year, (b) where there has been a reduction in the amount of federal funds to such district below the previous year, or (c) where there has been a reduction in ad valorem taxes to such school district for the 1986-1987 school year below the amount for the previous year due to the exemption of nuclear generating plants from ad valorem taxation pursuant to Section 27-35-309, * * * the aggregate amount of local supplement in such district may be reduced in the discretion of the local school board without loss of funds under this chapter. No school district may receive any funds under the provisions of this chapter for any school year if the aggregate amount of support from ad valorem taxation shall be reduced during such school year below such amount for the previous year; however, where there is a loss in * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) allocations, or where there is or heretofore has been a decrease in the total assessed value of taxable property within a school district, the aggregate amount of such support may be reduced proportionately. Nothing herein contained shall prohibit any school district from adopting or continuing a program or plan whereby teachers are paid varying salaries according to the teaching ability, classroom performance and other similar standards.

For purposes of this section, the term "local supplement" means the additional amount paid to an individual teacher over and above the salary schedule prescribed in Section 37-19-7 for the performance of regular teaching duties by that teacher.

SECTION 104. Section 37-151-89, Mississippi Code of 1972, is amended as follows:

37-151-89. The minimum base pay for all classroom teachers may be increased by the district from any funds available to it * * *.

SECTION 105. Section 37-151-91, Mississippi Code of 1972, is amended as follows:

37-151-91. The school boards of all school districts may establish salary schedules based on training, experience and other such factors as may be incorporated therein, including student progress and performance as developed by the State Board of

Education, paying teachers greater amounts than the scale provided * * * in Section 37-19-7, but no teacher may be paid less than the amount based upon the minimum scale of pay provided in * * * Section 37-19-7, * * * and all supplements paid from local funds shall be based upon the salary schedules so established. The school boards may call upon the State Department of Education for aid and assistance in formulating and establishing such salary schedules, and it shall be the duty of the State Department of Education, when so called upon, to render such aid and assistance. The amount actually paid to each teacher shall be based upon and determined by the type of * * * license held by such teacher.

SECTION 106. Section 37-151-93, Mississippi Code of 1972, is amended as follows:

37-151-93. (1) Legally transferred students going from one school district to another shall be counted for * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) allotments by the school district wherein the pupils attend school, but shall be counted for transportation allotment purposes in the school district which furnishes or provides the transportation. The school boards of the school districts which approve the transfer of a student under the provisions of Section 37-15-31 shall enter into an agreement and contract for the payment or nonpayment of any portion of their local maintenance funds which they deem fair and equitable in support of any transferred student. Except as provided in subsection (2) of this section, local maintenance funds shall be transferred only to the extent specified in the agreement and contract entered into by the affected school districts. The terms of any local maintenance fund payment transfer contract shall be spread upon the minutes of both of the affected school district school boards. The school district accepting any transfer students shall be authorized to accept tuition from such students under the provisions of Section 37-15-31(1) and such agreement may remain in effect for any length of time designated in the contract. The terms of such student transfer contracts and the amounts of any tuition charged any transfer student shall be spread upon the minutes of both of the affected school boards. No school district accepting any transfer students under the provisions of Section 37-15-31(2), which provides for the transfer of certain school district employee dependents, shall be authorized to charge such transfer students any tuition fees.

(2) Local maintenance funds shall be paid by the home school district to the transferee school district for students granted transfers under the provisions of Sections 37-15-29(3) and 37-15-31(3), * * * not to exceed the * * * student base amount, as defined in Section * * * 37-151-203, multiplied by the number of such legally transferred students.

SECTION 107. Section 37-151-95, Mississippi Code of 1972, is amended as follows:

37-151-95. * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds shall * * * cover one hundred percent (100%) of the cost of the State and School Employees' Life and Health Insurance Plan created under Article 7, Chapter 15, Title 25, Mississippi Code of 1972, for all district employees who work no less than twenty (20) hours during each week and regular nonstudent school bus drivers employed by the district.

Where the use of federal funding is allowable to defray, in full or in part, the cost of participation in the insurance plan by district employees who work no less than twenty (20) hours during each week and regular nonstudent school bus drivers, whose salaries are paid, in full or in part, by federal funds, the * * * use of funding formula funds as required under this section shall be reduced to the extent of the federal funding. Where the use of federal funds is allowable but not available, it is the intent of the Legislature that school districts contribute the cost of participation for such employees from local funds, except that parent fees for child nutrition programs shall not be increased to cover such cost.

The State Department of Education, in accordance with rules and regulations established by the State Board of Education, may withhold a school district's * * * INSPIRE funds for failure of the district to timely report student, fiscal and personnel data necessary to meet state and/or federal requirements. The rules and regulations promulgated by the State Board of Education shall require the withholding of * * * funding formula funds for those districts that fail to remit premiums, interest penalties and/or late charges under the State and School Employees' Life and Health Insurance Plan. Noncompliance with such rules and regulations shall result in a violation of compulsory accreditation standards as established by the State Board of Education and Commission on School Accreditation.

SECTION 108. Section 37-151-97, Mississippi Code of 1972, is amended as follows:

37-151-97. The State Department of Education shall develop an annual reporting process to inform the Legislature, local district personnel and the general public as to the ongoing and future plans for the state's educational programs. The annual reporting process will include those vital statistics that are commonly reported by schools and districts and that can provide clear demographic, strategic and educational information to constituencies such as, but not limited to, the following information:

(a) Student enrollment * * * and attendance * * * reported in the aggregate and specifically for each student population that is subject to weighting under Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE), and drop-out and graduation data;

(b) Overall student and district achievement;

(c) Budget, administrative costs and other pertinent fiscal information, including:

(i) The receipts and disbursements of all school funds handled by the board;

(ii) Reports of expenditures for public schools, which, upon request must be made available on an individual district basis by the State Department of Education;

1. Total Student Expenditures:

a. Instruction (1000s);

b. Other Student Instructional Expenditures (2100s, 2200s);

2. General Administration (2300s and 2500s);

3. School Administration (2400s);

4. Other Expenditures (2600s, 2700s, 2800s, 3100s, 3200s); and

5. Nonoperational Expenditures (4000s, 5000s, 6000s);

(iii) The number of school districts, school teachers employed, school administrators employed, pupils taught and the attendance record of pupils therein;

(iv) County and district levies for each school district and agricultural high school;

(v) The condition of vocational education, a list of schools to which federal and state aid has been given, and a detailed statement of the expenditures of federal funds and the state funds that may be provided, and the ranking of subjects taught as compared with the state's needs.

(d) Other as directed by the State Board of Education.

Further, the reporting process will include an annual report developed specifically to relate the mission and goals of the State Board of Education, state superintendent and departments. This document will become the method through which the strategic planning and management process of the department is articulated to the public. It will explain and inform the public of the major initiatives of the department and clearly identify rationale for program development and/or elimination. The report will establish benchmarks, future plans and discuss the effectiveness of educational programs.

In addition to the information specified herein, the State Board of Education shall have full and plenary authority and power to require the furnishing of such further, additional and supplementary information as it may deem necessary for the purpose of determining the cost of * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) in such school district for the succeeding fiscal year, the amount of the * * * funding formula funds to be allotted to each school district for the succeeding fiscal year, and for any other purpose authorized by law or deemed necessary by said State Board of Education.

It shall be the duty of the State Department of Education to prescribe the forms for the reports provided for in this section.

Based upon the information obtained pursuant to Section * * * 37-151-211(3) and upon such other and further information as provided by law, the State Department of Education shall, on or before June 1 of each year, or as soon thereafter as is practical, furnish each school board and charter school the preliminary estimate of the amount each will receive from * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) for the succeeding scholastic year, and at the same time shall furnish each such school board with a tentative estimate of the cost of the * * * local minimum tax effort for the uniform funding formula in the school district and the local contribution for the school district and each charter school for such succeeding fiscal year.

SECTION 110. Section 37-151-101, Mississippi Code of 1972, is amended as follows:

37-151-101. It shall be the duty of the State Department of Education to file with the State Treasurer and the State Fiscal Officer such data and information as may be required to enable the said State Treasurer and State Fiscal Officer to distribute the * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds by electronic funds transfer to the several school districts and charter schools at the time required and provided under the provisions of this chapter. Such data and information so filed shall show in detail the amount of funds to which each school district and charter school is entitled * * * under the funding formula. Such data and information so filed may be revised from time to time as necessitated by law. At the time provided by law, the State Treasurer and the State Fiscal Officer shall distribute to the several school districts and charter schools the amounts to which they are entitled * * * under the funding formula as provided by this chapter. Such distribution shall be made by electronic funds transfer to the depositories of the several school districts and charter schools designated

in writing to the State Treasurer based upon the data and information supplied by the State Department of Education for such distribution. In such instances, the State Treasurer shall submit a request for an electronic funds transfer to the State Fiscal Officer, which shall set forth the purpose, amount and payees, and shall be in such form as may be approved by the State Fiscal Officer so as to provide the necessary information as would be required for a requisition and issuance of a warrant. A copy of the record of * * * the electronic funds transfers shall be transmitted by the school district and charter school depositories to the Treasurer, who shall file duplicates with the State Fiscal Officer. However, in December those payments shall be made on December 15th or the next business day after that date. All school districts shall process a single monthly or a bimonthly payroll for employees, in the discretion of the local school board, with electronic settlement of payroll checks secured through direct deposit of net pay for all school district employees. In addition, the State Department of Education may pay school districts and charter schools * * * under the funding formula on a date earlier than provided for by this section if it is determined that it is in the best interest of school districts and charter schools to do so.

* * * However, * * * if the cash balance in the State General Fund is not adequate on the due date to pay the amounts due to all school districts and charter schools in the state as determined by the State Superintendent of Public Education, the State Fiscal Officer shall not transfer * * * the funds payable to any school district or districts or charter schools until money is available to pay the amount due to all districts and charter schools.

(2) Notwithstanding any provision of this chapter or any other law requiring the number of children in average daily * * * membership or the average daily * * * membership of transported children to be determined on the basis of the preceding year, the State Board of Education is hereby authorized and empowered to make proper adjustments in allotments in cases where major changes in the number of children in average daily * * * membership or the average daily * * * membership of transported children occurs from one (1) year to another as a result of changes or alterations in the boundaries of school districts, the sending of children from one (1) county or district to another upon a contract basis, the termination or discontinuance of a contract for the sending of children from one (1) county or district to another, a change in or relocation of attendance centers, or for any other reason which would result in a major decrease or increase in the number of children in average daily * * * membership or the average daily * * * membership of transported children during the current school year as compared with the preceding year.

SECTION 112. Section 37-151-105, Mississippi Code of 1972, is amended as follows:

37-151-105. The State Board of Education shall have the authority to make such regulations not inconsistent with law which it deems necessary for the administration of this chapter. The State Board of Education, if it deems such practice necessary, may use reports of the first six (6) months of school for the purpose of determining average daily * * * membership.

SECTION 113. Section 37-151-107, Mississippi Code of 1972, is amended as follows:

37-151-107. SECTION 114. Section 37-173-9, Mississippi Code of 1972, is amended as follows:

37-173-9. (1) (a) The parent or legal guardian is not required to accept the offer of enrolling in another public school in lieu of requesting a Mississippi Dyslexia Therapy Scholarship to a nonpublic school. However, if the parent or legal guardian chooses the public school option, the student may continue attending a public school chosen by the parent or legal guardian until the student completes Grade 12.

(b) If the parent or legal guardian chooses a public school within the district, the school district shall provide transportation to the public school selected by the parent or legal guardian. However, if the parent or legal guardian chooses a public school in another district, the parent or legal guardian is responsible to provide transportation to the school of choice.

These provisions do not prohibit a parent or legal guardian of a student diagnosed with dyslexia, at any time, from choosing the option of a Mississippi Dyslexia Therapy Scholarship which would allow the student to attend another public school or nonpublic special purpose school.

(2) If the parent or legal guardian chooses the nonpublic school option and the student is accepted by the nonpublic school pending the availability of a space for the student, the parent or legal guardian of the student must notify the department thirty (30) days before the first scholarship payment and before entering the nonpublic school in order to be eligible for the scholarship when a space becomes available for the student in the nonpublic school.

(3) The parent or legal guardian of a student may choose, as an alternative, to enroll the student in and transport the student to a public school in an adjacent school district which has available space and has a program with dyslexia services that provide daily dyslexia therapy sessions delivered by a department licensed dyslexia therapist, and that school district shall accept the student and report the student for purposes of the district's funding under * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE).

SECTION 115. Section 37-173-13, Mississippi Code of 1972, is amended as follows:

37-173-13. (1) The maximum scholarship granted per eligible student with dyslexia shall be an amount equivalent to the * * * student base amount under Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE).

(2) (a) The nonpublic school under this program shall report to the * * * State Department of Education the number of students with dyslexia who are enrolled in nonpublic schools on the Mississippi Dyslexia Therapy Scholarships as of September 30 of each year in order to determine funding for the subsequent year. Funds may not be transferred from any funding provided to the Mississippi School for the Deaf and the Blind for program participants who are eligible under Section 37-173-5.

(b) The * * * State Department of Education will disburse payments to nonpublic schools under this program in twelve (12) substantially equal installments. The initial payment shall be made after department verification of admission acceptance, and subsequent payments shall be made upon verification of continued enrollment and attendance at the nonpublic school.

SECTION 116. Section 37-175-13, Mississippi Code of 1972, is amended as follows:

37-175-13. (1) The maximum scholarship granted per eligible student with speech-language impairment shall be an amount equivalent to the * * * state share of per student funding under Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) in the school district in which a student resides.

(2) (a) Any nonpublic school under this program shall report to the State Department of Education the number of students with speech-language impairment who are enrolled in nonpublic schools on the Mississippi Speech-Language Therapy Scholarships as of September 30 of each year in order to determine funding for the subsequent year. Funds may not be transferred from any funding provided to the Mississippi School for the Deaf and the Blind for program participants who are eligible under Section 37-175-5.

(b) The State Department of Education shall make payments to nonpublic schools for each student at the nonpublic school equal to the state share of the * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) payments for each student in average daily * * * membership at the school district from which the student transferred. In calculating the local contribution for purposes of determining the state share of the * * * funding formula payments, the department shall deduct the pro rata local contribution of the school district in which the student resides, to be determined as provided in Section * * * 37-151-217(2).

(c) Payments made pursuant to this subsection by the State Department of Education must be made at the same time and in the same manner as * * * INSPIRE payments are made to school districts under Sections 37-151-101 and 37-151-103. Amounts payable to a nonpublic school must be determined by the State Department of Education.

(3) If the parent opts to remove a child from a public school to a nonpublic special purpose school and to receive a scholarship under this chapter, then transportation shall be provided at the parent's or guardian's expense.

If a response from the parent or guardian is not received within seven (7) days after the consent form is sent, the school shall send a letter to the student's home notifying the parent or guardian of the consent form. (n) Individuals who are recipients of federal Supplemental Security Income (SSI) assistance; and

(o) Individuals who are eighteen (18) years of age or older who are not in compliance with the drug testing and substance use disorder treatment requirements of Section 43-17-6.

(4) (a) Any person who is otherwise eligible for TANF benefits, including custodial and noncustodial parents, shall be required to attend school and meet the monthly attendance requirement as provided in this subsection if all of the following apply:

(i) The person is under age twenty (20);

(ii) The person has not graduated from a public or private high school or obtained a High School Equivalency Diploma equivalent;

(iii) The person is physically able to attend school and is not excused from attending school; and

(iv) If the person is a parent or caretaker relative with whom a dependent child is living, child care is available for the child.

The monthly attendance requirement under this subsection shall be attendance at the school in which the person is enrolled for each day during a month that the school conducts classes in which the person is enrolled, with not more than two (2) absences during the month for reasons other than the reasons listed in paragraph (e)(iv) of this subsection. Persons who fail to meet participation requirements in this subsection shall be subject to sanctions as provided in paragraph (f) of this subsection.

(b) As used in this subsection, "school" means any one (1) of the following:

(i) A school as defined in Section 37-13-91(2);

(ii) A vocational, technical and adult education program; or

(iii) A course of study meeting the standards established by the State Department of Education for the granting of a declaration of equivalency of high school graduation.

(c) If any compulsory-school-age child, as defined in Section 37-13-91(2), to which TANF eligibility requirements apply is not in compliance with the compulsory school attendance requirements of Section 37-13-91(6), the superintendent of schools of

the school district in which the child is enrolled or eligible to attend shall notify the county department of human services of the child's noncompliance. The Department of Human Services shall review school attendance information as provided under this paragraph at all initial eligibility determinations and upon subsequent report of unsatisfactory attendance.

(d) The signature of a person on an application for TANF benefits constitutes permission for the release of school attendance records for that person or for any child residing with that person. The department shall request information from the child's school district about the child's attendance in the school district's most recently completed semester of attendance. If information about the child's previous school attendance is not available or cannot be verified, the department shall require the child to meet the monthly attendance requirement for one (1) semester or until the information is obtained. The department shall use the attendance information provided by a school district to verify attendance for a child. The department shall review with the parent or caretaker relative a child's claim that he or she has a good cause for not attending school.

A school district shall provide information to the department about the attendance of a child who is enrolled in a public school in the district within five (5) working days of the receipt of a written request for that information from the department. The school district shall define how many hours of attendance count as a full day and shall provide that information, upon request, to the department. In reporting attendance, the school district may add partial days' absence together to constitute a full day's absence.

If a school district fails to provide to the department the information about the school attendance of any child within fifteen (15) working days after a written request, the department shall notify the Department of Audit within three (3) working days of the school district's failure to comply with that requirement. The Department of Audit shall begin audit proceedings within five (5) working days of notification by the Department of Human Services to determine the school district's compliance with the requirements of this subsection (4). If the Department of Audit finds that the school district is not in compliance with the requirements of this subsection, the school district shall be penalized as follows: The Department of Audit shall notify the State Department of Education of the school district's noncompliance, and the Department of Education shall reduce the calculation of the school district's average daily * * * membership that is used to determine the allocation of * * * Investing in the Needs of Students to Prioritize, Impact and Reform Education (INSPIRE) funds by the number of children for which the district has failed to provide to the Department of Human Services the required information about the school attendance of those children. The reduction in the calculation of the school district's * * * average daily membership under this paragraph shall be effective for a period of one (1) year.

(e) A child who is required to attend school to meet the requirements under this subsection shall comply except when there is good cause, which shall be demonstrated by any of the following circumstances:

(i) The minor parent is the caretaker of a child less than twelve (12) weeks old; or

(ii) The department determines that child care services are necessary for the minor parent to attend school and there is no child care available; or

(iii) The child is prohibited by the school district from attending school and an expulsion is pending. This exemption no longer applies once the teenager has been expelled; however, a teenager who has been expelled and is making satisfactory progress towards obtaining a High School Equivalency Diploma equivalent shall be eligible for TANF benefits; or

(iv) The child failed to attend school for one or more of the following reasons:

1. Illness, injury or incapacity of the child or the minor parent's child;

2. Court-required appearances or temporary incarceration;

3. Medical or dental appointments for the child or minor parent's child;

4. Death of a close relative;

5. Observance of a religious holiday;

6. Family emergency;

7. Breakdown in transportation;

8. Suspension; or

9. Any other circumstance beyond the control of the child, as defined in regulations of the department.

(f) Upon determination that a child has failed without good cause to attend school as required, the department shall provide written notice to the parent or caretaker relative (whoever is the primary recipient of the TANF benefits) that specifies:

(i) That the family will be sanctioned in the next possible payment month because the child who is required to attend school has failed to meet the attendance requirement of this subsection;

(ii) The beginning date of the sanction, and the child to whom the sanction applies;

(iii) The right of the child's parents or caretaker relative (whoever is the primary recipient of the TANF benefits) to request a fair hearing under this subsection.

The child's parent or caretaker relative (whoever is the primary recipient of the TANF benefits) may request a fair hearing on the department's determination that the child has not been attending school. If the child's parents or caretaker relative does not request a fair hearing under this subsection, or if, after a fair hearing has been held, the hearing officer finds that the child without good cause has failed to meet the monthly attendance requirement, the department shall discontinue or deny TANF benefits to the child thirteen (13) years old, or older, in the next possible payment month. The department shall discontinue or deny twenty-five percent (25%) of the family grant when a child six (6) through twelve (12) years of age without good cause has failed to meet the monthly attendance requirement. Both the child and family sanction may apply when children in both age groups fail to meet the attendance requirement without good cause. A sanction applied under this subsection shall be effective for one (1) month for each month that the child failed to meet the monthly attendance requirement. In the case of a dropout, the sanction shall remain in force until the parent or caretaker relative provides written proof from the school district that the child has reenrolled and met the monthly attendance requirement for one (1) calendar month. Any month in which school is in session for at least ten (10) days during the month may be used to meet the attendance requirement under this subsection. This includes attendance at summer school. The sanction shall be removed the next possible payment month.

(5) All parents or caretaker relatives shall have their dependent children receive vaccinations and booster vaccinations against those diseases specified by the State Health Officer under Section 41-23-37 in accordance with the vaccination and booster

vaccination schedule prescribed by the State Health Officer for children of that age, in order for the parents or caretaker relatives to be eligible or remain eligible to receive TANF benefits. Proof of having received such vaccinations and booster vaccinations shall be given by presenting the certificates of vaccination issued by any health care provider licensed to administer vaccinations, and submitted on forms specified by the State Board of Health. If the parents without good cause do not have their dependent children receive the vaccinations and booster vaccinations as required by this subsection and they fail to comply after thirty (30) days' notice, the department shall sanction the family's TANF benefits by twenty-five percent (25%) for the next payment month and each subsequent payment month until the requirements of this subsection are met.

(6) (a) If the parent or caretaker relative applying for TANF assistance is work eligible, as determined by the Department of Human Services, the person shall be required to engage in an allowable work activity once the department determines the parent or caretaker relative is determined work eligible, or once the parent or caretaker relative has received TANF assistance under the program for twenty-four (24) months, whether or not consecutive, whichever is earlier. No TANF benefits shall be given to any person to whom this section applies who fails without good cause to comply with the Employability Development Plan prepared by the department for the person, or who has refused to accept a referral or offer of employment, training or education in which he or she is able to engage, subject to the penalties prescribed in paragraph (e) of this subsection. A person shall be deemed to have refused to accept a referral or offer of employment, training or education if he or she:

(i) Willfully fails to report for an interview with respect to employment when requested to do so by the department; or

(ii) Willfully fails to report to the department the result of a referral to employment; or

(iii) Willfully fails to report for allowable work activities as prescribed in paragraphs (c) and (d) of this subsection.

(b) The Department of Human Services shall operate a statewide work program for TANF recipients to provide work activities and supportive services to enable families to become self-sufficient and improve their competitive position in the workforce in accordance with the requirements of the federal Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (Public Law 104-193), as amended, and the regulations promulgated thereunder, and the Deficit Reduction Act of 2005 (Public Law 109-171), as amended. Within sixty (60) days after the initial application for TANF benefits, the TANF recipient must participate in a job search skills training workshop or a job readiness program, which shall include resume writing, job search skills, employability skills and, if available at no charge, the General Aptitude Test Battery or its equivalent. All adults who are not specifically exempt shall be referred by the department for allowable work activities. An adult may be exempt from the mandatory work activity requirement for the following reasons:

(i) Incapacity;

(ii) Temporary illness or injury, verified by physician's certificate;

(iii) Is in the third trimester of pregnancy, and there are complications verified by the certificate of a physician, nurse practitioner, physician assistant, or any other licensed health care professional practicing under a protocol with a licensed physician;

(iv) Caretaker of a child under twelve (12) months, for not more than twelve (12) months of the sixty-month maximum benefit period;

(v) Caretaker of an ill or incapacitated person, as verified by physician's certificate;

(vi) Age, if over sixty (60) or under eighteen (18) years of age;

(vii) Receiving treatment for substance abuse, if the person is in compliance with the substance abuse treatment plan;

(viii) In a two-parent family, the caretaker of a severely disabled child, as verified by a physician's certificate; or

(ix) History of having been a victim of domestic violence, which has been reported as required by state law and is substantiated by police reports or court records, and being at risk of further domestic violence, shall be exempt for a period as deemed necessary by the department but not to exceed a total of twelve (12) months, which need not be consecutive, in the sixty-month maximum benefit period. For the purposes of this subparagraph (ix), "domestic violence" means that an individual has been subjected to:

1. Physical acts that resulted in, or threatened to result in, physical injury to the individual;

2. Sexual abuse;

3. Sexual activity involving a dependent child;

4. Being forced as the caretaker relative of a dependent child to engage in nonconsensual sexual acts or activities;

5. Threats of, or attempts at, physical or sexual abuse;

6. Mental abuse; or

7. Neglect or deprivation of medical care.

(c) For all families, all adults who are not specifically exempt shall be required to participate in work activities for at least the minimum average number of hours per week specified by federal law or regulation, not fewer than twenty (20) hours per week (thirty-five (35) hours per week for two-parent families) of which are attributable to the following allowable work activities:

(i) Unsubsidized employment;

(ii) Subsidized private employment;

(iii) Subsidized public employment;

(iv) Work experience (including work associated with the refurbishing of publicly assisted housing), if sufficient private employment is not available;

(v) On-the-job training;

(vi) Job search and job readiness assistance consistent with federal TANF regulations;

(vii) Community service programs;

(viii) Vocational educational training (not to exceed twelve (12) months with respect to any individual);

(ix) The provision of child care services to an individual who is participating in a community service program;

(x) Satisfactory attendance at high school or in a course of study leading to a high school equivalency certificate, for heads of household under age twenty (20) who have not completed high school or received such certificate;

(xi) Education directly related to employment, for heads of household under age twenty (20) who have not completed high school or received such equivalency certificate.

(d) The following are allowable work activities which may be attributable to hours in excess of the minimum specified in paragraph (c) of this subsection:

(i) Job skills training directly related to employment;

(ii) Education directly related to employment for individuals who have not completed high school or received a high school equivalency certificate;

(iii) Satisfactory attendance at high school or in a course of study leading to a high school equivalency, for individuals who have not completed high school or received such equivalency certificate;

(iv) Job search and job readiness assistance consistent with federal TANF regulations.

(e) If any adult or caretaker relative refuses to participate in allowable work activity as required under this subsection (6), the following full family TANF benefit penalty will apply, subject to due process to include notification, conciliation and a hearing if requested by the recipient:

(i) For the first violation, the department shall terminate the TANF assistance otherwise payable to the family for a two-month period or until the person has complied with the required work activity, whichever is longer;

(ii) For the second violation, the department shall terminate the TANF assistance otherwise payable to the family for a six-month period or until the person has complied with the required work activity, whichever is longer;

(iii) For the third violation, the department shall terminate the TANF assistance otherwise payable to the family for a twelve-month period or until the person has complied with the required work activity, whichever is longer;

(iv) For the fourth violation, the person shall be permanently disqualified.

For a two-parent family, unless prohibited by state or federal law, Medicaid assistance shall be terminated only for the person whose failure to participate in allowable work activity caused the family's TANF assistance to be sanctioned under this paragraph (e), unless an individual is pregnant, but shall not be terminated for any other person in the family who is meeting that person's applicable work requirement or who is not required to work. Minor children shall continue to be eligible for Medicaid benefits regardless of the disqualification of their parent or caretaker relative for TANF assistance under this subsection (6), unless prohibited by state or federal law.

(f) Any person enrolled in a two-year or four-year college program who meets the eligibility requirements to receive TANF benefits, and who is meeting the applicable work requirements and all other applicable requirements of the TANF program,

shall continue to be eligible for TANF benefits while enrolled in the college program for as long as the person meets the requirements of the TANF program, unless prohibited by federal law.

(g) No adult in a work activity required under this subsection (6) shall be employed or assigned (i) when any other individual is on layoff from the same or any substantially equivalent job within six (6) months before the date of the TANF recipient's employment or assignment; or (ii) if the employer has terminated the employment of any regular employee or otherwise caused an involuntary reduction of its workforce in order to fill the vacancy so created with an adult receiving TANF assistance. The Mississippi Department of Employment Security, established under Section 71-5-101, shall appoint one or more impartial hearing officers to hear and decide claims by employees of violations of this paragraph (g). The hearing officer shall hear all the evidence with respect to any claim made hereunder and such additional evidence as he may require and shall make a determination and the reason therefor. The claimant shall be promptly notified of the decision of the hearing officer and the reason therefor. Within ten (10) days after the decision of the hearing officer has become final, any party aggrieved thereby may secure judicial review thereof by commencing an action, in the circuit court of the county in which the claimant resides, against the department for the review of such decision, in which action any other party to the proceeding before the hearing officer shall be made a defendant. Any such appeal shall be on the record which shall be certified to the court by the department in the manner provided in Section 71-5-531, and the jurisdiction of the court shall be confined to questions of law which shall render its decision as provided in that section.

(7) The Department of Human Services may provide child care for eligible participants who require such care so that they may accept employment or remain employed. The department may also provide child care for those participating in the TANF program when it is determined that they are satisfactorily involved in education, training or other allowable work activities. The department may contract with Head Start agencies to provide child care services to TANF recipients. The department may also arrange for child care by use of contract or vouchers, provide vouchers in advance to a caretaker relative, reimburse a child care provider, or use any other arrangement deemed appropriate by the department, and may establish different reimbursement rates for child care services depending on the category of the facility or home. Any center-based or group home child care facility under this subsection shall be licensed by the State Department of Health pursuant to law. When child care is being provided in the child's own home, in the home of a relative of the child, or in any other unlicensed setting, the provision of such child care may be monitored on a random basis by the Department of Human Services or the State Department of Health. Transitional child care assistance may be continued if it is necessary for parents to maintain employment once support has ended, unless prohibited under state or federal law. Transitional child care assistance may be provided for up to twenty-four (24) months after the last month during which the family was eligible for TANF assistance, if federal funds are available for such child care assistance.

(8) The Department of Human Services may provide transportation or provide reasonable reimbursement for transportation expenses that are necessary for individuals to be able to participate in allowable work activity under the TANF program.

(9) Medicaid assistance shall be provided to a family of TANF program participants for up to twenty-four (24) consecutive calendar months following the month in which the participating family would be ineligible for TANF benefits because of increased income, expiration of earned income disregards, or increased hours of employment of the caretaker relative; however, Medicaid assistance for more than twelve (12) months may be provided only if a federal waiver is obtained to provide such assistance for more than twelve (12) months and federal and state funds are available to provide such assistance.

(10) The department shall require applicants for and recipients of public assistance from the department to sign a personal responsibility contract that will require the applicant or recipient to acknowledge his or her responsibilities to the state.

(11) The department shall enter into an agreement with the State Personnel Board and other state agencies that will allow those TANF participants who qualify for vacant jobs within state agencies to be placed in state jobs. State agencies participating in the TANF work program shall receive any and all benefits received by employers in the private sector for hiring TANF recipients. This subsection (11) shall be effective only if the state obtains any necessary federal waiver or approval and if federal funds are available therefor. Not later than September 1, 2021, the department shall prepare a report, which shall be provided to the Chairmen of the House and Senate Public Health Committees and to any other member of the Legislature upon request, on the history, status, outcomes and effectiveness of the agreements required under this subsection.

(12) Any unspent TANF funds remaining from the prior fiscal year may be expended for any TANF allowable activities.

(13) The Mississippi Department of Human Services shall provide TANF applicants information and referral to programs that provide information about birth control, prenatal health care, abstinence education, marriage education, family preservation and fatherhood. Not later than September 1, 2021, the department shall prepare a report, which shall be provided to the Chairmen of the House and Senate Public Health Committees and to any other member of the Legislature upon request, on the history, status, outcomes and effectiveness of the information and referral requirements under this subsection.

(14) No new TANF program requirement or restriction affecting a person's eligibility for TANF assistance, or allowable work activity, which is not mandated by federal law or regulation may be implemented by the Department of Human Services after July 1, 2004, unless such is specifically authorized by an amendment to this section by the Legislature.

SECTION 121. Section 65-26-9, Mississippi Code of 1972, is amended as follows:

65-26-9. (1) There is hereby created in the State Treasury a special fund to be known as the Tennessee-Tombigbee Waterway Bridge Bond Retirement Fund. All revenues pledged for the payment of the principal of and interest on the bonds authorized to be issued by this chapter shall be deposited into the bond retirement fund. Expenditures from the bond retirement fund shall be made only in accordance with this section.

(2) Subject to the provisions of subsection (3) of this section, amounts on deposit in the bond retirement fund and not immediately required for the making of any payments therefrom shall be invested in interest-bearing certificates of deposit in accordance with the provisions of Section 27-105-33, except interest so earned shall be credited to the bond retirement fund.

(3) (a) There is hereby established within the bond retirement fund two (2) separate accounts as follows: (i) the "Tennessee-Tombigbee General Account"; and (ii) the "Tennessee-Tombigbee Principal and Interest Account."

(b) (i) All amounts held in the bond retirement fund on April 23, 1986, and all amounts thereafter deposited in the bond retirement fund, shall be credited to the Tennessee-Tombigbee General Account.

(ii) Until such time as the transfer of funds from the Tennessee-Tombigbee General Account to the Tennessee-Tombigbee Principal and Interest Account occurs as provided in paragraph (b)(iii) of this subsection, amounts in the general account shall be applied to the following purposes and in the following order of

priority: first, to the extent required, to the payment, the principal of, redemption premium, if any, and interest on general obligation bonds; second, to the extent required, to the General Fund of the state to reimburse the state for expenditures in excess of twenty-five percent (25%) of the total costs of the principal and interest on bonds issued under authority of subsection (1) of Section 65-26-15 and for all expenditures for costs of the principal of and interest on bonds issued under authority of subsection (2) of Section 65-26-15; and third, to the extent required, if any, to the bridge construction fund created in Section 65-26-25 to make current payments to meet contractual obligations for bridge construction.

(iii) Upon certification of the State Treasurer, filed with and approved by the State Bond Commission, that the amount on deposit in the Tennessee-Tombigbee General Account, together with earnings on investments to accrue to it, is equal to or greater than the aggregate of the entire principal, redemption premium, if any, and interest due and to become due, until the final maturity date or earlier scheduled redemption date thereof, on all general obligation bonds outstanding as of the date of such certification, then the State Treasurer shall transfer from the Tennessee-Tombigbee General Account to the Tennessee-Tombigbee Principal and Interest Account an amount equal to the entire principal, redemption premium, if any, and interest due and to become due, until the final maturity date or scheduled redemption date thereof, on all general obligation bonds outstanding as of the date of such transfer. The State of Mississippi hereby covenants with the holders from time to time of general obligation bonds that amounts deposited in the Tennessee-Tombigbee Principal and Interest Account will be applied solely to the payment of the principal of, redemption premium, if any, and interest on general obligation bonds.

(iv) After the date of the transfer from the general account to the principal and interest account contemplated by paragraph (b)(iii) of this subsection, amounts from time to time on deposit in the Tennessee-Tombigbee General Account shall be applied monthly to the following purposes and in the following order of priority: first, to the extent required, to the payment of the principal of, redemption premium, if any, and interest on general obligation bonds issued under this chapter; second, to the extent required, to the General Fund of the state to reimburse the state for expenditures in excess of twenty-five percent (25%) of the total costs of the principal and interest on bonds issued under authority of subsection (1) of Section 65-26-15 and for all expenditures for costs of the principal of and interest on bonds issued under authority of subsection (2) of Section 65-26-15; and third, to the extent required, if any, to the bridge construction fund created in Section 65-26-25 to make current payments to meet contractual obligations for bridge construction.

(4) It is the intent of the Legislature that all outstanding general obligation bonds issued under this chapter shall be retired by the State Bond Commission on the earliest scheduled redemption date thereof, provided that there are sufficient funds in the bond retirement fund together with earnings on investments to accrue to it. When the principal of, redemption premium, if any, and interest on all such outstanding general obligation bonds are paid in full, then any amounts remaining in the bond retirement fund, or separate accounts therein, together with earnings on investments to accrue to it, shall be apportioned and paid as follows:

(a) Three Million Five Hundred Thousand Dollars ($3,500,000.00) of such funds shall be paid into the appropriate fund for use by the Yellow Creek State Inland Port Authority for equipment or facilities necessary to the operation of the port.

(b) Three Million Five Hundred Thousand Dollars ($3,500,000.00) shall be paid into the State General Fund.

(c) Seven Million Five Hundred Thousand Dollars ($7,500,000.00) shall be paid to Tishomingo County. Of the Seven Million Five Hundred Thousand Dollars ($7,500,000.00), (i) Two Million Five Hundred Thousand Dollars ($2,500,000.00) shall be

placed by the county in a special trust fund, the principal of which shall remain inviolate and the interest on which shall be expended solely for improvement of elementary and secondary education in Tishomingo County and distributed among the school districts therein based on the average daily * * * membership in each, and (ii) Five Million Dollars ($5,000,000.00) shall be placed in the county general fund and may be expended for general county purposes.

(d) The balance of such funds shall be paid to the counties of Alcorn, Chickasaw, Clay, Itawamba, Lee, Lowndes, Monroe, Noxubee, Kemper, Pontotoc, Prentiss and Tishomingo. Such funds shall be paid to such counties in the proportion that each county's contribution to the bridge bond fund bears to the total contribution from all twelve (12) counties; however, no county shall be paid more than Five Million Dollars ($5,000,000.00) under this paragraph (d). Such funds shall be deposited by the county into a special account to be expended solely for economic development purposes. No expenditure of funds from the special account shall be made unless the amount to be expended from the special account is matched by other county funds in an amount equal to fifteen percent (15%) of the special account funds to be expended and until the Mississippi * * * Development Authority, upon application by the board of supervisors, has certified that the proposed expenditure is for economic development purposes and has approved the expenditure for such purposes; provided, however, the fifteen percent (15%) match hereinabove imposed shall not be required when the proposed expenditure for economic development purposes is on land owned or leased by the federal, state, county or municipal government.

SECTION 122. Section 37-151-81, Mississippi Code of 1972, is amended as follows:

37-151-81. * * *

(* * *1) * * * For each * * * student with a disability who is being educated by a public school district or is placed in accord with Section 37-23-77, * * * and whose individualized educational program (IEP) requires an extended school year in accord with the State Department of Education criteria, a sufficient amount of funds shall be allocated for the purpose of providing the educational services the student requires. The State Board of Education shall promulgate such regulations as are required to insure the equitable distribution of these funds. All costs for the extended school year for a particular summer shall be reimbursed from funds appropriated for the fiscal year beginning July 1 of that summer. If sufficient funds are not made available to finance all of the required educational services, the State Department of Education shall expend available funds in such a manner that it does not limit the availability of appropriate education to * * * students with disabilities more severely than it does to * * * students without disabilities.

(* * *2) The State Department of Education is hereby authorized to match * * * INSPIRE and other funds allocated for provision of services to * * * students with disabilities with Division of Medicaid funds to provide language-speech services, physical therapy and occupational therapy to * * * students with disabilities who meet State Department of Education or Division of Medicaid standards and who are Medicaid eligible. Provided further, that the State Department of Education is authorized to pay such funds as may be required as a match directly to the Division of Medicaid pursuant to an agreement to be developed between the State Department of Education and the Division of Medicaid.

* * *

(* * *3) When any children who are residents of the State of Mississippi and qualify under the provisions of Section 37-23-31 * * * shall be provided a program of education, instruction and training within a school under the provisions of said section, the State Department of Education shall allocate * * * funds equivalent to the full base student cost and all qualifying weighted adjustments as prescribed in Section 37-151-209 * * *. The

university or college shall be eligible for state and federal funds for such programs on the same basis as local school districts. The university or college shall be responsible for providing for the additional costs of the program.

(* * *4) * * * A school district may provide a program of education and instruction to children ages five (5) years through twenty-one (21) years, who are resident citizens of the State of Mississippi, who cannot have their educational needs met in a regular public school program and who have not finished or graduated from high school, if those children are determined by competent medical authorities and psychologists to need placement in a state licensed facility for inpatient treatment, day treatment or residential treatment or a therapeutic group home. Such program shall operate under rules, regulations, policies and standards of school districts as determined by the State Board of Education. If a private school approved by the State Board of Education is operated as an integral part of the state licensed facility that provides for the treatment of such children, the private school within the facility may provide a program of education, instruction and training to such children by requesting the State Department of Education to allocate * * * funds equivalent to the full base student cost and all qualifying weighted adjustments as prescribed in Section 37-151-209 for each student placed in such facility for each approved class. The facility shall be responsible for providing any additional costs of the program.

* * *

SECTION 123. Section 37-13-153, Mississippi Code of 1972, which required state funding for home economics teachers to be included as a line item in the education appropriations bills for fiscal years 1995, 1996 and 1997, is repealed.

SECTION 124. Sections 37-151-1, 37-151-5, 37-151-6, 37-151-7, 37-151-7.1, 37-151-8, 37-151-10, 37-151-77, 37-151-79 and 37-151-83, Mississippi Code of 1972, which define certain terms and establish the formula to be used in determining the annual allocation of funds to each school district under the Mississippi Adequate Education Program (MAEP), are repealed.

SECTION 125. Section 37-152-1, Mississippi Code of 1972, which creates the Commission on Restructuring the Mississippi Adequate Education Program (MAEP), is repealed.

SECTION 126. This act shall take effect and be in force from and after July 1, 2024.

Provided, however, no holder of a lease of sixteenth section land classified as agricultural land shall have any priority rights in extending his lease contract, except as otherwise provided in Section 29-3-81. Provided, however, the compensation on an annual basis shall be the fair market rental of the land excluding buildings and improvements made on such land by the lessee, the title to which is not held in trust for the public schools, but in no event shall the compensation be less than the minimum amounts prescribed in subsection (2) of this section.

(2) The board of education shall not lease or extend a lease on land classified as industrial or commercial at an annual rental less than five percent (5%) of the current market value, exclusive of buildings or improvements not owned by the school district. Bonus payment for the replacement lease shall be consistent with the requirements set out in Section 29-3-65 with respect to oil, gas and mineral leases.

(5) The right to re-lease an oil, gas and mineral lease provided in subsection (3) above extends to oil, gas and mineral leases which have already expired as of May 7, 1992, subject to an accounting for production from the date of lease expiration to the date of the replacement lease authorized herein.

(6) The board of education of a school district located in a municipality where Interstate 59 and U.S. Highway 49 intersect in the Broadway - West Pine redevelopment area may grant the holder of a valid lease with a term of ninety-nine (99) years, which has completely satisfied the financial obligation of the original lease agreement, being free and clear of any debt pertaining thereto, and which has less than thirty (30) years remaining on its original term, the right to extend said lease for a period not to exceed twenty-five (25) years under any additional agreed upon terms, which shall serve as an addendum to the original lease agreement, and for consideration acceptable to the board and spread upon its minutes."

However, any individual eligible under this paragraph (21) who is also eligible under any other provision of this section shall receive the benefits to which he or she is entitled under that other provision, in addition to family planning services covered under Section 43-13-117(13).

The Division of Medicaid * * * may apply to the United States Secretary of Health and Human Services for a federal waiver of the applicable provisions of Title XIX of the federal Social Security Act, as amended, and any other applicable provisions of federal law as necessary to allow for the implementation of this paragraph (21). * * *

(22) Persons who are workers with a potentially severe disability, as determined by the division, shall be allowed to purchase Medicaid coverage. The term "worker with a potentially severe disability" means a person who is at least sixteen (16) years of age but under sixty-five (65) years of age, who has a physical or mental impairment that is reasonably expected to cause the person to become blind or disabled as defined under Section 1614(a) of the federal Social Security Act, as amended, if the person does not receive items and services provided under Medicaid.

The eligibility of persons under this paragraph (22) shall be conducted as a demonstration project that is consistent with Section 204 of the Ticket to Work and Work Incentives Improvement Act of 1999, Public Law 106-170, for a certain number of persons as specified by the division. The eligibility of individuals covered under this paragraph (22) shall be determined by the Division of Medicaid.

(23) Children certified by the Mississippi Department of Human Services for whom the state and county departments of human services have custody and financial responsibility who are in foster care on their eighteenth birthday as reported by the Mississippi Department of Human Services shall be certified Medicaid eligible by the Division of Medicaid until their * * * twenty-sixth birthday. Children who have aged out of foster care while on Medicaid in other states shall qualify until their twenty-sixth birthday.

(24) Individuals who have not attained age sixty-five (65), are not otherwise covered by creditable coverage as defined in the Public Health Services Act, and have been screened for breast and cervical cancer under the Centers for Disease Control and Prevention Breast and Cervical Cancer Early Detection Program established under Title XV of the Public Health Service Act in accordance with the requirements of that act and who need treatment for breast or cervical cancer. Eligibility of individuals under this paragraph (24) shall be determined by the Division of Medicaid.

(25) The division shall apply to the Centers for Medicare and Medicaid Services (CMS) for any necessary waivers to provide services to individuals who are sixty-five (65) years of age or older or are disabled as determined under Section 1614(a)(3) of the federal Social Security Act, as amended, and whose income does not exceed one hundred thirty-five percent (135%) of the nonfarm official poverty level as defined by the Office of Management and Budget and revised annually, and whose resources do not exceed those established by the Division of Medicaid, and who are not otherwise covered by Medicare. Nothing contained in this paragraph (26) shall entitle an individual to benefits. The eligibility of individuals covered under this paragraph shall be determined by the Division of Medicaid.

(27) Individuals who are entitled to Medicare Part D and whose income does not exceed one hundred fifty percent (150%) of the nonfarm official poverty level as defined by the Office of Management and Budget and revised annually. Eligibility for payment of the Medicare Part D subsidy under this paragraph shall be determined by the division.

(28) The division is authorized and directed to provide up to twelve (12) months of continuous coverage postpartum for any individual who qualifies for Medicaid coverage under this section as a pregnant woman, to the extent allowable under federal law and as determined by the division.

The division shall redetermine eligibility for all categories of recipients described in each paragraph of this section not less frequently than required by federal law.

SECTION 2. Section 43-13-117, Mississippi Code of 1972, as amended by House Bill Number 970, 2024 Regular Session, is amended as follows:

43-13-117. (A) Medicaid as authorized by this article shall include payment of part or all of the costs, at the discretion of the division, with approval of the Governor and the Centers for Medicare and Medicaid Services, of the following types of care and services rendered to eligible applicants who have been determined to be eligible for that care and services, within the limits of state appropriations and federal matching funds:

(1) Inpatient hospital services.

(a) The division is authorized to implement an All Patient Refined Diagnosis Related Groups (APR-DRG) reimbursement methodology for inpatient hospital services.

(b) No service benefits or reimbursement limitations in this subsection (A)(1) shall apply to payments under an APR-DRG or Ambulatory Payment Classification (APC) model or a managed care program or similar model described in subsection (H) of this section unless specifically authorized by the division.

(2) Outpatient hospital services.

(a) Emergency services.

(b) Other outpatient hospital services. The division shall allow benefits for other medically necessary outpatient hospital services (such as chemotherapy, radiation, surgery and therapy), including outpatient services in a clinic or other facility that is not located inside the hospital, but that has been designated as an outpatient facility by the hospital, and that was in operation or under construction on July 1, 2009, provided that the costs and charges associated with the operation of the hospital clinic are included in the hospital's cost report. In addition, the Medicare thirty-five-mile rule will apply to those hospital clinics not located inside the hospital that are constructed

after July 1, 2009. Where the same services are reimbursed as clinic services, the division may revise the rate or methodology of outpatient reimbursement to maintain consistency, efficiency, economy and quality of care.

(c) The division is authorized to implement an Ambulatory Payment Classification (APC) methodology for outpatient hospital services. The division shall give rural hospitals that have fifty (50) or fewer licensed beds the option to not be reimbursed for outpatient hospital services using the APC methodology, but reimbursement for outpatient hospital services provided by those hospitals shall be based on one hundred one percent (101%) of the rate established under Medicare for outpatient hospital services. Those hospitals choosing to not be reimbursed under the APC methodology shall remain under cost-based reimbursement for a two-year period.

(d) No service benefits or reimbursement limitations in this subsection (A)(2) shall apply to payments under an APR-DRG or APC model or a managed care program or similar model described in subsection (H) of this section unless specifically authorized by the division.

(3) Laboratory and x-ray services.

(4) Nursing facility services.

(a) The division shall make full payment to nursing facilities for each day, not exceeding forty-two (42) days per year, that a patient is absent from the facility on home leave. Payment may be made for the following home leave days in addition to the forty-two-day limitation: Christmas, the day before Christmas, the day after Christmas, Thanksgiving, the day before Thanksgiving and the day after Thanksgiving.

(b) From and after July 1, 1997, the division shall implement the integrated case-mix payment and quality monitoring system, which includes the fair rental system for property costs and in which recapture of depreciation is eliminated. The division may reduce the payment for hospital leave and therapeutic home leave days to the lower of the case-mix category as computed for the resident on leave using the assessment being utilized for payment at that point in time, or a case-mix score of 1.000 for nursing facilities, and shall compute case-mix scores of residents so that only services provided at the nursing facility are considered in calculating a facility's per diem.

(c) From and after July 1, 1997, all state-owned nursing facilities shall be reimbursed on a full reasonable cost basis.

(d) * * * The division shall update the case-mix payment system * * * and fair rental reimbursement system as necessary to maintain compliance with federal law. The division shall develop and implement a payment add-on to reimburse nursing facilities for ventilator-dependent resident services.

(e) The division shall develop and implement, not later than January 1, 2001, a case-mix payment add-on determined by time studies and other valid statistical data that will reimburse a nursing facility for the additional cost of caring for a resident who has a diagnosis of Alzheimer's or other related dementia and exhibits symptoms that require special care. Any such case-mix add-on payment shall be supported by a determination of additional cost. The division shall also develop and implement as part of the fair rental reimbursement system for nursing facility beds, an Alzheimer's resident bed depreciation enhanced reimbursement system that will provide an incentive to encourage nursing facilities to convert or construct beds for residents with Alzheimer's or other related dementia.

(f) The division shall develop and implement an assessment process for long-term care services. The division may provide the assessment and related functions directly or through contract with the area agencies on aging.

The division shall apply for necessary federal waivers to assure that additional services providing alternatives to nursing facility care are made available to applicants for nursing facility care.

(5) Periodic screening and diagnostic services for individuals under age twenty-one (21) years as are needed to identify physical and mental defects and to provide health care treatment and other measures designed to correct or ameliorate defects and physical and mental illness and conditions discovered by the screening services, regardless of whether these services are included in the state plan. The division may include in its periodic screening and diagnostic program those discretionary services authorized under the federal regulations adopted to implement Title XIX of the federal Social Security Act, as amended. The division, in obtaining physical therapy services, occupational therapy services, and services for individuals with speech, hearing and language disorders, may enter into a cooperative agreement with the State Department of Education for the provision of those services to handicapped students by public school districts using state funds that are provided from the appropriation to the Department of Education to obtain federal matching funds through the division. The division, in obtaining medical and mental health assessments, treatment, care and services for children who are in, or at risk of being put in, the custody of the Mississippi Department of Human Services may enter into a cooperative agreement with the Mississippi Department of Human Services for the provision of those services using state funds that are provided from the appropriation to the Department of Human Services to obtain federal matching funds through the division.

(6) Physician services. Fees for physician's services that are covered only by Medicaid shall be reimbursed at ninety percent (90%) of the rate established on January 1, 2018, and as may be adjusted each July thereafter, under Medicare. The division may provide for a reimbursement rate for physician's services of up to one hundred percent (100%) of the rate established under Medicare for physician's services that are provided after the normal working hours of the physician, as determined in accordance with regulations of the division. The division may reimburse eligible providers, as determined by the division, for certain primary care services at one hundred percent (100%) of the rate established under Medicare. The division shall reimburse obstetricians and gynecologists for certain primary care services as defined by the division at one hundred percent (100%) of the rate established under Medicare.

(7) (a) Home health services for eligible persons, not to exceed in cost the prevailing cost of nursing facility services. All home health visits must be precertified as required by the division. In addition to physicians, certified registered nurse practitioners, physician assistants and clinical nurse specialists are authorized to prescribe or order home health services and plans of care, sign home health plans of care, certify and recertify eligibility for home health services and conduct the required initial face-to-face visit with the recipient of the services.

(b) [Repealed]

(8) Emergency medical transportation services as determined by the division. The division shall reimburse ambulance service providers that provide an assessment, triage, treatment or transportation for eligible Medicaid beneficiaries to an alternative destination in this state or provide an assessment or treat eligible Medicaid beneficiaries in place. The reimbursement rate for an ambulance service provider that

provides an assessment, triage, treatment or transportation for an eligible Medicaid beneficiary to an alternative destination in this state shall be at a rate or methodology as determined by the division. The division shall consult with the Mississippi Ambulance Alliance in determining the initial rate or methodology, and the division shall give due consideration to the CMS Emergency Triage, Treat, and Transport (ET3) Model and shall give due consideration of the inclusion in the Transforming Reimbursement for Emergency Ambulance Transportation program. As used in this paragraph (8):

(a) "Alternative destination" means a lower-acuity facility that provides medical services, including (i) an urgent care center; (ii) a Federally Qualified Community Health Clinic; (iv) a behavioral or mental health care facility, including a crisis stabilization unit and a diversion center; and (v) any other facilities as determined by the division with due consideration of the CMS ET3 Model.

(c) "Ambulance service provider" means a person or entity that provides ambulance transportation and emergency medical services to a patient for which a permit is required under Section 41-59-9.

(9) Prescription drugs and other covered drugs and services as determined by the division.

The division shall establish a mandatory preferred drug list. Drugs not on the mandatory preferred drug list shall be made available by utilizing prior authorization procedures established by the division.

The division may seek to establish relationships with other states in order to lower acquisition costs of prescription drugs to include single-source and innovator multiple-source drugs or generic drugs. In addition, if allowed by federal law or regulation, the division may seek to establish relationships with and negotiate with other countries to facilitate the acquisition of prescription drugs to include single-source and innovator multiple-source drugs or generic drugs, if that will lower the acquisition costs of those prescription drugs.

The division may allow for a combination of prescriptions for single-source and innovator multiple-source drugs and generic drugs to meet the needs of the beneficiaries.

The executive director may approve specific maintenance drugs for beneficiaries with certain medical conditions, which may be prescribed and dispensed in three-month supply increments.

Drugs prescribed for a resident of a psychiatric residential treatment facility must be provided in true unit doses when available. The division may require that drugs not covered by Medicare Part D for a resident of a long-term care facility be provided in true unit doses when available. Those drugs that were originally billed to the division but are not used by a resident in any of those facilities shall be returned to the billing pharmacy for credit to the division, in accordance with the guidelines of the State Board of Pharmacy and any requirements of federal law and regulation. Drugs shall be dispensed to a recipient and only one (1) dispensing fee per month may be charged. The division shall develop a methodology for reimbursing for restocked drugs, which shall include a restock fee as determined by the division not exceeding Seven Dollars and Eighty-two Cents ($7.82).

Except for those specific maintenance drugs approved by the executive director, the division shall not reimburse for any portion of a prescription that exceeds a thirty-one-day supply of the drug based on the daily dosage.

The division is authorized to develop and implement a program of payment for additional pharmacist services as determined by the division.

All claims for drugs for dually eligible Medicare/Medicaid beneficiaries that are paid for by Medicare must be submitted to Medicare for payment before they may be processed by the division's online payment system.

The division shall develop a pharmacy policy in which drugs in tamper-resistant packaging that are prescribed for a resident of a nursing facility but are not dispensed to the resident shall be returned to the pharmacy and not billed to Medicaid, in accordance with guidelines of the State Board of Pharmacy.

The division shall develop and implement a method or methods by which the division will provide on a regular basis to Medicaid providers who are authorized to prescribe drugs, information about the costs to the Medicaid program of single-source drugs and innovator multiple-source drugs, and information about other drugs that may be prescribed as alternatives to those single-source drugs and innovator multiple-source drugs and the costs to the Medicaid program of those alternative drugs.

Notwithstanding any law or regulation, information obtained or maintained by the division regarding the prescription drug program, including trade secrets and manufacturer or labeler pricing, is confidential and not subject to disclosure except to other state agencies.

The dispensing fee for each new or refill prescription, including nonlegend or over-the-counter drugs covered by the division, shall be not less than Three Dollars and Ninety-one Cents ($3.91), as determined by the division.

The division shall not reimburse for single-source or innovator multiple-source drugs if there are equally effective generic equivalents available and if the generic equivalents are the least expensive.

It is the intent of the Legislature that the pharmacists providers be reimbursed for the reasonable costs of filling and dispensing prescriptions for Medicaid beneficiaries.

The division shall allow certain drugs, including physician-administered drugs, and implantable drug system devices, and medical supplies, with limited distribution or limited access for beneficiaries and administered in an appropriate clinical setting, to be reimbursed as either a medical claim or pharmacy claim, as determined by the division.

(10) Dental and orthodontic services to be determined by the division.

The division shall increase the amount of the reimbursement rate for diagnostic and preventative dental services for each of the fiscal years 2022, 2023 and 2024 by five percent (5%) above the amount of the reimbursement rate for the previous fiscal year. The division shall increase the amount of the reimbursement rate for restorative dental services for each of the fiscal years 2023, 2024 and 2025 by five percent (5%) above the amount of the reimbursement rate for the previous fiscal year. It is the intent of the

Legislature that the reimbursement rate revision for preventative dental services will be an incentive to increase the number of dentists who actively provide Medicaid services. This dental services reimbursement rate revision shall be known as the "James Russell Dumas Medicaid Dental Services Incentive Program."

The Medical Care Advisory Committee, assisted by the Division of Medicaid, shall annually determine the effect of this incentive by evaluating the number of dentists who are Medicaid providers, the number who and the degree to which they are actively billing Medicaid, the geographic trends of where dentists are offering what types of Medicaid services and other statistics pertinent to the goals of this legislative intent. This data shall annually be presented to the Chair of the Senate Medicaid Committee and the Chair of the House Medicaid Committee.

The division shall include dental services as a necessary component of overall health services provided to children who are eligible for services.

(11) Eyeglasses for all Medicaid beneficiaries who have (a) had surgery on the eyeball or ocular muscle that results in a vision change for which eyeglasses or a change in eyeglasses is medically indicated within six (6) months of the surgery and is in accordance with policies established by the division, or (b) one (1) pair every five (5) years and in accordance with policies established by the division. In either instance, the eyeglasses must be prescribed by a physician skilled in diseases of the eye or an optometrist, whichever the beneficiary may select.

(12) Intermediate care facility services.

(a) The division shall make full payment to all intermediate care facilities for individuals with intellectual disabilities for each day, not exceeding sixty-three (63) days per year, that a patient is absent from the facility on home leave. (a) Services provided by ambulatory surgical centers (ACSs) as defined in Section 41-75-1(a); and

(b) Dialysis center services.

(15) Home- and community-based services for the elderly and disabled, as provided under Title XIX of the federal Social Security Act, as amended, under waivers, subject to the availability of funds specifically appropriated for that purpose by the Legislature.

(16) Mental health services. Certain services provided by a psychiatrist shall be reimbursed at up to one hundred percent (100%) of the Medicare rate. Approved therapeutic and case management services (a) provided by an approved regional mental health/intellectual disability center established under Sections 41-19-31 through 41-19-39, or by another community mental health service provider meeting the requirements of the Department of Mental Health to be an approved mental health/intellectual disability center if determined necessary by the Department of Mental Health, using state funds that are provided in the appropriation to the division to match federal funds, or (b) provided by a facility that is certified by the State Department of Mental Health to provide therapeutic and case management services, to be reimbursed on a fee for service basis, or (c) provided in the community by a facility or program operated by the Department of Mental Health. Any such services provided by a facility described in subparagraph (b) must have the prior approval of the division to be reimbursable under this section.

(17) Durable medical equipment services and medical supplies. Precertification of durable medical equipment and medical supplies must be obtained as required by the division. The Division of Medicaid may require durable medical equipment providers to obtain a surety bond in the amount and to the specifications as established by the Balanced Budget Act of 1997. A maximum dollar amount of reimbursement for noninvasive ventilators or ventilation treatments properly ordered and being used in an appropriate care setting shall not be set by any health maintenance organization, coordinated care organization, provider-sponsored health plan, or other organization paid for services on a capitated basis by the division under any managed care program or coordinated care program implemented by the division under this section. Reimbursement by these organizations to durable medical equipment suppliers for home use of noninvasive and invasive ventilators shall be on a continuous monthly payment basis for the duration of medical need throughout a patient's valid prescription period.

(18) (a) Notwithstanding any other provision of this section to the contrary, as provided in the Medicaid state plan amendment or amendments as defined in Section 43-13-145(10), the division shall make additional reimbursement to hospitals that serve a disproportionate share of low-income patients and that meet the federal requirements for those payments as provided in Section 1923 of the federal Social Security Act and any applicable regulations. It is the intent of the Legislature that the division shall draw down all available federal funds allotted to the state for disproportionate share hospitals. However, from and after January 1, 1999, public hospitals participating in the Medicaid disproportionate share program may be required to participate in an intergovernmental transfer program as provided in Section 1903 of the federal Social Security Act and any applicable regulations.

(b) (i) 1. The division may establish a Medicare Upper Payment Limits Program, as defined in Section 1902(a)(30) of the federal Social Security Act and any applicable federal regulations, or an allowable delivery system or provider payment initiative authorized under 42 CFR 438.6(c), for hospitals, nursing facilities * * * and, physicians and other eligible licensed providers as determined by the division who are employed or contracted by hospitals.

2. The division shall establish a Medicaid Supplemental Payment Program, as permitted by the federal Social Security Act and a comparable allowable delivery system or provider payment initiative authorized under 42 CFR

438.6(c), for emergency ambulance transportation providers in accordance with this subsection (A)(18)(b).

(ii) The division shall assess each hospital, nursing facility, and emergency ambulance transportation provider for the sole purpose of financing the state portion of the Medicare Upper Payment Limits Program or other program(s) authorized under this subsection (A)(18)(b). The hospital assessment shall be as provided in Section 43-13-145(4)(a), and the nursing facility and the emergency ambulance transportation assessments, if established, shall be based on Medicaid utilization or other appropriate method, as determined by the division, consistent with federal regulations. The assessments will remain in effect as long as the state participates in the Medicare Upper Payment Limits Program or other program(s) authorized under this subsection (A)(18)(b). In addition to the hospital assessment provided in Section 43-13-145(4)(a), hospitals with physicians and other eligible licensed providers as determined by the division participating in the Medicare Upper Payment Limits Program or other program(s) authorized under this subsection (A)(18)(b) shall be required to participate in an intergovernmental transfer or assessment, as determined by the division, for the purpose of financing the state portion of the physician UPL payments or other payment(s) authorized under this subsection (A)(18)(b).

(iii) Subject to approval by the Centers for Medicare and Medicaid Services (CMS) and the provisions of this subsection (A)(18)(b), the division shall make additional reimbursement to hospitals, nursing facilities, and emergency ambulance transportation providers for the Medicare Upper Payment Limits Program or other program(s) authorized under this subsection (A)(18)(b), and, if the program is established for physicians and other eligible licensed providers as determined by the division, shall make additional reimbursement for physicians and other eligible licensed providers as determined by the division, as defined in Section 1902(a)(30) of the federal Social Security Act and any applicable federal regulations, provided the assessment in this subsection (A)(18)(b) is in effect.

(iv) * * * The division is authorized to develop and implement an alternative fee-for-service Upper Payment Limits model in accordance with federal laws and regulations if necessary to preserve supplemental funding. * * *

(v) 1. To preserve and improve access to ambulance transportation provider services, the division shall seek CMS approval to make ambulance service access payments as set forth in this subsection (A)(18)(b) for all covered emergency ambulance services rendered on or after July 1, 2022, and shall make such ambulance service access payments for all covered services rendered on or after the effective date of CMS approval.

2. The division shall calculate the ambulance service access payment amount as the balance of the portion of the Medical Care Fund related to ambulance transportation service provider assessments plus any federal matching funds earned on the balance, up to, but not to exceed, the upper payment limit gap for all emergency ambulance service providers.

3. a. Except for ambulance services exempt from the assessment provided in this paragraph (18)(b), all ambulance transportation service providers shall be eligible for ambulance service access payments each state fiscal year as set forth in this paragraph (18)(b).

b. In addition to any other funds paid to ambulance transportation service providers for emergency medical services provided to Medicaid beneficiaries, each eligible ambulance transportation service provider shall

receive ambulance service access payments each state fiscal year equal to the ambulance transportation service provider's upper payment limit gap. Subject to approval by the Centers for Medicare and Medicaid Services, ambulance service access payments shall be made no less than on a quarterly basis.

c. As used in this paragraph (18)(b)(v), the term "upper payment limit gap" means the difference between the total amount that the ambulance transportation service provider received from Medicaid and the average amount that the ambulance transportation service provider would have received from commercial insurers for those services reimbursed by Medicaid.

4. An ambulance service access payment shall not be used to offset any other payment by the division for emergency or nonemergency services to Medicaid beneficiaries.

(c) (i) * * * The division shall, subject to approval by the Centers for Medicare and Medicaid Services (CMS), establish, implement and operate a Mississippi Hospital Access Program (MHAP) for the purpose of protecting patient access to hospital care through hospital inpatient reimbursement programs provided in this section designed to maintain total hospital reimbursement for inpatient services rendered by in-state hospitals and the out-of-state hospital that is authorized by federal law to submit intergovernmental transfers (IGTs) to the State of Mississippi and is classified as Level I trauma center located in a county contiguous to the state line at the maximum levels permissible under applicable federal statutes and regulations * * *.

(ii) Subject to approval by the Centers for Medicare and Medicaid Services (CMS), the MHAP shall provide increased inpatient capitation (PMPM) payments to managed care entities contracting with the division pursuant to subsection (H) of this section to support availability of hospital services or such other payments permissible under federal law necessary to accomplish the intent of this subsection.

* * *

(iv) The division shall assess each hospital as provided in Section 43-13-145(4)(a) for the purpose of financing the state portion of the MHAP, supplemental payments and such other purposes as specified in Section 43-13-145. The assessment will remain in effect as long as the MHAP and supplemental payments are in effect.

(v) Supplemental payments to a hospital shall not decrease by more than five percent (5%) when compared to a hospital's prior year payment and the division shall not substantially change the methodologies used to calculate a hospital's supplemental payment. Nothing in this subparagraph (v) shall be construed to prohibit an increase in total funding available for hospital supplemental payment programs.

(19) (a) Perinatal risk management services. The division shall promulgate regulations to be effective from and after October 1, 1988, to establish a comprehensive perinatal system for risk assessment of all pregnant and infant Medicaid recipients and for management, education and follow-up for those who are determined to be at risk. Services to be performed include case management, nutrition assessment/counseling, psychosocial assessment/counseling and health education. The division shall contract with the State Department of Health to provide services within this paragraph (Perinatal High Risk Management/Infant Services System (PHRM/ISS)) for any eligible beneficiary that cannot receive these services under a different program. The State Department of Health shall be reimbursed on a full reasonable cost basis for services provided under

this subparagraph (a). Any program authorized under subsection (H) of this section shall develop a perinatal risk management services program in consultation with the division and the State Department of Health or shall contract with the State Department of Health for these services, and the programs shall begin providing these services no later than January 1, 2025.

(b) Early intervention system services. The division shall cooperate with the State Department of Health, acting as lead agency, in the development and implementation of a statewide system of delivery of early intervention services, under Part C of the Individuals with Disabilities Education Act (IDEA). The State Department of Health shall certify annually in writing to the executive director of the division the dollar amount of state early intervention funds available that will be utilized as a certified match for Medicaid matching funds. Those funds then shall be used to provide expanded targeted case management services for Medicaid eligible children with special needs who are eligible for the state's early intervention system. Qualifications for persons providing service coordination shall be determined by the State Department of Health and the Division of Medicaid.

(20) Home- and community-based services for physically disabled approved services as allowed by a waiver from the United States Department of Health and Human Services for home- and community-based services for physically disabled people using state funds that are provided from the appropriation to the State Department of Rehabilitation Services and used to match federal funds under a cooperative agreement between the division and the department, provided that funds for these services are specifically appropriated to the Department of Rehabilitation Services.

(21) Nurse practitioner services. Services furnished by a registered nurse who is licensed and certified by the Mississippi Board of Nursing as a nurse practitioner, including, but not limited to, nurse anesthetists, nurse midwives, family nurse practitioners, family planning nurse practitioners, pediatric nurse practitioners, obstetrics-gynecology nurse practitioners and neonatal nurse practitioners, under regulations adopted by the division. Reimbursement for those services shall not exceed ninety percent (90%) of the reimbursement rate for comparable services rendered by a physician. The division may provide for a reimbursement rate for nurse practitioner services of up to one hundred percent (100%) of the reimbursement rate for comparable services rendered by a physician for nurse practitioner services that are provided after the normal working hours of the nurse practitioner, as determined in accordance with regulations of the division.

(22) Ambulatory services delivered in federally qualified health centers, rural health centers and clinics of the local health departments of the State Department of Health for individuals eligible for Medicaid under this article based on reasonable costs as determined by the division. Federally qualified health centers shall be reimbursed by the Medicaid prospective payment system as approved by the Centers for Medicare and Medicaid Services. The division shall recognize federally qualified health centers (FQHCs), rural health clinics (RHCs) and community mental health centers (CMHCs) as both an originating and distant site provider for the purposes of telehealth reimbursement. The division is further authorized and directed to reimburse FQHCs, RHCs and CMHCs for both distant site and originating site services when such services are appropriately provided by the same organization.

(23) Inpatient psychiatric services.

(a) Inpatient psychiatric services to be determined by the division for recipients under age twenty-one (21) that are provided under the direction of a physician in an inpatient program in a licensed acute care psychiatric facility or in a licensed psychiatric residential treatment facility, before the recipient reaches age twenty-one (21)

or, if the recipient was receiving the services immediately before he or she reached age twenty-one (21), before the earlier of the date he or she no longer requires the services or the date he or she reaches age twenty-two (22), as provided by federal regulations. From and after January 1, 2015, the division shall update the fair rental reimbursement system for psychiatric residential treatment facilities. Precertification of inpatient days and residential treatment days must be obtained as required by the division. From and after July 1, 2009, all state-owned and state-operated facilities that provide inpatient psychiatric services to persons under age twenty-one (21) who are eligible for Medicaid reimbursement shall be reimbursed for those services on a full reasonable cost basis.

(b) The division may reimburse for services provided by a licensed freestanding psychiatric hospital to Medicaid recipients over the age of twenty-one (21) in a method and manner consistent with the provisions of Section 43-13-117.5.

(b) After the committee meeting, the committee or committees may object to the proposed rate change or any part thereof. The committee or committees shall notify the division and the reasons for their objection in writing not later than seven (7) calendar days after the meeting. The committee or committees may make written recommendations to the division for changes to be made to a proposed rate change.

(5) If both chairmen notify the division in writing within seven (7) calendar days after receipt of the notice from the division that they do not object to the proposed rate change and will not be holding a meeting to review the proposed rate change, the proposed rate change will take effect on the original date as scheduled by the division or on such other date as specified by the division.

(6) (a) If there are any objections to a proposed rate change or any part thereof from either or both of the chairmen or the committees, the division may withdraw the proposed rate change, make any of the recommended changes to the proposed rate change, or not make any changes to the proposed rate change.

(c) If the division makes any changes to the proposed rate change, the division shall notify the chairmen of its actions in writing, and the revised proposed rate change shall take effect on the date as specified by the division.

(7) Nothing in this subsection (D) shall be construed as giving the chairmen or the committees any authority to veto, nullify or revise any rate change proposed by the division. The authority of the chairmen or the committees under this subsection shall be limited to reviewing, making objections to and making recommendations for changes to rate changes proposed by the division.

(E) Notwithstanding any provision of this article, no new groups or categories of recipients and new types of care and services may be added without enabling legislation from the Mississippi Legislature, except that the division may authorize those changes without enabling legislation when the addition of recipients or services is ordered by a court of proper authority.

(F) The executive director shall keep the Governor advised on a timely basis of the funds available for expenditure and the projected expenditures. Notwithstanding any other provisions of this article, if current or projected expenditures of the division are reasonably anticipated to exceed the amount of funds appropriated to the division for any fiscal year, the Governor, after consultation with the executive director, shall take all appropriate measures to reduce costs, which may include, but are not limited to:

(1) Reducing or discontinuing any or all services that are deemed to be optional under Title XIX of the Social Security Act;

(2) Reducing reimbursement rates for any or all service types;

(3) Imposing additional assessments on health care providers; or

Beginning in fiscal year 2010 and in fiscal years thereafter, when Medicaid expenditures are projected to exceed funds available for the fiscal year, the division shall submit the expected shortfall information to the PEER Committee not later than December 1 of the year in which the shortfall is projected to occur. (a) Pay providers at a rate that is less than the Medicaid All Patient Refined Diagnosis Related Groups (APR-DRG) reimbursement rate;

(b) Override the medical decisions of hospital physicians or staff regarding patients admitted to a hospital for an emergency medical condition as defined by 42 US Code Section 1395dd. This restriction (b) does not prohibit the retrospective review of the appropriateness of the determination that an emergency medical condition exists by chart review or coding algorithm, nor does it prohibit prior authorization for nonemergency hospital admissions;

(c) Pay providers at a rate that is less than the normal Medicaid reimbursement rate. It is the intent of the Legislature that all managed care entities described in this subsection (H), in collaboration with the division, develop and implement innovative payment models that incentivize improvements in health care quality, outcomes, or value, as determined by the division. Participation in the provider network of any managed care, coordinated care, provider-sponsored health plan, or similar contractor shall not be conditioned on the provider's agreement to accept such alternative payment models;

(d) Implement a prior authorization and utilization review program for medical services, transportation services and prescription drugs that is more stringent than the prior authorization processes used by the division in its administration of the Medicaid program. Not later than December 2, 2021, the contractors that are receiving capitated payments under a managed care delivery system established under this subsection (H) shall submit a report to the Chairmen of the House and Senate Medicaid Committees on the status of the prior authorization and utilization review program for medical services, transportation services and prescription drugs that is required to be implemented under this subparagraph (d);

Organizations participating in a managed care program or coordinated care program implemented by the division may not use any additional criteria that would result in denial of care that would be determined appropriate and, therefore, medically necessary under those levels of care guidelines.

(2) Notwithstanding any provision of this section, the recipients eligible for enrollment into a Medicaid Managed Care Program authorized under this subsection (H) may include only those categories of recipients eligible for participation in the Medicaid Managed Care Program as of January 1, 2021, the Children's Health Insurance Program (CHIP), and the CMS-approved Section 1115 demonstration waivers in operation as of January 1, 2021. (xi) The most common claim denial codes to determine the reasons for the denials.

The audit reports shall be considered public documents and shall be posted in their entirety on the division's website.

(4) All health maintenance organizations, coordinated care organizations, provider-sponsored health plans, or other organizations paid for services on a capitated basis by the division under any managed care program or coordinated care program implemented by the division under this section shall reimburse all providers in those organizations at rates no lower than those provided under this section for beneficiaries who are not participating in those programs.

(5) No health maintenance organization, coordinated care organization, provider-sponsored health plan, or other organization paid for services on a capitated basis by the division under any managed care program or coordinated care program implemented by the division under this section shall require its providers or beneficiaries to use any pharmacy that ships, mails or delivers prescription drugs or legend drugs or devices.

Under that uniform credentialing process, a provider who meets the criteria for credentialing will be credentialed with all of those contractors and no such provider will have to be separately credentialed by any individual contractor in order to receive reimbursement from the contractor. Not later than December 2, 2021, those contractors shall submit a report to the Chairmen of the House and Senate Medicaid Committees on the status of the uniform credentialing process for providers that is required under this subparagraph (a).

(b) If those contractors have not implemented a uniform credentialing process as described in subparagraph (a) by December 1, 2021, the division shall develop and implement, not later than July 1, 2022, a single, consolidated credentialing process by which all providers will be credentialed. Under the division's single, consolidated credentialing process, no such contractor shall require its providers to be separately credentialed by the contractor in order to receive reimbursement from the contractor, but those contractors shall recognize the credentialing of the providers by the division's credentialing process.

(c) The division shall require a uniform provider credentialing application that shall be used in the credentialing process that is established under subparagraph (a) or (b). If the contractor or division, as applicable, has not approved or

denied the provider credentialing application within sixty (60) days of receipt of the completed application that includes all required information necessary for credentialing, then the contractor or division, upon receipt of a written request from the applicant and within five (5) business days of its receipt, shall issue a temporary provider credential/enrollment to the applicant if the applicant has a valid Mississippi professional or occupational license to provide the health care services to which the credential/enrollment would apply. The contractor or the division shall not issue a temporary credential/enrollment if the applicant has reported on the application a history of medical or other professional or occupational malpractice claims, a history of substance abuse or mental health issues, a criminal record, or a history of medical or other licensing board, state or federal disciplinary action, including any suspension from participation in a federal or state program. The temporary credential/enrollment shall be effective upon issuance and shall remain in effect until the provider's credentialing/enrollment application is approved or denied by the contractor or division. The contractor or division shall render a final decision regarding credentialing/enrollment of the provider within sixty (60) days from the date that the temporary provider credential/enrollment is issued to the applicant.

(d) If the contractor or division does not render a final decision regarding credentialing/enrollment of the provider within the time required in subparagraph (c), the provider shall be deemed to be credentialed by and enrolled with all of the contractors and eligible to receive reimbursement from the contractors.

(7) (a) Each contractor that is receiving capitated payments under a managed care delivery system established under this subsection (H) shall provide to each provider for whom the contractor has denied the coverage of a procedure that was ordered or requested by the provider for or on behalf of a patient, a letter that provides a detailed explanation of the reasons for the denial of coverage of the procedure and the name and the credentials of the person who denied the coverage. The letter shall be sent to the provider in electronic format.

(b) After a contractor that is receiving capitated payments under a managed care delivery system established under this subsection (H) has denied coverage for a claim submitted by a provider, the contractor shall issue to the provider within sixty (60) days a final ruling of denial of the claim that allows the provider to have a state fair hearing and/or agency appeal with the division. If a contractor does not issue a final ruling of denial within sixty (60) days as required by this subparagraph (b), the provider's claim shall be deemed to be automatically approved and the contractor shall pay the amount of the claim to the provider.

(c) After a contractor has issued a final ruling of denial of a claim submitted by a provider, the division shall conduct a state fair hearing and/or agency appeal on the matter of the disputed claim between the contractor and the provider within sixty (60) days, and shall render a decision on the matter within thirty (30) days after the date of the hearing and/or appeal.

(i) The United States Veterans Administration or other agency or department of the United States government;

(ii) The University of Mississippi Medical Center; or

(iii) A state agency or a state facility that either provides its own state match through intergovernmental transfer or certification of funds to the division.

(4) Hospital assessment.

(a) (i) Subject to and upon fulfillment of the requirements and conditions of paragraph (f) below, and notwithstanding any other provisions of this section, an annual assessment on each hospital licensed in the state is imposed on each non-Medicare hospital inpatient day as defined below at a rate that is determined by dividing the sum prescribed in this subparagraph (i), plus the nonfederal share necessary to maximize the Disproportionate Share Hospital (DSH) and Medicare Upper Payment Limits (UPL) Program payments and hospital access payments and such other supplemental payments as may be developed pursuant to Section 43-13-117(A)(18), by the total number of non-Medicare hospital inpatient days as defined below for all licensed Mississippi hospitals, except as provided in paragraph (d) below. If the state-matching funds percentage for the Mississippi Medicaid program is sixteen percent (16%) or less, the sum used in the formula under this subparagraph (i) shall be Seventy-four Million Dollars ($74,000,000.00). If the state-matching funds percentage for the Mississippi Medicaid program is twenty-four percent (24%) or higher, the sum used in the formula under this subparagraph (i) shall be One Hundred Four Million Dollars ($104,000,000.00). If the state-matching funds percentage for the Mississippi Medicaid program is between sixteen percent (16%) and twenty-four percent (24%), the sum used in the formula under this subparagraph (i) shall be a pro rata amount determined as follows: the current state-matching funds percentage rate minus sixteen percent (16%) divided by eight percent (8%) multiplied by Thirty Million Dollars ($30,000,000.00) and add that amount to Seventy-four Million Dollars ($74,000,000.00). However, no assessment in a quarter under this subparagraph (i) may exceed the assessment in the previous quarter by more than Three Million Seven Hundred Fifty Thousand Dollars ($3,750,000.00) (which would be Fifteen Million Dollars ($15,000,000.00) on an annualized basis), unless such increase is to maximize federal funds that are available to reimburse hospitals for services provided under new programs for hospitals, increased supplemental payment programs for hospitals or to assist with state matching funds as authorized by the Legislature. The division shall

publish the state-matching funds percentage rate applicable to the Mississippi Medicaid program on the tenth day of the first month of each quarter and the assessment determined under the formula prescribed above shall be applicable in the quarter following any adjustment in that state-matching funds percentage rate. The division shall notify each hospital licensed in the state as to any projected increases or decreases in the assessment determined under this subparagraph (i). However, if the Centers for Medicare and Medicaid Services (CMS) does not approve the provision in Section 43-13-117(39) requiring the division to reimburse crossover claims for inpatient hospital services and crossover claims covered under Medicare Part B for dually eligible beneficiaries in the same manner that was in effect on January 1, 2008, the sum that otherwise would have been used in the formula under this subparagraph (i) shall be reduced by Seven Million Dollars ($7,000,000.00).

(ii) In addition to the assessment provided under subparagraph (i), an additional annual assessment on each hospital licensed in the state is imposed on each non-Medicare hospital inpatient day as defined below at a rate that is determined by dividing twenty-five percent (25%) of any provider reductions in the Medicaid program as authorized in Section 43-13-117(F) for that fiscal year up to the following maximum amount, plus the nonfederal share necessary to maximize the Disproportionate Share Hospital (DSH) and inpatient Medicare Upper Payment Limits (UPL) Program payments and inpatient hospital access payments, by the total number of non-Medicare hospital inpatient days as defined below for all licensed Mississippi hospitals: in fiscal year 2010, the maximum amount shall be Twenty-four Million Dollars ($24,000,000.00); in fiscal year 2011, the maximum amount shall be Thirty-two Million Dollars ($32,000,000.00); and in fiscal year 2012 and thereafter, the maximum amount shall be Forty Million Dollars ($40,000,000.00). Any such deficit in the Medicaid program shall be reviewed by the PEER Committee as provided in Section 43-13-117(F).

(iii) In addition to the assessments provided in subparagraphs (i) and (ii), an additional annual assessment on each hospital licensed in the state is imposed pursuant to the provisions of Section 43-13-117(F) if the cost-containment measures described therein have been implemented and there are insufficient funds in the Health Care Trust Fund to reconcile any remaining deficit in any fiscal year. If the Governor institutes any other additional cost-containment measures on any program or programs authorized under the Medicaid program pursuant to Section 43-13-117(F), hospitals shall be responsible for twenty-five percent (25%) of any such additional imposed provider cuts, which shall be in the form of an additional assessment not to exceed the twenty-five percent (25%) of provider expenditure reductions. Such additional assessment shall be imposed on each non-Medicare hospital inpatient day in the same manner as assessments are imposed under subparagraphs (i) and (ii).

(b) Definitions.

(i) [Deleted]

(ii) For purposes of this subsection (4):

1. "Non-Medicare hospital inpatient day" means total hospital inpatient days including subcomponent days less Medicare inpatient days including subcomponent days from the hospital's most recent Medicare cost report for the second calendar year preceding the beginning of the state fiscal year, on file with CMS per the CMS HCRIS database, or cost report submitted to the Division if the HCRIS database is not available to the division, as of June 1 of each year.

a. Total hospital inpatient days shall be the sum of Worksheet S-3, Part 1, column 8 row 14, column 8 row 16, and column 8 row 17, excluding column 8 rows 5 and 6.

b. Hospital Medicare inpatient days shall be the sum of Worksheet S-3, Part 1, column 6 row 14, column 6 row 16.00, and column 6 row 17, excluding column 6 rows 5 and 6.

c. Inpatient days shall not include residential treatment or long-term care days.

2. "Subcomponent inpatient day" means the number of days of care charged to a beneficiary for inpatient hospital rehabilitation and psychiatric care services in units of full days. A day begins at midnight and ends twenty-four (24) hours later. A part of a day, including the day of admission and day on which a patient returns

from leave of absence, counts as a full day. However, the day of discharge, death, or a day on which a patient begins a leave of absence is not counted as a day unless discharge or death occur on the day of admission. If admission and discharge or death occur on the same day, the day is considered a day of admission and counts as one (1) subcomponent inpatient day.

(c) The assessment provided in this subsection is intended to satisfy and not be in addition to the assessment and intergovernmental transfers provided in Section 43-13-117(A)(18). Nothing in this section shall be construed to authorize any state agency, division or department, or county, municipality or other local governmental unit to license for revenue, levy or impose any other tax, fee or assessment upon hospitals in this state not authorized by a specific statute.

(d) Hospitals operated by the United States Department of Veterans Affairs and state-operated facilities that provide only inpatient and outpatient psychiatric services shall not be subject to the hospital assessment provided in this subsection.

(e) Multihospital systems, closure, merger, change of ownership and new hospitals.

(i) If a hospital conducts, operates or maintains more than one (1) hospital licensed by the State Department of Health, the provider shall pay the hospital assessment for each hospital separately.

(ii) Notwithstanding any other provision in this section, if a hospital subject to this assessment operates or conducts business only for a portion of a fiscal year, the assessment for the state fiscal year shall be adjusted by multiplying the assessment by a fraction, the numerator of which is the number of days in the year during which the hospital operates, and the denominator of which is three hundred sixty-five (365). Immediately upon ceasing to operate, the hospital shall pay the assessment for the year as so adjusted (to the extent not previously paid).

(iii) The division shall determine the tax for new hospitals and hospitals that undergo a change of ownership in accordance with this section, using the best available information, as determined by the division.

(f) Applicability.

The hospital assessment imposed by this subsection shall not take effect and/or shall cease to be imposed if:

(i) The assessment is determined to be an impermissible tax under Title XIX of the Social Security Act; or

(ii) CMS revokes its approval of the division's 2009 Medicaid State Plan Amendment for the methodology for DSH payments to hospitals under Section 43-13-117(A)(18).

(5) Each health care facility that is subject to the provisions of this section shall keep and preserve such suitable books and records as may be necessary to determine the amount of assessment for which it is liable under this section. The books and records shall be kept and preserved for a period of not less than five (5) years, during which time those books and records shall be open for examination during business hours by the division, the Department of Revenue, the Office of the Attorney General and the State Department of Health.

(6) [Deleted]

(7) All assessments collected under this section shall be deposited in the Medical Care Fund created by Section 43-13-143.

(8) The assessment levied under this section shall be in addition to any other assessments, taxes or fees levied by law, and the assessment shall constitute a debt due the State of Mississippi from the time the assessment is due until it is paid.

(9) (a) If a health care facility that is liable for payment of an assessment levied by the division does not pay the assessment when it is due, the division shall give written notice to the health care facility demanding payment of the assessment within ten (10) days from the date of delivery of the notice. If the health care facility fails or refuses to pay the assessment after receiving the notice and demand from the division, the division shall withhold from any Medicaid reimbursement payments that are due to the health care facility the amount of the unpaid assessment and a penalty of ten percent (10%) of the amount of the assessment, plus the legal rate of interest until the assessment is paid in full. If the health care facility does not participate in the Medicaid

program, the division shall turn over to the Office of the Attorney General the collection of the unpaid assessment by civil action. In any such civil action, the Office of the Attorney General shall collect the amount of the unpaid assessment and a penalty of ten percent (10%) of the amount of the assessment, plus the legal rate of interest until the assessment is paid in full.

(b) As an additional or alternative method for collecting unpaid assessments levied by the division, if a health care facility fails or refuses to pay the assessment after receiving notice and demand from the division, the division may file a notice of a tax lien with the chancery clerk of the county in which the health care facility is located, for the amount of the unpaid assessment and a penalty of ten percent (10%) of the amount of the assessment, plus the legal rate of interest until the assessment is paid in full. Immediately upon receipt of notice of the tax lien for the assessment, the chancery clerk shall forward the notice to the circuit clerk who shall enter the notice of the tax lien as a judgment upon the judgment roll and show in the appropriate columns the name of the health care facility as judgment debtor, the name of the division as judgment creditor, the amount of the unpaid assessment, and the date and time of enrollment. The judgment shall be valid as against mortgagees, pledgees, entrusters, purchasers, judgment creditors and other persons from the time of filing with the clerk. The amount of the judgment shall be a debt due the State of Mississippi and remain a lien upon the tangible property of the health care facility until the judgment is satisfied. The judgment shall be the equivalent of any enrolled judgment of a court of record and shall serve as authority for the issuance of writs of execution, writs of attachment or other remedial writs.

(10) (a) To further the provisions of Section 43-13-117(A)(18), the Division of Medicaid shall submit to the Centers for Medicare and Medicaid Services (CMS) any documents regarding the hospital assessment established under subsection (4) of this section. In addition to defining the assessment established in subsection (4) of this section if necessary, the documents shall describe any supplement payment programs and/or payment methodologies as authorized in Section 43-13-117(A)(18) if necessary.

(b) All hospitals satisfying the minimum federal DSH eligibility requirements (Section 1923(d) of the Social Security Act) may, subject to OBRA 1993 payment limitations, receive a DSH payment. This DSH payment shall expend the balance of the federal DSH allotment and associated state share not utilized in DSH payments to state-owned institutions for treatment of mental diseases. The payment to each hospital shall be calculated by applying a uniform percentage to the uninsured costs of each eligible hospital, excluding state-owned institutions for treatment of mental diseases; however, that percentage for a state-owned teaching hospital located in Hinds County shall be multiplied by a factor of two (2).

(11) The division shall implement DSH and supplemental payment calculation methodologies that result in the maximization of available federal funds.

(12) The DSH payments shall be paid on or before December 31, March 31, and June 30 of each fiscal year, in increments of one-third (1/3) of the total calculated DSH amounts. Supplemental payments developed pursuant to Section 43-13-117(A)(18) shall be paid monthly.

(13) Payment.

(a) The hospital assessment as described in subsection (4) for the nonfederal share necessary to maximize the Medicare Upper Payments Limits (UPL) Program payments and hospital access payments and such other supplemental payments as may be developed pursuant to Section 43-3-117(A)(18) shall be assessed and collected monthly no later than the fifteenth calendar day of each month.

(b) The hospital assessment as described in subsection (4) for the nonfederal share necessary to maximize the Disproportionate Share Hospital (DSH) payments shall be assessed and collected on December 15, March 15 and June 15.

(c) The annual hospital assessment and any additional hospital assessment as described in subsection (4) shall be assessed and collected on September 15 and on the 15th of each month from December through June.

(14) If for any reason any part of the plan for annual DSH and supplemental payment programs to hospitals provided under subsection (10) of this section and/or

developed pursuant to Section 43-13-117(A)(18) is not approved by CMS, the remainder of the plan shall remain in full force and effect.

(15) Nothing in this section shall prevent the Division of Medicaid from facilitating participation in Medicaid supplemental hospital payment programs by a hospital located in a county contiguous to the State of Mississippi that is also authorized by federal law to submit intergovernmental transfers (IGTs) to the State of Mississippi to fund the state share of the hospital's supplemental and/or MHAP payments.

(16) This section shall stand repealed on July 1, 2028.

SECTION 4. Section 43-13-305, Mississippi Code of 1972, is amended as follows:

43-13-305. (1) By accepting Medicaid from the Division of Medicaid in the Office of the Governor, the recipient shall, to the extent of the payment of medical expenses by the Division of Medicaid, be deemed to have made an assignment to the Division of Medicaid of any and all rights and interests in any third-party benefits, hospitalization or indemnity contract or any cause of action, past, present or future, against any person, firm or corporation for Medicaid benefits provided to the recipient by the Division of Medicaid for injuries, disease or sickness caused or suffered under circumstances creating a cause of action in favor of the recipient against any such person, firm or corporation as set out in Section 43-13-125. The recipient shall be deemed, without the necessity of signing any document, to have appointed the Division of Medicaid as his or her true and lawful attorney-in-fact in his or her name, place and stead in collecting any and all amounts due and owing for medical expenses paid by the Division of Medicaid against such person, firm or corporation.

(2) Whenever a provider of medical services or the Division of Medicaid submits claims to an insurer on behalf of a Medicaid recipient for whom an assignment of rights has been received, or whose rights have been assigned by the operation of law, the insurer must respond within sixty (60) days of receipt of a claim by forwarding payment or issuing a notice of denial directly to the submitter of the claim. The failure of the insuring entity to comply with the provisions of this section shall subject the insuring entity to recourse by the Division of Medicaid in accordance with the provision of Section 43-13-315. In the case of a responsible insurer, other than the insurers exempted under federal law, that requires prior authorization for an item or service furnished to a recipient, the insurer shall accept authorization provided by the Division of Medicaid that the item or service is covered under the state plan (or waiver of such plan) for such recipient, as if such authorization were the prior authorization made by the insurer for such item or service. The Division of Medicaid shall be authorized to endorse any and all, including, but not limited to, multi-payee checks, drafts, money orders or other negotiable instruments representing Medicaid payment recoveries that are received by the Division of Medicaid.

(3) Court orders or agreements for medical support shall direct such payments to the Division of Medicaid, which shall be authorized to endorse any and all checks, drafts, money orders or other negotiable instruments representing medical support payments which are received. Any designated medical support funds received by the State Department of Human Services or through its local county departments shall be paid over to the Division of Medicaid. When medical support for a Medicaid recipient is available through an absent parent or custodial parent, the insuring entity shall direct the medical support payment(s) to the provider of medical services or to the Division of Medicaid.

SECTION 5. The Division of Medicaid shall develop a plan that will allow all Level 1 hospitals located in counties in states that border the State of Mississippi to participate in the division's supplemental payments program under Sections 43-13-117 and 43-13-145 and require those hospitals to pay their proportionate share of the assessments that Mississippi hospitals pay, or an equivalent amount, for participating in the supplemental payments program. The division shall report the plan to the Chairs of the House and Senate Medicaid Committees not later than December 1, 2024.

SECTION 6. This act shall take effect and be in force from and after July 1, 2024, and shall stand repealed on June 30, 2024.

Further, amend by striking the title in its entirety and inserting in lieu thereof the following:

SECTION 1. Section 37-101-15, Mississippi Code of 1972, is amended as follows:

37-101-15. (a) The Board of Trustees of State Institutions of Higher Learning shall succeed to and continue to exercise control of all records, books, papers, equipment, and supplies, and all lands, buildings, and other real and personal property belonging to or assigned to the use and benefit of the board of trustees formerly supervising and controlling the institutions of higher learning named in Section 37-101-1. The board shall have and exercise control of the use, distribution and disbursement of all funds, appropriations and taxes, now and hereafter in possession, levied and collected, received, or appropriated for the use, benefit, support, and maintenance or capital outlay

expenditures of the institutions of higher learning, including the authorization of employees to sign vouchers for the disbursement of funds for the various institutions, except where otherwise specifically provided by law.

(b) The board shall have general supervision of the affairs of all the institutions of higher learning, including the departments and the schools thereof. The board shall have the power in its discretion to determine who shall be privileged to enter, to remain in, or to graduate therefrom. The board shall have general supervision of the conduct of libraries and laboratories, the care of dormitories, buildings, and grounds; the business methods and arrangement of accounts and records; the organization of the administrative plan of each institution; and all other matters incident to the proper functioning of the institutions. The board shall have the authority to establish minimum standards of achievement as a prerequisite for entrance into any of the institutions under its jurisdiction, which standards need not be uniform between the various institutions and which may be based upon such criteria as the board may establish.

(c) The board shall exercise all the powers and prerogatives conferred upon it under the laws establishing and providing for the operation of the several institutions herein specified. The board shall adopt such bylaws and regulations from time to time as it deems expedient for the proper supervision and control of the several institutions of higher learning, insofar as such bylaws and regulations are not repugnant to the Constitution and laws, and not inconsistent with the object for which these institutions were established. The board shall have power and authority to prescribe rules and regulations for policing the campuses and all buildings of the respective institutions, to authorize the arrest of all persons violating on any campus any criminal law of the state, and to have such law violators turned over to the civil authorities.

(d) For all institutions specified herein, the board shall provide a uniform system of recording and of accounting approved by the State Department of Audit. The board shall annually prepare, or cause to be prepared, a budget for each institution of higher learning for the succeeding year which must be prepared and in readiness for at least thirty (30) days before the convening of the regular session of the Legislature. All relationships and negotiations between the State Legislature and its various committees and the institutions named herein shall be carried on through the board of trustees. No official, employee or agent representing any of the separate institutions shall appear before the Legislature or any committee thereof except upon the written order of the board or upon the request of the Legislature or a committee thereof.

(e) For all institutions specified herein, the board shall prepare an annual report to the Legislature setting forth the disbursements of all monies appropriated to the respective institutions. Each report to the Legislature shall show how the money appropriated to the several institutions has been expended, beginning and ending with the fiscal years of the institutions, showing the name of each teacher, officer, and employee, and the salary paid each, and an itemized statement of each and every item of receipts and expenditures. Each report must be balanced, and must begin with the former balance. If any property belonging to the state or the institution is used for profit, the reports shall show the expense incurred in managing the property and the amount received therefrom. The reports shall also show a summary of the gross receipts and gross disbursements for each year and shall show the money on hand at the beginning of the fiscal period of the institution next preceding each session of the Legislature and the necessary amount of expense to be incurred from said date to January 1 following. The board shall keep the annual expenditures of each institution herein mentioned within the income derived from legislative appropriations and other sources, but in case of emergency arising from acts of providence, epidemics, fire or storm with the written approval of the Governor and by written consent of a majority of the senators and of the representatives it may exceed the income. The board shall require a surety bond in a surety company authorized to do business in this state of every employee who is the custodian of funds belonging to one or more of the institutions mentioned herein, which bond shall be in a sum to be fixed by

the board in an amount that will properly safeguard the said funds, the premium for which shall be paid out of the funds appropriated for said institutions.

(f) The board shall have the power and authority to elect the heads of the various institutions of higher learning and to contract with all deans, professors, and other members of the teaching staff, and all administrative employees of said institutions for a term not exceeding four (4) years. The board shall have the power and authority to terminate any such contract at any time for malfeasance, inefficiency, or contumacious conduct, but never for political reasons. It shall be the policy of the board to permit the executive head of each institution to nominate for election by the board all subordinate employees of the institution over which he presides. It shall be the policy of the board to elect all officials for a definite tenure of service and to reelect during the period of satisfactory service. The board shall have the power to make any adjustments it thinks necessary between the various departments and schools of any institution or between the different institutions.

(g) The board shall keep complete minutes and records of all proceedings which shall be open for inspection by any citizen of the state.

(h) The board shall have the power to enter into an energy performance contract, energy services contract, on a shared-savings, lease or lease-purchase basis, for energy efficiency services and/or equipment as prescribed in Section 31-7-14.

(i) The Board of Trustees of State Institutions of Higher Learning, for and on behalf of Jackson State University, is hereby authorized to convey by donation or otherwise easements across portions of certain real estate located in the City of Jackson, Hinds County, Mississippi, for right-of-way required for the Metro Parkway Project.

(j) In connection with any international contract between the board or one (1) of the state's institutions of higher learning and any party outside of the United States, the board or institution that is the party to the international contract is hereby authorized and empowered to include in the contract a provision for the resolution by arbitration of any controversy between the parties to the contract relating to such contract or the failure or refusal to perform any part of the contract. Such provision shall be valid, enforceable and irrevocable without regard to the justiciable character of the controversy. Provided, however, that in the event either party to such contract initiates litigation against the other with respect to the contract, the arbitration provision shall be deemed waived unless asserted as a defense on or before the responding party is required to answer such litigation.

(k) The Board of Trustees of State Institutions of Higher Learning ("board"), on behalf of any institution under its jurisdiction, shall purchase and maintain business property insurance and business personal property insurance on all university-owned buildings and/or contents as required by federal law and regulations of the Federal Emergency Management Agency (FEMA) as is necessary for receiving public assistance or reimbursement for repair, reconstruction, replacement or other damage to those buildings and/or contents caused by the Hurricane Katrina Disaster of 2005 or subsequent disasters. The board is authorized to expend funds from any available source for the purpose of obtaining and maintaining that property insurance. The board is authorized to enter into agreements with the Department of Finance and Administration, local school districts, community/junior college districts, community hospitals and/or other state agencies to pool their liabilities to participate in a group business property and/or business personal property insurance program, subject to uniform rules and regulations as may be adopted by the Department of Finance and Administration.

(l) The Board of Trustees of State Institutions of Higher Learning, or its designee, may approve the payment or reimbursement of reasonable travel expenses incurred by candidates for open positions at the board's executive office or at any of the state institutions of higher learning, when the job candidate has incurred expenses in traveling

to a job interview at the request of the board, the Commissioner of Higher Education or a state institution of higher learning administrator.

(m) (i) The Board of Trustees of State Institutions of Higher Learning is authorized to administer and approve contracts for the construction and maintenance of buildings and other facilities of the state institutions of higher learning, including related contracts for architectural and engineering services, which are paid for with self-generated funds.

(ii) Additionally, the board is authorized to oversee, administer and approve contracts for the construction and maintenance of buildings and other facilities of the state institutions of higher learning, including related contracts for architectural and engineering services, which are funded in whole or in part by general obligation bonds of the State of Mississippi at institutions designated annually by the board as being capable to procure and administer all such contracts. Prior to the disbursement of funds, an agreement for each project between the institution and the Department of Finance and Administration shall be executed. The approval and execution of the agreement shall not be withheld by either party unless the withholding party provides a written, detailed explanation of the basis for withholding to the other party. The agreement shall stipulate the responsibilities of each party, applicable procurement regulations, documentation and reporting requirements, conditions prior to, and schedule of, disbursement of general obligation bond funds to the institution and provisions concerning handling any remaining general obligation bonds at the completion of the project. Such agreement shall not include provisions that constitute additional qualifications or criteria that act to invalidate the designation of an institution as capable of procuring and administering such project. Inclusion of any such provisions may be appealed to the Public Procurement Review Board. This paragraph (ii) shall stand repealed from and after July 1, 2025.

(n) The Board of Trustees of State Institutions of Higher Learning ("board") shall require all faculty employed by and all students attending any of the state institutions of higher learning identified in Section 37-101-1 to be issued an identification badge that may be worn at all times while on campus property. Any identification card issued or renewed pursuant to this section, whether physical or in an electronic format, shall include the words "Crisis Lifeline - Dial or Text 988, or chat 988lifeline.org."

SECTION 2. Section 37-97-103, Mississippi Code of 1972, is amended as follows:

37-97-103. As used in this article, the following terms shall have the following meanings unless the context clearly indicates otherwise:

(a) "Compensation" means * * * any remuneration, in cash or in kind, whether provided at the time or at any subsequent date, to a student-athlete.

For the purposes of this article, "compensation" shall not mean * * * any grant, scholarship, fellowship, tuition assistance, or other form of financial aid provided to a student for pursuing a post-secondary education.

* * *

(* * *b) "Intercollegiate athletics program" means an intercollegiate athletics * * * sport played at the collegiate level for which eligibility requirements for participation by a student-athlete are established by a national association * * *, conference or any other group or organization with authority over the sport, that promotes or regulates collegiate athletics.

* * *

(* * *c) " * * *Publicity Rights" means * * * any right associated with the name, image, likeness, publicity, reputation, fame, or personal following of a student recognized under federal or state law as permitting an individual to control or profit from the use of the same.

* * *

(* * *e) "Student-athlete" means an * * * individual who is enrolled in or has signed a National Letter of Intent or other written agreement to enroll in a postsecondary educational institution or is being recruited by a postsecondary educational institution to participate in an intercollegiate athletics program. (* * *f) "Third party" means * * * any individual or entity or group of the same other than a postsecondary educational institution, including a charitable organization that qualifies as an exempt organization under 26 USC Section 501(c)(3), as amended. * * *

37-97-105. (1) * * * A postsecondary educational institution or any officer, trustee, or employee, of a postsecondary educational institution, shall have the right to, directly or through an agreement with a third party, identify, create, solicit, facilitate, negotiate, support, assist and otherwise enable opportunities for a student-athlete to earn or attempt to earn compensation for the use of the student-athlete's publicity rights. Such right shall include, without limitation, the right to discuss with a student-athlete the potential to earn compensation for their publicity rights if they attend the postsecondary educational institution. Provided that a postsecondary educational institution or any officer, trustee, or employee, of a postsecondary educational institution does not:

(a) * * * Receive compensation from the student-athlete for facilitating, enabling, or assisting with such opportunities;

(b) * * * Attempt to influence a student-athlete's choice of professional representation related to such opportunities; or

(c) Attempt in bad faith to reduce such student-athlete's opportunities from competing third parties.

(2) * * * A third party shall have the right to compensate a student-athlete for the use of the student-athlete's publicity rights. This shall include the right to compensate the student-athlete for the use of the student-athlete's publicity rights in connection with the promotion of an athletic event in which the student-athlete may participate, the promotion of the postsecondary educational institution the student-athlete attends, and the promotion of the postsecondary educational institution's intercollegiate athletics programs.

(3) * * * A postsecondary educational institution or officer, trustee, or employee of a postsecondary institution shall have the right to compensate a student-athlete for the use of the student-athlete's publicity rights to the extent consistent with any legally enforceable rules of a national association, a conference or any other group or organization with authority over the sport, that promotes or regulates collegiate athletics applicable to that institution. Before any agreement for compensation for the use of a student-athlete's publicity rights is entered into, and before any compensation is provided to the student-athlete, a postsecondary educational institution may require a student-athlete enrolled at that institution or who has announced an intention to attend that institution, to disclose the agreement or the terms thereof to a designated official of the postsecondary educational institution in which the student-athlete is enrolled or intends to enroll in a manner prescribed by the institution.

Student-athlete agreements, proposed agreements and any documents that compile, summarize or disclose any of the terms of such agreements shall be exempt from the Mississippi Public Records Act of 1983. Postsecondary educational institutions and student-athletes shall not be compelled to disclose student-athlete agreements, proposed agreements and any documents that compile, summarize or disclose any of the terms of such agreements to a national association, a conference or any other group or organization with authority over the sport, that promotes or regulates collegiate athletics.

37-97-107. (1) * * * An agreement for the use of a student-athlete's publicity rights which is formed after the student-athlete has announced an intention to attend a postsecondary educational institution or while the student-athlete is participating in an intercollegiate sport at a postsecondary educational institution may be terminated either by the student-athlete or any other party to the agreement when the student-athlete's participation in the sport at the institution ends.

(2) * * * A postsecondary educational institution may impose reasonable limitations on the dates and time that a student-athlete may participate in publicity rights activities.

(3) * * * Nothing in this chapter shall restrict a postsecondary educational institution from exercising its sole discretion to control the authorized use of its marks or logos or to determine a student-athlete's apparel, gear or other wearables while participating in an intercollegiate athletics program activity.

(4) * * * A student-athlete may not receive or enter into a contract for compensation for the use of his or her publicity rights in a way that also uses any registered or licensed marks, logos, verbiage or designs of a postsecondary educational institution, unless the

institution has provided the student-athlete with written permission to do so prior to entering into the agreement or receipt of compensation.

(5) * * * If a student-athlete is granted permission to use the marks or logos, independently or through a third-party, the postsecondary educational institution may be compensated for the use. A postsecondary educational institution may prohibit a student-athlete from wearing any item of clothing, shoes, or other gear or wearables with the name, logo or insignia of any third party while participating in an intercollegiate athletics program activity.

(6) * * * A third party may not enter into, or offer to enter into, a publicity rights agreement with a student-athlete or otherwise compensate a student-athlete for the use of the student-athlete's publicity rights if a provision of the agreement or the use of the student-athlete's publicity rights conflicts with a provision of a contract, rule, regulation, standard or other requirement of the postsecondary educational institution where the student-athlete is enrolled or intends to enroll unless such contract or use is expressly approved in writing by the postsecondary educational institution.

(7) * * * No student-athlete who is enrolled in a postsecondary educational institution shall enter into a publicity rights agreement or receive compensation from a third party for the endorsement or promotion of brands, products, or services involving gambling, sports betting, controlled substances, marijuana, tobacco, alternative or electronic nicotine product or delivery system, alcohol, adult entertainment or any other brand, product or service that is reasonably considered to be inconsistent with the values or mission of a postsecondary educational institution or that, in the institution's sole judgment, negatively impacts or reflects adversely on a postsecondary education institution or its athletic programs, including, without limitation, bringing about public disrepute, embarrassment, scandal, ridicule or otherwise negatively impacting the reputation or the moral or ethical standards of the postsecondary educational institution.

(8) * * * Nothing in this chapter shall be construed to qualify a student-athlete as an employee of a postsecondary educational institution.

(9) * * * No postsecondary educational institution may use funds appropriated from the State General Fund to compensate a student-athlete for their publicity rights.

* * *

SECTION 5. Section 37-97-109, Mississippi Code of 1972, is amended as follows:

37-97-109. * * * (1) No postsecondary educational institution or any officer, trustee, or employee of a postsecondary educational institution shall be subject to a claim for damages related to their adoption, implementation, or enforcement of any contract, rule, regulation, standard or other requirement in compliance with this chapter. This chapter is not intended to and shall not waive or diminish any applicable defenses and immunities, including, without limitation, sovereign immunity applicable to public postsecondary educational institutions.

(2) A national association, a conference or any other group or organization with authority over the sport, that promotes or regulates collegiate athletics at a postsecondary educational institution to which this chapter applies shall not:

(a) Enforce a contract term, a rule, a regulation, a standard, a bylaw, guidance, or any other requirement that penalizes the institution, the institution's intercollegiate athletics program, or student-athlete for performing, participating in, or allowing an activity required or authorized by this chapter;

(c) Penalize a postsecondary educational institution because an individual or entity whose purpose includes supporting and benefiting the postsecondary institution or its intercollegiate athletic programs violates any contract term, a rule, a regulation, a standard, a bylaw, guidance, or any other requirement that is in conflict with actions required or authorized by this chapter.

(3) A person or entity, regardless of residence, shall not give or promise compensation for the use of publicity rights of a student-athlete that is currently enrolled in or has signed a National Letter of Intent or other written agreement to enroll in a postsecondary educational institution within the State of Mississippi with the purpose of recruiting or inducing the student-athlete to enroll at another postsecondary educational institution.

(6) An individual who has submitted an application for renewal of registration or licensure in another state, in lieu of submitting an application for renewal in the form prescribed pursuant to subsection (5), may file a copy of the application for renewal and a valid certificate of registration from the other state. The Secretary of State shall accept the application for renewal from the other state as an application for renewal in this state if the application to the other state:

73-42-13. (1) After proper notice and an opportunity for a hearing, the Secretary of State may deny, suspend, revoke or refuse to renew a registration for conduct that would have justified denial of registration under Section 73-42-11(3) or for a violation of any provision of this chapter.

(2) (a) The Secretary of State shall appoint at least one (1) hearing officer for the purpose of holding hearings, compiling evidence and rendering decisions under this section and Section 73-42-11. The hearing officer shall fix the date for an adjudicatory hearing and notify the athlete agent involved. The hearing shall be held at a location to be designated by the hearing officer. Unless the time period is extended by the hearing officer, the hearing shall be held not less than fifteen (15) nor more than thirty (30) days after the mailing of notice to the athlete agent involved. At the conclusion of the hearing, the hearing officer shall make a recommendation regarding the registration of the athlete agent involved. The Secretary of State shall then take appropriate action by final order.

(b) Any athlete agent whose application for registration has been denied or not renewed, or whose registration has been revoked or suspended by the Secretary of State, within thirty (30) days after the date of such final order, shall have the right of a trial de novo on appeal to the circuit court * * * in Mississippi in the county of residence of the athlete agent, the student-athlete, or the educational institution * * *. If the secretary's final order is supported by substantial evidence and does not violate a state or federal law, then it shall be affirmed by the circuit court. Either party shall have the right of appeal to the Supreme Court as provided by law from any decision of the circuit court. No athlete agent shall be allowed to deliver services to a student-athlete domiciled or residing in Mississippi while any such appeal is pending.

(3) In addition to the reasons specified in subsection (1) of this section, the secretary shall be authorized to suspend the registration of any person for being out of compliance with an order for support, as defined in Section 93-11-153. The procedure for suspension of a registration for being out of compliance with an order for support, and the procedure for the reissuance or reinstatement of a registration suspended for that purpose, and the payment of any fees for the reissuance or reinstatement of a registration suspended for that purpose, shall be governed by Section 93-11-157 or 93-11-163, as the case may be. Actions taken by the secretary in suspending the registration of a person when required by Section 93-11-157 are not actions from which an appeal may be taken under this section. Any appeal of a registration suspension that is required by Section 93-11-157 or 93-11-163 shall be taken in accordance with the appeal procedure specified in Section 93-11-157 or 93-11-163, as the case may be, rather than the procedure specified in this section. If there is any conflict between any provision of Section

93-11-157 or 93-11-163 and any provision of this chapter, the provisions of Section 93-11-157 or 93-11-163, as the case may be, shall control.

73-42-31. (1) An educational institution has a right of action against an athlete agent or a former student-athlete for damages caused by a violation of this act. In an action under this section, the court may award to the prevailing party costs and reasonable attorney's fees, except that costs and attorney's fees shall not be levied against a public educational institution.

(2) Damages of an educational institution under subsection (1) include losses and expenses incurred because, as a result of the activities of an athlete agent or former student-athlete, the educational institution was injured by a violation of this chapter or was penalized, disqualified or suspended from participation in athletics by a national association * * *, a conference or any other group or organization with authority over the sport, that promotes or regulates collegiate athletics or by reasonable self-imposed disciplinary action taken to mitigate sanctions.

(3) A right of action under this section does not accrue until the educational institution discovers or by the exercise of reasonable diligence would have discovered the violation by the athlete agent or * * * student-athlete.

(4) Any liability of the athlete agent or the * * * student-athlete under this section is several and not joint.

(5) This chapter does not restrict rights, remedies or defenses of any person under law or equity.

73-42-33. The Secretary of State may assess a civil penalty against an athlete agent not to exceed Twenty-five Thousand Dollars ($25,000.00) for a violation of this chapter.

(c) Take any other action authorized under the provisions of this chapter.

(2) An order issued under subsection (1) of this section is effective on the date of its issuance. Upon the order's issuance, the Secretary of State shall promptly serve each person subject to the order with a copy of the order and a notice that the order has been entered. The order must include a statement of any civil penalty or other administrative remedy to be imposed under subsection (1) of this section, a statement of the costs of investigation that the secretary will seek to recover, a statement of the reasons for the order, and a statement notifying the person of his or her right to a hearing under Section 73-42-13. If a person subject to the order does not request a hearing in writing within thirty (30) days of the date of the order and none is ordered by the hearing officer, then the order, including the imposition of a civil penalty or requirement for payment of the costs of investigation, shall become final as to that person by operation of law.

(3) In a final order, the secretary may charge the actual cost of an investigation or proceeding for a violation of this chapter or a rule adopted or order issued under this chapter.

(4) If a petition for judicial review of a final order is not filed in accordance with Section 73-42-37, or the petition is denied by the court, the secretary may file a certified copy of the final order with the clerk of a court in the jurisdiction where enforcement will be sought. The order so filed has the same effect as a judgment of the court and may be recorded, enforced, or satisfied in the same manner as a judgment of the court.

(5) If a person does not comply with an order issued under this section, the secretary may petition a court of competent jurisdiction to enforce the order and collect administrative civil penalties and costs imposed under the final order. The court may not require the secretary to post a bond in an action or proceeding under this section. If the court finds, after service and opportunity for hearing, that the person did not comply with the order, the court may adjudge the person in civil contempt of the order. The court may grant any relief the court determines is just and proper in the circumstances.

(6) Any person aggrieved by a final order of the secretary may obtain a review of the order in the circuit court * * * in Mississippi in the county of residence of the athlete agent, the student-athlete, or * * * educational institution by filing within thirty (30) days after the entry of the order, a written petition praying that the order be modified or set aside, in whole or in part. A copy of the petition shall be served upon the secretary, and the secretary shall certify and file with the court a copy of the record and evidence upon which the order was entered. When these have been filed, the court has exclusive jurisdiction to affirm, modify, enforce or set aside the order, in whole or in part. The findings of the secretary as to the facts, if supported by competent material and substantial evidence, are conclusive. The beginning of proceedings under this subsection does not operate as a stay of the secretary's order, unless specifically ordered by the court.

Amend by striking all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. Section 41-21-63, Mississippi Code of 1972, is amended as follows:

41-21-63. (1) No person, other than persons charged with crime, shall be committed to a public treatment facility except under the provisions of Sections 41-21-61 through 41-21-107 or 43-21-611 or 43-21-315. However, nothing herein shall be construed to repeal, alter or otherwise affect the provisions of Section 35-5-31 or to affect or prevent the commitment of persons to the Veterans Administration or other agency of the United States under the provisions of and in the manner specified in those sections.

(2) (a) The chancery court, or the chancellor in vacation, shall have jurisdiction under Sections 41-21-61 through 41-21-107 except over persons with unresolved felony charges unless paragraph (b) of this subsection applies.

(b) If a circuit court with jurisdiction over unresolved felony charges enters an order concluding that * * * a person is incompetent to stand trial and is not restorable to competency in the foreseeable future, the * * * circuit court shall retain jurisdiction and shall proceed with civil commitment procedures in the same manner as described in Sections 41-21-61 through 41-21-107. The order of the circuit court finding that the person is incompetent to stand trial and is not restorable to competency in the foreseeable future shall be in lieu of the affidavit for commitment provided for in Section 41-21-65. * * * Additionally, if the finding of the circuit court is based on the report and/or testimony of a physician or psychologist that has examined the person, the provisions of Section 41-21-67 for psychiatric examinations shall not apply.

(3) The circuit court shall also have jurisdiction under Sections 99-13-7, 99-13-9 and 99-13-11.

(4) Before the release of a person referred for civil commitment under this section and committed under Sections 41-21-61 through 41-21-107, the Department of Mental Health must notify the district attorney of the county where the offense was committed. The district attorney must notify the crime victim or a family member who has requested notification under Section 99-43-35 and the sheriffs of both the county where the offense was committed and the county of the committed person's destination.

SECTION 2. Section 99-13-9, Mississippi Code of 1972, is amended as follows:

99-13-9. When any person is indicted for an offense and acquitted on the ground of having an intellectual disability, the jury rendering the verdict shall state in the verdict that ground and whether the accused constitutes a danger to life or property and to the peace and safety of the community. If the jury certifies that the person with an intellectual disability is dangerous to the peace and safety of the community or to himself or herself, the circuit court shall * * * proceed with the person according to the law provided in the case of persons with an intellectual disability, the person with an intellectual disability himself being remanded to custody to await the further action of the * * * circuit court.

SECTION 3. Section 41-21-65, Mississippi Code of 1972, is amended as follows:

41-21-65. (1) It is the intention of the Legislature that the filing of an affidavit under this section be a simple, inexpensive, uniform, and streamlined process for the purpose of facilitating and expediting the care of individuals in need of treatment.

(2) The Uniform Civil Commitment Affidavit developed by the Department of Mental Health under this section must be provided by the clerk of the chancery court to any party or affiant seeking a civil commitment under this section, and must be utilized in all counties to commence civil commitment proceedings under this section. The affidavit must be made available to the public on the website of the Mississippi Department of Mental Health.

(3) The Department of Mental Health, in consultation with the Mississippi Chancery Clerks Association, the Mississippi Conference of Chancery Court Judges and the Mississippi Association of Community Mental Health Centers, must develop a written guide setting out the steps in the commitment process no later than January 1, 2020. The guide shall be designated as the "Uniform Civil Commitment Guide" and must include, but not be limited to, the following:

(a) Steps in the civil commitment process from affidavit to commitment, written in easily understandable layman's terms;

(b) A schedule of fees and assessments that will be charged to commence a commitment proceeding under this section;

(c) Eligibility requirements and instructions for filing a pauper's affidavit; and

(d) A statement on the front cover of the guide advising that persons wishing to pursue a civil commitment under this section are not required to retain an attorney for any portion of the commitment process.

(4) Immediately upon availability, but no later than January 1, 2020, the Uniform Civil Commitment Guide must be provided by the clerk of the chancery court to any party or affiant seeking a civil commitment under this section and also must be made available to the public on the website of the Mississippi Department of Mental Health.

(5) If any person is alleged to be in need of treatment, any relative of the person, or any interested person, may make affidavit of that fact and shall file the Uniform Civil Commitment Affidavit with the clerk of the chancery court of the county in which the person alleged to be in need of treatment resides, but the chancellor or duly appointed special master may, in his or her discretion, hear the matter in the county in which the person may be found or the circuit judge may hear such matter as provided in Section 41-21-63. The affidavit shall set forth the name and address of the proposed patient's nearest relatives and whether the proposed patient resides or has visitation rights with any minor children, if known, and the reasons for the affidavit. The affidavit must contain factual descriptions of the proposed patient's recent behavior, including a description of the behavior, where it occurred, and over what period of time it occurred, if known. Each factual allegation may be supported by observations of witnesses named in the affidavit. The Department of Mental Health, in consultation with the Mississippi Chancery Clerks' Association, shall develop a simple, one-page affidavit form for the use of affiants as provided in this section. The affidavit also must state whether the affiant has consulted with a Community Mental Health Center or a physician to determine whether the alleged acts by the proposed respondent warrant civil commitment in lieu of other less-restrictive treatment options. No chancery clerk shall require an affiant to retain an attorney for the filing of an affidavit under this section.

(6) The chancery clerk may charge a total filing fee for all services equal to the amount set out in Section 25-7-9(o), and the appropriate state and county assessments as required by law which include, but are not limited to, assessments for the Judicial Operation Fund (Section 25-7-9(3)(b)); the Electronic Court System Fund (Section 25-7-9(3)(a)); the Civil Legal Assistance Fund (Section 25-7-9(1)(k)); the Court Education and Training Fund (Section 37-26-3); State Court Constituent's Fund (Section 37-26-9(4)); and reasonable court reporter's fee. Costs incidental to the court proceedings as set forth in Section 41-21-79 may not be included in the assessments permitted by this subsection. The total of the fees and assessments permitted by this subsection may not exceed One Hundred Fifty Dollars ($150.00).

(7) The prohibition against charging the affiant other fees, expenses, or costs shall not preclude the imposition of monetary criminal penalties under Section 41-21-107 or any other criminal statute, or the imposition by the chancellor of monetary penalties for contempt if the affiant is found to have filed an intentionally false affidavit or filed the affidavit in bad faith for a malicious purpose.

(8) Nothing in this section shall be construed so as to conflict with Section 41-21-63.

(9) The Department of Mental Health shall provide annual training to chancery and circuit court clerks to inform them about statutory procedures for civil commitments.

SECTION 4. Section 41-21-67, Mississippi Code of 1972, is amended as follows:

41-21-67. (1) Whenever the affidavit provided for in Section 41-21-65 is filed with the chancery clerk, the clerk, upon direction of the chancellor of the court, shall issue a writ directed to the sheriff of the proper county to take into custody the person alleged to be in need of treatment and to take the person for pre-evaluation screening and treatment by the appropriate community mental health center established under Section 41-19-31. Except as otherwise provided in Section 41-21-63, the community mental health center will be designated as the first point of entry for pre-evaluation screening and treatment. If the community mental health center is unavailable, any reputable licensed physician, psychologist, nurse practitioner or physician assistant, as allowed in the discretion of the court, may conduct the pre-evaluation screening and examination as set forth in Section 41-21-69. The order may provide where the person shall be held before being taken for pre-evaluation screening and treatment. However, when the affidavit fails to set forth factual allegations and witnesses sufficient to support the need for treatment, the chancellor shall refuse to direct issuance of the writ. Reapplication may be made to the chancellor. If a pauper's affidavit is filed by an affiant who is a guardian or conservator of a person in need of treatment, the court shall determine if either the affiant or the person in need of treatment is a pauper and if * * * the affiant or the person in need of treatment is determined to be a pauper, the county of the residence of the respondent shall bear the costs of commitment, unless funds for those purposes are made available by the state.

In any county in which a Crisis Intervention Team has been established under the provisions of Sections 41-21-131 through 41-21-143, the clerk, upon the direction of the chancellor, may require that the person be referred to the Crisis Intervention Team for appropriate psychiatric or other medical services before the issuance of the writ.

(2) Upon issuance of the writ, the chancellor shall immediately appoint and summon two (2) reputable, licensed physicians or one (1) reputable, licensed physician and either one (1) psychologist, nurse practitioner or physician assistant to conduct a physical and mental examination of the person at a place to be designated by the clerk or chancellor and to report their findings to the clerk or chancellor. However, any nurse practitioner or physician assistant conducting the examination shall be independent from, and not under the supervision of, the other physician conducting the examination. A nurse practitioner or psychiatric nurse practitioner conducting an examination under this chapter must be functioning within a collaborative or consultative relationship with a physician as required under Section 73-15-20(3). In all counties in which there is a county health officer, the county health officer, if available, may be one (1) of the physicians so appointed. If a licensed physician is not available to conduct the physical and mental examination within forty-eight (48) hours of the issuance of the writ, the court, in its discretion and upon good cause shown, may permit the examination to be conducted by the following: (a) two (2) nurse practitioners, one (1) of whom must be a psychiatric nurse practitioner; or (b) one (1) psychiatric nurse practitioner and one (1) psychologist or physician assistant. Neither of the physicians nor the psychologist, nurse practitioner or physician assistant selected shall be related to that person in any way, nor have any direct or indirect interest in the estate of that person nor shall any full-time staff of residential treatment facilities operated directly by the State Department of Mental Health serve as examiner.

(3) The clerk shall ascertain whether the respondent is represented by an attorney, and if it is determined that the respondent does not have an attorney, the clerk shall immediately notify the chancellor of that fact. If the chancellor determines that the respondent for any reason does not have the services of an attorney, the chancellor shall immediately appoint an attorney for the respondent at the time the examiners are appointed.

(4) If the chancellor determines that there is probable cause to believe that the respondent is mentally ill and that there is no reasonable alternative to detention, the chancellor may order that the respondent be retained as an emergency patient at any licensed medical facility for evaluation by a physician, nurse practitioner or physician assistant and that a peace officer transport the respondent to the specified facility. If the

community mental health center serving the county has partnered with Crisis Intervention Teams under the provisions of Sections 41-21-131 through 41-21-143, the order may specify that the licensed medical facility be a designated single point of entry within the county or within an adjacent county served by the community mental health center. If the person evaluating the respondent finds that the respondent is mentally ill and in need of treatment, the chancellor may order that the respondent be retained at the licensed medical facility or any other available suitable location as the court may so designate pending an admission hearing. If necessary, the chancellor may order a peace officer or other person to transport the respondent to that facility or suitable location. Any respondent so retained may be given such treatment as is indicated by standard medical practice. However, the respondent shall not be held in a hospital operated directly by the State Department of Mental Health, and shall not be held in jail unless the court finds that there is no reasonable alternative.

(5) (a) Whenever a licensed psychologist, nurse practitioner or physician assistant who is certified to complete examinations for the purpose of commitment or a licensed physician has reason to believe that a person poses an immediate substantial likelihood of physical harm to himself or others or is gravely disabled and unable to care for himself by virtue of mental illness, as defined in Section 41-21-61(e), then the physician, psychologist, nurse practitioner or physician assistant may hold the person or may admit the person to and treat the person in a licensed medical facility, without a civil order or warrant for a period not to exceed seventy-two (72) hours. However, if the seventy-two-hour period begins or ends when the chancery clerk's office is closed, or within three (3) hours of closing, and the chancery clerk's office will be continuously closed for a time that exceeds seventy-two (72) hours, then the seventy-two-hour period is extended until the end of the next business day that the chancery clerk's office is open. The person may be held and treated as an emergency patient at any licensed medical facility, available regional mental health facility, or crisis intervention center. The physician or psychologist, nurse practitioner or physician assistant who holds the person shall certify in writing the reasons for the need for holding.

If a person is being held and treated in a licensed medical facility, and that person decides to continue treatment by voluntarily signing consent for admission and treatment, the seventy-two-hour hold may be discontinued without filing an affidavit for commitment. Any respondent so held may be given such treatment as indicated by standard medical practice. Persons acting in good faith in connection with the detention and reporting of a person believed to be mentally ill shall incur no liability, civil or criminal, for those acts.

(b) Whenever an individual is held for purposes of receiving treatment as prescribed under paragraph (a) of this subsection, and it is communicated to the mental health professional holding the individual that the individual resides or has visitation rights with a minor child, and if the individual is considered to be a danger to the minor child, the mental health professional shall notify the Department of Child Protection Services prior to discharge if the threat of harm continues to exist, as is required under Section 43-21-353.

This paragraph (b) shall be known and may be cited as the "Andrew Lloyd Law."

SECTION 5. Section 41-21-71, Mississippi Code of 1972, is amended as follows:

41-21-71. If, as a result of the examination, the appointed examiners certify that the person is not in need of treatment, the chancellor * * *, clerk or circuit judge as applicable shall dismiss the affidavit without the need for a further hearing. * * * Except as otherwise provided in Section 41-21-63, the chancellor or chancery clerk finds, based upon the appointed examiners' certificates and any other relevant evidence, that the respondent is in need of treatment and the certificates are filed with the chancery clerk within forty-eight (48) hours after the order for examination, or extension of that time as provided in Section 41-21-69, the clerk shall immediately set the matter for a hearing. The hearing shall be set within seven (7) days of the filing of the certificates unless an

extension is requested by the respondent's attorney. In no event shall the hearing be more than ten (10) days after the filing of the certificates.

SECTION 6. Section 41-21-73, Mississippi Code of 1972, is amended as follows:

41-21-73. (1) Except as otherwise provided in Section 41-21-63, the hearing shall be conducted before the chancellor. However, the hearing may be held at the location where the respondent is being held. Within a reasonable period of time before the hearing, notice of same shall be provided the respondent and his attorney, which shall include: (a) notice of the date, time and place of the hearing; (b) a clear statement of the purpose of the hearing; (c) the possible consequences or outcome of the hearing; (d) the facts that have been alleged in support of the need for commitment; (e) the names, addresses and telephone numbers of the examiner(s); and (f) other witnesses expected to testify.

(2) The respondent must be present at the hearing unless the chancellor determines that the respondent is unable to attend and makes that determination and the reasons therefor part of the record. At the time of the hearing, the respondent shall not be so under the influence or suffering from the effects of drugs, medication or other treatment so as to be hampered in participating in the proceedings. The court, at the time of the hearing, shall be presented a record of all drugs, medication or other treatment that the respondent has received pending the hearing, unless the court determines that such a record would be impractical and documents the reasons for that determination.

(3) The respondent shall have the right to offer evidence, to be confronted with the witnesses against him and to cross-examine them and shall have the privilege against self-incrimination. The rules of evidence applicable in other judicial proceedings in this state shall be followed.

(4) If the court finds by clear and convincing evidence that the proposed patient is a person with mental illness or a person with an intellectual disability and, if after careful consideration of reasonable alternative dispositions, including, but not limited to, dismissal of the proceedings, the court finds that there is no suitable alternative to judicial commitment, the court shall commit the patient for treatment in the least restrictive treatment facility that can meet the patient's treatment needs. Treatment before admission to a state-operated facility shall be located as closely as possible to the patient's county of residence and the county of residence shall be responsible for that cost. Admissions to state-operated facilities shall be in compliance with the catchment areas established by the State Department of Mental Health. A nonresident of the state may be committed for treatment or confinement in the county where the person was found.

Alternatives to commitment to inpatient care may include, but shall not be limited to: voluntary or court-ordered outpatient commitment for treatment with specific reference to a treatment regimen, day treatment in a hospital, night treatment in a hospital, placement in the custody of a friend or relative, or the provision of home health services.

For persons committed as having mental illness or having an intellectual disability, the initial commitment shall not exceed three (3) months.

(5) No person shall be committed to a treatment facility whose primary problems are the physical disabilities associated with old age or birth defects of infancy.

(6) The court shall state the findings of fact and conclusions of law that constitute the basis for the order of commitment. The findings shall include a listing of less restrictive alternatives considered by the court and the reasons that each was found not suitable.

(7) A stenographic transcription shall be recorded by a stenographer or electronic recording device and retained by the court.

(8) Notwithstanding any other provision of law to the contrary, neither the State Board of Mental Health or its members, nor the State Department of Mental Health or its related facilities, nor any employee of the State Department of Mental Health or its related facilities, unless related to the respondent by blood or marriage, shall be assigned or adjudicated custody, guardianship, or conservatorship of the respondent.

(9) The county where a person in need of treatment is found is authorized to charge the county of the person's residence for the costs incurred while the person is confined in the county where such person was found.

SECTION 7. Section 41-21-83, Mississippi Code of 1972, is amended as follows:

41-21-83. Except as otherwise provided in Section 41-21-63, if a hearing is requested as provided in Section 41-21-74, 41-21-81 or 41-21-99, the court shall not make a determination of the need for continued commitment unless a hearing is held and the court finds by clear and convincing evidence that (a) the person continues to have mental illness or have an intellectual disability; and (b) involuntary commitment is necessary for the protection of the patient or others; and (c) there is no alternative to involuntary commitment. Hearings held under this section shall be held in the chancery court of the county where the facility is located; however, if the patient is confined at the Mississippi State Hospital at Whitfield, Mississippi, the hearing shall be conducted by the Chancery Court of the First Judicial District of Hinds County, Mississippi.

The hearing shall be held within fourteen (14) days after receipt by the court of the request for a hearing. The court may continue the hearing for good cause shown. The clerk shall ascertain whether the patient is represented by counsel, and, if the patient is not represented, shall notify the chancellor who shall appoint counsel for him if the chancellor determines that the patient for any reason does not have the services of an attorney; however, the patient may waive the appointment of counsel subject to the approval of the court. Notice of the time and place of the hearing shall be served at least seventy-two (72) hours before the time of the hearing upon the patient, his attorney, the director, and the person requesting the hearing, if other than the patient, and any witnesses requested by the patient or his attorney, or any witnesses the court may deem necessary or desirable.

The patient must be present at the hearing unless the chancellor determines that the patient is unable to attend and makes that determination and the reasons therefor part of the record.

The court shall put its findings and the reasons supporting its findings in writing and shall have copies delivered to the patient, his attorney, and the director of the treatment facility. An appeal from the final commitment order by either party may be had on the terms prescribed for appeals in civil cases; however, such appeal shall be without supersedeas. The record on appeal shall include the transcript of the commitment hearing.

SECTION 8. This act shall take effect and be in force from and after July 1, 2024.

Senator Wiggins called up the following entitled bill:

H. B. No. 783: Child custody; require presumption of joint custody and equal parenting time.

Senator Wiggins offered the following COMMITTEE AMENDMENT NO. 1.

Amend by striking all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. Section 93-5-24, Mississippi Code of 1972, is amended as follows:

93-5-24. (1) Custody shall be awarded as follows according to the best interests of the child:

(a) Physical and legal custody to both parents jointly pursuant to subsections (2) through (7).

(b) Physical custody to both parents jointly pursuant to subsections (2) through (7) and legal custody to either parent.

(c) Legal custody to both parents jointly pursuant to subsections (2) through (7) and physical custody to either parent.

(d) Physical and legal custody to either parent pursuant to subsections (2) through (9).

(e) Upon a finding by the court that both of the parents of the child have abandoned or deserted such child or that both such parents are mentally, morally or otherwise unfit to rear and train the child the court may award physical and legal custody to:

(i) The person in whose home the child has been living in a wholesome and stable environment; or

(ii) Physical and legal custody to any other person deemed by the court to be suitable and able to provide adequate and proper care and guidance for the child.

In making an order for custody to either parent or to both parents jointly, the court, in its discretion, may require the parents to submit to the court a plan for the implementation of the custody order.

(2) Joint custody may be awarded where irreconcilable differences or any other ground is the ground for divorce * * *. Joint custody may be awarded whether irreconcilable differences or any other ground is the ground for divorce.

(3) * * * Whether after a trial on the merits or a presentation of an agreement between the parties, the court shall make a finding, on the record, if the court awards the mother paramount physical custody over the father. If the court awards the mother paramount physical custody over the father, the court shall order a parenting time schedule that favors both parents equally subject to the best interests of the child.

(4) There shall be a presumption that joint custody is in the best interest of a minor child where both parents have agreed to an award of joint custody.

(5) (a) For the purposes of this section, "joint custody" means joint physical and legal custody.

(b) For the purposes of this section, "physical custody" means those periods of time in which a child resides with or is under the care and supervision of one (1) of the parents.

(c) For the purposes of this section, "joint physical custody" means that each of the parents shall have significant periods of physical custody. Joint physical custody shall be shared by the parents in such a way so as to assure a child * * * equal, frequent, and continuing contact with both parents.

(d) For the purposes of this section, "legal custody" means the decision-making rights, the responsibilities and the authority relating to the health, education and welfare of a child.

(e) For the purposes of this section, "joint legal custody" means that the parents or parties share the decision-making rights, the responsibilities and the authority relating to the health, education and welfare of a child. An award of joint legal custody obligates the parties to equally share parenting time, to exchange information concerning the health, education and welfare of the minor child, and to confer with one another in the exercise of decision-making rights, responsibilities and authority.

An award of joint physical and legal custody obligates the parties to exchange information concerning the health, education and welfare of the minor child, and unless allocated, apportioned or decreed, the parents or parties shall confer with one another in the exercise of decision-making rights, responsibilities and authority.

(6) Any order for joint custody may be modified or terminated upon the petition of both parents or upon the petition of one (1) parent showing that a material change in circumstances has occurred.

(7) There shall be no presumption that it is in the best interest of a child that a mother be awarded either legal or physical custody.

(8) Notwithstanding any other provision of law, access to records and information pertaining to a minor child, including, but not limited to, medical, dental and school

records, shall not be denied to a parent because the parent is not the child's custodial parent.

(9) (a) (i) In every proceeding where the custody of a child is in dispute, there shall be a rebuttable presumption that it is detrimental to the child and not in the best interest of the child to be placed in sole custody, joint legal custody or joint physical custody of a parent who has a history of perpetrating family violence. The court may find a history of perpetrating family violence if the court finds, by a preponderance of the evidence, one (1) incident of family violence that has resulted in serious bodily injury to, or a pattern of family violence against, the party making the allegation or a family household member of either party. The court shall make written findings to document how and why the presumption was or was not triggered.

(ii) This presumption may only be rebutted by a preponderance of the evidence.

(iii) In determining whether the presumption set forth in subsection (9) has been overcome, the court shall consider all of the following factors:

1. Whether the perpetrator of family violence has demonstrated that giving sole or joint physical or legal custody of a child to the perpetrator is in the best interest of the child because of the other parent's absence, mental illness, substance abuse or such other circumstances which affect the best interest of the child or children;

2. Whether the perpetrator has successfully completed a batterer's treatment program;

3. Whether the perpetrator has successfully completed a program of alcohol or drug abuse counseling if the court determines that counseling is appropriate;

4. Whether the perpetrator has successfully completed a parenting class if the court determines the class to be appropriate;

5. If the perpetrator is on probation or parole, whether he or she is restrained by a protective order granted after a hearing, and whether he or she has complied with its terms and conditions; and

6. Whether the perpetrator of domestic violence has committed any further acts of domestic violence.

(iv) The court shall make written findings to document how and why the presumption was or was not rebutted.

(b) (i) If custody is awarded to a suitable third person, it shall not be until the natural grandparents of the child have been excluded and such person shall not allow access to a violent parent except as ordered by the court.

(ii) If the court finds that both parents have a history of perpetrating family violence, but the court finds that parental custody would be in the best interest of the child, custody may be awarded solely to the parent less likely to continue to perpetrate family violence. In such a case, the court may mandate completion of a treatment program by the custodial parent.

(c) If the court finds that the allegations of domestic violence are completely unfounded, the chancery court shall order the alleging party to pay all court costs and reasonable attorney's fees incurred by the defending party in responding to such allegations.

(d) (i) A court may award visitation by a parent who committed domestic or family violence only if the court finds that adequate provision for the safety of the child and the parent who is a victim of domestic or family violence can be made.

(ii) In a visitation order, a court may take any of the following actions:

1. Order an exchange of the child to occur in a protected setting;

2. Order visitation supervised in a manner to be determined by the court;

3. Order the perpetrator of domestic or family violence to attend and complete to the satisfaction of the court a program of intervention for perpetrators or other designated counseling as a condition of visitation;

4. Order the perpetrator of domestic or family violence to abstain from possession or consumption of alcohol or controlled substances during the visitation and for twenty-four (24) hours preceding the visitation;

5. Order the perpetrator of domestic or family violence to pay a fee to defray the cost of supervised visitation;

6. Prohibit overnight visitation;

7. Require a bond from the perpetrator of domestic or family violence for the return and safety of the child; or

8. Impose any other condition that is deemed necessary to provide for the safety of the child, the victim of family or domestic violence, or other family or household member.

(iii) Whether or not visitation is allowed, the court may order the address of the child or the victim of family or domestic violence to be kept confidential.

(e) The court may refer but shall not order an adult who is a victim of family or domestic violence to attend counseling relating to the victim's status or behavior as a victim, individually or with the perpetrator of domestic or family violence, as a condition of receiving custody of a child or as a condition of visitation.

(f) If a court allows a family or household member to supervise visitation, the court shall establish conditions to be followed during visitation.

SECTION 2. Section 93-5-1, Mississippi Code of 1972, is amended as follows:

93-5-1. Divorces from the bonds of matrimony may be decreed to the injured party for any one or more of the following * * * thirteen (13) causes:

First. Natural impotency.

Second. Adultery, unless it should appear that it was committed by collusion of the parties for the purpose of procuring a divorce, or unless the parties cohabited after a knowledge by complainant of the adultery.

Third. Being sentenced to any penitentiary, and not pardoned before being sent there.

Fourth. * * * Continued * * * desertion for the space of one (1) year.

Fifth. Habitual drunkenness.

Sixth. Habitual and excessive use of opium, morphine or other like drug.

Seventh. Habitual cruel and inhuman treatment, including spousal domestic abuse.

Spousal domestic abuse may be established through the reliable testimony of a single credible witness, who may be the injured party, and includes, but is not limited to:

That the injured party's spouse attempted to cause, or purposely, knowingly or recklessly caused bodily injury to the injured party, or that the injured party's spouse attempted by physical menace to put the injured party in fear of imminent serious bodily harm; or

That the injured party's spouse engaged in a pattern of behavior against the injured party of threats or intimidation, emotional or verbal abuse, forced isolation, sexual extortion or sexual abuse, or stalking or aggravated stalking as defined in Section 97-3-107, if the pattern of behavior rises above the level of unkindness or rudeness or incompatibility or want of affection.

Eighth. Having mental illness or an intellectual disability at the time of marriage, if the party complaining did not know of that infirmity.

Ninth. Marriage to some other person at the time of the pretended marriage between the parties.

Tenth. Pregnancy of the wife by another person at the time of the marriage, if the husband did not know of the pregnancy.

Eleventh. Either party may have a divorce if they are related to each other within the degrees of kindred between whom marriage is prohibited by law.

Twelfth. Incurable mental illness. However, no divorce shall be granted upon this ground unless the party with mental illness has been under regular treatment for mental illness and causes thereof, confined in an institution for persons with mental illness for a period of at least three (3) years immediately preceding the commencement of the action. However, transfer of a party with mental illness to his or her home for treatment or a trial visit on prescription or recommendation of a licensed physician, which treatment or trial visit proves unsuccessful after a bona fide effort by the complaining party to effect a cure, upon the reconfinement of the party with mental illness in an institution for persons with mental illness, shall be regular treatment for mental illness and causes thereof, and the period of time so consumed in seeking to effect a cure or while on a trial visit home shall be added to the period of actual confinement in an institution for persons with mental illness in computing the required period of three (3) years confinement immediately preceding the beginning of the action. No divorce shall be granted because of mental illness until after a thorough examination of the person with mental illness by two (2) physicians who are recognized authorities on mental diseases. One (1) of those physicians shall be either the superintendent of a state psychiatric hospital or institution or a veterans hospital for persons with mental illness in which the patient is confined, or a member of the medical staff of that hospital or institution who has had the patient in charge. Before incurable mental illness can be successfully proven as a ground for divorce, it shall be necessary that both of those physicians make affidavit that the patient is a person with mental illness at the time of the examination, and both affidavits shall be made a part of the permanent record of the divorce proceedings and shall create the prima facie presumption of incurable mental illness, such as would justify a divorce based on that ground. Service of process shall be made on the superintendent of the hospital or institution in which the defendant is a patient. If the patient is in a hospital or institution

outside the state, process shall be served by publication, as in other cases of service by publication, together with the sending of a copy by registered mail to the superintendent of the hospital or institution. In addition, process shall be served upon the next blood relative and guardian, if any. If there is no legal guardian, the court shall appoint a guardian ad litem to represent the interest of the person with mental illness. The relative or guardian and superintendent of the hospital or institution shall be entitled to appear and be heard upon any and all issues. The status of the parties as to the support and maintenance of the person with mental illness shall not be altered in any way by the granting of the divorce.

However, in the discretion of the chancery court, and in those cases as the court may deem it necessary and proper, before any such decree is granted on the ground of incurable mental illness, the complainant, when ordered by the court, shall enter into bond, to be approved by the court, in such an amount as the court may think just and proper, conditioned for the care and keeping of the person with mental illness during the remainder of his or her natural life, unless the person with mental illness has a sufficient estate in his or her own right for that purpose.

Thirteenth. Upon application of either party, the court may grant a divorce when the court finds there has been an irretrievable breakdown of the marriage and that further attempts at reconciliation are impractical or futile and not in the best interests of the parties or family.

SECTION 3. This act shall take effect and be in force from and after July 1, 2024.

Further, amend by striking the title in its entirety and inserting in lieu thereof the following:

AN ACT TO AMEND SECTION 93-5-24, MISSISSIPPI CODE OF 1972, TO PROVIDE THAT JOINT CUSTODY MAY BE AWARDED WHETHER IRRECONCILABLE DIFFERENCES OR ANY OTHER GROUND IS THE GROUND FOR DIVORCE; TO REQUIRE THE COURT TO MAKE A FINDING, ON THE RECORD, IF THE COURT AWARDS THE MOTHER PARAMOUNT PHYSICAL CUSTODY OVER THE FATHER AND ORDER A PARENTING TIME SCHEDULE THAT FAVORS BOTH PARENTS EQUALLY SUBJECT TO THE BEST INTERESTS OF THE CHILD; TO AMEND SECTION 93-5-1, MISSISSIPPI CODE OF 1972, TO DELETE THE REQUIREMENT OF WILLFUL AND OBSTINATE FROM THE GROUND OF DIVORCE FOR DESERTION; TO PROVIDE AN ADDITIONAL GROUND OF DIVORCE WHEN THE COURT FINDS THERE HAS BEEN AN IRRETRIEVABLE BREAKDOWN OF THE MARRIAGE AND THAT FURTHER ATTEMPTS AT RECONCILIATION ARE IMPRACTICAL OR FUTILE AND NOT IN THE BEST INTERESTS OF THE PARTIES OR FAMILY; AND FOR RELATED PURPOSES.

SECTION 1. Section 27-105-305, Mississippi Code of 1972, is amended as follows:

27-105-305. The board of supervisors at the regular December 1997 meeting, and annually thereafter or, in the discretion of the board of supervisors, thereafter at such other interval of time as determined by the board of supervisors, * * * up to every four (4) years, shall give notice to all financial institutions in its county whose accounts are insured by the Federal Deposit Insurance Corporation (or any successor thereto), by publication, that bids will be received from financial institutions at the following January meeting, or some subsequent meeting, for the privilege of keeping the county funds, or any part thereof, which notice shall refer by name to this article and it shall not be necessary to incorporate in the notice the provisions of this article; and at the January meeting, or a subsequent meeting as may be designated in the notice, as the case may be, the board of supervisors shall receive such bids or proposals as the financial institutions may make for the privilege of keeping the county funds, or any part thereof. The bids or proposals shall designate the kind of security as authorized by law which the financial institutions propose to give as security for funds, and the board shall cause the county funds and all other funds in the hands of the county treasurer to be deposited in the qualified financial institution or

qualified institutions proposing the best terms, taking into consideration all material aspects of the proposal, including, but not limited to, net earnings, account costs, costs of transfer of accounts from existing depositories, banking services provided and other service considerations, and meeting the requirements provided in Section 27-105-315, having in view the safety of such funds. However, if a bank submits a bid or offer to the board of supervisors to act as a depository for the county and the bid or offer, if accepted, would result in a contract in which a member of the board of supervisors would have a direct or indirect interest, the board of supervisors may elect to not open or consider any bids received and submit the matter to the State Treasurer. Upon receipt of the bids received from the board of supervisors, the State Treasurer shall open and consider the bids received, select a depository or depositories, make all decisions and take any action within the authority of the board of supervisors under this section relating to the selection of a depository or depositories, including:

(a) The selecting and opening of accounts;

(b) Approval of securities;

(c) The transfer and deposit of funds between depositories; and

(d) All other related functions.

If the board of supervisors elects to open and consider the bids or offers, it shall not open or consider any bid which, if accepted, would result in a contract in which a member of the board of supervisors would have a direct or indirect interest. The board is prohibited from designating a depository during the last year of a four-year term.

SECTION 2. Section 27-105-353, Mississippi Code of 1972, is amended as follows:

27-105-353. The board of mayor and aldermen or other municipal authorities of each and every city, town or village in the state are required to select a depository in the manner provided by law for the selection of county depositories, including the same intervals of time as counties for receiving bids from financial institutions for the privilege of holding public funds. Before being selected, a depository must be certified by the State Treasurer as meeting the capital ratio requirement specified in Section 27-105-5 or 27-105-6. An institution shall not be a qualified depository and shall not receive any municipal funds unless its ratio has been certified annually by the State Treasurer as meeting the prescribed requirement. Notwithstanding the foregoing, any financial institution whether or not meeting the prescribed ratio requirement whose accounts are insured by the Federal Deposit Insurance Corporation or any successors to that insurance corporation may receive municipal funds in an amount not exceeding the amount that is insured by that insurance corporation and may qualify as a municipal depository to the extent of that insurance as prescribed in Section 27-105-315.

SECTION 3. Section 27-105-363, Mississippi Code of 1972, which allows for counties and municipalities to follow an identical process for selecting public depositories, is hereby repealed.

SECTION 4. This act shall take effect and be in force from and after its passage.

Further, amend by striking the title in its entirety and inserting in lieu thereof the following:

AN ACT TO AMEND SECTIONS 27-105-305 AND 27-105-353, MISSISSIPPI CODE OF 1972, TO PROVIDE NECESSARY UPDATES AND TO HARMONIZE BIDDING TERMS FOR PUBLIC DEPOSITS BETWEEN COUNTIES AND MUNICIPALITIES; TO REPEAL SECTION 27-105-363, MISSISSIPPI CODE OF 1972, WHICH ALLOWS FOR

Senator DeBar called up the following entitled bill:

H. B. No. 765: MS Critical Teacher Shortage Act; extend repealer on.

Senator DeBar offered the following COMMITTEE AMENDMENT NO. 1.

Amend by striking all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. Section 37-159-1, Mississippi Code of 1972, is reenacted as follows:

37-159-1. Sections 37-159-1 through 37-159-19 shall be known and may be cited as the "Mississippi Critical Teacher Shortage Act of 1998."

SECTION 2. Section 37-159-5, Mississippi Code of 1972, is reenacted as follows:

37-159-5. The State Board of Education shall prescribe rules and regulations which, subject to available appropriations, allow for reimbursement to the state licensed teachers, from both in state and out of state, who enter into a contract for employment in a school district situated within a geographical area of the state where there exists a critical shortage of teachers, as designated by the State Board of Education, for the expense of moving when the employment necessitates the relocation of the teacher to a different geographical area than that in which the teacher resides before entering into such contract. In order to be eligible for the reimbursement, the teacher must apply to the local district and the district must obtain the prior approval from the department for reimbursement before the relocation occurs. If the reimbursement is approved, the department shall provide funds to the school district to reimburse the teacher an amount not to exceed One Thousand Dollars ($1,000.00) for the documented actual expenses incurred in the course of relocating, including the expense of any professional moving company or persons employed to assist with the move, rented moving vehicles or equipment, mileage in the amount authorized for state employees under Section 25-3-41 if the teacher used his personal vehicle or vehicles for the move, meals and such other expenses associated with the relocation in accordance with the department's established rules and regulations. No teacher may be reimbursed for moving expenses under this section on more than one (1) occasion.

Nothing in this section shall be construed to require the actual residence to which the teacher relocates to be within the boundaries of the school district which has executed a contract for employment with the teacher or within the boundaries of the area designated by the State Board of Education as the critical teacher shortage area in order for the teacher to be eligible for reimbursement for his moving expenses. However, teachers must relocate within the boundaries of the State of Mississippi.

SECTION 3. Section 37-159-7, Mississippi Code of 1972, is reenacted as follows:

37-159-7. The school board of any school district situated within a geographical area of the state where there exists a critical shortage of teachers, as designated by the State Board of Education, in its discretion, may reimburse persons who interview for employment as a licensed teacher with the district for the mileage and other actual expenses incurred in the course of travel to and from the interview by such persons at the rate authorized for county and municipal employees under Section 25-3-41. Any reimbursement by a school board under this section shall be paid from funds other than adequate education program funds.

SECTION 4. Section 37-159-9, Mississippi Code of 1972, is reenacted as follows:

37-159-9. (1) There is established the University Assisted Teacher Recruitment and Retention Grant Program within the State Department of Education. The purposes of the program shall be to attract additional qualified teachers to those geographical areas of the state where there exists a critical shortage of teachers and to retain the qualified teachers already serving as licensed teachers in geographical critical teacher shortage areas by making available scholarships to persons working towards a Master of Education

degree or an Educational Specialist degree at an institution of higher learning whose teacher education program is approved by the State Board of Education.

(2) Any institution of higher learning in the State of Mississippi which offers a Master of Education degree or an Educational Specialist degree may apply to the department for participation in the program. As part of the program, participating institutions shall collaborate with the Mississippi Teacher Center to identify, recruit and place teacher education graduates, from both within the state and out of state, in school districts situated within those areas of the state where there exists a critical shortage of teachers, as designated by the State Board of Education.

(3) The State Department of Education shall provide funds to participating institutions of higher learning for the purpose of awarding scholarships to qualified persons pursuing a Master of Education degree or an Educational Specialist degree at such institutions while rendering service to the state as a licensed teacher in a school district in a geographical area of the state where there exists a critical shortage of teachers, as approved by the State Board of Education. The financial scholarship shall be applied to the total cost for tuition, books, materials and fees at the institution in which the student is enrolled, not to exceed an amount equal to the highest total cost of tuition, books, materials and fees assessed by a state institution of higher learning during that school year. Teachers who relocate within Mississippi from out of state in order to participate in the program shall be classified as residents of the state for tuition purposes.

(4) Students awarded financial scholarships under the University Assisted Teacher Recruitment and Retention Grant Program may receive such awards for a maximum of four (4) school years; however, the maximum number of awards which may be made shall not exceed the length of time required to complete the number of academic hours necessary to obtain a Master of Education degree or an Educational Specialist degree. Financial scholarships under the program shall not be based upon an applicant's eligibility for financial aid.

(5) Persons relocating to a geographical area of the state where there exists a critical shortage of teachers, as approved by the State Board of Education, to participate in the University Assisted Teacher Recruitment and Retention Grant Program shall be eligible for reimbursement for their moving expenses to the critical teacher shortage area from the State Board of Education. The State Board of Education shall promulgate rules and regulations necessary for the administration of the relocation expense reimbursement component of the University Assisted Teacher Recruitment and Retention Grant Program.

(6) Subject to the availability of funds, the State Board of Education may provide for professional development and support services as may be necessary for the retention of teachers participating in the program in those geographical areas of the state where there exists a critical shortage of teachers.

(7) Any person participating in the program who fails to complete a program of study that will enable that person to obtain a Master of Education degree or Educational Specialist degree shall become liable immediately to the State Board of Education for the sum of all awards made to that person under the program, plus interest accruing at the current Stafford Loan rate at the time the person abrogates his participation in the program.

(8) As a condition for participation in the program, a teacher shall agree to employment as a licensed teacher in a school district located in a geographical area of the state where there exists a critical shortage of teachers, as designated by the State Board of Education, for a period of not less than three (3) years, which shall include those years of service rendered while obtaining the Master of Education degree or Educational Specialist degree. However, for any person who obtained a Baccalaureate degree in education with a financial scholarship under the Critical Needs Teacher Scholarship Program and who entered the University Assisted Teacher Recruitment and Retention

Grant Program before rendering service as a teacher, the period of employment for the purposes of this subsection shall be two (2) years, in addition to the employment commitment required under the Critical Needs Teacher Scholarship Program. Service rendered by a participant as a licensed teacher in a school district in a geographical critical teacher shortage area before that teacher becomes a participant in the program may not be considered to fulfill the employment commitment required under this subsection. Any person failing to comply with this employment commitment in any required school year shall immediately be in breach of contract and become liable immediately to the State Department of Education for the sum of all scholarships awarded and relocation expenses granted to that person, less one-third (1/3) of the amount of that sum for each year that service was rendered, or for those persons whose required period of employment is two (2) years, less one-half (1/2) of the amount of that sum for each year that service was rendered, plus interest accruing at the current Stafford Loan rate at the time the breach occurs, except in the case of a deferral for cause by the State Board of Education when there is no employment position immediately available upon the teacher's obtaining of the Master of Education degree or Educational Specialist degree. After the period of such deferral, the person shall begin or resume the required teaching duties or shall become liable to the board under this subsection. If a claim for repayment under this subsection is placed in the hands of an attorney for collection after default, then the obligor shall be liable for an additional amount equal to a reasonable attorney's fee.

(9) All funds received by the State Department of Education from the repayment of scholarship awards and relocation expenses by program participants shall be deposited in the Mississippi Critical Teacher Shortage Fund.

(10) The State Board of Education shall promulgate rules and regulations necessary for the proper administration of the University Assisted Teacher Recruitment and Retention Grant Program.

SECTION 5. Section 37-159-11, Mississippi Code of 1972, is reenacted as follows:

37-159-11. (1) There is established the Mississippi Employer-Assisted Housing Teacher Program, which shall be a special home loan program for eligible licensed teachers who render service to the state in a geographical area of the state where there exists a critical shortage of teachers, as designated by the State Board of Education. The home loan program shall be administered by the State Department of Education. The department may contract with one or more public or private entities to provide assistance in implementing and administering the program. The State Board of Education shall adopt rules and regulations regarding the implementation and administration of the program.

(2) Participation in the loan program shall be available to any licensed teacher who renders service in a geographical area of the state where there exists a critical shortage of teachers, as designated by the State Board of Education. Any person who receives a loan under the program shall be required to purchase a house and reside in a county in which the school district for which the teacher is rendering service, or any portion of the school district, is located. The maximum amount of a loan that may be made under the program to any person shall be Six Thousand Dollars ($6,000.00).

(3) Any loan made under the program to a person who actually renders service as a teacher in a geographical area of the state where there exists a critical shortage of teachers, as designated by the State Board of Education, shall be converted to an interest-free grant on the basis of one (1) year's service for one-third (1/3) of the amount of the loan. The board shall establish such rules and regulations as it deems necessary and proper to carry out the purposes and intent of this section.

(2) The board shall approve grants to full-time freshmen, sophomore, junior and senior Mississippi residents who meet the general requirements for student eligibility as provided in subsection (4) of this section.

(3) Mississippi Resident Tuition Assistance Grants shall be for Mississippi resident students from any Mississippi family whose prior year adjusted gross income (AGI) exceeds the maximum allowed to qualify for full Pell Grant eligibility and campus-based federal aid. Those Mississippi students qualifying for less than the full Pell Grant award shall receive a Mississippi Resident Tuition Assistance Grant in an amount not to exceed the maximum Pell Grant allowable for that individual student. The award shall be applied to tuition, rooms and meals, books, materials and fees not to exceed One Thousand Dollars ($1,000.00) for junior and senior students attending state institutions of higher learning in Mississippi or four-year regionally accredited, state-approved, nonprofit colleges and universities in Mississippi, and Five Hundred Dollars ($500.00) for freshmen and sophomores attending state institutions of higher learning or public community or junior colleges in Mississippi, or regionally accredited, state-approved, nonprofit two-year or four-year colleges in Mississippi, which will be prorated per term, semester or quarter of the academic year for costs of attendance, calculated according to the formula specified in subsection (8) of this section.

(4) The general requirements for initial eligibility of students for Mississippi Resident Tuition Assistance Grants consist of the following:

(a) Member of a Mississippi family whose prior year adjusted gross income (AGI) exceeds the maximum allowed to qualify for Pell Grant eligibility and campus-based federal aid.

(b) Acceptance for enrollment at any state institution of higher learning or public community or junior college located in Mississippi, or any regionally accredited, state-approved, nonprofit two-year or four-year college or university located in Mississippi and approved by the board.

(c) Completion of a secondary education as follows:

(iii) Satisfactory completion of the High School Equivalency Diploma; or

(iv) Successful completion of the International Baccalaureate Program.

(d) A minimum score of fifteen (15) on the ACT test except that any student entering a vocational or technical program of study, or who has satisfactorily completed the High School Equivalency Diploma Test and attends a community or junior college will not be required to have a test score under the ACT unless a student enrolls in courses of academic study.

(e) Any student currently enrolled in any qualified institution shall have to only meet the same requirements as students who are applying for a renewal award.

(5) By accepting a Mississippi Resident Tuition Assistance Grant, the student is attesting to the accuracy, completeness and correctness of information provided to demonstrate the student's eligibility. Falsification of such information shall result in the denial of any pending grant and revocation of any award currently held to the extent that no further payments shall be made. Any student knowingly making false statements in order to receive a grant shall be guilty of a misdemeanor punishable, upon conviction thereof, by a fine of up to Ten Thousand Dollars ($10,000.00), a prison sentence of up to one (1) year in the county jail, or both, and shall be required to return all Mississippi Resident Tuition Assistance Grants wrongfully obtained.

(6) Eligibility for renewal of Mississippi Resident Tuition Assistance Grants shall be evaluated at the end of each semester, or term, of each academic year. As a condition for renewal, a student shall:

(a) Make steady academic progress toward a certificate or degree, as outlined in the school Satisfactory Academic Progress Standards and certified by the institution's registrar.

(b) Maintain continuous enrollment for not less than two (2) semesters or three (3) quarters in each successive academic year, unless granted an exception for cause by the administering board; examples of cause may include student participation in a cooperative program, internship program or foreign study program. Assistance Grant during the following semester or trimester or term of the regular academic year.

(c) Have a cumulative grade point average of at least 2.50 calculated on a 4.0 scale at the end of each semester or trimester or term.

(7) Each student, each year, must complete a Free Application for Federal Student Aid form or a Statement of Certification as designed by the administering board to determine his/her eligibility for a Mississippi Resident Tuition Assistance Grant.

(8) (a) The amount of the Mississippi Resident Tuition Assistance Grant awarded to any one (1) student, up to the maximum amount provided in subsection (3) of this section, shall be the difference of the student's cost of attendance at his accredited college of choice and the amount of federal aid such student may receive, not to supplant but to supplement the amount of any federal aid awarded to the student. Cost of attendance is the tuition and fees of the applicable institution plus an allowance for room and meals and books and materials.

(b) Payment of the Mississippi Resident Tuition Assistance Grant shall be made payable to the recipient and the educational institution and mailed directly to the institution, to be applied first to tuition.

(9) In order for an institution to remain eligible for its students to participate in the Mississippi Resident Tuition Assistance Grant Program, the institution shall comply with the following requirements:

(a) A complete and accurate roster of the eligibility status of each awarded student shall be made to the board for each term, semester or quarter of the academic year the student receives a Mississippi Resident Tuition Assistance Grant.

(b) The institution is required to make refunds to the Mississippi Resident Tuition Assistance Grant Fund for any funds which have not been disbursed to the recipient, in the case of students who have received a grant but who terminate enrollment during the academic term, semester or quarter of the academic year if an institution's refund policies permit a student to receive a refund in such instance. The recipient shall be responsible for the refund of any funds which have been disbursed by the institution in such instance.

(c) If a student drops below full-time status but does not terminate all enrollment during the term, semester or quarter of the academic year no refund will be required for that term. However, that student is ineligible to receive the Mississippi Resident Tuition Assistance Grant during the following term, semester or quarter of the regular academic year.

(d) The board may conduct its own annual audits of any institution participating in the Mississippi Resident Tuition Assistance Grant Program. The board may suspend or revoke an institution's eligibility to receive future monies under the program if it finds that the institution has not complied with the provisions of this section. In determining a student's initial eligibility, the number of prior semesters enrolled will not be counted against the student.

(10) No student may receive a Mississippi Resident Tuition Assistance Grant for more than the equivalent semesters or quarters required to complete one (1) baccalaureate degree or one (1) certificate or associate degree program per institution.

(11) No student receiving a Mississippi Eminent Scholars Grant as provided in Section 37-106-31 shall be eligible to receive the Mississippi Resident Tuition Assistance Grant pursuant to this section unless he is eligible for such award after the Mississippi Eminent Scholars Grant has been considered by the board when conducting an

assessment of the financial resources available to the student. In no case shall any student receive any combination of student financial aid that would exceed the cost of attendance, as defined in subsection (8)(a).

For purposes of this section, certificated shall mean, but not be limited to, all postsecondary vocational programs in eligible institutions approved by the board.

Further, amend the title to conform.

It is the intent of the Legislature that any state funds made available for salaries of licensed personnel in excess of the funds paid for such salaries for the 1986-1987 school year shall be paid to licensed personnel pursuant to a personnel appraisal and compensation system implemented by the State Board of Education. The State Board of

Education shall have the authority to adopt and amend rules and regulations as are necessary to establish, administer and maintain the system.

All teachers employed on a full-time basis shall be paid a minimum salary in accordance with the above scale. However, no school district shall receive any funds under this section for any school year during which the local supplement paid to any individual teacher shall have been reduced to a sum less than that paid to that individual teacher for performing the same duties from local supplement during the immediately preceding school year. The amount actually spent for the purposes of group health and/or life insurance shall be considered as a part of the aggregate amount of local supplement but shall not be considered a part of the amount of individual local supplement.

The level of professional training of each teacher to be used in establishing the salary allotment for the teachers for each year shall be determined by the type of valid teacher's license issued to those teachers on or before October 1 of the current school year. However, school districts are authorized, in their discretion, to negotiate the salary levels applicable to licensed employees who are receiving retirement benefits from the retirement system of another state, and the annual experience increment provided above in Section 37-19-7 shall not be applicable to any such retired certificated employee.

(2) (a) The following employees shall receive an annual salary supplement in the amount of Six Thousand Dollars ($6,000.00), plus fringe benefits, in addition to any other compensation to which the employee may be entitled:

(i) Any licensed teacher who has met the requirements and acquired a Master Teacher certificate from the National Board for Professional Teaching Standards and who is employed by a local school board or the State Board of Education as a teacher and not as an administrator. Such teacher shall submit documentation to the State Department of Education that the certificate was received prior to October 15 in order to be eligible for the full salary supplement in the current school year, or the teacher shall submit such documentation to the State Department of Education prior to February 15 in order to be eligible for a prorated salary supplement beginning with the second term of the school year.

(ii) A licensed nurse who has met the requirements and acquired a certificate from the National Board for Certification of School Nurses, Inc., and who is employed by a local school board or the State Board of Education as a school nurse and not as an administrator. The licensed school nurse shall submit documentation to the State Department of Education that the certificate was received before October 15 in order to be eligible for the full salary supplement in the current school year, or the licensed school nurse shall submit the documentation to the State Department of Education before February 15 in order to be eligible for a prorated salary supplement beginning with the second term of the school year.

(iii) Any licensed school counselor who has met the requirements and acquired a National Certified School Counselor (NCSC) endorsement from the National Board of Certified Counselors and who is employed by a local school board or the State Board of Education as a counselor and not as an administrator. Such licensed school counselor shall submit documentation to the State Department of Education that the endorsement was received prior to October 15 in order to be eligible for the full salary supplement in the current school year, or the licensed school counselor shall submit such documentation to the State Department of Education prior to February 15 in order to be eligible for a prorated salary supplement beginning with the second term of the school year. However, any school counselor who started the National Board for Professional Teaching Standards process for school counselors between June 1, 2003, and June 30, 2004, and completes the requirements and acquires the Master Teacher certificate shall be entitled to the master teacher supplement, and those counselors who complete the process shall be entitled to a one-time reimbursement for the actual cost of the process as outlined in paragraph (b) of this subsection.

(iv) Any licensed speech-language pathologist and audiologist who has met the requirements and acquired a Certificate of Clinical Competence from the American Speech-Language-Hearing Association and any certified academic language therapist (CALT) who has met the certification requirements of the Academic Language Therapy Association and who is employed by a local school board. The licensed speech-language pathologist and audiologist and certified academic language therapist shall submit documentation to the State Department of Education that the certificate or endorsement was received before October 15 in order to be eligible for the full salary supplement in the current school year, or the licensed speech-language pathologist and audiologist and certified academic language therapist shall submit the documentation to the State Department of Education before February 15 in order to be eligible for a prorated salary supplement beginning with the second term of the school year.

(v) Any licensed athletic trainer who has met the requirements and acquired Board Certification for the Athletic Trainer from the Board of Certification, Inc., and who is employed by a local school board or the State Board of Education as an athletic trainer and not as an administrator. The licensed athletic trainer shall submit documentation to the State Department of Education that the certificate was received before October 15 in order to be eligible for the full salary supplement in the current school year, or the licensed athletic trainer shall submit the documentation to the State Department of Education before February 15 in order to be eligible for a prorated salary supplement beginning with the second term of the school year.

(b) An employee shall be reimbursed for the actual cost of completing each component of acquiring the certificate or endorsement, excluding any costs incurred for postgraduate courses, not to exceed Five Hundred Dollars ($500.00) for each component, not to exceed four (4) components, for a teacher, school counselor or speech-language pathologist and audiologist, regardless of whether or not the process resulted in the award of the certificate or endorsement. A local school district or any private individual or entity may pay the cost of completing the process of acquiring the certificate or endorsement for any employee of the school district described under paragraph (a), and the State Department of Education shall reimburse the school district for such cost, regardless of whether or not the process resulted in the award of the certificate or endorsement. If a private individual or entity has paid the cost of completing the process of acquiring the certificate or endorsement for an employee, the local school district may agree to directly reimburse the individual or entity for such cost on behalf of the employee.

(c) All salary supplements, fringe benefits and process reimbursement authorized under this subsection shall be paid directly by the State Department of Education to the local school district and shall be in addition to its adequate education program allotments and not a part thereof in accordance with regulations promulgated by the State Board of Education. Local school districts shall not reduce the local supplement paid to any employee receiving such salary supplement, and the employee shall receive any local supplement to which employees with similar training and experience otherwise are entitled. However, an educational employee shall receive the salary supplement in the amount of Six Thousand Dollars ($6,000.00) for only one (1) of the qualifying certifications authorized under paragraph (a) of this subsection. No school district shall provide more than one (1) annual salary supplement under the provisions of this subsection to any one (1) individual employee holding multiple qualifying national certifications.

(d) If an employee for whom such cost has been paid, in full or in part, by a local school district or private individual or entity fails to complete the certification or endorsement process, the employee shall be liable to the school district or individual or entity for all amounts paid by the school district or individual or entity on behalf of that employee toward his or her certificate or endorsement.

(3) The following employees shall receive an annual salary supplement in the amount of Four Thousand Dollars ($4,000.00), plus fringe benefits, in addition to any other compensation to which the employee may be entitled:

Effective July 1, 2016, if funds are available for that purpose, any licensed teacher who has met the requirements and acquired a Master Teacher Certificate from the National Board for Professional Teaching Standards and who is employed in a public school district located in one (1) of the following counties: Claiborne, Adams, Jefferson, Wilkinson, Amite, Bolivar, Coahoma, Leflore, Quitman, Sharkey, Issaquena, Sunflower, Washington, Holmes, Yazoo and Tallahatchie. The salary supplement awarded under the provisions of this subsection (3) shall be in addition to the salary supplement awarded under the provisions of subsection (2) of this section.

Teachers who meet the qualifications for a salary supplement under this subsection (3) who are assigned for less than one (1) full year or less than full time for the school year shall receive the salary supplement in a prorated manner, with the portion of the teacher's assignment to the critical geographic area to be determined as of June 15th of the school year.

(4) (a) This section shall be known and may be cited as the "Mississippi Performance-Based Pay (MPBP)" plan. In addition to the minimum base pay described in this section, only after full funding of MAEP and if funds are available for that purpose, the State of Mississippi may provide monies from state funds to school districts for the purposes of rewarding licensed teachers, administrators and nonlicensed personnel at individual schools showing improvement in student test scores. The MPBP plan shall be developed by the State Department of Education based on the following criteria:

(i) It is the express intent of this legislation that the MPBP plan shall utilize only existing standards of accreditation and assessment as established by the State Board of Education.

(ii) To ensure that all of Mississippi's teachers, administrators and nonlicensed personnel at all schools have equal access to the monies set aside in this section, the MPBP program shall be designed to calculate each school's performance as determined by the school's increase in scores from the prior school year. The MPBP program shall be based on a standardized scores rating where all levels of schools can be judged in a statistically fair and reasonable way upon implementation. At the end of each year, after all student achievement scores have been standardized, the State Department of Education shall implement the MPBP plan.

(iii) To ensure all teachers cooperate in the spirit of teamwork, individual schools shall submit a plan to the local school district to be approved before the beginning of each school year beginning July 1, 2008. The plan shall include, but not be limited to, how all teachers, regardless of subject area, and administrators will be responsible for improving student achievement for their individual school.

(b) The State Board of Education shall develop the processes and procedures for designating schools eligible to participate in the MPBP. State assessment results, growth in student achievement at individual schools and other measures deemed appropriate in designating successful student achievement shall be used in establishing MPBP criteria.

(5) (a) If funds are available for that purpose, each school in Mississippi shall have mentor teachers, as defined by Sections 37-9-201 through 37-9-213, who shall receive additional base compensation provided for by the State Legislature in the amount of One Thousand Dollars ($1,000.00) per each beginning teacher that is being mentored. The additional state compensation shall be limited to those mentor teachers that provide mentoring services to beginning teachers. For the purposes of such funding, a beginning teacher shall be defined as any teacher in any school in Mississippi that has less than one

(1) year of classroom experience teaching in a public school. For the purposes of such funding, no full-time academic teacher shall mentor more than two (2) beginning teachers.

(b) To be eligible for this state funding, the individual school must have a classroom management program approved by the local school board.

(6) Effective with the 2014-2015 school year, the school districts participating in the Pilot Performance-Based Compensation System pursuant to Section 37-19-9 may award additional teacher and administrator pay based thereon.

_____

Senator DeBar called up the following entitled bill:

H. B. No. 1696: Failing schools; revise processes relating to being placed into a District of Transformation and abolishing the MS Achievement School District.

Senator DeBar offered the following COMMITTEE AMENDMENT NO. 1.

Amend by striking all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. Section 37-17-6, Mississippi Code of 1972, is amended as follows:

37-17-6. (1) The State Board of Education, acting through the Commission on School Accreditation, shall establish and implement a permanent performance-based accreditation system, and all noncharter public elementary and secondary schools shall be accredited under this system.

(2) * * * The State Board of Education, acting through the Commission on School Accreditation, shall require school districts to provide school classroom space that is air-conditioned as a minimum requirement for accreditation.

(3) (a) * * * The State Board of Education, acting through the Commission on School Accreditation, shall require that school districts employ certified school librarians according to the following formula:

Number of Students Per School Library	Number of Certified School Librarians
0 - 499 Students	1/2 Full-time Equivalent Certified Librarian
500 or More Students	1 Full-time Certified Librarian

(b) The State Board of Education, however, may increase the number of positions beyond the above requirements.

(c) The assignment of certified school librarians to the particular schools shall be at the discretion of the local school district. No individual shall be employed as a certified school librarian without appropriate training and certification as a school librarian by the State Department of Education.

(d) School librarians in the district shall spend at least fifty percent (50%) of direct work time in a school library and shall devote no more than one-fourth (1/4) of the workday to administrative activities that are library related.

(e) Nothing in this subsection shall prohibit any school district from employing more certified school librarians than are provided for in this section.

(f) Any additional millage levied to fund school librarians required for accreditation under this subsection shall be included in the tax increase limitation set forth in Sections 37-57-105 and 37-57-107 and shall not be deemed a new program for purposes of the limitation.

(4) * * * The State Board of Education shall implement the performance-based accreditation system for school districts and for individual noncharter public schools which shall include the following:

(a) High expectations for students and high standards for all schools, with a focus on the basic curriculum;

(b) Strong accountability for results with appropriate local flexibility for local implementation;

(c) A process to implement accountability at both the school district level and the school level;

(d) Individual schools shall be held accountable for student growth and performance;

(e) Set annual performance standards for each of the schools of the state and measure the performance of each school against itself through the standard that has been set for it;

(f) A determination of which schools exceed their standards and a plan for providing recognition and rewards to those schools;

(g) A determination of which schools are failing to meet their standards and a determination of the appropriate role of the State Board of Education and the State Department of Education in providing assistance and initiating possible intervention. A failing district is a district that fails to meet both the absolute student achievement standards and the rate of annual growth expectation standards as set by the State Board of Education for two (2) consecutive years. The State Board of Education shall establish the level of benchmarks by which absolute student achievement and growth expectations shall be assessed. In setting the benchmarks for school districts, the State Board of Education may also take into account such factors as graduation rates, dropout rates, completion rates, the extent to which the school or district employs qualified teachers in every classroom, and any other factors deemed appropriate by the State Board of Education. The State Board of Education, acting through the State Department of Education, shall apply a simple "A," "B," "C," "D" and "F" designation to the current school and school district statewide accountability performance classification labels * * * and in the school, district and state report cards required under state and federal law. * * * The State Board of Education, acting through the State Department of Education, is further authorized and directed to change the school and school district accreditation rating system to a simple "A," "B," "C," "D," and "F" designation based on a combination of student achievement scores and student growth as measured by the statewide testing programs developed by the State Board of Education pursuant to Chapter 16, Title 37, Mississippi Code of 1972. In any statute or regulation containing the former accreditation designations, the new designations shall be applicable; and

(h) Development of a comprehensive student assessment system to implement these requirements * * *.

* * *

(5) (a) * * * The State Department of Education, acting through the Mississippi Commission on School Accreditation, shall * * * implement a single "A" through "F" school and school district accountability system complying with applicable federal and state requirements in order to reach the following educational goals:

(i) To mobilize resources and supplies to ensure that all students exit third grade reading on grade level by 2015;

(ii) To reduce the student dropout rate to thirteen percent (13%) by 2015; and

(iii) To have sixty percent (60%) of students scoring proficient and advanced on the assessments of the Common Core State Standards by 2016 with incremental increases of three percent (3%) each year thereafter.

(b) The State Department of Education shall combine the state school and school district accountability system with the federal system in order to have a single system.

(c) The State Department of Education shall establish five (5) performance categories ("A," "B," "C," "D" and "F") for the accountability system based on the following criteria:

(i) Student Achievement: the percent of students proficient and advanced on the current state assessments;

(ii) Individual student growth: the percent of students making one (1) year's progress in one (1) year's time on the state assessment, with an emphasis on the progress of the lowest twenty-five percent (25%) of students in the school or district;

(iii) Four-year graduation rate: the percent of students graduating with a standard high school diploma in four (4) years, as defined by federal regulations;

(iv) Categories shall identify schools as Reward ("A" schools), Focus ("D" schools) and Priority ("F" schools). If at least five percent (5%) of schools in the state are not graded as "F" schools, the lowest five percent (5%) of school grade point designees will be identified as Priority schools. If at least ten percent (10%) of schools in the state are not graded as "D" schools, the lowest ten percent (10%) of school grade point designees will be identified as Focus schools;

(v) The State Department of Education shall discontinue the use of Star School, High-Performing, Successful, Academic Watch, Low-Performing, At-Risk of Failing and Failing school accountability designations;

(vi) The system shall include the federally compliant four-year graduation rate in school and school district accountability system calculations. Graduation rate will apply to high school and school district accountability ratings as a compensatory component. The system shall discontinue the use of the High School Completer Index (HSCI);

(vii) The school and school district accountability system shall incorporate a standards-based growth model, in order to support improvement of individual student learning;

(viii) The State Department of Education shall discontinue the use of the Quality Distribution Index (QDI);

(ix) The State Department of Education shall determine feeder patterns of schools that do not earn a school grade because the grades and subjects taught at the school do not have statewide standardized assessments needed to calculate a school grade. Upon determination of the feeder pattern, the department shall notify schools and school districts prior to the release of the school grades beginning in 2013. Feeder schools will be assigned the accountability designation of the school to which they provide students;

(x) Standards for student, school and school district performance will be increased when student proficiency is at a seventy-five percent (75%) and/or when sixty-five percent (65%) of the schools and/or school districts are earning a grade of "B" or higher, in order to raise the standard on performance after targets are met;

(xi) The system shall include student performance on the administration of a career-readiness assessment, such as, but not limited to, the ACT WorkKeys Assessment, deemed appropriate by the Mississippi Department of Education working in coordination with the Office of Workforce Development.

(6) Nothing in this section shall be deemed to require a nonpublic school that receives no local, state or federal funds for support to become accredited by the State Board of Education.

(7) The State Board of Education shall create an accreditation audit unit under the Commission on School Accreditation to determine whether schools are complying with accreditation standards.

(8) The State Board of Education shall be specifically authorized and empowered to withhold adequate education program fund allocations, whichever is applicable, to any public school district for failure to timely report student, school personnel and fiscal data necessary to meet state and/or federal requirements.

(9) [Deleted]

(10) The State Board of Education shall establish, for those school districts failing to meet accreditation standards, a program of development to be complied with in order to receive state funds, except as otherwise provided in subsection (15) of this section when the Governor has declared a state of emergency in a school district or as otherwise provided in Section 206, Mississippi Constitution of 1890. The state board, in establishing these standards, shall provide for notice to schools and sufficient time and aid to enable schools to attempt to meet these standards, unless procedures under subsection (15) of this section have been invoked.

(11) * * * The State Board of Education shall be charged with the implementation of the program of development in each applicable school district as follows:

(a) Develop an impairment report for each district failing to meet accreditation standards in conjunction with school district officials;

(b) Notify any applicable school district failing to meet accreditation standards that it is on probation until corrective actions are taken or until the deficiencies have been removed. The local school district shall develop a corrective action plan to improve its deficiencies. For district academic deficiencies, the corrective action plan for each such school district shall be based upon a complete analysis of the following: student test data, student grades, student attendance reports, student dropout data, existence and other relevant data. The corrective action plan shall describe the specific measures to be taken by the particular school district and school to improve: (i)

instruction; (ii) curriculum; (iii) professional development; (iv) personnel and classroom organization; (v) student incentives for performance; (vi) process deficiencies; and (vii) reporting to the local school board, parents and the community. The corrective action plan shall describe the specific individuals responsible for implementing each component of the recommendation and how each will be evaluated. All corrective action plans shall be provided to the State Board of Education as may be required. The decision of the State Board of Education establishing the probationary period of time shall be final;

(c) Offer, during the probationary period, technical assistance to the school district in making corrective actions. * * * Subject to * * * appropriations, the State Department of Education shall provide technical and/or financial assistance to all such school districts in order to implement each measure identified in that district's corrective action plan through professional development and on-site assistance. Each such school district shall apply for and utilize all available federal funding in order to support its corrective action plan in addition to state funds made available under this paragraph;

(d) Assign department personnel or contract, in its discretion, with the institutions of higher learning or other appropriate private entities with experience in the academic, finance and other operational functions of schools to assist school districts;

(e) Provide for publication of public notice at least one time during the probationary period, in a newspaper published within the jurisdiction of the school district failing to meet accreditation standards, or if no newspaper is published therein, then in a newspaper having a general circulation therein. The publication shall include the following: declaration of school system's status as being on probation; all details relating to the impairment report; and other information as the State Board of Education deems appropriate. Public notices issued under this section shall be subject to Section 13-3-31 and not contrary to other laws regarding newspaper publication.

(12) (a) If the recommendations for corrective action are not taken by the local school district or if the deficiencies are not removed by the end of the probationary period, the Commission on School Accreditation shall conduct a hearing to allow the affected school district to present evidence or other reasons why its accreditation should not be withdrawn. Additionally, if the local school district violates accreditation standards that have been determined by the policies and procedures of the State Board of Education to be a basis for withdrawal of school district's accreditation without a probationary period, the Commission on School Accreditation shall conduct a hearing to allow the affected school district to present evidence or other reasons why its accreditation should not be withdrawn. After its consideration of the results of the hearing, the Commission on School Accreditation shall be authorized, with the approval of the State Board of Education, to withdraw the accreditation of a public school district, and issue a request to the Governor that a state of emergency be declared in that district.

(b) (i) If the State Board of Education and the Commission on School Accreditation determine that an extreme emergency situation exists in a school district that jeopardizes the safety, security or educational interests of the children enrolled in the schools in that district and that emergency situation is believed to be related to a serious violation or violations of accreditation standards or state or federal law, * * * the State Board of Education may request the Governor to declare a state of emergency in that school district. For purposes of this paragraph, the declarations of a state of emergency * * * may include the school district's serious failure to meet minimum academic standards, as evidenced by a continued pattern of poor student performance, or impairments related to a lack of financial resources.

(ii) If the State Board of Education determines that a public school or district in the state which, during each of two (2) consecutive school years or during two (2) of three (3) consecutive school years, receives an "F" designation by the State Board of Education under the accountability rating system or has been persistently failing as defined by the State Board of Education; or if the State Board of Education determines

that a public school or district in the state which, during each of four (4) consecutive school years, receives a "D" or "F" designation by the State Board of Education under the accountability rating system or has been persistently failing as defined by the State Board of Education; or if more than fifty percent (50%) of the schools within a school district are designated as Schools-At-Risk in any one (1) year, then the board may place such school or district into a District of Transformation. The State Board of Education shall take over only the number of schools and districts for which it has the capacity to serve. The State Board of Education shall adopt rules and regulations governing any additional requirements for placement into a District of Transformation and the operation thereof. School districts or schools that are eligible to be placed into a District of Transformation due to poor academic performance but are not absorbed due to the capacity of the State Board of Education, shall develop and implement a district improvement plan with prescriptive guidance and support from the Mississippi Department of Education, with the goal of helping the district improve student achievement. Failure of the school board, superintendent and school district staff to implement the plan with fidelity and participate in the activities provided as support by the department shall result in the school district retaining its eligibility for placement into a District of Transformation.

(iii) If the State Board of Education determined that a school district is impaired with a serious lack of financial resources, the State Board of Education may place the school district into a District of Transformation. If a school district is placed into a District of Transformation for financial reasons, the school district shall be required to reimburse the state for any costs incurred by the state on behalf of the school district.

(c) Whenever the Governor declares a state of emergency in a school district in response to a request made under paragraph (a) or (b) of this subsection, or when the State Board of Education places a school district into a District of Transformation due to poor academic performance or financial reasons, the State Board of Education may take one or more of the following actions:

(i) Declare a state of emergency, under which some or all of state funds can be escrowed except as otherwise provided in Section 206, Constitution of 1890, until the board determines corrective actions are being taken or the deficiencies have been removed, or that the needs of students warrant the release of funds. The funds may be released from escrow for any program which the board determines to have been restored to standard even though the state of emergency may not as yet be terminated for the district as a whole;

(ii) Override any decision of the local school board or superintendent of education, or both, concerning the management and operation of the school district, or initiate and make decisions concerning the management and operation of the school district;

(iii) Assign an interim superintendent, or in its discretion, contract with a private entity with experience in the academic, finance and other operational functions of schools and school districts, who will have those powers and duties prescribed in subsection (15) of this section;

(iv) Grant transfers to students who attend this school district so that they may attend other accredited schools or districts in a manner that is not in violation of state or federal law;

(v) For states of emergency declared under paragraph (a) only, if the accreditation deficiencies are related to the fact that the school district is too small, with too few resources, to meet the required standards and if another school district is willing to accept those students, abolish that district and assign that territory to another school district or districts. If the school district has proposed a voluntary consolidation with another school district or districts, then if the State Board of Education finds that it is in the best interest of the pupils of the district for the consolidation to proceed, the voluntary

consolidation shall have priority over any such assignment of territory by the State Board of Education;

(vi) For * * * actions taken pursuant to paragraph (b) only, reduce local supplements paid to school district employees, including, but not limited to, instructional personnel, assistant teachers and extracurricular activities personnel, if the district's impairment is related to a lack of financial resources, but only to an extent that will result in the salaries being comparable to districts similarly situated, as determined by the State Board of Education;

(vii) For * * * actions taken pursuant to paragraph (b) only, the State Board of Education may take any action as prescribed in Section 37-17-13.

(d) At the time that satisfactory corrective action has been taken in a school district in which a state of emergency has been declared, the State Board of Education may request the Governor to declare that the state of emergency no longer exists in the district.

(e) The parent or legal guardian of a school-age child who is enrolled in a school district whose accreditation has been withdrawn by the Commission on School Accreditation and without approval of that school district may file a petition in writing to a school district accredited by the Commission on School Accreditation for a legal transfer. The school district accredited by the Commission on School Accreditation may grant the transfer according to the procedures of Section 37-15-31(1)(b). In the event the accreditation of the student's home district is restored after a transfer has been approved, the student may continue to attend the transferee school district. The per-pupil amount of the adequate education program allotment, including the collective "add-on program" costs for the student's home school district shall be transferred monthly to the school district accredited by the Commission on School Accreditation that has granted the transfer of the school-age child.

(f) Upon the declaration of a state of emergency for any school district in which the Governor has previously declared a state of emergency, the State Board of Education may either:

(i) Place the school district into district transformation, in which the school district shall remain until it has fulfilled all conditions related to district transformation. If the district was assigned an accreditation rating of "D" or "F" when placed into district transformation, the district shall be eligible to return to local control when the school district has attained a "C" rating or higher for * * * three (3) consecutive years * * *;

(ii) Abolish the school district and administratively consolidate the school district with one or more existing school districts;

(iii) Reduce the size of the district and administratively consolidate parts of the district, as determined by the State Board of Education. However, no school district which is not in district transformation shall be required to accept additional territory over the objection of the district; or

(iv) Require the school district to develop and implement a district improvement plan with prescriptive guidance and support from the State Department of Education, with the goal of helping the district improve student achievement. Failure of the school board, superintendent and school district staff to implement the plan with fidelity and participate in the activities provided as support by the department shall result in the school district retaining its eligibility for district transformation.

* * *

(13) Upon the declaration of a state of emergency in a school district under subsection (12) of this section, or upon the State Board of Education's placement of a school district into a District of Transformation for academic or financial reasons, the Commission on School Accreditation shall be responsible for public notice at least once a week for at least three (3) consecutive weeks in a newspaper published within the jurisdiction of the school district failing to meet accreditation standards, or if no newspaper is published therein, then in a newspaper having a general circulation therein. The size of the notice shall be no smaller than one-fourth (1/4) of a standard newspaper page and shall be printed in bold print. If an interim superintendent has been appointed for the school district, the notice shall begin as follows: "By authority of Section 37-17-6, Mississippi Code of 1972, as amended, adopted by the Mississippi Legislature during the 1991 Regular Session, this school district (name of school district) is hereby placed under the jurisdiction of the State Department of Education acting through its appointed interim superintendent (name of interim superintendent)."

The notice also shall include, in the discretion of the State Board of Education, any or all details relating to the school district's emergency status, including the declaration of a state of emergency in the school district and a description of the district's impairment deficiencies, conditions of any district transformation status and corrective actions recommended and being taken. Public notices issued under this section shall be subject to Section 13-3-31 and not contrary to other laws regarding newspaper publication.

Upon termination of * * * a school district in a District of Transformation, the Commission on School Accreditation shall cause notice to be published in the school district in the same manner provided in this section, to include any or all details relating to the corrective action taken in the school district that resulted in the termination of the state of emergency.

(14) The State Board of Education or the Commission on School Accreditation shall have the authority to require school districts to produce the necessary reports, correspondence, financial statements, and any other documents and information necessary to fulfill the requirements of this section.

Nothing in this section shall be construed to grant any individual, corporation, board or interim superintendent the authority to levy taxes except in accordance with presently existing statutory provisions.

(15) (a) Whenever the Governor declares a state of emergency in a school district in response to a request made under subsection (12) of this section, or when the State Board of Education places a school district into a District of Transformation for academic or financial reasons, the State Board of Education, in its discretion, may assign an interim superintendent to the school district, or in its discretion, may contract with an appropriate private entity with experience in the academic, finance and other operational functions of schools and school districts, who will be responsible for the administration, management and operation of the school district, including, but not limited to, the following activities:

(i) Approving or disapproving all financial obligations of the district, including, but not limited to, the employment, termination, nonrenewal and reassignment of all licensed and nonlicensed personnel, contractual agreements and purchase orders, and approving or disapproving all claim dockets and the issuance of checks; in approving or disapproving employment contracts of superintendents, assistant superintendents or principals, the interim superintendent shall not be required to comply with the time limitations prescribed in Sections 37-9-15 and 37-9-105;

(ii) Supervising the day-to-day activities of the district's staff, including reassigning the duties and responsibilities of personnel in a manner which, in the determination of the interim superintendent, will best suit the needs of the district;

(iii) Reviewing the district's total financial obligations and operations and making recommendations to the district for cost savings, including, but not limited to, reassigning the duties and responsibilities of staff;

(iv) Attending all meetings of the district's school board and administrative staff;

(v) Approving or disapproving all athletic, band and other extracurricular activities and any matters related to those activities;

(vi) Maintaining a detailed account of recommendations made to the district and actions taken in response to those recommendations;

(vii) Reporting periodically to the State Board of Education on the progress or lack of progress being made in the district to improve the district's impairments during the state of emergency; and

(viii) Appointing a parent advisory committee, comprised of parents of students in the school district that may make recommendations to the interim superintendent concerning the administration, management and operation of the school district.

The cost of the salary of the interim superintendent and any other actual and necessary costs related to district transformation status paid by the State Department of Education shall be reimbursed by the local school district from funds other than adequate education program funds. The department shall submit an itemized statement to the superintendent of the local school district for reimbursement purposes, and any unpaid balance may be withheld from the district's adequate education program funds. In the alternative, the local school district may pay the cost of the salary of the interim superintendent.

At the time that the Governor, in accordance with the request of the State Board of Education, declares that the state of emergency no longer exists in a school district, the * * * interim superintendent assigned to the district shall * * * remain in place for a period of two (2) years and shall work alongside the newly reconstituted school board. A new superintendent may be hired by the newly reconstituted board after the one (1) year state of emergency no longer exists, but he or she shall serve as deputy to the interim superintendent while the interim superintendent is assigned to the district.

(b) In order to provide loans to school districts under a state of emergency or in district transformation status that have impairments related to a lack of financial resources, the School District Emergency Assistance Fund is created as a special fund in the State Treasury into which monies may be transferred or appropriated by the Legislature from any available public education funds. Funds in the School District Emergency Assistance Fund up to a maximum balance of Three Million Dollars ($3,000,000.00) annually shall not lapse but shall be available for expenditure in subsequent years subject to approval of the State Board of Education. Any amount in the fund in excess of Three Million Dollars ($3,000,000.00) at the end of the fiscal year shall lapse into the State General Fund or the Education Enhancement Fund, depending on the source of the fund.

The State Board of Education may loan monies from the School District Emergency Assistance Fund to a school district that is under a state of emergency or in district transformation status, in those amounts, as determined by the board, that are necessary to correct the district's impairments related to a lack of financial resources. The loans shall be evidenced by an agreement between the school district and the State Board of Education and shall be repayable in principal, without necessity of interest, to the School District Emergency Assistance Fund by the school district from any allowable funds that are available. The total amount loaned to the district shall be due and payable within five

(5) years after the impairments related to a lack of financial resources are corrected. If a school district fails to make payments on the loan in accordance with the terms of the agreement between the district and the State Board of Education, the State Department of Education, in accordance with rules and regulations established by the State Board of Education, may withhold that district's adequate education program funds in an amount and manner that will effectuate repayment consistent with the terms of the agreement; the funds withheld by the department shall be deposited into the School District Emergency Assistance Fund.

The State Board of Education shall develop a protocol that will outline the performance standards and requisite timeline deemed necessary for extreme emergency measures. If the State Board of Education determines that an extreme emergency exists, simultaneous with the powers exercised in this subsection, it shall take immediate action against all parties responsible for the affected school districts having been determined to be in an extreme emergency. The action shall include, but not be limited to, initiating civil actions to recover funds and criminal actions to account for criminal activity. Any funds recovered by the State Auditor or the State Board of Education from the surety bonds of school officials or from any civil action brought under this subsection shall be applied toward the repayment of any loan made to a school district hereunder.

Until June 30, 2025, preceding the effective date of the required transition of school districts in the Mississippi Achievement School District into Districts of Transformation, the districts shall remain under the authority and control of the Mississippi Achievement School District and the State Board of Education.

(2) From and after July 1, 2024, no local school district shall be placed into the Mississippi Achievement School District and effective July 1, 2025, the Mississippi Achievement School District shall be dissolved.

(3) On or before September 1, 2024, the State Board of Education shall provide the Mississippi Achievement School District with notice and instructions regarding the timetable for actions to be taken to comply with the transition of those local schools into Districts of Transformation.

(4) A declaration of a state of emergency shall not be required by the Governor for the two (2) districts to transition from the Mississippi Achievement School District placement into a District of Transformation; however, the two (2) districts shall be required to comply with any and all obligations and laws as required by other Districts of Transformation and the State Board of Education shall have all the authorities granted to it in Sections 37-17-6 and 37-17-13, including the assignment of an interim superintendent to the Districts of Transformation, or in its discretion, contracting with an appropriate private entity with experience in the academic, finance and other operational functions of schools and school districts, who will be responsible for the administration, management and operation of the school district in accordance with Section 37-17-6(15), and the determination of when a District of Transformation is ready to be reconstituted, reorganized, and returned to local control.

SECTION 3. Section 37-17-13, Mississippi Code of 1972, is amended as follows:

37-17-13. (1) Whenever the Governor declares a state of emergency in a school district in response to a certification by the State Board of Education and the Commission on School Accreditation made under Section 37-17-6(12)(b), or when the State Board of Education places a school district into a District of Transformation for academic or financial reasons under Section 37-17-6 (12)(b), the State Board of Education, in addition to any actions taken under Section 37-17-6, * * * shall abolish the school district and assume control and administration of the schools formerly constituting the district, and appoint an interim superintendent to carry out this purpose under the direction of the State Board of Education. In such case, the State Board of Education shall have all powers which were held by the previously existing school board, and the previously existing superintendent of schools or county superintendent of education, including, but not limited to, those enumerated in Section 37-7-301, and the authority to request tax levies from the appropriate governing authorities for the support of the schools and to receive and expend the tax funds as provided by Section 37-57-1 et seq. and Section 37-57-105 et seq.

(2) When a school district is abolished under this section, loans from the School District Emergency Assistance Fund may be made by the State Board of Education for the use and benefit of the schools formerly constituting the district in accordance with the procedures set forth in Section 37-17-6(15) for such loans to the district. The abolition of a school district under this section shall not impair or release the property of that school district from liability for the payment of the loan indebtedness, and it shall be the duty of the appropriate governing authorities to levy taxes on the property of the district so abolished from year to year according to the terms of the indebtedness until same shall be fully paid.

* * *

(* * *3) After a local school board is abolished by the State Board of Education * * *, at such time the State Board of Education determines that the impairments are being substantially corrected and the responsibility of the district transformation in such district upon the conclusion of the final scholastic year in which a district has maintained a "C" accountability rating for * * * three (3) consecutive years * * *, the State Board of Education may appoint a new five-member board for the administration of the school district and shall notify the local county board of supervisors and/or municipal governing authority of such appointment, spreading the names of the new school board members on its minutes. The new local school board members shall be residents of the school district. The new local school board members appointed by the State Board of Education may serve in an advisory capacity to the interim superintendent for its first year of service and thereafter shall have full responsibility to administer the school district.

Thirty (30) days prior to the end of the first year of office as an advisory board, each member shall draw lots to determine when the members shall rotate off the board as follows: one (1) member shall serve a one-year term of office; one (1) member shall serve a two-year term of office; one (1) member shall serve a three-year term of office; one (1) member shall serve a four-year term of office; and one (1) member shall serve a five-year term of office. At that time, the State Board of Education shall notify the appropriate board of supervisors or municipal governing authority of this action and request them to provide for the election or appointment of school board members at the end of the terms of office in the manner provided by law, in order for the local residents of the school district to select a new school board on a phased-in basis. In such situations, the Governor will set the date of any necessary special election which shall be conducted by the county election commission. During the new school board's first two years administering the school district, the interim superintendent shall continue to serve alongside the school board. The State Board of Education shall * * * request the new school board to provide for the appointment of a superintendent to govern the reconstituted or reorganized school district * * * one (1) year after the new school board's first year of administering the school district. The new superintendent shall serve as deputy to the interim superintendent while the interim superintendent is assigned to the district. A board member or superintendent in office at the time the Governor declares a state of emergency in a school district, or when the State Board of Education places a school district into a District of Transformation due to academic or financial reasons, shall not be eligible to serve in the office of school board member or superintendent for the school district reconstituted or reorganized following the district transformation period.

In calculating the amount of such fees, the commission shall:

(i) Attempt to set the fees at levels that will create a balance in the Mississippi Gaming Commission Fund that does not exceed, at the end of any state fiscal year, two percent (2%) of the projected amount of funds that will provide the commission with such sufficient revenue; and

SECTION 8. Section 75-76-211, Mississippi Code of 1972, is brought forward as follows:

75-76-211. All officers and directors of the corporation which holds or applies for a state gaming license must be licensed individually, according to the provisions of this chapter; and if, in the judgment of the commission, the public interest will be served by requiring any or all of the corporation's individual stockholders, lenders, holders of evidences of indebtedness, underwriters, key executives, agents or employees to be licensed, the corporation shall require such persons to apply for a license in accordance with the laws and requirements in effect at the time the commission requires such licensing. A person who is required to be licensed by this section shall apply for a license within thirty (30) days after he becomes an officer or director. A person who is required to be licensed pursuant to a decision of the commission shall apply for a license within thirty (30) days after the executive director requests him to do so.

SECTION 9. Section 75-76-55, Mississippi Code of 1972, is brought forward as follows:

75-76-55. (1) Except as otherwise provided in Section 75-76-34, it is unlawful for any person, either as owner, lessee or employee, whether for hire or not, either solely or in conjunction with others, without having first procured and thereafter maintaining in effect a state gaming license:

(a) To deal, operate, carry on, conduct, maintain or expose for play in the State of Mississippi any gambling game, including, without limitation, any gaming device, slot machine, race book or sports pool;

(b) To provide or maintain any information service the primary purpose of which is to aid the placing or making of wagers on events of any kind; or

(c) To receive, directly or indirectly, any compensation or reward or any percentage or share of the money or property played, for keeping, running or carrying on any gambling game, including, without limitation, any slot machine, gaming device, race book or sports pool.

(2) Except as otherwise provided in Section 75-76-34, it is unlawful for any person knowingly to permit any gambling game, including, without limitation, any slot machine, gaming device, race book or sports pool to be conducted, operated, dealt or carried on in any house or building or other premises owned by him, in whole or in part, by a person who is not licensed pursuant to this chapter or by his employee.

SECTION 10. Section 75-76-79, Mississippi Code of 1972, is brought forward as follows:

75-76-79. (1) (a) Except as otherwise provided in paragraphs (b) and (c) of this subsection, it is unlawful for any person, either as owner, lessee or employee, whether for hire or not, to operate, carry on, conduct or maintain any form of manufacture, selling or distribution of any gaming device for use or play in Mississippi or for distribution outside of Mississippi without first procuring and maintaining all required federal and state licenses.

(b) A lessor who specifically acquires equipment for a capital lease is not required to be licensed under this section.

(c) The holder of a state gaming license or the holding company of a corporate licensee may, within two (2) years after cessation of business or upon specific approval by the executive director, dispose of by sale in a manner approved by the executive director, any or all of its gaming devices, including slot machines, without a distributor's license. In cases of bankruptcy of a state gaming licensee or foreclosure of a lien by a bank or other person holding a security interest for which gaming devices are

security, in whole or in part, for the lien, the executive director may authorize the disposition of the gaming devices without requiring a distributor's license.

(d) Any person whom the commission determines is a suitable person to receive a license under the provisions of this section may be issued a manufacturer's or distributor's license. The burden of proving his qualification to receive or hold a license under this section is at all times on the applicant or licensee.

(e) Every person who must be licensed pursuant to this section is subject to the provisions of Sections 75-76-199 through 75-76-265, unless exempted from those provisions by the commission.

(f) The commission may exempt, for any purpose, a manufacturer, seller or distributor from the provisions of Sections 75-76-199 through 75-76-265, if the commission determines that the exemption is consistent with the purposes of this chapter.

(g) As used in this section, "holding company" has the meaning ascribed to it in Section 75-76-199.

(2) If the commission determines that a manufacturer or distributor is unsuitable to receive or hold a license:

(a) No new gaming device or associated equipment manufactured by the manufacturer or distributed by the distributor may be approved;

(b) Any previously approved device or associated equipment manufactured by the manufacturer or distributed by the distributor is subject to revocation of approval if the reasons for the denial of the license also apply to that device or associated equipment;

(c) No new device or associated equipment manufactured by the manufacturer or distributed by the distributor may be sold, transferred or offered for use or play in Mississippi; and

(d) Any association or agreement between the manufacturer or distributor and a licensee must be terminated, unless otherwise provided by the commission. An agreement between such a manufacturer or distributor of gaming devices or associated equipment and a licensee shall be deemed to include a provision for its termination without liability on the part of the licensee upon a finding by the commission that the manufacturer is unsuitable to be associated with a gaming enterprise. Failure to include that condition in the agreement is not a defense in any action brought pursuant to this section to terminate the agreement.

(3) Failure of a licensee to terminate any association or agreement with a manufacturer or distributor of gaming devices or associated equipment after receiving notice of a determination of unsuitability, the denial of a license or failure to file a timely application for a license, is an unsuitable method of operation.

(4) There is hereby imposed and levied on each applicant for a manufacturer's, seller's or distributor's license under this section an annual license fee in the following amount:

(a) For the issuance or continuation of a manufacturer's license, One Thousand Dollars ($1,000.00).

(b) For the issuance or continuation of a seller's or distributor's license, Five Hundred Dollars ($500.00).

This fee is to be paid by the applicant to the * * * Department of Revenue on or before the filing of the application for a manufacturer's, seller's or distributor's license by

the applicant. Upon such payment the * * * Commissioner of Revenue shall certify to the executive director that such fee has been paid by the applicant.

Except for those amounts that a person issued a manufacturer's license under this section may charge for goods supplied or services rendered, the person holding the manufacturer's license may not be directly reimbursed by a holder of a gaming license for the cost of any fee paid by the person for the issuance or continuation of such a license, whether imposed under this section or any other provision of this chapter.

(5) A manufacturer or distributor of associated equipment who sells, transfers or offers the associated equipment for use or play in Mississippi may be required by the executive director to file an application for a finding of suitability to be a manufacturer or distributor of associated equipment.

Any person who directly or indirectly involves himself in the sale, transfer or offering for use or play in Mississippi of associated equipment who is not otherwise required to be licensed as a manufacturer or distributor may be required by the executive director to file an application for a finding of suitability to be a manufacturer or distributor of associated equipment.

If an application for a finding of suitability is not submitted within thirty (30) days after demand by the executive director, he may pursue any remedy or combination of remedies provided in this chapter.

(6) The executive director and his employees may inspect every gaming device which is manufactured, sold or distributed:

(a) For use in this state, before the gaming device is put into play.

(b) In this state for use outside this state, before the gaming device is shipped out of this state.

The executive director may inspect every gaming device which is offered for play within this state by a licensee.

The executive director may inspect all associated equipment which is manufactured, sold or distributed for use in this state before the equipment is installed or used by a gaming licensee.

In addition to all other fees and charges imposed by this chapter, the executive director may determine an inspection fee with regard to each manufacturer, seller or distributor which must not exceed the actual cost of inspection and investigation. Upon such determination, the executive director shall certify to the * * * Commissioner of Revenue the amount of the inspection fee and the name and address of the applicant. Upon such certification the * * * Department of Revenue shall proceed to assess and collect such inspection fee from the applicant.

(2) A licensee or a person acting on the licensee's behalf may accept an incomplete credit instrument which:

(a) Is signed by a patron; and

(b) States the amount of the debt in figures.

and may complete the instrument as is necessary for the instrument to be presented for payment.

(3) A licensee or person acting on behalf of a licensee:

(a) May accept a credit instrument that is dated later than the date of its execution if that later date is furnished at the time of the execution of the credit instrument by the patron.

(b) May not accept a credit instrument which is incomplete, except as authorized by subsection (2) of this section.

(c) May accept a credit instrument that is payable to an affiliated company or may complete a credit instrument in the name of an affiliated company as payee if the credit instrument otherwise complies with this subsection and the records of the affiliated company pertaining to the credit instrument are made available to the executive director upon request.

(4) This section does not prohibit the establishment of an account by a deposit of cash, recognized traveler's check, or any other instruments which is equivalent to cash.

(5) Any person who violates the provisions of this section is subject only to the penalties provided in Sections 75-76-103 through 75-76-119, inclusive.

(6) The commission may adopt regulations prescribing the conditions under which a credit instrument may be redeemed or presented to a bank for collection or payment.

(b) Six percent (6%) of all the gross revenue of the licensee which exceeds Fifty Thousand Dollars ($50,000.00) per calendar month and does not exceed One Hundred Thirty four Thousand Dollars ($134,000.00) per calendar month; and

(c) Eight percent (8%) of all the gross revenue of the licensee which exceeds One Hundred Thirty four Thousand Dollars ($134,000.00) per calendar month.

(2) All revenue received from any game or gaming device which is leased for operation on the premises of the licensee owner to a person other than the owner thereof or which is located in an area or space on such premises which is leased by the licensee owner to any such person, must be attributed to the owner for the purposes of this section and be counted as part of the gross revenue of the owner. The lessee is liable to the owner for his proportionate share of such license fees.

(3) If the amount of license fees required to be reported and paid pursuant to this section is later determined to be greater or less than the amount actually reported and paid by the licensee, the * * * Commissioner of Revenue shall:

(a) Assess and collect the additional license fees determined to be due, with interest thereon until paid; or

(b) Refund any overpayment, with interest thereon, to the licensee.

Interest must be computed, until paid, at the rate of one percent (1%) per month from the first day of the first month following either the due date of the additional license fees or the date of overpayment.

Except as otherwise provided in Section 97-33-8, if any person shall encourage, promote or play at any game, play or amusement, other than a fight or fighting match between dogs, for money or other valuable thing, or shall wager or bet, promote or encourage the wagering or betting of any money or other valuable things, upon any game, play, amusement, cockfight, Indian ball play or duel, other than a fight or fighting match between dogs, or upon the result of any election, event or contingency whatever, upon conviction thereof, he shall be fined in a sum not more than Five Hundred Dollars ($500.00); and, unless such fine and costs be immediately paid, shall be imprisoned for any period not more than ninety (90) days. However, this section shall not apply to betting, gaming or wagering:

(a) On a cruise vessel as defined in Section 27-109-1 whenever such vessel is in the waters within the State of Mississippi, which lie adjacent to the State of Mississippi south of the three (3) most southern counties in the State of Mississippi, including the Mississippi Sound, St. Louis Bay, Biloxi Bay and Pascagoula Bay, and in which the registered voters of the county in which the port is located have not voted to prohibit such betting, gaming or wagering on cruise vessels as provided in Section 19-3-79;

Any slot machine other than an antique coin machine as defined in Section 27-27-12 which delivers, or is so constructed as that by operation thereof it will deliver to the operator thereof anything of value in varying quantities, in addition to the merchandise received, and any slot machine other than an antique coin machine as defined in Section 27-27-12 that is constructed in such manner as that slugs, tokens, coins or similar devices are, or may be, used and delivered to the operator thereof in addition to merchandise of any sort contained in such machine, is hereby declared to be a gambling device, and shall be deemed unlawful under the provisions of this section. Provided, however, that pinball machines which do not return to the operator or player thereof anything but free additional games or plays shall not be deemed to be gambling devices, and neither this section nor any other law shall be construed to prohibit same.

(2) No property right shall exist in any person, natural or artificial, or be vested in such person, in any or all of the devices described herein that are not exempted from the provisions of this section; and all such devices are hereby declared to be at all times subject to confiscation and destruction, and their possession shall be unlawful, except when in the possession of officers carrying out the provisions of this section. It shall be the duty of all law enforcing officers to seize and immediately destroy all such machines and devices.

(3) A first violation of the provisions of this section shall be deemed a misdemeanor, and the party offending shall, upon conviction, be fined in any sum not exceeding Five Hundred Dollars ($500.00), or imprisoned not exceeding three (3) months, or both, in the discretion of the court. In the event of a second conviction for a violation of any of the provisions of this section, the party offending shall be subject to a sentence of not less than six (6) months in the county jail, nor more than two (2) years in the State Penitentiary, in the discretion of the trial court.

(d) That is legal under the laws of the State of Mississippi.

(5) Notwithstanding any provision of this section to the contrary, it shall not be unlawful (a) to own, possess, repair or control any gambling device, machine or equipment in a licensed gaming establishment or on the business premises appurtenant to any such licensed gaming establishment during any period of time in which such licensed gaming establishment is being constructed, repaired, maintained or operated in this state; (b) to install any gambling device, machine or equipment in any licensed gaming establishment; (c) to possess or control any gambling device, machine or equipment during the process of procuring or transporting such device, machine or equipment for installation on any such licensed gaming establishment; or (d) to store in a warehouse or other storage facility any gambling device, machine, equipment, or part thereof, regardless of whether the county or municipality in which the warehouse or storage facility is located has approved gaming aboard cruise vessels or vessels, provided that such device, machine or equipment is operated only in a county or municipality that has approved gaming aboard cruise vessels or vessels. Senator England called up the following entitled bill:

H. B. No. 1135: Election day disputes; require list of judges selected to hear to be provided to certain officials.

Senator England offered the following COMMITTEE AMENDMENT NO. 1.

Amend by striking all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. Section 23-15-913, Mississippi Code of 1972, is amended as follows:

23-15-913. (1) The judges listed and selected to hear election disputes, as provided in Section 23-15-951, shall be available on election day to immediately hear and resolve any election day disputes. The name of any judge selected to hear election day disputes shall be provided to the Secretary of State by the Chief Justice of the Mississippi Supreme Court at the time the appointment is made, unless the Secretary of State is a party to the election day dispute to which that special circuit judge is appointed.

(2) The rules for filing pleadings shall be relaxed to carry out the purposes of this section. The judges selected shall perform no other judicial duties on election day. If an election day dispute occurs, the circuit clerk shall only docket the dispute to the judge designated by the Supreme Court to hear the case in that county. When such election day dispute is filed, the circuit clerk shall immediately notify by phone, email or personally, the Chief Justice of the Supreme Court, or in his or her absence or disability, some other Justice of the Supreme Court, who shall forthwith notify the assigned special judge from the list of judges who were preselected to hear election day disputes, to proceed to the county in which the dispute has been filed to hear and determine the complaint. The circuit clerk shall cause a copy of such petition to be served upon the contestee, which shall serve as notice to such contestee. The Supreme Court shall make judges available to hear disputes in the county in which the disputes occur but no judge shall hear disputes

in the district or county in which he or she was elected nor shall any judge hear any dispute in which any potential conflict may arise. Each judge shall be fair and impartial and shall be assigned on that basis.

(3) The listed and selected judges provided by the Chief Justice of the Mississippi Supreme Court shall have sole jurisdiction to hear election day disputes. Election disputes can only be filed in a circuit court with proper jurisdiction and heard by one (1) of the judges selected by the Chief Justice of the Mississippi Supreme Court.

SECTION 2. Section 23-15-951, Mississippi Code of 1972, is amended as follows:

23-15-951. Except as otherwise provided by Section 23-15-955 or 23-15-961, a person desiring to contest the election of another person returned as elected to any office within any county, may, within twenty (20) days after the election, file a petition in the office of the clerk of the circuit court of the county, setting forth the grounds upon which the election is contested. When such a petition is filed, the circuit clerk shall immediately notify, by registered letter, telegraph, telephone, or personally the Chief Justice of the Supreme Court or in his or her absence, or disability, some other Justice of the Supreme Court, who shall forthwith designate and notify a circuit judge or chancellor of a district other than that which embraces the district, subdistrict, county or any of the counties, involved in the contest or complaint, to proceed to the county in which the contest or complaint has been filed to hear and determine the contest or complaint. The circuit clerk shall also cause a copy of such petition to be served upon the contestee, which shall serve as notice to such contestee.

The Supreme Court shall compile a list of judges throughout the state to hear such disputes before an election. The name of any judge selected to hear election day disputes shall be provided to the Secretary of State by the Chief Justice of the Supreme Court at the time the appointment is made, unless the Secretary of State is a party to the election day dispute to which the special circuit judge is appointed. It shall be the official duty of the designated circuit judge or chancellor to proceed to discharge the duty of hearing the contest at the earliest possible date. The date of the contest shall be fixed by the judge or chancellor, and the judge or chancellor shall provide reasonable notice to the contestant and the contestee of the date and time fixed for the contest. The judge or chancellor shall cause the contestant and contestee to be served in a reasonable manner. When the contestee is served, such contestee shall promptly file his or her answer, and cross-complaint, if the contestee has a cross-complaint.

The court shall, at the first term, cause an issue to be made up and tried by a jury, and the verdict of the jury shall find the person having the greatest number of legal votes at the election. If the jury shall find against the person returned elected, the clerk shall issue a certificate thereof; and the person in whose favor the jury shall find shall be commissioned by the Governor, and shall qualify and enter upon the duties of his or her office. Each party shall be allowed ten (10) peremptory challenges, and new trials shall be granted and costs awarded as in other cases. In case the election of district attorney or other state district election be contested, the petition may be filed in any county of the district or in any county of an adjoining district within twenty (20) days after the election, and like proceedings shall be had thereon as in the case of county officers, and the person found to be entitled to the office shall qualify as required by law and enter upon the duties of his or her office.

A person desiring to contest the election of another person returned as elected to any seat in the Mississippi Legislature shall comply with the provisions of Section 23-15-955. A person desiring to contest the qualifications of a candidate for nomination in a political party primary election shall comply with the provisions of Section 23-15-961.

SECTION 3. This act shall take effect and be in force from and after July 1, 2024, and shall stand repealed on June 30, 2024.

Further, amend by striking the title in its entirety and inserting in lieu thereof the following:

Amend by striking all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. Section 73-35-21, Mississippi Code of 1972, is amended as follows:

73-35-21. (1) Except as otherwise provided in this section, the commission may, upon its own motion and shall upon the verified complaint in writing of any person, hold a hearing pursuant to Section 73-35-23 for the refusal of license or for the suspension or revocation of a license previously issued, or for such other action as the commission deems appropriate. The commission shall have full power to refuse a license for cause or to revoke or suspend a license where it has been obtained by false or fraudulent representation, or where the licensee in performing or attempting to perform any of the acts mentioned herein, is deemed to be guilty of:

(a) Making any substantial misrepresentation in connection with a real estate transaction;

(b) Making any false promises of a character likely to influence, persuade or induce;

(c) Pursuing a continued and flagrant course of misrepresentation or making false promises through agents or salespersons or any medium of advertising or otherwise;

(d) Any misleading or untruthful advertising;

(e) Acting for more than one (1) party in a transaction or receiving compensation from more than one (1) party in a transaction, or both, without the knowledge of all parties for whom he or she acts;

(f) Failing, within a reasonable time, to account for or to remit any monies coming into his or her possession which belong to others, or commingling of monies belonging to others with his own funds. Every responsible broker procuring the execution of an earnest money contract or option or other contract who shall take or receive any cash or checks shall deposit, within a reasonable period of time, the sum or sums so received in a trust or escrow account in a bank or trust company pending the consummation or termination of the transaction. "Reasonable time" in this context means by the close of business of the next banking day;

(g) Entering a guilty plea or conviction in a court of competent jurisdiction of this state, or any other state or the United States of any felony;

(h) Displaying a "for sale" or "for rent" sign on any property without the owner's consent;

(i) Failing to furnish voluntarily, at the time of signing, copies of all listings, contracts and agreements to all parties executing the same;

(j) Paying any rebate, profit or commission to any person other than a real estate broker or salesperson licensed under the provisions of this chapter;

(k) Inducing any party to a contract, sale or lease to break such contract for the purpose of substituting in lieu thereof a new contract, where such substitution is motivated by the personal gain of the licensee;

(l) Accepting a commission or valuable consideration as a real estate salesperson for the performance of any of the acts specified in this chapter from any person, except his or her employer who must be a licensed real estate broker;

(m) Failing to successfully pass the commission's background investigation for licensure or renewal as provided in Section 73-35-10; or

(n) Any act or conduct, whether of the same or a different character than hereinabove specified, which constitutes or demonstrates bad faith, incompetency or untrustworthiness, or dishonest, fraudulent or improper dealing. However, simple contact and/or communication with any mortgage broker or lender by a real estate licensee about any professional, including, but not limited to, an appraiser, home inspector, contractor, and/or attorney regarding a listing and/or a prospective or pending contract for the lease, sale and/or purchase of real estate shall not constitute conduct in violation of this section.

(2) No real estate broker shall practice law or give legal advice directly or indirectly unless said broker be a duly licensed attorney under the laws of this state. He or she shall not act as a public conveyancer nor give advice or opinions as to the legal effect of instruments nor give opinions concerning the validity of title to real estate; nor shall he or she prevent or discourage any party to a real estate transaction from employing the services of an attorney; nor shall a broker undertake to prepare documents fixing and defining the legal rights of parties to a transaction. However, when acting as a broker, he or she may use an earnest money contract form. A real estate broker shall not participate in attorney's fees, unless the broker is a duly licensed attorney under the laws of this state and performs legal services in addition to brokerage services.

(3) It is expressly provided that it is not the intent and purpose of the Mississippi Legislature to prevent a license from being issued to any person who is found to be of good reputation, is able to give bond, and who has lived in the State of Mississippi for the required period or is otherwise qualified under this chapter.

(4) In addition to the reasons specified in subsection (1) of this section, the commission shall be authorized to suspend the license of any licensee for being out of compliance with an order for support, as defined in Section 93-11-153. The procedure for suspension of a license for being out of compliance with an order for support, and the procedure for the reissuance or reinstatement of a license suspended for that purpose, and the payment of any fees for the reissuance or reinstatement of a license suspended for that purpose, shall be governed by Section 93-11-157 or 93-11-163, as the case may be. If there is any conflict between any provision of Section 93-11-157 or 93-11-163 and any provision of this chapter, the provisions of Section 93-11-157 or 93-11-163, as the case may be, shall control.

(5) Nothing in this chapter shall prevent an associate broker or salesperson from owning any lawfully constituted business organization, including, but not limited to, a corporation, limited liability company or limited liability partnership, for the purpose of receiving payments contemplated in this chapter. The business organization shall not be required to be licensed under this chapter and shall not engage in any other activity requiring a real estate license.

(6) The Mississippi Real Estate Commission shall not promulgate any rule or regulation, nor make any administrative or other interpretation, whereby any real estate licensee may be held responsible or subject to discipline or other actions by the commission relating to the * * * information required to be disclosed by Sections 89-1-501 through 89-1-523 or delivery of information required to be disclosed by Sections 89-1-501 through 89-1-523.

(7) The Mississippi Real Estate Commission shall not promulgate nor enforce any rule or regulation, nor make any administrative or other interpretation, whereby any real estate licensee may be required to include in any agreement or otherwise be required to agree to any requirement regarding unilateral termination by a buyer-agency agreement.

89-1-503. (1) The transferor of any real property subject to Sections 89-1-501 through 89-1-523 shall deliver to the prospective transferee the written property condition disclosure statement required by Sections 89-1-501 through 89-1-523, as follows:

(a) In the case of a sale, as soon as practicable before transfer of title.

If any disclosure, or any material amendment of any disclosure, required to be made by Sections 89-1-501 through 89-1-523, is delivered after the execution of an offer to purchase, the transferee shall have three (3) days after delivery in person or five (5) days after delivery by deposit in the mail, to terminate his or her offer by delivery of a written notice of termination to the transferor or the transferor's agent.

(2) If a transferor of real property subject to Sections 89-1-501 through 89-1-523 shall fail to deliver the disclosure statement required by Sections 89-1-501 through 89-1-523, or fails to complete some portion of the disclosure statement, the prospective transferee is presumed to be on notice to inquire of the transferor concerning the content of the disclosure or the lack thereof. Any duly licensed real estate broker or salesperson involved with the transaction shall have no duty or obligation nor be subject to discipline or other action of any kind by any licensing authority of the State of Mississippi, pertaining to the disclosure or the failure of any disclosure to comply with Sections 89-1-501 through 89-1-523, or the delivery thereof.

SECTION 3. Section 89-1-519, Mississippi Code of 1972, which provides that no person or entity shall be deemed the agent of the transferor or transferee for purposes of the disclosure requirements of Sections 89-1-501 through 89-1-523, is repealed.

SECTION 4. Section 89-1-523, Mississippi Code of 1972, is amended as follows:

89-1-523. (1) No transfer subject to Sections 89-1-501 through 89-1-523 shall be invalidated solely because of the failure of any person to comply with any provision of Sections 89-1-501 through 89-1-523.

(2) Notwithstanding any other provision of law to the contrary, no real estate licensee shall be subject to discipline or other action of any kind by any licensing authority of the State of Mississippi pertaining to information required to be disclosed by Sections 89-1-501 through 89-1-523 or delivery of information required to be disclosed by Sections 89-1-501 through 89-1-523.

SECTION 5. This act shall take effect and be in force from and after its passage.

Further, amend by striking the title in its entirety and inserting in lieu thereof the following:

Senator DeBar offered the following COMMITTEE AMENDMENT NO. 1.

Amend by striking all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. Section 37-161-3, Mississippi Code of 1972, is amended as follows:

37-161-3. (1) The Legislature finds and declares the following:

(a) Meeting the educational needs of children in our state's schools is of the greatest importance to the future welfare of the State of Mississippi;

(b) Closing the achievement gap between high-performing students, including the achievement gap among at-risk students, is a significant and present challenge;

(c) Providing a broader range of educational options to parents and utilizing existing resources, along with technology, may help students in the state improve their academic achievement; and

(d) Many of the state's school districts currently lack the capacity to provide other public school choices for students whose schools are low performing.

(2) There is created the Mississippi Virtual Public School Program, which is the responsibility of the State Department of Education. It is the intent of the Legislature that the Mississippi Virtual Public School established under this section provides Mississippi families with an alternative choice to access additional educational resources in an effort to improve academic achievement. The Mississippi Virtual Public School must be recognized as a public school and provide equitable treatment and resources as are other public schools in the state. Private providers, overseen by the State Department of Education, may be selected by the State Board of Education to administer, manage or operate virtual school programs in this state, including the total operation of the Mississippi Virtual Public School Program. Any private provider chosen to provide services under the provisions of this subsection shall be chosen through the Mississippi Online Course Application Process.

(3) Nothing in this section may be interpreted as precluding the use of computer- and Internet-based instruction for students in a virtual or remote setting utilizing the Mississippi Virtual Public School.

(4) As used in this section, the following words and phrases have the meanings respectively ascribed unless the context clearly requires otherwise:

(a) "Mississippi Virtual Public School" means a public school in which the state uses technology in order to deliver instruction to students via the Internet in a virtual or remote setting.

(b) "Sponsor" means the public school district is responsible for the academic process for each student, including, but not limited to, enrollment, awarding of credit and monitoring progress.

(5) (a) The State Board of Education shall establish the Mississippi Virtual Public School beginning in school year 2006-2007.

(b) Students who enroll in the Mississippi Virtual Public School may reside anywhere in the State of Mississippi.

(6) Subject to appropriation, the Mississippi Virtual Public School shall provide to each student enrolled in the school all necessary instructional materials. Subject to appropriation, the sponsored school must ensure that each student is provided access to the necessary technology, such as a computer and printer, and to an Internet connection for schoolwork purposes.

(7) The Mississippi Department of Education shall have approval authority for all coursework and policy of the Mississippi Virtual Public School.

(8) Each teacher employed by or participating in the delivery of instruction through the Mississippi Virtual Public School must meet all qualifications for licensure in the State of Mississippi.

(9) Any student who meets state residency requirements may enroll in the Mississippi Virtual Public School.

(10) Enrollment in the Mississippi Virtual Public School shall be free of charge to students. The costs associated with the operations of the virtual school must be shared by the State Department of Education, subject to appropriation, and/or the local school districts. Once the State Department of Education appropriation and the local school district budgeted funds for Mississippi Virtual Public School have been expended and students choose to enroll in online courses, the costs of the online courses may be the responsibility of the students' parents or guardians.

(11) The Mississippi Department of Education is directed to provide a report on the Mississippi Virtual Public School and recommendations related to the future role of virtual education in public schools to the Chairman of the Senate Education Committee and the Chairman of the House of Representatives Education Committee by October 1, 2024. The report shall include, but not be limited to, an update on the history, cost, usage and student achievement related to the current Mississippi Virtual Public School and other virtual education programs which may exist in school districts across the state. The report shall also include, but not be limited to, recommendations related to using virtual education tools, including tools provided by or used by other public schools districts in Mississippi and/or third party vendors, to address student achievement, access to courses and teacher shortages in public schools.

SECTION 2. This act shall take effect and be in force from and after July 1, 2024.

Further, amend by striking the title in its entirety and inserting in lieu thereof the following:

AN ACT TO AMEND SECTION 37-161-3, MISSISSIPPI CODE OF 1972, TO REQUIRE THE DEPARTMENT OF EDUCATION TO PROVIDE A REPORT ON THE MISSISSIPPI VIRTUAL PUBLIC SCHOOL AND RECOMMENDATIONS RELATED TO THE FUTURE ROLE OF VIRTUAL EDUCATION IN PUBLIC SCHOOLS TO THE CHAIRMEN OF THE SENATE AND HOUSE OF REPRESENTATIVES EDUCATION COMMITTEES BY OCTOBER 1, 2024; AND FOR RELATED PURPOSES.

Senator DeBar called up the following entitled bill:

H. B. No. 1683: MS Charter School Act of 2013; bring forward for purposes of possible amendments.

Senator DeBar offered the following COMMITTEE AMENDMENT NO. 1.

Amend by striking all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. Section 37-28-11, Mississippi Code of 1972, is amended as follows:

37-28-11. * * * (* * *1) The authorizer may receive appropriate gifts, grants and donations of any kind from any public or private entity to carry out the purposes of this chapter, subject to all lawful terms and conditions under which the gifts, grants or donations are given.

(* * *2) The authorizer may expend its resources, seek grant funds and establish partnerships to support its charter school authorizing activities.

(3) The Legislature may fund the authorizer through specific appropriation thereof.

SECTION 2. Section 37-28-55, Mississippi Code of 1972, is amended as follows:

37-28-55. (1) (a) The State Department of Education shall make payments to charter schools for each student in average daily attendance at the charter school equal to the state share of the adequate education program payments for each student in average daily attendance at the school district in which the charter school is located. In calculating the local contribution for purposes of determining the state share of the adequate education program payments, the department shall deduct the pro rata local contribution of the school district in which the student resides, to be determined as provided in Section 37-151-7(2)(a).

(b) Payments made pursuant to this subsection by the State Department of Education must be made at the same time and in the same manner as adequate education program payments are made to school districts under Sections 37-151-101 and 37-151-103. Amounts payable to a charter school must be determined by the State Department of Education. Amounts payable to a charter school over its charter term must be based on the enrollment projections set forth over the term of the charter contract. Such projections must be reconciled with the average daily attendance using months two (2) and three (3) ADA for the current year for which adequate education program funds are being appropriated and any necessary adjustments must be made to payments during the school's following year of operation.

(2) For students attending a charter school located in the school district in which the student resides, the school district in which a charter school is located shall pay directly to the charter school an amount for each student enrolled in the charter school equal to the ad valorem tax receipts and in-lieu payments received per pupil for the support of the local school district in which the student resides. The pro rata ad valorem receipts and in-lieu receipts to be transferred to the charter school shall include all levies for the support of the local school district under Sections 37-57-1 (local contribution to the adequate

education program) and 37-57-105 (school district operational levy) and may not include any taxes levied for the retirement of the local school district's bonded indebtedness or short-term notes or any taxes levied for the support of vocational-technical education programs. The amount of funds payable to the charter school by the school district must be based on the previous year's enrollment data and ad valorem receipts and in-lieu receipts of the local school district in which the student resides. The pro rata amount must be calculated by dividing the local school district's months one (1) through nine (9) average daily * * * attendance into the total amount of ad valorem receipts and in-lieu receipts, as reported to the State Department of Education by the local school district. The local school district shall pay an amount equal to this pro rata amount multiplied by the number of students enrolled in the charter school, based on the charter school's end of first month enrollment for the current school year. The amount must be paid by the school district to the charter school before January 16 of the current fiscal year. If the local school district does not pay the required amount to the charter school before January 16, the State Department of Education shall reduce the local school district's January transfer of Mississippi Adequate Education Program funds by the amount owed to the charter school and shall redirect that amount to the charter school. Any such payments made under this subsection (2) by the State Department of Education to a charter school must be made at the same time and in the same manner as adequate education program payments are made to school districts under Sections 37-151-101 and 37-151-103.

(3) For students attending a charter school located in a school district in which the student does not reside, the State Department of Education shall pay to the charter school in which the student is enrolled an amount as follows: the pro rata ad valorem receipts and in-lieu payments per pupil for the support of the local school district in which the student resides under Sections 37-57-1 (local contribution to the adequate education program) and 37-57-105 (school district operational levy), however, not including any taxes levied for the retirement of the local school district's bonded indebtedness or short-term notes or any taxes levied for the support of vocational-technical education programs. The amount of funds payable to the charter school by the school district must be based on the previous year's enrollment data and ad valorem receipts and in-lieu receipts of the local school district in which the student resides. The pro rata amount must be calculated by dividing the local school district's months one (1) through nine (9) average daily * * * attendance into the total amount of ad valorem receipts and in-lieu receipts, as reported to the State Department of Education by the transferor local school district. The payable amount shall be equal to this pro rata amount multiplied by the number of students enrolled in the charter school, based on the charter school's end of first month enrollment for the current school year. The State Department of Education shall reduce the school district's January transfer of Mississippi Adequate Education Program funds by the amount owed to the charter school and shall redirect that amount to the charter school. Any such payments made under this subsection (3) by the State Department of Education to a charter school must be made at the same time and in the same manner as adequate education program payments are made to school districts under Sections 37-151-101 and 37-151-103.

(4) (a) The State Department of Education shall direct the proportionate share of monies generated under federal and state categorical aid programs, including special education, vocational, gifted and alternative school programs, to charter schools serving students eligible for such aid. The department shall ensure that charter schools with rapidly expanding enrollments are treated equitably in the calculation and disbursement of all federal and state categorical aid program dollars. Each charter school that serves students who may be eligible to receive services provided through such programs shall comply with all reporting requirements to receive the aid.

(b) A charter school shall pay to a local school district any federal or state aid attributable to a student with a disability attending the charter school in proportion to the level of services for that student which the local school district provides directly or indirectly.

(c) Subject to the approval of the authorizer, a charter school and a local school district may negotiate and enter into a contract for the provision of and payment for special education services, including, but not necessarily limited to, a reasonable reserve not to exceed five percent (5%) of the local school district's total budget for providing special education services. The reserve may be used by the local school district only to offset excess costs of providing services to students with disabilities enrolled in the charter school.

(5) (a) The State Department of Education shall disburse state transportation funding to a charter school on the same basis and in the same manner as it is paid to school districts under the adequate education program.

(b) A charter school may enter into a contract with a school district or private provider to provide transportation to the school's students.

(6) The State Department of Education shall disburse Education Enhancement Funds for classroom supplies, instructional materials and equipment, including computers and computer software to all eligible charter school teachers on the same basis and in the same manner as it is paid to school districts under Section 37-61-33(3)(a)(iii) for the purpose of issuing procurement cards or credentials for a digital solution to eligible teachers.

SECTION 3. This act shall take effect and be in force from and after July 1, 2024.

Further, amend by striking the title in its entirety and inserting in lieu thereof the following:

AN ACT TO AMEND SECTION 37-28-11, MISSISSIPPI CODE OF 1972, TO DELETE THE PROVISION THAT ALLOWED THE AUTHORIZER TO RECEIVE 3% OF ANNUAL PER-PUPIL ALLOCATIONS FOR CHARTER SCHOOLS; TO PROVIDE THAT THE LEGISLATURE MAY FUND THE AUTHORIZER THROUGH SPECIFIC APPROPRIATION THEREOF; TO AMEND SECTION 37-28-55, MISSISSIPPI CODE OF 1972, TO REVISE THE CHARTER SCHOOL FUNDING FORMULA TO ENSURE SUCH CALCULATION IS BASED ON AVERAGE DAILY ATTENDANCE INSTEAD OF AVERAGE DAILY MEMBERSHIP; AND FOR RELATED PURPOSES.

SECTION 3. Section 23-15-637, Mississippi Code of 1972, is amended as follows:

23-15-637. (1) (a) Absentee ballots and applications received by mail, except for fax or electronically transmitted ballots as otherwise provided by Section 23-15-699 for UOCAVA ballots, must be postmarked on or before the date of the election and received by the registrar no more than five (5) business days after the election; any received after such time shall be handled as provided in Section 23-15-647 and shall not be counted.

(b) All ballots cast by the absent elector appearing in person in the office of the registrar shall be cast with an absentee paper ballot and deposited into * * * the optical mark reading (OMR) equipment by the voter, not later than 12:00 noon, * * * on the Saturday immediately preceding elections held on Tuesday, the Thursday immediately preceding elections held on Saturday, or the second day immediately preceding the date of elections held on other days. If for any reason the OMR equipment shall become inoperable, the registrar shall direct voters to cast paper ballots. The paper ballots shall be administered in accordance with the laws concerning paper ballots.

(2) * * * The registrar shall not send any absentee ballots to the precinct polling locations.

(3) The Secretary of State shall promulgate rules and regulations necessary to ensure that when a qualified elector who is qualified to vote absentee votes by absentee ballot, either by mail or in person with * * * the OMR equipment, that person's absentee vote is final and he or she may not vote at the polling place on election day. Notwithstanding any other provisions of law to the contrary, the Secretary of State shall promulgate rules and regulations necessary to ensure that absentee ballots shall remain in the registrar's office for counting and not be taken to the precincts on election day.

SECTION 4. Section 23-15-639, Mississippi Code of 1972, is amended as follows:

23-15-639. (1) The examination and counting of all absentee ballots shall be conducted as follows:

(a) At the opening of the regular balloting and at the opening of the polls, the resolution board established under Section 23-15-523 and trained in the process of canvassing absentee ballots shall first take the envelopes containing the mailed absentee ballots of such electors from the secure location at the circuit clerk's office, and the name, address and precinct inscribed on each envelope shall be announced by the election managers.

(b) The signature on the application shall then be compared with the signature in the box on the back of the envelope. If it corresponds and the affidavit, if one is required, is sufficient and the resolution board finds that the applicant is a registered and qualified voter or otherwise qualified to vote, the envelope shall then be opened and the mailed absentee ballot removed from the envelope, without its being unfolded, or permitted to be unfolded or examined.

(c) When a voter's absentee ballot is rejected because the signatures on the application and in the box on the envelope do not correspond, the registrar shall notify the voter within one (1) business day of the election that the voter's absentee ballot has been tentatively rejected because the signature on the application does not correspond with the signature in the box on the envelope. The notice shall inform the voter about the process of curing the deficiency and that if the voter does not cure the signatures by 12:00 p.m. on the fifth business day after the election, then the voter's ballot shall be rejected. Notice to the voter shall be made using the contact information that the voter provided on his or her absentee ballot application. The absentee cure form shall be transmitted to the voter via email or facsimile; however, if neither are available, then the form shall be transmitted by first-class mail to the voter. The form of the notice and the absentee cure form shall be provided for in rules and regulations prescribed by the Secretary of State.

(* * *d) Having observed and found the ballot to be regular as far as can be observed from its official endorsement, the resolution board shall deposit it in the ballot box with the other ballots before counting any ballots and enter the voter's name in the receipt book provided for that purpose. All absentee ballots received prior to 7:00 p.m. the day before the election shall be counted in the registrar's office by the resolution board when the polls close and then added to the votes cast in each precinct as well as the in-person absentee votes cast on the OMR equipment in the registrar's office. All absentee ballots received after 7:00 p.m. the day before the election but not later than the fifth business day after the election shall be processed by the resolution board.

(2) The resolution board shall also take such action as may be prescribed by the Secretary of State to ensure compliance with the identification requirements of Section 23-15-563.

(3) The resolution board shall process the absentee ballots using the procedure provided in subsection (1) of this section.

SECTION 5. Section 23-15-641, Mississippi Code of 1972, is amended as follows:

23-15-641. (1) For all absentee votes received by mail, if an affidavit or the certificate of the officer before whom the affidavit is taken is required and such affidavit or certificate is found to be insufficient, or if it is found that the signatures do not correspond and the voter has not cured his or her ballot as provided in Section 23-15-639, or that the applicant is not a duly qualified elector in the precinct, or otherwise qualified to vote, or that the ballot envelope is open or has been opened and resealed, or the voter is not eligible to vote absentee, the previously cast vote shall not be allowed. Without opening the voter's envelope the resolution board shall mark across its face "REJECTED", with the reason therefor.

(2) For all absentee votes received by mail, if the ballot envelope contains more than one (1) ballot of any kind, the ballot shall not be counted but shall be marked "REJECTED", with the reason therefor, and the registrar shall promptly notify the voter of such rejection. The voter's envelopes and affidavits, and the voter's envelope with its contents unopened, when such vote is rejected, shall be retained and preserved in the same manner as other ballots at the election. Such votes may be challenged in the same manner and for the same reasons that any other vote cast in such election may be challenged.

(3) For all absentee votes received by mail, if an affidavit is required and the officials find that the affidavit is insufficient, or if the officials find that the absentee voter is otherwise disqualified to vote, the envelope shall not be opened and a commissioner or executive committee member shall write across the face of the envelope "REJECTED" giving the reason therefor, and the registrar shall promptly notify the voter of such rejection.

(4) The ballots marked "REJECTED" shall be placed in a separate envelope in the secure ballot transfer case and delivered to the officials in charge of conducting the election at the central tabulation point of the county.

(5) All electors voting absentee shall be provided with written information to inform the person how to ascertain whether his or her ballot was counted and, if rejected, the reason therefor.

SECTION 6. Section 23-15-643, Mississippi Code of 1972, is amended as follows:

23-15-643. If an affidavit is required, the appropriate election officials shall examine the affidavit of each mailed absentee ballot envelope. If the officials are satisfied that the affidavit is sufficient and that the absentee voter is otherwise qualified to vote, an official shall announce the name of the voter and shall give any person present an opportunity to challenge in like manner and for the same cause as the voter could have been challenged had he presented himself personally in such precinct to vote. The ineligibility of the voter to vote by absentee ballot shall be a ground for a challenge. Also, the officials shall consider any absentee voter challenged when a person has previously filed a written challenge of such voter's right to vote. The election officials shall handle any such challenge in the same manner as other challenged ballots are handled.

SECTION 7. Section 23-15-645, Mississippi Code of 1972, is amended as follows:

23-15-645. (1) Absentee ballots cast in the registrar's office on the OMR equipment and absentee ballots that are received by mail that are deposited into a sealed ballot box shall be processed on election day but not tallied until after closing of the polls and announced simultaneously with all other votes cast on election day.

(2) After the votes have been counted, the officials shall preserve all applications, envelopes of mailed absentee ballots and the list of absent voters along with the mailed paper and paper ballots and other election materials and return the same to the registrar.

(3) Notwithstanding any other provision of law to the contrary, for federal and presidential general, special or primary elections, packages of protested, void and wholly blank ballots, voted ballots, open packages of unused ballots, sealed packages of unused ballots, and all absentee and military ballots and ballot envelopes, if any, shall be preserved for twenty-two (22) months after the date of any such general, special or primary election. For all other statewide, county or municipal elections, sealed packages of unused ballots, packages of protested, void and wholly blank ballots, open packages of unused ballots and all absentee and military ballots and ballot envelopes shall be retained for four (4) months, and may then be destroyed, provided a certificate articulating the election district identifying data and numbers of such ballots is filed with the balance of ballots described in this section, for the balance of the twenty-two-month retention period.

Then the absentee ballot shall be mailed by the circuit clerk to the elector as soon as the ballot has been printed.

23-15-731. Any presidential absentee ballots received in the mail by the registrar after the delivery of ballot boxes to the election managers and before the deadline for receipt of absentee ballots provided for in Section 23-15-637 shall be retained by the registrar and shall be delivered, together with the applications of the qualified absentee elector to an election official designated to receive them. The registrar shall receive a receipt from the designated election official for all such ballots and applications delivered. The designated election officials shall, upon the canvassing of the returns, count such ballots as if delivered to the proper precincts and such ballots shall be considered valid for all purposes as if they had been actually deposited in the proper precinct ballot boxes. For mailed absentee ballots, the appropriate election officials shall examine the affidavit of each envelope. If the officials are satisfied that the affidavit is sufficient and that the absentee voter is otherwise qualified to vote, an official shall announce the name of the voter and shall give any person present an opportunity to challenge in like manner and for the same cause as the voter could have been challenged had he or she presented himself or herself personally in such precinct to vote. The ineligibility of the voter to vote by absentee ballot shall be a ground for a challenge. The officials shall consider any absentee voter challenged when a person has previously filed a written challenge of such

voter's right to vote. The election officials shall handle any such challenge in the same manner as other challenged ballots are handled, and if the challenge is not affirmed, the officials shall then open the envelope. The officials shall then open the envelope in such manner as not to destroy the affidavit printed thereon and shall deposit the ballot marked "OFFICIAL ABSENTEE BALLOT," in a ballot box reserved for absentee ballots. The commissioners shall endorse on their pollbooks a proper notation to indicate that the absentee voter has voted in such election by absentee ballot.

SECTION 11. Section 23-15-391, Mississippi Code of 1972, is amended as follows:

23-15-391. The board of supervisors of each county and the governing authorities of each municipality shall use optical mark reading equipment * * * that complies with the specifications provided by law. The election commissioners may conduct special and municipal elections, as well as any necessary runoff elections, by paper ballot when the election commissioners determine that administration of an election by paper ballot will be less expensive than administration of the same election by optical mark reading equipment * * *.

SECTION 12. Section 23-15-511, Mississippi Code of 1972, is amended as follows:

23-15-511. The ballots shall, as far as practicable, be in the same order of arrangement as provided for paper ballots that are to be counted manually, except that the information may be printed in vertical or horizontal rows. Nothing in this chapter shall be construed as prohibiting the information being presented to the voters from being printed on both sides of a single ballot. In those years when a special election shall occur on the same day as the general election, the names of candidates in any special election and the general election shall be placed on the same ballot by the election commissioners or officials in charge of the election, but the general election candidates shall be clearly distinguished from the special election candidates. At any time a special election is held on the same day as a party primary election, the names of the candidates in the special election may be placed on the same ballot by the officials in charge of the election, but shall be clearly distinguished as special election candidates or primary election candidates.

Ballots shall be printed in plain clear type in black ink and upon clear white materials of such size and arrangement as to be compatible with the OMR equipment. Absentee ballots shall be prepared and printed in the same form and shall be on the same size and texture as the regular official ballots, except that they shall be printed on tinted paper; or the ink used to print the ballots shall be of a color different from that of the ink used to print the regular official ballots. Arrows may be printed on the ballot to indicate the place to mark the ballot, which may be to the right or left of the names of candidates and propositions. The titles of offices may be arranged in vertical columns on the ballot and shall be printed above or at the side of the names of candidates so as to indicate clearly the candidates for each office and the number to be elected. In case there are more candidates for an office than can be printed in one (1) column, the ballot shall be clearly marked that the list of candidates is continued on the following column. The names of candidates for each office shall be printed in vertical columns, grouped by the offices that they seek. In partisan elections, the party designation of each candidate, which may be abbreviated, shall be printed following his or her name.

One (1) sample ballot, which shall be a facsimile of the official ballot and instructions to the voters, shall be provided for each precinct and shall be posted in each polling place on election day.

SECTION 15. Section 23-15-625, Mississippi Code of 1972, is brought forward as follows:

23-15-625. (1) The registrar shall be responsible for providing applications for absentee voting as provided in this section. At least sixty (60) days before any election in which absentee voting is provided for by law, the registrar shall provide a sufficient number of applications. In the event a special election is called and set at a date which makes it impractical or impossible to prepare applications for absent elector's ballot sixty (60) days before the election, the registrar shall provide applications as soon as practicable after the election is called. The registrar shall fill in the date of the particular election on the application for which the application will be used.

(2) The registrar shall be authorized to disburse applications for absentee ballots to any qualified elector within the county where he or she serves. Any person who presents to the registrar an oral or written request for an absentee ballot application for a voter entitled to vote absentee by mail, other than the elector who seeks to vote by absentee ballot, shall, in the presence of the registrar, sign the application and print on the application his or her name and address and the name of the elector for whom the application is being requested in the place provided for on the application for that purpose. However, if for any reason such person is unable to write the information required, then the registrar shall write the information on a printed form which has been prescribed by the Secretary of State. The form shall provide a place for such person to place his or her mark after the form has been filled out by the registrar.

SECTION 17. Section 23-15-629, Mississippi Code of 1972, is brought forward as follows:

23-15-629. (1) The application for an absentee ballot of a person who is permanently physically disabled shall be accompanied by a statement signed by such person's physician, or nurse practitioner, which statement must show that the person signing the statement is a licensed, practicing medical doctor or nurse practitioner and must indicate that the person applying for the absentee ballot is permanently physically disabled to such a degree that it is difficult for him or her to vote in person.

(2) An application accompanied by the statement provided for in subsection (1) of this section shall entitle such permanently physically disabled person to automatically receive an absentee ballot for all elections on a continuing basis without the necessity for reapplication.

(3) The registrar of each county shall keep an accurate list of the names and addresses of all persons whose applications for absentee ballot are accompanied by the statement set forth in subsection (1) of this section. Sixty (60) days before each election, the registrar shall deliver such list to the election commissioners who shall examine the list and delete from it the names of all persons listed who are no longer qualified electors of the county. Upon completion of such examination, the election commissioners shall return the list to the registrar by no later than forty-five (45) days before the election.

(4) The registrar shall mail a ballot to all persons who are determined by the election commissioners to be qualified electors pursuant to subsection (3) of this section by no later than forty (40) days before the election.

SECTION 18. Section 23-15-631, Mississippi Code of 1972, is amended as follows:

23-15-631. (1) The registrar shall enclose with each ballot mailed to an absent elector separate printed instructions furnished by the registrar containing the following:

(a) All absentee voters, excepting those with temporary or permanent physical disabilities or those who are sixty-five (65) years of age or older, who mark their ballots in the county of the residence shall use the registrar of that county as the witness. The absentee voter shall come to the office of the registrar and neither the registrar nor his or her deputy shall be required to go out of the registrar's office to serve as an attesting witness.

(b) Upon receipt of the enclosed ballot, you will not mark the ballot except in view or sight of the attesting witness. In the sight or view of the attesting witness, mark the ballot according to instructions.

(c) After marking the ballot, fill out and sign the "ELECTOR'S CERTIFICATE" on the back of the envelope so that the signature is * * * in a box on the envelope to ensure the integrity of the ballot. All absent electors shall have the attesting witness sign the "ATTESTING WITNESS CERTIFICATE" * * * in the box on the back of the envelope. Place the necessary postage on the envelope and deposit it in the post office or some government receptacle provided for deposit of mail so that the absent elector's ballot will be postmarked on or before the date of the election and received by the registrar no more than five (5) business days after the election.

Any notary public, United States postmaster, assistant United States postmaster, United States postal supervisor, clerk in charge of a contract postal station, or other officer having authority to administer an oath or take an acknowledgment may be an attesting witness; provided, however, that in the case of an absent elector who is temporarily or permanently physically disabled, the attesting witness may be any person eighteen (18) years of age or older and such person is not required to have the authority to administer an oath. If a postmaster, assistant postmaster, postal supervisor, or clerk in charge of a contract postal station acts as an attesting witness, his or her signature in a box on the elector's certificate must be authenticated by the cancellation stamp of their respective post offices. If an officer having authority to administer an oath or take an acknowledgement acts as attesting witness, his or her signature in a box on the elector's certificate, together with his or her title and address, but no seal, shall be required. Any affidavits made by an absent elector who is in the Armed Forces may be executed before a commissioned officer, warrant officer, or noncommissioned officer not lower in grade than sergeant rating or any person authorized to administer oaths.

(d) When the application accompanies the ballot it shall not be returned in the same envelope as the ballot but shall be returned in a separate preaddressed envelope provided by the registrar.

(e) A candidate for public office, or the spouse, parent or child of a candidate for public office, may not be an attesting witness for any absentee ballot upon which the candidate's name appears, unless the voter is related within the first degree to the candidate or the spouse, parent or child of the candidate.

(f) Any voter casting an absentee ballot who declares that he or she requires assistance to vote by reason of blindness, temporary or permanent physical disability or inability to read or write, shall be entitled to receive assistance in the marking of his or her

absentee ballot and in completing the affidavit on the absentee ballot envelope. The voter may be given assistance by anyone of the voter's choice other than a candidate whose name appears on the absentee ballot being marked, the spouse, parent or child of a candidate whose name appears on the absentee ballot being marked or the voter's employer, an agent of that employer or a union representative; however, a candidate whose name is on the ballot or the spouse, parent or child of such candidate may provide assistance upon request to any voter who is related within the first degree. In order to ensure the integrity of the ballot, any person who provides assistance to an absentee voter shall be required to sign and complete the "Certificate of Person Providing Voter Assistance" on the absentee ballot envelope.

(2) The foregoing instructions required to be provided by the registrar to the elector shall also constitute the substantive law pertaining to the handling of absentee ballots by the elector and registrar.

23-15-517. At least one (1) hour before the opening of the polls, the officials in charge of the election shall arrive at the polling place and set up the voting booths so that they will be in clear view of the poll managers; the poll managers shall examine the ballots to verify that they have the correct ballots for their precinct and check the supplies, records and forms, and post the sample ballots and instructions to the voters. They shall also inspect the ballot boxes to ensure they contain only voted absentee ballots in their envelopes with the required applications, and then seal the box for voting.

Each voter shall receive written and/or verbal instructions by the poll managers instructing the voter how to properly vote the paper ballot before the voter enters the voting booth. If any voter needs additional instructions after entering the voting booth, two (2) poll managers may, if necessary, enter the booth and give him or her such additional instructions. If any voter spoils a ballot the voter may obtain others, one (1) at a time, not exceeding three (3) in all, upon returning each spoiled ballot. Ballots marked as spoiled shall be bundled together and placed in an envelope designated for spoiled ballots. The poll managers shall place the report in the ballot box, with the seal logs, receipt books, absentee ballots, affidavit ballots, challenged ballots, curbside ballots, emergency ballots, spoiled ballots and unused ballots, which thereupon shall be sealed with a tamper-evident seal, which is a seal that has been designed in such a way to allow someone to easily detect any tampering, so that no additional ballots may be deposited or removed from the ballot box. The poll managers, while they have possession of the election materials, and the officials in charge of the election, once the poll managers have delivered the ballot box to the counting center or other designated place, shall be required to keep a seal log to document each time a tamper-evident seal for a ballot box is opened or changed. The seal log shall require the name of the person who opened the seal, the old seal number, the new seal number, the date the seal was opened and the purpose for opening the seal. The receiving and returning poll manager shall deliver the ballot box to the counting center or other designated place and receive a signed, numbered receipt therefor. The poll books and other records and supplies shall be returned as directed by the officials in charge of the election. Failure to strictly comply with the provisions of this section shall not result in a presumption of fraud.

H. B. No. 1589: Motor vehicles; revise certain provisions regarding discharge of liens and scrapping.

Senator Harkins offered the following COMMITTEE AMENDMENT NO. 1.

Amend by striking all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. Section 63-21-16, Mississippi Code of 1972, is amended as follows:

63-21-16. (1) All designated agents appointed by the department * * * under Section 63-21-13 * * * may electronically transmit to the department * * * information entered by them on applications for a certificate of title given in connection with the sale or transfer of a motor vehicle, manufactured home or mobile home or a loan for which the owner's motor vehicle, manufactured home or mobile home is pledged to that institution as collateral for the loan. The format and the data required to be transmitted shall be established by the department * * *. Transmission of data shall meet minimum criteria and edits established by the department * * * equal to any edit presently existing in the statewide title registration system, or as may be established, to which the county tax collectors shall also conform. All data transmitted must successfully pass edits established by the department * * *, including lienholder name, mailing address and lienholder account number assigned to a lienholder by the department * * * to identify the lienholder, for the purpose of causing the data to appear in the certificate of title for which the application is made.

(2) It shall be the responsibility of the designated agent to verify all data before it is electronically transmitted. It shall also be the responsibility of the designated agent to ensure that the required certification of designated agent and the certification of statement of facts that are contained on the application for certificate of title appear above the signatures of both the owner and the authorized representative of the designated agent. Data which cannot be transmitted because of error shall be corrected by the designated agent when the statewide title registration system indicates that the data is erroneous or is not valid for the purposes of titling the motor vehicle, manufactured home or mobile home or for transfer of the data.

(3) When an institution has agreed to loan money for the purchase of a motor vehicle, manufactured home or mobile home, the institution shall complete an application for certificate of title or require the borrower to provide to the institution the copy of the application for certificate of title contained in the application packet which is designated "Lienholder's Copy" according to provisions of the Motor Vehicle and Manufactured Housing Title Law, which the owner will receive from the county tax collector or any designated agent upon completion of the application for title and registration process.

(4) An application for certificate of title originating from a designated agent shall be entered on the statewide title registration system by the originating lending institution when the transaction is for the purpose of perfecting the institution's interest in a vehicle, manufactured home or mobile home currently owned or purchased by the applicant, in connection with application for certificate of title or the purchase of a license tag or both.

(5) When an institution in this state adds a second lien on a certificate of title in possession of a first lienholder institution in this state, the second lienholder institution seeking to be shown on the certificate of title shall:

(a) Prepare the application for certificate of title in accordance with the requirements of Sections 63-21-15 and 63-21-45(1)(c);

(b) Obtain all required signatures; and

(c) Forward the completed application for certificate of title to the first lienholder together with any necessary remittance advice, a check for the title fee payable to the department * * * and a cover letter to the first lienholder requesting that the first lienholder attach the certificate of title to the required documents sent by the second lienholder and then forward the application, certificate of title and required documents to the department * * *.

(6) Upon receipt of the application for certificate of title from the second lienholder institution to record the second lien, the first lienholder institution shall compare the data contained in the application for certificate of title to the information contained in the original certificate of title. If the first lienholder institution is satisfied as to the ownership, accuracy

and order of priority of liens as shown in the application, it shall enter the data contained on the application for certificate of title prepared by the second lienholder on the statewide title registration system, including the designated agent number of the second lienholder. After entering the data from the application for certificate of title, the first lienholder institution shall immediately forward the application for certificate of title with the certificate of title attached to the application, the remittance advice and the second lienholder's check for the title fee to the department * * * within three (3) working days.

(7) In an assignment of lien pursuant to Section 63-21-47, the assignee shall receive the notice of assignment along with the current title attached and with the assignors interest open. The assignee lienholder shall prepare an application for certificate of title according to the notice of assignment, showing the assignee institution as the lienholder, and then shall electronically transmit the data to the department * * *. The completed application shall be forwarded to the department * * * within three (3) working days.

(8) The department * * *, upon receipt of applications for certificate of title, shall verify the data by accessing it on the statewide title registration system by the title application control number appearing on the application for title. After receiving verification that is satisfactory to the department * * * that the data necessary for the issuance of a new certificate of title exists, the department * * * shall issue a new certificate of title that records the interests of all the parties named in the application for certificate of title.

(9) Designated agents shall be connected to the statewide title registration system for the purpose of electronic transfer of applications for certificate of title data in the order of priority established by the department * * *.

(10) If a participating designated agent fails to comply with the provisions of this section or the rules adopted by the department * * * to implement this section, the department * * * may impose a penalty of Twenty-five Dollars ($25.00) for each instance of noncompliance. Any penalty imposed under this section not paid within thirty (30) days after a notice is given shall be subject to collection from the bond of the designated agent that is required to be provided under the provisions of Section 63-21-13(3). The penalty provided shall also be assessable, due and collectible from any licensed motor vehicle dealer or manufactured home or mobile home dealer for failure to accept an application for certificate of title for each and every vehicle, manufactured home or mobile home he sells to a consumer. These penalties shall be cumulative, supplemental and in addition to the penalties provided by any other law.

(11) This section shall apply to all designated agents appointed by the department * * * under Section 63-21-13, that choose to electronically transmit information on applications for certificates of title to the department * * *. This section shall not apply to other designated agents.

(12) Notwithstanding the foregoing, the department * * * shall not issue a certificate of title to a manufactured home or mobile home with respect to which title has been retired to real property under Section 63-21-30 unless with respect to the same manufactured home or mobile home title has been severed from real property pursuant to Section 63-21-30.

(13) Notwithstanding any requirement in this chapter that a lien on a motor vehicle or manufactured home shall be noted on the face of the certificate of title, if there are one or more liens or encumbrances on the motor vehicle or manufactured home, the department * * * may electronically transmit the lien to the first lienholder and notify the first lienholder of any additional liens. Subsequent lien satisfactions may be electronically transmitted to the department * * * and shall include the name and address of the person satisfying the lien. When electronic transmission of liens and lien satisfactions is used, a certificate of title need not be issued until the last lien is satisfied and a clear certificate of

title is issued to the owner of the motor vehicle or manufactured home. When a motor vehicle is subject to an electronic lien, the certificate of title for the motor vehicle shall be considered to be physically held by the lienholder for purposes of compliance with state or federal odometer disclosure requirements. A duly certified copy of the department * * *'s electronic record of the lien shall be admissible in any civil, criminal, or administrative proceeding in this state as evidence of the existence of the lien.

(14) Any lienholder with a federal Employer Identification Number (EIN) must electronically transmit the satisfaction and release and discharge of a lien on a motor vehicle to the department not later than fourteen (14) days after the date of satisfaction of the lien. The failure of any such lienholder to comply with the requirements of this subsection shall be a violation of this chapter. Any such lienholder who knowingly and willfully fails to transmit the satisfaction and release and discharge of a lien on a motor vehicle within fourteen (14) days after the date of the satisfaction of the lien shall be in violation of this section, and subject to a civil penalty of up to Two Hundred Fifty Dollars ($250.00) per violation, which shall be in addition to any other penalty provided in this chapter. In addition, the lienholder shall be liable for any attorney's fees, legal fees and/or other fees and costs incurred by a person in any action necessary to discharge and/or release a lien or otherwise affecting a lien for which the lienholder failed to transmit the required information.

(15) Notwithstanding any other provision of this chapter to the contrary, if a lien on a motor vehicle is older than eight (8) years from the date the lien was placed on the motor vehicle, the lien shall be recorded by the department in the automated statewide motor vehicle registration system as having been satisfied and released and discharged, unless annually recertified by the lienholder by utilizing the format and transmitting the data required by the department.

SECTION 2. Section 63-21-18, Mississippi Code of 1972, is amended as follows:

63-21-18. The Mississippi Department of Information Technology Services shall provide equipment for the operation and maintenance of the automated statewide motor vehicle, manufactured housing and mobile home registration system by the * * * department.

The automated statewide motor vehicle, manufactured housing and mobile home registration system shall provide for computer terminals and printers, as authorized by the * * * Department of Information Technology Services, to be located in the quantity necessary in each county seat tax collector's office and any other office in which more than fifty percent (50%) of the motor vehicle registrations in the county are made.

All county tax collectors shall participate in such system as it applies to Chapter 19, Title 27; Chapter 51, Title 27; Chapter 21, Title 63; Mississippi Code of 1972, in accordance with rules and regulations promulgated by the * * * department. Such rules and regulations shall provide that counties which have an existing computer system designed to produce registration data may elect to use such existing system to communicate title/registration data to the * * * department through the computer furnished by the state as hereinabove provided in this section. If the * * * department finds and determines that a county has failed to successfully establish or update title/registration data into the statewide vehicle, manufactured housing and mobile home title/registration system, either through use of equipment supplied by the * * * department or through the interfacing between the network system and county computer equipment, the * * * department shall thereafter cause to be withheld the county's homestead exemption reimbursement monies, except for school districts and municipalities, until such time as the county has complied with this provision. Such monies as are withheld from a county for failure to comply with this provision shall be placed into a special escrow account to be established in the State Treasury. Once the county achieves compliance by successfully establishing or updating title/registration data into the statewide vehicle, manufactured housing and mobile home title/registration system, then the * * *

department shall cause to be released to the county all funds held in escrow on the county's behalf during the period of noncompliance. All interest earned shall accrue to the benefit of the county on any funds placed in an escrow account. Any cost involved in interfacing between existing county computer systems and the state-provided computer shall be paid by the county.

The computer terminals and printers placed in each county tax collector's office may be utilized to provide additional computer functions as authorized by the * * * Department of Information Technology Services.

The State Fiscal Officer shall issue his warrants to the State Treasurer for the expenditures for the implementation and maintenance of the system upon requisitions signed by the * * * Commissioner of Revenue, as authorized by the Legislature.

It is the intent of the Legislature that the operation of the statewide motor vehicle, manufactured housing and mobile home title registration system shall be the responsibility of the * * * department.

The * * * department shall provide for the transfer of motor vehicle, manufactured housing and mobile home title and lien registration information to the * * * department by electronic means from banks and other lending institutions as provided in Section 63-21-18. The * * * Department of Information Technology Services shall cooperate with the * * * department in implementing the provisions of Section 63-21-18, and shall provide the * * * department with whatever assistance the * * * department needs to carry out the provisions of Section 63-21-18.

A used motor vehicle parts dealer or scrap metal processor must utilize the department's automated statewide motor vehicle registration system for the purpose of complying with the requirements of Section 63-21-39(1)(a).

SECTION 3. Section 63-21-39, Mississippi Code of 1972, is amended as follows:

63-21-39. (1) (a) An owner who scraps, dismantles or destroys a vehicle and a person who purchases a vehicle as scrap or to be dismantled or destroyed shall indicate same on the back of the certificate of title and shall immediately cause the certificate of title and any other documents required by the department * * * to be mailed or delivered to the department * * * for cancellation. A certificate of title of the vehicle shall not again be issued except upon application containing the information the department * * * requires, accompanied by a certificate of inspection in the form and content specified in Section 63-21-15(5) and proof of payment of a fee as provided in subsection (2) of this section. Before a used motor vehicle parts dealer or scrap metal processor may purchase or receive a motor vehicle from the owner or authorized agent of the owner of the motor vehicle for the purpose of scrapping, dismantling or destroying the motor vehicle, the used motor vehicle parts dealer or scrap metal processor must verify under Section 63-21-18 the absence of any lien on the motor vehicle. If a lien exists on the motor vehicle, the used motor vehicle parts dealer or scrap metal processor may not purchase or receive the motor vehicle for the purpose of scrapping, dismantling or destroying the vehicle, and may not purchase or receive the motor vehicle for such purposes during any time for which a lien exists on the motor vehicle.

(b) Notwithstanding any other provision of this chapter to the contrary, if the owner or authorized agent of the owner has not obtained a title in his or her name for the vehicle to be transferred, has lost the title for the vehicle to be transferred, or has returned the title to the department * * * in accordance with paragraph (a) of this subsection, he or she may sign a statement swearing that, in addition to the foregoing conditions, the vehicle is at least ten (10) model years old. The statement described in this paragraph may be used only to transfer such a vehicle to a licensed used motor vehicle parts dealer or scrap metal processor. The department shall promulgate a form for the statement which shall include, but not be limited to:

(i) A statement that the vehicle shall never be titled again; it must be dismantled or scrapped;

(ii) A description of the vehicle including the year, make, model and vehicle identification number;

(iii) The name, address, and driver's license number, nondriver identification card number or tribal identification card number of the owner;

2. Is not subject to any security interest or lien;

1. It is a misdemeanor, punishable by a fine of not more than One Thousand Dollars ($1,000.00) or imprisonment for not more than six (6) months, or both, for conviction of a first offense of knowingly falsifying any information on this statement; and

2. It is a felony, punishable by a fine of not less than One Thousand Dollars ($1,000.00) nor more than Five Thousand Dollars ($5,000.00) or imprisonment for not less than one (1) year nor more than five (5) years, or both, for conviction of a second or subsequent offense of knowingly falsifying any information on this statement;

(vii) The owner's signature and the date of the transaction;

(viii) The name and address of the business acquiring the vehicle;

(ix) The National Motor Vehicle Title Information System identification number; and

(x) The business agent's signature and date along with a printed name and title if the agent is signing on behalf of a corporation.

(c) Until such time as the department makes available an Internet-based system, the used motor vehicle parts dealer or scrap metal processor shall mail or otherwise deliver the statement required under paragraph (b) of this subsection (1) to the department * * * within three (3) business days of the completion of the transaction, requesting that the department cancel the Mississippi certificate of title and registration. Once the department develops an Internet-based system, the used motor vehicle parts dealer or scrap metal processor shall utilize such system and within two (2) business days electronically submit the information contained in the statement using that system.

(d) Within two (2) business days of each day's close of business, the used motor vehicle parts dealer or scrap metal processor who purchases or receives motor vehicles for scrap or for parts shall deliver in a format approved by the department, by

(ii) In cases in which crushed or flattened vehicles are purchased or received, the purchasing or receiving used motor vehicle parts dealer or scrap metal processor shall verify that the seller has reported the vehicles in accordance with this subsection. Such verification may be in the form of a certification from the seller or a contract between the seller and the purchasing or receiving used motor vehicle parts dealer or scrap metal processor attesting to the seller's compliance with the reporting requirements of this subsection. Such verification must clearly identify the seller by a government issued photograph identification card or employer identification number, and the verification and copy of the identification card or number shall be maintained by the purchasing or receiving used motor vehicle parts dealer or scrap metal processor for a period of not less than two (2) years.

(f) The information obtained by the department in accordance with paragraph (d) of this subsection (1) shall be reported to the National Motor Vehicle Title Information System, in a format that will satisfy the requirement for reporting this information, in accordance with rules adopted by the United States Department of Justice in 28 CFR 25.56.

(g) Until such time as the department develops and makes available the internet-based system described in paragraph (d) of this subsection, the used motor vehicle parts dealer or scrap metal processor who purchases or receives motor vehicles for scrap or for parts shall deliver the information required by paragraph (d) to the National Motor Vehicle Title Information System through any data consolidator approved by such system, within forty-eight (48) hours of the day the vehicle was purchased or acquired by such used motor vehicle parts dealer or scrap metal processor which shall satisfy the requirements of paragraph (d).

(h) The information obtained by the department in accordance with paragraph (d) of this subsection (1) shall be made available only to law enforcement agencies and for purposes of canceling certificates of title. The information shall otherwise be considered to be confidential business information of the respective reporting entities.

(i) All records required under the provisions of this subsection shall be maintained for a period of two (2) years by the reporting entity and shall include a scanned or photocopied copy of the seller's or seller's representative's driver's license or state-issued identification card or other valid form of identification.

(j) A person who knowingly and willfully violates this subsection (1), or any person who knowingly and willfully falsifies or assists another person in falsifying the statement or information required under paragraph (b) or (d) of this subsection, or any person who knowingly and willfully sells a vehicle upon which there is an unsatisfied lien or security interest, or who purchases a vehicle without complying with either paragraph (a) or (b) of this subsection and who knowingly and willfully destroys or dismantles a vehicle upon which he knows that there is an unsatisfied lien or security interest shall:

(i) Be guilty of a misdemeanor, punishable by a fine not more than One Thousand Dollars ($1,000.00) or imprisonment for not more than six (6) months, or both, for conviction of a first offense; or

In addition, the court may order each person convicted to pay restitution to any party suffering monetary loss in the amount of such loss. No part of any sentence imposed by the court shall be suspended unless such restitution has been paid in full.

(k) A person who knowingly and willfully fails to deliver the title as required under paragraph (a) of this subsection, or the statement required under paragraph (b) of this subsection to the department * * * within seventy-two (72) hours of the completion of the transaction, or who, until such time as the department develops and makes available the Internet-based system described in paragraph (d), fails to deliver the information required by paragraph (d) to the National Motor Vehicle Title Information System through any data consolidator approved by such system, within two (2) business days of the day the vehicle was purchased or acquired by such used motor vehicle parts dealer or scrap metal processor shall be in violation of this section, and subject to a civil penalty of up to One Thousand Dollars ($1,000.00) per violation. Actions to impose this penalty may be brought by any local or state law enforcement agency, district attorney, or by the Attorney General, in any court of competent jurisdiction. One-half (1/2) of the monies generated from such civil penalties shall be deposited in a special fund created in the State Treasury for use by the department * * *'s Title Bureau, and one-half (1/2) of the monies generated from such civil penalties shall be deposited in the general fund of the municipality if the suit was brought in a municipal court, or in the general fund of the county if the suit was brought in the court of a county.

(2) For the purpose of requesting a branded title on a vehicle with a salvage certificate of title, every owner of a vehicle that has been issued a salvage certificate of title in this state or any other state which has been restored in this state to its operating condition which existed prior to the event which caused the salvage certificate of title to be issued shall make application to the department * * *, accompanied by a certificate of inspection issued by the Department of Public Safety in the form and content specified in Section 63-21-15(5) and the payment of a fee of Seventy-five Dollars ($75.00) for each motor vehicle for which a certificate of inspection is issued. In addition, the Department of Public Safety may charge such a person a fee in the amount of Twenty-five Dollars

($25.00) for performing any vehicle identification number verification required by federal law or regulation for the vehicle for which the person is applying for a title. All such monies shall be collected by the Department of Public Safety and paid to the State Treasurer for deposit in a special fund that is hereby created in the State Treasury to be known as the "Salvage Certificate of Title Fund." Monies in the special fund may be expended by the Department of Public Safety, upon appropriation by the Legislature. The department * * * shall establish by regulation the minimum requirements by which a vehicle which has been issued a salvage certificate of title may be issued a branded title.

(3) Before a branded title may be issued for a vehicle for which a salvage certificate of title has been issued, the applicant shall submit, by hand delivery or mail, such documents and information to the Department of Public Safety as the department may require for the purpose of determining if the vehicle complies with the requirements of this section and all applicable regulations promulgated by the Commissioner of Public Safety and the department * * *. The Department of Public Safety also may require that an applicant bring a vehicle for which application for a branded title is being made to a Highway Patrol facility for a visual inspection whenever the department deems that a visual inspection is necessary or advisable. Nothing in this section shall be construed to prohibit inspectors of the Mississippi Highway Patrol from conducting on-site inspections and investigations of motor vehicle rebuilders or motor vehicle repair businesses to determine if such businesses are in compliance with all applicable laws relating to the motor vehicle title laws of this state and regulations promulgated by the Commissioner of Public Safety and the department * * *.

SECTION 4. Section 63-21-65, Mississippi Code of 1972, is amended as follows:

63-21-65. The department * * * shall deposit the fees collected under this chapter into a special fund that is created in the State Treasury to be known as the "Motor Vehicle Title and Registration Enforcement Fund" to the credit of the department. The fund shall consist of monies appropriated by the Legislature for the enforcement of this chapter and funds from fees and fines authorized under Sections 63-21-18 and 63-21-39. As much of those fees as appropriated by the Legislature shall only be used by the department to defray the cost of carrying out the duties of the department and to defray expenses for enforcement officers' salaries and fringe benefits and other costs to implement and enforce the provisions of this chapter, including the maintenance of the automated statewide motor vehicle and manufactured housing registration system. Unexpended amounts remaining in the fund at the end of a fiscal year shall not lapse into the State General Fund, and any interest earned or investment earnings on amounts in the fund shall be deposited to the credit of the fund.

SECTION 5. Section 63-21-75, Mississippi Code of 1972, is amended as follows:

63-21-75. (1) (a) The department * * * is charged with the enforcement of the provisions of this chapter and * * * is * * * authorized and empowered to:
