Lt. Governor Delbert Hosemann introduced Governor Tate Reeves who addressed the joint assembly:

Thank you, Lieutenant Governor Hosemann and Speaker Gunn.

To the members of the legislature and other elected officials here tonight, thank you. Thank you for your continued partnership and thank you for the tireless work you do on behalf of our great state and her people.

I also have to take a moment to thank my beautiful wife and Mississippi's outstanding First Lady, Elee. She's an incredible wife, an awesome mom, and a wonderful representative for our state. I'm amazed daily by your grace and your kindness, and I'm so thankful to have you in my life every single day.

Finally and most importantly, I have to thank the three million Mississippians who have helped our state usher in an unprecedented period of economic growth, educational achievement, and freedom.

2022 was perhaps the best year in Mississippi's history. Because, here in Mississippi and unlike in Washington, D.C., we still have the incredible capacity to work together and accomplish great things for our constituents.

The sense that our state is one big, small town binds us and it furthers a sense of optimism that we can still work together here and deliver results on behalf of our people.

The people of Mississippi are our state's strength. It is because of your hard work that our state is primed and ready to face the challenges of tomorrow.

It is because of your work ethic and your commitment to excellence that more and more companies are choosing to do business in Mississippi and that our state's brightest days lie in front of us.

It has been the privilege of a lifetime to serve as your governor over the last three years. I haven't taken it for granted for one second, and I promise you that I never will. It is truly an honor to wake up each and every day and get to work on your behalf, and I look forward to making even bigger things happen in this great state.

Now, over these years some days have been more challenging than others. But no matter what's thrown at Mississippi, I thank God each night that I have the chance to live, work, and serve alongside of you. There is no place I would have rather weathered tornadoes, floods, hurricanes, or a global pandemic than right here in Mississippi.

But Mississippi – and I think you'll agree too – means more than simply a place to batten down the hatches during natural disasters.

Mississippi is all of our home. Our state is filled with natural beauty and friendly people. I, like so many of y'all today, am grateful to be raised in this loving community.

I'm proud to be a Mississippian, and I'm proud of the life lessons I've learned from the people I've met along the way.

One of those people, is my hero – my dad. Now, I don't remember the first time I met him because I was only a few minutes old. But I do remember some of the lessons he taught me, especially when it comes to the value of hard work.

My father grew up in a two-room home with five brothers and five sisters in Bogue Chitto. He started a small business in the early 70's and spent many, many nights sweeping the dirt floors and praying for his next clients.

Like entrepreneurs across Mississippi, he spent his life growing that business. Only in America could the son of that man stand here today as the governor of this great state. It is the American Dream, and the lessons I learned from him have inspired everything that I've done.

I've tried my best to take those lessons with me over the years and incorporate them into everything that I do. I've leaned on them when times were good, and I've leaned on them when times were bad.

They've helped to keep me grounded and to remember what's really important in life. They've helped me govern, and they've helped me keep perspective.

Today, it's a cold-hard-fact that really, really good things are happening in Mississippi. And it's my honor to stand before you today and announce that the state of our state is stronger than ever.

Our state is strong because our people and my administration are laser focused on the issues that matter to Mississippians.

As you've heard me say before, the way we measure success is in the wages of our workers, the success of our students, and winning the war on our values.

Mississippi is hitting the target on all three of these fronts.

First, wages. Since 2019, we've raised per capita personal income in Mississippi by approximately \$7,000 or almost 18%. We are boosting the money that Mississippi families are bringing home – especially right now, as we combat rising inflation from wasteful spending in Washington, D.C.

This wasn't by accident. We were able to accomplish this momentous feat because we never wavered from the tried and true economic and fiscally conservative principles that have set up states for growth for generations. And we were able to accomplish this despite the left's best attempts to grow government.

Our conservative reforms and sound budget management have laid the foundation for this economic boom. It's the policies of yesterday that have paved the pathway to today's prosperity.

It's led us to a \$4 billion budget surplus. \$4 billion!

It's led to investing a historic amount in jobs training, and because of that we have the lowest unemployment rate in our state's history.

It resulted in a record \$6 billion in new capital investment in 2022, which is more than seven times the previous average of approximately \$900 million a year before I became governor.

And it helped us finalize the largest economic development project in Mississippi history – a \$2.5 billion capital investment that will create 1,000 new jobs with an average salary of almost \$100,000 a year.

But we had more than just one major economic deal. That grand slam was great, but there were dozens and dozens of projects impacting every corner of our state over the last year. The fact is that thanks to our singles and our doubles, Mississippi is starting to run up the scoreboard.

Last year we announced a \$2 million investment that will create 117 new upholstery jobs in New Albany.

We announced a \$79 million investment that will create 21 new operations jobs in Pelahatchie.

We announced a \$51 million investment that will create 41 new manufacturing jobs in Winona.

Canton, Philadelphia, Bay Springs, Columbus, Starkville, Southaven, Meridian, Calhoun, Waynesboro, Vicksburg, Olive Branch, and Corinth – just to name a few of the places that we announced investments this last year.

My friends, when it comes to setting up our people and state for more economic prosperity, we are, by every objective standard, getting the job done.

We are boosting salaries and we are expanding the tax base. And we are investing in the areas that will provide our state with the highest return – our people.

I want our state to go even further in supporting Mississippians. Our state is in the best fiscal shape we've ever been in, and our state is in the best financial shape in history and our residents deserve to get a bigger piece of the pie.

We can and should do more to put additional dollars into the pockets of Mississippians. We will do this, by eliminating our state's income tax once and for all.

We can do this and we can do this without raising other taxes. You've heard me say this before, but I'm going to keep saying it because it's that important: government doesn't have anything that it doesn't first take from somebody else.

I believe that Mississippians not politicians or the government know best how to spend their dollars. I also believe that those who have competitive advantages win.

We have a competitive advantage in our people. We need to add another competitive advantage with our tax code.

To build the best possible environment for entrepreneurs, to combat President Biden's runaway inflation, to compete with the likes of Florida, Tennessee and Texas, to continue making it easier for Mississippians to support their families, we must eliminate Mississippi's income tax.

That's why last year I was so proud to sign into law the largest tax cut in Mississippi history, which returned over half a billion dollars to Mississippians.

That's more dollars in your pocket, more dollars in your kids' college funds, more dollars put toward buying a home or retirement, and more dollars for you to spend on your priorities. Not politicians' pet projects.

I'm proud of what we accomplished. But I'm even more fired up to keep the tax cuts coming. You have my word that as long as I'm governor, I'm going to continue relentlessly fighting for permanent, long-term tax relief that lets you keep more of your own hard-earned money.

But Mississippi isn't just witnessing historic achievements in our state's economy. We're also seeing it in classrooms across our state.

A little over a week ago we announced – for the third time since I've been governor – that Mississippi's high school graduation rate hit an all-time high and continues to be better than the national average.

And like our state's economic growth, our education improvements didn't happen by accident. Our state's stellar report card didn't just appear out of thin air.

Mississippi insisted on getting kids back into school when other blue states stayed closed, and now we have the best education numbers in our state's history!

The year Philip Gunn and I first presided over a State of the State in 2012, Mississippi was dead last in fourth grade math. Now, we're above the national average at Number 23.

That means that over the last ten years since we passed education reform, Mississippi surpassed half the states in the nation.

We've gone from needs improvement to most improved.

We've led the nation in fourth grade reading and fourth grade math gains.

And students from all walks of life are finding more success in Mississippi. In 2003, Mississippi was among the worst performers when it came to test scores for Black students. Today we're fifth in the entire nation when it comes to fourth grade reading test scores for Black students. Fifth in the entire nation!

So, when some people say, "Mississippi is last in education," folks, they're just not telling you the truth.

I want to personally thank all the legislators that played a role in helping to pass those education reforms. I also want to thank all the involved parents and dedicated teachers across Mississippi. We couldn't have accomplished these goals without you.

Our state – unlike some others that have been in the news – recognizes that we have a duty to both. We should ensure that parents continue to play an active role in their kids' education, and we should ensure that teachers are paid what they deserve.

It is my firm belief that Mississippi has some of the best teachers in the nation, and their salaries should reflect that.

That's why I was proud to sign legislation giving Mississippi teachers the largest pay raise in state history. We elevated teacher salaries above not only the Southeastern average, but even above the national average!

Mississippi's teachers earned those raises, and I was proud to sign them into law.

But regardless of the technology or textbooks we put in front of our kids, nothing is more influential to a child's educational development than parents.

And when it comes to education, Mississippi should protect parents' voices and their right to be involved in the classroom. Because at the end of the day, the state doesn't run a child's life – parents do. We need more transparency in schools in this country. We need more choice. We need more freedom. That will be the best way to protect our children.

I've been shocked to see how some states have embraced the misguided practice of pushing parents out of the classroom, pushing parents out of their children's lives, and pushing parents out of the school board decision-making process.

Nobody, and I mean nobody, is more invested in the life and the future of a child than a parent. They shouldn't be labeled as domestic terrorists for simply asking questions or for attending a school board meeting. They should be celebrated for being invested in their child's education.

As a father myself, I want schools across Mississippi to complement the lessons parents are trying to teach at home, not reject them. That's exactly why I am calling on the legislature to pass a Parents' Bill of Rights this session.

Through the Parents' Bill of Rights, we will reaffirm that in Mississippi, it is the state who answers to parents and not vice versa.

This Parents' Bill of Rights would further cement that when it comes to the usage of names, pronouns, or health matters, schools will adhere to the will of parents. There is no room in our schools for policies that attempt to undercut parents and require the usage of pronouns or names that fail to correspond with reality.

I am proud to be governor, but the greatest pride in my life is being the dad of three wonderful girls. There are few things I love more than having the chance to cheer them on from the sidelines at their soccer or basketball games.

That's why I'm especially proud to have signed legislation that ensured, that in Mississippi, we're going to let boys play boys sports, and girls play girls sports. I didn't do this just for my daughters, I did this for all of Mississippi's daughters.

But we need to do even more to protect Mississippi's children. We have a duty to keep pushing back against those that are taking advantage of children and using them to advance their sick and twisted ideologies.

There was a time in America when saying to kids 'you can be whatever you want when you grow up' meant that one day they could become a teacher, police officer, or fire fighter. A professional athlete, a doctor, or even a lawyer. That if you push yourself, there is nothing you can't accomplish.

But today, there is a dangerous and radical movement that is now being pushed upon America's kids. It threatens the very nature of truth. Across the country, activists are advancing untested experiments and persuading kids that they can live as a girl if they're a boy, and that they can live as a boy if they're a girl. And they're telling them to pursue expensive, radical medical procedures to advance that lie.

These radical liberals are attempting to undermine objective, scientific truths. They're trying to undermine how we view gender and even manipulate English words and grammar rules. From their illogical pronouns to their attempts at pushing the word Latinx onto the Hispanic community – they don't care about the destruction they're causing or whether they have the support of those they're trying to group or label. Rather, they're tyrannical in their approach to these issues and their unceasing attempts to have them adopted by society.

And let's be honest, America stands essentially alone in the truly outrageous position that we've staked out on this issue. While some in our country push surgical mutilation onto 11 year olds even here in Mississippi, even liberal darlings like Finland, Denmark, and Sweden don't allow these surgeries to be performed on kids who are under 18.

The fact is that we set age restrictions on driving a car and on getting a tattoo. We don't let 11 year olds enter an R-rated movie alone, yet some would have us believe that we should push permanent body-altering surgeries on them at such a young age.

Mississippi must continue to do everything in our power to counter those who want to push their experiments on our kids. Time is of the essence, and we don't have a second to waste. We must take every step to preserve the innocence of our children, especially against the cruel forces of modern progressivism which seek to use them as guinea pigs in their sick social experiments.

Let me be clear to those radical activists around the nation who want to do our kids harm.

Mississippi will not be trading compassion for compliance.

Our voices will not be silenced when it comes to science.

We will not be pressured into not asking questions.

And we will not give in to liberal intimidation when it comes to protecting our kids.

This is my promise to every Mississippian across our state.

There is also another way we are going to keep our kids safe, and it includes keeping their parents safe as well.

One of the most fundamental responsibilities of government is to ensure public safety and to uphold law and order.

I ran for governor to fix Mississippi's problems, not to hide them. That's why I've become increasingly concerned that, for three consecutive years now, homicides have numbered in the triple digits here in our capital city. We can and must do better.

The fact is, no matter how hard we try, there will always be evil in the world. There are those who lurk in the shadows seeking to hurt those around them. There are those who seek to inject drugs and crime into their communities, all so they can make a buck.

These actions undermine social cohesion and safety in our neighborhoods. They threaten the lives of our kids and the safety of our families.

To put it mildly, the crime situation in Jackson is unacceptable. Kids are getting killed in our streets and it's time we put a stop to it.

Now, some have suggested that the response should be to undercut, defund, and dismantle the police. I couldn't disagree more.

Many of us have family and friends who wear the badge. It's worth constantly reminding ourselves that these individuals are the thin blue line which helps hold communities together.

In Mississippi we choose to fund the police. We choose to back the blue. We choose to celebrate the brave men and women who put on the badge every day and run towards danger. That's exactly what Mississippi has done, and that's exactly what Mississippi will continue to do.

Last year, the Mississippi Department of Public Safety conducted two major surges of law enforcement personnel – one in Jackson and one along our Gulf Coast. We flexed law enforcement in the areas and helped to shut down criminal elements in the regions. And while those surges proved to be successful, we still have more work to do.

That's why this session, I'm calling on the legislature to make further investment into our Capitol Police by giving them the 150 officers and equipment they need to continue fulfilling their mission and continue pushing back on lawlessness in Jackson.

And let me say this as well, my administration will go after all crime within our jurisdiction. Regardless of the crime committed, regardless of who did it, regardless if it happened on the street or in an office building, my administration is and will continue to hold criminals accountable.

That's why my administration remains committed to delivering justice and recouping every dollar possible from those who stole from Mississippians through the theft of TANF dollars.

Again, I ran for governor to fix Mississippi's problems, not to hide them. Which brings me to my next area of focus – our state's healthcare system.

Mississippi is not immune to the struggles facing healthcare systems across the country. Together, we should keep working to improve Mississippians' access to quality healthcare, and together, we should keep working to ensure Mississippi's healthcare system meets the needs of our people.

It starts with leveling the playing field. Most people do not know that it is illegal to open a new health care facility that competes with other institutions. We are all frustrated and worried by the threats that some hospitals may close. The first step should be allowing new ones to open! By reforming Mississippi's Certificate of Need laws, we can root out anti-competitive behavior that blocks the formation of medical facilities and prevents the delivery of lifesaving healthcare to Mississippians.

We should continue to strengthen the pipeline of medical professionals by doubling and tripling down on our improved workforce development strategy, and we should pass legislation that levels the playing field for hospitals with expanded residency programs.

Because, at the end of the day, the real answers to our problems are not contained in the same old proposals that only serve to delay the inevitable at the expense of taxpayers. The real answer to our problems lies in innovation.

Technology is changing, and the way healthcare is delivered is changing. Our policies must adapt with the times and facilitate care that focuses not on institutions but on the patients we seek to support.

Throughout modern history we've witnessed innovation disrupt industries such as manufacturing, transportation, food, and entertainment. There was a time when people had to go to the theater to watch a movie. Today, they can watch them at home and on an airplane. On cable TV, Netflix, and every streaming service in between.

The fact of the matter is that technology and innovation lead to new opportunities. The same can be said of our healthcare system.

There was a time when if you needed medical services, you had to go to a large brick and mortar hospital – that was your only choice. But today, people are increasingly choosing new healthcare distribution channels over your traditional hospital. Today, people are accessing healthcare through telemedicine providers, micro-hospitals, urgent care facilities, and expanded care opportunities with nurse practitioners, pharmacists, and others.

This legislative session, I urge the legislature to think outside the box when it comes to improving Mississippi's healthcare system. Don't simply cave under the pressure of Democrats and their allies in the media who are pushing for the expansion of Obamacare, welfare, and socialized medicine.

Instead, seek innovative free market solutions that disrupt traditional healthcare delivery models, increase competition, and lead to better health outcomes for Mississippians.

Do not settle for something that won't solve the problem because it could potentially and only temporarily remove the liberal media's target on your back.

You have my word that if you stand up to the left's push for endless government-run healthcare, I will stand with you.

For as dire as national politics sometimes seem, there's still a tremendous amount of hope in Mississippi.

There really are incredible things happening here. And I'm talking about far more than our state winning its second college baseball national championship in a row, as incredible as that was.

Last year, Mississippi led the nation to overturn Roe v. Wade – the greatest accomplishment in the conservative movement in my lifetime.

Long story short, more innocent children will now have the chance to be born.

There are future doctors who now have the chance to be born. There are future teachers that now have the chance to be born. There are future nurses, future linemen, and future truckers. There are future fathers and future mothers, friends and family, brothers and sisters. They all now have the chance at life.

And there may very well even be a life that was saved who, a few years from now, will stand up here and give his or her update on the State of our State. What a wonderful blessing that would be.

But the fact is that being pro-life is about more than just being anti-abortion. We don't just want to eliminate the taking of unborn children's lives, we want to make it easier for parents to raise children and for mothers to give birth to happy and healthy kids.

Now some have said that too many children will be added to Mississippi's population. I say what a wonderful problem to have. On this point I agree with Mother Teresa when she said, 'How can there be too many children? That is like saying there are too many flowers.'

But I also recognize we are called to do more and to support these new moms and new babies. And I want every element of our laws to reflect and facilitate this critical mission.

That's why I'm also calling on the legislature to establish a New Pro-Life Agenda that helps make Mississippi the easiest place in the nation to raise a family.

Together, we can prove the country wrong just like we did in education. Just like we led the nation in overturning Roe, we can lead the nation in supporting mothers and babies.

This session, Mississippi should establish a childcare tax credit and allow Mississippi families to write off childcare supplies on state tax returns.

We should increase our support for pregnancy resource centers and thus help to care for expectant and new mothers, especially those who are struggling with poverty or isolation.

We should expand childcare opportunities by cutting red tape. There's no reason that we should let government get in the way of parents accessing care for their children.

We should expand safe haven laws, so parents have every available opportunity to choose life.

We should reduce the existing adoption backlogs and make it easier and less expensive for parents to adopt kids into a loving forever home.

And we should update our child support laws so that fathers must support their children from the moment their life begins – at conception.

This is our New Pro-Life Agenda. As I've said before, it will not be easy, and it will not be free. But I know that together, we are going to get the job done and deliver the support Mississippi mothers and babies deserve.

My fellow Mississippians, it's been quite the year for our state. We've had moments of triumph and moments of anguish. But through it all, we've emerged stronger, together.

We know where Mississippi has been, and we know where Mississippi is going. Regardless of the unfair stereotypes placed upon our state and her people, we know good things are happening here.

Is our state perfect? Of course not. But besides heaven, no place is.

We know what's happening on the ground here. We know it because we are seeing it. Whether it's the record investment or all-time low unemployment, the all-time high graduation rate or standing up to the radical left's war on our values – Mississippi is winning, and our state is on the rise.

That's why I urge all of you here today to stand with me and call out the lies when they are thrown at all of us.

We can never give into the cynics who seek to tear down our great state.

We can never give into Joe Biden and the national Democrats who seek to force feed us an unhealthy dose of progressivism because they view Mississippians as neanderthals.

And we can never give into those who want us to live in a perpetual state of self-condemnation.

My friends, I am proud to serve as Mississippi's 65th governor but I'm even prouder to call myself a Mississippian.

The eyes of our state are turned to the future, and that's why I will continue to reject those who would seek to divide and separate us. Instead, on behalf of all Mississippi, I am proud to pronounce once more that we are all Mississippians, committed to improving this home that we love.

We are blessed to live in a wonderful state. We are blessed to have wonderful neighbors. We are blessed by one common God who smiles down upon Mississippi.

I have no doubt that our future is brighter than ever before and that, together, we will continue to build this great state upwards.

God bless all of you. And may God continue to bless this great state that we all love, Mississippi.

In carrying out his duties or exercising his powers, the mayor shall in no case expend municipal funds in excess of One Hundred Dollars (\$100.00) in any one instance without the prior approval of the council. No mayor shall implement any ordinance nor enter into any public contract which has not previously been adopted by the council. The mayor shall, within ten (10) days after receiving any ordinance, either approve the ordinance by affixing his signature thereto, or return it to the board of aldermen by delivering it to the municipal clerk together with a written statement setting forth his objections thereto or to any item or part thereof. No ordinance or any item or part thereof shall take effect without the mayor's approval, unless the mayor fails to return an ordinance to the board of aldermen prior to the next meeting of the board, but no later than fifteen (15) days after it has been presented to him, or unless the board of aldermen, upon reconsideration thereof on or after the third day following its return by the mayor, shall, by a vote of two-thirds (2/3) of the members of the board, resolve to override the mayor's veto.

S. B. No. 2596: Mississippi Nonprofit Transparency Act; create.

The foregoing motion prevailed.

Senator Parker called up the following entitled bill:

S. B. No. 2889: Mississippi Capitol Region Utility Act; create.

On motion of Senator Parker, the Committee Substitute was adopted for consideration.

Senator Parker offered the following AMENDMENT NO. 1.

Amend by striking all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. This act shall be known and may be cited as the "Mississippi Capitol Region Utility Act."

SECTION 2. (1) The Mississippi Legislature finds the following:

(a) For the benefit of the citizens centrally located in the State of Mississippi, including citizens residing or working in the capital city of the State of Mississippi, it is essential to have access to safe, clean and reliable water, wastewater and storm water systems at affordable, regulated rates which are just, reasonable and provide an adequate amount of capital to keep such systems in good repair;

(b) The availability of safe, clean and reliable water, wastewater and storm water has vast impacts on health, schools and academic outcomes, crime and safety, state and local government operations, businesses and economic development, the availability of a workforce, tourism and many other critical areas;

(c) The availability of safe, clean and reliable water, wastewater and storm water systems requires significant financial resources and human capital to engage in the planning, acquisition, construction, maintenance, coordination and operation required to deliver transparent and efficient services which meet and exceed federal and state regulations and requirements;

(d) On November 29, 2022, the Department of Justice filed a complaint alleging that the City of Jackson has failed to provide drinking water that is reliably compliant with the Safe Drinking Water Act to citizens within the boundaries of the water system. The Department of Justice simultaneously filed a proposal which would appoint a receiver, or an interim third-party manager, to stabilize the City of Jackson's public drinking water system and build confidence in the water system's ability to supply safe, clean and reliable water to citizens within the boundaries of the water system. The U.S. District Court for the Southern District of Mississippi appointed a receiver to oversee and operate the water system on November 29, 2022.

(e) The receiver appointed by the U.S. District Court for the Southern District of Mississippi provided in his January 27, 2023, plan for the water system that he would like a concept for future governance in place by September 30, 2023, and a utility authority or corporate nonprofit entity are viable options for the concept of future governance;

(f) The creation and organization of a structure for future governance requires legislation for it to continue in perpetuity beyond the eventual end of the receiver's work and related federal court orders; and

(g) The creation and organization of a structure for future governance prior to the date of the conclusion of the receiver's work will allow the best opportunity for minimal disruption in water, wastewater and storm water service and maximum ease of transition after the receiver has concluded his work in overseeing and operating the water system.

(2) Therefore, it is the intent of the Mississippi Legislature to:

(a) Provide authority to the Mississippi Capitol Region Utility Authority to transfer water, wastewater and storm water services provided by the City of Jackson to the utility authority's ownership, management and control when the court-appointed receiver's work concludes with the water system to ensure all citizens have access to safe, clean and reliable water, wastewater and storm water systems at affordable, regulated rates which are just, reasonable and provide an adequate amount of capital to keep such systems in good repair; and

(b) Partner with the Mississippi Department of Health, Mississippi Department of Environmental Quality, local governments, including the City of Jackson, within the boundaries of the utility district, and any other federal, state or local entity in taking any action necessary under this act to ensure all citizens have access to safe, clean and reliable water, wastewater and storm water systems, with the understanding that federal and state agencies are solely responsible for regulating, but not operating, the utility authority.

SECTION 3. As used in this act, the following words and phrases have the meanings ascribed herein, unless the context clearly indicates otherwise:

(a) "Act" means the Mississippi Capitol Region Utility Act.

(b) "Board" means the Board of Directors of the Mississippi Capitol Region Utility Authority.

(h) "Project" means the construction, development or acquisition by the utility authority of any infrastructure for water, wastewater and storm water systems or services and includes upgrading or repair of existing systems.

(i) "Public agency" means any county, municipality, state board or utility authority owning or operating properties, districts created pursuant to the general laws or local and private laws of the State of Mississippi, or any other political subdivision of the State of Mississippi possessing the power to own and operate waterworks, water supply systems, sewerage systems, sewage treatment systems or other facilities or systems for the collection, transportation and treatment of water, wastewater, and storm water.

(j) "Receiver" means the interim third-party manager for the water system owned by the City of Jackson who was appointed by the U.S. District Court for the Southern District of Mississippi on November 29, 2022, to oversee and operate the water system during the negotiation of a consent decree related to compliance with the Safe Drinking Water Act and other laws.

(k) "Storm water" means any flow occurring during or following any form of natural precipitation and resulting from that precipitation.

(l) "System" or "systems" means any plants, structures, facilities and other real and personal property used or useful in the generation, storage, transportation or supply of water, and the collection, transportation, treatment or disposal of wastewater and storm water, including tanks, lakes, streams, ponds, pipes, trunk lines, mains, sewers, conduits, pipelines, pumping and ventilating stations, plants, works, connections and any other real or personal property and rights therein necessary, useful or convenient for the purposes of the utility board or authorities in connection therewith.

(m) "Utility authority" shall mean the Mississippi Capitol Region Utility Authority.

construction, maintenance, operation and coordination of water, wastewater and storm water systems in order to ensure the delivery of water, wastewater and storm water services to citizens. Such utility authority is created solely to accomplish the purposes of the State under this act and the exercise by the utility authority of the powers conferred by this act shall be deemed and held to be the performance of an essential public function promoting the health, welfare and prosperity of the general public. It is the intent of the Legislature that the utility authority shall be accountable to ratepayers within the systems through the audits, reports and disclosures required by this act.

(3) The utility authority shall assume ownership, management and control over the water, wastewater and storm water systems on the date of termination of the receiver by the U.S. District Court for the Southern District of Mississippi.

(4) In the event of any action or matter against the utility authority, the Chief Justice of the Mississippi Supreme Court shall select an appropriate Circuit or Chancery Court, which shall have exclusive jurisdiction over the matter. For purposes of court costs, the utility authority shall be a private corporation.

(5) All funds provided by the federal government in H.R. 2617, the Consolidated Appropriations Act of 2023, and any other funds provided by the state or federal government in response to the water crisis detailed by the U.S. District Court for the Southern District of Mississippi in Case No. 3:22-cv-00686, United States v. City of Jackson, shall be spent according to the direction of the receiver and federal court within the service territory impacted by the water crisis and in accordance with federal law.

The original appointing authority shall retain their right to appoint a new board member to replace the removed board member.

(9) Until such time that the utility district assumes ownership, management, and control of the water, wastewater and storm water systems, the board shall cooperate and coordinate with the receiver in order to provide the best opportunity for minimal disruption in service and maximum ease of transition after the receiver has concluded his work in overseeing and operating the water system.

SECTION 6. (1) The utility authority shall consult with the receiver and the City of Jackson in appointing a president by January 1, 2024, who shall serve at the will and pleasure of the board. The Mississippi Public Service Commission shall defer to the utility authority's determination of what rates are just and reasonable absent a showing of manifest error;

No person owning the drilling rights or the right to share in production shall be prevented from exploring, developing or producing oil or gas with necessary rights-of-way for ingress and egress, pipelines and other means of transporting such interests on any lands or interest of the utility authority held or used for the purposes of this act, but any such activities shall be subject to reasonable regulations by the board of directors that will adequately protect the systems or projects of the utility authority. SECTION 9. (1) The president, as executive director of the utility authority, if so appointed by the utility authority, shall direct and supervise all administrative and technical activities in accordance with the provisions of this act, within the administrative rules and regulations adopted by the board, and in accordance with industry practice. The president shall:

(2) The president may:

(a) Require bond from other employees as he or she deems necessary;

(b) For good cause, and with approval from the majority of the board, suspend, revoke or refuse to renew any contract entered into in accordance with this act or the administrative rules and regulations of the board; and

(c) Upon specific or general approval of the board, enter into personal service contracts pursuant to administrative rules and regulations adopted by the board and compensate such consultants and technical assistants as may be required to carry out the provisions of this act.

(3) Agencies, departments or units of state government, including, but not limited to, the Mississippi Department of Health and the Mississippi Department of Environmental Quality, shall cooperate with the utility authority to regulate the utility authority and assure the effective operation of the utility authority's systems, with the understanding that such agencies act as a regulator and not operator of such systems. All state officers are hereby empowered and required to render such services to the utility authority within their respective functions as may be requested by the utility authority.

SECTION 10. Employees of the utility authority shall serve at the will and pleasure of the president who shall determine their compensation and benefits. The compensation of officers at the division head level and above shall be determined by the board.

SECTION 11. Neither the directors of the utility authority, the board, its employees, nor any person or persons acting on their behalf, while acting within the scope of their authority, shall be subject to personal liability resulting from carrying out any of the powers granted herein in accordance with his or her good-faith belief that he or she is acting in the best interests of the utility authority.

SECTION 12. (1) The utility authority shall enter into its contracts for major procurements after a competitive and open procurement process. The utility authority may adopt administrative rules and regulations pursuant to the provisions of this act providing for special procedures whereby the utility authority may make any class of procurement. The utility authority shall endeavor to ensure the transparency and competitiveness of procurements of all sizes.

(2) In its bidding processes, the utility authority may do its own bidding and procurement or may utilize the services of other state agencies as appropriate and necessary. The president may, with the approval of a majority of the board, declare an emergency for purchasing purposes which shall be governed by the administrative rules and regulations adopted by the board.

SECTION 13. All monies received by the utility authority shall be deposited into an operating account. Such account shall be established in a custodian financial institution domiciled in the State of Mississippi, insured by the Federal Deposit Insurance Corporation and collateralized as prescribed by Section 27-105-5.

SECTION 14. All division heads, officers and employees of the utility authority shall be considered public servants as defined in Section 25-4-103. All division heads and officers of the utility authority are subject to Section 25-4-25 and shall be required to file a Statement of Economic Interest with the Mississippi Ethics Commission.

SECTION 15. (1) Any public agency or person, pursuant to a duly adopted resolution of the governing body of such public agency or person, may enter into contracts with the utility authority under the terms of which the utility authority will manage, operate and contract for usage of its systems and facilities, or other services, for such person or public agency.

(2) Any public agency or person may enter into contracts with the utility authority for the utility authority to purchase or sell, by installments over such terms as may be deemed desirable, or otherwise, to any person or any systems. Any public agency may sell, donate, convey, or otherwise dispose of water, wastewater and storm water facilities or systems; or any equipment, personal property or any other things, deemed necessary for the construction, operation, and maintenance to the utility authority without the

necessity of appraisal, advertising, or bidding. This section creates an alternative method of disposal of public property.

(3) Any public agency is authorized to enter into operating agreements with the utility authority, for such terms and upon such conditions as may be deemed desirable, for the operation of any of its systems of any person by the utility authority or by any person contracting with the utility authority to operate such systems.

(4) Any public agency may lease to or from the utility authority, for such term and upon such conditions as may be deemed desirable, any of its systems.

(5) Any municipality or county may donate office space, equipment, supplies, and materials to the utility authority.

(6) Any such contract may contain provisions requiring any public agency or other person to regulate the quality and strength of the material to be handled by the wastewater or storm water systems and may also provide that the utility authority shall have the right to use any streets, alleys and public ways and places within the jurisdiction of a public agency or other person during the term of the contract. Such contracts may obligate the public agency to make payments to the utility authority or to a trustee in amounts which shall be sufficient to enable the utility authority to defray the expenses of administering, operating and maintaining its respective systems, to pay interest and principal (whether at maturity upon redemption or otherwise) on bonds of the utility authority, issued under this act and to fund reserves for debt service, for operation and maintenance and for renewals and replacements, to fulfill the requirements of any rate covenant with respect to debt service coverage contained in any resolution, trust indenture or other security agreement relating to the bonds of the utility authority issued under this act or to fulfill any other requirement relating to bonds issued pursuant to this act.

(7) Any public agency shall have the power to enter into such contracts with the utility authority as in the discretion of the governing body of the public agency would be in the best interest of the public agency. Such contracts may include a pledge of the full faith and credit of such public agency and/or the avails of any special assessments made by such public agency against property receiving benefits, as now or hereafter are provided by law. Any such contract may provide for the sale, or lease to, or use of by the utility authority, of the systems or any part thereof, of the public agency; and may provide that the utility authority shall operate its systems or any part thereof of the public agency; and may provide that any public agency shall have the right to continued use and/or priority use of the systems or any part thereof during the useful life thereof upon payment of reasonable charges therefor; and may contain provisions to assure equitable treatment of persons or public agencies who contract with the utility authority under this act; and may contain such other provisions and requirements as the parties thereto may determine to be appropriate or necessary. Such contracts may extend over any period of time, notwithstanding any provisions of law to the contrary, and may extend beyond the life of the respective systems or any part thereof or the term of the bonds sold with respect to such facilities or improvements thereto.

(8) The obligations of a public agency arising under the terms of any contract referred to in this act, whether or not payable solely from a pledge of revenues, shall not be included within the indebtedness limitations of the public agency for purposes of any constitutional or statutory limitation or provision. To the extent provided in such contract and to the extent such obligations of the public agency are payable wholly or in part from the revenues and other monies derived by the public agency from the operation of its systems or of its combined systems, or any part thereof, such obligations shall be treated as expenses of operating such systems.

(9) Contracts referred to in this section may also provide for payments in the form of contributions to defray the cost of any purpose set forth in the contracts and as advances for the respective systems or any part thereof subject to repayment by the utility

authority. A public agency may make such contributions or advances from its general fund or surplus fund or from special assessments or from any monies legally available therefor.

(10) Subject to the terms of a contract or contracts referred to in this act, the utility authority is hereby authorized to do and perform any and all acts or things necessary, convenient or desirable to carry out the purposes of such contracts, including the fixing, charging, collecting, maintaining and revising of rates, fees and other charges for the services rendered to any user of any of the systems operated or maintained by the utility authority, whether or not such systems are owned by the utility authority.

(11) No provision of this act shall be construed to prohibit any public agency, otherwise permitted by law to issue bonds, from issuing bonds in the manner provided by law for the construction, renovation, repair or development of any of the utility authority's systems, or any part thereof, owned or operated by such public agency.

SECTION 16. Whenever a public agency shall have executed a contract under this act and the payments thereunder are to be made either wholly or partly from the revenues of the public agency's systems, or any part thereof, or a combination of such systems, the duty is hereby imposed on the public agency to establish and maintain and from time to time to adjust the rate or fees charged by the public agency for the services of such systems, so that the revenues therefrom, together with any taxes and special assessments levied in support thereof, will be sufficient at all times to pay:

(a) The expense of operating and maintaining such systems, including, but not limited to, all of the public agency's obligations to the utility authority and the cost required to staff such systems, its successors or assigns under such contract; and

(b) All of the public agency's obligations under and in connection with bonds theretofore issued, or which may be issued thereafter and secured by the revenues of such systems. Any such contract may require the use of consulting engineers and financial experts to advise the public agency whether and when such rates and fees are to be adjusted.

SECTION 17. (1) Notwithstanding the provisions of Sections 77-3-21 and 77-3-23, the certificate of public convenience and necessity held by any municipality, public agency, district, public utility or other person authorized by law to provide water, sewer and wastewater services may be cancelled and its powers, duties and responsibilities transferred to the utility authority in the manner provided by this section.

(2) Any entity described in subsection (1) of this section desiring to have its certificate of public convenience and necessity cancelled and its powers, duties and responsibilities transferred to the utility authority shall make a determination to that effect on its official minutes if a public entity, or by affidavit if not a public entity, and transmit such determination to the utility authority.

(3) Upon receipt of the document evidencing such determination from an entity to transfer its powers, duties and responsibilities to the utility authority, the utility authority shall, by resolution, declare whether it is willing and able to accept such transfer from the entity.

(4) Upon completion of the requirements of subsections (2) and (3) of this section herein and agreement by both parties to the transfer, the holder of the certificate of public convenience and necessity and the utility authority shall jointly petition the Public Service Commission to cancel the certificate of public convenience and necessity. The petition must be accompanied by copies of the official minutes, affidavit or resolution, as the case may be, reflecting the actions of the petitioners. After review of the petition and any other evidence as the Public Service Commission deems necessary, the commission may issue an order canceling the certificate and transferring to the utility authority the powers, duties

and responsibilities granted by the certificate, including all assets and debts of the transferor petitioner related to such certificated services, real or personal, or both, if it finds that:

- (a) Subsections (2) and (3) of this section have been complied with; and
- (b) Such action is in the public interest.

(5) The utility authority and providers of water, sewer, wastewater and storm water services that are not holders of a certificate of a public convenience and necessity from the Public Service Commission may enter into agreements for the provision of such services, including, but not limited to, the transfer to the utility authority of such provider's powers, duties, responsibilities, assets and debts.

(6) Nothing herein shall require a municipality currently served by the utility authority to remain within the boundaries of the utility authority.

SECTION 18. (1) Any system of a municipality, public agency or person that becomes subject to the jurisdiction of a utility authority and this act shall not impair, invalidate or abrogate any liens, bonds or other certificates of indebtedness related to water, storm water or wastewater facilities and systems incurred prior to becoming subject to the jurisdiction of the utility authority.

(2) The utility authority may do and perform any and all acts necessary, convenient or desirable to ensure the payment, redemption or satisfaction of such liens, bonds or other certificates of indebtedness.

SECTION 19. (1) Sections 18 through 27 of this act apply to all bonds to be issued after the date of enactment of this act, and such provisions shall not affect, limit or alter the rights and powers of any utility authority under this act or any law of Mississippi to conduct the activities referred to herein in any way pertinent to the interests of the bondholders, including, without limitation, such utility authority's right to charge and collect rates, fees and charges and to fulfill the terms of any covenants made with the registered owners of any existing bonds, or in any other way impair the rights and remedies of the registered owners of any existing bonds, unless provision for full payment of such bonds, by escrow or otherwise, has been made pursuant to the terms of the bonds or the resolution, trust indenture or security interest securing the bonds.

(2) The utility authority shall have the power and is hereby authorized, from time to time, to borrow money and to issue revenue bonds and interim notes in such principal amounts as the utility authority may determine to be necessary to provide sufficient funds for achieving one or more of the purposes of this act, including, without limiting the generality of the foregoing, to defray all the costs of the project, the cost of the acquisition, construction, improvement, repair or extension of a system, or any part thereof, whether or not such facilities are owned by the utility authority, the payment of interest on bonds of the utility authority issued pursuant to this act, establishment of reserves to secure such bonds and payment of the interest thereon, expenses incident to the issuance of such bonds and to the implementation of the utility authority's system, and all other expenditures of the utility authority incident to or necessary or convenient to carry out the purposes of this act.

(3) Before issuing bonds, other than interim notes or refunding bonds as provided in Section 20 of this act, the board of directors of the utility authority shall adopt a resolution declaring its intention to issue such bonds and stating the maximum principal amount of bonds proposed to be issued, a general generic description of the proposed improvements and the proposed location thereof and the date, time and place at which the board of directors proposes to take further action with respect to the issuance of such bonds. The resolution shall be published once a week for at least three (3) consecutive weeks in at least one (1) newspaper having a general circulation within the geographical

limits of all of the public agencies which have contracted with the utility authority pursuant to this act.

(4) Bonds of the utility authority issued pursuant to this act shall be payable from and secured by a pledge of all or any part of the revenues under one or more contracts entered into pursuant to this act between the utility authority and one or more of its contracting public agencies and from all or any part of the revenues derived from the operation of any designated system or any part or parts thereof and any other monies legally available and designated therefor, as may be determined by such utility authority, subject only to any agreement with the purchasers of the bonds. Such bonds may be further secured by a trust indenture between such utility authority and a corporate trustee, which may be any trust company or bank having powers of a trust company without or within the state.

(5) Bonds of the utility authority issued pursuant to this act shall be authorized by a resolution or resolutions adopted by a majority affirmative vote of the total membership of the board of directors of the utility authority. Such bonds may be issued in series, and each series of such bonds shall bear such date or dates, mature at such time or times, bear interest at such rate or rates (not exceeding the maximum rate set out in Section 75-17-103, Mississippi Code of 1972), be in such denomination or denominations, be in such form, carry such conversion privileges, have such rank or priority, be executed in such manner and by such officers, be payable from such sources in such medium of payment at such place or places within or without the state, provided that one such place shall be within the state, and be subject to such terms of redemption prior to maturity, all as may be provided by resolution or resolutions of the board of directors. The term of such bonds issued pursuant to this act shall not exceed forty (40) years.

(6) Bonds of the utility authority issued pursuant to this act may be sold at such price or prices, at public or private sale, in such manner and at such times as may be determined by such utility authority to be in the public interest, and such utility authority may pay all expenses, premiums, fees and commissions which it may deem necessary and advantageous in connection with the issuance and sale thereof.

(7) Any pledge of earnings, revenues or other monies made by the utility authority shall be valid and binding from the time the pledge is made. The earnings, revenues or other monies so pledged and thereafter received by such utility authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against such utility authority irrespective of whether such parties have notice thereof. Neither the resolution nor any other instrument by which a pledge is created need be recorded.

(8) Neither the members of the board of directors nor any person executing the bonds shall be personally liable on the bonds or be subject to any personal liability or accountability by reason of the issuance thereof.

(9) Proceeds from the sale of bonds of the utility authority may be invested, pending their use, in such securities as may be specified in the resolution authorizing the issuance of the bonds or the trust indenture securing them, and the earnings on such investments applied as provided in such resolution or trust indenture.

(10) Whenever any bonds shall have been signed by the officer(s) designated by the resolution of the board of directors to sign the bonds who were in office at the time of such signing but who may have ceased to be such officer(s) prior to the sale and delivery of such bonds, or who may not have been in office on the date such bonds may bear, the manual or facsimile signatures of such officer(s) upon such bonds shall nevertheless be valid and sufficient for all purposes and have the same effect as if the person so officially executing such bonds had remained in office until the delivery of the same to the purchaser or had been in office on the date such bonds may bear.

(11) The utility authority has the discretion to advance or borrow funds needed to satisfy any short-term cash flow demands or deficiencies or to cover start-up costs until such time as sufficient bonds, assets and revenues have been secured to satisfy the needs of the utility authority.

SECTION 20. (1) The utility authority may, by resolution adopted by its board of directors, issue refunding bonds for the purpose of paying any of its bonds at or prior to maturity or upon acceleration or redemption. Refunding bonds may be issued at such time prior to the maturity or redemption of the refunded bonds as the board of directors deems to be in the public interest, without an election on the question of the issuance thereof. The refunding bonds may be issued in sufficient amounts to pay or provide the principal of the bonds being refunded, together with any redemption premium thereon, any interest accrued or to accrue to the date of payment of such bonds, the expenses of issue of the refunding bonds, the expenses of redeeming the bonds being refunded, and such reserves for debt service or other capital or current expenses from the proceeds of such refunding bonds as may be required by the resolution, trust indenture or other security instruments. The issue of refunding bonds, the maturities and other details thereof, the security therefor, the rights of the holders and the rights, duties and obligations of the utility authority in respect of the same shall be governed by the provisions of this act relating to the issue of bonds other than refunding bonds insofar as the same may be applicable. Any such refunding may be effected, whether the obligations to be refunded shall have then matured or shall thereafter mature, either by the exchange of the refunding bonds for the obligations to be refunded thereby with the consent of the holders of the obligations so to be refunded, or by sale of the refunding bonds and the application of the proceeds thereof to the payment of the obligations proposed to be refunded thereby, and regardless of whether the obligations proposed to be refunded shall be payable on the same date or different dates or shall be due serially or otherwise.

(2) Borrowing by the utility authority may be made by the delivery of interim notes to any person or public agency or financial institution by a majority vote of the board of directors.

SECTION 21. All bonds, other than refunding bonds, interim notes and certificates of indebtedness, which may be validated issued pursuant to this act shall be validated as now provided by law in Sections 31-13-1 through 31-13-11, Mississippi Code of 1972; however, notice of such validation proceedings shall be addressed to the citizens of the respective public agencies (a) which have contracted with the utility authority pursuant to this act, and (b) whose contracts and the payments to be made by the public agencies thereunder constitute security for the bonds of such utility authority proposed to be issued, and that such notice shall be published at least once in a newspaper or newspapers having a general circulation within the geographical boundaries of each of the contracting public agencies to whose citizens the notice is addressed. Such validation proceedings shall be instituted in any chancery courts within the boundaries of the utility authority. The validity of the bonds so validated and of the contracts and payments to be made by the public agencies thereunder constituting security for the bonds shall be forever conclusive against the utility authority and the public agencies, which are parties to said contracts; and the validity of said bonds and said contracts and the payments to be made thereunder shall never be called in question in any court in this state.

SECTION 22. Bonds issued under the provisions of this act shall not be deemed to constitute, within the meaning of any constitutional or statutory limitation, an indebtedness of the utility authority or the state. Such bonds shall be payable solely from the revenues or assets of the utility authority pledged therefor. Each bond issued under this act shall contain on the face thereof a statement to the effect that such utility authority, nor the state, shall not be obligated to pay the same nor the interest thereon except from the revenues or assets pledged therefor.

SECTION 23. The utility authority shall have power in connection with the issuance of its bonds pursuant to this act to:

- (a) Covenant as to the use of any or all of its property, real or personal;
- (b) Redeem the bonds, to covenant for their redemption and to provide the terms and conditions thereof;
- (c) Covenant to charge rates, fees and charges sufficient to meet operating and maintenance expenses, renewals and replacements, principal and debt service on bonds, creation and maintenance of any reserves required by a bonds resolution, trust indenture or other security instrument and to provide for any margins or coverages over and above debt service on the bonds deemed desirable for the marketability of the bonds;

SECTION *. Section 43-17-5, Mississippi Code of 1972, is amended as follows:

43-17-5. (1) The amount of Temporary Assistance for Needy Families (TANF) benefits which may be granted for any dependent child and a needy caretaker relative shall be determined by the county department with due regard to the resources and necessary expenditures of the family and the conditions existing in each case, and in accordance with the rules and regulations made by the Department of Human Services which shall not be less than the Standard of Need in effect for 1988, and shall be sufficient when added to all other income (except that any income specified in the federal Social Security Act, as amended, may be disregarded) and support available to the child to provide such child with a reasonable subsistence compatible with decency and health. The first family member in the dependent child's budget may receive an amount not to exceed Two Hundred Dollars (\$200.00) per month; the second family member in the dependent child's budget may receive an amount not to exceed Thirty-six Dollars (\$36.00) per month; and each additional family member in the dependent child's budget an amount not to exceed Twenty-four Dollars (\$24.00) per month. The maximum for any individual family member in the dependent child's budget may be exceeded for foster or medical care or in cases of children with an intellectual disability or a physical disability. TANF benefits granted shall be specifically limited only (a) to children existing or conceived at the time the caretaker relative initially applies and qualifies for such assistance, unless this limitation is specifically waived by the department, or (b) to a child born following a twelve-consecutive-month period of discontinued benefits by the caretaker relative.

(2) TANF benefits in Mississippi shall be provided to the recipient family by an online electronic benefits transfer system.

(3) The Department of Human Services shall deny TANF benefits to the following categories of individuals, except for individuals and families specifically exempt or excluded for good cause as allowed by federal statute or regulation:

(a) Families without a minor child residing with the custodial parent or other adult caretaker relative of the child;

(b) Families which include an adult who has received TANF assistance for sixty (60) months after the commencement of the Mississippi TANF program, whether or not such period of time is consecutive;

(c) Families not assigning to the state any rights a family member may have, on behalf of the family member or of any other person for whom the family member has applied for or is receiving such assistance, to support from any other person, as required by law;

(d) Families who fail to cooperate in establishing paternity or obtaining child support, as required by law;

(e) Any individual who has not attained eighteen (18) years of age, is not married to the head of household, has a minor child at least twelve (12) weeks of age in his or her care, and has not successfully completed a high school education or its equivalent, if such individual does not participate in educational activities directed toward the attainment of a high school diploma or its equivalent, or an alternative educational or training program approved by the department;

(f) Any individual who has not attained eighteen (18) years of age, is not married, has a minor child in his or her care, and does not reside in a place or residence maintained by a parent, legal guardian or other adult relative or the individual as such parent's, guardian's or adult relative's own home;

(g) Any minor child who has been, or is expected by a parent or other caretaker relative of the child to be, absent from the home for a period of more than thirty (30) days;

(h) Any individual who is a parent or other caretaker relative of a minor child who fails to notify the department of the absence of the minor child from the home for the thirty-day period specified in paragraph (g), by the end of the five-day period that begins with the date that it becomes clear to the individual that the minor child will be absent for the thirty-day period;

(i) Any individual who fails to comply with the provisions of the Employability Development Plan signed by the individual which prescribe those activities designed to help the individual become and remain employed, or to participate satisfactorily in the assigned work activity, as authorized under subsection (6)(c) and (d), or who does not engage in applicant job search activities within the thirty-day period for TANF application approval after receiving the advice and consultation of eligibility workers and/or caseworkers of the department providing a detailed description of available job search venues in the individual's county of residence or the surrounding counties;

(j) A parent or caretaker relative who has not engaged in an allowable work activity once the department determines the parent or caretaker relative is ready to engage in work, or once the parent or caretaker relative has received TANF assistance under the program for twenty-four (24) months, whether or not consecutive, whichever is earlier;

(k) Any individual who is fleeing to avoid prosecution, or custody or confinement after conviction, under the laws of the jurisdiction from which the individual flees, for a crime, or an attempt to commit a crime, which is a felony under the laws of the place from which the individual flees, or who is violating a condition of probation or parole imposed under federal or state law;

(l) Aliens who are not qualified under federal law;

(m) For a period of ten (10) years following conviction, individuals convicted in federal or state court of having made a fraudulent statement or representation with respect to the individual's place of residence in order to receive TANF, food stamps or Supplemental Security Income (SSI) assistance under Title XVI or Title XIX simultaneously from two (2) or more states;

(n) Individuals who are recipients of federal Supplemental Security Income (SSI) assistance * * *.

* * *

(4) (a) Any person who is otherwise eligible for TANF benefits, including custodial and noncustodial parents, shall be required to attend school and meet the monthly attendance requirement as provided in this subsection if all of the following apply:

- (i) The person is under age twenty (20);
- (ii) The person has not graduated from a public or private high school or obtained a High School Equivalency Diploma equivalent;
- (iii) The person is physically able to attend school and is not excused from attending school; and
- (iv) If the person is a parent or caretaker relative with whom a dependent child is living, child care is available for the child.

The monthly attendance requirement under this subsection shall be attendance at the school in which the person is enrolled for each day during a month that the school conducts classes in which the person is enrolled, with not more than two (2) absences during the month for reasons other than the reasons listed in paragraph (e)(iv) of this subsection. Persons who fail to meet participation requirements in this subsection shall be subject to sanctions as provided in paragraph (f) of this subsection.

(b) As used in this subsection, "school" means any one (1) of the following:

- (i) A school as defined in Section 37-13-91(2);
- (ii) A vocational, technical and adult education program; or
- (iii) A course of study meeting the standards established by the State Department of Education for the granting of a declaration of equivalency of high school graduation.

(c) If any compulsory-school-age child, as defined in Section 37-13-91(2), to which TANF eligibility requirements apply is not in compliance with the compulsory school attendance requirements of Section 37-13-91(6), the superintendent of schools of the school district in which the child is enrolled or eligible to attend shall notify the county department of human services of the child's noncompliance. The Department of Human Services shall review school attendance information as provided under this paragraph at all initial eligibility determinations and upon subsequent report of unsatisfactory attendance.

(d) The signature of a person on an application for TANF benefits constitutes permission for the release of school attendance records for that person or for any child residing with that person. The department shall request information from the child's school district about the child's attendance in the school district's most recently completed semester of attendance. If information about the child's previous school attendance is not available or cannot be verified, the department shall require the child to meet the monthly attendance requirement for one (1) semester or until the information is obtained. The department shall use the attendance information provided by a school district to verify attendance for a child. The department shall review with the parent or caretaker relative a child's claim that he or she has a good cause for not attending school.

A school district shall provide information to the department about the attendance of a child who is enrolled in a public school in the district within five (5) working days of the receipt of a written request for that information from the department. The school district shall define how many hours of attendance count as a full day and shall provide that information, upon request, to the department. In reporting attendance, the school district may add partial days' absence together to constitute a full day's absence.

If a school district fails to provide to the department the information about the school attendance of any child within fifteen (15) working days after a written request, the department shall notify the Department of Audit within three (3) working days of the school district's failure to comply with that requirement. The Department of Audit shall begin audit proceedings within five (5) working days of notification by the Department of Human Services to determine the school district's compliance with the requirements of this subsection (4). If the Department of Audit finds that the school district is not in compliance with the requirements of this subsection, the school district shall be penalized as follows: The Department of Audit shall notify the State Department of Education of the school district's noncompliance, and the Department of Education shall reduce the calculation of the school district's average daily attendance (ADA) that is used to determine the allocation of Mississippi Adequate Education Program funds by the number of children for which the district has failed to provide to the Department of Human Services the required information about the school attendance of those children. The reduction in the calculation of the school district's ADA under this paragraph shall be effective for a period of one (1) year.

(e) A child who is required to attend school to meet the requirements under this subsection shall comply except when there is good cause, which shall be demonstrated by any of the following circumstances:

(i) The minor parent is the caretaker of a child less than twelve (12) weeks old; or

(ii) The department determines that child care services are necessary for the minor parent to attend school and there is no child care available; or

(iii) The child is prohibited by the school district from attending school and an expulsion is pending. This exemption no longer applies once the teenager has been expelled; however, a teenager who has been expelled and is making satisfactory progress towards obtaining a High School Equivalency Diploma equivalent shall be eligible for TANF benefits; or

(iv) The child failed to attend school for one or more of the following reasons:

1. Illness, injury or incapacity of the child or the minor parent's child;

2. Court-required appearances or temporary incarceration;

3. Medical or dental appointments for the child or minor parent's child;

4. Death of a close relative;

5. Observance of a religious holiday;

6. Family emergency;

7. Breakdown in transportation;

8. Suspension; or

9. Any other circumstance beyond the control of the child, as defined in regulations of the department.

(f) Upon determination that a child has failed without good cause to attend school as required, the department shall provide written notice to the parent or caretaker relative (whoever is the primary recipient of the TANF benefits) that specifies:

(i) That the family will be sanctioned in the next possible payment month because the child who is required to attend school has failed to meet the attendance requirement of this subsection;

(ii) The beginning date of the sanction, and the child to whom the sanction applies;

(iii) The right of the child's parents or caretaker relative (whoever is the primary recipient of the TANF benefits) to request a fair hearing under this subsection.

The child's parent or caretaker relative (whoever is the primary recipient of the TANF benefits) may request a fair hearing on the department's determination that the child has not been attending school. If the child's parents or caretaker relative does not request a fair hearing under this subsection, or if, after a fair hearing has been held, the hearing officer finds that the child without good cause has failed to meet the monthly attendance requirement, the department shall discontinue or deny TANF benefits to the child thirteen (13) years old, or older, in the next possible payment month. The department shall discontinue or deny twenty-five percent (25%) of the family grant when a child six (6) through twelve (12) years of age without good cause has failed to meet the monthly attendance requirement. Both the child and family sanction may apply when children in both age groups fail to meet the attendance requirement without good cause. A sanction applied under this subsection shall be effective for one (1) month for each month that the child failed to meet the monthly attendance requirement. In the case of a dropout, the sanction shall remain in force until the parent or caretaker relative provides written proof from the school district that the child has reenrolled and met the monthly attendance requirement for one (1) calendar month. Any month in which school is in session for at least ten (10) days during the month may be used to meet the attendance requirement under this subsection. This includes attendance at summer school. The sanction shall be removed the next possible payment month.

(5) All parents or caretaker relatives shall have their dependent children receive vaccinations and booster vaccinations against those diseases specified by the State Health Officer under Section 41-23-37 in accordance with the vaccination and booster vaccination schedule prescribed by the State Health Officer for children of that age, in order for the parents or caretaker relatives to be eligible or remain eligible to receive TANF benefits. Proof of having received such vaccinations and booster vaccinations shall be given by presenting the certificates of vaccination issued by any health care provider licensed to administer vaccinations, and submitted on forms specified by the State Board of Health. If the parents without good cause do not have their dependent children receive the vaccinations and booster vaccinations as required by this subsection and they fail to comply after thirty (30) days' notice, the department shall sanction the family's TANF benefits by twenty-five percent (25%) for the next payment month and each subsequent payment month until the requirements of this subsection are met.

(6) (a) If the parent or caretaker relative applying for TANF assistance is work eligible, as determined by the Department of Human Services, the person shall be required to engage in an allowable work activity once the department determines the parent or caretaker relative is determined work eligible, or once the parent or caretaker relative has received TANF assistance under the program for twenty-four (24) months, whether or not consecutive, whichever is earlier. No TANF benefits shall be given to any person to whom this section applies who fails without good cause to comply with the Employability Development Plan prepared by the department for the person, or who has refused to accept a referral or offer of employment, training or education in which he or she is able to engage, subject to the penalties prescribed in paragraph (e) of this

subsection. A person shall be deemed to have refused to accept a referral or offer of employment, training or education if he or she:

(i) Willfully fails to report for an interview with respect to employment when requested to do so by the department; or

(ii) Willfully fails to report to the department the result of a referral to employment; or

(iii) Willfully fails to report for allowable work activities as prescribed in paragraphs (c) and (d) of this subsection.

(b) The Department of Human Services shall operate a statewide work program for TANF recipients to provide work activities and supportive services to enable families to become self-sufficient and improve their competitive position in the workforce in accordance with the requirements of the federal Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (Public Law 104-193), as amended, and the regulations promulgated thereunder, and the Deficit Reduction Act of 2005 (Public Law 109-171), as amended. Within sixty (60) days after the initial application for TANF benefits, the TANF recipient must participate in a job search skills training workshop or a job readiness program, which shall include resume writing, job search skills, employability skills and, if available at no charge, the General Aptitude Test Battery or its equivalent. All adults who are not specifically exempt shall be referred by the department for allowable work activities. An adult may be exempt from the mandatory work activity requirement for the following reasons:

(i) Incapacity;

(ii) Temporary illness or injury, verified by physician's certificate;

(iii) Is in the third trimester of pregnancy, and there are complications verified by the certificate of a physician, nurse practitioner, physician assistant, or any other licensed health care professional practicing under a protocol with a licensed physician;

(iv) Caretaker of a child under twelve (12) months, for not more than twelve (12) months of the sixty-month maximum benefit period;

(v) Caretaker of an ill or incapacitated person, as verified by physician's certificate;

(vi) Age, if over sixty (60) or under eighteen (18) years of age;

(vii) Receiving treatment for substance abuse, if the person is in compliance with the substance abuse treatment plan;

(viii) In a two-parent family, the caretaker of a severely disabled child, as verified by a physician's certificate; or

(ix) History of having been a victim of domestic violence, which has been reported as required by state law and is substantiated by police reports or court records, and being at risk of further domestic violence, shall be exempt for a period as deemed necessary by the department but not to exceed a total of twelve (12) months, which need not be consecutive, in the sixty-month maximum benefit period. For the purposes of this subparagraph (ix), "domestic violence" means that an individual has been subjected to:

1. Physical acts that resulted in, or threatened to result in, physical injury to the individual;

2. Sexual abuse;
3. Sexual activity involving a dependent child;
4. Being forced as the caretaker relative of a dependent child to engage in nonconsensual sexual acts or activities;
5. Threats of, or attempts at, physical or sexual abuse;
6. Mental abuse; or
7. Neglect or deprivation of medical care.

(c) For all families, all adults who are not specifically exempt shall be required to participate in work activities for at least the minimum average number of hours per week specified by federal law or regulation, not fewer than twenty (20) hours per week (thirty-five (35) hours per week for two-parent families) of which are attributable to the following allowable work activities:

- (i) Unsubsidized employment;
- (ii) Subsidized private employment;
- (iii) Subsidized public employment;
- (iv) Work experience (including work associated with the refurbishing of publicly assisted housing), if sufficient private employment is not available;
- (v) On-the-job training;
- (vi) Job search and job readiness assistance consistent with federal TANF regulations;
- (vii) Community service programs;
- (viii) Vocational educational training (not to exceed twelve (12) months with respect to any individual);
- (ix) The provision of child care services to an individual who is participating in a community service program;
- (x) Satisfactory attendance at high school or in a course of study leading to a high school equivalency certificate, for heads of household under age twenty (20) who have not completed high school or received such certificate;
- (xi) Education directly related to employment, for heads of household under age twenty (20) who have not completed high school or received such equivalency certificate.

(d) The following are allowable work activities which may be attributable to hours in excess of the minimum specified in paragraph (c) of this subsection:

- (i) Job skills training directly related to employment;
- (ii) Education directly related to employment for individuals who have not completed high school or received a high school equivalency certificate;

(iii) Satisfactory attendance at high school or in a course of study leading to a high school equivalency, for individuals who have not completed high school or received such equivalency certificate;

(iv) Job search and job readiness assistance consistent with federal TANF regulations.

(e) If any adult or caretaker relative refuses to participate in allowable work activity as required under this subsection (6), the following full family TANF benefit penalty will apply, subject to due process to include notification, conciliation and a hearing if requested by the recipient:

(i) For the first violation, the department shall terminate the TANF assistance otherwise payable to the family for a two-month period or until the person has complied with the required work activity, whichever is longer;

(ii) For the second violation, the department shall terminate the TANF assistance otherwise payable to the family for a six-month period or until the person has complied with the required work activity, whichever is longer;

(iii) For the third violation, the department shall terminate the TANF assistance otherwise payable to the family for a twelve-month period or until the person has complied with the required work activity, whichever is longer;

(iv) For the fourth violation, the person shall be permanently disqualified.

For a two-parent family, unless prohibited by state or federal law, Medicaid assistance shall be terminated only for the person whose failure to participate in allowable work activity caused the family's TANF assistance to be sanctioned under this paragraph (e), unless an individual is pregnant, but shall not be terminated for any other person in the family who is meeting that person's applicable work requirement or who is not required to work. Minor children shall continue to be eligible for Medicaid benefits regardless of the disqualification of their parent or caretaker relative for TANF assistance under this subsection (6), unless prohibited by state or federal law.

(f) Any person enrolled in a two-year or four-year college program who meets the eligibility requirements to receive TANF benefits, and who is meeting the applicable work requirements and all other applicable requirements of the TANF program, shall continue to be eligible for TANF benefits while enrolled in the college program for as long as the person meets the requirements of the TANF program, unless prohibited by federal law.

(g) No adult in a work activity required under this subsection (6) shall be employed or assigned (i) when any other individual is on layoff from the same or any substantially equivalent job within six (6) months before the date of the TANF recipient's employment or assignment; or (ii) if the employer has terminated the employment of any regular employee or otherwise caused an involuntary reduction of its workforce in order to fill the vacancy so created with an adult receiving TANF assistance. The Mississippi Department of Employment Security, established under Section 71-5-101, shall appoint one or more impartial hearing officers to hear and decide claims by employees of violations of this paragraph (g). The hearing officer shall hear all the evidence with respect to any claim made hereunder and such additional evidence as he may require and shall make a determination and the reason therefor. The claimant shall be promptly notified of the decision of the hearing officer and the reason therefor. Within ten (10) days after the decision of the hearing officer has become final, any party aggrieved thereby may secure judicial review thereof by commencing an action, in the circuit court of the county in which the claimant resides, against the department for the review of such decision, in which action any other party to the proceeding before the hearing officer shall be made a

defendant. Any such appeal shall be on the record which shall be certified to the court by the department in the manner provided in Section 71-5-531, and the jurisdiction of the court shall be confined to questions of law which shall render its decision as provided in that section.

(7) The Department of Human Services may provide child care for eligible participants who require such care so that they may accept employment or remain employed. The department may also provide child care for those participating in the TANF program when it is determined that they are satisfactorily involved in education, training or other allowable work activities. The department may contract with Head Start agencies to provide child care services to TANF recipients. The department may also arrange for child care by use of contract or vouchers, provide vouchers in advance to a caretaker relative, reimburse a child care provider, or use any other arrangement deemed appropriate by the department, and may establish different reimbursement rates for child care services depending on the category of the facility or home. Any center-based or group home child care facility under this subsection shall be licensed by the State Department of Health pursuant to law. When child care is being provided in the child's own home, in the home of a relative of the child, or in any other unlicensed setting, the provision of such child care may be monitored on a random basis by the Department of Human Services or the State Department of Health. Transitional child care assistance may be continued if it is necessary for parents to maintain employment once support has ended, unless prohibited under state or federal law. Transitional child care assistance may be provided for up to twenty-four (24) months after the last month during which the family was eligible for TANF assistance, if federal funds are available for such child care assistance.

(8) The Department of Human Services may provide transportation or provide reasonable reimbursement for transportation expenses that are necessary for individuals to be able to participate in allowable work activity under the TANF program.

(9) Medicaid assistance shall be provided to a family of TANF program participants for up to twenty-four (24) consecutive calendar months following the month in which the participating family would be ineligible for TANF benefits because of increased income, expiration of earned income disregards, or increased hours of employment of the caretaker relative; however, Medicaid assistance for more than twelve (12) months may be provided only if a federal waiver is obtained to provide such assistance for more than twelve (12) months and federal and state funds are available to provide such assistance.

(10) The department shall require applicants for and recipients of public assistance from the department to sign a personal responsibility contract that will require the applicant or recipient to acknowledge his or her responsibilities to the state.

(11) The department shall enter into an agreement with the State Personnel Board and other state agencies that will allow those TANF participants who qualify for vacant jobs within state agencies to be placed in state jobs. State agencies participating in the TANF work program shall receive any and all benefits received by employers in the private sector for hiring TANF recipients. This subsection (11) shall be effective only if the state obtains any necessary federal waiver or approval and if federal funds are available therefor. Not later than September 1, 2021, the department shall prepare a report, which shall be provided to the Chairmen of the House and Senate Public Health Committees and to any other member of the Legislature upon request, on the history, status, outcomes and effectiveness of the agreements required under this subsection.

(12) Any unspent TANF funds remaining from the prior fiscal year may be expended for any TANF allowable activities.

(13) The Mississippi Department of Human Services shall provide TANF applicants information and referral to programs that provide information about birth control, prenatal health care, abstinence education, marriage education, family

preservation and fatherhood. Not later than September 1, 2021, the department shall prepare a report, which shall be provided to the Chairmen of the House and Senate Public Health Committees and to any other member of the Legislature upon request, on the history, status, outcomes and effectiveness of the information and referral requirements under this subsection.

(14) No new TANF program requirement or restriction affecting a person's eligibility for TANF assistance, or allowable work activity, which is not mandated by federal law or regulation may be implemented by the Department of Human Services after July 1, 2004, unless such is specifically authorized by an amendment to this section by the Legislature.

This dental services reimbursement rate revision shall be known as the "James Russell Dumas Medicaid Dental Services Incentive Program."

The Medical Care Advisory Committee, assisted by the Division of Medicaid, shall annually determine the effect of this incentive by evaluating the number of dentists who are Medicaid providers, the number who and the degree to which they are actively billing Medicaid, the geographic trends of where dentists are offering what types of Medicaid services and other statistics pertinent to the goals of this legislative intent. Further, the division, in consultation with the hospital industry shall develop alternative models for distribution of medical claims and supplemental payments for inpatient and outpatient hospital services, and such models may include, but shall not be limited to the following: increasing rates for inpatient and outpatient services; creating a low-income utilization pool of funds to reimburse hospitals for the costs of uncompensated care, charity care and bad debts as permitted and approved pursuant to federal regulations and the Centers for Medicare and Medicaid Services; supplemental payments based upon Medicaid utilization, quality, service lines and/or costs of providing such services to Medicaid beneficiaries and to uninsured patients. The goals of such payment models shall be to ensure access to inpatient and outpatient care and to maximize any federal funds that are available to reimburse hospitals for services provided. Any such documents required to achieve the goals described in this paragraph shall be submitted to the Centers for Medicare and Medicaid Services, with a proposed effective date of July 1, 2019, to the extent possible, but in no event shall the effective date of such payment models be later than July 1, 2020. The Chairmen of the Senate and House Medicaid Committees shall be provided a copy of the proposed payment model(s) prior to submission. (ii) Subject to approval by the Centers for Medicare and Medicaid Services (CMS), the MHAP shall provide increased inpatient capitation (PMPM) payments to managed care entities contracting with the division pursuant to subsection (H) of this section to support availability of hospital services or such other payments permissible under federal law necessary to accomplish the intent of this subsection.

(iii) The intent of this subparagraph (c) is that effective for all inpatient hospital Medicaid services during state fiscal year 2016, and so long as this provision shall remain in effect hereafter, the division shall to the fullest extent feasible replace the additional reimbursement for hospital inpatient services under the inpatient Medicare Upper Payment Limits (UPL) Program with additional reimbursement under the MHAP and other payment programs for inpatient and/or outpatient payments which may be developed under the authority of this paragraph.

The division may provide for a reimbursement rate for physician assistant services of up to one hundred percent (100%) or the reimbursement rate for comparable services rendered by a physician for physician assistant services that are provided after the normal working hours of the physician assistant, as determined in accordance with regulations of the division.

(46) The division shall make application to the federal Centers for Medicare and Medicaid Services (CMS) for a waiver to develop and provide services for children with serious emotional disturbances as defined in Section 43-14-1(1), which may include home- and community-based services, case management services or managed care services through mental health providers certified by the Department of Mental Health. The division may implement and provide services under this waived program only if funds for these services are specifically appropriated for this purpose by the Legislature, or if funds are voluntarily provided by affected agencies.

(47) (a) The division may develop and implement disease management programs for individuals with high-cost chronic diseases and conditions, including the use of grants, waivers, demonstrations or other projects as necessary.

(b) Participation in any disease management program implemented under this paragraph (47) is optional with the individual. An individual must affirmatively elect to participate in the disease management program in order to participate, and may elect to discontinue participation in the program at any time.

(48) Pediatric long-term acute care hospital services.

(a) Pediatric long-term acute care hospital services means services provided to eligible persons under twenty-one (21) years of age by a freestanding Medicare-certified hospital that has an average length of inpatient stay greater than twenty-five (25) days and that is primarily engaged in providing chronic or long-term medical care to persons under twenty-one (21) years of age.

(b) The services under this paragraph (48) shall be reimbursed as a separate category of hospital services.

(49) The division may establish copayments and/or coinsurance for any Medicaid services for which copayments and/or coinsurance are allowable under federal law or regulation.

(50) Services provided by the State Department of Rehabilitation Services for the care and rehabilitation of persons who are deaf and blind, as allowed under waivers from the United States Department of Health and Human Services to provide home- and community-based services using state funds that are provided from the appropriation to the State Department of Rehabilitation Services or if funds are voluntarily provided by another agency.

(51) Upon determination of Medicaid eligibility and in association with annual redetermination of Medicaid eligibility, beneficiaries shall be encouraged to undertake a physical examination that will establish a base-line level of health and identification of a usual and customary source of care (a medical home) to aid utilization of disease management tools. This physical examination and utilization of these disease management tools shall be consistent with current United States Preventive Services Task Force or other recognized authority recommendations.

For persons who are determined ineligible for Medicaid, the division will provide information and direction for accessing medical care and services in the area of their residence.

(52) Notwithstanding any provisions of this article, the division may pay enhanced reimbursement fees related to trauma care, as determined by the division in conjunction with the State Department of Health, using funds appropriated to the State Department of Health for trauma care and services and used to match federal funds under a cooperative agreement between the division and the State Department of Health. The division, in conjunction with the State Department of Health, may use grants, waivers, demonstrations, enhanced reimbursements, Upper Payment Limits Programs, supplemental payments, or other projects as necessary in the development and implementation of this reimbursement program.

(53) Targeted case management services for high-cost beneficiaries may be developed by the division for all services under this section.

(54) [Deleted]

(55) Therapy services. The plan of care for therapy services may be developed to cover a period of treatment for up to six (6) months, but in no event shall the plan of care exceed a six-month period of treatment. The projected period of treatment must be indicated on the initial plan of care and must be updated with each subsequent revised plan of care. Based on medical necessity, the division shall approve certification periods for less than or up to six (6) months, but in no event shall the certification period exceed the period of treatment indicated on the plan of care. The appeal process for any reduction in therapy services shall be consistent with the appeal process in federal regulations.

(56) Prescribed pediatric extended care centers services for medically dependent or technologically dependent children with complex medical conditions that require continual care as prescribed by the child's attending physician, as determined by the division.

(57) No Medicaid benefit shall restrict coverage for medically appropriate treatment prescribed by a physician and agreed to by a fully informed individual, or if the

individual lacks legal capacity to consent by a person who has legal authority to consent on his or her behalf, based on an individual's diagnosis with a terminal condition. As used in this paragraph (57), "terminal condition" means any aggressive malignancy, chronic end-stage cardiovascular or cerebral vascular disease, or any other disease, illness or condition which a physician diagnoses as terminal.

(58) Treatment services for persons with opioid dependency or other highly addictive substance use disorders. The division is authorized to reimburse eligible providers for treatment of opioid dependency and other highly addictive substance use disorders, as determined by the division. Treatment related to these conditions shall not count against any physician visit limit imposed under this section.

(59) The division shall allow beneficiaries between the ages of ten (10) and eighteen (18) years to receive vaccines through a pharmacy venue. The division and the State Department of Health shall coordinate and notify OB-GYN providers that the Vaccines for Children program is available to providers free of charge.

(60) Border city university-affiliated pediatric teaching hospital.

(a) Payments may only be made to a border city university-affiliated pediatric teaching hospital if the Centers for Medicare and Medicaid Services (CMS) approve an increase in the annual request for the provider payment initiative authorized under 42 CFR Section 438.6(c) in an amount equal to or greater than the estimated annual payment to be made to the border city university-affiliated pediatric teaching hospital. The estimate shall be based on the hospital's prior year Mississippi managed care utilization.

(b) As used in this paragraph (60), the term "border city university-affiliated pediatric teaching hospital" means an out-of-state hospital located within a city bordering the eastern bank of the Mississippi River and the State of Mississippi that submits to the division a copy of a current and effective affiliation agreement with an accredited university and other documentation establishing that the hospital is university-affiliated, is licensed and designated as a pediatric hospital or pediatric primary hospital within its home state, maintains at least five (5) different pediatric specialty training programs, and maintains at least one hundred (100) operated beds dedicated exclusively for the treatment of patients under the age of twenty-one (21) years.

(c) The cost of providing services to Mississippi Medicaid beneficiaries under the age of twenty-one (21) years who are treated by a border city university-affiliated pediatric teaching hospital shall not exceed the cost of providing the same services to individuals in hospitals in the state.

(d) It is the intent of the Legislature that payments shall not result in any in-state hospital receiving payments lower than they would otherwise receive if not for the payments made to any border city university-affiliated pediatric teaching hospital.

(e) This paragraph (60) shall stand repealed on July 1, 2024.

(61) Beginning July 1, 2023, essential health benefits as described in the federal Patient Protection and Affordable Care Act of 2010 and as amended, for individuals eligible for Medicaid under the federal Patient Protection and Affordable Care Act of 2010, as amended, as described in Section 43-13-115(29) of this article. These services shall be provided only so long as the Medicaid federal matching percentage is not less than ninety percent (90%) for Medicaid services to this population. This paragraph (61) shall stand repealed on December 31, 2025.

(B) Planning and development districts participating in the home- and community-based services program for the elderly and disabled as case management providers shall be reimbursed for case management services at the maximum rate approved by the Centers for Medicare and Medicaid Services (CMS).

(C) The division may pay to those providers who participate in and accept patient referrals from the division's emergency room redirection program a percentage, as determined by the division, of savings achieved according to the performance measures and reduction of costs required of that program. Federally qualified health centers may participate in the emergency room redirection program, and the division may pay those centers a percentage of any savings to the Medicaid program achieved by the centers' accepting patient referrals through the program, as provided in this subsection (C).

(D) (1) As used in this subsection (D), the following terms shall be defined as provided in this paragraph, except as otherwise provided in this subsection:

(a) "Committees" means the Medicaid Committees of the House of Representatives and the Senate, and "committee" means either one of those committees.

(b) "Rate change" means an increase, decrease or other change in the payments or rates of reimbursement, or a change in any payment methodology that results in an increase, decrease or other change in the payments or rates of reimbursement, to any Medicaid provider that renders any services authorized to be provided to Medicaid recipients under this article.

(2) Whenever the Division of Medicaid proposes a rate change, the division shall give notice to the chairmen of the committees at least thirty (30) calendar days before the proposed rate change is scheduled to take effect. The division shall furnish the chairmen with a concise summary of each proposed rate change along with the notice, and shall furnish the chairmen with a copy of any proposed rate change upon request. The division also shall provide a summary and copy of any proposed rate change to any other member of the Legislature upon request.

(3) If the chairman of either committee or both chairmen jointly object to the proposed rate change or any part thereof, the chairman or chairmen shall notify the division and provide the reasons for their objection in writing not later than seven (7) calendar days after receipt of the notice from the division. The chairman or chairmen may make written recommendations to the division for changes to be made to a proposed rate change.

(4) (a) The chairman of either committee or both chairmen jointly may hold a committee meeting to review a proposed rate change. If either chairman or both chairmen decide to hold a meeting, they shall notify the division of their intention in writing within seven (7) calendar days after receipt of the notice from the division, and shall set the date and time for the meeting in their notice to the division, which shall not be later than fourteen (14) calendar days after receipt of the notice from the division.

(b) After the committee meeting, the committee or committees may object to the proposed rate change or any part thereof. The committee or committees shall notify the division and the reasons for their objection in writing not later than seven (7) calendar days after the meeting. The committee or committees may make written recommendations to the division for changes to be made to a proposed rate change.

(5) If both chairmen notify the division in writing within seven (7) calendar days after receipt of the notice from the division that they do not object to the proposed rate change and will not be holding a meeting to review the proposed rate change, the proposed rate change will take effect on the original date as scheduled by the division or on such other date as specified by the division.

(6) (a) If there are any objections to a proposed rate change or any part thereof from either or both of the chairmen or the committees, the division may withdraw the proposed rate change, make any of the recommended changes to the proposed rate change, or not make any changes to the proposed rate change.

(b) If the division does not make any changes to the proposed rate change, it shall notify the chairmen of that fact in writing, and the proposed rate change shall take effect on the original date as scheduled by the division or on such other date as specified by the division.

(c) If the division makes any changes to the proposed rate change, the division shall notify the chairmen of its actions in writing, and the revised proposed rate change shall take effect on the date as specified by the division.

(7) Nothing in this subsection (D) shall be construed as giving the chairmen or the committees any authority to veto, nullify or revise any rate change proposed by the division. The authority of the chairmen or the committees under this subsection shall be limited to reviewing, making objections to and making recommendations for changes to rate changes proposed by the division.

(E) Notwithstanding any provision of this article, no new groups or categories of recipients and new types of care and services may be added without enabling legislation from the Mississippi Legislature, except that the division may authorize those changes without enabling legislation when the addition of recipients or services is ordered by a court of proper authority.

(F) The executive director shall keep the Governor advised on a timely basis of the funds available for expenditure and the projected expenditures. Notwithstanding any other provisions of this article, if current or projected expenditures of the division are reasonably anticipated to exceed the amount of funds appropriated to the division for any fiscal year, the Governor, after consultation with the executive director, shall take all appropriate measures to reduce costs, which may include, but are not limited to:

(1) Reducing or discontinuing any or all services that are deemed to be optional under Title XIX of the Social Security Act;

(2) Reducing reimbursement rates for any or all service types;

(3) Imposing additional assessments on health care providers; or

(4) Any additional cost-containment measures deemed appropriate by the Governor.

To the extent allowed under federal law, any reduction to services or reimbursement rates under this subsection (F) shall be accompanied by a reduction, to the fullest allowable amount, to the profit margin and administrative fee portions of capitated payments to organizations described in paragraph (1) of subsection (H).

Beginning in fiscal year 2010 and in fiscal years thereafter, when Medicaid expenditures are projected to exceed funds available for the fiscal year, the division shall submit the expected shortfall information to the PEER Committee not later than December 1 of the year in which the shortfall is projected to occur. PEER shall review the computations of the division and report its findings to the Legislative Budget Office not later than January 7 in any year.

(G) Notwithstanding any other provision of this article, it shall be the duty of each provider participating in the Medicaid program to keep and maintain books, documents and other records as prescribed by the Division of Medicaid in accordance with federal laws and regulations.

(H) (1) Notwithstanding any other provision of this article, the division is authorized to implement (a) a managed care program, (b) a coordinated care program, (c) a coordinated care organization program, (d) a health maintenance organization program, (e) a patient-centered medical home program, (f) an accountable care organization program, (g) provider-sponsored health plan, or (h) any combination of the above programs. As a condition for the approval of any program under this subsection (H)(1), the division shall require that no managed care program, coordinated care program, coordinated care organization program, health maintenance organization program, or provider-sponsored health plan may:

(a) Pay providers at a rate that is less than the Medicaid All Patient Refined Diagnosis Related Groups (APR-DRG) reimbursement rate;

(b) Override the medical decisions of hospital physicians or staff regarding patients admitted to a hospital for an emergency medical condition as defined by 42 US Code Section 1395dd. This restriction (b) does not prohibit the retrospective review of the appropriateness of the determination that an emergency medical condition exists by chart review or coding algorithm, nor does it prohibit prior authorization for nonemergency hospital admissions;

(c) Pay providers at a rate that is less than the normal Medicaid reimbursement rate. It is the intent of the Legislature that all managed care entities described in this subsection (H), in collaboration with the division, develop and implement innovative payment models that incentivize improvements in health care quality, outcomes, or value, as determined by the division. Participation in the provider network of any managed care, coordinated care, provider-sponsored health plan, or similar contractor shall not be conditioned on the provider's agreement to accept such alternative payment models;

(d) Implement a prior authorization and utilization review program for medical services, transportation services and prescription drugs that is more stringent than the prior authorization processes used by the division in its administration of the Medicaid program. Not later than December 2, 2021, the contractors that are receiving capitated payments under a managed care delivery system established under this subsection (H) shall submit a report to the Chairmen of the House and Senate Medicaid Committees on the status of the prior authorization and utilization review program for medical services, transportation services and prescription drugs that is required to be implemented under this subparagraph (d);

(e) [Deleted]

(f) Implement a preferred drug list that is more stringent than the mandatory preferred drug list established by the division under subsection (A)(9) of this section;

(g) Implement a policy which denies beneficiaries with hemophilia access to the federally funded hemophilia treatment centers as part of the Medicaid Managed Care network of providers.

Each health maintenance organization, coordinated care organization, provider-sponsored health plan, or other organization paid for services on a capitated basis by the division under any managed care program or coordinated care program implemented by the division under this section shall use a clear set of level of care guidelines in the determination of medical necessity and in all utilization management practices, including the prior authorization process, concurrent reviews, retrospective reviews and payments, that are consistent with widely accepted professional standards of care. Organizations participating in a managed care program or coordinated care program implemented by the division may not use any additional criteria that would result in denial of care that would be determined appropriate and, therefore, medically necessary under those levels of care guidelines.

(2) Notwithstanding any provision of this section, the recipients eligible for enrollment into a Medicaid Managed Care Program authorized under this subsection (H) may include only those categories of recipients eligible for participation in the Medicaid Managed Care Program as of January 1, 2021, the Children's Health Insurance Program (CHIP), and the CMS-approved Section 1115 demonstration waivers in operation as of January 1, 2021. No expansion of Medicaid Managed Care Program contracts may be implemented by the division without enabling legislation from the Mississippi Legislature.

(3) (a) Any contractors receiving capitated payments under a managed care delivery system established in this section shall provide to the Legislature and the division statistical data to be shared with provider groups in order to improve patient access, appropriate utilization, cost savings and health outcomes not later than October 1 of each year. Additionally, each contractor shall disclose to the Chairmen of the Senate and House Medicaid Committees the administrative expenses costs for the prior calendar year, and the number of full-equivalent employees located in the State of Mississippi dedicated to the Medicaid and CHIP lines of business as of June 30 of the current year.

(b) The division and the contractors participating in the managed care program, a coordinated care program or a provider-sponsored health plan shall be subject to annual program reviews or audits performed by the Office of the State Auditor, the PEER Committee, the Department of Insurance and/or independent third parties.

(c) Those reviews shall include, but not be limited to, at least two (2) of the following items:

(i) The financial benefit to the State of Mississippi of the managed care program,

(ii) The difference between the premiums paid to the managed care contractors and the payments made by those contractors to health care providers,

(iii) Compliance with performance measures required under the contracts,

- (iv) Administrative expense allocation methodologies,
- (v) Whether nonprovider payments assigned as medical expenses are appropriate,
- (vi) Capitated arrangements with related party subcontractors,
- (vii) Reasonableness of corporate allocations,
- (viii) Value-added benefits and the extent to which they are used,
- (ix) The effectiveness of subcontractor oversight, including subcontractor review,
- (x) Whether health care outcomes have been improved, and
- (xi) The most common claim denial codes to determine the reasons for the denials.

The audit reports shall be considered public documents and shall be posted in their entirety on the division's website.

(4) All health maintenance organizations, coordinated care organizations, provider-sponsored health plans, or other organizations paid for services on a capitated basis by the division under any managed care program or coordinated care program implemented by the division under this section shall reimburse all providers in those organizations at rates no lower than those provided under this section for beneficiaries who are not participating in those programs.

(5) No health maintenance organization, coordinated care organization, provider-sponsored health plan, or other organization paid for services on a capitated basis by the division under any managed care program or coordinated care program implemented by the division under this section shall require its providers or beneficiaries to use any pharmacy that ships, mails or delivers prescription drugs or legend drugs or devices.

(6) (a) Not later than December 1, 2021, the contractors who are receiving capitated payments under a managed care delivery system established under this subsection (H) shall develop and implement a uniform credentialing process for providers. Under that uniform credentialing process, a provider who meets the criteria for credentialing will be credentialed with all of those contractors and no such provider will have to be separately credentialed by any individual contractor in order to receive reimbursement from the contractor. Not later than December 2, 2021, those contractors shall submit a report to the Chairmen of the House and Senate Medicaid Committees on the status of the uniform credentialing process for providers that is required under this subparagraph (a).

(b) If those contractors have not implemented a uniform credentialing process as described in subparagraph (a) by December 1, 2021, the division shall develop and implement, not later than July 1, 2022, a single, consolidated credentialing process by which all providers will be credentialed. Under the division's single, consolidated credentialing process, no such contractor shall require its providers to be separately

credentialed by the contractor in order to receive reimbursement from the contractor, but those contractors shall recognize the credentialing of the providers by the division's credentialing process.

(c) The division shall require a uniform provider credentialing application that shall be used in the credentialing process that is established under subparagraph (a) or (b). If the contractor or division, as applicable, has not approved or denied the provider credentialing application within sixty (60) days of receipt of the completed application that includes all required information necessary for credentialing, then the contractor or division, upon receipt of a written request from the applicant and within five (5) business days of its receipt, shall issue a temporary provider credential/enrollment to the applicant if the applicant has a valid Mississippi professional or occupational license to provide the health care services to which the credential/enrollment would apply. The contractor or the division shall not issue a temporary credential/enrollment if the applicant has reported on the application a history of medical or other professional or occupational malpractice claims, a history of substance abuse or mental health issues, a criminal record, or a history of medical or other licensing board, state or federal disciplinary action, including any suspension from participation in a federal or state program. The temporary credential/enrollment shall be effective upon issuance and shall remain in effect until the provider's credentialing/enrollment application is approved or denied by the contractor or division. The contractor or division shall render a final decision regarding credentialing/enrollment of the provider within sixty (60) days from the date that the temporary provider credential/enrollment is issued to the applicant.

(d) If the contractor or division does not render a final decision regarding credentialing/enrollment of the provider within the time required in subparagraph (c), the provider shall be deemed to be credentialed by and enrolled with all of the contractors and eligible to receive reimbursement from the contractors.

(7) (a) Each contractor that is receiving capitated payments under a managed care delivery system established under this subsection (H) shall provide to each provider for whom the contractor has denied the coverage of a procedure that was ordered or requested by the provider for or on behalf of a patient, a letter that provides a detailed explanation of the reasons for the denial of coverage of the procedure and the name and the credentials of the person who denied the coverage. The letter shall be sent to the provider in electronic format.

(b) After a contractor that is receiving capitated payments under a managed care delivery system established under this subsection (H) has denied coverage for a claim submitted by a provider, the contractor shall issue to the provider within sixty (60) days a final ruling of denial of the claim that allows the provider to have a state fair hearing and/or agency appeal with the division. If a contractor does not issue a final ruling of denial within sixty (60) days as required by this subparagraph (b), the provider's claim shall be deemed to be automatically approved and the contractor shall pay the amount of the claim to the provider.

(c) After a contractor has issued a final ruling of denial of a claim submitted by a provider, the division shall conduct a state fair hearing and/or agency appeal on the matter of the disputed claim between the contractor and the provider within sixty (60) days, and shall render a decision on the matter within thirty (30) days after the date of the hearing and/or appeal.

(8) It is the intention of the Legislature that the division evaluate the feasibility of using a single vendor to administer pharmacy benefits provided under a managed care delivery system established under this subsection (H). Providers of

pharmacy benefits shall cooperate with the division in any transition to a carve-out of pharmacy benefits under managed care.

(9) The division shall evaluate the feasibility of using a single vendor to administer dental benefits provided under a managed care delivery system established in this subsection (H). Providers of dental benefits shall cooperate with the division in any transition to a carve-out of dental benefits under managed care.

(10) It is the intent of the Legislature that any contractor receiving capitated payments under a managed care delivery system established in this section shall implement innovative programs to improve the health and well-being of members diagnosed with prediabetes and diabetes.

(11) It is the intent of the Legislature that any contractors receiving capitated payments under a managed care delivery system established under this subsection (H) shall work with providers of Medicaid services to improve the utilization of long-acting reversible contraceptives (LARCs). Not later than December 1, 2021, any contractors receiving capitated payments under a managed care delivery system established under this subsection (H) shall provide to the Chairmen of the House and Senate Medicaid Committees and House and Senate Public Health Committees a report of LARC utilization for State Fiscal Years 2018 through 2020 as well as any programs, initiatives, or efforts made by the contractors and providers to increase LARC utilization. This report shall be updated annually to include information for subsequent state fiscal years.

(12) The division is authorized to make not more than one (1) emergency extension of the contracts that are in effect on July 1, 2021, with contractors who are receiving capitated payments under a managed care delivery system established under this subsection (H), as provided in this paragraph (12). The maximum period of any such extension shall be one (1) year, and under any such extensions, the contractors shall be subject to all of the provisions of this subsection (H). The extended contracts shall be revised to incorporate any provisions of this subsection (H).

(I) [Deleted]

(J) There shall be no cuts in inpatient and outpatient hospital payments, or allowable days or volumes, as long as the hospital assessment provided in Section 43-13-145 is in effect. This subsection (J) shall not apply to decreases in payments that are a result of: reduced hospital admissions, audits or payments under the APR-DRG or APC models, or a managed care program or similar model described in subsection (H) of this section.

(K) In the negotiation and execution of such contracts involving services performed by actuarial firms, the Executive Director of the Division of Medicaid may negotiate a limitation on liability to the state of prospective contractors.

(L) The Division of Medicaid shall reimburse for services provided to eligible Medicaid beneficiaries by a licensed birthing center in a method and manner to be determined by the division in accordance with federal laws and federal regulations. The division shall seek any necessary waivers, make any required amendments to its State Plan or revise any contracts authorized under subsection (H) of this section as necessary to provide the services authorized under this subsection. As used in this subsection, the term "birthing centers" shall have the meaning as defined in Section 41-77-1(a), which is a publicly or privately owned facility, place or institution constructed, renovated, leased or otherwise established where nonemergency births are planned to occur away from the mother's usual residence following a documented period of prenatal care for a normal

uncomplicated pregnancy which has been determined to be low risk through a formal risk-scoring examination.

(M) This section shall stand repealed on July 1, 2024.
FURTHER, AMEND the title to conform.

(4) Recipients in the program shall be selected on a first-come, first-served basis from all eligible applicants. The Mississippi Postsecondary Education Financial Assistance Board shall renew eligible applicants approved in prior years only if the renewal applicant continues to meet the standards set forth in this act, and the renewal applicant has not received full funding provided by this subsection (4).

The application fee for each lease application shall be Fifty Dollars (\$50.00). Applications must include a plat showing the proposed lease area and description of cultch material type and amount to be deployed on the leased area.

(5) The department shall consider bottom leasing applications in the order in which each is filed and *** shall either (a) make a lease with the applicant or (b) issue a written notice declining the application with reasons for same within *** thirty (30) days *** of the date of the application. Such lease *** shall be for the area described in the application upon payment of the annual rent in advance.

(6) Such leases shall be for an initial term of *** fifteen (15) years, with the right of lessee to renew the lease for an additional *** fifteen (15) years, and continue to renew at *** fifteen-year intervals, at the same ground rental rate so long as lessee actively cultivates and gathers oysters, and complies with the provisions of this chapter. No lease may be transferred without approval by the department of the transfer.

(7) The lease shall ensure the maximum culture and propagation of oysters.

(***8) The department shall fix a ground rental at not less than *** Two Dollars (\$2.00) and no more than Fifteen Dollars (\$15.00) per acre.

(***9) The department shall keep an accurate chart of the areas within its jurisdiction and shall mark on such chart those areas which are under lease. All leases shall be marked by appropriate poles, stakes or buoys of such material as will not injure watercraft, at the expense of the leaseholder. The department shall keep an accurate book, designated "Mississippi Oyster Farms" which shall contain copies of all leases. If any lease be cancelled or expire, such fact shall be noted on the face of such lease. Lessees shall be "oyster farmers" for the purposes of any grants, aid, subsidies or other assistance from the federal government or other governmental or private agencies.

(***10) All funds derived from leasing shall be paid into the Seafood Fund under Section 49-15-17, for use by the department to further oyster production in this state, which includes plantings of oysters and cultch materials.

(***11) All leases made by the department under the authority of this section shall be subject to the paramount right of the state and any of its political subdivisions authorized by law, to promote and develop ports, harbors, channels, industrial or recreational projects, and all such leases shall contain a provision that in the event such authorized public body shall require the area so leased or any part thereof for such public purposes, that the lease shall be terminated on reasonable notice fixed by the department in such lease. On the termination of any lease, the lessees shall have the right to remove any oysters within the leased area within such time as may be fixed by the department and in accordance with such reasonable rules and regulations as the department may adopt.

Any person convicted of taking oysters from leased land or from waters that are not of a safe sanitary quality without a permit as provided in Section 49-15-37 shall, on the first offense, forfeit all equipment used, exclusive of any boat or boats; and be fined not to exceed Two Thousand Dollars (\$2,000.00) or sentenced not to exceed one (1) year in the county jail, or both. Subsequent convictions shall be punishable by forfeiture of all equipment, including any boat or boats; and a fine not to exceed Five Thousand Dollars (\$5,000.00) or not to exceed two (2) years in prison, or both such fine and imprisonment.

The department is enjoined to cooperate with the Jackson County Port Authority, the Harrison County Development Commission, the municipal port commission and other port and harbor agencies, so that oyster beds shall not be planted in close proximity to navigable channels. The department or lessee shall have no right of action as against

any such public body for damages accruing to any natural reef or leased reef by any necessary improvement of such channel in the interest of shipping, commerce, navigation or other purpose authorized by law.

(12) A lessee has the exclusive use of the water bottoms leased and all oysters and cultch grown or placed thereon. However, this exclusive right is subordinate to the rights and responsibilities of the state, any political subdivision of the state, the United States, or any agency or agent thereof, to take action in furtherance of coastal protection, conservation or restoration.

SECTION 4. Section 49-15-36, Mississippi Code of 1972, is amended as follows:

49-15-36. (1) The Department of Marine Resources shall have full jurisdiction and control of all * * * designated state-owned reefs and oyster bottoms of the State of Mississippi.

(2) * * * State-owned reefs may be opened for harvest of oysters during the season on a rotating basis. If the department determines that a particular reef has been overharvested or that a high percentage of sublegal size oysters exist on a particular reef and that harvest could damage future oyster crops, the department may close designated reef areas and keep them closed during the season.

(3) The department shall promulgate regulations regarding the closing of oyster reefs to protect the public health. When that testing indicates the oysters on the closed reef are suitable for consumption, the reef shall be opened for the taking of oysters as soon as notice of that opening may be made to interested parties. The authority to open or close oyster reefs under this chapter shall be solely within the discretion of the department. The Gulf Coast Research Laboratory or other certified laboratory shall cooperate with the department and shall conduct necessary tests to determine the condition of oyster reefs at the request of the department. The department may limit the sale of oysters for human consumption.

(4) (a) The department may issue special permits for the purpose of catching oysters outside the open season or in areas not normally open to harvest to those nonprofit organizations that are tax exempt under Section 501(c) of the United States Internal Revenue Code and which have on file with the Department of Revenue a tax exemption letter issued by the United States Internal Revenue Service.

(b) The department shall promulgate rules and regulations governing the taking of oysters by the nonprofit organization and shall issue such regulations to all organizations upon request and at the issuance of the special permit.

(5) The department shall establish a reasonable period of time for depuration of oysters replanted from restricted waters. That period of time shall be consistent with the maintenance of the public health and may vary from time to time and from one reef to another in accordance with environmental conditions.

* * *

SECTION 5. Section 49-15-37, Mississippi Code of 1972, is amended as follows:

49-15-37. * * * The department may employ boats, crews and laborers * * * to cultivate the * * * state-owned reefs of the state, and * * * dredge the oysters in the Mississippi Sound from places where they are too thick, and * * * spread them on reefs where they are too thin, and * * * carry shells from the factories and spread them in places where the oyster beds can be improved and enlarged. The department may purchase other materials as may be equally suitable for the propagation of oysters. The department in cultivating the reefs, transplanting and spreading oysters and shells and other suitable materials, may expend any funds available for that purpose. In taking seed oysters, care

shall be used to not injure or destroy the merchantable oysters on the reefs from which they are taken. The seed oysters shall be tonged from the "conner" or seed reefs, unless it is practicable and safe to dredge those oysters. The *** department may, ***, establish new bedding grounds at those places within the boundaries of the state as it may determine, on advice of the director, or on advice of technical governmental experts, or competent aquatic biologists. On existing *** state-owned reefs in which oysters exist and in waters not of a safe sanitary quality as determined by the department, the *** department shall prohibit any person, firm or corporation from taking oysters from those areas. The *** department shall from time to time remove the oysters from the areas and relay or replant them in an approved area for a period of time under Section 49-15-36 before they may be harvested. The *** department may transport the oysters to an onshore, molluscan depuration facility for the purpose of proving depuration technology and for other experimental purposes. In connection with the testing of onshore, molluscan depuration technology, the *** department may sell or dispose of the relaid oysters in a manner consistent with all applicable state and federal laws and regulations. Any funds received from the sale of the oysters shall be used in a like manner as those funds received under Section 49-15-38.

If the *** department finds that onshore, molluscan depuration technology proves to be successful, the *** department may issue permits to private enterprise which may locate depuration facilities in Hancock, Harrison and Jackson Counties. The *** department shall promulgate rules and regulations for the taking of oysters from reefs for transport to an onshore, molluscan depuration facility and for the operation of the facilities. Each depuration facility operated by private enterprise shall return oyster shells to the oyster reefs for replanting under the proper supervision of the department and under Section 49-15-38.

The *** department may issue permits to persons to remove oysters by dredging or otherwise from water bottoms which are not of a safe sanitary quality for oysters for human consumption even though those areas may have been reserved for tonging only in Section 49-15-39. These areas *** may be designated as seed grounds, and permits to persons shall be issued only for the purpose of transplanting oysters to privately leased Mississippi territorial waters. The *** department may permit the transplanting of these seed oysters by a duly authorized public agency.

The *** department may, upon certification of the department that the water bottom from which oysters are to be removed is not of a safe, sanitary quality for oyster production for human consumption and has been unsafe for a period of at least one (1) year immediately preceding certification, and upon complying with the following requirements, permit the dredging of oysters from restricted public areas and relaying the oysters to private leased grounds in the State of Mississippi:

- (a) Permittee must hold valid lease of oyster bedding grounds in the State of Mississippi;
- (b) Permittee must be bonded in compliance with the permit system established by the *** department;
- (c) Permittee must fulfill all permit requirements as established by the *** department;
- (d) Permittee shall not move oysters from one restricted area to another restricted area;
- (e) Permittee shall move oysters only to an area leased by the *** department; and
- (f) Permittee shall not move oysters from the restricted area without the presence of an employee of the department at all times, from the dredging of the oysters

from the restricted areas to their deposit on private leased grounds or to an onshore, molluscan depuration facility.

Harvesting of oysters shall be permitted only during daylight hours and with the most efficient gear possible consistent with conservation requirements of not damaging the reefs. This shall include permission to use two (2) dredges per boat on restricted areas and on private leased grounds.

Any person obtaining a permit to remove oysters from seed grounds shall post a penal bond of One Hundred Dollars (\$100.00) per leased acre with the * * * department to be forfeited upon any violation of this section. The bond may be approved by the director of the department if the director finds the bond to be secured by sufficient property or sureties.

The * * * department shall regulate the amount and time of taking of oysters from seed areas and shall supervise the removal, planting and harvesting of oysters from the areas. The time set for the taking of oysters from restricted seed areas for relaying or replanting and the time set for the taking of oysters from private leased grounds shall be separated by not less than a period of time determined under Section 49-15-36 during which neither activity may be allowed.

The * * * department shall regulate the taking of oysters from restricted seed areas and the subsequent depuration of the oysters to protect public health, while at the same time fostering the utilization of the state's oyster resources. The regulations shall include the setting of the period of depuration for the oysters by the use of appropriate techniques and provide for an employee of the department to be present when the oysters are taken from restricted seed areas, and transported, held and deposited on private lease grounds. Any person, firm, corporation or private lease holder engaged in the depuration of oysters shall pay to the department an amount equal to the regular compensation of the employee of the department for the time the employee actually spends performing the duties, not to exceed Two Hundred Dollars (\$200.00) per twenty-four-hour period.

Only persons who have been residents of Mississippi for at least five (5) years shall be eligible to obtain permits for removal of oysters from seed grounds.

The * * * department shall designate certain reefs in the state as * * * state-owned reefs and shall remove oysters from water bottoms which are not of a safe, sanitary quality for oyster production for human consumption and shall transport the oysters to the * * * state-owned reefs.

SECTION 6. Section 49-15-38, Mississippi Code of 1972, is amended as follows:

49-15-38. (1) (a) Unless otherwise permitted by the * * * department, no oysters shall be taken from the reefs of this state unless culled upon the natural reefs, and all oysters less than three (3) inches from end to end, and all dead shells, shall be replaced, scattered and broadcast immediately on the natural reefs from which they are taken. It is unlawful for any captain or person in charge of any vessel, or any canner, packer, commission man, dealer or other person to purchase, sell or to have in that person's possession or under that person's control any oysters off the * * * state-owned reefs or private bedding grounds not culled according to this section, or any oysters under the legal size. A ten percent (10%) tolerance shall be allowed in relation to any culling.

(b) The * * * department may authorize the culling of oysters of a lesser measure. That authorization shall be in response to special circumstances or extreme natural conditions affecting the habitat, including, but not limited to, flooding. The department may establish checkpoints in any area within its jurisdiction to conduct inspections, collect fees and issue tags in the enforcement of this chapter and regulations adopted by the commission.

(2) The *** department shall acquire and replant shells, seed oysters and other materials, when funding is available, for the purpose of growing oysters.

(3) Any person, firm or corporation failing or refusing to pay the shell retention fee required under Section 49-15-46 to the department when called for by the department, is guilty of a misdemeanor and, upon conviction, shall be fined not more than One Hundred Dollars (\$100.00) for each barrel of shells for which they fail or refuse to tender the shell retention fee. In addition to the fine, the violator shall pay the reasonable value of the oyster shells and shall be ineligible to be licensed for any activity set forth in this chapter for a period of two (2) years from the date of conviction.

(4) The planting of oyster shells as provided under this chapter shall be under the direction and supervision of the executive director of the department. ***

SECTION 7. Section 49-15-39, Mississippi Code of 1972, is amended as follows:

49-15-39. (1) It is unlawful for any person to catch or take oysters by means of dredging in any of the waters designated as tonging reefs by the *** department.

(2) The *** department shall designate certain areas as tonging reefs. The *** department shall mark the boundaries of the areas designated by appropriate poles, stakes or buoys of material that will not injure watercraft. The *** department may authorize the taking of oysters on reefs designated as tonging reefs by dredge, drag or scoop if the *** department finds that the dredging, dragging or scooping is necessary to manage the resource properly. Any dredging, dragging or scooping authorized under this section shall be for a specific time period as provided by the *** department.

(3) Unless otherwise authorized under this section, any boat or vessel which catches or takes oysters by means of dredges, drags or scoops, other than hand tongs, from any of the areas described in this section, or with a dredge or dredges in the water, shall have all oysters on board the boat or vessel declared to be contraband. The oysters shall be taken and confiscated by the department or any marine law enforcement officer without court procedure. The captain and crew of the boat or vessel, promptly upon being ordered so to do, shall transport the oysters to a point on the *** state-owned reefs where the boat or vessel is found and there scatter the oysters according to the instructions of the enforcement officers.

(4) A violation of this section is punishable by a fine of Five Hundred Dollars (\$500.00). For a second offense when the offense is committed within a period of three (3) years from the first offense, the violation is punishable by a fine of One Thousand Dollars (\$1,000.00). For a third or subsequent offense when the offense is committed within a period of three (3) years from the first offense, the violation is punishable by a fine of Two Thousand Dollars (\$2,000.00).

(5) In addition, upon conviction of a third or subsequent offense within three (3) years of the first offense, it shall be the duty of the court to revoke the license of the convicted party and of the vessel used in the offense, and no license shall be issued to that person or for the vessel to engage in the catching or taking of any seafood from the waters of this state for a period of one (1) year following the conviction.

(6) The fine imposed under this section shall not be suspended or reduced.

SECTION 8. Section 49-15-40, Mississippi Code of 1972, is amended as follows:

49-15-40. (1) The *** department may support projects in the nature of digging or constructing canals or ditches to bring additional water to existing oyster reefs or beds in need of that water, or for the purpose of creating or establishing new oyster reefs or beds. *** The *** department may expend any monies as it deems necessary and expedient to participate in the digging of those canals. The *** department may also

enter into interstate or intrastate efforts to support these projects and may seek and utilize aid from all federal, state and local sources in this endeavor. * * *

(2) The * * * department may construct, operate and maintain onshore, molluscan facilities using any federal or special funds, other than general funds, for the purpose of testing and proving technology relating to oysters and other shellfish. In connection with the construction, operation and maintenance of the facilities, the * * * department may contract with any persons it deems necessary for the operation, testing, maintenance and evaluation of the facilities, subject to the approval of the State Personnel Board. The * * * department may locate the facilities on any available public properties, subject to the approval of the governing body of that jurisdiction and all other applicable state laws. Once the technology has been tested and proven, the * * * department may conduct any other tests and experiments with oysters or other shellfish as may be necessary to enhance production or quality of shellfish.

Before tagging and unloading, the oysters must be sacked or packaged in containers or by other methods approved by the department. However, a person is exempt from the unloading requirement if he is transporting the oysters to a state that has a reciprocity agreement with Mississippi exempting Mississippi residents from the unloading requirements of that state.

(2) The driver of any vehicle used in the transporting of oysters in the shell from outside the territorial limits of the State of Mississippi, whether the vehicle is a boat or motor vehicle, shall possess an invoice, statement or other bill of lading which bears the name of the person, firm or corporation from whom the oysters were purchased, the name of the purchaser and the number of barrels or bushels of oysters which the vehicle or vessel contains.

49-15-43. Oysters for sale either wholesale or retail may be packaged in glass jars covered with a screw-type top or lid of the type customarily and heretofore used in the seafood industry in the State of Mississippi, but this section shall automatically be repealed if and when such type packaging becomes prohibited by any agency of the United States Government for shipment in interstate commerce.

SECTION 12. Section 49-15-44, Mississippi Code of 1972, is amended as follows:

49-15-44. The * * * department shall prohibit the sale or possession of illegal oysters. SECTION 13. Section 49-15-45, Mississippi Code of 1972, is amended as follows:

49-15-45. (1) Any municipality bounded by the Gulf of Mexico or Mississippi Sound, which has wholly or partly within its corporate limits, or in the waters adjacent thereto, a public oyster reef reserved for catching oysters exclusively by use of hand tongs, is hereby authorized to aid and cooperate with the * * * department in enforcing all laws regulating the catching, taking and transporting of oysters, including all of the provisions of this chapter, and all regulations and ordinances of such * * * department relating to such oyster reefs.

(7) During open seasons, oysters may be taken only by hands, tongs and dredges.

The first twelve (12) months of employment for each school attendance officer shall be the probationary period of state service.

(2) (a) The State Department of Education shall obtain current criminal records background checks and current child abuse registry checks on all persons applying for the position of school attendance officer after July 2, 2002. The criminal records information and registry checks must be kept on file for any new hires. In order to determine an applicant's suitability for employment as a school attendance officer, the

applicant must be fingerprinted. If no disqualifying record is identified at the state level, the Department of Public Safety shall forward the fingerprints to the Federal Bureau of Investigation (FBI) for a national criminal history record check. The applicant shall pay the fee, not to exceed Fifty Dollars (\$50.00), for the fingerprinting and criminal records background check; however, the State Department of Education, in its discretion, may pay the fee for the fingerprinting and criminal records background check on behalf of any applicant. Under no circumstances may a member of the State Board of Education, employee of the State Department of Education or any person other than the subject of the criminal records background check disseminate information received through any such checks except insofar as required to fulfill the purposes of this subsection.

(b) If the fingerprinting or criminal records check discloses a felony conviction, guilty plea or plea of nolo contendere to a felony of possession or sale of drugs, murder, manslaughter, armed robbery, rape, sexual battery, sex offense listed in Section 45-33-23(h), child abuse, arson, grand larceny, burglary, gratification of lust or aggravated assault which has not been reversed on appeal or for which a pardon has not been granted, the applicant is not eligible to be employed as a school attendance officer. Any employment of an applicant pending the results of the fingerprinting and criminal records check is voidable if the new hire receives a disqualifying criminal records check. However, the State Board of Education, in its discretion, may allow an applicant aggrieved by an employment decision under this subsection to appear before the board, or before a hearing officer designated for that purpose, to show mitigating circumstances that may exist and allow the new hire to be employed as a school attendance officer. The State Board of Education may grant waivers for mitigating circumstances, which may include, but are not necessarily limited to: (i) age at which the crime was committed; (ii) circumstances surrounding the crime; (iii) length of time since the conviction and criminal history since the conviction; (iv) work history; (v) current employment and character references; and (vi) other evidence demonstrating the ability of the person to perform the responsibilities of a school attendance officer competently and that the person does not pose a threat to the health or safety of children.

(c) A member of the State Board of Education or employee of the State Department of Education may not be held liable in any employment discrimination suit in which an allegation of discrimination is made regarding an employment decision authorized under this section.

(3) Each school attendance officer shall possess a college degree with a major in a behavioral science or a related field or shall have no less than three (3) years combined actual experience as a school teacher, school administrator, law enforcement officer possessing such degree, and/or social worker; however, these requirements shall not apply to persons employed as school attendance officers before January 1, 1987. School attendance officers also shall satisfy any additional requirements that may be established by the State Personnel Board for the position of school attendance officer.

(g) Contact promptly the home of each compulsory-school-age child in the school district within the officer's jurisdiction who is not enrolled in school or is not in attendance at public school and is without a valid written excuse from school officials; if no valid reason is found for the nonenrollment or absence from the school, the school attendance officer shall give written notice to the parent, guardian or custodian of the requirement for the child's enrollment or attendance;

(h) Collect and maintain information concerning absenteeism, dropouts and other attendance-related problems, as may be required by law or the Office of Compulsory School Attendance Enforcement; and

(i) Perform all other duties relating to compulsory school attendance established by the State Department of Education or district school attendance supervisor, or both.

(5) While engaged in the performance of his duties, each school attendance officer shall carry on his person a badge identifying him as a school attendance officer under the Office of Compulsory School Attendance Enforcement of the State Department of Education and an identification card designed by the State Superintendent of Public Education and issued by the school attendance officer supervisor. Neither the badge nor the identification card shall bear the name of any elected public official.

(7) (a) Each school attendance officer employed by a district attorney on June 30, 1998, who became an employee of the State Department of Education on July 1, 1998, shall be awarded credit for personal leave and major medical leave for his continuous service as a school attendance officer under the district attorney, and if applicable, the youth or family court or a state agency. The credit for personal leave shall be in an amount equal to one-third (1/3) of the maximum personal leave the school attendance officer could have accumulated had he been credited with such leave under Section 25-3-93 during his employment with the district attorney, and if applicable, the youth or family court or a state agency. The credit for major medical leave shall be in an amount equal to one-half (1/2) of the maximum major medical leave the school attendance officer could have accumulated had he been credited with such leave under Section 25-3-95 during his employment with the district attorney, and if applicable, the youth or family court or a state agency. However, if a district attorney who employed a school attendance officer on June 30, 1998, certifies, in writing, to the State Department of Education that the school attendance officer had accumulated, pursuant to a personal leave policy or major medical leave policy lawfully adopted by the district attorney, a number of days of unused personal leave or major medical leave, or both, which is greater than the number of days to which the school attendance officer is entitled under this paragraph, the State Department of Education shall authorize the school attendance officer to retain the actual unused personal leave or major medical leave, or both, certified by the district attorney, subject to the maximum amount of personal leave and major medical leave the school attendance officer could have accumulated had he been credited with such leave under Sections 25-3-93 and 25-3-95.

(b) For the purpose of determining the accrual rate for personal leave under Section 25-3-93 and major medical leave under Section 25-3-95, the State Department of Education shall give consideration to all continuous service rendered by a school attendance officer before July 1, 1998, in addition to the service rendered by the school attendance officer as an employee of the department.

(c) In order for a school attendance officer to be awarded credit for personal leave and major medical leave or to retain the actual unused personal leave and major medical leave accumulated by him before July 1, 1998, the district attorney who employed the school attendance officer must certify, in writing, to the State Department of Education the hire date of the school attendance officer. For each school attendance officer employed by the youth or family court or a state agency before being designated an employee of the district attorney who has not had a break in continuous service, the hire date shall be the date that the school attendance officer was hired by the youth or family court or state agency. The department shall prescribe the date by which the certification must be received by the department and shall provide written notice to all district attorneys of the certification requirement and the date by which the certification must be received.

(8) (a) School attendance officers shall maintain regular office hours on a year-round basis; however, during the school term, on those days that teachers in all of the school districts served by a school attendance officer are not required to report to work, the school attendance officer also shall not be required to report to work. (For purposes of this subsection, a school district's school term is that period of time identified as the school term in contracts entered into by the district with licensed personnel.) A school attendance officer shall be required to report to work on any day recognized as an official state holiday if teachers in any school district served by that school attendance officer are required to report to work on that day, regardless of the school attendance officer's status as an employee of the State Department of Education, and compensatory leave may not be awarded to the school attendance officer for working during that day. However, a school attendance officer may be allowed by the school attendance officer's supervisor to use earned leave on such days.

(b) The State Department of Education annually shall designate a period of six (6) consecutive weeks in the summer between school years during which school attendance officers shall not be required to report to work. A school attendance officer

who elects to work at any time during that period may not be awarded compensatory leave for such work and may not opt to be absent from work at any time other than during the six (6) weeks designated by the department unless the school attendance officer uses personal leave or major medical leave accrued under Section 25-3-93 or 25-3-95 for such absence.

(9) The State Department of Education shall provide all continuing education and training courses that school attendance officers are required to complete under state law or rules and regulations of the department.

S. C. R. No. 533: Constitution; amend to revise ballot initiative process.

On motion of Senator Polk, the Committee Substitute was adopted for consideration.

Senators Polk and McCaughn offered the following AMENDMENT NO. 1.

Amend by striking all after the resolving clause and inserting in lieu thereof the following:

That the following amendments to the Mississippi Constitution of 1890 are proposed to the qualified electors of the state:

I.

Amend Section 33, Mississippi Constitution of 1890, to read as follows:

Section 33. (1) The legislative power of this state shall be vested in a Legislature which shall consist of a Senate and a House of Representatives, but the people reserve to themselves the right to exercise the legislative power of the state to propose new laws and to amend or repeal existing laws by initiative, and to approve or reject the same in an election independent of the Legislature, in the manner prescribed in and subject to the provisions of this section.

(2) An initiative may be proposed by a petition signed over a twelve-month period by qualified electors equal to at least twelve-percent (12%) of the total qualified electors of the state as of the date of the last presidential election. The signatures of the qualified electors from any congressional district shall not exceed the total number of signatures required to qualify an initiative measure for placement on the ballot divided by the number of congressional districts in existence on the day that the petition is filed. If an initiative petition contains signatures from a single congressional district that exceed the total number of required signatures, the excess signatures from that congressional district shall not be considered by the Secretary of State in determining whether the initiative measure qualifies for placement on the ballot.

(3) The sponsor of an initiative shall identify in the text of the initiative the amount and source of revenue required to implement the initiative. If the initiative requires a reduction in any source of government revenue, or a reallocation of funding from currently funded programs, the sponsor shall identify in the text of the initiative the program or programs whose funding must be reduced or eliminated to implement the initiative.

(4) The initiative process shall not be used:

(a) For the proposal, modification or repeal of any portion of this Constitution;

(b) To amend or repeal any law relating to the Mississippi Public Employees' Retirement System;

(c) To amend or repeal the constitutional guarantee that the right of any person to work shall not be denied or abridged on account of membership or nonmembership in any labor union or organization; or

(d) To propose, amend or repeal any local or special law.

(5) (a) The Secretary of State shall file with the Clerk of the House and the Secretary of the Senate the complete text of the certified initiative on the first day of the regular session. An initiative may be adopted or adopted as amended by a majority vote of each house of the Legislature. If the initiative is adopted or adopted as amended by the Legislature, or if no action is taken within four (4) months of the date that the initiative is filed with the Legislature, the Secretary of State shall place the initiative, as adopted or adopted as amended as the case may be, on the ballot for the next statewide general election.

(b) The chief legislative budget officer shall prepare a fiscal analysis of each initiative and each legislative alternative. A summary of each fiscal analysis shall appear on the ballot.

(6) If the Legislature amends an initiative, the amended version and the original initiative shall be submitted to the electors. An initiative or legislative alternative must receive a majority of the votes thereon and not less than forty percent (40%) of the total votes cast at the election at which the measure was submitted to be approved. If conflicting initiatives or legislative alternatives are approved at the same election, the initiative or legislative alternative receiving the highest number of affirmative votes shall prevail.

(7) If an initiative measure proposed to the Legislature has been rejected by the Legislature and an alternative measure is passed by the Legislature in lieu thereof, the ballot titles of both such measures shall be so printed on the official ballots that a voter can express separately two (2) preferences: First, by voting for the approval of either measure or against both measures, and secondly, by voting for one (1) measure or the other measure. If the majority of those voting on the first issue is against both measures, then both measures fail, but in that case the votes on the second issue nevertheless shall be carefully counted and made public. If a majority voting on the first issue is for the approval of either measure, then the measure receiving a majority of the votes on the second issue and also receiving not less than forty percent (40%) of the total votes cast at the election at which the initiative was submitted for approval shall be law. Any person who votes for the ratification of either measure on the first issue must vote for one (1) of the measures on the second issue in order for the ballot to be valid. Any person who votes against both measures on the first issue may vote but shall not be required to vote for any of the measures on the second issue in order for the ballot to be valid. Substantially the following form shall be in compliance with this subsection:

INITIATED BY PETITION AND ALTERNATIVE BY LEGISLATURE

Initiative Measure No. _____, entitled (here insert the ballot title of the initiative measure).

Alternative Measure No. _____ A, entitled (here insert the ballot title of the alternative measure).

VOTE FOR APPROVAL OF EITHER, OR AGAINST BOTH:

FOR APPROVAL OF EITHER Initiative No. ____

OR Alternative No. ____ A() AGAINST Both Initiative No. ____

AND Alternative No. ____ A()

AND VOTE FOR ONE

FOR Initiative Measure No. ____ () FOR Alternative Measure No. ____ A ()

(8) No more than five (5) initiative proposals shall be submitted to the votes on a single ballot, and the first five (5) initiative proposals submitted to the Secretary of State with sufficient petitions shall be the proposals which are submitted to the voters. The sufficiency of petitions shall be decided in the first instance by the Secretary of State, subject to review by the Supreme Court of the state, which shall have original and exclusive jurisdiction over all such cases.

(9) An initiative approved by the electors shall take effect thirty (30) days from the official declaration of the vote by the Secretary of State, unless the measure provides otherwise.

(10) The Legislature shall provide by law the manner in which initiative petitions shall be circulated, presented and certified. To prevent signature fraud and to maintain the integrity of the initiative process the state has a compelling interest in ensuring that no person shall circulate an initiative petition or obtain signatures on an initiative petition unless the person is a resident of this state at the time of circulation. For the purposes of this subsection, the term "resident" means a person who is domiciled in Mississippi as evidenced by an intent to maintain a principal dwelling place in Mississippi indefinitely and to return to Mississippi if temporarily absent, coupled with an act or acts consistent with that intent. Every person who circulates an initiative petition shall print and sign his name on each page of an initiative petition, or on a separate page attached to each page, certifying that he was a resident of this state at the time of circulating the petition. The Secretary of State shall refuse to accept for filing any page of an initiative petition upon which the signatures appearing thereon were obtained by a person who was not a resident of this state at the time of circulating the petition, and an initiative measure shall not be placed on the ballot if the Secretary of State determines that without such signatures the petition clearly bears an insufficient number of signatures. The provisions of this subsection (10) shall be applicable to all initiative measures that have not been placed on the ballot at the time this proposed amendment is ratified by the electorate.

(11) The Legislature may enact laws to carry out the provisions of this section but shall in no way restrict or impair the provisions of this section or the powers herein reserved to the people.

II.

Amend Section 56, Mississippi Constitution of 1890, to read as follows:

Section 56. The style of the laws of the state that are enacted by the Legislature shall be: "Be it enacted by the Legislature of the State of Mississippi."

III.

Amend Section 61, Mississippi Constitution of 1890, to read as follows:

Section 61. No law enacted by the Legislature or by initiative of the people shall be revived or amended by reference to its title only, but the section or sections, as amended or revived, shall be inserted at length.

IV.

Amend Section 72, Mississippi Constitution of 1890, to read as follows:

Section 72. Every Bill which shall pass both Houses shall be presented to the Governor of the state. If he approve, he shall sign it; but if he does not approve, he shall return it, with his objections, to the House in which it originated, which shall enter the objections at large upon its Journal, and proceed to reconsider it. If after such reconsideration two-thirds (2/3) of that House shall agree to pass the Bill, it shall be sent, with the objections, to the other House, by which, likewise, it shall be reconsidered; and if approved by two-thirds (2/3) of that House, it shall become a law; but in all such cases the votes of both Houses shall be determined by yeas and nays, and the names of the persons voting for and against the Bill shall be entered on the Journal of each House respectively. If any Bill shall not be returned by the Governor within five (5) days (Sundays excepted) after it has been presented to him, it shall become a law in like manner as if he had signed it, unless the Legislature, by adjournment, prevented its return, in which case such Bill shall be a law unless the Governor shall veto it within fifteen (15) days (Sundays excepted) after it is presented to him, and such Bill shall be returned to the Legislature, with his objections, within three (3) days after the beginning of the next session of the Legislature. The provisions of this section are not applicable to initiative measures approved by the people.

BE IT FURTHER RESOLVED, That these proposed amendments shall be submitted by the Secretary of State to the qualified electors at an election to be held on the first Tuesday after the first Monday of November 2023, as provided by Section 273 of the Constitution and by general law, with the proposed amendments in this resolution being voted on as one (1) amendment.

BE IT FURTHER RESOLVED, That the explanation of this proposed amendment for the ballot shall read as follows: "This proposed constitutional amendment provides that amendments to the Mississippi Constitution may only be proposed by the Legislature, but that the people reserve to themselves the right to exercise the legislative power of the state to propose new laws and to amend or repeal existing laws by initiative, and to approve or reject the same in an election independent of the Legislature."

BE IT FURTHER RESOLVED, That this resolution shall take effect on July 1, 2023, and shall stand repealed on June 30, 2023.

Further, amend by striking the title in its entirety and inserting in lieu thereof the following:

A CONCURRENT RESOLUTION PROPOSING AMENDMENTS TO SECTIONS 33, 273, 56, 61 AND 72, MISSISSIPPI CONSTITUTION OF 1890, TO PROVIDE THAT AMENDMENTS TO THE MISSISSIPPI CONSTITUTION MAY ONLY BE PROPOSED BY THE LEGISLATURE, BUT THAT THE PEOPLE RESERVE TO THEMSELVES THE RIGHT TO EXERCISE THE LEGISLATIVE POWER OF THE STATE TO PROPOSE NEW LAWS AND TO AMEND OR REPEAL EXISTING LAWS BY INITIATIVE, AND TO

73-7-23. (1) The board may, upon application, issue a license by reciprocity to any cosmetologist, esthetician or manicurist over the age of * * * sixteen (16) years from any other state who has satisfactorily completed the required number of accredited hours in that state, provided the State Board from which the applicant comes issues to cosmetologists, barbers, estheticians or manicurists, as the case may be, from the State of Mississippi a license under the same conditions and the other state has entered into a written reciprocal agreement between participating states. Applications must be accompanied by (a) proof satisfactory to the board that the required hours have been completed, and (b) the required reciprocity fee, which shall be paid to the board.

(2) An instructor from any other state may be qualified for a Mississippi instructor's license upon presenting a valid instructor's license and proof of a high school education or its equivalent, provided that the instructor (a) is not less than twenty-one (21) years of age, (b) has completed training equivalent to the State of Mississippi's training as provided in Section 73-7-15 or has three (3) years or more of experience as a licensed instructor prior to application, (c) * * * has completed twelve (12) semester hours in college courses approved by the board, and (* * *d) has completed a minimum of five (5) continuing education hours in Mississippi board laws, rules and regulations. Such application must be accompanied by two (2) recent passport photographs of the applicant. Applicants shall pay the required license fee.

(3) An applicant for a Mississippi instructor's license by reciprocity who has not completed the college courses requirement at the time of application may apply for a onetime temporary teaching permit, which shall be valid for six (6) months and shall be nonrenewable. Such application must be accompanied by proof of enrollment in college course(s), required permit fee, two (2) recent passport photographs of the applicant and other documentation as required for application for a Mississippi instructor's license by reciprocity. Upon proof of completion of college courses and payment of the required license fee, a Mississippi instructor's license shall be issued.

(4) The issuance of a license by reciprocity to a military-trained applicant, military spouse or person who establishes residence in this state shall be subject to the provisions of Section 73-50-1 or 73-50-2, as applicable.

SECTION 18. Section 73-7-25, Mississippi Code of 1972, is amended as follows:

73-7-25. Every demonstrator in the field of cosmetology or barbering shall, before making demonstrations in a salon and/or barber business or school, apply for and obtain a permit from the board. For such permit, which shall be for one (1) year, the required fee shall be paid to the board. This section shall be construed to apply to demonstrators in salons and barber businesses and schools.

SECTION 19. Section 73-7-27, Mississippi Code of 1972, is amended as follows:

73-7-27. (1) Any complaint may be filed with the board by a member or agent of the board or by any person charging any licensee of the board with the commission of any of the offenses enumerated in subsection (2) of this section. Such complaint shall be in writing, signed by the accuser or accusers, and verified under oath, and such complaints shall be investigated as set forth in Section 73-7-7. If, after the investigation, the board through its administrative review agents determines that there is not substantial justification to believe that the accused licensee has committed any of the offenses enumerated, it may dismiss the complaint or may prepare a formal complaint proceeding against the licensee as hereinafter provided. When used with reference to any complaint filed against a licensee herein, the term "not substantial justification" means a complaint that is frivolous, groundless in fact or law, or vexatious, as determined by unanimous vote of the board. In the event of a dismissal, the person filing the accusation and the accused licensee shall be given written notice of the board's determination. If the board determines there is reasonable cause to believe the accused has committed any of those offenses, the secretary of the board shall give written notice of such determination to the accused licensee and set a day for a hearing as provided in subsection (3) of this section.

(2) The board shall have the power to revoke, suspend or refuse to issue or renew any license or certificate provided for in this chapter, and to fine, place on probation and/or otherwise discipline a student or licensee or holder of a certificate, upon proof that such person: (a) has not complied with an order, decision or ruling of the board or has violated any of the rules and regulations promulgated by the board; (b)

has not complied with or has violated any of the sections of this chapter; (c) has committed fraud or dishonest conduct in the taking of the examination herein provided for; (d) has been convicted of a felony; (e) has committed grossly unprofessional or dishonest conduct; (f) is addicted to the excessive use of intoxicating liquors or to the use of drugs to such an extent as to render him or her unfit to practice in any of the practices or occupations set forth in this chapter; (g) has advertised by means of knowingly false or deceptive statements; or (h) has failed to display the license or certificate issued to him or her as provided for in this chapter; or (i) has been convicted of violating any of the provisions of this chapter. A conviction of violating any of the provisions of this chapter shall be grounds for automatic suspension of the license or certificate of such person.

(3) (a) The board shall not revoke, suspend or refuse to issue or renew any license or certificate, or fine, place on probation or otherwise discipline any person in a disciplinary matter except after a hearing of which the applicant or licensee or holder of the certificate affected shall be given at least twenty (20) days' notice in writing, specifying the reason or reasons for denying the applicant a license or certificate of registration, or in the case of any other disciplinary action, the offense or offenses of which the licensee or holder of a certificate of registration is charged. Such notice may be served by mailing a copy thereof by United States first-class certified mail, postage prepaid, to the last-known residence or business address of such applicant, licensee or holder of a certificate. The hearing on such charges shall be at such time and place as the board may prescribe. The provisions of this paragraph (a) shall not apply to the board's collection of a civil penalty or fine imposed by the board under paragraph (b) of this subsection.

(b) Any civil penalty or fine imposed by the board under this chapter shall become due and payable when the person incurring the penalty receives a notice in writing from the board of the penalty. The notice shall be sent by registered or certified mail. The person to whom the notice is addressed shall have thirty (30) days from the date of mailing of the notice in which to make written application for a hearing. Any person who makes that application shall be entitled to a hearing. The hearing shall be conducted as a contested case hearing. When an order assessing a civil penalty under this section becomes final by operation of law or on appeal, unless the amount of penalty is paid within ten (10) days after the order becomes final, it may be recorded with the circuit clerk in any county of this state. The clerk shall then record the name of the person incurring the penalty and the amount of the penalty in his lien record book.

(4) At such hearings, all witnesses shall be sworn by a member of the board or court reporter, and stenographic notes of the proceedings shall be taken. Any party to the proceedings desiring it shall be furnished with a copy of such stenographic notes upon payment to the board of such fees as it shall prescribe, not exceeding, however, the actual costs of transcription.

(5) The board is hereby authorized and empowered to issue subpoenas for the attendance of witnesses and the production of books and papers. The process issued by the board shall extend to all parts of the state and such process shall be served by any person designated by the board for such service. The person serving such process shall receive such compensation as may be allowed by the board, not to exceed the fee prescribed by law for similar services. All witnesses who shall be subpoenaed, and who shall appear in any proceedings before the board, shall receive the same fees and mileage as allowed by law.

(6) Where in any proceeding before the board any witness shall fail or refuse to attend upon subpoena issued by the board, shall refuse to testify, or shall refuse to produce any books and papers, the production of which is called for by the subpoena, the attendance of such witness and the giving of his testimony and the production of the books and papers shall be enforced by any court of competent jurisdiction of this state, in the same manner as are enforced for the attendance and testimony of witnesses in civil cases in the courts of this state.

(7) The board shall conduct the hearing in an orderly and continuous manner, granting continuances only when the ends of justice may be served. The board shall, within sixty (60) days after conclusion of the hearing, reduce its decision to writing and forward an attested true copy thereof to the last-known residence or business address of

such applicant, licensee or holder of a certificate, by way of United States first-class certified mail, postage prepaid. Such applicant, licensee, holder of a certificate, or person aggrieved shall have the right of appeal from an adverse ruling, or order, or decision of the board to the Chancery Court of the First Judicial District of Hinds County, Mississippi, upon forwarding notice of appeal to the board within thirty (30) days after the decision of the board is mailed in the manner here contemplated. An appeal will not be allowed in the event notice of appeal, together with the appeal bond hereinafter required, shall not have been forwarded to the board within the thirty-day period. Appeal shall be to the Chancery Court of the First Judicial District of Hinds County, Mississippi. The appeal shall thereupon be heard in due course by the court which shall review the record and make its determination thereon.

(8) The appellant shall, together with the notice of appeal, * * * first pay the costs for the transcription of the record of the hearing(s) and proceeding(s) before the board in which the adverse ruling, order or decision of the board was made.

(9) In the event of an appeal, the court shall dispose of the appeal and enter its decision promptly. The hearing on the appeal may, in the discretion of the chancellor, be tried in vacation. If there is an appeal, such appeal may, in the discretion of and on motion to the chancery court, act as a supersedeas. However, any fine imposed by the board under the provisions of this chapter shall not take effect until after the time for appeal has expired, and an appeal of the imposition of such a fine shall act as a supersedeas.

(10) Any fine imposed by the board upon a licensee or holder of a certificate shall be in accordance with the following * * * class designation of fines:

(a) * * * Class A. Class A violations shall be set at no less than Five Hundred Dollars (\$500.00) nor more than One Thousand Dollars (\$1,000.00). Class A violations are specific to the following:

(i) Unlicensed practice or the use of fraudulent statements to obtain any benefits or privileges under this chapter or practicing one (1) of the professions without a license. These violations will be handled in accordance with the requirements of Section 73-7-27 or 73-7-37, as applicable; and

(ii) Extremely dangerous to the health and safety of the general public.

(b) Class B. Class B violations shall be set at no less than Two Hundred Fifty Dollars (\$250.00) nor more than Seven Hundred Fifty Dollars (\$750.00). Class B violations are major health and safety concerns that are detrimental to public safety and welfare.

(c) Class C. Class C violations shall be set at no less than One Hundred Dollars (\$100.00) nor more than Five Hundred Dollars (\$500.00). Class C violations are minor health and safety violations that are detrimental to public safety and welfare.

The power and authority of the board to impose such fines under this section shall not be affected or diminished by any other proceeding, civil or criminal, concerning the same violation or violations.

(11) In addition to the reasons specified in subsection (2) of this section, the board shall be authorized to suspend the license of any licensee for being out of compliance with an order for support, as defined in Section 93-11-153. The procedure for suspension of a license for being out of compliance with an order for support, and the procedure for the reissuance or reinstatement of a license suspended for that purpose, and the payment of any fees for the reissuance or reinstatement of a license suspended for that purpose, shall be governed by Section 93-11-157 or 93-11-163, as the case may be. Actions taken by the board in suspending a license when required by Section 93-11-157 or 93-11-163 are not actions from which an appeal may be taken under this section. Any appeal of a license suspension that is required by Section 93-11-157 or 93-11-163 shall be taken in accordance with the appeal procedure specified in Section 93-11-157 or 93-11-163, as the case may be, rather than the procedure specified in this section. If there is any conflict between any provision of Section 93-11-157 or 93-11-163 and any provision of this chapter, the provisions of Section 93-11-157 or 93-11-163, as the case may be, shall control.

The board is fully authorized to make refunds of any deposits received by the board for services which are not rendered. Refunds will automatically be made on overpayment of fees. Refunds will be made on underpayments by written requests from applicants. If no request for refund is made within sixty (60) days, the fees will be forfeited.

SECTION 21. Section 73-7-33, Mississippi Code of 1972, is amended as follows:

73-7-33. In addition to the rules and regulations that may be prescribed and promulgated by the board under authority of this chapter, the following rules and regulations shall be observed:

Every establishment must be kept sanitary, including all utensils and equipment, must be well ventilated and properly lighted. Each salon and/or barber business must be provided with hot and cold running water. Electrical appliances must be properly installed and grounded.

Cosmetologists shall be allowed to wear any type of clothing or apparel while at work as long as such clothing or apparel is sanitary.

Cosmetologists shall be allowed to use any type of hair roller as long as they do so in a sanitary manner.

Persons with a communicable disease or parasitic infection that is medically recognized to be a direct threat of transmission by the type of contact that practitioners have with clients are not to be permitted to practice in an establishment until their condition is no longer communicable under those circumstances. No work shall be performed on any patron having a visible disease unless the patron shall produce a certificate from a practicing physician stating that the patron is free from infectious, contagious or communicable disease. A cosmetologist's license does not authorize such person to treat or prescribe for an infectious, contagious or any other disease.

A home salon and/or barbering business must have a solid wall to the ceiling with an outside entrance, or if a door exists between the salon and the remainder of the house, the door must be kept closed at all times while service is being rendered.

SECTION 22. Section 73-7-35, Mississippi Code of 1972, is amended as follows:

73-7-35. (1) No person licensed pursuant to this chapter shall practice his or her profession except within the physical confines of a salon and/or barber business possessing and displaying a properly executed license issued pursuant to Section 73-7-17. However, this requirement shall not prevent a person from rendering his or her services to any person who may be confined to his or her home, a hospital, or other place as a result of illness, and cosmetologists and barbers shall be permitted to render their services to deceased persons away from their salons and/or barber business.

(2) No salon and/or barber business owner licensed pursuant to this chapter shall allow a cosmetologist, barber, esthetician, or manicurist to practice his/her profession in the salon and/or barber business without possessing a valid license issued pursuant to this chapter.

SECTION 23. Section 73-7-37, Mississippi Code of 1972, is amended as follows:

73-7-37. (1) The violation of any of the provisions of this chapter, including the use of fraudulent statements to obtain any benefits or privileges under this chapter or practicing one (1) of these professions without a license, shall constitute a misdemeanor, punishable in any court of competent jurisdiction at the seat of government, and any person or firm convicted of the violation of any of the provisions of this chapter shall be fined not less than * * * Five Hundred Dollars (\$500.00) nor more than One Thousand Dollars (\$1,000.00). The court shall not be authorized to suspend or suspend the execution of the fine required under this section.

(2) If any person, * * * salon, school or other type of business entity engaged in the practice or teaching of the provisions governed by this chapter violates any of the provisions of this chapter, the secretary of the board, upon direction of a majority of the board and in the name of the board, acting through the Attorney General or an attorney employed by the board, shall apply in the Chancery Court of the * * * county in which the person or licensee resides or in the county in which the person or licensee practices, or the county in which the salon, school or other type of business entity is located, for an order enjoining such violation or for an order enforcing compliance with the provisions of this chapter. Upon the filing of a verified petition in the chancery court and after notice as provided under the Mississippi Rules of Civil Procedure, such court, if satisfied by the sworn petition, by affidavit or otherwise, that such person or entity has violated any of the provisions of this chapter, may issue an injunction without notice or bond, enjoining such continued violation and such injunction shall remain in force and effect until a final hearing. If at such hearing it is established that such person or entity has violated or is violating any of the provisions of this chapter, the court may enter a decree permanently enjoining such violation or enforcing compliance with this chapter. In addition, the court may enter a judgment against such person or entity for attorney's fees, court costs and the actual costs incurred by the board in investigating the actions of such person or entity for which the board brought the suit for an injunction. In case of violation of any decree issued in compliance with this subsection, the court may punish the offender for contempt of court and the court shall proceed as in other cases.

(3) The proceedings in this section shall be in addition to and not in lieu of the other remedies and penalties provided in this chapter.

SECTION 24. Section 73-5-8, Mississippi Code of 1972, is amended as follows:

73-5-8. Any person is qualified to receive a certificate of registration as a barber instructor who:

Such education shall be acquired in classes or trade show teaching materials that are approved by the board. Any instructor who fails to obtain the continuing education required by this subsection shall not be allowed to instruct nor enroll students under his or her license until such education requirement have been met. The board may issue an inactive instructor's license to such instructors, and an inactive license may be converted into an active license after proof satisfactory to the board of completion of at least twenty four (24) hours of approved continuing education required for teacher training instruction.

All persons who have received a certificate of registration as a barber instructor from the board before July 1, 2002, shall be considered to have met the requirements of this section, and all those certificates of registration shall be renewable as otherwise provided in this chapter.

The board will implement an active and inactive instructor license. In order to renew an active license, instructors holding an active license shall be required to submit proof of twelve (12) hours of continuing education each year to the Board of Barber Examiners. That education shall be acquired in classes or trade shows teaching materials that are approved by the board. Instructors holding an inactive license shall be required to submit proof of twelve (12) hours continuing education before upgrading to an active status.

41-59-5. (1) The State Board of Health shall establish and maintain a program for the improvement and regulation of emergency medical services (hereinafter EMS) in the State of Mississippi. The responsibility for implementation and conduct of this program shall be vested in the State Health Officer of the State Board of Health along with such other officers and boards as may be specified by law or regulation.

(2) The board shall provide for the regulation and licensing of public and private ambulance service, inspection and issuance of permits for ambulance vehicles, training and certification of EMS personnel, including drivers and attendants, the development and maintenance of a statewide EMS records program, development and adoption of EMS regulations, the coordination of an EMS communications system, and other related EMS activities.

(3) The board is authorized to promulgate and enforce such rules, regulations and minimum standards as needed to carry out the provisions of this chapter.

(4) The board is authorized to receive any funds appropriated to the board from the Emergency Medical Services Operating Fund created in Section 41-59-61 and is further authorized, with the Emergency Medical Services Advisory Council acting in an advisory capacity, to administer the disbursement of such funds to the counties, municipalities and organized emergency medical service districts and the utilization of such funds by the same, as provided in Section 41-59-61.

(5) The department acting as the lead agency, in consultation with and having solicited advice from the EMS Advisory Council, shall develop a uniform nonfragmented inclusive statewide trauma care system that provides excellent patient care. It is the intent of the Legislature that the purpose of this system is to reduce death and disability resulting from traumatic injury, and in order to accomplish this goal it is necessary to assign additional responsibilities to the department. The department is assigned the responsibility for creating, implementing and managing the statewide trauma care system. The department shall be designated as the lead agency for trauma care systems development. The department shall develop and administer trauma regulations that

include, but are not limited to, the Mississippi Trauma Care System Plan, trauma system standards, trauma center designations, field triage, interfacility trauma transfer, EMS aero medical transportation, trauma data collection, trauma care system evaluation and management of state trauma systems funding. The fees paid under this provision shall be for the exclusive benefit of the statewide trauma care system and shall not lapse into the State General Fund. The department shall promulgate rules and regulations necessary to effectuate this provision by September 1, 2008, with an implementation date of September 1, 2008. The department shall take the necessary steps to develop, adopt and implement the Mississippi Trauma Care System Plan and all associated trauma care system regulations necessary to implement the Mississippi Trauma Care System. The department shall cause the implementation of both professional and lay trauma education programs. These trauma educational programs shall include both clinical trauma education and injury prevention. (7) In addition to the trauma-related duties provided for in this section, the Board of Health shall develop a plan for the delivery of services to Mississippi burn victims through the existing trauma care system of hospitals. Such plan shall be operational by July 1, 2005, and shall include:

SECTION 1. Section 19-5-22, Mississippi Code of 1972, is amended as follows:

19-5-22. (1) Fees for garbage or rubbish collection or disposal shall be assessed jointly and severally against the generator of the garbage or rubbish and against the owner of the property furnished the service. In addition to such fees, an additional amount not to exceed up to One Dollar (\$1.00) or ten percent (10%) per month, whichever is greater, on the current monthly bill may be assessed on the balance of any delinquent monthly fees. Any person who pays, as a part of a rental or lease agreement, an amount for garbage or rubbish collection or disposal services shall not be held liable upon the failure of the property owner to pay those fees.

(2) (a) Every generator assessed the fees authorized by Section 19-5-21 and the owner of the property occupied by that generator shall be jointly and severally liable for the fees.

(b) Subject to subsection (6) of this section, the fees shall be a lien upon the real property offered garbage or rubbish collection or disposal service.

(c) (i) The board of supervisors may assess the fees annually. If the fees are assessed annually, the fees for each calendar year shall be a lien upon the real property beginning on January 1 of the next immediately succeeding calendar year subject to subsection (6) of this section. The person or entity owing the fees, upon signing a form provided by the board of supervisors, may pay the fees in equal installments.

(ii) If fees are assessed on a basis other than annually, the fees shall become a lien upon the real property offered the service on the date that the fees become due and payable subject to subsection (6) of this section.

No real or personal property shall be sold to satisfy any lien imposed under this subsection (2).

(d) The county shall mail a notice of the lien, including the amount of unpaid fees and a description of the property subject to the lien, to the owner of the property.

(3) Liens created under subsection (2) may be discharged by filing with the * * * chancery clerk a receipt or acknowledgement, signed by the designated county official or billing and collection entity, that the lien has been paid or discharged.

(4) (a) The board of supervisors may notify the tax collector of any unpaid fees assessed under Section 19-5-21 within ninety (90) days after the fees are due. Before notifying the tax collector, the board of supervisors shall provide notice of the delinquency to the person who owes the delinquent fees and shall afford an opportunity for a hearing, that complies with the due process protections the board deems necessary, consistent with the Constitutions of the United States and the State of Mississippi. The board of supervisors shall establish procedures for the manner in which notice shall be given and the contents of the notice; however, each notice shall include the amount of fees and shall prescribe the procedure required for payment of the delinquent fees. The board of supervisors may designate a disinterested individual to serve as hearing officer. The board of supervisors shall continue to update the delinquency notice to the tax collector at least once per quarter of each year.

(b) Upon receipt of a delinquency notice, the tax collector shall not issue or renew a motor vehicle road and bridge privilege license for any motor vehicle owned by a person who is delinquent in the payment of fees unless those fees in addition to any other taxes or fees assessed against the motor vehicle are paid. A person who did not generate the garbage or own the property furnished the service at the time that the garbage was generated shall not be considered delinquent for any fees under this section. Payment of all delinquent garbage fees shall be deemed a condition of receiving a motor vehicle road and privilege license tag.

(c) The tax collector may forward the motor vehicle road and privilege license tag renewal notices to the designated county official or entity that is responsible for the billing and collection of the county garbage fees. The designated county official or the billing and collection entity shall identify those license tags that shall not be issued due to delinquent garbage fees. The designated county official or the billing and collection entity shall stamp a message on the license tag renewal notices that the tag will not be renewed until delinquent garbage fees are paid. The designated county official or the billing and collection entity shall return the license tag notices to the tax collector before the first of the month.

(d) Any appeal from a decision of the board of supervisors under this section regarding payment of delinquent garbage fees may be taken as provided in Section 11-51-75.

(5) The board of supervisors may levy the garbage fees as a special assessment against the property in lieu of the lien authorized in this section. The board of supervisors shall certify to the tax collector the assessment due from the owner of the property. The tax collector shall enter the assessment upon the annual tax roll of the county and shall collect the assessment at the same time he collects the county ad valorem taxes on the property.

No real or personal property shall be sold to satisfy any assessment imposed under this subsection (5).

(6) Liens created under this statute shall be contained in the chancery clerk's office in a separate hard copy book format and/or a digital format and shall include all information necessary for the recording and indexing therein. The registry created herein shall be created on or before January 1, 2024.
