Lt. Governor Delbert Hosemann addressed the joint assembly with the following remarks:

Thank you!

After we have worked together the last four years on so many issues and the tremendous achievements you accomplished, it is very special to me to have 97 old friends in the House and 45 in the Senate.

For you new members, four years ago, I advised the House the Rotunda sometimes symbolizes a chasm accentuating our differences. The Rotunda has two walkways to bridge the gap. We will continue to use the walkways.

As most of you know, our family is blessed to have my wife Lynn, and children Kristen, Chad, and Mark, daughters-in-law Courtney and Leslie, and eight grandchildren: Grace, Nora Lynn, Carson, Charlie, Manse, Howard Delbert, Charlotte, and Bobby. They are thanking you for keeping me employed.

During the last few years, this Legislature has addressed needed teacher compensation, school funding, roads, bridges, water and sewer and other infrastructure, tax reduction packages, mental health, protecting our children, healthcare for mothers and new babies, security for our citizens, devoted millions of dollars to restoring our parks and providing public spaces for hunting and enjoying our beautiful state, and providing our citizens with the ability to change the actual symbol of our State.

Your action was unparalleled in its scope and historic in its results. Never in the history of this State have our education scores risen so largely and our unemployed lowered to basically full employment for every citizen who wants to work.

You accomplished all this while at the same time fully funding our rainy-day fund, our hurricane windpool, paying off $900 million dollars in state debt, and maintaining a billion dollars in cash reserves.

To put this in perspective, California is facing a $68 billion dollar budget shortfall.

You have a record—and it is one of achievement.

Now, we open the door to the future.

Our labor force participation rate is the lowest in the country. That is the percent of people who are 16 and older who are actually working. Our economy is not sustainable with further declines. Economic development will wilt without an educated workforce to retain it.

Encouraging personal initiative to be gainfully employed is paramount.

Each person must have the education they need to obtain a positive economic future. This education must demand quality and achievement from those who provide it and be adequately funded from pre-K through the highest level sought by our citizens. We will propose a last-dollar tuition program for our outstanding community colleges to offer citizens the additional public education they need and to raise this labor force participation rate.

Our healthcare system, like most of the rest of the country, is struggling. Staffing shortages, hospital costs and capacity, mental health issues, pharmaceutical costs, availability of preventive healthcare, and the actual cost to working people of insurance all face us.

A shotgun approach is not the answer.

A comprehensive approach is.

The trustees of our current Public Employees Retirement System have now changed from one year ago in their position that PERS will be 93% funded by 2047 to now saying it will be 48% funded by 2047. They have also indicated larger additional contributions from current employees and the state will be required in addition to another tier for future employees. This absolute obligation of the state will drive most of your financial decisions this year and in the future.

In this room, we have the ability and the leadership to address these and the myriad of other issues you will face.

I am confident you will again have a record of achievement.

Now, let us get started. And may God bless each of us.

On motion of Representative Yancey, the Joint Session was dissolved at 2:44 PM, and pursuant to motion by Senator Polk previously adopted, the Senate stood in recess.

Pursuant to adjournment motion previously adopted, the Senate stood adjourned at 5:00 PM in memory of William Thaddeus McLaurin, Jesse Roderick Sparkman, III, Matthew Dale Hickman, Robby Wester, Max Lowery, Billy Flanagin, Betty Jean Ezell, Dr. Michael Ted Boler, Sr., Louis Vernon "Dutch" Ehret, Jr., Clinton William Walker, Jr., Barbara Suzanne Smith McIntyre, Eleanor S. Forsythe, James Ray Drennan and Mary Elizabeth Holbrook.

Thank you, Mr. Chief Justice. It is a great day to be a Mississippian.

Lieutenant Governor Hosemann, Speaker White, President Pro Tem Kirby, Speaker Pro Tem Barton, members of the Mississippi Legislature, friends, family, and my fellow Mississippians joining us in person and those watching from home, it is my pleasure to stand before you here today.

It is the single highest honor of my professional life to serve as the governor of the great state of Mississippi. And it brings me tremendous joy to stand before great leaders, the people of Mississippi, and God to take this oath today.

Before I go any further, I'd like to take a moment to thank the most important Mississippian to me and my family, my wife and our First Lady, Elee Reeves.

There are no words that can properly summarize how much you mean to me. From the day we met, less than one mile from this Capitol, everything has been different, and better. You are a wonderful wife, an amazing mom, and a terrific ambassador for our state. Thank you for being right by my side over this wild ride together.

I also want to thank our daughters, Tyler, Emma, and Maddie. I know that each of you make sacrifices as well – and you have made them as long as you can remember. Your mom and I are incredibly blessed by you – and I am so excited to see the strong, confident young women you are becoming.

I want to thank my dad, my mom, my brother Todd, my Mamaw, and the rest of my family. None of you signed up for, nor do you deserve, the lies and false attacks hurled at you simply because you are related, but please know that I love you all and I'm grateful for each of you. The reason I find myself here today is rooted in the values and love that come from you.

Many years ago, just after college, Elee and I decided to plant our roots in our home state, and to do everything in our power to make it better. It was a conscious decision. We had other options. We could have gone other places and done other things. But the pull of Mississippi was too strong. We were all in from the start. We volunteered. We worked hard. Bought a house in the city of Jackson. We did not at that time imagine statewide office, but we were determined to make a difference.

Then, in 2003, in what was a surprise to a lot of people, the voters of our state took a chance on a conservative young investment banker, and made me the first Republican treasurer in the history of our state.

My gratitude to the people of Mississippi for placing their trust in me, that day and every day since, can never fully be expressed in words. I thank God each and every day that he has provided the opportunity to serve.

And I'd like you each to know, from the bottom of my heart, how deeply thankful I am for your support.

I've met a few Mississippians who have voted for me every single time since 2003. And not all of them are related to me.

And I'm fully aware there are people who have never voted for me, not once in twenty years – but pray for me to succeed never the less.

And whether you voted for me or not, this time or ever, I want you to know it matters not. As I did four years ago, I want to once again make this promise to all of you – that I will be a governor for ALL Mississippi.

The longer I have served, the more I have come to appreciate that the defining characteristic about Mississippi is that sense that we are all in it together.

It is not our food, our football, or even our music that makes us unique. It is our commitment to each other.

I don't think anybody could have anticipated what we would face together as a state over the last four years. Tornadoes. Floods. Hurricanes. And a pandemic on top of it all. Yet, through every challenge encountered, we have emerged stronger.

Through every moment of despair, Mississippians showed the strength of our character and chose to be a light amidst the darkness.

That is a testament to the goodness of our people. And it makes me all the prouder to be a Mississippian.

I'll tell you this, I have frequently turned to God in prayer over these last four years. As a matter of fact, I have prayed a lot more as governor than I thought I would when I was sworn in the first time. And I know that I will do so again over the next four years.

That's why I'm especially thankful that we were once again able to start this inaugural ceremony with a prayer service Sunday. Mississippians are never bashful about our reliance on the Lord. We know that our faith is responsible for the ties that bind. And I am proud we come together so consistently to lift up our voices in unified prayer to an almighty God.

I promise all of you that I will continue seeking God's guidance through every challenge that we face – and I ask that you ask God to guide me when you pray as well.

Four years ago, I stood before you and discussed what we aimed to accomplish over this first term.

Four years ago, I stood here and called for a history-making increase in workforce training.

Then, together, we created the Office of Workforce Development, Accelerate Mississippi – and invested millions to equip our people with the skills they need for good jobs.

Just last week, Site Selection Magazine said our workforce efforts passed Texas and Louisiana in 2023, and we ain't done yet.

Four years ago, I called for a pay raise for our teachers.

Together, we secured the largest pay raise in state history.

Four years ago, I said we would travel the world to bring more great companies to Mississippi.

Together, we secured record breaking economic investment, which included the single largest economic deal in state history.

And you ain't seen nothing yet! We've got some big things coming. Projects that will fundamentally change lives and transform our state for the better.

On top of this, we delivered the single largest tax cut in our state's history and returned over half a billion dollars to Mississippians. We made historic investments in our state's infrastructure. We've achieved the Mississippi miracle in education, with more kids graduating than ever before. We went from 49th to 21st in fourth grade reading, from dead last to 23rd in fourth grade math, and we were among the top 5 in the entire nation when it came to fourth grade reading test scores for African American students. We are making sure ALL of Mississippi has momentum.

We bolstered our state's hospitals, expanded conservation efforts, increased training opportunities for medical professionals, committed more resources to public safety, and so much more.

And today, I am proud to tell you, we're just getting started.

So what comes next for Mississippi?

There is no doubt that our bad numbers are getting better, and our good numbers are becoming great.

I love to talk about rankings and results. I'm a numbers guy. But we are not pursuing test scores to beat Alabama. We are not pursuing capital investment to have bragging rights over Arkansas.

We are pursuing excellence – to secure permanence.

For too many decades, Mississippi's most valuable export has not been our cotton, or even our culture. It's been our kids.

Mississippi minds dominate some of the top positions in government, business, and entertainment across the country. They carry with them the pride and grit that is engrained in every Mississippian. They made other places better – and we missed out on all they could have done here at home.

My goal is not just to ensure that Mississippi is a source of pride, but that it can be the place where they achieve their fortune and dominance in their field.

By now you know I love to say that Mississippi has momentum. And we do. But today I want to tell you what I believe we must DO with that momentum.

Our goal must be what I call Mississippi Forever.

I want to build a state where my daughters, and all of our sons and daughters can proudly stay and raise their families.

I want every kid, from the Delta to the Coast, from Tishomingo to Tallahatchie, to grow up with the idea that they'll be Mississippi Forever.

I want every child to have the opportunities for an education, and a career, that enable them to be Mississippi Forever.

I want companies that are born here, to know they can grow here – Mississippi Forever.

And I want people who live in other states, many of whom grew up here, who are frustrated by the breakdown of culture and society where they live, who feel like they cannot get ahead, I want those families to look across the dinner table at each other and say: "honey, we need to go to Mississippi forever."

We do not need to aim to merely get better. We need to make it our priority to be the best, at everything that matters.

To accomplish this, we must be realistic about the challenges that we still face.

We need to honestly assess the barriers in our economy – and boldly knock them down.

We need to recognize that the cost of healthcare continues to rise, and access seems too limited.

We need to make sure we do not rest on our success in education and workforce training. Momentum is our asset and inertia is our enemy. We cannot settle for better – we have to demand the best.

Here in this building, we need to be adjusting our sights.

We need to be bold in our goals and carry our Mississippi pride into our actions. We can compete with anyone and win. We can achieve the things that our neighbors have achieved.

When our sons and daughters say: “I am from Mississippi,” we can give them the pride to deliver that statement with a straight back and a strong voice.

Let’s continue to give Mississippians relief from taxes and eliminate the burdens on their families. Let’s be transformational in those efforts to compete with the best.

Let’s continue to invest in and bolster Mississippi’s nationally recognized education system.

Let’s protect mothers and babies by further expanding the Pro-Life Agenda – by making Mississippi the best place in America to have and raise a child.

Let’s protect the rights of parents and let’s protect our kids.

Let’s proudly defend our culture and our way of life.

Let’s make Mississippi the safest state in the entire nation.

And let’s relentlessly recruit new jobs not just to our prosperous counties but to all our communities.

The fact is that everything we do, we do together. There is no black Mississippi or white Mississippi. There is no red Mississippi or blue Mississippi. There is only one Mississippi – and it is Mississippi Forever.

We know that in our hearts, none of us ever leave Mississippi. Our task is to make sure our opportunities align with our sentiment.

I really do believe that this is Mississippi’s time. We have an opportunity ahead of us that we must seize. But it will require that we be bold and ambitious.

We must be bold in our reforms. We must be bold in winning new jobs and businesses. We must be bold in our commitment to principles. And we must be bold to build a brighter future for the state we all love.

I’d like to end this speech where I started. Back twenty years ago when I first took this oath. As I have prepared for this day these last few weeks, it has been apparent to me that this is my last opportunity to do the thing I have most wanted to do my entire adult life.

And I know that I am not alone. I am surrounded by people in this Capitol, in both parties, who have chosen a path to make Mississippi better. And as I campaigned this year, I was struck by the fact that virtually everyone was driven by a desire to bring Mississippi up.

We have all been placed in a position of great importance. We sit at a crossroads for our state.

We’ve been entrusted by our friends, peers, and neighbors to make decisions that will impact many lives, not just today, but for many years to come.

Let us take up this work with joy and determination. Let us come together and heal our differences. Let us all throw ourselves at the great mission. Let us be united by our mission to make Mississippi the home for all its sons and daughters – forever.

Thank you all for being here today. Thank you to all of our legislators for giving your time and energy to serve our state. Thank you all for your support. And thank you all for your prayers.

May God bless you. May God bless your families. And may God bless the great state of Mississippi!

The benediction was pronounced by Commissioner of Agriculture and Commerce Andy Gipson.

Lt. Governor Delbert Hosemann congratulated Governor Tate Reeves and First Lady Elee Reeves, and then Lt. Governor Delbert Hosemann called for a motion to dissolve the Joint Session.

Senator Michel called up the following House Amendment to **S. B. No. 2140** and moved that the Senate do concur in the Amendment:

AMENDMENT NO. 2:

Amend by striking all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. This act shall be known and may be cited as the "Mississippi Prior Authorization Reform Act."

SECTION 2. Legislative findings. The Mississippi Legislature finds and declares that:

(a) The health care professional-patient relationship is paramount and should not be subject to unreasonable third-party interference;

(b) Prior authorization programs may be subject to member coverage agreements and medical policies, but shall not hinder the independent medical judgment of a physician or other health care provider; and

(c) Prior authorization programs must be transparent to ensure a fair and consistent process for health care providers and their patients.

SECTION 3. Applicability and scope. This act applies to every health insurance issuer and all health benefit plans, as both terms are defined in Section 83-9-6.3, and all private review agents and utilization review plans, as both terms are defined in Section 41-83-1, with the exception of employee or employer self-insured health benefit plans under the federal Employee Retirement Income Security Act of 1974 or health care provided pursuant to the Workers' Compensation Act. This act does not diminish the duties and responsibilities under other federal or state law or rules promulgated under those laws applicable to a health insurer, health insurance issuer, health benefit plan, private review agent or utilization review plan, including, but not limited to, the requirement of a certificate in accordance with Section 41-83-3.

SECTION 4. Definitions. For purposes of this act, unless the context requires otherwise, the following terms shall have the meanings as defined in this section:

(a) "Adverse determination" means a determination by a health insurance issuer that, based on the information provided, a request for a benefit under the health insurance issuer's health benefit plan upon application of any utilization review technique does not meet the health insurance issuer's requirements for medical necessity, appropriateness, health care setting, level of care, or effectiveness or is determined to be experimental or investigational and the requested benefit is therefore denied, reduced, or terminated or payment is not provided or made, in whole or in part, for the benefit; the denial, reduction, or termination of or failure to provide or make payment, in whole or in part, for a benefit based on a determination by a health insurance issuer that a preexisting condition was present before the effective date of coverage; or a rescission of coverage determination, which does not include a cancellation or discontinuance of coverage that is attributable to a failure to timely pay required premiums or contributions toward the cost of coverage.

(b) "Appeal" means a formal request, either orally or in writing, to reconsider an adverse determination.

(c) "Approval" means a determination by a health insurance issuer that a health care service has been reviewed and, based on the information provided, satisfies the health insurance issuer's requirements for medical necessity and appropriateness.

(d) "Clinical review criteria" means the written screening procedures, decision abstracts, clinical protocols and practice guidelines used by a health insurance issuer to determine the necessity and appropriateness of health care services.

(e) "Department" means the Mississippi State Department of Insurance.

(f) "Emergency medical condition" means a medical condition manifesting itself by acute symptoms of sufficient severity, including, but not limited to, severe pain, such that a prudent layperson who possesses an average knowledge of health and medicine could reasonably expect the absence of immediate medical attention to result in:

(i) Placing the health of the individual or, with respect to a pregnant woman, the health of the woman or her unborn child, in serious jeopardy;

(ii) Serious impairment to bodily functions; or

(iii) Serious dysfunction of any bodily organ or part.

(g) "Emergency services" means health care items and services furnished or required to evaluate and treat an emergency medical condition.

(h) "Enrollee" means any person and his or her dependents enrolled in or covered by a health care plan.

(i) "Health care professional" means a physician, a registered professional nurse or other individual appropriately licensed or registered to provide health care services.

(j) "Health care provider" means any physician, hospital, ambulatory surgery center, or other person or facility that is licensed or otherwise authorized to deliver health care services.

(k) "Health care service" means any services or level of services included in the furnishing to an individual of medical care or the hospitalization incident to the

furnishing of such care, as well as the furnishing to any person of any other services for the purpose of preventing, alleviating, curing, or

healing human illness or injury, including behavioral health, mental health, home health and pharmaceutical services and products.

(l) "Health insurance issuer" has the meaning given to that term in Section 83-9-6.3. Any provision of this act that applies to a "health insurance issuer" also applies to any person or entity covered under the scope of this act in Section 3 of this act.

(m) "Medically necessary" means a health care professional exercising prudent clinical judgment would provide care to a patient for the purpose of preventing, diagnosing, or treating an illness, injury, disease or its symptoms and that are:

(i) In accordance with generally accepted standards of medical practice; and

(ii) Clinically appropriate in terms of type, frequency, extent, site and duration and are considered effective for the patient's illness, injury or disease; and not primarily for the convenience of the patient, treating physician, other health care professional, caregiver, family member or other interested party, but focused on what is best for the patient's health outcome.

(n) "Physician" means any person with a valid doctor of medicine, doctor of osteopathy or doctor of podiatry degree.

(o) "Prior authorization" means the process by which a health insurance issuer determines the medical necessity and medical appropriateness of an otherwise covered health care service before the rendering of such health care service. "Prior authorization" includes any health insurance issuer's requirement that an enrollee, health care professional or health care provider notify the health insurance issuer before, at the time of, or concurrent to providing a health care service.

(p) "Urgent health care service" means a health care service with respect to which the application of the time periods for making a nonexpedited prior authorization that in the opinion of a treating health care professional or health care provider with knowledge of the enrollee's medical condition:

(i) Could seriously jeopardize the life or health of the enrollee or the ability of the enrollee to regain maximum function;

(ii) Could subject the enrollee to severe pain that cannot be adequately managed without the care or treatment that is the subject of the utilization review; or

(iii) Could lead to likely onset of an emergency medical condition if the service is not rendered during the time period to render a prior authorization determination for an urgent medical service.

(q) "Urgent health care service" does not include emergency services.

(r) "Private review agent" has the meaning given to that term in Section 41-83-1.

SECTION 5. Disclosure and review of prior authorization requirements. (1) A health insurance issuer shall maintain a complete list of services for which prior authorization is required, including for all services where prior authorization is performed by an entity under contract with the health insurance issuer.

(2) A health insurance issuer shall make any current prior authorization requirements and restrictions, including the written clinical review criteria, readily

accessible and conspicuously posted on its website to enrollees, health care professionals and health care providers. Content published by a third party and licensed for use by a health insurance issuer may be made available through the health insurance issuer's secure, password-protected website so long as the access requirements of the website do not unreasonably restrict access. Requirements shall be described in detail, written in easily understandable language, and readily available to the health care professional and health care provider at the point of care. The website shall indicate for each service subject to prior authorization:

(a) When prior authorization became required for policies issued or health benefit plan documents delivered in Mississippi, including the effective date or dates and the termination date or dates, if applicable, in Mississippi;

(b) The date the Mississippi-specific requirement was listed on the health insurance issuer's, health benefit plan's, or private review agent's website;

(c) Where applicable, the date that prior authorization was removed for Mississippi; and

(d) Where applicable, access to a standardized electronic prior authorization request transaction process.

(3) The clinical review criteria must:

(a) Be based on nationally recognized, generally accepted standards except where state law provides its own standard;

(b) Be developed in accordance with the current standards of a national medical accreditation entity;

(c) Ensure quality of care and access to needed health care services;

(d) Be evidence-based;

(e) Be sufficiently flexible to allow deviations from norms when justified on a case-by-case basis; and

(f) Be evaluated and updated, if necessary, at least annually.

(4) A health insurance issuer shall not deny a claim for failure to obtain prior authorization if the prior authorization requirement was not in effect on the date of service on the claim.

(5) A health insurance issuer shall not deem as incidental or deny supplies or health care services that are routinely used as part of a health care service when:

(a) An associated health care service has received prior authorization; or

(b) Prior authorization for the health care service is not required.

(6) If a health insurance issuer intends either to implement a new prior authorization requirement or restriction or amend an existing requirement or restriction, the health insurance issuer shall provide contracted health care professionals and contracted health care providers of enrollees written notice of the new or amended requirement or amendment no less than sixty (60) days before the requirement or restriction is implemented. Written notice may take the form of a conspicuous notice posted on the health insurance issuer's public website or portal for contracted health care professionals and contracted health care providers. A health insurance issuer shall provide email notices to health care professionals or health care providers if the health

care professional or health care provider has requested to receive the notice through email. The health insurance issuer shall ensure that the new or amended requirement is not implemented unless the health insurance issuer's website has been updated to reflect the new or amended requirement or restriction. Written notice of a new, amended, or restricted prior authorization requirement, as required by this subsection (6), may be provided less than sixty (60) days in advance if a health insurance issuer determines and contemporaneously notifies the department in writing that:

(a) The health insurance issuer has identified fraudulent or abusive practices related to the health care service;

(b) The health care service is unavailable or scarce which necessitates the use of an alternative health care service;

(c) The health care service is newly introduced to the health care market and a delay in providing coverage for the health care service and would not be in the best interests of enrollees;

(d) The health care service is the subject of a clinical trial authorized by the United States Food and Drug Administration; or

(e) Changes to the health care service or its availability are otherwise required by law to be made by the health insurance issuer in less than sixty (60) days.

(7) Health insurance issuers using prior authorization shall make statistics available regarding prior authorization approvals and denials on their website in a readily accessible format. (2) Not later than January 1, 2027, all health care professionals and health care providers shall be required to use the standardized electronic prior authorization request transaction process made available as required by subsection (1) of this section.

SECTION 7. Prior authorizations in nonurgent circumstances. If a health insurance issuer requires prior authorization of a health care service, the health insurance issuer must make an approval or adverse determination and notify the enrollee, the enrollee's health care professional, and the enrollee's health care provider of the approval or adverse determination as expeditiously as the enrollee's condition requires but no later than seven (7) calendar days after obtaining all necessary information to make the approval or adverse determination, unless a longer minimum time frame is required under federal law for the health insurance issuer and the health care service at issue. As used in this section, "necessary information" includes the results of any face-to-face clinical evaluation, second opinion or other clinical information that is directly applicable to the requested service that may be required. Notwithstanding the foregoing provisions of this section, health insurance issuers must comply with the requirements of Section 83-9-6.3 to respond by two (2) business days for prior authorization requests for pharmaceutical services and products.

SECTION 8. Prior authorizations in urgent circumstances. (2) To facilitate the rendering of a prior authorization determination in conformance with this section, a health insurance issuer must establish a mechanism to ensure health care professionals have access to appropriately trained and licensed clinical personnel who have access to physicians for consultation, designated by the plan to make such determinations for prior authorization concerning urgent care services.

SECTION 9. Notifications for adverse determinations. If a health insurance issuer makes an adverse determination, the health insurance issuer shall include the following in the notification to the enrollee, the enrollee's health care professional, and the enrollee's health care provider:

(b) The right to appeal the adverse determination;

(c) Instructions on how to file the appeal; and

(d) Additional documentation necessary to support the appeal.

SECTION 10. Personnel qualified to review appeals. (1) A health insurance issuer must ensure that all appeals are reviewed by a physician when the request is by a physician or a representative of a physician. The physician must:

(2) Notwithstanding the foregoing, a licensed health care professional who satisfies the requirements in this section may review appeal requests submitted by a health care professional licensed in the same profession.

SECTION 11. Insurer review of prior authorization requirements. A health insurance issuer shall periodically review its prior authorization requirements and consider removal of prior authorization requirements:

(a) Where a medication or procedure prescribed is customary and properly indicated or is a treatment for the clinical indication as supported by peer-reviewed medical publications; or

(b) For patients currently managed with an established treatment regimen.

SECTION 12. Revocation of prior authorizations. (1) A health insurance issuer may not revoke or further limit, condition or restrict a previously issued prior authorization approval while it remains valid under this act.

(2) Notwithstanding any other provision of law, if a claim is properly coded and submitted timely to a health insurance issuer, the health insurance issuer shall make payment according to the terms of coverage on claims for health care services for which prior authorization was required and approval received before the rendering of health care services, unless one (1) of the following occurs:

(a) It is timely determined that the enrollee's health care professional or health care provider knowingly and without exercising prudent clinical judgment provided health care services that required prior authorization from the health insurance issuer or its contracted private review agent without first obtaining prior authorization for those health care services;

(b) It is timely determined that the health care services claimed were not performed;

(c) It is timely determined that the health care services rendered were contrary to the instructions of the health insurance issuer or its contracted private review

agent or delegated reviewer if contact was made between those parties before the service being rendered;

(d) It is timely determined that the enrollee receiving such health care services was not an enrollee of the health care plan; or

(e) The approval was based upon a material misrepresentation by the enrollee, health care professional, or health care provider; as used in this paragraph, "material" means a fact or situation that is not merely technical in nature and results or could result in a substantial change in the situation.

(3) Nothing in this section shall preclude a private review agent or a health insurance issuer from performing post-service reviews of health care claims for purposes of payment integrity or for the prevention of fraud, waste, or abuse.

SECTION 13. Length of approvals. (1) A prior authorization approval shall be valid for the lesser of six (6) months after the date the health care professional or health care provider receives the prior authorization approval or the length of treatment as determined by the patient's health care professional or the renewal of the policy or plan, and the approval period shall be effective regardless of any changes, including any changes in dosage for a prescription drug prescribed by the health care professional. Notwithstanding the foregoing, a health insurer and an enrollee or his/her health care professional may extend a prior authorization approval for a longer period, by agreement. All dosage increases must be based on established evidentiary standards, and nothing in this section shall prohibit a health insurance issuer from having safety edits in place. This section shall not apply to the prescription of benzodiazepines or Schedule II narcotic drugs, such as opioids.

(2) Nothing in this section shall require a policy or plan to cover any care, treatment, or services for any health condition that the terms of coverage otherwise completely exclude from the policy's or plan's covered benefits without regard for whether the care, treatment or services are medically necessary.

SECTION 14. Approvals for chronic conditions. (1) If a health insurance issuer requires a prior authorization for a recurring health care service or maintenance medication for the treatment of a chronic or long-term condition, including, but not limited to, chemotherapy for the treatment of cancer, the approval shall remain valid for the lesser of twelve (12) months from the date the health care professional or health care provider receives the prior authorization approval or the length of the treatment as determined by the patient's health care professional. Notwithstanding the foregoing, a health insurer and an enrollee or his or her health care professional may extend a prior authorization approval for a longer period, by agreement. This section shall not apply to the prescription of benzodiazepines or Schedule II narcotic drugs, such as opioids.

(2) Nothing in this section shall require a policy or plan to cover any care, treatment or services for any health condition that the terms of coverage otherwise completely exclude from the policy's or plan's covered benefits without regard for whether the care, treatment, or services are medically necessary.

SECTION 15. Continuity of prior approvals. (1) On receipt of information documenting a prior authorization approval from the enrollee or from the enrollee's health care professional or health care provider, a health insurance issuer shall honor a prior authorization granted to an enrollee from a previous health insurance issuer for at least the initial ninety (90) days of an enrollee's coverage under a new health plan, subject to the terms of the member's coverage agreement.

(2) During the time period described in subsection (1) of this section, a health insurance issuer may perform its own review to grant a prior authorization approval subject to the terms of the member's coverage agreement.

(3) If there is a change in coverage of or approval criteria for a previously authorized health care service, the change in coverage or approval criteria does not affect an enrollee who received prior authorization approval before the effective date of the change for the remainder of the enrollee's plan year.

(4) Except to the extent required by medical exceptions processes for prescription drugs, nothing in this section shall require a policy or plan to cover any care, treatment or services for any health condition that the terms of coverage otherwise completely exclude from the policy's or plan's covered benefits without regard for whether the care, treatment or services are medically necessary.

SECTION 16. Effect of insurer's failure to comply. A failure by a health insurance issuer to comply with the deadlines and other requirements specified in this act shall result in any health care services subject to review to be automatically deemed authorized by the health insurance issuer or its contracted private review agent.

SECTION 17. Enforcement and administration. (1) In addition to the enforcement powers granted to it by law to enforce the provisions of this act, the department is granted specific authority to issue a cease-and-desist order or require a private review agent or health insurance issuer to submit a plan of correction for violations of this act, or both. Subject to regulations promulgated by the department under the provisions of the Mississippi Administrative Procedure Law and after proper notice and the opportunity for a hearing, the department may impose upon a private review agent, health benefit plan or health insurance issuer an administrative fine not to exceed Ten Thousand Dollars ($10,000.00) per violation for failure to submit a requested plan of correction, failure to comply with its plan of correction, or repeated violations of this act. All fines collected by the department under this section shall be deposited into the State General Fund. The department may also exercise all authority granted to it under Section 41-83-13 to deny or revoke a certificate of a private review agent for a violation of this act.

(2) Any person or his or her treating physician who has evidence that his or her health insurance issuer or health benefit plan is in violation of the provisions of this act may file a complaint with the department. The department shall review all complaints received and investigate all complaints that it deems to state a potential violation. The department shall fairly, efficiently and timely review and investigate complaints. Health insurance issuers, health benefit plans and private review agents found to be in violation of this act shall be penalized in accordance with this section.

(3) The department shall have the authority to promulgate rules and regulations under the Mississippi Administrative Procedures Law to govern the administration of this act.

SECTION 19. False requests for prior authorization. If a health insurance issuer has clear and convincing evidence that a health care professional or health care provider has knowingly and willingly submitted false or fraudulent requests for prior authorization to the health insurance issuer, the issuer shall notify and provide that information to the Commissioner of Insurance. After receipt of such notification and information, the commissioner shall forward these reports to the Board of Medical Licensure or such other licensing agency with oversight of the health care provider.

Lt. Governor Delbert Hosemann introduced Governor Tate Reeves who addressed the joint assembly:

Thank you, Lieutenant Governor Hosemann and Speaker White.

To the members of the legislature and other elected officials – thank you. Thank you for what you do every single day to make Mississippi an even better place to live, to work, and to raise a family. Together, over the last four years, we've accomplished mission after mission for our state. And I have no doubt that by continuing to work together, Mississippi's best days are in front of us.

I would also like to thank the person who has been at the center of my life for over 23 years, my wonderful wife and our state's amazing first lady, Elee. Elee has been a source of strength and inspiration for me over the years and especially during my time as governor. She is a terrific mom, an excellent first lady, and a tremendous ambassador for our state. I'm lucky to have her in my life every single day, and I thank God that she is.

Before I go any further, it is with a heavy heart that I recognize the honorable service and tremendous sacrifice of Chief Warrant Officer Zemek and Chief Warrant Officer Abbott. Please join me in a moment of silence and prayer for their many friends and family.

Thank you. This tragic accident is yet another reminder that the freedoms we hold dear are not free. And a huge thank you to all of our brave men and women in uniform that champion freedom both domestically and abroad.

I will warn you this is going to be a boring speech.

It's got no hot buttons, virtually no conflict, no drama.

What I'm about to do tonight is to go over a game plan. It's not going to excite the newspaper reporters. It's probably not going to end up in anybody's campaign ads. But it is going to make a difference for Mississippi and for our fellow Mississippians.

We have just completed a heated campaign year in our state.

We know that some of you support the policies championed by Joe Biden.

We know that I am what Biden calls an extremist MAGA Republican.

And maybe over the next few weeks, you may be asked to pick which side you are on.

But not by me. And not tonight.

I am not going to focus on our differences. After 2023, we all know what they are.

I am here tonight instead to challenge you as a Legislature to waste no time on the things that divide us, and instead spend your energy this year on things that unite us.

Our state has many challenges. We also have many opportunities. In fact, we have more opportunities than we have ever had before. The task in front of us is whether we can roll up our sleeves and meet these challenges before these opportunities pass us by.

You are limited by our Constitution to 125 legislative calendar days. Time is of the essence. Let's not waste any of those days.

I am going to present you tonight with a list of tasks we must do together, to put Mississippi in position to attract even more great careers. All across our state, there are children in elementary school and middle school and high school whose future rides on our ability to get this done.

We have attracted more private investment in the first month of this term than we had in the 120 months before I became Governor. And believe me when I tell you that all this

movement toward Mississippi has gotten noticed. The people who decide where to locate or expand companies in America see the activity and they are checking us out. Success creates more success and momentum breeds even more momentum.

We have an opportunity to make just a few strategic decisions that can yield major results – and not just improvements far into the future, but right now in the present.

Most of you know me well. Most of us have known each other a long time. You may not think I'm that smart, but I can tell you I am a lot smarter than I was just four years ago. And what I'm smarter about is what it takes to attract new jobs to our state. Recruiting new industry has been my number one priority and it takes up the bulk of my time. It's given me a new more detailed perspective on what we have to offer – and what we need to do.

For the last year, I traveled the state to say that Mississippi has momentum. In my inaugural address, I articulated our mission: Mississippi Forever. Committing ourselves to the work so that – together – we can make Mississippi a vibrant, prosperous home for all her sons and daughters – forever.

Today, I want to talk a bit more about our vision for the next four years and this state we all take pride in. I want to articulate my ambition for where we can go, which rests on the fundamental nature of who we are.

We all have pride in the Mississippi spirit, and we all know what that means. Sure, it means that we're hospitable, God-glorifying, and resilient. But it also means that we have discipline and work ethic. This is a state whose economy does not rest on the wizardry of finance or the volatile next-big-thing. This is a state that is based on timeless economies. Agriculture and Forestry. Manufacturing and Industry. Tradesmen, craftsmen, cultivators, and workers dominate our land.

We make things – real things. We make fridges and fighter jets. We make cars and sow cotton. We make bullets and grow soybeans. You can touch our work, and know that highly-trained, capable, proud Mississippi hands made those products.

As long as I have been alive, our country and the western world have been steadily drifting away from this work. We've been happy to outsource that labor to others in far-off places. And what has it brought us? What has the bizarre combination of globalization and inflation given us that is better than the work of the hands?

We have a crisis of purpose and abundant despair in America. Anxiety, isolation, and addiction are on the rise. Everyone recognizes that our culture of outsourcing, apathy, and idleness is slowly killing us. The West is recognizing what we've lost, and Mississippi is poised to be the big winner in the realignment of our coming time.

In every C-suite in America, they know the need to reshore key industries. They know that we need to bring the work of making things home. For our economy and more importantly our national spirit, we cannot only be a nation of importers.

In all that time, Mississippi never stopped making real things. And now, as our national culture catches up to where we've been – we can say with our chest poked out that this is Mississippi's time.

We can take advantage of this moment and create unimagined wealth, prosperity, and purpose for our state. We can make Mississippi the new American capital of manufacturing, industry, and agribusiness. Mississippi can be the headwaters of America's supply chain if we are bold.

It is not just the advantage of our hard-working people. World-class Mississippi businesses currently move parts and products around the world thanks to our unique

logistics advantage. You can reach 90% of the US population with the shortest average drive and flight times from North Mississippi. Memphis, just to our North, is a global hub for air cargo and transportation served by FedEx and UPS. We are surrounded by water on three sides. In those waters are more than a dozen river ports and ports that are accessible to the Gulf of Mexico. We have deep-water ports at Gulfport and Pascagoula.

We have unique advantages in aviation and aerospace. The Stennis Space Center is overflowing with opportunities for commercial space business. Our abundant and rural aviation assets offer the promise of experimentation and innovation.

Let's take full advantage of the immovable asset that is our location. There is literally no better place to make things in America for Americans than right here in Mississippi.

To ensure the world cannot deny it, we must continue to invest in our infrastructure to make our logistics second to none.

One of Mississippi's greatest economic and logistical assets is our ports. We need to develop a plan of action to address our ports' backlog maintenance and capacity projects. Investing in our critical ports from Vicksburg (which handles 14 million tons of freight annually) to Gulfport (where the global maritime shipping industry requires increased channel depth) will yield economic dividends all across our state. We will attract more companies, create more jobs, and secure even more private investment.

We must also continue to invest in our airports to meet the demands of industry. By increasing capacity of our hangers through the Airport Improvement Loan Fund, we can take additional steps to attract global interest in our state.

And just like we did by creating an Office of Workforce Development, I am also calling on the legislature to establish and fund a state rail authority, whose purpose would be to steward our state's investments in our rail network. This authority would be an all-encompassing one-stop-shop for all things railroad and would tailor strategies to better develop rail in regions across the state.

Ports, airports, rail – and roads. As good stewards of taxpayer dollars, we should help the Mississippi Department of Transportation increase their efficiency by giving them authority to use alternative delivery methods in completing their construction projects. We have invested hundreds of millions of dollars in MDOT's maintenance and capacity road-building projects over the last four years, and we should continue these investments, with a plan for the future. Speed to market is critical, and that is why MDOT must use these resources to quickly develop a strategy to evaluate needed improvements at our top site development locations around the state.

World-class logistics infrastructure means world-class speed-to-market. Products move faster. Money flows back faster. More money circulates in our economy. That is the key to our future.

It also means we must have sites that are ready to go for large-scale investment. This is how we are shattering records for economic development. Over the last several years, we have worked with local communities to have 30 sites primed and ready – at all times – for immediate uplifting investment. We have invested over $100 million dollars in our site development program in the last three years and this year we must fully fund that program to continue our record-breaking achievements.

We must take full advantage of the Mississippi Miracle and ensure our workforce grows beyond most-improved and into the most-undeniable. You know how drastically we have improved our schools, and that the nation's education-reformers are all asking how they do what has been done in Mississippi. We've gone from bad to good. Now we must discover how to go from good to great.

We must be innovative. We must be open to new and different models. We should fund students, not systems. We should trust our parents, not bureaucrats, and we should embrace education freedom.

One example of how we can help accomplish this is by expanding a model that has worked on the campus of Mississippi University for Women – the Mississippi School for Math and Science.

To build on this model, I propose that we create 12 Mathematics and Engineering Magnet Schools throughout the state. By establishing eight Pre-K through 8th grade schools and three more high schools, we can help to ensure Mississippi kids are given the education required to be successful in an increasingly technological economy.

In fact, there is already a great location for one of these schools right across the street from this beautiful building – the old Central High School. Imagine hundreds of talented kids from all backgrounds learning the skills they need to be successful as engineers, computer scientists, and technicians at major tech companies like AWS. It would be good for our capital city and it would be great for those kids.

We should also help connect our students with the high-paying jobs our companies need filled. I call on the Legislature to enact an apprenticeship education model for our high school seniors. Students could receive academic credit in a hybrid environment versus the traditional classroom-only setting. Our kids could 'earn and learn' – meeting graduation requirements while being paid to develop the skills needed for their career.

Mississippi kids are our future. And by providing them with a cutting-edge education, we will ensure Mississippi's future remains bright.

It begins in the elementary, middle, and high school classrooms. Then we reach our potential by unleashing Mississippi innovation and research.

We have great minds across many disciplines, but we must double-down when it comes to manufacturing and industrial innovation and invention. We are in a competition for recruitment and retention of talent, and Mississippi has to lead the way. Today, I ask the legislature to establish an incentive program to retain and attract top researchers in relevant fields at our universities. We must win the talent war in order to outpace our competition.

We also need to renew our focus on commercializing these innovations. Right now, across our state, great minds are gathered together. In the halls of our universities. At the US Army's Engineer Research and Development Center in Vicksburg. Most people, I'm sure, would be shocked to know that there are more PHD's per capita in that town than any other place in America. At the Stennis Space Center, where innovation beyond anything this planet has ever seen is happening every day.

Mississippi has to take that research and transform it into wealth-generation for our communities. When we learn that art better, everyone can enjoy the spoils that come from the marriage of invention and hard work. We have more highly-credentialed research talent per capita than anywhere in the country. We need to deploy our resources with precision and intensity to seize that opportunity and turn research and innovation into prosperity for our people.

One organization critical to this mission is Innovate Mississippi. With the support of the Mississippi Development Authority, Innovate is administering the deployment of $86 million dollars in federal SSBCI funds. By doubling our investment into their operating budget, we can support the cluster strategy of development demanded by the manufacturers of today and make sure we are leveraging every opportunity to promote technology entrepreneurs in our state.

There is no sector that demands the innovation, workforce, logistics, and ambition that Mississippi can provide like energy. Mississippi must become masters of all energy–from pipelines to turbines and everything in between. As automation and growth unlock more human potential than ever before, there has never been a demand for abundant energy like this. As the spread of previously unimaginable computing power puts more pressure on our national grid, the demand for domestic sources of energy will be limitless. Large manufacturing and data center investments are getting larger and more expensive. The thirst for All-Of-The-Above Energy has never been greater.

We must and will do it all – from oil derricks on our Coast to solar panels in the Delta. I don't care if it's green wind power or black crude oil or anything in between. It's going to be made in Mississippi. All of the above and as much as we can do. As long as it is reliable, resilient, and affordable.

We have so much to offer to America's energy economy. Biomass from wood and agricultural fiber. We have companies working to unlock the potential of hydrogen and wind due to our abundant land and unique salt domes. We have permitted over two gigawatts of industrial solar production in the last few years. And of course, old reliable, natural gas still powers most of our energy portfolio and it is clean, affordable, and dependable. And we are proud of it.

We should also look at attracting the next innovation. We should attract manufacturing for key components and assembly of small modular nuclear reactors and expedite permitting and regulatory approvals for their rapid deployment within Mississippi. If we can be bold to position ourselves at the front of that wave, Mississippi industry and families will enjoy the rewards for many generations.

And of course my ambition is that this spirit of innovation and pride will carry over into our work in state government. We must transform the way our work is done inside the halls of government. We must unlock the potential that new technologies provide for us to do more with less. We need to reduce the bureaucratic measures that make it impossible for innovation to occur. We have so many layers of red tape between the scoping of a project and implementation that state employees are beleaguered and disillusioned. They have nearly given up on innovation, because our system seems designed to discourage it. We must reform the processes for procuring new technologies or risk falling behind. The economy for public sector technology is robust and competitive. We should do everything in our power to take full advantage of the reduction in cost and improved services to be better for our customers – the people of Mississippi.

I call for the creation of a task force whose goal is to improve technology within and across state government. By improving technology and ensuring it's implemented in a way that matches actual workflow, we can streamline processes at agencies, reduce the time it takes to complete tasks, share information more easily, and provide more efficient, effective services for Mississippians.

At the end of the day, that's who all this work is for. We're all here in this grand building, with all this tradition and ceremony, but we cannot do this for ourselves. That would be a sorry mission. We do all this for the people who selected us for this work. And at the end of the day, they demand only a few things from us.

First, they demand the lowest possible burden on them. That means committing to interfering with their lives as little as possible. We must not convince ourselves that we can solve everyone's problems, because we know that every intervention in our systems causes countless other ripples. We must be prudent and cautious. We must demand low taxes and regulations. I renew my call to ensure the tax burden on Mississippians is as low as we can possibly afford. Their money circulating in their towns will do more than any additional government program ever could.

And finally, they demand that we provide for safety – law and order. They have entrusted to us a monopoly on force. Our law enforcement officers have to run our streets, not those who use force for brute power or personal gain. That is why we must invest in our public safety efforts and use our resources strategically.

Earlier this month, I was proud to stand alongside our state, local and federal law enforcement partners as we announced Operation Unified – an initiative whose goal is to root out drug traffickers and violent criminals in Jackson.

Working together, we are sending a message to those looking to harm others that their actions will not be tolerated. Together, we are showing criminals that Mississippi will never rest until they are brought to justice and behind bars.

Our law enforcement officers are already making significant progress. To date, Operation Unified has taken 360 criminals off the streets, and we've seized 162 firearms and over 34,000 grams in illegal drugs - including fentanyl, meth, and cocaine.

Our law enforcement officers are true heroes and none of this would be possible without them. They are putting themselves in harm's way every single day to keep us safe, and together, I know we can make real progress in delivering the safety and protection Jacksonians deserve. I'm proud of their work, and I know you'll support them throughout this important mission and beyond.

Ultimately, if we handle these fundamentals, I know that the people of Mississippi will have cause to say we've done our jobs well. We are at our best when we focus on achieving those basic tasks that have been given to us. And then as we achieve those, we can lift our eyes to see what private industry can achieve when we remove roadblocks. We are at our worst when we obsess over divisions. Disagreement and pointed debate is necessary. Then we move forward into our bold, ambitious future. We embrace Mississippi's momentum. We carry ourselves with pride and make America's goods here.

I would like to leave you with a bold challenge. It's bold because it is simple and in politics, the simple things are often the hardest to do.

When we were all sworn in last month, we had a great spirit of bipartisanship. We came together, overwhelmed by our positive feelings toward each other and Mississippi.

I am asking you tonight to put those convictions in action.

Let's do the things that need to be done, that we can get done, together.

Let's work on that list this year.

There will be time to go back to politics and disagreement later. But this year, at this time, with these opportunities, let's come together.

I am proud to be a Mississippian, and proud to work with each of you. I look forward to what we can accomplish over the next four years working together.

God bless Mississippi.

Last year when I returned Senate Bill 2622, The Mississippi Prior Authorization Reform Act, I outlined in my veto message a few correctable flaws in the bill that had the potential to create significant negative unintended consequences. Over the Summer and Fall, I charged my staff with assembling a group of stakeholders to determine the best way to address these flaws, and recommendations were provided to members of the Legislature prior to the start of the 2024 Legislative Session. Through the legislative process, almost all of the flaws in the prior bill were addressed in Senate Bill 2140, and I want to specifically thank Chairman Sam Creekmore, the House leadership, and others for their efforts to amend Senate Bill 2140 to address these concerns.

The bill that is before me today is a significant improvement over last year's bill. Specifically, the current bill, addresses the flaws identified in my veto message by (1) placing regulatory authority over the prior authorization process with the Mississippi Department of Insurance; (2) removing language allowing the Mississippi Department of Insurance to receive reports of and investigate suspected healthcare fraud in the prior authorization process; (3) allowing the parties to an insurance contract to agree to extend the validity of a prior authorization beyond six months (or 12 months for a chronic condition); (4) codifying exceptions to the 60-day notice period before amending the prior authorization process in the case of drug unavailability or scarcity, or when a new drug is introduced to the market; (5) lessening administrative burdens on health insurers, specifically with respect to the qualifications of personnel conducting the initial review of a prior authorization request; and (6) making changes to timeframes and notice provisions to align the bill with CMS guidance that govern the administration of the Mississippi Medicaid program thereby reducing the cost on Mississippi Medicaid to implement this prior authorization process.

The scope of Senate Bill 2140, however, differs in one significant way from its predecessor. Senate Bill 2140 adds the Mississippi State and School Employees' Life and Health Insurance Plan ("State Plan"). The State Plan provides health insurance coverage for almost 190,000 state employees and their families. Currently, the State Plan is funded almost exclusively through the premiums paid by its insureds. Thus, every dollar in increased administrative and benefits costs imposed on the State Plan as a result of Senate Bill 2140 will be passed on to state employees and their families through premium increases.

While the price of a medical procedure generally remains stable over a period of 60 to 180 days, the price of pharmaceuticals can fluctuate wildly during that same period. Senate Bill 2140 limits the ability of the State Plan to quickly adjust the pharmaceuticals covered under the State Plan (known as the drug formulary), and thus the State Plan will be required to provide coverage for more costly drugs despite the fact that cheaper equivalent drugs may come to market or become available. Moreover, Senate Bill 2140 requires the State Plan to continue to provide coverage for pharmaceuticals taken by new state employees for a period of at least ninety days after beginning their employment with the state, despite the fact that such pharmaceuticals may not be covered under the State Plan and cheaper alternative equivalents are available.

The exact cost increase for pharmaceuticals imposed on the State Plan as a result of Senate Bill 2140 is challenging to estimate due to a number of unknowable variables, including what pharmaceuticals will come to market, what rebates will be offered on various pharmaceuticals, and what pharmaceuticals will be taken by new state

employees. However, based on historical data, the cost increase for pharmaceuticals alone to the State Plan has been conservatively estimated to be between $30 million and $110 million per year, with one estimate coming in at $140 million per year. These cost estimates were provided to the Senate prior to its concurrence in the House's amendments to Senate Bill 2140. Absent additional legislative action, such increased costs will be passed on to every state employee and their families, including every teacher, university professor, corrections officer, road crew member and social worker.

Assuming an increased cost to the State Plan of just $30 million annually, every person covered under the State Plan will see their premium increase approximately $158 a year, or $632 for a family of four. Assuming an increased cost of $100 million annually, every person covered under the State Plan will see their premium increase approximately $526 a year, or $2,104 for a family of four. State employees should not receive the equivalent of a pay cut as a result of the passage of Senate Bill 2140.

Over the past couple of years, Mississippi has made significant gains in closing the pay gap between private and public sector employees. Senate Bill 2140, however, represents a step in the wrong direction and will have the likely unintended consequence of widening that pay gap again. Thus, I call on the Legislature to pass legislation this session before Senate Bill 2140 becomes effective to remove the State Plan from its scope. Alternatively, I call on the Legislature to make a commitment to provide an annual appropriation to the State Health Plan to cover the increased costs to the State Plan as a result of Senate Bill 2140. Such increased costs should not be borne by state employees and their families.

In sum, while I agree that Senate Bill 2140 is a significant improvement over its predecessor and that reform of the prior authorization process is much needed, I am unwilling to sign the bill into law because of the potential increased costs that it may impose on each and every state employee and their families covered under the State Plan. Nevertheless, I will allow Senate Bill 2140 to become law without my signature to address the prior authorization process, and I also urge the Legislature to take immediate action to alleviate the financial burden that Senate Bill 2140 may place on state employees and their families.

Respectfully submitted,

TATE REEVES
GOVERNOR

AMEND by inserting the following below line 137 and renumbering the subsequent section:

SECTION *. Section 27-105-33, Mississippi Code of 1972, is amended as follows:

27-105-33. It shall be the duty of the State Treasurer and the Executive Director of the Department of Finance and Administration on or about the tenth day of each month, and in their discretion at any other time, to analyze carefully the amount of cash in the General Fund of the state and in all special funds credited to any special purpose designated by the State Legislature or held to meet the budgets or appropriations for maintenance, improvements and services of the several institutions, boards, departments, commissions, agencies, persons or entities of the state, and to determine in their opinion when the cash in such funds is in excess of the amount required to meet the current needs and demands of no more than seven (7) business days on such funds and report their findings to the Governor. It shall be the duty of the State Treasurer to provide a cash flow model for forecasting revenues and expenditures on a bimonthly basis and providing technical assistance for its operation. The Department of Finance and Administration shall use the cash flow model furnished by the State Treasurer, in analyzing the amount of funds on deposit and available for investment.

The State Treasurer is hereby authorized, empowered and directed to invest all such excess general and special funds of the state in the following manner:

(a) Funds shall be allocated equally among all qualified state depositories which do not have demand accounts in excess of One Hundred Fifty Thousand Dollars ($150,000.00) until each qualified depository willing to accept the same shall have on deposit or in security repurchase agreements or in other securities authorized in paragraph (d) of this section at interest the sum of Three Hundred Thousand Dollars ($300,000.00). For the purposes of this subsection, no branch bank or branch office shall be counted as a separate depository.

(b) The balance, if any, of such excess general and special funds shall be offered to qualified depositories of the state on a pro rata basis as provided in Section 27-105-9. For the purposes of this subsection, the pro rata share of each depository shall be reduced by the amount of the average daily collected earning balance of demand deposits maintained by the State Treasurer pursuant to Section 27-105-9 during the preceding calendar year, and such reduction shall be allocated pro rata among other eligible depositories.

(c) Funds offered pursuant to paragraphs (a) and (b) above shall be invested for periods of up to one (1) year, and shall bear interest at an interest rate no less than that numerically equal to the bond equivalent yield on direct obligations of the United States Treasury of comparable maturity, as determined by the State Treasurer. In determining such rate, the State Treasurer shall consider the Legislature's desire to distribute funds equitably throughout the state to the maximum extent possible.

(d) To the extent that the State Treasurer shall find that general and special funds cannot be invested pursuant to paragraphs (a), (b) and (c) of this section for the stated maturity up to one (1) year, the Treasurer may invest such funds, together with any other funds required for current operation, as determined pursuant to this section, in the following:

(i) Time certificates of deposit or interest-bearing accounts with qualified state depositories. For those funds determined under prudent judgment of the State Treasurer to be made available for investment in time certificates of deposit, the rate of interest paid by the depositories shall be determined by rules and regulations adopted and promulgated by the State Treasurer which may include competitive bids. At the time of investment, the interest rate on such certificates of deposit under the provisions of this subparagraph shall be a rate not less than the bond equivalent yield on direct obligations of the United States Treasury with a similar length of maturity.

(ii) Direct United States Treasury obligations, the principal and interest of which are fully guaranteed by the government of the United States.

(iii) United States government agency, United States government instrumentality or United States government-sponsored enterprise obligations, the principal and interest of which are fully guaranteed by the government of the United States, such as the Government National Mortgage Association; or United States governmental agency, United States government instrumentality or United States government-sponsored enterprise obligations, the principal and interest of which are guaranteed by any United States government agency, United States government instrumentality or United States government-sponsored enterprise contained in a list promulgated by the State Treasurer.

(iv) Direct security repurchase agreements and reverse direct security repurchase agreements of any federal book entry of only those securities enumerated in subparagraphs (ii) and (iii) above. "Direct security repurchase agreement" means an agreement under which the state buys, holds for a specified time, and then sells back those securities and obligations enumerated in subparagraphs (ii) and (iii) above. "Reverse direct securities repurchase agreement" means an agreement under which the state sells and after a specified time buys back any of the securities and obligations enumerated in subparagraphs (ii) and (iii) above. A qualified state depository shall be given preference for such agreements when possible.

(v) Bonds issued, assumed or guaranteed by the Country of Israel, provided that:

1. Investments in such instruments shall be denominated in United States currency;

2. Such bonds must be of investment grade as rated by at least one (1) nationally recognized statistical rating agency; and

3. The amount of funds invested in such bonds at any time shall not exceed * * * Fifty Million Dollars ($50,000,000.00).

(vi) Corporate bonds and taxable municipal bonds; or corporate short-term obligations of corporations or of wholly owned subsidiaries of corporations, whose short-term obligations are rated A-1 or better by Standard and Poor's, rated P-1 or better by Moody's Investment Service, F-1 or better by Fitch Ratings, Ltd., or the equivalent of these ratings if assigned by another United States Securities and Exchange Commission designated Nationally Recognized Statistical Rating Organization.

(e) For the purposes of this section, direct obligations issued by the United States of America shall be deemed to include securities of, or other interests in, any

open-end or closed-end management type investment company or investment trust registered under the provisions of 15 USCS Section 80(a)-1 et seq., provided that the portfolio of such investment company or investment trust is limited to direct obligations issued by the United States of America, United States government agencies, United States government instrumentalities or United States government-sponsored enterprises, and to repurchase agreements fully collateralized by direct obligations of the United States of America, United States government agencies, United States government instrumentalities or United States government-sponsored enterprises, and the investment company or investment trust takes delivery of such collateral for the repurchase agreement, either directly or through an authorized custodian. The State Treasurer and the Executive Director of the Department of Finance and Administration shall review and approve the investment companies and investment trusts in which funds invested under paragraph (d) of this section may be invested. The total dollar amount of funds invested in all open-end and closed-end management type investment companies and investment trusts at any one time shall not exceed twenty percent (20%) of the total dollar amount of funds invested under paragraph (d) of this section.

(f) Investments authorized by subparagraphs (ii) and (iii) of paragraph (d) shall mature on such date or dates as determined by the State Treasurer in the exercise of prudent judgment to generate a favorable return to the state and will allow the monies to be available for use at such time as the monies will be needed for state purposes. However, the maturity of securities purchased as enumerated in subparagraphs (ii) and (iii) shall not exceed ten (10) years from date of purchase. Special funds shall be considered those funds created constitutionally, statutorily or administratively which are not considered general funds. All funds invested for a period of thirty (30) days or longer under paragraph (d) shall bear a rate at least equal to the current established rate under paragraph (c) of this section.

(g) Any interest-bearing deposits or certificates of deposit shall not exceed at any time the amount insured by the Federal Deposit Insurance Corporation in any one (1) banking institution, the Federal Savings and Loan Insurance Corporation in any one (1) savings and loan association, or other deposit insurance corporation approved by the State Treasurer, unless the uninsured portion is collateralized by the pledge of securities in the manner provided by Section 27-105-5.

(h) Unless otherwise provided, income from investments authorized by the provisions of this subsection shall be credited to the State General Fund.

(i) Not more than Five Hundred Thousand Dollars ($500,000.00) of funds may be invested with foreign financial institutions, and the State Treasurer may enter into price contracts for the purchase or exchange of foreign currency or other arrangements for currency exchange in an amount not to exceed Five Hundred Thousand Dollars ($500,000.00) upon specific direction of the Department of Economic and Community Development. The State Treasurer shall promulgate all rules and regulations for applications, qualifications and any other necessary matters for foreign financial institutions.

Any liquidating agent of a depository in liquidation, voluntary or involuntary, shall redeem from the state any bonds and securities which have been pledged to secure state funds and such redemption shall be at the par value or market value thereof, whichever is greater; otherwise, The liquidating agent or receiver may pay off the state in full for its deposits and retrieve the pledged securities without regard to par or market value.

The State Treasurer and the Executive Director of the Department of Finance and Administration shall make monthly reports to the Legislative Budget Office containing a full and complete statement of all funds invested by virtue of the provisions of this section and the revenues derived therefrom and the expenses incurred therewith, together with all such other information as may seem to each of them as being pertinent to inform fully the Mississippi Legislature with reference thereto.

The State Treasurer shall not deposit any funds on demand deposit with any authorized depository, unless such depository has contracted for interest-bearing accounts or time certificates of deposit.

Notwithstanding the foregoing, any financial institution not meeting the prescribed ratio requirement set forth in Section 27-105-5 whose accounts are insured by the Federal Deposit Insurance Corporation, or any successor to that insurance corporation, may receive state funds in an amount not exceeding the amount which is insured by such insurance corporations and may qualify as a state depository to the extent of such insurance for this purpose only. The paid-in and earned capital funds of such financial institution shall not be included in the computations specified in Section 27-105-9(a) and (b).

Senator Parker called up the following entitled bill:

S. B. No. 2628: Mississippi Capitol Region Utility Act; create.

Senator Parker offered the following AMENDMENT NO. 1.

Amend by striking all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. This chapter shall be known and may be cited as the "Mississippi Capitol Region Utility Act."

SECTION 2. (1) The Mississippi Legislature finds the following:

(a) For the benefit of the citizens centrally located in the State of Mississippi, including citizens residing or working in the capital city of the State of Mississippi, it is essential to have access to safe, clean and reliable water and wastewater systems at affordable, regulated rates which are just, reasonable and provide an adequate amount of capital to keep such systems in good repair;

(b) The availability of safe, clean and reliable water and wastewater systems has vast impacts on health, schools and academic outcomes, crime and safety, state and local government operations, businesses and economic development, the availability of a workforce, tourism and many other critical areas;

(c) The availability of safe, clean and reliable water and wastewater systems requires significant financial resources and human capital to engage in the planning, acquisition, construction, maintenance, coordination and operation required to deliver transparent and efficient services which meet and exceed federal and state regulations and requirements;

(d) On November 29, 2022, the Department of Justice filed a complaint alleging that the City of Jackson has failed to provide drinking water that is reliably compliant with the Safe Drinking Water Act to citizens within the boundaries of the water system. The Department of Justice simultaneously filed a proposal which would appoint a receiver, or an interim third-party manager, to stabilize the City of Jackson's public drinking water system and build confidence in the water system's ability to supply safe, clean and reliable water to citizens within the boundaries of the water system. The U.S. District Court for the Southern District of Mississippi appointed a receiver to oversee and operate the water system on November 29, 2022;

(e) On or about July 31, 2023, the U.S. District Court for the Southern District of Mississippi brought the City of Jackson's sewer and wastewater systems into the receivership;

(f) The order appointing a receiver does not have a termination date and ends only when final judgment is entered by the court. Before the court enters final judgment, the system must be stable, the financial plan sustainable, and the transition plan approved in order to transition the system to post-receivership operations;

(g) The creation and organization of a structure for future governance requires legislation for it to continue in perpetuity beyond the eventual end of the receiver's work and related federal court orders; and

(h) The creation and organization of a structure for future governance prior to the date of the conclusion of the receiver's work will allow for an orderly transition to ensure minimal disruption in water and wastewater service.

(2) Therefore, it is the intent of the Mississippi Legislature to:

(a) Provide the Mississippi Capitol Region Utility Authority the option to purchase the existing water and wastewater assets from the City of Jackson at fair market value as determined by the court, provided all existing system debts have been retired or paid. Upon completion of the purchase of assets, the water and wastewater assets shall be transferred to the utility authority's ownership, management and control to ensure all citizens have access to safe, clean and reliable water and wastewater systems at affordable, just and reasonable regulated rates, and to provide an adequate amount of capital to keep such systems in good repair;

(b) Authorize the Local Governments and Rural Water Systems Improvement Board created in Section 41-3-16 to loan to the authority funds required to purchase water assets as provided in this subsection (2) at an interest rate of zero percent (0%) with a forty-year term applying the maximum principal forgiveness available;

(c) Authorize the Mississippi Commission on Environmental Quality to loan to the authority funds requested to purchase wastewater assets as authorized in this subsection (2) at an interest rate of zero percent (0%) with a forty-year term applying the maximum principal forgiveness available, provided all requirements to be eligible for the loan are met by the authority and the transaction meets the requirements of federal law; and

(d) Partner with the Department of Health, the Department of Environmental Quality, the City of Jackson and other municipalities or governmental entities within the boundaries of the authority, and any other federal state or local entity in taking any action necessary under this chapter to ensure all citizens have access to safe, clean and reliable water and wastewater systems, with the understanding that federal and state agencies are solely responsible for regulating, but not operating, the utility authority.

SECTION 3. As used in this chapter, the following words and phrases have the meanings ascribed herein, unless the context clearly indicates otherwise:

(a) "Board" means the Board of Directors of the Mississippi Capitol Region Utility Authority.

(b) "Bonds" means revenue bonds and other certificates of indebtedness of the authority issued under the provisions of this chapter.

(h) "Receiver" means the interim third-party manager for the water system owned by the City of Jackson who was appointed by the U.S. District Court for the Southern District of Mississippi on November 29, 2022, to oversee and operate the systems until the court issues final judgment.

(i) "Service territory" or "service area" means the geographic areas receiving water and wastewater services from the City of Jackson's water and wastewater systems as operated by JXN Water as of July 1, 2024.

(j) "System" or "systems" means any plants, structures, facilities or other real or personal property used or useful in the generation, storage, transportation or supply of water, and the collection, transportation, treatment or disposal of wastewater, including tanks, pipes, trunk lines, mains, sewers, conduits, pipelines, pumping and ventilating stations, plants, works, connections and any other real or personal property and rights therein necessary, useful or convenient for the purposes of the utility authority.

(k) "Utility authority" or "authority" means the Mississippi Capitol Region Utility Authority.

(l) "Wastewater" means water being disposed of by any person and which is contaminated with waste or sewage, including industrial, municipal, and any other wastewater that may cause impairment of the quality of waters in the state.

(m) "Water" means potable water from either surface water or groundwater sources.

SECTION 4. (1) There is hereby created and established a corporate nonprofit known as the Mississippi Capitol Region Utility Authority. The authority will be composed of geographic areas receiving water and wastewater services from the City of Jackson as of July 1, 2024, for the planning, acquisition, construction, maintenance, operation and coordination of water and wastewater systems in order to ensure the delivery of water and wastewater services to citizens. Such authority is created solely to accomplish the purposes of the state under this chapter, and the exercise by the authority of the powers conferred by this chapter shall be deemed and held to be the performance of an essential public function promoting the health, welfare and prosperity of the general public. It is the intent of the Legislature that the authority shall be accountable to ratepayers within the systems through the audits, reports and disclosures required by this chapter.

(2) The existence of the corporate nonprofit authority, which shall be domiciled in the State of Mississippi, shall begin upon the appointment of a majority of its board as provided in Section 5 of this act.

(3) The authority shall assume ownership, management and control over the water and wastewater systems on the date of termination of the receiver by the U.S. District Court for the Southern District of Mississippi, or an earlier date as ordered by the court. If the termination date is not the same for all systems, the authority shall assume ownership, management and control over the system for which the receivership is terminated on the termination date for that system.

(4) In the event of any action or matter challenging the creation, establishment, or statutory responsibilities of the authority, the Chief Justice of the Mississippi Supreme Court shall select an appropriate circuit or chancery court, which shall have exclusive jurisdiction over the matter. In any other matter, the court of competent jurisdiction shall have jurisdiction over the matter. For purposes of court costs, the authority shall be a private corporation.

(5) All funds provided by the federal government in H.R. 2617, the Consolidated Appropriations Act of 2023, and any other funds provided by the state or federal government in response to the water crisis detailed by the U.S. District Court for the Southern District of Mississippi in Case No. 3:22-cv-00686, United States v. City of Jackson, shall be spent according to the direction of the receiver and federal court within the service territory impacted by the water crisis and in accordance with federal law.

No current or former federal, state or local elected officials may be appointed.

(2) Term lengths shall begin upon the date of termination of the receiver by the U.S. District Court for the Southern District of Mississippi or an earlier date as ordered by the court. Service by members between September 1, 2024, and the date of termination of the receiver shall not be counted in the term limits established herein.

Each member shall serve at the will and pleasure of his or her appointing authority and hold office until his successor has been appointed and qualified. Any member who changes residency outside of the service area, ends employment in the service area or allows his or her account to go into arrears shall be immediately discharged from the board. Vacancies shall be filled by appointment by the appropriate appointing authority, subject to the advice and consent of the Senate, for the length of the unexpired term only. Any member of the authority shall be eligible for reappointment for a maximum of two (2) full terms. Each member of the authority shall, before entering upon his duty, take an oath of office to administer the duties of his office faithfully and impartially, and a record of such oath shall be filed in the Office of the Secretary of State. The authority shall annually elect from its membership a chairman and vice chairman who shall

be eligible for reelection for up to four (4) consecutive terms. The authority shall also elect or appoint, and prescribe the duties of, such other officers, who need not be members, as the authority deems necessary or advisable, and the authority shall fix the compensation of such officers. The authority may delegate to one or more of its members, officers, employees or agents such powers and duties as it may deem proper, not inconsistent with this article or other provisions of law.

(6) The board shall meet monthly, with four of these meetings each year held in various locations throughout the service area. All meeting agendas shall accommodate time for public comment in accordance with rules established by the board.

(8) Except as may be provided by law, all records of the authority shall be deemed public records and subject to public inspection as provided by Section 25-61-1 et seq.

(9) The board may by majority vote excuse the absence of any board member. If any board member is absent for two (2) board meetings in a twelve-month period without such absences being excused by the board, his or her membership on the board shall be terminated as a function of law, without any action by the board, and the removed board member shall be ineligible for reappointment to the board. The original appointing authority shall retain the right to appoint a new board member to replace the removed board member.

(10) No current or former employee of the authority shall be a board member.

(11) Until the utility authority assumes ownership, management and control of the water and wastewater systems, the board shall cooperate and coordinate with the receiver in order to provide the best opportunity for minimal disruption in service and maximum ease of transition after the receiver has concluded his work in overseeing and operating the water system.

SECTION 6. (1) The utility authority shall consult with the court in appointing a president by January 1, 2025, who shall serve at the will and pleasure of the board. If the authority does not have ownership, management and control of the water and wastewater systems by the date of the appointment of a president, the State of Mississippi shall pay the salary of the president on a bimonthly basis, subject to appropriations. (3) The authority shall adopt rules and regulations regarding the use of decentralized treatment systems, individual on-site wastewater treatment systems and centralized wastewater treatment systems.

(4) The authority shall adopt rules establishing performance standards for water and wastewater systems and the operation and maintenance of the same. Such rules and regulations shall include: the implementation of a standard application form for the installation, operation and maintenance of such systems; application review; approval or denial procedures for any proposed system; inspection, monitoring and reporting guidelines; and enforcement procedures.

(5) (a) Before a building or development which requires the installation of a water or wastewater system is constructed, the system must be submitted to the authority for certification that the system complies with the authority's requirements.

(b) Before approving or renewing a permit for a water or wastewater system within the authority, the state agency must require certification that the system complies with the authority's requirements.

(6) Any system of any municipality, public agency or other persons which contracts with the authority shall be subject to the terms of that contract and the terms of this chapter.

(7) Notwithstanding the provisions of Section 51-39-1 et seq., the authority shall have the full power to adopt rules and regulations and to construct, maintain, lease and operate facilities for the control of storm water quality and quantity. In addition, the provisions of Section 51-33-1 et seq. relating to drainage districts and flood control districts do not apply to the authority.

(8) The authority may control and operate the local retail water or wastewater services and may provide or be responsible for direct servicing of those services to residences, businesses and individuals; however, the authority shall not provide the same service in an area provided by a public utility or person holding a certificate of public convenience and necessity issued by the Mississippi Public Service Commission for the provision of such services in the certificated area.

(9) The authority shall enter into contracts for major procurements after bidding. The authority may adopt administrative rules and regulations pursuant to the provisions of this chapter providing for special procedures whereby the authority may make any class of procurement.

(10) In its bidding processes, the authority may do its own bidding and procurement or may utilize the services of the Department of Finance and Administration, the Department of Information Technology Services or other state agencies as appropriate and necessary.

(11) In the City of Ridgeland, which is served by only the wastewater system as of July 1, 2024, the authority shall have oversight or control of only wastewater service provided to ratepayers. To maintain consistency with the agreement in place with the City of Jackson prior to the existence of the authority, the City of Ridgeland shall have control over its rate structure, with the City of Ridgeland compensating the authority for its prorated share of wastewater conveyance, treatment, capital improvements and debt service.

SECTION 8. (1) The utility authority, in addition to any other powers granted under any other provision of law, is authorized:

(a) To acquire, construct, improve, enlarge, extend, repair, operate and maintain one or more of its systems used for the collection, transportation, treatment and disposal of water and wastewater;

(b) To make contracts with any person in furtherance thereof, and to make contracts with any person, under the terms of which the authority will collect, transport, treat or dispose of water and wastewater for such person;

(c) To make contracts with any person to design and construct any water and wastewater systems or facilities, and thereafter to purchase, lease or sell, by installments over such terms as may be deemed desirable, reasonable and necessary, or otherwise, any such system or systems;

(d) To enter into operating agreements with any person, for such terms and upon such conditions as may be deemed desirable, for the operation of any water and wastewater systems, and to lease to or from any person, for such term and upon such conditions as may be deemed desirable, any water and wastewater collection, transportation, treatment or other facilities or systems. Any such contract may contain provisions requiring any public agency or other person to regulate the quality and strength of materials to be handled by the respective system or systems and also may provide that the authority shall have the right to use any streets, alleys and public ways and places within the jurisdiction of a public agency or other person during the term of the contract;

(e) To enter into contracts with any person or public agency, including, but not limited to, contracts authorized by this chapter, in furtherance of any of the purposes authorized under this chapter upon such consideration as the board and such person may agree. Any such contract may extend over any period of time, notwithstanding any provision or rule of law to the contrary, may be upon such terms and for such consideration, nominal or otherwise, as the parties thereto shall agree, and may provide that it shall continue in effect until bonds specified therein, refunding bonds issued in lieu of such bonds, and all other obligations specified therein are paid or terminated. Any such contract shall be binding upon the parties thereto according to its terms;

(f) To sue and be sued, in its own name, and to enjoy all of the protections, immunities and benefits provided by the Mississippi Tort Claims Act, Section 11-46-1 et seq., as it may be amended or supplemented from time to time;

(g) To maintain office space at such place or places within the authority's boundaries as it may determine;

(h) To invest money of the authority, including proceeds from the sale of any bonds subject to any agreements with bondholders, on such terms and in such manner as the authority deems proper;

(i) To pay any outstanding City of Jackson bonds relating to the water and sewer systems under their existing terms;

(j) To require the necessary relocation or rerouting of roads and highways, railroad, telephone and telegraph lines, and properties, electric power lines, gas pipelines and related facilities, or to require the anchoring or other protection of any of these, provided fair compensation is first paid to the owners or an agreement with such owners regarding the payment of the cost of such relocation, and to acquire easements or rights-of-way for such relocation or rerouting and to convey the same to the owners of the property being relocated or rerouted in connection with the purposes of this chapter. This provision shall be in accordance with Mississippi Constitution Article 17A and Section 11-27-30;

(k) To acquire, construct, improve or modify, to operate or cause to be operated and maintained, either as owner of all or of any part in common with others, any water or wastewater system within the authority's service area. The authority may pay all or part of the cost of any system from any contribution by persons, firms, public agencies or corporations. The authority may receive, accept and use all funds, public or private, and pay all costs of the development, implementation and maintenance as may be determined as necessary for any project;

(l) To acquire, in its own name, by purchase on any terms and conditions and in any manner as it may deem proper, property for public use, or by gift, grant, lease, or otherwise, real property or easements therein, franchises and personal property necessary or convenient for its corporate purposes. This provision shall be in accordance with Mississippi Constitution Article 17A and Section 11-27-30;

(m) To acquire insurance for the authority's systems, facilities, buildings, treatment plants and all property, real or personal, to insure against all risks as any insurance may, from time to time, be available;

(n) To use any property and rent or lease any property to or from others, including public agencies, or make contracts for the use of the property. The authority may sell, lease, exchange, transfer, assign, pledge, mortgage or grant a security interest for any property. The powers to acquire, use and dispose of property as set forth in this paragraph shall include the power to acquire, use and dispose of any interest in that property, whether divided or undivided. Title to any property of the authority shall be held by the authority exclusively for the benefit of the public;

(o) To apply, contract for, accept, receive and administer gifts, grants, appropriations and donations of money, materials and property of any kind, including loans and grants from the United States, the state, a unit of local government, or any agency, department, district or instrumentality of any of the foregoing, upon any terms and conditions as the United States, the state, a unit of local government, or any agency, department, district or instrumentality shall impose. The authority may administer trusts. The authority may sell, lease, transfer, convey, appropriate and pledge any and all of its property and assets;

(p) To make and enforce, and from time to time amend and repeal, bylaws, rules, ordinances and regulations for the management of its business and affairs and for the construction, use, maintenance and operation of any of the systems under its management and control;

(q) To employ and terminate staff and other personnel, including attorneys, engineers and consultants, as may be necessary to the functioning of the authority;

(r) To establish and maintain rates, fees and any other charges for services and the use of systems and facilities within the control of the authority, and from time to time, to adjust such rates, fees and any other charges to the end that the revenues therefrom will be sufficient at all times to pay the expenses of operating and maintaining the facilities and treatment systems and all of the persons' obligations under any contract or bonds resolution with respect thereto or any obligation of any person under any agreement, contract, indenture or bonds resolution with respect thereto. Such rates, fees, assessments and other charges shall be subject to the jurisdiction of the Mississippi Public Service Commission. Such rates, fees, assessments and other charges shall be equal as levied on citizens throughout the authority's boundaries. For purposes of Section 77-3-33, the rates charged by the authority shall be just and reasonable if they are adequate to provide safe and reliable water and wastewater service to its customers, including providing an adequate amount of capital for the authority to perform such repairs, upgrades and improvements as it deems necessary on an ongoing basis. The Mississippi Public Service Commission shall defer to the authority's determination of what rates are just and reasonable absent a showing of manifest error;

(s) To adopt rules and regulations necessary to accomplish the purposes of the authority and to assure the payment of each participating person or public agency of its proportionate share of the costs for use of any of the systems and facilities of the authority and for the authority's proportionate share of the costs of the board;

(u) To accept industrial wastewater from within the boundaries of the authority for treatment and to require the pretreatment of same when, in the opinion of the authority, such pretreatment is necessary;

(v) To control and operate local retail water and wastewater services, and to provide or be responsible for direct servicing of those services to residences, businesses and individuals; however, the authority shall not provide the same services in an area provided by a public utility or person holding a certificate of public convenience and necessity issued by the Mississippi Public Service Commission for the provision of such services in the certificated area;

(w) To assume control and administer, within the authority's jurisdiction, any water or wastewater system or systems by agreement or contract with any person if the person providing such services requests to be relieved of that responsibility.;

(x) To acquire property designated by plan to sufficiently accommodate the location of water or wastewater systems and such requirements related directly thereto pursuant to the provisions of Title 11, Chapter 27, Mississippi Code of 1972. The authority may acquire property necessary for any system and the exercise of the powers, rights and duties conferred upon the authority by this chapter. No person owning the drilling rights or the right to share in production shall be prevented from exploring, developing or producing oil or gas with necessary rights-of-way for ingress and egress, pipelines and other means of transporting such interests on any lands or interest of the authority held or used for the purposes of this chapter, but any such activities shall be subject to reasonable regulations by the board that will adequately protect the systems or projects of the authority. This provision shall be in accordance with Mississippi Constitution Article 17A and Section 11-27-30;

(y) To use any legally available funds to acquire, rebuild, operate and maintain any existing water or wastewater systems owned or operated by any person;

(z) To refuse to receive water or wastewater from any public agency or person, except with regard to municipalities or other areas within the service territory of the systems as of July 1, 2024;

(aa) So long as any indebtedness on the systems of the authority remains outstanding, to require of a member public agency, or other person, that all water and wastewater within the boundaries of the authority be disposed of through the appropriate treatment system to the extent that the same may be available, but no public agency shall be precluded from constructing, operating and maintaining its own such system after the current indebtedness owing on the system as of July 1, 2024, is paid in full;

(bb) To adopt a seal and a symbol, and hold patents, copyrights, trademarks and service marks, and to enforce its rights with respect thereto;

(cc) To operate under the name JXN Water upon receiving permission of the court should the authority desire to maintain the receiver's organizational name; and

(dd) To write off revenues deemed uncollectible that were billed to customers prior to December 1, 2022, and further write off revenues deemed uncollectible after the third year of collection efforts as a regular accounting practice of the authority. Nothing herein permits the provision of services without charging applicable rates in effect at the time services are provided and requiring payment for such services.

(3) The authority shall:

(a) Submit annual reports to the Governor, Lieutenant Governor, Speaker of the House of Representatives, State Auditor, Joint Legislative Committee on Performance Evaluation and Expenditure Review and the governing authorities of any municipality whose citizens are within the authority's boundaries regarding the water quality and financial conditions of such system or systems, as well as a schedule of currently planned repairs, upgrades or improvements planned by the authority;

(b) Immediately submit to the Governor, Lieutenant Governor, Speaker of the House of Representatives and the governing authorities of any municipality whose citizens are within the authority's boundaries any information received from the Mississippi State Department of Health or Department of Environmental Quality or other state or federal regulatory agencies regarding the condition of a transferred eligible municipal system. The authority, in addition to abiding by any other federal or state reporting requirements, must also report such information to the public on its website and to individuals residing within the service area as required by federal or state law;

(c) Publish audited annual financial statements, which shall be made available to the public. The annual financial statements shall include disposition of all funds expended by the authority for any purpose. Quarterly financial statements shall be made available to the public by posting on the authority's website;

(d) Adopt by administrative rules and regulations a system of continuous internal audits;

(e) Adopt by administrative rules and regulations a code of ethics for officers and employees of the authority to carry out the standards of conduct established by this chapter; and

(f) Adopt by administrative rules and regulations guidelines for the disposal of property if the authority is dissolved.

SECTION 9. (1) The president, as chief executive officer of the utility authority, if so appointed by the board, shall direct and supervise all administrative and technical

activities in accordance with the provisions of this chapter, within the administrative rules and regulations adopted by the board, and in accordance with industry practice. The president shall:

(a) Supervise and administer or contract for the supervision and administration of the water and wastewater systems owned, managed or controlled by the authority;

(b) Employ and direct such personnel as may be necessary to carry out the purposes of this chapter and utilize such services, personnel or facilities of the authority as he or she may deem necessary;

(c) Make available for inspection by the board or any member of the board or the Governor, Lieutenant Governor, Speaker of the House or the governing authorities of any municipality whose citizens are served by the authority, upon request, all books, records, files and other information and documents of his or her office and advise the board and recommend such administrative rules and regulations and other matters he or she deems necessary and advisable to improve the operation and administration of the authority;

(d) Attend meetings of the board or appoint a designee to attend on his or her behalf;

(e) Not later than thirty (30) days before the beginning of the authority's fiscal year, submit the proposed annual budget of the authority to the board for review and approval. This shall include a schedule of planned repairs, upgrades or improvements to the systems and the anticipated capital cost of each. In addition, the proposed annual budget of the authority shall include a personnel table reporting information for each full-time and part-time permanent position, as follows:

(i) The position title and the salary for each position in the existing operating budget for the current fiscal year, indicating whether each position is filled or vacant as of the reporting date; and

(ii) The position title and the salary recommended for each position for the next fiscal year; and

(f) Require bond of Fifty Thousand Dollars ($50,000.00) from employees with access to funds or in such an amount as provided in the administrative rules and regulations of the board.

(2) The president may:

(a) Require bond from other employees as he or she deems necessary; and

(b) Upon specific or general approval of the board, enter into personal service contracts pursuant to administrative rules and regulations adopted by the board and compensate such consultants and technical assistants as may be required to carry out the provisions of this chapter.

(3) Agencies, departments or units of state government, including, but not limited to, the Mississippi Department of Health and the Mississippi Department of Environmental Quality, shall cooperate with the authority to regulate the authority and assure the effective operation of the authority's systems, with the understanding that such agencies act as a regulator and not operator of such systems. All state officers are hereby empowered and required to render such services to the authority within their respective functions as may be requested by the authority.

SECTION 10. Employees of the utility authority shall serve at the will and pleasure of the president, who shall determine their compensation and benefits in consultation with the board.

SECTION 11. Neither the directors of the utility authority, the board, its employees, nor any person or persons acting on their behalf, while acting within the scope of their authority, shall be subject to personal liability resulting from carrying out any of the powers granted herein in accordance with his or her good-faith belief that he or she is acting in the best interests of the authority.

SECTION 12. (1) The utility authority shall enter into its contracts for major procurements after a competitive and open procurement process. The authority may adopt administrative rules and regulations pursuant to the provisions of this chapter providing for special procedures whereby the authority may make any class of procurement. The authority shall endeavor to ensure the transparency and competitiveness of procurements of all sizes.

(2) In its bidding processes, the authority may do its own bidding and procurement or may utilize the services of other state agencies as appropriate and necessary. The president may declare an emergency for purchasing purposes which shall be governed by the administrative rules and regulations adopted by the board.

SECTION 13. All monies received by the utility authority shall be deposited into an operating account. Such account shall be established in a custodian financial institution domiciled in the State of Mississippi, insured by the Federal Deposit Insurance Corporation and collateralized as prescribed by Section 27-105-5.

SECTION 14. All division heads, officers and employees of the utility authority shall be considered public servants as defined in Section 25-4-103. All division heads and officers of the authority are subject to Section 25-4-25 and shall be required to file a Statement of Economic Interest with the Mississippi Ethics Commission.

SECTION 15. (1) Any public agency, pursuant to a duly adopted resolution of the governing body of such public agency, may enter into contracts with the utility authority under the terms of which the authority will manage, operate and contract for usage of its systems and facilities, or other services, for such public agency.

(2) Any public agency may enter into contracts with the authority for the authority to purchase or sell, by installments over such terms as may be deemed desirable, or otherwise, to any person or any systems. Any public agency may sell, donate, convey or otherwise dispose of water and wastewater facilities or systems, or any equipment, personal property or other things deemed necessary for the construction, operation and maintenance thereof to the authority without the necessity of appraisal, advertising or bidding. This section creates an alternative method of disposal of public property.

(3) Any public agency is authorized to enter into operating agreements with the authority, for such terms and upon such conditions as may be deemed desirable, for the operation of any of its systems by the authority or by any person contracting with the authority to operate such systems.

(4) Any public agency may lease to or from the authority, for such term and upon such conditions as may be deemed desirable, any of its systems.

(5) Any municipality or county may donate office space, equipment, supplies and materials to the authority.

(6) Any such contract may contain provisions requiring any public agency to regulate the quality and strength of the material to be handled by the wastewater systems and may also provide that the authority shall have the right to use any streets, alleys and

public ways and places within the jurisdiction of a public agency during the term of the contract. Such contracts may obligate the public agency to make payments to the authority or to a trustee in amounts which shall be sufficient to enable the authority to defray the expenses of administering, operating and maintaining its respective systems, to pay interest and principal (whether at maturity upon redemption or otherwise) on bonds of the authority issued under this chapter, and to fund reserves for debt service, for operation and maintenance and for renewals and replacements, to fulfill the requirements of any rate covenant with respect to debt service coverage contained in any resolution, trust indenture or other security agreement relating to the bonds of the authority issued under this chapter or to fulfill any other requirement relating to bonds issued pursuant to this chapter.

(7) Any public agency shall have the power to enter into contracts with the authority as deemed, in the discretion of the governing body of the public agency, would be in the best interest of the public agency. Such contracts may include a pledge of the full faith and credit of the public agency and/or the avails of any special assessments made by the public agency against property receiving benefits, as now or hereafter provided by law. Any such contract may:

(a) Provide for the sale or lease to, or use by, the authority, of the systems or any part thereof, of the public agency;

(b) Provide that the authority shall operate its systems or any part thereof of the public agency;

(c) Provide that the public agency shall have the right to continued use and/or priority use of the systems or any part thereof during the useful life thereof upon payment of reasonable charges therefor;

(d) Contain provisions to assure equitable treatment of public agencies contracting with the authority under this chapter; and

(e) Contain such other provisions and requirements as the parties thereto may determine to be appropriate or necessary.

Such contracts may extend over any period of time, notwithstanding any provisions of law to the contrary, and may extend beyond the life of the respective systems or any part thereof or the term of the bonds sold with respect to such facilities or improvements thereto.

(8) The obligations of a public agency arising under the terms of any contract referred to in this chapter, whether or not payable solely from a pledge of revenues, shall not be included within the indebtedness limitations of the public agency for purposes of any constitutional or statutory limitation or provision. To the extent provided in such contract and to the extent such obligations of the public agency are payable wholly or in part from the revenues and other monies derived by the public agency from the operation of its systems or of its combined systems, or any part thereof, such obligations shall be treated as expenses of operating such systems.

(9) Contracts referred to in this section may also provide for payments in the form of contributions to defray the cost of any purpose set forth in the contracts and as advances for the respective systems or any part thereof subject to repayment by the authority. A public agency may make such contributions or advances from its general fund or surplus fund or from special assessments or from any monies legally available therefor.

(10) Subject to the terms of a contract or contracts referred to in this chapter, the authority is hereby authorized to do and perform any and all acts or things necessary, convenient or desirable to carry out the purposes of such contracts, including the fixing, charging, collecting, maintaining and revising of rates, fees and other charges for the

services rendered to any user of any of the systems operated or maintained by the authority, whether or not such systems are owned by the authority.

(11) No provision of this chapter shall be construed to prohibit any public agency, otherwise permitted by law to issue bonds, from issuing bonds in the manner provided by law for the construction, renovation, repair or development of any systems or any part thereof.

SECTION 16. Whenever a public agency shall have executed a contract under this chapter and the payments thereunder are to be made either wholly or partly from the revenues of the public agency's systems, or any part thereof, or a combination of such systems, the duty is hereby imposed on the public agency to establish and maintain and from time to time to adjust the rate or fees charged by the public agency for the services of such systems, so that the revenues therefrom, together with any taxes and special assessments levied in support thereof, will be sufficient at all times to pay:

(a) The expense of operating and maintaining such systems, including, but not limited to, all of the public agency's obligations to the utility authority and the cost required to staff such systems, its successors or assigns under such contract; and

(b) All of the public agency's obligations under and in connection with bonds theretofore issued, or which may be issued thereafter and secured by the revenues of such systems. Any such contract may require the use of consulting engineers and financial experts to advise the public agency whether and when such rates and fees are to be adjusted.

SECTION 17. (1) Notwithstanding the provisions of Sections 77-3-21 and 77-3-23, the certificate of public convenience and necessity held by any municipality, public agency, district, public utility or other entity authorized by law to provide water and wastewater services may be cancelled and its powers, duties and responsibilities transferred to the utility authority in the manner provided by this section.

(2) Any entity described in subsection (1) of this section desiring to have its certificate of public convenience and necessity cancelled and its powers, duties and responsibilities transferred to the authority shall make a determination to that effect on its official minutes if a public entity, or by affidavit if not a public entity, and transmit such determination to the authority.

(3) Upon receipt of the document evidencing such determination from an entity to transfer its powers, duties and responsibilities to the authority, the authority shall, by resolution, declare whether it is willing and able to accept such transfer from the entity.

(4) Upon completion of the requirements of subsections (2) and (3) of this section and agreement by both parties to the transfer, the holder of the certificate of public convenience and necessity and the authority shall jointly petition the Public Service Commission to cancel the certificate of public convenience and necessity. The petition must be accompanied by copies of the official minutes, affidavit or resolution, as the case may be, reflecting the actions of the petitioners. After review of the petition and any other evidence as the Public Service Commission deems necessary, the commission may issue an order canceling the certificate and transferring to the authority the powers, duties and responsibilities granted by the certificate, including all assets and debts of the transferor petitioner related to such certificated services, real or personal, or both, if it finds that:

(a) Subsections (2) and (3) of this section have been complied with; and

(b) Such action is in the public interest.

(5) The authority and providers of water and wastewater services that are not holders of a certificate of a public convenience and necessity from the Public Service

Commission may enter into agreements for the provision of such services, including, but not limited to, the transfer to the authority of such provider's powers, duties, responsibilities, assets and debts.

(6) Nothing herein shall require an entity whose powers and duties were transferred to the authority to remain under the authority.

SECTION 18. (1) Any system of a municipality, public agency or other entity that becomes subject to the jurisdiction of the utility authority and this chapter shall not impair, invalidate or abrogate any liens, bonds or other certificates of indebtedness related to water or wastewater facilities and systems incurred prior to becoming subject to the jurisdiction of the authority.

(2) The authority may do and perform any and all acts necessary, convenient or desirable to ensure the payment, redemption or satisfaction of such liens, bonds or other certificates of indebtedness.

SECTION 19. (1) Sections 18 through 27 of this act apply to all bonds to be issued on or after July 1, 2024, and such provisions shall not affect, limit or alter the rights and powers of the utility authority under this chapter or any law of Mississippi to conduct the activities referred to herein in any way pertinent to the interests of the bondholders, including, without limitation, the authority's right to charge and collect rates, fees and charges and to fulfill the terms of any covenants made with the registered owners of any existing bonds, or in any other way impair the rights and remedies of the registered owners of any existing bonds, unless provision for full payment of such bonds, by escrow or otherwise, has been made pursuant to the terms of the bonds or the resolution, trust indenture or security interest securing the bonds.

(2) The authority shall have the power and is hereby authorized, from time to time, to borrow money and to issue revenue bonds and interim notes in such principal amounts as the authority may determine to be necessary to provide sufficient funds for achieving one or more of the purposes of this chapter, including, without limiting the generality of the foregoing, to defray all the costs of the project, the cost of the acquisition, construction, improvement, repair or extension of a system, or any part thereof, whether or not such facilities are owned by the authority, the payment of interest on bonds of the authority issued pursuant to this chapter, establishment of reserves to secure such bonds and payment of the interest thereon, expenses incident to the issuance of such bonds and to the implementation of the authority's system, and all other expenditures of the authority incident to or necessary or convenient to carry out the purposes of this chapter.

(3) Before issuing bonds, other than interim notes or refunding bonds as provided in Section 20 of this act, the board of directors of the authority shall adopt a resolution declaring its intention to issue such bonds and stating the maximum principal amount of bonds proposed to be issued, a general generic description of the proposed improvements and the proposed location thereof and the date, time and place at which the board of directors proposes to take further action with respect to the issuance of such bonds. The resolution shall be published once a week for at least three (3) consecutive weeks in at least one (1) newspaper having a general circulation within the geographical limits of the service area under this chapter.

(4) Bonds of the authority issued pursuant to this chapter shall be payable from and secured by a pledge of all or any part of the revenues derived from the operation of the systems or any part or parts thereof and any other monies legally available and designated therefor, as may be determined by the authority, subject only to any agreement with the purchasers of the bonds. Such bonds may be further secured by a trust indenture between the authority and a corporate trustee, which may be any trust company or bank having powers of a trust company without or within the state.

(5) Bonds of the authority issued pursuant to this chapter shall be authorized by a resolution or resolutions adopted by a majority affirmative vote of the total membership of the board. Such bonds may be issued in series, and each series of such bonds shall bear such date or dates, mature at such time or times, bear interest at such rate or rates (not exceeding the maximum rate set out in Section 75-17-103, Mississippi Code of 1972), be in such denomination or denominations, be in such form, carry such conversion privileges, have such rank or priority, be executed in such manner and by such officers, be payable from such sources in such medium of payment at such place or places within or without the state, provided that one such place shall be within the state, and be subject to such terms of redemption prior to maturity, all as may be provided by resolution or resolutions of the board. The term of such bonds issued pursuant to this chapter shall not exceed forty (40) years.

(6) Bonds of the authority issued pursuant to this chapter may be sold at such price or prices, at public or private sale, in such manner and at such times as may be determined by the authority to be in the public interest, and the authority may pay all expenses, premiums, fees and commissions which it may deem necessary and advantageous in connection with the issuance and sale thereof.

(7) Any pledge of earnings, revenues or other monies made by the authority shall be valid and binding from the time the pledge is made. The earnings, revenues or other monies so pledged and thereafter received by the authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the authority irrespective of whether such parties have notice thereof. Neither the resolution nor any other instrument by which a pledge is created need be recorded.

(8) Neither the members of the board nor any person executing the bonds shall be personally liable on the bonds or be subject to any personal liability or accountability by reason of the issuance thereof.

(9) Proceeds from the sale of bonds of the authority may be invested, pending their use, in such securities as may be specified in the resolution authorizing the issuance of the bonds or the trust indenture securing them, and the earnings on such investments applied as provided in such resolution or trust indenture.

(10) Whenever any bonds shall have been signed by the officer designated by the resolution of the board to sign the bonds who was in office at the time of such signing but who may have ceased to be such officer prior to the sale and delivery of such bonds, or who may not have been in office on the date such bonds may bear, the manual or facsimile signatures of such officer upon such bonds shall nevertheless be valid and sufficient for all purposes and have the same effect as if the person so officially executing such bonds had remained in office until the delivery of the same to the purchaser or had been in office on the date such bonds may bear.

(11) The authority has the discretion to advance or borrow funds needed to satisfy any short-term cash flow demands or deficiencies or to cover start-up costs until such time as sufficient bonds, assets and revenues have been secured to satisfy the needs of the authority. The State of Mississippi shall provide surety for any advance or borrowing of funds required under this chapter through June 30, 2029.

SECTION 20. (1) The utility authority may, by resolution adopted by its board, issue refunding bonds for the purpose of paying any of its bonds at or prior to maturity or upon acceleration or redemption. Refunding bonds may be issued at such time prior to the maturity or redemption of the refunded bonds as the board deems to be in the public interest, without an election on the question of the issuance thereof. The refunding bonds may be issued in sufficient amounts to pay or provide the principal of the bonds being refunded, together with any redemption premium thereon, any interest accrued or to

accrue to the date of payment of such bonds, the expenses of issue of the refunding bonds, the expenses of redeeming the bonds being refunded, and such reserves for debt service or other capital or current expenses from the proceeds of such refunding bonds as may be required by the resolution, trust indenture or other security instruments. The issue of refunding bonds, the maturities and other details thereof, the security therefor, the rights of the holders and the rights, duties and obligations of the authority in respect of the same shall be governed by the provisions of this chapter relating to the issue of bonds other than refunding bonds insofar as the same may be applicable. Any such refunding may be effected, whether the obligations to be refunded shall have then matured or shall thereafter mature, either by the exchange of the refunding bonds for the obligations to be refunded thereby with the consent of the holders of the obligations so to be refunded, or by sale of the refunding bonds and the application of the proceeds thereof to the payment of the obligations proposed to be refunded thereby, and regardless of whether the obligations proposed to be refunded shall be payable on the same date or different dates or shall be due serially or otherwise.

Such validation proceedings shall be instituted in any chancery courts within the boundaries of the authority. The validity of the bonds so validated and of the contracts and payments to be made by the public agencies thereunder constituting security for the bonds shall be forever conclusive against the authority and the public agencies, which are parties to said contracts, and the validity of said bonds and said contracts and the payments to be made thereunder shall never be called in question in any court in this state.

SECTION 22. Bonds issued under the provisions of this chapter shall not be deemed to constitute, within the meaning of any constitutional or statutory limitation, an indebtedness of the utility authority or the state. Such bonds shall be payable solely from the revenues or assets of the authority pledged therefor. Each bond issued under this chapter shall contain on the face thereof a statement to the effect that neither the authority nor the state shall be obligated to pay the same or the interest thereon except from the revenues or assets pledged therefor.

SECTION 23. The utility authority shall have power in connection with the issuance of its bonds pursuant to this chapter to:

(a) Covenant as to the use of any or all of its property, real or personal;

(b) Redeem the bonds, to covenant for their redemption and to provide the terms and conditions thereof;

(c) Covenant to charge rates, fees and charges sufficient to meet operating and maintenance expenses, renewals and replacements, principal and debt service on bonds, creation and maintenance of any reserves required by a bonds resolution, trust indenture or other security instrument and to provide for any margins or coverages over and above debt service on the bonds deemed desirable for the marketability of the bonds;

(f) Covenant as to the custody, collection, securing, investment and payment of any revenues, assets, monies, funds or property with respect to which the authority may have any rights or interest;

(g) Covenant as to the purposes to which the proceeds from the sale of any bonds then or thereafter to be issued may be applied, and the pledge of such proceeds to secure the payment of the bonds;

(i) Covenant as to the rank or priority of any bonds with respect to any lien or security;

(j) Covenant as to the procedure by which the terms of any contract with or for the benefit of the registered owners of bonds may be amended or abrogated, the amount of bonds the registered owners of which must consent thereto, and the manner in which such consent may be given;

(k) Covenant as to the custody of any of its properties or investments, the safekeeping thereof, the insurance to be carried thereon, and the use and disposition of insurance proceeds;

(l) Covenant as to the vesting in a trustee or trustees, within or outside the state, of such properties, rights, powers and duties in trust as the authority may determine;

(n) Make all other covenants and do any and all such acts and things as may be necessary, convenient or desirable in order to secure its bonds, or in the absolute discretion of the authority tend to make the bonds more marketable, notwithstanding that such covenants, acts or things may not be enumerated herein, it being the intention hereof to give the authority power to do all things in the issuance of bonds and in the provisions for security thereof which are not inconsistent with the Constitution of the state; and

(o) Execute all instruments necessary or convenient in the exercise of the powers herein granted or in the performance of covenants or duties, which may contain such covenants and provisions, as any purchaser of the bonds of the authority may reasonably require.

SECTION 24. The utility authority may, in any authorizing resolution of the board, trust indenture or other security instrument relating to its bonds issued pursuant to this chapter, provide for the appointment of a trustee who shall have such powers as are provided therein to represent the registered owners of any issue of bonds in the

enforcement or protection of their rights under any such resolution, trust indenture or security instrument. The authority may also provide in such resolution, trust indenture or other security instrument that the trustee, or in the event that the trustee so appointed shall fail or decline to so protect and enforce such registered owners' rights then such percentage of registered owners as shall be set forth in, and subject to the provisions of, such resolution, trust indenture or other security interest, may petition the court of proper jurisdiction for the appointment of a receiver of the authority's systems, the revenues of which are pledged to the payment of the principal of and interest on the bonds of such registered owners. Such receiver may exercise any power as may be granted in any such resolution, trust indenture or security instrument to enter upon and take possession of, acquire, construct, reconstruct or operate and maintain such system, fix charges for services of the system and enforce collection thereof, and receive all revenues derived from such system or facilities and perform the public duties and carry out the contracts and obligations of the authority in the same manner as the authority itself might do, all under the direction of such court.

(2) Any bonds issued by the authority under this chapter, their transfer and the income therefrom shall at all times be free from taxation by the state or any local unit or political subdivision or other instrumentality of the state, excepting inheritance and gift taxes.

SECTION 26. All bonds issued under the provisions of this chapter shall be legal investments for trustees, other fiduciaries, savings banks, trust companies and insurance companies organized under the laws of the State of Mississippi, and such bonds shall be legal securities which may be deposited with and shall be received by all public officers and bodies of the state and all municipalities and other political subdivisions thereof for the purpose of securing the deposit of public funds.

SECTION 27. The state hereby covenants with the registered owners of any bonds of the utility authority that so long as the bonds are outstanding and unpaid, the state will not limit or alter the rights and powers of the authority under this chapter to conduct the activities referred to herein in any way pertinent to the interests of the bondholders, including, without limitation, the authority's right to charge and collect rates, fees, assessments and charges and to fulfill the terms of any covenants made with the registered owners of the bonds, or in any other way impair the rights and remedies of the registered owners of the bonds, unless provision for full payment of such bonds, by escrow or otherwise, has been made pursuant to the terms of the bonds or the resolution, trust indenture or security interest securing the bonds.

SECTION 28. For the purposes of satisfying any temporary cash flow demands and deficiencies, and to maintain a working balance for the utility authority, the state, county, municipalities or public agencies within the geographic boundaries of the authority, or other persons, subject to their lawful authority to do so, are authorized to advance, at any time, such funds which in their discretion are necessary, or borrow such funds by issuance of notes, for initial capital contribution, and to cover start-up costs until such times as sufficient bonds, assets and revenues have been secured to satisfy the needs of the authority for its management, operation and formation. (e) The governing body of the county, municipalities or other persons as defined in this chapter, subject to their lawful authority to do so, may authorize the repayment of such advances, notes, lines of credit and other debt incurred under this section, along with all costs associated with the same, including, but not limited to, rating agency fees, printing costs, legal fees, bank or trust company fees, line of credit fees and other charges to be reimbursed by the authority under such terms and conditions as are reasonable and are to be provided for by resolution of the governing body, or terms agreed upon with other persons as defined in this chapter, subject to their lawful authority to do so; and

For the fourth and any subsequent revocation, the board may impose up to the remainder of the suspended portion of the sentence. The period of imprisonment in a technical violation center imposed under this section shall not be reduced in any manner.

(c) For a parolee charged with one or more technical violations who has not been detained awaiting the revocation hearing, the board may hold a hearing within a reasonable time. The board may revoke parole or may continue parole and modify the terms and conditions of parole. If the board revokes parole for one or more technical violations the board shall impose a period of imprisonment to be served in a technical violation center operated by the department not to exceed ninety (90) days for the first revocation and not to exceed one hundred twenty (120) days for the second revocation. For the fourth and any subsequent revocation, the board may impose up to the remainder of the suspended portion of the sentence. The period of imprisonment in a technical violation center imposed under this section shall not be reduced in any manner.

Political subdivisions of the State of Mississippi including but not limited to counties, municipalities, school districts, drainage districts, water management districts and joint county-municipal endeavors are to have free use of the offender's labor but are responsible for reimbursing the facility for costs of transportation, guards, meals and other necessary costs when the inmates are providing work for that political body. Offenders may be compensated for work performed if the agreement so provides.

(3) There is created a special fund in the county treasury to be known as the "offender's compensation fund." As provided in Section 47-5-194, no cash is to be paid to offenders. The agreement shall provide that a certain portion of the compensation shall be used for the welfare of the offenders. All money collected from the regional jail canteen operations shall be placed in a county special fund. Expenditures from that fund can be made by the chief corrections officer for any lawful purpose that is in the best interest and welfare of the offenders. The chief corrections officer, his employees and the county or counties owning the facility are given the authority necessary to carry out the provisions of this section.

The program shall be a prison-based treatment program designed to reduce substance abuse by inmates, correct dysfunctional thinking and behavioral patterns, and prepare inmates to make a successful and crime-free readjustment to the community.

(b) The Department of Corrections shall reimburse the Bolivar County Regional Facility at the per diem rate allowed under Section 47-5-933.

(2) (a) An inmate who is within eighteen (18) months of his earned release date or parole date may be placed in the program.

The plan shall require the inmate to be tracked in at least thirty-day intervals to measure compliance with his established transition plan.

(d) A monitoring assessment of recidivism containing post-release history of substance abuse, breaches of trust, arrests, convictions, employment, community functioning, and marital and family interaction.

13. Any personal or professional services contract entered into by the State Department of Health in carrying out its responsibilities under the ARPA Rural Water Associations Infrastructure Grant Program through June 30, 2026; and

14. And any personal or professional services contract entered into by the Mississippi Department of Environmental Quality in carrying out its responsibilities under the Mississippi Municipality and County Water Infrastructure Grant Program Act of 2022, through June 30, 2026.

Any such rules and regulations shall provide for maintaining continuous internal audit covering the activities of such agency affecting its revenue and expenditures as required under Section 7-7-3(6)(d). Any rules and regulation changes related to personal and professional services contracts that the Public Procurement Review Board may

propose shall be submitted to the Chairs of the Accountability, Efficiency and Transparency Committees of the Senate and House of Representatives and the Chairs of the Appropriation Committees of the Senate and House of Representatives at least fifteen (15) days before the board votes on the proposed changes, and those rules and regulation changes, if adopted, shall be promulgated in accordance with the Mississippi Administrative Procedures Act.

(ii) From and after July 1, 2024, the Public Procurement Review Board shall promulgate rules and regulations that require the Department of Finance and Administration to conduct personal and professional services solicitations as provided in subparagraph (i) of this paragraph for those services in excess of Seventy-five Thousand Dollars ($75,000.00) for the Department of Marine Resources, the Department of Wildlife, Fisheries and Parks, the Mississippi Emergency Management Agency and the Mississippi Development Authority, with assistance to be provided from these entities. Any powers that have been conferred upon agencies in order to comply with the provisions of this section for personal and professional services solicitations shall be conferred upon the Department of Finance and Administration to conduct personal and professional services solicitations for the Department of Marine Resources, the Department of Wildlife, Fisheries and Parks, the Mississippi Emergency Management Agency and the Mississippi Development Authority for those services in excess of Seventy-five Thousand Dollars ($75,000.00). The Department of Finance and Administration shall make any submissions that are required to be made by other agencies to the Public Procurement Review Board for the Department of Marine Resources, the Department of Wildlife, Fisheries and Parks, the Mississippi Emergency Management Agency and the Mississippi Development Authority.

The provisions of this subparagraph (ii) shall stand repealed on June 30, 2027;

(g) Approve all personal and professional services contracts involving the expenditures of funds in excess of Seventy-five Thousand Dollars ($75,000.00), except as provided in paragraph (f) of this subsection (2) and in subsection (8);

(h) Develop mandatory standards with respect to contractual services personnel that require invitations for public bid, requests for proposals, record keeping and financial responsibility of contractors. The Public Procurement Review Board shall, unless exempted under this paragraph (h) or under paragraph (i) or (o) of this subsection (2), require the agency involved to submit the procurement to a competitive procurement process, and may reserve the right to reject any or all resulting procurements;

(i) Prescribe certain circumstances by which agency heads may enter into contracts for personal and professional services without receiving prior approval from the Public Procurement Review Board. The Public Procurement Review Board may establish a preapproved list of providers of various personal and professional services for set prices with which state agencies may contract without bidding or prior approval from the board;

(i) Agency requirements may be fulfilled by procuring services performed incident to the state's own programs. The agency head shall determine in writing whether the price represents a fair market value for the services. When the procurements are made from other governmental entities, the private sector need not be solicited; however, these contracts shall still be submitted for approval to the Public Procurement Review Board.

(ii) Contracts between two (2) state agencies, both under Public Procurement Review Board purview, shall not require Public Procurement Review Board approval. However, the contracts shall still be entered into the enterprise resource planning system;

(j) Provide standards for the issuance of requests for proposals, the evaluation of proposals received, consideration of costs and quality of services proposed,

contract negotiations, the administrative monitoring of contract performance by the agency and successful steps in terminating a contract;

(k) Present recommendations for governmental privatization and to evaluate privatization proposals submitted by any state agency;

(l) Authorize personal and professional service contracts to be effective for more than one (1) year provided a funding condition is included in any such multiple year contract, except the State Board of Education, which shall have the authority to enter into contractual agreements for student assessment for a period up to ten (10) years. The State Board of Education shall procure these services in accordance with the Public Procurement Review Board procurement regulations;

(m) Request the State Auditor to conduct a performance audit on any personal or professional service contract;

(n) Prepare an annual report to the Legislature concerning the issuance of personal and professional services contracts during the previous year, collecting any necessary information from state agencies in making such report;

(o) Develop and implement the following standards and procedures for the approval of any sole source contract for personal and professional services regardless of the value of the procurement:

(i) For the purposes of this paragraph (o), the term "sole source" means only one (1) source is available that can provide the required personal or professional service.

(ii) An agency that has been issued a binding, valid court order mandating that a particular source or provider must be used for the required service must include a copy of the applicable court order in all future sole source contract reviews for the particular personal or professional service referenced in the court order.

(iii) Any agency alleging to have a sole source for any personal or professional service, other than those exempted under paragraph (f) of this subsection (2) and subsection (8), shall publish on the procurement portal website established by Sections 25-53-151 and 27-104-165, for at least fourteen (14) days, the terms of the proposed contract for those services. In addition, the publication shall include, but is not limited to, the following information:

1. The personal or professional service offered in the contract;

2. An explanation of why the personal or professional service is the only one that can meet the needs of the agency;

3. An explanation of why the source is the only person or entity that can provide the required personal or professional service;

4. An explanation of why the amount to be expended for the personal or professional service is reasonable; and

5. The efforts that the agency went through to obtain the best possible price for the personal or professional service.

(iv) If any person or entity objects and proposes that the personal or professional service published under subparagraph (iii) of this paragraph (o) is not a sole source service and can be provided by another person or entity, then the objecting person or entity shall notify the Public Procurement Review Board and the agency that published

the proposed sole source contract with a detailed explanation of why the personal or professional service is not a sole source service.

(v) 1. If the agency determines after review that the personal or professional service in the proposed sole source contract can be provided by another person or entity, then the agency must withdraw the sole source contract publication from the procurement portal website and submit the procurement of the personal or professional service to an advertised competitive bid or selection process.

2. If the agency determines after review that there is only one (1) source for the required personal or professional service, then the agency may appeal to the Public Procurement Review Board. The agency has the burden of proving that the personal or professional service is only provided by one (1) source.

3. If the Public Procurement Review Board has any reasonable doubt as to whether the personal or professional service can only be provided by one (1) source, then the agency must submit the procurement of the personal or professional service to an advertised competitive bid or selection process. No action taken by the Public Procurement Review Board in this appeal process shall be valid unless approved by a majority of the members of the Public Procurement Review Board present and voting.

(vi) The Public Procurement Review Board shall prepare and submit a quarterly report to the House of Representatives and Senate Accountability, Efficiency and Transparency Committees that details the sole source contracts presented to the Public Procurement Review Board and the reasons that the Public Procurement Review Board approved or rejected each contract. These quarterly reports shall also include the documentation and memoranda required in subsection (4) of this section. An agency that submitted a sole source contract shall be prepared to explain the sole source contract to each committee by December 15 of each year upon request by the committee;

(p) Assess any fines and administrative penalties provided for in Sections 31-7-401 through 31-7-423.

(3) All submissions shall be made sufficiently in advance of each monthly meeting of the Public Procurement Review Board as prescribed by the Public Procurement Review Board. If the Public Procurement Review Board rejects any contract submitted for review or approval, the Public Procurement Review Board shall clearly set out the reasons for its action, including, but not limited to, the policy that the agency has violated in its submitted contract and any corrective actions that the agency may take to amend the contract to comply with the rules and regulations of the Public Procurement Review Board.

(4) All sole source contracts for personal and professional services awarded by state agencies, other than those exempted under Section 27-104-7(2)(f) and (8), whether approved by an agency head or the Public Procurement Review Board, shall contain in the procurement file a written determination for the approval, using a request form furnished by the Public Procurement Review Board. The written determination shall document the basis for the determination, including any market analysis conducted in order to ensure that the service required was practicably available from only one (1) source. A memorandum shall accompany the request form and address the following four (4) points:

(a) Explanation of why this service is the only service that can meet the needs of the purchasing agency;

(b) Explanation of why this vendor is the only practicably available source from which to obtain this service;

(c) Explanation of why the price is considered reasonable; and

(d) Description of the efforts that were made to conduct a noncompetitive negotiation to get the best possible price for the taxpayers.

(5) In conjunction with the State Personnel Board, the Public Procurement Review Board shall develop and promulgate rules and regulations to define the allowable legal relationship between contract employees and the contracting departments, agencies and institutions of state government under the jurisdiction of the State Personnel Board, in compliance with the applicable rules and regulations of the federal Internal Revenue Service (IRS) for federal employment tax purposes. Under these regulations, the usual common law rules are applicable to determine and require that such worker is an independent contractor and not an employee, requiring evidence of lawful behavioral control, lawful financial control and lawful relationship of the parties. Any state department, agency or institution shall only be authorized to contract for personnel services in compliance with those regulations.

(6) No member of the Public Procurement Review Board shall use his or her official authority or influence to coerce, by threat of discharge from employment, or otherwise, the purchase of commodities, the contracting for personal or professional services, or the contracting for public construction under this chapter.

(7) Notwithstanding any other laws or rules to the contrary, the provisions of subsection (2) of this section shall not be applicable to the Mississippi State Port Authority at Gulfport.

(8) Nothing in this section shall impair or limit the authority of the Board of Trustees of the Public Employees' Retirement System to enter into any personal or professional services contracts directly related to their constitutional obligation to manage the trust funds, including, but not limited to, actuarial, custodial banks, cash management, investment consultant and investment management contracts. Nothing in this section shall impair or limit the authority of the State Treasurer to enter into any personal or professional services contracts involving the management of trust funds, including, but not limited to, actuarial, custodial banks, cash management, investment consultant and investment management contracts.

(9) Through December 31, 2024, the provisions of this section related to rental agreements or leasing of real property for the purpose of conducting agency business shall not apply to the Office of Workforce Development created in Section 37-153-7.

SECTION 18. Section 27-65-75, Mississippi Code of 1972, is amended as follows:

27-65-75. On or before the fifteenth day of each month, the revenue collected under the provisions of this chapter during the preceding month shall be paid and distributed as follows:

(1) (a) On or before August 15, 1992, and each succeeding month thereafter through July 15, 1993, eighteen percent (18%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3) and 27-65-21, on business activities within a municipal corporation shall be allocated for distribution to the municipality and paid to the municipal corporation. Except as otherwise provided in this paragraph (a), on or before August 15, 1993, and each succeeding month thereafter, eighteen and one-half percent (18-1/2%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3), 27-65-21 and 27-65-24, on business activities within a municipal corporation shall be allocated for distribution to the municipality and paid to the municipal corporation. However, in the event the State Auditor issues a certificate of noncompliance pursuant to Section 21-35-31, the Department of Revenue shall withhold ten percent (10%) of the allocations and payments to the

municipality that would otherwise be payable to the municipality under this paragraph (a) until such time that the department receives written notice of the cancellation of a certificate of noncompliance from the State Auditor.

A municipal corporation, for the purpose of distributing the tax under this subsection, shall mean and include all incorporated cities, towns and villages.

Monies allocated for distribution and credited to a municipal corporation under this paragraph may be pledged as security for a loan if the distribution received by the municipal corporation is otherwise authorized or required by law to be pledged as security for such a loan.

In any county having a county seat that is not an incorporated municipality, the distribution provided under this subsection shall be made as though the county seat was an incorporated municipality; however, the distribution to the municipality shall be paid to the county treasury in which the municipality is located, and those funds shall be used for road, bridge and street construction or maintenance in the county.

(b) On or before August 15, 2006, and each succeeding month thereafter, eighteen and one-half percent (18-1/2%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3) and 27-65-21, on business activities on the campus of a state institution of higher learning or community or junior college whose campus is not located within the corporate limits of a municipality, shall be allocated for distribution to the state institution of higher learning or community or junior college and paid to the state institution of higher learning or community or junior college.

(c) On or before August 15, 2018, and each succeeding month thereafter until August 14, 2019, two percent (2%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3), 27-65-21 and 27-65-24, on business activities within the corporate limits of the City of Jackson, Mississippi, shall be deposited into the Capitol Complex Improvement District Project Fund created in Section 29-5-215. On or before August 15, 2019, and each succeeding month thereafter until August 14, 2020, four percent (4%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3), 27-65-21 and 27-65-24, on business activities within the corporate limits of the City of Jackson, Mississippi, shall be deposited into the Capitol Complex Improvement District Project Fund created in Section 29-5-215. On or before August 15, 2020, and each succeeding month thereafter through July 15, 2023, six percent (6%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3), 27-65-21 and 27-65-24, on business activities within the corporate limits of the City of Jackson, Mississippi, shall be deposited into the Capitol Complex Improvement District Project Fund created in Section 29-5-215. On or before August 15, 2023, and each succeeding month thereafter, nine percent (9%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3), 27-65-21 and 27-65-24, on business activities within the corporate limits of the City of Jackson, Mississippi, shall be deposited into the Capitol Complex Improvement District Project Fund created in Section 29-5-215.

(d) (i) On or before the fifteenth day of the month that the diversion authorized by this section begins, and each succeeding month thereafter, eighteen and one-half percent (18-1/2%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3) and 27-65-21, on business activities within a redevelopment project area developed under a redevelopment plan adopted under the

Tax Increment Financing Act (Section 21-45-1 et seq.) shall be allocated for distribution to the county in which the project area is located if:

1. The county:

a. Borders on the Mississippi Sound and the State of Alabama * * *; or

b. Is Harrison County, Mississippi, and the project area is within a radius of two (2) miles from the intersection of Interstate 10 and Menge Avenue;

2. The county has issued bonds under Section 21-45-9 to finance all or a portion of a redevelopment project in the redevelopment project area;

3. Any debt service for the indebtedness incurred is outstanding; and

4. A development with a value of Ten Million Dollars ($10,000,000.00) or more is, or will be, located in the redevelopment area.

(ii) Before any sales tax revenue may be allocated for distribution to a county under this paragraph, the county shall certify to the Department of Revenue that the requirements of this paragraph have been met, the amount of bonded indebtedness that has been incurred by the county for the redevelopment project and the expected date the indebtedness incurred by the county will be satisfied.

(iii) The diversion of sales tax revenue authorized by this paragraph shall begin the month following the month in which the Department of Revenue determines that the requirements of this paragraph have been met. The diversion shall end the month the indebtedness incurred by the county is satisfied. All revenue received by the county under this paragraph shall be deposited in the fund required to be created in the tax increment financing plan under Section 21-45-11 and be utilized solely to satisfy the indebtedness incurred by the county.

(2) On or before September 15, 1987, and each succeeding month thereafter, from the revenue collected under this chapter during the preceding month, One Million One Hundred Twenty-five Thousand Dollars ($1,125,000.00) shall be allocated for distribution to municipal corporations as defined under subsection (1) of this section in the proportion that the number of gallons of gasoline and diesel fuel sold by distributors to consumers and retailers in each such municipality during the preceding fiscal year bears to the total gallons of gasoline and diesel fuel sold by distributors to consumers and retailers in municipalities statewide during the preceding fiscal year. The Department of Revenue shall require all distributors of gasoline and diesel fuel to report to the department monthly the total number of gallons of gasoline and diesel fuel sold by them to consumers and retailers in each municipality during the preceding month. The Department of Revenue shall have the authority to promulgate such rules and regulations as is necessary to determine the number of gallons of gasoline and diesel fuel sold by distributors to consumers and retailers in each municipality. In determining the percentage allocation of funds under this subsection for the fiscal year beginning July 1, 1987, and ending June 30, 1988, the Department of Revenue may consider gallons of gasoline and diesel fuel sold for a period of less than one (1) fiscal year. For the purposes of this subsection, the term "fiscal year" means the fiscal year beginning July 1 of a year.

(3) On or before September 15, 1987, and on or before the fifteenth day of each succeeding month, until the date specified in Section 65-39-35, the proceeds derived from contractors' taxes levied under Section 27-65-21 on contracts for the construction or reconstruction of highways designated under the highway program created under Section 65-3-97 shall, except as otherwise provided in Section 31-17-127, be deposited into the State Treasury to the credit of the State Highway Fund to be used to fund that highway

program. The Mississippi Department of Transportation shall provide to the Department of Revenue such information as is necessary to determine the amount of proceeds to be distributed under this subsection.

(4) On or before August 15, 1994, and on or before the fifteenth day of each succeeding month through July 15, 1999, from the proceeds of gasoline, diesel fuel or kerosene taxes as provided in Section 27-5-101(a)(ii)1, Four Million Dollars ($4,000,000.00) shall be deposited in the State Treasury to the credit of a special fund designated as the "State Aid Road Fund," created by Section 65-9-17. On or before August 15, 1999, and on or before the fifteenth day of each succeeding month, from the total amount of the proceeds of gasoline, diesel fuel or kerosene taxes apportioned by Section 27-5-101(a)(ii)1, Four Million Dollars ($4,000,000.00) or an amount equal to twenty-three and one-fourth percent (23-1/4%) of those funds, whichever is the greater amount, shall be deposited in the State Treasury to the credit of the "State Aid Road Fund," created by Section 65-9-17. Those funds shall be pledged to pay the principal of and interest on state aid road bonds heretofore issued under Sections 19-9-51 through 19-9-77, in lieu of and in substitution for the funds previously allocated to counties under this section. Those funds may not be pledged for the payment of any state aid road bonds issued after April 1, 1981; however, this prohibition against the pledging of any such funds for the payment of bonds shall not apply to any bonds for which intent to issue those bonds has been published for the first time, as provided by law before March 29, 1981. From the amount of taxes paid into the special fund under this subsection and subsection (9) of this section, there shall be first deducted and paid the amount necessary to pay the expenses of the Office of State Aid Road Construction, as authorized by the Legislature for all other general and special fund agencies. The remainder of the fund shall be allocated monthly to the several counties in accordance with the following formula:

(a) One-third (1/3) shall be allocated to all counties in equal shares;

(b) One-third (1/3) shall be allocated to counties based on the proportion that the total number of rural road miles in a county bears to the total number of rural road miles in all counties of the state; and

(c) One-third (1/3) shall be allocated to counties based on the proportion that the rural population of the county bears to the total rural population in all counties of the state, according to the latest federal decennial census.

For the purposes of this subsection, the term "gasoline, diesel fuel or kerosene taxes" means such taxes as defined in paragraph (f) of Section 27-5-101.

The amount of funds allocated to any county under this subsection for any fiscal year after fiscal year 1994 shall not be less than the amount allocated to the county for fiscal year 1994.

Any reference in the general laws of this state or the Mississippi Code of 1972 to Section 27-5-105 shall mean and be construed to refer and apply to subsection (4) of Section 27-65-75.

(5) One Million Six Hundred Sixty-six Thousand Six Hundred Sixty-six Dollars ($1,666,666.00) each month shall be paid into the special fund known as the "Educational Facilities Revolving Loan Fund" created and existing under the provisions of Section 37-47-24. Those payments into that fund are to be made on the last day of each succeeding month hereafter. This subsection (5) shall stand repealed on July 1, 2026.

(6) An amount each month beginning August 15, 1983, through November 15, 1986, as specified in Section 6, Chapter 542, Laws of 1983, shall be paid into the special fund known as the Correctional Facilities Construction Fund created in Section 6, Chapter 542, Laws of 1983.

(7) On or before August 15, 1992, and each succeeding month thereafter through July 15, 2000, two and two hundred sixty-six one-thousandths percent (2.266%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Section 27-65-17(2), shall be deposited by the department into the School Ad Valorem Tax Reduction Fund created under Section 37-61-35. On or before August 15, 2000, and each succeeding month thereafter, two and two hundred sixty-six one-thousandths percent (2.266%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Section 27-65-17(2), shall be deposited into the School Ad Valorem Tax Reduction Fund created under Section 37-61-35 until such time that the total amount deposited into the fund during a fiscal year equals Forty-two Million Dollars ($42,000,000.00). Thereafter, the amounts diverted under this subsection (7) during the fiscal year in excess of Forty-two Million Dollars ($42,000,000.00) shall be deposited into the Education Enhancement Fund created under Section 37-61-33 for appropriation by the Legislature as other education needs and shall not be subject to the percentage appropriation requirements set forth in Section 37-61-33.

37-159-1. Sections 37-159-1 through 37-159-19 shall be known and may be cited as the "Mississippi Critical Teacher Shortage Act of 1998."

SECTION 2. Section 37-159-5, Mississippi Code of 1972, is reenacted as follows:

37-159-5. The State Board of Education shall prescribe rules and regulations which, subject to available appropriations, allow for reimbursement to the state licensed teachers, from both in state and out of state, who enter into a contract for employment in a school district situated within a geographical area of the state where there exists a critical shortage of teachers, as designated by the State Board of Education, for the expense of moving when the employment necessitates the relocation of the teacher to a different geographical area than that in which the teacher resides before entering into such contract. In order to be eligible for the reimbursement, the teacher must apply to the local district and the district must obtain the prior approval from the department for reimbursement before the relocation occurs. If the reimbursement is approved, the department shall provide funds to the school district to reimburse the teacher an amount not to exceed One Thousand Dollars ($1,000.00) for the documented actual expenses incurred in the course of relocating, including the expense of any professional moving company or persons employed to assist with the move, rented moving vehicles or equipment, mileage in the amount authorized for state employees under Section 25-3-41 if the teacher used his personal vehicle or vehicles for the move, meals and such other expenses associated with the relocation in accordance with the department's established rules and regulations. No teacher may be reimbursed for moving expenses under this section on more than one (1) occasion.

Nothing in this section shall be construed to require the actual residence to which the teacher relocates to be within the boundaries of the school district which has executed a contract for employment with the teacher or within the boundaries of the area designated by the State Board of Education as the critical teacher shortage area in order for the teacher to be eligible for reimbursement for his moving expenses. However, teachers must relocate within the boundaries of the State of Mississippi.

SECTION 3. Section 37-159-7, Mississippi Code of 1972, is reenacted as follows:

37-159-7. The school board of any school district situated within a geographical area of the state where there exists a critical shortage of teachers, as designated by the State Board of Education, in its discretion, may reimburse persons who interview for employment as a licensed teacher with the district for the mileage and other actual expenses incurred in the course of travel to and from the interview by such persons at the rate authorized for county and municipal employees under Section 25-3-41. Any reimbursement by a school board under this section shall be paid from funds other than adequate education program funds.

SECTION 4. Section 37-159-9, Mississippi Code of 1972, is reenacted as follows:

37-159-9. (1) There is established the University Assisted Teacher Recruitment and Retention Grant Program within the State Department of Education. The purposes of the program shall be to attract additional qualified teachers to those geographical areas of the state where there exists a critical shortage of teachers and to retain the qualified teachers already serving as licensed teachers in geographical critical teacher shortage areas by making available scholarships to persons working towards a Master of Education degree or an Educational Specialist degree at an institution of higher learning whose teacher education program is approved by the State Board of Education.

(2) Any institution of higher learning in the State of Mississippi which offers a Master of Education degree or an Educational Specialist degree may apply to the department for participation in the program. As part of the program, participating institutions shall collaborate with the Mississippi Teacher Center to identify, recruit and place teacher education graduates, from both within the state and out of state, in school districts situated within those areas of the state where there exists a critical shortage of teachers, as designated by the State Board of Education.

(3) The State Department of Education shall provide funds to participating institutions of higher learning for the purpose of awarding scholarships to qualified persons pursuing a Master of Education degree or an Educational Specialist degree at such institutions while rendering service to the state as a licensed teacher in a school district in a geographical area of the state where there exists a critical shortage of teachers, as approved by the State Board of Education. The financial scholarship shall be applied to the total cost for tuition, books, materials and fees at the institution in which the student is enrolled, not to exceed an amount equal to the highest total cost of tuition, books, materials and fees assessed by a state institution of higher learning during that school year. Teachers who relocate within Mississippi from out of state in order to participate in the program shall be classified as residents of the state for tuition purposes.

(4) Students awarded financial scholarships under the University Assisted Teacher Recruitment and Retention Grant Program may receive such awards for a maximum of four (4) school years; however, the maximum number of awards which may be made shall not exceed the length of time required to complete the number of academic hours necessary to obtain a Master of Education degree or an Educational Specialist degree. Financial scholarships under the program shall not be based upon an applicant's eligibility for financial aid.

(5) Persons relocating to a geographical area of the state where there exists a critical shortage of teachers, as approved by the State Board of Education, to participate in the University Assisted Teacher Recruitment and Retention Grant Program shall be eligible for reimbursement for their moving expenses to the critical teacher shortage area from the State Board of Education. The State Board of Education shall promulgate rules and regulations necessary for the administration of the relocation expense reimbursement component of the University Assisted Teacher Recruitment and Retention Grant Program.

(6) Subject to the availability of funds, the State Board of Education may provide for professional development and support services as may be necessary for the retention of teachers participating in the program in those geographical areas of the state where there exists a critical shortage of teachers.

(7) Any person participating in the program who fails to complete a program of study that will enable that person to obtain a Master of Education degree or Educational Specialist degree shall become liable immediately to the State Board of Education for the sum of all awards made to that person under the program, plus interest accruing at the current Stafford Loan rate at the time the person abrogates his participation in the program.

(8) As a condition for participation in the program, a teacher shall agree to employment as a licensed teacher in a school district located in a geographical area of the state where there exists a critical shortage of teachers, as designated by the State Board of Education, for a period of not less than three (3) years, which shall include those years of service rendered while obtaining the Master of Education degree or Educational Specialist degree. However, for any person who obtained a Baccalaureate degree in education with a financial scholarship under the Critical Needs Teacher Scholarship Program and who entered the University Assisted Teacher Recruitment and Retention Grant Program before rendering service as a teacher, the period of employment for the purposes of this subsection shall be two (2) years, in addition to the employment

commitment required under the Critical Needs Teacher Scholarship Program. Service rendered by a participant as a licensed teacher in a school district in a geographical critical teacher shortage area before that teacher becomes a participant in the program may not be considered to fulfill the employment commitment required under this subsection. Any person failing to comply with this employment commitment in any required school year shall immediately be in breach of contract and become liable immediately to the State Department of Education for the sum of all scholarships awarded and relocation expenses granted to that person, less one-third (1/3) of the amount of that sum for each year that service was rendered, or for those persons whose required period of employment is two (2) years, less one-half (1/2) of the amount of that sum for each year that service was rendered, plus interest accruing at the current Stafford Loan rate at the time the breach occurs, except in the case of a deferral for cause by the State Board of Education when there is no employment position immediately available upon the teacher's obtaining of the Master of Education degree or Educational Specialist degree. After the period of such deferral, the person shall begin or resume the required teaching duties or shall become liable to the board under this subsection. If a claim for repayment under this subsection is placed in the hands of an attorney for collection after default, then the obligor shall be liable for an additional amount equal to a reasonable attorney's fee.

(9) All funds received by the State Department of Education from the repayment of scholarship awards and relocation expenses by program participants shall be deposited in the Mississippi Critical Teacher Shortage Fund.

(10) The State Board of Education shall promulgate rules and regulations necessary for the proper administration of the University Assisted Teacher Recruitment and Retention Grant Program.

SECTION 5. Section 37-159-11, Mississippi Code of 1972, is reenacted as follows:

37-159-11. (1) There is established the Mississippi Employer-Assisted Housing Teacher Program, which shall be a special home loan program for eligible licensed teachers who render service to the state in a geographical area of the state where there exists a critical shortage of teachers, as designated by the State Board of Education. The home loan program shall be administered by the State Department of Education. The department may contract with one or more public or private entities to provide assistance in implementing and administering the program. The State Board of Education shall adopt rules and regulations regarding the implementation and administration of the program.

(2) Participation in the loan program shall be available to any licensed teacher who renders service in a geographical area of the state where there exists a critical shortage of teachers, as designated by the State Board of Education. Any person who receives a loan under the program shall be required to purchase a house and reside in a county in which the school district for which the teacher is rendering service, or any portion of the school district, is located. The maximum amount of a loan that may be made under the program to any person shall be Six Thousand Dollars ($6,000.00).

(3) Any loan made under the program to a person who actually renders service as a teacher in a geographical area of the state where there exists a critical shortage of teachers, as designated by the State Board of Education, shall be converted to an interest-free grant on the basis of one (1) year's service for one-third (1/3) of the amount of the loan. Any person who does not render three (3) years' service as a teacher in a geographical area of the state where there exists a critical shortage of teachers, as designated by the State Board of Education, shall be liable to the State Department of Education for one-third (1/3) of the amount of the loan for each year that he does not render such service, plus interest accruing at the current Stafford Loan rate at the time the person discontinues his service. If a claim for repayment under this subsection is placed in the hands of an attorney for collection, the obligor shall be liable for an additional amount equal to a reasonable attorney's fee.

(4) All funds received by the State Department of Education as repayment of loans by program participants shall be deposited in the Mississippi Critical Teacher Shortage Fund.

SECTION 6. Section 37-159-13, Mississippi Code of 1972, is reenacted as follows:

37-159-13. (1) There is established a pilot program to provide for the construction of rental housing units for teachers in the West Tallahatchie School District, which pilot program shall be administered by the State Department of Education. The department may contract with one or more public or private entities to provide assistance in implementing and administering the program. The State Board of Education shall adopt rules and regulations regarding the implementation and administration of the program.

(2) The West Tallahatchie School District shall receive proposals from developers for the construction of the rental housing units, and submit its recommendation to the State Department of Education about which developer should construct the units. The department shall make the final determination about the developer that will construct the units.

In the discretion of the Mississippi Ethics Commission, the assessing of the fine may be waived, in whole or in part, if the Commission determines that unforeseeable mitigating circumstances, such as the health of the candidate, interfered with the timely filing of a report. Failure of a candidate or political committee to receive notice of failure to file a report from the Secretary of State is not an unforeseeable mitigating circumstance, and

failure to receive the notice shall not result in removal or reduction of any assessed civil penalty.

(iii) Filing of the required report and payment of the fine within ten (10) calendar days of notice by the Secretary of State that a required statement has not been filed constitutes compliance with Sections 23-15-801 through 23-15-813, or Sections 23-17-47 through 23-17-53.

(iv) Payment of the fine without filing the required report does not excuse or exempt any person from the filing requirements of Sections 23-15-801 through 23-15-813, and Sections 23-17-47 through 23-17-53.

(v) If any candidate or political committee is assessed a civil penalty, and the penalty is not subsequently waived by the Mississippi Ethics Commission, the candidate or political committee shall pay the fine to the Commission within ninety (90) days of the date of the assessment of the fine. (b) (i) Upon the sworn application, made within sixty (60) calendar days of the date upon which the required report is due, of a candidate or political committee against whom a civil penalty has been assessed pursuant to subsection (a) of this section, the Secretary of State shall forward the application to the State Board of Election Commissioners. (iv) At the hearing, the hearing officer shall administer oaths as may be necessary for the proper conduct of the hearing. All hearings shall be conducted by the hearing officer, who shall not be bound by strict rules of procedure or by the laws of evidence, but the determination shall be based upon sufficient evidence to sustain it. The scope of review at the hearing shall be limited to making a determination of whether failure to file a required report was due to an unforeseeable mitigating circumstance.

(v) In any proceeding before the hearing officer, if any witness fails or refuses to attend upon a subpoena issued by the commission, refuses to testify, or refuses to produce any documents called for by a subpoena, the attendance of the witness, the giving of his or her testimony or the production of the documents shall be enforced by a court of competent jurisdiction of this state in the manner provided for the enforcement of attendance and testimony of witnesses in civil cases in the courts of this state.

(vi) Within fifteen (15) calendar days after conclusion of the hearing, the hearing officer shall reduce his or her decision to writing and forward an attested true copy of the decision to the last-known business address of the candidate or political committee by way of United States first-class, certified mail, postage prepaid.

(c) (i) The right to appeal from the decision of the hearing officer in an administrative hearing concerning the assessment of civil penalties authorized pursuant to this section is granted. The appeal shall be to the Circuit Court of Hinds County and shall include a verbatim transcript of the testimony at the hearing. The appeal shall be taken within thirty (30) calendar days after notice of the decision of the commission following an administrative hearing. The appeal shall be perfected upon filing notice of the appeal and the prepayment of all costs, including the cost of preparing the record of the proceedings by the hearing officer, and filing a bond in the sum of Two Hundred Dollars ($200.00), conditioned that if the decision of the hearing officer is affirmed by the court, the candidate or political committee will pay the costs of the appeal and the action in court. If the decision is reversed by the court, the Mississippi Ethics Commission will pay the costs of the appeal and the action in court.

(ii) If there is an appeal, the appeal shall act as a supersedeas. The court shall dispose of the appeal and enter its decision promptly. The hearing on the appeal may be tried in vacation, in the court's discretion. The scope of review of the court shall be limited to a review of the record made before the hearing officer to determine if the action of the hearing officer is unlawful for the reason that it was 1. not supported by substantial evidence, 2. arbitrary or capricious, 3. beyond the power of the hearing officer to make, or 4. in violation of some statutory or constitutional right of the appellant. The decision of the court may be appealed to the Supreme Court in the manner provided by law.

(d) If, after forty-five (45) calendar days of the date of the administrative hearing procedure set forth in subsection (b), the candidate or political committee identified in subsection (a) of this section fails to pay the monetary civil penalty imposed by the hearing officer, the Secretary of State shall notify the Attorney General of the delinquency. The Attorney General shall investigate the offense in accordance with the provisions of this chapter, and where necessary, file suit to compel payment of the unpaid civil penalty.

(e) If, after twenty (20) calendar days of the date upon which a campaign finance disclosure report is due, a candidate or political committee identified in subsection (a) of this section shall not have filed a valid report with the Secretary of State, the Secretary of State shall notify the Attorney General of those candidates and political committees who have not filed a valid report, and the Attorney General shall prosecute the delinquent candidates and political committees.
